

Supreme MK 2371

Chapter 2371: One Gun and One Sword_1

This Netherworld General's first child, up till now, still remains extremely secretive.

Those who dare to challenge the third, fourth, and fifth children of the Netherworld General actually have the most confidence as people have seen these three make multiple moves, and by understanding their patterns, they hope to win through attrition.

Even so, the fourth and fifth children have just barely been defeated recently.

But the third child remains undefeated.

Yang Chen, on the other hand, is going straight for the first child?

With his Enlightenment Stage status, Yang Chen is challenging the Netherworld General's first child, whom even those in the third stage of the Nirvana Stage are too afraid to touch?

He's gone mad, absolutely mad!

Lei Hao can't figure it out now; he locked eyes with Yang Chen and found that Yang Chen was indeed heading toward the first child of the Netherworld General.

"What is this guy up to?"

Many people were surprised when they saw the direction Yang Chen was targeting.

"It looks like he's heading for the Netherworld General's first child."

"The first child of the Netherworld General? What is this kid thinking?"

As the crowd was puzzled, the Moon Demon Ghost General and the Canglang Ghost General also noticed Yang Chen.

When he saw Yang Chen, the Moon Demon Ghost General's expression turned cold: "It's this kid."

Canglang Ghost General said in a deep voice: "Is it him? He doesn't seem to be anything special. Moon Demon, could it be that you are too sensitive?"

"No, this kid is definitely not ordinary." The Moon Demon Ghost General said with certainty.

Seeing the Moon Demon Ghost General's confidence, the Canglang Ghost General didn't argue any further: "What are we wasting our breath for, then? The two of us could directly attack him and kill him, couldn't we?"

The Moon Demon Ghost General waved his hand, "Absolutely not. We can't act rashly. It is still uncertain whether the Ghost Sovereign killed back then was him or not. If it wasn't him, killing him now would expose our intentions, and it would be difficult to find the person who killed the Ghost Sovereign later. After all, I wasn't present when the Ghost Sovereign fell. So, we have to find a way to determine this kid's strength and the strength of the Thunderclan person."

"If either of them wins against the current third child of the Netherworld General, it means they have the strength to kill the Ghost Sovereign, and the mirror he was carrying will be in the possession of those two."

Moon Demon Ghost General said: "Acting recklessly now without finding the mirror, I'm afraid we'll alert the enemy."

Upon hearing this, the Canglang Ghost General's expression turned serious: "Alright, in that case, I'll just be patient and wait. However, this kid's target seems to be the first child of the Netherworld General?"

Seeing this, the Moon Demon Ghost General's expression also became heavy: "He wants to fight the first child of the Netherworld General? Now that's interesting!"

Yang Chen had indeed come to the first child of the Netherworld General.

This caused the first child of the Netherworld General to slightly raise his closed eyes and look at Yang Chen's cultivation level. He sneered contemptuously and quickly closed his eyes, thinking that Yang Chen was just here to take a look and didn't have the courage to challenge him.

However, just as he was thinking this and closed his eyes, Yang Chen said astonishingly, "I challenge you. Yeah...just you."

"What!"

The entire scene was dumbfounded.

All the clans in the Spirit Realm were now astonished by Yang Chen's decision.

It was simply an unbelievable choice.

An Enlightenment stage Yang Chen chose the first child of the Netherworld General, who no one in the Nirvana stage would dare choose!

"Has this guy lost his mind?"

"A fool seeking death!"

A group of people made the same judgment.

The Primal Supreme also sneered coldly, thinking that Yang Chen was doing something suicidal. He had been worried that Yang Chen might indeed have some skills, but now that he saw Yang Chen targeting the first child of the Netherworld General, he was not worried at all.

Everyone had witnessed the strength of the first child of the Netherworld General, and it was very clear!

“Sigh...” The Northern Dragon Commander and others sighed softly, as if they had already seen the moment when Yang Chen would be completely crushed.

Even if Yang Chen died, no one would feel a sense of loss, because he brought it upon himself.

Hua Wanru was standing in the crowd at the moment, her beautiful eyes fixed on Yang Chen. She didn't know what Yang Chen was thinking or whether he could win.

Unable to suppress her feelings, she could only begin to ponder.

...

Yang Chen's words made the first child of the Netherworld General laugh.

She grinned, revealing her fierce fangs: “Kid, who do you want to challenge?”

“Seems like you didn't quite understand? I want to challenge you, the first child of the Netherworld General.” Yang Chen calmly said.

“Hahahaha!” The first child of the Netherworld General laughed haughtily, then looked down at Yang Chen contemptuously: “Boy, very well, I originally thought that I would be bored till the end, but I didn't expect someone would deliberately seek death. Since you want to die, that's good, I will help you!”

As the conversation ended, the first child of the Netherworld General suddenly took action.

With this move, a long sword with two thousand Dao intent inscriptions appeared in his hand.

Wielding the sword, he unleashed endless Dao intent power, creating a violent gust of wind. Corrosion seemed to form a straight line.

The power was so terrifying that a mere glance was enough to make one feel chills and fear subconsciously.

“Sealing corrosion Dao intent inscriptions on the sword, it seems my prediction was correct. In that case...”

Yang Chen took out the Slaughter God Spear and, in an instant, waved it, generating sweeping divine power and raging True Qi.

A dancing Golden Butterfly suddenly dispersed and bloomed, followed by a glimpse of Yang Chen’s spear connecting with the sword.

“A King Divine Weapon!”

“It’s over!”

The deputy general beside the Northern Dragon Commander had sharp eyes and recognized that Yang Chen was holding a King Divine Weapon. It was precisely because of this that they sighed in pity.

If Yang Chen were to die later on and the King Divine Weapon were to be taken away, it would be quite normal. However, they simply didn’t have time to save anything due to the suddenness of the situation.

When the first child of the Netherworld General saw that Yang Chen had a King Divine Weapon, his expression showed joy.

“I’m really quite lucky.” The first child of the Netherworld General laughed sinisterly and increased his sword power to the maximum.

The external Dao intent inscriptions covered him and were nothing short of astounding.

However, Yang Chen's spear was no joke. As the Golden Butterfly spread out, his spear managed to block the first child of the Netherworld General's sword.

Immediately after, a massive wave spread in all directions, causing a brief disturbance in the air.

Seeing this, many people's pupils constricted.

"What?"

Yang Chen actually blocked the first child of the Netherworld General's attack?

Is this something an Enlightenment Stage kid could do?

Many people subconsciously found it unbelievable. In their view, it would have been most reasonable for Yang Chen to be defeated or even killed by the first child of the Netherworld General with the first move.

But now, Yang Chen had actually withstood the powerful and fierce attack from the first child of the Netherworld General!

One spear, one sword, creating dazzling sparks as they clashed!

Chapter 2372: The Beginning of the First Battle_1

The First Son of the Netherworld General was quite surprised as well, looking at Yang Chen in amazement: "Kid, well done, you've actually managed to block this seat's sword. However, using that must have consumed quite a bit of your strength, right? How long can the boost you get from the King Divine Tool last? Let's see how you'll block my next sword!"

Yang Chen responded with a slight smile, appearing very calm in the face of the First Son of the Netherworld General's technique.

The First Son of the Netherworld General was using the Corrosion Intent, which the Yellow Springs Ghost Venerable had also used before, so Yang Chen was quite familiar with it. He had already come up with some ideas on how to counter it.

However, the First Son of the Netherworld General didn't know that, thinking that Yang Chen only relied on the King Divine Tool.

He swung the marvelous sword that had been refined by Dao Intent inscriptions in his hand, unleashing another ferocious strike.

This sword, too, contained the power of Dao Intent inscriptions.

With a single slash, the hovering power was astonishing, and no one dared to block it easily.

But Yang Chen did.

With his Long Spear swaying, he unleashed another Golden Butterfly move, blocking the First Son of the Netherworld General's sword. Moreover, as Yang Chen's Long Spear moved, it also neutralized the attack.

"What!"

Many people's eyes narrowed, and they were already having trouble staying calm.

If they could attribute Yang Chen's first move against the First Son of the Netherworld General to the King Divine Tool, what about the second round?

In actuality, no matter how powerful the King Divine Tool was, it couldn't make up for the gap between Yang Chen and a Nirvana Stage 3 opponent – it was a chasm that simply couldn't be crossed.

However, Yang Chen managed to do it.

They still believed it was the power of the King Divine Tool.

But what about two rounds?

The First Son of the Netherworld General also sensed that something was off: “Kid...”

Yang Chen laughed loudly: “First Son of the Netherworld General, is this all you’re capable of? If that’s all you’ve got, then it’s my turn to make a move.”

Pointing his Long Spear lightly, it locked onto its target. In an instant, two golden butterflies flickered and danced around.

“Here it comes.” The First Son of the Netherworld General sensed the power coming from Yang Chen’s Long Spear.

He waved the sword in his hand, unleashing a slash, wanting to see just how formidable Yang Chen really was.

“What!”

Yang Chen’s move was a Double Golden Butterfly.

When facing the Double Golden Butterfly, the First Son of the Netherworld General’s heart was stirred by waves. He felt an explosive power from Yang Chen’s spear, making his blood boil and difficult to resist.

Yang Chen narrowed his eyes slightly, surprised that the First Son of the Netherworld General managed to withstand his Double Golden Butterfly with twice the power.

“You really do have some tricks up your sleeve!”

However, Yang Chen wouldn't give up. As the Double Golden Butterfly attack ended, he swung his hand again.

"Quadruple Golden Butterfly!"

"Five-stage Demon Transformation!"

At this moment, Yang Chen's body was surrounded by Demonic Qi, covering the sky like a black mass, pressing downwards with an imposing momentum!

Around the Long Spear, four golden butterflies fluttered, announcing that Yang Chen had seized control of the offensive initiative.

This infuriated the First Son of the Netherworld General even more.

"Kid, it seems that I really underestimated you. However, you'll still die!" The First Son of the Netherworld General roared in a deep voice.

The next moment, he swung his sword, getting serious.

"Netherworld Severing Sword..."

"Go!"

The Dao Intent inscriptions in the First Son of the Netherworld General's sword rolled, and several different forces intertwined, forming a Dao Technique Sword Art that directly attacked Yang Chen.

"Dao Technique..."

Yang Chen sensed it very clearly and knew that the First Son of the Netherworld General was getting serious.

However, he wasn't a pushover either. With the Quadruple Golden Butterfly combined with the demon transformation...

Yang Chen was completely focused, launching a spear on the spot that pierced through and attempted to compete with the First Son of the Netherworld General's strike.

This spear might not determine the ultimate winner, but it could determine who had the upper hand.

Even though the outcome hadn't been determined yet, many people were already amazed.

Now, the Northern Dragon Commander and his vice generals were all horrified and speechless. They had looked down on Yang Chen just now, but Yang Chen was currently fighting intensely with the First Son of the Netherworld General without falling behind at all!

This was an extremely impressive achievement!

And now, the battle was heating up, with many people's eyes fixed on it, not wanting to miss a single detail. They didn't know who would have the advantage in the end.

Yang Chen's Quadruple Golden Butterfly and the First Son of the Netherworld General's Netherworld Severing Sword quickly collided!

The shockwaves from the clash erupted in an instant, causing the surrounding area to tremble!

However, none of those at the Nirvana Stage dared to look away.

"This..."

"How can this Enlightenment Stage kid unleash such an astonishing power?"

“Perhaps it’s just the First Son of the Netherworld General’s own power?”

“Not likely...”

Many people were amazed and curious, their gazes locked on. However, they discovered that Yang Chen had already disappeared from the spot.

“Where did that Enlightenment Stage kid go? Did he vanish?”

“What’s going on?”

“Could he have fallen?”

Many powerful Nirvana Stage warriors shuddered in their hearts, but soon sighed. It was true, after all, that an Enlightenment Stage couldn’t possibly be a match for the First Son of the Netherworld General. Attempting to collide head-on would always result in an inevitable outcome.

And that outcome was certain defeat.

It was like throwing an egg against a rock or trying to compare a grain of rice’s light to the shining moon.

However, the First Son of the Netherworld General was the only one who knew the truth...

Yang Chen was still alive.

He sensed very clearly that when Yang Chen’s Quadruple Golden Butterfly and his Netherworld Severing Sword clashed, Yang Chen’s butterfly did not fall behind. It simply vanished abruptly afterward.

All of a sudden, the First Son of the Netherworld General felt that something was off.

But he felt that by the time he realized something was amiss, it was already too late!

That was because Yang Chen's next spear had already emerged from a strange spot within the void. As the Long Spear swept through, five golden butterflies fluttered lightly, closing in!

This spear would be a life-taking spear, a deadly spear.

The First Son of the Netherworld General sensed the imminent danger and took a deep breath, unsure of how to parry this spear.

He could only defend in a panic. With a cry, he unleashed all the Dao Intent inscriptions, nearly 5,000 in total, and combined them with his sword, creating a temporary Netherworld Severing Sword technique...

Even though he was defending hastily, the full power of the Dao Intent inscriptions made the technique incredibly powerful.

Yang Chen's five-fold Golden Butterfly attack, combined with a spacetime Dao Intent ambush, was still blocked by the First Son of the Netherworld General.

It left Yang Chen speechless.

However, he had already prepared a follow-up move.

At the moment when the First Son of the Netherworld General parried his attack, Yang Chen was already gathering layers of thunderbolts in his hands.

Soon, they transformed into a white bird.

Then, the white bird appeared strangely, flapping its wings twice before vanishing from the spot, targeting the First Son of the Netherworld General who had just breathed a sigh of relief!

Chapter 2373: Netherworld Ghost Qi Sword_1

This was one of the trump cards he had been brewing.

Primal Aspect of Ten Thousand Thunders, White Thunder Divine Bird.

As the thunderbird soared and flapped its wings to disappear, it only took an instant. When they came back to their senses, they heard the cry of a bird, and in a moment, it had pierced through the body of the Underworld General's First Son, followed by a burst of chaotic noise.

Interlocking, thunder and lightning rolled. The First Son of the Netherworld General was hit by the White Thunder Divine Bird, and with the Thunder and Lightning Dao Intent from Yang Chen, he screamed out.

Thunder and lightning, Extreme Yang and unyielding.

As for the Netherworld ghosts, they are the extreme evil and the ultimate Yin.

When the two collided, thunder and lightning were simply too restrictive for Netherworld ghosts, and the White Thunder Divine Bird, mixed with the essence of ten thousand thunders, was even more powerful at suppressing evil creatures than the purple thunder Yang Chen used to use frequently.

Yang Chen wasn't sure at first, but as he used it now, he could feel its extraordinary effect.

It wasn't hard to judge the pain of the First Son of the Netherworld General under the White Bird's blow.

"Ahhh!" The First Son of the Netherworld General shouted.

Yang Chen wouldn't give him a chance, and went forward to tear and bite with the White Bird again. However, at this moment, the First Son of the Netherworld General realized the danger, and layers of black ghostly Qi in the shape of skulls rose around him.

When these ghostly Qi appeared, they actually repelled Yang Chen's White Bird.

In a split second, the First Son of the Netherworld General had already retreated, panting and looking at Yang Chen, with a bit more fear in his eyes.

Meanwhile, the Second and Third Sons of the Netherworld General were also shocked, as this was the first time they had seen their elder brother pushed so far.

Who was this person...

Not only them, but people from various clans in the Spirit Realm also hovered over this thought.

Now, even the Northern Dragon Commander was looking at Yang Chen with admiration, including other vice generals who swallowed nervously, feeling that their outlook on life had been changed and cleansed because of Yang Chen.

They couldn't understand why, but Yang Chen, who was in the comprehension realm, was so powerful.

Lei Hao, who fought with the Third Son of the Netherworld General earlier, but gave up immediately, was also staring dumbfoundedly in astonishment.

"What is this person's name?"

"I just heard the Primal Supreme say his name is Yang Chen?"

"I heard the Primal Supreme say that this person seems to hold the Heroic Order and has great strength. It seems that the Primal Supreme has great foresight and vision."

"I really didn't expect that there would be someone who could force the First Son of the Netherworld General to this extent. So, would it be no problem for him to fight the Second and Third Sons?"

The most awkward one was the Primal Supreme himself.

Hearing others praise him, saying that he had a keen eye and that if it wasn't for him, Yang Chen would probably have been rejected by them and lost hope by now.

But only he knew that he wanted to harm Yang Chen, so that's why he said that. How could he expect Yang Chen to be so aggressive that he could fight the First Son of the Netherworld General to such a tie?

"Damn it, this kid is so powerful, but the outcome hasn't been decided yet. It's only now that the First Son of the Netherworld General knows the true pattern, and this kid will undoubtedly die!" the Primal Supreme shouted in his heart.

At this moment Yang Chen, too, was staring intently at the First Son of the Netherworld General, his heart growing more serious and vigilant.

The First Son of the Netherworld General now looked fierce and had exploded with anger that came from deep within himself.

"Spirit Realm Human, congratulations, you have successfully enraged me." The First Son of the Netherworld General swirled around the skulls of the Netherworld's ghost Qi, "As soon as I use this Netherworld Ghost Qi, you are already dead."

"I never thought that this kid could force the First Son to use the Netherworld Ghost Qi, which is unique to our realm!" Canglang Ghost General said in a low voice. Moon Demon Ghost General said, "That's right, it's this kid. The first child was forced to use the Netherworld Ghost Qi, so this kid must have the strength to kill Ghost Venerables. Unfortunately, the Ghost Venerable's strength hasn't reached the Nirvana Stage, so he can't use Netherworld Ghost Qi, and that's why he lost to this kid."

"What should we do? Shall we kill this kid now?" Canglang Ghost General asked.

"No need. Since the first child has already used the Netherworld Ghost Qi, this kid is surely doomed. Although his Netherworld Ghost Qi has only been cultivated to the first level, it is more than enough to deal with this kid." Moon Demon Ghost General said.

Canglang Ghost General obviously thought so too, “In that case, let’s have the first child retrieve the mirror treasure and earn a King Divine Weapon in the process. Haha, that way we can avoid alarming the snake while staying low-key.”

Yang Chen didn’t know what the Canglang Ghost General and Moon Demon Ghost General were thinking. At this moment, with his hands in his back, he only sensed the strangeness of the Netherworld Ghost Qi.

This skull ghost qi, with its heavy and stifling presence, seemed to be a unique means of the Netherworld.

“Kid, die!”

The first son of the Netherworld General swung his sword angrily and attacked.

“Netherworld Ghost Qi Sword!”

The sword, containing more than three thousand Dao Intent Inscriptions, rolled forward. Although it had more than two thousand fewer Dao Intent Inscriptions than the last time it collided with Yang Chen, its power was far greater due to the Netherworld Ghost Qi it now possessed.

“What on earth is this Netherworld Ghost Qi? It’s so powerful!” Yang Chen showed a surprised expression.

He had to admit that the first child of the Netherworld General was even stronger than the Yellow Springs Ghost Venerable.

However, he still had confidence in his victory.

At that time, when he fought the Yellow Springs Ghost Venerable, he only used the golden Dao Intent, while his spacetime Dao Intent was sealed and unusable.

But it's different now.

He could use spacetime Dao Intent willingly and then use the combination of life and death Dao Intent, unyielding gold, thunder, and fire, and various other Dao intents!

Like right now, this Netherworld Ghost Qi Sword was indeed powerful, but Yang Chen deployed the spacetime Dao Intent.

He instantly disappeared in place.

By the time he returned, Yang Chen was already above the first son of the Netherworld General.

"What!" The first son of the Netherworld General, whose experience was rich, was shocked with his scalp tingling: "Space Dao Intent?"

Yang Chen didn't bother to explain anything to his opponent. He attacked with one spear and immediately covered by life and death Dao Intent, trying to end the life of the first son of the Netherworld General.

The first son of the Netherworld General reacted promptly, and roared, "Netherworld Ghost Qi Second Sword!"

Seeing the second sword, Yang Chen escaped again.

Then, he reappeared instantaneously.

"Netherworld Ghost Qi Third Sword!" Just as he appeared, the first son of the Netherworld General had already found his target prely, and the third sword directly locked onto him.

This made Yang Chen shake his head slightly. Spacetime Dao Intent was perfect for escaping, but when used for sneak attacks, it fell short. Because there would be spacetime fluctuations that the enemy could easily detect.

However, at this point, he didn't care too much anymore.

He originally wanted to use a sneak attack to end it, but now his fighting spirit was ignited.

This Netherworld Ghost Qi Third Sword was indeed the peak strike of the first son of the Netherworld General, and it was terrifying enough to make people despair.

But for him, Yang Chen, what was there to fear in a battle?

Chapter 2374: Desperate Crisis_1

It's just a head-on clash!

However, it's evident that trying to deal with this move through a head-on clash isn't an easy task.

The Third Sword with Netherworld Ghost Qi, carrying nearly 5,000 Dao Intent Inscriptions infinitely close to the Nirvana Stage limit, might be a force even the Powerful Ones at the Nirvana Stage limit wouldn't dare to underestimate.

For a moment, Yang Chen really couldn't figure out what to use to counter this move.

Octuple Golden Butterfly?

Feeling that it wouldn't be enough, Yang Chen simply shook his head.

Since that's the case...

At the same time as using the Octuple Golden Butterfly, he would also add his own unyielding Dao Intent, Thunder and Lightning Dao Intent, Flames' Dao Intent, Life and Death Dao Intent, as well as Space-Time Dao Intent, and use his Peak Strike.

This attack should be able to reveal the outcome.

And the key to victory lies in his Space-Time Dao Intent.

If his Space-Time Dao Intent can temporarily solidify the Netherworld Ghost Qi Third Sword, it would be a winning situation.

If it doesn't hold, he'll have to see whose method is stronger.

Yang Chen, without turning his gaze, in an instant, had already executed his Peak Strike, the Octuple Golden Butterfly.

All kinds of Dao Intent were already completely surrounding the spear tip.

Immediately afterwards, Yang Chen let out a cry.

"Get lost!"

The spear erupted, and the power of the Peak Strike instantly collided with the Netherworld Ghost Qi Third Sword.

Immediately, Yang Chen tried to solidify the power of the Netherworld Ghost Qi Third Sword using his Space-Time Dao Intent.

"Let me solidify it!" Yang Chen had already pushed his Space-Time Dao Intent to the limit.

However, the strength of the First Son of the Netherworld General was too formidable that the Space-Time Dao Intent couldn't solidify it!

It only solidified for a brief moment, and then the solidification of the Space-Time Dao Intent cracked layer by layer, with the effect being almost negligible.

But Yang Chen didn't get discouraged, as his Peak Strike was still in progress.

If so, let the hard and solid strength decide the outcome.

“Get lost!”

Waving the long spear, his Peak Strike burst forth completely!

Boom...

The remaining power already shocked everyone present, leaving them with nothing to do but take a deep breath out of the lingering deep shock in their hearts after witnessing it.

Too strong; they even felt that this level of confrontation was a peak duel among the Nirvana Stage limit.

No one knew who had won.

The aftershocks hadn't completely dissipated yet, rippling like ripples, layer upon layer!

After dozens of layers, a shocking storm seemed to rise, blowing the people's long hair fluttering in the wind.

Soon, the storm on the scene gradually dissipated, allowing people to probe the situation on the scene with their souls.

Not only the various clans in the Spirit Realm.

Moon Demon Ghost General, Canglang Ghost General, also stared unblinkingly, wanting to probe the result and see who won and who lost!

When their visions cleared, what people saw was an extremely weak First Son of the Netherworld General.

As for Yang Chen, he had already disappeared from his original location. By the time Yang Chen reappeared, he was already in front of the First Son of the Netherworld General.

The moment the First Son of the Netherworld General unleashed the Netherworld Ghost Qi Third Sword, he had exhausted the power of all Dao Intent Inscriptions. Seeing Yang Chen's arrival, his pupils contracted, and he thought to himself that this was not good.

"It seems that the Netherworld Ghost Qi protecting you has run out. In that case, you can die." Yang Chen's hand flashed with thunder and lightning, and a white bird instantly shot past.

The white bird madly bit at the First Son of the Netherworld General, and after a series of convulsions, he directly collapsed and became a particle in the air.

Everyone saw clearly that the First Son of the Netherworld General had completely fallen, killed by Yang Chen on the spot.

Many people found it hard to believe that this had happened to someone from the Enlightenment Stage.

Many people swallowed nervously, and some still could not believe their eyes even now.

Moon Demon Ghost General and Canglang Ghost General also had their pupils shrink.

They could not believe it.

The First Son of the Netherworld General was actually dead.

They never even considered that the First Son of the Netherworld General would fail. They only thought he would use the Netherworld Ghost Qi to completely crush and kill Yang Chen.

But the result now was that Yang Chen had slain the First Son of the Netherworld General!

Killed him!

As the Canglang Ghost General and Moon Demon Ghost General were furious, they no longer had any other thoughts. After exchanging glances, they almost simultaneously whispered in unison.

“Kill!”

They had already thought of killing Yang Chen and taking back that incredibly important mirror!

They just didn't expect First Son of the Netherworld General to be taken down by Yang Chen.

Now, both of them attacked at the same time, instantly appearing beside Yang Chen, and with their terrifying Dao Intent Inscriptions, they planned to forcefully kill Yang Chen.

Yang Chen was shocked to see two Nirvana Stage Limit powerhouses appear, and he didn't expect things to change so fast.

Without a word, he tried to use Space-Time Dao Intent to leave quickly. He was certain that with his current strength, he couldn't defeat a Nirvana Stage Limit powerhouse, let alone two in a row.

However, as he tried to use Space-Time Dao Intent to escape, something unexpected suddenly happened!

His Space-Time Dao Intent had failed!

“What!” Yang Chen’s expression changed.

As he looked around in surprise, he noticed that the surrounding area was filled with layers of Dao Intent Inscriptions, blocking space and covering every inch of the area.

This was the real reason he could not use Space-Time Dao Intent.

Yang Chen felt a cold shiver run down his spine as he realized that these two men had discovered the weakness and secret of his Space-Time Dao Intent.

“Kid, did you really think you could escape using Space-Time Dao Intent? Hmph, didn’t you think that we would come prepared?” The Moon Demon Ghost General’s veins bulged, and he angrily said.

Remembering the death of the First Son of the Netherworld General, his heart ached.

The First Son of the Netherworld General was an incredibly important combat power for their Netherworld.

Yang Chen’s face was tense, knowing that his current situation was far from good.

“Kid, it seems you really did kill the Yellow Springs Ghost Venerable. I didn’t believe it at first, but now it seems that Moon Demon was right...” The Canglang Ghost General’s voice was deep: “So now, you can die too.”

With those words, the Canglang Ghost General attacked in a flash.

As did the Moon Demon Ghost General, who closely followed, wanting to kill Yang Chen on the spot!

Yang Chen knew that he couldn’t fight them, so he had no choice but to dodge and look for a way to survive.

Chapter 2375: War against the Nirvana Stage Limit_1

Now, Yang Chen knew the situation was critical, if he were in his heyday, he might have a chance to escape!

But now, after displaying his might once, his strength was greatly weakened. Facing two peak Nirvana Stage powerhouses in his current state, the hope of escape was extremely slim.

The situation was extremely dangerous.

As the Moon Demon Ghost General and Canglang Ghost General made their moves, the humans on their side were also surprised, but they reacted quickly.

“What!” Northern Dragon Commander’s face was shocked.

These Moon Demon Ghost General and Canglang Ghost General actually dared to go back on their word?

“Damn it, these two Ghost Generals really have a plot, the netherworld’s people can’t be trusted at all, they actually attacked young brother Yang Chen, we absolutely can’t let them succeed.” The Northern Dragon Commander shouted.

No kidding, Yang Chen could defeat the First Son of the Netherworld General, such strength was almost beyond doubt!

This was a near Godly General-level combat power, and he was still only in the Enlightenment Stage, what would it be like if he broke through to the Nirvana Stage?

It’s hard to imagine.

How could they let two Ghost Kings kill someone with such combat power?

How could the Northern Dragon Commander sit still? Without any hesitation, he quickly made a move and yelled, "Netherworld Ghost Generals, you really don't keep your promises, take this, Commander's move!"

As the Northern Dragon Commander made his move, he was also a peak Nirvana Stage existence, his strength was extremely terrifying. Thousands of Dao Intent Inscriptions were revealed and inserted in between, directly separating the Moon Demon Ghost General and Canglang Ghost General who were trying to kill Yang Chen.

Moon Demon Ghost General and Canglang Ghost General now were also feeling terrified. When the Northern Dragon Commander intervened, they were already furious.

Both of them knew that the Northern Dragon Commander would intervene, so, to deal with Yang Chen, both of them acted at the same time, trying to overpower him to death.

But what they didn't expect was that even with both of them acting at the same time, they still couldn't kill Yang Chen in a short time.

Just a moment ago, even in his weakened state, the combat power Yang Chen displayed was extremely smooth, his small-scale space-time dao intent movement made it difficult for them to catch him.

Now being restrained by the Northern Dragon Commander, the Canglang Ghost General and Moon Demon Ghost General were also furious at this point.

"Ahhh, Netherworld army, attack!"

"Kill!"

"Kill all the people in the Spirit Realm!"

Canglang Ghost General and Moon Demon Ghost General couldn't hold back anymore and issued their commands!

When the order was given, the vast Netherworld Army at the rear instantly mobilized. The Ghost Qi surged like an ocean, a black mass rolling out...

The Netherworld Legion, attacked in an instant.

The people in the Spirit Realm were not to be taken lightly either, having suffered numerous defeats earlier, they had already suffocated their anger. Now seeing the Netherworld Army attacking, they didn't hesitate to shout and charge out.

“Kill!”

“Do the Netherworld people look down on us? Kill, destroy them completely!”

“Our Earth Fiend Clan doesn't have cowards, charge!”

Yang Chen's standoff just now had ignited the blood in many people's hearts. Yang Chen, who was only in the Comprehension realm, was able to kill the first son of the Netherworld General, so would the ones in the Nirvana stage still lag behind?

The fuse for the war was just a matter of moments.

In just a moment's effort, both sides had already entered the state of frenzied battle, with nonstop shouting, fighting sounds filling the ears! At this moment, Northern Dragon Commander was locked in an evenly matched battle with Canglang Ghost General, neither one able to gain the upper hand.

However, Northern Dragon Commander was no match for Moon Demon Ghost General.

Now, Moon Demon Ghost General wouldn't let Yang Chen go. If Yang Chen tried to escape, he would pursue, completely targeting Yang Chen.

Due to the restriction of the Dao Intent Inscriptions, Yang Chen's Space-Time Dao Intent still faced multiple limitations.

However, only having one Moon Demon Ghost General left made things much easier for Yang Chen. It wasn't as exhausting as dealing with two Powerful Ones at the Nirvana Stage Limit!

"Hmph, Human Kid, I'd like to see where you can run. Today, no one can save you from heaven and earth!" Moon Demon Ghost General growled in a low voice.

Yang Chen stood still and coldly replied, "Moon Demon Ghost General, I suppose you're after me because I killed Yellow Springs Ghost Venerable. You deliberately staged a showdown to draw me out."

"Hmph, you're pretty smart. But unfortunately, what's the use of understanding now? You are already doomed!" Moon Demon Ghost General licked his lips.

Yang Chen rubbed his eyebrows; it was indeed as he had thought!

From beginning to end, these people had targeted him.

However, Yang Chen couldn't figure out how killing a Ghost Venerable would provoke these two Ghost Generals to such a degree. If these two Ghost Generals had sent soldiers directly to kill him, he could understand.

But these two Ghost Generals deliberately set up a trap to lure him out, then look for an opportunity to kill him when he was alone, which was quite interesting.

The only explanation was that he possessed something that attracted the two Ghost Generals.

King Divine Tool?

It shouldn't be. By the Nirvana Stage, the King Divine Tool would be considered a Supreme Treasure, but it wouldn't make two Nirvana Peak Ghost Generals forget the nature of war.

After thinking for a while, Yang Chen decided to probe, "I should have something important on me that you guys want."

"How do you know?" Moon Demon Ghost General blurted out, but he quickly realized something and his pupils shrank, "You damn kid, trying to get information out of me."

Yang Chen smiled, he hadn't expected the interrogation to go so smoothly!

The most probable thing he could think of was the mysterious mirror he possessed. That mirror had the effect of blocking space and time and was extremely bizarre...

"Hmph, Human Kid, the more you know, the more miserable your death will be. What good does it do for you to extract so much information? The Powerful Ones at the Nirvana Stage Limit from your camp can only help you delay one. Do you think you can escape from my hands?" Moon Demon Ghost General sneered.

His aura spread out, and no one could stand in his way!

However, Yang Chen sneered, "Moon Demon Ghost General, do you really think I'm afraid of you? If you want to fight, let's fight. I, Yang Chen, will not shrink back. I want to see what special abilities you have!"

When the conversation ended, he swept his Long Spear, already looking forward to fighting such a powerful opponent at the Nirvana peak.

Moon Demon Ghost General laughed.

Trying to fight him?

"Hahahaha, Human Kid, you are truly arrogant to the extreme. Come and die!" Moon Demon Ghost General roared furiously in a low voice.

Following that, his frenzied offensive attacked Yang Chen.

As for Yang Chen, he no longer spoke. He swung his Long Spear, unleashing his most powerful method available to him now.

“Ancient God’s Fury!”

It would be very difficult and virtually impossible to win against Moon Demon Ghost General.

Yang Chen was aware of this, but despite that, he still wanted to use Ancient God’s Fury to force Moon Demon Ghost General to display his true ability and make him understand the gap between himself and the limit of the Nirvana Stage!

Chapter 2376: It’s All Because of Him_1

Northern Dragon Commander and Canglang Ghost General were also fiercely fighting each other, evenly matched. However, soon, Northern Dragon Commander started to fall slightly behind.

It’s not that Northern Dragon Commander’s strength was inferior to Canglang Ghost General’s.

In fact, the two were truly equal in strength, and it was impossible to tell who was superior in a short period of time. The main reason for his disadvantage was that Northern Dragon Commander was really worried about Yang Chen’s situation.

After all, Yang Chen was just an Enlightenment Stage cultivator, and although he had achieved many miracles, this time he was facing a powerful opponent at the limit of the Nirvana Stage.

He didn’t want to lose a talent on his battlefield for no reason.

Now, seeing Yang Chen directly confronting the Moon Demon Ghost General, the Northern Dragon Commander was immediately frightened.

What was going on?

Was Yang Chen really going to face the Moon Demon Ghost General head-on? It must be a joke.

Northern Dragon Commander was now upset to the point of tears, but the Canglang Ghost General was clinging to him relentlessly, forcing him to focus his attention on his opponent.

“Hahaha, Northern Dragon, do you really think that human kid can survive? Let me tell you the truth, he’s doomed!” Canglang Ghost General cruelly laughed.

Northern Dragon Commander was now full of worry. It would be such a waste if Yang Chen died in battle, wouldn’t it?

At this moment, Yang Chen released the Ancient God’s Fury and indeed chose to face the Moon Demon Ghost General.

Moon Demon Ghost General was greatly surprised but soon became delighted, “Hahaha, human kid, you dare to fight me? I’ll take your life!”

When the conversation ended, Moon Demon Ghost General immediately unleashed his Netherworld Ghost Qi.

The same Netherworld Ghost Qi as the First Son of the Netherworld General, but his Qi was obviously far stronger.

“My Netherworld Ghost Qi has reached the second level. I will take your life easily, kid!” Moon Demon Ghost General’s Ghost Qi surged and rolled towards Yang Chen.

Thinking back to the recent death of the First Son of the Netherworld General, he didn’t dare to underestimate Yang Chen. He withdrew all of his Dao Intent Inscriptions and planned to kill Yang Chen with one blow.

Yang Chen’s spear, the Ancient God’s Fury, suddenly descended.

Boom!

An astonishing collision spread in all directions, and no Nirvana Stage Ghost Generals or Spirit Realm warriors dared to approach the vicinity.

Immediately afterwards, the massive Ghost Qi took the advantage, and the black mass directly broke through Yang Chen's spear, causing it to completely collapse.

Seeing this scene, Moon Demon Ghost General laughed, "Kid, you are still far away from matching me."

Using the second layer of Netherworld Ghost Qi, he rushed forward. However, he soon stopped and exclaimed, "Where is he?"

Yang Chen had already disappeared, and then, through spacetime travel, his figure suddenly appeared in the distance.

"Hahaha, Moon Demon Ghost General, did you really think I was going to fight you head-on?" Yang Chen sneered.

He had indeed wanted to test the gap between himself and the Moon Demon Ghost General just now.

However, the Moon Demon Ghost General was truly formidable. After one collision, Yang Chen knew he was definitely no match for him.

Not to mention anything else, just talking about this Netherworld Ghost Qi, it seemed to be some special techniques of the Netherworld.

The First Son of the Netherworld General was like this, and so was the Moon Demon Ghost General. However, the Netherworld Ghost Qi displayed by the Moon Demon Ghost General was obviously stronger than that of the First Son, exceeding by an entire level. With his current strength, he couldn't possibly withstand the Moon Demon Ghost General.

That's why, without hesitation, he chose to escape.

The reason he had to clash head-on with the Moon Demon Ghost General just now was to pretend he had nowhere to go. Sure enough, the Moon Demon Ghost General believed him and withdrew a large number of Dao Intent Inscriptions.

With the surrounding space no longer restrained by Dao Intent Inscriptions, his Space-Time Dao Intent was also freed.

Similarly, if the opponent used a large number of Dao Intent Inscriptions to suppress his Space-Time Dao Intent, the remaining Space-Time Dao Intent that they could control would not be enough to kill him.

That's also the reason why it would take at least two Nirvana Stage Limit experts to kill him!

Now, as Yang Chen reached the edge, he let out a triumphant laugh, announcing his successful escape.

The Moon Demon Ghost General roared in fury: "Human kid, I will tear you to pieces!"

However, Yang Chen paid no heed. After three traverses, he disappeared without a trace...

Seeing this, the Northern Dragon Commander also burst into laughter: "Hahaha, Canglang Ghost General, your family's Moon Demon Ghost General can't do anything to our chief general. This seat will not keep you company either. Farewell!"

When the conversation ended, the Northern Dragon Commander could see that the situation was unclear. In a real head-to-head confrontation, it would be difficult for them to win!

"Everyone, retreat to the defensive formation!" The Northern Dragon Commander shouted.

As they withdrew layer by layer, casualties inevitably occurred. But it would also be nearly impossible for the Netherworld people to achieve a complete victory.

Just like that, various clans of the Spirit Realm retreated to their formations.

However, the Netherworld people wouldn't just give up. A group of Ghost Creatures outside launched a relentless attack on the Cultivation Methods.

Seeing that the Netherworld people were so persistent, the high-level members of the Spirit Realm's various clans gathered together, and the atmosphere became tense.

Yang Chen was personally invited by the Northern Dragon to join this meeting.

In this meeting, the lowest rank was high-level Deacons, who were deciding the fate of the entire Western Region.

At this moment, the many vice generals looked at Yang Chen with completely different eyes. Recalling how Yang Chen had fought the First Son of the Netherworld General and escaped from the Moon Demon Ghost General, all they had left was admiration and awe.

However, getting back to business, a vice general frowned and said, "Northern Dragon Commander, what's gotten into these Netherworld people? We have retreated back to our defensive formations. They should know when to stop. Why are they like mad dogs, refusing to let go?"

"What are these Netherworld people thinking?"

They were somewhat puzzled.

The Northern Dragon Commander also furrowed his brow: "Our formation is only a temporary one and can't hold up for too long. The thoughts of these Netherworld people are indeed strange. If they really continue attacking like this, we might not be able to hold out until reinforcements arrive."

"Gentlemen, I don't know whether I should say something or not." The Primal Supreme suddenly spoke up.

“Oh? Primal Supreme, your proposal just now has indeed brought about a significant change to the situation. Haha, our young brother Yang Chen is indeed a top-level master possessing the Heroic Order, a supreme combat power on the battlefield. Your keen insight is commendable. Now, I wonder what you think about this matter, Executor?” The Northern Dragon Commander kindly asked, respecting the Executor’s opinions.

However, no one knew that the most awkward person at the moment should be the Primal Supreme.

At that time, he had strongly recommended Yang Chen to fight, just to be petty towards him. But now, the facts had slapped him hard in the face!

Thinking about the burning pain, the Primal Supreme couldn’t help but feel aggrieved. How could he just let it go like this? Impossible!

With a vicious expression, the Primal Supreme said: “Commander, one thing at a time. Although Yang Chen is indeed very strong, I believe that the madness of the Netherworld people is inseparably connected to him!”

Chapter 2377: Utterly Absurd_1

A group of vice generals became puzzled, “Original Executor, what do you mean by that?”

“Yeah, how is it related to Yang Chen?”

Now, Yang Chen was also half-narrowing his eyes, knowing that the Primal Supreme had a purpose to target him. However, he didn’t expect that the other party seemed to really know something.

If the Primal Supreme had targeted Yang Chen several times, would he not have thought about some matters related to Yang Chen?

“Everyone can think about it. Those Netherworld people, such a huge battle operation, why do they specifically use the Five Corpse Generals of the Netherworld to hold a challenge? This has no benefit for them, right?”

As the Primal Supreme reached this point, his voice became colder, "What is their purpose in doing so? I feel that their goal is to draw someone out. Everyone should know that this person is Yang Chen."

Hearing this, everyone thought it seemed reasonable.

Indeed, these Netherworld people seemed to have a killing intent towards Yang Chen, especially the impatient manners of Canglang Ghost General and Moon Demon Ghost General when they were about to kill Yang Chen. It was definitely not simple upon further consideration.

"Yang Chen, is there any story between you and these Netherworld people?" Northern Dragon Commander asked curiously.

Yang Chen didn't know what the Primal Supreme was playing at.

However, when a general confronts an enemy, he uses earth to counter water.

He calmly recounted, "It started when our Twenty-First Squad received information about a self-degraded Ghost Venerable, and then went hunting."

Yang Chen recounted the events in full detail.

After recounting the events, many vice generals understood.

"Oh? So that's what happened." Northern Dragon Commander and the vice generals smiled and seemed to have an epiphany.

"No wonder, Yang Chen, my friend, you are really amazing. You traveled thousands of miles to kill a Ghost Venerable. It's no wonder you can get the Heroic Order. Impressive, impressive. It seems that this Heroic Order merit came from that Ghost Venerable. Even I, the Commander, am very envious." Northern Dragon Commander laughed.

"Commander, you flatter me. My Twenty-First Squad and I were just lucky." Yang Chen said modestly.

The other vice generals sighed for a while, but soon someone asked the Primal Supreme, "Original Executor, what were you trying to say about Yang Chen just now?"

Seeing a group of people flattering Yang Chen and not even giving him a chance to interrupt, the Primal Supreme was extremely unhappy.

He had to know that at the time when he pointed to Yang Chen's nose and said that he was a Supreme and Yang Chen was just an Enlightenment Stage, he felt extremely embarrassed.

It was for this reason that he was determined to bring down Yang Chen!

"Everyone, think carefully, if the goal of the Netherworld people is Yang Chen, then the fierce attack is also because of Yang Chen!" Primal Supreme said directly.

At the moment, Northern Dragon Commander still didn't understand the meaning, "Original Executor meant..."

"Oleach of you knows that our current strategy is to hold a temporary formation that won't last for long. If this continues, we will be defeated before help arrives. Losing in our area would result in grave consequences, probably involving the invasion of Spirit Realm by Netherworld people. So my proposal is to temporarily submit, buy time and wait for reinforcements!" The Primal Supreme said coldly.

"Temporarily submit? What do you mean?" Northern Dragon Commander asked with a deep voice.

"It's simple. Since things started with Yang Chen, let's give him up. This kid killed a Ghost Venerable-level powerhouse, which is the reason for the madness of these Netherworld ghosts. As long as we hand him over, everything can be solved!" The Primal Supreme directly suggested.

At this point, he was guiding everyone to choose between the survival of the battlefield and Yang Chen's life.

Yang Chen laughed in anger, "So, you mean that it's my fault for killing the Yellow Springs Ghost Venerable?"

"Humph, do you really think that killing the Yellow Springs Ghost Venerable is a good thing? If you hadn't killed him, those Netherworld ghosts wouldn't have been so madly attacking, and we could have waited quietly for reinforcements. By then, the victory of the entire battlefield would have been ours. You should know, Yang Chen, that everything went to the extreme bad side because of your action!" The Primal Supreme pointed at Yang Chen's nose and cursed.

Yang Chen shook his head with a smile, referring to everything he had mentioned himself that everything went to the bad side.

The rest of them also seemed to feel something was wrong, but they couldn't pinpoint what exactly was wrong.

Indeed, the key to the matter lies with Yang Chen.

If they gave up Yang Chen, maybe the situation could be resolved.

After all, in the interests of a battlefield, individual life matters little.

"It seems that there's no problem with what Original Executor said. If we hand over Yang Chen, perhaps we can turn things around."

"Yang Chen's life is indeed important, but the victory of the entire battlefield is even more important."

Many members of the various groups agreed.

After all, Yang Chen was not one of their own, and they didn't have to care about his life or death. They would be more than happy if Yang Chen's death could help buy enough time for the battlefield.

As for what Yang Chen thinks, it doesn't matter to them.

Yang Chen sneered at the true colors of these people. He didn't expect that his killing of the Yellow Springs Ghost Venerable would land him in such a situation.

Primal Supreme also chuckled secretly.

In this battlefield, although it seemed that groups were united, in reality they were not. With just a little guidance from him, many people would actually support him.

At this moment, Northern Dragon Commander rubbed his eyebrows, "So, Original Executor, do you mean to hand Yang Chen over to the Netherworld people?"

"It is cruel, but Northern Dragon Commander, under necessary interests, I think we, the Nirvana Stage powerhouses, are not children. Eventually, we should make the sacrifices we need to." The Primal Supreme said solemnly.

Northern Dragon Commander laughed.

He suddenly slapped the table, "Nonsense, ridiculous! Primal Supreme, you really disappoint me. What a statement about not being children, and making sacrifices under necessary interests! What is our purpose in coming here? It is to fight the Netherworld to the death. We are here to defend our homeland and protect our families."

Northern Dragon Commander angrily pointed his finger at Primal Supreme's nose, "Now you tell me to hand over our top fighters in the battlefield to the Netherworld people? To bow to the Netherworld? Tell me, are you trying to bow to your own enemy? What is your purpose for being here? Get out of this battlefield!"

"Indeed, what is the Primal Supreme thinking?"

"Abandon one's own people?"

Many people also began to echo, obviously more of them were still on Yang Chen's side.

Moreover, North Dragon Commander's roar woke up many trapped people from the wrong direction just now!

What was their purpose in coming to this battle?

Wasn't it to protect their homes and defend their race?

Yang Chen, whose heart had cooled, suddenly warmed as many people and Northern Dragon Commander were still siding with him.

Chapter 2378: Secluding Oneself for Another Breakthrough_1

Most people have the right values and cannot communicate with the Primal Supreme.

As for the Northern Dragon Commander, he was even more furious.

At this point, everyone pondered and indeed found that the words of the Primal Supreme were highly questionable, and there were fewer and fewer people supporting him.

The Primal Supreme saw the good situation deteriorate, with his supporters dwindling. How could he let it go?

"Commander Northern Dragon, you have to think clearly. Indeed, from a normal perspective, sending Yang Chen out seems unkind and unjust. But from a rational standpoint, I think sending Yang Chen out, exchanging his life for a victory in this battle zone, is worthwhile," said the Primal Supreme expressionlessly.

The Northern Dragon Commander sneered, "Well, well, you want to approach this rationally, right? Fine, I'll tell you what rationality is!"

When the conversation ended, the Northern Dragon Commander pointed his finger, aiming outside the formation.

“Do you see the thousands of Netherworld Army? Even with Yang Chen’s top combat power, we are still struggling to cope. If you send Yang Chen out, the Netherworld will attack right now. How will you block them? Do you expect the Nether Army to retreat after handing Yang Chen over? Are you being irrational, or are the Netherworld people being irrational? They can crush us now, and if we lack a top-ranking general like Yang Chen, won’t it be even easier for them to crush us?”

The words of the Northern Dragon Commander made the Primal Supreme pause, his face turned awkward, and he didn’t know how to respond.

He indeed thought that there was no problem with his words, but now, after listening to the Northern Dragon Commander, he suddenly realized that he seemed to have made a fatal mistake.

That is, Yang Chen’s current status far surpasses his!

“Primal Supreme, you have disappointed me.” The Northern Dragon Commander shook his head: “At this critical juncture, you blatantly encouraged everyone to harm your own people. This is a serious crime. Take the Primal Supreme away, remove his executor position, strip him of all merit points, and have him start from scratch!”

Several vice generals took action when they heard this.

“Primal Executor, we apologize!”

“Primal Executor, please be aware.”

Hearing this, the Primal Supreme’s body trembled, knowing that he had lost completely.

Even if Yang Chen didn’t say anything, the people’s hearts had already turned towards him.

As he said, strength is the key, and Yang Chen’s strength is stronger than his. That is why Yang Chen has won more people’s hearts.

The Primal Supreme was full of unwillingness and roared, "You will all regret this! You will regret it!"

"Hmph, still talking nonsense?" The vice generals released their Qi, no longer intending to give face.

Seeing that they were about to take action, the Primal Supreme finally dared not say anything more nonsense. Under the control of several people, he left the place, waiting for the fate of being stripped of his merit points and executive position.

Watching the Primal Supreme leave, the Northern Dragon Commander was still somewhat displeased. He still didn't understand from which angle the Primal Supreme had said those words.

He also couldn't understand why someone would agree with him.

It seemed that there were indeed some people with problematic values among the various clans. After all, the older one gets, the more self-centered one can become.

"Alright, since we all united, there must be no betrayals. If anyone dares, I, Northern Dragon, will be the first to object. Even if I die, I will only die in battle here, never a cowardly death." Northern Dragon Commander declared.

"Well said, Commander!"

Everyone applauded, and Yang Chen also clapped repeatedly.

"Alright, there's no need for flattery. Everyone, at this critical time, discuss how to deal with the Netherworld Army." The Northern Dragon Commander scanned the room.

One of the vice generals respectfully stepped forward, "Commander Northern Dragon, I think the most difficult issue in dealing with the Netherworld Army is that they have two Nirvana Stage Limit Ghost Generals while we only have you. You can hold off the Canglang Ghost General, but what about the Moon Demon Ghost General? If the two Ghost Generals join forces against you, the situation will be even more dangerous."

“Yes, it is indeed those other Ghost Generals. We can still stall them for a while by risking our lives. Moreover, with the First Son of the Netherworld General being killed by Young Brother Yang Chen, the current situation is even more favorable for us. But it’s just these two Canglang and Moon Demon Ghost Generals that are truly challenging...”

The Northern Dragon Commander was also extremely worried, “If only someone could hold off the Moon Demon Ghost General.”

Hearing this, Yang Chen thought for a moment and finally asked, “I have one more question. How long can this temporary array hold?”

“The formation built on the spatial nodes is not a great formation. Even if we support it internally, it can only hold up for at most three days. This is because the many armies within the spatial nodes cannot put out terrifying power at one point, otherwise, this temporary formation would be gone in half a day,” said the Northern Dragon Commander.

“Three days? That’s great.” Yang Chen smiled.

“Young Friend Yang Chen, what do you mean...” The Northern Dragon Commander asked with confusion.

“Commander Northern Dragon, give me three days, and I will find a way to hold off the Moon Demon Ghost General. In two days, we can choose to take the initiative to attack once, fight a great battle, then retreat. By that time, the formation will be repaired slightly, and we can stall for additional time, waiting for reinforcements to arrive,” said Yang Chen.

Hearing this, the Northern Dragon Commander was somewhat surprised, “Young Friend Yang Chen, are you serious? You can hold off the Moon Demon Ghost General in three days?”

“Yes, I am serious.” Yang Chen replied.

Northern Dragon Commander and the other vice generals exchanged glances, a little puzzled about the underlying principle.

However, since Yang Chen said so, it must be true. They had no reason to doubt it. A genius often creates miracles!

“Alright, Young Friend Yang Chen, we will wait for the result within three days,” said the Northern Dragon Commander.

Yang Chen’s battle achievements were worth a gamble.

Yang Chen then said, “In that case, I’d better go back now, as time is pressing.”

“Alright.”

Everyone understood the situation.

As Yang Chen quickly left the conference room, he was immediately met with envious gazes. Among the Nirvana Stages, many people had unremarkable combat power all their lives. Those who could enter the conference room to negotiate were the cream of the crop. Yet, Yang Chen became famous in just one battle, making many people admire him.

Meanwhile, some female members of the alien tribes looked at Yang Chen with love in their eyes. To them, getting to know a man from another tribe was something they longed for. And a man with immense power like Yang Chen was even more desirable.

Chapter 2379: Terrifying Enhancement_1

Yang Chen saw many alien women gazing at him with love, feeling embarrassed and at a loss. In the end, he could only avoid them and quickly return.

After all, he already had a headache dealing with Hua Wanru, and he dared not flirt with others.

Speaking of Hua Wanru, Yang Chen suddenly turned his head and noticed a gaze.

Turning around, he saw that it was Hua Wanru.

Her eyes were full of tenderness and affection, as if everything could melt under her gaze.

Yang Chen felt his scalp tingle, seeing such a look. He suddenly felt as if he had just fought a fierce battle with someone and could only leave the scene with a bitter smile, returning quickly to his cultivation room.

When he got back, Yang Chen quickly entered the state of cultivation.

After all, he was already a significant figure in the entire battlefield.

He said there was a reason he could fight the Moon Demon Ghost General with confidence in three days.

Because Yang Chen himself didn't know that after his confrontation with the first child of the Ming General and then the collision with the Moon Demon Ghost General, his Golden Dao Intentions had shown signs of a breakthrough to the Daoist Lord Stage.

This made Yang Chen overjoyed.

His Golden Dao Intentions, even in their embryonic stage, were already capable of dealing with the First Child of the Netherworld General. Coupled with his Space-Time Dao Intent and Life-Death Dao Intent, they achieved victory.

If he could make a breakthrough, though not to the Dao King stage yet, with Ancient God's Fury, he should be able to contend with the Moon Demon Ghost General.

He didn't expect to defeat the Moon Demon Ghost General; as long as he could delay him, he could buy enough time for the battlefield.

Yang Chen dared not delay and quickly entered a closed-door cultivation state.

In his heart, he was still somewhat uneasy. After all, he had already committed himself, and if his Golden Dao Intentions did not break through, it would be a disgrace.

However, his judgment turned out to be correct.

Golden Dao Intentions indeed made a breakthrough!

His battles with the Moon Demon Ghost General and the First Son of the Netherworld General turned out to be fruitful. His Golden Dao Intentions improved by leaps and bounds!

Two days later...

Yang Chen emerged from his closed-door state, and at that time, his Dao Intent had already advanced to the Daoist Lord Stage, achieving a perfect improvement.

“Now, the power of my Ancient God Spear Technique can also be elevated to another level.” Yang Chen revealed a smile.

As Yang Chen left his cultivation, the other Nirvana Stage vice generals and deacons quickly rushed forward.

They had all been waiting for a long time, and seeing Yang Chen return, they were euphoric.

“Yang Chen, you’re finally out. We’ve been hanging by a thread for a long time, almost thinking you wouldn’t be able to get out of your closed-door cultivation in three days.”

“If you really hadn’t been able to exit in three days, it would have been disastrous. The Netherworld Army could break through our temporary array at any time.”

The Northern Dragon Commander laughed, “Anyway, it’s good that you succeeded in leaving. I just don’t know, Yang Chen, about...”

“Rest assured, Northern Dragon Commander, although I am not sure I can win against the Moon Demon Ghost General, delaying him for some time shouldn’t be a problem.” Yang Chen waved his sleeve confidently and steadily.

Hearing Yang Chen say this, the Northern Dragon Commander also relaxed.

“Yang Chen, my friend, since you can say that, I will also let my guard down. Well, in that case, let’s go out and fight, and see what’s so powerful about these Netherworld Ghosts. Everyone, are you ready? Our Western Battlefield will not be the only one broken!” The Northern Dragon Commander roared, “If that’s the case, it would be the stain of our lives!”

Everyone was stirred up by his words.

“Right, our Western Region must not be breached!”

“Kill!”

“We are the elites of various clans, how could we bring shame on the battlefield!”

For a moment, everyone chose to accompany the Northern Dragon Commander in the charge.

The temporary array suddenly opened, and a group of people surged out in an imposing manner!

Hundreds of Nirvana Stage experts from various clans faced off against the dense Nirvana Stage Ghost Generals.

Even before the battle began, the madness and ferocity between the two races were already showing.

Both the Moon Demon Ghost General and the Canglang Ghost General did not expect that the clans of the Spirit Realm would suddenly choose to come out of their turtling formation!

Canglang Ghost General laughed, "It seems these people know that the array can't hold up and have no choice but to come out."

Moon Demon Ghost General sneered, "Since these Spirit Realm people dare to come out, let them die obediently."

The Northern Dragon Commander is very uneasy in his heart, not knowing whether Yang Chen can indeed take on the task of delaying the Moon Demon Ghost General!

But there's no time to think about it now, he could only say, "Hahaha, Canglang Ghost General, Moon Demon Ghost General, don't get too excited too early, fight me first!"

Seeing this, Canglang Ghost General sneered, "Good, good, good, Northern Dragon, I want to see what you're capable of. You escaped last time, let's continue this fight!"

As soon as the conversation ended, the Canglang Ghost General rushed forward.

Moon Demon Ghost General saw this, laughing, "Canglang, I'll also lend you a hand!"

Two Ghost Generals fighting one? That would definitely be advantageous.

Moon Demon Ghost General didn't think much, planning to join forces to kill the Northern Dragon Commander first.

But at this moment, a figure suddenly appeared, and it was Yang Chen!

Yang Chen, wielding his Long Spear at this moment, unleashed an astonishing Dao Intent in an instant, blocking the path of the Moon Demon Ghost General!

This surprised the Moon Demon Ghost General slightly, and upon seeing that it was Yang Chen blocking his way, he burst out laughing.

“Hahahaha, interesting, Yang Chen, you dare to block my path. I think you’re seeking death!” The Moon Demon Ghost General sneered, immediately baring his fangs and claws, rushing towards Yang Chen to take his life.

Last time, Yang Chen escaped, but this time, the Moon Demon Ghost General was determined to kill him.

However, Yang Chen just smiled slightly, “Moon Demon Ghost General, you couldn’t kill me last time, and you can’t this time either!”

“Arrogant!” The Moon Demon Ghost General’s veins bulged, and his whole body was filled with murderous intent.

Yang Chen no longer explained, wielding his Long Spear and immediately releasing five shimmering butterflies, revealing a Quintuple Golden Butterfly.

This was also the benefit of his current strength.

After the improvement of his Golden Dao Intentions, Yang Chen now was entirely different from what he was before!

Directly using the Quintuple Golden Butterfly, he could still bear it.

With the Quintuple Golden Butterfly descending, Yang Chen and the Moon Demon Ghost General immediately engaged in battle!

At first, the Moon Demon Ghost General didn’t think Yang Chen posed much of a threat. But as time changed, he suddenly found that something was wrong.

Yang Chen’s strength had increased, stronger than last time.

He initially thought it was an illusion since Yang Chen only exchanged blows with him for a moment last time.

But the more they fought, the more he realized that Yang Chen was indeed much more terrifying than during the previous battle against the First Son of the Netherworld General!

Chapter 2380: Comprehending Again_1

He dared to confirm.

If the current Yang Chen faced the First Son of the Netherworld General again, the outcome would be the First Son being brutally defeated!

Just like now.

“Octuple Golden Butterfly!”

“Tenfold Golden Butterfly!”

“Thirteen-fold Golden Butterfly!”

Yang Chen unleashed his techniques, and now that his Golden Dao Intentions had improved by one stage, the Golden Butterflies he produced were far more than what the initial Eightfold Golden Butterfly could compare.

The number directly increased by a level, from eightfold to the peak, directly reaching thirteen-fold.

When the Thirteen-fold Golden Butterfly was executed, its power naturally escalated to another level.

All of this completely infuriated the Moon Demon Ghost General.

“Yang Chen, die!” The Moon Demon Ghost General’s Ghost Qi surged, and he displayed his Netherworld Ghost Qi once more.

The Netherworld Ghost Qi quickly spread, making Yang Chen’s expression more serious.

He wanted to compare the strength of the Thirteen-fold Golden Butterfly to the Netherworld Ghost Qi and see which one was stronger.

With one spear strike, the spacetime Dao Intent and Life and Death Dao Intent rapidly propagated as Yang Chen unleashed his peak attack.

However, what made Yang Chen gasp was that even with the increased power of the Thirteen-fold Golden Butterfly, it was still unable to surpass the limit of the Ghost General during Nirvana Stage when engaged in battle.

The Netherworld Ghost Qi spread, and his Dao Intent was quickly broken.

This made Yang Chen feel a tingling sensation on his scalp; just how powerful was this Netherworld Ghost Qi?

“Yang Chen, die!” The Moon Demon Ghost General, now enraged, continued to attack Yang Chen.

Yang Chen was shaken and knew that he was still no match for the Moon Demon Ghost General. Instead of clashing head-on, he decided to use other methods to buy time and stall the Moon Demon Ghost General.

As long as he didn’t confront the Moon Demon Ghost General head-on and only bought time, there wouldn’t be any problems.

This also made the Moon Demon Ghost General’s head itch due to anxiety, as Yang Chen was too agile. With the Spacetime Dao Intent on display, there was nothing he could do but watch Yang Chen move nimbly in front of him.

Meanwhile, Yang Chen tried other methods to see if he could take advantage of the Moon Demon Ghost General.

In this attempt, Yang Chen felt a deeper comprehension of Dao Intent.

This secretly delighted him.

Last time, he thought it was just luck, but he didn't expect that this time, while fighting the Moon Demon Ghost General, his Dao Intent would gain enlightenment once again. This made him ecstatic, as he realized what was happening.

Now, when his Dao Intent competed with stronger opponents, the more he competed, the more he would comprehend.

Of course, for ordinary people, these skills couldn't be obtained so easily.

How hard is it to comprehend Dao Intent that easily?

However, Yang Chen was different.

For Yang Chen, having Immortal Qi made his Dao Intent Comprehension much stronger than that of ordinary people!

As a result, when battling powerful enemies, his comprehension of Dao Intent increased exponentially, and it was only natural for his Dao Intent to break through quickly.

In this way, Yang Chen was more and more thrilled, as he fought the Moon Demon Ghost General for a full two days.

Finally, Yang Chen began to show signs of weariness.

After all, there was still a gap between his strength and the Moon Demon Ghost General's.

At this time, the battle between Northern Dragon Commander and Canglang Ghost General had also reached a fever pitch, almost reaching a life-and-death situation.

At this moment, both Canglang Ghost General and Northern Dragon Commander had developed some fear for their respective enemies.

The Northern Dragon Commander didn't dare to continue fighting, took advantage of the situation and shouted, "Retreat!"

The great army began to retreat, all in an exhausted state.

Meanwhile, the Netherworld Army was also exhausted from the battle, and they had no intention of pursuing the Spirit Realm clans as they withdrew.

One battle came to an end like this.

For the Canglang Ghost General and Moon Demon Ghost General, it was the most frustrating outcome.

Before the various clans of the Spirit Realm came out, they eagerly wanted to force them to show up. But now that the various clans of the Spirit Realm appeared, they failed to take advantage of them.

In particular, the Moon Demon Ghost General couldn't accept that he fought Yang Chen for two whole days without being able to defeat him.

...

At the same time, the various clans in the Spirit Realm who had returned to the Formation breathed a sigh of relief.

Although everyone was exhausted, the Netherworld Army hadn't attacked them again, so their morale remained high and it was considered a victory for them.

"Commander, during these two days, the temporary array has been restored and can continue to buy us two or three days without any problems," one of the Vice Generals quickly reported.

"Hahaha, good. As long as we can continue to buy enough time for reinforcements to arrive, we can counterattack," laughed Northern Dragon Commander.

However, the other Vice Generals were worried: "But, Commander, those reinforcements have not yet arrived, and there's been no news. The temporary array can only hold up for three days at most. Our attempt to delay the Netherworld's advance seemed successful, but in reality, our losses were still significant. If the reinforcements don't arrive within three days, what will we do..."

"Then we'll go out to meet the enemy again!" Northern Dragon Commander shouted angrily. "Young Brother Yang Chen did a great job this time, delaying the Moon Demon Ghost General long enough. Well done, Young Brother Yang Chen!"

Several Vice Generals then voiced their concerns: "Commander, although that's true, Yang Chen is only able to delay the Moon Demon Ghost General. If the Moon Demon Ghost General takes some time to prepare, it might not be so friendly for Young Brother Yang Chen."

Hearing this, Northern Dragon Commander fell into deep thought.

These Vice Generals were right.

It seemed that their current situation was favorable, but their losses were substantial. Moreover, what if the Moon Demon Ghost General prepared numerous measures to deal with Yang Chen in their next encounter?

Trying to forcefully delay when their strength was inferior to their opponents was bound to cause problems sooner or later.

Considering this, the Northern Dragon Commander looked to Yang Chen and asked, "What do you think, Yang Chen?"

He planned to ask for Yang Chen's opinion first.

The other Vice Generals also looked at Yang Chen, wondering about his thoughts.

Yang Chen, however, smiled and said, "You may not believe me, but my suggestion is to go out and meet the enemy. Moreover, fight them as much as possible. My proposal may be a bit selfish, but every time I confronted the Moon Demon Ghost General, I gained something in return."

Upon hearing this, everyone was astonished.

"Young friend Yang Chen, what do you mean...?" Northern Dragon Commander didn't quite understand.

Yang Chen spoke gently, "Well, how should I put it? The reason I dared to assure that I could stall the Moon Demon Ghost General for some time during the last three days was because my strength and cultivation level improved somewhat during the three days of closed-door cultivation."

"And this time, in battling the Moon Demon Ghost General, my Dao Intent gained exquisite comprehension. In simple terms, give me another two or three days, and if I exit the closed-door cultivation, my strength might be even stronger than it is now..."

As these words fell, everyone around was shocked.
