

Supreme MK 2401

Chapter 2401: Where are the People of Jiu Chang?_1

Jiu Chang sneered inwardly.

What he said and what he did were completely different.

Killing the Nirvana Stage Ghost General?

How could it be possible? They weren't really interested in that Nirvana Stage Ghost General; they just wanted to get rid of the redundant Yang Chen as soon as possible.

This was a great opportunity for Lei Chong!

"If you have to blame someone, blame yourself for being too stupid!" Jiu Chang mocked as he slammed down his Dao Intent Inscriptions.

But at this moment, Yang Chen suddenly disappeared in a flash of starlight.

"What happened? Where... where did he go?" Jiu Chang was startled, then sensed Yang Chen's Qi behind him and turned around to see Yang Chen's figure.

Yang Chen smiled slightly at this moment: "Brother Jiu Chang, what are you doing?"

"You... how did you do it?" Jiu Chang was terrified.

"This has nothing to do with Brother Jiu Chang, right? You almost killed me just now. Have you already colluded with Sky Canine Supreme and Captain Lei Chong?" Yang Chen smiled.

"You know everything?" Jiu Chang shouted angrily.

“Hahaha, if you don’t want others to know, don’t do it. Did you really think you could hide your actions so well?” Yang Chen shook his head and replied.

“Hmph, since you already know, I can’t let you go! Yang Chen, if you have to blame something, blame yourself for provoking the wrong people. The Sky Canine Supreme has marked you for death, and you just entered the Nirvana Stage, which made you even more rampant. It’s a wonder you haven’t died young!”

Jiu Chang laughed: “After you die, I will tell the people who worry about you that you were killed by a sneak attack from that Netherworld Ghost General. Now, give me your life!”

In his eyes, Yang Chen had only dodged one of his moves, using some Divine Powers that could not be used multiple times. This didn’t mean Yang Chen had the strength to compete with him!

When the conversation ended, Jiu Chang took out his Dao Intent Inscription weapon with a wave of his hand.

Looking at the Dao Intent Inscriptions hovering around Jiu Chang, Yang Chen smiled slightly, very calmly.

This scene made Jiu Chang’s expression freeze, and a bad premonition suddenly arose.

Why was Yang Chen so calm?

It was unreasonable for him to be so calm when he was facing death. Could it be that this guy still thought he could save his life from Jiu Chang?

As these thoughts crossed his mind, Jiu Chang suddenly saw an incredible scene!

“No, it’s impossible!” Jiu Chang lost all color in his face.

Because what he saw was over 7,000 Dao Intent Inscriptions hovering around.

And the one who summoned such a number of Dao Intent Inscriptions was none other than Yang Chen, who he thought had just entered the Nirvana Stage.

“How can this be?” Jiu Chang’s legs went weak.

Over 9,000 Dao Intent Inscriptions, what a joke! He couldn’t handle such a powerful person.

“The intelligence was wrong! You... you’re even more powerful than Captain Lei Chong! What ‘just entering the Nirvana Stage’! Ahhh, Sky Canine Supreme, I was fooled by you!” Jiu Chang cried out with tears in his eyes.

But Yang Chen just smiled faintly: “You misunderstood, what he told you was actually the truth; I did just enter the Nirvana Stage. Although there isn’t much difference anyway. That’s enough; it’s time for you to go.”

“You want to kill me? You don’t have the...”

Before he could finish his sentence, Yang Chen dashed forward.

When he appeared from the space, the cycle of life and death was set in motion, and Jiu Chang was directly killed on the spot.

There was no trace left of his body, only his Storage Bag and the Divine Weapon that contained the Dao Intent Inscriptions.

This Divine Weapon with Dao Intent Inscriptions was an excellent item; Yang Chen fed it directly to Slaughter God Spear after obtaining it.

The Slaughter God Spear swallowed the Divine Weapon with Dao Intent Inscriptions, very satisfied: “Divine weapons with Dao Intent Inscriptions taste better. It feels like the inscriptions themselves are improving too!”

“The number of Dao Intent Inscriptions won’t increase by you devouring weapons, but the Dao Intent Inscriptions that I fused with you will invisibly become much stronger. This is true.” Yang Chen laughed.

He had already taken out many of the Dao Intent Inscription weapons obtained from killing those Nirvana Stage Ghost Generals before and fed them to the Slaughter God Spear.

After devouring them, the Dao Intent Inscriptions surrounding the Slaughter God Spear became much stronger.

This was also the reason why the Slaughter God Spear was so powerful.

Now, after killing Jiu Chang, Yang Chen calculated the time: “I can still catch up with that Nirvana Stage Ghost General!”

Chasing and killing that Nirvana Stage Ghost General was a piece of cake for him.

He didn’t kill him just now, only because he was deliberately waiting for Jiu Chang to reveal his true intentions.

Now it wasn’t too late to catch up again.

For others, it was completely impossible, but for Yang Chen, it wasn’t the case.

At this moment, Yang Chen took a step forward and immediately entered the space.

The surrounding Dao Intent Inscriptions flickered, and when he reappeared, he entered the space again. For him, this Space Jump was even more fluid and terrifying than the one during the Enlightenment Stage.

By the time he appeared, Yang Chen had already intercepted a Ghost General.

“You... you’re that young man from the team just now! How... how did you catch up?” The Nirvana Stage Ghost General’s pupils shrank.

“How I caught up doesn’t need to be explained to Your Excellency. You just need to think about how you’re going to hand over your life.” Yang Chen said gently.

“Hahaha, humans, do you really think you can kill me all by yourself?” This Nirvana Stage Ghost General roared.

He thought the same as Jiu Chang, believing it was simply impossible for him to be defeated or killed by Yang Chen alone.

However, reality was cruel; dealing with this Nirvana Stage Ghost General, Yang Chen seemed to do it effortlessly!

With a wave of his hand, the spear thundered.

Yang Chen’s spear pierced through his own Dao Intent Inscriptions, and an astonishing sound echoed through the air.

By the time everyone came back to their senses, everything was calm, and the Nirvana Stage Ghost General who was roaring moments ago had already become a corpse captured by Yang Chen.

Then, through the Space-Time Dao Intent, Yang Chen returned to his original position, looking anxiously waiting for something.

He didn’t have to wait long before he saw a figure rushing towards him, which was Autumn Cold Supreme.

At this moment, Autumn Cold Supreme looked extremely worried and guilty, glancing around. When she saw that Yang Chen was still alive, she was overjoyed, almost not daring to believe her own eyes.

She was really anxious just now, the more she thought about it, the more she felt something was wrong.

Lei Chong purposely sent her to deal with the Nirvana Stage Ghost General, then lured Yang Chen away from her, and dispatched Jiu Chang to follow. Everything seemed premeditated.

If Jiu Chang really did something to Yang Chen, they wouldn't leave any evidence behind!

But now, what she saw was an unharmed Yang Chen, his bright smile showed no sign of any trouble.

Could it be that she was too suspicious?

Autumn Cold Supreme couldn't figure it out at all.

Chapter 2402: Special Uses of Space-Time Dao Intent_1

If that was the case, why would Lei Chong specifically want her to take action? Couldn't he just switch places with Jiu Chang? There was no need for such a fuss.

Unable to comprehend, Qiu Han Supreme could only sigh with relief and said gently, "Yang Chen, it's so good that you're fine. I was really worried just now."

She had promised to protect Yang Chen and travel with him. If Yang Chen had really died, she couldn't exactly say her heart would break, but she would have indeed lost a confidant.

Seeing Qiu Han Supreme's worried look, Yang Chen knew that she took her words seriously.

"Sister Qiuhan is worrying too much," Yang Chen said with a light smile.

"By the way, where is Jiu Chang?" Qiu Han Supreme asked, puzzled.

“Yeah, where is Jiu Chang?”

At the same time, Lei Chong and Sky Canine Supreme also hurried to this place. The two Earth Fiend Clan members failed to capture the fleeing Nirvana Stage Ghost Generals.

However, Lei Chong and Sky Canine Supreme, together with Autumn Cold Supreme and the Yellow Ape Clan, managed to kill a Ghost General.

But now, Sky Canine Supreme and Lei Chong couldn't feel happy at all.

Their original plan was to let Jiu Chang kill Yang Chen, hide, and then offer Yang Chen's body to Lei Chong for devouring.

Although it was better to be alive, it was too risky, so they chose this more conservative plan.

But with this plan, things had come to this point!

Yang Chen was still alive.

Jiu Chang was gone.

What had happened was simply beyond belief and comprehension!

Yang Chen just smiled faintly, and upon hearing their questions, he said with a smile, “Just now, we were chasing a Nirvana Stage General together. Brother Jiuchang was so brave that he really caught up. My strength was just dragging them down, so I couldn't catch up. I don't know the outcome now. In my opinion, with Brother Jiuchang's strength, you don't need to worry.”

Sky Canine Supreme and Lei Chong almost cursed out loud.

Complete nonsense! Absolutely nonsense!

How had they initially discussed it with Jiu Chang?

They could say that absolutely, absolutely, this kind of situation would not happen.

Jiu Chang went to kill the Nirvana Stage Ghost General? Absurd. They never intended to kill that Nirvana Stage Ghost General; their target was Yang Chen!

However, they didn't quite believe the news of Jiu Chang's fall, as there was no way that Yang Chen and the Nirvana Stage Ghost General could pose any threat to Jiu Chang.

"Since that's the case, let's wait here for a while."

Now, Lei Chong and Sky Canine Supreme really had no choice but to believe Yang Chen's words.

Qiu Han Supreme also felt that something was off, but at this point, she had no choice but to believe Yang Chen's words, wondering if Jiu Chang really had gone to chase that Nirvana Stage Ghost General.

They waited for two whole days.

For two consecutive days, there was no news of Jiu Chang!

Lei Chong and Sky Canine Supreme were driven mad.

Sky Canine Supreme angrily questioned, "Yang Chen, have you been telling us the truth? What on earth happened to Jiu Chang?"

"Brother Tian Nu, I don't think I have any reason to lie to you. Every word I said is true. Jiu Chang indeed went to chase that Nirvana Stage Ghost General. If he doesn't come back, you don't need to vent your anger on me. It's not like Jiu Chang...was...killed by that...Nirvana Stage Ghost General..." As he said this, Yang Chen showed a look of fear.

Everyone knew what he meant.

Qiu Han Supreme also defended Yang Chen, "Sky Canine, the situation on the battlefield changes rapidly. If you want to blame someone, blame Jiu Chang for going too deep chasing that Nirvana Stage Ghost General. The two Earth Fiend Clan members knew the danger and dared not chase too far. It's normal for Jiu Chang to chase all the way and be killed by a backward spear or encounter other Ghost General companions. At this point, it's most likely that he has fallen."

In a battlefield as perilous as this, it was a matter of moments for a team to disappear, let alone an individual.

Sky Canine Supreme found it hardest to accept, but the fact was right in front of him.

He couldn't understand it at all.

Lei Chong couldn't figure it out either. The only explanation was that Jiu Chang had been killed, and he cursed his ill luck, "Forget it, don't wait here any longer! If Jiu Chang doesn't return, it's most likely that something bad has happened. We don't have time to look for him or wait for him. We've been merciful enough to waste two days of our time. We can now continue our journey to Vacuum Mountain!"

The others nodded in agreement.

In the battlefield, when someone died, it was like finding a needle in a haystack, and everyone naturally had no obligation to help.

The team made a decision not to wait any longer and set off for Vacuum Mountain.

The closer they got to Vacuum Mountain, the more spatial fragments they encountered.

Lei Chong and Sky Canine Supreme naturally chose to charge forward and collect the spatial fragments for themselves, leaving as few as possible for others.

Yang Chen didn't really mind their actions.

Because the number of spatial fragments in the periphery was not large. In one round, they collected only a few hundred fragments, which were worth only a few hundred merit points to Yang Chen and were insignificant.

Moreover, these spatial fragments were very scattered, so it wasn't easy to monopolize them. Yang Chen, Qiu Han Supreme, and the others managed to get quite a few spatial fragments through careful searching.

And with Yang Chen's Space-Time Divine Power, it was easy for him to quietly move these spatial fragments into his possession.

Having obtained the spatial fragments, Yang Chen couldn't help but be curious since it was his first encounter with them.

The spatial fragments were brilliant golden, more like corn kernels, cool to the touch, and contained an unstable factor within that made them feel as if they could cut your fingers if not used properly.

This restless factor was the turbulence of space.

This restless factor would undoubtedly be something to be treated with caution for others.

However, for Yang Chen, it was a different story.

Because he was the owner of Spacetime Dao Intent, the power of space could not possibly require evasion; it could only be an affinity for him.

"I feel like these spatial fragments are very close to me..." Yang Chen muttered to himself, feeling overwhelmed.

“Let’s try it!”

He held the corn kernel-sized spatial fragment and immediately merged it into himself.

The next moment, he felt revitalized and his Spacetime Dao Intent seemed to have improved a bit.

“What!”

Yang Chen was overjoyed.

He pinched another one, and it was not an illusion. His Spacetime Dao Intent had indeed improved slightly.

Yang Chen thought about it and understood the reason.

These spatial fragments were pieces of space material. They were actually the essence of space stripped from it and were the best things nurtured by the world!

For someone like him who possessed Spacetime Dao Intent, such things were naturally a tonic.

Yang Chen could feel it very clearly.

One or two pieces might not make a difference, but if there were enough of them, they could definitely enhance his Spacetime Dao Intent!

Chapter 2403: Divine Eye Discovery_1

This is a shortcut to enhancing Space-Time Dao Intent.

Initially, Yang Chen’s desire for the spatial fragments was only limited to merit points. Now, the usefulness of the spatial fragments had increased significantly.

On the way.

Yang Chen obtained quite a few spatial fragments.

Of course, Lei Chong and Sky Canine Supreme got the most, each obtaining at least two or three thousand fragments. As for Yang Chen and the others, they only managed to pick up the leftovers, obtaining just a few hundred fragments each.

Although they were somewhat dissatisfied, the difference between a few hundred and a few thousand fragments wasn't worth causing an uproar over.

However, the indulgence of Lei Chong and Sky Canine Supreme was indeed a bit unbearable.

Finally, the group arrived near the Void Mountain Range.

On the way there, their team encountered many Netherworld Ghost Generals. Some conflicts had arisen, while some simply kept their distance.

Some Ghost Generals had no intention of fighting them, focusing on breaking free from the spatial fragments, intending to prevent them from obtaining more spatial fragments first.

Now that they had arrived at the Void Mountain Range, Yang Chen carefully sized it up.

The Void Mountain Range stretched like a massive dragon...

The entire range was shrouded in a mysterious mist that impeded the probing of souls, making it difficult to discern any details inside.

Yang Chen had some knowledge about this.

He had previously heard from Autumn Cold Supreme that this mist was called Spatial Mist, formed by fragments even smaller than spatial fragments.

This thick mist was the most dangerous aspect of the Void Mountain Range. Its presence not only made it difficult to use Divine Soul Detection to see the details within but also made any location prone to spatial chaos.

However, danger also accompanied wealth.

An abundance of spatial fragments existed within the entire Void Mountain Range, their numbers far exceeding those in the outside world.

Moreover, due to the Spatial Mist, many spatial fragments had not yet been excavated which is why many First Teams would come here, even knowing the dangers, at the cost of their lives.

“We are easily targeted outside the Void Mountain Range, let’s go in first,” Lei Chong said.

Everyone was aware of this and quickly entered the Void Mountain Range.

The Spatial Mist truly lived up to its reputation.

Yang Chen was secretly amazed.

“My soul can only probe around ten zhang out, which is barely enough to protect myself. It seems I can only rely on the Lingxi Divine Pupil,” Yang Chen muttered to himself.

He unfolded his Lingxi Divine Pupil and secretly observed the details.

Upon observation, Yang Chen revealed a smile.

The Lingxi Divine Pupil did have some effect, although things at several hundred zhang away were still somewhat blurry, it was much better than using a soul to probe.

This gave him a head start when dealing with others.

“Everyone, let us follow the route we took last time,” Lei Chong ordered.

“Are we going back to that place?” the two members of the Earth Fiend Clan asked.

Lei Chong said: “Yes, we didn’t thoroughly investigate that area last time, there are still a few directions left to explore. This time, we need to make sure. After all, we obtained quite a few spatial fragments on our last route.”

“What happened?” Yang Chen curiously asked Autumn Cold Supreme.

Autumn Cold Supreme gently explained: “When our team came to the Void Mountain Range last time, we searched for many spatial fragments following a random route. But to our surprise, we found quite a few of them. However, our luck wasn’t too good, and at the end of the search, we encountered a Spatial Tearing Storm.”

“Spatial Tearing Storm?” Yang Chen asked curiously.

“Yes, a Spatial Tearing Storm, which is the place we fear the most when we come to the Void Mountain Range. When a Spatial Tearing Storm forms, it can tear a huge space gap around it at any time. If swallowed by it, it would be the same as entering a spatial turbulence, unable to return for a lifetime,” Autumn Cold Supreme said with horror, shaking her head.

“So, you all returned after that?” Yang Chen asked.

Autumn Cold Supreme replied: “Exactly, life was the key after all, there was no need to take risks for some spatial fragments. But I didn’t expect the captain to want to go there again this time. Because of the spatial storm, everyone would be somewhat apprehensive about going there. However, spatial

storms are indeed random, and there's no need to avoid them that much. Besides, the route we took last time did have quite a few spatial fragments, so it's worth a try."

Understanding the situation, Yang Chen listened.

Since Lei Chong had decided, although the others were somewhat apprehensive and panicked, they eventually followed Lei Chong's intention and planned to explore the route they took last time again.

They proceeded forward, with Lei Chong leading the way.

During this trip, there were far fewer spatial fragments than last time since the previous trip had already cleared the supply along the route.

However, the spatial fragments could move due to environmental factors such as strong winds, so there were still quite a few spatial fragments collected by Lei Chong along the way. As for Yang Chen and others, they only obtained a few.

Lei Chong was familiar with the route, leading Sky Canine Supreme towards the front, turning left and right, before finally stopping.

"This is where we were last time!" Lei Chong said.

Yang Chen looked around and found that the surroundings were covered in mist, making it difficult to see anything clearly. However, the rich spatial flavor in the surroundings could be closely felt by Yang Chen, who possessed Space-Time Dao Intent.

Yang Chen remained calm on the surface, waiting for Lei Chong's orders.

After arriving here, Lei Chong observed the surroundings and said, "Very good, it seems that nobody has been here. Everyone, search the area for anything suspicious and report to me immediately if anything is found."

Everyone sneered in their hearts, report to you?

If there were any spatial fragments, would they report it just to have you snatch them away?

After all, everyone had clearly seen the greedy nature of Lei Chong and Sky Canine Supreme.

“Yang Chen, let’s go together,” Autumn Cold Supreme said. She now had a profound admiration for Yang Chen, considering him a trustworthy person.

Yang Chen nodded: “No problem.”

The two of them partnered up, much to the anger and annoyance of Sky Canine Supreme, who was already plotting his own schemes.

Yang Chen didn’t care about what Sky Canine Supreme was thinking, as he and Autumn Cold Supreme ventured into a thick mist in a certain direction, moving forward to search for any suspicious areas together.

Autumn Cold Supreme spread her soul to keep a lookout in all directions, and Yang Chen used his Eye Technique, scanning forward in one breath.

As they moved forward, Yang Chen soon noticed something.

“Sister Qiuhan, look there!” Yang Chen suddenly said.

“Where? What?” Autumn Cold Supreme looked in the direction Yang Chen was pointing: “There’s nothing there.”

Yang Chen then remembered that Autumn Cold Supreme didn’t have an eye technique like his and wouldn’t be able to see any details that far away using just her soul.

Chapter 2404: Mysterious Creature_1

He said repeatedly, "Sister Qiuhan, you come with me."

Autumn Cold Supreme was now confused, not knowing what Yang Chen was thinking. As she followed closely behind Yang Chen, when they stopped, her mouth opened slightly, and she became extremely surprised.

Because what was in front of her was a large number of spatial fragments. There were at least a few thousand pieces.

Such a quantity of spatial fragments found all at once, presenting themselves before the two of them, was indeed delightful.

"Yang Chen, how did you find them? At such a great distance, my soul was completely lost in the mist, yet you were able to sense this place. It's truly incredible." Autumn Cold Supreme's surprised beautiful eyes sparkled as she became more and more fond of Yang Chen.

Yang Chen said modestly, "I have some eye techniques, so I can see a little further, but there's nothing special."

"No need to be modest, I'm more and more impressed with you," Autumn Cold Supreme rolled her eyes. She was worried to death last time, but Yang Chen unexpectedly survived. It was nothing short of astonishing.

Having said that, Autumn Cold Supreme looked at the spatial fragments and stuck out her tongue: "Yang Chen, you take all these spatial fragments."

"That's not right. I just counted, there are more than 5,000 spatial fragments in total. You and I will divide 2,500 each, which is just right," Yang Chen smiled.

"How can that be? Those spatial fragments were discovered by you in advance, and I didn't contribute anything. If I took so many of them out of thin air, I wouldn't be able to accept it. You are so generous, but I can't," Autumn Cold Supreme said in annoyance.

As the saying goes, if you eat someone's food and take someone's hand, the more women owe men, the more they will eventually succumb.

She understood this reasoning.

Yang Chen really didn't think that far. Seeing Autumn Cold Supreme say this, he smiled and said, "Sister Qiuhan, since we are together, and you want to protect me, there's no reason for me not to share half of what I got. This can be your reward for protecting me."

"Your sweet talk really works, and since you put it that way, it seems I have no reason to refuse. Hehe, then I will accept a portion of it. However, I won't take half of yours, I would feel guilty. Out of the 5,000 pieces, I will take 1,000, and you can have the remaining 4,000," Autumn Cold Supreme giggled.

Yang Chen knew that it would be pointless to pretend at this point.

He saluted, "In that case, I shall respectfully obey."

With the allocation of 5,000 spatial fragments settled, with him receiving 4,000 and Autumn Cold Supreme getting 1,000, their shares were clear.

This could be considered good luck for both of them since they had managed to obtain so many spatial fragments just after arriving here. This was even more than the amount Captain Lei Chong and the Sky Canine Supreme had been grabbing along the way.

After putting the spatial fragments into their bags, both of them were delighted.

However, just at this moment, Lei Chong's voice suddenly sounded.

"Attention, everyone quickly return, there's a situation!!" Lei Chong mentioned the situation twice, not letting anyone underestimate it. Yang Chen and Autumn Cold Supreme exchanged glances and quickly returned.

By the time they returned, a group of team members had already gathered together, leaving Yang Chen and Autumn Cold Supreme quite surprised.

“Captain Lei Chong, what happened?” Autumn Cold Supreme inquired.

“Didn’t any of you find any spatial fragments?” Lei Chong didn’t rush to tell the main issue but asked a question first.

This made Autumn Cold Supreme and Yang Chen curse Lei Chong for being greedy. Even at this point, he still wanted to ask about their spatial fragments.

If he really got them all, he would never mention that he swallowed the spatial fragments alone. Instead, he would ask for the hard-earned rewards they had just received.

Yang Chen and Autumn Cold Supreme weren’t so naive as to say what they had obtained.

Autumn Cold Supreme immediately replied calmly, “We only collected a few dozen pieces. Do you want to share some, Captain Lei Chong?”

“No need for that, I am not a greedy person. Since those are the spatial fragments you found yourself, it’s only right for you to keep them!” Lei Chong shamelessly said.

These words made Yang Chen sneer secretly but didn’t expose anything on his face.

Only now did Lei Chong begin to talk about the main issue, “The thing is, just now, two of our Earth Fiend Clan friends happened to stumble upon an underground tunnel while searching. It’s a very strange tunnel, and there might be spatial fragments in it. I think we can go and explore it. Sister Qiuhan, the two Earth Fiend Clan people have already decided to go explore it. It’s up to you what you want to do now.”

Yang Chen, on the other hand, was completely ignored. After all, no one would care about the thoughts and decisions of a small Nirvana Stage First Level guy.

“There’s such a mysterious place? In that case, exploring further wouldn’t hurt.” Autumn Cold Supreme decided.

“Well, since this is the case, I feel the same way. Let’s go and investigate. Maybe we’ll have a sizeable harvest,” Lei Chong said casually.

The opinions of the group were unanimous, so they didn’t waste any more words. They directly followed the path to the mysterious underground tunnel.

As they went, they indeed found a huge underground tunnel that led to a deep cavern naturally formed below the ground.

They didn’t know where the target was!

Everyone exchanged glances, and their natural desire to explore overcame their fear of the unknown, so they all entered the underground tunnel without any hesitation.

They didn’t know where this underground tunnel led, as it was pitch black and the fog in some places was even worse than outside.

Autumn Cold Supreme stuck close to Yang Chen the whole time, recalling Yang Chen’s eye technique that had detected the spatial fragments, she couldn’t help but ask, “I can only detect a distance of about seven or eight zhang. Yang Chen, how far can you detect?”

Having already shown his Lingxi Divine Pupil, Yang Chen no longer hid his abilities at this time, “Well, I can probably detect up to fifty zhang away.”

“What?” Autumn Cold Supreme was extremely surprised and then giggled, “Yang Chen, you really amaze me. With this eye technique, I feel much safer being with you. Can you tell anything about this tunnel now?”

“Not yet, it’s a very long tunnel, and I don’t know where it leads,” Yang Chen shook his head.

It was pitch black.

However, the people of the Yellow Ape Clan could emit light from their bodies, illuminating several hundred zhang, which helped reduce the oppressive effect of the dense fog.

Yang Chen's Lingxi Divine Pupil could see even further.

The further they went, the wider the tunnel became. It was at least several dozen zhang wide, enough to accommodate a giant creature.

It was at this moment that Yang Chen suddenly raised his eyebrows and whispered, "Sister Qiuhan, a strange creature about the same size as us humans is rushing towards us!"

"What kind of creature?" Autumn Cold Supreme's mouth opened slightly.

Chapter 2405: Alliance Between Two Teams_1

Yang Chen found it unbelievable: "I've never seen or even heard of a creature like this. Judging by its Qi, it doesn't seem to be from our Spirit Realm. Could it be unique to this spatial node?"

As he spoke, the creature rapidly approached, as if it was being chased.

It quickly closed the distance.

Naturally, this alarmed Lei Chong and Sky Canine Supreme. When it got this close, they were quickly alerted.

"What the hell is that thing?" Lei Chong struck first with a bolt of lightning.

The creature was hit, howling in pain and bleeding profusely, its Qi weakening.

“So weak?” Lei Chong was surprised.

Only now did everyone take a closer look at the creature.

It looked like a giant ostrich, just bigger and with eight claws. It had a thick, powerful neck, and fierce eyes.

“It’s not a creature of our Spirit Realm or the Netherworld. What weird thing is this? Its strength is not great. It only seems to be at the first level of the Nirvana Stage,” said Sky Canine Supreme, cursing.

The strange creature, struck by a blow, was still unyielding and ready to continue the battle.

Seeing this, Lei Chong had an idea: “Yang Chen, this creature from the other world is too weak. It’s not worth our time. You should handle it.”

Upon hearing this, Yang Chen smiled secretly, understanding Lei Chong’s intentions.

Since last time with Jiu Chang, Lei Chong still held a grudge and couldn’t let go. He said this because he was still suspicious of Yang Chen.

It was understandable. Despite feeling that Yang Chen’s strength couldn’t have caused Jiu Chang’s fall, the situation at the time was still too strange.

Lei Chong wanted to test Yang Chen’s strength.

Yang Chen naturally wouldn’t reveal too much of his own strength, but being a genius before, he displayed over a thousand Dao Intent Inscriptions when attacking, standing side by side with the giant bird, which caught the attention of the others.

They thought Yang Chen had just entered the Nirvana Stage, but showing a thousand Dao Intent Inscriptions at once was not the level of a recent Nirvana Stage cultivator.

“This kid,” Sky Canine Supreme’s expression was cold, not expecting Yang Chen to be so powerful just after entering the Nirvana Stage.

However, he soon smirked: “Captain Lei Chong, as you can see, this kid has exceptional talent. Just by entering the Nirvana Stage, he has already stabilized his possession of a thousand or more Dao Intent Inscriptions. This is definitely a big piece of fat meat.”

“Yes, not bad,” Lei Chong replied via Sound Transmission, and the two secretly plotted how to swallow this fat meat, Yang Chen, into their stomachs.

Yang Chen deliberately hid his strength and fought on par with the strange bird.

Not until the end, when Autumn Cold Supreme couldn’t bear to see Yang Chen struggle anymore, did he sternly say: “Yang Chen, let me step in and kill this strange creature for you.”

Yang Chen was happy to see Autumn Cold Supreme’s willingness to help.

But suddenly, a voice came abruptly from a distance.

“Fellow Daoists, spare this giant bird. Please do not kill it!” As the voice appeared, several figures suddenly appeared before Yang Chen and the others.

These people were also a team from the Spirit Realm.

Lei Chong obviously recognized them and was surprised: “Sixth Team, what are you doing here?”

These indeed were the First Team’s Sixth Team, and the leader, with cultivation similar to Lei Chong, had reached the Nirvana Stage Limit. His body was enveloped with Inscriptions, numbering over 5,000, which was no joke.

Standing beside him were many Third Stage Nirvana Experts with extraordinary martial prowess.

However, what surprised Yang Chen was the presence of a very familiar person among them – Hua Wanru!

Seeing Hua Wanru, she seemed to have anticipated everything and flirtatiously winked at him, causing both resentment and anger to rise in Yang Chen's heart.

He had been worried about Hua Wanru for a long time. How did she end up in the Northeast Battlefield?

This woman truly didn't give him any peace of mind.

Hua Wanru's presence also puzzled Lei Chong: "Wan Hao, why do you have an Enlightenment Stage cultivator in your team?"

"Hehe, don't you underestimate her just because she's in the Enlightenment Stage. This girl's name is Hua Wanru. She's a Chosen One who's proficient in Calculation. She's helped us a lot by exploring this underground tunnel," said Wan Hao, a member of the Tianpeng Clan, slowly and leisurely.

"Oh? So, based on this Chosen One, what have you found here and what are your targets?" Lei Chong asked curiously.

Wan Hao wouldn't naturally reveal anything. Instead, he casually suppressed the giant bird.

The giant bird was already injured, and with Wan Hao's extraordinary means, suppressing it was a remarkably easy task.

Seeing this scene, Lei Chong was displeased; "Wan Hao, we've been fighting this giant bird for a while now. You can't just take it away. That's too much."

"Haha, we've followed this giant bird all the way. How could it be considered your thing?" Wan Hao laughed and stroked his beard.

“Humph, you’re just forcing your claim. But it’s just one giant bird anyway. If you want it, so be it. We have different paths and will explore our own ways,” Lei Chong didn’t plan to go along with Wan Hao’s team. Having an extra team would greatly affect his devouring plan.

However, Wan Hao didn’t make it easy for Lei Chong. Upon hearing that Lei Chong was leaving, he quickly said: “Brother Lei Chong, wait! I have something to ask for your help.”

“You need my help?” Lei Chong chuckled coldly, with ill intentions: “Wan Hao, spit it out. I don’t have time for your nonsense.”

“Alright, without further ado, we found this place through the Calculations of Miss Hua Wanru. However, deep inside the tunnel we encountered a team from the Netherworld, which also belongs to the First Team. The captain of the Netherworld Team was too powerful, ranked 39th – the Xuan Ying Ghost General with over 5,800 Dao Intent Inscriptions. I was no match for him alone. But if you help me, taking him down would not be difficult,” said Wan Hao, laughing.

Lei Chong was not an early riser without profit. Hearing these words, he laughed: “If I help you, it’s not a problem. But Wan Hao, you have to tell me what you discovered in this tunnel, how the giant bird is useful to you, and what exactly did the Chosen One in your team help you find out. If you don’t tell me clearly, hehe, I won’t help you no matter what!”

“Well... alright, no problem. Since Brother Lei Chong said so, I’ll just be honest. Anyway, it would be a bit of a stretch to explore this underground tunnel with just one team. It’s more suitable to go together with you,” Wan Hao thought for a while and finally compromised.

Chapter 2406: Backward Spear_1

“Oh? What happened?” Lei Chong asked excitedly.

After all, the entire Vacuum Mountain was too mysterious. Discovering a cave here was a new breakthrough. Unfortunately, they didn’t know anything about it. If they could get some clues from Wan Hao, that would be good news.

Wan Hao didn’t seem to have any intentions of hiding anything, and recounted the whole story.

Yang Chen nodded thoughtfully.

However, it wasn't because of what Wan Hao said that he nodded. From beginning to end, he had been listening to what Hua Wanru told him. He didn't really care about what Wan Hao said.

After all, he trusted Hua Wanru more.

So, what happened?

In fact, the exploration of the underground tunnel by Wan Hao and the others was also limited. However, they came here relatively early, mainly because of Hua Wanru's calculations.

A group of people came to this place and explored deep into it!

If they continued to explore forward, more severe spatial mist would appear. These spatial mists could even trigger spatial storms at any time, leading to chaotic spatial turbulence.

If they ventured in recklessly, it would be almost the same as seeking death.

This is where the giant bird comes in.

This giant bird, temporarily named Spatial Bird, is very mysterious and seems to be a unique creature in this space.

These giant birds can devour approaching spatial storms!

Yes, devouring spatial storms.

This means that as long as this bird exists, it can help them explore deeper areas, because the upcoming spatial storms will be devoured by the bird, and they don't have to worry about anything.

However, just when they discovered the role of this bird, they encountered another group from the Netherworld team.

As Wan Hao said, the Xuan Ying Ghost General was really powerful: 5,800 Dao Intent Inscriptions made it difficult for Wan Hao to handle it, forcing him to flee.

In the process of escaping, they accidentally let the giant bird escape and kept chasing and trying to catch it. Along the way, they met Lei Chong and his group.

This was the version Hua Wanru told.

Another version was the one told by Wan Hao and Lei Chong.

By the time the story reached Wan Hao's version, it was different.

Several important details had been exaggerated or omitted.

Yang Chen couldn't help but chuckle. Wan Hao didn't tell Lei Chong the truth, but it made sense for him not to do so.

However, Wan Hao probably never dreamed that Hua Wanru would be so close to him.

But Yang Chen wouldn't tell Lei Chong the truth either.

"Yang Chen, you need to be careful with this Wan Hao. There are many dangerous factors on him!" Hua Wanru suddenly transmitted a message.

"How so?" Yang Chen asked, puzzled.

“I don’t understand it either. But he’s very dangerous, according to the divination symbols. What’s even more strange is that he doesn’t seem to pose any threat to you. That’s even weirder. What’s your current realm?” Hua Wanru couldn’t figure it out.

Yang Chen guessed that Hua Wanru must have come to the Northeast War Zone before he entered the Nirvana Stage.

What on earth was this woman thinking?

Yang Chen looked confused, and didn’t intend to tell Hua Wanru, remaining silent.

Then, Wan Hao and Lei Chong formed an alliance.

It was also at this time that the Netherworld team caught up with them and reached this place.

Because of the spatial mist, they only reacted when they were about to approach the area.

By the time they reacted, it was too late to withdraw!

“Hahaha, Xuan Ying Ghost General, you didn’t expect that, did you? I’ve met more allies here. You’ve chased me so hard all the way. Today, here will be your burial place!” Wan Hao pointed at the Xuan Ying Ghost General and cursed.

The Xuan Ying Ghost General’s face tightened, not expecting such a thing to happen.

“Hmph, Wan Hao, you really have good luck to meet more allies here. But do you think you got everything handled?” Xuan Ying Ghost General snorted angrily.

“Hahaha, enough nonsense! Brother Lei Chong, let’s take down this Xuan Ying Ghost General together!” Wan Hao rushed up directly.

Lei Chong immediately took action, assisting Wan Hao in launching a fierce attack on the Xuan Ying Ghost General.

The others didn't hesitate either. Both teams of people quickly took action, attacking the Netherworld team head-on.

Now they had an advantage in numbers. Who killed the enemies first would get merit points!

Autumn Cold Supreme was still worried about Yang Chen and said, "Yang Chen, stay with me!"

Yang Chen knew that Autumn Cold Supreme was worried about him and joined her. The two targeted a Nirvana Stage 3 Ghost General and immediately went into action.

Only Hua Wanru was a non-combatant, hiding in a corner and observing the situation.

Seeing Yang Chen together with such a beautiful woman, Hua Wanru shook her head: "What a shameless old woman, trying to get close to Yang Chen!"

After that, she began her calculations.

"Hmm...this woman's face shows disaster in the near future. But what a pity, Yang Chen's Red Sun is too dazzling. His presence directly cancels out her disaster. If it weren't for Yang Chen, she'd be in danger today. Nevermind. Besides, what do I have to worry about? I'm the one who intervened in the first place, so there's no need to worry about others intervening. It's even better if others intervene. First, let's take down Zhang Xuelian!" Hua Wanru's thoughts were extreme, and she held a deep grudge against Zhang Xuelian.

The joint attack of the two teams was explosive against the small Netherworld team.

Xuan Ying Ghost General was indeed strong, but he couldn't make up for their lack of numbers. Lei Chong and Wan Hao worked together, quickly suppressing the Xuan Ying Ghost General.

Xuan Ying Ghost General was still not willing to give up, and planned to fight Lei Chong and Wan Hao to the end.

He was strong, but his teammates were in complete chaos, with several Nirvana Stage 3 Ghost Generals not even able to hold their own.

Even Yang Chen and Autumn Cold Supreme had the upper hand.

Their opponent was a Ghost General with two huge horns. This Giant Horned Demon General had power comparable to Autumn Cold Supreme. If Yang Chen didn't reveal his full strength, he could only assist from the side, but it also made it difficult for the Giant Horned Demon General to fight back.

At the same time, crises were emerging in other areas.

Finally, Xuan Ying Ghost General clenched his teeth, knowing he couldn't win, and shouted angrily, "You all just wait!"

As his words fell, Xuan Ying Ghost General had to flee reluctantly.

When Xuan Ying Ghost General fled, other Ghost Generals didn't hesitate to run either. However, not everyone could make a clean break, and some Ghost Generals were left behind and killed on the spot.

Yang Chen and Autumn Cold Supreme's target, the Giant Horned Demon General, also twisted his body and escaped, prompting Autumn Cold Supreme to give chase immediately.

Autumn Cold Supreme didn't want to let go of such a big merit point.

Unbeknownst to her, the Giant Horned Demon General suddenly turned around and launched a counterattack!

Chapter 2407: Mysterious Person?_1

This backward spear was something Autumn Cold Supreme had never anticipated.

Her pupils contracted, realizing that something was wrong.

“Oops!”

Moreover, as this Giant Horned Demon General took a backward spear, it was clear that he had been planning this all along. In the process of turning around, he intended to take Autumn Cold Supreme’s life.

As Autumn Cold Supreme was panicking, she hurriedly tried to defend herself. Dao Intent Inscriptions converged in front of her, but with a crackle, they were shattered in an instant, as the Giant Horned Demon General broke through them.

“What!”

Autumn Cold Supreme’s face froze in horror, and she was already filled with despair.

She was too careless. Many times, life and death hung by a thread. She didn’t think about it too much and now the Giant Horned Demon General had seized the opportunity, breaking her Dao Intent Inscriptions, leaving her no chance to escape.

The Giant Horned Demon General’s face was ferocious as he sneered, “You want to kill me? If I die, you’ll have to stay here to accompany me first. Hahaha, now go...”

Before he could finish saying the word ‘die,’ the Demon General’s pupils suddenly contracted, and his body twitched twice. He felt as if he was being bound by something and couldn’t move at all anymore.

The Giant Horned Demon General had no idea what had happened.

Autumn Cold Supreme was also shaken, looking at the completely immobilized Giant Horned Demon General. When she regained her senses, she immediately gathered her Dao Intent Inscriptions and struck out.

With this strike using all her strength, she completely shattered the Giant Horned Demon General's body, inflicting a fatal blow on him.

Until his death, the Giant Horned Demon General didn't know what had happened or why he couldn't move or even release his Dao Intent Inscriptions. It was all a mystery.

Autumn Cold Supreme couldn't figure out what had happened either. Startled, she sat down on the ground, panting heavily.

After thinking about it for a while, she turned to look at Yang Chen with a charming expression.

She realized that Yang Chen, like herself, wore a shocked expression, indicating that the incident just now had nothing to do with him.

"What happened?" Autumn Cold Supreme couldn't understand and asked in confusion.

"I, I also don't know what happened. Could it be that the Giant Horned Demon General was injured before, and at the critical moment, suddenly couldn't move anymore?" Yang Chen said, puzzled.

"It seems like that's the only explanation." Autumn Cold Supreme murmured.

She said that out loud.

However, no matter how she thought about it, Autumn Cold Supreme felt that something was very wrong. It didn't make sense that the Giant Horned Demon General had just been about to kill her but suddenly stopped at that very moment!

Could it really just be a coincidence?

Is it that the Giant Horned Demon General was injured somehow?

She found it hard to believe!

Vaguely, she felt that it had something to do with Yang Chen. She also found Jiu Chang's previous actions strange and confusing. In addition to the recent incident with the Giant Horned Demon General, it was equally baffling. All along, she was accompanied only by Yang Chen.

The person who could help her should have only been him.

However, upon close thought, controlling a third stage Demon General silently and completely immobilizing him was something that even Lei Chong and Wan Hao might not be able to achieve, right?

It would take six thousand Dao Intent Inscriptions to accomplish that, and no matter how powerful Yang Chen was, he couldn't possibly reach that level.

When she thought about this, Autumn Cold Supreme shook her head, thinking it was probably unrelated to Yang Chen.

Meanwhile, Yang Chen quickly regained his composure, as if the matter had nothing to do with him.

Only Hua Wanru, who had been staring at the two from behind, lifted the corner of her mouth with a smile.

"Yang Chen must have become even more powerful now, truly a demonic talent that leaves people breathless. Zhang Xue Lian, your taste in men is not bad, even though you chose him, but I'm still going to fight you for him!" Hua Wanru thought to herself.

At the same time, Sky Canine Supreme worriedly flew towards Autumn Cold Supreme.

"Autumn Cold, are you okay? I was so worried about you just now." Sky Canine Supreme looked frightened.

“Thank you for your concern, Sky Canine. I’m fine,” Autumn Cold Supreme said calmly, still showing a cold and aloof attitude.

Sky Canine Supreme’s frustration deepened even more, and while angry, could only keep it to himself, not knowing what else to plan.

Wan Hao and Lei Chong were now standing together, talking cheerfully.

“Brother Lei Chong, thank you for your help. With our combined power, we were able to drive off Xuan Ying. Next, it’s our world. Our two teams will work together to use this giant bird to go deeper underground and explore. What do you think, Brother Lei Chong?” Wan Hao said.

“I have no problem with that. Brother Wan Hao, please lead the way!” Lei Chong agreed without hesitation.

“That’s great! Brother Lei Chong, please!” Wan Hao and Lei Chong exchanged insincere pleasantries and took the lead.

As for the members of the two teams, they didn’t say anything to each other, following behind their respective captains.

Yang Chen and Hua Wanru also pretended not to know each other, so as not to arouse suspicion.

Since Wan Hao had walked further ahead, he was more familiar with the path. He led the group and soon arrived at the thick fog area he had mentioned before.

When they arrived, everyone took a deep breath.

That’s because the fog was even thicker than before, and nothing could be seen.

However, they could sense terrifying spatial power from within the fog, indicating that the inside was extremely dangerous.

“This is the deeper part of the tunnel I mentioned earlier. As we move forward, spatial storms may appear at any time. However, this giant bird has the ability to devour these spatial storms, which is quite peculiar. We control it, let it go ahead while we follow closely. Not only will there be no accidents, but we can also pick up a lot of spatial fragments along the way. Hahaha!” Wan Hao laughed heartily.

Upon hearing about the spatial fragments, Lei Chong immediately smiled, apparently very interested in this.

“In that case, let’s see what kind of divine powers this giant bird has.” Lei Chong said.

Wan Hao didn’t explain further and released the giant bird.

The giant bird entered the space ahead, and a black hole split open, followed by a storm that seemed to be about to erupt.

However, the giant bird quickly opened its mouth and strangely swallowed the torn black hole and the embryonic form of the storm into its stomach.

Afterward, the storm dissipated, and many spatial fragments surged out. Wan Hao and Lei Chong went ahead to grab them while the others were completely left behind.

Sky Canine Supreme was extremely frustrated. If Wan Hao hadn’t been there, he could have been in the first batch to grab these spatial fragments. Now all he could do was reluctantly follow behind them.

Chapter 2408: Ghost General’s Calculation_1

Wan Hao and Lei Chong did not care about Sky Canine Supreme’s thoughts. They quickly collected the spatial fragments into their bags, and then controlled the giant bird beast to walk in the front.

This giant bird beast indeed had considerable abilities. Its talent for devouring spatial storms was quite impressive. In this confusing area, taking just two steps could trigger unstable spatial forces, giving birth to extremely violent spatial storms.

If it weren't for this giant bird swallowing the storms in time, they would have had a hard time even if they could avoid a wave of it.

Fortunately, with the help of the giant bird beast, they made smooth progress along the way. Not only did they not encounter any dangerous obstacles, but they also managed to obtain quite a few spatial fragments.

Nevertheless, Wan Hao and Lei Chong were the ones who got the most spatial fragments.

Yang Chen, Autumn Cold Supreme, and others only managed to pick up the leftovers.

Yang Chen didn't care too much about this. He could see that both Lei Chong and Wan Hao had their own hidden agendas. It was still uncertain how things would develop later on.

Like this, they continued to move deeper into the cave for two days. Yang Chen collected about a few hundred spatial fragments.

Meanwhile, Wan Hao and Lei Chong must have collected far more, probably around seven or eight thousand each.

This number of spatial fragments made both of them extremely happy. So many spatial fragments could be converted into seven or eight thousand merit points. Who wouldn't like that?

Moreover, as they moved deeper into the cave, they received even better news.

What news?

The further they went, the richer the spatial power became.

At first, they didn't encounter many spatial fragments, but as they moved deeper, they encountered more and more. This made everyone curious. What would be the scene at the end of this path?

However, due to the thick fog, no one knew what the end looked like.

It wasn't until half an hour later.

While everyone was lost in thought, a vast basin appeared within their sight.

This basin stretched for a hundred zhang. In the basin, there were incredibly terrifying spatial turbulences. It was filled with a frightening sense of instability.

But what excited everyone's hearts? It was the massive number of spatial fragments floating around.

Indeed, massive.

This place seemed to be like a source of spatial fragments, with fragments scattered everywhere. Counting them would reveal thousands, if not tens of thousands!

At a glance, there must be more than a hundred thousand, with the exact number practically unimaginable.

No one would be unhappy; there were so many spatial fragments; it was like striking gold.

The only thing that made people cautious was the large number of unstable spatial turbulences and storms surrounding these fragments. It would be difficult to seize them by force.

But with the giant bird beast capable of devouring spatial storms, it wasn't too difficult either.

However, just at this moment, someone suddenly exclaimed, "Quick, look! There seems to be a giant beast under this spatial storm!"

"How is that possible? A giant beast? What could possibly exist in this spatial node?"

A group of people found it very strange, but they still instinctively looked over.

With one glance, everyone gasped in shock.

Because there indeed was a giant beast under the turbulent space. This beast looked incredibly strange – a combination of a giant fish and a horse if one had to describe it.

From the body of the giant beast emanated an ancient, starry aura...

As this aura spread out, everyone dared not to act recklessly.

“What is this?”

“Is it a special exotic beast within the spatial node?”

Wan Hao and Lei Chong were both very puzzled.

Yang Chen looked at Hua Wanru, wanting to get some special information from her.

Hua Wanru was already calculating it. Seeing Yang Chen’s gaze on her, she replied through a sound transmission, “This giant beast is called Star Space Beast. It’s not a unique creature of this space; in fact, there are no creatures in this space. This giant beast seems to be sealed here.”

“Star Space Beast?” Yang Chen had never heard of such a name.

Right now, the beast was sneakily observing everyone with its pair of eyes, not making any sudden moves, though.

Wan Hao and Lei Chong were both intelligent. Seeing that the giant beast didn't make any moves, they quickly reached a conclusion.

"I get it; this giant beast must have been sealed. It's strange, though, why would it be sealed in a supposedly temporary spatial node? Regardless, we don't have time to think about that. If the giant beast is sealed, it shouldn't be able to move. We can just collect our spatial fragments!" said Lei Chong.

Wan Hao nodded his head in agreement.

However, despite what they said, they were actually somewhat apprehensive in their hearts.

They couldn't figure out the strength and nature of this ancient beast's aura at all. They were only acting based on their subconscious understanding.

However, it must be said that they had guessed correctly.

After trying to grab a spatial fragment, they realized that the giant beast indeed showed no reaction.

Gradually, Lei Chong and Wan Hao became bolder and started gathering spatial fragments like crazy.

Seeing this, the others didn't idle either. They joined in frantically, carefully avoiding the spatial storms while collecting the spatial fragments into their bags.

Yang Chen, of course, didn't slack off. It seemed that he didn't collect many, but in reality, with his space-time dao intent, his collection was no worse than anyone else's.

After a while, he had already gotten about twenty thousand spatial fragments.

In the eyes of others, however, it would have been impressive if he had managed to get a few thousand fragments.

While they were collecting the fragments frenetically, suddenly, some commotion came from outside.

Upon sensing the noise, both Wan Hao and Lei Chong's expressions changed instantly.

"What happened?"

Immediately, a treacherous laughter came from a distance.

It was the Netherworld team that had been driven away just now, led by the Xuan Ying Ghost General, who appeared here in a roundabout way.

"Xuan Ying Ghost General, you still dare to appear here; it seems that not killing you just now wasn't enough." Lei Chong snarled, not taking the Xuan Ying Ghost General seriously at all.

However, the Xuan Ying Ghost General didn't appear to be afraid at all and instead arrogantly sneered, "Is that so?"

Lei Chong felt something was off. As soon as the thought crossed his mind, he suddenly sensed a cold breeze. When he came to his senses, Wan Hao had unexpectedly launched a surprise attack, with layers of dao intent inscriptions sweeping through.

Wan Hao had actually sneak-attacked him.

This caused Lei Chong's nerves to tense up, disbelief on his face, "What's going on, Wan Hao, what are you doing!"

His reaction was timely. He used dao intent inscriptions to protect himself, but he was still caught off guard, coughing up a mouthful of blood.

While he wasn't injured to the core, Lei Chong was nevertheless wounded and in a precarious situation.

Immediately afterward, Wan Hao's body started convulsing. When he regained consciousness, he had transformed into a massive creature.

And this massive creature was not a human but a huge ghost creature.

Chapter 2409: Bizarre Killing?_1

Everyone was shocked.

Because Wan Hao turned out to be a Ghost General?

It was something no one had dared to think about, but now the fact was in front of them.

With a tremor in his body, Wan Hao began to split, change, and ultimately transformed into a giant Ghost General. He appeared in everyone's line of sight, and the previous Wan Hao was completely gone.

"Hahahaha, you ask me what's going on? Because I'm not a human being in the first place," Wan Hao sneered.

Lei Chong knew something was wrong, they were being deceived!

Moreover, they had already fallen into the trap, and there was no turning back!

Wan Hao twisted his neck sinisterly: "To be honest, although my talent is to disguise myself as creatures of various races, maintaining this disguise is really difficult. But to be able to hunt two teams of Nirvana Stage fighters, hehe, Xuan Ying, this is worth it, right?"

"Why didn't you just show your true colors at the beginning? What's the point in all this elaborate deception?" Lei Chong shouted angrily.

"Lei Chong, it seems you're not very smart," Wan Hao sneered. "If we had attacked then, you would have tried to escape, and Xuan Ying and I wouldn't have been able to stop you. But now, where will you escape?"

Upon hearing the word “escape,” the people on Wan Hao’s team finally realized something was wrong.

Yes, they must flee immediately. He twisted his body and tried to leave this place in an instant. However, Wan Hao did not pay any attention to him, and then a scream emerged.

The third-stage Nirvana cultivator who attempted to escape was directly sucked into the spatial turbulence and vanished without a trace after a scream.

This sight made everyone gasp.

“You... you actually blocked the only exit with a spatial storm!” Lei Chong was furious.

“Hehe, anyway, I have the Giant Bird Beast, and I can leave at any time. As for you, I’m afraid it’s impossible.” Wan Hao laughed.

The Xuan Ying Ghost General said solemnly: “Alright, Wan Hao, stop talking nonsense with them. Just do it!”

Hearing this, Wan Hao did not waste any more words, twisted his neck, and said: “No problem, I’ll take care of this Lei Chong. I want to meet him!”

“Hmph, whatever!” The Xuan Ying Ghost General’s attitude was cold as he stopped talking and began to unleash his ghost qi.

The people under his command also laughed wildly and began to attack other Nirvana Stage cultivators of various clans in the Spirit Realm.

In an instant, the spirits of the two teams from the Spirit Realm were crushed. Confronted with two Ghost Generals, one stronger than the other, they couldn’t help but feel despair.

A few were already running about, unable to calm down at all.

Autumn Cold Supreme and Yang Chen stood together in a serious stance, daring not to act recklessly.

Soon, another Ghost General came for them!

Autumn Cold Supreme did not want to give up hope so easily and gritted her teeth, saying, "Yang Chen, let's fight our way out together!"

Yang Chen was very satisfied with Autumn Cold Supreme's perseverance and worked together with her to deal with this Ghost General. For now, they stood together.

But in the other direction, chaos had already erupted. The Xuan Ying Ghost General was unstoppable, and no one could stand against him. Within just five rounds, a powerful Nirvana Stage cultivator fell.

Another attack, another person fell.

Soon, the Xuan Ying Ghost General shifted his focus to Yang Chen and Autumn Cold Supreme.

"What a bunch of trash!" The Xuan Ying Ghost General was somewhat furious that Autumn Cold Supreme hadn't been dealt with yet. He pointed at her from the side, and a ball of Netherworld Ghost Qi shot out, attempting to sneak attack Autumn Cold Supreme.

"Sister Qiuhan, watch out!" Yang Chen suddenly stepped forward and swept the Netherworld Ghost Qi away with his spear.

This made the Xuan Ying Ghost General's face cold: "Hmph, courting death! Since you want to die so badly, I'll oblige you!"

His giant ghost hand was raised, and numerous Dao Intent Inscriptions appeared, aiming to kill Yang Chen.

“Yang Chen, run!” Autumn Cold Supreme shouted when she saw Yang Chen had caught the attention of the Xuan Ying Ghost General.

Without a second word, Yang Chen fled.

Like a cat catching a mouse, the Xuan Ying Ghost General chased relentlessly, not giving Yang Chen any opportunity!

Yang Chen was fast, but the Xuan Ying Ghost General was faster. In just a moment, the Xuan Ying Ghost General had caught up with Yang Chen!

“A mere first-stage Nirvana cultivator dares to try to escape from my hands? Go to hell!” The Xuan Ying Ghost General raised his hand with disdain, the Dao Intent Inscriptions gathered as he prepared to kill Yang Chen.

“Not good!” Autumn Cold Supreme sensed the danger Yang Chen was in.

“Hmph, you still have time to worry about others?” The Ghost General fighting Autumn Cold Supreme sneered.

Autumn Cold Supreme felt hopeless, realizing that she couldn’t save Yang Chen and couldn’t bear to look any longer.

And the Xuan Ying Ghost General was about to finish off Yang Chen.

But at this moment, as Yang Chen twisted his body again to struggle away, the Xuan Ying Ghost General suddenly stood still.

“Huh?”

Many of the Ghost Generals sensed that something was wrong!

The Xuan Ying Ghost General's body twitched, and his qi became weaker and weaker. He turned around, a disbelieving look on his face when he saw Yang Chen, and his desperate eyes seemed to only understand something at the moment of his death.

"It was... you... you!" The moment the Xuan Ying Ghost General uttered the last word, he collapsed and his qi vanished.

"It was the spatial storm and turbulence!"

"The Xuan Ying Ghost General... was chasing someone and collided with the spatial turbulence!"

A group of people came to a conclusion.

And Yang Chen pretended to be in shock, standing there as if the incident had nothing to do with him and the spatial storm was just a coincidence!

Such a strange scene just marked the beginning!

Next, the Ghost General chasing Hua Wanru suddenly convulsed, turned into dust, and died instantly!

After that, the Ghost General fighting Autumn Cold Supreme turned into nothingness and perished on the spot!

No one knew what had happened, they only saw one Ghost General after another perish on the spot, without knowing who took the shot!

This scared Wan Hao so much that he was shaking and could hardly stand.

In the blink of an eye, all those under his command were dead!

"What happened? Who did it? Who?!"

Before his words completely fell, he felt an overwhelming Dao Intent sweep over him.

Immediately, his body was frozen solid.

Next, he lost consciousness, and finally, his body exploded into nothingness, dying in the process!

Terror!

Extreme terror!

Although only Netherworld Ghosts had died, the humans who survived were not at all relieved. A whirlpool of shock surged in their hearts!

They didn't know what had happened, but after the waves of attack, all the Netherworld Ghosts had turned into nothingness. How terrifying an event this must have been.

Everyone was dripping with cold sweat in fear.

Chapter 2410: Lei Chong's Shock_1

They didn't dare to act recklessly.

Why?

They were uneasy, afraid that the person who had just killed those Netherworld Ghost Generals would suddenly become displeased with them and kill them as well.

No one knew who did it.

Only Hua Wanru now had her beautiful eyes moving, staring directly at Yang Chen, as if she had already understood everything.

Only Yang Chen himself looked calm, as if nothing had happened to him.

After a long time, there was finally some movement in the scene.

Somebody asked bluntly, "Who...who did this?"

Sky Canine Supreme was also full of confusion and looked at the sealed giant beast, exclaiming, "Could it be this giant beast that did it?"

"I can see some Ghost Qi around the giant beast's seal, and it seems to be a seal made by Netherworld people. This star space beast may have a special attitude towards Netherworld ghosts, and perhaps it was really this giant beast senior who made a move just now!" Lei Chong said.

When the conversation ended, he quickly bowed and said, "Thank you, Giant Beast Senior, for your help in saving us and eliminating these ghost generals. We have offended you just now and hope you won't take it too seriously. We will leave now, now..."

Seeing Lei Chong thinking this way, Yang Chen secretly laughed.

He had been prepared for his strength to be exposed, but he didn't expect Lei Chong and Sky Canine Supreme to think this way.

The giant beast made a move?

This giant beast was sealed and couldn't move at all, so how could it possibly have made a move?

It was by using his Life and Death Dao Intent and Space-Time Dao Intent that he was able to save everyone silently and unnoticed.

However, it didn't matter if they thought so. After all, if he could keep his strength from being exposed, he wouldn't want more people to know about it.

At the moment, Lei Chong and the others were still in shock, and the spatial fragments were almost all collected. Everyone else naturally didn't think much and left one after another.

Yang Chen naturally followed closely behind, but at this moment, a deep voice suddenly rang out in Yang Chen's mind.

"Human, I need your power... I want to leave this place!" the Star Space Beast said in a low voice.

Yang Chen squinted his eyes: "Why me?"

"The Space-Time Dao Intent and the Life and Death Dao Intent just now were from you, right? There's no doubt about it. With both of the Strongest Dao Intents, you are an incredible existence. Young man, your talent is truly amazing. Your Space-Time Dao Intent can save me if you're willing to help. I'll repay you." the Star Space Beast said.

Yang Chen naturally couldn't agree immediately, and since he was in a hurry to leave now, he said, "Repay me? We'll talk about that later. It's not convenient to talk now!"

Hearing Yang Chen say this, the Star Space Beast felt somewhat disappointed but didn't ask any more questions, allowing Yang Chen to leave.

People who could survive now were desperate to leave this place.

Lei Chong and the others were no exception, and they quickly moved forward, eager to get away from this place as fast as possible, which was now full of dread.

Soon, the team reached the exit.

When they arrived at the exit, Lei Chong and Sky Canine Supreme suddenly looked at each other, and then the two seemed to reach a consensus!

Then, Lei Chong said, "I suddenly remembered that I left something inside. Yang Chen, come with me to fetch it!"

Hearing this, Lei Chong directly grabbed Yang Chen and headed deep into the tunnel.

Seeing this, Autumn Cold Supreme trembled: "What are you guys doing?"

As she said this, she was about to chase after them.

However, Sky Canine Supreme blocked Autumn Cold Supreme at this time. The Yellow Ape Clansman and Iron Spirit Clansman beside him quickly acted, surrounding Autumn Cold Supreme.

Autumn Cold Supreme shuddered, only then realizing that she was in grave danger.

That's because the two Earth Fiend Clan team members were already dead, and the people from the other teams had already fled away as if they were flying.

Now that they were in the underground tunnel, Sky Canine Supreme and Lei Chong basically had control of the situation.

Autumn Cold Supreme realized something was wrong, and she and Yang Chen were finished!

"Sky Canine Supreme, what are you doing!" Autumn Cold Supreme's Qi burst out.

Sky Canine Supreme laughed loudly: "What am I doing? Autumn Cold Supreme, you tell me what I am doing!"

At this point, Sky Canine Supreme's expression turned cold: "I have been infatuated with you, but what about you? You're indifferent, and even your attitude towards me is not as good as treating that Yang Chen kid. You tell me what I'm doing? I tell you, there's a limit to a person's patience, and today, hehe, whether you agree or not, I will have you, possess you, hahaha!"

As he said this, Sky Canine Supreme directly attacked Autumn Cold Supreme.

Autumn Cold Supreme unfolded Dao Intent Inscriptions, struggling desperately: "Sky Canine Supreme, do you know why I will never look up to you? Collaborating with Thunderclan and attacking our own people, only you can do it. Even as a ghost, even if I die, I won't look at you again."

"Hmph, since you knew these things early on, I won't hold back anymore. I don't need you to look at me more, I just need to have you." Sky Canine Supreme said greedily.

At this moment, the three attacked, and Autumn Cold Supreme was in an unfavorable situation.

At the same time, Lei Chong had taken Yang Chen deep into the tunnel. The further forward they went, the more Lei Chong's excitement and greed and desire could be felt in his eyes!

Finally, he couldn't hold back any longer, stopped, and pushed Yang Chen away.

"Human, human!" Lei Chong stared at Yang Chen with greedy eyes filled with desire, like the desire to swallow food.

When Yang Chen saw the look Lei Chong gave him, he landed steadily and smiled indifferently: "Well, can't control yourself from eating me, can you?"

Lei Chong was slightly startled, seeing Yang Chen's calm demeanor he narrowed his eyes: "Human, you seem to be fully aware of these."

"Of course, do you think you're hiding it so deep?" Yang Chen said lightly.

Hearing this, Lei Chong laughed wildly: “Hahaha, how interesting. I didn’t believe it when Sky Canine Supreme said you were smart and a genius. Now that I see it, your body is indeed a great supply. Good, very good.”

Obviously, in his eyes, it didn’t matter whether Yang Chen knew his thoughts or not.

Because the latter had no room to resist.

“Hee hee hee hee, just thinking about it makes me excited. Be a good boy and let me eat you. I’ll first electrocute you until you have no power to resist, and then I’ll eat you,” Lei Chong licked his lips.

Hearing this, Yang Chen leaned back and smiled.

Then, he said calmly, “Is that so? I’m quite curious, are you interested in these Dao Intent Inscriptions of mine?”

“Those Dao Intent Inscriptions of yours, I’ll eat them all...”

Lei Chong said this but didn’t finish!

His pupils suddenly contracted!
