Chapter 2391: Tactics? Unnecessary!_1

“Well, just now we were all waiting for Brother Yang Chen to overcome his tribulation. Now that Brother Yang Chen has successfully overcome it without any danger, it’s time for us to discuss how to deal with the Netherworld Army.” Many of the reinforcements said.

At first, they were somewhat unhappy because of Yang Chen’s situation.

After all, as reinforcements, they were quite proud and eager to fight when they first arrived.

But because of Yang Chen’s situation, they had to wait, which naturally made them dissatisfied.

However, the scene of Yang Chen overcoming his tribulation just now really left them astonished.

It was shocking!

This also made them feel somewhat dissatisfied, but they couldn’t say anything now, as they were completely shocked by Yang Chen’s amazing performance!

Seeing the other reinforcements speaking like this, the Cloud River God General also said, “The Netherworld Army has already begun attacking the temporary formation.”

“I think our current combat power is stronger than that of the Netherworld, but the number of Nirvana Stage experts in the Netherworld still surpasses us!”

“We must not act recklessly. We must fight slowly and not let anyone know if the Netherworld has any hidden tricks!”

“I also agree with this idea. Before this, the Netherworld even sent out Mahayana Stage experts who voluntarily lowered their cultivation level, but they were discovered in advance by Brother Yang Chen, and thus avoided disaster!”

“We must be on guard against the strategies and tricks of the Netherworld and not attack lightly!”

A group of people discussed and quickly started debating.

But this scene only made Yang Chen secretly smile.

“Everyone, I don’t know if I may say something!” Yang Chen bowed his hand and said.

When the others heard that Yang Chen wanted to express his opinion, they subconsciously nodded. Since Yang Chen had the combat power of a God General, they naturally wouldn’t stop him.

“It’s like this: I think it’s a bit redundant to discuss strategies at this point, and completely unnecessary.” Yang Chen said.

“What do you mean...”

“Redundant? How so?”

Everyone was somewhat confused by Yang Chen’s words.

Yang Chen calmly explained, “It’s like this: first of all, now that the people of the Netherworld are attacking the temporary formation, we have to fight whether we want to or not. At this point, discussing strategies won’t have much effect.”

“Besides, I know you may not believe me when I say this, but I think that with my current strength, I might not need any strategy to deal with these Netherworld people.”

As Yang Chen’s words fell, everyone was shocked.

The first half of his words were quite reasonable, but they denied the opinions of most people, making them slightly unhappy.

As for the second half, it could be considered even more arrogant.

Indeed, it was arrogant!

Did Yang Chen really think he could defeat so many Netherworld people without strategy? Even though he had shown the combat power of an Enlightenment Stage expert, everyone found it difficult to say anything against him.

“Brother Yang Chen, these Ghost Generals at the limit of the Nirvana Stage are extremely powerful. You can’t just sweep through these experts now that you’ve entered the Nirvana Stage!”

“Now that you’ve just entered the Nirvana Stage, there is still a gap between the number of Dao Intent Inscriptions you’ve reached and the limit of the Nirvana Stage.”

“When it comes to fighting the Netherworld Army, we still need to use tactics. Even if we were to take advantage by relying on our strength, could we kill those Ghost Generals at the Nirvana Stage?”

“If we want to win, we need to win a big battle, not just satisfy our appetite by defeating some small minions.”

These people expressed their opinions one after another.

But Yang Chen said, “In my opinion, we should go to war right away. Of course, if you all really want to discuss it further, I won’t stop you.”

Hearing this, many people found Yang Chen unreasonable and increasingly arrogant.

Why didn’t he listen to reason?

They told Yang Chen about the common sense and the gap between Dao Intent Inscriptions in the Nirvana Stage, but Yang Chen still pretended to know everything, which made them very unhappy.

They didn't really believe that Yang Chen was so strong.

Northern Dragon Commander saw Yang Chen's confidence and couldn't help but be slightly surprised. However, he still chose to stand on the same side as Yang Chen.

"Well, although what Yang Chen, my friend, said has some recklessness and shortcomings, what he said is not entirely wrong. We don't have much time now, and actually, we will eventually have to fight a battle sooner or later. It's just as well that we should fight sooner rather than later, which is more appropriate." The Northern Dragon Commander said.

The Cloud River God General felt a little embarrassed, but since the Northern Dragon Commander and Yang Chen had made their decision, there was nothing more he could say.

"Alright then, since both of you have made up your minds, I have nothing more to say. Let's go according to your wishes." The Cloud River God General said.

Yang Chen knew that they were unhappy, but he didn't bother explaining much.

After all, no matter how he explained his current strength, it would seem redundant, as no one would believe him.

So, like this, a group of people came to the outside of the temporary formation.

A group of Netherworld Army was attacking the temporary formation with great momentum.

At this time, the various clans from the Spirit Realm also opened the temporary formation and came to the outside world to confront the Netherworld Army.

Seeing the people of the Spirit Realm's various clans coming out, the Moon Demon Ghost General and Canglang Ghost General were overjoyed. However, when they saw that Yang Chen was still alive, their faces instantly darkened.

"What, how is it possible? Why is this human kid still alive?"

"Why?!"

Both the Canglang Ghost General and Moon Demon Ghost General were dumbfounded.

According to their understanding, there was no possibility for Yang Chen to survive the Fifteen Thunder Tribulations. But now, Yang Chen was indeed alive and unharmed!

Furthermore, the aura emanating from Yang Chen's body now clearly indicated that he had entered the Nirvana Stage.

It was undeniable!

Now, when Yang Chen looked at the Moon Demon Ghost General and Canglang Ghost General, he calmly smiled with his hands behind his back and said, "Moon Demon, do you dare to come out and fight me once again?"

As soon as these words fell, the Moon Demon trembled all over, feeling the pressure coming from Yang Chen!

He had a feeling that Yang Chen's improvement this time would be a qualitative leap.

But would he admit that he didn't dare to fight Yang Chen?

How could that be possible?

The Moon Demon Ghost General shouted angrily, "Yang Chen, since you want to die, I'll grant your wish!"

This scene made the Cloud River God General unhappy. He was, after all, an approaching reinforcement and a powerful expert at the limit of Nirvana Stage. When he came, he also wanted to show everyone the strength of the reinforcements.

Yang Chen directly ignored him and picked a Ghost General to fight. Was it because he didn't take him seriously?

What he didn't know was that Yang Chen didn't ignore him on purpose.

It was just that now, Yang Chen didn't consider the Moon Demon Ghost General as an opponent at all.

At this moment, Yang Chen took one step forward, appearing even more calm than any previous time when he had faced Moon Demon Ghost General!

Chapter 2392: Dominance, One Move!_1

Upon closer observation, one could see the absolute confidence radiating from Yang Chen.

This kind of confidence is a sign that he has already reached another level of self-assurance, as if none of the people present, including Moon Demon Ghost General, Canglang Ghost General, or even Northern Dragon Commander and Cloud River God General, were his match.

He has surpassed them all.

Absolute confidence on a completely different level!

Watching Yang Chen's display of confidence, Moon Demon Ghost General's veins bulged with rage, unable to tolerate it. He absolutely couldn't accept that the current Yang Chen was beyond his ability to compete.

Even though he had a vague sense of this!

“How can we, the people of the Netherworld, lose to you in the Spirit Realm!” Moon Demon Ghost General roared and rushed out, heading straight for Yang Chen.

At this moment, Yang Chen drew out the Slaughter God Spear in his hand!

When the Slaughter God Spear appeared, Yang Chen let out a long, cold laugh as always!

Under Yang Chen’s control, the Slaughter God Spear slid slightly!

Then, layer after layer of terrifying power, accompanied by Dao Intent Inscriptions, instantly surged out like a relentless tide!

Yang Chen disappeared.

By the time he reappeared, he had already cunningly appeared behind Moon Demon Ghost General!

His steps did not stop, but Moon Demon Ghost General’s pupils contracted, and then his expression froze forever. His Dao Intent Inscriptions shattered layer after layer, and unbelievably, Moon Demon Ghost General’s body completely dissipated.

Wiped out!

The Moon Demon Ghost General had fallen!

At this moment, the entire scene froze!

Was Moon Demon Ghost General dead?

Everyone could accept Moon Demon Ghost General's defeat, but it only took one move. Just one move. After one move, Moon Demon Ghost General was dead?

Who could accept that?

The whole crowd was breathless, including the Netherworld people who all stopped suddenly!

At the moment when Canglang Ghost General's pupils contracted, he originally wanted to settle the score with Northern Dragon Commander, but he never expected that Moon Demon Ghost General would be defeated just like that!

Canglang Ghost General looked at Yang Chen, feeling a stark difference coming from him.

He took a deep breath, trembled all over, mixed with fear, and without any more nonsense, chose to flee directly!

Running away without fighting?

No one could imagine that Canglang Ghost General would make such a choice.

"Escape?"

Canglang Ghost General made the right choice, but in the face of absolute strength, the right choice was meaningless.

Canglang Ghost General, to no avail!

But Yang Chen's choice was also simple. With a sweep of the Long Spear, a shocking slash followed. When everyone came to their senses, the Canglang Ghost General, who had chosen to run away, was cut in half by one blow.

Canglang Ghost General, dead!

The corpse plummeted from the sky, its Dao Intent Inscriptions shattered beyond recognition.

This moment seemed to be frozen forever.

Those who doubted Yang Chen just a moment ago, thinking that he was too arrogant, were all silenced at this time.

Among them, the most affected was Cloud River God General.

Nowadays, Cloud River God General was staring at Yang Chen blankly, still having trouble accepting all of this. Two Ghost Generals at the limit of the Nirvana Stage were killed by Yang Chen?

He had just thought that Yang Chen was too intent on stealing the limelight, too disdainful of others, and not considering his role as reinforcements.

Now that he thought about it, why would Yang Chen need to consider their reinforcement ideas?

There was no need at all.

With such strength, a single sweep of his spear defeated two Ghost Generals at the limit of the Nirvana Stage!

Who else's ideas did he need to consider?

No one's!

In this world, strength was the key, strength was everything!

Meanwhile, the Primal Supreme, who had become an ordinary soldier of the Spirit Realm in the crowd, felt the stinging sensation on his face as he saw everything that Yang Chen was doing now.

He knew that he would never be able to compare with Yang Chen in this lifetime. He had once naively thought that it was a wrong choice for Northern Dragon Commander not to hand over Yang Chen.

Looking back now, who made the wrong choice?

At a glance, it was clear.

If Yang Chen had really been handed over back then, what would be the outcome? At least it would never have resulted in what happened today!

Yang Chen's triumphant battle sealed his godhood, and his power was on full display!

With this one spear strike that killed Canglang Ghost General, it took a while for the other Nirvana Stage Ghost Generals of the Netherworld to react. When they finally reacted, a group of Netherworld soldiers, full of fear, quickly turned to flee, barely thinking at all!

With two Ghost Generals at the limit of the Nirvana Stage killed like that, what use was there for them to stay here any longer?

The fleeing Ghost Generals had lost their will to fight, and the saying "a leaderless group of dragons" aptly described the scene.

As these Ghost Generals fled in panic, the Netherworld army completely collapsed due to Yang Chen's two spear strikes, leaving the various clans of the Spirit Realm no choice but to pursue them fearlessly.

The Western Region experienced a complete victory, and everyone took advantage of the chase in high spirits, especially the Cloud River God General and some other Nirvana Stage reinforcements.

They thought that they could be of great help when they came.

But what was the result?

They didn't help at all. The whole battle situation was changed completely because of Yang Chen's two spear strikes.

The outcome was now clear, without any suspense.

About three days later, the turmoil of the war finally came to an end gradually.

The Western Region won a great victory, and the army of the Spirit Realm completely crushed the Netherworld Army. After a round of pursuit, more than three hundred Nirvana Stage Ghost Generals from the Netherworld were killed, while the rest fled back to the Netherworld.

After the end of this battle, the people of the Western Region were naturally excited, as it was an all-out victory that deserved their cheers.

And Yang Chen, without a doubt, became the most eye-catching figure, receiving cheers and support from the whole crowd.

By now, many people were trying to get closer to Yang Chen, even if they couldn't say a few words, as long as Yang Chen remembered them, they would be satisfied.

Meanwhile, Yang Chen was standing with Northern Dragon Commander, and in his heart, he inquired quite curiously about the matter of merit points.

After all, he did care about the issue of True Holy Water. He had thought about competing for the top three places in order to obtain this True Holy Water.

"Let me calculate." Northern Dragon Commander thought for a moment: "Little Brother Yang Chen, it's really hard to calculate your merit points for this battle. Just the two Ghost Generals at the limit of the Nirvana Stage alone are worth ten thousand merit points. But the points you will get should not be

limited to ten thousand of them. After all, you had the ability to change the whole battlefield situation, so I think you should get at least eighteen thousand merit points.”

“So many?” Yang Chen was overjoyed.

Northern Dragon Commander smiled, “For this kind of merit, Little Brother Yang Chen, you absolutely deserve it.”

“Indeed, Yang Chen, you definitely deserve this honor.” Cloud River God General also added with a smile.

Chapter 2393: Northeast War Zone_1

Now, he had completely submitted to Yang Chen, with no other thoughts in mind.

“I will personally report your matter, Brother Yang Chen. I believe the higher-ups will not treat you unfairly,” the Northern Dragon Leader said.

“In that case, thank you, Northern Dragon Leader.” Yang Chen bowed his hand as a gesture of politeness.

“Ha ha, it’s no big deal, no big deal!” said the Northern Dragon Leader. “We have achieved a great victory this time, so let’s just rest for a few days. Everyone rest, but don’t take it lightly; after all, the Netherworld Army might return at any moment!”

At this moment, Cloud River God General hesitated and said: “Northern Dragon Leader, there’s something I’m not sure whether I should say. I’m afraid we won’t be able to rest as planned.”

“Why?” the Northern Dragon Leader asked with confusion.

Cloud River God General helplessly chuckled and said, “You all might not be aware, but when we rushed over to reinforce the rear, we learned that the Eastern and Northern War Zones had long been areas with severe warfare. You could say these two war zones have been the most fiercely attacked by the Netherworld, which the Northern Dragon Leader is also aware of.”

“Yes, I know a little about this,” the Northern Dragon Leader said.

Indeed, the Eastern and Northern War Zones had been the Netherworld’s main points of attack for a long time. The Southern and Western War Zones, where their current location was, had been deemed hard to bypass, so the various clans in the Spirit Realm paid little attention to them and did not send many forces to defend these regions.

However, the Spirit Realm took advantage of this gap and sent troops in an attempt to pry open an opening here.

Only then did the various clans in the Spirit Realm have to send reinforcements to fill the gap, which led to the urgent situation in the Western Region. The reinforcements were needed because there was not enough combat power when filling the gap.

But there was no doubt that the Western and Southern Regions were primarily used to prevent the Netherworld from opening any more gaps, and were not the main force areas.

The main force areas were still in the Eastern and Northern War Zones.

These two war zones were the truly crucial locations where numerous Godly Generals and Powerful Ones gathered, with numbers that were not easily defeated.

Cloud River God General said, “Now, the two war zones have merged into one.”

“What’s going on?” The Northern Dragon Leader was quite surprised.

Cloud River God General explained, “The main reason is that the Netherworld has sent more and more strong experts, to the point where the two war zones have become indistinguishable from a single war zone. Hence, the Netherworld has combined them. Our Spirit Realm also had to take countermeasures. But despite our actions, we were somewhat unprepared. Thankfully, the reinforcements arrived, but now we don’t know if the reinforcements we sent are enough. However, I estimate that the situation at that time seemed unfavorable!”

“What?! So many reinforcements, and the situation still can’t be turned around?” The Northern Dragon Leader couldn’t believe it.

“Those in the Netherworld are not to be underestimated. The Nirvana Ghost Generals have no fear of death, so they can constantly replenish their forces. It’s simply terrifying. That’s why there’s an extreme need for combat power there. The current spatial nodes have completely removed the positions in the rear for logistical support. All idlers and miscellaneous personnel have to rush to the Northeast War Zone for reinforcements!” Cloud River God General said.

Knowing the seriousness of the situation, the Northern Dragon Leader couldn’t help but ask, “So, Cloud River God General, your meaning is...?”

“Northern Dragon Leader, you still need to stay in the Western Region, but Young Brother Yang Chen, your strength is needed in the Northeast War Zone. My suggestion is that you accompany me to the Northeast War Zone,” said Cloud River God General.

The Northern Dragon Leader laughed and said, “I have no objections, but as for Yang Chen, my friend, it depends on his own thoughts.”

“I have no objections. If the battlefield needs me, I naturally have to contribute some of my strength,” Yang Chen said gently.

The more intense battles in the Northeast Battlefield?

He really wanted to see it.

His current strength was far superior to when he was in the Enlightenment Stage, and he couldn’t even measure the limit of his own strength. It was hard to say just how strong he really was.

That’s why he was eager to find some absolute experts to accurately measure his level!

Hearing Yang Chen's agreement, Cloud River God General laughed and said, "Brother Yang Chen, being able to agree is really great. I believe with your combat power, you will definitely shine in the Northeast Region."

"Cloud River God General, you flatter me!" Yang Chen said modestly.

Cloud River God General had no doubts about Yang Chen's capabilities. The two spears that Yang Chen had used just now were so terrifying that nobody knew their peak strength.

"However, before leaving, I have to make some preparations. Cloud River God General, I hope you don't mind," said Yang Chen.

Cloud River God General laughed and said, "Of course not, Yang Chen, my friend. Please feel free to make your preparations. When you're ready, we will set off together."

Joking aside, he had no right to control Yang Chen.

When Yang Chen said he wanted to make preparations, he didn't actually know what to do inside.

The real reason he said he needed to make preparations should be Hua Wanru.

With this thought, Yang Chen revealed a bitter smile.

So, he was still obsessed with Hua Wanru, wasn't he?

As soon as he was about to leave, the first person he thought of wasn't anyone else but this woman. He wanted to tell her that he was leaving, and she must be very careful!

Even though the threat in the Western Battlefield had been resolved by him, he was still worried that she might encounter trouble!

This kind of worry made even Yang Chen feel ridiculous and helpless.

However, what was strange was that when he tried to locate her with his soul, he suddenly realized that...

Hua Wanru had disappeared?

“What’s going on?” Yang Chen was baffled.

In his soul, he couldn’t find any trace of Hua Wanru. It was as if she had evaporated from the Western War Zone.

“Where is she?” Yang Chen was incredibly worried inside. Supposedly, his soul did not detect any information about Hua Wanru being injured or captured, so her disappearance...

“Could it be that she knew about my intentions and left?” Yang Chen murmured to himself.

If that was the case, it would be a relief since he wouldn’t have to worry about her.

Yang Chen made some more preparations and no longer hesitated.

After all, the difference between each war zone was merely in the number of merit points for him.

Yang Chen and Cloud River God General, along with some reinforcements, left and headed directly to the Northeast War Zone – the place where the true decisive battle between the various clans in the Spirit Realm and the Netherworld would take place!

And so, two days later, in the sky above the Northeast War Zone, the figures of Cloud River God General, Yang Chen, and the others reappeared!

Chapter 2394: 9,200 Inscriptions_1

When they arrived at this place, Cloud River God General was quite familiar with the route and said, "First, let's go to the rear and establish which squad to join. Based on my strength level, I can only go to the small team of the First Team at most. However, with you, Brother Yang Chen, I guess I can join the top team's small team with your help."

"First Team? Top Team? What do you mean?" Yang Chen was completely unfamiliar with the battlefield situation.

"Actually, I've just heard it from others. In the Northeast War Zone, there are four team tiers. The lowest is the Third Small Team. This team usually consists of those in the First Stage of Nirvana Stage and is used for patrols. Frankly, they're just cannon fodder. It's cruel, but it's the truth."

Yang Chen nodded, not surprised by this explanation.

"Aside from that, there is the Second Team. This team is made up of warriors at the Second and First Stage of Nirvana Stage and possibly some at the Third Stage of Nirvana Stage. Within the Second Team, the Third Stage Nirvana Stage practitioners are generally captains."

Cloud River God General laughed, "There are hundreds of teams in this tier, and they are generally used for patrols and hunting Netherworld Ghost Generals."

Upon hearing this, Yang Chen asked, "What about the First Team and the top-tier team?"

"The First Team only accepts warriors at the Third Stage of Nirvana and God General level." Cloud River God General revealed a bitter expression, "This team tier is the main force, usually operating at the forefront and having command of other teams. Any major tasks will be prioritized for Squad 1."

Without a doubt, being in the First Team is an honor, and joining the First Team is a matter of great pride.

However, Cloud River God General apparently doesn't have big ambitions. He said helplessly, "After that, there's the top-tier team. There are only three teams in this tier, and none of them have full members yet. There are stringent conditions for joining this team."

“What kind of conditions?” Yang Chen asked, puzzled. “Do you mean that with your current strength, Cloud River God General, you can’t join this team?”

Cloud River God General sighed helplessly, “That’s right, Yang Chen, my friend. With my current strength, I truly cannot join the top-tier team.”

“What? That’s such a high threshold!” Yang Chen exclaimed in surprise.

“Yes. To join the top-tier team, you must have over 6,000 Dao Intent Inscriptions. This team is generally in charge of major matters and cooperates in hunting the Netherworld King List Ghost Generals.” Cloud River God General explained.

Yang Chen could see Cloud River God General’s unwillingness and sighs.

But there was no way around it.

At the Nirvana Stage Limit, there’s a world of difference between 5,000 Dao Intent Inscriptions and 6,000 Dao Intent Inscriptions!

Cloud River God General looked impressive, but when compared to those with 6,000 Dao Intent Inscriptions, he was still a bit lacking.

Cloud River God General laughed heartily, “Originally, I had no chance of getting in, but Brother Yang Chen, you could give me a hand.”

“If I’m really lucky, I’ll definitely join the top team with you, Cloud River God General.” Yang Chen laughed and changed the topic, “Speaking of which, what’s the story behind the Netherworld King List?”

“Ah, I almost forgot to explain this. The Netherworld King List is a list compiled by the various clans in the Spirit Realm after fighting for so long. It records the top 50 powerhouses in the Netherworld at the moment. Each of these top 50 powerhouses has reached the Nirvana Stage Limit, representing the current 50 most powerful Nirvana Stage Limit fighters in the Netherworld!” Cloud River God General said with a sigh.

On hearing this, Yang Chen was shocked, "Fifty strong fighters, what a terrifying number!"

"Yes, but our Spirit Realm clans, including the reinforcement Nirvana Stage Limit fighters, also have dozens of them. So, we're not losing to those Netherworld Nirvana Stage Limit Ghost Generals." Cloud River God General laughed.

Only then did Yang Chen breathe a sigh of relief. It turned out that he was indeed overly narrow-minded, focusing too much on the Western Region and not realizing the existence of so many Nirvana Stage Limit fighters in the Northeast War Zone.

It seems that when he managed to claim the top ten spots on the War Merit List at once, there was indeed some luck involved. Now, whether the top ten spots on the War Merit List have been taken or not is uncertain.

After some thought, Yang Chen inquired, "So, how many Dao Intent Inscriptions does the number one on the Netherworld King List have?"

"That's really terrifying. The number one on the Netherworld King List, who is also known as the Heaven Scourge Ghost General, has over 9,200 Dao Intent Inscriptions! It is said that he has reached the Nirvana Stage by elevating his Dao Intent three levels. It's extremely terrifying." Cloud River God General exclaimed.

"9,200 Dao Intent Inscriptions?" Yang Chen's pupils contracted.

This was an astonishing number.

Keep in mind that after the Nirvana Stage Limit, every 1,000 Dao Intent Inscriptions make a difference. Those with 5,000 Dao Intent Inscriptions wouldn't necessarily be able to defeat those with 6,000 Dao Intent Inscriptions. In a fight, they would definitely be at a disadvantage. Force a fight? They might even perish.

By the same logic, someone with 6,000 would most likely be unable to defeat someone with 7,000, and those with 7,000 would struggle against someone with 8,000.

As for 9,000...

If such a high-ranking fighter were to face ordinary Nirvana Stage Limit fighters, it would likely be an instant kill without any trouble at all.

“9,200 Dao Intent Inscriptions, this will be interesting.” Yang Chen was now full of excitement.

His current ultimate goal was to constantly improve his strength because he had too many enemies.

Becoming stronger was his ultimate goal. If he encountered an opponent of equal strength, he would be undoubtedly thrilled!

“Yes, with 9,200 Dao Intent Inscriptions, no one in our Spirit Realm clans can match this person!” Cloud River God General sighed.

“Isn’t there anyone in our Spirit Realm who can be on par with him?” Yang Chen asked, puzzled.

“Not yet. At present, the strongest among our Spirit Realm clans is the Radiant Divine General from the Tianpeng Clan. But he only has 8,300 Dao Intent Inscriptions. He has fought with the Heaven Scourge Ghost General, but the outcomes have all been disastrous defeats. He is not a match for the Heaven Scourge Ghost General at all.” Cloud River God General shook his head. Since he was also a member of the Tianpeng Clan, he didn’t mind talking about his clan’s experts.

Upon hearing Cloud River God General’s words, Yang Chen gained an understanding of the overall situation in the Northeast War Zone.

This place was truly where he needed to be.

“Alright, we have arrived. This is the logistics area. But because the war is urgent, there aren’t many people working here. Those who can stay here usually have a high background.” Cloud River God General said with a hint of sarcasm in his voice.

Chapter 2395: Proving Strength_1

Yang Chen can understand that after all, having a good background is useful in any place.

However, he came here not to mingle with the merit points but to earn them, so whether others have a background or not has nothing to do with him.

But those with considerable backgrounds seem to have unfriendly attitudes. Being consciously supported by powerful connections behind them, they tend to act unrestrained when they speak.

Just like now, when Cloud River God General led Yang Chen to an elder of the North Sa Clan.

This elder of the North Sa Clan, round and plump, was exuding Sa Qi from his body. When he saw Yang Chen and Cloud River God General, it seemed as if he didn't care about them, as if the two weren't looking for him.

Only when Cloud River God General took the initiative to say: "The two of us are new reinforcements for the Northeast War Zone, and we hope that our friend from the North Sa Clan could arrange a small team for us."

Listening to this, the fat elder of the North Sa Clan said unhappily: "How come you two only came to reinforce now? Never mind, what is the strength of both of you?"

"We are both experts at the limit of the Nirvana Stage. My title is Cloud River God General!" said Cloud River God General.

When this fat elder from the North Sa Clan heard that they were powerful ones at the limit of the Nirvana Stage, he slightly changed his attitude: "So it's Brother Cloud River God General. In that case, I'll arrange you in the third small team of the top team since it lacks two experts at the Nirvana Stage limit!"

After hearing this, Cloud River God General said seriously: "My friend, we want to join the top team!"

Upon hearing this, the fat elder from the North Sa Clan sneered: “Cloud River God General, I respect you, but don’t think that just because you’ve reached the limit of the Nirvana Stage, you can be arrogant and look down on others. With your current strength, you can’t join the top team. Frankly, you’re not qualified!”

Cloud River God General heard this and was somewhat furious.

Even though he knew he wasn’t qualified, he was still unhappy to hear it from this North Sa Clan person.

After all, it should not be your turn to say I’m not qualified.

You are the ones relying on your connections to climb up, but you really think you’re something special?

Cloud River God General shook his head. Many people are like this; they have Heavenly Venerates or even Boundless Stage Experts behind them so they act unrestrained. Trampling on the relationship by openly relying on their connections, they leave those like Cloud River God General, who are at the limit of the Nirvana Stage, quite helpless.

Although Cloud River God General was angry, he suppressed his anger and said frankly: “Indeed, I’m not qualified, but my human brother beside me may not be the same case. His name is Yang Chen, and his strength is much stronger than mine!”

“Oh? How many Dao Intent Inscriptions does he have?” The elder of the North Sa Clan asked.

Hearing this question, Cloud River God General hesitated for a moment. He had almost forgotten that he didn’t know how many Dao Intent Inscriptions Yang Chen had.

Yang Chen had made his move in an instant at that time.

“Well ...” Cloud River God General began hesitating.

Seeing Cloud River God General in such a dilemma, Yang Chen knew it was time for him to speak and was about to mention the number of his Dao Intent Inscriptions.

But at this moment, a voice suddenly came.

“This is Yang Chen? What Dao Intent Inscriptions does he have? This guy hasn’t even entered the Nirvana Stage. Where did he get Dao Intent Inscriptions? Brother Zhen Ge, don’t believe these two.”

As the mocking voice appeared, Yang Chen saw who the person was.

With the so-called enemies often crossing paths, it could only be described this way.

Because it was none other than the Sky Canine Supreme.

Now, meeting Sky Canine Supreme again, Yang Chen couldn’t help but feel emotional.

Sky Canine Supreme had come with a small team, standing at the rear while an expert of the Nirvana Stage from the Thunderclan stood at the front.

This Thunderclan Nirvana Stage expert, surrounded by Dao Intent Inscriptions, was clearly an expert at the limit of the Nirvana Stage, not inferior to Cloud River God General.

These people were obviously a small team.

Yang Chen didn’t know how the Sky Canine Supreme had managed to latch onto the leg of this Thunderclan Godly General, but now the Thunderclan Nirvana Stage expert came with his hands behind his back, not saying a word, and acted like a solid shield for the Sky Canine Supreme.

It seemed that the Sky Canine Supreme and the fat elder from the North Sa Clan were quite familiar since they both burst into laughter when they met.

The North Sa Clan's elder, Zhen Ge, asked curiously: "Brother Sky Canine, you said that this Yang Chen doesn't have any Dao Intent Inscriptions? What's going on?"

"How could this happen? He hasn't even entered the Nirvana Stage a while back, has he? It seems he has just entered the Nirvana Stage now. But so what, to have just entered the Nirvana Stage, how many Dao Intent Inscriptions can he have?" Sky Canine Supreme sneered: "I've known him for a long time. I know him well."

Upon hearing this, Zhen Ge contemptuously said, "Cloud River God General, I almost believed your words. You said that this Yang Chen is a powerful Nirvana Stage expert. Now that you're talking about the number of Dao Intent Inscriptions, has he really surpassed six thousand? You two still want to join the top team? Humph, luckily I have a discerning eye. Otherwise, you guys would have muddled through?"

Cloud River God General, being questioned in this way, was filled with anger. He clenched his teeth, wanting to speak, yet he didn't know what to say. In the end, he could only turn to Yang Chen.

However, Yang Chen stood with his hands behind his back in silence, which made Cloud River God General feel even more frustrated.

Is it possible?

Is it possible that Yang Chen's Dao Intent Inscriptions have not exceeded six thousand?

This doesn't make sense. If Yang Chen's Dao Intent Inscriptions haven't exceeded six thousand, then how could he have defeated two Nirvana Stage Limit Ghost Generals with one move?

But now Yang Chen's silence clearly implies that he doesn't have any grounds for speaking up.

Could it be that Yang Chen, who had just entered the Nirvana Stage, really doesn't have that many Dao Intent Inscriptions, and the defeat of those two limit Ghost Generals was just a fluke?

“Humph, it’s simply absurd! They still want to join the top team? Hahaha, so there are such people in the Northeast War Zone who try to wade through muddy waters!” Sky Canine Supreme laughed wildly.

Yang Chen’s Dao Intent Inscriptions didn’t just exceed six thousand; they’d even reached seven thousand.

He actually wanted to reveal his Dao Intent Inscriptions in the first place. However, after some thought, Yang Chen didn’t rush to expose his strength.

You should know that when he defeated Moon Demon Ghost General and Canglang Ghost General, it was with only one move, and no one knew his true strength.

Now, does he want to reveal the number of his seven thousand Dao Intent Inscriptions?

Isn’t that just exposing all his strength?

Of course, Yang Chen was not willing to reveal it.

So, he let Sky Canine Supreme laugh for a while, and as for the Dao Intent Inscriptions, he decided to keep them hidden for now.

However, seeing the expression on Cloud River God General’s face, Yang Chen couldn’t help but feel a little guilty.

In embarrassment, he took out his Heroic Order.

“I can’t show my Dao Intent Inscriptions due to special reasons, but this Heroic Order should be able to prove my strength, right?” Yang Chen said with his hands behind his back.

Chapter 2396: Falling Out of the Top Ten in Battle Achievements_1

“Heroic Order?”

Sky Canine Supreme and True Pattern were both taken aback upon seeing this.

It should be known that the Heroic Order is an extremely superb existence.

What does possessing this existence represent?

It represents that this person's existence is even stronger than someone with the Nirvana Stage Limit with 5000 Dao Intent Inscriptions.

It is generally acknowledged that only those with at least 6000 Dao Intent Inscriptions can compete for the Heroic Order.

Reaching the top ten in battle achievements is not an easy height to achieve.

Now that Yang Chen presents the Heroic Order, it means that he already possesses the status of being in the top ten in battle achievements.

This immediately surprised a group of people.

Sky Canine Supreme's expression stiffened. If Yang Chen's Heroic Order is truly genuine, it would be a direct slap in his face.

How could he possibly be happy?

True Pattern was also extremely astonished: "Let me take a look at your Heroic Order and see if it's real. I have my own way of verifying it!"

Yang Chen did not hesitate and handed over his Heroic Order.

After receiving it, True Pattern took a close look and found the material to be correct. However, he still refused to give in. With a wave of his hand, the prohibition fluctuated and a Void Ranking appeared in the sight of everyone.

The Void Ranking displayed various names written in blue light, revealing the top ten names, such as Heavenly Marching General, Shadowless General, and so on.

However, Yang Chen's name was not among the top ten.

Confused, Yang Chen had no idea what had happened.

It wasn't until the seventeenth ranking that Yang Chen's name finally appeared.

"Yang Chen, ten thousand merit points!" True Pattern sneered, and so did Sky Canine Supreme.

They both believed that Yang Chen was ranked among the top ten, but now they could see that it was not the case.

True Pattern sneered: "Yang Chen, what's the use of an expired Heroic Order? Your merit points are only ten thousand and you are ranked seventeenth. What do you think your Heroic Order can do now?"

Sky Canine Supreme laughed at this moment: "I think this kid must have gotten lucky somewhere and got ten thousand merit points during the early stage of the war. He thought he could maintain his top ten ranking all the way to the end. Little did he know, rankings on this battlefield are constantly fluctuating. If you don't have real strength, those merit points gained by luck will not last long."

Yang Chen was taken aback.

He could understand that his initial merit points would not be enough to maintain his top ten position for long.

What surprised him was that it seemed like his over twenty thousand merit points hadn't fully arrived yet.

After all, the Void Ranking showed that his merit points were only ten thousand, and there was no way to deny that.

"This..." Cloud River God General knew Yang Chen's merit points should be much higher, but with the points not arriving, there was no point in arguing. He could only sigh.

Sky Canine Supreme cupped his hands: "True Pattern, this Yang Chen's strength is not that strong anyway, so why not do me a favor and let him join my team? I believe Captain Lei Chong and my team members will warmly welcome him. Besides, our team has been short of a member recently, and it's the perfect opportunity to replenish the ranks."

"Oh? Since Sky Canine Supreme requests it, I'll give him some face. Cloud River God General, you'll be placed in the third small team of the first-tier units, while Yang Chen will follow Brother Lei Chong and Sky Canine Supreme to join the fifth small team of the first-tier units!" True Pattern demanded.

Yang Chen originally wanted to try other methods to see if he could help the Cloud River God General get into the top-tier team.

However, upon hearing Sky Canine Supreme's request, he instantly became interested.

Interesting.

Sky Canine Supreme and him had a conflict, which both of them were well aware of. Now that Sky Canine Supreme wanted him on his team, what was he up to?

The intention couldn't be more obvious: Sky Canine Supreme must be trying to mess with him.

Sky Canine Supreme trying to mess with him?

He was actually quite curious. So, without hesitation, he immediately agreed: "Alright, I'm willing to follow the decision!"

Upon hearing this, Sky Canine Supreme had a sneer at the corner of his mouth. 'You don't want to obey? Is there any point in not obeying?'

It was Tian Yi's will that he happened to meet Yang Chen here, and he was working together with Lei Chong. He wouldn't believe they couldn't kill this little guy who dared to oppose him. He would make sure his death was miserable!

Seeing Sky Canine Supreme's smile, Yang Chen knew there was a hidden scheme beneath it.

However...

In the face of absolute strength, all schemes are meaningless. His willingness to join their team also stems from his curiosity as to what Sky Canine Supreme's exact intentions are.

On the surface, Sky Canine Supreme still appeared calm and composed, even his smile seemed kindly and amiable. He immediately said: "Welcome to our team, Brother Yang Chen, haha."

Next to them, the Thunder Clan Nirvana Limit Strong also calmly said: "Welcome to our team!"

Yang Chen didn't know what kind of relationship Lei Chong had with Sky Canine Supreme, but he didn't think Lei Chong would truly welcome him.

At least his Lingxi Divine Pupil opened up and observed some ill-intentioned strangeness.

Nevertheless, Yang Chen remained calm and cupped his hands. He then said to Cloud River God General: "Brother Cloud River, it seems we will have to part ways."

Cloud River God General felt quite helpless, glancing at True Pattern and Sky Canine Supreme, and muttered that the two of them had no discernment.

However, at this point, he couldn't change anything and could only say: "Brother Yang Chen, there will be a time when we meet again. In fact, I think you should ask for a copy of the Netherworld King List. It would be more suitable for you."

"Oh?" Upon hearing this, Yang Chen knew Cloud River God General's intention to help him.

Cloud River God General believed that Yang Chen's strength could be used to hunt down the people on the Netherworld King List.

But other people didn't think so, and they laughed at Cloud River God General's idea the moment they heard it.

Yang Chen didn't care what others thought, his hands behind his back, he said: "I need a copy of the Netherworld King List."

True Pattern sneered: "You really want a Netherworld King List? Yang Chen, with your strength, what's the use of having it? What can you do?"

Sky Canine Supreme also sneered: "Yang Chen, don't be too ambitious. I know you were quite outstanding in the Enlightenment Stage, but don't assume that you'll be just as outstanding in the Nirvana Stage!"

Seeing the two of them mocking him, Yang Chen was unimpressed: "How I choose to proceed should have nothing to do with the two of you."

True Pattern shook his head helplessly: "You really don't listen to advice. Since you're so insistent, I'll give you a copy. But I hope you can be smarter. Otherwise, getting this list will only bring you closer to danger. If you recklessly look for trouble with the strong people on this list, well, just see what happens!"

When the conversation ended, he handed the Netherworld King List to Yang Chen, his smile full of mockery.

Upon taking the list, Yang Chen looked at it carefully and immediately formulated a plan in his heart.

Chapter 2397: Lei Chong's Cooperation_1

“Now, we can go.” The Sky Canine Supreme spoke coldly.

Hmph, they still want the Netherworld King List?

What's the use of it?

Once they're in my team, I'll have plenty of time to play with them to death!

Yang Chen glanced at the Sky Canine Supreme without saying much, and then followed the small team closely.

When they left the place, Lei Chong approached Yang Chen with a cold attitude: “It seems that you are new to the Northeast Battlefield. Since you have joined my team, it's my duty as the captain to inform you about the current situation on the battlefield and our mission.”

Yang Chen was quite curious in his heart.

If Lei Chong and Sky Canine Supreme are of the same ilk, then the other party must not have good intentions towards him.

But he still needs to figure out the situation. Pretending to be completely unguarded, he said: “Please tell me about it.”

Lei Chong explained: “The Northeast War Zone is different from other war zones. In fact, the situation in the war zones was the same before, with both sides fighting each other fiercely. However, everything changed when we discovered a special material in this space.”

“Material?” Yang Chen was puzzled.

“This material is unique to this space because there is a flaw in the spatial node. Outside of this flaw is the spatial turbulence, which pours in a large number of spatial fragments. These fragments, if left unchecked, will gradually become a part of the spatial node, but if used properly, they can achieve another result!” Lei Chong said.

“What result?” Yang Chen asked.

“Destroying a space!” Lei Chong said coldly: “After all, it comes from the spatial turbulence, so there is no lack of danger.”

Yang Chen was well aware that spatial turbulence was terrifying. If one were to be caught in such a place, survival aside, they might not be able to find their original space in their lifetime.

Now thinking about it, he said, “So you mean we need to collect these spatial fragments?”

He had heard from the Heavenly Venerates before he came here.

These Heavenly Venerates wanted to destroy the entire space from the outside, which would be the easiest way to make the Netherworld lose hope of attacking!

However, it was difficult, and even with many Heavenly Venerates taking action, there seemed to be no clue.

But if these spatial fragments could pose a threat or even destroy a space, why not collect these fragments?

“You’re pretty clever. Indeed, in the Northeast War Zone, if the various clans of the Spirit Realm and the Netherworld truly fight, it would take at least two to three years, or even longer, to determine the winner. Everyone was originally able to afford the time, but the emergence of spatial fragments has provided another option for the various clans of the Spirit Realm.”

Lei Chong continued: "If we can collect enough spatial fragments, we can directly destroy this spatial node, leaving the Netherworld people powerless to threaten our Spirit Realm. However, the Netherworld people have obviously noticed this, and while we are trying to collect these spatial fragments, they have also begun to frantically collect them, intending to gather enough fragments before us, thereby affecting our plan to destroy this space!"

"How many do we need, and how many have we collected so far?" Yang Chen asked curiously.

"We need a total of about 500,000 fragments. We have only collected close to 200,000 so far, and the more we collect, the more difficult it becomes. It's hard to change the number now." Lei Chong explained.

"Why?" Yang Chen wondered.

"Because the outermost spatial fragments have been almost completely collected by us." Lei Chong said: "Now, if we want to collect more spatial fragments, we have to focus on the area around Vacuum Mountain."

"Vacuum Mountain?" Yang Chen didn't know what this place was.

Lei Chong calmly said: "I should have mentioned earlier that there is a gap in this space, which connects to the spatial turbulence. Vacuum Mountain is the mountain under the gap of spatial turbulence. You should be able to guess that since spatial fragments come from the spatial turbulence, the closer a place is to the turbulence, the more fragments it will naturally have!"

"There must also be serious danger there, right?" Yang Chen inquired.

Lei Chong spoke with a chilling tone: "That's correct. Spatial turbulence is right above Vacuum Mountain, causing the space around it to be extremely unstable. Only the top-ranked teams dare to venture deep into Vacuum Mountain. As for our first-team, it's best to stick to the outer or slightly inner areas of Vacuum Mountain and compete for spatial fragments. There are far fewer fragments there than in the depths of Vacuum Mountain, but there's no other choice."

Although Lei Chong didn't fully explain, Yang Chen could feel the difficulty of competing for these spatial fragments.

Vacuum Mountain itself was not safe, and there must be Netherworld teams lurking there.

No wonder...

He had been quite puzzled from the beginning, not understanding the reason. Now he realized that this was the reason why there were so many teams in the Northeast Region, all of them looking for these spatial fragments.

"We can't search for these spatial fragments without any rewards, can we?" Yang Chen said.

Lei Chong looked at Yang Chen and thought that every question Yang Chen asked was quite tricky: "Of course not, the rewards are quite generous. Each spatial fragment is equal to one merit point. If you can collect 10,000 fragments, you will have 10,000 Merit Points."

Upon hearing this, Yang Chen finally understood why his ranking was surpassed so quickly. So, this was the reason!

Each spatial fragment being equal to one Merit Point, this was indeed a point he could take advantage of.

"I understand." Yang Chen nodded, indicating that he had grasped the concept.

Only then did Lei Chong stop talking and leave directly.

When he returned, he went to the side of the Sky Canine Supreme. The two of them looked at each other, and nobody knew what they were talking about.

"How is it? Have you explained everything to him, Brother Lei Chong?" The Sky Canine Supreme laughed.

“Of course. But since we are going to kill him, why bother explaining so much to him?” Lei Chong questioned with doubt.

Sky Canine Supreme said: “This kid is not as naive as he looks on the surface. He’s quite cunning, so we need to gradually lower his guard first.”

“Hmph, it’s just a kid who has just entered the Nirvana stage. It’s not difficult for him to become my food. Why make things so complicated?” Lei Chong said.

However, the Sky Canine Supreme comforted him: “Brother Lei Chong, don’t be so impatient. I know you like to devour humans, but you can’t be too hasty. What if you reveal any flaws and we get exposed? If we get exposed, it will be terrible!”

“You’re right. Humans are very meticulous. I hope our cooperation can continue. I don’t care about Merit Points. I just want to devour humans. I will give you the spatial fragments I collect to exchange for Merit Points!” Lei Chong said sinisterly.

Chapter 2398: The Disciple of Autumn Cold Supreme_1

The two were secretly talking about how to devour humans.

“Don’t worry, Brother Lei Chong, we’ve cooperated so many times, won’t you trust me? As long as you listen to me, this human will obediently enter your mouth. Rest assured, this little guy is not ordinary. Although he has just entered the Enlightenment Stage, he is a genius among our humans. Doesn’t your Thunderclan like to devour the geniuses of our human race?” Sky Canine Supreme sneered and laughed.

Upon hearing this, Lei Chong’s face brightened: “Of course, every human genius is a supplement to me, I hope you can satisfy me.”

“Don’t worry!” Sky Canine Supreme laughed cheerfully.

In his heart, he disdainfully thought.

Would Yang Chen dare to provoke him?

He would not attack Yang Chen himself, but he would let Yang Chen know what cruelty and suffering are worse than death.

Being devoured by the Thunderclan could be considered a quite miserable way to die.

Yang Chen had no idea what Sky Canine Supreme and Lei Chong were discussing.

At the moment, on his way back, he was fully focused on observing the Netherworld King List he had obtained.

With the list in hand, Yang Chen was fully absorbed in reading and studying it.

Just like what Cloud River God General said, the first place on this Netherworld King List is Heaven Scourge Ghost General, with a staggering 50,000 merit points as a bounty!

That is to say, whoever kills Heaven Scourge Ghost General can directly get 50,000 merit points.

With nine thousand Dao Intent Inscriptions, such a ghost general is indeed worth the merit points.

“With 50,000 merit points, I can almost make it to the top five in one go,” Yang Chen muttered to himself.

The competition in the top five of the War Merit List is now very intense.

Even if he has more than 20,000 merit points in his account, he would only be able to reach the eighth or ninth place.

Fifth place has 48,000 merit points, and the top four are not much different, with 50,000 to 60,000 merit points. Only the first place, known as Radiant Divine General, the number one godly general of all clans in the Spirit Realm, has 74,000 merit points, making him the highest merit holder.

“These people’s merit points are really terrifying,” Yang Chen murmured. To get the first place, he might have to resort to some tricks.

“The second place on this Netherworld King List, if killed, will get only 45,000 merit points, while the third and fourth places are left with only 40,000... The further down the list the lower the points are. However, if killed, there will always be some benefits. As for the ordinary Nirvana Stage Limit Ghost Generals ranked around the fiftieth place, killing one will give seven to eight thousand merit points, only two to three thousand more than killing an ordinary Nirvana Stage Limit Ghost General.

Of course, the more the better.

Yang Chen was already prepared to hunt down these Nirvana Stage Limit Ghost Generals.

For him, the limit ghost generals ranked beyond the thirtieth place were just a matter of one move.

...

Thus, the group quickly arrived at their team’s resting camp.

Upon arriving here, Yang Chen also saw the other members of the Fifth Small Team.

On the way just now, he had asked Lei Chong some other questions, just like in the Western Region. In the Northeast Region, a small team also consisted of eight people.

Of course, the top teams are an exception.

First-tier teams and other teams all have eight members. This number is easier to manage and control.

Just now, along with Sky Canine Supreme and Lei Chong, there were only two people, one of them a Yellow Ape Clansman and the other an Iron Spirit Clansman.

Yang Chen guessed that the two people who came with Lei Chong and Sky Canine Supreme must be on the same side as Lei Chong and Sky Canine Supreme.

As for the remaining three people, at most they were just part of the accompanying team, and their relationship should be average.

At least when Lei Chong and Sky Canine Supreme returned, the three people didn't even bother to come and greet them.

Only when Lei Chong mentioned that Yang Chen, the newcomer, had arrived, did the other three people come out one after another. After all, with a new member joining, everyone had to get to know each other, and they would have to cooperate in the future.

Among the three new people who came out, two were from the Earth Fiend Clan, and they briefly introduced themselves with an indifferent attitude.

When they heard that Yang Chen had just entered the Nirvana Stage, they lost interest and didn't take it seriously, even whispering why someone who had just entered the Nirvana Stage would join the team.

The third person was a young and beautiful **** woman. This beautiful woman was extremely beautiful with an elegant aura, coincidentally being a human female.

She was dressed in the clothes of Qingyu Gate, which made Yang Chen feel a subconscious sense of familiarity. After all, he also had a deep connection with Qingyu Gate.

"This is Autumn Cold Supreme, the Sect Leader of Qingyu Gate, a Nirvana Stage Expert of the Third Stage, and a member of our team," Lei Chong introduced.

Looking at Yang Chen with her beautiful eyes, Autumn Cold Supreme said, "Yang Chen, my friend, it's incredible that you've entered the Nirvana Stage."

“Yang Chen, my friend, has just entered the Nirvana Stage, and his combat power is still average. Autumn Cold Supreme, please take good care of him,” Sky Canine Supreme said with a faint smile.

Although he said to take care of Yang Chen, he actually specifically mentioned that Yang Chen had just entered the Nirvana Stage and that his combat power was average.

What was his purpose?

In this battlefield, everyone only wants to get close to the powerful ones. As for the weak ones? Even if they had a good relationship outside, they would gradually drift apart after entering since everyone wanted to save their own lives.

Sky Canine Supreme obviously had feelings for Autumn Cold Supreme. When he said this, he also allowed Dao Intent Inscriptions to flow subtly, trying to show off himself. However, it's a pity that Autumn Cold Supreme didn't look at him much.

Autumn Cold Supreme was obviously more interested in Yang Chen. With a charming smile, she said, “Yang Chen, my friend, I've heard of you for a long time, and my disciples have often mentioned you in our conversations. I wonder if you would be interested in coming and having a chat with me.”

Yang Chen was puzzled upon hearing this. Disciple?

Who was Autumn Cold Supreme's disciple?

Yang Chen was puzzled, but since a human supreme was inviting him, and she was the sect leader of Qingyu Gate, Yang Chen couldn't refuse.

Fortunately, at the moment his Lingxi Divine Pupil was opened, and the other party didn't have any malicious intentions, so it was quite good to know her better.

However, this scene made Sky Canine Supreme's face awkward.

Everyone knew that he was pursuing Autumn Cold Supreme, but Autumn Cold Supreme just treated him indifferently, making him very angry. And now, Autumn Cold Supreme could even take the initiative to approach a newcomer like Yang Chen while still ignoring him, which made him even more furious.

His fists clenched, not knowing what he was plotting.

...

As for Yang Chen, he entered the temporary room built with prohibitions with Autumn Cold Supreme.

Upon entering, Autumn Cold Supreme sat down gracefully and said with a smile, "Yang Chen, my friend, please have a seat."

Yang Chen's heart was still full of astonishment and he didn't know why, "Autumn Cold Supreme, what do you mean by your disciple? Junior is a bit confused."

Chapter 2399: Autumn Cold, Older Sister?_1

Autumn Cold Supreme chuckled, "My young friend Yang Chen, you're not aware that my disciple is White Star Taoist. I've often heard White Star mention you, especially when you saved White Star and the others in the Great Secret Realm. White Star told me everything, and you even helped him find the Divine Fire Donkey Temperament. It would be truly unreasonable if I, as his master, didn't thank you for that."

"What!" Yang Chen, astounded, said, "Your disciple is White Star Taoist?"

This this this.

If White Star Taoist has been alive for hundreds of thousands of years, then wouldn't Autumn Cold Supreme have lived even longer?

Autumn Cold Supreme smiled charmingly, "What, you think I, an old witch, have lived too long? Don't despise me for being old. I still haven't found a partner for dual cultivation, hehehe. But as for you, my young friend Yang Chen, you're already married at such a young age, which really makes others envious."

"It's just that Sister Qiuhan has devoted her heart to cultivation," Yang Chen smiled.

Autumn Cold Supreme shook her head gently, "Yang Chen, don't call me senior. While you may know White Star, I'm way too old, and it's too straightforward for you to call me senior or old witch, isn't that boring?"

Yang Chen was at a loss for words.

An old witch was a bit much to say, but these women with high cultivation, the older they were, the more attractive they seemed to be, possessing a kind of ethereal charm that made them otherworldly...

These mighty ones all had their quirks. Since she didn't like being called a senior, he stopped, saying, "So how should I address you...?"

"Just call me Sister Qiuhan. That's how Deer Bravery Supreme used to address me," Autumn Cold Supreme said with a smile.

"Deer Bravery Supreme? Who is that? Where is this friend now?" Yang Chen asked.

"He's already dead," Autumn Cold Supreme sighed softly.

Yang Chen's expression grew solemn, "What? Dead? How did he die?"

"He died very strangely on the way back from Vacuum Mountain last time. He encountered an inexplicable encirclement and hunt by the Netherworld Ghost Generals, and as a result, he died," Autumn Cold Supreme said.

Upon hearing this, Yang Chen shook his head, "That's a real pity."

Autumn Cold Supreme waved her sleeve and tightened the prohibitions around them.

"My young friend Yang Chen, when I tell you all this, you really don't think that Deer Bravery Supreme died at the hands of the Netherworld people, do you?" Autumn Cold Supreme asked in surprise.

Yang Chen didn't understand, "Are there any other reasons?"

"Well, it's understandable that you just joined the squad and don't know the whole story," Autumn Cold Supreme lamented. "At the time, Deer Bravery Supreme's death was very suspicious. There was nothing wrong with our trip to Vacuum Mountain, and when we came back, there shouldn't have been any problems. But Deer Bravery Supreme died, and at the time of his death, I didn't see it at all. The so-called ambush and hunt by the Netherworld people... I didn't even see a shadow of the Netherworld!"

"So, Sister Qiuhan's point is that Deer Bravery Supreme's death was not caused by the Netherworld people?" Yang Chen asked in confusion. "Then who did it?"

Autumn Cold Supreme looked serious, "I can't say for sure, there's no evidence, but if I had to pick someone with a motive, it would be the Thunderclan."

"Thunderclan?" Yang Chen seemed to think of something.

Autumn Cold Supreme shook her head, "There aren't many people who know about the Thunderclan's fondness for eating people, but I've seen and learned a lot, so I know a bit. At the beginning of the Thunderclan's existence, they loved to eat humans the most, but they were eventually suppressed by us humans, so they've been keeping a low profile for a long time and not committing any outrages. But leopard can't change its spots. I often feel malicious intent in the way Lei Chong looks at me!"

Yang Chen's expression darkened upon hearing this, "But Sky Canine Supreme and Captain Lei Chong are close."

“That’s why I’m indifferent to Sky Canine Supreme. Lei Chong, as a member of the Thunderclan, is inherently hostile to humans, but he’s very close to Sky Canine Supreme. I believe there must be something wrong between them. Although there’s no evidence, I can’t help but be on guard,” Autumn Cold Supreme said.

Upon hearing this, Yang Chen fell into deep thought.

Wisdom comes with age. Indeed, he thought Sky Canine Supreme and Lei Chong would be malicious towards him.

But he never thought that there would be something between the two.

Now, after listening to Autumn Cold Supreme’s analysis, things became much clearer.

As the saying goes, “Heaven watches what humans do.” Although there’s no evidence, Autumn Cold Supreme’s suspicions were based on her astute mind. Lei Chong and Sky Canine Supreme probably didn’t even know about this.

“Honestly speaking, if I weren’t completely convinced that you are Yang Chen, I wouldn’t have told you all this. But since you are Yang Chen, I can rest assured. You should have a conflict with Sky Canine Supreme, so why are you here?” Autumn Cold Supreme asked.

“Sister Qiuhan’s understanding is quite thorough. I came here due to a lack of choice, because Sky Canine Supreme actively requested for me, and the one who arranged the team had relations with Sky Canine Supreme. As a result, I was forced to come here,” Yang Chen said bitterly.

He originally wanted to go to the top-tier squad.

“I see, by rights, with your strength, you should have been assigned to the third-tier squad, but you were assigned here instead. Alas, Sky Canine Supreme must have bad intentions for you. How about this, let’s look out for each other, so we at least have someone to rely on. We’re about to head to Vacuum Mountain again soon, and I’m afraid that journey will be fraught with danger,” said Autumn Cold Supreme.

Yang Chen smiled inwardly. Autumn Cold Supreme didn't know his true strength yet, so it was normal for her to say such things.

However, he didn't have any intention of revealing his strength yet, and slightly bowed, "In that case, I'll rely on your care, Sister Qiuhan."

"Don't mention it, you've taken care of my disciple White Star many times, so it's only right that I help you. I must say, you've really surprised me. Just recently, I heard you were in the Enlightenment Stage, but now you're in the Nirvana Stage, which is incredible!" said Autumn Cold Supreme, her eyes widening in amazement.

Yang Chen and Autumn Cold Supreme got along well and chatted for a while.

They first talked about past events, then about cultivation, and Autumn Cold Supreme kindly gave Yang Chen some advice, although it wasn't much use to him.

Later, the two of them discussed matters related to Vacuum Mountain.

Considering that the two Earth Fiend Clan members were sticking together, and Sky Canine Supreme had close relations with Lei Chong and the other two foreign race persons, they naturally had to form a tight group too.

What upset Autumn Cold Supreme a bit was that because she was a woman, she couldn't get too close to Deer Bravery Supreme, which was why he died.

This time, due to Yang Chen's youth and the lesson learned from the previous incident, she didn't care about that and chose to team up with Yang Chen directly.

In his heart, Yang Chen was grateful. Although his real strength was not what Autumn Cold Supreme imagined, she didn't look down on him at all.

Chapter 2400: Premeditated Assassination_1

The other party seems to be someone worth befriending!

However, with his strength, he doesn't really need their protection!

In the blink of an eye, Yang Chen had stayed here for three days.

Three days is a brief moment for cultivators, and in this battlefield team, it is difficult to stay in one place for too long, let alone rest.

Three days had passed.

Three days later, a group of team members were summoned by Lei Chong to discuss their journey to Vacuum Mountain.

Lei Chong stood with his hands behind his back at the forefront.

At this moment, the seven team members were lined up, their strength reaching the minimum Nirvana Stage 3.

In these people's eyes, Yang Chen was a bit awkward. Most of them thought that since Yang Chen had just entered the Nirvana Stage, his combat power was even weaker than a normal first-stage Nirvana Stage cultivator.

"Everyone, fortune favors the bold. If we want to earn more Merit Points, we need to head to Vacuum Mountain again. There are plenty of spatial fragments there that can help us win the battlefield and at the same time bring us personal benefits. What do you think? Those who are willing to go to Vacuum Mountain, please raise your hands!" Lei Chong immediately started asking.

These team members looked at each other, having no strong objections. Almost everyone chose to nod in agreement, as their primary duty in the battlefield was to obtain spatial fragments and kill the people of the Netherworld.

"I have no objections!" The members from the Yellow Ape Clan and the Iron Spirit Clan readily agreed.

And neither did the two Earth Fiend Clan members.

Sky Canine Supreme glanced at Autumn Cold Supreme, "Sister Autumn Cold, what do you think? Don't worry, as long as we go to Vacuum Mountain, I will protect you. There's no need to worry."

"Sky Canine Supreme, there's no need. I have never been afraid of going to Vacuum Mountain. Moreover, I have already agreed to accompany Yang Chen. You don't have to bother with me." Autumn Cold Supreme's attitude was cold.

"What!" Sky Canine Supreme's expression changed, as Autumn Cold Supreme chose to team up with Yang Chen instead of him?

This made Sky Canine Supreme even more furious, and his resentment towards Yang Chen grew stronger.

Could it be that he was inferior to Yang Chen, who was only at the Enlightenment Stage?

Yang Chen, on the other hand, did not find Sky Canine Supreme's frustration surprising at all.

Sky Canine Supreme already had a son, and his Dao partner was probably one of many. How could Autumn Cold Supreme, who had been able to keep track of Yang Chen's every move, not know about this?

As a married man, he still shamelessly pursued other women. How could Autumn Cold Supreme, such a cunning woman, give Sky Canine Supreme any opportunities?

It was not just because Sky Canine Supreme and Lei Chong were close allies either.

Seeing that most of them agreed, Lei Chong didn't care about Yang Chen's choice and said, "Well, since everyone agrees, let's head straight for Vacuum Mountain. We have experience from last time, so I believe it will be much easier this time. There's no time to lose; those who aren't ready yet should hurry up. We will leave immediately."

In the battlefield, these cultivators were always on alert, so there was no such thing as being unprepared.

Only the two Earth Fiend Clan members seemed to need something and went back to pack up a bit before rejoining the team.

As they regrouped, Lei Chong announced their departure, heading straight for Vacuum Mountain.

The team dynamic was as usual, with Lei Chong and Sky Canine Supreme close together, along with the followers of the Yellow Ape Clan and the Iron Spirit Clan. These two clans were not super clans, so their posture was low.

The two Earth Fiend Clan members walked side by side.

As for Yang Chen, he joined Autumn Cold Supreme.

Autumn Cold Supreme's care for Yang Chen was meticulous, and she shared a lot of information about Vacuum Mountain along the way, giving Yang Chen a better understanding of the place.

As they went on, they initially didn't have much to worry about, as they rarely encountered Ghost Generals from the Netherworld.

However, as they continued forward, the number of Ghost Generals they encountered increased.

But it didn't matter because the Ghost Generals had varying strength, and Lei Chong's power was enough. As a team leader at the limit of the Nirvana Stage, it was easy for him to eliminate ordinary Ghost Generals with his Thunder Technique.

Their luck was quite good, especially when they approached Vacuum Mountain; they encountered three Netherworld Ghost Generals at the third stage of the Nirvana Stage.

This excited the entire team.

Three Nirvana Stage 3 Ghost Generals were the perfect opponents to crush and earn points.

Without hesitation, Lei Chong started chasing and attacking the three Ghost Generals, soon engaging in an fierce and intense battle.

In the end, seeing that they couldn't escape, the three Ghost Generals decided to take separate routes!

Lei Chong immediately reacted, "Sky Canine Supreme, Autumn Cold Supreme, come help me take down this Nirvana Stage Ghost General first!"

Hearing this, Autumn Cold Supreme hesitated momentarily. Lei Chong could have easily handled this Ghost General on his own. Why did he need her help?

However, as a team member, she couldn't refuse the captain's orders, and reluctantly moved to help.

Sky Canine Supreme, on the other hand, smiled slyly, as if harboring a hidden agenda.

Lei Chong then allocated orders further, "The other two, Earth Fiend Clan members, you two go after the one in the east, and Yang Chen, you go with Jiuchang from the Iron Spirit Clan to chase the one in the west!"

"What? Yang Chen has to chase one as well?" Autumn Cold Supreme exclaimed in surprise.

"Don't worry, Brother Jiuchang is with him, there won't be any problems." Sky Canine Supreme grinned amiably.

He appeared to be all smiles, but in his heart, he sneered coldly.

Chase and kill?

Ridiculous.

Having Jiuchang go with them was another hidden reason, as he actually never intended for Yang Chen to get away unharmed.

Yang Chen also knew that Sky Canine Supreme and Lei Chong had ill intentions, but since Lei Chong asked, he went to chase after the target!

He flew through the air, along with Jiuchang, chasing after the powerful third-stage Nirvana Ghost General.

However, along the way, the Ghost General had fled without a trace. When they decided who would pursue the Ghost General, it had already vanished.

“What do we do now?” Jiuchang muttered to himself, “If we can’t catch that Nirvana Stage Ghost General, how can we report back?”

“Brother Jiuchang, don’t you have any other ideas?” Yang Chen asked curiously, looking around.

Jiuchang sneered behind Yang Chen, recalling Sky Canine Supreme’s instructions.

With a creepy, cold grin, he said, “Of course, there are ways. We just need to search carefully for traces. Once we find the traces, we can track down the target.”

As his words fell, the Dao Intent Inscriptions in his hands emerged, hurling toward Yang Chen with a murderous intent, aiming to take his life in one strike.
