

## Supreme MK 2381

### Chapter 2381: Battling the Moon Demon Again\_1

Stunned.

Completely dumbfounded.

A group of people couldn't believe it was true.

"Yang Chen, my friend, are you serious?" A group of people gulped down their saliva.

Breaking through in just two or three days?

Yang Chen knew it was hard to believe, so he laughed and said, "Of course, it's true. Although I can't explain it very clearly, my comprehension of Dao Intent might be just a little bit faster."

Hearing Yang Chen's words, everyone was at a loss whether to laugh or cry.

Where is it a little faster? This speed is so fast that it makes them want to cry without tears.

"I still can't believe it..."

"This..."

"Is this for real?"

At first, Northern Dragon Commander also found it incredible, but after careful consideration, it seemed entirely possible.

“Yang Chen, my friend, may not be bragging. Since he can reach the Enlightenment Stage and defeat Nirvana Stage experts, it means he indeed has extraordinary talent. Moreover, Yang Chen is still young, which further proves his talent. Although I am also a bit jealous, a genius is a genius, and it’s normal for us to not understand what they can do.”

As the Northern Dragon Commander said this, everyone could more or less accept it.

Indeed, Yang Chen is a genius. How can what happens to a genius be measured by common sense?

The only thing that is hard to accept is...

Among them, all the people who have reached the Nirvana Stage, which one is not a genius? Now, they have to look up to another genius, which makes them want to cry without tears.

At this point, everyone could only choose to believe Yang Chen.

“It’s nothing about being selfish or not. Yang Chen, my friend, if you just need two days, then in two days, the Netherworld Army will attack the Temporary Array. Even if you don’t propose to attack, we have to. Your improvement is the best thing for us.” The Northern Dragon Commander laughed.

“Thank you for your understanding. In that case, I will seize the time and comprehend Dao Intent.” Yang Chen cupped his hands and turned away.

These Enlightenment Stage experts were all astonished and had mixed feelings, unsure whether Yang Chen’s words were true or not.

This time, what Yang Chen comprehended was not the Golden Dao Intent, but the Thunder and Lightning Dao Intent.

His Thunder and Lightning Dao Intent had been released many times during the battle with Moon Demon Ghost General, and it was because of this that he had made some breakthroughs.

Now that he has returned, he immediately enhanced his Dao Intent and began to try to break through.

Apparently, the outcome of the previous battle was not accidental, and Yang Chen's Thunder and Lightning Dao Intent broke through to the Daoist Lord Stage afterward!

And it was exactly two days later.

Two days later, Yang Chen came out of seclusion again.

The vice generals and the Northern Dragon Commander were waiting outside Yang Chen's retreat, and everyone stood up when they saw him coming out.

Although there was some sense of revolving around Yang Chen, there was no doubt.

The current Yang Chen was crucial for the victory of the entire battlefield!

Seeing Yang Chen come out, many people even eagerly asked.

"Young friend Yang Chen, I wonder how your closed-door cultivation went..." Many people asked.

"I made a little breakthrough." Yang Chen looked at the eager gazes of the people, smiled faintly, and explained.

This made the vice generals and Northern Dragon Commander breathe a sigh of relief and burst into joy.

"That's great, Yang Chen, my friend. With your strength improving, even if it's just a partial improvement, dealing with the Moon Demon Ghost General will be much easier. You don't have to worry about him targeting you and taking any precautions." The Northern Dragon Commander clapped his hands in praise.

Other people also breathed a sigh of relief.

“Now, the Netherworld people have begun to attack the Array again. Yang Chen, my friend, you just came out of seclusion in time. Join us in fighting them.” Another vice general said.

Yang Chen was already prepared and laughed, “I want to see how far I am from Moon Demon Ghost General. Let’s go, everyone.”

Yang Chen’s exit from seclusion signaled the beginning of a new war.

This battle erupted again as Yang Chen and the army left the Array.

Canglang Ghost General fought against Northern Dragon Commander.

And Yang Chen fought against Moon Demon Ghost General once again.

Others’ concerns were not entirely unfounded, as Moon Demon Ghost General had indeed made some preparations during the battle with Yang Chen!

However, it was a pity that Yang Chen’s strength had also improved.

His Thunder and Lightning Dao Intent, which had been upgraded to the Daoist Lord Stage, had completely countered Moon Demon Ghost General’s Netherworld Ghost Qi.

With a thirteen-fold Golden Butterfly, the Thunder and Lightning Dao Intent was not at a disadvantage at all.

Unfortunately, Moon Demon Ghost General obviously had more than just Netherworld Ghost Qi. He only displayed Netherworld Ghost Qi at first, but in the end, he finally released his Dao Intent.

Moon Demon Ghost General’s Dao Intent was the Moon Dao Intent.

Among the Special Dao Intents, it was extremely rare.

The extremely strange Dao Intent seemed very difficult for Moon Demon Ghost General to display, and it seemed to be humiliating to him.

When the Moon Dao Intent was released, Yang Chen couldn't resist it anymore. Even with his rapidly growing Thunder and Lightning Dao Intent and Golden Dao Intent, he was being suppressed by the Moon Dao Intent.

In the end, Yang Chen still lost to Moon Demon Ghost General, but he managed to buy enough time for the Temporary Array to recover.

When he returned, Yang Chen's Dao Intent had made another breakthrough.

And then, the same rhythm repeated!

Yang Chen had already found the rhythm. It had to be said that Moon Demon Ghost General was indeed a suitable opponent, and forcing the latter's Moon Dao Intent had given him an excellent stepping stone in his comprehension of Dao Intent.

When Yang Chen returned this time, he chose to comprehend again.

His Golden Dao Intent was already showing signs of breaking through to the Dao King stage.

Yang Chen naturally wanted to seize this rhythm.

Just like the previous two times, it went very smoothly!

After comprehension, Yang Chen's Golden Dao Intent successfully broke through to the Dao King stage!

Afterward, he exited seclusion again...

Two days later, the mighty army confronted each other again.

Yang Chen and Northern Dragon Commander stood at the forefront, surrounded by numerous vice generals, and on the Netherworld side, Canglang Ghost General and Moon Demon Ghost General led the charge.

At this moment, Moon Demon Ghost General was already enraged to the extreme, and when he saw Yang Chen again, he wished he could tear him to pieces!

“You human kid, watch me tear you to pieces.” Moon Demon Ghost General could hardly save face anymore, and as soon as he saw Yang Chen, he led his army straight towards him without any hesitation.

Yang Chen and the Northern Dragon Commander were also unceremonious, quickly counterattacking and engaging with a group of Nirvana Stage Ghost Generals!

Yang Chen stared directly, this time, he was completely different from the last time!

His Golden Dao Intent had already reached the Dao King stage, and the number of Golden Butterflies he used was even higher than last time.

He wanted to see the gap between him and the Moon Demon Ghost General.

Chapter 2382: Another Breakthrough\_1

The battle began once again.

In order to buy enough time, the various clans of the Spirit Realm had no choice but to constantly engage in battle with the Netherworld people. It must be said that the Netherworld's combat power in the Western Region was indeed a notch stronger than that of the Spirit Realm.

As the battles went on, the casualties of the various clans of the Spirit Realm grew increasingly heavy. However, as time went on, everyone adapted to the changing situation and realized that they could not engage head-on. As a result, the casualties decreased significantly.

So, the focus was placed on Northern Dragon Commander and Yang Chen.

Yang Chen and Northern Dragon Commander's battle with Canglang Ghost General and Moon Demon Ghost General was the focus of attention and could be considered the key factor.

Any accidents on their part could affect the development of the situation at any time.

Northern Dragon Commander and Canglang Ghost General were evenly matched, and it was difficult for either of them to gain the upper hand or kill the other.

The most crucial point still lay in the battle between Yang Chen and Moon Demon Ghost General.

Moon Demon Ghost General obviously wanted to kill Yang Chen more than anything else. As soon as the battle began, he immediately targeted Yang Chen.

Yang Chen was more than happy to engage Moon Demon Ghost General.

This time, Moon Demon Ghost General fought with fury and was relentless in his pursuit of crushing Yang Chen, aiming to kill him and vent the rage he felt towards Yang Chen!

Over this period, he had been questioned more than once for failing to kill Yang Chen. He had to kill Yang Chen to prove that he was still a powerful being of the Nirvana Stage Limit and the absolute ruler of the Western Region!

However, when he actually fought Yang Chen, he suddenly discovered...

Yang Chen had grown stronger than before.

Yes, Yang Chen had become stronger!

Like now...

“Fifteen layers of Golden Butterfly!”

“Sixteen layers of Golden Butterfly!”

“Seventeen layers of Golden Butterfly!”

The power of Yang Chen’s techniques had clearly improved and the number of Golden Butterflies had elevated once again. This had Moon Demon Ghost General feeling uneasy. His Netherworld Ghost Qi could hardly withstand Yang Chen’s attacks, forcing him to resort to extracting the Moon Dao Intent.

It was the appearance of the Moon Dao Intent that reversed the situation once again.

Yang Chen, even after entering the Dao King stage’s Golden Dao Intent, coupled with several other Dao Intents, still found it difficult to withstand the over 5000 layers of the Moon Dao Intent Inscriptions from the Moon Demon Ghost General.

This Moon Dao Intent was a very peculiar Dao Intent.

To say it was rare would not be an exaggeration.

Yang Chen had not fully understood the effects of Moon Dao Intent during their previous battle, but as they fought again, he gradually gained understanding.

This Moon Dao Intent represented the purest Yin. When released, an intense bone-chilling coldness would be the most terrifying aspect of the Moon Dao Intent.

In addition, Moon Dao Intent could also evolve into Dark Light, which could even devour other Dao Intents. Time and time again, Yang Chen's Spacetime Dao Intent and Life and Death Dao Intent were devoured by the Dark Light, making it impossible for Yang Chen to unleash his Dao Intent's full power. Consequently, he repeatedly fell behind.

Yang Chen had to admit that this Dao Intent was truly extraordinary.

However, upon closer inspection, he noticed that Moon Demon Ghost General seemed unwilling to use Moon Dao Intent unless absolutely necessary. Using Moon Dao Intent seemed to put him at a disadvantage and inflict harm on himself.

Through such observations, Yang Chen began to form some ideas.

The battle lasted for a long time!

This time, Yang Chen felt that he had the strength to stand up against Moon Demon Ghost General.

"Nineteen layers of Golden Butterfly." Butterflies flew and fluttered, as the ferocious wind howled and the Long Spear arrived with full force.

The dark light of Moon Demon Ghost General quickly spread, accompanied by his roaring howl, attempting to devour the Dao Intent of Yang Chen.

In the collision, many of Yang Chen's Dao Intent were devoured, but the power of the nineteen-layered Golden Butterfly was displayed, demonstrating an astonishing might.

Meanwhile, Moon Demon Ghost General's heart was filled with increasing terror. How did he feel when he first fought Yang Chen? Complete domination, Yang Chen had no chance of winning.

The second time, it was still utter domination, only slightly more challenging than the first time.

By the third time, he already felt he couldn't control the situation. He could win, but he couldn't kill Yang Chen for sure.

And now...

To his surprise, in such a short period, he couldn't achieve an absolute advantage. Even at this point in the battle, his advantage had only increased slightly and had not expanded further for a long time.

Moon Demon Ghost General was shocked and couldn't believe it.

In just four encounters and about ten days, he couldn't comprehend what had happened to Yang Chen.

Why had Yang Chen become so strong?

"Twenty-layered Golden Butterfly!" Yang Chen roared with wild laughter, unleashing his aura.

Golden Butterflies fluttered, layer by layer expanding, resisting the wild dance of the wind, and the power of the Long Spear turned into a storm, a whirlpool, engulfing, engulfing, and engulfing again!

"Human Kid, take this!" Moon Demon Ghost General also unleashed his own technique. The dark light of Moon Dao Intent spread broader, and the number of Dao Intent Inscriptions increased to over 5,450, displaying a terrifying and astonishing quantity.

Rumble...

The surrounding power caused tremors, even cracking the Earth inch by inch.

Yang Chen and Moon Demon Ghost General both exerted their full strength.

After a stalemate, Yang Chen was still defeated, and Moon Demon Ghost General, as a powerful one at the Nirvana Stage Limit, was not one in vain.

Bang!

After a heavy blow, the dark light of Moon Demon Ghost General began to devour Yang Chen's Dao Intent, and Yang Chen knew he couldn't defeat the enemy. Seeing that he had bought enough time, he laughed loudly, "Moon Demon Ghost General, it seems I have been overestimating you all this time. Let's just end it here today. Farewell."

Yang Chen chose to leave.

In this battle with Moon Demon Ghost General, he had a perfect comprehension of his last Thunder and Lightning Dao Intent that had not yet reached the Dao King stage.

If he could make his Thunder and Lightning Dao Intent reach the King Dao Intent, his Dao Intent would be completely perfected.

He would then be able to attempt a breakthrough without regrets and head straight to the Nirvana Stage.

Moon Demon Ghost General, with his veins bulging out, was extremely angry. He wanted to kill Yang Chen, wanted to get rid of Yang Chen. But all he could do was watch helplessly as Yang Chen and the Spirit Realm Army retreated, without the ability to chase them down.

When they returned once more, the high-level members of the various clans of the Spirit Realm gathered together, all focused on Yang Chen.

Yang Chen was now undoubtedly their backbone.

"Yang Chen, did you make any breakthroughs in your battle with Moon Demon Ghost General this time?" They couldn't help but ask.

Although it seemed unbelievable, too many miracles had happened to Yang Chen.

Yang Chen smiled and said, "I made some progress, so I need to go into seclusion again!"

Hearing this, everyone couldn't help but gasp in cold air.

If it had been someone else, they would have thought it was boasting.

However, recalling the different scenarios of Yang Chen's encounters with Moon Demon Ghost General, they felt that perhaps Yang Chen was indeed that miraculous.

Chapter 2383: Injuring the Moon Demon Ghost General\_1

What was it like when Yang Chen fought against Moon Demon Ghost General for the first time?

What was it like when Yang Chen fought against Moon Demon Ghost General this time?

Could it be said that they were two completely different concepts?

Every time they fought, Yang Chen was completely different from the last time. From being unable to defeat the Moon Demon Ghost General, then to being able to delay him, and now being able to reach a stalemate barely!

The astonishing increase in strength made people feel both envious and jealous.

Northern Dragon Commander sighed as well: "Yang Chen, my friend, don't worry, we will buy you enough time, just focus on your cultivation!"

"Thank you, everyone." Yang Chen's heart was filled with warmth.

It was difficult for the various clans in the Spirit Realm to unite, but now, facing a great enemy, everyone had become a strong united force.

Yang Chen, as always, began to comprehend what he had gained from fighting with the Moon Demon Ghost General!

Thunder and Lightning Dao Intent!

Thunder and Lightning Dao Intent is the most restraining means against evil creatures, coupled with White Bird Divine Thunder, it can make any evil creature unable to hide or escape.

However, due to the lack of Dao Intent stage, it has been difficult to pose a threat to ghost creatures with Netherworld Ghost Qi.

Netherworld Ghost Qi is something Netherworld ghosts have to counter cultivation methods that can break through and restrain ghosts. It can be said that its power is quite strong.

But if the Thunder and Lightning Dao Intent were cultivated to the Dao King stage, combined with White Bird Divine Thunder, the outcome would surely become different.

Now, the gap between him and Moon Demon Ghost General lies in this Thunder and Lightning Dao Intent!

As long as he can make up for the Thunder and Lightning Dao Intent, he can even fight against the Moon Demon Ghost General head-on and remain undefeated.

Yang Chen was fully focused on this Dao Intent of Thunder and Lightning.

...

Two days later!

Yang Chen had to admit to the dominance of Immortal Qi!

Because of the existence of Immortal Qi, his several Dao Intent breakthroughs were, without exception, successful!

Two days later, when Yang Chen opened his eyes, the Thunder and Lightning Dao Intent had completely broken through to the Dao King stage!

When he had Dao King stage Thunder and Lightning Dao Intent, a smile appeared on Yang Chen's face.

Yang Chen came out of seclusion once again.

When he came out, it also affected the nerves of everyone.

"Yang Chen is out."

"Yang Chen, did you succeed?"

Many people couldn't help but ask!

Yang Chen nodded slightly: "Well, fortunately, I made some breakthroughs. Now I have the confidence to fight the Moon Demon Ghost General head-on without losing to him."

"What!"

A group of Nirvana Stage Spirit Realm people were all surprised.

Head-on and not losing to the Nirvana Stage Limit?

They all felt it was exaggerated!

However, they had no choice but to believe Yang Chen's words. In these few days, they had witnessed the miracle born from Yang Chen!

"Hahaha, with Yang Chen's confidence, let's fight these Netherworld people one more time!" Northern Dragon Commander laughed heartily.

The other Nirvana Stage Vice Generals and Deacons had also become accustomed to it by now.

Once again, the great army left the temporary array and confronted the Netherworld army from the outside world. This time, the confrontation with the Underworld Army seemed far less intimidating than before.

If the initial Underworld Army had an impressive momentum, now, the current Underworld Army wasn't even confident of whether they could defeat the various clans in the Spirit Realm.

After failing to break the temporary human formation four times in a row, anyone would be filled with anger.

"Moon Demon, can you even do this?" Canglang Ghost General coldly said.

Moon Demon Ghost General somberly replied, "Don't worry, this time I will immediately display my Moon Dao Intent and kill that kid!"

He was almost going insane now, time and time again, Yang Chen had driven him to despair!

Canglang Ghost General growled angrily: "If you can't do it, I'll take over!"

"Hmph, is your strength that much stronger than mine?" Moon Demon Ghost General angrily retorted.

At this point, Moon Demon Ghost General glared furiously at Yang Chen and said, "Yang Chen, do you dare to fight me again?"

“Why wouldn’t I dare!” Yang Chen laughed and came out, “Moon Demon Ghost General, last time you only narrowly defeated me. This time, you won’t win against me!”

As the conversation ended, Yang Chen strode forward.

Standing so brazenly in front of him, Yang Chen had no doubt become the disgrace of Moon Demon Ghost General.

“Yang Chen, I will tear your body into a thousand pieces!” Moon Demon Ghost General’s words showed his anger, and he directly displayed his Moon Dao Intent, emitting a dark light, trying to devour Yang Chen’s Dao Intent.

Immediately, Netherworld Ghost Qi expanded all around like a protective film, making Yang Chen’s attacks seem completely futile.

This was the reason the Moon Demon Ghost General could dominate other Nirvana Stage cultivators – his combination of offense and defense had no weaknesses or shortcomings.

Yang Chen had always been unable to defeat his opponent in their previous confrontations due to these factors.

But this time was different!

Moon Demon Ghost General unabashedly charged forward, relying on the domineering Netherworld Ghost Qi.

However, Yang Chen instantly displayed his Thunder and Lightning Dao Intent, and the Thunderbird soared, tearing straight towards Moon Demon Ghost General like a ray of light.

Moon Demon Ghost General dismissed it on the spot: “Hmph, Yang Chen, I have Netherworld Ghost Qi here, what use is your Thunder Technique against me? One can only learn from setbacks, yet it seems you still haven’t understood that.”

Yang Chen only smiled, ignoring Moon Demon Ghost General's monologue.

In an instant, where the Thunderbird passed, a fierce storm roared.

According to Moon Demon Ghost General's understanding, lightning was definitely incapable of breaking his Netherworld Ghost Qi.

However, when the collision happened, a cruel reality was born.

With a bang, Moon Demon Ghost General's proud Netherworld Ghost Qi was shattered and the Thunder struck Moon Demon Ghost General immediately after.

Moon Demon Ghost General wailed as blood splattered and he staggered backward, unable to believe that this was true!

Although this attack injured Moon Demon Ghost General, it was still difficult to cause any significant damage to his core.

But this had already shocked Moon Demon Ghost General.

This was the first time that Yang Chen had injured him during their long fight!

Yang Chen was somewhat disappointed with the damage dealt by the Divine Bird White Thunder.

"It seems that the power has decreased significantly after breaking the Netherworld Ghost Qi." Yang Chen shook his head helplessly. Then, he provocatively said, "Moon Demon Ghost General, it seems this is all you're capable of!"

Infuriated, Moon Demon Ghost General was driven to madness!

"Die, Yang Chen!" Moon Demon Ghost General roared.

He suddenly charged at Yang Chen again.

Yang Chen took advantage of the situation, and the Thunderbird surged forward in an instant. However, having suffered once, Moon Demon Ghost General would not fall into the same trap again. He quickly evaded Yang Chen's Thunderbird.

Next, he directly used his Moon Dao Intent to charge towards Yang Chen.

Chapter 2384: Can We Make Another Breakthrough\_1

As for the Moon Demon Ghost General, it was not a surprise that Yang Chen managed to dodge his Divine Bird White Thunder.

If the Moon Demon Ghost General were that easy to deal with, it wouldn't be called the Moon Demon Ghost General in the first place.

However, Yang Chen had his own ideas.

Seeing the Moon Demon Ghost General attacking him again, Yang Chen immediately used the Golden Butterfly.

"Nineteenth Level Golden Butterfly!" Yang Chen said coldly.

"Yang Chen, do you think your Golden Butterfly can overcome me?" the Moon Demon Ghost General scolded angrily.

Yang Chen did not deny it. The Moon Demon Ghost General's Moon Dao Intent could overwhelm his Golden Butterfly, even if Yang Chen used the Space-Time Dao Intent and Life and Death Dao Intent, and he would be consumed by the dark light of the Moon Dao Intent.

However, this time, Yang Chen had his own idea...

His nineteenth level Golden Butterfly was not meant to compete with the Moon Demon Ghost General!

But the Moon Demon Ghost General did not think so. Seeing Yang Chen using his killing move, he summoned the dark light of Moon Dao Intent, layer upon layer, intending to completely annihilate Yang Chen's Dao Intent.

Yang Chen's Dao Intent collided with the dark light.

The Moon Demon Ghost General's mouth curled up.

Did Yang Chen really want to fight him head-on?

But suddenly, he felt a chill down his spine.

Because Yang Chen had disappeared.

Yes, Yang Chen had vanished and left no trace at all.

"How is it possible? Where is he?" The Moon Demon Ghost General tensed up, feeling that something was wrong.

When he came to his senses, Yang Chen's figure suddenly appeared in front of him, along with Yang Chen's various Dao Intent and the nineteen-level Golden Butterfly, which instantly bypassed the dark light from the Moon Demon Ghost General and reached his side!

Spacetime control is so free!

The Moon Demon Ghost General's pupils contracted, feeling a great sense of danger.

At this moment, he quickly activated his Dao Intent Inscriptions, drawing back the dark light and Netherworld Ghost Qi to protect himself, using all his methods.

Boom!

Yang Chen watched the intense collision with wide eyes!

But soon, Yang Chen took a sharp breath.

“The dark light of this Moon Dao Intent is so overbearing...” Yang Chen furrowed his brows.

Using Space-Time Dao Intent to move himself and his attack, then instantly teleporting in front of someone else.

This was an idea he unexpectedly came up with during his closed-door cultivation.

There are many uses for Space-Time Dao Intent, but he hasn't discovered many of them yet.

He had caught the Moon Demon Ghost General off guard, but the latter managed to block his attack with just a part of the dark light.

However, the Moon Demon Ghost General must not be feeling good. Even though he blocked most of the damage, he still suffered minor wounds.

Despite this, it was enough to make the Moon Demon Ghost General doubt himself.

Even during their last fight, Yang Chen could only stall him, and eventually, he was defeated. But this time, Yang Chen actually hurt him!

In just a few days, how could there be so many changes in Yang Chen?

The Moon Demon Ghost General couldn't accept it, which was why he became even more enraged, attacking relentlessly!

At this moment, Yang Chen didn't show any weakness against the Moon Demon Ghost General. When he saw the Moon Demon Ghost General attacking, he immediately clashed with him head-on.

Fight to the end, who fears who?

Yang Chen's Thunder and Lightning Dao Intent, combined with his Divine Bird White Thunder, could threaten the Moon Demon Ghost General's Netherworld Ghost Qi. His Space-Time Dao Intent, when used with the Golden Butterfly, made the Moon Demon Ghost General wary.

In such a battle, Yang Chen took advantage of his Space-Time Dao Intent multiple times.

However, the Moon Demon Ghost General's dark light was too overbearing, making it difficult for Yang Chen's Space-Time Dao Intent to harm him.

After fighting for two days, Yang Chen and the Moon Demon Ghost General could only be considered as evenly matched.

Although Yang Chen had indeed injured the Moon Demon Ghost General, the method of using Space-Time Dao Intent to directly move his attacks and make a surprise attack was quite costly.

This approach consumed a considerable amount of energy each time it was used, and the second time was even more severe.

As a result, Yang Chen could only barely use it three or four times, and the stronger the movement, the more Space-Time Dao Intent would be consumed.

So even though Yang Chen had hurt the Moon Demon Ghost General, he still couldn't gain an advantage in a prolonged battle.

It was just like the situation between the Northern Dragon Commander and the Canglang Ghost General.

But this was already enough to satisfy Yang Chen.

After all, he was currently only at the Enlightenment Stage.

And now, he planned to change his status as an Enlightenment Stage cultivator!

At this point, Yang Chen had little Space-Time Dao Intent left, only enough to retreat!

The delay had been long enough.

“Hahaha, Moon Demon Ghost General, it seems that I have wounded you quite severely this time. Have you become weaker?” Yang Chen laughed wildly, then disappeared from the spot.

When Yang Chen disappeared, the Moon Demon Ghost General’s veins bulged: “Yang Chen, if you dare, continue fighting me!”

“Moon Demon Ghost General, if you really want to continue fighting with me, I’ll be happy to accompany you. But that will be for next time. Don’t worry, the next time I fight with you, I’ll show you what true disparity is!”

Yang Chen left these words and returned to the Human Camp.

The Northern Dragon Commander had already coordinated with Yang Chen several times and called for a retreat.

When the order was given, the human army quickly retreated, returning to the Temporary Array, making the Netherworld Army furious.

Especially for the Canglang Ghost General, who was already scolding: “Moon Demon, you still can’t kill that mere Enlightenment Stage cultivator, and you even got wounded by him. What have you been doing!”

...

The Netherworld Army was outside, and inside the Temporary Array, people from various clans gathered around Yang Chen.

Now, Yang Chen had become the star of the Western Battlefield!

In a single battle, Yang Chen managed to wound the Moon Demon Ghost General, something that many people had never even imagined. It was nothing short of miraculous.

“Yang Chen, can you make another breakthrough this time?” Many people swallowed their saliva, asking curiously.

Every time he had a breakthrough, Yang Chen would become stronger. Now, he could even injure the Moon Demon Ghost General, who was at the limit of the Nirvana Stage, which was something no one could have imagined in the past!

So, what would happen if Yang Chen had another breakthrough?

It was hard to imagine!

Many people who had agreed with the Primitive Supreme to send Yang Chen to the Netherworld were now filled with regret, knowing that they had made an incredibly foolish decision.

Send Yang Chen away?

If they really sent Yang Chen away, it would be like willingly giving away one of the few weapons they had left.

## Chapter 2385: Striving for the Nirvana Stage\_1

This is just like when an enemy wants to kill you, saying that if you hand over your weapon, they might consider sparing your life.

It's easy to fall into this misconception.

If you don't surrender your weapon, you still have a chance to fight, and your enemy will not dare to act rashly, fearing your weapon.

But if you hand over your weapon, will the enemy really honor their promise not to kill you?

It's simply absurd.

Fortunately, the Northern Dragon Commander always kept a clear head in any situation and didn't believe the Primal Supreme's lies.

At this moment, when Yang Chen heard people's inquiries, he also smiled faintly.

Actually, he didn't know how to explain that he wanted to break through to the Nirvana Stage.

But now that everyone had asked, he didn't want to conceal anything, so he said, "This time, I plan to try to break through to the Nirvana Stage!"

"What!"

Everyone was shocked.

"You want to break through to the Nirvana Stage?"

“Yang Chen, my friend, that shouldn’t be so easy, right? You’ve already gathered so many Dao Intentions in your body, and one of them has reached the Daoist Sovereign stage. It’ll be very difficult to break through to the Nirvana Stage, I’m afraid...”

“Definitely not easy.”

Many people didn’t finish their thoughts, but their meaning was already clear.

For someone like Yang Chen who had more than five Dao Intentions in his body, all of which had been cultivated to at least the Dao King stage, and one even reached the Daoist Sovereign stage Dao Intent.

The probability of breaking through to the Nirvana Stage would be extremely difficult, and it could even be said to be impossible.

In history, those who had two Dao Intentions and broke through to the Nirvana Stage were already the best among the Nirvana Stage cultivators and had high hopes of reaching the Nirvana Stage limit in the future.

And those with three or four Dao Intentions were even more exaggerated, particularly those who had one Dao Intent at the Daoist Sovereign level.

The difficulty was directly proportional to the exaggeration.

“Yang Chen, my friend, the Nirvana Stage isn’t something you can break through just by saying it.”

“Yes...”

Yang Chen knew what these people meant and said helplessly, “I understand everyone’s concerns, but I do have some means to break through to the Nirvana Stage.”

The Northern Dragon Commander didn’t think Yang Chen could break through to the Nirvana Stage either.

This was also why they envied Yang Chen but didn't lose their balance too much, as having a strong combat power in the Enlightenment Stage but giving up on becoming a Nirvana Stage cultivator didn't seem like a great trade-off.

However, he didn't say it outright, and since Yang Chen had indeed performed many miracles, he could only say, "Yang Chen, my friend, no matter what you do, we only have two days. Will it be too hasty for you to break through to the Nirvana Stage in such a short time?"

"No, I've been preparing for this for a long time," Yang Chen said.

He could have broken through to the Nirvana Stage when he got married to Hua Wanru or even just after coming out of the Great Secret Realm.

But Yang Chen waited for some time to break through to the Nirvana Stage after his Golden Dao Intentions and Thunder and Lightning Dao Intentions all reached the Dao King stage.

Before this, he had been preparing for the many requirements to become a Nirvana Stage cultivator, and although two days were not long, it was enough for him to accumulate and make his breakthrough.

Many people were puzzled, not knowing what Yang Chen meant, but since things had come to this point, they didn't ask any further questions.

Yang Chen went into closed-door cultivation again.

This time, unlike the previous few times, he aimed to break through to the Nirvana Stage.

And his real trump card for breaking through to the Nirvana Stage was the key item he obtained – one of Mu Taiqing's Three Souls, which contained one-third of the essence of a Boundless Stage Expert.

With this in hand, Yang Chen was reminded by the Mountain and River Destruction Map and considered it his key trump card for breaking through to the Nirvana Stage.

It could be said that the concerns of those Vice Generals and others were not unfounded.

If Yang Chen hadn't obtained one of Mu Taiqing's Three Souls, he wouldn't have been too confident about breaking through to the Nirvana Stage. He had comprehended too many Dao Intentions, and attempting to break through to the Nirvana Stage in one shot would generate how many Dao Intent Incriptions?

Unimaginable.

Under normal circumstances, it would indeed be impossible.

However, he has one of Mu Taiqing's three souls.

Yang Chen is now looking at one of Mu Taiqing's three souls, eyes focused, and his gaze is sharp!

"Refine..."

With full concentration and meticulous care, Yang Chen begins the refining process!

Mu Taiqing's three souls contain countless essences, and the moment Yang Chen begins to refine them, he feels his heart shake.

Then, a terrifying energy surges and enters Yang Chen's body!

"Ugh!"

Yang Chen can't help but let out a low-pitched roar!

Yang Chen feels the agitation of Mu Taiqing's three souls, and immediately, a part of the memories from these souls surge into Yang Chen's mind.

Next, the essences of the Boundless Stage Experts from the three souls flow into Yang Chen's body.

After that, Mu Taiqing's comprehension of Dao Intent gradually drills into Yang Chen's body.

One step after another.

What a Boundless Stage Expert has is simply too much to estimate!

First, Yang Chen absorbs the memories contained within Mu Taiqing's three souls. As the memories enter his body, Yang Chen reveals an interesting smile.

"There are so many interesting things in Mu Taiqing's memories, and indeed, his relationship with Peng Wanli is not solid. This guy actually..."

Yang Chen shakes his head: "This Mu Taiqing...what great ambition!"

...

As Yang Chen refines Mu Taiqing's three souls...

Far away in the distance!

Mu Taiqing is in closed-door seclusion, and sitting beside him is Peng Wanli.

At present, their cultivation levels have already surpassed the Enlightenment Stage and have truly reached the peak of the Nirvana Stage. Moreover, judging by the number of Dao Intent Inscriptions hovering around their bodies, they have reached...

Tens of thousands!

If anyone else knew about the number of Dao Intent Inscriptions, they would be stunned.

After all, such a number of Dao Intent Inscriptions is extremely rare.

However, only Peng Wanli and Mu Taiqing knew that this was not their peak state, and they were in seclusion to recover to their peak-state condition.

But at this moment, Mu Taiqing suddenly spits out a mouthful of blood.

Immediately, many of the once-bright Dao Intent Inscriptions become dim.

And Mu Taiqing's Qi also becomes extremely weak!

"What's going on!" Peng Wanli exclaims in surprise.

"Damn it, one of my three souls has been refined by that Yang bastard!" Mu Taiqing roars in low, furious fury!

When the conversation ends, Mu Taiqing's whole body emits a thick murderous aura.

"Peng Wanli, I can't wait for the Dao Intent Inscriptions to return to their peak state. I want to recover to the Boundaryless Stage, and kill that kid. My three souls, my three souls!" Mu Taiqing's veins bulge, and the anger in his heart can only be known by himself.

He had spent countless years planning, only to see it all ruined now.

Only he knows how important that one soul of his is!

## Chapter 2386: Five Elements Dao Intent?\_1

Indeed, one can say that Mu Taiqing's Three Souls are extremely important.

What's contained within them even made Yang Chen take a deep breath. He wondered, what kind of earth-shattering plan did Mu Taiqing devise back then?

However, Yang Chen does not have the time to think about these things now!

Because refining the essence from Mu Taiqing's Three Souls is urgent for him, he doesn't have time to delay or waste!

Now, he must break through to the Nirvana stage as soon as possible.

Yang Chen's judgment is not wrong.

The material within Mu Taiqing's Three Souls, which is full of energy, truly makes Yang Chen feel the possibility of a breakthrough!

This possibility becomes stronger and stronger until ultimately, it turns into a reality!

There are too many Dao Insights within Mu Taiqing's Three Souls. The understanding of these Dao Insights far exceeds the Nirvana stage and can even bring together so many Dao Insights to break through to the Nirvana stage!

Possibility has turned into certainty!

Yang Chen's Qi becomes stronger and stronger!

"When reborn in the Nirvana stage, Dao Intent Inscriptions are born..."

“Dao Intent is reborn in fire and transformed into Inscriptions!”

“This stage is the Nirvana stage!”

“Nirvana stage, break for me!”

Yang Chen’s voice bursts out, and his Qi explodes in an instant. The effect brought by Mu Taiqing’s Three Souls has reached its peak. Then, Yang Chen’s strength climbs infinitely, step by step, leaving the Enlightenment stage and solidifying into the Nirvana stage.

When he reached the Nirvana stage, Yang Chen also took a deep breath.

“Mu Taiqing’s Three Souls are truly powerful. They actually pushed my cultivation level to the Nirvana stage and allowed me to have the Five Elements Dao Intent of Metal, Wood, Water, Fire, and Earth.”

Only Yang Chen himself knows that he now has three more Dao Intents.

These three Dao Intents are Wood, Water, and Earth.

In fact, if it weren’t for his existing Gold and Fire Dao Intents, he would have gained five Dao Intents out of thin air.

Where do these five Dao Intents come from?

They come from Mu Taiqing’s Three Souls.

One of Mu Taiqing’s Three Souls was taken by Yang Chen, which contained Mu Taiqing’s Five Elements Dao Intent.

Yang Chen took advantage of this and directly inherited Mu Taiqing's accumulated Dao Insights over the years.

These Wood, Water, and Earth Dao Intents have already been refined by Mu Taiqing to the Dao King stage, and now Yang Chen's Five Elements are all at the Maturity stage.

However, this did not lead to the legendary strongest Dao Intent, the Five Elements Dao Intent.

Why?

Actually, this is also one of Mu Taiqing's goals.

As Yang Chen recalled Mu Taiqing's memories from his Three Souls, he sighed, "Mu Taiqing's ambition is truly enormous. He not only possesses various Dao Intents but also wants to collect the Five Elements Dao Intent of Metal, Wood, Water, Fire, and Earth, trying to fully comprehend the strongest Five Elements Dao Intent. But merely having the Five Elements is not enough; you must reach the highest level of comprehension, which is the Daoist Sovereign stage, to evolve into the Five Elements Dao Intent."

"At that time, the Five Elements Dao Intent will transcend the Five Elements, becoming a superior Dao Intent that can even control the four seasons..."

Yang Chen murmured to himself.

Every strongest Dao Intent possesses unpredictable mystic powers, which are truly awe-inspiring.

To gather the Five Elements Dao Intent, the difficulty is no less than that of Life and Death, and Spacetime, even surpassing it!

Because breaking through all Five Elements Dao Intent to the Daoist Sovereign stage is almost impossible. Even Mu Taiqing hasn't achieved it for a single Dao Intent.

However, Mu Taiqing has another way. What method?

Relying on external objects to forcibly improve Dao Intent, this method can be used even when reaching Nirvana Stage, Great Stage, and even Realmless stages.

For example, with Water Dao Intent, if you find the legendary Spirit of the Divine Sea, you can break through Water Dao Intent to the Daoist Sovereign stage.

As for Fire Dao Intent, you need to find the Origin of the Strange Fire!

As for Gold Dao Intent, it requires a Golden Pattern Bird, a divine item that Yang Chen has never even heard of.

As for Wood Dao Intent and Earth Dao Intent, it becomes interesting.

It actually requires the body of the Spirit God Race!

What does this represent?

It means that originally, Mu Taiqing and Peng Wanli's cooperation was intended to devour Peng Wanli's body. Of course, Peng Wanli and Mu Taiqing both had their own hidden agendas, so neither had the right to criticize the other.

Now, Yang Chen sorted his thoughts a bit.

According to Mu Taiqing's memory, the North Ming Sea in the Spirit Realm has the Spirit of the Divine Sea.

No one knows exactly where it is, and Mu Taiqing didn't find it back then either.

About the Origin of the Strange Fire...

Yang Chen took a deep breath; he currently had the Origin of the Strange Fire and had not even fully refined it. He was even a little headache about how to complete the refining.

He didn't expect that the Origin of the Strange Fire could help Fire Dao Intent to breakthrough to the Daoist Sovereign stage!

The next thing to consider was the Golden Pattern Bird!

It was the most troublesome, because according to Mu Taiqing's memory, only the Southern Realm had ever given birth to such a creature.

Yang Chen felt a mix of emotions. Now that he had unexpectedly acquired the Five Elements Dao Intent, he was still quite surprised.

"Mu Taiqing must hate me to death, knowing all these things. Years of planning, all ruined by me. If not, the return of Mu Taiqing's Three Souls would really be a horrifying thing."

Yang Chen talked to himself, and at this point, he became more solemn.

Because the Thunder Tribulation in the sky had arrived.

This was the Heaven's Tribulation after he entered the Nirvana Stage.

Yang Chen had always known about the birth of Heaven's Tribulation, but it needed some time to brew, so he hadn't rushed to face it.

Now, he was gradually getting up...

"When I was at the Enlightenment Stage, I attracted twelve layers of Heavenly Thunder Tribulation, which was already the strongest Thunder Tribulation I knew. I really don't know what kind of Thunder Tribulation I would attract now that I have entered the Nirvana Stage!"

Yang Chen looked at the Sky Thunder Pool, and a bad premonition suddenly arose. He could feel that the Thunder Tribulation for reaching the Nirvana Stage this time would probably be stronger than the last time.

At the same time, various clans in the Spirit Realm and the Netherworld Army were also alarmed by this Thunder Tribulation.

It wasn't that they wanted to be alarmed, but the range of this Thunder Tribulation was too wide...

If it weren't for the fact that the center of the Thunder Tribulation only targeted one point, they might have even fled.

Even so, it was quite astonishing. Creating such an amazing momentum of Thunder Tribulation within the spatial nodes made many people wonder who had reached the Nirvana Stage.

The Moon Demon Ghost General outside the temporary array thought it could be Yang Chen and swallowed nervously, "It can't be that kid, with so many Dao Intents at the Enlightenment Stage, how could he possibly reach the Nirvana Stage, it must not be him, there must be someone else."

The Moon Demon Ghost General absolutely could not admit that Yang Chen had entered the Nirvana Stage.

But unfortunately, the truth was that it was Yang Chen.

At least at this time, the various clans of the Spirit Realm were all shocked when they saw the birth of this Thunder Tribulation.

Because this meant that Yang Chen had really entered the Nirvana Stage.

Chapter 2387: Three More Layers Remaining\_1

“The Sky Thunder Pool is so rampant, it must be preparing to unleash Heaven’s Tribulation, but the signs and momentum before its arrival are a bit too intense. Supposedly, this spatial node has compressed many Heavenly Laws, making our means here quite limited, and their power greatly discounted...”

“But this Heaven’s Tribulation still looks extremely astonishing, I wouldn’t have been able to withstand it back when I was in the Nirvana Stage.”

“This Heaven’s Tribulation is too powerful!”

“I have seen a twelve-fold Heaven’s Tribulation before, but it doesn’t seem as powerful as this one.”

“Why does this feel like the Heaven’s Tribulation to enter the Heavenly Venerate realm?”

“Even Heaven’s Tribulation for entering Heavenly Venerate shouldn’t have this much oppressive force. Is this Yang Chen’s Heaven’s Tribulation?”

Many people took a deep breath, completely unable to believe it.

Nevertheless, the Northern Dragon Commander spoke solemnly, “Yang Chen possesses several Dao Intents surrounding him, thus the power of his Heaven’s Tribulation is indeed hard to imagine. However, I find it somewhat difficult to believe that it could be this powerful!”

As he spoke, the Northern Dragon Commander took a deep breath of cold air himself.

“Is this the Heaven’s Tribulation brought about by Yang Chen you all mentioned?” A group of unfamiliar human faces suddenly spoke.

These people, all of them exuded strong qi, and among them was even an expert at the limit of the Nirvana Stage.

They were the reinforcements who had been waiting in the Western Region for a long time.

On the second day of Yang Chen's seclusion, these reinforcements had already arrived, a total of nearly a hundred Nirvana Stage experts, including one at the limit of the Nirvana Stage. They had been sent by the various clans as reinforcements and had managed to arrive after almost a month of travel.

When these reinforcements arrived, the most frequent news they heard was about the mysterious Yang Chen.

They had heard too much about these two words, so they were extremely curious about who exactly Yang Chen was!

Northern Dragon Commander and the vice generals beside him nodded.

"Cloud River God General, I have told you about this young man before, that he could fight to a draw with a ghost general at the limit of the Nirvana Stage while he was in the Enlightenment Stage. And now, the Heaven's Tribulation he has attracted is beyond exaggeration." Northern Dragon Commander sighed endlessly.

These reinforcements couldn't help but shake their heads, feeling that the mysterious Yang Chen had been overly hyped.

They had seen too many cases where reality was difficult to live up to a grand reputation and didn't take it too seriously. However, this Heaven's Tribulation was indeed quite terrifying.

Meanwhile, back to Yang Chen's side...

At this moment, Yang Chen was fully focused on observing the Heaven's Tribulation in the sky.

He knew very well that after reaching the Nirvana Stage, his Heaven's Tribulation would only be more terrifying than before. This made him feel a bit bitter, as for him, each Heaven's Tribulation was incredibly horrifying!

This time would be no exception.

Yang Chen dared not to underestimate it!

Heaven's Tribulation soon descended.

The first level was fierce and shocking...

In an instant, it surged downwards like a Thunder Snake, pouring directly down upon him. Yang Chen also instantly unleashed his Dao Intent, which instantly exploded, dissolving the first level of Heaven's Tribulation immediately.

After the first heaven's tribulation, the second one came almost instantly!

However, for Yang Chen's strength, the first three Heaven's Tribulations posed no problem!

Successive triple Heaven's Tribulations descended, displaying astonishing power, and they were all easily resolved by Yang Chen.

However, starting with the Fourth Heaven's Tribulation, it became slightly more pressuring.

Despite Yang Chen's abilities, he could still fully control it!

Then came the Fifth, Sixth, Seventh, Eighth, and Ninth Heaven's Tribulations!

After the ninefold Heaven's Tribulation, there was no particularly dangerous damage to Yang Chen.

This made many people take a deep breath, feeling only shock in their hearts.

Because Nirvana Stage's Heaven's Tribulation should be ninefold.

Most Nirvana Stage experts would exhaust all their strength facing these nine Heaven's Tribulations, and only then would they barely pass. Or they might fall just short, and such occurrences were all too common.

Ninefold Heaven's Tribulation could be seen as a nightmare for Nirvana Stage experts.

There were also Nirvana Stage experts who experienced twelve-fold Heaven's Tribulation, but those cases were very rare. Those who experienced twelve-fold Heaven's Tribulation were even pitied.

Because the chances of passing it were too low, it could even be said that there was no hope. So many Enlightenment Stage experts failed to enter the Nirvana stage when they were met with the twelve-fold Heaven's Tribulation, the probability being almost a hundred percent!

Yang Chen, undoubtedly, achieved a shocking record.

He instantly completed the ninefold Heaven's Tribulation!

Without any effort, he completed the performance of the ninefold Heaven's Tribulation.

However, this also made many people frown, as the Sky Thunder Pool had not dissipated after Yang Chen had instantly completed the ninefold Heaven's Tribulation. This meant that, without a doubt, Yang Chen, with his excellence, had attracted the twelve-fold Heaven's Tribulation after the ninefold one.

The twelve-fold Heaven's Tribulation was very difficult to overcome; could Yang Chen really pass it?

As everyone was puzzled, Yang Chen now officially faced the arrival of the tenth Heaven's Tribulation.

The tenth Heaven's Tribulation rolled around, its power already one level above the ninth, making Yang Chen think back to when he entered the Enlightenment Stage!

Now, it was the same!

After the tenth Heaven's Tribulation's power underwent a qualitative change, Yang Chen began to take it more seriously.

Boom!

With a loud thunderous sound, Yang Chen took out the Slaughter God Spear and suddenly displayed the Tenfold Golden Butterfly.

The Golden Butterfly reached its maximum power wherever it went!

Brilliance was dancing and blooming!

Yang Chen slightly frowned, and with that, he easily broke the tenth Heaven's Tribulation.

But after breaking the tenth Heaven's Tribulation, Yang Chen's expression didn't relax, as he sensed a change in the tenth Heaven's Tribulation compared to the ninth one.

This increase would continue into the Eleventh Heaven's Tribulation.

In other words, the Eleventh Heaven's Tribulation would be even more powerful.

"Come on!" Yang Chen was filled with fighting spirit!

The Eleventh Heaven's Tribulation descended!

Yang Chen unleashed his Dao Intent, intending to use the eleventh or twelfth Golden Butterfly to dissolve it. However, when the moment came, he was suddenly taken aback, feeling that the power was somewhat insufficient and immediately added the Thirteen-fold Golden Butterfly, to dissolve the Eleventh Heaven's Tribulation.

Next would come the even more formidable Twelfth Heaven's Tribulation!

The arrival of this twelfth Heaven's Tribulation was undoubtedly the beginning of another nightmare...

Yang Chen calculated the power needed and couldn't help but shake his head.

The Sixteen-fold Golden Butterfly was a bit difficult; the Seventeen-fold Golden Butterfly was necessary.

And the Seventeen-fold Golden Butterfly was almost the biggest trump card under his Twenty-fold Golden Butterfly!

After weighing his options, Yang Chen knew he didn't have much time to think and immediately launched the Seventeen-fold Golden Butterfly.

Upon colliding with Heaven's Tribulation, it sparked astonishing fireworks.

Then, after the friction, the Twelfth Heaven's Tribulation disappeared. However, what followed was not a clear sky, but an even more rampant spread of thunderbolts!

This represented that there were still three more Heaven's Tribulations...

Chapter 2388: Terrifying Heaven's Tribulation\_1

This had become a matter that could stir up waves of astonishment deep within people's hearts.

Many onlookers swallowed hard!

After the Twelfth Layer of the Thunder Tribulation ended, the Thirteenth Layer followed.

What did this represent?

It meant that Yang Chen was going through Fifteenth Layer Thunder Tribulation.

From Enlightenment Stage to Nirvana Realm with a Fifteenth Layer Thunder Tribulation?

Everyone felt their perceptions challenged, having lived this long and heard of a Twelfth Layer Heavenly Venerable Thunder Tribulation for those crossing from Enlightenment Stage to Nirvana Realm. But they had never heard of anything like a Fifteenth Layer Thunder Tribulation.

Because even when someone crossed from Nirvana Realm to Heavenly Venerable Stage, no one had ever experienced a Fifteenth Layer Thunder Tribulation!

The Twelfth Layer Thunder Tribulation was like a barrier.

The highest was only twelve layers.

Fifteen?

No one knew that there was such a thing as a Fifteenth Layer Thunder Tribulation.

While everyone else was amazed, Cloud River Divine General said with his hands behind his back, "I have heard of the appearance of the Fifteenth Layer Thunder Tribulation before, but that was entirely in legends."

"In what situation does the Fifteenth Layer Thunder Tribulation appear?" The crowd grew curious.

Cloud River Divine General said solemnly, "As we all know, the phase of transitioning from the Great Path Stage to the Boundaryless Stage is to convert inscriptions into Heaven and Earth Laws. It is said that Boundaryless Powerhouses have reached the point where they can manipulate Heaven and Earth Laws. And any Boundaryless Powerhouse who can comprehend the Heaven and Earth Laws would enter a realm beyond. At that time, those Boundaryless Powerhouses will surpass the Boundaryless Stage and create their own Power of Laws."

With that said, Cloud River Divine General took a deep breath: "When that level of power is reached, they will break free from the bondage of this world and achieve a whole new level. Our world can no

longer contain them, and the rules do not allow their existence. Just like the supreme immortal powerhouse Hua Qingfeng back in the day. They have completely mastered the power of the rules and transcended the Boundaryless.”

Hearing this, the crowd was dumbfounded, “Is the Fifteenth Layer Thunder Tribulation only triggered at that stage? What is going on with Yang Chen then?”

Cloud River Divine General shook his head; even he couldn’t explain it.

Keep in mind that if it wasn’t for him witnessing it with his own eyes, he would never believe that an Enlightenment Stage cultivator entering the Nirvana Realm would trigger the Fifteenth Layer Thunder Tribulation.

“I don’t know that. I only know that the Fifteenth Layer Thunder Tribulation that is born when those Boundaryless powerhouses try to convert the laws and transcend the Boundaryless is actually a type of rejective and hostile Thunder Tribulation! Or one could say it is the final test of Thunder Tribulation.” Cloud River Divine General explained.

“How so?” Many were confused.

Only the North Dragon Commander, knowledgeable and experienced, knew a thing or two, “Hearing what Cloud River Divine General said, I remember a lot. Heaven and Earth do not really want Boundaryless Powerhouses to transcend the Boundaryless and condense the Power of Laws. Because it has no benefits for Heaven and Earth itself; every time a Boundaryless Powerhouse surpasses the Boundaryless, it will strip away the Power of Laws from Heaven and Earth, thus strengthening themselves. So when they try to transcend, Heaven and Earth will do their best to stop them. As a result, the Fifteenth Layer Thunder Tribulation is known as Heaven and Earth’s strongest disaster and a Thunder Tribulation to stop Boundaryless Powerhouses!”

Upon hearing this, the crowd became increasingly shocked.

The Thunder Tribulation to stop Boundaryless Powerhouses was now happening to Yang Chen?

“So, does that mean Heaven and Earth don’t want Yang Chen to enter the Nirvana Realm?” After a gulp, many people started asking questions.

Cloud River Divine General whispered, “I think it can be interpreted that way. Otherwise, such a Thunder Tribulation shouldn’t have been born. The Fifteenth Layer Thunder Tribulation is a terrifying and frightening disaster born out of the hostility of Heaven and Earth!”

“Why doesn’t Heaven and Earth want Yang Chen to enter the Nirvana Realm?”

Many people were caught in this quandary.

Yang Chen was not aware of all the hidden secrets of the Fifteenth Layer Thunder Tribulation.

However, he did feel the astonishing power of the Thirteenth Layer Thunder Tribulation.

Without even hitting him, that power made his heart race.

It’s important to note that he was incredibly powerful now. Even so, if he still felt his heart racing, it showed just how strong the Thirteenth Layer Thunder Tribulation was.

“This Thunder Tribulation is a whole level stronger than the Twelfth Layer. The Eighteenth Layer Golden Butterfly can’t withstand it at all, and even the Nineteenth Layer is a bit difficult. I’m afraid I’ll have to use my strongest Twentieth Layer now!” Yang Chen muttered to himself.

The Thirteenth Layer of Thunder Tribulation descended!

As the thunderbolt of a clear day fell like a gigantic pillar, almost everyone felt a surge of heart palpitations.

Even those at the peak of the Nirvana Realm sensed their own insignificance in the face of this Thunder Tribulation!

As these thoughts lingered, Yang Chen also unleashed the Twentieth Layer Golden Butterfly simultaneously!

When this Golden Butterfly was unleashed, its power soared like a torrent, creating a storm of friction that echoed and impressed everyone. All they could think of was reverence.

The Thirteenth Layer Thunder Tribulation shattered with a series of cracks.

Success!

Many people's pupils constricted!

"The Thirteenth Layer Thunder Tribulation is broken!"

"There's more!"

Up next was the Fourteenth Layer Thunder Tribulation.

Many were sweating for Yang Chen, deeming him a miracle. After all, they had thought from the beginning that Yang Chen wouldn't be able to handle the Thirteenth Layer Thunder Tribulation.

Yang Chen was also now on high-alert, his eyes fixed on the sky above, his heart agitated.

This Fourteenth Layer Thunder Tribulation was even stronger and by a significant margin.

The Twentieth Layer Golden Butterfly was completely insufficient. It was likely to be torn apart by the Fourteenth Layer Thunder Tribulation.

"I must gather all my current peak Dao Intent into the Twentieth Layer Golden Butterfly in order to have a chance against this Fourteenth Layer Thunder Tribulation, but what about the Fifteenth Layer Thunder Tribulation after the Fourteenth Layer ends?"

Yang Chen was now in a desperate situation!

If he used all his power now, his fate against the Fifteenth Layer Thunder Tribulation would be nothing but a dead end!

But he was completely out of time to think.

The Fourteenth Layer Thunder Tribulation had arrived!

Rumble, rumble.

The rolling thunderbolts, like a mighty dragon, surveyed the beings below.

Each person seemed so insignificant, like ants in the face of Thunder Tribulation.

In just a blink, the Fourteenth Layer Thunder Tribulation that solved everything had arrived.

It was despair-inducing and unbeatable!

Yet, Yang Chen no longer had time to think. As the Twentieth Layer Golden Butterfly was deployed once more, he exhausted all his Golden Dao Intent!

By forcibly deploying his Golden Dao Intent, he reinforced all his Dao Intents – Metal, Wood, Water, Fire, Earth, Life and Death, Space-time, Indomitable, Thunder, and Lightning Dao Intents – into one, giving his all.

Yang Chen wanted to leave something for himself, but he had no confidence against this Fourteenth Layer Thunder Tribulation. It was too powerful, and unless he gave his all, he would die!

Chapter 2389: The Outburst of the Ancient God's Fury\_1

Furthermore, the demonification of the Fifth Layer!

Exhausting everything!

The power reverberated, as True Qi loitered, unable to calm down for a long time!

Under this lingering, the entire spatial node began to wobble, causing many people to feel fear, as if the space was going to be destroyed.

It was too strong, and people had no idea how to counter this Heaven's Tribulation!

"Can it still be blocked?"

"This Heaven's Tribulation is a bit too strong, isn't it!"

"Fourteenth Thunder Tribulation, it hasn't even reached the fifteenth yet, but it's already so powerful. No one can handle this Heaven's Tribulation, no one can!"

As everyone was thinking this, all of a sudden, the Fourteenth Thunder Tribulation was cracked open, solved!

It was like a broken kite, completely dissolved!

The Fourteenth Thunder Tribulation vanished like smoke.

Everyone's pupils contracted.

Such terrifying, astonishing Fourteenth Thunder Tribulation was actually dissolved?

“This, this!”

“This is nothing short of a miracle, no, a divine work can only describe this!”

“But...”

Although the Fourteenth Thunder Tribulation was solved, as many people looked up at the sky, their smiles froze because after the Fourteenth Thunder Tribulation dissipated, the Fifteenth Thunder Tribulation gathered.

Heaven’s Tribulation still hadn’t completely disappeared, it still existed.

There was the most domineering Fifteenth Thunder Tribulation, capable of destroying heaven and earth!

Seeing this Heaven’s Tribulation, everyone felt anxious for Yang Chen, and one could even say that everyone felt despair for him.

Fourteenth Thunder Tribulation could be broken, but how about the fifteenth?

The Heaven’s Tribulation hadn’t arrived yet, but the Thunder in the Thunder Pool seemed as if the heavens were declaring they wanted to kill him. That astonishing power was boundlessly magnified, as huge as it could be!

Yang Chen had indeed solved the Fourteenth Thunder Tribulation, but now he had exhausted all of his power, and after one strike, he had already fallen to the ground.

He spread his arms, took gasping breaths as he looked up at the sky, with amazement flashing in his eyes.

Then, a bitter smile appeared on his face.

As expected, he shouldn't have had any delusions. How could there be no Fifteenth Thunder Tribulation?

The problem occurred at this moment.

And it was a matter of life and death!

Having just exhausted all his strength to barely break the Fourteenth Thunder Tribulation, how was he going to withstand the Fifteenth one?

Yang Chen couldn't figure it out now. He felt that there was a problem somewhere, and this Fifteenth Thunder Tribulation was so powerful that it made him despair. It seemed that as long as he crossed the Heaven's Tribulation, he would condense the Dao Intent Inscriptions and become even stronger.

But because of the Heaven's Tribulation, this major obstacle, it was very difficult for him to leap over and make a breakthrough!

Especially the Fifteenth Thunder Tribulation, if he failed, he would face his downfall.

Yang Chen's face tensed!

He suddenly realized this crucial issue.

Failure meant downfall!

A cruel reality.

However, Yang Chen couldn't help but become very nervous. Without the arrival of the Fifteenth Thunder Tribulation, it had already exuded an overwhelming sense of despair. With nothing left to resort to, how was he going to counter this Fifteenth Thunder Tribulation?

Yang Chen racked his brains, having almost exhausted his techniques.

The only thing left to use was the Ancient God's Fury.

Ancient God's Fury, an all-inclusive spear technique, was eerily integrated into this Dao technique with divine power. Unlike the Golden Butterfly, it didn't rely too much on the consumption of the Golden Dao Intent, but its power was no less than that of the Golden Butterfly.

But at this moment, could the Ancient God's Fury work?

Yang Chen saw no hope.

However, suddenly, he had an idea.

"Right, what is the essence of the Ancient God Spear Technique? It's the integration of divine power and Dao Intent, along with all other substances. Then, my Life and Death Dao Intent, Spacetime Dao Intent, and other Dao Intentions, can they be merged as well?"

This problem lingered in Yang Chen's mind and quickly inspired him.

Yes, the core of the Ancient God's Fury was the combination of various materials, and then a one-time explosion.

So, could his other Dao intentions be fused together with divine power, to deliver the ultimate strike, as well?

This was not simply a twentieth Golden Butterfly with Dao Intent enhancement.

Within the Ancient God's Fury, there were many methods to combine and fuse with other substances, which perfectly encapsulated fusion and explosion.

With this thought, Yang Chen felt hopeful and decided to make a desperate attempt.

“Instead of sitting and waiting for death, I’d rather fight for my life!”

Yang Chen gazed into the sky, his eyes burning, holding the Long Spear, already throwing everything he had into it.

“Ancient God’s Fury, it’s all up to you now.”

No one had faith in Yang Chen, as this power was simply too despairing.

Even the Netherworld had started to rejoice, as the power of the Fifteenth Thunder Tribulation was too strong. It was truly a destructive power that couldn’t be overcome.

“It’s truly shocking, just entering the Nirvana Stage from the Enlightenment Stage, he actually triggered this horrifying Fifteenth Thunder Tribulation. This Fifteenth Thunder Tribulation is very rare even in our Netherworld.” The Canglang Ghost General and Moon Demon Ghost General sighed incessantly.

“It’s a pity that this kid has only reached this stage and is facing such a Heaven’s Tribulation. The only outcome is downfall. The Fifteenth Thunder Tribulation is the rage of heaven and earth. Humph, this kid has still shown his talents too early. Only the Boundless Stage Experts relying on their own Laws can withstand the Fifteenth Thunder Tribulation. The Fifteenth Thunder Tribulation this kid is facing right now is certainly incomparable to that of the Boundless Stage Experts, but he will certainly not survive.”

Moon Demon Ghost General was a little depressed: “Hmph, it’s a pity I can’t kill this kid myself. But, the downfall of this difficult youngster in the end is a good thing, so we don’t need to waste our efforts trying to kill him anymore!”

“The only thing to regret is that mirror...”

“Don’t worry, when this kid dies, finding that mirror won’t be too difficult. When the time comes, we’ll attack, and the various clans in the Spirit Realm won’t be able to withstand it!”

The two Ghost Generals spoke to each other, and by this time, Yang Chen had also unleashed the Ancient God's Fury!

He integrated everything that he could use at the moment into the Ancient God's Fury, condensing the most powerful strike he could muster.

Everything in this strike surprised Yang Chen greatly.

"Such powerful might!" Yang Chen muttered to himself.

It was more powerful than his Twenty Layered Golden Butterfly, combined with the enhancements of numerous Dao Intent.

This also made Yang Chen happy, as the stronger his power was, the greater his chances of winning!

"Here it comes!"

At this moment, Yang Chen stared straight at the top!

The Fifteenth Thunder Tribulation was finally here!

And Yang Chen, with a roar, unleashed his entire being, fully erupting with the Ancient God's Fury!

Chapter 2390: Seven Thousand Dao Intent Inscriptions\_1

Life or death, it all depends on this moment!

Yang Chen looked straight at the sky. When the fury of the ancient god erupted with the brilliant storm, he displayed all his unyielding spirit.

Yang Chen could not allow himself to fall for no reason here.

So what about the fifteen thunder tribulations? They could not stop his steps!

Yang Chen unleashed all of his power.

The storm raged for a full cup of tea's time, failing to subside for a long time!

No one knew the outcome.

However, Yang Chen unexpectedly launched a wave of counterattack in the end, which many people found hard to believe. After all, they initially thought that Yang Chen would surely lose. Even if he died in battle, everyone could understand!

But now, Yang Chen's desperate counterattack actually held off the fifteen thunder tribulations.

As its power lingered and could not be dissolved in a short while, many people swallowed nervously.

Could it be that Yang Chen still has a chance of victory?

As soon as this thought came to mind, no one could look away.

Soon, the scene that everyone was concerned about happened.

The dark clouds in the sky gradually dissipated, and the thunder pool no longer gathered thunderbolt energy!

The Heaven's Tribulation finally disappeared, and everything returned to calm.

This signified that the fifteen thunder tribulations were over.

But was Yang Chen still alive?

Many people were surprised and quickly rushed over to check.

“Go, go and see.”

Everyone cared about whether Yang Chen was still alive. After all, his existence was very important to their entire battlefield. Most importantly, Yang Chen had already entered the Nirvana Stage!

What does the Nirvana Stage represent?

It means that Yang Chen has already condensed Dao Intent Inscriptions.

Once the Heaven’s Tribulation was over, the Dao Intent Inscriptions would automatically begin to slowly condense.

Yang Chen was already in this process.

Although he had gone through a tribulation and exhausted everything, leaving himself lying on the ground physically and mentally drained,

The condensation of Dao Intent Inscriptions was automatic, layer upon layer, and it brought a smile to Yang Chen’s face.

“It seems that Senior Luo was right. Special Dao Intent, the Strongest Dao Intent, and the enlightenment of Dao Intent all affect the number of Dao Intent Inscriptions condensed for the first time after entering the Nirvana Stage,” whispered Yang Chen.

His Life and Death Dao Intent, at the very moment of entering the Nirvana Stage, condensed two thousand Dao intent inscriptions.

The strongest, with Daoist Sovereign stage, created the current power.

Next came the Space-Time Dao Intent, the strongest Dao Intent plus the Dao King stage Dao Intent, congealing one thousand five hundred Dao intent inscriptions as soon as they gathered.

The following Metal, Wood, Water, Fire, Earth, Unyielding Dao Intent, and Thunder and Lightning Dao Intent were all the lowest-level Dao Intents. Even at the Dao King stage, only five hundred Dao Intent Inscriptions were condensed.

Seven Dao Intents made up a total of three thousand five hundred Dao Intent Inscriptions.

That is to say, at the very moment he entered the Nirvana Stage, he had seven thousand Dao Intent Inscriptions.

Seven thousand, if this number were to spread out, it would shock people.

“No wonder Senior Luo praised the strongest Dao Intent so highly. With a single Dao Intent at the Daoist Sovereign stage, it directly gave me two thousand Dao Intent Inscriptions. Just entering the Nirvana Stage, reaching this stage, those Nirvana Stage experts would probably spit out a mouthful of blood if they knew,” said Yang Chen, shaking his head and chuckling.

Over 7,000 Dao Character Inscriptions, this amount was not small by any means.

With this amount of Dao Intent Inscriptions, he could do many things. At present, Yang Chen took out the Slaughter God Spear first.

Each expert who entered the Nirvana Stage would take out their Dao Intent Inscriptions and refine their most adept divine weapons, turning them into their exclusive divine weapons.

“Slaughter God Spear, I’m going to channel my Dao Intent Inscriptions into your body, so get ready,” said Yang Chen.

The Slaughter God Spear chuckled, "Alright, no problem, Young Master, I've been craving this for a long time. Let me taste the power of Dao Intent Inscriptions."

Yang Chen smiled faintly and channeled all of his Dao Intent Inscriptions into the body of the Slaughter God Spear!

He channeled a bit of each Dao Intent; seven thousand Dao Intent Inscriptions, and Yang Chen chose to input three thousand five hundred into the Slaughter God Spear's body.

With these three thousand five hundred Dao Intent Inscriptions, the Slaughter God Spear was now completely different from before and had undergone a metamorphosis!

The Slaughter God Spear, strengthened by Dao Intent Inscriptions, had Yang Chen's Dao Intent Inscriptions with every attack.

Yang Chen's Dao Intent Inscriptions were also different from those of others.

Others might have one or two types of Dao Intent Inscriptions.

But Yang Chen had as many as nine types.

Nine Dao Intent Inscriptions, how powerful a combination would that be?

Launching them in an instant, the enemy would not know how to defend themselves.

As for the remaining three thousand five hundred Dao Intent Inscriptions, they were enough for Yang Chen to allocate and use.

"Hahahaha, Young Master, it feels completely different from before. Our powers are completely connected," laughed the Slaughter God Spear.

Yang Chen also had a smile on his face.

At this moment, many other Nirvana Stage experts also arrived at the scene.

As soon as these Nirvana Stage experts stepped here and saw that Yang Chen was still unscathed, they could not help but gasp, unable to believe their eyes.

“Yang Chen is still alive!”

“Yang Chen is still alive!”

Everyone was shocked that Yang Chen had made it through the fifteen thunder tribulations, persisting till now, and accomplishing a nearly impossible task!

“Yang Chen, you are now...” At this moment, the Northern Dragon Commander arrived, shocked beyond belief.

Seeing these powerful individuals coming one after another, Yang Chen stood up.

He had indeed expended all his strength just a moment ago, but now that he had entered the Nirvana Stage, he was rapidly recovering.

Moreover, this recovery was happening at an extremely fast rate. Soon, he would return to his peak state.

After all, the previous consumption did not hinder the condensation of the Dao Intent Inscriptions. For Yang Chen, who had condensed Dao Intent Inscriptions, those consumptions were not a big problem.

As the thought passed, Yang Chen smiled and said, “I’m sorry to have worried everyone. I was lucky enough to survive the thunder tribulation and enter the Nirvana Stage.”

“It’s incredible!” The Cloud River God General stared at Yang Chen in disbelief.

Yang Chen hadn’t seen the Cloud River God General before and asked perplexedly, “Who is this?”

The Northern Dragon Commander laughed, “This is Cloud River God General, our reinforcements who have arrived. Like me, he is a powerful expert at the limit of the Nirvana Stage.”

Yang Chen immediately bowed and said, “Greetings to the Cloud River God General.”

“We’re all on the same side, there’s no need to be so polite.” The Cloud River God General smiled, “Honestly, I’m quite surprised that Young Brother Yang Chen can successfully survive the fifteen thunder tribulations. Now that Young Brother Yang Chen has entered the Nirvana Stage, we can discuss how to deal with the Netherworld Army.”
