### Chapter 2531: This Kid's Dao Techniques Are Too Poor\_1

In the Holy Domain, the overall assessment of geniuses is very strict.

“This kid is now in the First Floor, well, it seems to be starting.”

“Take a quick look!”

In an instant, a group of Divine Law Palace Elders, all turned their attention here, fully focused on the investigation.

Yang Chen didn't know that everything he did in the Sea of Trials was being observed by the Elders of the Divine Law Palace.

Nowadays, he is in the Sea of Trials, first looking around.

This is his habit, observing the surrounding situation.

There's nothing but an endless ocean.

Looking at this ocean, Yang Chen sighed, knowing it was fake, but feeling as if it were real.

This made Yang Chen observe carefully and whispered, “Is it the power of the law that makes it so real? Or is the existence of the law itself related to the creation?”

As Yang Chen thought about this, the Sea of Trials ceased to be calm.

The entire sea area began to roll in layers, wave after wave.

Immediately, with rampant power, a large number of creatures were born in Yang Chen's soul!

"Ancient Beasts? No, in the terms of this interface, it should be Fierce Beasts!"

Yang Chen mumbled to himself.

When the conversation ended, his vision was filled with the shadows of Fierce Beasts from all sides. These beasts appeared in layers, flickering at an extremely fast speed in front of Yang Chen, roaring as they launched an attack on him.

"Are they all Nirvana Stage Fierce Beasts?" Yang Chen was incredibly surprised.

A group of fierce beasts came up, and when Yang Chen was surprised, he quickly made a move.

The palm wind howled away, and Dao Intent Inscriptions were instantly displayed like thunderbolts. Then, a fierce beast was directly shattered on the spot.

"It looks pretty scary, but it's not strong. It only has a few hundred Dao Intent Inscriptions!" Yang Chen said calmly.

He counted several dozen of them.

For a few hundred Dao Intent Inscriptions level Fierce Beasts, even if dozens of them come up at the same time, there's not much pressure on him.

However, that's not the case for other Nirvana Stage Experts.

Dozens of Fierce Beasts with hundreds of Dao Intent Inscriptions coming up together is a spectacular and terrifying sight.

These Fierce Beasts act together without any intelligence, so although their combat power is considerable, they don't cooperate. It's still easy to defeat several dozens of them at once.

Yang Chen unfolded Dao Intent Inscriptions and rampaged swiftly.

Effortlessly, in the blink of an eye, dozens of Fierce Beasts turned into blood mist, unable to withstand a single blow.

Then, the First Wave completely collapsed!

But the entire Sea of Trials hadn't calmed down.

There were approaching sounds, and approaching beasts.

Yang Chen could hear it, feeling a slight tremor in his heart, knowing that the stronger Second Wave was coming soon.

Finally, several more massive Fierce Beasts appeared in Yang Chen's vision.

First, several of them pounced over, and then, several more came one after another.

Yang Chen took a glance, carrying his hands on his back, Dao Intent Inscriptions flashed, Life and Death, Spacetime, effortlessly killing another beast.

"A thousand Dao Intent Inscriptions level. Twelve of them, although the number is much smaller than the previous wave. But these beasts don't have any intelligence, so the key is individual power, the number is meaningless." Yang Chen mumbled to himself: "Slightly tricky."

However, no harm was done. To him, there was no difference.

He unfolded his Dao Intent Inscriptions, and without even needing to use Dao Techniques, these Fierce Beasts were quickly shattered again.

Then, the Third Wave began!

At this time, the outside world was silent.

Many people didn't know the situation inside, but seeing that Yang Chen hadn't come out for so long, they couldn't help asking.

"It should be the Second Wave now."

"Well, although the First Wave is not much of a threat, it still takes a long time to solve dozens of Fierce Beasts. Now it should be barely in the Second Wave."

"Examiner, what wave is Yang Chen on now?"

Many people asked.

If only one person asked, the Examiner would have ignored it. But when so many people asked, the Examiner couldn't just remain silent. Taking a deep breath, he said: "He's already on the Third Wave."

"What?!"

"Already on the Third Wave?"

"So fast?"

People exclaimed, while the Elders of the Divine Law Palace, watching the Sea of Trials scene from the mirror, were equally amazed.

“He’s already on the Third Wave.”

“This little guy doesn’t seem to be particularly good at Dao Techniques, but his Dao Intent Inscriptions are very fierce. I wonder what Dao Techniques he has that he could pass two consecutive waves? Unbelievable.”

“This kid’s Dao Intent Inscriptions are a bit strange. I don’t know what Dao Techniques. I’ve heard he has nine kinds of Dao Intent, and there are rare and special Dao Intent among them.”

“Let’s keep watching. He easily passed the two waves. This kid has some ability. I just don’t know his performance in the Third Wave!”

The Third Wave had arrived!

This time, the number of Fierce Beasts was reduced significantly, but the number of Dao Intent Inscriptions reached more than three thousand!

Three thousand Dao Intent Inscriptions, and there are nine of them!

For Ordinary Nirvana Period Experts, nine Fierce Beasts with three thousand Dao Intent Inscriptions are already quite dangerous.

“I have to use some methods. Fortunately, my strength has recovered some. It’s not difficult to solve these,” Yang Chen muttered to himself.

On his way to the Holy Domain, he also recovered much of his strength, reaching as much as eighty percent, close to ninety percent.

With this strength, although he could not display more than ten thousand Dao Intent Inscriptions, it is no problem to show eight or nine thousand!

Dao Technique: Divine Fire Breath!

Pure fire burned instantly, annihilating everything in its path. In the blink of an eye, space was enveloped, and a Fierce Beast was burned alive by Yang Chen on the spot.

Immediately, Yang Chen held the Long Spear in his hand and swept it out. The Ancient God Spear Technique was brutally executed.

“This kid’s Dao Technique level is too low,” sighed the powerful Elders of the Divine Law Palace, “With this level of Dao Technique, has this kid never been cultivated by any other forces?”

“Even a small force, with such a powerful genius, should have done everything they could to find more powerful Dao Techniques for him.”

“This Dao Technique is too bad. Could it be that he has been cultivating on his own all the way to this point?”

“Impossible, right? If it’s true, it would have taken him more than fifty years to reach the Nirvana Stage, with so many Dao Intents. What a terrifying existence would that be?”

“Don’t be in a hurry, keep watching. Maybe this kid isn’t in a hurry to show his trump card? I think his Dao Technique can’t be that simple!”

“Yes, let’s keep observing carefully...”

A group of powerful Elders from the Divine Law Palace discussed.

At the same time, Yang Chen had almost dealt with the Third Wave of Fierce Beasts.

Indeed, his Dao Technique level was somewhat inadequate, but his Dao Intent Inscriptions’ power and level had an absolute advantage.

Chapter 2532: The Seventh Wave!\_1

Life and Death Dao, Space and Time Dao.

Merely these two kinds of Dao are not something these fierce beasts can compare with.

After the third wave was resolved, the fourth wave began.

Mo Baiyu fell during this fourth wave, because of a mistake, he did not step into the threshold of top genius.

The fierce beasts of the fourth wave have now emerged, showing an even more terrifying combat power than the third layer.

“Four thousand five hundred Dao runes, seven of them!” Yang Chen muttered to himself, shook his head, and had to admit, these fierce beasts have begun to give him considerable pressure.

Seven fierce beasts attacked from different directions.

Yang Chen had no choice but to use his own Dao techniques.

“Fifty Layers of Gold Butterfly, break!”

Yang Chen aimed at a fierce beast first, and instantly killed it with a quick flicker.

To deal with these fierce beasts, one must break them one by one. Kill one and then deal with the others.

With his golden butterfly and various other Dao techniques, solving these fourth wave beasts is not difficult.

For him, breaking one four thousand five hundred Dao inscriptions-level beast one by one is effortless, not a difficult task at all.

Since these fierce beasts had no cooperation between them, as long as he could instantly kill a beast in one second, this wave would not pose a threat to him for the time being.

After the fourth wave ended, the Sea of Trials fell into a brief silence.

The seawater had no temperature and remained unsettled.

The environment of the entire Sea of Trials seemed to gradually turn into a dark night after the fourth wave ended...

“Is it coming?” Yang Chen murmured to himself.

He sensed the dangerous feeling from the darkness after the fourth wave ended, with the arrival of the fifth wave.

It started with the roar of a fierce beast.

Immediately, a giant figure appeared in front of Yang Chen, blocking out the sky and casting a massive shadow.

Next, a giant bird with outstretched wings appeared, followed by a huge ape, and a crawling spider.

These fierce beasts are enormous and ferocious in appearance but lack wisdom. Now that they have appeared here, they are ruthlessly charging towards Yang Chen without any hesitation.

Yang Chen first used the Ancient God Spear Technique to test the level of these fierce beasts.

This spear pierced through and collapsed a fierce beast, no matter how large the body, it could not withstand Yang Chen's attack. Instantly, it turned into ashes!

"Six thousand Dao inscriptions level," Yang Chen muttered to himself, concluding.

Even so, it was still not in the same class as him.

He went for another attack and killed again within a second.

Six six-thousand Dao inscriptions-level beasts were completely defeated by him, not one left.

The fifth wave ended, and the sixth wave began.

This scene made the examiner cry out in surprise.

Upon hearing this cry, the other examinees stared in disbelief, wondering, "What level is Yang Chen at now, after dealing with the sixth wave?"

"He has just finished the fifth wave and is about to face the sixth wave."

"Wha, what, could it be that this guy could reach the level of an unparalleled genius?"

"Reaching the level of unparalleled genius in actual combat? This is simply..."

Now, Feather Plume's eyes were filled with joy and even some admiration. You know, even if Yang Chen achieved the level of an unparalleled genius in three out of four exams, his final score would still be at the level of an unparalleled genius.

But Yang Chen insists on achieving perfection in all four exams, just to show that he reached this level not by luck in any single exam.

Everything about him is perfect!

This is the true genius!

This is the true king.

But Yang Chen remained modest and low-key throughout. Who wouldn't be tempted by such a man?

Yu Chaoying admitted her loss wholeheartedly, realizing that Yang Chen was already facing the sixth wave. She knew she had lost thoroughly.

Mo Baiyu is simply not on the same level as Yang Chen in terms of genius.

This is also considered being born at the wrong time. Many people feel that being born in the same era as Mo Baiyu is unfortunate. However, in this world, there must be even more monstrous geniuses than Mo Baiyu. It's just that no one expected such a monstrous genius to appear here, completely defeating Mo Baiyu.

"I lost." Yu Chaoying sighed.

Feather Plume tucked in a smile, not ridiculing any further. At this point, any mockery is meaningless.

Meanwhile, the examiner was suddenly startled again.

Without waiting for others to ask, he laughed, "The sixth wave is also over..."

Everyone was shocked, but they soon calmed down, as if they could accept anything abnormal that happened to Yang Chen.

Meanwhile, the elders of the Divine Law Palace stared wide-eyed.

If it was another genius who had overcome the sixth wave, they wouldn't be so surprised. But after Yang Chen passed it, they were completely unsettled.

Others could not see Yang Chen's achievements, but they knew what was going on.

Yang Chen defeating the sixth wave relied on those inferior Dao techniques that were almost too mediocre to be used in their eyes.

Even in the outer circle of the Holy Realm, the techniques used by geniuses were stronger than these.

"This kid is still using the lowest level techniques to defeat these fierce beasts. This is the sixth wave!"

"He can't possibly not use his full strength during the sixth wave, right?"

"Could it be that this guy really only has these Dao techniques?"

"This... this... This kid achieved this level under such unfavorable conditions outside? What level of genius must he be?"

The elders of the Divine Law Palace were all shaken.

They saw the essence of things.

And Yang Chen's performance shook their understanding of the essence.

Now, Yang Chen faced the attack of the seventh wave!

The attack of the sixth wave already had a level of seven thousand five hundred Dao inscriptions. The power of five fierce beasts coming together posed quite a problem for Yang Chen.

He could now only reach a level of eight thousand plus Dao inscriptions. He was still one level higher than the sixth wave, so in the end, relying on the strong Life and Death Dao and Space and Time Dao, he achieved the final victory!

Now, the seventh wave of fierce beasts is gradually approaching.

Before they arrived, Yang Chen could already feel the power within the surging waves.

"I wonder what the strength of this seventh wave of fierce beasts is like..." Yang Chen muttered to himself.

Also unknown, was whether he could overcome this seventh wave with his current state!

After all, he had already felt barely able to cope with the sixth wave and sensed the threat to some extent.

Chapter 2533: Assessment Ends\_1

The seventh wave of fierce beasts arrived.

Only four fierce beasts of colossal sizes attacked from four different directions, all of them exuding astonishing auras!

Yang Chen had no idea where these fierce beasts had come from, and for a moment, his expression grew taut and extremely serious.

As usual, he decided to test the waters first.

He directly launched an attack with his spear!

A simple strike hit one of the fierce beasts, but evidently, it had no effect!

This made Yang Chen's scalp tingle. His attack couldn't even hurt these fierce beasts, which meant that the abilities of these fearsome beasts might have reached the same level as his own.

"Roar!"

After letting out deafening roars, the four fierce beasts launched their attacks.

Their savage attacks weren't particularly flashy, but their power couldn't be underestimated.

"Rumble..."

Yang Chen had no choice but to use his Dao Intent Inscription techniques to resist, but as soon as he blocked an attack, he was forced to retreat, his body feeling somewhat out of control.

"This..."

Yang Chen's eyebrows furrowed, and seriousness showed in his eyes.

"Nine thousand Dao Intent Inscriptions, four beasts..."

Yang Chen almost gasped with horrified astonishment.

His current Dao Intent Inscription level was around nine thousand. Since he couldn't use his full strength, his over ten thousand kinds of Dao Intent couldn't be unleashed simultaneously!

That is to say, he was now in the same league as the four fierce beasts. His techniques were far from enough to crush the seventh wave of beasts as he had done with previous opponents.

Now, facing the four fierce beasts at once, even if he used Dao techniques, he was still bound to lose!

This made Yang Chen's expression darken. He took a breath, planning to use his double strongest Dao Intent first to slay one of the fierce beasts!

"If I can use my full strength, this seventh wave is still winnable!"

Yang Chen gritted his teeth.

"Nine Turns Berserk, open!"

Yang Chen's Sa Qi suddenly surged to the sky, startling several elders of the Divine Law Palace.

"He can control Sa Qi? Is this kid endowed with some unique constitution that allows him even to control Sa Qi? Unbelievable!"

Everyone was astonished to see Yang Chen producing Sa Qi. It seemed like they had little experience with it. They were all dumbfounded when they saw it.

Having activated Nine Turns Berserk, Yang Chen managed to alleviate some pressure. Using the Sa Qi to stall two of the fierce beasts, his spear technique instantly gathered.

"Eighty-layer Golden Butterfly!"

"Go!"

Aiming at a fierce beast, he gathered various Dao Intents and used the Eighty-layer Golden Butterfly to strike!

“This kid’s Dao techniques are too inferior. He actually used Dao Intent like this, using one technique as a base, integrating other Dao Intents into it, and sending out an explosive strike...”

Many Divine Law Palace elders secretly shook their heads and sighed.

Yang Chen’s attack hit a gorilla-like fierce beast that was as large as the Black Mountain black bears. Facing Yang Chen’s blow, the gorilla raised its huge palm to resist the attack.

Yang Chen yelled out as the Golden Butterfly’s power erupted.

However, the gorilla roared as well and struck back with a palm, sending Yang Chen flying!

Yang Chen’s pupils shrank, his face filled with shock.

This gorilla with nine thousand Dao Intent Inscriptions was not measured by the Spirit Realm’s standards but rather by the Southern Realm’s!

It could knock him away with one slap?

Yang Chen said somberly, “If I could use my full strength, this attack would have taken its life. If I could create a Dao Intent incarnation, killing this gorilla would be even easier. However, since I can’t use my full strength, my over ten thousand kinds of Dao Intent couldn’t be unleashed, and neither could I create the Dao Intent incarnation!”

Although there was only a difference of one thousand Dao Intent between nine thousand and ten thousand, it was like a chasm to Yang Chen!

Yang Chen sighed inwardly but steeled himself to fight again.

“Use Ancient God’s Fury!”

Without hesitation, Yang Chen activated Sa Qi, Space-Time Dao Intent, and Life and Death Dao Intent as they rapidly targeted the gorilla.

The next moment, Yang Chen disappeared from his original position. When he reappeared, he was above the gorilla's head!

"Roar!" The gorilla saw Yang Chen and was furious, feeling that this little creature had no right to move around within its field of vision!

It slapped out once again, challenging Yang Chen's Ancient God's Fury!

In the collision, Sa Qi ran rampant, Dao Intent tumbled, and the entire space became unstable.

Yang Chen stared at the gorilla, unleashing his full power.

"Die!"

Victory would belong to the one who was stronger.

The weaker one would die!

"Break!" Yang Chen's Ancient God's Fury unleashed his current strongest force. All the Dao Intents erupted at that moment, and in one breath, he killed the gorilla on the spot, ending its life!

Once the gorilla was dead, the other three fierce beasts also rushed forward, forcing Yang Chen to use Space-Time Dao Intent to vanish from the scene.

Looking at the three fierce beasts, Yang Chen shrugged and showed a bitter smile: "It seems that I won't make it past the seventh wave. The sixth wave is my limit. It's a pity that if I could exert my full strength, the seventh wave would've been an easy task."

Although Yang Chen wasn't satisfied, he had already overcome the hurdles of unparalleled geniuses. He wasn't too concerned about anything else and simply admitted, "I concede!"

A thundering sound spread throughout the Sea of Trials.

The three fierce beasts, who had been about to attack Yang Chen, strangely stopped in their tracks.

Then, in the center of the Sea of Trials, a large gate appeared, radiating light. Yang Chen vanished from the scene and appeared outside the gate.

Outside the gate was the fourth floor of the Tower of Heavenly Revelation. He had returned to where he started.

When he returned, the examiner announced, "Yang Chen, halt at the seventh wave, complete the sixth wave. Unparalleled genius..."

With that said, everyone was shocked, not knowing how to describe Yang Chen's achievements.

He had passed the test of the top Unparalleled geniuses on all four layers.

It seemed that his actual combat skills were just slightly better than those of the first three layers. But even there, Yang Chen was still in the ranks of talented geniuses!

Had they known that Yang Chen's failure to overcome the seventh wave was due to him not being able to utilize his full strength, they would have had a different opinion.

Now, without a doubt, Yang Chen had become the focus and the center of attention.

Feather Plume looked at Yang Chen with admiration, her eyes filled with a very obvious sense of closeness.

Chapter 2534: Seven Swords Pavilion\_1

These elders of the Law Divine Palace were also secretly observing as Yang Chen came out of the Sea of Trials.

“This kid, he really knows nothing about Dao techniques. What kind of techniques is he using? If this kid had the help of our Holy Domain’s Dao Techniques, he could definitely soar to the skies!” Elder Han said on the spot.

At this point, many elders of the Law Divine Palace were not optimistic.

Elder Han, you shouldn’t get too excited too early. At first, I thought this kid was holding back and not using his Dao Techniques, but in the end, he really doesn’t have any powerful Dao Techniques. What kind of Dao Techniques is he using? The lowest level of Dao Techniques, you can even say the most garbage level. These techniques are no different than not having any at all. What’s the difference between using these techniques and an uncultured savage?”

“What are you trying to say?” Elder Han became puzzled when he heard the questioning.

“Elder Han, I’m not trying to put you down. Learning Dao Techniques is not just about talent, it also depends on one’s comprehension. Comprehension is very vague. Although there are very few people in the world who have poor comprehension and can’t learn Dao Techniques, they are not unheard of. This kid is excellent in other aspects, but who can guarantee that he has no shortcomings?”

“This comprehension might be where your flaw lies. Heh, he might really not be able to learn Dao techniques.”

“Don’t even mention it, it makes some sense.”

“This kid might really not be able to learn Dao techniques...”

“In the past, there were some exceptional talents with extremely poor comprehension, which led them to be unable to learn any Dao Techniques. The highest level of Dao Techniques were unattainable, and even though they had cultivation value, they couldn’t reach their expected height.”

“It’s indeed possible. This kid is like a wild man who doesn’t know any Dao Techniques. It’s completely impossible to reach this realm. Even if his chances are very poor, he should have some impressive Dao Techniques, right?”

Hearing this, Elder Han could not help but not feel happy.

He knew that these elders of the Law Divine Palace were jealous, jealous that he had found such a genius.

But what these people said wasn’t unreasonable either!

Even, there was some truth in their words, which he couldn’t refute.

This made Elder Han worried. What if Yang Chen was indeed excellent in other aspects but had extremely poor comprehension as a flaw.

If Yang Chen had average comprehension, it would be fine. At least, he could still learn Dao Techniques by spending more time. However, if his comprehension was absurdly poor and he couldn’t control the most powerful Dao Techniques, then it would be a big problem.

As he thought about it, all he could say was, “Hmph, I think you’re just jealous of me. Alright, enough of the nonsense. It’s our turn now.”

At this time, the examiner had gathered all the candidates and then said, “Everyone, your results from the four assessment layers are recorded in this stele inscription, and the final results have been sorted. The final results will evaluate your talent level. Subsequently, you will be sent to different places and receive different treatments!”

Upon hearing this, many people became nervous.

After all, it was related to their treatment, so who wouldn’t be anxious?

The examiner was about to open his mouth, but at this moment, several elders from the Law Divine Palace appeared here.

With Elder Han leading the way, the elders of the Law Divine Palace appeared and said on the spot, "I'll announce the results."

"Elder Han?" The examiner was astonished when he saw Elder Han and a few others appear. He quickly handed the inscription with the examination results to Elder Han.

Elder Han just pinched it lightly, and the content of the record was understood in one go.

"Zhang Guang, the total score of the four assessments is 180, Ordinary Genius."

"Liu Liang, the total score of the four assessments is 320, Outstanding Genius."

"410 points, Outstanding Genius."

"210 points, Ordinary Genius!"

"300 points, Outstanding Genius."

Most of the geniuses were only at the level of Ordinary Genius and Outstanding Genius.

"He Mingke, the total score for the Thought Assessment is 480, Outstanding Genius... Well, due to the high score in the assessment, you're eligible to be assigned to the Great Cloud Pavilion," Elder Han arranged.

"Assigned to the Great Cloud Pavilion?" Upon hearing this, the man named He Mingke became extremely excited.

You should know that most of the geniuses were assigned normally, and their treatment was ordinary. Only a few geniuses were qualified to be assigned to a 'Pavilion', which was one of the stronger symbols for geniuses.

"Mo Baiyu, the assessment score is 634, Top-level Genius. Well, you have just barely qualified to be assigned to the Seven Swords Pavilion." Elder Han said calmly, "My fellow elders, who would like to receive this Mo Baiyu personally?"

Hearing that an elder would personally receive them, many people became envious and jealous.

Without a doubt, having an elder personally receiving them was an honor.

Even the genius who was just assigned to the Great Cloud Pavilion didn't have the qualification to be received personally by an elder, but Mo Baiyu was on a higher level, and thus qualified to be personally received by an elder of the Law Divine Palace.

"I'll do it." One of the Law Divine Palace elders, seeing that he couldn't compete for Yang Chen, could only set his sights on Mo Baiyu.

Mo Baiyu was somewhat dejected, but having a powerful elder to receive him was also a sign of honor. He could only accept the situation as it was.

Then, Elder Han turned his gaze to Yang Chen and said calmly, "Yang Chen, the total assessment score is 1,214, Unparalleled Genius. Well, not bad, Yang Chen. It's a pity that your combat ability is slightly lacking, otherwise breaking the record wouldn't be a problem. As it is, you are only just on par with the highest record of our Holy Domain. Your combat ability needs further improvement, so make sure to focus on your training after you return."

Yang Chen listened to Elder Han and gave a wry smile. Although he had his own reasons, he didn't bother to explain and just agreed.

Elder Han said, "In your case, I will personally receive you. My fellow elders, any objections?"

“Hehe, objections? I wanted to receive him too, but you didn’t want us to, Brother Han.”

“Yes, we also wanted to receive this Yang Chen, but you were not willing. We had no other choice. If you were willing, we wouldn’t have so much to say!”

Hearing this, Elder Han fiercely stared at them. It was clear that he was telling them not to have any ideas about Yang Chen.

This made the other elders chuckle secretly, “Haha, Brother Han, your eyes are too fierce. Alright, we won’t compete with you. Yang Chen is yours!”

Chapter 2535: Top-notch Treatment\_1

These elders of the Law Divine Palace couldn’t help but to have countless thoughts in their hearts. After all, once they received Yang Chen, it would bring multiple benefits. Who wouldn’t want to do this good deed?

However, since the rules were as such, they couldn’t compete with Elder Han and could only helplessly give up.

Elder Han saw the envious and jealous expressions of these people, the corners of his mouth raised, and he naturally felt very happy. He said, “Yang Chen, my young friend, let’s go. I will take you to the Seven Swords Pavilion!”

Yang Chen originally wanted to agree, but soon thought of something.

He turned his head and looked at Feather Plume.

After all, Feather Plume had led him here all the way. She had been very busy from beginning to end. He couldn’t just go to the Seven Swords Pavilion now and leave her here.

“What’s the matter?” Elder Han asked with surprise.

“It’s like this. Miss Yu led me all the way here. She is my introducer. Now that I’m going to the Seven Swords Pavilion...” Yang Chen said.

Hearing that Yang Chen still cared about her, Feather Plume felt warmth in her heart. As their introducer, once the people they introduced became successful, most of them would forget about them.

Just like Mo Baiyu just now, he left without any hesitation, not even remembering Yu Chaoying’s involvement.

But she didn’t expect that Yang Chen still remembered her.

Seeing this scene, Yu Chaoying also felt extremely jealous. Although they also had other ways to profit, they had still painstakingly brought their introducers here. Seeing their referred people being taken away like this, how could they not feel depressed!

“Ah? You mean the little girl from the Divine Maiden Clan? Her talent is still not enough to enter the Seven Swords Pavilion. As for the reward, if she introduces you to the Matter Pavilion, she will get a substantial reward. You don’t have to worry about her.” Elder Han said with a smile.

Yang Chen, upon hearing this, didn’t have any reason to refuse. He nodded and exchanged glances with Feather Plume before he left.

Seeing this, Feather Plume couldn’t help but feel a sense of defeat!

Being a member of the Divine Maiden Clan, she was seen as extremely noble by ordinary people. But now, she felt more and more distant from Yang Chen and even felt that she could no longer catch up with his pace!

The Seven Swords Pavilion was a completely distant existence for her.

Indeed, her talent was limited, and even after staying in the Holy Domain for so long, she had only reached this level.

...

At the same time, Elder Han had already taken Yang Chen away from the Tower of Heavenly Revelation. As they left, countless envious gazes were cast at Yang Chen. They couldn't help but fantasize about how wonderful it would be if they were like Yang Chen!

"Young Brother Yang Chen, from now on, I will be the person in charge of you. If you have any problems or troubles, you can come to me. In addition, you can also take me as your master. If you take me as your master, I can provide you with better care and treatment!" Elder Han said with a smile, "Just a reminder, my strength has already reached the Boundaryless Stage!"

Yang Chen had already sensed Elder Han's high cultivation level.

Having seen Sun Zu, he naturally knew what a Boundaryless Stage powerhouse was like. The elders of the Law Divine Palace had reached that stage earlier!

Yang Chen pondered for a while and then said, "Elder Han, I'm sorry, but I am not yet ready to accept a master."

Hearing this, Elder Han was somewhat unhappy, but it was still within his range of acceptance.

There were many geniuses who refused to accept a master, and the Holy Domain had regulations that even their Boundaryless Stage powerhouses shouldn't act arrogantly or angrily just because someone refused their offer.

Soon, Elder Han smiled lightly and said, "Alright, even if you don't become my disciple, you can still come to me if you need any help. Our mutual responsibility to each other, once established, will be permanent. That is, unless one day you surpass me."

"I see..." Yang Chen could understand the situation and couldn't help but feel amazed at how well-structured the management of the Holy Domain was.

With these thoughts in mind, Yang Chen couldn't help but ask, "Is it okay for me to ask you some questions now?"

"Yes, feel free to ask." Elder Han replied.

"I want to know, are you taking me directly to the Seven Swords Pavilion?" Yang Chen asked.

"Of course!" Elder Han replied.

"What kind of place is the Seven Swords Pavilion?" Yang Chen asked.

Elder Han knew that Yang Chen would ask this, and said, "Let me put it this way, the social status within the Holy Domain is determined by the places where you reside."

"How so?" Yang Chen asked, puzzled.

"Let me put it this way, the two strongest people in our Holy Domain are Supreme Elder Jiuyang King and King Zhoucheng. They both live in the Sun Domain. The Sun Domain is the forbidden area of our Holy Domain and the most treasured place!"

"In addition to the Sun Domain, there are palaces like the Supreme Profound Palace, the Primordial Spirit Palace, and the Law Divine Palace. The different palaces represent the status of those who have reached the Great Ascension Stage and above."

As he spoke, Elder Han continued, "There are twelve people in our Law Divine Palace, but they all are Boundaryless Level powerhouses and are considered to be among the elite of the Great Ascension Stage experts. Their status is similar to those in the Nirvana Stage Great Cloud Pavilion, although slightly stronger."

"So, does the 'Pavilion' represent the Nirvana Stage?" Yang Chen asked.

“That’s right, Domain, Palace, Pavilion. However, unlike the palaces, not all Nirvana Stage experts can get a pavilion to stay in.” Elder Han elaborated.

Yang Chen scratched his head for a moment, “What’s the difference between the Great Cloud Pavilion and the Seven Swords Pavilion?”

“Only elite geniuses can join. For example, your partner from the Divine Maiden Clan is also a member of the Great Cloud Pavilion. However, the Great Cloud Pavilion is relatively mediocre. Although it is already a high status for others, it is nothing to you considering your vision. That’s because the Seven Swords Pavilion, where you are, is the true residence of the Nirvana Stage experts whom the Holy Domain truly wants to cultivate.” Elder Han explained.

Yang Chen asked, “Does the Seven Swords Pavilion have any special treatment?”

“Haha, more than just special treatment. The Seven Swords Pavilion should be considered one of the places with the best treatment in the Holy Domain, apart from the Supreme Profound Palace. Even our Law Divine Palace can’t compare. It can be said that the geniuses in the Seven Swords Pavilion don’t even want to reach the Great Ascension Stage because the treatment inside is too good. The Seven Swords Pavilion has the best training environment, like the Sea of Trials.” Elder Han revealed.

Yang Chen raised his eyebrows, wondering if the Seven Swords Pavilion also had a Sea of Trials?

Elder Han introduced, “In addition, when the Holy Domain releases tasks, the Seven Swords Pavilion is the first to receive them. Furthermore, the Seven Swords Pavilion has the most complete collection of the best Dao Techniques, other than some forbidden techniques. The treatment can be said to be top-notch!”

Chapter 2536: Joining the Seven Swords Pavilion\_1

Hearing this, Yang Chen was naturally delighted in his heart.

He was not interested in other things, what he was most interested in were Dao Techniques.

With Dao techniques, his strength could be greatly improved, and after the improvement, he would have a solid foundation in the Southern Realm.

Without Dao techniques, he couldn't exert much strength, and he couldn't even pass the seventh wave of the Sea of Trials. This was one of Yang Chen's main headaches.

"You will learn more about the specifics once you enter Seven Swords Pavilion. Alright, now, we've arrived." Elder Han said kindly.

Yang Chen was slightly surprised, "That was fast."

Before them was a huge loft that stretched for tens of kilometers. There were pavilions connecting each other, with flowers, grass, water, and wood. It was a rich and beautiful scene.

"This is the Seven Swords Pavilion!" Elder Han said with a wave of his hand.

Yang Chen looked around and saw the words "Seven Swords Pavilion" gleaming on a plaque above the loft.

"There are servants specifically here to serve the disciples of Seven Swords Pavilion. If you need help with your daily life, you can choose one from around here. There are both men and women, it depends on your personal preference." Elder Han said with a faint smile.

Yang Chen noticed that there were many Sanctuary's disciples around the Seven Swords Pavilion, with varying cultivation levels. Some hadn't even reached the True God Realm, while others remained in the True God Realm or even had cultivation levels in the Enlightenment Stage.

These people all looked eagerly at the Seven Swords Pavilion, ready to serve as servants.

Yang Chen nodded, "I understand."

"In addition, you can familiarize yourself with the Seven Swords Pavilion by walking around more. If you need help, you can come to the Divine Law Palace to find me. Now, I'll have some of the disciples from the Seven Swords Pavilion to come and meet you." Elder Han said with a smile.

Yang Chen said, "Thank you, Elder Han."

Elder Han laughed, "You are under my command, so there's no need to say thank you. I'm counting on you to win some glory for me. To be honest, Yang Chen, although the Seven Swords Pavilion represents the highest level of genius in the entire Sanctuary, the members within the Pavilion are not united. It's common for young people to be impulsive and domineering. As the saying goes, 'the tallest tree catches the wind,' and your outstanding initial performance..."

"Originally, an Unparalleled Genius was supposed to be above a Top Genius and have their own 'Pavilion.' However, there are so few Unparalleled Geniuses that they have to be placed in the same Seven Swords Pavilion along with Top Geniuses. As a result, once you enter the Seven Swords Pavilion, you become an outcast. I hope you understand what I mean, Yang Chen."

Yang Chen couldn't help but be surprised, "So does this mean that there are often incidents of targeting Unparalleled Geniuses?"

"Of course, anyone entering the Seven Swords Pavilion is at least a Top-level Genius. Even the ones who are slightly worse are not much different from Mo Baiyu. Many of them have been in the Seven Swords Pavilion for a long time and are members of the older generation, with terrifying strength. When they see a newcomer like you performing better than they did in the past, how could they not want to find fault with you? Moreover, as the person in charge of you, I have many competitors within the Sanctuary. For example, the subordinates of my competitors may have a hostile attitude towards you." Elder Han said calmly.

Yang Chen understood now.

One, competition!

Two, factions.

Yang Chen couldn't help but smile wryly, thinking that no matter where he went, there would always be competition.

“Alright, I’ve already sent the sound transmission. Some disciples from the Seven Swords Pavilion will come out to meet you. However, I’m not sure how many there will be.” Elder Han said.

Yang Chen’s soul spread out, and he saw many disciples coming out.

The cultivation levels of these disciples were all at the Nirvana Stage, with no one at the Enlightenment Stage. Their Qi was different, and it was unclear how many Dao Intent Inscriptions they had.

“I would like to introduce you all to Yang Chen, who has just joined the Seven Swords Pavilion. He scored as an Unparalleled Genius in the assessment, and all four of his tests were top-level. From now on, he will be part of the Seven Swords Pavilion team. I hope you all can give him some guidance.” Elder Han said gently.

“Of course.”

“Definitely!”

“An Unparalleled Genius, I didn’t expect another Unparalleled Genius to join the Seven Swords Pavilion.”

“What do you mean ‘another’? It’s been a long time since an Unparalleled Genius has appeared.”

“Didn’t Zhao Yuanhong appear before? But it seems like he barely reached the level of Unparalleled Genius, with two of his tests barely making it to that level. He is quite different from this guy who got full marks in all four tests.”

“Shush, let’s not mention Zhao Yuanhong anymore. This guy has a bad temper.”

Various opinions were expressed, some people had a normal attitude towards Yang Chen, but a few looked at him coldly, with different attitudes.

Yang Chen’s expression turned heavy, and he could see that, as Elder Han said, joining the Seven Swords Pavilion with the achievement of Unparalleled Genius might not be a good thing.

Thinking about this, Yang Chen couldn't help but feel a mix of amusement and frustration.

However, he was not one to shy away from trouble. Since he had come this far, he was not afraid of anything.

"Alright, little brother Yang Chen, I'll take my leave first. If you need anything, you can come to the Divine Law Palace to find me. Do your best." Elder Han encouraged.

Yang Chen watched Elder Han leave and bowed to the geniuses of the Seven Swords Pavilion, "I am new here, and I hope you all can take good care of me."

"Haha, Brother Yang Chen, you are very capable, having scored the Unparalleled Genius level in all four tests." A young man stood out and laughed as he spoke to Yang Chen.

As if worried that Yang Chen might misunderstand something, the man grinned and introduced himself, "I'm also one of Elder Han's subordinates, my name is Zhang Jiangkun!"

"So it's Brother Zhang." Upon hearing that the other party was one of Elder Han's subordinates, Yang Chen was more than half relieved.

"Hmph, all four tests were perfect, the standard of the Tower of Heavenly Revelation's tests has really gone downhill. Any disciple can now reach the Unparalleled Genius level. What a joke!" At this moment, a mocking voice appeared from the side, coming over.

This made Yang Chen wonder. He turned his head and saw a fierce-looking middle-aged man.

This middle-aged man glanced at Yang Chen and then left provocatively, leaving Yang Chen to stand with his hands behind his back, curiously asking, "Brother Zhang, who is that?"

"That is Zhao Yuanhong. Don't mind him, he's extremely narrow-minded and can't stand anyone else doing well. When he first took the test, he barely qualified as an Unparalleled Genius. In others' eyes, he

only got there by luck, but he flaunts himself as an Unparalleled Genius. Seeing a newcomer like you with a perfect score in all four tests, how could he be happy?” Zhang Jiangkun sneered.

“I see...” Yang Chen finally understood.

“Haha, Brother Yang Chen, there are plenty of good servants available in the area. Before you find a place to live, why not pick out a couple first?” Zhang Jiangkun suggested.

Chapter 2537: A Person Not to Be Provoked\_1

As Zhang Jiangkun said that, a large group of servants were already casting hopeful glances at Yang Chen.

Those gazes seemed to tell Yang Chen that they wanted to become his servants, enter the Seven Swords Pavilion, and enjoy better treatment.

“I can do anything, choose me!”

“Choose me! I’ve been a servant for dozens of years; I can do any kind of work.”

“Choose me!”

Yang Chen took a look and sighed deeply, not expecting that the True God Realm and Enlightenment Stage cultivators who could proudly stand in the Spirit Realm, would now be scrambling to become servants here.

It seems that the strength of the Southern Realm is indeed a level or even more higher than that of the Spirit Realm.

At least here, the strength of the Enlightenment Stage and True God Stage cultivators is simply not enough.

Even at the Nirvana Stage, they can only progress to a higher level at every thousand Dao Intent Inscriptions. Those with insufficient Dao Intent Inscriptions couldn't even enter the Holy Domain.

"I'm used to being alone and don't like having servants. I appreciate your kindness, Brother Zhang," said Yang Chen.

"So that's how it is!" Zhang Jiangkun smiled faintly: "In that case, let's go inside."

Yang Chen nodded and followed Zhang Jiangkun into the Seven Swords Pavilion.

There were still quite a few disciples in the Seven Swords Pavilion. According to Elder Han, not many disciples joined the Seven Swords Pavilion per cohort, but once they practiced, there could be more. Every day, people were participating in the Tower of Heavenly Revelation assessment, and every few years, at least one extraordinary genius with qualifications to enter the Seven Swords Pavilion would emerge.

As time went by, the number of people in the Seven Swords Pavilion increased.

As a result, there were even people who had been in the Seven Swords Pavilion for hundreds, thousands, or even tens of thousands of years.

After all, even though the treatment of Seven Swords Pavilion was top-notch, and the talents were top-notch, entering the Great Ascension realm was still not a sure thing.

Upon seeing this, Yang Chen realized that those who had just come out to greet him were only a part of them, and the vast majority of them didn't care about him at all.

"Look, it's Mo Qianwu!"

"Mo Qianwu is here. Let's go!"

A tall, powerful man appeared among the crowd. The middle-aged man had a very strong presence, and no one dared to provoke him. Everyone stepped aside to make way for him.

Upon seeing this man, Zhang Jiangkun hurriedly led Yang Chen away, whispering, "Brother Yang Chen, don't mess with Mo Qianwu."

"Is he very powerful?" Yang Chen asked, puzzled.

This Mo Qianwu did seem quite domineering and arrogant. As he walked along, no one dared to provoke him.

Zhang Jiangkun first led Yang Chen to a place without people, then looked at Mo Qianwu's back and shook his head, "Powerful? Bullshit! Mo Qianwu only joined the Seven Swords Pavilion by luck. But he's been staying here for more than eighteen thousand years. Apart from a few who could not enter the Great Ascension realm, he's among the oldest members of the Seven Swords Pavilion. In plain words, he's a freeloader!" Zhang Jiangkun said.

Yang Chen understood, "So, that's how it is."

"Yeah, people like this, who clearly have limited talent but manage to stay in the Pavilion for a long time, are stronger than us for sure. He knows that even if he barely enters the Great Ascension realm with his qualifications, he may not be valued by the Holy Domain. So, he chooses to stay in the Seven Swords Pavilion, not having the ambition to enter the Great Ascension realm, and specifically bullies newcomers." Zhang Jiangkun said bitterly.

Yang Chen couldn't help but smile. It was indeed interesting that such characters existed.

Zhang Jiangkun sighed and continued: "Brother Yang Chen, it's your first time in the Seven Swords Pavilion. There are a few old-timers you mustn't provoke. In addition to Mo Qianwu, if you come across any of these others I'm about to mention, you should avoid them immediately..."

As he spoke, Zhang Jiangkun told Yang Chen a few names.

This made Yang Chen feel a lot more fond of Zhang Jiangkun.

Aside from anything else, Zhang Jiangkun was, at the very least, kindhearted.

Although Yang Chen didn't care about Mo Qianwu and the other so-called old-timers, he still kept Zhang Jiangkun's words in mind. When encountering these people, it would be best to keep a low profile.

With this in mind, Zhang Jiangkun suddenly said happily: "We're here! This is the residence of our lineage."

"Our lineage?" Yang Chen asked, puzzled.

"Ah? It's the group of people under Elder Han. Usually, people with the same person in charge belong to the same lineage. The competition in the Seven Swords Pavilion is very intense, so everyone in the same lineage tends to stick together. Brother Yang Chen, I just received a message from Elder Han and went over. From now on, you'll live in this neighborhood. There are quite a few vacant lofts around, and there's plenty of space." Zhang Jiangkun said kindly.

"I see, thank you, Brother Zhang," Yang Chen smiled.

Zhang Jiangkun laughed: "It's a small effort, no need to mention it. By the way, I'll call those dozen or so people out and give you a welcome."

When the conversation ended, Zhang Jiangkun sent out a sound transmission.

In fact, theoretically speaking, when Yang Chen arrived, those dozen or so people should have been able to observe with their souls scattered. However, none of them appeared, and their intentions could not have been clearer.

Only now, when Zhang Jiangkun called them, did those dozen people slowly come out.

“Oh, we have a newcomer.” The dozen or so disciples of Elder Han’s group glanced at Yang Chen and greeted him somewhat enthusiastically. Then, they didn’t pay much attention and directly ignored him.

Yang Chen couldn’t help but shake his head silently.

They didn’t take him seriously at all.

Of course, if they had taken him seriously, they would have come out to welcome him earlier.

Zhang Jiangkun saw this scene and felt a bit embarrassed: “Brother Yang Chen, that’s just how these people are. But they aren’t bad-hearted and will help when necessary.”

Yang Chen knew what the situation was.

These people, at most, would not harm him. But as for helping, if he didn’t show the ability to make them help, they probably wouldn’t even bother to look at him an extra time.

“Oh, this is Captain Gu Renjie of our lineage!” Zhang Jiangkun said.

As he spoke, he quickly went forward and flattered Gu Renjie: “Captain Gu, this is the new member, Brother Yang Chen.”

Gu Renjie was a handsome young man and looked very young. It’s precisely because of this that he had such a high position and cultivation level. Consequently, this made him somewhat proud and arrogant.

He didn’t care about Zhang Jiangkun at all. Hearing his words, he just glanced at Yang Chen indifferently.

“Yang Chen, huh? Well, after your arrival, just arrange for a place to live. After settling in, behave yourself. The competition in the Seven Swords Pavilion is fierce. I can understand that newcomers like you tend to have some unruly thoughts, which may cause some trouble. But I hope you can be honest. As long as you stay here obediently, no one will bother you. But once you make a mistake, we won’t be there to clean up after you.”

## Chapter 2538: Tianxuan Building\_1

When the conversation ended, Gu Renjie looked at Yang Chen with contempt: "I know you are not convinced in your heart, but the reality is so cruel. As a newcomer in the Seven Swords Pavilion, be honest and low-key, or sooner or later, you will regret it. Because you have no idea that in the Seven Swords Pavilion, you are nothing at all!"

After saying that, Gu Renjie turned and left.

This left Zhang Jiangkun feeling embarrassed: "But captain, this Yang Chen, he is a four-category assessment..."

But before his words could land, Gu Renjie had already disappeared, and naturally, he hadn't heard what Zhang Jiangkun said.

Gu Renjie was left with a bitter smile, his tone bitter: "Brother Yang Chen, this, sigh, don't take it to heart. Maybe the captain was just kindly reminding you. That's what he said when I first came here, so I took fewer detours."

"It's fine, I understand." Yang Chen touched his nose, knowing that Gu Renjie didn't really care about him, but at this point, he didn't care what others thought of him.

After all, he came to the Seven Swords Pavilion without intending to stir up trouble, and what he cared about most was his own strength.

"That's good, Brother Yang Chen, you can stay nearby." Zhang Jiangkun said with a smile.

Yang Chen felt Zhang Jiangkun's kindness and nodded, settling down nearby.

As for his residence, Yang Chen didn't care. After settling down nearby, he began to think about the next steps.

He now has three temporary goals.

First, to restore his own strength and master some powerful Dao techniques.

Although the former is slightly more difficult, for him who is good at alchemy, as long as he can collect some materials, recovery is not difficult.

As for mastering some powerful Dao techniques, it depends on whether the Dao techniques in the Seven Swords Pavilion can satisfy him.

Second, to find the Black Mountain Black Bear brothers.

He is now extremely worried about these two brothers. He has no idea how they are doing now after the separation. He is not worried about these two brothers encountering any dangers during the ordeal, but he is worried about their intelligence. If they really fall into the Southern Realm, what would they do.

Yang Chen just hoped that his brothers would be safe and sound.

When he settles down in the Holy Domain, he must inquire about these two brothers first.

And the third is to find the location of the Heaven Lord Pavilion. After all, his main goal is to find Zhang Xuelian's whereabouts and then go and settle the accounts with Li Chongxiao and the others!

How dare they try to kill him in the spatial channel!

Thinking about these things, Yang Chen's anger burned.

Gradually calming down his anger, Yang Chen slightly organized his thoughts.

In addition to these three main things, he also needs to collect some materials for the Forbidden Divine Art, which requires a lot of resources.

Nowadays, after spending some time in the loft, Yang Chen got up and left.

Upon leaving, he naturally wanted to find and practice some powerful Dao techniques.

This place dedicated to practicing Dao techniques is easy to find. Just ask a few people about it.

But when asking, Yang Chen also experienced the arrogance of the so-called geniuses of the Seven Swords Pavilion. After asking around, he finally found a good-hearted person who was willing to help him and learned the location of the Hall of Dao Techniques.

The place where the Seven Swords Pavilion stores Dao techniques is called Tianxuan Building, and all the Dao techniques of the Seven Swords Pavilion are stored here.

Once Yang Chen found the location, he immediately entered Tianxuan Building.

On the first floor of the Tianxuan Building, there was an elder guarding it.

This elder had a Mahayana stage cultivation level.

When Yang Chen arrived, the elder looked at him and said indifferently, "Are you here to learn Taoist techniques?"

"Um, I'm a newcomer to the Seven Swords Pavilion, is there anything I need to pay attention to?" Yang Chen asked, puzzled.

"First time here? Then you need to go to the 'Inscription Building' to get your own token, and register your status. Otherwise, you won't be eligible to come here." The elder said.

When Yang Chen heard this, he was slightly surprised.

Zhang Jiangkun didn't seem to have mentioned the Inscription Building to him.

It seems that the matter of the Inscription Building does not necessarily need to be so urgent for newcomers.

However, Yang Chen is now in a hurry to learn Dao techniques, so it is necessary to go to the Inscription Building.

Thinking so, Yang Chen cupped his hands and immediately excused himself.

After excusing himself, he spent some more time to find the location of the Inscription Building.

The Inscription Building had dedicated record keepers and was also guarded by powerful Mahayana stage cultivators.

When Yang Chen arrived, he saw a familiar face, Mo Baiyu, who had participated in the Tower of Heavenly Revelation assessment with him.

It seemed that Mo Baiyu had also come to register his status.

After registering, Mo Baiyu looked at Yang Chen.

"It's you!" Mo Baiyu glanced at Yang Chen, gritted his teeth, and immediately left in despair.

Yang Chen had an embarrassed smile on his face. He originally wanted to greet Mo Baiyu, but he didn't expect him to run away as soon as he saw Yang Chen.

There was nothing he could do, he could only cough lightly and follow Mo Baiyu to continue registering.

“Are you here to register?” The Mahayana stage elder in the black robe asked.

Following the black-robed elder’s words, Yang Chen said, “Yes, that’s right.”

“Name!” the black-robed elder said.

“Yang Chen!”

“Oh? You’re the one who scored full marks in all four assessments, Yang Chen?” The black-robed elder said in surprise.

“You know?” Yang Chen looked at the elder with a baffled expression.

“Of course, your outstanding information from the Tower of Heavenly Revelation was sent to me first, and I already know your information. Here’s your token, which represents your identity as a member of the Seven Swords Pavilion,” The black-robed elder said calmly.

Yang Chen said gratefully, “Thank you, senior.”

The black-robed elder waved his hand, and after Yang Chen received his token, he left.

After leaving, Yang Chen didn’t linger and headed straight for the Tianxuan Building.

When he arrived at the Tianxuan Building again, the elder guarding the building said indifferently, “So soon, you got your token?”

“Here,” Yang Chen handed over the token.

After receiving the token, the elder guarding the building nodded: "Hmm, it's a newcomer's identity. Since you have a newcomer's identity, you can choose any Dao technique from the first three floors."

"Is there a fourth floor?" Yang Chen asked, puzzled.

"There are a total of five floors in Tianxuan Building. Normally, choosing a Dao technique in Tianxuan Building requires a certain amount of Holy Domain Points. However, since you are a newcomer, you will be able to choose unconditionally one from the first three floors. The Dao techniques on the last two floors are slightly higher in level, but not much higher. However, they are rarer than the first three floors, so it is impossible for you to get them for free. If you want to choose, you must contribute enough to the sect, and the value of the contribution is expressed in terms of points." The elder guarding the building slowly explained.

Chapter 2539: Two Strongest Dao Techniques?\_1

Upon hearing this, Yang Chen generally understood the situation.

"Junior understands." Yang Chen replied respectfully.

The Guardian Elder of the Tower still had a cold attitude, waving his hand lightly, signaling Yang Chen to proceed.

Yang Chen couldn't wait to enter the Tianxuan Building and began selecting Dao techniques.

This Tianxuan Building was huge, much bigger than the entire Wang Family, and at a glance, it was filled with dense Dao techniques.

These Dao techniques resembled the exterior of the second layer of the Forbidden Divine Art given to him by the Fishpeople Tribe.

They were all presented in the form of a light sphere, which served as an excellent means of keeping secrets.

To see them, one had to divine soul detection to inspect them.

However, only part of it could be seen with the effect of the Dao technique, and the specific effects could only be viewed once the Dao technique was fully purchased.

Yang Chen had to admit that these light spheres saved him a lot of time in understanding.

Because when the divine soul entered the light sphere, images of the Dao techniques being deployed would emerge in his mind!

These images were meticulous, perfectly showcasing the advantages of the Dao techniques.

“These Dao techniques are indeed much stronger than the Wang Family’s Dao techniques, in complexity and application. They are fundamentally incomparable to the Wang Family’s Dao techniques.” Yang Chen was filled with emotion and could not help but sigh.

And there were so many types.

There were tons of basic Five Elements Dao techniques.

After thinking it over, Yang Chen decided to ignore the Five Elements Dao techniques and chose to search for Unyielding Dao Intent and Thunder and Lightning Dao Intent techniques.

Of course, if he could find Space-Time Dao Intent and Life and Death Dao Intent techniques, that would be even better.

Yang Chen was full of anticipation!

What he wanted most now were these two Dao Intent techniques. If he could obtain the techniques of the strongest Dao Intents, he could improve his strength without even thinking about it.

However, it was evident that these strongest Dao Intent techniques were not so easy to find. He searched all around but couldn’t find them!

Yang Chen couldn't help but feel frustrated.

Could it be that in a place like the Holy Domain, the strongest Dao Intent techniques were also hard to come by?

Yang Chen knew he couldn't deny it immediately, considering how big the Holy Domain was and how little he knew about it. But he couldn't simply tell people that he possessed the strongest Dao Intentions either.

After all, even in the Spirit Realm they had a method to plunder Dao Intentions, who could say the Southern Realm didn't have one?

So, it was better to stay low-profile when possible.

However, Yang Chen didn't give up hope. He searched the first three floors of the Tianxuan Building within his permissions but unfortunately found nothing. In the first three floors, he found nothing!

Yang Chen was quite frustrated!

Since he couldn't find the strongest Dao Intent techniques, he had to settle for finding Unyielding Dao Intent and Thunder and Lightning Dao Intent techniques!

Despite not having the strongest Dao Intent techniques, the Dao techniques in the Tianxuan Building were still extremely comprehensive.

It was because apart from the strongest Dao Intent techniques, even Special Dao Intent techniques could be found in Tianxuan Building.

And naturally, Unyielding Dao Intent and Thunder and Lightning Dao Intent had more than one type in stock.

Yang Chen picked one of each and began to ponder.

The Unyielding Dao Intent technique was called Power of Unyielding. It involved fusing divine power and Unyielding Dao Intent, using the blood of three fierce beasts to build a special power. This power would accompany the Unyielding Dao Intent inscriptions, and its strength was much higher than that of the Dao Intent inscriptions!

It wasn't flashy, but the power increased by a level, making it a very useful Dao technique.

Next were the Thunder Dao techniques.

The Thunder and Lightning Dao technique is called Thundering Trichotomy.

Which etymology? The first is an attack form, the second is a defense form, and the third is a movement form.

In simple terms, it is offense, defense, and escape.

It can be said it is a three-in-one approach, almost a perfect method!

Yang Chen was actually torn.

Because, frankly, the escape method of Thundering Trichotomy was a bit redundant for him. With his Space-Time Dao Intent, any means of escape would actually be superfluous.

However, Yang Chen was still hesitating.

Because, since arriving in the Southern Realm, he didn't want to show off his strongest Dao Intent too much. It posed potential danger for him!

So, if there were alternative methods, Yang Chen would be happy to see them.

The escape form of Thundering Trichotomy could be a perfect substitute for his Space-Time Dao Intent!

Moreover, the materials needed for Thundering Trichotomy were exactly what he could satisfy!

What materials did Thundering Trichotomy need? It was the White Bird, the Ancestor of Ten Thousand Thunders!

Apart from that, other materials could be substituted, but those wouldn't be the highest configuration. Only the White Bird, the Ancestor of Ten Thousand Thunders, could reach the highest configuration.

As for the Power of Unyielding, it would take some time to collect the materials, which didn't quite meet his current need for strength.

So, after thinking about it, Yang Chen chose Thundering Trichotomy.

"I'll buy other Dao Intent techniques with points next time I come. After returning back this time, I need to research how to get points first. With so many Dao techniques and enough points, I could have a shopping spree." Yang Chen was extremely excited in his heart.

With that in mind, he took the Thundering Trichotomy and returned to the Watchtower Elder.

"Senior, I've chosen this Thundering Trichotomy." Yang Chen said.

"Oh? It seems that you have Thunder and Lightning Dao Intent at hand. It also makes sense, as your information shows that you have Nine Principles in your body..." The Watchtower Elder spoke calmly.

Yang Chen nodded.

"You are a newcomer and can choose one technique for free. You can take this Thundering Trichotomy away. Just remember, next time you choose a technique, you must have points." The Elder said.

Yang Chen couldn't help but ask a question in his heart: "Junior ventures to ask, how many points do I need to enter the last two floors of the Tianxuan Building?"

"No points are needed, but you must have enough points to reach a certain level. As for what level, well, Fourth Floor 30,000 points, Fifth Floor 60,000 points. These are almost impossible to achieve for a newcomer. Don't set your sights too high, just take it slow." The Elder calmly said.

Although his attitude was average, he answered Yang Chen's question thoroughly.

Upon hearing this, Yang Chen asked another question that he wanted to know the most.

"I dare to ask Senior, are there any strongest Dao Intent techniques in these last two floors?" Yang Chen asked.

"Why are you asking about the strongest Dao Intent? Do you think you, a young scion of the dao, could have the strongest Dao Intent?" The elder scoffed.

"I don't have it, but I was just curious to ask. After all, I didn't see it in the first three floors. But the Holy Domain is so big, it should be there, right?" Yang Chen said.

"Haha, you're not wrong. There are two on the fifth floor, but if you don't have the strongest Dao Intent, what's the use of knowing? Little guy, steady progress is the key." The tower guarding elder said.

Chapter 2540: Sources of Points Acquisition\_1

Yang Chen appeared to be an attentive student, saying, "I understand."

The old man guarding the tower didn't intend to engage in further conversation with Yang Chen. He plainly gave some explanations and then allowed Yang Chen to leave.

Yang Chen left quickly and returned to his residence.

Upon his return, he happened to run into Zhang Jiangkun.

Zhang Jiangkun seemed to be searching for him, which surprised Yang Chen: "Brother Zhang!"

Zhang Jiangkun now scratched his head at the sight of Yang Chen, "Brother Yang Chen, where have you been? I was about to look for you to give you the token of the Seven Swords Pavilion."

"I've already collected the token of the Seven Swords Pavilion." Yang Chen replied.

"That was fast?" Zhang Jiangkun exclaimed: "Well, it seems I was worrying over nothing. But it's just in time for your return."

"What's up?" Yang Chen asked.

"There's a young lady from the Goddess Clan, named Yu Hualing, waiting for you outside the Seven Swords Pavilion. Haha, you are quite the Casanova, already involved with a lady from the Goddess Clan shortly after becoming a member of the Pavilion?" Zhang Jiangkun patted Yang Chen on the shoulder.

"Yu Hualing?"

Obviously, Yang Chen was aware of who Yu Hualing was. Hearing this, he couldn't help but laugh: "I indeed know Miss Yu. Brother Zhang, I must excuse myself for now."

"Alright, it doesn't matter. I was just delivering a message for you. Go meet the lady." Zhang Jiangkun replied indifferently.

Subsequently, Yang Chen turned around and left towards the outside of the Seven Swords Pavilion.

Upon arriving outside the Seven Swords Pavilion, as expected, he saw Yu Hualing waiting for him.

Her delightful features were filled with unease. When she saw Yang Chen approaching, her eyes lit up with joy at first. However, this joy quickly turned into anxiety.

Yang Chen could sense Yu Hualing's emotions and said: "Miss Yu, you're here. May I ask the reason for seeking me out..."

At this, Yu Hualing blushed.

However, she was not a person who was shy when it came to expressing her feelings. She bit her lip and then said: "Young Master Yang Chen, since we got to know each other, I'm wondering if, perhaps you have some affection for me?"

Yang Chen was taken aback by Yu Hualing's forthright question. If he denied understanding her intentions, he would have to be really oblivious.

He felt exceedingly embarrassed. It was, indeed, a difficult question to answer – all he could say was: "Miss Yu and I are good friends, of course, I have affection towards you."

Yu Hualing, of course, was not a simpleton; she understood exactly what Yang Chen meant.

When she queried whether Yang Chen had feelings for her, she was essentially asking if he liked her.

But Yang Chen's reply was incredibly smooth. He confirmed he had feelings for her, but the addition of the word 'friend' before that effectively implied that they were just friends.

"Just friends then..." Yu Hualing responded with a bitter smile.

Seeing Yu Hualing's response, Yang Chen decided that a short pain was better than a long one, so he might as well tell her what he meant explicitly.

With a serious expression, he said: "Miss Yu, I am already married."

Zhang Xuelian is one, and Hua Wan is another headache he has. How could he possibly stir up even more trouble outside?

“You’re overthinking it. I was just asking casually, why are you bringing up the matter of your wife?” Yu Hualing pouted indignantly. However, she couldn’t stop the tears that started flowing from her eyes. No doubt, she was merely trying to console herself.

Understanding that Yu Hualing was just trying to maintain her delicate ego and dignity, Yang Chen did not point this out. He simply smiled and said: “Okay, I must have misunderstood.”

Yu Hualing faced significant emotional upheavals now. She initially planned to use her proximity to Yang Chen to get him to favor her. This would not only allow her to live in the Seven Swords Pavilion but also bring honor to her sisters in the Goddess Clan.

Looking back, she now realized that she had overestimated her charm.

Putting on a brave smile, Yu Hualing said: “Young Master Yang Chen, I just wanted to ask a question and didn’t mean anything else. I’ll take my leave now.”

After speaking, she forcibly left and did not look back.

Watching her go, Yang Chen tapped his head.

Did he handle the situation too coldly just now? After all, Yu Hualing had been very helpful along the way. It was he who should be showing gratitude to her, not the other way around.

However, it was too late to run after her now. Yang Chen could only let it go and returned to his residence.

When he arrived back, Zhang Jiangkun was just coming out of the house. Seeing Yang Chen return, he gestured a hand-fold: “Brother Yang Chen, you were quite quick with the lady from the Goddess Clan. If I were you, having a friend from the Goddess Clan would call for getting to know her better. It would be a very proud matter to have a spouse from the Goddess Clan.”

Yang Chen couldn't help but laugh: "I don't have that sort of relationship with her."

"Hahaha, I was probably overthinking it. By the way, what are you planning to do next?" Zhang Jiangkun asked.

Yang Chen responded: "I want to know what the most straightforward and convenient way to earn points is."

"That would definitely be via bounty and ranking missions." Zhang Jiangkun replied without hesitation.

"Bounty and Ranking Missions?" Yang Chen looked confused: "What are these missions?"

"It's simple. Missions are generally divided into three categories: bounty missions, ranking missions and special missions."

Zhang Jiangkun explained: "Bounty missions are private tasks issued by the Sacred Domain, with all sorts of different types. You can choose tasks based on your own conditions. After completing the task, you can exchange it for points with the person who issued it."

"I see." Yang Chen understood: "What about the other two?"

"The other two are the ranking missions and special missions. Ranking missions are tasks issued by the Sacred Domain. Generally, these tasks have high difficulty, but the corresponding points are also high. It often takes a long time for someone to accept a task. To accept these tasks, you need to take down the ranking list. People who dare to do this are quite rare." Zhang Jiangkun explained thoroughly.

Afterwards, he continued: "As for special missions, they are some special tasks inside the Sacred Domain. The rewards for these tasks vary and they are not mainstream."

Upon hearing this, Yang Chen nodded thoughtfully.

“So, Brother Yang Chen, you wish to earn some points?” Zhang Jiangkun laughed: “If you’re in urgent need of points, you can borrow some from me. If that’s not doable, you can also go to the Sacred Domain’s black market to exchange. That’s the fastest place to accumulate points using treasures.”

Yang Chen became interested upon hearing this: “Black market? Are all the transactions there done using points?”

“Yes, indeed. Of course, you can also use divine stones to exchange for points, but in the Sacred Domain, points are the most crucial. Divine stones are not very valuable, unless you have a certain amount of them.” Zhang Jiangkun explained.

Before, Yang Chen didn’t have any idea how to proceed, but now he was very interested in this black market.

Not only did he lack some crucial materials, the place also seemed to be a good outlet for showcasing his alchemy skills.
