Chapter 1181: Chapter 1178: Rankings_1 Chapter 1181: Chapter 1178: Rankings_1 Thinking of going to Taqing Peak, Yang Chen planned to find Wang Tong. Unexpectedly, Wang Tong came to his residence before he could find him.

This left Yang Chen puzzled and he laughed heartily, saying, “Elder Wang Tong, I was just about to find you, and yet you came to my residence. What brings you here in such a hurry?”

“Haha, Junior Peak Master, it’s quite a coincidence. It’s like this, the people from the Four Peaks Enforcement Hall reported to me yesterday that your identity issue has been resolved on their side.” Wang Tong said with a light smile.

“Oh? Identity? What identity?” Yang Chen suddenly became confused.

The Four Peaks Enforcement Hall is usually responsible for resolving issues that the Four Peaks cannot solve on their own. In a nutshell, it’s a special organization authorized by He Tan personally.

For example, when disputes arise between the Four Peaks, when one side insists they are right and the other side insists they are right as well, then the final decision would be made by the Four Peaks Enforcement Hall.

Wang Tong hesitated and then said, “Junior Sect Master, don’t you know? This must be related to the ranking of the Four Peaks. The Enforcement Hall has learned of your previous achievements

and made an exception to grant you the second place in the ranking of the Four Peaks. This is your identity plate, which represents your strength!”

At this point, Wang Tong couldn't help but feel a surge of pride swelling within him. Not mentioning anything else, Yang Chen's ability to achieve the second place in the rankings of the Four Peaks also brought honor to Changlin Peak. In the past, Changlin Peak could not even get into the top twenty, let alone achieving second place.

The most important thing is that this second place was given as an exception. Although it might seem like a disgrace to be given a position through exception, it wasn't easy to make the Four Peaks Enforcement Hall do so.

Having said that, Wang Tong pulled out the identity plate.

Upon closer inspection, Yang Chen noticed that the word “two” was carved on the plate, apparently representing the identity of the second-ranked martial artist among the Four Peaks.

After handing the plate to Yang Chen, Wang Tong continued with a puzzled expression, “Junior Peak Master, what achievements did you have before joining the Northern Territory Sect that could make the characters of the Four Peaks Enforcement Hall give you an unusual second place?”

It is well known that the members of the Four Peaks Enforcement Hall are rigid and hard to appease.

Yang Chen hadn't expected the “Second Senior Brother” title mentioned by Lin Hao would actually fall upon him, leaving him both amused and dumbfounded.

“There’s really nothing particularly remarkable about it.” Yang Chen didn’t intend to give a detailed answer.

If Wang Tong knew that Yang Chen had defeated Su Yao, Wei Zheng, and Lin Hao all at once, he wouldn’t find his current second position so abrupt.

Seeing Yang Chen’s indifference, Wang Tong thought Yang Chen was unsatisfied and hastily said, “Junior Peak Master, you can take your time with the first-place matter. The rankings are mostly decided based on the performance during the Four Peaks Competition. This current second place is unavoidable. We can look forward to defeating Su Yao and taking the first place at the next Four Peaks Competition. It’s really annoying that this nasty woman Su Yao holds onto the first place all the time. It leaves us men of the Four Peaks so embarrassed.”

Nowadays, Wang Tong’s relationship with Yang Chen had become much closer, and he spoke more casually than before.

When Wang Tong thought of Changlin Peak potentially having a first-place finisher in the future, he couldn’t help but feel pride. At least, no one would dare to mock him for being from Changlin Peak.

Upon hearing Wang Tong’s words, Yang Chen’s face was filled with helplessness. He didn’t even want to compete for the first place; in fact, he clearly didn’t want to.

“Let’s talk about this matter after the Four Peaks Competition,” Yang Chen said slowly.

“Yes, it’s too early to talk about it now. By the way, Junior Peak Master, you said you wanted to find me for something. What is it?” Wang Tong asked curiously.

“Well, I’m going to Taqing Peak, and I wanted to let Elder Wang Tong know beforehand so that you won’t worry.” Yang Chen said politely.

Wang Tong wasn’t a fool. He knew that Yang Chen was merely informing him of his visit to Taqing Peak so that he could help make arrangements. However, the way Yang Chen put it was very considerate, making it difficult for Wang Tong to decline helping him.

Wang Tong readily agreed, “Junior Peak Master, your visit to Taqing Peak is a big deal. I’ll inform Taqing Peak right away and have them make arrangements for your reception. We must not let Changlin Peak lose its prestige.”

“In that case, I will have to trouble Elder Wang Tong.” Yang Chen bowed slightly.

“It’s a small matter, a small matter!”

Yang Chen’s visit to Taqing Peak was not a trivial matter, but it definitely wasn’t a major event either. After all, he couldn’t just go there empty-handed. Although he might not care about his own prestige, he couldn’t disregard the prestige of Changlin Peak either.

Before leaving, Wang Tong specifically informed Taqing Peak of his visit. Upon hearing Yang Chen’s imminent arrival, Taqing Peak naturally showed due respect and sent people to receive him.

The people who received him were three martial artists in the Early Heavenly Martial Realm, who held the position of Elders in Taqing Peak.

They had been waiting here long before Yang Chen arrived.

When Yang Chen arrived, the three Early Heavenly Martial Realm martial artists were also quite courteous, immediately greeting, “We welcome Junior Peak Master Yang.”

“You seniors are too polite.” Yang Chen repeatedly replied.

The Elders from Taqing Peak politely said, “We have heard that Junior Peak Master Yang is coming to our Taqing Peak, but our preparations were rushed. We hope Junior Peak Master Yang won’t mind!”

“Seniors shouldn’t be like this. I’m here to trouble Taqing Peak. How can I still expect Taqing Peak to do more for me? If so, I would be too ashamed.” Yang Chen said with a smile.

The several Elders, hearing Yang Chen mention his intention, wore bewildered expressions and couldn’t help but ask, “Why has Junior Peak Master Yang come to our Taqing Peak?”

“Ah? I want to borrow your Thundercloud Pool for a while to help me refine my Lightning Movement Technique and break through my own limits in using it,” Yang Chen said.

“So that’s it.” The several Elders didn’t know about Yang Chen possessing the Lightning Movement Technique, and although baffled, they wisely refrained from asking further questions.

With Yang Chen's status, it was only natural for him to be granted access to the Thundercloud Pool for refining his divine power. And with Yang Chen's current status, they dare not to make things difficult for him without orders from their superiors. They said, "Junior Peak Master Yang, please follow us. We will take you to the Thundercloud Pool now."

"Thank you, seniors." Yang Chen got excited thinking about the breakthrough of the Lightning Movement Technique.

He had been stuck at the Fifth Layer of the Lightning Movement Technique for a long time and hadn't made any progress. He hoped the Thundercloud Pool could help him break the limit!

The journey through the vast Taqing Peak took quite some time. Along the way, Yang Chen encountered many disciples from Taqing Peak.

Taqing Peak was different from Yunhu Peak, which mostly had male disciples. The power balance between males and females at Taqing Peak once was almost even, but ever since Su Yao arrived, Taqing Peak had become more inclined towards females, which made male disciples even more cherished there.

Seeing Yang Chen accompanied by several Heavenly Martial Realm Elders, it soon attracted the curious attention of many disciples.

The Supreme Martial King Shocking All Realms

Chapter 1182: Chapter 1179: A Challenge?_1 Chapter 1182: Chapter 1179: A Challenge?_1 "Who is he?"

“He can’t be an ordinary person. With both Elder Fu and Elder Li accompanying him, there’s no way he’d be receiving the treatment of a commoner.”

“I’ve never seen this person at Taqing Peak before...”

Seeing more and more disciples discussing, Elder Fu frowned, fearing that Yang Chen would laugh at them. He waved his hand and scolded, “This young friend is Yang Chen, the Junior Peak Master of Chang Linfeng. Don’t gossip behind his back, go back to your tasks.”

Hearing Elder Fu’s words, the disciples couldn’t help but shrink back, but their whispered discussions intensified.

“This person turns out to be the Young Master of Chang Linfeng.”

“Who is the Junior Peak Master of Chang Linfeng?”

“Don’t you know him? He just took office a few days ago at Chang Linfeng. It’s said that he is a treasure of Chang Linfeng, young and talented, and even our Senior Sister Su Yao was defeated by him. He was directly appointed as second place in the Four Peaks by the Law Enforcement Hall.”

“How is that possible, how could our Senior Sister be defeated by him!”

In the eyes of many people, Su Yao was like a god.

“That’s right, I think this so-called second place in the Four Peaks is just due to his connections.”

“What kind of person is he to be compared with our Senior Sister? He should take a look at his own virtues before comparing himself with her! Don’t compare our Senior Sister with such trash!” Many people couldn’t help but stand up.

Of course, there were also some disciples who did not favor Su Yao, joining the discussion and shouted: “Why can’t our Senior Sister Su Yao be defeated? I think Yang Chen might have really defeated our Senior Sister Su Yao.”

The voices of discussion grew louder and louder, making Elder Fu and Elder Li feel embarrassed. They originally wanted to prevent these people from pointing fingers at Yang Chen, so as not to say that they were not hospitable, but who knew that the discussion would become even more intense after a few words. There were even some verbal attacks, which were extremely impolite.

This made them furious, planning to scold a few words, but Yang Chen gently waved his hand, “Elders, don’t be too bothered about it, let’s go.”

Upon hearing this from Yang Chen, the two elders couldn’t help but feel grateful.

However, before they could sigh in relief, their expressions changed as another voice suddenly appeared from somewhere.

This voice was unfriendly and aimed directly at Yang Chen: “You’re the Yang Chen who got second place in the Four Peaks by connections? Hmph, I was just thinking of finding out who you were, and you came directly to my Taqing Peak. Good timing!”

Yang Chen raised an eyebrow and looked at the speaker. He found that the speaker was a handsome man in his early thirties with a straight figure and a natural air of authority around him.

The aura he emitted was faint but unmistakable; it was a Half-step Heavenly Martial Realm.

Yang Chen was completely unfamiliar with him, but he could almost guess the man’s intentions from his provocative words just now.

Originally, he didn’t want to pay attention to the abusive words from those people, but it seemed that it wouldn’t be so easy to let things go today.

Did everyone think he, Yang Chen, was easy to bully?

“Luo Heng, stop this nonsense!” Elder Fu saw this man and his anger flared, snapping.

“Nonsense? Elder Fu, Elder Li, the two of you aren’t qualified to say that to me.” The man named Luo Heng sneered with disdain.

Elder Fu and Elder Li’s expressions changed drastically. They wanted to get angry, but Luo Heng was right. They really didn’t have the qualifications to give orders to Luo Heng. Their anger just now was simply a reflex.

This made Yang Chen become secretly curious, and more puzzled about Luo Heng's identity. To make elders at the Heavenly Martial Realm level keep their mouths shut, Luo Heng must be extraordinary.

Of course, Yang Chen still remained calm and asked directly, "Who are you?"

"You don't even know our Elder Brother Luo Heng? Elder Brother Luo Heng is ranked sixth in the Four Peaks and second in Taqing Peak. He is a genius." A follower beside Luo Heng scolded.

Elder Fu gritted his teeth and said, "Luo Heng, we are here to receive Young Sect Master Yang today. This matter is related to the etiquette between the two peaks. I hope you will not cause trouble!"

Luo Heng shrugged, "Cause trouble? Am I causing trouble? I'm just saying a few words. Elder Fu, Young Sect Master Yang shouldn't mind such a trivial matter, right?"

"You!" Elder Fu's anger surged.

Yang Chen waved his hand and said, "Elder Fu, since this friend named Luo Heng wants to get to know me, how can I refuse his kindness?"

He could see that Elder Fu and the other elders had no way to deal with Luo Heng. Since this was the case, let him handle it himself. He could see that whether it was this Junior Peak Master position or the Four Peak Rankings, he couldn't avoid showing his true strength, and some things would probably be difficult to settle peacefully.

Others didn't approve of him.

Elder Fu decided not to intervene when he saw Yang Chen say this. After all, he was at Taqing Peak, and he didn't want to provoke the disciples ranked within the Four Peaks.

As for those in the early Heavenly Martial Realm like them, they really couldn't provoke the elite characters among the top ten of the Four Peaks Ranking.

Yang Chen was different, though. He didn't care about this so-called Four Peaks Ranking. He raised an eyebrow and said, "I thought I was the first in Taqing Peak, but it turns out I'm only second."

Yang Chen's words seemed to strike a nerve in Luo Heng, and his anger surged. "Hmph, my second place is earned through real ability, not like some people who rely on connections to get ahead. Hehe, Yang Chen, you should know better than me how much your second place is worth!"

He originally had no opinion about Yang Chen, but now that Yang Chen had taken the second place, he had a problem. The original second place disciple died, and those ranked third and after moved up one by one. He was about to enter the top five.

Entering the top-five meant more privileges, why wouldn't he be happy? But who would have thought that when he chased after the top five, the second place was taken by Yang Chen, and the dream of reaching the top five was shattered in an instant.

How could he not be angry?

He didn't think Yang Chen was powerful. He had originally wanted to find trouble with Yang Chen, but who would have thought that Yang Chen would come to his doorstep instead.

"My second place ranking..." Yang Chen's mouth curled into a smile.

That's true, Luo Heng didn't seem to follow the Northern Territory Sect team to the Western 42 Regions as reinforcements, so it was normal for him not to know Yang Chen.

He said directly, "Luo Heng, I have a question for you. Why didn't you go to the Western 42 Regions as reinforcements when the Northern Territory Sect went there?"

Luo Heng was a bit taken aback by Yang Chen's question.

He stuttered for a while before he said angrily, "I was in seclusion at the time. When I left seclusion, the Northern Territory Sect team had already set off!"

Hearing this, Yang Chen had a better understanding of Luo Heng's character.

Chapter 1183 - 1183 1180 The Moment of Victory and Defeat_1

Chapter 1183: Chapter 1180: The Moment of Victory and Defeat!_1 Chapter 1183: Chapter 1180: The Moment of Victory and Defeat!_1 What a bullshit excuse to close off, Luo Heng clearly doesn't have the guts to go.

He didn't know that his guess was pretty much accurate. When Luo Heng heard the news about going to the battlefield to aid the Western 42 Regions and the possibility of facing life-threatening danger, he immediately refused using the excuse of closing off.

Are you kidding me? Whether the Western 42 Regions live or die has nothing to do with him. Going to the frontlines and risking his life? No way.

Now that he knows what kind of person Luo Heng is, Yang Chen is too lazy to say anything more to Luo Heng. He bluntly said, "If that's the case, then we have nothing to say to each other, Luo Heng. I think what you want more from the bottom of your heart is that as long as you defeat me, you will jump directly from the sixth place to the second place, right?"

Luo Heng's eyes widened, not knowing how Yang Chen could know his thoughts. He was momentarily speechless. A moment later, he didn't bother to hide it anymore and bluntly said, "Hmph, I do want to see just how valuable your second place truly is."

"If that's the case, why waste so much time talking? I'm standing here right now, why don't you just challenge me directly?" Yang Chen said slowly.

When these words were spoken, everyone on the side was dumbfounded.

They all thought that Luo Heng was provocative enough, but who knew that Yang Chen would be even crazier, directly saying, "Come on and challenge me."

These words were really in line with Yang Chen's domineering attitude as the second-place holder.

Elder Fu and others became anxious and said, "Young Sect Master Yang, what are you doing...?"

"It's nothing, just a friendly competition between friends. Don't worry, if anything happens, it has nothing to do with the seniors." Yang Chen said.

When Elder Fu and the others heard that they were not responsible, they immediately stopped meddling. They still wanted to see what kind of person Yang Chen was, being able to sit in the second place among the Four Peaks.

Anyone who was provoked by Yang Chen would not be able to calm down, let alone Luo Heng, who was already planning to cause trouble.

At this moment, Luo Heng was first angry and then overjoyed. After hearing Yang Chen's words, his first reaction was, "Are you really going to agree to my challenge?"

In the Northern Territory Sect, there is a rule regarding the ranking of the Four Peaks, which is to have private fights.

For example, right now, Luo Heng as the sixth-place holder is challenging Yang Chen in front of many people. If Yang Chen loses, everyone will see it, and his second-place position will naturally be threatened and be replaced by Luo Heng.

However, most disciples don't choose to do so because those with high rankings simply don't agree to it. If they easily agreed, there would be challenges and fights in the Northern Territory Sect every day, and it would definitely become chaotic.

Therefore, each reshuffle is done through the Four Peaks Grand Competition, and only a small part of the fights between the two sides will result in a slight reshuffle.

Yang Chen calmly said, "If you dare to challenge me, why wouldn't I agree?"

"Good!" Luo Heng's eyes shone, and he was waiting for these words.

Yang Chen dares to agree?

He laughed loudly, "Yang Chen, I'll challenge you today. Do you dare to accept?"

"I accept!" Yang Chen replied cheerfully.

When the conversation ended, the whole scene boiled over. Many disciples gathered around, and more and more onlookers came. Seeing the foreign disciples from Changlin Peak actually fighting with the genius who ranked second in their Taqing Peak, who wouldn't be more curious about who would win and who would lose?

However, in comparison, this was after all the territory of Taqing Peak, so there were more people supporting Luo Heng. In just a short time, the cheering for Luo Heng was thunderous and spread in all directions, while Yang Chen's side had only a small part of the supportive voices.

These supportive voices were from the disciples who had been to the battlefield and knew Yang Chen's strength and only then supported him.

Luo Heng was getting more and more excited. Thinking about being promoted to second place before the Four Peaks Grand Competition after defeating Yang Chen made him feel so happy that he wanted to jump up.

He pointed at Yang Chen and sneered, "Yang Chen, I'll make you realize that fighting with me today is the most foolish choice you've ever made in your life. Since you got this position by relying on relationships, you should just behave yourself. If you want face, things may escalate."

Yang Chen shrugged lazily, "Are you done talking? If you want to talk for half an hour or an hour, I don't think I have the time to accompany you! I have more important things to do at Taqing Peak!"

"You!" Luo Heng twisted his neck, just about to get angry, and then thinking that Yang Chen was just a lamb waiting to be slaughtered, he immediately sneered, "Fine, since you want to make a fool of yourself, I'll fulfill your wish. Everyone, make way!"

No one among the onlookers dared to go against Luo Heng's wishes and quickly made a way. In the blink of an eye, a small battlefield was formed.

Yang Chen had a nonchalant look, and his contempt made Luo Heng even more eager to teach Yang Chen a lesson.

He let out a low roar and didn't waste any more words. He immediately summoned crackling thunder and lightning and charged toward Yang Chen.

"Seventh Level of Thunder Movement Technique!" Luo Heng roared, and his figure moved at an extremely fast speed toward Yang Chen.

This speed was not slow at all. If it were someone else, it would be difficult to defend. But Luo Heng didn't know that Yang Chen had already witnessed an even faster Thunder Movement Technique.

Luo Heng's Thunder Movement Technique was still a level below Su Yao's. Trying to threaten him with this speed was still too early.

Yang Chen casually waved his hand, and the triple flames enveloped him. As soon as Luo Heng tried to attack him, faced with the triple flames, he immediately retracted his hand.

"What is this thing!" Luo Heng quickly retreated using the Thunder Movement Technique, not daring to get close to Yang Chen easily. He smelled a very dangerous scent from Yang Chen's triple flames. His intuition told him that this was not a power he could resist.

But how could he admit that?

In his eyes, Yang Chen was just someone who relied on relationships to get into position.

What he didn't know was that Yang Chen didn't care about him at all. If at first, Yang Chen considered Luo Heng a worthy opponent, he became utterly disappointed in Luo Heng after seeing Luo Heng's response as to why he didn't go to the battlefield.

Yang Chen most hated those who couldn't be found when it was time to fight but jumped out the fastest when it came to dividing benefits in private.

So, he didn't mind using Luo Heng as a stepping stone and taking this opportunity to establish his authority.

If he wanted to establish authority, he had to be decisive!

Yang Chen didn't give Luo Heng any chance at all. As soon as the triple flames appeared, they directly rushed towards Luo Heng.

Luo Heng saw the triple flames coming at him and was so scared that he retreated quickly. He was chased by the triple flames, making his scalp numb, and Luo Heng lost all his initial arrogance. After roaring angrily, he tried to take something out of his storage bag.

In the blink of an eye, Luo Heng took out a shining stick.

"It's Senior Brother Luo Heng's Xuan Tian treasure, it's said to be called the Green Light Prosperous Stick. When used in conjunction with Senior Brother Luo Heng's cultivation methods, it's incredibly powerful. Generally, when Senior Brother Luo Heng uses this, it's the decisive moment of victory or defeat!"

Chapter 1184 - 1184 1181 Mount Leifeng Thundercloud Pool_1

Chapter 1184: Chapter 1181: Mount Leifeng, Thundercloud Pool_1 Chapter 1184: Chapter 1181: Mount Leifeng, Thundercloud Pool_1 Luo Heng's reputation was not unfounded. The crushing victories in numerous battles made everyone remember his signature moves. During the last Four Peaks Competition, Luo Heng relied on the Green Light Prosperous Stick and the cultivation methods he learned from Taqing Peak to secure the seventh place.

As for divine powers, Luo Heng only knew one, the Lightning Movement Technique. His comprehension was far behind Su Yao. Su Yao could control two divine powers, but he could only control one.

In the eyes of others, the moment Luo Heng took out the Green Light Prosperous Stick would be the moment the victory was decided, as it had always been in the past.

However, Luo Heng, as a participant, didn't feel that way at all.

Indeed, in the past, when he took out his Xuan Tian treasure, the outcome was almost decided. But today, he took out his Xuan Tian treasure, not to decide the outcome, but because he had no other options against Yang Chen.

Now, taking out the Green Light Prosperous Stick, Luo Heng immediately swung it, releasing a large amount of green ghostly light, which quickly spread out and effectively blocked the three-layered flames of Yang Chen.

“This is Senior Brother Luo Heng’s Ghostly Saint Technique, which combines the green ghostly light generated by the Green Light Prosperous Stick. It is said to repel most techniques, and as long as the green light is present, it is difficult for any skill to approach Senior Brother Luo Heng.” Many people shouted.

“The outcome is already clear!”

By now, when Luo Heng saw that his technique actually kept Yang Chen’s triple flames at bay, he let out a deep sigh of relief. Deep down, he was truly afraid that his trump card would be ineffective against Yang Chen.

But just as he breathed a sigh of relief at the bottom of his heart, suddenly, the triple flames disappeared, and then a shocking wave of True Qi surged towards him.

“What is this?” Luo Heng only felt the ground shaking.

“Mountain Breaking Style!”

As the three characters fell, Luo Heng let out a miserable cry. His green ghostly light was instantly split apart, and the ground cracked layer by layer. Luo Heng immediately fell in, looking extremely miserable.

After using the Mountain Breaking Style, Yang Chen did not pause for a moment. He reached out his palm and muttered: “Five Thunder Righteous Method!”

As soon as the words were spoken, five shocking thunders fell from the sky, all striking Luo Heng. Luo Heng's green ghostly light offered no resistance and was shattered by Yang Chen, who fell among the ruins and gasped for breath, his eyes still filled with shock.

It was not difficult to see that he had already lost his fighting ability.

The victory was decided, Yang Chen stopped, not exterminating the fallen opponent. After all, Taqing Peak was someone else's territory, and he still had to leave some face for others.

However, even though he had shown mercy, everyone was still frightened by Yang Chen's display of skills.

"This has to be a lie, right...?"

"Is the gap so big?"

"How is it possible that Senior Brother Luo Heng was defeated in less than five moves? Senior Brother Luo Heng has never been defeated in less than five rounds when fighting someone."

"Even our Senior Sister Su Yao couldn't defeat Senior Brother Luo Heng in such a short time."

Given Luo Heng's character, it was natural for him to stir up trouble with Su Yao at Taqing Peak, so many people had seen the confrontation between Su Yao and Luo Heng. Everyone knew the scene where Su Yao had beaten Luo Heng, but even Su Yao hadn't defeated Luo Heng so quickly. Instead, she had encountered some trouble against Luo Heng.

In particular, Elder Fu and the others had a different perspective. They had observed Yang Chen's skills just now and his calm demeanor all along, and they couldn't help but take a deep breath.

They all knew very well that the gap between Luo Heng and Yang Chen was not on the same level. Yang Chen had not even reached the Half-Step Heavenly Martial Realm yet, but with his current strength, he possessed such an astonishing power...

As Yang Chen surveyed the surroundings, he knew that his prestige had been established and said, "Elders, shall we set off for Thundercloud Pool now?"

"Ah, yes, we can!" The Elders dared not hesitate. They came to their senses and took Yang Chen to the Thundercloud Pool.

As for Luo Heng, he was left in the ruins for the time being and nobody took care of him.

After the incident with Luo Heng, no one dared to gossip about Yang Chen behind his back or challenge him. No one dared to question the strength of his current status.

Having gained the advantage, Yang Chen naturally didn't act arrogantly. He said to the elders, "I apologize if I offended you in any way at Taqing Peak, and I hope the elders will not blame me."

Hearing Yang Chen say this, several elders said, “Young Sect Master Yang, you are too polite. It was Luo Heng from our Taqing Peak who tried to challenge you and didn’t know any better.”

Look at how well Yang Chen handled the situation compared to Luo Heng. The elders sighed. When Luo Heng had not yet achieved his current results, he treated them with respect. But now, he did not even take them seriously at all.

“Speaking of which, how has Elder Lin Guang been recently?” Yang Chen asked.

“The Ancestor left the Northern Territory Sect some time ago and his whereabouts are unknown. It is said that he went to handle some business with a friend.” Elder Fu replied.

Others didn’t know about it, but how could Yang Chen not understand? A sudden thought crossed his mind, and he quickly deduced the situation.

He remembered Lin Guang had once agreed to go with the Bai family to investigate the clues about the Fire Essence Beast in the Thirty-six Eastern Counties. By now, they had most likely already set out.

Considering this, Yang Chen relaxed and temporarily handed over the matter of the Fire Essence Beast to those Emperor-level strong people. With his current strength, he was still unable to get involved in such matters.

While lost in thought, Yang Chen and the elders arrived at the Thundercloud Pool. These elders had a good overall impression of Yang Chen due to his status and the treatment and conditions were naturally excellent.

“Young Sect Master Yang, do you see the cave in front of you? Go inside, and deep into the cave you will find the Thundercloud Pool. While immersed in it, you will be able to absorb the essence of the Thundercloud Pool and break through the current limit of your Lightning Movement Technique. However, your improvement will depend on your own abilities.” Elder Fu and the others brought Yang Chen to a large mountain.

The entire mountain was about a hundred zhang tall, and the cave was about ten zhang wide. Standing in front of the mountain, Yang Chen could clearly sense the extremely powerful thunder and lightning power in the cave.

“Mount Leifeng!” Yang Chen read the carved name of the mountain aloud.

“This mountain has existed since the establishment of our Northern Territory Sect. It is said that the founders created it using unknown divine powers. Even today, the four Great Emperor ancestors still praise the divine powers and sigh for their inability to break through the skills of the ancestors. Who knows what realm the ancestors reached, and honestly, we as their descendants cannot hope to catch up.” The elders couldn’t help but sigh.

Chapter 1185 - 1185 1182 Cultivating at Thundercloud Pool_1

Chapter 1185: Chapter 1182: Cultivating at Thundercloud Pool_1 Chapter 1185: Chapter 1182: Cultivating at Thundercloud Pool_1 Yang Chen could also feel an extremely ancient aura from this mountain. This ancient aura had witnessed the passage of time and the history of the Northern Territory Sect, evoking an involuntary sense of awe.

Yang Chen didn’t know what divine powers those ancient powerhouses possessed, but it was undeniable that the ancient powerhouses were slightly stronger than those in this current era. It should be known that humans and the monster race still haven’t fully recovered from their war in this era, otherwise, humans would be far more prosperous now.

The glory of that era was truly unimaginable.

Yang Chen sighed inwardly. Regaining his senses, he said, “All seniors, your junior will go ahead first.”

“Young Sect Master Yang, for your safety, we still need to know if your Thunder Movement Technique has indeed been cultivated to the Fifth Level,” several Elders asked.

This question had been asked more than once. Early on, before coming here, some tests were done, concluding that Yang Chen’s Thunder Movement Technique was indeed cultivated to the Fifth Level without a doubt. However, they were still cautious and asked once again.

Yang Chen realized the importance of cultivating the Thunder Movement Technique to the Fifth Level and didn’t hide anything. He said, “Elders, don’t worry, I wouldn’t joke about this.”

“That’s good. We’ll send Young Sect Master Yang into the mountain!” Several people escorted Yang Chen into Mount Leifeng, allowing him to feel the benefits of his status. At this moment, he entered the cave and could clearly feel the astonishing thunder and lightning power surging towards him.

He didn’t even need to go further in, just by breathing in the air and absorbing the essence of thunder and lightning embedded in it, he could feel the benefits to his body.

“This place is a treasure land for cultivating the Thunder Movement Technique,” Yang Chen sighed inwardly.

He couldn't help but quickly move forward, feeling the denser concentration of thunder and lightning power the further ahead he went. After about half an hour, suddenly, a pit filled with a large amount of thunder and lightning appeared in the cave.

These thunder and lightning crackled inside the pit like water, turning it into a pool.

Seeing this, Yang Chen understood and murmured, "This must be the Thundercloud Pool."

The Thundercloud Pool, having an area of several hundred zhang, was already quite large. There were no other people inside, which wasn't strange; there weren't many who were qualified to practice the Thunder Movement Technique. Even fewer could cultivate it to the point where they were eligible to enter the Thundercloud Pool.

Yang Chen was an exception.

"The thunder and lightning power here is a heaven for me to cultivate the Thunder Movement Technique. No, not just the Thunder Movement Technique..." Yang Chen secretly thought, "I wonder if my Thunder Rush has truly reached the limit."

Theoretically speaking, if this place was a treasure land for cultivating the Thunder Movement Technique, then it would also be a treasure land for cultivating the Thunderbolt Style. But Yang Chen had already achieved perfection in the Thunderbolt Style, followed by the Mountain Collapsing Style. So it was unclear whether cultivating the Thunderbolt Style in this Thundercloud Pool was feasible or not.

With these thoughts in mind, Yang Chen shook his head, deciding to first test it out.

Without hesitation, Yang Chen directly jumped into the pool.

As soon as he delved into the Thundercloud Pool, a massive amount of thunder and lightning surged towards Yang Chen. At that moment, Yang Chen quickly made a judgment.

“Good grief, if you weren’t cultivating a top-tier Thunder and Lightning Technique, you wouldn’t be able to absorb this immense lightning power at all. By that time, you’d probably be devoured by it. No wonder you need to cultivate the Thunder Movement Technique to the Fifth Level to enter the Thundercloud Pool. If it’s not cultivated to the Fifth Level, entering the pool is tantamount to courting death,” Yang Chen muttered.

Yang Chen couldn’t help but feel somewhat worried.

If even the top-tier Thunder Movement Technique needed to reach the Fifth Level to cultivate in the Thundercloud Pool, Yang Chen wondered whether his Thunderbolt Style could be cultivated in the Thundercloud Pool or not.

Yang Chen didn’t dare to be careless and hurriedly activated the Fifth Level of the Thunder Movement Technique. Then he absorbed a large amount of thunder and lightning into his body.

At this point, it was time to test the cultivator’s understanding of the Thunder Movement Technique and their own physique.

Those with a domineering physique had a higher absorption limit for the power of thunder and lightning. As a result, they could convert more power into the Thunder Movement Technique, naturally achieving higher levels of cultivation.

If one had a deeper understanding of the Thunder Movement Technique, they could absorb and convert the power more quickly, increasing their cultivation efficiency. This would also affect the number of levels they could reach while cultivating in the Thundercloud Pool.

All of this had been explained to Yang Chen by the elders before he entered Mount Leifeng. Yang Chen didn't know whether his physique and understanding of the Thunder Movement Technique were high or low, strong or weak.

All he could do was wait for the Thundercloud Pool to show him the answer.

At this moment, Yang Chen's clothes were torn and shattered by the lightning, and his body was surrounded by dense electric light. The electric light, like little snakes, covered and hovered around his body.

Visible to the naked eye, the power of numerous thunder and lightning entered Yang Chen's body through his hair and pores, and then was converted into his own power.

Just like this, absorbing, and converting, over and over again.

Yang Chen's Thunder Movement Technique jumped directly to the Sixth Level!

This made Yang Chen's eyes widen with delight, "This is as if I've absorbed and refined countless Heavenly Thunder Origins."

Previously, after refining the Heavenly Thunder Origin, Yang Chen's Thunder Movement Technique greatly improved. The Thundercloud Pool and Heavenly Thunder Origin followed the same principle; in simple terms, the Thundercloud Pool contained the power of countless Heavenly Thunder Origins. This also made the value of the entire Thundercloud Pool immeasurable!

One could imagine how valuable the Heavenly Thunder Origin was. The entire Thundercloud Pool was worth countless Heavenly Thunder Origins, making the total value horrifyingly high.

"Only a major sect like the Northern Territory Sect could possess such a treasure," Yang Chen took a deep breath. In the blink of an eye, his Thunder Movement Technique improved to the Seventh Level!

Seventh Level of the Thunder Movement Technique...

Yang Chen revealed a smile, "It seems that my physique and understanding of the Thunder Movement Technique are quite good. I've managed to reach the Seventh Level in one breath. Now let's see if I can break through to the Eighth Level."

Reaching the Seventh Level was on the same level as Luo Heng.

Reaching the Eighth Level would be on the same level as Su Yao.

As for the Ninth Level, Yang Chen didn't know what level that was, but when he inquired a little, it seemed that no one had ever reached the Ninth Level of the Thunder Movement Technique in one go in the Thundercloud Pool.

Even among the elder martial artists, there were only a few who had cultivated the Thunder Movement Technique to the Ninth Level.

It seemed that once the Thunder Movement Technique had been cultivated in the Thundercloud Pool, there was very little change after leaving the pool.

The Supreme Martial King Shocking All Realms

Chapter 1186: Chapter 1183: Thunderbolt Style Mutation!_1 Chapter 1186: Chapter 1183: Thunderbolt Style Mutation!_1 Yang Chen didn't know how far he could reach.

Where is his limit?

As Yang Chen asked himself this question, he began his focused cultivation, absorbing the layers of thunder and lightning energy, which were extremely beneficial to the Lightning Movement Technique, into his body and refining them.

The further he went in the Lightning Movement Technique, the more difficult it became to cultivate.

The difference between the seventh and eighth layers seemed small, but it was actually quite significant. Yang Chen spent more than an hour in the Thundercloud Pool, yet his progress still didn't seem particularly promising.

It wasn't until the second hour, the third hour, and even half a day had passed that Yang Chen suddenly opened his eyes.

"Success!" with the electric sparks flickering around him, the thunder and lightning aura on Yang Chen's body became even more intense. Those who understood would know that this was a sign of entering the Eighth Level of the Lightning Movement Technique.

"Eighth Level accomplished, next is the Ninth Level," Yang Chen murmured.

He didn't know whether his physique and understanding of the Lightning Movement Technique would be enough to support him in entering the Ninth Level.

Yang Chen entered a deep state of focus for an even longer period of time. In the blink of an eye, three days had passed, and he remained motionless in the Thundercloud Pool.

It was only on the fourth day that a painful expression appeared on Yang Chen's face. It was clear that he had reached a certain limit in the Thundercloud Pool, as his body could no longer withstand the massive influx of thunder and lightning power, and his understanding of the Lightning Movement Technique had also reached its peak.

However, Yang Chen continued to persevere, as the pain was not enough to make him collapse.

By the fifth day, the pain on Yang Chen's face had not changed, but the sweat on his forehead showed that it was not that he was not in pain, but rather that he was not showing it on his face.

Finally, on the sixth day, Yang Chen let out a cry, his whole body trembled, and a large amount of energy from the Thundercloud Pool poured into his body, causing his Lightning Movement Technique to breakthrough rapidly, reaching the Ninth Floor in one breath!

Upon reaching the Ninth Floor, Yang Chen immediately closed his eyes and temporarily withdrew from the Thundercloud Pool.

His Lightning Movement Technique had been cultivated to the extreme, and staying in the Thundercloud Pool any longer could endanger his life. He had fully experienced the power of the Thundercloud Pool while he was in it.

But soon Yang Chen revealed a smile: “The results are not bad. I didn’t expect that I could directly break through to the Ninth Level of the Lightning Movement Technique and reach its highest stage!”

The Lightning Movement Technique had a maximum of nine levels. After reaching the fifth level, Yang Chen spent a long time pondering the connections between the sixth and ninth levels. As a result, he didn’t find any connections, but instead gained a deeper understanding of the technique, laying the foundation for his cultivation in the Thundercloud Pool today.

However, thinking about the Ninth Level, Yang Chen frowned, “Although the Lightning Movement Technique clearly states that there are nine levels, I always feel that the Ninth Level is not the end, and there must be something missing. However, with my current realm, I cannot figure it out.”

He didn’t have this idea before, but ever since he reached the Ninth Level of the Lightning Movement Technique, such thoughts had become stronger and stronger.

Yang Chen believed that it wasn't a coincidence; there must be many secrets about the Lightning Movement Technique that he did not know.

Of course, he didn't have time to investigate these secrets now. What Yang Chen wanted to know now was the extent of his Thunder Rush ability.

"With my physique, entering and leaving the Thundercloud Pool shouldn't be a problem. This short period of time should be enough for me to determine whether Thunder Rush can absorb the essence of the Thundercloud Pool's power," Yang Chen thought to himself.

Yang Chen was uncertain because when he first started cultivating Thunder Rush, he only needed one Heavenly Thunder Origin to begin.

No, that's not quite right; to cultivate Thunder Rush, you don't even need the Heavenly Thunder Origin.

However, this was just the beginning, and he didn't know the limits of Thunder Rush.

"Let's give it a try," Yang Chen thought to himself.

After making that decision, Yang Chen fearlessly jumped directly into the Thundercloud Pool and immediately activated Thunder Rush.

Once the method of Thunder Rush was activated, the entire Thundercloud Pool fell silent. Such a silence even felt strange to Yang Chen.

However, it couldn't be denied that the thunder and lightning in the Thundercloud Pool were not attracted by the method of Thunder Rush, so his idea had failed.

But just when Yang Chen thought he had failed, suddenly, the thunder and lightning in the Thundercloud Pool seemed to explode, rushing toward him in an instant. The frequency and magnitude of this were far beyond what the Lightning Movement Technique could handle.

If the Thundercloud Pool could satisfy Yang Chen's cultivation of the Lightning Movement Technique for at least a hundred times, then it could now only satisfy a few of his Thunder Rush cultivations!

More and more thunderbolt power entered Yang Chen's body, and the demand of Thunder Rush was tremendous.

"This..." Yang Chen was completely dumbfounded.

He never expected anything like this to happen.

He had guessed that the Thundercloud Pool would support Thunder Rush to some extent, but he never thought that the support would be so tremendous!

Yang Chen didn't even know what Thunder Rush would become; he only knew that his body was filled with the power of thunder and lightning, which would be the power source of Thunder Rush in the future. When he used Thunder Rush again, the fusion of his True Qi and the power of the Thundercloud Pool would likely be stronger than he could ever imagine.

Of course, with such a massive influx of thunder and lightning power entering his body, the pain was also intense.

However, Yang Chen was enduring it.

He wanted Thunder Rush to absorb even more power.

But in the end, Yang Chen had to admit that this idea was out of reach, as he found that the power of the Thundercloud Pool had been reduced by almost 50% in just a short time.

Shocked, Yang Chen got rid of his greedy thoughts and quickly jumped out of the pool.

Joking aside, the initially full pool had been reduced to half in just a short time.

What would happen if the people of Taqing Peak found out? Wouldn't they fight him to the death?

How could he explain it?

For a moment, Yang Chen didn't know whether to laugh or cry. Who could have imagined that Thunder Rush could consume so much power from the Thundercloud Pool, devouring half of it in an instant?

He was initially worried about how to explain this, but soon a change occurred.

The power of the Thundercloud Pool seemed to have increased considerably in a short time.

Yang Chen initially thought it was an illusion, but upon closer inspection, he found that it had indeed increased significantly. However, the growth rate was very slow, and it would take at least half a month for the pool to return to its original state.

“This... The power of thunder and lightning is recovering rapidly...” Yang Chen was taken aback.

The Supreme Martial King Shocking All Realms

Chapter 1187: Chapter 1184: Thunder God!_1 Chapter 1187: Chapter 1184: Thunder God!_1 It was not the recovery ability of the Thundercloud Pool that surprised him, but the source of its recovery ability.

What does the slow recovery of the thunder and lightning power in the Thundercloud Pool represent? It represents that there must be something supplying energy to the pool. And what exactly is the source of this energy!

This is what is truly baffling.

Yang Chen took a deep breath, and it was false to say that he didn't want to explore it.

So much thunder and lightning power came from a treasure, a treasure that could give birth to such endless power. What kind of treasure is this?

But Yang Chen quickly abandoned this idea.

He was definitely not the first one to discover this, but since this thing still exists now, it means that there must be a reason why it cannot be moved or investigated.

Humans are insatiable, and Yang Chen shook his head, quickly suppressing his own greed.

It's best to quit while you're ahead for some things.

Yang Chen thought to himself secretly: "With my Thunderbolt Style, I hope that in the future I'll have the opportunity to come to the Thundercloud Pool to cultivate a few more times. I feel that my Thunderbolt Style has not yet reached its limit, but even for me, it is not easy to enter the Thundercloud Pool."

It can be easily guessed that the number of times a person can enter the Thundercloud Pool in their lifetime is limited.

“Speaking of which, my current Thunderbolt Style should not simply be called Thunderbolt Style anymore.” Yang Chen muttered to himself.

When the conversation ended, he gently raised his hand and then manipulated the True Qi.

With a crackling sound, his thunder and lightning flickered suddenly, and the thick lightning spread throughout the Thundercloud Pool in an instant. The area and power were far beyond what it was before.

The Thunderbolt Style originated from the Mixed Yuan Spear Technique. But the creator of the Mixed Yuan Spear Technique probably never imagined that the limit of the Thunderbolt Style would be so high.

Even the cultivation method of the Lightning Movement Technique could not accommodate so much thunder and lightning power, yet the Thunderbolt Style managed to do it. It is normal for the creator of the Mixed Yuan Spear Technique not to have thought of it because who could have such a perfect opportunity to absorb that much thunder and lightning power like him.

It would be difficult to find a second place like the Thundercloud Pool in this world.

“Now the Thunderbolt Style is no longer part of the Mixed Yuan Spear Technique. With the integration of so much thunder and lightning essence, it has evolved and become a separate technique...What kind of name should I give it?” Yang Chen muttered to himself.

“With so many thunder and lightning essence, ordinary people would only think it was created by the Thunder God. How about naming this evolved Thunderbolt Style ‘Thunder God’? In combination with my spear technique, it can be called the Thunder God Spear Technique!” Yang Chen said with a smile.

As the Thunder God, he could gain even greater arm strength.

With the acquisition of this stronger technique, Yang Chen was naturally overjoyed. For now, the recovery of the Thundercloud Pool's power was still slow, so he wouldn't use it for the sake of Thunder God's power. He directly left the Thundercloud Pool and walked out of Mount Leifeng.

Several elders were all waiting outside Mount Leifeng. Seeing Yang Chen coming out, they all hurriedly said, "Congratulations to Young Sect Master Yang for successfully passing the trial. Judging by Young Sect Master Yang's complexion, it seems that you must have gained a lot in the Thundercloud Pool."

"Yes, the gains were good!" Yang Chen said kindly.

"I wonder which layer of the Lightning Movement Technique Young Sect Master Yang has cultivated to?" Elder Fu asked curiously, hoping to get some information, which would at least give Taqing Peak a bottom line.

Yang Chen thought for a moment, originally intending to conceal it, but suddenly remembered that he still had questions to ask later and had to answer truthfully: "I cultivated to the Ninth Layer!"

"What!"

"This, this..." The elders couldn't help but be aghast: "Young Sect Master Yang, did you cultivate to the Ninth Layer in one breath?"

“Yes, that’s the case. Is it very rare?” Yang Chen asked in confusion.

“This, this is more than just rare.” A few elders felt like crying, as the Lightning Movement Technique was the signature of their Taqing Peak, and now it had been learned by Yang Chen. Moreover, he had even managed to control it to the Ninth Layer.

For the Northern Territory Sect, this was naturally not a big deal, but when it was said out loud, it was simply an insult to Taqing Peak.

You must know that in the entire Taqing Peak, there are few who have cultivated to the Ninth Layer. Apart from Lin Guang Great Emperor himself, only a few old ancestors at the Peak of Heaven Martial Realm had good opportunities and finally grasped the Ninth Layer in their later years.

As for cultivating to the Ninth Layer within the Thundercloud Pool, that happened hundreds of years ago.

Not to mention anything else, Su Yao was already exceptional enough, having just controlled the Eighth Level. Yang Chen had already controlled the Ninth Level!

Although they felt wronged in their hearts, the few elders knew that Yang Chen had obtained his achievements through his own abilities and there was nothing they could say. After a slight sigh, they all congratulated him, “Congratulations to Young Sect Master Yang.”

“Congratulations, congratulations!”

Yang Chen rubbed his nose, knowing from the expressions of the few elders that he had said something wrong. He originally thought that achieving the Ninth Layer in the Thundercloud Pool would only surprise people and not make it so difficult for people to accept. But who knew that his words would be like throwing a bomb.

Having no choice, Yang Chen had to change the subject and said, "Elders, I have a question I would like to ask."

Seeing Yang Chen ask a question, the few elders spoke curiously, "Young Sect Master Yang wants to ask..."

"I'd like to know, how many times can a person enter the Thundercloud Pool of Mount Leifeng?" Yang Chen asked.

"Naturally, it can only be entered once." Elder Fu said.

Yang Chen looked puzzled: "Why? If we can enter more times, it should be beneficial to the cultivation of the Lightning Movement Technique."

"If it was beneficial, how could the sect not let the disciples enter a second time? The key is that there is not much help. The first time represents everything. The second time in, it's basically a waste, and if you can't figure out your own tolerance limit, there could be a risk of losing one's life." The few elders shook their heads, apparently there had been such cases. "So there has been a long-standing rule that you can only enter once in your life, and this applies to everyone."

Yang Chen still didn't give up: "Is there any way to make an exception?"

“There are ways, one is to make a huge contribution to the Northern Territory Sect, the other is to become an Emperor-Level ancestor, and the third is to persuade our Taqing Peak Patriarch Lin Guang to open the back door for you. Actually, I would say, Young Sect Master Yang, there is no need for you to think in this direction. You have already cultivated the Lightning Movement Technique to the Ninth Layer, why do you want to enter the Thundercloud Pool again?” The few elders said with a bitter smile.

Yang Chen shook his head, for he wanted to enter the Thundercloud Pool not for the Lightning Movement Technique, but for the insatiable demand for the Thunder God.

No matter what, he couldn't do it now, but in the future, he would have to find a way to test where exactly the limit of the Thunder God is!

Chapter 1188: Chapter 1185: Enlightenment Stone Wall!_1 Chapter 1188: Chapter 1185: Enlightenment Stone Wall!_1 Several Elders thought that Yang Chen was insatiable, and they were quite frustrated. They wondered why Yang Chen, who had already comprehended the ninth level of the Thunderbolt Movement Skill, entered the Thunder Cloud Pool. What more could he gain?

Isn't this annoying?

Of course, they were annoyed, but they were not going to express it openly.

“Young Peak Master Yang, now that your trip to the Thunder Cloud Pool is over, why not stay with us at Taiqing Peak for a while? Su Yao is currently in cultivation; she will be delighted to know that you've come to Taiqing Peak,” said the Elders. They knew that Su Yao and Yang Chen were quite close.

Moreover, Su Yao loved to spar with others, and Yang Chen was obviously an excellent choice.

However, what Su Yao liked, Yang Chen did not.

Originally, Yang Chen had some thoughts about staying at Taiqing Peak. But upon hearing the suggestion from the Elders about Su Yao, he promptly refused, “Ahem, esteemed Elders, since I have already broken through the limits of my Thunderbolt Movement Skill, there is no need to trouble you and Taiqing Peak any further. It's getting late, so I will take my leave now.” He said respectfully.

The Elders didn't really intend to keep Yang Chen, so they said, “In that case, we will accompany Yang Peak Master Yang.”

Thus, under the escort of the Elders, Yang Chen left Taiqing Peak and returned to Evergreen Peak.

Upon returning to Evergreen Peak, Yang Chen was planning to announce that he was going into seclusion for some time, but he discovered that several distinguished guests had arrived at his residence.

Had it been ordinary guests, Yang Chen could have ignored them and let Qin Xueru deal with them. However, the visitors were Lin Hao and Wei Zheng.

Although he had an unpleasant start with Lin Hao and Wei Zheng, Yang Chen could see that both were men of strong character, efficient on the battlefield and unlike the likes of Luo Heng.

With that, Yang Chen regarded them as friends.

As a friend, he wouldn't be neglectful and hurriedly went to greet them upon knowing their arrival.

"Lin brother, Wei brother, what brings you two here?" Yang Chen laughed, "How long have you been here?"

"We arrived three days ago. We heard that you had gone to Taiqing Peak. It seems that this trip has benefited you greatly," Lin Hao and Wei Zheng said amiably.

Yang Chen waved his hand and said, "Any benefits that I may have received are negligible. By the way, Xueru, please bring some good tea and wine to entertain our distinguished guests."

“No need for that,” Wei Zheng laughed heartily, “Yang Chen, we didn’t come here just to be guests. We came here to invite you.”

“Oh? Invite me? For what?” Yang Chen asked, puzzled.

Wei Zheng said with a smile, “Naturally, it is to visit the Enlightenment Stone Wall. Yang Chen, you’ve come to our Northern Territory Sect, don’t you want to take a look at the Enlightenment Stone Wall?”

“Enlightenment Stone Wall? What is that place?” Yang Chen was confused.

Lin Hao chuckled, “Indeed, Yang Chen, you’ve just joined our Northern Territory Sect not long ago. It’s quite normal that you haven’t heard of the Enlightenment Stone Wall. In fact, our sect has one hundred divine powers in total, and most of them were comprehended through the Enlightenment Stone Wall.”

“How does that work?” Yang Chen asked, intrigued.

Wei Zheng continued, “It’s like this; whenever the disciples of our Northern Territory Sect have a Cultivation Retreat, they would go to the Enlightenment Stone Wall to comprehend a divine power. Although many divine powers have been recorded in written form and circulated outward, such as the Thunderbolt Movement Skill, with many of them already lost, the majority of the divine powers cannot be expressed in words. The only way to comprehend them is through the Enlightenment Stone Wall!”

“That’s incredible,” Yang Chen exclaimed, eyes wide.

It was the first time he had heard of such a bizarre method.

“That’s the charm of the Enlightenment Stone Wall,” the two replied with a smile.

“Comprehending a divine power at the Enlightenment Stone Wall must be difficult,” Yang Chen noted.

“Of course, it’s not easy. In fact, entering the Enlightenment Stone Wall to comprehend a divine power is not that difficult; as long as you rank top hundred among the Northern Territory Sect disciples, you can access the Enlightenment Stone Wall freely. However, very few can actually comprehend a divine power. For example, Lin Hao and I only comprehended one divine power each. Most people outside of the top thirty haven’t even comprehended a single divine power,” Wei Zheng explained helplessly.

“So difficult?” Yang Chen widened his eyes, “In that case, what are you two doing at the Enlightenment Stone Wall since you already have comprehended a divine power?”

“We’re trying to comprehend a second divine power,” said Wei Zheng. “Look at Senior Sister Su Yao; she has comprehended two divine powers. However, our talent isn’t as high as hers. We’ve only comprehended one power, and comprehending a second one is getting harder.”

“Yes, after comprehending one divine power, the difficulty of mastering a second one doubles. Even if one manages to comprehend a second power, they may quickly forget about it. Many people are born with the ability to master only one divine power, while only a small number of prodigies are capable of controlling the second divine power!” Lin Hao sighed.

“If I could master a second divine power, I would have been able to avenge my second brother!” Wei Zheng clenched his fists.

Hearing this, Lin Hao's eyes also blazed with anger.

Yang Chen understood that the reason Lin Hao and Wei Zheng were going to the Enlightenment Stone Wall was due to their second senior brother who ranked second.

It was said that the second senior brother had died at the hands of a genius from the Royal Family, causing Su Yao and the others to hold a grudge.

Lin Hao said earnestly, "Yang Chen, I believe you can understand that in order to consolidate their position, the Royal Family is targeting all forces in the Northern Territory Sect and the Central Capital Region. As the talented disciples of the Northern Territory Sect, we naturally became their targets. But we can't let them have their way. Wei Zheng and I don't want to repeat the fate of our second senior brother, let alone avenge him. That's why we want to visit the Enlightenment Stone Wall. Your strength is above ours, and if you can master a divine power, it will add wings to a tiger. At least then, it won't be so easy for the Royalty Genius to deal with you."

Yang Chen nodded in understanding.

Of course, he could understand that.

Yang Chen had no particular affection for the Royal Family, but due to the Spirit Rune Martial Arts, he had a pressing enemy to deal with in the Royal Family.

"I appreciate the kind intentions of both of you. In that case, let's go to the Enlightenment Stone Wall and have a look. I'm curious to see what kind of place it is and whether I can comprehend any divine powers there," Yang Chen chuckled.

Each of the divine powers in the Northern Territory Sect held immense power, and Yang Chen was genuinely curious.

With such an opportunity, he definitely wouldn't miss it.

Hearing that Yang Chen agreed, Lin Hao and Wei Zheng laughed, "That's great! Let's set off together then."

The Supreme Martial King Shocking All Realms

Chapter 1189: Chapter 1186: Ranked First_1 Chapter 1189: Chapter 1186: Ranked First_1 With Lin Hao and Wei Zheng leading the way, Yang Chen was not worried about finding the place.

The Enlightenment Stone Wall was located in Baihe Peak, guarded by heavy forces by the Baihe Peak. However, this was not a problem for Yang Chen and the other two, as they were all among the top 100 of the Four Peaks and could enjoy the privilege of entering the Enlightenment Stone Wall for comprehension.

This was also a privilege granted by the Northern Territory Sect, because relatively speaking, those who reached the top 100 of the Four Peaks were all talented and had great comprehension abilities. Therefore, it was most suitable for those with high comprehension abilities to comprehend the Enlightenment Stone Wall.

When Yang Chen and the other two arrived at Baihe Peak, they caused quite a stir.

It was fine for Yang Chen since he hadn't been the Junior Peak Master of Changlin Peak for long, and not many people knew about his second place, so there were very few supporters and admirers. However, Lin Hao and Wei Zheng were different; they were both well-known geniuses in the Northern Territory Sect. When they appeared on Baihe Peak, they attracted the cheers of many disciples from Baihe Peak.

Lin Hao and Wei Zheng were also very proud.

Thus, the three of them headed towards the Enlightenment Stone Wall.

After Wei Zheng and Lin Hao handled some necessary procedures, Yang Chen followed the two of them to the Enlightenment Stone Wall.

There were about twenty people in front of the Enlightenment Stone Wall. Most of them were in the top 100 of the Four Peaks, while some were from places outside the top 100.

Those who were not in the top 100 of the Four Peaks were also allowed to enter the Enlightenment Stone Wall, but they had to pay a considerable price for such an opportunity.

Now that Yang Chen and the others had come, they caught the attention of a few people who changed their expressions when they saw Wei Zheng and Lin Hao.

“It’s the people from the top 100 of the Four Peaks; please make way!” Several people, well-aware of the situation, gave the best spots for comprehension to Yang Chen and the other two.

Yang Chen couldn’t help but smile at their treatment when he was with Lin Hao and the other two.

At this point, he observed the Enlightenment Stone Wall, which was over a hundred zhang high and about thirty zhang wide. The entire wall was very smooth, with countless strange characters on it. These characters changed every second, making people wonder what was hidden behind their mysterious meanings.

After carefully observing it, Yang Chen immediately felt that there was a tremendous magical power hidden within the entire stone wall...

“How about it, Brother Yang, don’t you think the Enlightenment Stone Wall is interesting?” Wei Zheng kindly asked.

“Yes, indeed,” Yang Chen nodded in agreement.

“Let us try to comprehend it first, Brother Yang. Sit cross-legged, let your soul enter the Enlightenment Stone Wall and explore carefully. You will discover its wonders,” Lin Hao laughed.

Wei Zheng couldn’t help but advise, “Brother Yang, with your comprehension abilities, it shouldn’t be difficult to comprehend divine abilities. However, you should aim higher. If the divine abilities you comprehend are ranked below the top ten, there’s no need to learn them. Otherwise, it will be hard for you to control the third divine ability. You must seize this opportunity.”

“Yes, people with good comprehension usually learn a divine ability in two or three days. I learned one in five days, but it ranked thirty-seventh, so I gave it up,” Lin Hao shook his head.

“Oh? I see. How can you know the ranking of the divine abilities?” Yang Chen asked, puzzled.

“The rankings of the divine abilities are all on that stele. Look to the left, that huge stele there, it’s the Divine Abilities Ranking Stele,” Lin Hao and Wei Zheng both explained.

Yang Chen looked at the stele, which was about three to five zhang in size. Various characters were recorded on it, representing the rankings of the divine abilities.

With one glance, Yang Chen memorized the names and rankings of numerous divine abilities in his mind to facilitate his own future comprehension.

However, Yang Chen soon found something strange, “Huh, what’s going on? Why is the name of the top divine ability empty?”

From the second place to the third place, and all the way up to the hundredth place, there were records of the divine abilities. But the first place was empty, without any records.

“Actually, the records of the rankings of divine abilities were established by countless martial artists through practice and time. That’s why the first place has always been empty,” Wei Zheng said with a bitter smile.

“Why?”

“Because no one has ever comprehended the first place...” Lin Hao shook his head.

Yang Chen was stunned, “No one has comprehended it for so many years since the establishment of the Northern Territory Sect? Then how did this mysterious divine ability get ranked first?”

It was a strange question; without anyone comprehending it, how could it qualify to be ranked first?

“This has something to do with the Founding Ancestor. At that time, the Founding Ancestor collected various cultivation methods and divine abilities and incorporated them into this Enlightenment Stone Wall. His strongest divine power was included as well. But over the years, all the divine powers collected by this great figure have been comprehended by others, except for that most powerful divine power. Although it’s unknown if the most potent divine power exists, the mysterious divine power has always been ranked first out of respect for the great ancestor,” Lin Hao explained.

“In my opinion, only a few Great Emperors would know the details of this mysterious divine ability, and no one knows whether it deserves to be ranked first. I think it might not be stronger than the second or third,” the two of them expressed their opinions.

Yang Chen silently nodded.

“Let’s forget about it; Brother Yang, let’s start our comprehension!” Lin Hao and Wei Zheng instructed a few more words and couldn’t wait to sit down and start comprehending.

Seeing the two of them so eager, Yang Chen was also curious about the special effects of the Enlightenment Stone Wall and sat down, looking at it with his eyes.

Following Lin Hao and Wei Zheng's instructions, his soul entered the wall, immediately blending in.

"So profound, it feels like these characters, when combined, form a very mysterious method. How to combine these characters is the key," Yang Chen muttered.

This was also the problem Yang Chen faced.

How could he connect these characters correctly and form a divine ability that he wanted?

Yang Chen had no clue and started to combine the cultivation methods chaotically, only to find that he achieved nothing in the end. The characters poorly mixed had no effect at all.

Yang Chen refused to give up and continued to try randomly for about a day, but still found no results.

Another day passed, and there were still no results.

Yang Chen was stubborn and spent about ten days comprehending. In the end, he still found no results.

He wondered whether the problem was with his approach or if the Enlightenment Stone Wall was naturally like this.

Yang Chen felt he must figure out these questions first. Unfortunately, both Lin Hao and Wei Zheng were in closed-door cultivation and couldn't answer his questions even if he wanted to know.

Fortunately, Lin Hao and Wei Zheng didn't keep him waiting for too long. About three days later, they woke up.

"Huh, Brother Yang, did you complete your comprehension so soon? Have you comprehended any divine ability? What's your ranking?" Lin Hao and Wei Zheng asked curiously.

Chapter 1190 - 1190 1187 Divine Power Secret Matter_1

Chapter 1190: Chapter 1187: Divine Power Secret Matter_1 Chapter 1190: Chapter 1187: Divine Power Secret Matter_1 When asked this, Yang Chen was quite embarrassed. He had no choice but to tell the truth: "I didn't comprehend a single Divine Power."

"What, you didn't comprehend a single Divine Power? ...Brother Yang, you must be joking. Did you give up because you didn't like the Divine Powers you comprehended, or did you really not comprehend any? It's been more than ten days." Wei Zheng frowned.

He admired Yang Chen very much and felt that Yang Chen's talents and comprehension were much better than his own and Lin Hao's.

It was precisely because of this idea that he had been looking forward to Yang Chen's comprehension of Divine Powers.

You should know that even he had gained a lot from this comprehension. Although he didn't succeed in obtaining a second kind of Divine Power, the outcome was very satisfying.

However, Yang Chen's situation...

Yang Chen gave a bitter smile, "I really didn't comprehend anything."

"How is that possible? Tell us the specifics of what happened at that time." Lin Hao felt puzzled.

Yang Chen honestly recounted what had happened at that time.

"When I comprehended the Divine Powers, I felt the text could not be systematically connected together. It was like a mess that couldn't be made sense of." Yang Chen sighed.

This made Lin Hao and Wei Zheng look at each other, and both showed smiles.

“Haha, so that’s how it is.”

“That makes sense.”

Yang Chen was confused, “What do you mean?”

Wei Zheng kindly said, “Brother Yang, didn’t we mention the matter of Divine Powers when we first talked to you? We invited you to join Yunhu Peak. What are the benefits of joining our Yunhu Peak? You can obtain various advantages in cultivation methods. In fact, Divine Powers are also cultivation methods, just more top-notch ones. In order to cultivate these methods, other basic methods must be used as a foundation and guide.”

“So you mean, if I don’t cultivate those special foundation cultivation methods, I can’t comprehend Divine Powers?” Yang Chen became curious.

“It’s not that you can’t comprehend them at all. The text in the Enlightenment Stone Wall has special requirements. When the great expert who created the Enlightenment Stone Wall did so, he didn’t pass down these Divine Powers in a straightforward way. Instead, he wanted to prevent them from becoming too common and pass them on to more suitable talented martial artists.”

Wei Zheng explained carefully, “As a result, every text in the Enlightenment Stone Wall will be attracted by some special physiques and powers. If a Divine Power is related to fire, for example, the text required to form it will be attracted by martial artists with suitable attributes for cultivating fire techniques. However, not everyone has that special Divine Body Talent. That’s why our ancestors left, in addition to creating various cultivation methods, the Northern Territory Sect’s foundation methods to change the attributes of the disciples within the gate. This allows the disciples to better cultivate the Divine Powers within the Enlightenment Stone Wall. Of course, even with the guidance of basic cultivation methods, it’s still incredibly difficult to comprehend Divine Powers. This is the reason why the Enlightenment Stone Wall is said to test comprehension and talent.”

After hearing this, Yang Chen suddenly realized, “No wonder I couldn’t find any patterns.”

If one cultivated foundation methods, they could systematically form texts into Divine Power methods and then cultivate them. However, Yang Chen had not cultivated any of the Northern Territory Sect’s basic methods, nor did he have any special Divine Bodies to cultivate those Divine Powers. Thus, he couldn’t achieve anything.

“Yang Chen, we thought of asking you about this at first, but we thought you should have cultivated some of Changlin Peak’s methods. But your symptoms seem to indicate that you haven’t practiced any cultivation methods of the Northern Territory Sect. If you did, it shouldn’t be difficult for you to comprehend two or three wood attribute Divine Powers outside of the top fifty.” Lin Hao said.

Yang Chen shook his head, “I haven’t touched Changlin Peak’s cultivation methods yet, but after this trip, I think it’s necessary for me to learn.”

At this point, Yang Chen couldn’t help but feel a little amused.

Originally, he didn’t plan to learn Changlin Peak’s cultivation methods. He didn’t expect that he would have to learn them in the end. As for the Divine Powers of the Northern Territory Sect, he wanted to master at least one, so even if it took more effort, he would have to learn a cultivation method of Changlin Peak.

“Actually, it would have been better if you chose our Yunhu Peak back then. Our Yunhu Peak’s basic methods are all meant to lay the foundation for the top ten Divine Powers. I haven’t heard of any great Divine Powers that can be comprehended by practicing Changlin Peak’s methods.” Lin Hao said.

“So there aren’t any in the top ten?” Yang Chen asked.

“None.” Lin Hao answered honestly, “The highest is the 21st-ranked Wood Dragon Saint Technique, which is best used by Wang Tong, the envoy of Changlin Peak. It is said that even Hua Wu Great Emperor didn’t use the Divine Powers in the Enlightenment Stone Wall. His cultivation method was self-created.”

At this, Yang Chen couldn’t help but laugh. It turned out that he had chosen Changlin Peak and lost out in terms of Divine Powers. After all, his plan to find the Tree Technique had already failed.

Of course, he’s not the kind of person to change his mind easily. Since he’s chosen Changlin Peak, even if he suffers a bit, he has made his choice and will accept it wholeheartedly.

At this moment, Wei Zheng spoke up, “That’s enough, Lin Hao. Changlin Peak also has its advantages. Yang Chen must have had his reasons for making such a choice. If you keep talking like that, aren’t you mocking Brother Yang?”

“Hehe, I was just speaking casually. But Brother Yang, if you’re considering transferring your peak, I guess Sect Leader He Tan would be overjoyed.” Lin Hao grinned.

“Hua Wu Great Emperor has treated me well, so I won’t think about that.” Yang Chen waved his hand.

“Alright, Lin Hao, it’s just a casual remark. Don’t take it seriously. Let’s talk about going back together. We have already comprehended almost everything there is to comprehend and won’t gain

much more by staying.” Lin Hao and Wei Zheng saw that Yang Chen was going back and didn’t stay any longer.

The three of them went back together. In the end, Lin Hao and Wei Zheng returned to Yunhu Peak, while Yang Chen went back to Changlin Peak.

When he returned to Changlin Peak, Yang Chen went straight to find Wang Tong.

He looked for Wang Tong mainly to ask about the Enlightenment Stone Wall and the matter of Divine Powers. Although Lin Hao and Wei Zheng wouldn’t lie to him, whether the two of them had all the information was unknown.

Moreover, he couldn’t be careless about what basic cultivation methods he needed to learn in order to comprehend Divine Powers. That’s why Yang Chen went to find Wang Tong.

Seeing that Yang Chen was looking for him, Wang Tong didn’t dare to be careless. When he saw Yang Chen approaching, he immediately welcomed him with respect and then asked about the purpose of his visit.

“Junior Peak Master, what brought you here? I heard you went to the Enlightenment Stone Wall with Lin Hao and Wei Zheng. How was your comprehension?” Wang Tong asked.
