

## **Supreme MK 2421**

### Chapter 2421: Spacetime Transfer Rescue\_1

Death itself was acceptable, but the brutality of it was something many people couldn't accept.

After all, as members of various clans in the Spirit Realm, they had long since become indifferent to the concepts of loyalty and allegiance. No one could guarantee that they would never surrender.

Only a handful of people still maintained an absolutely unyielding attitude to this day.

For example, the first place on the list, Radiant Divine General!

Among the top few, their attitudes towards whether to surrender or not were very firm. On the contrary, those with weaker strength were mostly indecisive, their eyes wandering, and it seemed that they were about to surrender.

This was not surprising!

Sometimes, powerful ones were often respected, and this was not accidental!

"I choose to surrender!"

"I choose to surrender too!"

Finally, a group of people couldn't bear it anymore and began to choose to join the Netherworld Ghost Generals.

Seeing more and more people surrender, the Ghost Generals of the Netherworld began to laugh heartily.

“Hmph, what a bunch of cowards, surrendering so quickly. But it’s good to surrender. If you join us, we won’t take your lives for the time being.” The Ghost Generals sneered, not taking these surrendered people seriously at all.

Now, in order to survive, these people showed a face of submission and obsequiousness, fearing that they would offend these Ghost Generals.

When they came back to their senses, only a dozen or so powerful ones still maintained an unyielding posture, with no intention of surrendering.

“Hmph, so you would rather die than surrender?” The Netherworld Ghost Generals asked.

The Radiant Divine General was tightly controlled, yet his whole body still showed his unyieldingness and unwillingness.

He angrily said, “Hmph, expecting me to surrender is a dream! As Radiant Divine General, even if I die in battle, I will never surrender to you Netherworld people.”

“We would rather die than surrender too!”

“That’s right, do you think we are like those who have surrendered?”

“Those who have surrendered, you will be punished sooner or later.” These people who had not surrendered were full of anger in their hearts.

They hated the Netherworld people and the Spirit Realm people who had surrendered.

Inside their hearts, there was loyalty to their clans and faith in themselves.

On the contrary, the Spirit Realm people who had betrayed were not only betraying, when they heard these people reproach themselves, they also fought back: “Hmph, retribution? Survival is the key. What we are doing is recognizing the situation. You are all about to die, why so much nonsense?”

“Death? It’s not easy to die!” Longshan Ghost General sneered: “I have plenty of specially made Elixirs, I can’t just keep them without using them on people, how can I do that?”

When the conversation ended, Longshan Ghost General flipped his hand, and an Elixir appeared, ready to be used on someone.

The sight of this tightened everyone’s nerves, including Mingling Venerable.

“Yang Chen, what should we do now?” The Mingling Venerable asked subconsciously.

His strength was far inferior to Yang Chen’s, and now more so, he wanted to see Yang Chen’s thoughts.

Yang Chen stared at the scene before him without much hesitation and said, “At this point, we must fight a desperate battle and start a war.”

“How do we fight? Our combat power is too far behind these Netherworld people.” Mingling Venerable said with concern.

“If we don’t fight now, by the time these people who haven’t betrayed yet are killed, our chances of winning will be even lesser. If we act quickly now, we can still save these people. The only trouble is that Heaven Scourge Ghost General. His strength is too terrifying.” Yang Chen said.

Mingling Venerable’s tone was heavy: “Heaven Scourge Ghost General is extremely powerful. Nobody in our camp can stop him. He usually doesn’t take action, but when he does, we humans always end up at a disadvantage.”

“I will find a way to stop him. For now, let’s save these people first!” Yang Chen said.

Hua Wanru made a quick calculation: “Saving them now is the best choice.”

Hearing Hua Wanru say this, Yang Chen felt even more relieved.

Hua Wanru's Way of Calculation could estimate the auspiciousness of a choice.

Since it was the best choice, it meant that the choice was correct.

"Then let's take action." Mingling Venerable took a breath, making a decision.

Yang Chen looked forward and saw that just as Longshan Ghost General was about to inject an Elixir into a Spirit Realm powerful being, Space-Time Dao Intent suddenly flickered, along with Life and Death Dao Intent, like a sharp sword.

If it were any other Nirvana Stage person, under this double attack, they would have perished on the spot.

But this Longshan Ghost General was not simple. As a top-ranked person on the King of Hell List, he responded instantly.

"Huh?"

Longshan Ghost General detected that something was wrong and quickly retreated, but even so, it was still a bit late.

Yang Chen's Space-Time Dao Intent and Life and Death Dao Intent directly grazed, and Longshan Ghost General let out a scream, as his right arm was slashed off.

This frightened Longshan Ghost General, making him retreat in layers of shock, appearing quite flustered.

"Who's there?!" Longshan Ghost General's face was full of fear.

He responded in time, even so, he paid the price of an arm. He believed that if he hadn't reacted in time, he would have already been a cold corpse now.

“We are under attack!”

“An enemy attack!”

These Nirvana Stage Ghost Generals saw Longshan Ghost General get injured and knew that there was an enemy attack.

“Don’t panic, watch these captured Spirit Realm people carefully and don’t let them...” Heaven Scourge Ghost General sat among the crowd, and began to remind them.

However, before he could finish speaking, his pupils contracted, and his eyes were filled with deep shock.

Because, the group of Spirit Realm people they had captured had suddenly been transferred away.

They disappeared out of thin air, and when they appeared again, they had moved to the high altitude not far away!

And the one leading them was none other than Yang Chen and Mingling Venerable.

Mingling Venerable saw that the completely rescued Radiant Divine General’s eyes were wide open, almost unable to believe his own judgment and perception.

He had been wondering how Yang Chen would save Radiant Divine General and was even ready for these people to be harmed. After all, the Netherworld people were not fools. They would never let these people be taken away unharmed.

But now, this group of people had been transferred to this place.

Wasn’t this supernatural skill from Yang Chen?

Space-Time Dao Intent.

Temporal Transfer!!

This, was Yang Chen's unique skill. Using Temporal Transfer, he could achieve what others could not. Transferring these people to this place used Temporal Transfer.

With his current Nirvana Stage realm, accomplishing this was easy!!

Chapter 2422: Capture the King First\_1

Reaching the Nirvana Stage from the Enlightenment Stage is not only about the condensation of Dao Intent into Dao Intent Inscriptions.

Many Dao Intents will also undergo fundamental changes.

Space-Time Dao Intent is one of the most evident changes!

If he were still in the Enlightenment Stage, it would be difficult for the Space-Time Dao Intent to successfully transfer another object or person.

Because the power of Dao Intent is far from enough!

But things have changed now. He can directly use the Space-Time Dao Intent to teleport people around him. However, it will consume a lot of Dao Intent power.

It means that his Space-Time Dao Intent might not be able to reach its peak state in the upcoming battle.

Nevertheless, it's still a gain.

Because saving so many powerful figures has been a great help to him.

When people like Radiant God General see Yang Chen, then look at Soul Demolisher, they are stunned and incredulous.

“What happened? We didn’t die? We... we were saved?”

With a flick of Yang Chen’s finger, under the Space-Time Dao Intent, all prohibitions are shattered and dissipated.

This kind of ability leaves the group of people from the Netherworld almost dumbfounded, and their anger can be seen from their eyes alone.

Their nearly perfect plan would have remained unaffected even if reinforcements came to rescue these people, as the prohibitions binding them would not be easily broken.

As long as they weren’t released, those reinforcements who came would only face death themselves.

But now, their prohibitions, which they considered to be an almost perfect means, were so easily broken by Yang Chen.

Prohibitions crumbled like a joke under the Dao Intent’s effects, making them unable to put up a fight and worthless!

After being shocked, the Soul Demolisher hurriedly explained, “Everyone, this is the rescuer I found, Yang Chen. He’s here to save you.”

Seeing Yang Chen as the only rescuer, the Radiant God General didn’t have time to be surprised. The most important thing was that they were all rescued.

“Thank you, Brother Soul Demolisher, and our human friend. Your kindness and generosity will never be forgotten by us!” said Radiant God General.

“We, too, thank Brother Yang Chen.”

They looked at the Dao Intent Inscriptions around Yang Chen’s body, baffled.

“Brother Yang Chen’s Dao Intent Inscriptions are at least over seven thousand, even though I can’t see them all. But with my level, I can still identify some of them. Why didn’t I see Brother Yang Chen in the top team earlier?” Radiant God General asked in confusion.

If Yang Chen was already there, the situation wouldn’t have unfolded like this, right?

That was what made him feel uneasy.

Yang Chen replied, “Before, I was in the First Team. I accidentally encountered Soul Demolisher, and that’s when I came to this place.”

“What? How is it possible that someone like Brother Yang Chen was placed in the First Team? Isn’t that ridiculous?”

“Who arranged this?”

“It’s simply absurd.”

Everyone began to complain and curse.

Why would the teams need to be divided into strength-based tiers? It was because it helped strengthen a team.

As a result, the arrangement turned out to be wrong?

“This, that was how it was arranged before,” Yang Chen said truthfully.

“Hmph, once this matter is over, if I can survive, I will settle the score with that person!” Soul Demolisher vowed fiercely.

“You think you can escape? You really think you can get away?” Heaven Punishing Ghost General stood up angrily, leading many Ghost Generals with an imposing air.

Yang Chen and a group of godly generals all looked solemn.

“It seems that these people are not easy to deal with. Our best choice now is to flee from here,” someone suggested.

“Flee? Where can we run? If those militants didn’t surrender, we wouldn’t even have a chance for a fight, let alone escape. Now we don’t even have a path to retreat.”

“We have to gamble a fight,” said Radiant God General, assessing the situation clearly.

Soul Demolisher said, “Brother Radiant, the problem we face now is the Heaven Punishing Ghost General. He’s angry and will definitely make a move. It would be difficult for even three of us to stop him. He’s the key factor, as it’s difficult to resist him. We will undoubtedly lose if we don’t deal with him!”

Radiant God General fell into deep thought at this, as he was well aware of the situation.

The Heaven Punishing Ghost General’s power was too dominant, far surpassing each of them individually.

“I’ll use my life to delay the Heaven Punishing Ghost General for a while. I could buy some time at the very least. During that time, each of you should save yourselves and rely on your luck,” the Radiant God General said. Although he was somewhat unwilling, he knew it was the right choice for the greater good.

Seeing this, Yang Chen couldn't help but be moved.

These people seemed to be filled with righteous spirit. When it comes down to life and death, they still put the interests of the entire sect above their own. Unlike those traitors, they don't care for mere personal gains!

Just like Radiant God General, he was aware that if he didn't make this choice, he would still die, so he decided to face Heaven Punishing Ghost General and sacrifice his own life to buy hope for others.

Seeing this, Yang Chen no longer hesitated, saying, "Why don't I deal with the Heaven Punishing Ghost General?"

"Brother Yang Chen, how can you do this? With your Dao Intent, there's still quite a gap from eight thousand; facing the Heaven Punishing Ghost General could be more horrifying than helpful. It's better to leave it to me, I might buy more time," Radiant God General solemnly said.

You should know that at their level, a difference of a thousand Dao Intent Inscriptions is like a world apart. If there's a gap of two thousand, it's a scenario where one gets crushed.

"It's true that there is some difference in the number of Dao Intent Inscriptions between the Heaven Punishing Ghost General and me. But you've all seen the ability I just demonstrated. I'm confident that I can delay him for some time," said Yang Chen.

Hearing Yang Chen say this, the others exchanged glances and looked at him with a mix of surprise and suspicion.

Radiant God General couldn't stand in his way, "Well, since Brother Yang Chen has decided, let him deal with the Heaven Punishing Ghost General."

He was full of doubts in his heart, unsure if there was anyone other than himself who could resist the Heaven Punishing Ghost General.

While everyone was discussing, the Ghost Generals had already surrounded them.

“Hmph, have you finished discussing? Once you’re ready, you can all die.” The Heaven Punishing Ghost General roared in anger, and as his wrist shook, he controlled all the Ghost Generals, charging towards Yang Chen and the others.

Yang Chen also quickly made his move.

His target was the Heaven Punishing Ghost General?

To buy time?

That was just his excuse.

His real goal was to capture the leader, the Heaven Punishing Ghost General, first!

Chapter 2423: I’m Here to Kill You\_1

This was his initial thought!

Because, given the current situation, their manpower was simply not enough to resist the forces of the Netherworld. It could be said that there was no chance of victory.

The only way was to kill the strongest one. This was the best method for the weak to defeat the strong since ancient times.

Once Heaven Scourge Ghost General was killed, the overall situation would tilt in their favour.

Of course, Yang Chen was well aware of the extraordinary strength of Heaven Scourge Ghost General, so defeating him would not be an easy task.

But now, he had no other choice!

He had to confront him!

9,200 Dao Intent Inscriptions?

So what!

Yang Chen waved his long spear, and in an instant, he unleashed his Dao Intent Inscriptions in one strike, aiming straight for Heaven Scourge Ghost General.

Seeing Yang Chen coming straight at him, Heaven Scourge Ghost General sneered: "I had expected that you Spirit Realm fellows would choose one person to hold me back. I thought it would be that defeated Radiant Divine General who is fearless, but it turns out to be you. Hmph, you must be quite excited now, saving the people of the Spirit Realm, thinking you're their saviour? Kid, let me tell you, I've already prepared to step on you to death, but I didn't expect you to take the initiative to come here. Since that's the case, just obediently die!"

Heaven Scourge Ghost General roared angrily, and without waiting for Yang Chen to make a move, he displayed his Dao Intent Inscriptions and released the Netherworld Ghost Qi with a loud bang.

First Floor, Second Floor, Third Floor?

"Third Layer Netherworld Ghost Qi?" Yang Chen muttered to himself.

Let's test its power first!

Yang Chen swung his spear horizontally, instantly launching his Dao Intent Inscriptions and unleashing an attack.

However, to Yang Chen's surprise, the attack failed to break through the opponent's Netherworld Ghost Qi!

But it did force Heaven Scourge Ghost General to retreat two or three steps, which surprised the Ghost General, as he didn't expect that a casual strike from Yang Chen would force him back.

This had never happened before.

"Hmph, I thought that apart from Radiant Divine General, there is no one in the Spirit Realm who can force me to retreat. I didn't expect you, brat, to have this ability. Accept your death!" Heaven Scourge Ghost General unleashed the Netherworld Ghost Qi, which soared up and transformed into countless ghost creatures, tearing and entangling!

As an enormous amount of Netherworld Ghost Qi approached, Yang Chen's Dao Intent Inscriptions seemed somewhat overwhelmed.

Yang Chen backed off in layers, looking somewhat astonished.

No, that's not it.

It's more than just third layer Netherworld Ghost Qi!

He had seen the second layer Netherworld Ghost Qi from Moon Demon Ghost General, but not the third layer. So when he saw this stronger Netherworld Ghost Qi than the second layer, he subconsciously thought it was only from the third layer.

But after entering the Nirvana Stage, with his current strength, he should be able to easily break through the third layer of Netherworld Ghost Qi.

The only explanation was that this was not just the third layer of Netherworld Ghost Qi.

Could it be, the fourth layer?

He was surprised that his Dao Intent Inscriptions couldn't break through the fourth layer Netherworld Ghost Qi with one strike.

"The Heaven Scourge Ghost General is indeed formidable. 9,200 Dao Intent Inscriptions are incomparable to 7,000. It won't be easy for me to defeat him; in fact, I might lose!" Yang Chen thought to himself.

He did not back down, but instead felt a faint excitement.

Fighting Intent!

It is born from the possibility of failure!

Yang Chen's fighting intent was ignited, arousing the madman's fighting spirit within him!

He had met his true opponent. After entering the Nirvana Stage, he had finally met a true opponent! Yang Chen revealed a smile!

He hadn't used any of his true abilities before, but since this Heavenly Punishment Ghost General was so powerful, Yang Chen also planned to show his true ability.

"Kid, die!" The Heavenly Punishment Ghost General transformed the Netherworld Ghost Qi into a giant ghostly mouth, rolling towards Yang Chen's side.

At this time, Yang Chen was completely surrounded.

The Heavenly Punishment Ghost General licked his lips: "Kid, you're already dead."

"Really?" Yang Chen's mouth curled up.

He used a small-scale space-time Dao intent movement, appearing at another location!

“Huh?” The Heavenly Punishment Ghost General finally reacted and looked at Yang Chen behind him, whispering: “Space-Time Dao Intent?”

He had already surrounded Yang Chen, feeling confident in victory, but Yang Chen’s sudden shift was due to a space-time Dao intent fluctuation. He observed it very clearly, and as his pupils contracted, he became even more excited.

“Hahaha, if my body can obtain space-time Dao intent, how great would that be? I should be able to become a high-grade ghost creature smoothly, and at that time...” The Heavenly Punishment Ghost General laughed greedily: “Kid, die!”

Yang Chen faced the frenzied attack of the Heavenly Punishment Ghost General with a tense expression.

Nowadays, his space-time Dao intent entered a weakened state because he had just moved others, which caused his space-time Dao intent to be in a state where it couldn’t be used many times.

Using it just now was already at its limit.

Now, it was impossible to use space-time Dao intent again.

Therefore, his only choice was to fight the Heavenly Punishment Ghost General head-on and determine the victor.

But it was also good. At least the space-time Dao intent he used just now freed him from the surrounding Netherworld Ghost Qi.

Next, it would depend on whose skills were stronger.

“Heavenly Punishment Ghost General, do you really think I came here to delay you?” Yang Chen asked solemnly.

“No, I came to kill you!”

When the conversation ended, golden butterflies fluttered around him.

As these butterflies appeared, Yang Chen’s target locked onto the Heavenly Punishment Ghost General in front of him.

“Demon Transformation, unfold!”

“Thirty-Two Layer Golden Butterfly, go!”

Butterflies fluttered, and the golden spear shone.

The Heavenly Punishment Ghost General was initially unconcerned, but when he realized what happened, his Netherworld Ghost Qi was instantly cracked open!

The Fourth layer Netherworld Ghost Qi was broken!

“How is it possible? My Netherworld Ghost Qi that I cultivated for many years? Ahhh, catch him for me!” The Heavenly Punishment Ghost General became furious, controlling the Netherworld Ghost Qi to try to catch Yang Chen again.

Yang Chen turned around in an instant and pierced through with another spear: “Thirty-Eight Layer Golden Butterfly!”

Strike again!

The power was like a massive cannon, sweeping through. The Netherworld Ghost Qi that the Heavenly Punishment Ghost General initially held was no longer a match for him.

The Netherworld Ghost Qi crumbled layer by layer, forcing the Heavenly Punishment Ghost General to retreat in shock. In a moment of fear, he hurriedly activated his own Dao intent inscriptions!

“Slaughter Dao Intent!”

When this Dao intent was displayed, the Heavenly Punishment Ghost General’s murderous aura reached new heights. Seeing that the Netherworld Ghost Qi was no longer effective, he combined it with his Dao intent, and the claw in his hand slashed down.

“Kid, you have the ability to make me show off the 9,200 Dao Intent Inscriptions that I’ve cultivated for 500,000 years. However, it’s a pity that you’re still going to die!”

When the conversation ended, the Heavenly Punishment Ghost General shouted: “Slaughter Claw!”

Chapter 2424: Heavenly Condemnation Claw\_1

This claw fell, displaying the power coming from within the claw itself!

Heavenly Scourge Ghost General executed his Dao technique.

Not all of the traitorous people from the Spirit Realm had completely lost their conscience; although they chose to betray, they ultimately didn’t choose to help the Netherworld against the people of the Spirit Realm.

However, their situation had become extremely awkward now.

If the people of the Spirit Realm’s various clans win, what would their betrayal amount to?

Fortunately, the remaining people of the Spirit Realm’s team were not enough to support their victory, and the situation was clearly developing towards the Netherworld’s advantage. The Spirit Realm had little chance of winning.

Especially the battle between Yang Chen and Heavenly Scourge Ghost General, which had drawn many people's attention.

"This guy dares to fight against Heavenly Scourge Ghost General; isn't he overestimating his abilities?"

"Haha, I think he's just courting death. What can he win against Heavenly Scourge Ghost General with?"

"But this kid is impressive, to force Heavenly Scourge Ghost General to use the Slaughter Claw, he must be very powerful. Radiant Divine General was defeated by this Slaughter Claw every time. This claw combines the Netherworld Ghost Qi and Slaughter Dao Intent to create a peak strike, which is so strong that it drives people to despair."

"Yang Chen is bound to lose."

These people wouldn't benefit from Yang Chen winning, so they secretly laughed at him.

Many people from the Spirit Realm who were currently involved in the battle noticed the actions of the Heavenly Scourge Ghost General. When they saw him using the Slaughter Claw, they panicked.

Could Yang Chen withstand the Slaughter Claw?

The Slaughter Claw was indeed powerful.

But, it was far from enough to defeat Yang Chen!

At this moment, Yang Chen was prepared for a tough fight; how could he be frightened by the Heavenly Scourge Ghost General?

Slaughter Claw?

As Yang Chen twisted his body and gathered power for his Long Spear, it fell.

“Forty-Eight Layer Golden Butterfly!”

In an instant, this spear fell and collided with the Slaughter Claw.

With a rumbling sound, the power spread, shocking people in all directions, as the storm of divine power surged and took a long time to subside!

Crack! Crack! The gigantic claw in the sky unexpectedly began to shatter layer by layer. As it calmed down, it was crushed into pieces!

The Slaughter Claw was broken!

Heavenly Scourge Ghost General couldn't believe it.

“How is this possible!” Heavenly Scourge Ghost General's pupils contracted.

However, Yang Chen's offense did not stop there.

“Fifty-Four Layer Golden Butterfly!”

Strike again!

As Yang Chen entered the Nirvana Stage from the Enlightenment Stage, his Golden Dao Intent underwent a transformation. The number of Golden Butterflies he could now use was far beyond what he could in the Enlightenment Stage. Even his current fifty-four layers were far from his limit.

He wanted to use this to gauge the limit of the Heavenly Scourge Ghost General.

Heavenly Scourge Ghost General was shocked; his prided technique was broken, and Yang Chen hadn't even used his full strength. Now, Yang Chen turned and fired a series of shots again; how could he bear it any longer?

"I want your life!" The Heavenly Scourge Ghost General's eyes turned red, as he raised his claw again and struck.

"Annihilation Claw!"

Bang! A direct hit!

With the Annihilation Claw's extraordinary power, Yang Chen's shot didn't gain the upper hand; instead, he seemed to be at a disadvantage. This made the Heavenly Scourge Ghost General laugh, and he was planning to ridicule Yang Chen, but who would have thought that in a blink of an eye, Yang Chen twisted his body and struck again with his spear."61-Layer Golden Butterfly!"

Indulging in a frenzy, if the fight is not going well, just increase the number of Golden Butterflies. There is no need for much explanation, as his Golden Dao Intentions are currently more than enough.

When enhanced to the level of a 61-Layer Golden Butterfly, the Annihilation Claw can no longer handle it. With a loud boom, Yang Chen's Golden Butterflies completely shattered it.

This completely frightened the Heaven Scourge Ghost General.

He was able to accept his Slaughter Claw being broken, but even the Annihilation Claw was broken?

He started to feel fear and panic. At first, he thought Yang Chen was only trying to delay him. When he heard Yang Chen say that he was going to kill him, he felt disdain, sneered, and even ignored it, thinking Yang Chen was a madman talking in his sleep.

But now, he suddenly realized that Yang Chen seemed to possess the true strength. And he, it seemed, was being suppressed by Yang Chen?

The Heaven Scourge Ghost General was unwilling to admit that Yang Chen's strength was greater than his.

Would his 9,200 layers of Dao Intent lose to Yang Chen's 7,500 layers of Dao Intent?

"Absolutely impossible, human, you do have some abilities. But when I use this technique, you will undoubtedly be defeated. My slaughter has already been punished by the power of Heavenly Condemnation. I once used Heavenly Condemnation to study my own Dao technique. This technique is the Heavenly Condemnation Claw. Hahahaha when I strike with this claw, no one has been able to block this attack!"

The Heaven Scourge Ghost General's whole body boiled, and then he swung his claw.

All the Dao Intent Inscriptions on his body disappeared.

Immediately after, a huge claw tore through the void, black and bloody, carrying terrifying Dao Intent Inscriptions, and then locked onto Yang Chen.

In the midst of the tremors, the giant claw struck down ruthlessly.

Yang Chen sensed the power of the Heavenly Condemnation Claw and knew that the 61-Layer Golden Butterfly he just used would not be enough to resist it.

In that case, let's use an even stronger Golden Butterfly.

Yang Chen retreated and advanced again, "73-Layer Golden Butterfly!"

As he used this move, Yang Chen began to enter a state where the 73-layer Golden Butterfly was no longer as easy to ignore as it was at the beginning.

The 73-Layer Golden Butterfly directly exploded onto the Heavenly Condemnation Claw.

The power scattered, like the end of the world.

Many people saw this scene and couldn't believe their own eyes.

Heavenly Condemnation Claw, no one had ever seen the Heaven Scourge Ghost General use this move.

Now that they saw it, they felt the power and horror of the claw, and felt that there was no way to resist it no matter what.

The Radiant Divine General also swallowed nervously, knowing that he would not be able to withstand it if it were aimed at him.

How did Yang Chen manage to press the Heaven Scourge Ghost General to this point!

He had never seen the Heaven Scourge Ghost General use this move before.

And the other Netherworld Ghost Generals were looking at each other incredulously, as if they had encountered something unbelievable.

"This kid actually forced Heaven Scourge Sir's Heavenly Condemnation Claw out!"

Many Ghost Generals felt that they must have seen wrongly.

Because in their eyes, the Heaven Scourge Ghost General was invincible.

At the same time, the Longshan Ghost General, who also had an amputated arm, was not currently engaged in battle.

He watched the battle in the sky with a bad premonition.

He felt that the Heaven Scourge Ghost General this time seemed to have more bad luck than good...

He found this feeling somewhat absurd even now, as the Heaven Scourge Ghost General was absolutely invincible throughout the battlefield.

Moreover, the opponent was also the only super Ghost General close to High-Level Ghost Beings!

Chapter 2425: Hua Wanru Gets Captured\_1

He didn't think the opponent would fail.

But that bad premonition made him have to be prepared in advance for the opponent's defeat.

With that thought, the Longshan Ghost General began to search everywhere for things that might pave the way for the future. At a glance, he suddenly found a person in the corner?

"Hmm? A human woman from the Spirit Realm!" The Longshan Ghost General was slightly delighted.

The person he saw was Hua Wanru.

"She's also human, the woman brought by the man who fought the Heaven Scourge Ghost General. It seems that she has a deep relationship with the other side. If I can capture her..."

Thinking of this, the Longshan Ghost General let out a sinister smile.

...

Meanwhile, Yang Chen had also entered the final stage of his battle with the Heaven Scourge Ghost General at this time!

Whoever loses, dies!

What shocked Yang Chen was the power of the Heavenly Condemnation Claw. His 73-layer Golden Butterfly was released, but he was still at a disadvantage!

It was barely a match.

“Kid, die for me!” The Heaven Scourge Ghost General was now focused on killing Yang Chen, eliminating the threat to his own existence.

He now had the upper hand and suppressed Yang Chen’s Golden Butterfly.

He thought he would win.

However, Yang Chen turned his hand and stabbed out: “Eighty-layer Golden Butterfly!”

With increased power, the eighty-layer Golden Butterfly was unleashed, and the sky was filled with fluttering golden butterflies. As they spun, they collided with the Heavenly Condemnation Claw again.

This collision shook the heavens and the earth, tearing apart the spatial nodes and causing turbulence in all directions. A large number of spatial rifts appeared!

An eighty-layer Golden Butterfly was not something that could be defeated by a mere seventy-three layer Golden Butterfly.

But what alarmed Yang Chen was that even with the eighty-layer Golden Butterfly, it was still barely a match.

“This Heavenly Condemnation Claw is indeed quite powerful...” Yang Chen muttered to himself.

Since the eighty-layer Golden Butterfly wasn’t enough, it was time to use an even stronger one.

“Eighty-seven-layer Golden Butterfly!”

Yang Chen pierced through with another spear, unleashing even more ferocious power than before!

The eighty-seven-layer Golden Butterfly raised the power of the Golden Butterfly to a terrifying height. At this level, the Golden Butterfly finally had the power to compete with the Heavenly Condemnation Claw.

No, it was more than a match – it even surpassed it!

“Shatter!” Yang Chen’s eighty-seven-layer Golden Butterfly completely suppressed the Heavenly Condemnation Claw.

The Heaven Scourge Ghost General had been excited, thinking that he would win and that he could kill this opponent who posed a threat to him.

But reality was so cruel!

In just a moment, his Heavenly Condemnation Claw became increasingly difficult to resist against Yang Chen’s attacks.

Finally, Yang Chen’s attack broke through everything and destroyed his assault!

The Heavenly Condemnation Claw was completely shattered and reduced to rubble!

Meanwhile, Yang Chen’s eighty-seven-layer Golden Butterfly pierced through everything, and layer upon layer of golden butterflies struck his body like deadly weapons!

In an instant, the Heaven Scourge Ghost General’s blood was scattered, and he was pierced through by Yang Chen’s spear.

From then on, the Heaven Scourge Ghost General fell and his aura disappeared!

Yang Chen also held the Heaven Scourge Ghost General's body high in the sky and said coldly, "Heaven Scourge Ghost General has been completely slain by me. All of you Netherworld Ghost Generals, surrender now!"

When Yang Chen held up the corpse of the Heaven Scourge Ghost General, all the Netherworld Ghost Generals noticed! They looked at everything before them, hardly able to believe their own eyes!

"How is it possible!"

"Heaven Scourge Ghost General has been defeated."

"It must be fake, this is fake!"

The Ghost Generals couldn't accept it and completely lost their fighting spirit.

It must be known that the Heaven Scourge Ghost General was their king, and he was not just defeated but killed. The impact on morale was like falling from the peak to the bottom, a drastic change!

On the other hand, the morale of the various clans in the Spirit Realm soared to the extreme. Even though their fighting power was far inferior to the Netherworld's side, they shouted with excitement.

"Kill!"

"Heaven Scourge Ghost General is dead, hahaha, let's kill them all!"

They were originally about to collapse, but now their morale experienced a sudden surge, transforming into a roar! Chasing and killing those Netherworld Ghost Generals.

If those Netherworld Ghost Generals really resisted, the outcome would have been clear at a glance. The various clans of the Spirit Realm were not a match for these Netherworld Ghost Generals at all.

However, these Netherworld Ghost Generals had completely lost their will to fight. Under the shouts, they began to flee madly, without any intention of staying any longer.

With the defeat of the Heaven Scourge Ghost General, they were all panicked. The only thought left in their minds was to run away.

A group of Ghost Generals fled in disarray, looking utterly miserable!

Seeing this, Yang Chen also showed a pleased look!

However, his expression soon darkened.

“Hm?”

“Hahaha, human brat, don’t be complacent too soon. Look who your little lover is now in the hands of.” The one-armed Longshan Ghost General roared, his voice thunderous. He had captured Hua Wanru at some point, and with a pair of cold and frosty eyes staring directly at Yang Chen, he shouted aloud.

Everyone heard his words, and when they reacted, they didn’t know who the Longshan Ghost General had captured.

No one else knew, but how could Yang Chen not understand? He gazed at the Longshan Ghost General, and his expression became clouded with darkness.

“Hua Wanru!” Yang Chen showed signs of panic.

This scene was clearly seen by the Longshan Ghost General. Originally not sure about anything, he now laughed out loud: “Hahaha, as I guessed, this woman must have a deep relationship with you. If I were to kill her, wouldn’t you feel heartbroken?”

“What do you want?” Yang Chen asked, his hands behind.

Seeing that Yang Chen was indeed subdued, Longshan Ghost General licked his lips, smirked, and revealed his malicious intent.

And Hua Wanru, who had been captured by Longshan Ghost General, did not show the slightest panic. Instead, she looked at Yang Chen, and when she saw the worried look on his face, she revealed a gratified and satisfied smile.

It seemed that this was what she had been waiting for.

Yang Chen felt like cursing in his heart.

He was anxious now, but Hua Wanru seemed perfectly fine, just smiling and watching him. What on earth was going through this woman’s mind?

He was helpless now, just hoping for an opportunity to rescue Hua Wanru.

After all, the Longshan Ghost General could kill Hua Wanru at any moment.

“I must recover my Space-Time Dao Intent quickly!” Yang Chen gritted his teeth.

He tried his best to stall for time while staring at the Longshan Ghost General!

The Longshan Ghost General sneered: “I don’t want much. All of our Netherworld Ghost Generals must safely leave this place, and besides that, you have to cut off one of your arms!”

Upon hearing this, Yang Chen frowned.

“What, you don’t agree?” Longshan Ghost General shouted angrily.

“I agree!” Yang Chen’s expression darkened, and without much thought, he nodded immediately.

Chapter 2426: Inside the Universe Starry Sky\_1

When Yang Chen said those words, Hua Wanru’s sweet smile emerged.

That was the very phrase she had been waiting for.

Even if she were to die for this statement, it would have been worth it.

She took the risk to come to this place simply to find out her position in Yang Chen’s heart.

She was well aware that women often do meaningless things like this. It’s foolish, boring, and even makes her feel contemptuous.

But when it came to her turn, she didn’t expect herself to be doing the same, desperately using everything to confirm Yang Chen’s feelings.

Even if she knew only that she is in his thoughts, she would be happy.

“Yang Chen, you don’t have to bother about me!” Hua Wanru chuckled softly, “I said this before I came here!”

Her words were not said in anger.

She didn’t want to be a burden to Yang Chen. It would be the shame of her life. So she had told him seriously that he didn’t have to care about her when she came here.

“Nonsense!” Yang Chen glared at Hua Wanru, then waved his hand to issue an order: “Everyone, don’t attack these escaping Ghost Generals for now!”

A group of powerful Godly Generals looked at each other. Although they were somewhat unwilling to give up the opportunity at hand, seeing so many Ghost Generals that could be killed were about to escape, it was hard to be content.

But after all, Yang Chen was the key person in today’s events. Without him killing the Heaven Scourge Ghost General, such an opportunity would have been impossible. No one said anything more, and they gave up on chasing and killing.

“Very good.” Longshan Ghost General couldn’t help admiring his wisdom.

When others were still confused about the situation, he has very wisely anticipated it and made the choice to capture Hua Wanru.

Now, Yang Chen’s plan was perfectly disrupted, making him tamed like a restrained heavenly ruler.

“Now it’s time to cut off an arm.” Longshan Ghost General smirked.

Yang Chen felt helpless, raised his hand to cut off his arm.

Seeing Yang Chen doing this, Hua Wanru’s pupils contracted: “Yang Chen, what are you doing?”

Yang Chen didn’t respond but continued on his own.

“Yang Chen!” Hua Wanru could hardly believe her own eyes. No matter how much she joked in the past, she never thought that Yang Chen would actually sacrifice his arm for her.

For people at their level, arms could easily be recovered, but they couldn’t guarantee that they could remain at the peak level. Therefore, under normal circumstances, most powerful individuals treasured their own feathers.

Seeing Yang Chen actually cut off his own arm, Longshan Ghost General was shocked as well.

And then...

Suddenly, a cold wind blew past.

Longshan Ghost General was suddenly astonished. When he regained his senses, he felt his body becoming frozen.

In an instant, his body disintegrated and was completely destroyed by the Life and Death Dao Intent!

“Space-Time Dao Intent has finally recovered...” Yang Chen took a deep breath. He had thought it was too late, but just at the last moment before cutting off his arm, Space-Time Dao Intent was restored.

He immediately used Space-Time Dao Intent to seal Longshan Ghost General and then killed him completely using Life and Death Dao Intent.

All this happened in the blink of an eye.

Hua Wanru saw this and showed a sweet smile.

Yang Chen also heaved a sigh of relief.

However, the next moment, Yang Chen was suddenly startled and shouted, “Be careful!”

The body of Longshan Ghost General, which had already vanished, suddenly reassembled with a deep roar: “Humans, you dare to attack? I will make your little lover’s life worse than death. Ahhh!”

No one expected a miraculous comeback from the dead.

Immediately after, Longshan Ghost General seemed to have gone mad, directly shooting an Elixir into Hua Wanru's body and then ruthlessly slapped her.

Instantly, Hua Wanru was slapped out of the valley, flying towards the Space Fissure outside the valley.

"No!" Yang Chen's heart shook, watching Hua Wanru fly away. He had a bad feeling, and now seeing that Hua Wanru was actually hit into the Space Fissure, his heart was completely chilled.

If she were hit into the Space Fissure, it would be terrible.

It would be difficult for her to come back.

Seeing this, Yang Chen wanted to save her, but the Space-Time Dao Intent had not yet recovered, so he could only watch helplessly as Hua Wanru was forced into the Space Fissure.

In his anger, Yang Chen was determined to kill Longshan Ghost General.

But at this time, Longshan Ghost General sneered coldly: "Yang Chen, even if I die, I will make your little lover's life worse than death. Haha, the medicine I fed her is the same one that made all the clans in the Spirit Realm suffer a fate worse than death. She will suffer despair in the place outside the Space Fissure, where no one can comfort her, until her body finally bursts and dies in agony!"

Then, his body began to peel away layer by layer, returning to dust.

Yang Chen knew this was a last-gasp effort.

Just now, he had killed Longshan Ghost General, but being an object from the Netherworld, the Ghost General had means of countering death once and then falling completely.

And he had fallen for it.

Now, Yang Chen's mood plummeted to its lowest point.

"Yang Chen, accept fate with resignation," advised Mingling Venerable as he observed the situation.

The other Godly Generals also prepared to offer their condolences.

However, Yang Chen suddenly stood up, not bothering to explain or respond. Alone, he entered the Space Fissure.

This scene shocked everyone present, who felt a chill run down their spines at the sight of Yang Chen's determined action. Who would have thought he could be so decisive?

Yang Chen actually entered the Space Fissure directly? He entered this dangerous place to save Hua Wanru?

Isn't this fooling around?

"Wh-what?!"

Not too many people sympathized with Hua Wanru's death. They didn't know about her status as the Chosen One, thinking she was just a woman in the Comprehension realm.

But Yang Chen was different. He had the strength to kill the Heaven Scourge Ghost General. To enter the Space Fissure like this made their hearts sigh, feeling it was a great pity.

"This Yang Chen is too affectionate and righteous; he actually entered the Space Fissure just like that. If he goes in, it'll be difficult to come out, like ascending to the heavens."

"He can't possibly come back!"

Radiant Divine General clenched his teeth and said, "I can't believe this happened. I haven't even had time to repay Brother Yang Chen for saving my life!"

...

Yang Chen entered the Space Fissure without much thought.

After passing through the fissure, the scene before Yang Chen's eyes changed dramatically. It suddenly brightened, revealing a dazzling starry sky.

"Where is this..."

"Universe Starry Sky?" Yang Chen was astonished.

He didn't know why he suddenly blurted out those four words, but he suddenly thought of the place where the Star Space Beast claimed to have existed!

It was pitch-black here, and the sky was filled with stars, each one larger and more vibrant than the other.

Chapter 2427:: How to Leave This Place\_1

"These stars are not ordinary stars," Yang Chen murmured.

They were completely different from the stars he knew before.

He could sense life and laws from these stars when he perceived them with his soul...

With his current Divine Soul Realm, he couldn't detect too far a distance, nor could he delve deep into the stars to see what was inside.

However, he could discern some of it with his naked eye, combined with the fragments of what the Star Beast had told him previously.

Suddenly, he felt infinitely insignificant...

Even at his current Nirvana Stage, he was still the same in this Universal Starry Sky!

Yang Chen's heart trembled, and soon he recalled something.

"There's no time to worry about that now..."

He thought of Hua Wanru.

Hua Wanru was punched into the Space Fissure, and her life or death was unknown. How could he have time for these things?

Yang Chen tried to move.

"No way?" Yang Chen sighed. Ordinary methods were not viable for normal movement. The space here was special, and his Dao Intent's power would be greatly reduced here.

Because in the space he had been before, the rules were well established, but here it was different; the rules here seemed incomplete, or rather, the rules here were of a higher level than in the space he had been before.

What exactly was here, he couldn't say.

This place was very strange.

At a solemn moment, Yang Chen thought of using his Space-Time Dao Intent as the most straightforward method.

His Space-Time Dao Intent had now recovered somewhat, and Yang Chen planned to try using it as a means to move within this space!

Sure enough, it worked!

With this attempt, Yang Chen managed to move a distance forward.

Yang Chen's heart sank, just a little bit?

That meant if he used his Space-Time Dao Intent to find Hua Wanru, he would probably never return.

Yang Chen was caught in a dilemma, but in the end, he resolutely chose to find Hua Wanru.

He didn't know where Hua Wanru had been slapped, but according to Yang Chen's guess, it shouldn't be too far away.

That's because in such places, normal methods of movement were impossible, and the deviation between Hua Wanru's position and his would not be too significant.

Soon, Yang Chen showed a joyful expression.

He had found Hua Wanru.

"Hua Wanru!" Yang Chen exclaimed with joy.

Nowadays, Hua Wanru's cheeks were flushed, and her beauty was detached from the mundane. When she saw Yang Chen, she smiled sweetly, "Yang Chen, you really followed me here. I thought the divination symbol was fake, and you said you didn't have me in your heart. Hehe, everything you've done from the beginning indicates that you have me in your heart!" Hua Wanru said with a charming laugh, a satisfied look in her smile.

Upon hearing this, Yang Chen sighed, "You can still laugh. Our situation is very dangerous now!"

"If I tell you that I deliberately came here and that I was deliberately caught by the Longshan Ghost General, would you believe me?" Hua Wanru said softly with a smile.

"What? You did it on purpose?" Yang Chen was full of bewilderment.

"Would you blame me?" Hua Wanru giggled.

"You!" Yang Chen's head tingled with anxiety. He had been extremely worried, only to find out that Hua Wanru had done it on purpose. "You, you deliberately did these things. How are we supposed to go back now!"

"Relax, I've calculated it. Nothing dangerous will happen to us by doing this; we'll both return safely. Even if I put myself in danger, I won't let my little heart get hurt." Hua Wanru said sweetly.

Yang Chen's face darkened, "What's the purpose and significance of you doing these things? Just wanting to know if you're really in my heart?"

"My ambition is not just that big?" Hua Wanru laughed with quivering lips, as if scheming something.

Yang Chen's face was grave, "What else have you planned?"

"I've been poisoned. The Longshan Ghost General just now injected an elixir into me. You know what kind of elixir that is. You saw what happened to the Vast Supreme just now; you saw everything, right?" Hua Wanru smiled sweetly.

"You!" Yang Chen was completely dumbfounded at this point.

The poison was a kind that could arouse endless desires in people. The Vast Supreme took this poison, and his embarrassing state was seen by everyone. In the end, he died miserably due to not being able to fulfill his desires.

This poison was indeed extremely vicious!

Hua Wanru was now poisoned with it. He remembered just now and took a sharp breath, "You did this on purpose as well? You're playing with your life!"

"Do I not play with my life? Do I have a chance to be alone with you?" Hua Wanru smiled faintly, "Yang Chen, the poison is about to take effect. I have nothing but you on my mind. Either let me die or love me!"

Yang Chen was completely collapsed at this moment.

"Just a reminder, this place is called the Universal Starry Sky, a place not governed by the Heavenly Dao. Although Zhang Xuelian is a Chosen One, she can only use the power of the Heavenly Dao to calculate places where the Heavenly Dao has jurisdiction. Here, Zhang Xuelian definitely can't calculate. That means, anything you and I do here, Zhang Xuelian won't be able to calculate." Hua Wanru said with a refreshing smile, her enchanting eyes and twisting waist at this moment.

Yang Chen sighed upon hearing this, feeling like he was really going to fall into Hua Wanru's hands.

When he came back to his senses, Hua Wanru had already hooked his neck and started acting greedily and aggressively.

The drug had taken effect.

Yang Chen was a little scared of this enchanting woman and her choices.

She was straightforward, crazy, and extreme!

Faced with Hua Wanru like this, Yang Chen was mostly helpless and out of ideas. He now seemed like an army that had been tricked, with no choice but to go along. Was he really going to watch Hua Wanru die in front of him like this?

Obviously, he couldn't do that.

Yang Chen sighed lightly and finally lost his patience. Since Zhang Xuelian couldn't calculate anything here, he would just deceive himself for once.

Yang Chen forcibly removed Hua Wanru's clothes, and they both became honest with each other. In the end, he took a deep breath and entered that warm, familiar place once again.

Hua Wanru seemed to have gained immense satisfaction, gradually calming down.

Then the two of them went crazy together again!

In the Universal Starry Sky, the two merged again.

The storm subsided, and Yang Chen had already left the enchanting and fascinating body, gradually calming down.

Now, Hua Wanru's face was flushed, as if she had gained enormous satisfaction. She gradually put on her clothes, covered her mouth, and smiled.

"I told you, Yang Chen, I'm going to have you, completely and utterly. Now, I've done it again." Hua Wanru laughed, her smile filled with pride and satisfaction!

Yang Chen helplessly said, "For now, let's figure out how to escape this place first. That's the most important thing!"

Chapter 2428: Emotional Evolution\_1

Yang Chen couldn't help laughing and crying at the same time, as this woman was still thinking about successfully getting him for herself.

And she was still complacent and proud? It's simply maddening.

He was worried about the current situation and couldn't help but feel distressed.

Hua Wanru carelessly said, "Anyway, my divination didn't show any life-threatening danger for the two of us, so I don't see what there is to worry about?"

"..."

Yang Chen said helplessly, "So you think nothing can go wrong?"

"Yes, I trust my divination," Hua Wanru smiled charmingly, "By the way, don't be in a hurry to go back. We still have plenty of time together here. Isn't it too early to go back?"

Yang Chen said irritably, "Alone time? What are you thinking about every day?"

"I'm thinking about you," Hua Wanru giggled.

Yang Chen's expression grew somber, and he sighed helplessly.

"Don't sigh, I'm really thinking of you. When I came to this spatial node, I cast a divination for myself. It showed that we'd have a chance here, so I came. I didn't expect it to be true," Hua Wanru laughed flirtatiously.

Yang Chen took a deep breath, wondering how he got tangled up with Hua Wanru.

"By the way, I'm planning to go to the Southern Realm next," Hua Wanru said.

“Going to the Southern Realm? That’s absurd! What are you doing there?” Yang Chen was puzzled.

“Guess!” Hua Wanru grinned.

Yang Chen sighed bitterly, “How could I possibly guess?”

Hua Wanru chuckled, “Because my divination shows that we’ll have another chance in the Southern Realm.”

“What kind of divination did you cast?” Yang Chen was dumbstruck.

“What do you think I would cast? Do you think I want to? If I were like Zhang Xuelian, I wouldn’t bother casting these useless divinations every day,” Hua Wanru sighed, “I’m not like Zhang Xuelian, she doesn’t have to fight for her love. She already has the person she wants. What about me? I have to strive.”

“Do you think that having another romantic encounter with you here would make you mine? After this, once we leave the spatial node, you’ll still be thinking of Zhang Xuelian. Will you still have me in your heart? Will anything like today ever happen between us again?”

Hua Wanru laughed at herself, “I’m afraid by then, you’ll probably have thrown me far away.”

Yang Chen fell silent. He was indeed quite conflicted about the situation between Hua Wanru and Zhang Xuelian. Even now, he still couldn’t find an answer, but he definitely leaned towards Zhang Xuelian.

Seeing Yang Chen’s thoughtful expression, Hua Wanru knew her speculation was correct: “That’s why I’m going to the Southern Realm.”

“You!” Yang Chen took a deep breath, unable to stop Hua Wanru and simply chose not to.

Now, he had recovered some spacetime Dao Intent in his body.

He grabbed Hua Wanru and planned to return to the original space.

With the spacetime Dao Intent activated, he started to move.

However, just as he initially thought, the spacetime Dao Intent could only achieve simple movement and the range was extremely limited. Moreover, he was also carrying another person with him. It was nearly impossible to return to the original space!

This made Yang Chen's scalp tingle with anxiety.

"You can try to get those two dumb bears that received the Star Space Beast's inheritance out. Since they've received everything from the Star Space Beast, they should now possess the unique divine power to travel through the Universe Starry Sky!" Hua Wanru reminded.

Upon hearing this, Yang Chen suddenly came to his senses, slapped his forehead and exclaimed, "How could I have forgotten about that!"

He was quite helpless. Hua Wanru's words made sense.

The Star Space Beasts were originally native to the Universe Starry Sky, which was a group that could freely travel through the stars.

Bear Elder One and Bear Elder Two, who had now received everything from the Star Space Beast, naturally possessed this ability as well. Yang Chen had simply forgotten about it in his haste.

Upon realizing this, Yang Chen immediately released Bear Elder One and Bear Elder Two.

"Huh, where are we? It feels so familiar." Bear Elder One and Bear Elder Two scratched their heads, feeling as if they had been here before.

"But we've never been here before," the two silly bears said again.

Yang Chen could guess what was going on; it was probably related to the abilities inherited from the Star Space Beast. It was normal for the two giant bears to have this idea now.

“Boss, what do you want us to do?” Bear Elder One asked first.

“Can you move within this Universe Starry Sky?” Yang Chen asked.

Bear Elder One and Bear Elder Two didn’t know what the Universe Starry Sky was, but they still wiggled their butts, walked forward a few steps and back a few steps.

“Boss, we can move!”

“Yeah, I twist and I twist again, I can move.”

Seeing that the two silly bears could even dance in this place that others found difficult to walk, Yang Chen was dumbfounded.

“Good, you two, take me and Hua Wanru out of here. Do you see the light ahead? Pass through it, enter it, and return to the original spatial node!” Yang Chen said.

“Alright, no problem,” Bear Elder One and Bear Elder Two agreed grinningly, carrying Yang Chen and Hua Wanru and flying back all the way.

Yang Chen couldn’t help but ask, “Hua Wanru, do you know anything about this Universe Starry Sky?”

“I don’t know much, I only know that it’s a very unique place not ruled by the Heavenly Dao,” Hua Wanru answered honestly.

Yang Chen nodded and began to understand.

At the same time, in the spatial node.

Everyone sighed at the fall of Yang Chen and Hua Wanru, especially the loyal and righteous divine generals like the Radiant Divine General, who were furious.

After all, their lives were saved by Yang Chen.

If it weren't for Yang Chen, they might have fallen here by now. All of this was thanks to him.

But now, Yang Chen had entered a place from which he could never return, right in front of them. How could they not be angry?

"It's all these guys' fault!"

A godly general pointed at the betraying clans of the Spirit Realm.

The ghost generals had left, but these betraying clans of the Spirit Realm hadn't. They stayed here, shivering and apprehensive. Now, looking back, they deeply regretted their actions. If they had known Yang Chen would come the moment they betrayed, they would have persisted a little longer, even at the cost of their lives.

But now? Their reputation was gone, their gains became losses. It was like trying to steal a chicken but instead losing the rice they brought with them.

"If it weren't for these people's betrayal, Yang Chen wouldn't have died," the Radiant Divine General roared angrily.

If these people hadn't betrayed them at that time and had helped them instead, with their numbers, they would have definitely had the chance to stall the Longshan Ghost General. As long as the Longshan Ghost General was held back, Hua Wanru wouldn't have died!

Similarly, Yang Chen wouldn't have sacrificed himself for Hua Wanru!

The feelings between Yang Chen and Hua Wanru caused many people's hearts to waver.

Chapter 2429: Punishing the Traitor\_1

What righteous emotions!

"I say, just kill all these traitorous bastards!" A Godly General roared.

These traitorous clans of the Spirit Realm now looked embarrassed, glancing at each other as if they had reached a consensus.

"Kill us? Do you really think you can kill us? Traitors? Haha, if we kill you all today, who will know we betrayed?" A Nirvana Stage expert from the Iron Spirit Clan stepped forward.

"You!" The Radiant Divine General and others were utterly unprepared for this way of thinking.

Those traitorous Nirvana Stage experts now seemed to think it's completely possible, their faces becoming even more disgusting: "Haha, what? Can't accept it? Humph, you forced us into this. Want to kill us? Don't even consider your current strength. Do you really think you can kill us? You just consumed a lot of energy, while we are different. We are still in our peak state, and our numbers far exceed yours!"

"As long as we kill you, and return alive, who will know the truth?"

"Who will know?"

These traitorous Nirvana Stage experts felt more and more reasonable as they spoke.

They were initially quite scared of the punishment from these people, but now they realized there was no need to fear.

At this point, the Radiant Divine General and others were furious, their lungs about to explode. They were originally planning to punish these people, but now in the blink of an eye, they were the ones being targeted.

The key was, what these traitorous people said wasn't wrong.

They didn't think so much just now, they didn't expect these traitorous people to be so shameless.

If there was a real battle, they had just exhausted too much, and their strength couldn't be applied to their peak state, even if their number of Godly Generals was more than the other side. But the other side was jumping around, how to fight?

"You, you are simply shameless!" The Mingling Venerable roared loudly.

"Haha, shameless? So what if we're shameless? When we go out today, who will say we're shameless? At that time, we will rewrite history, the Radiant Divine General and others will all die in battle, and we will defy the public's expectation, slaying a large number of Netherworld Ghost Creatures, thus achieving victory!"

"When we go back, we will be heroes!"

The smiles of these traitorous Nirvana Stage experts became even more wild, as if they had already imagined the beautiful outcome of things reaching that level!

"Let's do it now." A group of traitorous Nirvana Stage experts grinned, seemingly prepared to take action.

The Radiant Divine General and others were fuming, but they had no means to retaliate and didn't know what method to use to fight back.

"How could this happen?"

“Our strength now, compared to these disgusting traitorous bastards, is unclear in a fight.”

However, just when people were angry, a sudden flash of light emerged, and two giant bears surged out from the void!

These two giant bears were the Black Mountain Black Bears.

And in the arms of the Black Mountain Black Bears were the grieving Yang Chen and Hua Wanru.

The return of Yang Chen and Hua Wanru left everyone dumbfounded, feeling as if their common sense was being challenged by Yang Chen one after another!

“This, this!”

People didn't not want Yang Chen to return, but they felt it was incredible, like seeing a ghost.

Yang Chen and Hua Wanru, seeing the stunned faces around them, also smiled slightly.

“Boss, task completed. Can we go back to the Demon God Tower and play now?” Bear Elder One and Bear Elder Two said.

“You two, go back and play.” Yang Chen really had no choice with these two bears and replied.

“Alright, we're off.” Bear Elder One and Bear Elder Two quickly entered the Demon God Tower, disappearing in the blink of an eye.

Looking at everyone again, they were now all startled and said, “Yang Chen, you, you really came back.”

“It's great.” The Mingling Venerable laughed heartily.

The Radiant Divine General also came forward, "Brother Yang Chen, you are truly powerful. It's great, I thought we would have no chance to repay you. Fortunately, fortunately, you came back alive."

"Haha, Brother Yang Chen, a good man has Heaven's protection. Your return alive is the will of the Heavens!"

"Brother Yang Chen, it's truly amazing. If it were anyone else, they would have perished within the spatial turbulence long ago."

"I've worried everyone." Yang Chen smiled warmly.

Yang Chen's return now made these Godly General experts laugh heartily, but the traitorous Nirvana Stage experts couldn't be happy at all.

They watched the unbelievable scene before them, their legs trembling with fear.

Are you kidding? Wouldn't their legs be soft?

They were very clear that the man in front of them was the true king who changed everything. His appearance defeated the strongest Heaven Scourge Ghost General and saved everyone!

He was an absolute king, who alone could reverse a battlefield!

The reason they were so unscrupulous just now was precisely because they knew very well that Yang Chen had died in battle.

But now...

Yang Chen was clearly alive.

The Radiant Divine General sneered, "Brother Yang Chen, since you are back, let's discuss how to deal with these traitors now!"

Yang Chen nodded, smiling, "I just heard these traitorous Nirvana Stage experts talking about taking action against everyone?"

"Yang Chen, my friend, you don't know how disgusting the faces of these traitorous guys are. Humph, they did something wrong themselves, but they want to turn the tables. Their faces really surprised me. If you hadn't returned in time, we wouldn't know how to handle it." Mingling Venerable said.

Yang Chen waved his hand and smiled, "It doesn't matter, I'm back now, aren't I?"

He stepped forward.

Just one step made these traitorous Nirvana Stage experts tremble all over, and the haughty gesture of wanting to take action earlier completely disappeared, no longer having any such thoughts or ideas!

"You guys just wanted to take action? Something about you guys being heroes?" Yang Chen smiled.

A group of traitorous people didn't know who cried out.

"Yang Chen, you also just finished a battle and consumed a lot, right? Otherwise, how could you almost fail to save your woman? Don't pretend to be a tiger here, I don't..."

He just wanted to say I'm not afraid of you.

But the next moment, his body exploded with a bang!

No one knew what happened, but it all showed Yang Chen's mysterious strength.

"Everyone, it's okay for me to kill a traitor, right?" Yang Chen said.

“Of course!” The Radiant Divine General directly replied.

Hearing these words, the other traitorous people could no longer hold on, falling to their knees one by one.

“Yang Chen, we were wrong, please spare us, we really were wrong.”

“Yang Chen, we really were wrong, please spare us!”

Now these people cried miserably, their intestines turning blue with regret, constantly crying and begging for mercy.

Chapter 2430: Shouldn't I Deserve It?\_1

Seeing these people admitting their mistakes, Yang Chen's heart was filled with frustration.

If these traitors hadn't just turned against the godly generals, he really wouldn't have killed them today.

But now, things were different.

Yang Chen waved his sleeve, and space-time Dao Intent solidified, imprisoning all these people on the spot.

These traitorous people were completely frozen in place, unable to move.

On the other hand, Yang Chen stood there with his hands behind him, saying, “Everyone, I have captured them all. You deal with them as you wish.”

“Hahaha, well done, let me take care of them.” The Radiant Divine General couldn't wait any longer. He made his move and killed several traitors that angered him the most with a bang.

The others also took action one after another, looking at these traitors with deep hatred.

In the blink of an eye, all the traitors fell and were killed by the Radiant Divine General and the others, much to their delight.

These traitors naturally deserved death, and no one would have pity for them.

Once they had killed all these people, everyone felt much better.

Yang Chen, we really owe you this time. If it weren't for you, we might not only have been defeated by these people, but our reputation would also have been greatly damaged," said the crowd through gritted teeth.

Yang Chen waved his hand and said, "It's not a big deal, just a small effort."

"Hahaha, we can consider this a victorious battle, and there's nothing better than surviving and returning. There are a lot of spatial fragments here. We can distribute them and hand them in when we get back," said the Radiant Divine General with a hearty laugh.

Yang Chen and the others nodded, making some distribution of the space fragments.

Yang Chen was no longer too eager for the space fragments, as he already had 200,000 of them and didn't plan to ask for too many.

However, these people were all grateful to him, so they gave him as many as 80,000 out of the nearly 180,000 space fragments collected here.

Yang Chen secretly laughed at the unexpectedly acquired space fragments, his heart overjoyed.

With these additional 80,000 space fragments, he could completely use them to cultivate the Space-Time Dao Inscriptions, which would undoubtedly make great progress.

After finishing the distribution, the crowd returned to their camp together.

With even the Heaven Scourge Ghost General dead, the Netherworld's ghost generals did not dare to do anything. This side of the humans emerged as the great victors, and the top-ranked team members were extremely happy.

Now Yang Chen, the Radiant Divine General, and Mingling Venerable had all come to the Merit Hall, intending to hand in the space fragments in exchange for merit points.

After all, they had collected quite a lot of spatial fragments this time, and handing them in would undoubtedly be a joyful occasion.

However, as the saying goes, enemies often cross each other's paths.

Just as Yang Chen arrived, he bumped into True Pattern, who had assigned him to the Sky Canine Supreme last time.

True Pattern obviously didn't care about Yang Chen at all. He glanced at Yang Chen and immediately dismissed him. In his eyes, what was Yang Chen worth?

His first glance was at the Radiant Divine General and Mingling Venerable.

Yang Chen?

He must have been a servant or follower that the two of them had brought with them.

The Radiant Divine General was one thing, but True Pattern was more interested in Mingling Venerable.

While the Radiant Divine General was undoubtedly powerful, True Pattern could not gain any benefits from him. But Mingling Venerable was different.

Why?

Because they were both from the Earth Fiend Clan.

Moreover, Mingling Venerable worked for the royal family, which was the one thing True Pattern cared about the most. After all, his own background was just a Celestial Expert from the Earth Fiend Clan and not a member of the Earth Fiend royal family.

In the Earth Fiend Clan, the royal family was above all. If you were just a Heavenly Venerate and not a member of the royal family, you would still have to show respect to the Nirvana Stage members of the royal family.

As for the princes and the like of the royal family, their status was even more noble.

Mingling Venerable was exclusively a servant of the Earth Fiend prince, and his status was much higher than True Pattern's.

So as soon as he saw Mingling Venerable, he put on an ingratiating smile and said, "Mingling Venerable, you must have gotten some space fragments this time."

"Of course, True Pattern, count for yourself. I've got quite a lot of space fragments this time," said Mingling Venerable with a smile on his lips.

True Pattern took the storage bag respectfully, counted carefully, and hastily said, "Mingling Venerable, with so many space fragments, you are truly the pride of our Earth Fiend Clan! There are more than 30,000 pieces, and you are definitely capable of competing for the top three this time."

"Hahaha, True Pattern, you sure know how to talk," Mingling Venerable said, obviously enjoying the flattery, and laughed heartily.

True Pattern was quite skilled in flattery. He said a lot of flattering words, making Mingling Venerable highly satisfied.

Yang Chen secretly laughed to himself, seeing that True Pattern was indeed quite skillful in this area. Otherwise, he wouldn't have been able to get a position in a place like this relying on his connections.

Next up was the Radiant Divine General.

"Hehe, now that we're done with Mingling, let's check out mine," said the Radiant Divine General.

True Pattern quickly recorded the merit points, and then hurriedly took the Radiant Divine General's storage bag and began to inspect it.

Upon inspection, True Pattern was also dumbfounded and immediately flattered, "Radiant Divine General, you actually have even more space fragments – over 40,000! With you two on our side, it truly is a blessing for our Spirit Realm."

"You flatter me? Mingling, this guy from your Earth Fiend Clan sure knows how to talk, haha," said the Radiant Divine General with a hearty laugh. "But this time, I collected not only space fragments but also the corpses of three Nirvana Stage ghost generals. These three are all on the Netherworld King List and can be exchanged for a lot of merit points. Take a look."

He was quite pleased with True Pattern.

True Pattern hurriedly stepped forward and checked the three ghost generals.

"Although they are all ranked near the bottom, each of them has remarkable combat power and can be exchanged for 18,000 merit points. Radiant Divine General, you are truly the number one Nirvana Stage expert in our Spirit Realm. Now your merit points are well over 100,000, securing first place," True Pattern said.

The Radiant Divine General laughed and replied, "Hehe, I don't dare to claim the title of the number one expert. There are others in the Spirit Realm who are undoubtedly more powerful Nirvana Stage experts than me."

True Pattern continued to flatter for a while.

Seeing the right timing, Yang Chen also stepped forward and said, "You should count mine as well. I got the corpses of a few Netherworld King List ghost generals!"

Hearing this, True Pattern couldn't help but sneer, "Just by you? You got the corpses of Netherworld King List ghost generals?"

Yang Chen knew that True Pattern looked down on him, and said helplessly, "How is it that I shouldn't have gotten these ghost general corpses?"
