

## Supreme MK 2431

### Chapter 2431: Is This Just A Little?\_1

True Pattern sneered, "With your abilities? Killing powerful ones on the Netherworld King List? Yang Chen, don't tell me you really think that by coming here with Radiant Divine General and Mingling Venerable, and being a mere follower, you can compare yourself to these two supreme beings?"

"True Pattern, what do you mean?" Mingling Venerable's expression darkened, not knowing what True Pattern was getting at.

True Pattern thought Mingling Venerable was just confused and waved his hand dismissively, "Mingling Venerable, don't mind it. This boy surnamed Yang likes to boast the most. Last time, he told me he was a possessor of more than six thousand Dao Intent Inscriptions and wanted to join the First Team? Results? He couldn't produce any evidence, and even the Heroic Order he took out was expired! Haha, if it wasn't for the Sky Canine Supreme demanding a powerful one for the First Team, I would have sent him straight to the Third Tier Squad. He's talking about killing powerful ones on the Netherworld King List, I think he's just taken the wrong medicine."

"I think you're the one who's taken the wrong medicine!" Mingling Venerable roared angrily.

The Radiant Divine General's expression also darkened.

As they were both extremely grateful to Yang Chen,

Yang Chen saved their lives and, in their eyes, he was a great benefactor, a benefactor indeed!

Now, True Pattern was actually discrediting Yang Chen.

Moreover, the most crucial point was that Mingling Venerable only just found out now, that the one who had arranged for Yang Chen to join the First Team back then was this True Pattern!

Radiant Divine General voiced angrily: "Was it you who arranged for Yang Chen to join the First Team?"

“Is there a problem with that?” True Pattern didn’t understand what was happening.

“You scoundrel!” The Radiant Divine General slapped True Pattern, sending him flying with blood spraying out.

True Pattern was completely stunned by the slap and didn’t dare to resist the Radiant Divine General while getting up, “Radiant Divine General, what do you mean by this?”

“What does it mean? True Pattern, do you know that because of your choice, we have lost so many powerful ones on the battlefield?”

Radiant Divine General was furious, and his anger had a reason.

It should be known that if Yang Chen had been there at the time, and if they had fought together, even if they had fallen for the Netherworld’s trick, they wouldn’t have suffered such heavy losses.

However, Yang Chen was sent to the First Team instead.

If it weren’t for such a blind person, would they have lost so many people? Would they have fought such a thorough defeat?

It was all because of True Pattern.

His fondness for True Pattern just now vanished completely, leaving only anger. So many lives, so many powerful ones, can you settle this by just saying a few nice words, True Pattern?

True Pattern hadn’t yet grasped what was going on and asked in amazement, “But, but didn’t Yang Chen just enter the Nirvana Stage?”

“Still talking back?” Mingling Venerable’s anger flared up, grabbing True Pattern and growling angrily, “If it weren’t for Yang Chen, both the Radiant Divine General and I would have perished! You say he only

just entered the Nirvana Stage? Hmph, let me tell you, Yang Chen indeed possesses more than six thousand Dao Intent Inscriptions, not just six thousand! He has seven thousand five hundred Dao Intent Inscriptions!”

At these words, True Pattern slumped to the ground, his eyes filled with complete shock and astonishment.

What, Yang Chen actually has seven thousand five hundred Dao Intent Inscriptions?

What he had said to him before was true? Not a single lie?

What the hell is going on?

Mingling Venerable’s expression was cold, “True Pattern, I will report your actions to the Royal Family when I return, and all your merit points in this battlefield will be nullified!”

“Mingling Venerable, please don’t, please!” True Pattern panicked.

His purpose for staying on the battlefield was to gain merit so that he could receive better treatment in his sect.

But now, with his merit points nullified, wouldn’t that mean he wasted his time on the battlefield?

“Let me tell you, nullifying your merit points is already quite merciful. Because of your incompetence, Yang Chen, my friend, wasn’t at the most crucial battle site at the right time, which led to us lacking Yang Chen’s supreme combat power, causing us to lose so many people. It was all because of your incompetence!”

Mingling Venerable roared with rage, then said, “Now, count Yang Chen’s Merit Points carefully.”

True Pattern didn’t dare delay, and with tears in his eyes, quickly looked at Yang Chen.

Yang Chen didn't show any mercy.

Although he hadn't revealed everything about himself back then, it was indeed True Pattern who had underestimated him, and he had no one else to blame!

Now that True Pattern wanted to help him count, Yang Chen didn't bother with idle talk and took out the corpses of the Nirvana Stage Ghost Generals he had collected.

True Pattern was also curious at heart, just what kind of powerhouse was Yang Chen?

As he wondered, he took a look and immediately took a deep breath, his eyes filled with nothing but shock and disbelief from deep within.

This...

"Heaven Scourge Ghost General!"

Ranked First Ghost General on the Netherworld King List.

Gulp!

Swallowing his saliva, True Pattern felt like he was watching a mistake. Just who was Yang Chen to have even killed Heaven Scourge Ghost General?

But the fact was, not only had he killed Heaven Scourge Ghost General, but also many other ranked Ghost Generals.

"These Nirvana Stage Ghost General corpses on the Netherworld King List, along with the Heaven Scourge Ghost General, can be exchanged for 83,000 merit points!" True Pattern reported honestly.

"You didn't undercount, did you?" Mingling Venerable asked.

“I, I wouldn’t dare...” True Pattern hurriedly replied, feeling extremely wronged.

“As well you shouldn’t,” Mingling Venerable coldly said, and True Pattern was left with no spirit to talk back.

True Pattern wanted to cry now, believing he was crazy to have provoked Yang Chen back then. If he hadn’t provoked Yang Chen and instead tried to befriend him, maybe Yang Chen would have put in a good word for him with Mingling Venerable, and he could even climb onto Mingling Venerable’s high branch.

Now it was over; it was already good that Mingling Venerable didn’t hold a grudge against him.

True Pattern could only try his best to please Yang Chen even more.

Still, the 83,000 Merit Points did genuinely surprise Mingling Venerable and Radiant Divine General.

“So many merit points!”

Radiant Divine General couldn’t help but gasp, as Yang Chen’s merit points were almost about to surpass him.

But that was also reasonable, after all, Heaven Scourge Ghost General alone was worth 50,000 merit points. However, overall, his first place shouldn’t be shaken, so there was no problem.

But the next moment, Yang Chen took out the storage bag full of spatial fragments and handed them directly to True Pattern.

“I also have some spatial fragments here, you should count them as well,” Yang Chen said calmly.

True Pattern grinned foolishly, immediately took them, and started counting.

Counting these, True Pattern almost sat down on the ground in shock.

Is this just a little?’

Chapter 2432: 200,000!\_1

Is this... a full 200,000 spatial fragments?

For real?

Yang Chen is really playing a joke on him.

Mie Ling Zun Zhe and Guanghai Shen Jiang didn’t know how many spatial fragments Yang Chen had handed over; they only saw Zhen Ge’s expression change dramatically and thought he was going to cause some trouble.

Mie Ling Zun Zhe said displeasedly, “How difficult is it to tell how many spatial fragments there are?”

“Two, two hundred thousand!” Zhen Ge said with trembling voice.

“What!”

Mie Ling Zun Zhe and Guanghai Shen Jiang’s pupils shrank.

“Is this true or false?” Guanghai Shen Jiang looked over.

Mie Ling Zun Zhe also said seriously, “Zhen Ge, I didn’t ask you to underestimate it, nor did I ask you to exaggerate it, right!”

Zhen Ge aggrievedly said, “I, I’m telling the truth!”

Mie Ling Zun Zhe and Guanghui Shen Jiang exchanged glances, feeling a bit unrealistic!

Seeing that the two didn't believe him, Zhen Ge had no choice but to take the storage bag and let the two of them see for themselves.

With this look, Guanghui Shen Jiang and Mie Ling Zun Zhe couldn't help but take a breath, their bodies trembling slightly.

"This, this!"

"Yang Chen, my friend, the things that have happened to you are truly unbelievable." Mie Ling Zun Zhe said with a bitter smile, thinking that Yang Chen was really a thoroughbred demon.

Two hundred thousand spatial fragments, something that could change the entire spatial node pattern, had been collected by Yang Chen alone.

Yang Chen modestly said, "Brother Mie Ling, you overpraise me. I'm just lucky."

"Luck is also a kind of strength. Two hundred thousand spatial fragments, this is really great! With this number of spatial fragments, we can end the battlefield competition now!" Guanghui Shen Jiang suddenly thought of something and said excitedly.

Mie Ling Zun Zhe also thought of this and said excitedly, "That's right, I almost forgot about it. The spatial fragments we collected by ourselves, plus these 200,000 spatial fragments, will be more than enough to make up 500,000 fragments. With so many spatial fragments, we must now mobilize everyone to leave the spatial nodes quickly and wait for the Celestial Experts to destroy this space!"

"In that case, these spatial fragments must be personally handed over to those Celestial Experts!" said Guanghui Shen Jiang.

"I think so too!" Mie Ling Zun Zhe nodded.

Zhen Ge also breathed a sigh of relief. More than 200,000 spatial fragments, handling this amount, he really didn't dare to. If he didn't handle it properly, he might not only lose his merit points this time!

...

As soon as Guanghui Shen Jiang made a decision, he immediately began to mobilize battlefield personnel.

Guanghui Shen Jiang has the qualifications and authority. He is the number one person in the battlefield, so naturally, he can control the commanders in every position and then order a large number of people to retreat quickly!

For cultivators, a full-scale retreat is easy!

Upon receiving the order, a large number of cultivators withdrew from the spatial nodes and began to return.

This scene left the Heavenly Venerate powerhouses astonished.

"What's going on?"

Several Celestial Experts came forward and directly found some important Nirvana Stage commanders and godly generals.

Guanghui Shen Jiang was naturally among them, and along with Yang Chen, they were surrounded by the Celestial Experts.

These Celestial Experts seemed quite accusatory. After all, without any communication, a large number of battlefield personnel returned massively?

What would be the consequences if the people of the Netherworld took advantage of this?

Who can bear the responsibility?

Yang Chen looked around and found that these Celestial Experts were present, including Sun Zu.

When Sun Zu saw that Yang Chen was still alive, he was delighted and didn't care much about Yang Chen's cultivation level.

"Why did you all come back?" Sun Zu also asked.

Guanghai Shen Jiang smiled amiably, "All you Celestial Experts, we've collected enough spatial fragments."

"Collected enough? Ridiculous, what kind of joke is that? Where did you collect enough? We only learned from the 'Heaven's Book' that there were just over 400,000 space fragments, which is still some distance from the minimum of 500,000. We still lack these crucial fragments. Without solving this, it will be impossible to destroy this space. And now you guys return early..."

Before that Celestial Expert could get furious, Guanghai Shen Jiang quickly laughed, "Lord Heavenly Venerate, please don't get angry. Let's speak up."

The several Heavenly Venerates looked at each other, wondering what Guanghai Shen Jiang's confidence and self-assurance were based on.

At this point in the conversation, it wasn't appropriate for them to say anything more, and they were curious about where Guanghai Shen Jiang's confidence came from.

Thus, everyone headed into the camp.

Once inside the camp, the gazes of these Celestial Experts were all locked onto Guanghai Shen Jiang.

Sun Zu also said coldly, "Guanghai Shen Jiang, although we gave you the supreme command, you must also know that when making decisions, you must bear responsibility."

"Hahaha, Lord Sun, don't worry. I made this choice for a reason, and it's related to Yang Chen from your sect. If it wasn't for him, I would never have come back." Guanghai Shen Jiang said.

Sun Zu and the other Celestial Experts exchanged glances, looking puzzled.

Guanghai Shen Jiang glanced at Yang Chen.

Yang Chen didn't delay any further, took out the storage bag with the 200,000 spatial fragments, and handed it over through Guanghai Shen Jiang.

Sun Zu immediately took the bag, opened it, and looked inside.

The other Celestial Experts also couldn't help but take a peek, curious about what was in the storage bag.

With that look, even Sun Zu and all the Celestial Experts were shocked, unable to compose themselves.

"There must be 200,000 pieces."

"So many spatial fragments, what, what is going on?"

"How could there be so many spatial fragments."

Sun Zu also asked in amazement, "So many spatial fragments, Guanghai Shen Jiang, you just said it's related to Yang Chen? What's going on?"

"That's because these spatial fragments were all obtained by Yang Chen." Guanghai Shen Jiang laughed.

Upon hearing this, everyone was shocked.

The entire scene went silent.

Everyone was at a loss for words.

At this time, another person broke into the camp.

“Sun Zu, Sun Zu...”

This person was none other than Chen Yang Qi from the Xuandao Sect.

Chen Yang Qi had tears streaming down his face. When he saw Sun Zu, he immediately said angrily, “Sun Zu, I finally saw you. That Sky Canine Supreme has gone too far. He separated me and Yang Chen in the spatial nodes, arranging Yang Chen alone in a battlefield. I was also put in a separate battlefield, but Yang Chen is only in the Enlightenment Stage. He was put in a battlefield like this, it’s...”

Chapter 2433: Shattering the Nodes\_1

Hearing this, Sun Zu and other experts in Nirvana Stage all became somewhat angry, embarrassed, and awkward.

They were just shocked by how Yang Chen managed to obtain 200,000 space nodes, and now, Chen Yangqi was back.

Sun Zu coughed twice: “Chen Yangqi, look behind you!”

Chen Yangqi turned around, and what did he see?

It was Yang Chen, sitting in front of him, safe and sound.

Seeing that Yang Chen was still alive, Chen Yangqi was filled with mixed emotions and said excitedly, "Yang Chen, you're still alive! That's great! I'll definitely seek revenge on that Sky Canine Supreme when I have the chance!"

Yang Chen's smile was somewhat awkward, as Chen Yangqi didn't know about the fall of the Sky Canine Supreme yet.

But seeing that the other party was so concerned about him, and reporting this matter to Sun Zu as soon as he returned, it was obvious that he still cared about and looked after Yang Chen.

Yang Chen said gratefully, "Thank you for your concern, Sect Leader!"

"Haha, it's fine as long as you're all right," Chen Yangqi heaved a sigh of relief.

He regarded Xuandao Sect as a family, and Yang Chen, the only genius who defied the heavens in Xuandao Sect for so many years, he vowed to protect him.

Now, Yang Chen was still alive, so he felt like he was dreaming.

"Alright, Chen Yangqi, don't say so much useless stuff. We still have important matters to attend to," a foreign Celestial Expert scolded.

The other Celestial Experts didn't say it explicitly, but their gazes were also somewhat doubtful, questioning the matter at hand.

No one could help being suspicious.

Lei Ting Celestial Sovereign, a Celestial Expert from the Thunderclan, directly asked, "Yang Chen, did you really obtain all these space fragments?"

“It was indeed obtained by this Junior,” Yang Chen said.

“200,000... How did you get so many with your Enlightenment Stage strength?” Sun Zu was puzzled as well.

“Enlightenment Stage?”

Radiant Divine General asked in confusion, “What Enlightenment Stage? Honorable Celestial Experts, you must be mistaken. Didn’t Yang Chen already enter the Nirvana Stage? He has 7,500 Dao Intent Inscriptions, and is the savior of the whole battlefield. If it weren’t for him, I wouldn’t even know if I’d be alive or dead now.”

“Nirvana Stage? That’s not right, absolutely not right. Yang Chen was still in the Enlightenment Stage before,” Sun Zu was quite certain, “Radiant Divine General, you must have made a mistake somewhere. The person who got those space fragments isn’t our Yang Chen, but someone else.”

Chen Yangqi nodded as well, “I can vouch for that. When Yang Chen entered the spatial nodes with me, he was still in the Enlightenment Stage.”

Radiant Divine General said helplessly, “You guys should ask Yang Chen about this matter. I feel that there must be some misunderstanding.”

Sun Zu looked at Yang Chen in confusion, “Yang Chen, what’s going on?”

Knowing that hiding it any longer would be pointless, Yang Chen released his Qi.

Immediately, his 7,500 Dao Intent Inscriptions were fully revealed like they were for free.

As these Dao Intent Inscriptions appeared, everyone present took a cold breath.

When everyone saw these Dao Intent Inscriptions, their only thought was astonishment!

Especially Sun Zu and Chen Yangqi, their eyes were wide open!

So many Dao Intent Inscriptions; they even started doubting their own eyes!

“This... it must be fake,” Chen Yangqi wiped the sweat from his forehead. You should know that he was only at the second stage of Nirvana Stage. Yang Chen had already reached a Nirvana Stage expert that surpassed the normal limit.

Sun Zu was also dumbfounded and didn't know what to make of this. His mouth just hung open, not knowing what to say.

Was he dreaming?

Yang Chen? 7,500 Dao Intent Inscriptions?

He was simply the top person in the Nirvana Period of the human race in the Spirit Realm.

Even if he wasn't the absolute top, he was definitely in the top three!

“Yang Chen, how did this happen? How do you have so many Dao Intent Inscriptions?” Sun Zu couldn't understand.

Yang Chen briefly explained the situation, but he toned down the matters about Space-Time Dao Intent and Life and Death Dao Intent. He didn't want to be too high-profile.

After all, the Strongest Dao Intent was too conspicuous, and not a good thing.

He directly explained that the more Dao Intents they had, the more Dao Intent Inscriptions they would get when they reached the Nirvana Stage.

Sun Zu was shocked and said, "No wonder you broke through to the Nirvana Stage within the space node. This is truly a good thing. It has saved me a lot of trouble."

He was originally prepared to use some taboo methods to help Yang Chen break through, but who would have thought that Yang Chen had made the breakthrough himself.

Many others also couldn't help but sigh.

Why is it more difficult to break through with more and more refined Dao Intent?

Because once they broke through, it would be too heaven-defying. The Dao Intent Inscriptions would directly reach a terrifying level!

Others might practice one type for countless years before reaching a quantity of 5,000!

You could possibly cultivate every type to 5,000, and with just two or three types, you could directly crush your enemy. With four or more, it would be enough to be called heaven-defying.

Therefore, those who could break through to the Nirvana Stage with more than three Dao Intent were absolute oddities in the Nirvana Stage. Their potential would be terrifying.

Many people started to look at Yang Chen with admiration.

As for Sun Zu, he slapped his thigh and started laughing out loud when he realized everything about Yang Chen. He couldn't close his mouth from laughing.

"Hahaha, well done, well done, Yang Chen!"

If Yang Chen had such strength, then getting so many space fragments would be explainable. It was just a matter of fortune.

The most important thing was that Yang Chen got so many space fragments, which greatly boosted Sun Zu's prestige!

Imagine Sun Zu in front of so many Celestial Experts, with a subordinate obtaining such an amazing record, getting such a terrifying number of space fragments, and even becoming the person who turned the tide!

Would Sun Zu not be proud?

You should know that when he first brought Yang Chen and Chen Yangqi here, he received so many cold glares.

At that time, those Celestial Experts mostly sneered at him in secret. They thought that Sun Zu, a Boundless Stage Expert, was not presentable and only brought an Enlightenment Stage and a Nirvana Period into the battlefield.

But now, who would dare to sneer at him? Who dares?

This was pride, pride from the heart!

Seeing Sun Zu so happy, the crowd couldn't help but sigh, feeling envious and jealous.

Why didn't they have such a disciple among their subordinates?

200,000 space fragments, how terrifying was that? Just talking about a single Xuandao Sect wasn't enough; the entire human group would have a lot of face too. Because with these 200,000 space fragments, they could easily change everything.

"The 500,000 was just a basic number. Now that we have these 200,000 space fragments, we can easily crush the space nodes," a Celestial Expert said.

“Yes, the more space fragments we have, the easier it will be to break the space nodes. Now we must not waste Yang Chen’s efforts, and we must quickly crush the space nodes!”

Chapter 2434: Number One in Merit Points\_1

These celestial experts were all well aware of the importance of shattering spacetime nodes.

Once the spacetime nodes were shattered, it would mean that the Netherworld would lose hope of attacking their Spirit Realm, and naturally they would all rejoice.

After all, who wouldn’t be afraid of the Netherworld?

With the strength of their Spirit Realm, it would be impossible to resist the Netherworld at all.

Thinking of this, a group of Celestial Beings had already begun to take action.

Yang Chen and others were curious, following these Celestials, wondering what methods they would use to destroy these spacetime nodes.

Nowadays, these celestial experts had arrived at the entrance of the spacetime node.

As they arrived at the entrance, a group of celestial experts began to discuss.

After discussing for about a cup of tea’s time, a few Celestial Beings said, “Well, since that’s the case, we should be responsible for tearing open the spacetime node, and you guys should use these spatial fragments to shatter this space, cutting off the Netherworld from attacking our Spirit Realm!”

“No problem, if you want to tear this entrance open wider, let me do it personally.” Sun Zu said.

“With Brother Sun taking action personally, we can rest assured.”

These celestial experts exchanged pleasantries before starting their work.

With their roles clearly defined, a few Celestial Beings, under Sun Zu's leadership, began to operate their Dao Intent inscriptions at the entrance and bombarded the entrance relentlessly.

When these celestial experts made a move, their power was overwhelming, taking the breath away from a group of Nirvana Stage Experts, who couldn't help but marvel at the fierce strength displayed by these celestial experts.

In the blink of an eye, the entrance of the entire spacetime node began to show signs of tearing apart. Under the relentless onslaught of these celestial experts, the hole grew larger and larger!

"Everyone, hurry!" Sun Zu suddenly shouted.

The other celestial experts quickly expanded the gathered spacetime nodes, seizing the opportunity.

A large number of spacetime nodes, emitting dazzling blue light, appeared so brilliantly that it left many people in awe.

Then, these spatial fragments were all laid down at the entrance of the spacetime node.

The next moment, the spacetime node became unstable.

With so many spatial fragments gathered, it was as if the whole space would cause violent spatial turbulence.

This spatial turbulence surged rapidly, spreading and covering every location!

Then, a group of celestial experts launched a fierce attack on these spatial fragments, striking them with an incredibly strong force.

The attacked spatial fragments caused the space to become increasingly turbulent and restless.

As a result, a large number of spatial storms converged, swirling and swirling.

“Quickly retreat, this spatial storm is going to affect the entire spacetime node, it’s going to explode!” One of the Celestial Beings shouted, and the rest of the powerful ones retreated hastily, not daring to approach easily.

Suddenly, an amazing scene occurred.

The chaotic flows and storms of space completely engulfed the entire spacetime node, and the rifts grew larger and more terrifying.

Eventually, the entire space could no longer hold out, and with a bang, it exploded completely.

This explosive force was almost like an apocalyptic power!

It was dazzling, and many people didn’t know what had happened.

Only when they regained their senses did they realize that the original connected space entrance was gradually being stitched up, and the spatial aura that once occupied that interface completely vanished without a trace.

“This...this spacetime node...it just disappeared like that?” A group of people asked.

Those celestial experts were now in a great mood, laughing, “Yes, this spacetime node is just gone, completely destroyed by us.”

“Hahaha, we win, this time we won a great victory. With this spacetime node destroyed, it won’t be easy for the people of the Netherworld to attack again.”

“Moreover, on this occasion, the people of the Southern Realm also cooperated with our Spirit Realm. This is also a good thing for our Spirit Realm people.” Other Celestial Beings also commented.

Yang Chen was surprised to hear this.

Cooperation with the Southern Realm? What’s going on?

He was at a loss, and Sun Zu also proudly said, “Hehe, this time, we have to thank the help of these spatial fragments.”

Although Sun Zu didn’t mention it explicitly, everyone knew that he was praising himself.

After all, everyone knew that the one who got the most spatial fragments was Yang Chen.

“Hehe, now that we have reached this point, let’s announce the ranking of merit points of Nirvana Stage experts from different sects in this spacetime node mission. Then we will announce who will get the True Holy Water.” A Celestial Expert said.

This Celestial Expert was Li Chongxiao, whom Yang Chen was familiar with.

As the representative of the Taiyi Sect in this mission, Li Chongxiao was in charge of the True Holy Water, so now he was to announce the rankings.

Hearing these words, many people nodded.

Only Yang Chen was in deep thought, wondering what medicine Li Chongxiao was selling in his gourd. He had an endless feeling that Li Chongxiao must know about his relationship with Mu Gufeng, and normally, it should have been the perfect opportunity for Li Chongxiao to cause trouble for him within the spacetime node.

But Li Chongxiao didn’t.

“Could it be that this guy doesn’t know about my relationship with Mu Gufeng?” Yang Chen thought to himself.

As he thought about it, Li Chongxiao began announcing the rankings.

“Ranked tenth, Cloud Mountain Venerable, merit points: 37,000!”

By the end, everyone’s merits had increased significantly, with even the tenth place reaching a high of 37,000!

“Ranked ninth, Supreme Exceeding Swan, merit points: 39,000!”

“Ranked eighth ...”

“Ranked sixth ...”

It wasn’t until the third place that the climax was reached.

In fact, most people were more concerned about who was in the top three and their merit points, and who would get the True Holy Water? Who wouldn’t be envious?

“Ranked third, Supreme Grand Harmony, total merit points: 113,000! Supreme Grand Harmony, this is your True Holy Water!”

Looking at the True Holy Water handed to him, the Supreme Grand Harmony’s face was filled with excitement, and his mood could be clearly seen from his expression.

“Ranked second, Radiant Divine General, total merit points: 140,000, Radiant Divine General, this is your True Holy Water!”

When the merit points of the Radiant Divine General were announced, many people gasped. It was so much higher than Supreme Grand Harmony? It was evident how terrifying his strength was.

As for the first place, more or less everyone had some expectations.

After all, Yang Chen handed in 200,000 space fragments, so it must be Yang Chen in first place. Those 200,000 merit points weren't a joke.

Everyone subconsciously believed that Yang Chen's merit points were only 200,000.

However, when Li Chongxiao finally called out Yang Chen's merit points, everyone was dumbfounded.

"Yang Chen, first place, merit points: 310,000!"

Chapter 2435: Southern Realm Envoy\_1

Merit Points, three hundred and ten thousand.

When such a terrifying number echoed in their ears, many people's eyes widened in shock.

"Three hundred and ten thousand? Is it real?"

"This must be a joke."

They subconsciously thought that Yang Chen had only 200,000 merit points, all due to his luck in obtaining those 200,000 space fragments. But now, they realized that Yang Chen's abilities in other aspects were not something they could compare with.

Many people sighed, amazed that among them in the Southern Realm had risen an extraordinary existence.

“Yang Chen, this is your True Holy Water,” Li Chongxiao said amiably, appearing totally harmless, as if he bore no grudges against Yang Chen.

This made Yang Chen wary. Regardless of how Li Chongxiao treated him, he was still on full guard against Li Chongxiao.

Yang Chen didn’t think Li Chongxiao was that friendly a person at all!

He must be planning something.

But without solid evidence, there was no way to expose it, and doing so would bring him no benefits.

His attention now was focused on the True Holy Water. Li Chongxiao handed him a pale yellow bottle containing water that revealed the same power as Dao Intent Inscriptions, dazzling and eye-catching, making one yearn for it.

Many people were envious and jealous – this was the True Holy Water, who wouldn’t want it?

Yang Chen was also delighted. With this True Holy Water, his Dao Intent Inscriptions would rise another level!

As for how much it would improve, he didn’t know.

“Brother Yang Chen, you have achieved such strength and realm at such a young age. Even I, Li, am not as good as you,” Li Chongxiao said gracefully with a smile.

Others lamented, “Li Chongxiao, you’re being too modest. In your youth, you were just as talented as Yang Chen. Your shadow is all over Yang Chen.”

Li Chongxiao replied gently, “I am not worthy.”

...

After the True Holy Water was distributed and the spatial nodes were completely destroyed, the battle finally came to an end.

However, the delight of these experts didn't last long, as they soon became serious again.

Seeing these Heavenly Venerates suddenly become so solemn, the Nirvana Stage experts were all puzzled.

Victory in a war should be a joyous occasion; why did these Heavenly Venerates suddenly become so serious?

The Earth Fiend Clan's Heavenly Venerate and the surrounding Heavenly Venerates exchanged glances, seemingly discussing something.

Sun Zu said, "Law Scripture Celestial, you should explain this matter."

After some consideration, the Earth Fiend Clan's Law Scripture Celestial stopped hesitating: "Alright, since everyone has chosen me to explain, I will not be polite."

Under the puzzled eyes of the Nirvana Stage experts, Law Scripture Celestial coldly said, "Some of you may have noticed just now that I mentioned the cooperation between the Southern Realm and our Spirit Realm. Indeed, not long ago, the Southern Realm Envoy crossed the realms and came here to discuss cooperation with us in the Spirit Realm. The most basic condition for cooperation is that we in the Spirit Realm must win this battle!"

The Nirvana Stage experts all exchanged glances, their faces showing curiosity.

"Now that we have finally achieved victory, we have also gained the opportunity to discuss cooperation with the Southern Realm. You are all outstanding warriors on the battlefield; come with us to meet the Southern Realm Envoy and see what they have to say!" Law Scripture Celestial said.

Upon hearing Law Scripture Celestial's words, the experts couldn't help but feel various thoughts.

Southern Realm Envoy.

Of course, they were all curious about them.

Law Scripture Celestial led them, and they followed him to the depths of the camp.

As they reached the depths of the camp and opened the curtain, they saw three men sitting around a stone table. These three men, all humans, had obviously lived for thousands of years and wore expressions of vicissitude. The aura emanating from their bodies was terrifying.

Without a doubt, these three were from the Southern Realm.

When they arrived, the group could feel an overwhelming pressure from the three men.

Yang Chen could sense that among the three men, two were Great Ascension Stage experts, while the other had reached the Boundaryless Level.

Although this level of power was amazing, the various clans in the Spirit Realm also had experts of such level.

However, facing these three people, their auras were instantly overshadowed, like the difference between a fierce tiger and a lamb, completely crushed by the pressure they emitted.

Even Sun Zu hesitated for a moment, then subconsciously took a step back, showing the strength of the three men.

"We pay our respects to the three Southern Sky Envoys," the Heavenly Venerates said first, signaling to the Nirvana Stage experts behind them.

The Nirvana Stage experts could see that these three men had a high status and had to show their respect, they quickly said, "Greetings to the three Southern Sky Envoy seniors."

The one called the Southern Sky Envoy was the Boundaryless Level Envoy seated at the head.

The three of them seemed to be playing a chess game, and upon hearing the arrival of the crowd, one of them yawned lazily and said, "Just now, I heard some noise over there. What happened? Did your Spirit Realm clans win the battle against the Netherworld?"

Law Scripture Celestial, also a Boundaryless-level expert, lowered his head and said, "Southern Sky Envoy, we have won the battle between our Spirit Realm clans and the Netherworld. What about the cooperation you mentioned?"

"Oh? You won?" The Southern Sky Envoy stroked his beard.

Law Scripture Celestial smiled, "Yes, several outstanding talents appeared among our Spirit Realm clans in this battle, helping us achieve victory on the battlefield."

"What outstanding talents? How can your Spirit Realm have any outstanding talents? Don't be too anxious. You've won a few battles, but do you really think you can win against the Netherworld?" The Southern Sky Envoy sneered.

Law Scripture Celestial was slightly angered, after all, he was a Heavenly Venerate and shouldn't be yelled at by anyone else.

But he had no choice.

When these three envoys first arrived, they had already shown their prowess.

He even had a match with the Southern Sky Envoy in the name of sparring.

During this match, he was defeated after only three moves. Although they were at the same level, the Southern Sky Envoy's cultivation was even inferior to his, but he was still easily defeated, which made him fearful. Now, he didn't dare to disrespect the Southern Sky Envoy no matter what.

The Southern Sky Envoy remained expressionless: "You people of the Spirit Realm are frogs in a well, short-sighted, with so many clans in just one realm, just a bunch of incompetent people who can't even unite. I really don't know why the Spirit King would even consider cooperating with you?"

Chapter 2436: Low-Rank Ghost Beings\_1

"Spirit King?" Yang Chen recalled the Venerable King he had heard of in the Great Secret Realm.

There was a great grudge between the Venerable King and the Spirit King, but the Spirit King couldn't defeat the Venerable King, so he came to the Spirit Realm instead.

However, it's not hard to deduce the strength of the Spirit King. Moreover, the Spirit King was most likely the ruler of the Southern Realm, controlling everything in the Southern Realm. What was surprising was that the Spirit King was restrained in the Spirit King Palace but seemed to still be capable of issuing orders to the people in the Southern Realm?

Now, the Southern Sky Envoy was boasting arrogantly, with a disdainful look in his eyes, as he looked down upon the people of the Spirit Realm. He spoke in a low voice, "Do you know that the Netherworld ghosts you are dealing with are merely a group of low-rank ghost beings?"

"Low-rank ghost beings? What do you mean?" The people of the Spirit Realm didn't understand what was going on.

Yang Chen was also at a loss.

"Hmph, what do I mean?"

The Southern Sky Envoy sneered sarcastically, "You really know nothing. The Netherworld's ghost beings are also divided into Emperor Rank, King Rank, High-Class, Mid-Rank, and Low-Rank Ghost Beings."

“The Low-Rank ghosts are the garbage of the Netherworld. They have no Dao Techniques to control and can only learn a bit of Netherworld Ghost Qi to guard against some measures to deal with Netherworld Ghost Beings. They are almost the weakest group of Ghost Beings!” The Southern Sky Envoy spoke coldly.

Upon hearing this, a group of Nirvana Stage experts looked at each other.

They originally thought that the Southern Sky Envoy was bluffing, but now it seemed that what the other party said was not without basis.

Indeed, the ghost beings they encountered didn't know anything about Dao Techniques, and they could only cast Netherworld Ghost Qi.

Usually, Netherworld Ghosts with a higher level of Netherworld Ghost Qi casting were relatively more powerful.

This made many people understand.

At first, they were puzzled. Although most of them didn't understand Dao Techniques, they had heard about them. Logically speaking, it shouldn't be too difficult for Netherworld Ghosts in such a large interface to cultivate Dao Techniques.

However, the ghosts they encountered were just like them, none of them knew Dao Techniques.

This was also the reason why they had the ability to resist.

“What about mid-rank ghost beings?” Someone couldn't help but ask.

“Mid-Rank Ghost Beings, hmph, you people of the Spirit Realm, by your own abilities, can't deal with them at all. Mid-Rank Ghost Beings have considerable physique and talent, and they are qualified to learn Dao Techniques in the Netherworld. Moreover, the number of Dao Intent Inscriptions they possess is far greater than what you know. I don't know if there are any mid-rank ghost beings in this spatial

node. If there are, I suppose it wouldn't be so easy for the Spirit Realm to win." The Southern Sky Envoy sneered.

He had a completely superior attitude, as if he knew more than them and had a greater knowledge, looking at the people of the Spirit Realm as if they were a group of country bumpkins.

The people of the Spirit Realm had no temper at all now because they really didn't know what the Southern Sky Envoy was talking about.

On the other hand, Law Scripture Celestial managed to pull out the corpse of Heaven Scourge Ghost General from somewhere.

He placed it in front of the Southern Sky Envoy.

"Southern Sky Envoy, can you tell if this corpse is a mid-rank ghost being or a low-rank ghost being?" Law Scripture Celestial asked.

Yang Chen was slightly surprised.

The corpse of the Heaven Scourge Ghost General he had handed over was actually in the hands of Law Scripture Celestial.

Thinking about it, it made sense. When he handed the corpse over to True Pattern, True Pattern must have used the magic circle to hand the corpses over to those Celestial experts.

After all, the corpses of these ghost generals were not only useful for exchanging merit points but also useful for research.

Powerful ghost generals were even more valuable for research.

Law Scripture Celestial was very curious about the corpse of the Heaven Scourge Ghost General and had collected it.

At first, the Southern Sky Envoy was calm, but soon he saw the corpse that Law Scripture Celestial had brought out.

Upon seeing this, he was quite surprised, "So it's a mid-rank ghost being. Interesting, you people of the Spirit Realm really managed to take the life of a mid-rank Ghost General. I guess it must have been done through a combination of scheming and besiegement. Still passable!"

If he knew that it was Yang Chen who took it down by himself, he wouldn't know what his attitude would be like.

As for who killed Heaven Scourge Ghost General, Law Scripture Celestial didn't know quite well and could only say, "Since mid-rank ghost beings are so powerful, what about high-class ghost beings?"

"High-class ghost beings are even more difficult to deal with. High-class ghost beings are typically proficient in several Dao Techniques, and their development and utilization of Dao Intent have reached an extreme level, making their combat power extraordinary among their peers! If these ghosts come to your realm, you would have already lost." The Southern Sky Envoy waved his hand disdainfully.

The crowd let out bitter smiles.

They knew nothing about Dao Techniques in their realm, and they didn't dare to deny that they probably couldn't resist the high-class ghost beings.

"What about the King-Rank Ghost Beings and Emperor-Rank Ghost Beings above them?" Another person asked.

"Hmph, so many questions. King-Rank Ghost Beings are super ghost beings standing far above Emperor-Rank Ghost Beings. These Netherworld Ghosts usually don't take action easily, but once they do, the best thing to do is to run!"

"Fighting alone, it can be said that it's very difficult to defeat King-Rank Ghost Beings. The Netherworld has a terrifying foundation after so many years. The physique, talent, Dao Techniques, and other things

possessed by King-Rank Ghost Beings are so great that even in our Southern Realm, there are very few who can contend with them. Once they appear, they are almost treated as rare talents and cultivated!”

The Southern Sky Envoy said this, again revealing a sense of superiority unconsciously.

“As for Emperor Rank, it’s very rare to encounter Emperor-Rank Ghost Beings. Even in an interface-level war, there probably won’t be one or two. Emperor-Rank Ghost Beings can be said to be the highest bloodline and combat power in the Netherworld. Killing such combat power would be a huge loss for the entire Netherworld! However, thinking of killing such combat power is as difficult as reaching the sky. Once in the Southern Realm, we got news and located a young Nirvana Stage Emperor-Rank Ghost Being. More than ten Celestial Experts were sent to encircle and kill it, but in the end, they failed, and even two Celestial Experts died!”

Upon hearing this, the Nirvana Stage experts couldn’t help but gasp for cold air.

Even Yang Chen’s heart was filled with waves of astonishment!

Nirvana Stage, surrounded by more than twenty Celestial Experts, not only escaped but also killed two? Was this the Nirvana Stage? Even peer Celestial Experts couldn’t do that.

Yang Chen sighed incessantly, thinking that there was nothing strange about this world. The Southern Realm was far more powerful than the Spirit Realm, but it still seemed quite powerless in the face of Emperor-Rank Ghost Beings.

Just how terrifying were these Emperor-Rank Ghost Beings?

Even though the Southern Sky Envoy was always extremely arrogant, his eyes still revealed a hint of sigh and helplessness when he mentioned the two words ‘Emperor Rank’.

“Hmph, well, you have learned something about the ranks of these ghost beings now. To tell you the truth, the Netherworld Army is not only dealing with one interface. They are fighting in the North and South, and a small interface like your Spirit Realm is just being attacked by some abandoned low-rank ghost beings!”

Chapter 2437: Taking the True Holy Water\_1

As these words settled, many people couldn't help but gasp.

Was their Spirit Realm so weak?

The Netherworld had only used the lowest rank ghost creatures to deal with their Spirit Realm? A few mid-rank ghost creatures would already have a significant impact on them, what if all were mid-rank?

It was nearly unimaginable!

Their Spirit Realm couldn't resist at all!

"However, our Southern Realm is different. We face thousands of mid-rank ghost creatures from the Netherworld, led by a large number of high-class ghosts, and even the king-rank ghosts!"

The Southern Sky Envoy's voice became more profound, conveying pride: "The great army sent by the Netherworld to deal with us can't be compared to their campaign against your Spirit Realm. However, we in the Southern Realm still want to work with you."

Having displayed their superiority, the people in the Spirit Realm were somewhat shaken and now became expectant, and even eager for cooperation.

After all, their strength was much weaker compared to the Southern Realm.

"This cooperation is ordered by the Spirit King of our Southern Realm. His Majesty is kind-hearted and has decided to help your realm, because he thinks that the strength of the Spirit Realm is not enough!"

Hearing this, the expressions of these celestial experts became ambiguous.

Were the people from the Southern Realm so generous?

Unconditionally lending them a hand?

The crowd was puzzled, but their faces remained expressionless. Then the Law Scripture Celestial spoke in a kind manner: “In regard to this cooperation, how about sharing some details...”

“It’s simple. Spirit Realm should first send a batch of talented and powerful Nirvana Stage and Mahayana Stage experts to the Southern Realm for further training. With the environment of our Southern Realm, even those of you from the Spirit Realm with mediocre talents will still be able to make some improvement.” The Southern Sky Envoy explained.

“What do you want us to do in return for helping us?” Law Scripture Celestial asked immediately.

They couldn’t believe something would fall from the sky for free.

The Southern Sky Envoy spoke coldly: “Heh, what do we want you to do? Of course, there’s something we want you to do. When the first batch of training in the Southern Realm is done, if the cooperation is still satisfactory, we will send more people to train in the Southern Realm. After the strength of the Spirit Realm increases, you have to help us in the Southern Realm, fighting against the Netherworld together!”

Upon hearing this, the group suddenly understood.

So that was the situation.

This cooperation was worth considering.

After all, the strength of the Southern Realm was indeed stronger than their Spirit Realm. Who wouldn’t want to be guided by such a realm?

“If you hadn’t defeated those low-rank ghost creatures, frankly speaking, I wouldn’t want to represent the Southern Realm and cooperate with you. However, you barely met the lowest requirements. So, there’s a time limit – five years!”

“In five years, we will send people again to wait for you at the North Ming Sea. Each race can only send twenty people, who will gather at the North Ming Sea after five years!”

Upon hearing this, everyone from the various realms made sure to remember this.

As if disdainful to engage in further conversation with those from the Spirit Realm, the Southern Sky Envoy simply gave some instructions and left.

For a moment, everyone of the Spirit Realm hurriedly left to escort him. When they truly sent the Sky Southern Envoy away, they all started to ponder deeply.

Soon after, the battle came to an end, and the people from various realms began to return the way they had come.

As for Yang Chen, he went back to the sect with Chen Yangqi and Sun Zu!

In the blink of an eye, a month had passed...

After returning to the sect, Yang Chen began to have a simple life with Zhang Xuelian.

Zhang Xuelian had settled down in the Xuandao Sect and had used the time Yang Chen was away to consolidate her cultivation, rushing to the stage close to the Nirvana Stage.

Honestly, Yang Chen was somewhat uneasy.

After all, in his eyes, there was hardly anything that could be hidden from Zhang Xuelian!

He carried an affair with Hua Wanru at that time, but things were different after it ended!

How to face his principal palace? That was the real problem.

However, just as Hua Wanru had said, Zhang Xuelian seemed to know nothing about this matter. After he had come back, Zhang Xuelian didn't mention anything about how he entered the Spatial Nodes

Regarding his entry into the Nirvana Stage, Zhang Xuelian seemed somewhat fluctuated and began to concentrate on her cultivation, not planning to lag behind.

Yang Chen originally wanted to have more intimate moments with Zhang Xuelian, saying that absence makes the heart grow fonder. He felt somewhat guilty towards Hua Wanru after returning from the Spatial Nodes and wanted to make it up to her as much as possible.

However, Zhang Xuelian chose to go into closed-door cultivation, intending to strive to reach the Nirvana Stage and achieve the same height as him.

Yang Chen could understand that. After all, in a marriage, too great a gap would bring about an insurmountable barrier, even if both parties chose to ignore it.

Zhang Xuelian seemed indifferent, with an icy arrogance, but in fact, she had always held her own self-esteem deep in her heart, which was, never to hold him back!

Yang Chen knew these things.

After returning to the sect, he began some closed-door cultivation.

He had reaped great benefits from the Spatial Nodes this time, firstly obtaining 80,000 Spatial fragments, which could help him get a lot of things. Moreover, he got the True Holy Water.

Yang Chen planned to use the 80,000 Spatial fragments first to increase the number of Space-Time Dao Intent Inscriptions.

This number was much more than that of the previous improvement.

However, as the more Dao Intent Inscriptions he had, the harder it would be to improve them. As a result, even after exhausting more than 80,000 Spatial fragments, he could only increase the number of Space-Time Dao Intent Inscriptions to over 2,500!

“It only increased about 500 compared to the last time...” Yang Chen sighed, somewhat disappointed.

However, he soon laughed at himself and began to let go of his disappointment: “I really am insatiable. I just entered the Nirvana Stage not long ago, yet I reached 2,500 Space-Time Dao Intent Inscriptions, which is already an incredible number.”

With 2,500 Dao Intent Inscriptions, his current Space-Time Dao Intent Inscriptions exceeded the Life and Death Dao Intent.

However, as long as he had the True Holy Water, his Life and Death Dao Intent might overtake it again!

Yang Chen took out the True Holy Water and stared at it with excitement.

“Refine!”

The bottle shattered, and the green liquid inside flowed directly into Yang Chen’s body.

“Increase Life and Death Dao Intent!”

Yang Chen wasn’t stupid – he would use this kind of treasure to enhance the Life and Death Dao Intent!

The essence of the True Holy Water entered Yang Chen’s body, and he transported it to the Life and Death Dao Intent Inscriptions. The essence and the Life and Death Dao Intent fused together, creating a large number of new Life and Death Dao Intent Inscriptions.

This delighted Yang Chen, as one, ten, a hundred, and more were rapidly born!

Chapter 2438: Southern Realm List\_1

Moreover, it didn't stop, and it was still growing rapidly.

Three hundred, five hundred, seven hundred!

When the number of Dao Intent Inscriptions reached 700, the growth finally stopped.

"It increased by more than 700. My luck seems to be quite good. Haha." Yang Chen said, delighted.

The True Holy Water can increase the number of Dao Intent Inscriptions from one piece to one thousand pieces. Generally, the more inscriptions, the less growth.

Yang Chen originally thought that with his 8,000 Dao Intent Inscriptions total, there wouldn't be much growth, so he was prepared for it mentally, but unexpectedly, it increased by as many as 700 pieces in one go.

Soon, Yang Chen realized what was going on.

"I have a lot of Dao Intent Inscriptions, but the number of Life and Death Dao Intent Inscriptions is actually only 2,000. This number isn't too high or too low, so True Holy Water directly helped me increase my Dao Intent Inscriptions by 700 pieces!"

Now, his Dao Intent Inscriptions were truly domineering, directly surpassing the Radiant Divine General and reaching a rather terrifying height.

Eight thousand Seven hundred pieces!

Life and Death Dao Intent, two thousand and seven hundred pieces!

Spacetime Dao Intent, two thousand and five hundred pieces.

The others added up to three thousand and five hundred pieces!

If this number of Dao Intent Inscriptions were made public, it would certainly shock many people and make them drop their jaws.

Yang Chen couldn't help but sigh.

Just as he finished his retreat, Yang Chen suddenly heard a voice echoing in his ear.

"Yang Chen, come to me!"

This voice belonged to Sun Zu.

Yang Chen didn't dare to ignore it. As he got up, he glanced at Zhang Xuelian, who was sitting quietly and cultivating beside him. He didn't disturb her but left a Spirit Talisman to inform her that he was going out for a while before leaving.

When Yang Chen left, Zhang Xuelian gently opened her eyes and then sighed softly.

"During the calculation, there was a blank period that I could never figure out. He must have gone to a place beyond the control of the Heavenly Dao!"

Zhang Xuelian's inner thoughts were deep.

Her calculations showed that Yang Chen and Hua Wanru had spent a long time together, and that blank period could not be calculated. Although the result couldn't be concluded, it wouldn't be unusual for anyone to think negatively.

If it were someone else, she wouldn't be able to calculate so clearly at any time. But Yang Chen and Hua Wanru, one being her husband and the other her dark side, she could clearly calculate many things.

What happened between Yang Chen and Hua Wanru there?

Zhang Xuelian felt a sense of melancholy.

Was it because her charm wasn't enough?

The reason she didn't want to pay attention to Yang Chen these days was precisely because of that blank, lost period.

"Or is it that I am too strict with him?" Zhang Xuelian muttered.

The more fearful she was, the easier it was to make mistakes.

She seemed to let Yang Chen be, but she was constantly calculating what Yang Chen was doing at every step, wasn't she still strictly controlling him?

...

Yang Chen didn't know what Zhang Xuelian was thinking as he made his way to Sun Zu.

When he arrived at Sun Zu's place, there was only Sun Zu in the courtyard, waiting for Yang Chen's arrival.

When he arrived, Sun Zu showed a smile, "Yang Chen, you are here, sit down."

Being courteous, Yang Chen naturally wouldn't sit down easily and respectfully said, "Sun Zu, in front of you, I will always be a junior. I don't know why you summoned me this time..."

He was speaking from the bottom of his heart.

To be honest, at his level, even some Celestial Experts wouldn't see him as a junior if they didn't have enough qualifications.

But Sun Zu was different. Grandpa Sun was very gracious to him, so at any time in front of him, he had to be respectful.

Seeing that Yang Chen's strength had grown so strong while still maintaining a respectful attitude toward him, Sun Zu was quite satisfied and nodded in approval.

"Yang Chen, you know about the Southern Realm's affairs. I discussed it with our human high-levels, what do you think about this matter?" Instead of talking about what he was discussing with Sun Zu, he decided to ask.

Upon hearing this, Yang Chen pondered for a while and said, "In my opinion, the people of the Southern Realm wouldn't be so kind as to help us. From what we can see now, this matter is only beneficial to us, and there are no drawbacks. If we only look at the benefits, it's endless, but there's no such thing as an easy opportunity in this world."

"Yeah, where in the world is there such a good thing!"

The higher the realm, the more it is clear that the more things seem beneficial to you, the more hidden dangers there are!

"The people of the Southern Realm indeed mean us no good, but our cooperation with them must continue as usual."

Grandpa Sun laughed loudly, "Why do the people of the Southern Realm want to cooperate with us? Do they really want us to grow stronger just to help them?"

"Sun Zu's meaning is..." Yang Chen looked puzzled.

"It's simple. If our Spirit Realm really falls to the Netherworld, what will the Southern Realm do?" Sun Zu laughed.

Upon hearing this, Yang Chen was suddenly shocked.

Yeah, if the Spirit Realm really fell, wouldn't the Southern Realm fall into a situation surrounded by enemies?

Now that he thought about it, the key was actually here.

Yang Chen laughed, "So that's the reason. No wonder these Southern Realm people want to cooperate with us."

"Hehe, even though they have schemed against us, this cooperation is indeed feasible. Yang Chen, this trip to the Southern Realm has a very tight quota. There are only 20 people in total. To tell the truth, the Taiyi Sect and various forces are all planning to send their own Celestial Experts, and if you hadn't made great contributions during this Spacetime node event, I wouldn't be able to help you get a slot. But you showed your prowess during this Spacetime node event, hehe, who can say you can't!"

Sun Zu said, "I have already obtained a quota for you. This trip to the Southern Realm includes a total of five Celestial Experts and fifteen Nirvana Stage Experts. You have to cherish this opportunity."

Yang Chen didn't expect Sun Zu to make such a decision for him. But after thinking about it carefully, such a precious opportunity was quite normal for Sun Zu to make it without his opinion.

At first, he didn't think much about it, but now that he thought about it, the overall strength of the Southern Realm was indeed stronger than the Spirit Realm.

Moreover, because of the Spirit King's matters, he had obtained the key to the Ling Wang's Sleeping Palace. Sooner or later, he would have to visit the First Hall of Southern Territory.

Thinking about it now, Yang Chen couldn't help but laugh and cry at the same time.

Hua Wanru had said that there would be another affair between them in the Southern Realm. Now, it seems that...

What a twist of fate indeed.

“Yang Chen, what are you thinking?” Sun Zu asked curiously as he saw Yang Chen deep in thought.

“This opportunity is so rare, and I must thank Sun Zu for fighting for it. But there are still five years left. I don’t know when I will return from the Southern Realm. I plan to deal with my personal affairs and also look at this Southern Realm’s list.”

Chapter 2439: Arriving at Luo Star Island\_1

“Well, it’s normal for you to deal with your personal matters. As for the list, I have a copy here, so you can take a look.” Sun Zu said.

Yang Chen nodded, took the list, and left.

On his way back, Yang Chen carefully looked at the list and suddenly became surprised.

Among the five Heavenly Venerates on the list, Li Chongxiao was included.

This was not a friendly development for him.

Li Chongxiao...

...

Thinking of Li Chongxiao, Yang Chen also thought of the Giant Beast Clan King!

The personal matters he mentioned earlier were mainly two things.

First, he would go to the Legendary Dragon Valley; second, he would kill the Giant Beast Clan King to avenge the Divine Annihilator Spear!

The Legendary Dragon Valley is too far away, and it takes time to pass through several large and small groups, which is quite troublesome, so it certainly should be addressed later.

Now, the Giant Beast Clan King must be dealt with.

...

Thinking of this, Yang Chen didn't waste any time.

Half a month later, he left the Xuandao Sect and made his way to the vicinity of Luo Star Island.

Upon approaching Luo Star Island, Yang Chen's powerful aura emerged, quickly catching the attention of Star Child Heavenly Venerate.

In just a blink of an eye, Star Child Heavenly Venerate used Instantaneous Movement to appear in front of Yang Chen.

"Yang Chen, why are you here?" Star Child Heavenly Venerate asked in surprise, as if he had seen a ghost.

Yang Chen smiled and said, "Senior, can we talk more closely?"

Star Child Heavenly Venerate frowned, not knowing the purpose of Yang Chen's sudden visit to Luo Star Island.

He had to admit that Yang Chen was now a prominent figure among humans.

Especially after the battle at the spatial nodes, Yang Chen was now rumored to have reached the Divine General Nirvana Stage, becoming famous in all four directions and unrivaled!

At this point, the entire Luo Star Island was aware of Yang Chen's existence; even Star Child Heavenly Venerate could no longer see him as the weak little guy he used to be.

Therefore, his speech had become more cautious and respectful.

"We are currently discussing some urgent matters, which are related to the battles between our Luo Star Island and the surrounding small clans. Yang Chen, my friend, if you have something to say, please say it here." Star Child Heavenly Venerate said.

"Oh? That's even better. My purpose for coming here is to help Luo Star Island, to resolve these battles," Yang Chen said.

"What? Is that true?" Star Child Heavenly Venerate was dumbfounded, never having thought that Yang Chen was here to help him.

Yang Chen lightly smiled, "Of course it's true."

"That's great; please come with me." Star Child Heavenly Venerate's attitude changed immediately, and he led Yang Chen.

Little did he know that Sky Canine Supreme had died at the hands of Yang Chen, but even if he knew now, understanding the details, his attitude would not change much.

However, Yang Chen did not say much about this matter, since there was no need to talk about Sky Canine Supreme's death.

Star Child Heavenly Venerate led Yang Chen to the Conference Hall.

At this moment, the hall was filled with many Nirvana Stage experts from Luo Star Island, while a large number of Enlightenment Stage cultivators were spread around, listening quietly.

When Star Child Heavenly Venerate led Yang Chen in, it immediately caught the attention of many people. Everyone looked at him curiously, wondering why Yang Chen came to Luo Star Island.

“Star Child Heavenly Venerate, who is this...”

“Brother Yang Chen, why are you here?”

Many Nirvana Stage experts thought of the rumors about Yang Chen entering the Divine General Stage, and their attitude towards him became respectful.

Even those who used to think they were a realm higher than Yang Chen, the Nirvana Stage, were no exception!

Star Child Heavenly Venerate was still puzzled about the situation. He said, “Yang Chen just said that he wants to help our Luo Star Island with the battles between us and the surrounding small clans, is it true?”

“Of course it’s true,” Yang Chen said.

“Why?” Star Child Heavenly Venerate sounded helpless, “Yang Chen, my friend, it’s not so easy for me to invite you now. If you help us, there must be a reason, right?”

Yang Chen knew the doubts in the minds of these people, and he said: “Actually, I don’t care much about the surrounding clans. The key point is the Giant Beast Clan. Back then, the Giant Beast Clan King killed Mu Gufeng, and now that I have obtained the Divine Annihilator Spear, I have to take responsibility for it. Naturally, the revenge must be carried out by me.”

“You are here to kill the Giant Beast Clan King?” Many Nirvana Stage experts were shocked.

“Yang Chen, do you know how powerful the Giant Beast Clan King is? Back then, despite his extraordinary talents, Mu Gufeng only managed to suppress the Giant Beast Clan King slightly with the help of the Divine Annihilator Spear. Now, so many years have passed, and the Giant Beast Clan King’s strength has increased a lot. His current strength has already reached the level of 5,000 Dao Intent Inscriptions!” A Nirvana Stage expert said.

But at the next moment, Star Child Heavenly Venerate waved his sleeve: “Forget about that for now. Yang Chen, I ask you!”

Yang Chen said with a smile: “Please do, Star Child Senior!”

“Is it true that you have entered the Nirvana Stage?” Star Child Heavenly Venerate asked.

Upon hearing this, Yang Chen released a wisp of his Qi.

The Nirvana Stage aura spread out, telling everyone present that he had indeed reached the Nirvana Stage.

Many people were dumbfounded by this sight.

Yang Chen had actually entered the Nirvana Stage!

Didn’t this guy just recently reach the Enlightenment Stage? Now he is already in the Nirvana Stage?

Many people took a deep breath and felt uneasy in their hearts as they perceived the terrifying aura emitted by Yang Chen.

Seeing that Yang Chen had indeed entered the Nirvana Stage, Star Child Heavenly Venerate was delighted: “Is it true that you have reached the Divine General Stage, and you have defeated many Netherworld Ghost Generals at the spatial nodes, making you invincible?”

“Invincible might be an exaggeration. However, I did indeed kill quite a few Netherworld Ghost Generals. As for reaching the Divine General Stage, that is also true,” Yang Chen did not deny it.

As soon as these words fell, the entire audience became silent.

At this moment, everyone’s gazes towards Yang Chen became extremely welcoming.

What a joke!

Of course, they would be welcomed!

Who wouldn’t welcome a God General-level powerhouse like Yang Chen?

They were all extremely troubled by the battles, and now that a super-powerful figure like Yang Chen has arrived, it was undoubtedly a great help.

Yang Chen also said: “The Divine Annihilator Spear had many ties with Luo Star Island in the past. This time, I wanted to repay that kindness and also to avenge Mu Gufeng. I hope everyone can give me this opportunity!”

Yang Chen had always distinguished between gratitude and grudges.

As for this opportunity?

Give it? As a joke, who wouldn’t give it!

Chapter 2440: Ambushed\_1

Star Child Heavenly Venerate laughed and said: “Yang Chen, my friend, you must be joking. With your top-notch combat power, who wouldn’t welcome you? I, Star Child Heavenly Venerate, am definitely the first one to welcome you. We were originally worried about how to handle the battle, but now that you’ve arrived, it has solved our urgent problem.”

Yang Chen asked in confusion: "What is the urgent matter that Senior Star Child speaks of?"

"Well... It can't be said to be an urgent matter. But being held back for a long time is not good news for our Luo Star Island. Now that you've arrived, Yang Chen, my friend, it's necessary for you to know the situation of the battle. Let's start from the beginning, when you and your friend Ye Kun talked."

Yang Chen nodded.

At that time, Ye Kun's main concern was to cooperate with Star Child Heavenly Venerate, who also hated the Giant Beast Clan to the bone and planned to work with Ye Kun to deal with the Giant Beast Clan.

But obviously, this hasn't yielded any results, otherwise he wouldn't have come to this place.

Star Child Heavenly Venerate sighed, "At that time, Ye Kun collaborated with our Luo Star Island. The plan was very detailed. We were to work together to eventually eradicate the Giant Beast Clan, but unfortunately, our Luo Star Island was careless."

"What do you mean?" Yang Chen asked in confusion.

Star Child Heavenly Venerate shook his head helplessly: "When we led the army to the Giant Beast Clan, we thought they wouldn't have discovered anything. But when we arrived, we discovered that the Giant Beast Clan actually knew about it somehow. They set an ambush in their territory, and many smaller groups of powerful beings were hiding inside. They prepared in advance, causing us and the Black Demon Clan to pay a heavy price."

"What, the Giant Beast Clan discovered it in advance?" Yang Chen was suddenly shocked.

"Yes, it's very strange. The only explanation is that either our information leaked from our side or from Ye Kun's side!" Star Child Heavenly Venerate shook his head and sighed: "But when we discussed this, the plan was made in great detail. There was no reason for leaks. After Ye Kun returned, he would never tell anyone about this. But in the end, the news was leaked."

“If only we knew which mole leaked the news, then the Giant Beast Clan would have already been taken down by us.”

“Exactly, if I find out who the mole is, I’ll never let him go!”

A group of people looked at each other with hatred and anger, showing that the battle at that time must have been costly.

“With Senior Star Child’s ability, even if the Giant Beast Clan had set an ambush, the damage wouldn’t have been too severe, right?” Yang Chen asked in confusion.

“Yang Chen, you don’t understand. The Giant Beast Clan cooperated with many surrounding smaller sects, gathering no small number of Nirvana Stage Experts. Their number is not far from that of our Luo Star Island. The key is, among these smaller sects, there is a Celestial Expert from the Glacial Clan, and it’s precisely because of this Celestial Expert that our Luo Star Island has not been able to take down the Giant Beast Clan for so many years.” Star Child Heavenly Venerate sighed.

Yang Chen nodded, now understanding the situation.

“What happened then?” Yang Chen questioned.

“Afterwards, the Giant Beast Clan shifted their main target to the Black Demon Clan!” A Nirvana Stage Expert next to Yang Chen explained.

“What!”

Yang Chen’s face grew solemn.

The Giant Beast Clan is too despicable.

Knowing that Luo Star Island wanted to cooperate with the Black Demon Clan to annihilate the Giant Beast Clan, they directly joined forces with many other sects to focus on eliminating the Black Demon Clan first.

“Since they targeted the Black Demon Clan, our Luo Star Island became passive. After all, we had a sworn alliance with the Black Demon Clan, and we couldn’t just ignore them. This led us to need to frequently help the Black Demon Clan. As a result, it was easy for the Giant Beast Clan to take advantage of us. One or two times it might be fine, but after many times, the Giant Beast Clan and other smaller sects had many ways to ambush us!” Star Child Heavenly Venerate said coldly.

“The key is that it’s hard for us to gain an advantage in dealing with the Giant Beast Clan and many other smaller sects. In the long run, it’s really...”

Having listened, Yang Chen fully understood the situation.

There must be a mole leaking information on the human side.

Otherwise, how could the Giant Beast Clan calculate their moves so perfectly? They seemed to know the human plan like the back of their hand.

“Being unable to conquer them is the most troubling thing. Now both we and the Black Demon Clan have suffered heavy losses. But since you, Brother Yang Chen, are here, we can make another plan!” Star Child Heavenly Venerate laughed.

Speaking of making a plan, it’s actually just not giving the initiative to the Giant Beast Clan and launching an active attack. It’s not an ingenious plan at all.

But for Yang Chen, whether or not a strategy exists, it’s all the same.

Because, in the face of absolute strength, strategy equals zero.

Of course, when Luo Star Island wants to make a plan, he will just listen. After all, he hasn’t reached the Heavenly Lord Stage yet.

As such, the people of Luo Star Island decided on a surprise attack.

After all, no one could know for sure about the existence of the mole. Maybe Yang Chen would arrive today, and the news would leak tomorrow, allowing the Giant Beast Clan to make a counter plan. That would not be worthwhile.

So, the faster they took action, the better.

On the second day, a group of people moved mightily across the sea, heading straight for the Giant Beast Clan's territory.

Luo Star Island was not far from the Giant Beast Clan. Once they crossed this sea area and reappeared, it was the Giant Beast Clan's territory.

The people of Luo Star Island were still full of trepidation in their eyes.

After all, it was rumored that Yang Chen had reached the Divine General level, and he himself had also claimed to be at the Divine General Stage, but no one knew exactly how strong Yang Chen was!

At this moment, the group arrived in the airspace above the Giant Beast Clan's territory.

For experts of their level, they engaged in battles at a moment's notice. As soon as they arrived, Star Child Heavenly Venerate waved his hand without saying a word, and a dazzling array of stars shone in the sky.

Then, a large number of dark beams of light fell from the sky, aiming straight at the Giant Beast Clan's territory and bombarding it.

As it happened, a huge Ice River Clan Venerable suddenly appeared from within the Giant Beast Clan, saying coldly: "People of Luo Star Island, you dare to come here. It seems that you haven't paid enough to be convinced by our previous battles. Hmph, if you dare to come again, I'll make sure you never return."

Seeing that his attack was blocked by the Ice River Clan Venerable, Star Child Heavenly Venerate said in a deep voice: “Hahaha, Glacial Clan, do you really think that by uniting with many smaller sects, you can resist the Human Race? I’m telling you, you’re dreaming!”

“Hahahaha, dreaming? Star Child Heavenly Venerate, I think the one dreaming is you. Hehe, you guys really picked the right time to come. I thought that the Giant Beast Clan King would go and sneak attack the Black Demon Clan and nothing would go wrong. I didn’t expect you guys to really come. But luckily, we’ve been well-prepared and have been waiting for you. Look at the formation!” The Glacial Clan Venerable sneered.
