

## Supreme MK 2411

### Chapter 2411: It's Hard to Deceive Older Sister\_1

Because in his line of sight, there appeared the dazzling Dao Intent Inscriptions, and the number had reached an almost unbelievable height.

"How... how is it possible!" Lei Chong was completely dumbfounded, his body trembling uncontrollably, and he retreated, feeling as if what he saw with his own eyes was fake.

Seven thousand, seven thousand Dao Intent Inscriptions.

When this number was fully displayed in his line of sight, the only thing left in Lei Chong's heart was despair.

"How is it possible, how did you do it, why, why?" Lei Chong couldn't help retreating.

Yang Chen said sarcastically, "Lei Chong, did you really think it was the Human Star Space Beast that killed the Netherworld Ghost Generals in that basin back then?"

Hearing this, Lei Chong's body trembled, "Could it be... it was you?"

"Knowing it is enough, to be honest, I thought you had some wisdom, but I never expected you to be so stupid!" Yang Chen shook his head helplessly: "Since you're so eager to die, let me complete you."

However, Lei Chong wouldn't give up hope so easily. With a shout, he rushed towards Yang Chen, hoping for a desperate fight.

But Yang Chen didn't even cast a glance at him, and Lei Chong was instantly solidified.

Straight away, Yang Chen turned and left, while Lei Chong's blood flowed instantly.

Yang Chen used Space-Time Dao Intent and Life and Death Dao Intent.

Space-Time Dao Intent to trap, Life and Death Dao Intent to kill.

By the time these two were released, Lei Chong had already turned into a cold corpse.

Yang Chen dragged his corpse, planning to go back and see what exactly the Sky Canine Supreme was doing.

...

The Sky Canine Supreme, Iron Spirit Clan, and Yellow Ape Clan all attacked together. Although Autumn Cold Supreme had extraordinary strength, facing the three of them, the situation was extremely unfavorable. In less than a moment, she was defeated.

Seizing the opportunity, the Sky Canine Supreme produced a golden shimmering rope, which immediately bound the Autumn Cold Supreme.

Autumn Cold Supreme tried to break free, but the golden rope was tied so tightly that she couldn't even move.

"Sky Canine Supreme, release me." Autumn Cold Supreme shouted angrily.

"Haha, Autumn Cold, I really like your arrogant temper? Don't worry, I'll release you after you're completely naked and conquered by me, and then I'll let you thoroughly appreciate your own shame!" Sky Canine Supreme licked his lips.

"Sky Canine, I won't let you go even if I were a ghost!" Autumn Cold Supreme roared.

"What's the use of being a ghost? Being a ghost is not as fun as it is being alive! Haha, Autumn Cold, why do you want to be a ghost so badly when you should be cherishing your time as a human?!" Sky Canine Supreme laughed louder and louder.

The Yellow Ape Clan and Iron Spirit Clan also helped from the side, helping to hold down the Autumn Cold Supreme.

Sky Canine Supreme's desires reached their peak, and he planned to violate Autumn Cold Supreme right here.

But at this moment, a voice cold as ice suddenly appeared.

"You know that as a human, you should cherish your time, but you still insist on doing these sinful things. The Sky Canine Supreme, like father like son, you are just like your son. You are even worse than your son. Leaving your life until now to be killed is really a wrong choice."

By the time this sentence fell, Yang Chen was holding Lei Chong's corpse, step by step, walking over.

If one looked closely, they would notice that each of Yang Chen's steps seemed less like normal walking and more like... spatial displacement...

This made Yang Chen's walking soundless, without any movement at all.

It was because of this that even though Yang Chen hadn't tried to hide his Qi, it wasn't until he was almost right in front of them that the three Sky Canine Supremes finally noticed Yang Chen's presence.

"Yang Chen, it's you!" exclaimed Sky Canine Supreme upon seeing Yang Chen return: "What's going on, where is Captain Lei Chong? Didn't he... didn't he eat you?"

"The Captain Lei Chong you're looking for? Right here." Yang Chen waved his hand and threw Lei Chong's corpse in front of the Sky Canine.

Sky Canine Supreme was startled all over, and the other Yellow Ape Clan and Iron Spirit Clan members were equally shocked.

“Captain Lei Chong! Captain Lei Chong!”

“What’s going on!”

“Why? Captain Lei Chong is dead, Captain Lei Chong is dead.”

At this moment, Sky Canine Supreme was panicking. He stared at Yang Chen, “Yang Chen, how did you do it?”

“How did I do it?” Yang Chen smiled faintly, “My strength is stronger than his, so he died. That’s how I did it. As for you guys, you might as well be buried with him.”

Yang Chen’s Dao Intent Inscriptions were displayed once again.

When this number appeared, the three Sky Canine Supremes couldn’t sit still.

Even Autumn Cold Supreme’s beautiful eyes contracted, and a look of amazement appeared on her face. She had been puzzled all along, unable to figure out why these strange rescues kept happening to her. But now, seeing Yang Chen’s Dao Intent Inscriptions appearing in front of her, she knew that everything could be explained.

So that’s how it was. This was the reason why she had been inexplicably saved all those times.

That was the reason why those ghost generals had died so bizarrely just now.

Seven thousand Dao Intent Inscriptions.

Everyone had underestimated Yang Chen’s combat power.

Sky Canine Supreme was horrified, “You... Didn’t you just enter the Nirvana Stage? Why!?”

He couldn't figure it out, because he remembered clearly that when Yang Chen had just entered this spatial node, he was still in the Enlightenment Stage. He remembered clearly, and there definitely wouldn't be any mistakes.

That meant that Yang Chen had indeed just entered the Nirvana Stage!

But now, how could a person who had just entered the Nirvana Stage possess seven thousand Dao Intent Inscriptions? Why?

"Hehe, Sky Canine, you know the fact that I'm a genius. Since you know that, why would you be so naïve to think that things that happen on geniuses can be so easily controlled and predicted by you?" Yang Chen's voice was as cold as the judgment of death.

"Quick, run."

Sky Canine Supreme didn't dare to think anymore, turning around to escape, fleeing from this dangerous place.

He was afraid, panicked, regretting. He shouldn't have provoked Yang Chen.

It was too terrifying; he must escape.

But how could Yang Chen let the three of them escape?

Wherever the Dao Intent Inscriptions passed, these three were even easier to kill than Lei Chong. In an instant, all of them perished under Yang Chen's hands, without any effort!

Even their corpses and bones were gone!

Seeing the three Sky Canine Supremes in this state, Autumn Cold Supreme gasped for cold air, and when she looked at Yang Chen, her usually emotionless heart began to ripple.

Yang Chen had proven to be so excellent that any woman would be moved.

Although Autumn Cold Supreme had lived for a long time, she was still moved by Yang Chen now. Despite her calm outward appearance, she sighed and said, "Yang Chen, you've been hiding so well from your sister!"

Chapter 2412: The Past of the Star Space Giant Beast\_1

Now thinking about how she had said she would protect Yang Chen before, she felt somewhat embarrassed for a moment.

Her strength, how could she protect Yang Chen? It was clearly a groundless talk.

Yang Chen's 7,000 Dao Intent Inscriptions were like Heavenly Gods descending here, making people feel reassured!

Yang Chen smiled and said, "I'm sorry for making Sister Qiuhan worry. I didn't intentionally hide it from you. I just thought it wasn't necessary. I didn't expect Lei Chong and Sky Canine Supreme to be so despicable that I have no choice but to show my strength now."

"Your strength is revealed well. To be honest, if it wasn't for the last moment, I would still harbor a little fantasy, thinking that the cooperation between Sky Canine Supreme and Lei Chong was just my one-sided idea, and my subsequent thoughts were petty. But I didn't expect that my guess was correct. For his own interests, Sky Canine Supreme can actually abandon his own kind, which is extremely despicable!" Autumn Cold Supreme sighed softly and still felt anger in her heart when she thought about it.

"It's all in the past." Yang Chen calmly said.

"Yes, it's in the past now. In that case, what are we going to do now?" Autumn Cold Supreme glanced around, and their entire team was now reduced to just the two of them.

Just as Yang Chen was about to say something, suddenly, a voice interrupted.

“Yang Chen!”

The owner of the voice was none other than Hua Wanru.

When Hua Wanru appeared, she came with her hands behind her back and looked at Yang Chen, snorting, “Yang Chen, you hid your strength quite well.”

“You are...the girl from the team just now? What’s your relationship with Yang Chen?” Autumn Cold Supreme asked in surprise.

“As for me, I am his wife!” Hua Wanru said.

“Nonsense, I have seen Snow Lotus Fairy, and you are not her!” Autumn Cold Supreme shook her head.

“Isn’t it normal for a man to have three wives and four concubines? Also, don’t mention Zhang Xuelian to me.” Hua Wanru was not afraid of Autumn Cold Supreme at all and spoke coldly.

Upon hearing Hua Wanru’s words, Yang Chen fell silent. He originally intended to deny it. However, considering everything that happened back then, what was wrong with calling each other husband and wife now? His strong denial would only make it more ambiguous.

Seeing that Yang Chen did not deny his relationship with Hua Wanru, Autumn Cold Supreme shook her head lightly.

It turned out that it was normal for a man to have three wives and four concubines, but it was obvious that the relationship between Yang Chen’s two wives was not that great.

With her hands behind her back, Hua Wanru stood gracefully and casually said, “Yang Chen, I’ll follow you from now on. What are you going to do now?”

“I have to go back for a while. There are some things I need to take care of.” Yang Chen said.

“Go back for a while? Yang Chen, you...” The words Autumn Cold Supreme originally wanted to express concern over were about to come out, but after careful thought, Yang Chen’s strength was hundreds and thousands of times stronger than hers, so what was the point of her worrying like this?

Moreover, it’s even more redundant to worry in front of Hua Wanru, right?

She shook her head with a wry smile, suppressing the heart that wanted to ask more questions, “I understand, Yang Chen, I won’t go in, I’ll wait here for you.”

Yang Chen heard this and couldn’t help but stiffen, “How can this be appropriate?”

“Stop talking nonsense. When you and Miss Hua are together, is it not redundant for me to stand next to you?” Having lived long enough, Autumn Cold Supreme naturally had enough insight.

Hua Wanru’s mouth curled up, thinking that this old lady had good eyes and wouldn’t disturb the space between her and Yang Chen.

Yang Chen looked at Hua Wanru with annoyance, knowing that Autumn Cold Supreme’s actions were entirely due to Hua Wanru’s confrontational demeanor just now.

He couldn’t say anything at the moment, so he could only say, “Alright, in that case, I will hurry back and forth. Sister Qiuhan, be careful here!”

“Okay, no problem!” Autumn Cold Supreme said.

With that, Yang Chen quickly went back to deal with the matters concerning the Star Space Beast.

Hua Wanru followed closely behind Yang Chen, and the two returned to the position of the Star Space Beast.

When they arrived here, the Star Space Beast was still in the seal.

“Human, you’re back. I’m very grateful... thank you.” The voice of the Star Space Beast was low and weak, conveying a sense of helplessness in the face of the passage of time.

Seeing this, Yang Chen said, “Star Space Beast, let’s not waste words. Let’s start talking about the topic we were discussing just now. First, let’s talk about the reward you will give me later. I have no idea what kind of creature you are and why you are sealed here. Let’s talk about these things first, and then I’ll consider saving you!”

For him, who possessed Spacetime Dao Intent, these prohibitions were indeed nothing.

However, for him to save this Star Space Beast, it was not a simple matter.

The origin of the Star Space Beast was unknown, and he couldn’t just believe it easily.

Hearing Yang Chen’s question, the Star Space Beast pondered for a moment before speaking with a sigh, “Let’s start from the most distant period. I come from a place called Universe Starry Sky. For your current realm, ‘little guy’, it is probably still quite far away.”

“Universe Starry Sky?” Yang Chen was slightly startled, what kind of place is that?

The Star Space Beast was full of emotions. “I was born there and lived there. As a Star Space Beast, I have the ability to traverse the stars and come to various spaces. But, one day, my people suddenly came under attack from super-strong people from the Underworld. The people of the Underworld saw my kind’s ability to freely travel through space and wanted to use our ability to attack other interfaces. In the end, most of my people chose to submit, while only a few opted to die rather than submit!”

The ability to freely travel through space...

Upon hearing this, Yang Chen was suddenly shocked.

No wonder the Netherworld people could easily attack other interfaces, while other interfaces found it difficult to carry out large-scale traversal. So, the Netherworld relied on these Star Space Beasts that lived in the Universe Starry Sky.

Although he did not know what kind of place the Universe Starry Sky was, it seemed not like an ordinary domain.

“Are you the one who chose to die rather than submit?” Yang Chen asked.

“Yes... At that time, I was part of the higher-ups of my people and refused to surrender. So, I was sealed in this place by the strong people of the Netherworld who had specially opened up a space.” The Star Space Beast said in a low tone, “And then, as the years passed, they wanted to wear away my spirit in the long river of time. To be honest, my spirit has indeed been worn away. If they really chose to release me, I might really choose to submit.”

“After all, my people have submitted, and there’s no reason for me not to. But... but...”

At this point, the Star Space Beast became angry, “But they actually forgot about me here! I’ve been waiting here for countless years, so many years that I’ve already forgotten how long it’s been!”

Chapter 2413: Energy Transfer\_1

Hearing these words, Hua Wanru couldn’t help but giggle.

This Star Space Beast is truly pitiful.

Originally wanting to be a hero, it ended up being imprisoned here for countless years. Later, it regretted and wanted to surrender. It’s not unreasonable, after all, it didn’t surrender at the beginning and persisted for so long. All of its companions had already surrendered, and it would be meaningless for it not to. Surrendering would certainly be embarrassing, but understandable.

However, the Netherworld people forgot about it.

As a result, it was imprisoned here for countless years, which could only be described as tragic.

“So, when the Netherworld people used this spatial node to come to our Spirit Realm, it was actually a plan they had made many years ago. But at that time, because this spatial node didn’t seem to be the best entrance, it was forgotten. After countless years, the Netherworld couldn’t find a better entrance, so they remembered this spatial node and planned to use it to attack our Spirit Realm.”

Hua Wanru quickly figured out the situation after given a clue.

“It’s a pity that after countless years, even when the Netherworld people attacked again, they still couldn’t remember the existence of this Star Space Beast. Haha, it makes sense, with so many Star Space Beasts having already surrendered, the Netherworld people have long since mastered the power of the Star Space Beasts, so why would they care about a forgotten one? It has become useless to them.” Hua Wanru sarcastically said.

Yang Chen shook his head and laughed, “Alright, Hua Wanru, stop making sarcastic comments.”

The Star Space Beast seemed furious, but soon calmed down and said, “That’s right, this human girl is correct. I, being forgotten by the Netherworld people here, is the most infuriating thing for me, and I want revenge!”

“You want to take revenge on the Netherworld people?” Yang Chen asked puzzled.

“Not only the Netherworld people, but I also want to take revenge on my own kind even more!” The Star Space Beast roared.

Yang Chen couldn’t help but smile, understanding the Star Space Beast’s feelings.

Taking revenge on its own kind, although seems twisted at first, makes sense upon further thought. The Star Space Beast had been trapped here for countless years, and half of that was due to its own kind.

It did not surrender, while its companions did.

When it wanted to surrender, it was already useless because of its kin.

Anyone would have a hard time balancing their emotions in this situation.

“You want me to let you out for the sake of taking revenge on your kind? But I feel that your revenge on your kind is undoubtedly a delusion. With your current power, you can’t do it at all.” Yang Chen said, “The power of the Netherworld is far beyond your imagination!”

The Star Space Beast laughed, “I know, with my current strength, I can’t take revenge on my kin. And even if I were released, I wouldn’t have much time left, as our Star Space Beast’s lifespan is not eternal, and my life is reaching its limit. Even if you set me free, I won’t live much longer!”

“If you don’t have much time left, what do you have to take revenge on others?” Yang Chen became even more puzzled.

The Star Space Beast laughed savagely, “We Star Space Beasts have a special talent called Divine Body Transfer. Our cultivation method involves devouring all kinds of resources from the universe to build an energy divine body. This makes our strength completely reliant on stacking up resources. Compared to your other clans’ cultivation methods, doesn’t ours that relies on resource stacking seem ridiculous?”

“Indeed, it’s a bit strange.” Yang Chen said.

“It’s absurd, but we have one advantage: we can use our lives as a price and transfer the strength we’ve accumulated throughout our lives to others. So, in our race, many remarkable experts will pass on their strength to their offspring before they die, allowing their children to inherit their strength.” The Star Space Beast explained.

Hearing this, Yang Chen’s interest was piqued, “To think there’s such a unique ability.”

“Hehe, this is the special talent of our Star Space Beasts.” The Star Space Beast said.

“Let me hear the details. What’s your current strength, and how much can you transfer to others?” Yang Chen asked.

The Star Space Beast calmly said, "In my prime, the strength I accumulated through resources was equivalent to the Boundaryless-level Powerhouses among your clans. If I were to transfer my strength, I could directly enhance a person with exceptional physiques to reach the Nirvana Stage in strength. However, that person wouldn't have Dao Intent Inscriptions and such, but they would possess some of our Star Space Beast's special divine powers such as tearing apart space, teleportation, and more. I think you might need those."

"But now, I don't need your transfer," Yang Chen said.

His heart was incredibly shocked. This Star Space Beast was actually a Boundaryless-level Powerhouse...

A Boundaryless-level Powerhouse, in front of the Netherworld, was still so insignificant? Captured and suppressed here for countless years without any relief, how cruel.

"Indeed, your current strength does not require my transfer," the Star Space Beast said disappointedly, fearing Yang Chen would refuse.

However, Yang Chen was calm and turned to look at Hua Wanru.

"She can't handle it," the Star Space Beast knew Yang Chen's intention and said.

"Why not?" Yang Chen asked suspiciously.

"Because her body is too weak to handle my power transfer. As I mentioned earlier, only someone with a particularly strong constitution can handle it. Otherwise, forcibly transferring my strength would cause their body to explode and die!" The Star Space Beast explained.

Yang Chen hesitated, "There's such a condition?"

It makes sense since there couldn't be such a good thing as a free lunch. There must be conditions.

“Hmph, I don’t want such useless strength. I want to cultivate Dao Intent Inscriptions. I don’t need any external strength!” Hua Wanru said arrogantly.

The Star Space Beast sighed dejectedly, “It seems neither of you needs my transfer.”

“It’s fine, I can find someone else who has a strong physique. I have an abundance of those!” Yang Chen thought of his demon beast companions in the Demon God Tower.

At first, he thought of Bear Elder One and Bear Elder Two.

Although these two silly bears were in the Demon God Tower’s magnificent environment, they were lazy and clueless about cultivation.

Now that his strength is getting stronger and he doesn’t need them as much, they are still at the True God Realm level without any improvement.

This reminded Yang Chen of the two silly bears while making him smile wryly.

With strong physiques and capable of handling enough transfers, aren’t these two bears the perfect candidates?

Simply perfect.

Chapter 2414: Astonishing Gift\_1

Thinking of the Black Mountain Black Bear Brothers, Yang Chen no longer hesitated, and entered the Demon God Tower right away.

The Black Mountain Black Bear Brothers were on the third floor of the Demon God Tower, playing and sleeping all day. If Yang Chen didn’t bother them, they probably wouldn’t feel bored for the rest of their lives inside the third floor of the Demon God Tower.

This had something to do with the intelligence of these two bears.

In other words, for dull people, even a monotonous life wouldn't bore them. Quite the contrary, they would find it amusing.

When Yang Chen arrived, the two silly bears were still dozing off, which made him laugh and cry at the same time.

These two bears really didn't know how many people were waiting for such precious opportunities.

As he shook his head, he shouted out loud, "Get up, quick!"

The two Black Mountain Black Bears shuddered, quickly got up, and said, "What's the matter? What happened? Oh, Boss, why are you here?"

"Boss, why are you here?"

"You two, how dare you ask me why I'm here?" Yang Chen shook his head with a smile, "If I didn't take care of you two, would you be able to sleep here for a lifetime?"

"Well, what's wrong with sleeping?" Bear Elder One and Bear Elder Two scratched their heads and said.

"Of course, Boss, if you want us to play with you, we're more than happy to. For example, finding someone weaker than us and beating them!"

"..."

Yang Chen rolled his eyes, "You two are really something. If Senior Xiong Ba Tian knew about this, he wouldn't let you off easily. Anyway, I came to you today for a reason. Come with me!"

"Huh?"

Bear Elder One and Bear Elder Two were both confused, not knowing what Yang Chen meant, but they quickly followed him.

When they came out, the two silly bears saw the Star Space Giant Beast.

“Wow, such a huge beast.”

Bear Elder One and Bear Elder Two covered their bellies, quite surprised.

After bringing the two silly bears out, Yang Chen asked the Star Space Giant Beast, “What do you think of them?”

The Star Space Giant Beast narrowed his eyes, locked onto the two bears, and let out a satisfied noise.

“Not bad, the physique of these two bears is pretty good. They are suitable for my body transfer!” The Star Space Giant Beast said, “Now, can you let me go?”

“No problem!” Yang Chen replied calmly.

Although the Star Space Giant Beast was a Boundless Stage expert, it had been sealed in this place for so many years, and its strength had long since diminished. Moreover, he could sense a sense of desolation from the beast. The current Star Space Giant Beast was completely devoid of ambition.

This was not something that showed through its eyes, but in its very bones. It was deeply ingrained; all it had was resentment toward fate. That’s why it wanted revenge on its own kind, and the Netherworld!

Yang Chen opened his Lingxi Divine Pupil and could see where the key to the prohibition was.

With a sweep of his gaze, Yang Chen quickly unfolded the Space-Time Dao Intent, layer upon layer, completely analyzing the prohibition.

It had to be said that Space-Time Dao Intent was a good hand for lifting the ban.

Why?

Because Space-Time Dao Intent can solidify and separate space, and even make time stop flowing. When a piece of spacetime is removed instantly, is there a prohibition that can't be broken?

The prohibition that suppressed the Star Space Giant Beast here was almost the highest level of prohibition, very difficult to break. Relying on the means of lifting the ban, it would be as difficult as reaching the heavens. But in the face of Yang Chen's Space-Time Dao Intent, it was like the void.

The significance of the Star Space Giant Beast seeking him was exactly this.

The Space-Time Dao Intent of Yang Chen stripped away the prohibition, completely unlocking it.

When the Star Space Giant Beast saw the prohibition around it completely disappear, it instantly let out a deafening roar.

It roared as it rose, its huge body swimming, spinning, and soaring freely in the basin!

“Hahaha, I'm finally free of the prohibition, finally out of trouble, and finally free. But...”

At this point, the Star Space Giant Beast was filled with sorrow.

Yang Chen understood and didn't speak.

After a while, the Star Space Giant Beast said, “Human, my days are numbered. Before I die, I will transfer all of my power to the two bears you want.”

The two Black Mountain Black Bears looked at each other, still not understanding what was going on. Instead, they stared blankly at the Star Space Giant Beast, not knowing where it had come from, but it looked quite majestic.

Yang Chen nodded. The Star Space Giant Beast then immediately said, "However, I also have conditions. I need you to swear an oath to heaven that if you have the chance, you will kill my treacherous kin without mercy. And you must also show no mercy to the people of the Netherworld."

"I'm already at odds with the people of the Netherworld, but as for your kin, I have no idea where they are, how can I help you? Even if I find out, I won't go out of my way to the Netherworld to help you kill them. Besides, I know nothing about them. If they're all as strong as you, I can't help you." Yang Chen said outright.

The Star Space Giant Beast said in a low voice, "Don't worry, I know all that. I only ask that when you encounter them in the future, within your capabilities, you must help me achieve all this. Otherwise, I won't be able to rest in peace even after I die."

"Alright, no problem." Yang Chen immediately made an oath.

Seeing Yang Chen make an oath, the Star Space Giant Beast finally felt at ease.

"Next, I will transfer all of my power to these two bears, and afterwards, I will die completely..." The Star Space Giant Beast spoke as if leaving a last will, even though there was really nothing left to say.

Yang Chen, with his hands behind his back, asked, "So this is what you're offering me in return?"

"There's more. Look down..." The Star Space Giant Beast suddenly cracked a smile.

"What?" Yang Chen's pupils shrank.

He looked down and saw a huge number of spatial fragments, one batch after another, about two hundred thousand pieces in total.

This amount was simply terrifying.

It should be noted that their entire battlefield only needed more than five hundred thousand pieces of spatial fragments. Just now, they had discovered enough spatial fragments in this place, which was considered quite valuable.

But now, it was even better. They had found more than two hundred thousand pieces at once. If he held onto these many spatial fragments, he could completely replenish the missing pieces in the battlefield.

“What’s going on? How come all these spatial fragments are around your sealed place? Were they the spatial fragments that were born when you were sealed?” Yang Chen asked in doubt.

“Yes, although I was sealed, my innate divine power can decompose space into spatial fragments. As long as I decompose enough pieces, I can open a gap in space. Even if it’s tough, I never gave up. I was suppressed by the prohibition, and over countless years, I’ve decomposed more than two hundred thousand pieces of spatial fragments...”

Chapter 2415: Can You Get Stronger by Lying Down?\_1

This gift is really something.

Over 200,000 spatial fragments, this is indeed a great bargain for Yang Chen.

“For me, it’s not really useful. But it seems that you humans really need it, so I’m going to give it to you.” The Star Space Beast said.

Yang Chen took a deep breath: “Good, very good. Star Space Beast, you are giving me a great gift. If I don’t do my best to help you, I would be ashamed myself.”

The Star Space Beast finally relaxed.

Yang Chen then turned to Hua Wanru: “What do you think? How many of these spatial fragments do you want?”

“Tsk, I don’t want this thing. I don’t care about merit points. Yang Chen, you know why I came to this battlefield.” Hua Wanru licked her lips seductively, making her intentions quite clear.

I came to the battlefield for you.

As for these spatial fragments, I don’t care.

This made Yang Chen feel slightly awkward. But since Hua Wanru didn’t want them, it was better for him. He wouldn’t be polite.

More than 200,000 spatial fragments, with a wave of his hand, he collected them all into his storage.

After collecting them, Yang Chen looked at the Star Space Beast.

“What do you think? Have you thought it through? If you transfer everything you have to my two partners, you might not even have the last moments of freedom.” Yang Chen said.

“Hehe, these years, all I have experienced is pain. The only reason I survived is the support of my thoughts. Now, even if I live, all I have are the memories of that pain. What’s the point of living? It’s better to return to dust sooner rather than later. Alright, I’ve already made up my mind. I’ll transfer everything I have to your two bear friends.” The Star Space Beast said.

Upon hearing this, Yang Chen nodded and explained to Bear Elder One and Bear Elder Two: “Bear Elder One and Bear Elder Two, later, this Star Space Beast senior will transfer everything he has from his body to you. You just need to accept it calmly, and after accepting it, your strength will be much stronger than it is now.”

“What?”

“Really?”

“Can we become stronger just by lying down?” Bear Elder One and Bear Elder Two were both quite surprised.

If they had to work hard to become stronger, they would think about it. But if they could become stronger just by sitting and doing nothing, well, that’s worth considering.

Yang Chen couldn’t help but laugh and couldn’t deny it: “You’re right, you can become stronger just by lying down.”

“Then we’re in.” Bear Elder One and Bear Elder Two agreed in unison.

Yang Chen chuckled and led the two silly bears over to the Star Space Beast.

“Children, close your eyes and relax!” The Star Space Beast instructed.

The two Black Mountain Black Bears didn’t have much on their minds. If they needed to relax, they would. They could even fall asleep immediately if needed.

Yang Chen watched from the side, wondering how the Star Space Beast would manage to transfer strength!

Soon, the Star Space Beast began to move.

From its body, a beam of light suddenly emitted. It looked like a beam of light, but upon closer inspection, it was actually a stream of energy that was quickly being transferred into the bodies of the two Black Mountain Black Bears.

“So that’s how it works...” Yang Chen glanced at it and understood what was happening. It was almost exactly as he had guessed.

As the Star Space Beast said, their clan didn’t have Dao Intent Inscriptions or Dao Intent. They only had infinite devouring resources, which they would use to amass their strength to a terrifying extent.

It was simple and dull. Yet many people could only dream of such a method. However, only the Giant Beast Clan could achieve this.

During the transfer, the accumulated strength would be transferred to someone else, allowing them to possess their own power.

However, it wasn't complete. There would be some missing parts during the accumulation. Just like now, Yang Chen could already perceive that a lot was being missed.

After the successful transfer, the two giant bears should each have the strength of the Early Nirvana Stage. They wouldn't be too weak, but they wouldn't be too strong either.

With these thoughts in mind, Yang Chen began to plan his own future.

Over 200,000 spatial fragments were now easily accessible, and it was indeed a good thing for him. He would keep these 200,000 for now, and the extra tens of thousands of spatial fragments would be enough for him to spend freely.

He had already collected quite a lot on his own here, and in addition to killing Lei Chong and the Sky Canine Supreme and others, the spatial fragments he gained directly reached more than 70,000.

These 70,000 spatial fragments, for him, were simply a fantastic opportunity. With these 70,000 spatial fragments, he didn't need to exchange them for merit points. He could use them to cultivate his Space-Time Dao Intent.

"I don't know what level my Space-Time Dao Intent will reach after these spatial fragments are fully refined." Yang Chen wondered.

He didn't waste any time and began refining immediately.

Over 70,000 spatial fragments merged into Yang Chen's body one by one. Refining, refining, and refining again.

When he had refined a certain amount, Yang Chen felt the subtleties in it.

As long as he refined enough, he would miraculously create a Space-Time Dao Inscription, something he almost couldn't believe!

At first, as the space-time dao intent inscriptions were being refined, a few would be born at a time. As a result, his space-time dao intent inscriptions quickly increased from 1,500 to 1,600, and then to 1,700...

The more he increased, the more difficult it became.

By the time it reached 1,800, it took dozens of pieces to barely increase one. When it reached 1,900 Space-Time Dao Intents, it became even more difficult to upgrade.

In the end, more than 70,000 spatial fragments were completely consumed, and Yang Chen's Space-Time Dao Intent had reached an astonishing 2,000 inscriptions.

Yang Chen was shocked by this number.

Because this number meant that his Space-Time Dao Intent had been upgraded to a level comparable to, or even surpassing, that of the Life and Death Dao Intent!

The total number of his Dao Intent inscriptions was even more terrifying, reaching more than 7,500!

"Haha, it's truly incredible. Who would have thought spatial fragments would have this effect?" Yang Chen was thrilled.

He really wanted to refine the over 200,000 spatial fragments as well. After refining them, he would have even more Dao Intent inscriptions.

However, remembering the matter of merit points and the entire battlefield, Yang Chen had to give up for the time being.

After all, although there were 200,000 spatial fragments, it was already very difficult for his Space-Time Dao Intent to advance further. He couldn't be confused by the surface phenomenon.

Now that his Dao Intent inscriptions were upgraded, Yang Chen recovered and looked at the Black Mountain Black Bear brothers.

Upon looking at them, Yang Chen's face showed joy.

The transfer was clearly in its final stages.

The energy in the Star Space Beast's body was becoming more and more scarce, while the two Black Mountain Black Bears were...

Chapter 2416: Meeting Acquaintances Again\_1

At this moment, the two Black Mountain Black Bears reminded Yang Chen of a word.

Dominator!

They were huge and full of vitality, and an aura of power lingered around them. It seemed as if there were endless possibilities within them!

All of this was ultimately due to the energy transfer from the Star Space Beast. The beams of light transmitted its accumulated strength over many years to the two Black Mountain Black Bears.

Gradually, it finally came to an end.

The Star Space Beast stopped transferring energy.

Both Black Mountain Black Bears, meanwhile, reached the heights of the Nirvana Stage with their majestic Qi.

Each one was so powerful that even Yang Chen felt a bit envious.

He had worked so hard just to reach the Nirvana Stage, while these two silly bears had managed it with a single breath.

If the powerful ones who had been cultivating for hundreds of thousands of years and still hadn't reached the Nirvana Stage found out, wouldn't they be even more upset?

It was really infuriating to compare oneself with others.

Looking at the two bears who still seemed confused, it was even more infuriating.

Now, the body of the Star Space Beast was in a peculiar state, sometimes solid and sometimes ethereal.

It wasn't difficult to figure out that the Star Space Beast had reached its limit.

"I'm dying. My energy has run out. I can't hold on much longer," whispered the Star Space Beast.

"Alright, I'll fulfill your dream," Yang Chen said, filled with emotion.

Although the Star Space Beast might not have been the most dazzling existence, it was a bitter scene to witness its death.

"Because the energy had to be divided between the two, I could not maximize its effect when transferring it. Still, it helped both of them reach the Nirvana Stage. Now they possess some of our Star Space Beast's natural talents and divine powers, such as freely traversing space and tearing it apart. Even you, who possess the Spacetime Dao Intent, might not easily do such things. Additionally, they now possess our Star Space Beast's most unique divine ability—devouring and growing stronger."

When the Star Space Beast finished speaking, its body gradually disappeared from the tip of its tail, disintegrating into countless particles that eventually disappeared into the air as if it had never existed.

The sight made the two Black Mountain Black Bears blink. They initially didn't feel anything, but suddenly, they felt sorrow.

"Why do I feel so sad when I see it disappear..."

"Yeah, it's heartbreaking." The two Black Mountain Black Bears, who had been carefree, suddenly burst into tears.

Yang Chen knew what was going on.

The essence of the Star Space Beast was in both of them, so they naturally felt a deep connection with it. Witnessing its departure with their own eyes, of course, they felt heartache and sadness.

However, after the sadness, the two Black Mountain Black Bears casually returned to their carefree laughter.

"Boss, look how powerful we are now."

"I feel like I can tear apart this space."

Yang Chen shook his head with a smile, "You'll have your chance to display your divine powers later, for now, let's return to the Demon God Tower."

It had to be said that the talent transfer from the Star Space Beast was very suitable for these two Black Mountain Black Bears.

Devouring and growing stronger perfectly matched the character of the lazy and gluttonous Black Mountain Black Bears.

Although the two Black Mountain Black Bears wanted to stretch their legs, they obediently returned to the Demon God Tower when they heard Yang Chen's words.

Now, only Yang Chen and Hua Wanru remained in the space.

The atmosphere between the two was quite ambiguous. Hua Wanru's soul-stirring gaze made Yang Chen's heart race.

Yang Chen softly shook his head, feeling tempted by Hua Wanru's teasing but didn't want to betray his own principles or Zhang Xuelian.

"Let's go," Yang Chen said.

"Sigh, can't you look at me a few more times?" Hua Wanru followed behind Yang Chen, speaking without restraint.

Yang Chen didn't say much and left.

Hua Wanru had no choice but to follow him as well.

When the two returned to the exit, they saw Autumn Cold Supreme waiting for them.

Autumn Cold Supreme smiled, "Are the two of you done with your business and ready to leave?"

"Yes, let's go!" Yang Chen said gently.

Autumn Cold Supreme said softly, "Yang Chen, now that only the three of us are left, we might as well form a team. You have the strongest strength, so you should be the Captain. From now on, we'll listen to you."

"Sister Qiuhan overvalues me. I am only slightly stronger, so I can't take the responsibility of being a team leader," said Yang Chen with a bow, "Sister Qiuhan, you have great knowledge and experience, so you're the most suitable person to be the team leader."

“Giggle, I just love your sweet-talking little mouth. However, among cultivators, whoever is the strongest decides the action. If I have to be the one to decide, I wouldn’t respect myself. Now I am only willing to respect you,” Autumn Cold Supreme smiled.

“In that case, I won’t decline. My thought is that we should leave quickly,” Yang Chen said. “We have too few people now, but we have already obtained a fortune in spatial fragments. It’s best to go back now and not be greedy.”

“I have no objections.” Autumn Cold Supreme said softly.

She was quite satisfied with the tens of thousands of spatial fragments she’d collected in the cave. Besides, their small team indeed needed to return now, as heading back the way they came was the correct choice.

“I don’t have any objections either,” Hua Wanru shrugged, showing off her seemingly close relationship with Yang Chen.

Autumn Cold Supreme knew Hua Wanru was wary, so she just smiled, her expression a mixture of bitterness and helplessness.

The group left the cave and returned to the outside world.

Following their plan, they would return the way they came and leave Vacuum Mountain.

However, just as they were about to leave Vacuum Mountain, a sudden change occurred!

An explosion resounded in the sky, and a world-shaking battle, visible even through the mist to the naked eye, erupted above them.

“Netherworld people! If you want to kill me, Mingling Venerable, it won’t be that easy!” This thundering roar echoed, startling Yang Chen and the others.

Yang Chen looked up at the sky, only to see a black mass of Netherworld people. There were only a few Spirit Realm people being chased, and they were no match for the Netherworld Army at all.

“Shameless and despicable! If it weren’t for your scheming, our Spirit Realm teams wouldn’t have been caught so easily,” Mingling Venerable roared.

Yang Chen had originally planned not to intervene when he saw the large number of Netherworld Ghost Generals, but Mingling Venerable was an acquaintance of his.

Chapter 2417: Who is Helping?\_1

Who is Mingling Venerable?

He is Lu Nan, the young master of his friend’s Earth Fiend Clan. The bodyguard he had with him back then was this Mingling Venerable, a Nirvana Stage cultivator.

Yang Chen was truly astonished. Back then, he had merely thought that Mingling Venerable was just an ordinary Nirvana Stage cultivator, but he did not expect the other party to be so powerful and conceal his abilities so well.

Now, Mingling Venerable’s Dao Intent Inscriptions hover around, reaching a level of more than 6,000 Dao Intent Inscriptions, obviously a top-tier existence.

Such an existence, he failed to see back then, having no clue, is indeed a disgraceful matter.

However, at the time, his strength was too weak, and he had no clear concept of Dao Intent Inscriptions in the Nirvana Stage, so he couldn’t discern the strength and weakness of the opponent. That seemed normal after all.

Considering the fact that Mingling Venerable, someone with this level of strength, was personally guarding him, one could see how respected and noble his status is.

While he was lost in thoughts, Autumn Cold Supreme asked, “Yang Chen, what’s your plan?”

“I’ll have to help this person, you guys stay here and don’t move, I’ll go and see what’s going on.” Yang Chen instructed.

Knowing the situation above him, Autumn Cold Supreme nodded his head continuously, realizing he was unable to intervene.

Yang Chen leaped up and, using Space-Time Dao Intent, hid in a corner to observe the situation first.

Upon seeing the battle in front of him, Yang Chen’s brows gradually furrowed.

What entered his line of sight was a huge Ghost General leading numerous Ghost Generals, as many as a dozen, besieging three Earth Devil Clansmen from the Spirit Realm.

Yang Chen actually recognized this huge Ghost General.

Ranked 12th on the Netherworld King List, Netherworld Slaughter Ghost General!

This Netherworld Slaughter Ghost General possesses more than 7,100 Dao Intent Inscriptions, and even inside the Netherworld King List, he is quite a prominent character. At least now, he still suppresses Mingling Venerable quite a bit.

As for the other Ghost Generals beside him, three of them had reached the Nirvana Stage Limit, possessing more than 5,000 Dao Intent Inscriptions. Even if they were ranked lower on the Netherworld King List, they were without exception, existing on the list.

The rest were also powerful Nirvana Stage 3 cultivators, with extraordinary strength.

On Mingling Venerable’s side, besides him who had more than 6,000 Dao Intent Inscriptions, the other Nirvana Stage cultivators were all at the third stage, unable to provide any assistance. This made Mingling Venerable’s face increasingly show a hint of despair, not knowing how to continue fighting.

The Netherworld Slaughter Ghost General coldly said, "Ambush? Trickery? Hmph, blame it on you people of the Spirit Realm being incompetent and falling for our schemes, and now accusing us of being despicable. Haha, war is all about using every means possible. Hehe!"

"Blame it on you being too greedy."

Netherworld Slaughter Ghost General sneered coldly, "We specifically set up and laid down so many spatial fragments for you, initially thinking that your various clans would at least be somewhat cautious. But we didn't expect you to be completely unguarded. As soon as you saw these spatial fragments, you rushed forward, fighting to seize them, hahaha. Now that you've fallen into such a situation, who can you blame?"

The heart of Mingling Venerable was filled with hatred.

At that time, all their top-tier teams entered the depths of the Void Mountain Range, followed the spatial fragments, and found a place where they discovered a large number of spatial fragments.

They thought it was a treasure trove, and they had discovered a new world, but what was the result?

It turned out to be a trap set by a group of Netherworld people, just waiting for them to take the bait.

After finding so many spatial fragments, what was their first choice?

Rushing to snatch them up, who would have thought about the possibility of falling into a trap? This also led to a group of Netherworld people swiftly launching attacks, defeating them one by one. Their top-tier teams originally had great combat capabilities and could have fought these Netherworld people, but in the end, they ended up being caught by all the Netherworld people.

Only Mingling Venerable, with his quick eyes and nimble hands, managed to escape the encirclement by using a secret art.

But even so, he was still caught up and now faced several Nirvana Stage Ghost Generals with combat power not weaker than his own, feeling that danger outweighed hope.

However, the Netherworld Slaughter Ghost General obviously had no intention of giving Mingling Venerable any chance. After a series of ridiculing remarks, he quickly waved his hand, "Attack! Once we finish these people off, we can go back and report our task accomplished, hehehehe..."

These Netherworld Ghost Generals quickly launched their attacks, intending to kill Mingling Venerable and the others on the spot.

Mingling Venerable would not give up so easily. Seeing the group of Ghost Generals attacking again, he roared and deployed his Dao Intent Inscriptions and methods, attempting a desperate fight.

"Hmph, I knew you wouldn't give up so easily!" As Netherworld Slaughter Ghost General watched Mingling Venerable make a move again, he sneered disdainfully, as his own body also joined the battle.

Mingling Venerable and the others were already retreating in defeat, gradually becoming unable to resist the assault.

If the Netherworld Slaughter Ghost General joined in, there was no need to even think about it; the outcome would be extremely unfavorable for them.

But just at this moment, there was a sudden bang.

A Nirvana Stage 3 Ghost General turned into a blood mist on the spot and exploded, silent and abrupt, without any signs.

This startled everyone as their pupils contracted, not understanding what had happened.

Both Netherworld Slaughter Ghost General and Mingling Venerable were no exception, with their eyes filled with shock and confusion. A Nirvana Stage cultivator just died like that? They didn't understand what was going on!

They thought it was all over, but just after a short while...

Another Nirvana Stage Ghost General turned into nothingness.

“Who!” Netherworld Slaughter Ghost General began to panic.

Who was making a move?

If there was a master ambushing them, he should have been able to detect it, right?

“There’s someone over there!” A Ghost General pointed out.

Only then did Netherworld Slaughter Ghost General discover that not far away, a young man was slowly approaching them. This man was none other than Yang Chen.

When he saw Yang Chen, Mingling Venerable was suddenly shocked: “It’s you, Yang Chen!”

At the very moment he saw Yang Chen, he subconsciously felt disappointed. After all, the Yang Chen he knew used to be just at the Enlightenment Stage. Even if he entered the Nirvana Stage now, how many Dao Intent Inscriptions could he possess?

But just as this thought crossed his mind, he sensed an extremely terrifying Dao Intent Inscription power from Yang Chen.

He couldn’t determine exactly how many, but he could tell that the Dao Intent Inscription power Yang Chen possessed definitely surpassed everyone present.

The Netherworld Slaughter Ghost General and the others were also stirring up shock waves in their hearts...

They could tell just by looking at Yang Chen.

This was a master. An absolute master.

The pressure coming from the opponent made these Ghost Generals swallow hard, as they couldn't help but think that this person was absolutely unstoppable.

"Who is this person, and why have we never seen him on the list before? Impossible, we should have a clear understanding of the intelligence of the Nirvana Stage Limit powerhouses from the various clans in the Spirit Realm!"

Chapter 2418: Massacre Begins\_1

Doubts and confusions arose one after another.

When Mingling Venerable saw Yang Chen's extraordinary strength now, he took a deep breath, and it took him a long time to accept it unwillingly and change his mind about not accepting such a fact.

Soon after, he showed joy, knowing that his savior had arrived, albeit a savior that was somewhat difficult for him to accept.

"Yang Chen, it's actually you. I never thought that the person who saves me from danger now is you. Hahaha." Mingling Venerable laughed heartily.

Yang Chen smiled and said, "Senior Mingling, long time no see."

"Ah? You're still calling me senior?" Mingling Venerable shook his head and said, "You're now in the Nirvana Stage just like me, and the number of Dao Intent Inscriptions you possess is no less than mine, so there's no need to call me senior. Speaking of which, you kid, you really have an exceptional talent. When the Young Master praised you a hundred times before, I thought it was just one-sided exaggeration. Now, it seems that the Young Master had underestimated your talent back then. I didn't expect that you would reach the Nirvana Stage before our Young Master."

"Is Lu Nan doing well in the sect?" Yang Chen asked.

“The Young Master is fine and has already started trying to enter the Nirvana Stage.” Mingling Venerable kindly replied.

“That’s good.” Yang Chen now turned his head to look at the group of Ghost Generals.

These Nirvana Stage Ghost Generals, seeing Yang Chen and Mingling Venerable talking and laughing so freely, were filled with anger and could hardly wait to take action. Yet, when they thought of Yang Chen’s explosive strength, they could only suppress their eagerness to act.

Yang Chen was no simple character.

“Yang Chen, let’s leave this place first. The situation is terrible right now! We cannot fight them since they have a large number of people. We must leave this place and discuss further!” Mingling Venerable said.

“Leave?”

How could the Netherworld Slaughter Ghost General simply let them go?

Even though Yang Chen was strong, the Netherworld Slaughter Ghost General hadn’t considered just letting them go. They wanted to swallow up these big fish, and never thought of letting them escape. Now that Yang Chen had appeared, could he change their plans?

Absurd!

“There’s no way you can leave!”

Mingling Venerable seemed to be ready to run away at any time, even giving Yang Chen a hint. However, what puzzled him was that Yang Chen stood there calmly, without any intention to leave.

“Yang Chen, what are you...” Mingling Venerable looked doubtful.

Yang Chen said with his hands behind his back, "Senior Mingling, there's no need to leave. These people give considerable merit points, and I can't bear to let them go."

"You, what do you mean..." Mingling Venerable didn't understand Yang Chen's strength and felt that even though Yang Chen was powerful, facing so many Ghost Generals was still a suicidal act.

Reason made him forget the two Nirvana Stage Ghost Generals who had been silently killed at the beginning.

Now, Yang Chen stood there with his hands behind his back, calm as ever. When his words fell, several Ghost Generals laughed heartily.

But the next moment, Yang Chen's mouth curled up and said, "Slaughter God Spear, get ready, let's start the killing spree!"

In an instant!

Yang Chen waved the long spear in his hand.

Over 7,000 Dao Intent Inscriptions, like a storm, like an exterminating dragon, roared, rolled, and fell straight down, symbolizing destruction.

Suddenly, several unresponsive Nirvana Stage Ghost Generals were killed by Yang Chen's one gun.

As for the three strongest Nirvana Stage Ghost Generals, they reacted extremely quickly and dodged Yang Chen's spear.

As for the rest of them, there was no one left alive.

"What!" When Mingling Venerable saw this, he was completely shocked, almost unable to believe his own eyes.

So many Nirvana Stage Ghost Generals, who had posed difficulties and left him with nowhere to start, were killed by Yang Chen with a single move?

Yang Chen didn't stop.

He continued to move forward. With each step, endless pressure, lingering and crushing, weighed heavy on the three Ghost Generals. They felt as if they were trapped in a nightmare, facing a powerful being beyond their comprehension.

“Over 7,000 Dao Intent Inscriptions—it couldn't possibly be this powerful. Weren't we told that there were no beings of this level among the various clans in the Spirit Realm, so they sent us low-rank ghost creatures? Was the intel wrong?” The three Ghost Generals were completely shaken by Yang Chen's formidable strength.

Yang Chen, on the other hand, was slightly puzzled.

Low-rank ghost creatures?

What do they mean?

He had no interest in chatting and asking more questions. Lifting his spear, he signaled to the three Ghost Generals that he was about to attack.

Swinging the long spear signified the activation of Dao Intent Inscriptions. Over 7,000 layers of Dao Intent Inscriptions allowed him to suppress his opponents with absolute power.

The spear descended!

With a bang, a blood mist exploded, and a Ghost General with over 5,000 Dao Intent Inscriptions at the Nirvana Stage fell.

Another swing, and another Ghost General with over 5,000 Dao Intent Inscriptions at the Nirvana Stage was defeated!

Two consecutive spear strikes showcased the full extent of his power, slaying two Nirvana Stage Ghost Generals.

Shock, immense shock!

Destruction Spirit Exalted had already been stunned rigid, unsure if he was truly witnessing Yang Chen, the same person he once recognized.

How could the person, who was just at the Enlightenment Stage not long ago, have changed so much? What on earth had happened to him!

Against a Ghost General at the limit of the Nirvana Stage, he showed no signs of struggle at all.

“You, you!” Only the Ming Cha Ghost General remained, and he was already overwhelmed by fear.

He turned and fled, not wanting to spend another moment in battle with Yang Chen.

Yang Chen made his move.

He swung the long spear, targeting the strongest Ming Cha Ghost General. With over 7,000 Dao Intent Inscriptions, this Ming Cha Ghost General was ranked twelfth on the Netherworld King List. If the opponent did manage to flee, Yang Chen would still have to seriously pursue and kill him.

However, he would give it his all.

One swing of the spear, and the power of the Dao Intent Inscriptions instantly pierced forth, dissipating the layers of spatial mist around them. Yang Chen’s erupting power completely locked onto the Ming Chan Ghost General.

When the Ming Chan Ghost General realized what had happened, he immediately turned and twisted his body, unleashing his full strength.

Layers upon layers of Dao Intent Inscriptions struck out, colliding with Yang Chen's Dao Intent Inscription spear!

Immediately after, the Ming Chan Ghost General coughed up blood, completely repelled by Yang Chen's attack!

But without a doubt, the Ming Chan Ghost General had withstood Yang Chen's attack before quickly escaping.

"Interesting!" Yang Chen knew that this Ming Cha Ghost General was exceptional.

Next, he traveled through time and space. When he reappeared, he was already in front of the Ming Cha Ghost General!

Seeing Yang Chen suddenly appear before him, the Ming Cha Ghost General's face went dark.

"You, you... Why?" The Ming Cha Ghost General was already devoid of fighting intent, only thinking of escaping from here. But now, he could not comprehend how Yang Chen managed to stand in front of him.

But Yang Chen did not bother to explain anything.

"Die!"

For this attack, Yang Chen used the Golden Butterfly!

In an instant, twenty-five fluttering golden butterflies dazzled with brilliant colors. By the time the Ghost General reacted, a single golden light flashed by. Then, with a scream, the Ming Cha Ghost General's body went cold and lifeless!

## Chapter 2419: I'll Follow You\_1

This ghost general's corpse is quite valuable, and Yang Chen is not willing to kill it. He decides to keep it and exchange it for Merit Points later.

Now!

All the pursuing Nirvana Stage ghost generals have been wiped out, all of them killed in battle.

It's an unbelievable thing.

Had it not been seen with his own eyes, Mie Ling Supreme would probably dismiss it immediately. After all, to use one's own power to defeat a team of the top-12 Netherworld King List-ranked warriors and annihilate them is something that has never happened before.

Even the thought of it had never crossed anyone's mind.

But in Yang Chen's hands, it was done effortlessly...

Mie Ling Supreme took a deep breath: "Yang Chen, my friend, I can hardly believe it..."

After Yang Chen dealt with these ghost generals, he also grabbed the corpse, intending to respond to Mie Ling Supreme. But suddenly, he sensed something.

"Was it the ghost generals of the team from earlier that reached the bottom?" Yang Chen muttered to himself.

Immediately, he disappeared from the spot, pushing his Space-Time Dao Intent to the extreme.

Then, he arrived in front of Hua Wanru.

A Nirvana Stage 2 Ghost General, seeing Hua Wanru, cackled and prepared to kill her.

This ghost general had come to this place with Ming Cha Ghost General, but his strength was not strong, so he didn't follow the team. Instead, he chose to attack from a lower position. The attack didn't succeed, but they found Hua Wanru and Autumn Chill Supreme.

Hua Wanru is now surrounded by ghost generals. Yang Chen appears immediately, and without using his Long Spear, he simply presses his hand on one of the generals, with Dao Intent Inscriptions flashing, and kills him on the spot.

Hua Wanru, seeing Yang Chen saving her, had a satisfied and joyful look in her eyes.

Because Yang Chen chose to save her between her and Autumn Chill Supreme!

This meant that she was still more important in Yang Chen's heart.

Seeing Hua Wanru's affectionate gaze, Yang Chen felt a little uncomfortable and quickly left to save Autumn Chill Supreme.

At the moment, Autumn Chill Supreme was surrounded by two Nirvana Stage 3 Ghost Generals.

When Yang Chen appeared, he used the Space-Time Dao Intent and Life and Death Dao Intent in combination, easily killing them without any effort.

Autumn Chill Supreme's chest heaved: "What happened? So many powerful Third stage Ghost Generals, Yang Chen, thank you. If it weren't for you, I don't know what would have happened."

Yang Chen was also quite confused: "I don't know what happened either, but it seems that there's been some trouble in Vacuum Mountain. Let's go up and ask these Daoist friends."

"Yang Chen!" Mie Ling Supreme greeted him.

“Senior Mie Ling, what’s the deal with these ghost generals? Why are there so many of them?” Yang Chen asked, puzzled.

“This number is not much. There are more ghost generals inside Vacuum Mountain...” Mie Ling Supreme said with a bitter smile.

“What do you mean? What happened?” Yang Chen didn’t understand.

Mie Ling Supreme took a deep breath and explained the whole story.

As Yang Chen listened carefully to the end, his expression became solemn, and he understood the situation.

These Netherworld people were pretty calculating.

They laid their forces in ambush deep within Vacuum Mountain in advance and then spread out a large number of spatial fragments in the ambush position. When the various Spirit Realm clans came to this place without any precautions and focused on the spatial fragments, who would have been on guard?

This would lead to one result, that is, they all fall into the ambush!

When the Netherworld teams suddenly attacked at that time, who could resist? Naturally, everyone would fall into the trap and then be encircled and hunted down.

Mie Ling Supreme considered himself lucky to have escaped from the siege, but he was still pursued by a group of people.

Mie Ling Supreme couldn’t help but sigh as he talked about this.

He felt that he and Yang Chen had some kind of fate.

Because at that time, the reason why he was able to escape from the Netherworld's siege was ultimately because of the Berserk Secret Manual that Yang Chen had given to their Earth Fiend Clan, which allowed him to have a means of turning the tables.

And when he finally escaped, he met Yang Chen again. If this wasn't fate, what was it?

Yang Chen was simply the lucky star of the Earth Fiend Clan.

With this thought, Mie Ling Supreme also took a deep breath: "Yang Chen, if it were at the beginning, I would never have said this, but now that I see your strength, I think we must try. If we don't try, perhaps so many masters of the Spirit Realm will perish here. Our battlefield would be completely defeated. At that time, when the Netherworld people really attack, it would be very difficult for our Spirit Realm to resist. You have seen the strength of the Netherworld people!"

Hua Wanru said unhappily: "Such a dangerous place, it's fine for you to go back alone, but why do you want Yang Chen to go back with you?"

"Well... Yang Chen, if you didn't have this strength, I would never ask, but now, you're the only one who can intervene in this matter." Mie Ling Supreme seriously said.

Yang Chen said: "Well, I understand the situation. I'll go with you, Senior Mie Ling."

Mie Ling Supreme had no obligation to deal with this matter, but it was a matter that involved a whole realm.

Although Yang Chen now has enough spatial fragments, he can't be sure about everything. If it's not enough, and there are so many forces dead in battle, how can the various clans in the Spirit Realm fight?

Anyway, it's a good thing to go back and take a look.

"I won't go with you." Autumn Chill Supreme shook her head slightly: "My combat power won't play any role in it, and it will only drag you down!"

Yang Chen nodded: "Yes, Sister Qiuhan, it's the right choice."

Although he said this verbally, Yang Chen still felt somewhat regretful in his heart. In a dangerous situation, Autumn Chill Supreme might choose to work together, but in extremely dangerous situations, she still chose to protect herself and did not join him in the fight.

She said it would drag him down, but she was also a third-stage combatant. Having one more would always be better than having one less.

But escaping from this place was also human nature. After all, there was no reason for her to rush into an extremely dangerous place.

Yang Chen looked at Hua Wanru and said, "You should go too. It's relatively safer for Sister Qiuhan to accompany you."

"I'm not going. I'm staying with you." Hua Wanru didn't even think about it, she smiled and made a decision.

"What are you following me for? Isn't it just asking for death with your strength?" Yang Chen said seriously.

"So what if I'm asking for death? I didn't ask you to care about me. If someone really wants to deal with me, you just fight with them and don't mind me." Hua Wanru was so stubborn: "Oh, by the way, I'm not a burden. My Calculation skills, who knows, you guys might need my help later."

Upon hearing Hua Wanru's words, Yang Chen said solemnly: "Nonsense, I told you to go, why do you insist on staying here?"

"Oh? If you really marry me, then I would be happy to listen to you. But now, we are neither relatives nor friends. Why are you in charge of me? Why should I listen to you? I am not your woman!" Hua Wanru sneered, prepared to be unreasonable and stubborn.

Chapter 2420: Rescue Operation\_1

Yang Chen saw Hua Wanru's unreasonable and overbearing behavior, a mix of panic, anger, and deep emotion in his heart.

The Autumn Cold Supreme chose to leave.

That's what friends do.

No matter how much affection the other party has for oneself, no matter how they think, the other party is always just a friend. They can't possibly, at a time of danger to oneself, take actions that endanger their own safety to help.

But Hua Wanru is different.

Hua Wanru is willing to give more, she would rather face the danger with him, even if there is danger ahead, she is resolute in not caring.

Seeing this, Yang Chen was completely helpless, knowing that there was nothing he could do to help Hua Wanru make a choice in this matter. He just couldn't believe how much Hua Wanru had changed!

The Hua Wanru of today is completely different from before.

Love can really change a person. He originally thought that this would never happen to Hua Wanru, but now he realized that he had underestimated the power of love.

Sometimes he wondered.

Which was stronger – the emotions between him and Zhang Xuelian, or the emotions between him and Hua Wanru?

He and Zhang Xuelian had a marriage arranged by heaven. It could be said that their love for each other was strong, but in reality, it might not be.

For a moment, Yang Chen's heart was filled with complexity.

He sighed, "Alright, be careful."

Autumn Cold Supreme saw Hua Wanru staying behind, and in silence and emotion, ultimately chose to leave without changing his decision.

The Mingling Venerable said, "Yang Chen, you come with me."

Yang Chen nodded, brought Hua Wanru and a few scattered Spirit World Nirvana Stage experts, and ventured deep into Vacuum Mountain.

When they reached deep into Vacuum Mountain, the fluctuation of space became stronger and stronger, which could cause an impact at any time.

This was also the reason why ordinary teams didn't dare to step into this deep place carelessly.

Once they entered, they would not only be blind, but also face the possible birth of space turbulence and storms, which could lead to disaster.

However, both Yang Chen and the Mingling Venerable were extraordinary in strength. With Mingling Venerable knowing the best route, they led the way, encountering no problems.

Soon, the group arrived at the entrance of a valley.

The most striking feature of this valley was a huge opening in front of it. This opening seemed to be capable of devouring everything, clearly an incredibly massive spatial rift!

From this rift, fragments of space would occasionally fall and enter the valley.

“This is...” Yang Chen looked in astonishment at the huge opening.

“This is the massive opening of the spatial node we mentioned before. All the spatial fragments come from it and then fall into the valley. This valley is the most dangerous in the entire Vacuum Mountain. It was here that we were ambushed before!” The Mingling Venerable whispered.

Yang Chen opened his Lingxi Divine Pupil and looked into the valley.

And as he looked, he saw that a large number of Netherworld Ghost Generals were gathered there.

Among them, there were Ghost Generals from the Netherworld King List, many of whom were recognizable.

Even the first-place Ghost General was present.

The Heaven Scourge Ghost General!

Clearly, this Heaven Scourge Ghost General was very powerful. Although he never acted, the pressure he emitted while sitting there was still terrifying.

“Huh? These Ghost Generals haven’t killed any of our fellow clansmen from the Spirit Realm.” Yang Chen was puzzled.

“I’m also quite confused. Perhaps they see some value in using them. When it comes to the fighting power of the Netherworld people, they generally don’t like to kill directly if they can catch something alive. No one knows what they are thinking!” The Mingling Venerable said.

Yang Chen recalled something.

Wasn’t it the same with the Star Space Beast?

The people of the Netherworld seemed to like to use everything they caught to their limit, and then decide whether to kill it or not.

How vicious.

Yang Chen muttered to himself as he confirmed the thoughts of the Netherworld people.

These Netherworld Ghost Generals had trapped all the Nirvana Stage experts of the Spirit Realm clans together, using prohibitions to restrain them, making it impossible for anyone to escape!

And then they began to interrogate!

With a move of Yang Chen's ear, and then using Divine Soul Detection, he almost understood the situation.

These Nirvana Ghost Generals were interrogating various clans of the Spirit Realm, asking if they were willing to surrender.

Upon interrogation, several weak Nirvana Stage experts at the Third Stage immediately chose to surrender.

Such spineless actions left Yang Chen and the Mingling Venerable with an icy expression.

It would be fine if they bowed to other clans, but bowing to people from another interface? This was vicious!

"You want me, Vast Supreme, to submit? Impossible!" A Nirvana Stage powerhouse with 5,000 Dao Intent Inscriptions roared angrily, showing no intention of surrender and intending to hold on to the end.

But at this moment, the Ghost General ranked seventh on the Netherworld King List, Longshan Ghost General, directly took out a pitch-black elixir, which was injected into the body of the Vast Supreme.

The next moment, the Vast Supreme felt his whole body convulsing, not knowing what had happened.

Yang Chen and Mingling Venerable both shook their heads, puzzled.

Initially, the Vast Supreme showed no significant changes, but as time passed, he became more and more flushed, agitated, and appeared extremely thirsty in his demeanor.

His Dao heart began to crumble, and as his eyes darted around, he became insane when he saw a female Nirvana Stage expert.

“I want a woman, need... a woman!” The Vast Supreme had completely lost his reason and was about to take action.

However, he was unable to escape his position due to the prohibitions.

Everyone from the Spirit Realm with a tightened expression, and as they saw the Vast Supreme’s state, they grew anxious at heart.

Especially, the female Nirvana Stage expert, feeling even more creeped out.

At first, the Vast Supreme’s eyes still had a bit of clarity, but the more insane he became, the crazier he became. However, madness couldn’t change anything, and he could only be trapped in place, suffering from the torment of desire.

In the end, the torment reached its peak, and with a bang, the Vast Supreme was instantly turned into a mist of blood and exploded on the spot!

This scene was unbearable to witness!

Yang Chen and Mingling Venerable could see what was going on.

It was an elixir that could awaken a person's desires. After taking this elixir, even these Nirvana Stage experts would be affected. They had to quickly deal with the desire, otherwise, the result would be an explosion and death.

The Vast Supreme met such an end!

Alive, they were completely used by the Netherworld people as a model.

After the Vast Supreme died, the other people of the Spirit Realm clans took a deep breath, with fear emerging in their eyes, and were already thinking about whether to surrender or not.
