### Chapter 2601: Collision of the Dao Intent Avatar\_1

Anger and tension mixed together.

The Extinct Sect was completely unsettled.

The Strongest Dao Intent stood at the top of the pyramid of Dao Intent, making it impossible for anyone to remain calm when they heard about it.

That's why the words "Strongest Dao Intent" spread like wildfire, quickly becoming common knowledge.

This was exactly what the Extinct Sect intended.

The Holy Domain has the owner of the strongest Dao Intent as their trump card?

I'll expose your trump card right now, let everyone know about it. Even if I can't do anything to you, I'll at least annoy you.

In an instant, the news of Yang Chen possessing Space-Time Dao Intent spread rapidly.

Different people had different thoughts.

For example, when Lin Feiyu heard that Yang Chen actually possessed Space-Time Dao Intent, he recalled the various encounters he had with Yang Chen and couldn't help but shrink his pupils, finally understanding why he was no match for Yang Chen.

He gulped and his heart filled with shock.

Meanwhile, many masters from various forces, from the Extinct Sect to the less powerful, could not help but harbor ill intentions when they learned that Yang Chen was actually displaying Space-Time Dao Intent.

If this Space-Time Dao Intent were to become theirs...

How powerful would their strength become?

There were quite a few people with such thoughts.

At this moment, Yang Chen revealed his Space-Time Dao Intent, aware that its exposure. He had thought about not using it, but after carefully considering, he decided to display the Space-Time Dao Intent.

Without it, he would lose. Luo Hen was not someone he could beat without giving his all.

Just like now, if it wasn't for his Space-Time Dao Intent, he would have been unable to stand within the Shadow Domain due to the pursuit of the Shadow Claw.

"Space-Time Dao Intent!"

Luo Hen became aware of Yang Chen's Dao Intent and gritted his teeth, exclaiming, "Space-Time Dao Intent, you actually possess Space-Time Dao Intent."

He felt a wave of jealousy in his heart.

He should have been the Chosen One, the strongest genius. However, he didn't possess the Strongest Dao Intent, yet Yang Chen did!

"Hmph, even if you have the strongest Dao Intent, Yang Chen, in my Shadow Domain, can you only run using your Space-Time Dao Intent?" Luo Hen roared.

But at this moment, Yang Chen suddenly teleported behind Luo Hen.

This surprise caused Luo Hen to almost panic. He immediately tried to execute the Windless Step to retreat. As long as he was within the Shadow Domain, he could always sense Yang Chen's location.

However, Yang Chen wouldn't let him leave so easily. The Space-Time Dao Intent directly altered the surrounding space, making both time and space extremely slow.

As Luo Hen was greatly shocked, he struck back with a Shadow Palm, which collided with Yang Chen's Hand of the Giant Golden Bell.

However, this collision caused Luo Hen to retreat violently.

"Something's not right!"

Initially, when his Shadow Palm collided with Yang Chen, it was evenly matched. Why, then, did he become weaker during this encounter?

Gritting his teeth, Luo Hen used all his strength to escape from the area affected by Yang Chen's slowed space-time.

Yang Chen, on the other hand, spoke casually, "You made a mistake. My Space-Time Dao Intent is not only for escape within your Shadow Domain. It's undefeatable in your Shadow Domain."

Hearing this, Luo Hen trembled and couldn't deny Yang Chen's words.

Indeed, he couldn't do anything about Yang Chen's technique at all.

Originally, no one could succeed within his domain. But Yang Chen was different. With Space-Time Dao Intent, the one who should've been invincible was Luo Hen, but now it turned out to be Yang Chen.

But how could Luo Hen admit it? He growled, “How is it possible? Watch as I kill you!”

When the conversation ended, he struck with another Shadow Palm, colliding with Yang Chen again.

Yang Chen casually struck back with another palm, clashing with Luo Hen’s Shadow Dao Intent.

The collision still left Luo Hen at a disadvantage. He retreated violently, almost losing control and spitting out a mouthful of blood.

“How... how is this possible?!” Luo Hen couldn’t understand why his Shadow Palm couldn’t overpower Yang Chen’s palm technique.

“Very strange?”

With his hands on his back, Yang Chen replied, “You’ve been using your Shadow Dao Intent continuously to try and grab me, so how much of your Daoist Intent Power can you still use? Even divine power must be quite exhausted.”

“As if you haven’t been dodging all this time!” Luo Hen growled.

He naturally realized this problem. But the Shadow Dao Intent was indeed excessively consumed, so when he used the Shadow Palm against Yang Chen’s Hand of the Giant Golden Bell, he was substantially weaker.

He understood what was happening, but he couldn’t understand why Yang Chen seemed to show no signs of exhaustion.

Yang Chen calmly replied, “My teleportation just now was due to my Space-Time Dao Intent ability, not a Dao Technique. And the technique I used against your palm is another one of my Dao Intents. So, through all of this, I’ve only consumed my Space-Time Dao Intent, while I haven’t used any divine power or the Dao Intent to attack you. As I said, I am invincible in your domain.”

His simple statement completely disrupted Luo Hen's state of mind.

It was true that Luo Hen's Shadow Dao Intent was overconsumed, but if he had calmed down, he would've only been at a disadvantage.

However, Yang Chen's confident words made Luo Hen suddenly feel that he was unable to deny the truth, which made him unable to even accept himself.

"You think you've won already? Dao Intent Avatar, come forth!" Luo Hen exclaimed in anger.

Then, an Avatar emerged directly from his body, it was the Dao Intent Avatar.

Seeing this, Yang Chen shook his head.

"Do you think you're the only one with a Dao Intent Avatar?" Yang Chen asked with his hands behind his back.

Suddenly, he made a slight movement, and also gave birth to a Dao Intent Avatar.

The Dao Intent Avatar separated directly from his body.

"You!" Enraged, Luo Hen commanded his Dao Intent Avatar to attack first.

Yang Chen also controlled his Dao Intent Avatar to counterattack.

The two Dao Intent Avatars collided and began to fight.

Luo Hen originally wanted to help his Dao Intent Avatar, but he knew very well that if he intervened, Yang Chen would also intervene. At that point, he would still have a hard time winning against Yang Chen.

So, with his thoughts racing, Luo Hen could only stand still and watch.

“Shatter him.” Luo Hen muttered in his heart.

His Dao Intent Avatar had to win, completely eliminating Yang Chen’s Dao Intent Avatar.

Logically speaking, the Dao Intent Avatars had just appeared, and there hadn’t been too much Dao Intent consumed. Their strengths should be more or less the same when they clashed.

Reality seemed to be just like this as well.

However, Luo Hen soon couldn’t feel happy anymore.

Because his Dao Intent Avatar’s moves had become outmatched when clashing with Yang Chen’s Dao Intent Avatar!

He couldn’t win!

Chapter 2602 Soul and Life and Death Dao Intent\_1

This made Luo Hen’s thoughts run wild, completely unable to understand what was going on.

Why couldn’t his Dao Intent Avatar fight against Yang Chen’s Dao Intent Avatar.

Moreover, the more they fought, the more he fell into a disadvantage, looking somewhat helpless.

This scene was clearly seen by everyone else.

"The difference in purity is too great."

"Luo Hen's Dao Intent Avatar is no match for Yang Chen's Dao Intent Avatar."

"No need to even mention it, Yang Chen's Dao Intent Avatar is the strongest Dao Intent gathered by the strongest intents. Its purity is far beyond what special Dao Intents can compare. Using Dao Intent Avatars like this, Luo Hen's strength against Yang Chen's is not wise at all."

"Now it's over, will Luo Hen exhaust the energy of his Dao Intent Avatar in advance and still be able to fight with Yang Chen?"

The people in the Holy Domain were now completely astonished.

How could they imagine that Yang Chen would turn the tables in such a way?

Especially in the stage of Dao Intent Avatar, Yang Chen directly suppressed Luo Hen.

Luo Hen is now in such a disadvantage, which their Holy Domain could not have predicted. This made a group of people in the Holy Domain extremely happy.

Originally, they were still gloomy and worried that once they lost, they would lose face. But now, it seems that they don't have to lose anymore.

Who wants to lose face?

No one does.

It's not surprising that Yang Chen's Dao Intent Avatar could gain an advantage. Just now, he deliberately explained it so clearly to Luo Hen in order to anger him.

Luo Hen was indeed provoked, creating his Dao Intent Avatar to fight individually with Yang Chen's.

How terrifying must the power of Dao Intent Avatar gathered by his two strongest Dao Intents be?

He didn't even know what level he was at, but at least crushing Luo Hen should be no problem.

Luo Hen now realized that something was wrong. Seeing that his Dao Intent Avatar could not hold on any longer, he shouted loudly and hurriedly retracted it.

When he retrieved his Dao Intent Avatar, Luo Hen was panting, covered in sweat.

Just now, his Dao Intent Avatar collided with Yang Chen's, consuming a lot of his energy. In contrast, Yang Chen was completely unaffected!

"Luo Hen, you lost." Yang Chen said with his hands behind his back.

"You think you have surely won?" Luo Hen completely rejected Yang Chen's goodwill, and with a turn of his palm, numerous souls emerged from his body.

Among these souls, various powers resided, most of which were ancient beasts, along with some humans.

When these soul forces were born, they all showed extremely terrifying auras, attacking Yang Chen one after another, like a transcendent army.

"Yang Chen, you've done well to force out my trump card. Unfortunately, you still have to lose to me. This is my true strength, the Soul Dao Intent!" Luo Hen laughed loudly.

"Soul Dao Intent!"

Upon hearing these words, Yang Chen's eyebrows furrowed and his expression turned solemn.

Soul Dao Intent is one of the special Dao Intents and is quite rare among them.

This kind of Dao Intent can collect the souls of people and various creatures, tame them, connect them with Dao Intent Inscriptions, and manipulate them for their own use.

Once this power is cultivated well, it can be said to increase combat strength multiple times.

Although Yang Chen's Space-Time Dao Intent and Life and Death Dao Intent are powerful, they could not find the Dao Techniques to cultivate, so it is still slightly inadequate compared to the power of Soul Dao Intent.

Yang Chen now took a deep breath.

Right, he should have guessed that Luo Hen still had a trump card.

Just the three lower-grade Dao Intent of Dark Dao Intent, Swiftiness Dao Intent, and Wind Dao Intent are not enough to give birth to a Daoist Divine Body.

"Yang Chen, how do you feel about the power of my souls? Hahaha, among them, there are even the soul forces of Mahayana Stage that I have captured." Luo Hen mocked.

Yang Chen couldn't win the Mahayana Stage with his own strength. It was his sect who helped him capture it!

This is also the source of his confidence!

"Damn it!"

The expressions of the people in the Holy Domain turned panicked. The spark of hope that had just ignited seemed to be extinguished by a bucket of cold water poured on them!

"This is too despicable! The Extinct Sect specifically captured several Mahayana Stage killer souls for Luo Hen. Although they cannot exert the peak strength of Mahayana Stage when residing in souls, having several Mahayana Stage souls still equates to almost two Mahayana Stage powerhouses helping him."

"The people of the Extinct Sect are too despicable!"

"If it wasn't for Luo Hen's too weak strength to control the Boundaryless Level soul power, I'm afraid the Extinct Sect would have hunted Boundaryless Level ancient beasts for him, right?"

"How to fight this!"

The people from the Holy Domain couldn't help but panic.

And Yang Chen, staring with his eyes wide open, also felt the strong power mixed within these souls!

"Yang Chen, just admit defeat!" Luo Hen smashed all the souls over to Yang Chen.

Upon seeing this, Yang Chen's face turned cold, and he immediately activated The Hand of the Giant Golden Bell, this time mingling with Life and Death Dao Intent and other Dao Intents.

With the Dao Intent Avatar still there, they launched a two-pronged attack.

Even if it's the souls of Mahayana Stage, so what!

Yang Chen was now filled with fighting intent. With a single palm, he fought against many souls.

In an instant, the souls completely shattered, and Yang Chen's Hand of the Giant Golden Bell entered a world of no one, utterly annihilating everything about the souls!

This made Luo Hen's pupils shrink, and everyone present seemed to be dreaming, unable to believe the scene before them.

All the souls disappeared in an instant?

They vanished at the hands of Yang Chen?

What on earth had happened?

It's important to know that Yang Chen's palm just now was almost the same as his previous palm power. It would be good enough to resist these soul Dao Intents, let alone completely annihilate them!

And it happened in an instant.

What on earth happened?

No one knew. Even Yang Chen himself was puzzled, looking at his own power in astonishment.

He had not even used the Dao Intent Avatar's Hand of the Giant Golden Bell, so what had happened?

"Wait, could it be the Life and Death Dao Intent?" Yang Chen suddenly thought of something.

Life and Death Dao Intent, connected with life and death.

The soul, situated in the very center between life and death, in this state, he could let it live or let it die!

It should have such power with life and death.

And just now, what he added to the Hand of the Giant Golden Bell was mostly Life and Death Dao Intent...

"First, let's test whether it's really the case!" Yang Chen refocused and returned to his serious demeanor.

At this moment, Luo Hen was sweating coldly.

"Impossible, how can this be possible!"

Luo Hen clenched his teeth.

His batch of Soul Dao Intents were wiped out?

He could only bring out his backup Soul Dao Intents.

"Try this one more time!" Luo Hen said in a low, oppressive voice.

Yang Chen, this time, didn't use the Hand of the Giant Golden Bell, but only used the Life and Death Dao Intent to create a casual palm.

Chapter 2603: Seeing the Nine Suns King Again\_1

No one knew what Yang Chen was planning to do, and some even thought he was seeking death.

Only Yang Chen knew what he was doing.

Life and Death Dao Intent, transformed into power, condensed, and released. This seemingly simple palm was actually a life-or-death decision.

Luo Hen thought Yang Chen had a problem with his brain, subconsciously thinking that he was bound to win.

But in the blink of an eye, the backup souls that he had prepared were completely shattered. All the souls were gone.

This shocked Luo Hen, causing him to fall to the ground in disbelief.

What on earth was happening?

Yang Chen also took a deep breath, not expecting the outcome to be so smooth. He had originally prepared to use the Slaughter God Spear and the Daoist Divine Body to have a good fight with Luo Hen.

Although it was difficult, he claimed to be unbeatable.

He just didn't expect that this match would go so smoothly.

Life and Death Dao Intent directly and perfectly restrained Soul Dao Intent.

"So, does my Life and Death Dao Intent counter souls? But it's not right. Why didn't this phenomenon occur when I was dealing with Dragon Souls before?" Yang Chen wondered.

However, thinking about it, Yang Chen couldn't help but feel amused.

"No such phenomenon? Those Dragon Souls were born with powerful soul strength, so they weren't destroyed by my Life and Death Dao Intent. Despite this, they were still bitterly oppressed by my Life and Death Dao Intent, all the way to the last level."

"Moreover, my Life and Death Dao Intent had very good effects on those Netherworld Ghosts. It is clear that Life and Death Dao Intent does indeed have a good restraining effect on soul-related things. It's just that I haven't developed it well enough yet."

As he said this, Yang Chen felt discouraged.

If he had the strongest Dao Intent and Dao Technique, why would he have to fight Luo Hen so intricately?

With the perfectly developed strongest Dao Intent and Dao Technique, Luo Hen would be no match for him!

Of course, Luo Hen is not his opponent now either.

His Soul Dao Intent was completely restrained and broken by Yang Chen's Life and Death Dao Intent. Luo Hen had no strategy left, and his eyes were filled with despair and fear as he looked at Yang Chen.

Yang Chen gathered his palm technique, preparing to deliver the finishing blow.

But at this moment, Luo Hen, full of humiliation and wisdom, said, "I admit defeat!"

He knew that if he didn't surrender now, he would have no strength to resist Yang Chen's final blow. But he couldn't understand how Yang Chen neutralized his last blow.

Many others were also confused, not knowing what means Yang Chen had used.

Life and Death Dao Intent was not as obvious as Space-Time Dao Intent when displayed.

Of course, those powerful individuals like the Nine Suns King discerned some clues, but even they found it implausible that one could possess two strongest Dao Intents, as it seemed too shocking.

And now, nobody thought that how Yang Chen won was important anymore.

What was important was that Yang Chen had won.

Extinct Sect had shot themselves in the foot by hosting this competition with no way out, bringing trouble upon themselves!

People from the Holy Domain were overjoyed, laughing out loud and looking at the people of Extinct Sect with a triumphant air.

“Hahaha, Extinct Sect, I heard that you have been considering yourselves the number one sect in the area for all these years. Well, do you have any other geniuses who want to compare with Yang Chen from our Holy Domain?”

“This is the strength of your Extinct Sect!”

People from the Holy Domain seized this opportunity to make a scene.

After all, that’s how the Extinct Sect had caused trouble for them earlier.

The people of the Holy Domain had been holding in their frustration for so long that they nearly fell ill. Now that they had a chance, they wouldn’t miss it and would take the opportunity to mock the Extinct Sect before they left.

Hearing these voices, Luo Hen felt extremely humiliated. He looked at Yang Chen with hatred, but couldn’t say anything in the end.

He knew that he had lost, completely and utterly.

It seemed Yang Chen hadn’t even used his full strength!

He hadn’t even used up all the energy of the Daoist Divine Body...

Back at the Extinct Sect, the members were also in a miserable state, as they had no opportunity to retaliate against the jeers from the Holy Domain, and could only leave hastily without any dignity.

When they thought back to the arrogant attitude they had when they first arrived and their determination to win, all they wanted now was to get away as quickly as possible.

Other observing forces also began to discuss the matter.

Today's battle would undoubtedly spread at an extremely fast speed, and the news of Yang Chen defeating Luo Hen of the Extinct Sect would be unstoppable, spreading like wildfire!

Who was the number one genius in the two Sacred Districts had finally been settled.

Seeing this, the Nine Suns King laughed heartily.

"Hahaha, this Yang Chen kid has won a lot of glory for our Holy Domain. You guys, tell him to come to the Jade Pavilion later to meet me." The Nine Suns King waved his hand.

"Yes, Nine Suns King Sir."

The Boundless Stage Experts quickly went to pass on the order.

Yang Chen had expected that he would be meeting Nine Suns King after defeating Luo Hen, but he didn't expect that several Boundless Stage Experts would personally pick him up.

The arrival of these Boundary-less Level Experts made Yang Chen jumpy.

He knew that for him now, the Boundary-less Level Experts were still a little out of reach.

"Yang Chen, Old Man Nine Suns King wants to see you, come with us." Several Boundary-less Stage Experts smiled.

Although they hid it deep inside, Yang Chen could still see the hint of greed in the eyes of these Boundless Stage Experts.

It was just that they held it back out of fear and disguise.

Yang Chen was keenly aware of this and began to ponder.

What were they greedy for? Unquestionably, it was his recently demonstrated Space-Time Dao Intent, as there was nothing else valuable on him.

He had anticipated this before.

As for what they were afraid of, Yang Chen didn't know. Were they scared of the rules within the sect that forbade them to make a move on each other? Or was it something else?

But in any case, Yang Chen knew that his situation would be difficult.

If his own sect members harbored ill intentions but couldn't act out of fear and restraint, what about people from other forces?

Who would say that they didn't covet him?

Yang Chen sighed.

Indeed, there are pros and cons to everything. In today's battle, he had gained advantages, but there were also many disadvantages.

With these thoughts in mind, Yang Chen followed the people and arrived at the Jade Pavilion.

In the Jade Pavilion, Nine Suns King stood with his hands behind his back, hovering in mid-air, waiting for Yang Chen's arrival.

Seeing Yang Chen coming, Nine Suns King smiled amiably and said, "Kid, you're here. Congratulations on defeating Luo Hen and on our Holy Domain's victory. Now, this old man will talk to you about other matters."

Chapter 2604: Three Tasks\_1

Yang Chen showed respect, knowing that Nine Suns King was about to discuss some important matters.

Nine Suns King calmly said: "I'm a straightforward person. Since you've defeated Luo Hen, you now have the qualifications to become the Young Master of my Sacred Domain. I'll just ask you, do you want to be the Young Master of my Sacred Domain?"

"Junior wants to." Yang Chen did not hesitate much.

Although his goal was Heaven Lord Pavilion, it was incredibly far away for him at the moment. Going to Heaven Lord Pavilion was not as good as establishing a foothold in the Sacred Domain as soon as possible.

Looking at it now, although the Heaven Lord Pavilion was stronger than the Sacred Domain, he couldn't reach it just yet.

"Very good, your choice is wise. Of course, even if you want to become the Young Master of my Sacred Domain like myself and enter the Sun Domain, it is just a qualification to become the Young Master for you now. You understand what I mean, right?" Nine Suns King said.

"Whatever the task is, Junior will do his best." Yang Chen respectfully replied.

Nine Suns King was quite satisfied upon hearing this: "It's good that you can say that. You are a smart person. Let the old man speak directly to you. To become the Young Master of the Sacred Domain, one must complete at least one of the three tasks in the assessment. What are the three tasks?"

Yang Chen asked curiously.

"First, kill fourteen Great Stage Ancient Beasts and hunt the Frost Giant Beast of Frost Mountain Range. This is the most recent task. Frost Mountain Range is not far from our Sacred Domain, it's within our jurisdiction and is specifically designed for testing our Sanctuary's disciples. Moreover, this task is tailored to your Nirvana Stage. If you reach the Great Stage or Realmless, the task difficulty will increase." Nine Suns King said.

Upon hearing this, Yang Chen took a deep breath.

Fourteen Great Stage Ancient Beasts?

And a Frost Giant Beast?

Killing them at his Nirvana Stage level?

This was too exaggerated.

Moreover, it seemed that this task might be the simplest one.

Yang Chen didn't rush to a conclusion and asked, "What about the other two tasks?"

"The second task is to find the Tai Xuan Crystals. Tai Xuan Crystals are the essence found in the body of a Tai Xuan Ancient Beast. The Tai Xuan Ancient Beast is much more ferocious than ordinary Ancient Beasts, and only Great Stage Tai Xuan Ancient Beasts can produce the Tai Xuan Crystals. You need to gather twelve of them to complete the task!" Nine Suns King said.

Yang Chen couldn't help but smile bitterly.

Gosh, this task wasn't easier than the first one at all. On the contrary, it might be even more challenging!

"What about the third one?" Yang Chen asked again.

Nine Suns King said: "The third task is to go to the River of Extreme Yin and join the battlefield in hunting Netherworld Ghosts."

Upon hearing this, Yang Chen became interested.

Hunting Netherworld Ghosts?

River of Extreme Yin?

The place he wanted to go the most was the River of Extreme Yin, not because he wanted to compete with the Netherworld Ghosts, but because of the Life and Death Dao Technique from the Three Flowers Sect!

This was what he was most interested in.

If he could obtain this, it would bring a qualitative change to his strength.

“Of course, there’s no requirement for which cultivation level of Ghost Creatures you should hunt, but it’s based on their rank!” Nine Suns King said.

“Rank?” Yang Chen asked, puzzled.

“Yes. Ghost Creatures are divided into Low-Grade Ghosts, Mid-Rank Ghost Beings, High-Class Ghosts, King-Rank Ghost Beings, and Emperor-Rank Ghost Beings. What you need to do is to hunt eleven High-Class Ghosts, regardless of their cultivation level. Even if the High-Class Ghost you hunt is only at the True God Realm, as long as you succeed, you will have completed this basic condition. Of course, it’s just a basic condition.” Nine Suns King explained.

Upon hearing this, Yang Chen fell into deep thought.

“Are there any additional conditions?” Yang Chen asked puzzledly.

“There isn’t, but I should have told you earlier, aside from you, there are two other people also participating in the Sacred Domain Young Master Assessment. If both of them also complete the tasks, which one among the three of you do you think I should choose?” Nine Suns King said with a faint smile.

Yang Chen understood when he heard this.

“So, try to increase your accomplishments in the task as much as possible. If you just aim to complete the basic target, you may likely be surpassed by the other two competitors.” Nine Suns King said.

Yang Chen nodded: “Junior understands. I’ll choose the third task.”

Hunting the Ghost Creatures at the River of Extreme Yin would coincide with his plan to visit the Three Flowers Sect, so why not?

“Oh? Are you planning to start the task immediately?” Nine Suns King was quite surprised.

“Yes, as Elder said, the competition is fierce, so the sooner the better.” Yang Chen smiled.

Yang Chen thought that although his current cultivation in the Sacred Domain was advancing rapidly, there was not much substantive change.

What Yang Chen needed to focus on was going to the Three Flowers Sect and obtaining the Life and Death Dao Technique.

This was his top priority.

It was also one of the reasons why he was so eager.

Hearing Yang Chen’s thoughts, Nine Suns King smiled warmly: “You seem quite eager. But Yang Chen, I must remind you. Your Space-Time Dao Intent is probably well-known by now. Many people know about it, and that’s disadvantageous for you. Your Space-Time Dao Intent is too tempting. Even our own members of the Sacred Domain harbor greed towards you. If it weren’t for me suppressing it, those people would have already harbored ill intentions against you. You can imagine how others would react.”

Yang Chen took Nine Suns King’s words seriously.

He had thought about it before, but now hearing Nine Suns King's words, he was afraid that revealing his Space-Time Dao Intent would make the situation even more severe.

"Of course, it's not like you can never leave the Sacred Domain. I'm just telling you to be extra cautious. Once you reach the River of Extreme Yin battlefield, you'll be relatively safer. What's dangerous is the journey there." Nine Suns King advised.

Yang Chen said: "Thank you for Elder Nine Suns King's reminder."

Nine Suns King waved it off: "All right, I just don't want to see a talented person like you getting hurt. I've made all the necessary arrangements, and from now on, what to do and when to do it will be up to you."

Yang Chen knew what to do, and he had a plan in his heart. He bowed: "Junior is taking his leave now."

After leaving, Yang Chen began pondering.

What Nine Suns King said was indeed a key point that could not be ignored.

However, while it worried others, Yang Chen didn't.

With his Face Changing Technique, he could easily change his appearance wherever he wanted. He just needed to be careful not to reveal his Qi and Dao Intent Inscriptions to prevent others from identifying his identity.

Chapter 2605 Spirit of Divine Sea\_1

After Yang Chen returned, he made a simple travel plan.

King Jiuyang's words were quite reasonable. Traveling without planning was practically seeking death. Considering his current sensitive status, Yang Chen could not simply stay put.

With his current level, staying in the Sanctuary had no meaning. After much deliberation, Yang Chen had found a solution.

Ten days after Yang Chen's match with Luo Hen, his fame spread far and wide. Mysterious people appeared in the vicinity of the Sanctuary, claiming to be tourists. They lingered around, refusing to leave.

Many others hid in the shadows of the Sanctuary. Though the powerful ones of the Sanctuary tried to chase them away once before, it only attracted more people.

Others didn't know why, but how could Yang Chen not guess?

These mysterious visitors, even guessing with their toes, were targeting him!

However, Yang Chen wasn't afraid. A few days later, he suddenly announced that, half a month later, he would officially leave the Sanctuary and head to the Cold Frost Mountain Range to complete a mission related to becoming the Young Master!

When this announcement was made, everyone knew about Yang Chen's plans to leave in half a month.

Almost everyone was paying attention to this matter, holding different intentions. Their thoughts were focused on it.

Without a doubt, half a month later would become the most important day.

But no one knew that on the third day after the news was released,

A small team from the Great Cloud Pavilion, seemingly unnoticed, left the Sanctuary for the Dragon Prosperity Sea Area to complete their task.

The team had a total of twelve people, led by a pair of twin siblings and a member of the Divine Maiden Clan.

This member of the Divine Maiden Clan was none other than Yu Menghen, whom Yang Chen had met before.

As for the twin sisters, they were born either with an outstanding appearance or beauty, but their strength was remarkable.

With these three leaders, the strength of the other members was also extraordinary, except for one person who looked odd, and was curiously eyed by the other members.

"Brother Yang Yi, are you really from the Great Cloud Pavilion? I've never seen you before. If you were in the Great Cloud Pavilion, I should have met you." A handsome man said.

This man named Yang Yi gently smiled, "This Brother, as I said earlier, I'm a newcomer to the Great Cloud Pavilion. It's normal that you don't recognize me. This is my token from the Great Cloud Pavilion, as you've seen."

"This token from the Great Cloud Pavilion is indeed genuine." The handsome man murmured to himself.

"Humph, I really wonder, Yu Menghen, why did you bring a useless newbie into our team? You should know that the Dragon Prosperity Sea Area is extremely dangerous. Everyone there must be an elite who has reached the limit of the Nirvana Stage. You're allowing a newcomer with just a little Dao Intent Inscriptions to join us and drag us down?" The younger twin sister scolded.

Her eyes obviously held envy as she looked at Yu Menghen.

Although she had a beautiful face with flawless beauty, compared to Yu Menghen, she was still inferior.

This difference in appearance made her extremely displeased with Yu Menghen. Why should she be born beautiful, yet because of some stupid Divine Maiden Clan, her limelight was overshadowed by Yu Menghen?

The twin brother tried to mediate, "Furong, it's not all Menghen's fault. After all, this Yang Yi was thick-skinned and insisted on joining our team, so Menghen couldn't refuse, right?"

Ye Furong knew that her brother was interested in Yu Menghen, which made her even more jealous. She angrily said, "She still had to agree to it, didn't she? And now, we can't even get rid of him. Did Yu Menghen lead the team for so long without developing any judgment?"

As the twin siblings argued, accusing the youth named Yang Yi, he maintained a calm smile without any counterarguments.

Yu Menghen was extremely displeased, listening to the twin siblings' nagging. She scolded, "The decision to have Yang Yi in the team was mine. If he really drags us down and hinders the team, I will take full responsibility and shoulder it alone."

At that moment, she also wondered why she had made that decision.

Indeed, Yang Yi had just recently joined, was unknown to her, and seemed to have no impressive strength. He would only drag the team down in their journey to the Dragon Prosperity Sea Area.

But at the time, she merely felt an inexplicable familiarity, and strangely agreed to let him join.

Thinking about it now, where would she know him from? She had never met him before, and no one named Yang Yi ever crossed her mind.

Since the decision had been made, Yu Menghen simply sneered coldly and countered, "How will you take responsibility if the mission fails? Yu Menghen, can you bear it?"

Yang Yi watched all this, but his thoughts were elsewhere.

Yang Yi was none other than Yang Chen himself.

Having changed his name to Yang Yi and altered his appearance was a necessary move, as there were too many people trying to get their hands on his Space-Time Dao Intent. There were so many that he felt a bit overwhelmed.

Having no other choice, Yang Chen resorted to a ruse.

He gave his adversaries a specific time, acting as though he would brazenly leave to complete a mission without knowing the situation.

Then, he secretly left the Sanctuary early by using a different identity.

Once his adversaries learned that he had escaped, they would naturally head to the Frost Mountain Range to look for him.

The smarter ones would stay in the Sanctuary to wait for him. Regardless of their move, they wouldn't know that he had already left the Sanctuary.

As for the Frost Mountain Range?

That was just a distraction. His real target was the Extreme Yin Land, and only Nine Suns King knew this. Who else could know?

After laying the diversion, Yang Chen changed his appearance and identity to "Yang Yi" which he had previously used in the Spirit Realm.

After turning into Yang Yi, he used a small trick to steal a token from the Great Cloud Pavilion and altered it a bit, turning himself into the newcomer, Yang Yi of the Great Cloud Pavilion.

Afterward, Yang Chen took an interest in Yu Huapling's team.

It wasn't without reason that he selected Yu Huapling's team since there were many teams leaving the Sanctuary at the same time.

He was most interested in Yu Huapling's team heading to the Dragon Prosperity Sea Area because, according to the information Zhang Guihe provided him, there was a Spirit of the Divine Sea he needed in the Dragon Prosperity Sea Area!

But, what exactly is the Spirit of the Divine Sea?

Chapter 2606 Taking the Opportunity to Seek Revenge\_1

His Five Elements Dao Intent of Metal, Wood, Water, Fire, and Earth need to be fused, requiring all five Dao Insights be evolved to their extreme states. Only then can they automatically merge into the strongest Five Elements Dao Intent.

At that time, he devoured Mu Taiqing's three souls and eventually refined the five Five Elements Dao Insights that he treasured.

To reach the extreme state of the five Dao Insights, different conditions are required!

For the Golden Dao Intentions, the Golden Pattern Bird is needed!

This bird is only found in the Southern Realm. Yang Chen is still searching for it.

As for the Fire Dao Intention, it requires the Origin of Strange Fire!

Yang Chen has the Origin of Strange Fire, but his Clone of Strange Fire cannot perfectly refine it in a short time.

As for the Dao intention of Water, it requires the Spirit of Divine Sea he just mentioned.

As for Wood and Earth, it requires refining Peng Wanli's body as part of the Spirit God Race before it can be available.

It can be said that once he acquires the Spirit of Divine Sea, Yang Chen would have taken the first step towards the extreme of these Dao Insights.

In such a situation, Yang Chen still has to rely on the two experts. Having such a team, how can he miss it? He joined their ranks for now.

Although these two brothers, Ye Furong and Ye Nanfeng, didn't seem to like him much, he didn't worry too much about it.

After all, he is hiding his identity by using these people, and that's the most crucial thing.

However, he could tell the coldness of their hearts at a glance.

Ye Furong and Ye Nanfeng's attitude towards Yang Chen was obviously colder, making others reluctant to talk to him as well.

Yang Chen felt quite helpless, but he didn't feel lonely either, as he practiced along the way, waiting to reach the Dragon Prosperity Sea Area.

So, he traveled at a moderate speed using an ancient beast-drawn carriage provided by the team.

Indeed, nobody talked to him during the journey, and sometimes he even received cold looks.

Especially Ye Furong, who disliked Feather Dream Mark, deliberately said a few bad things about Yang Chen, making both of them feel upset.

Yang Chen's temper wasn't that good, but he was just too lazy to get revenge on Ye Furong for the time being.

So they continued like this, finally leaving the Sacred District of the Holy Domain and getting closer and closer to the Dragon Prosperity Sea Area.

The road to the Dragon Prosperity Sea Area is also the road to the Extreme Yin Land.

Yang Chen's goal was to capture the Spirit of Divine Sea in the Dragon Prosperity Sea Area before heading to the Extreme Yin Land, achieving two purposes at once.

It has to be said that things were fine before leaving the Sacred District. Their team traveled smoothly, but once they left the Sacred District, things changed.

On the way, many bandits appeared, trying to attack them.

Unfortunately for the bandits, these experts were from the Holy Domain. In the Sacred District, perhaps experts at the Nirvana Stage aren't considered very strong, but in other areas, they are not weak.

Especially the disciples from the Holy Domain, whose strength transcended others, could easily overcome two opponents at the Nirvana Stage without any problem.

When the bandits appeared, the team's strength was not difficult to defend against them.

However, the appearance of these bandits provided Yang Chen an opportunity to get revenge on Ye Furong.

Now Ye Furong was fighting with a Nirvana Stage expert who had only just over two thousand Dao Intent Inscriptions, and the fight was rather intense.

With Ye Furong's strength of six thousand Dao Intent Inscriptions, fighting against a bandit with only just over two thousand Dao Intent Inscriptions should be easy. It was as if she was suppressing the bandit.

But Ye Furong deliberately prolonged the fight, playing with the bandit just for fun, making him neither able to fight back nor die easily.

Wasn't this the perfect opportunity for Yang Chen to get his revenge?

You want to play with others?

Let me play with you too then! Yang Chen didn't even need to move, as the Space-Time Dao Intent activated, instantly enveloping Ye Furong's entire body.

Ye Furong was originally enjoying fighting vigorously, laughing loudly. At the same time, her smile was filled with ferocity.

"Let you taste the pain of having no legs!" Ye Furong shouted softly, and the Dao Intent Inscriptions turned into a sharp sword, ready to cut off the bandit's legs right then and there.

However, at this moment, she suddenly realized that she could not move!

Her actions were completely frozen!

This caused Ye Furong to shrink her body, not knowing what had happened.

"What is going on?" Ye Furong was horrified.

The bandit fighting Ye Furong was also clueless.

"Slap her face, and I promise you won't die."

When the bandit was at a loss, a sudden voice echoed in his mind.

The bandit knew that this matter was related to the owner of the voice. He wouldn't miss this opportunity to vent his anger. He immediately slapped Ye Furong's face.

Ye Furong was hit by the slap, blood gushing out, her eyes widened, and her fury surged like a torrent.

A trifling little bandit she had just tormented dared to slap her face.

Angry, she wanted to tear him apart, but she found that no matter what, she couldn't break free from this restraint.

"Keep slapping!"

The bandit saw the ferocious look on Ye Furong's face and was frightened, but the voice reappeared at this moment and ordered him to continue.

The bandit steeled himself, knowing that the person communicating with him must be an extraordinary being. He dared not disobey, and if he wanted to survive, naturally, he had to slap her hard.

With this slap, the bandit had his fill of satisfaction.

One slap, two slaps, a total of more than ten slaps. Ye Furong was completely dazed.

Ye Furong couldn't figure it out, how could a mere bandit possess such power?

"You can leave now." Seeing that the bandit had hit her enough, Yang Chen ordered him to leave.

At this time, Ye Furong's brother Ye Nanfeng also came rushing over, sensing that something was wrong.

But the bandit had already fled as he knew the situation was unfavorable.

Yang Chen also released his Space-Time Dao Intent.

At this moment, Ye Furong finally regained her freedom. Just now, she was completely unable to move, and even her blood could not flow. Such a bizarre state made her feel desperate.

Ye Furong roared angrily, "Brother, I want to kill him, I want to kill him!"

Blinded by anger, Ye Furong wanted to chase after him.

But Ye Nanfeng hurriedly stopped her, "Furong, calm down. It's just a few bandits. We are almost at the Dragon Prosperity Sea Area now. Don't cause additional troubles."

Ye Furong roared, "What do you mean don't cause additional troubles? That bandit slapped me so many times, I... I cannot live without killing him!"

Hearing this, everyone around couldn't help but laugh, which enraged Ye Furong even more.

Ye Nanfeng's face was also embarrassing now, "If you want to chase, fine, but how can you chase him? He's already far away. Which direction would you chase?"

When Ye Furong heard this, her body trembled, and she was completely at a loss.

Yeah, people had already run far away. Where could she chase them?

Only Feather Dream Mark, who had been carefully thinking, saw clearly the situation Ye Furong was in just now. Others might not have noticed it, but she had observed it meticulously.

Ye Furong was not simply restrained, but controlled by some kind of spatial means!

Chapter 2607 Three Key Points\_1

This control was absolute control.

Other than having self-awareness, Ye Furong's body couldn't move at all, and even her blood didn't flow until the moment the space was released, when her blood finally spurted out.

From this, it can be seen that this was undoubtedly a spatial technique.

Thinking of space, Ye Furong couldn't help but recall Yang Chen, whom she always longed for.

Ever since Yang Chen saved their Divine Maiden Clan, not just her alone, but probably everyone in their clan's team, had been missing this powerful existence.

The Divine Maiden Clan is more proactive and attached to those who are stronger.

For them, only the strong can control them.

They didn't know what kind of miraculous technique Yang Chen had used at the time, but after Yang Chen's battle with He Luo, everyone found out.

Space-Time Dao Intent.

So now when she saw space, she thought of Yang Chen.

"What am I thinking about? Yang Chen should be on a mission in the Frost Mountain Range. Our destinations are in opposite directions, north and south. How could he be here?" Yu Menghen mocked herself in secret.

Now that Ye Furong was furious, she had no choice but to give up. Just then, she turned her eyes and met Yang Chen's.

Seeing Yang Chen looking at her, Ye Furong scolded, "What are you looking at? If it weren't for this girl here personally dealing with those bandits, you would have been killed with your strength."

Yang Chen didn't respond and could only shrug his shoulders and remain silent.

"Alright, let's get started." Ye Nanfeng's mood was very bad as his sister had been hit.

Only Yu Menghen saw Yang Chen sitting there, seemingly isolated in one corner, and could only go over gently. Then she opened her red lips slightly, "Yang Yi, since I brought you along, I naturally have to be responsible for you. Since you have weak strength and are new to the Great Cloud Pavilion, try to follow

the team when we go to the Dragon Sheng Sea Area later. Don't make a move if you can avoid it, do your best to help us with cover, observe the nearby situation, and play a supporting role. Don't try to take individual action!"

Upon hearing Yu Menghen's words, Yang Chen smiled slightly, "I see."

Yu Menghen glanced at Yang Chen and didn't seem like an idiot, so she didn't say anything more and left.

Seeing this, Ye Furong covered her swollen face and said viciously, "Yu Menghen is really naive. Does she expect a useless person to change by telling him all this? A waste is a waste, even if it can help from the side, it won't play much of a role!"

...

And so, they finally arrived at the Dragon Sheng Sea Area on their way.

The Dragon Sheng Sea Area was a vast ocean with many ancient beasts living in it. It could be considered a very dangerous sea area.

Yang Chen had some understanding of the sea area before coming. It was rumored that there were small-scale True Dragon Clans appearing in this sea area, just like the Golden Claws.

As for what level of the Dragon Clan it was, Yang Chen didn't know much about it.

When Yang Chen arrived at the Dragon Sheng Sea Area, what he was most interested in were the Dragon Ancestor and the Spirit of the Divine Sea.

But this team was different.

The goal of this team was to hunt down the Overlord of the Prosperous Sea!

The Overlord of the Prosperous Sea was a type of ferocious whale, but its size was astonishingly huge. In this sea area, it should be at least a thousand Zhang in size, and once it starts rolling, it could easily cause unrest in the entire area.

Killing this Overlord of the Prosperous Sea and taking its materials was the main goal of the mission.

"Everyone, the Overlord of the Prosperous Sea is our main target for this mission. When you enter the Dragon Sheng Sea Area later, be sure to observe your surroundings closely in case of an emergency. Upon noticing the movement of the Overlord of the Prosperous Sea, immediately notify the team. Besides that, everyone must be cautious of other creatures in this sea area!"

Yu Menghen sternly reminded, "There are three ancient beasts in the Dragon Sheng Sea Area that must not be provoked. If you encounter them, flee immediately. Firstly, the Blue Striped Sea Beast. These beasts appear in groups, and when they do, they come in dozens. Their strength is around the Nirvana Stage, making them extremely difficult to deal with. If caught up by them, even if our entire team is united, we might not necessarily be able to escape."

"Secondly..."

"Alright, alright, why are we still talking about this? Who doesn't know about the situation in the Dragon Sheng Sea Area? The only one who might not know is probably this new guy, Yang Yi. I think you just want to tell him specifically, right?" Ye Furong said in a deep voice.

Yu Menghen scolded, "These are the rules of survival for our team. If you don't want to listen, you don't have to. But don't interrupt me."

Ye Furong was a bit angry, but after all, Yu Menghen was the captain, so she couldn't say anything more.

"Secondly, it's the Sea Insect of the Prosperous Sea. Although it is an insect, it doesn't appear in groups. Instead, it operates individually. This insect carries a highly poisonous venom, and although it is small in size, if hit, the situation would become extremely dire.

"Lastly, it's the huge dragon in the Dragon Sheng Sea Area. The dragons here are extremely aggressive and their nature is prideful. However, this is their territory after all, so it's better for us to act carefully

when we meet them. Otherwise, since we are not on our own turf, it will be easy for us to fall into a disadvantage."

When the conversation ended, Yu Menghen added a few more words.

"Alright, everyone, go and patrol on your own. If you encounter the Overlord of the Prosperous Sea, be sure to send a notification at the fastest speed possible, so that other companions will know the situation and can rush to reinforce in time." After instructing, Yu Menghen looked at Yang Chen, "Yang Yi, you don't have to go. Just stay here and wait for the signal."

Considering Yang Chen's strength, Yu Menghen took care of him a little bit. As she said, after all, Yang Chen was the one she personally brought with her.

"Why does this Yang Yi get to enjoy such treatment?" Ye Furong, unable to get along with Yu Menghen, yelled.

She was in a bad mood now and just wanted to cause trouble.

Yu Menghen was worried that Ye Furong would stand up and confront her, so she said angrily, "Ye Furong, what do you mean? You know that Yang Yi has weak strength!"

"Is his weak strength my fault? Should I also be responsible for his incompetence?" Ye Furong scolded angrily.

Yu Menghen now felt a bit embarrassed.

Indeed, her protecting Yang Chen like this was a bit unreasonable, as a team should be fair. She wanted to let Yang Chen's situation pass, but Ye Furong insisted on speaking out.

This made her very frustrated.

Yang Chen saw the situation and grinned, "It's okay. If Miss Ye thinks it's better for me to patrol with everyone else, then I will do it."

"Overestimating yourself will get you killed!" Seeing Yang Chen agree, Ye Furong didn't forget to put pressure on him and added another sentence.

Chapter 2608 Saving the Water Dragon\_1

Feather Dream Mark couldn't understand why Yang Chen suddenly spoke up.

If he hadn't said anything, she could have insisted on protecting him. Could Ye Furong change any decisions based on her protection?

However, now that Yang Chen had stepped forward, even if she wanted to protect him, she couldn't.

With Yang Chen's strength, patrolling within the Dragon Prosperity Sea Area, if he encountered any trouble, wouldn't he be inviting disaster?

But now, she could only comply, saying: "Alright, since it's like this, Yang Yi, you should also patrol around. Remember the precautions I told you."

Yang Chen nodded: "No problem, I got it."

Others laughed, especially Ye Furong, whose mockery was more obvious. It seemed like they thought that once Yang Chen left the team, he would encounter disaster in the Dragon Prosperity Sea Area at any moment.

After all, they knew how dangerous the Dragon Prosperity Sea Area was. Even with their strength, they had to be careful within it. Only with some experience could they survive better.

So, the team split up in all directions.

Yang Chen also separated from the team and began his own patrol to search for traces of Dragon Victory Tyrant.

Feather Dream Mark was quite responsible as she advised him to be cautious when leaving. He could pretend to patrol, and later, return to the position he was at before.

It was better to be scolded than to lose one's life.

Yang Chen pretended to agree, but how could he not participate in the patrol in reality?

Of course he had to patrol, but his purpose was not to find Dragon Victory Tyrant, but the Spirit of Divine Sea.

To him, the Spirit of Divine Sea was the most crucial thing.

It was difficult to extend his reach while following the team. Now he had the chance to leave, so he wouldn't miss it.

Yang Chen murmured to himself, "Spirit of Divine Sea..." His Lingxi Divine Pupil expanded, piercing through infinite distance, and combined with his soul, he began searching for it in the vast ocean.

Searching for it randomly like this, naturally he couldn't find any clues.

But Yang Chen had no choice; this clumsy method of searching was better than having no method at all.

As a result, Yang Chen reached the center of the Dragon Prosperity Sea Area.

He encountered some dangers along the way.

Of course, these were only dangers for others.

For example, the Blue-patterned Ancient Beasts.

According to Feather Dream Mark, these Blue-patterned Ancient Beasts indeed moved in groups. They were as powerful as the beetles he encountered in the Great Desert. They traveled in groups, numbering around 20 or 30, and he happened to run into them.

If ordinary humans had encountered the Blue-patterned Ancient Beasts, they would have sighed about their bad luck and fled far away.

However, these Blue-patterned Ancient Beasts encountered Yang Chen, so it was they who were unlucky.

To Yang Chen, those dozens of Blue-patterned Ancient Beasts amounted to nothing.

With his ten thousand and seven thousand Dao Intent Inscriptions, it was easy to destroy these Blue-patterned Ancient Beasts, killing them effortlessly.

It was precisely because of this that the other ancient beasts in the Dragon Prosperity Sea Area would quickly avoid him when they saw him, as if they had seen a disaster star. Their ferocity was suppressed by Yang Chen's terrifying strength, and they didn't dare to raise their heads!

Yang Chen was also in a bit of a dilemma now.

"These fierce beasts mostly lack spiritual wisdom. If they had some spiritual wisdom, it would be better, at least I could communicate with them. But without spiritual wisdom, how can I communicate?" Yang Chen muttered to himself.

If communication was possible, he might be able to get some clues about the Spirit of Divine Sea from the mouths of these ancient beasts.

But as things stood now, he couldn't get any information.

There were only humans and ancient beasts in the Southern Realm.

Yang Chen had no choice but to continue his search.

However, at this moment, he suddenly stopped.

"What a powerful heavenly disaster and earthly calamity!" Yang Chen murmured to himself, looking ahead.

He saw that ahead, electric light connected the sky and earth, crackling and flashing. It seemed as if ocean water was being sucked up into the sky, making the entire ocean surface turbulent, as if it was the end of the world.

Quite a few ancient beasts were swept up by the water connecting heaven and earth, and they completely disappeared, their Qi dissipating.

Seeing this, Yang Chen stopped.

Sea disasters were more likely to occur in the sea, which was why humans didn't choose to live there.

This heavenly disaster was like that - although he wasn't afraid, there was no need to join the chaos.

However, as soon as this thought crossed his mind, Yang Chen saw a small Water Dragon of not a big size struggling in the disaster.

This Water Dragon was at the True God Realm, not very powerful.

Just now, quite a few ancient beasts at the Nirvana Stage were swept into the storm and vanished. This True God Realm Water Dragon would be no exception.

One should always have a sense of awe before the heavens and earth!

Seeing this, Yang Chen, hands behind his back, began to ponder.

If this Water Dragon was pulled in, it would surely die.

After weighing his options, he waved his sleeve lightly. In an instant, his Dao Intent Inscriptions turned into a giant hand and directly entered the disaster. With immense power, it tore apart the water curtain of the disaster, forcibly grabbed the panicking Water Dragon, and saved it from the disaster.

With Yang Chen's means, it was an effortless task.

Once the little Water Dragon was saved, the heavenly disaster continued to spread toward Yang Chen. He flickered his Space-Time Dao Intent and disappeared without a trace just as the disaster reached him.

After the fluctuations, the heavenly calamity subsided. The entire sea returned to its calm state, as if nothing had happened before.

Yang Chen then released the rescued Water Dragon.

The Dragon Clan's nature was proud, and Yang Chen didn't want to save this Water Dragon initially. But since he had no clue about the Spirit of Divine Sea, he had to save it. Otherwise, he wouldn't know how long it would take to find the Spirit of Divine Sea.

Now that the little Water Dragon was saved by Yang Chen, it looked at Yang Chen with confusion and exclaimed, "You're a human!"

"Yes, that's right," Yang Chen said calmly.

"A human would actually save me?" The little Water Dragon's voice was tender, and its big eyes were filled with innocence and brilliance.

Yang Chen smiled slightly and said, "If you don't believe it, then I'll be honest with you. I did save you for a reason."

Upon hearing this, the little Water Dragon blinked, frightened. "What are you going to do? You humans are the worst. My father said you might swallow our dragon blood and eat our flesh. Are you saving me to eat my flesh and drink my blood?"

"Of course not," Yang Chen said, laughing and crying.

This greatly relieved the little Water Dragon. In front of Yang Chen's astonished eyes, it transformed into a little girl with dragon horns on her head.

Chapter 2609: Dragon Clan's Forbidden Area\_1

This little girl has a fair and tender appearance, especially her two little tiger teeth, which are very cute.

Besides that, she also has two small dragon horns, revealing her identity as a member of the Dragon Clan.

With her big innocent eyes, the little girl looked at Yang Chen and giggled, "Since you won't eat my flesh or drink my blood, that's great. You saved me, so we're friends now. Otherwise, I would've been scared to death by that Heavenly Calamity just now. I finally sneaked out to play without my father knowing, but I was swept up by the calamity before I even started playing. That would've been such a pity."

Yang Chen's eyes widened, did this little girl really believe him?

He couldn't help but feel amused and grateful that she had met him; otherwise, if she had encountered someone else, this little girl might have been deceived without even knowing it.

At the same time, Yang Chen was filled with doubts: "Tell me, Little Water Dragon, how did you transform into a human being?"

"Huh? It's just Legal Body Transformation! It's very simple. You humans are always playing in our sea area, so when we catch one of your kind and study them a little, we can transform into humans. Human bodies are quite interesting. Our dragon bodies are too big, unlike humans, which are very convenient." The little girl giggled.

Only then did Yang Chen realize his own ignorance.

Why would humans be the only ones with their own spells? What about other demonic beasts?

The only thing that surprised him was why Golden Claw couldn't transform into a human. However, upon further thought, he realized that it was probably because Golden Claw hadn't particularly researched it.

"Big brother, you said you would save me, not eat my flesh, and not drink my blood. So what do you want me to do for you?" The innocent little girl asked.

Instead of asking her immediately, Yang Chen asked, "How old are you this year? What's your name?"

"My name is Lili, and this year, um..." Lili started counting on her fingers, "I'm 124 years old this year."

"..."

This cute little girl is over a hundred years old? She's even older than him!

It seemed that the concept of age in the Dragon Clan was completely different from humans. This little girl, over a hundred years old, still had the appearance of a pure and innocent child, making it impossible for anyone to have any harmful thoughts about her.

"Big brother, what's your name, and how old are you?" The little girl asked.

"My name is Yang Chen, and as for my age, that's a secret." Yang Chen said awkwardly.

How could he tell his age?

Everyone kept calling him big brother, but he was only around fifty years old in terms of cultivation!

“Big brother... Well, I’m here to find something called the Spirit of the Divine Sea.” Yang Chen explained without any omissions.

When referring to big brother, Yang Chen felt a little embarrassed.

With his current age, he probably shouldn’t call himself a big brother to this young girl.

“The Spirit of the Divine Sea?” Upon hearing these four words, Lili suddenly became excited: “Big brother, I know where the spirit of the Divine Sea is.”

“You know? That’s great, please take me there quickly.” Yang Chen said.

“But my father told me we can’t go there.” Lili suddenly said with a serious face.

“Huh, we can’t go? Why?” Yang Chen was baffled.

Lili’s cute little face nodded seriously, “Mm-hmm, we can’t go. My father said that’s the Dragon Clan’s forbidden area. The Spirit of the Divine Sea is the essence of the ocean’s birth, protected by our Dragon Clan’s Elders. We’re not allowed to enter.”

Yang Chen knew that acquiring the Spirit of the Divine Sea wouldn’t be that easy, and couldn’t help feeling a bit helpless.

“Is there any other way?” Yang Chen asked, “The Spirit of the Divine Sea is very important to me.”

Seeing Lili’s stern face suddenly change to a cunning, adorable expression, she said: “Big brother, if you really want to go, then Lili will take you there. But if we’re discovered, you can’t sell me out. You have to say that you found the place yourself, and that it has nothing to do with me.”

Upon hearing this, Yang Chen could easily tell that Lili had her own agenda in mind.

This little girl was quite amusing. Although she clearly wanted to go to the forbidden area of the Divine Sea Spirit, she pretended that she was being dragged there by him, putting all the responsibility on his shoulders.

It made sense, however. This little girl managed to sneak out of her home, and she was rebellious in her heart. If her father forbade her from going somewhere, she probably wanted to go there even more.

Yang Chen had a rough idea about her and knew that she didn't really care about responsibility.

"No problem, if we are discovered, I will take full responsibility." Yang Chen smiled.

"You have to take me to have fun along the way, and you can't rush me or be impatient, otherwise, I won't take you there." Lili added another request.

Yang Chen didn't think too much about it. After all, where could this little girl go to play? He replied, "Alright, no problem."

"Alright then, let's go!" Lili excitedly began to dance, as if she hadn't had anyone to play with in a long time.

"Big brother, follow me."

Lili led Yang Chen towards the Dragon Clan's Forbidden Area.

Yang Chen set out with Lili.

On the way there, he discovered just how playful this little girl was. When they encountered sea waves, she wanted to play in them.

When they encountered a sea storm, she wanted to play as well.

If they saw other fierce beasts, she wanted to tease them, and if they couldn't win, she wanted him to help.

Not only that but he had to join her in teasing the sea beasts.

It made him quite exasperated to think that, as a powerful Nirvana Stage cultivator, he had nothing better to do than to join her in teasing some ancient beasts that hadn't even reached the True God Realm.

But Yang Chen had no choice, since he still needed Lili to lead him to the Dragon Clan's Forbidden Area. Even though he felt frustrated, he had to go along with Lili's wishes.

Yang Chen considered himself a patient person.

However, there were several times when he couldn't help but feel impatient. Now, he could somewhat empathize with why this little girl's father didn't let her out.

If he were her father, he would also keep a tight control over her and not let her out.

Taking care of her was simply exhausting.

Fortunately, the location of the Dragon Clan's Forbidden Area wasn't too far away, and Yang Chen and Lili finally arrived at their destination.

The Dragon Clan's Forbidden Area was located in the depths of the seabed and was an extremely remote Seabed Dragon Palace that was guarded by many True Dragons.

Looking at them, Yang Chen noticed that these dragons had green bodies, in other words, they were Azure Dragons or Water Dragons.

It seemed that the True Dragon Clan in this area all looked like Azure Dragons?

Yang Chen didn't think too much about it. The Dragon Clan's Forbidden Area was heavily guarded, with Enlightenment Stage True Dragons protecting it, clearly preventing others from entering.

Lili didn't seem to care at all about leading him into the heart of the Dragon Clan's territory. She excitedly said, "Big brother, this is our Dragon Clan's Forbidden Area. I've always wanted to play here for a long time, but I never had a chance."

Upon saying this, little Lili let out a sigh.

"Don't just play around. I'm taking you in, so you have to listen to me, otherwise, we'll be discovered. If you're punished by your father, getting spanked or confined, what are you going to do then?" Yang Chen tried to

Chapter 2610: Obtaining the Spirit of Divine Sea\_1

Yang Chen didn't expect his words to be so effective. As soon as he said them, little Lili began to tremble with fear. She panicked and said, "Don't scare me! I'm most afraid of my father locking me up. He would do it for one or two years at a time. Ah, please be careful, big brother, so the two of us don't get caught."

"If you ask me, your best bet is to hide here and not make any moves. If something happens, you won't be involved. If you go in with me and something goes wrong, your father will definitely punish you. You decide." Yang Chen said.

He thought the little girl would be scared, but he underestimated her wildness. Even though she was terrified, she still said, "I have to go with you. I've never played in the Dragon Clan's Forbidden Area before. Wouldn't it be a pity not to go in?"

"Alright then, but you have to listen to me. If anything happens, I won't be responsible for you." Yang Chen said.

"Don't worry, big brother, I'll be on my best behavior." Lili promised earnestly.

Yang Chen didn't find the little girl well-behaved at all.

Lili opened her mouth curiously and asked, "Big brother, the guard is so strict, how are we going to get in?"

Yang Chen snapped his fingers: "Watch me."

With a sweep of his Space-Time Dao Intent, he silently entered the interior of the Dragon Clan's Forbidden Area.

He had already examined the interior with his Divine Soul Detection, so he could use his Space-Time Dao Intent to perfectly position himself in an unguarded area.

Little Lili had never seen such a skill before. She was stunned by Yang Chen's technique and immediately asked curiously, "Big brother, what kind of ability is this? It's so powerful! I just felt dizzy and then ended up here. Even my father isn't that powerful."

Yang Chen rolled his eyes.

This was the technique of Space-Time Dao Intent. Very few people in the world had it, so of course, her father couldn't have it.

He didn't know how to explain it either, so he just patted Lili's head, "I'll explain it to you after we leave."

"No, I want to know now." Lili pouted.

"Do you not want to come in with me anymore?" Yang Chen asked, trying to scare her. "Or do you want your father to find out and punish you severely?"

Hearing this, Lili finally became scared. With her big, pitiful eyes, she reluctantly said, "Alright, I won't ask."

Yang Chen then led the little girl deeper into the palace.

Once inside, Lili immediately began looking around.

"Wow, this place really deserves to be the Forbidden Area. I've never seen so many things before. What's this? It looks so soft." Lili curiously reached out to touch it.

"Don't touch it, it's a prohibition!"

"Huh, why can't I move?"

Lili suddenly thought.

Her hand was clearly very close to the soft object in front of her, but she couldn't touch it.

Yang Chen sighed with relief. This little girl really didn't give him a break.

"Don't touch it. That's a prohibition. If you touch it, we'll be discovered." Yang Chen scolded.

Lili, not understanding, exclaimed, "It's that powerful? Then, I won't touch it. I don't want to be discovered."

Yang Chen was somewhat helpless. He led the little girl deeper into the palace, constantly observing their surroundings with his Divine Soul Detection and Lingxi Divine Pupil, hoping to find the location of the Spirit of Divine Sea.

"Found it."

Finally, hard work paid off.

In the Dragon Clan's Forbidden Area, there were not only treasures like the Spirit of Divine Sea, but also many other treasures. Yang Chen, however, had no intention of taking them.

For him, the main purpose of coming here today was the Spirit of Divine Sea.

Yang Chen now stepped into the position where his Divine Soul Detection had located the treasure.

"This is the place."

He looked at an entirely water-formed sphere, not big, just the size of a fist, but full of essence. At one glance, he knew that this water sphere was extraordinary and different from anything else.

"What a beautiful water sphere!" Lili exclaimed, her eyes wide.

"Don't touch it," Yang Chen warned.

From the looks of it, this item was indeed the Spirit of Divine Sea.

However, the Dragon Clan seemed to have taken precautions with the Spirit of Divine Sea. There were prohibitions around it, and if anyone tried to take it, they would trigger the prohibition and be discovered.

To Yang Chen, breaking a prohibition was simply the easiest thing to do.

His Lingxi Divine Pupil could easily see through prohibitions, and besides that, he had learned from the Fishman Tribe and had some artifacts that could remove them.

With the outer prohibition easily broken, Yang Chen finally felt at ease putting his hand on the Spirit of Divine Sea.

“Wow, the feeling of stealing is so thrilling!” Lili’s excited little face turned red. She was as excited as could be.

Yang Chen didn’t know whether to laugh or cry. This little girl was interesting, finding the act of stealing thrilling?

If they were discovered, they wouldn’t be able to escape unscathed.

However, worry begets itself.

Feeling that everything was taken care of, the moment Yang Chen grabbed the Spirit of Divine Sea, the surrounding space suddenly began to tremble.

“Not good!”

Yang Chen’s pupils contracted, and he quickly checked the Spirit of Divine Sea itself.

At this sight, his expression became tense.

“The Dragon Clan people are really cunning. There’s another layer of prohibition around the Spirit of Divine Sea that I couldn’t detect. This prohibition is impossible to break without either destroying the treasure or inevitably triggering the prohibition.”

Yang Chen took a deep breath, and with the prohibition now triggered, he hastily put the water sphere into his storage bag.

“Were we... discovered?” Lili asked nervously.

She clenched her fists, not looking scared at all, but rather excited.

Yang Chen said, "Yes, we were discovered."

With the surrounding space trembling so violently, it would be impossible not to be discovered.

As expected, in a short time, several individuals appeared in an instant.

More accurately, several gigantic dragons.

When these huge dragons appeared, they roared loudly, looking down from above.

"Kid, you dare to break into our Dragon Clan's Forbidden Area! Give me your life!"

"Don't act rashly. The princess seems to be with him. Don't make any abrupt moves."

Several Azure Dragon Elders at the Great Ascension Stage appeared, baring their teeth and claws, and staring coldly at Yang Chen, their expressions tense and confrontational.

Yang Chen hadn't expected little Lili to have such an important status. Just by standing next to him, these huge dragons didn't dare to move.

Yang Chen's original intention was to just take the Spirit of Divine Sea, without caring about anything else.

Now that he had obtained the Spirit of Divine Sea, there was no more need for wasting words. He slowly said, "Lili, you should go back."

Lili looked worried and asked, "Big brother, what will you do if I go back? The Azure Dragon grandpas won't dare to hurt you if I'm by your side. If I go back, they will definitely come after you."
