

## Supreme MK 2361

### Chapter 2361: Goodbye Hua Wanru\_1

Upon closer inspection, Elder Lie was taken aback.

That's because he could feel that the essence within the so-called Enlightenment Stage ghost creature's body was not something that could be produced at all, not even by Nirvana Stage ghost generals.

Such a thing could only be produced by a Ghost Venerable, a Mahayana-stage level Ghost Venerable.

At first, he hadn't paid much attention to it, but now that he had come to a conclusion, waves of shock arose in his heart.

"How did you do it?" Elder Lie's attitude had changed dramatically.

Lei Hao smiled slightly, "Elder Lie, it's a long story to tell how we managed to kill this Ghost Venerable, I think it's not necessary to go into details, is it?"

Although Elder Lie felt displeased, he knew that this might involve the privacy of a team, so it was inappropriate to ask further questions.

The corpse of the Ghost Venerable was real, he couldn't deny it.

"It seems that the recent rumors of many Mahayana-stage Ghost Venerables voluntarily reducing their cultivation level and coming to this spatial node are true. You guys have done well. A Ghost Venerable-level creature can be awarded 10,000 war merits to your team. How do you plan to divide these merits?" Elder Lie asked.

Upon hearing this, Lei Hao felt a twinge of pain and then said awkwardly, "The Nirvana Stage Ghost Venerable was killed by the six of us, and we'll each be rewarded with 1,000 merit points. The remaining 9,000 will go to this young friend here."

At these words, Elder Lie's expression became incomprehensible.

An Enlightenment Stage youngster was going to be awarded 9,000 merits? And what was even more baffling was that the other Nirvana Stage experts seemed perfectly content, not minding at all. It was truly a perplexing situation.

One had to know that these Nirvana Stage experts were all quite powerful. How could they willingly give away their merits to an Enlightenment Stage cultivator?

Elder Lie was puzzled but didn't ask further, he could only cough twice and say, "Alright, then I'll report these battle achievements to the Celestial Experts outside the Yin River. The precise merit data will be up to them."

"No problem." Lei Hao knew what was going on.

As Elder Lie spoke, he waved his hand, and a mirror appeared in the void.

When the mirror appeared, it reflected the image of Elder Lie. He then spoke some words into the mirror, mainly about the battle achievements.

After speaking, Elder Lie said, "Alright, the merit distribution is done. Do you have any Nirvana Stage ghost general corpses left?"

Upon hearing this, Yang Chen couldn't help but feel embarrassed. He had killed those Nirvana Stage ghost generals without thinking much about it at first, not taking their corpses into account. Now that he thought about it, he really should have kept them, as they were worth merit points.

Curious, Yang Chen couldn't help but ask, "How much are the corpses of those Nirvana Stage ghost generals worth?"

"The first stage of the Nirvana Stage is worth 500 war merits, the second stage is 1,000, the third stage is 2,000, and the limit and half-step Heavenly Sovereign are both worth 5,000!" Elder Lie said.

Yang Chen felt awkward and said, "We don't have the corpses of the Nirvana Stage ghost generals, but we did kill them. I wonder if that counts."

Elder Lie shook his head, "I can't help you with that, old man. If there's no corpse, anyone can claim to have killed a Nirvana Stage ghost general. How can we verify it? What can we use as proof?"

Yang Chen knew that it was difficult to demand this and said, "Alright, I understand. In that case, I would like to know how my 9,000 merit points rank on the overall merit leaderboard!"

"Let me check. The Celestial Experts should have made adjustments to the rankings based on your merits by now." Elder Lie's attitude was becoming more mellow.

He walked over to a stone at the foot of the wall, and after performing a series of spells on it, text appeared on the stone.

Upon seeing the text, Elder Lie nodded knowingly.

"The ranking is out!" Elder Lie took a deep breath, "What's your name, little friend? Since you've entered the merit leaderboard and rank quite high, it's best to submit your name and race."

"My name is Yang Chen, of the human race!" Yang Chen said respectfully, "So, what is this ranking?"

"Yang Chen..."

Elder Lie chuckled, "Yang Chen, my friend, your ranking has jumped directly to the ninth place on the merit leaderboard. Not bad! I will submit this to the Celestial Experts, and they will temporarily create a Heroic Order and issue it here. This is the treatment you are entitled to as a top ten ranking."

Heroic Order?" Hearing this, Lei Hao and the others couldn't help but feel envious and jealous, clearly understanding the significance of the Heroic Order.

Only Yang Chen looked puzzled, "What is the Heroic Order?"

“The Heroic Order is specifically for the top ten battle achievers. As long as you possess the Heroic Order, you have absolute privileges on the battlefield. Other than the Celestial Expert-appointed Commanders and Godly Generals, all other positions must unconditionally obey the Heroic Order!” Elder Lie explained.

“But what if my merit ranking drops in the future?” Yang Chen asked, confused.

“Then the Heroic Order will be declared withdrawn.” Elder Lie replied truthfully, treating Yang Chen with even more respect.

When the Celestial Experts announced the rankings earlier, he knew he couldn’t mess with Yang Chen. That aside, with the Heroic Order in hand, Yang Chen had the power to command him, and he had no choice but to comply due to the rules governing the spatial nodes.

He dared not disobey. Yang Chen could order him to step down immediately, and he wouldn’t have a say in it.

“Ah, it’s here. The Celestial Experts have finished making the Heroic Order and sent it here. Yang Chen, my friend, take it.” Elder Lie handed over the order with a bow.

Yang Chen accepted the order and observed it carefully, noting its exquisite craftsmanship.

With the order in his possession, his status leaped forward, surpassing the vast majority of the battlefield members. This was indeed surprising.

After all, not too long ago, Sky Canine Supreme had been flaunting his authority and making things difficult for him. Now, Yang Chen held the Heroic Order, and his status had risen considerably.

But deep down, Yang Chen was not too satisfied.

He had been initially hoping to jump straight to the top three and obtain the True Holy Water. Now, however, his merit points were far from enough.

It seemed that he couldn't afford to take it easy and needed to hunt down more Nirvana Stage experts.

Not only did he want the True Holy Water, but his current ranking on the leaderboard was only ninth and could be dropped at any time. He couldn't be complacent.

"Thank you, Elder Lie." Yang Chen bowed his hands, showing an attitude of neither servility nor arrogance.

And so, Yang Chen and his team left the Merit Hall together.

It was when they were leaving the Merit Hall and on their way back that Yang Chen suddenly saw a very familiar figure.

Upon seeing this figure, Yang Chen's pupils constricted.

Wasn't the other party none other than Hua Wanru, whom he had once believed to be far away from him?

Chapter 2362: Obtaining Your Body\_1

When he saw Hua Wanru, Yang Chen was genuinely shocked.

He originally thought Hua Wanru would wisely leave him far away and disappear completely from his and Zhang Xuelian's life.

In this way, although Zhang Xuelian would not completely become the true Chosen One who overcomes the celestial tribulation in her lifetime, at least it would be better than Hua Wanru's death.

He thought so and rejoiced, but he didn't realize that he was too naive.

Now, he was at this spatial node location and saw Hua Wanru, her graceful, pretty, and elegant figure.

As he saw Hua Wanru, Hua Wanru also caught sight of him.

When she saw him, Hua Wanru's eyebrows raised slightly, full of surprise.

However, she soon revealed a smile.

This smile was soft and gentle as if everything was within her expectations.

"Tomorrow, here, come find me." Hua Wanru whispered and disappeared without a trace.

Seeing this, Yang Chen's expression turned serious, but he quickly returned to his normal state, quietly rejoining his team.

Upon returning, Yang Chen's heart was a little unsettled.

How could Hua Wanru appear here?

With her early Enlightenment Stage cultivation level, how could she survive in this brutal spatial node battlefield? Was it a joke?

As his thoughts wandered, Yang Chen felt annoyed.

Before long, he slapped his forehead.

"Am I worrying about her?" Yang Chen worried in his heart, and then chuckled bitterly; it seemed that he really was worrying about Hua Wanru.

He couldn't control himself as if he would inevitably step forward in case she was really in danger.

Did he truly hold this woman in his heart?

Was it because of their intimate encounter out of frustration that led to this?

Although their physical relationship seemed wicked, it was precisely because of that relationship that he couldn't forget Hua Wanru.

Thinking about it, Yang Chen sighed heavily.

It was truly a calamitous fate!

He was deeply bound to Zhang Xuelian, yet he happened to get close with Zhang Xuelian's dark side as well. Was this so-called fate?

Yang Chen's mind was chaotic. After thinking for a long time, he could only sigh and stop pondering about it, taking advantage of this brief moment to solidify his Dao Intent and cultivation level.

Honestly, he wanted to break through the barrier to the Nirvana Stage in one breath.

However, he didn't want to be too reckless for now; he wanted to elevate his Golden Dao Intentions a bit more, making them stronger. That way, after entering the Nirvana Stage, his Golden Dao Intentions would be even more powerful, making his Ancient God Spear Technique stronger and stronger.

Apart from the Golden Dao Intentions, there were also the Thunder and Lightning Dao Intent.

The Thunder and Lightning Dao Intent were of great help to him as well.

Whitebird Thunder, the origin of countless thunders, carried the extreme power of thunder, absolutely restraining evil creatures. In other words, the Netherworld Ghosts were most afraid of Whitebird Thunder.

However, during this battle, Yang Chen didn't use this thunder.

For the most part, he wanted to test the Ancient God Spear Technique.

Next time, he would have to combine the power of the Thunder and Lightning Dao Intent with Whitebird Thunder.

"Now I possess the Life and Death Dao Intent, Space-Time Dao Intent, Thunder and Lightning Dao Intent, Flames' Dao Intent, Golden Dao Intent, Unyielding Dao Intent... six types of Dao Intent." Yang Chen murmured to himself.

With six different Dao Intentions, if he went all out, Yang Chen didn't even know what his limit was.

What's the benefit of six kinds of Dao Intent?

It's that when one of his Dao Intentions was used up, he could use another kind, making him nearly invincible in prolonged battles.

He didn't rely on Unyielding Dao Intent and Space-Time Dao Intent to reach the Daoist Sovereign stage; he just hoped that the Golden Dao Intent and Thunder and Lightning Dao Intent could be quickly upgraded to the Dao King stage.

No joke, after some battles, his Golden Dao Intentions had indeed started to show signs of advancing to the Daoist Lord Stage.

This was also due to the Immortal Qi, which made Yang Chen secretly smile.

He cultivated for a night, and the time he had agreed with Hua Wanru soon arrived.

After giving it much thought, Yang Chen shouldn't have gone, but in the end, he couldn't resist his urge, left the team, and came to the place where he had agreed to meet with Hua Wanru.

When he arrived, Yang Chen discovered that Hua Wanru was already there.

Seeing Hua Wanru as she was now, Yang Chen took a deep breath.

Before he could speak, Hua Wanru took the initiative and said with a charming smile: "You still came, Yang Chen."

"Why are you in this spatial node?" Yang Chen said in a heavy tone.

"Why can't I be in this spatial node? On the other hand, you, not long after your wedding, came here. How come on your wedding day, your young wife couldn't satisfy you?" Hua Wanru's coquettish laughter made one's heart stirred with waves of emotions.

After speaking, she glanced seductively at Yang Chen: "How about it, do you want me to satisfy you?"

Yang Chen's expression turned cold: "Hua Wanru, I have no time for your nonsense. Coming here is seeking death. With your early Enlightenment Stage cultivation, you're here to die?"

"Are you worried about me?" Hua Wanru smiled faintly.

Yang Chen said solemnly, "You!"

Immediately after, he said in a low voice: "I am not worried about you, don't misunderstand."

"Hehehe, misunderstanding? If you're not worried about me, why would you come and see me here?" Hua Wanru spoke gently, "Yang Chen, why hide it from yourself? You are worried about me, you have me in your heart, and you can't forget about me. What's wrong with admitting it? Zhang Xuelian is not here now, what would you lose if you just admit it?"

Hearing this, Yang Chen hesitated, wanting to retort, but Hua Wanru immediately pointed at him and said; "Yang Chen, do you dare to deny that I'm wrong?"

Yang Chen's expression deepened, "Hua Wanru, you calculated everything, didn't you? You knew I would come to this spatial node and waited for me here, not listening to my words. Why didn't you leave? Why did you have to stay and entangle yourself with me?"

"You're still saying you're not worried about me?" Hua Wanru's lips curved into a beautiful arc, "See, you're worried about me, wanting me to be far away because you don't want to kill me."

"You!" Yang Chen didn't know what to say at this moment.

Indeed, he didn't want to kill Hua Wanru, so he let her leave, but this woman didn't intend to listen to him at all.

Hua Wanru was very oppressive, seizing the opportunity to say, like a torrential rain: "Yang Chen, let me tell you, there's never been a retreat or giving up in my world, especially when it comes to you. I don't mind that you married Zhang Xuelian; I don't care how deep your feelings are for her. I just want you! I want to completely have you, possess your heart and your body!"

Chapter 2363: Surely We Can Get Yang Chen\_1

A straightforward confession.

It looks more like an attack.

Yang Chen, on the other hand, was caught off guard and didn't even know how to respond.

"You..." Yang Chen said solemnly, "Hua Wanru, do you really think I dare not lay a hand on you?"

"Then lay a hand on me." Hua Wanru was not afraid, sticking out her chest, licking her red lips, "To be honest, Yang Chen, I really look forward to you making a move on me again. I'm just afraid you don't have the guts. Did Zhang Xuelian remind you many times before you came not to cheat? Hahaha!"

Yang Chen frowned when he heard this. He didn't remember at first, but after thinking carefully, it seemed to be true.

Before he came, Zhang Xuelian had told him that this time he would have some difficulties coming from himself.

Now looking at it, wasn't Zhang Xuelian referring to Hua Wanru back then?

Zhang Xuelian had expected Hua Wanru to come long ago.

This made Yang Chen's scalp tingle.

"I have a way for you to cheat without Zhang Xuelian finding out. Are you willing or not?" Hua Wanru suddenly said with a coquettish laugh.

Yang Chen could only feel his heartbeat accelerate. With Hua Wanru's temptation, even immortals would have difficulty keeping themselves in check.

He took a deep breath and could only say coldly, "Hua Wanru, put away your tricks."

"I've said it before, Yang Chen, I want to have you all to myself. Either you kill me, or you wait for me to seduce you and win you over." Hua Wanru was even more blunt.

Upon hearing this, Yang Chen took a deep breath and was somewhat at a loss with Hua Wanru.

He said, "Hua Wanru, have you ever thought about it, are you trying to get me because you want to fight Zhang Xuelian, or because you have me in your heart? You've never had me in your heart, you just don't want to lose to Zhang Xuelian, it's your pride, your competitive nature, and your desire to win that's acting up. Indeed, I can't bear to kill you, and I admit, my heart does have room for you. I have to admit, that night we committed that absurd act together, I really can't bring myself to kill you again."

"But what about you? You don't really like me because you're not Zhang Xuelian, so why torture yourself?"

Hua Wanru sneered, “Yang Chen, how do you know I don’t like you? You really underestimate your own charm.”

Yang Chen was dumbfounded.

And Hua Wanru’s mouth curled up into a beautiful curve, “Yang Chen, you’re right. At the very beginning, I was only competing with Zhang Xuelian. But it’s different now. I admit that Zhang Xuelian didn’t choose you to be her husband without reason. You’re really outstanding, so outstanding that it makes people jealous. You threatened me, then let me go, and so the cycle continued. Right now, I’m really hooked on you. A woman’s heart, Yang Chen, how much do you know?”

Yang Chen looked at Hua Wanru’s sentimental, melancholic appearance, his expression becoming solemn, knowing that things were bad.

At his level of cultivation, he had already grown very open-minded about the feelings between men and women.

Liking is liking, love is love. Yet, Hua Wanru actually really fell in love with him?

“What, hard to believe?” Hua Wanru smiled faintly.

Yang Chen smiled helplessly, “Hua Wanru, we really are entangled in passion and karma.”

“Why is it karma, just because I am the dark side of Zhang Xuelian? Yang Chen, you should lighten up. What’s wrong with a man having two women at once?” Hua Wanru raised the corner of her mouth.

“Are you willing to be the lesser one?” Yang Chen asked.

“I’m willing to be the lesser one for now, and then push the bigger one down.” Hua Wanru chuckled, her body trembling seductively, fully showcasing her enchanting charm.

Yang Chen shook his head, “Hua Wanru, it’s impossible between us.”

“Don’t come up with that, you just said that you have feelings for me, and I heard it all.” Hua Wanru’s smile was sweet, and it was evident that she was very happy inside.

Yang Chen paused and said helplessly, “Alright, even if there are feelings, so what?”

“Do you know why I came to this spatial node? Do you think I didn’t know about the dangers here? Do you think I didn’t know that with my cultivation level, it’s impossible to survive here? But I still came, why?”

Hua Wanru clenched her fists, “Because I know very well that I can’t beat Zhang Xuelian anymore.”

As she said this, a sense of frustration rose within Hua Wanru. Even though she didn’t want to admit it, it was already a fact.

“But I won’t give up so easily. So I came here, knowing you would come. I deliberately waited for you here, even though I know it’s very dangerous, I still wanted to be here. If I can’t be with you alone outside, I want to have you during this short time!”

Hua Wanru’s beautiful eyes were fixed on Yang Chen.

That gentle gaze made Yang Chen’s heart tremble.

He knew that Hua Wanru had really changed.

From their initial life-and-death enemy relationship, their turbulent connection had softened into tender affection. Hua Wanru was sincerely trying to be with him.

Yang Chen was quite troubled.

On one side was Zhang Xuelian, and on the other side was Hua Wanru.

One was unparalleled in ice and snow, and the other cunning like fire!

Yang Chen's heart was torn, when suddenly, a middle-aged looking man appeared in the distance.

This man exuded the aura of the Nirvana Stage, and as he approached, his body emitted an icy coldness, "Wanru, who is this...?"

Seeing the man's arrival, Hua Wanru revealed a smile, "This is Yang Chen, the person I like."

"Yang Chen?" The Nirvana Stage middle-aged man seemed to know Yang Chen, "Didn't he marry Zhang Xuelian? How are you still with him...?"

"I like him, what does it matter if he's married to Zhang Xuelian?" Hua Wanru simply said.

The man's expression in the Nirvana Stage suddenly darkened.

Yang Chen could feel the cold hostility coming from him.

"Who is this person?" Yang Chen asked Hua Wanru through Sound Transmission.

Hua Wanru also used Sound Transmission to laugh softly, "He is a Primal Supreme, one of the top Supremes of Taiyi Sect. He has been pursuing me for a long time. Look, there are many people who want me if you don't. What do you think? If you don't want me, I might just go with him."

Yang Chen's expression changed slightly. To be honest, it didn't taste good to him to see this Primal Supreme suddenly show up.

"Hahaha, look how scared you are. You said you didn't have feelings for me? Don't worry, Yang Chen, I'm just joking with you. I, Hua Wanru, cannot say that I have other virtues, but I am the kind of person who will never turn back even if I ram my head against a wall. This will never change." Hua Wanru said softly.

Hearing this, Hua Wanru began to laugh in her heart.

She had tested him again.

Yang Chen did have feelings for her in his heart, but he didn't dare or couldn't let go.

As long as she could resolve Yang Chen's psychological difficulties, she would definitely win him over.

Chapter 2364: Is Your Position High?\_1

But now, this Primal Supreme has become a problem.

At this moment, the Primal Supreme's face is gloomy, staring straight at Yang Chen.

"Yang Chen, right?" Primal Supreme nodded thoughtfully: "I've heard a little about you. You're pretty famous in the Enlightenment Stage, reaching the Daoist Sovereign stage at a young age, which is quite rare. Moreover, you married our Taiyi Sect's Zhang Xuelian. Not bad!"

"Thank you for your praise, senior." Yang Chen knew that this person had ill intentions and kept a neither humble nor arrogant attitude.

It was obvious that the Primal Supreme was looking for trouble with Yang Chen.

Especially after hearing that Hua Wanru had feelings for Yang Chen.

He, with a cold face, said: "To be honest, Yang Chen, being able to marry Zhang Xuelian is already your fortune. Although I don't know how you, someone like you, would win Zhang Xuelian's heart. But as for Hua Wanru, I hope you can stay away from her. To be precise, I don't want to see you getting closer to her ever again. If I do see it, I guarantee, you will die miserably, very miserably!"

In the end, Primal Supreme grinned sinisterly.

Hua Wanru's expression darkened, and she was very unhappy with Primal Supreme's words.

She hated it when others tried to control what she liked to do.

However, she didn't see any retreat or hesitation in Yang Chen's eyes, which made her gently smile.

She hoped to see such a Yang Chen.

If it were just the initial few sentences, Yang Chen could still maintain his calm without getting angry.

But the latter words from the Primal Supreme made Yang Chen's face indifferent: "What if I insist on contacting her?"

Hearing Yang Chen daring to defy him, Primal Supreme's expression turned furious: "Yang Chen, is it because you gained some fame in the Enlightenment Stage that you became arrogant, thinking you can actually compare with a Nirvana Stage cultivator? Let me tell you the truth, in front of the powerful ones in the Nirvana Stage, you are nothing."

Yang Chen shrugged: "Primal Supreme, within this spatial node, even if your cultivation reaches the heavens, it seems, has nothing to do with me. Are you saying you want to take action against me?"

"Hmph, Yang Chen, I can't take action against you. But I have to tell you, I am one of the deacons in this area. I have the right to adjust the position of any team member, even the team leader position. Yang Chen, if you don't do as I say, rest assured, I will make you die miserably." Primal Supreme said this, licked his lips, and his smile turned sinister.

Hearing this, Hua Wanru frowned, "Primal Supreme, that's too much."

Primal Supreme ignored Hua Wanru. In fact, his heart was full of rage now, as Hua Wanru had always been cold to him, but now she was looking at Yang Chen with admiration. How could he bear it?

With his anger burning to a certain extent, Primal Supreme disdainfully said: "So what if it's too much? Hua Wanru, you should be very clear that at our level of cultivation, what's the use of so-called goodwill? What matters is strength and power. He is not as strong as me, nor does he have as much authority as me, and within this spatial node, he can only be garbage, a useless ant!"

"Senior Primal, do you think your position as the deacon is excellent?" Yang Chen said calmly.

"Hahahaha, what's the matter? You think it's unsatisfactory and want to compare yourself to me?" Primal Supreme shrugged: "What do you have to compare with me?"

"You misunderstood something. I never needed to compare with you, because you're simply incomparable to me." Yang Chen said indifferently.

"Hahahaha!"

Primal Supreme laughed arrogantly, feeling that Yang Chen was telling him something hilarious.

However, the next moment, a token suddenly appeared before his eyes.

This token was made of special materials, well-crafted, and could represent some positions. And this position was generally among the highest.

At his level, he was far from qualified.

"This..."

"This is the Heroic Order."

Yang Chen said expressionlessly: "Primal Supreme, now tell me, with this Heroic Order in my hand, can I justifiably charge you with a crime and strip you of your deacon position for your disrespect?"

Primal Supreme was shocked, and his face turned blue and purple, unable to speak.

“Good, very good.” Primal Supreme couldn’t figure out how Yang Chen obtained the Heroic Order.

It was supposed to be something that could only be obtained by those in the top ten in battle achievements. How did a little guy like Yang Chen do it?

It was baffling.

Primal Supreme knew that staying here would be useless, so he gritted his teeth and chose to leave with a wave of his sleeve.

As Primal Supreme left, Hua Wanru covered her small mouth and giggled.

“Yang Chen, I never expected that you would have this Heroic Order. I thought I had already overestimated you enough.” Hua Wanru’s eyes were full of charm.

Her attitude was completely different from before.

What sets Hua Wanru apart from Zhang Xuelian is that she is ruthless, cold, and even underhanded towards strangers or people she dislikes.

But she is infinitely passionate and persistent towards the things or people she likes. This is Hua Wanru!

Her words were full of temptation, making Yang Chen a little overwhelmed.

“I have to go back.” Yang Chen said.

“Go ahead, after all, I already know that you have me in your heart. Hehe, just like before, you could have ignored Primal Supreme, but in the end, you took out the Heroic Order. It proves that you didn’t want to lose to him.” Hua Wanru smiled charmingly.

“You’re overthinking it.” Yang Chen said solemnly, choosing to be stubborn.

After that, Yang Chen turned and left.

Hua Wanru stared at Yang Chen’s figure, her smile becoming softer and more aggressive.

She was determined to win Yang Chen!

And so, Yang Chen returned to the team.

Seeing Hua Wanru had left his thoughts somewhat disordered, Yang Chen chose to calm down and cultivate in order to untangle his chaotic thoughts.

Three days later, after calming down...

Yang Chen’s meditation was suddenly interrupted.

At this moment, Yang Chen was surrounded by Thunder and Lightning Dao Intent as well as Golden Dao Intentions. When he recovered, he suddenly opened his eyes.

“What happened? Lei Hao and the others seem very anxious.” Yang Chen’s expression was solemn.

Immediately, he waved his hand lightly, and then both the door and the prohibition opened simultaneously.

Lei Hao and the other team members respectfully entered. Their attitude towards Yang Chen was as humble as possible, and no longer the condescending manner from at first.

If someone saw this scene, they would be astonished.

After all, it was a rare sight to see several Nirvana Stage cultivators showing such respect to an Enlightenment Stage cultivator.

“What happened?” Yang Chen asked when he saw how anxious the people were to find him.

Chapter 2365: On the Eve of War\_1

When Lei Hao and a few of his teammates entered, they said respectfully, “Little Brother Yang Chen, there’s been a big incident outside.”

“What big incident?” Yang Chen asked with curiosity, not understanding what had happened.

“It’s like this; Netherworld Ghosts have always been rare to unite, giving us the advantage in the spatial node. Even though we various races aren’t very united either, at least we can stand together against these Ghostly Beings. Yet we don’t know what’s happening this time, but these Netherworld Ghosts have come together and launched a fierce attack on our area. You can let your Divine Soul spread out and see for yourself,” Lei Hao said with a smile.

Yang Chen saw Lei Hao’s respect for himself and couldn’t help but laugh in his heart.

It seemed that Lei Hao was genuinely afraid of him now, treating him with utmost respect and not daring to act arrogant as someone in the Nirvana Stage.

When he let his Divine Soul spread out to observe the external world, he saw a dense sea-like mass of Netherworld Ghosts, which was truly frightening.

After seeing the number, Yang Chen took a deep breath and exclaimed, “What’s going on? Why have these Netherworld Ghosts suddenly decided to launch such a massive attack?”

“Could it be related to our killing of Hell Ghost Venerable?” Tian Di nervously said, slightly fearful of Yang Chen.

Upon hearing Tian Di's words, Yang Chen raised his eyebrows and said, "You might be right. It's not impossible that the fall of a Ghost Lord would cause these Netherworld Ghosts to take action. However, there's no evidence for this yet, so discussing it now isn't of much use. Since the Netherworld Ghosts have launched general attacks, the leaders on our side shouldn't remain indifferent either, right?"

There are four regional commanders in the four major regions.

Beyond that, there are Divine Generals.

To hold the position of Divine General, one must reach the Nirvana Stage Ultimate or become a Half-step Heavenly Venerate. It is a unique and exceptional title.

It's challenging to find a Divine General level powerful person in one region.

Why can a Hero Command be on par with Divine Generals and commanders? It's because even the weakest among the top ten have reached the Ultimate level, and Yang Chen is an exception.

Then, there are Deputy Generals, stewards, Chief Captains, and squad captains.

Hearing Yang Chen's question, Lei Hao said, "Of course, North Dragon Commander has ordered all of our teams to gather outside. If the Netherworld Ghosts want to launch a general attack, we cannot show any weakness either. Once all of our teams have assembled, we will fight them."

"Oh? If that's the case, let's go outside," Yang Chen knew that the others were waiting for him, so he quickly prepared and headed out with the others.

"Thank you, Brother Yang Chen," Lei Hao and the others flattered him and quickly led Yang Chen away.

Yang Chen and Lei Hao's team quickly arrived outside the battlefield.

When they arrived, Yang Chen saw the Netherworld Army's shocking presence. The number wasn't very high, but the quality was evident. The weakest were in the Enlightenment Stage, while the stronger ones were in the Nirvana Stage.

There were nearly a thousand of them, outnumbering the entire Western War Zone!

Yang Chen's side consisted of the various races, and their combined army consisted of seven or eight hundred people. Clearly, they were at a disadvantage, but more squads were still arriving. However, their momentum was weaker than the Ghostly Beings.

The Netherworld Ghosts did not make a move, but they all stared at the front line of the various races' army with a fierce gaze.

"Yang Chen, that's where the North Dragon Commander and his men are!" Lei Hao said ingratiatingly, with a full-on flattering tone, "This North Dragon Commander is from the Earth Slaughter Clan and currently the only Nirvana Stage Ultimate power in our entire Western War Zone."

"Just him?" Yang Chen whispered.

He began to worry since from the Netherworld Ghosts' attacking aura, it seemed there was more than one Nirvana Stage Ultimate power.

North Dragon Commander was now standing in the air, hands behind his back, with a group of Deputy Generals following him.

These Deputy Generals were strong practitioners in the Nirvana Stage Third Phase, each with remarkable strength. Seeing the dense mass of the enemy army, they all looked grim and said, "Commander, what do you think these Ghostly Beings are planning? They were fine just a few days ago but suddenly started a general attack. What should we do?"

North Dragon Commander had a serious expression, "Our Western Region is the weakest in terms of combat power. Reinforcements haven't arrived yet, and now these Ghostly Beings launch a sudden general attack. It's really not a good situation. Based on my investigation, there are two Nirvana Stage Ultimate experts among them, while on our side, I am the only one. This is the worst thing."

“If only we could get one of the support forces from the other region, a Divine General or a top-ten Hero, that would be the best,” said a few of the Deputy Generals.

North Dragon Commander shook his head helplessly, “You all have nice thoughts. It might be possible to have a Divine General level power. However, getting a Hero-level existence is quite difficult. As far as I know, the situation in the South and East is the fiercest. There are more than a dozen Nirvana Stage Ultimate experts in those two regions combined, but there are only ten Heroes. How easy it would be to enter the top ten; right now, I’m only ranked 14th. If a top ten Hero were to come, it would indeed make my job much easier.”

“We’re just daydreaming. If we could get a Divine General, we would be content.”

North Dragon Commander said solemnly, “I hope so, but given the current situation, these Ghostly Beings are likely to launch a general attack even before the reinforcements arrive. Our situation is dire. Have all the squads from the various races gathered yet?”

“They’re mostly here. In terms of combat power, we still seem to be lacking. We never expected that the overall strength of these Ghostly Beings would be so terrifying. It’s tough for our various races to gain the upper hand against them even when we work together within a spatial node,” the Deputy General and steward sighed.

“Hmph, the Netherworld Ghosts are even more terrifying than you can imagine,” North Dragon Commander said grimly.

At this moment, a figure emerged from the rolling black clouds on the side of the Netherworld Ghosts.

This person was dressed in black and looked almost identical to a human, except he was more enchantingly handsome.

He was quite young, around thirty years old. As he stepped out, he emitted an astonishing aura of the Nirvana Stage from his body.

He was a Nirvana Stage Ultimate powerhouse.

When this aura fell upon everyone, many people were shocked.

“The various races of the Spirit World, listen up. I am Canglang Ghost General, and this is Moon Demon Ghost General!” Canglang Ghost General waved his hand and introduced the Ghost General next to him.

The two Ghost Generals almost simultaneously released their auras. The wicked energy spread out, startling everyone and clearly conveying their terrifying Nirvana Stage Ultimate power.

“Nirvana Stage Ultimate?”

“Two Nirvana Stage Ultimates!”

Yang Chen was the most surprised of them all.

That’s because one of them was the Moon Demon Ghost General he knew!

Chapter 2366: This Enlightenment Stage is Very Mysterious\_1

Who is the Moon Demon Ghost General?

He had killed the most powerful Ghost General under the command of the Yellow Springs Ghost Venerable, the Moon Demon Ghost General.

The strength of the Moon Demon Ghost General is unfathomable, and he is very calm in his actions. He can even use some divine powers to keep up with him after a space-time jump.

He originally thought that the power of this Moon Demon Ghost General was at most the second or third stage of Nirvana, but he didn’t expect this Ghost General to be so deep, reaching the peak of Nirvana.

This surprised Yang Chen.

Good thing he didn't fight this Moon Demon Ghost General at that time and chose to go back and kill the Yellow Springs Ghost Venerable instead.

Otherwise, if he really fought with the Moon Demon Ghost General, he would not have been able to avoid a big trouble. After all, the peak of Nirvana is not easy to provoke.

It also made sense for a ghost venerable to have a peak Nirvana Ghost General by his side.

At the same time, when the Moon Demon Ghost General and the Canglang Ghost General released their qi, it was the Canglang Ghost General who spoke: "Everyone in the Spirit Realm, today our Netherworld ghosts have gathered here, and we are not in a hurry to fight with you all. So, don't be nervous, we can use another way to decide the outcome."

Upon hearing this, the Northern Dragon Commander became interested: "Oh? What kind of method do you want to use to decide the outcome?"

He was naturally very vigilant, but as soon as the Canglang Ghost General stood out, he first demonstrated his own strength and cultivation level. Two peak Nirvana generals, which were very unfriendly to their current camp.

If these Netherworld ghosts really fought over, it was undoubtedly that their side would suffer a lot of losses.

However, these Netherworld armies didn't think so and chose another method.

After thinking about it, Northern Dragon was also very curious about this other method.

The Canglang Ghost General slowly said: "The method we want to use is very simple. We will send only five ghost generals from our team. These five ghost generals are the five strongest ghost generals in our side, besides me and the Moon Demon Ghost General. They are called the Five Corpse Generals of the Netherworld."

“We will use only these Five Corpse Generals of the Netherworld and stand here. You various clans of the Spirit Realm can send your squads, two people each, to challenge them in turn. As long as you can successfully defeat these Five Corpse Generals of the Netherworld, we, the Netherworld Army of the Western Region, will retreat without a fight.” The Canglang Ghost General confidently said.

Hearing this, the various clans of the Spirit Realm fell into contemplation.

Northern Dragon rubbed his chin and was tempted: “Oh? Interesting, it seems that the two of you are very confident, alright, since that’s the case, even if your Five Corpse Generals are impregnable, we’ll have to try and break through. But before that, I have to consult with my fellow clansmen.”

When the conversation ended, he looked around, wanting to ask the opinions of those around him.

Undoubtedly, these vice generals shook their heads one after another: “Commander, this is obviously a trap. These Netherworld people aren’t stupid. Only five of them will challenge our various squads. Even if we only send the two strongest ones from these squads, there will be more than sixty people in thirty squads. A war of attrition would be enough to make these Five Corpse Generals of the Netherworld unbearable.”

“Yes, we think there must be a conspiracy. We must think twice before acting!”

“Commander, what do you think these ghosts are thinking about?”

Northern Dragon Commander pondered: “Undoubtedly, there is a conspiracy in these two ghost generals. However, even if there is a conspiracy, we have to try it. In the face of absolute strength, the conspiracy is meaningless. If we can defeat these Five Corpse Generals, our morale will be greatly boosted. By that time, even if we don’t have the advantage in numbers, we’ll still be able to fight.”

“Moreover, you should know that we are short of time now. The Five Corpse Generals seem to have many conspiracies, but they are very helpful in delaying enough time for us.”

Upon hearing the Northern Dragon Commander’s words, the other vice generals also pondered: “Commander, you are right. We don’t have many choices now. If we refuse, it will be a direct battle.”

“If we really fight, we won’t gain any advantage on our side. The best way is to wait for reinforcements. For now, let’s just agree to the proposal of these Netherworld ghosts.”

Upon hearing that his subordinates also thought it was a good idea, the Northern Dragon Commander nodded and began to respond to the Canglang Ghost General and Moon Demon Ghost General.

“Alright, after discussing, we humans have no objections. You can send out the Five Corpse Generals now.” Northern Dragon Commander said.

The Canglang Ghost General clapped his hands, and five ghost generals, emitting a terrifying aura, stepped forward at this time.

These five ghost generals were surrounded by black smoke, with ferocious fangs, horrifying faces, and huge size.

At first glance, it was clear that these five ghost generals were not easy to provoke.

“These are the Five Corpse Generals we sent out. You can challenge them as much as you want. As long as you can knock down all of the Five Corpse Generals, you win.” The Canglang Ghost General said with a faint smile, a hint of conspiracy on his face.

More accurately, it was an open conspiracy.

But the various clans had no choice but to accept the open conspiracy and had to agree. If they didn’t accept, they would have to resolve the conflict in a more cruel way.

Seeing that the Five Corpse Generals had stepped forward, the Northern Dragon Commander knew they would not be easy to deal with, but since they had agreed, there was no possibility of retreat.

“Team 1 and Team 2, send out the two strongest from each. Go up and test the waters, try their strength!” The Northern Dragon ordered.

People below quickly arranged.

Squad 1 and Squad 2 started discussing.

Then, the two strongest from each were selected and stepped forward.

A total of four people were going to challenge four of the Five Corpse Generals.

Yang Chen found it very strange.

What was the purpose of the Moon Demon Ghost General and Canglang Ghost General? What was the meaning of sending out the Five Corpse Generals?

While he was pondering, the Moon Demon Ghost General and Canglang Ghost General both had a mysterious smile at this time.

“Hmph, the humans have taken the bait.” The Moon Demon Ghost General sneered coldly.

Canglang Ghost General held his hands and said: “Moon Demon, I told you, why bother with these useless methods. The Yellow Springs Ghost Venerable is dead, why cause such a big commotion, we might as well just invade with the whole army, right?”

Moon Demon Ghost General shook his head: “Canglang, you always think things are so simple. Although we have an advantage in numbers, it doesn’t mean we can get any special advantage by breaking in. Killing a thousand enemies and hurting 800 of our own has never been considered a victorious battle. Moreover, after the death of Yellow Springs Ghost Venerable, how can we explain ourselves to other ghost venerables if we can’t find the murderer?”

“Well, that’s true. But your words are very strange. How can someone in the Comprehension Realm really kill the Yellow Springs Ghost Venerable? Could it not be a Heavenly Venerate from the Spirit Realm who has lowered his cultivation to the Comprehension Realm?” The Canglang Ghost General could not understand.

“It’s not. If it were, I would have observed it. This Comprehension Realm is very mysterious!” Even now, the Moon Demon Ghost General still remembered it vividly.

Chapter 2367: Five Corpse Generals of the Netherworld\_1

“It’s not the Heavenly Venerate who lowered his cultivation? That’s really unbelievable. Even with the strength of the Enlightenment Stage, we still can’t believe that our Ghost Venerable could be killed. Could it be the few Nirvana Stage experts accompanying him?” Canglang Ghost General thought deeply and said.

Moon Demon Ghost General said solemnly, “I still have some discernment. When those useless squads conspired to deal with me and the Ghost Venerable, we had already noticed and measured the strength of that squad. With the strength of the Ghost Venerable, even if those Nirvana Stage experts joined forces, there would definitely be no problem as long as there were two ghost generals protecting him.”

“That’s also why I led a group of ghost generals to hunt down that couple at the time, because I knew the Ghost Venerable’s bloodthirstiness and wanted to give him space to kill. But I didn’t expect that this would result in a big mistake!”

At this point, Moon Demon Ghost General felt somewhat disheartened, “Can you believe that this Enlightenment Stage kid has made us, dozens of Nirvana Stage ghost generals, suffer frequent defeats? This kid may have mastered Space-Time Dao Intent and can travel through space at will! Such dominance makes it difficult to capture him like scaling the sky.”

“Space-Time Dao Intent? I remember you mentioned it as Space Dao Intent at first?” Canglang Ghost General took a deep breath, “If it’s Space-Time Dao Intent, that’s really exaggerated. It’s the strongest Dao Intent and extremely rare. A single domain may not even produce one or two practitioners.”

“I’m not ignorant, but Space Dao Intent alone couldn’t control space so freely. For example, that couple who reached Nirvana Stage used a Spirit Talisman given by a Heavenly Venerate to control a single spatial movement and were already exhausted and weak. Space Dao Intent may not be like this, but after two or three times, their bodies would definitely be exhausted. However, this kid is completely unimaginable. He has teleported several times through space, but he remains unharmed. This is no longer something Space Dao Intent can compare with.” Moon Demon Ghost General spoke in a low voice.

“Is it really that terrifying?”

Canglang Ghost General lowered his voice, "In any case, let's see if we can lure the kid out first. Is your method feasible? Do you know that if we fail to capture this kid, the punishment would be minor compared to the loss of the mirror held by the Ghost Venerable, which is the key to opening that domain! If we lose this key..."

"Don't worry, my method is absolutely feasible. The kid must be their ace in the team. As long as each squad takes turns trying to defeat the enemy, the kid will definitely be drawn out. If he can defeat one of the Five Corpse Generals of the Netherworld, it means his strength is extraordinary. We can join forces to kill him and retrieve the mirror. If we can capture him, it would be even better. We won't have to suffer any punishment then. A body with Space-Time Dao Intent is incredibly valuable; even the Ghost Venerables might abandon their cultivation to seize it."

So, conceding a loss and withdrawing their forces was out of the question?

Of course not!

Their goal from the beginning was only one thing: to lure out the person who killed the Yellow Springs Ghost Venerable!

The Five Corpse Generals of the Netherworld were merely means to lure out the person they wanted to see.

Yang Chen, no matter how smart he was, only knew that these Netherworld people had a conspiracy.

With his hands behind him, he looked at the members dispatched by the first and second squads.

Two elders were sent by the first squad, one fat and the other thin, both human. Their strength radiated, and they appeared formidable at first glance!

As for the second squad, they sent a member of the Tianpeng Clan and one from the Thunderclan.

Now, as they formed teams, the four of them stood in front of the Five Corpse Generals of the Netherworld.

Canglang Ghost General smiled slightly, "The Five Corpse Generals are First Child, Second Child, Third Child to Fifth Child. You can choose any of them, and whoever you pick, you will confront individually! As long as you win, that Child will withdraw!"

After hearing these words, the four squad members were excited one after another.

There was no doubt that if they could defeat one of the Five Corpse Generals at this time, they would surely attract great attention, and the merit points would be quickly obtained, right?

Thinking of this, they became extremely excited, ready to perform at their best to gain attention.

The Northern Dragon Commander also paid great attention at this time, "Everyone, as long as you can defeat one of the Five Children, this Commander will make the decision and grant you double the merit points for defeating a normal Nirvana Stage 3 opponent. I hope you can do your best and not let me down."

Upon hearing this, how could the several people sit still?

Double the merit points?

This was a good thing!

Northern Dragon Commander knew the importance of the first battle very well, so he was determined to offer double merit points to maximize their potential.

Seeing this, Canglang Ghost General and Moon Demon Ghost General both smiled, but their smiles appeared to be sneers. Laughs of people who were not worried about their own side losing at all.

"I choose you, Third Child!"

“I choose you, Fourth Child!”

“I choose Fifth Child!”

“I choose First Child!”

The four contestants quickly picked their opponents.

The fighting Five Corpse Generals all revealed cold smiles. Although they didn’t speak, the pressure they gave off was already invisible.

However, the members sent to fight were also battle-hardened and no ordinary people. They wouldn’t be frightened by these Five Corpse Generals. Now that they had chosen their opponents, the fight began almost immediately. Swiftly, both sides started to fight.

In just three rounds, the member of the Thunderclan was suddenly sent flying and spouted a mouthful of blood as he fell. He was directly defeated without even lasting three moves.

Many people gasped in shock when they saw this scene, unable to believe their own eyes.

Yang Chen was not surprised by this. The Five Corpse Generals had varying strengths; even if they were all at the threshold of Nirvana Stage 3, the First Child had the highest strength, almost reaching the peak of Nirvana Stage.

From there on, the Second Child and Third Child had progressively weaker strength.

This Thunderclan member clearly lacked insight. As a Second Stage Nirvana Period expert, he directly challenged the strongest First Child, which resulted in an utterly pathetic defeat.

Naturally, it made sense for him to be defeated within three moves.

Next up was the Third Child among the Five Corpse Generals.

The fat elder who fought against the Third Child appeared to be struggling, as he was also a Nirvana Stage 3 expert, but clearly at a disadvantage.

The member fighting the Fourth Child among the Five Corpse Generals was the thin elder.

This thin elder was in Nirvana Stage 2 and was almost defeated when fighting the Fourth Child, who was not necessarily strong among the Five Corpse Generals but not an opponent for someone at the Nirvana Stage 2.

The only evenly matched fight was between the Tianpeng Clan member in Nirvana Stage 3 and the weakest Fifth Child. Their battle was going smoothly, and neither side was at a disadvantage.

Chapter 2368: Mao Sui Volunteers\_1

This gave many people hope.

After all, at first glance, except for this Tianpeng Clan member, it seemed difficult for anyone else to have the hope of victory.

But in Yang Chen's eyes, even this Tianpeng Clan had little hope of winning.

It seemed that this Tianpeng Clan member was not at a particular disadvantage when fighting the Fifth Child. However, anyone with discerning eyes could see that the Third and Fourth Children had already been pushed to a certain extent by the chubby Elder and the skinny Elder.

Only then did the Third and Fourth Children use their skills to beat the chubby Elder and the skinny Elder into a difficult position to counter.

As for the Tianpeng Clan, their fight with the Fifth Child had just begun, and the Fifth Child had not even started in earnest yet.

However, everyone could still see something.

This Fifth Child was the easiest to exploit!

Many people had already targeted the Fifth Child.

Thus, time passed.

The skinny Elder who fought the Fourth Child was the first to succumb to the pressure and was quickly defeated. He was repelled by a palm strike from the Fourth Child and retreated in time, not sustaining severe injuries.

Next was the chubby Elder who fought the Third Child.

Compared to the skinny Elder, the chubby Elder was not so fortunate.

He had picked a tough fight with the very powerful Third Child, and after hundreds of exchanges, he finally could not withstand a move and was hit by the Third Child!

This blow was a fatal one. The chubby Elder's chest was pierced through on the spot, blood gushed wildly, and he died instantly!

Seeing this shocking scene, many people took a deep breath.

The skinny Elder's eyes narrowed, he rushed forward and shouted hoarsely, "Senior brother, senior brother, you!"

This hoarse and desperate cry angered many people.

Even the Northern Dragon Commander growled in a low voice, “Canglang Ghost General, what do you mean!”

Canglang Ghost General sneered, “What, is this not a battlefield? Are we from the Netherworld supposed to reason with you from the Spirit Realm? If someone lacks the ability and is killed, heh, who is to blame for their death? If you have the ability, you can also come and kill us.”

The Northern Dragon Commander’s body tensed up, and at this moment he remembered.

Yes, this was a battlefield.

The people of the Netherworld were naturally bloodthirsty, and their whole bodies represented death. Wasn’t death a normal thing when fighting them?

One might even say that when they came to this battlefield, everyone should be prepared to die.

In the end, the Northern Dragon Commander could only let out a sigh, “Someone, bury the Supreme of the Bitter Bone.”

At least there was a body, which was better than nothing.

Many people gasped in cold air at their current predicament. Those who had originally wanted to go up and earn some merit points now couldn’t help but feel weak in their hearts.

Looking at the Third Child of the Underworld General, who was now grinning and laughing, it was clear that he would not show any mercy when dealing with his opponents.

Nowadays, only one person from the Tianpeng Clan was still struggling to support himself.

However, just as Yang Chen had judged, the more the Tianpeng Clan fought, the more difficult it became for them to hold on, and it was not difficult to determine that they couldn’t hold on for much longer.

Finally, the Tianpeng Clan member was also defeated.

However, unlike the chubby Elder, he prepared himself well when he was defeated, and didn't give the Fifth Child of the Netherworld General a chance to kill him, saving his own life.

In this confrontation, the Five Corpse Generals of the Netherworld were victorious.

Canglang Ghost General scoffed, "We from the Netherworld have given you an opportunity, but we never thought that the various clans of the Spirit Realm would be so weak. They are completely vulnerable. Our Five Corpse Generals haven't even warmed up yet, hahaha!"

This taunt caused the morale of the various clans in the Spirit Realm to plummet.

After all, the confrontation just now made them feel the power of the Five Corpse Generals, and it was obvious that there were not many who dared to step forward.

The Northern Dragon Commander clenched his teeth, "Canglang Ghost General, it's still too early for you to be complacent. The outcome has not been determined yet."

"Hahahaha, our Five Corpse Generals are here, and we will fight as many people as you Spirit Realm clans send." Canglang Ghost General was extremely confident.

At this moment, the Northern Dragon Commander gritted his teeth, "Third Squad, Fourth Squad, choose the strongest among you to give these so-called Five Corpse Generals a taste of what you've got."

The expressions of those in the Third and Fourth Squad were somewhat awkward.

But since they came to the battlefield, they were prepared to fight and would not back down, so they chose the strongest members of their teams to have a strong battle.

This time, everyone was wise enough to target the weakest Fifth Child first.

As for the First Child of the Netherworld General, he was completely put in the back.

However, even so, the chosen members of the Third and Fourth Squads were still quickly defeated. Even the elite with Third Stage Nirvana Combat Power seemed very weak when faced with the Fifth Child of the Netherworld General, and were not their opponent at all.

The Northern Dragon Commander grew increasingly angry and chose the Fifth and Sixth Squads to go up.

However, without exception, not a single person could destabilize the Fifth Child.

It continued until the Fourteenth Squad, and still, no one could topple one of the Five Corpse Generals, causing Canglang Ghost General and Moon Demon Ghost General to laugh.

“I say, you people of the Spirit Realm, are you a bit too useless?” laughed the Moon Demon Ghost General.

The Northern Dragon Commander couldn't take it any longer, “All of our vice generals have unique skills, who is willing to give it a try?”

“This...”

Hearing these words, a group of vice generals hesitated as well,

After all, everyone had seen the situation just now. Some of the Stage 3 Nirvana stage powerhouses, whose strength was no less than their own, had only missed the vice general position due to a lack of luck and merit points.

If they were to go up now, could they really deal with these Five Corpse Generals?

The group of people couldn't help but feel helpless, but at this moment, a sudden voice sounded.

“I am willing to give it a try!”

A middle-aged man stepped forward, and if it wasn't Yang Chen's acquaintance, the Primal Supreme, who would it be?

The appearance of the Primal Supreme surprised many vice generals.

As for the Northern Dragon Commander, he was both surprised and delighted, not expecting that the first volunteer would be someone of a Deacon rank.

This made him overjoyed, “Ah, it's the Primal Supreme. Who would you like to challenge to get a head start for our Spirit Realm clans?”

“Although my strength is weak, I am willing to contribute my meager strength and challenge the Fifth Child of the Netherworld General,” said the Primal Supreme.

Hearing that it was only the Fifth Child, the Northern Dragon Commander was somewhat disappointed. However, considering that at this point, no one had defeated even the Fifth Child, he could only say, “Ah, it's great that the Primal Supreme is willing to start this. I appreciate you. As long as you can defeat him, I, the commander, will ensure that you will receive double merit points in addition to your battle merits!”

Hearing this, the Primal Supreme's expression brightened.

He thought of Yang Chen.

Strength was the key. He was about to challenge the Fifth Child of the Netherworld General now. If he succeeded, his fame would surely spread in all directions. At that time, Hua Wanru would definitely watch all this. Would Yang Chen be able to do that?

Chapter 2369: Abandoning Hope\_1

Although he didn't know how Yang Chen got the Heroic Order, he didn't think Yang Chen's strength was greater than his!

It had to be said that Yang Chen's obtaining the Heroic Order was a major blow to him.

So much so that now, he still held a grudge against Yang Chen.

But thinking about it carefully, Yang Chen was just at the Enlightenment Stage, even if he had the Heroic Order, what could he do?

Now, it was time to show his strength. What can Yang Chen do?

He was going to make a big splash and make everyone remember him!

At that time, he would like to see what the Heroic Order could bring to Yang Chen!

And Hua Wanru would definitely know who was more worthy of her cherish after this battle!

With these thoughts, the Primitive Supreme's inner blood was boiling.

He had already figured out how to defeat the Five Nether Generals. Their strength wasn't particularly strong. As long as he pay attention to several points, he could defeat them.

Moreover, he had been waiting for this time.

Now that the Nether General No. 5 had been continuously engaged in combat, his strength was far from what it was at the beginning.

That was why he chose to make a move.

Single combat!

Northern Dragon Commander shouted, "Our Western Region's original Deacon wants to have a fight with Nether General No. 5. Canglang Ghost General, let your Nether General No. 5 come out."

Hearing about the Primitive Supreme, Yang Chen became interested.

Unexpectedly, this Primitive Supreme dared to challenge Nether General No. 5. He didn't know what the outcome would be.

Primitive Supreme was indeed full of confidence now. As soon as Nether General No. 5 appeared, he planned to take the initiative and start fighting Nether General No. 5 directly.

In this fight, they had dozens of rounds.

Yang Chen watched with astonishment.

Surprisingly, the Primitive Supreme really gained the upper hand.

Nether General No. 5, on the other hand, was now struggling to cope, unable to keep up with the rhythm of Primitive Supreme.

It wasn't that the Primitive Supreme's strength was truly greater than Nether General No. 5's.

However, after fighting many battles, the Nether General No. 5 had already lost much of his endurance. His Dao Intent Inscriptions desperately needed to be replenished and repaired.

At this state, Nether General No. 5's strength was far from what it was at the beginning.

As for the Primitive Supreme, he came prepared. At the moment of taking action, he had already studied Nether General No. 5 thoroughly, found some of his weaknesses and flaws based on his previous fights.

Then, taking advantage of these weaknesses and flaws, the Primitive Supreme took the initiative and did indeed gain an advantage, achieving a miraculous effect!

Now, Nether General No. 5 was mainly showing signs of defeat.

“The Primitive Supreme is going to win.” Yang Chen had to admit this.

As he had expected, the Primitive Supreme used his third-stage Dao Intent Inscriptions to launch a series of crazy attacks. After a series of continuous bombardments, Nether General No. 5 could no longer hold on. He was hit by the Primitive Supreme with one blow and fell back with blood spewing out, almost suffering a severe injury.

Seeing this, the other Nether Generals quickly stepped in to protect No. 5, preventing him from being killed.

In fact, for the Primitive Supreme, defeating No. 5 was more than enough, and he had no intention of killing him.

Because the fame and fortune he wanted had already been gained.

At this moment, the Primitive Supreme’s victory caused many people to cheer. The Northern Dragon Commander laughed aloud, showing appreciation for the Primitive Supreme: “Primitive Supreme, good job! Excellent!”

Now, they urgently needed someone to breakthrough, and the appearance of the Primitive Supreme had achieved this!

Hah when the gap was opened, the morale came up too.

The Primitive Supreme saw that the Northern Dragon Commander was very satisfied with him, and he felt a little proud. He immediately said, “This is all just my duty.”

As the conversation ended, his gaze fell upon Yang Chen of the Twenty-First Squad, his eyes full of provocative meaning.

Yang Chen naturally sensed this and couldn't help but shake his head with a wry smile, realizing that the Primitive Supreme still held a grudge against him.

Now, with a single Deacon like the Primitive Supreme winning the first battle, managing the vice generals became somewhat difficult.

"I would like to challenge Nether General No. 4!" One of them stepped forward, feeling that not taking action was inappropriate. Their position as Vice General might be in danger, so they decided to take a risk.

The other vice generals, after much thought, also chose to take action.

In this way, one by one, many vice generals finally chose to take action.

However, these vice generals obviously didn't have as much scheming as the Primitive Supreme. Although they chose Nether General No. 4, who was the weakest now, they had no preparation compared to the Primitive Supreme.

As a result, several vice generals fought in a row, but still couldn't defeat Nether General No. 4.

Finally, a lucky and powerful Nirvana Stage 3 vice general of the Divine Crane Supreme defeated Nether General No. 4, achieving another victory.

However, the further down they went, the more difficult it became.

It took more than a dozen squads to defeat the fifth child, and only a few managed to succeed after a Deacon's many preparations.

As for the fourth child, it took many vice generals to take turns and finally resolve the situation!

What about the third child and the second child?

And what about that mysterious and unfathomable first child who defeated their opponents with just one move?

It could be said that the strength of Nether General No. 1 was so strong that it was frightening.

Up to now, there were no shortage of people who tried to challenge Nether General No. 1, but without exception, all of them were defeated by Nether General No. 1 with a single powerful move!

No one dared to think about Nether General No. 1 anymore.

Because even defeating the third child was a problem now.

Almost all the vice generals around the Northern Dragon Commander had taken action, but the third child remained unharmed, making it difficult for the Northern Dragon Commander to save face.

But giving up was not an option.

Let the next squad continue to send people into battle!" The Northern Dragon Commander roared, "Whoever wins against Nether General No. 3 gets triple the merit points, against No. 2 quadruple, and against No. 1 quintuple!"

Hearing these words, the members of various clans finally got motivated.

The following battles were a frenzy of action.

However, the results remained the same.

Up to Twentieth Squad, each squad sent out its strongest members, but they still couldn't defeat No. 3!

This scene made many people feel goosebumps. The Five Nether Generals were simply too strong.

Despair.

Now, whether it was the Northern Dragon Commander or the other teams, all they had was despair.

The Five Nether Generals were too strong. They'd barely managed to shake up two of them, but the remaining three were impregnable. A war of attrition simply couldn't achieve victory!

There was not even a trace of hope.

The squads that followed just went through the motions.

Finally, squad twenty ended, and it came to squad twenty-one...

Now the Northern Dragon Commander didn't hold any hope, looking at the Twenty-First Squad.

There were actually two at the Enlightenment Stage? And with eight incomplete members, how could they fight?

Chapter 2370: Challenging the First Son of the Netherworld General\_1

Now, the Northern Dragon Commander is both angry and frustrated. He didn't hold much hope to begin with, and now he's utterly despairing about the Twenty-First Squad.

However, he couldn't say it outright. At this point, all he could do was to proceed and ask, "Twenty-First Squad, who is the strongest in your team?"

Twenty-First Squad was led by Lei Hao.

If it was before, the team members would have undoubtedly chosen Lei Hao. After all, he was the only one who had reached the peak of the second stage of the Nirvana realm within the entire team.

However, everyone else was only at the first stage, and only Zhang Wanyang had reached the early second stage, with a significant gap compared to Lei Hao.

But since Yang Chen had stepped up once, everyone could not easily make a choice.

After all, during that time, Yang Chen's combat power was more than enough to deal with two opponents at the second stage of the Nirvana realm, and he could even defeat them easily.

Undoubtedly, Yang Chen's strength was stronger than Lei Hao's.

Even Lei Hao himself didn't hesitate at this time and said, "The strongest person in our team should be me and my young brother Yang Chen."

When the conversation ended, Lei Hao stood up.

Yang Chen also knew that with great power comes great responsibility. Considering the provocation that the Primal Supreme had just given him, he didn't seem to have any reason to not stand out either.

However, although he believed that he was worthy of standing out, others didn't think so.

A group of vice generals and deacons were furious when they saw Yang Chen stand up. They roared, "Twenty-First Squad, who is your captain, and what do you mean by this? There are still several powerful Nirvana stage members who haven't stepped forward. What's the meaning of choosing a Comprehension realm member? Can a Comprehension realm even count as the strongest?"

The Northern Dragon Commander's face turned angry as well: "Twenty-First Squad, you're really pushing the limits."

Lei Hao looked embarrassed and could only helplessly say, "My fellow vice generals and deacons, and Commander Northern Dragon, please calm down. I am indeed the captain of the Twenty-First Squad. However, my friend Yang Chen does possess quite a strength. In our team, his strength even surpasses mine."

His words were true because he had witnessed it himself, and there was no way to deny it.

But others didn't think so. From the bottom of their hearts, they all thought that Lei Hao was joking, messing around, and talking nonsense.

"Absurd!"

"Ridiculous."

"What on earth is Twenty-First Squad doing?"

"I suggest that the Twenty-First Squad forfeits its chance to participate in the challenge. They would only disgrace themselves. Such people deserve to have their merit points deducted!"

"What a huge joke! Is a Comprehension realm stronger than a Nirvana realm? What on earth is the Twenty-First Squad thinking? Their team's strength is already weak enough, but now they want to engage in some ridiculous acts."

The Northern Dragon Commander was ready to strip the Twenty-First Squad of its right to participate in the challenge due to his anger at that moment!

However, the Primal Supreme suddenly intervened, smiling flatteringly: "Commander Northern Dragon and everyone else, don't rush to conclusions. You may not be aware of this matter. This brother is our human race's supreme genius, Yang Chen. Don't underestimate him just because he's in the Comprehension realm. He has the Heroic Order in his hands, and it's not necessarily false to say that his strength is comparable to that of a Nirvana stage."

Upon hearing the Primal Supreme speak up for him, Yang Chen just sneered.

He didn't think that the other party was helping him.

The Primal Supreme's inner thoughts were probably that he didn't believe Yang Chen's strength was strong enough to participate and wanted Yang Chen to embarrass himself.

After all, if Yang Chen were to embarrass himself, then, without a doubt, the Primal Supreme's own brilliance would shine even brighter.

Keep in mind that one of the only two Netherworld General's children who had been defeated had been defeated by him. Compared to the Fourth Child, who was defeated in a group battle, his victory was even more glorious!

So at this moment, with honor surrounding him, he was determined to step on Yang Chen hard, letting Yang Chen know that strength is the key to everything.

Heroic Order? It's nothing.

"The Heroic Order? What a joke!" The Northern Dragon Commander and the others couldn't sit still when they heard this.

They thought that the Primal Supreme was talking about something that had no basis at all.

The Primal Supreme continued to flatter, saying, "This matter is indeed true. Some time ago, I saw brother Yang Chen take out the Heroic Order with my own eyes."

Seeing the Primal Supreme act like this, Yang Chen didn't bother to hide it any longer. He took out his Heroic Order and said, "It's true that I, Yang Mou, possess the Heroic Order."

This made the vice generals and deacons unable to sit still.

"What, a person in the Comprehension realm possessing a Heroic Order?"

“It’s over! When did the battle against the Netherworld become dependent on relationships for promotions? Isn’t the Heroic Order only awarded to those ranked in the top ten in battle achievements? Why does a Comprehension realm person have it!”

Many people believed that Yang Chen’s acquisition method of the Heroic Order was questionable.

Especially the vice generals and deacons, who wanted to climb up the ranks themselves. When they saw the genuine Heroic Order, their hearts were filled with jealousy, and they began to belittle Yang Chen.

Even the Northern Dragon Commander’s face was full of embarrassment. A Comprehension realm person possessing the Heroic Order was simply an impossible thing.

He couldn’t believe that the battlefield would tolerate such unfair situations where Heroic Orders were given based on personal connections, which made his heart grow colder towards the situation.

With anger in his heart at this, he waved his hand: “Heroic Order, huh, impressive. In that case, you two go and give it a try.”

Looking for death?

Why would he stop them!

Seeing that the Northern Dragon Commander agreed, the expression on the Primal Supreme’s face became even more sinister.

As for Yang Chen, he stood there with his hands behind him, shaking his head slightly.

It seemed that no one was really expecting anything from him.

But looking at it again, it wasn’t really strange.

“Brother Yang Chen, which one are you going to challenge?” Lei Hao saw that everyone seemed to have contempt for the two of them and couldn’t help but smile bitterly.

“Which one do you plan to challenge?” Yang Chen asked.

Lei Hao sighed deeply, “Brother Yang Chen, I’m just a mere second stage Nirvana realm. I don’t expect to fight anyone at all. I plan to fight Netherworld General’s Third Child and simply surrender when the time comes. Although it’s a bit redundant, it’s better than fleeing without fighting.”

Surrendering would indeed be humiliating, but not fighting at all would be even more shameful.

At this moment, Yang Chen’s gaze fell on the remaining Netherworld General’s Third Child and said thoughtfully, “Well... I’ll just directly challenge the Netherworld General’s First Child.”

When his words were out, Yang Chen moved forward, leaving Lei Hao dumbstruck and his eyes blurred.

Yang Chen was just too fierce, wasn’t he?

Challenging the Netherworld General’s First Child?

What a joke.

Just now, everyone had clearly felt the First Child’s move. It seemed that only a Nirvana stage limit powerhouse could gain some advantage over the Netherworld General’s First Child.

As for the others, if they dared to challenge, the outcome would be nothing but a one-shot defeat!
