

Supreme MK 2591

Chapter 2591: Mo Qianwu Apologizes_1

A Daoist Divine Body can not only be combined to make the attack stronger and more powerful, but it can also be dispersed and used as an avatar.

Using a Daoist Divine Body is much more powerful than an avatar.

In this world, it is estimated that there could be no avatar that could inherit Dao Intent Inscriptions and display Dao Techniques while exerting their power.

This is the specialty of Daoist Divine Bodies.

Its existence directly adds an extra half of the original body!

Yang Chen now separated his Daoist Divine Body, using his original body to put pressure on the giant squid, while his avatar stealthily moved to the other eyes of the giant squid.

The giant squid was originally in a defensive state, but Yang Chen quickly irritated it. So much so that it roared and lashed out with its limbs, no longer defending and choosing to attack Yang Chen instead.

Little did it know that Yang Chen's avatar was already prepared, and as it targeted the giant squid's eyes, it unleashed a series of Dao Techniques.

Displaying both The Hand of the Giant Golden Bell and Unyielding Fury in an instant, he consecutively shattered two of the giant squid's eyes.

The giant squid quickly turned its body to deal with Yang Chen's Daoist Divine Body.

As the giant squid tried to counter Yang Chen's original Daoist Divine Body, Yang Chen's original body also began to act, directly targeting the giant squid with a series of relentless attacks.

The giant squid could defend against one of them, but not both.

In the end, Yang Chen and the Daoist Divine Body circled around and plucked out all eight eyes of the giant squid.

The giant squid was now in a completely chaotic and enraged state, having gone crazy and lost its reason, its only thought was to catch and kill Yang Chen as soon as possible.

With all eight eyes gone, the giant squid's vision was completely obstructed, and even without Sa Qi to block it, it became a headless fly.

Seeing this, Yang Chen moved to wrap things up.

Now, Yang Chen aimed at the head of the giant squid.

Together with the Daoist Divine Body, they planned to deliver a deadly and destructive blow.

The eyeless giant squid no longer posed a threat, and Yang Chen and his Daoist Divine Body both simultaneously unleashed The Hand of the Giant Golden Bell.

Immediately, various Dao Intents were added together, in conjunction with the Slaughter God Spear.

The sound of the golden bell ringing suddenly resounded.

The next moment, Yang Chen and the Daoist Divine Body together unleashed The Hand of the Giant Golden Bell with great force.

Just then, the giant squid reacted, discovered Yang Chen's fatal blow, and fiercely defended against it with its limbs.

Yang Chen didn't expect that the giant squid would still be able to find and defend against his most powerful attack just before dying!

However, could it really defend against it?

Yang Chen's Hand of the Giant Golden Bell arrived with an overwhelming posture, and with both combined, the power was naturally immense.

While the giant squid could withstand one of Yang Chen's Hands of the Giant Golden Bell, it might not be able to withstand two.

Furthermore, the giant squid's body was now injured, and its strength could not be fully exerted. Despite having Twenty Thousand Dao Intent Inscriptions on its level, it was still completely countered by Yang Chen's absolute powerful posture.

Immediately, Yang Chen's move struck the giant squid's body.

Piercing through and exploding.

The giant squid's head was instantly cracked open, blood gushing out as it was completely killed by Yang Chen.

At this moment, the stele in the outside world also changed from the text 14 to the text 15!

This change in text once again silenced the entire audience.

However, compared to before, this silence lasted longer, and the shock in everyone's eyes was even more evident, as if they couldn't believe their own judgment and sight.

After a while.

Only then did someone among the crowd exclaim in surprise from the shocking scene.

“Fifteen waves.”

“Unexpectedly, fifteen waves, is this real!”

In an instant, the scene became noisy, with the astounding achievement of fifteen waves.

“How many years, how many years has it been? Perhaps it’s countless. From the last person till now, who knows how many years it has been since the Holy Domain has seen such an extraordinary genius.”

“Fifteen waves, Yang Chen has completely conquered the Sea of Trials.”

Not only the disciples, but even these Elders were so shocked that their eyes were wide open.

“Fifteen waves, did he defeat the Sea King Giant Squid with over twenty-three thousand Dao Intent Inscriptions?”

“Over twenty-three thousand Dao Intent Inscriptions?”

“My god, over twenty-three thousand Dao Intent Inscriptions, is this real or fake?”

“This, I, I must have misheard.”

“The strength of Dao Intent Inscriptions surpasses twenty thousand!”

For many people, ten thousand was already an unattainable number, but now Yang Chen had reached the height of twenty thousand!

This, of course, was something that everyone could hardly believe.

What kind of concept is twenty thousand? No, to be precise, it's twenty-three thousand.

"No, we must inform the higher-ups about this matter. We need to contact them quickly. Someone has conquered the Sea of Trials again! Hurry and contact the Divine Law Palace, no, an even higher level!" When the Great Elder heard this, he took a deep breath, unable to sit still any longer and running off.

Upon hearing this, the other Elders also left hurriedly, following the Great Elder's footsteps to report this matter to the higher-ups.

The news of Yang Chen conquering the fifteenth wave quickly spread, in an instant making him famous, with an even bigger and more terrifying reputation than before!

When Zhang Jiangkun saw this scene, he took a deep breath, completely unsure of what kind of existence he had associated with.

At that time, he was proud to be the only one who had met Yang Chen in person.

Because only he had made such a correct choice at the time and was now considered a sincere friend by Yang Chen!

At this moment, Yang Chen was also transported out by the Teleportation Array after passing the fifteenth wave.

Now, as Yang Chen walked out from the Teleportation Array, he carried his hands behind his back, appearing extremely calm, and if anything, just slightly fatigued.

Seeing everyone staring at him like that, Yang Chen could understand why.

He wanted to rest as soon as possible, so he looked at Mo Qianwu and Zhao Yuanhong: "Brother Mo, now that I'm out, how about we start the exchange?"

Mo Qianwu swallowed hard and then immediately waved his hand, not even caring about face and said: "No, no, just now, I, I was disrespectful. And also, from now on, Zhao Yuanhong is no longer a part of my subordinates."

When the conversation ended, Mo Qianwu directly left.

When he left, he completely severed any relationship with Zhao Yuanhong.

Yang Chen hadn't expected this, but after thinking about it carefully, it wasn't too surprising. After all, his performance had just been too astonishing.

If Mo Qianwu hadn't been scared, it would have been strange.

Now that Mo Qianwu had left, Yang Chen turned his eyes to Zhao Yuanhong.

Looking at Yang Chen's achievements now, Zhao Yuanhong was shedding old tears, knowing that if he didn't admit his mistakes now, he might never recover in his lifetime.

The gap between them was like the difference between a genius and a waste.

If a genius wanted to suppress someone, wouldn't it be a piece of cake?

Chapter 2592 - Dark Yellow Divine Gas_1

This was a very cruel thing.

Even Mo Qianwu didn't even think about it and directly apologized. Jokingly, it would be foolish not to apologize at this time.

Zhao Yuanhong took a deep breath and quickly said, "Yang Chen, I have offended you before, and I didn't recognize Mount Tai in front of me. I hope you don't bear any grudges against me. Excuse me."

When the conversation ended, Zhao Yuanhong almost dared not look at Yang Chen and left hastily, choosing to avoid the sharpness and completely retract.

Seeing this scene, many people were also relieved and thankful that they did not try to provoke Yang Chen.

If they really provoked Yang Chen, they might end up worse off than they are now.

The discussions were getting louder and louder.

Yang Chen had now completely become the focus of everyone's attention. After all, such a high achievement was truly shocking, and it was hard to believe.

Yang Chen then looked at Zhang Jiangkun and smiled, "Brother Zhang, let's go. By the way, where should we go to exchange points after the end of this trial?"

In the Sea of Trials, after surpassing the Eighth Wave, the points earned would become more and more.

And after the Tenth Wave, it would become more and more, to the point where it was incomparable to the waves before.

Zhang Jiangkun came to his senses and said quickly, "Brother Yang Chen, come with me."

Yang Chen followed Zhang Jiangkun with a faint smile.

The people around were ready to lead Yang Chen to exchange points if Zhang Jiangkun didn't know how to do it. They were worried about not having a chance to get in touch with Yang Chen.

Unfortunately, Zhang Jiangkun was clearly very knowledgeable.

Yang Chen was now extremely curious, "By the way, how many points can I earn for breaking through all fifteen waves?"

Zhang Jiangkun took a moment to calculate.

He took a deep breath and said solemnly, "Brother Yang Chen, after surpassing the Eighth Wave, the points for each wave will increase massively. The Eighth Wave earns you ten thousand points, the Ninth Wave twenty thousand, and the Tenth Wave forty thousand. After that, succeeding in each wave doubles the points, reaching one million points by the Fifteenth Wave."

Upon hearing this, Yang Chen stroked his chin and showed a smile.

The Eleventh Wave earned eighty thousand, the Twelfth Wave one hundred and twenty thousand, the Thirteenth Wave three hundred thousand, the Fourteenth Wave six hundred and forty thousand, and the Fifteenth Wave one million two hundred and eighty thousand!

Moreover, from the First Wave to the Fourteenth Wave, there were additional points, which total another one million two hundred and eighty thousand!

Adding these up, it's a whopping two million five hundred and sixty thousand points! The scale of these points was truly terrifying!

Thinking about it, Zhang Jiangkun swallowed his saliva, envying the points Yang Chen gained from the fifteen waves.

Indeed, the more waves one surpassed, the more tempting the points earned would become.

But no one else could reach it.

Only when reaching the Eleventh Wave did it earn eighty thousand points, and that was only Mo Qianwu's achievement.

And Zhao Yuanhong used all his strength to reach the Tenth Wave, earning only forty thousand points.

One's strength determined the points they would get. No one was as abnormal as Yang Chen, who directly jumped through fifteen waves and harvested such a terrifying number of points!

Zhang Jiangkun led Yang Chen all the way to the place to exchange points.

The location to exchange points was not far from the entrance of the Sea of Trials. It was precisely because of this that the Elder had just learned of Yang Chen's achievements.

When the Old Bearded Elder saw Yang Chen, he immediately changed his attitude from serious to respectful, "Yang Chen, my friend, you are here to exchange points. I have calculated for you, you have earned two million five hundred and sixty thousand points! Just take out your token!"

Without any hesitation, Yang Chen took out his token.

Seeing the Old Bearded Elder's face, many people cursed inwardly.

When they exchanged points, the Old Bearded Elder was not polite at all. But when it came to Yang Chen, he was so respectful.

Old Bearded Elder got all the points into Yang Chen's token, which turned him into a multi-millionaire instantly.

The thought of the strongest Dao technique, the Five Elements Sky-turning Finger, delighted Yang Chen. The one million seven hundred and forty thousand points needed to get it seemed far away before, but now he could buy it all at once.

But after some thought, Yang Chen realized that he couldn't learn the Five Elements Sky-turning Finger right now, so there was no need to rush to buy it. Instead, he could buy a King Divine Tool, which would improve the strength of the Slaughter God Spear even more.

Yang Chen had an idea.

"Thank you, Elder." Yang Chen said.

So, Yang Chen and Zhang Jiangkun returned together.

After returning, Yang Chen took a short break for three days, and three days later, the news about him spread throughout the Seven Swords Pavilion. The news about Yang Chen surpassing fifteen waves and completing the Sea of Trials, reached everyone's ears with a frenzy.

So much so, that when Yang Chen walked out, everyone was respectful, and seeing Yang Chen smile, many people tried to please and curry favor with him, even though Yang Chen didn't pay them any attention.

Yang Chen came out this time intending to buy a King Divine Tool directly.

The King Divine Tool was quite important to him, as it could enhance the power of the Slaughter God Spear and needed to be taken seriously.

Yang Chen arrived at the place where the King Divine Tools were sold, and said directly to the Slaughter God Spear, "You choose one for yourself."

Upon hearing this, the Slaughter God Spear laughed heartily, "Young Master, it's really great to follow you. There's a difference between King Divine Tools, and you can't choose the too powerful ones, otherwise, it's hard to chew with tough bones. Just choose this Black and Yellow Divine Sword."

Yang Chen glanced at the Black and Yellow Divine Sword with its price of 2.3 million points, which caused the corners of his mouth to twitch.

"Your demands aren't high? This 2.3 million points Black and Yellow Divine Sword should be quite powerful among the King Divine Tools, can you chew it?" Yang Chen asked.

"Hehe, Young Master, rest assured, I've become very powerful after chewing on those Supreme Grade Divine Tools last time. It's much stronger than before. I couldn't chew on this guy before, but this time it's different," the Slaughter God Spear chuckled.

Yang Chen looked at the sealed Black and Yellow Divine Sword.

The effect was clearly stated on white paper, and if it wasn't clear, there was also a light sphere showing the effect.

"Black and Yellow Divine Gas, I see, this Black and Yellow Divine Sword can split the Black and Yellow Divine Gas. Interesting..." Yang Chen murmured to himself.

Let it be him!

Yang Chen took the Black and Yellow Divine Sword and walked directly towards the Elder in charge.

"I'll take this one." Yang Chen said.

The Elder in charge didn't seem to recognize Yang Chen and said in surprise, "Two million points, you look unfamiliar, are you new here? Can you afford it?"

Yang Chen smiled, "Elder, please check the token."

When the Elder looked at the token, he turned it left and right, and was slightly startled, "Two million points, you, are you Yang Chen?"

Chapter 2593 - Evolution of the Slaughter God Spear_1

Yang Chen smiled indifferently: "Yes, it's me."

This elder took a deep breath, and his attitude changed a lot in an instant. It's not surprising that he recognized Yang Chen because it seems that only Yang Chen in the entire Seven Swords Pavilion could afford such a luxury.

"Your points have been deducted, and now the Black and Yellow Divine Sword is yours," the elder said.

Yang Chen didn't waste any more words. Holding the Black and Yellow Divine Sword, he left the place.

It has to be said that Yang Chen was still quite heartbroken. Spending 2,300,000 in one go, his points were almost gone.

These points were spent so fast that it was simply unstoppable.

That's why Yang Chen couldn't wait to see the result just now.

After leaving, Yang Chen went back to his residence and began to study the matter of the Slaying God Spear devouring the Black and Yellow Divine Sword.

The Black and Yellow Divine Sword was sealed, and there was no Artifact Spirit inside. So it was very convenient to devour it.

This was specially made by the Seven Swords Pavilion. Because a weapon with an Artifact Spirit is difficult to store and seal quietly, the Artifact Spirit is usually erased beforehand.

For cultivators, it's not difficult to infuse a new Artifact Spirit into a King Divine Tool. The Artifact Spirit has a minimal impact on the King Divine Tool, and sometimes a particularly powerful soul can even enhance the strength of the King Divine Tool.

Therefore, most of the King Divine Tools are erased of their Artifact Spirit before being purchased.

This also saved Yang Chen a lot of trouble. He unlocked the seal and directly let the Slaying God Spear try to devour it.

The Slaying God Spear was now used to devouring other King Divine Tools. It had experience devouring the King Divine Tool Yeduan before and various Supreme Divine Tools later. Now it can be said that it has become very skilled.

Moreover, the Slaying God Spear itself was mixed with Yang Chen's Dao Intent of Life and Death Time and Space, which allowed it to hold a firm upper hand against other King Divine Tools.

As a result, it quickly gained the upper hand in the battle with the Black and Yellow Divine Sword, which had no spiritual intelligence, and eventually completely devoured it.

Yang Chen had been watching, and when he saw the Slaying God Spear devour the Black and Yellow Divine Sword, he began to genuinely wonder.

After devouring the Black and Yellow Divine Sword this time, there was a clear change in the Slaying God Spear.

Yang Chen's first impression was that it had evolved.

Yes, the Slaying God Spear had evolved.

The overall appearance of the Slaying God Spear changed. The body of the spear turned into the color of the Black and Yellow Divine Sword, and the tip became sharper and more domineering. It seemed as if there was a black and yellow aura lingering around the Slaying God Spear...

Without a doubt, the Slaying God Spear was still the Slaying God Spear, as it had successfully devoured the Black and Yellow Divine Sword, rather than the other way around.

The aura of the Slaying God Spear grew stronger as well.

But the change in appearance left Yang Chen puzzled, and he asked in surprise, "Slaying God Spear, what's the deal with this appearance? Have you reached the level of Emperor Divine Tool?"

"No way, how could it be so easy to enter the realm of Emperor Divine Tool? Hahaha, I wish I could join the ranks of Emperor Divine Tools. But it's too difficult," the Slaying God Spear chuckled.

"Then what's the deal with this appearance?" Yang Chen asked, puzzled.

"Hahaha, Young Master, I have absorbed the essence of the Black and Yellow Divine Sword. From now on, I can not only use my own power, but also the power of the Black and Yellow Divine Sword," the Slaying God Spear laughed.

"What? Is it that amazing?" Yang Chen was slightly surprised.

In the Demon God Tower, the Slaying God Spear made a casual strike.

With a thunderous blow, a large amount of black and yellow Qi followed the tip of the spear, while there wasn't much black and yellow Qi, the power was quite astonishing.

Yang Chen was stunned: "What's the principle behind this? When you refined Yeduan before, I didn't see you inherit his abilities."

"It's different, Young Master. When I refined Yeduan at that time, I was repairing myself. If I tried to inherit its ability while refining it, it might have refined me instead. But it's different now," the Slaying God Spear said. "I have the blessing of your Dao Intent, in addition to being more powerful than the Black and Yellow Divine Sword, so I can firmly hold the upper hand without fear of being devoured."

Upon hearing this, Yang Chen nodded, understanding what had happened: "I see, so you're saying that you can inherit the abilities of other King Divine Tools when you refine them later? That's too powerful."

"Hahaha, Young Master, you're right. For King Divine Tools, devouring each other is the best way to become stronger. Otherwise, it would be as difficult as climbing to the sky for a King Divine Tool to evolve. And didn't you notice that all the Emperor Divine Tools are incredibly domineering? Perhaps they all climbed up step by step by devouring Supreme Divine Tools," the Slaying God Spear said.

Yang Chen pondered over this and thought it was indeed possible.

The number of Emperor Divine Tools was very small, so who's to say they didn't devour one King Divine Tool after another to get to where they were?

With that said, he had a clue.

To devour one King Divine Tool, the Slaying God Spear couldn't reach the level of Emperor Divine Tool. But what about devouring five or ten?

And with each one, the Slaying God Spear could inherit their abilities, which was an excellent thing.

Yang Chen thought more and more about this interesting idea: "In this case, even if I have to pay a high price, I have to find more King Divine Tools for you to help you improve."

"Hehehe, Young Master, don't worry. If you find me King Divine Tools, I can absolutely perform to their full value," the Slaying God Spear laughed happily.

Yang Chen showed a smile: "That's reassuring to hear."

If he wanted to buy King Divine Tools, the best way was through points.

Points...

Yang Chen felt a headache coming on. It seemed that he had to refine pills to accumulate points again.

Speaking of which, he still had quite a few Crane Spirit Immortal Pills in his possession, which were key to accumulating points.

Now that he was short on points, returning to refining pills was the best course of action. This time, he would raise the price even further, not believing that it wouldn't sell for a good price.

Refining pills, crazy refining pills.

For others, being able to make a single batch from a few furnaces of elixirs would already make them quite accomplished Alchemists.

But for Yang Chen, as long as he had the experience and skills, he had the confidence to refine every batch of elixirs.

Moreover, they were all Supreme Grade elixirs!

Now that Yang Chen's soul had almost recovered, he started to immerse himself in Alchemy, refining a total of 30 Supreme Grade Crane Spirit Immortal Pills.

With 30 top-grade Crane Spirit Immortal Pills, just throwing one out would probably make those old demons fight bloody battles over it.

Thinking of this, Yang Chen began to prepare, planning to continue as a pill peddler.

But at this moment, he suddenly sensed something.

"Zhang Guihe is back?" Yang Chen had specifically arranged for Zhang Guihe to gather information. Now that Zhang Guihe had returned, Yang Chen immediately summoned him through a sound transmission.

Zhang Guihe was overjoyed to be summoned by Yang Chen and quickly appeared in front of him.

"Young Master, I have gathered some information about the Strongest Dao Intent and Dao Technique," Zhang Guihe entered the topic directly, without wasting words, and began to speak as soon as he entered the room.

Chapter 2594 - News of the Life and Death Dao Technique_1

Yang Chen liked Zhang Guihe's straightforwardness, not beating around the bush and directly getting to the point, which was a quality that a subordinate should have.

Zhang Guihe was clearly very smart.

Upon hearing what Zhang Guihe had just said, Yang Chen was overjoyed: "Message about the strongest Dao Intent's Dao Technique? Tell me quickly!"

"There are two pieces of information I've gathered on the strongest Dao Intent's Dao Technique. One of them is at the Tiantai Mountain Summit." Zhang Guihe said.

"Tiantai Mountain Summit? Where is that?" Yang Chen asked curiously.

"It's located in the Beast God Sacred Area, which is known for its ability to tame Fierce Beasts. I heard that this summit might have obtained a Dao Technique with the strongest Dao Intent during an ancient battle." Zhang Guihe explained.

Yang Chen couldn't help but ask, "What sort of Dao Intent does this Dao Technique possess?"

"It seems to be something related to Destruction Dao Intent." Zhang Guihe said vaguely, as he didn't know much about the strongest Dao Intent.

Upon hearing this, Yang Chen sighed.

Destruction Dao Intent's Dao Technique...

Destruction Dao Intent was indeed the strongest Dao Intent, but it wasn't something he could cultivate.

"What about the other one?" Yang Chen asked.

"The other one is located far away, on the other side of the River of Extreme Yin, and I don't know how reliable the information is. It's all based on rumors I've heard." Zhang Guihe hesitated to say more.

"It's fine. Just tell me everything." Yang Chen wasn't too concerned.

Rumors were still better than nothing.

At least, there was hope, and it wasn't just a wild goose chase.

Yang Chen couldn't help but sigh. Dao Techniques with the strongest Dao Intent were incredibly rare.

It made sense. How many individuals throughout history had owned the strongest Dao Intent? And how many of them had created Dao Techniques?

He wanted to create his own Dao Technique as well, but it wasn't something that could be achieved within a year or two.

"That place is called the Three Flowers Sect." Zhang Guihe said.

"A female cultivator's sect?" Yang Chen instinctively replied.

"Not exactly. The Three Flowers Sect is organized around a gigantic flower with only three petals. The entire sect is built upon this bizarre flower. Rumors say that this flower carries the destiny of the Three Flowers Sect, ensuring its prosperity. It can be considered the sect's lifeline, hence the name 'Three Flowers Sect'." Zhang Guihe explained, "However, it is true that the massive flower attracts many female cultivators to the sect, making it one of the few sects with a more balanced male-to-female ratio, or even more female cultivators than male ones."

"How does this Three Flowers Sect compare to the Holy Domain?" Yang Chen asked.

"They're quite similar. At its peak, the Holy Domain was not much different from the Three Flowers Sect. But now the Holy Domain has declined, while the Three Flowers Sect remains a main force in the battle against the Netherworld." Zhang Guihe reported without omission.

Yang Chen gained a better understanding and asked curiously, "Go on, does this Three Flowers Sect have a Dao Technique with the strongest Dao Intent?"

"Yes, according to rumors, the founder of the Three Flowers Sect, King Kongshu, was once a possessor of the strongest Dao Intent, and he created a Dao Technique with this strongest Dao Intent. The sect preserves this technique, but after countless years, no one has been able to learn it."

Yang Chen couldn't help but ask, "What kind of Dao Intent is the strongest in Dao Technique?"

"From what I've gathered, King Kongshu seemed to possess Life and Death Dao Intent, so the Dao Technique he created should also be related to Life and Death Dao Intent." Zhang Guihe didn't know why Yang Chen was so interested in what kind of strongest Dao Intent it was, but he didn't dare to ask and truthfully answered Yang Chen's questions.

When Yang Chen heard the words "Life and Death Dao Technique," his heart was filled with joy.

Hahaha, finally, there's news.

Although he wasn't sure if the rumors were reliable or if the strongest Dao Technique was the Life and Death Dao Intent created by King Kongshu, at least there was news.

Having news was good.

Having news meant there was a goal in mind.

"I see, Zhang Guihe, you've done great." Yang Chen laughed happily.

"Young Master, besides that, I've also gathered some information on the things you'd like to find." Zhang Guihe said with a fawning smile.

Upon hearing this, Yang Chen was even more pleasantly surprised: "Oh? Show me."

Zhang Guihe handed over the light sphere containing the records.

Yang Chen plunged his soul into it and quickly understood everything.

This Zhang Guihe was indeed very capable. He had even found some items that could help Yang Chen improve his gold, wood, water, and fire Dao Intent to the limit.

This was yet another unexpected surprise for him.

He couldn't leave Zhang Guihe unrewarded for his efforts.

Deciding on a reward for Zhang Guihe, Yang Chen rubbed his temples and soon laughed: "Zhang Guihe, bring out your token."

Zhang Guihe didn't know what Yang Chen was planning to do, but he handed over his token regardless.

Yang Chen took the token and used his soul to transfer his points directly into Zhang Guihe's token.

He gave him 50,000 points in one go.

"Take a look at your points." Yang Chen said.

Zhang Guihe didn't know what Yang Chen had given him, but when he saw that his points had increased by 50,000, he instantly realized what had happened. Overjoyed, he thanked Yang Chen: "Thank you, Young Master."

Now he was even more certain that he had made the right choice in following Yang Chen. It was well worth it. With 50,000 points, he would have had to save up for a very long time. Even the senior disciples of the Seven Swords Pavilion didn't necessarily have 50,000 points on hand.

Now he got 50,000 points all at once.

Instantly, Zhang Guihe had made up his mind to serve Yang Chen well.

Yang Chen initially wanted to give the Crane Spirit Immortal Pills to Zhang Guihe to sell, but considering that they were too valuable and that Zhang Guihe might not be able to handle the situation, he didn't mention it. He said, "Zhang Guihe, you can go now. I'm aware of the situation. If there's anything else, I'll let you know."

"Yes, Young Master." Zhang Guihe quickly retreated.

Meanwhile, Yang Chen paced back and forth with his hands behind his back, lost in thought.

"Three Flowers Sect, Three Flowers Sect!" Yang Chen mumbled to himself.

He had to visit the Three Flowers Sect and see what was going on. But according to Zhang Guihe, the Three Flowers Sect was located on the opposite side of the River of Extreme Yin?

As for the River of Extreme Yin, it was an incredibly difficult barrier to cross, making it a challenging obstacle.

While thinking about it, Yang Chen shook his head.

"Never mind, I'll deal with that after selling the Crane Spirit Immortal Pills first." Yang Chen muttered to himself as he went on his way to the Black Market, planning to sell all of the Crane Spirit Immortal Pills.

Thirty pills – he wondered how much they would be worth.

Chapter 2595 4,200,000 Points_1

When Yang Chen arrived at the black market, as usual, it caused a lot of discussions.

Many people talked about Yang Chen, mainly because of what he had done, such as completing the fifteen waves of the Sea of Trials and earning millions of points.

As a result, Yang Chen became the center of attention, and wherever he went, people would talk about him, with countless envious and admiring gazes coming his way.

Some bold female cultivators approached to make conversation, trying to establish some connection with Yang Chen.

Even more, they directly asked Yang Chen if he had a dual cultivation partner.

At this, Yang Chen was very helpless, but there was no effective solution. After all, others were showing kindness, and he couldn't slap a smiling face away.

So, helplessly, Yang Chen could only use his Space Dao Intent to escape to a corner of the black market and carefully plan to sell his elixirs.

"As for the price..."

Yang Chen thought for a moment, and finally set the price at 120,000 per pill.

What he was selling this time were all top-grade Crane Spirit Immortal Pills.

Normally, the price of a supreme-grade immortal pill would be around 60,000 to 70,000 points.

Crane Spirit Immortal Pill was more special, but doubling the price should be fine.

Since there was no clear price for Crane Spirit Immortal Pill on the market, it was relatively more in demand, and Yang Chen felt that his selling price was just right.

Too high, people couldn't afford it.

Too low, he would lose money.

Conscientious price, perfect for selling.

At 120,000, he simply set the price and closed his eyes to rest while waiting for customers.

This time, Yang Chen had experience and directly displayed the supreme-grade Crane Spirit Immortal Pills, so that others would believe he really had them.

Soon enough, someone discovered his stall.

An elder at the Great Ascension stage looked left and right, exclaimed with joy, "This, this is really the Crane Spirit Immortal Pill. It's wonderful. I've been looking for this for a long time but never found it. Young brother, I have 120,000 points. This Supreme Grade Crane Spirit Immortal Pill is mine now."

When the conversation ended, the elder took out his points, and as a result, the supreme-grade Crane Spirit Immortal Pill became his.

From the elder's expression, it was obvious that he felt some pain spending 120,000 points, but compared to obtaining the Crane Spirit Immortal Pill, he was clearly overjoyed and extremely happy.

Just like that, more powerful ones at the Great Ascension Stage arrived.

This also allowed Yang Chen to judge that 120,000 points were somewhat hard to bear for some of the Great Ascension Stage powerhouses. After all, not everyone could be as demonic as him and earn such a huge amount of points.

Before reaching the Boundary-less Level, some Great Ascension Stage cultivators would even be worse off than those at the Nirvana Stage in terms of treatment.

Some Great Ascension Stage cultivators couldn't afford the Crane Spirit Immortal Pills and looked on helplessly, even trying to gather points from various sources.

And those Great Ascension Stage powerhouses with enough points were overjoyed and started to crazily purchase these supreme-grade Crane Spirit Immortal Pills.

"I want one of these Crane Spirit Immortal Pills!"

"Me too!"

"I want one too!"

In an instant, more and more people came. Yang Chen originally thought that the thirty pills would take a while to sell, but to his surprise, they were all sold out in less than half a day.

Those who hadn't expected the Crane Spirit Immortal Pills to be sold out, as well as those who had just prepared their points, were heartbroken, knowing they had missed the best opportunity.

After selling the pills, Yang Chen left.

Now Yang Chen was very happy.

With the sale of the thirty Crane Spirit Immortal Pills, he directly gained 4.2 million points!

Only he could pull off such a profitable business.

The reason why he got 4.2 million points was because the price of the Crane Spirit Immortal Pills kept increasing as they sold out. Because they were supreme grade, the old fellows went crazy buying them. In the end, some even sold for over 200,000 points, making the original total of 3.6 million points shoot up to over 4 million.

With 4.2 million points in hand, Yang Chen naturally had to leave early, as there was no guarantee that others wouldn't be envious of his points.

Although Yang Chen left, rumors about him spread rapidly.

Many people started to wonder how Yang Chen managed to refine the pills, considering that it was unbelievable for thirty Crane Spirit Immortal Pills to appear all at once.

It's not that there were no top alchemists in the Holy Domain, but none of them could compare to Yang Chen, especially when it came to producing thirty Crane Spirit Immortal Pills.

Not to mention supreme-grade, it was estimated that no one could even produce the lowest-grade ones.

This aroused the curiosity of many people.

Yang Chen knew that he was being a bit too high-profile this time, so he decided to temporarily stop refining pills after this, because once his alchemy level was exposed, it would likely cause a lot of trouble.

Now with more than 3 million points, Yang Chen could spend recklessly again.

He first went to the Tianxuan Building and bought the Five Elements Sky-turning Finger for 1.7 million points in one go.

Afterward, Yang Chen used the remaining points to buy King Divine Tools.

At this moment, Yang Chen came to the place again, intending to choose a second King Divine Tool together with the Slaughter God Spear.

"Let's see which King Divine Tool is suitable." Yang Chen said with a smile.

Slaughter God Spear was very greedy and carefully looked around.

Yang Chen also searched.

The King Divine Tools were indeed different, with one of the most expensive items costing over 5 million points. Even with his current resources, he couldn't afford it.

Some of these King Divine Tools were not meant for them, but for the Boundaryless-level powerhouses or even stronger ones.

"Extinguishing God Hammer!" Yang Chen murmured.

This King Divine Tool, worth over 5 million points, was the Extinguishing God Hammer. At first glance, Yang Chen was quite surprised by its effect.

With one strike, the earth would shake and crack, creating three times the user's divine power, which was astonishing.

Unfortunately, with its price of over 5 million points, he couldn't afford it. Even if he could, it would need to be considered if the Slaughter God Spear could absorb it.

"I want this one." Slaughter God Spear decided in one breath.

"Poisonous Dragon Sting, 2.3 million points, can be stretched indefinitely, restraining and binding the opponent when chasing after them. Once the poison penetrates the opponent's wound, it will quickly paralyze their divine power."

Upon seeing this effect, Yang Chen smiled.

"Slaughter God Spear, you made a good choice. This is it." Yang Chen said with a smile, "You must inherit this Poisonous Dragon Sting's ability."

The Dark Yellow Divine Gas wouldn't do much for him, but the Poisonous Dragon Sting was different.

Chapter 2596 Extinct Sect Holds a Challenge_1

Slaying God Spear chuckled: "No problem, rest assured, Young Master. I will definitely inherit the ability of the Poison Dragon Thorns."

"That's good, then. Let's get it." Yang Chen decisively paid for it without any hesitation.

When he went to buy the King's Divine Artifact, the Elder in charge of this area was already familiar with Yang Chen. Seeing Yang Chen buying another artifact worth millions after just purchasing one, his eyes almost fell out of their sockets.

Perhaps no one could be as crazy as Yang Chen, buying two King's Divine Artifacts in a row.

Amidst his astonishment, the Elder checked Yang Chen's points and found that he really had that many points, so he could only sell the King's Divine Artifact to Yang Chen.

Yang Chen obtained another King's Divine Artifact, and as before, handed it to Slaying God Spear to devour.

After returning, Slaying God Spear began to refine the Poison Dragon Thorns.

Having had a refining experience before, this time he was extremely familiar with the process. With the assistance of Yang Chen's nine Daoist principles, Slaying God Spear easily devoured the artifact.

He soon suppressed the Poison Dragon Thorns, completely devoured them, and integrated them into his body.

Nowadays, when Yang Chen enters the Demon God Tower, he can't wait to see the effect of inheriting the Poison Dragon Thorns on Slaying God Spear.

"Show me the effect of inheriting the Poison Dragon Thorns," Yang Chen said with his hands behind his back.

Slaying God Spear happily said: "Young Master, watch closely."

As soon as he finished speaking, the tail of the Slaying God Spear suddenly stretched out, much like a long whip.

There was no change in other parts of the spear's body, except for the tail becoming like a scorpion sting, living up to the name Poison Dragon Thorns.

This elongation could twist and turn, making it extremely easy to control the enemy.

Seeing this, Yang Chen was overjoyed.

"Not bad, Slaying God Spear. With this divine power, it's not a waste for me to spend a lot of money to buy you this King's Divine Artifact." Yang Chen said gently.

Slaying God Spear, aware of how much Yang Chen had spent, happily said: "Thank you, Young Master."

"It's nothing. Since you're my divine weapon, I won't treat you unfairly," Yang Chen smiled.

As soon as his words fell, he suddenly sensed something in his soul.

"Someone is coming," Yang Chen muttered to himself, not knowing who was approaching.

However, after a brief observation, he realized that something was unusual.

Nowadays, when he grabbed a Sound Transmission Talisman, it immediately shot into his hand. Yang Chen caught it and looked at it carefully. Immediately, he let Slaying God Spear enter the Demon God Tower, and he himself walked out.

As he came to the outside world, Yang Chen saw two old men.

These two old men were clearly not from Seven Swords Pavilion.

Yang Chen was very familiar with one of them, who was Elder Han responsible for him.

And now, beside Elder Han, there was another man. This man had an air of unruly dominance between his brows, and his aura was even stronger than Elder Han's.

This made Elder Han treat him with utmost respect, and he didn't dare to disobey him in the slightest.

Now seeing Yang Chen coming out, Elder Han immediately revealed his delighted expression: "Haha, Yang Chen, you finally came out. Your performance during this period really surprised me. Well done, well done. By the way, this is Feng Wu Yang, the Wind Palace Master. Hurry up and pay your respects to him. He is our Divine Law Palace Master."

After saying this, Elder Han winked at Yang Chen, hinting that the status of Wind Palace Master was extraordinary.

How could Yang Chen be vague? Seeing this man, he knew that his cultivation level was not ordinary.

Moreover, Elder Han was just an elder, while this person directly held the position of Palace Master, which showed his impressive status.

He hurriedly said, "Greetings to Wind Palace Master."

Feng Wuyang looked at Yang Chen and also showed a gradually emerging smile, then calmly said, "So you are Yang Chen. Not bad. Recently, my ears are full of stories about you. Things like you having a Daoist Divine Body, breaking through fifteen waves of the Sea of Trials, and selling a bunch of Crane Spirit Immortal Pills to buy King's Divine Artifacts. I know all of these."

Upon hearing this, Yang Chen was slightly surprised.

He thought that his affairs would not spread so far so quickly. Unexpectedly, even the higher-ups were paying attention to him.

Feng Wuyang chuckled: "In fact, with your performance, our Divine Law Palace should have chosen to focus on cultivating you. However, I didn't expect so many shocking things to happen to you one after another. This made me not worried. I originally intended to see how much potential you have, but I didn't expect that some accidents happened in the meantime, forcing me to come and find you personally."

"Some accidents?" Yang Chen looked puzzled.

This matter should not be a good or bad thing, and it shouldn't be considered an accident.

"Yes, it is related to this matter. You defeated Lin Feiyu of the Extinct Sect, giving them a heavy blow. In the past four thousand years, the Extinct Sect has been pressing our Holy Domain, and now that you have struck their faces, how could they be willing?" Feng Wuyang laughed.

Elder Han stroked his beard, looking very happy.

Happy about what?

In fact, they of the Holy Domain had been suffocated by the Extinct Sect for years.

Inside their sect, from old to young, they indeed had been holding back their potential. Except for the two leading Kings who could compete with the Extinct Sect, the others were all not as good as the Extinct Sect.

This caused the Extinct Sect to gain a strong reputation.

Meanwhile, the Holy Domain kept suffering setbacks.

Now that someone has stepped forward and struck the face of the Extinct Sect, how could they not be happy? It is worth mentioning that there are not many people in the Extinct Sect whose faces can be called important, and Lin Feiyu just happened to be one of them.

"What does the Extinct Sect plan to do?" Yang Chen asked with some concern.

Feng Wuyang's expression gradually turned serious as he spoke: "People from the Extinct Sect have already come to our Holy Domain and issued you a challenge, intending to forcefully defeat you and regain their dignity. In order to prevent us from refusing the challenge, the Extinct Sect has set up a contest right at the entrance of our Holy Domain!"

Hearing this, Yang Chen couldn't help but laugh and cry.

Setting up a contest at the entrance of the Holy Domain, these people from the Extinct Sect really wanted to make it big. The Holy Domain had to accept the challenge whether they wanted to or not.

Chapter 2597 Nine Suns King Summons_1

You're not accepting?

If you don't accept, you're telling the world that you people of the Holy Domain are afraid, that you can't defeat the Extinct Sect.

This will likely become the most shameful stain in history, making it difficult for the Holy Domain to face the Extinct Sect for thousands of years.

The Extinct Sect's approach is truly, undeniably frustrating.

However, after thinking about it, Yang Chen couldn't laugh anymore.

Damn it, this matter started because of him, and it was targeted at him, so it couldn't be considered a good thing, right?

"Does the Extinct Sect want to defeat me to regain face? Do they have a more powerful genius besides Lin Feiyu?" Yang Chen asked, puzzled.

"How could there not be? Lin Feiyu can only rank in the top three within the Extinct Sect. The truly powerful one is Luo Hen from the Extinct Sect." Feng Wuyang explained.

"Luo Hen!" Yang Chen was slightly startled.

"Yes, Luo Hen is the number one person in the Extinct Sect. He cultivated for nearly one thousand years, and his Dao Intent Inscriptions reached more than seventeen thousand, and like you, he has also unlocked the Daoist Divine Body." Feng Wuyang explained.

Upon hearing this, Yang Chen narrowed his eyes.

Luo Hen had more than seventeen thousand Dao Intent Inscriptions, and he also had a Daoist Divine Body? This was getting interesting.

"Yang Chen, tell me honestly, how many Dao Intent Inscriptions do you have?" Feng Wuyang inquired.

Without hiding anything, Yang Chen unreservedly said, "This junior has sixteen thousand nine hundred Dao Intent Inscriptions!"

Upon hearing this, Feng Wuyang and Elder Han exchanged glances, both inhaling cold air.

"So, you are still a thousand Dao Intent Inscriptions short compared to Luo Hen. Under the same circumstances with the Daoist Divine Body, it may not be easy for you to beat him." Feng Wuyang sighed softly.

Elder Han advised, "Wind Palace Master, even though we are at a disadvantage, we still have a fighting chance. Maybe with some luck, we can still hope for victory."

Feng Wuyang nodded, "Now we can only do this. Yang Chen, we originally planned to observe you for some time, but now, you must seize this opportunity. We don't expect you to defeat Luo Hen, just don't lose too badly, and maintain the Holy Domain's face. The Holy Domain will greatly promote your cultivation in the future, and this could be considered your opportunity to prove yourself."

Upon hearing this, Yang Chen replied, "This junior understands."

"The Extinct Sect has already started setting up the ring in front of our Holy Domain Gate, and it will begin in ten days. You must prepare well in these ten days," Feng Wuyang said.

Yang Chen respectfully said, "This junior understands."

Feng Wuyang and Elder Han didn't say much else and left one after the other.

These ten days were neither long nor short, but enough to spread the news throughout the Holy Domain, the entire Sacred District, and even the surrounding great areas and sacred districts.

Everyone knew that the Extinct Sect and the Holy Domain were eager for a showdown, a face-to-face confrontation.

This showdown attracted everyone's attention.

Whoever loses will not be able to show their face in front of their opponent for several thousand years.

Whoever loses shows that their skills are inferior!

Even before the battle had begun, it was stirring everyone's hearts.

For Yang Chen, these ten days were extraordinarily calm.

After so many years, he had learned to maintain a peaceful state of mind. Luo Hen was certainly a formidable opponent, but it didn't affect his mental state.

He didn't do anything special either.

There wasn't much he could do to strengthen himself in a short ten days span. Yang Chen simply stabilized his Sa Qi cultivation a bit more.

Ten Transformation Godhood had many uses for him in this world, and he had to take it seriously.

And so, the ten days passed hurriedly...

Suddenly, ten days later.

As soon as Yang Chen stepped out, there was an elder from the Divine Law Palace personally arriving to escort Yang Chen.

Elder Han was among them, and when he saw Yang Chen, his attitude now was much more respectful and courteous than before. He was no longer holding heavily to his No Boundary Senior status.

"Yang Chen, it's time. Let's go," Elder Han said. "The Extinct Sect has already set up the ring."

"Yes, this junior knows," Yang Chen replied.

Elder Han solemnly said, "Yang Chen, you must do your best in this battle. If we lose too badly, the Holy Domain really won't be able to lift their heads."

Yang Chen shook his head inwardly, as the people of the Holy Domain seemed to have no confidence in his victory.

Feeling helpless, he responded calmly and modestly, "This junior will do his best."

Elder Han didn't say much else, leading Yang Chen to the Mouth of the Holy Domain.

When they arrived here, they saw the area around them crowded with people.

The ring was surrounded by cultivators from both the Extinct Sect and the Holy Domain.

"Yang Chen is here!"

"Yang Chen is here!"

"I heard that Yang Chen hasn't been in the sect for long. I wonder if he can defeat the Extinct Sect's people and suppress their arrogance."

"As you said, Yang Chen just entered the Holy Domain not long ago, so how can he win against the Extinct Sect's people? It's simply too difficult."

"It seems Yang Chen has been in the Seven Swords Pavilion for less than a year."

"What? Less than a year, and he's going to fight Luo Hen?"

The people of the Holy Domain were discussing amongst themselves.

At this time, in the uppermost ranks of the Holy Domain, a white-bearded old man was seated in the center of the crowd, evidently in a high position with an extraordinary aura.

Everyone knew that he was one of the most powerful figures in the Holy Domain, the Nine Suns King.

The absolute pillar of the Holy Domain.

Sitting there, the Nine Suns King was like a red sun, the sun itself, emitting an oppressive and astonishing aura that commanded awe from everyone around.

Surrounded by numerous strong people, those who could sit by the side of the Nine Suns King were all Boundaryless-level powerhouses.

"The Extinct Sect is coming aggressively, clearly prepared, thinking that we in the Holy Domain are unprepared," one of them said.

"We've never heard of this Yang Chen before, can he really fight Luo Hen?" another one asked.

"I don't think our young generation in the Holy Domain can beat Luo Hen, let alone Lin Feiyu. Those who are slightly outstanding among the Seven Swords Pavilion have cultivated for more than ten thousand years, and even they wouldn't be enough to be presentable."

Hearing the discussions, the Nine Suns King coughed lightly twice.

At his cough, these Boundaryless Stage Experts closed their mouths immediately. It was evident how much authority the Nine Suns King held as even these Boundaryless experts didn't dare to disobey.

The Nine Suns King expressionlessly said, "I've heard that this Yang Chen just entered the Seven Swords Pavilion less than a year ago. It's interesting. Since he's here, you guys bring him over to meet me."

Upon hearing that the Nine Suns King wanted to meet Yang Chen, many people were surprised.

After all, even the most outstanding of the younger generation usually did not have the qualifications to meet someone like the Nine Suns King.

However, no one dared to defy the Nine Suns King's orders, and these Boundaryless experts quickly sent a sound transmission to Elder Han.

Chapter 2598 Young Master Candidate_1

Elder Han quickly received the sound transmission, and was quite surprised and unexpected when he heard that Nine Suns King wanted to meet Yang Chen. After all, what status is Nine Suns King?

King of the Sacred Domain, the pinnacle pillar and existence of the Sacred Domain.

His existence symbolizes the highest combat power of the Sacred Domain.

Even if the younger generation is talented, there is still a gap with Nine Suns King. The birth of a Powerful One is not simply because of talent in youth, but also opportunity, luck, and many aspects such as innate strength. Only then can you possibly achieve it.

Only then can a top-notch figure be born.

In the history of the sacred domain, there have been supreme talents, but very few have reached the level of Nine Suns King and King Zhoucheng.

Genius, may not necessarily become the ultimate powerful one.

...

Elder Han didn't understand Nine Suns King's intention, but he said clearly to Yang Chen, "Yang Chen, the Nine Suns King wants to meet you. You should know that he seldom meets people in his later years. It is a rare opportunity for even the Boundaryless-level people like me to meet him. You must show some respect when you meet him."

When Yang Chen heard about the Nine Suns King, he was also shocked. He had heard of the level of existence of the Nine Suns King.

Now hearing this news, shock appeared on his face, he nodded immediately, "I understand. But where is the Nine Suns King senior..."

"Here..."

Just as Yang Chen finished speaking, a voice appeared directly in Yang Chen's head.

Immediately, Yang Chen looked up, and it seemed as if he saw a red sun, a giant sun.

This made Yang Chen slightly startled. Knowing the location, he said a word to Elder Han and headed towards the Nine Suns King.

As Yang Chen came all the way, he saw countless Boundaryless-level powerhouses.

These powerhouses looked at Yang Chen as if they wanted to see how many catties and taels Yang Chen had, and what abilities he had.

Yang Chen felt awkward being watched by so many people, after all, these powerful ones were all Boundaryless-level, a glance at him seemed to see through him.

In the end, Yang Chen stopped and came before the red sun, the giant sun!

When he came here, Yang Chen saw the true face of the Nine Suns King.

Not the red sun and giant sun, but a real person. It's just that the temperament this person exudes is truly amazing.

Yang Chen didn't dare to be disrespectful, knowing the identity of the other party, anxiously said: "Junior, pay respect to Elder Nine Suns King."

"You are Yang Chen?" Nine Suns King stared straight at Yang Chen.

"It is junior." Yang Chen responded.

Nine Suns King nodded, "Yang Chen, today's matter, all happened because of you."

Hearing this, Yang Chen's heart skipped a beat. Could it be that Nine Suns King came to blame him?

As he was in doubt, the Nine Suns King soon laughed, "Don't worry, I'm not blaming you. In fact, you defeating Lin Feiyu is your own ability, and I praise you for it. The Sacred Domain is not afraid of trouble, and it would be a disgrace to the Sacred Domain if our disciples don't dare to fight back when provoked outside. You defeating Lin Feiyu is very good, very impressive. However, in the world of powerful ones, merely being strong is not enough. You must be so strong that no one dares to provoke you!"

When saying this, the Nine Suns King paused slightly, "Obviously, you haven't reached that level yet. You defeated Lin Feiyu, and the people of the Extinct Sect arranged for someone to provoke you, to cause trouble for you and our Sacred Domain. Your situation has given them a very reasonable reason to suppress our Sacred Domain! Do you understand what I'm saying?"

Yang Chen heard this and nodded solemnly, "Junior can understand a little."

"Although I shouldn't let you take responsibility, but now that you are here, your shoulders are already bearing a lot of responsibility. This battle of yours is related to the Sacred Domain. I don't want to put any pressure on you, I just want to tell you one thing. Since ancient times, there have been very few extraordinary cases. Today, because of your situation, I'll make an exception for you. As long as you win this battle and obtain ease for the Sacred Domain, I will give you an opportunity to enter the Sun Domain. By then, as long as you complete the necessary conditions for entering the Sun Domain, you will belong to the Sun Domain of the Sacred Domain." Nine Suns King said.

Hearing this, a group of Boundless Stage Experts couldn't sit still.

"What, Nine Suns King, you are letting Yang Chen enter the Sun Domain?"

"This... how could this be possible? The Sun Domain is the most sacred place in our Sacred Domain."

"Sun Domain, that is where you and King Zhoucheng reside, how could this Yang Chen, who is just at the Nirvana Stage, qualify to enter?"

"Exactly, not even we have entered..."

Nine Suns King calmly said, "The reason you all say that is because you haven't entered the Sun Domain, but Yang Chen has gotten the opportunity. In fact, from your youth until now, I have given you opportunities, but you didn't seize them, did you?"

At these words, a group of boundaryless powerhouses were all embarrassed, and their eyes looking at Yang Chen revealed an envious expression.

This made Yang Chen realize the preciousness of Sun Domain.

What did he hear about it before?

The highest level of the Sacred Domain, above the pavilions and palaces. It is the place where King Zhoucheng and Nine Suns King usually cultivate and the highest authority of the Sacred Domain.

If he wins this battle, although he cannot directly enter there, he will have the qualifications to enter. That would be an amazing thing.

"Yang Chen, you just joined the sect, do you know what the Sun Domain represents?" Nine Suns King asked.

"Junior doesn't understand." Yang Chen shook his head.

"To enter the Sun Domain is to be the absolute core of our Sacred Domain. The conditions for entering the Sun Domain are difficult for each and every one. The simplest method is to break through and surpass the Boundaryless stage like me and King Zhoucheng, then you can directly and unconditionally enter the Sun Domain."

Nine Suns King did not pause, "Or, make an outstanding contribution during the Boundaryless stage, which also qualifies you to enter the Sun Domain. However, the difficulty is not much easier than surpassing the Boundaryless stage, so till now, no one at the Boundaryless level has entered the Sun Domain."

"Thirdly, it is to enter the Sun Domain as the Young Master of the Sacred Domain. This difficulty is also high. This role usually requires observing young people at Nirvana and Great Ascension stages for thousands of years or even longer before they qualify. Originally, we were supposed to observe you for a long time, but now, due to this competition, all the observation will be omitted."

Nine Suns King stared at Yang Chen, "So, you should understand everything I've said. In short, as long as you win this competition, you will become one of the candidates for the Young Master of the Sacred Domain!"

Chapter 2599 Fenghe Spacetime?_1

Upon hearing this, Yang Chen's pupils slightly shrank, such an opportunity laid before him, how could he not be tempted.

Young Master of the Sacred Domain, he had never heard of such a concept before, but it was definitely superior to the Seven Swords Pavilion and those Great Stage Experts.

No, even above the Boundaryless Level Powerhouses.

"Although just a candidate, do you know that obtaining this qualification is as difficult as ascending to the heavens? Nowadays, in the entire Sacred Domain, there are only three candidates, and each of them has been observed for thousands to tens of thousands of years. As for these candidates, they are still working hard for the Sacred Domain, and it is difficult for them to truly become the Young Master of the Sacred Domain." Nine Suns King said.

Yang Chen said, "This junior understands. I will do my best in this competition."

"As long as you understand, I've given you the opportunity, it's up to you to grasp it. If you enter the Sun Domain, then you will receive the top treatment and glory in the Sacred Domain!" Nine Suns King said.

Upon hearing this, Yang Chen nodded heavily.

If he were to become the Young Master of the Sacred Domain, it would be much easier for him to do other things.

For example, finding the strongest Dao Intent techniques or searching for the Heaven Lord Pavilion and so on.

At present, there was still some gap.

It was necessary to strive for this position of Young Master of the Sacred Domain.

With this thought in mind, Yang Chen noticed that the Extinct Sect's side could no longer wait.

"Nine Suns King, we are ready here, Luo Hen is already impatient, don't tell me that your Sacred Domain is afraid." An elder with a gloomy aura, comparable to Nine Suns King, from the Extinct Sect, mocked provocatively.

This person was obviously a King-level Powerhouse of the Extinct Sect.

"Go on." Nine Suns King waved his hand.

Yang Chen knew what was going on and looked at the ring ahead, jumping down to it.

The ring was very large, arranged by the Extinct Sect, with thunder and lightning around it; it was actually a ring separated from the Sky Thunder Pool.

There were numerous prohibitions surrounding the ring, making it appear solemn and high-end, clearly demonstrating that the Extinct Sect had made ample preparations for this competition.

Yang Chen arrived on the ring.

As he set foot on it, the audience from various forces who had come to watch also turned their attention to him.

"This person came out of the Sacred Domain, he must be Yang Chen, the one who defeated Lin Feiyu in the legend of the Sacred Domain."

"It's definitely him, I was present during the incident with the two bears last time, I remember his appearance clearly, it's this person!"

"Yang Chen came out."

"Hahaha, the Sacred Domain and the Extinct Sect are really tearing each other apart this time; the loser will lose face."

As Yang Chen appeared, there was also a great uproar on the side of the Extinct Sect.

Lin Feiyu was now sitting in a chair, looking at Yang Chen's appearance with surging hatred and anger in his eyes.

"Is it him?" A young-looking man beside him asked coldly upon seeing Yang Chen.

Hearing this man's words, Lin Feiyu quickly replied, "Senior brother, it is him."

"Useless, losing face for the Extinct Sect, now I have to come and save your reputation." Luo Hen said solemnly.

"Senior brother, I didn't expect this kid to be so powerful back then. Please take revenge for me." Lin Feiyu cried out in complaint.

Luo Hen glanced at Lin Feiyu with cold eyes and said in a deep voice, "Don't worry, I will make this brat know the consequences of provoking our Extinct Sect!"

When the conversation ended, Luo Hen didn't hesitate and stepped into the air, landing on the ground!

As soon as Luo Hen landed, the atmosphere became tense and confrontational.

A calm confrontation between Luo Hen and Yang Chen.

It was indeed very calm.

Such calmness seemed to announce that this competition would hardly pose any challenge to Luo Hen, and would not even create any ripples to shake him.

"I'm not someone who likes to talk nonsense, can we start now?" Luo Hen slowly said.

Seeing that Luo Hen was so straightforward, Yang Chen blinked and said, "Of course, we can start now!"

"Let's begin!"

At this moment, the referees from both sects also announced the start.

As soon as the referee's words were spoken, Luo Hen's figure disappeared from its place.

"Luo Hen disappeared."

"It's the Windless Step. It's said that Luo Hen's forte is speed, he has studied the Wind Dao Intent and learned the Extinct Sect's top Dao technique, the Windless Step. When moving, he can transform into wind while not causing any fluctuations, maintaining the speed of the wind while making it difficult for others to detect, it's a terrifying Dao technique!"

"I can't locate Luo Hen at all now."

"This is terrifying, how can we fight if we can't find Luo Hen?"

"I can't see him with my soul either."

Many people were astonished.

Yang Chen was also somewhat surprised by Luo Hen's methods.

But playing this trick with him...

"Space-Time Dao Intent!"

Yang Chen directly unfolded the Dao Intent Inscriptions of Space-Time Dao Intent around him, forming a protective barrier.

Once someone or an attack entered this area, they would be forced to solidify. Of course, Luo Hen wasn't an ordinary person, it would be impossible to solidify him, but slowing him down was still an easy task.

Luo Hen naturally didn't know this, his intention with the Windless Step was to launch a sneak attack on Yang Chen and kill him in one strike. In his eyes, the battle would end quickly because of this.

He was too lazy to confront his opponent head-on, as one Windless Step was often enough to overcome even more powerful opponents.

Now, he appeared.

As soon as his figure appeared, in his eyes, Yang Chen had already lost.

Seeing Luo Hen appear, many people from the Holy Domain felt nervous.

Because from the looks of it, Yang Chen was unprepared and might even be caught off guard and defeated badly.

"This is bad."

"We can't defend against the Windless Step, what should we do!"

"What can we do now?"

As people were lost in their thoughts, a baffling scene suddenly occurred.

When Luo Hen came close to Yang Chen, his speed suddenly dropped significantly and he could no longer maintain his original speed, slowing down by more than half.

It was precisely because of this that Yang Chen easily reacted and turned around to strike.

"The Hand of the Giant Golden Bell!"

A fierce counterattack.

"What's wrong, why has my speed slowed down so much!" Luo Hen couldn't figure it out, and his pupils shrank as his face revealed an undeniable surprise and shock.

Facing Yang Chen's palm attack, Luo Hen swallowed hard, realizing his carelessness as he moved his palm technique, and a dark light suddenly appeared!

A huge palm formed by this dark light collided with Yang Chen's palm.

"At least we weren't crushed..." The numerous strong people from the Holy Domain finally breathed a sigh of relief.

As long as they weren't crushed, it was still alright. Even if it wasn't a total defeat, the Sacred Domain would of course lose face, but it wouldn't be completely unbearable!

Chapter 2600: Exposure of Space-Time Dao Intent_1

"Shadow Dao Intent?" Yang Chen muttered to himself.

Clearly, Luo Hen also possessed multiple Dao Intents, and just from his display, he already had Wind and Shadow Dao Intents.

Moreover, there must be more than just these two types of Dao Intents with him.

There are even more!

Furthermore, Luo Hen's combat power was indeed extraordinary; his Shadow Palm managed to fight against Yang Chen's Hand of the Giant Golden Bell to a standstill. Keep in mind that the Hand of the Giant Golden Bell was his strongest offensive method at the moment.

Now, as the two palms met, Yang Chen's Hand of the Giant Golden Bell, and Luo Hen's Shadow Palm crumbled away, neither one able to overcome the other.

But this already came as quite a surprise to Luo Hen.

In the past, he easily dealt with other opponents, not to mention defeat them in a single move. The fact that Yang Chen could force him to use various means while remaining unscathed was remarkable.

"Indeed, you have some skills, kid. You will make this fight entertaining for me. I'll make sure you lose completely and wholeheartedly." When Luo Hen finished speaking, the Shadow Dao Intent within him suddenly started to roll.

"Shadow River!"

A large amount of shadows turned into a river, covering the entire arena, forming a domain filled with various Dao Intent Inscriptions. It enveloped the ring entirely.

The people of the Holy Domain couldn't help but be surprised by this sight.

"This move is perfect for the arena combat."

"The most terrifying aspect of Dao Intent like this is seizing domain!"

"Shadow Claws!"

As Luo Hen released his Shadow Domain, countless Shadow Claws shot out from within it, attacking Yang Chen from all directions.

These Shadow Claws were mixed with various Dao Intent Inscriptions, giving off an extremely powerful oppressive force.

Yang Chen couldn't help but be amazed: "Such incredible speed."

He was also incredibly surprised, as both Luo Hen's Windless Step and his Shadow Dao Intent had astonishingly fast extension speeds.

While the Windless Step could be excused, the speed of the Shadow Dao Intent was somewhat unreasonable.

"Huh?" Yang Chen looked closely.

There were other Dao Intent mixed in the Shadow Dao Intent.

“Swiftness Dao Intent, I see. So, Luo Hen also possesses a low-level Swiftness Dao Intent. Although the Swiftness Dao Intent itself is not very powerful, Luo Hen is indeed a genius. He fused the Swiftness Dao Intent with his other Dao Intent.”

“Swiftness Dao Intent fused with his Wind Dao Intent to form the Windless Step. Windless, yet as fast as lightning.”

“Swiftness Dao Intent combined with the Shadow Dao Intent formed the Shadow Domain — The swift-flowing Shadow Dao Intent transformed into Shadow Claws, and they caught and snatched at lightning speed, effortlessly.”

Luo Hen, who saw Yang Chen escaping in all directions, sneered: “This time, I want to see how you’ll escape.”

As the Shadow Claws closed in from all sides, Yang Chen was cornered with no way to escape.

Feeling this, Yang Chen had no choice but to display his Spacetime Dao Intent once more against the Shadow Claws.

Luo Hen was truly a formidable opponent; Yang Chen couldn’t prevail without using his Spacetime Dao Intent.

With a squeeze of his palm, he vanished instantly from his original position and reappeared in a different location.

This shocked Luo Hen: “What kind of method is this kid using!”

He was utterly baffled.

As Yang Chen reappeared, Luo Hen once again attempted to capture him using the Shadow Dao Intent, trying to gain complete control over him.

However, with Yang Chen's Spacetime Dao Intent in hand, it wouldn't be so easy to catch him.

"Yang Chen is completely suppressed."

The people of the Holy Domain started to panic.

"He can only run away?"

"What should we do now?"

"Are we going to lose again?"

The Boundless Stage Experts beside the Nine Suns King started to worry.

However, the Nine Suns King himself stroked his beard and laughed: "This fight has gotten interesting. Our Holy Domain may not necessarily lose."

"Nine Suns King Sir, why would you say that?"

"Yang Chen is completely under pressure now." The other Boundless Stage Experts couldn't help but express their doubts. In this situation, Yang Chen appeared extremely miserable, being chased by Luo Hen's Shadow Claws and forced to run all over the place. How long could he hold on?

"Haven't you noticed that the kid is using spatial means?" The Nine Suns King said with a smile.

"Well, we can see that, but it's most likely due to some treasures or talisman scrolls. Even if Yang Chen uses these treasures or scrolls to barely hold on for a while, sooner or later, they will run out. Without these spatial means, he's bound to lose eventually," the other Boundless Stage Experts said in anguish.

The Nine Suns King laughed: "Look more closely. Is this really just spatial means? That little guy broke Luo Hen's Windless Step earlier. That's not something that can be done with mere spatial means."

Upon hearing this, the other Boundless Stage Experts felt their hearts skip a beat, suddenly realizing something.

As they focused and looked more closely as prompted by the Nine Suns King, their pupils contracted sharply.

“Could it be... Spacetime Techniques?” The other Boundless Stage Experts were shocked.

Spatial means, though special, couldn't be considered too abnormal since Space Dao Intent itself was a special Dao Intent. Although rare, some powerful individuals still possessed it.

Breaking it wouldn't be difficult.

However, Spacetime Techniques were different. Involving fusion of both time and space, breaking such a technique was incredibly difficult.

Furthermore, there are currently very few treasures that could achieve spacetime effects. As for talisman scrolls, it was even more unlikely.

“Could it be that this kid has Spacetime Dao Intent?”

“This...this can't be possible, can it?”

“Spacetime Dao Intent is the strongest Dao Intent in legends. Does this kid possess the legendary strongest Spacetime Dao Intent?”

“This...”

The Nine Suns King squinted his eyes, looked in Yang Chen's direction and slowly said: “At first, when I thought about these things, I was also quite surprised. However, after careful observation, I found that

the Dao Intent this kid displays when moving positions is incredibly strong. Without a doubt, it's the legendary strongest Dao Intent."

Upon hearing this, many Boundless Stage Experts became greedy.

That was the strongest Dao Intent! If they could acquire it...

The Nine Suns King seemed to see the thoughts of these people and coldly said: "I warn you, it is best not to covet this kid's Spacetime Dao Intent. Forcibly taking someone else's Dao Intent to enhance oneself is pointless. The potential of this Dao Intent in this kid is far more terrifying than any of you. All of you, restrain yourselves. I'll protect this kid. Whoever dares to act against him will be opposing me."

At the same time, a voice came out from the side of Extinct Sect, and the King-level Elder who was seated at the top clearly also noticed Yang Chen's Spacetime Dao Intent techniques.

"Cursed Holy Domain! They were hiding such a trick!"
