

Supreme MK 2611

Chapter 2611 - Whose Dragon Might_1

Yang Chen could see that deep down, Lili was still very kind-hearted.

Having said that, he no longer wished to keep things hidden from these people.

Actually, he didn't want to negotiate with the Dragon Clan, because they were proud and arrogant. How could it be possible to have successful negotiations with them?

But with Lili present, Yang Chen had no choice but to change his mind.

"Everyone, I had no choice but to enter your forbidden area today. I have no intention of harming Lili, and she is with me because of some other special reasons," Yang Chen replied.

Lili also chimed in, "Dear elders, I left my father to explore and encountered a heavenly calamity. It was this older brother who saved me. If not for him, you might have lost your lovely Lili forever. You must not bully Yang Chen."

"Young Lady, how can you recognize a human as your older brother? Isn't that nonsense? How can a human be worthy of being your older brother?" several Azure Dragon Elders immediately said.

Yang Chen frowned upon hearing this. It was indeed as he had expected.

These Dragon Clan members were all the same.

In an instant, Lili pouted, "If you don't agree, I won't go back. Staying with my older brother is much more fun than looking at your stern faces all day. He's even willing to play with me."

"Young lady, please don't do such a thing. Humans are the most cunning. You mustn't let his appearance deceive you," one of the Azure Dragon Elders worriedly said.

Two other Azure Dragon Elders exchanged glances and spoke, "Human, your name is Yang Chen, right? What were you trying to tell us just now? Go on, say it."

Seeing that the Azure Dragon Elders were finally willing to talk to him, Yang Chen said, "Just now, I took the Spirit of the Divine Sea. You should know what's going on."

"Yes, we know," several Azure Dragon Elders replied coldly.

"I took the Spirit of the Divine Sea for a special purpose, and I hope you can understand. If possible, I am willing to pay a price to exchange it from your Clan," Yang Chen said.

Hearing this, several Azure Dragon Elders exchanged glances and said, "No need, just take the Spirit of the Divine Sea and return our Young Lady Lili to us."

At this, Yang Chen was slightly surprised.

Were these Dragon Clan members really so easygoing?

It was inevitable that Lili would have to be returned eventually.

He gently patted Lili on the shoulder, "Little Lili, go back."

"Yes, Young Lady, come back. We have already discussed it with this human brother, so come back quickly," several Azure Dragon Elders anxiously said.

Although Lili was unwilling, seeing that Yang Chen and the other dragons were insisting, she could only say, "Brother, you must come and find me when you have the chance."

With that, Lili reluctantly returned.

As soon as she was not completely back, the Azure Dragon Elders quickly took action and grabbed Lili, fearing that Yang Chen would harm her in any way.

After completing these actions, several Azure Dragon Elders suddenly shouted, "Seize this audacious human! He dares to take the Spirit of our Divine Sea in the forbidden area. He must pay with his life!"

"What are you doing?" Lili cried out.

The Azure Dragon Elders had gone back on their word.

Yang Chen's scalp tingled. He knew that these Azure Dragons wouldn't have good intentions. All Dragon Clan members were of the same nature: proud and arrogant, looking down on everyone else, not taking others seriously, and considering all other races beneath them.

How could they possibly negotiate with him, and let him go so easily?

"Wah!" Lili suddenly started crying, trying to change the minds of the Azure Dragon Elders.

But the Azure Dragon Elders had already made up their minds and saved Lili again. They wouldn't change their plans because of a little girl.

"Kid, die!" Several Azure Dragon Elders charged at Yang Chen.

Yang Chen's face was cold: "Hmph, I knew you were up to no good. But do you think you can just kill me, Yang Chen?" After the conversation, Yang Chen's figure flickered and he left directly using spacetime techniques.

When this scene occurred, the Azure Dragon Elders were all shocked.

"Spacetime techniques, what?" The Azure Dragon Elders were extremely surprised, but they still didn't give up and continued to chase.

Yang Chen used spacetime travel and reappeared in another location.

As soon as he appeared, Yang Chen became anxious.

Although spacetime techniques were powerful, they were not absolute. These Azure Dragons managed to chase after him, and their speed in the sea was as fast as lightning. Most importantly, these Azure Dragons seemed to be able to track his location.

"Is it because of the Spirit of Divine Sea?" Yang Chen's eyebrows furrowed.

Because of the Spirit of Divine Sea, his position was locked.

"Traverse again!"

Yang Chen performed spatial teleportation again.

However, he still couldn't shake off the pursuit of those few Azure Dragons.

This made Yang Chen's face turn cold. He had teleported several times and still couldn't shake them off. This also surprised him, as the Dragon Clan was truly formidable. They could actually keep up with his spacetime traversal.

But, he wondered how many times these Dragon Clan members could actually keep up.

You can keep up once, ten times, a hundred times, but I want to see if you can keep up.

For him, spacetime traversal was as simple as drinking water!

But just as he was about to teleport this time, he suddenly noticed that the surroundings were surrounded by astonishing Dao Intent. This Dao Intent even had the flavor of Laws. When it appeared, it swept through the surroundings in an instant.

His space-time Dao Intent was intercepted before it could even go out, rendering his spacetime traversal ineffective.

Yang Chen felt a chill in his heart, and saw a team of Azure Dragons appear from nowhere. The leader of the Azure Dragons had an incredibly strong aura, at least at the Boundaryless Level of cultivation.

It was this Azure Dragon that had stopped him.

"Human kid, dare to steal the treasure of my Dragon Clan!" The leading Azure Dragon shouted angrily and was about to take action when the conversation ended.

At this moment, a cry sounded.

"Father, don't do it, don't do anything. This human saved my life."

The one crying was Lili.

At this moment, the chasing Azure Dragons had also arrived at lightning speed, blocking Yang Chen's escape route, leaving him with nowhere to go.

"Clan Leader!"

"Clan Leader!"

A few Azure Dragon Elders quickly greeted Lili's father when they saw him.

"Lili, the human saving you may not be truly saving you. His purpose is to obtain the Spirit of Divine Sea, and he has no good intentions. It's understandable for your father to kill him, as he is a bad person!" The Azure Dragon Clan Leader rebuked.

This made Yang Chen very annoyed.

He had saved Lili and ended up in this situation!

"Human, you can deceive Lili, but you can't deceive me!" The Dragon Clan Leader roared angrily, and his Dragon Might suddenly released from his body.

This Dragon Might pressured him, but it also completely ignited Yang Chen's anger. Yang Chen stomped his foot, and in an instant, layers of Dragon Might also emanated from his body.

Moreover, this Dragon Might far surpassed the Dragon Clan Leader's and the Azure Dragon Might of everyone present.

Chapter 2612 - My Friend, the Five-Clawed Golden Dragon_1

After this Dragon Might was released, it silenced the entire scene, making everyone quiet as a whisper.

Not a single word was spoken.

All the Azure Dragons looked at Yang Chen as if they had seen a ghost, completely stunned by his Dragon Might.

Even Yang Chen himself was quite astonished.

He merely wanted to vent his anger, but he didn't expect to release such a terrifying Dragon Might from his body.

At first, Yang Chen didn't understand, but after pondering for a while, he had somewhat figured out what was going on.

"So that's it, it's the reason behind Golden Claw's bloodline," Yang Chen said to himself.

He carried the blood of the Golden Claw within him, which, based on the bloodline hierarchy, he was far superior to this group of Azure Dragons.

There was no comparison at all.

The reason for the manifestation of this Dragon Might was due to the Azure Dragon Clan Leader bringing trouble upon himself.

If the Azure Dragon Clan Leader just acted normal, not trying to deliberately display his Dragon Might to pressure Yang Chen, and used his Realmless cultivation level to deal with him, this situation would not have occurred.

But what the Azure Dragon Clan Leader had in mind was to show off his own sect's uniqueness and let Yang Chen realize the gap between humans and the Dragon Clan.

In other words, he was using his Dragon Might to suppress Yang Chen.

But he didn't expect that he would unintentionally trigger the dragon blood within Yang Chen's body, causing Yang Chen's anger to release an astonishing Dragon Might.

With the hidden might of the Five-clawed Golden Dragon's blood, the Azure Dragons inevitably had to submit.

"You!"

After a moment of surprise, these Azure Dragons were all staring at Yang Chen with wide eyes, as if they had witnessed something incredible.

Yang Chen was already prepared to escape at any moment, as he was indeed angry just now, but in reality, there was still a gap between him and these Azure Dragons!

"Why do you have the Dragon Might of a Five-clawed Golden Dragon? Have you...have you met a Five-clawed Golden Dragon before?" the Azure Dragon Clan Leader asked in astonishment.

Yang Chen replied calmly, "Not only have I met one, but this Five-clawed Golden Dragon is also my friend!"

"What! You...you are actually friends with a Five-clawed Golden Dragon? We must have been extremely disrespectful just now. We have greatly offended you and hope that you won't hold it against us!" The Dragon Clan Leader surprisingly lowered his arrogant head and spoke apologetically.

The other Azure Dragon Elders also followed suit, causing both Little Lili and Yang Chen to be dumbfounded, unable to believe the situation before their eyes.

Just because of a Five-clawed Golden Dragon, all these Azure Dragons had bowed their heads?

It seemed like Yang Chen's reluctance had been noticed by the Dragon Clan Leader who kindly said, "My friend, the Five-clawed Golden Dragon is the ruler of the Dragon Clan. Our Dragon Prosperity Sea Area Dragon Clan has been separated from the Dragon Nest Dragon Clan for many years and has been suffering without any news of the Dragon Nest. If you know the Five-clawed Golden Dragon, could you..."

Upon hearing these words, Yang Chen began to understand the situation.

So that was how it was.

This Dragon Nest was most likely the main camp of the Southern Realm Dragon Clan. However, this group of Azure Dragons had separated from the Dragon Nest and were unable to find any news of the Dragon Nest when they tried to return.

Or perhaps the Dragon Nest itself had experienced a disaster in the past, resulting in a large number of Dragon Clan members being scattered across various places.

And the Five-clawed Golden Dragon was the Dragon Emperor of the Dragon Clan. These people wanted to return to the Dragon Nest or rebuild the Dragon Nest, but first, they had to establish the King of the Dragon Clan.

But the difficulty of finding the Five-clawed Golden Dragon was self-evident.

The appearance of a man with the blood of a Five-clawed Golden Dragon in front of these dragons undoubtedly provided them clues, making these Azure Dragons excited and submissive.

Yang Chen never expected the development of events to be so dramatic. As he watched the attitudes of the Azure Dragons change towards him, he said, "What about the Spirit of Divine Sea?"

"The Spirit of Divine Sea will be given to you. If Your Excellency is truly a friend of the Five-clawed Golden Dragon Emperor, our actions just now were truly offensive", said the Dragon Clan Leader.

The other Azure Dragon Elders also apologized one after another.

Seeing this, Yang Chen felt a bit embarrassed for a moment.

He didn't like lying and preferred to speak the truth.

"I am indeed friends with the Five-clawed Golden Dragon, and I can tell you where my friend is," Yang Chen said.

"Where?" a group of Azure Dragons asked curiously, with eagerness in their eyes.

"He's in the Heavenly Venerate Pavilion," Yang Chen said with his hands behind his back.

"What, the Heavenly Venerate Pavilion?" The expressions of these Azure Dragons darkened a bit.

Yang Chen's expression remained calm: "What's wrong?"

The Dragon Clan Leader said with a wry smile, "My friend, the Heavenly Venerate Pavilion is a sacred place for humans, and it is located far to the south of here. How could we possibly go to such a place?"

Yang Chen wasn't surprised, as it made sense.

Although these Dragon Clan members were powerful, the Southern Realm was, after all, human territory. To venture forth and head straight to the Heavenly Venerate Pavilion would be no different from seeking death.

Yang Chen said, "All I can tell you is the information about the Heavenly Venerate Pavilion. Of course, I also need to go there myself this time. If you need me to relay a message, I can do so, but whether it'll be approved or not, I can't guarantee. So I hope you all can be mentally prepared!"

He was too lazy to think anymore at this point.

Did he really want to tell the Azure Dragon Clan about Golden Claw? Although Golden Claw was indeed a Five-clawed Golden Dragon, he was not from the Southern Realm and wouldn't seriously consider the matters of the Dragon Nest.

But at this moment, he had no time to think so much. If he didn't make these Azure Dragons satisfied with his words, the only glimmer of hope would disappear in an instant.

The Azure Dragons looked at each other, their faces full of hesitation, and it was obvious that they still had some doubts about Yang Chen's words.

However, after some discussion, the Dragon Clan Leader finally said, "My friend, are you going to the Heavenly Venerate Pavilion this time?"

"Not really. As someone from the Sacred Domain, I'm going to the Extreme Yin Land to complete the assessment task for the Young Master of the Sacred Domain. Once that's done, I naturally need to go to the Heavenly Venerate Pavilion to take a look," Yang Chen said.

Upon hearing this, the initially doubtful dragons all understood what was going on.

"You...you are actually participating in the Sacred Domain Young Master assessment?"

"Not many people are qualified for the Sacred Domain Young Master assessment."

"This young man is so powerful that he might really have that kind of strength."

The Dragon Clan Elders thought that Yang Chen might indeed have the necessary qualifications.

A person who was qualified for the Sacred Domain Young Master assessment, being friends with their Dragon Clan's Five-clawed Golden Dragon, was not impossible - after all, Yang Chen's status was no ordinary one.

The Dragon Clan Leader weighed the pros and cons and finally made a decision: "Well then, we will trouble you to convey a message to the Five-clawed Golden Dragon Emperor."

Seeing that the dragons believed him, Yang Chen was finally relieved.

"Don't worry, when I really meet my friend, I will convey your message," Yang Chen said.

"Then we are truly grateful. Everyone, make way for our friend," the Dragon Clan Leader said, stepping aside respectfully first.

Chapter 2613 - Whose Venomous Words_1

Yang Chen initially had some doubts, after all, the Dragon Clan's change of face was even faster than the changing sky.

However, it was clear that these dragons really value the Five-Clawed Golden Dragon and the legendary Dragon Nest.

His meeting with the Five-Clawed Golden Dragon had no plan, but these Azure Dragons just let him go, and they were very respectful towards him. Comparing to their previous attitude, it was like heaven and earth.

Yang Chen himself was quite surprised.

As he was about to leave, Little Lili looked at Yang Chen with her watery eyes.

"Big brother, will you come back and play again?" Lili looked at Yang Chen.

"Haha, if you really miss me, next time I come back, I'll come to the Dragon Prosperity Sea Area to find you." Yang Chen smiled.

"That's so great." Lili smiled sweetly.

Yang Chen rubbed Lili's head.

Suddenly, he thought of something and couldn't help asking, "Everyone, there's one more thing I want to ask."

Hearing Yang Chen's promise to Lili, the Dragon Clan people looked better, knowing that Yang Chen would eventually return.

"What's the question?" These dragons asked.

Yang Chen said, "I came to the Dragon Prosperity Sea Area this time to hunt the Overlord of the Prosperous Sea with my team. Do you know where this Overlord is?"

"Ah? You're talking about that dumb blockhead? There are plenty of them. I know that there is one over there, another one over there, and another one there..." Little Lili immediately pointed for Yang Chen.

Yang Chen smiled when he heard this, "I see, thank you."

When the conversation ended, Yang Chen bowed and left completely.

Seeing Yang Chen leave, Lili was somewhat sad, rubbing her tears.

For a moment, the Dragon Clan fell into deep thought.

A group of Azure Dragons quickly asked the Azure Dragon Clan Leader, wondering, "Clan Leader, you just made a deal with a human like that? What if he's deceiving us? The Dragon Blood he gave us might have been obtained by hurting the Five-Clawed Golden Dragon Lord."

"Nonsense! The Dragon Blood carries our Dragon Clan's boundless vitality and will. If the Dragon Blood was forcibly consumed, it could only inherit the dominance of the blood but not the Dragon Might. Inheriting Dragon Might means that the Dragon Blood has merged with his body, and his blood is Dragon Blood. This is only possible when the will of the Dragon Blood and the will of the human body are integrated."

The Azure Dragon Clan Leader took a deep breath, "Although I don't know how this human managed to make the Five-Clawed Golden Dragon Emperor reach this level, since he has done it, it shows that they are indeed friends."

"Shouldn't we make him swear an oath before letting him go...?" The Azure Dragon Elders worriedly said.

"It's easy to make him swear, but if the Five-Clawed Golden Dragon Emperor really comes, will we be able to maintain our position?" The Azure Dragon Clan Leader gritted his teeth, "Do you know that our status in the Dragon Clan is very low?"

"This..."

"I wonder how the Dragon Nest has been after all these years."

"In the Holy War back then, our Dragon Nest was seriously damaged. It's said that the two Five-Clawed Golden Dragon Emperors have already fallen..."

The Azure Dragon Clan Leader scolded, "Don't speak those unlucky words! The Dragon Blood still exists in this human's body. Doesn't that mean the Five-Clawed Golden Dragon Emperor is still alive?"

When these words were spoken, the other Azure Dragons' expressions softened a bit.

...

At the same time, Yang Chen rushed out of the sea and set out to find the Overlord of the Prosperous Sea according to Lili's guidance.

As expected, following Lili's instructions, it didn't take long for him to find an Overlord of the Prosperous Sea.

At this moment, Yang Chen was in the air, looking down.

The Overlord of the Prosperous Sea was a creature similar to a bull, slowly moving on the surface of the sea. Its body, thousands of feet tall, was still not fully exposed.

Seeing this Overlord of the Prosperous Sea, Yang Chen shook his head, had no intention of taking any action, and quickly left.

He wasn't really looking for the Overlord of the Prosperous Sea to kill it.

He wasn't interested in this giant creature but wanted to use its location to determine where everyone else was now.

After all, after such a long time, they should have found the location of the Overlord of the Prosperous Sea.

Yang Chen followed Lili's instructions and found the location of three Overlords of the Prosperous Sea.

Finally, with hard work and perseverance, Yang Chen found the location of Feather Dream Mark and the others.

Feather Dream Mark, Ye Furong, Ye Nanfeng and the others were all above the Overlord of the Prosperous Sea, waiting for something.

"You came pretty fast."

Ye Furong saw Yang Chen arrive, "I thought you wouldn't dare to come. I didn't expect that as soon as the signal was released, the first one to arrive was you. It seems that you don't have any other abilities, but you can run pretty fast."

Yang Chen hadn't seen any signal and just found this place using the location he controlled.

He didn't have much to say to Ye Furong, and now that he had found the Spirit of Divine Sea, he didn't plan to stay here for long. Ye Furong's sarcasm was met with a calm response, "It seems that Miss Ye's face has recovered quite well, huh?"

"You!" Ye Furong was suddenly furious, "You, a waste, dare to talk about me!"

She was about to take action, but Ye Nanfeng held her back.

"Furong, the matter of hunting the Overlord of the Prosperous Sea is more important now, don't make unnecessary troubles."

Ye Furong was so angry that smoke came from her nostrils, coldly looking at Yang Chen, her desire for revenge more obvious than ever.

Ye Nanfeng said in a low voice, "Kid, your mouth is quite poisonous."

"Someone was poisonous towards me, so I learned a little," Yang Chen said calmly, "It's just that this person is very poisonous with their words, but not with their temper. I only picked up two or three percent of their skill, and that's enough to make them unable to handle it."

Ye Nanfeng's face darkened, knowing it was his sister who provoked him first.

He menacingly said, "Fine, kid, you've got guts. I don't have time for you now, but after this is over, we'll have plenty of time to play."

His implication was clear - after this was over, they would show Yang Chen the power of their siblings.

"Brother, I want to kill him." Ye Furong shouted, expressing her intentions without any attempt to hide them.

The Holy Domain did stipulate that fellow disciples could not harm each other.

However, Yang Chen had just entered the Great Cloud Pavilion, and moreover, had left the Sacred District of the Holy Domain!

Killing people outside the Sacred District...

If there was no evidence, who would know if Yang Chen died?

Ye Nanfeng warned, "Keep your voice down. As I said, when this is over, we'll have plenty of time to teach this kid a lesson. Right now, the matter with the Overlord of the Prosperous Sea is the top priority, just wait a little longer."

Feather Dream Mark listened to their words, her brows furrowed. She looked at Yang Chen and whispered through Sound Transmission, "Why did you come here? And why did you provoke Ye Furong again?"

Chapter 2614 - Two Overlords of the Prosperous Sea_1

Now she also hates Yang Chen for causing her trouble.

Why doesn't he just ignore everything if he has no strength?

What did I tell you before?

It's bad enough that you came, but you also bothered Ye Furong? You could have just endured her insults, but instead, you fought with her? Do you think dealing with these two siblings is that easy?

Now, once this is over, Ye Furong will definitely retaliate against Yang Chen, and she won't be able to do anything about it then.

"I just couldn't help myself." Yang Chen chuckled.

Seeing Yang Chen acting so nonchalant, Yu Menghen was shaking with anger.

Forget it, she wouldn't care anymore; Yang Chen was too infuriating.

Yang Chen himself had his hands behind his back, looking relaxed, waiting calmly.

The Lord of the Prosperous Sea moves extremely slowly, and as long as it's being watched, it won't be able to run away in a short time.

Time passed!

About an hour later, the other members arrived one after another from other places.

When they arrived and saw Yang Chen, their expressions were full of surprise; clearly, no one expected him to get here faster than them.

"What's the matter with this guy?"

"He arrived even faster than us."

Of course, despite their doubts, no one gave it much thought.

After more than an hour, everyone had gathered; the scene was quite astonishing.

"Everyone, we will now work together to deal with the Lord of the Prosperous Sea. We are quite lucky. Its strength is about 9,000 Dao Intent Inscriptions, which is very powerful. Additionally, the ocean region is its favorite environment. Even if we join forces, if we don't control it well, we may not be its match."

Yu Menghen said solemnly, "So, I hope everyone can pay attention and stay focused. When dealing with the Lord of the Prosperous Sea, we should be orderly, not trying to show off our individual power. Remember, aim for its head as it is its weak point."

Yu Menghen earnestly explained.

Ye Furong said with her hands behind her back, "Alright, Yu Menghen. Who doesn't know what you've just said? We're not hunting the Lord of the Prosperous Sea for the first time. The key is not the hunting tip but this Yang Yi behind you. He can't fight, he's too weak. How are we supposed to deal with the Lord of the Prosperous Sea if we have to distract ourselves to protect him?"

"I also think we shouldn't bring Yang Yi."

"Yes, Yang Yi should just watch from the sidelines."

The others also echoed in agreement.

Yang Chen's smile grew cold.

Ye Furong really has a thick skin.

She's afraid that he'll die at the hands of the Lord of the Prosperous Sea, unable to exact her revenge on him. And her righteous tone - saying she's worried about being distracted to protect him?

He would believe that Yu Menghen had the intention to protect him, but Ye Furong? No way.

As for the others, most of them were likely worried that he would drag them down, so they didn't agree with him joining either.

Yang Chen understood their thoughts.

Since they didn't want him to participate, Yang Chen didn't care to get involved either. He shrugged his shoulders, "Alright, if you all don't want me to join, I won't participate."

Ye Furong sneered in her heart.

Did Yang Chen really think that they didn't want him to participate in order to protect him?

She wanted him to stay alive so that she could slowly play him to death afterward.

After all, being killed by the Lord of the Prosperous Sea would be too easy for Yang Chen.

Seeing that Yang Chen wouldn't join the fight, Yu Menghen spoke, "Since Yang Chen is not participating, there shouldn't be any objections, right?"

No one else said anything.

Seeing no further objections, Yu Menghen led the group to finally attack the Lord of the Prosperous Sea!

Their attack provoked the Raging Fire of the Lord of the Prosperous Sea. Instantly, its whole body began to thrash about, fully emerging from the water.

Upon seeing its full body, it had a total of eight limbs, and although the previously calm sea surface instantly became rough and tumultuous, the group maintained their composure as they were familiar with the Lord of the Prosperous Sea, and continued to attack it orderly and systematically.

They cooperated seamlessly, whether it was defense, protection, or attacking. It was clear that this was not their first time attacking the Lord of the Prosperous Sea.

Yang Chen watched from the sidelines, observing the situation clearly.

The Lord of the Prosperous Sea was indeed formidable, but its size was its weakness.

Its massive size made it very powerful, but it also made it extremely unwieldy. Turning around or rolling over took a lot of time, making it an easy target on the surface of the sea.

Surrounded and attacked by so many people, as long as their cooperation remained impeccable, the Lord of the Prosperous Sea would eventually be killed by them.

However, the situation was not as optimistic as they thought.

At first, even Yang Chen didn't notice.

But as an onlooker with his Divine Soul dispersed, he saw everything clearly.

Deep in the ocean, there was another sleeping Lord of the Prosperous Sea.

Yang Chen didn't know whether this slumbering Lord of the Prosperous Sea was here by chance or if it guarded this area with the other Lord of the Prosperous Sea.

The Lord of the Prosperous Sea on the sea surface was attacked, and the one below immediately awakened.

This Lord of the Prosperous Sea deep in the ocean seemed even more powerful; as soon as it awoke, Yang Chen felt its imposing aura.

If it joined the battle, it would be a devastating blow to this group of people!

Obviously, the group was unaware of this second Lord of the Prosperous Sea lurking deep below; they had no idea that another Lord of the Prosperous Sea was slowly approaching them!

They now focused on furiously attacking the one on the sea surface, gaining the upper hand, not paying attention to any other matters.

"Stay alert everyone, the Lord of the Prosperous Sea won't last much longer. As long as we don't slack off and continue to suppress it, it will eventually be in our grasp!" Ye Furong shouted.

The others were all excited, knowing that the rewards for killing a Lord of the Prosperous Sea were rich and enticing.

This Lord of the Prosperous Sea's aura had weakened considerably since the beginning.

But just when everyone thought they had victory within grasp...

Suddenly, the other Lord of the Prosperous Sea from the ocean depths burst forth!

As soon as this Lord of the Prosperous Sea emerged, the situation drastically changed. A Nirvana Realm powerhouse was instantly killed by it, turning into a mist of blood!

"Not good, there are two Lords of the Prosperous Sea - a male and a female. We're in deep trouble now." Yu Menghen exclaimed.

Chapter 2615 - Display of Strength_1

Overlord of the Prosperous Sea mostly act individually, but there are no absolutes in everything.

A male and a female Overlord of the Prosperous Sea are often in their mating period, so they would act in pairs and give birth to new Overlords of the Prosperous Sea.

When the new Overlord of the Prosperous Sea is born, they would separate from each other.

The female Overlord of the Prosperous Sea would lay her eggs in the depths of the sea, while the male would guard the sea area above.

Unfortunately, they disturbed these two Overlords of the Prosperous Sea.

If they attack the male Overlord, how could the female Overlord not take action? This female Overlord obviously hasn't completely started laying eggs, and still maintains the strength of her heyday.

Now when she takes action, her strength is even stronger than the male's.

In an instant, she killed a Nirvana Stage team member, making the situation of the whole team worse.

"Ye Furong, Ye Nanfeng, what a wonderful place you have brought us to!" Several Nirvana Stage members screamed, no longer caring about offending Ye Furong and Ye Nanfeng.

With two Overlords of the Prosperous Sea, their situation was terrible.

Originally, they could control the situation, but now the entire team was in an awkward position due to the appearance of the two Overlords.

Two Nirvana Stage members turned their backs to escape, but they didn't have much strength left after their previous battle.

And this newly appeared Overlord of the Prosperous Sea still had its peak strength. One bite, and she swallowed the two Holy Domain disciples who were trying to escape.

"Ah!"

Before the scream could completely fall, the two Holy Domain disciples were completely gone.

Looking at the scene, Yang Chen seemed indifferent, as if the matter had nothing to do with him.

After all, for him, these people didn't care about his life and death, so why should he care about theirs?

"No good, run!" The team was in complete chaos.

Only Feather Dream Mark remained calm for the time being, panicking and saying, "Everyone, calm down. Running away now is the least wise choice. Don't scatter and flee. Retreat in an orderly manner with me, or else everyone might die here today."

He had a point.

Scattering and fleeing now seemed reasonable to them, but for the huge Overlords of the Prosperous Sea, it was impossible for any of them to escape with their eight limbs attacking differently.

If they retreated in an orderly manner, perhaps no casualties would occur.

But now, these people were all insane, and they wouldn't listen to Feather Dream Mark's words.

"No good." Feather Dream Mark's face suddenly paled because the attacks of an Overlord of the Prosperous Sea were already sweeping towards her.

Her face was filled with panic, looking at the Overlord that was attacking her, and she revealed a look of despair in her heart.

If she hadn't been distracted by helping the others earlier, she wouldn't be in this situation.

But since she was trying to help others, she was caught off guard by the Overlord's attack, and she didn't react in time.

As a result, even though these people didn't listen to her command, she would also fall here?

Just when Feather Dream Mark felt despair and didn't know how to counterattack, all of a sudden, a figure appeared in front of her with lightning speed.

Then, that almost invincible Dao Intent Inscriptions unfolded, like a big mountain, suppressing the Overlord in an instant.

In an instant, the ferocious and powerful Overlord of the Prosperous Sea was pinned to the ground, unable to move, by Yang Chen's Dao Intent.

The female Overlord of the Prosperous Sea, with its full vigor, seemed like a farce when pressed down by Yang Chen, and people couldn't believe it.

"Behave." Yang Chen said calmly.

It didn't matter to others, but he couldn't just ignore Feather Dream Mark.

After all, Feather Dream Mark was very kind to him before.

Feather Dream Mark's pupils shrank, her beautiful eyes widened, and looking at the back of the man in front of her, she suddenly thought of two words.

Yang Chen!

Yes, she had only felt this invincible posture from that man.

His appearance this time was exactly the same as the last time when he rescued them from the giant beetle!

"Who are you!" Feather Dream Mark exclaimed.

Yang Chen didn't respond.

He just waved his sleeve lightly, and the Dao Intent Inscriptions, like a sharp blade, instantly shattered the body of the Overlord of the Prosperous Sea, leaving nothing behind!

An Overlord of the Prosperous Sea was completely killed by Yang Chen!

It had no resistance at all, revealing an absolute power gap!

Yang Chen's effortless killing of an Overlord of the Prosperous Sea was also witnessed by others.

Everyone was dumbfounded and couldn't believe their eyes. The Yang Yi they had looked down upon, whom they thought had no fighting power, now casually suppressed an Overlord of the Prosperous Sea.

Then, as if playing with a toy, he killed the Overlord!

This felt like a dream, but it was not.

The group of people reacted, as if they had seen their last straw.

Because they were being chased by another Overlord of the Prosperous Sea.

"Yang Yi, save me, save us!" They cried out in fear, running towards Yang Chen, trying to let him help them escape.

But Yang Chen chose to ignore them directly, with no intention of taking any action.

He would only help Feather Dream Mark, and the others had nothing to do with him. After all, they did not take his life seriously, so he didn't have to care about theirs either.

"Ah!"

In an instant, two more Nirvana Stage Holy Domain disciples were devoured by the Overlord of the Prosperous Sea. This Overlord had already become furious and agitated, attacking the others crazily.

To the very end, the two Holy Domain disciples who died were filled with regret.

Yang Chen didn't save them...

If they had treated Yang Chen better in the earliest period, they would not have ended up this way today.

"You are Yang Chen!" At this moment, Feather Dream Mark asked Yang Chen, as the most important question to her was his identity.

Yang Chen couldn't help but smile, and slowly said, "Miss Yu is really smart, recognizing me so quickly."

"You really are Yang Chen!" Feather Dream Mark said with immense joy.

Yang Yi, Yang Chen.

She should have thought of it sooner.

She never expected that, like a dream, Yang Chen would appear in front of her like this.

With that thought, Feather Dream Mark suddenly remembered, "Oh, Yang Chen, please save them. If these people all die, it will be hard for me to explain when I go back."

Hearing Feather Dream Mark's words, Yang Chen nodded, and his Dao Intent Inscriptions unfolded again, like a giant hand, violently grabbing the raging Overlord of the Prosperous Sea.

The raging Overlord of the Prosperous Sea seemed fierce and unruly.

However, under Yang Chen's Dao Intent Inscriptions, it was still like a naive child!

Chapter 2616 - Slaying_1

In an instant, Yang Chen's hand gave a light squeeze.

Overlord of the Prosperous Sea's body exploded completely, utterly destroyed by Yang Chen. The difference between the two was huge, and they were not in the same league at all.

At this moment, it was incredibly silent.

The surviving Saint realm disciples, as well as Ye Furong and Ye Nanfeng, stared at Yang Chen with difficulty and fear, swallowing their saliva.

They had struggled so hard, like walking on thin ice, to deal with the two Overlords of the Prosperous Sea, and even the appearance of one more made them feel completely powerless.

But now, the Overlord of the Prosperous Sea, whom all of them had to gang up against, was easily and effortlessly killed by Yang Chen.

A question surfaced in everyone's mind.

Who exactly was this Yang Yi, and what background did he come from?

For a time, everyone's expressions turned awkward. After all, they knew better than anyone else how they had treated Yang Chen before.

They were indifferent, ignoring, and even mocking him.

When dealing with Yang Chen, they only regarded him as a weak newcomer who had just joined the Great Cloud Pavilion. As for someone who would have difficulty catching up to them, their attitude was naturally one of disdain.

However, what was the reality?

Yang Chen was not the weak person they saw; on the contrary, he was a Transcendent Nirvana Stage with absolutely terrifying strength.

Just now, they had unanimously voted to let Yang Chen watch the battle from the outside, thinking he would drag their feet?

The truth was, if it weren't for Yang Chen, they would all have died today.

"Brother Yang Yi, thank you so much for saving our lives."

"Brother Yang Yi, we can't thank you enough."

These people all went forward, trying to get close to Yang Chen. They were all trying to establish a good relationship with him, especially now that he had demonstrated such strength.

"You are Yang Chen!"

At this moment, Ye Nanfeng stared at Yang Chen with fear.

He had a high status in the sect and had seen Yang Chen's fight with Luo Hen, the Imperial Scion of the Extinct Sect, some days ago. Therefore, he had a rough idea of Yang Chen's abilities.

When he saw Yang Chen's Dao Intent Inscriptions just now, he recalled Yang Chen's Dao Intent Inscriptions during the fight with Luo Hen.

Comparing the two, he found that they matched perfectly.

Yang Yi was Yang Chen.

Ye Nanfeng couldn't believe his own eyes.

"He is Yang Chen!"

"How is it possible that Yang Yi is Yang Chen?"

Seeing his identity exposed, Yang Chen no longer hid it. He waved his hand gently in front of his face, and the next moment, his appearance returned to the original Yang Chen.

"Yes, I am Yang Chen. Due to some special reasons, I had to change my identity and borrow the help of your team to travel. You should, I hope, not mind." Yang Chen said indifferently.

"Not at all, of course not at all." The group of people hurriedly replied, their guts regretting their actions.

They never would have dreamed that the Yang Yi they had initially looked down upon and despised was actually the now-prominent Yang Chen within their sect.

They couldn't believe how close this unattainable existence had been to them.

If they had established a good relationship with Yang Chen earlier and spread the word, who would dare to mess with them? Just like Feather Dream Mark, knowing her connection with Yang Chen would change everything.

However, Feather Dream Mark was low-key and rarely mentioned these things to others.

At this moment, the most awkward ones were Ye Furong and her brother Ye Nanfeng.

Ye Furong stared blankly at Yang Chen, her delicate body trembling, as if she had encountered something incredible.

The person she had been cursing and despising was actually Yang Chen? The strongest genius in the Saint realm, Yang Chen? She had actually thought this man was weak and looked down on him?

How could she have the qualifications to look down on him?

Neither she nor her brother was even qualified to carry his shoes.

Even now, Ye Furong still couldn't believe why Feather Dream Mark had always had greater foresight than her and had gotten acquainted with 'Yang Yi' first.

"It's fake. You must be a fake Yang Chen, impersonating him. When we get back, the Saint realm will punish you," Ye Furong shouted.

Ye Nanfeng panicked for a moment and hurriedly covered Ye Furong's mouth, signaling for her to shut up immediately.

It was no joke, as at this point, whether the man in front of them was Yang Chen or not, he could easily kill them if he wanted.

Now, Yang Chen looked at Ye Furong and Ye Nanfeng calmly and smiled, "I heard you two wanted to take revenge on me before?"

"No, no, Brother Yang Chen, there was a misunderstanding, a misunderstanding." Ye Nanfeng hurriedly said.

Yang Chen would not show mercy to these two.

For those who wanted to kill him, he would not show any leniency at all.

"I don't think there was any misunderstanding here!"

When the conversation ended, Yang Chen didn't even move.

His Dao Intent Inscriptions pressed down with overwhelming force.

In an instant, Ye Furong and Ye Nanfeng felt suffocated.

"Yang Chen, if you dare to kill us, the sect will not let you go!" Ye Furong shouted.

Yang Chen wouldn't be polite at all. With a wave of his hand, Ye Furong and Ye Nanfeng were instantly turned into a cloud of blood mist, falling on the spot.

When this scene unfolded, everyone trembled and became fearful watching the deaths of Ye Nanfeng and Ye Furong.

After all, their previous attitude toward Yang Chen was not good.

However, Yang Chen had a clear grudge. He killed Ye Nanfeng and Ye Furong only because the two siblings had tried to kill him.

If the two were merely hurling insults, he really wouldn't care that much. But since they had tried to kill him, he would not stand for it.

Yang Chen calmly said, "Today, these two died by the hands of the Overlord of the Prosperous Sea. This is what happened, right?"

"Yes, that's what happened, that's what happened." The others wiped their sweat and hurriedly agreed.

At this point, who would dare to go against Yang Chen?

As for Yang Chen, with his current strength, killing two disciples of the Great Cloud Pavilion would hardly cause any trouble for him even if the matter spread to the Inner Sect.

After all, the rules of the sect were always flexible depending on the person.

Yang Chen said nonchalantly, "Alright, enough talk. I'm not interested in the Overlord of the Prosperous Sea. You can handle it on your own. I'll be taking my leave now. Oh, and when you divide the Overlord of the Prosperous Sea, I want you to give more to Feather Dream Mark, understand?"

When the conversation ended, Yang Chen leapt up and vanished on the spot.

Only Feather Dream Mark tried to hold him back for a moment but hesitated, not knowing what to say to retain him. Even if she kept him back, what would she say to him?

The two of them were simply not from the same world.

At this thought, Feather Dream Mark couldn't help but sigh deeply.

However, her initial friendly attitude towards Yang Chen had indeed worked. Coupled with Yang Chen's last words, the remaining team members were generous when it came to dividing the Overlord of the Prosperous Sea, going so far as to allot an entire Overlord of the Prosperous Sea to Feather Dream Mark.

Chapter 2617 - Before the Extreme Yin Land_1

For Yang Chen, this team was just a stepping stone for him to hide his identity and travel to the Extreme Yin Land.

Now, because of these people, he had made a perfect escape and silently left the Holy Domain under the watchful eyes of countless people.

After leaving these people, Yang Chen began to prepare for his trip to the Extreme Yin Land.

For him, going to the Extreme Yin Land was the most important thing.

However, on the way, there were some things that needed to be dealt with, such as the Treasures he had obtained through great efforts, the Spirit of Divine Sea.

In order to obtain the Spirit of Divine Sea, he had put in a lot of effort. Now that he had acquired it, he began to try to break through the limit of his own Water Dao Intent Inscriptions.

As he thought about it, Yang Chen's gaze focused on the Spirit of Divine Sea.

One could clearly observe a powerful Essence of Water from the Spirit of Divine Sea.

Yang Chen was now above a mountain peak, starting to refine the Spirit of Divine Sea.

With his current cultivation level, refining the Spirit of Divine Sea was not a difficult task and could be easily accomplished.

What Yang Chen was concerned about was the result after refining the Spirit of Divine Sea...

It was almost like the memories he had obtained from Mu Taiqing's three souls!

When the refining of the Spirit of Divine Sea was halfway done, Yang Chen could already feel the changes in the Water Dao Intent within his body.

These changes were, firstly, the improvement of the Dao Intent Inscriptions.

Secondly, there was a qualitative change to the Water Dao Intent itself.

It seemed as if the Dao Intent itself had become more pure and powerful than before.

Yang Chen knew that this was the effect brought by the Spirit of Divine Sea, breaking through the limit of his Water Dao Intent.

And the Dao Intent Inscriptions were also growing at a rapid speed...

Halfway through the refining, it had directly increased by more than one thousand two hundred Dao Intent Inscriptions!

This number was surprising to Yang Chen.

Moreover, the refining of the Spirit of Divine Sea had not yet been completed at this level.

This made Yang Chen unable to imagine how much his Water Dao Intent Inscriptions would increase after the refining was completed.

Just like that.

At the top of the peak, Yang Chen spent three days and three nights refining the Spirit of Divine Sea.

After three days and three nights, Yang Chen's aura became even stronger and more terrifying than before!

Three days and three nights later, Yang Chen's body was surrounded by a faint water sphere-like substance that enveloped him.

At that moment, Yang Chen's eyes suddenly opened, and the water sphere-like covering around his body instantly dissipated.

Afterward, with his clear eyes, Yang Chen looked around while the Water Dao Intent Inscriptions integrated completely into his body, announcing the end of his refining of the Spirit of Divine Sea.

As for the result, Yang Chen was very satisfied.

Only he himself knew that after the refinement of the Spirit of Divine Sea, he had gained an additional two thousand five hundred Water Dao Intent Inscriptions.

Now, his overall Dao Intent had directly increased to nineteen thousand four hundred!

This number of Dao Intent Inscriptions would definitely shock many people if it were spoken out loud.

To be honest, even Yang Chen himself didn't expect the effect of the Spirit of Divine Sea to be so good, boosting his Dao Intent Inscriptions by more than two thousand five hundred in one go.

Such an increase in quantity was quite terrifying for his current number of Dao Intent Inscriptions.

However, thinking about it, it made sense.

His Water Dao Intent Inscriptions were not numerous, and the effect of the Spirit of Divine Sea was domineering. In the case of his not having many Water Dao Intent Inscriptions, it forcefully helped him break through more than two thousand five hundred Dao Intent Inscriptions, which was even more terrifying than the effect of an Elixir.

Now, the effect of his having a large variety of Dao Intent had manifested itself.

It was impossible to estimate the limit. Even if an average of only two thousand Dao Intent Inscriptions were needed for each type, there would still be as many as eighteen thousand.

For Yang Chen, achieving more than two thousand inscriptions for one type of Dao Intent was naturally not difficult.

That's why his current number of Dao Intent Inscriptions had reached a staggering nineteen thousand four hundred.

This terrifying number was already close to twenty thousand.

He was unsure if it was an illusion or reality.

As the number of Dao Intent Inscriptions approached twenty thousand, Yang Chen felt that his Daoist Divine Body was somewhat different from before, as if there was a breakthrough but something was blocking it, making him feel both anticipation and tension.

After all, it was recorded in the Ancient Books.

Once the Dao Intent Inscriptions reach twenty thousand, one can unlock the Tribulation Divine Body and display terrifying strength!

Yang Chen was also full of anticipation in his heart!

"My strength has improved to this level, so it's about time to set off for the Extreme Yin Land," Yang Chen said to himself.

The next moment, he no longer hesitated, opened up his Space-Time Dao Intent, and sped towards the Extreme Yin Land at a rapid pace...

...

If it were another person, going to the Extreme Yin Land would definitely require a lot of time. But for Yang Chen, who had Space-Time Dao Intent, it was different.

One month later, in the sky above a forest, Yang Chen had already reached a place close to the Extreme Yin Land.

When he dispersed his soul, Yang Chen could already feel the Netherworld aura emanating from the distant place, which he was more than familiar with.

"Finally, I'm here," said Yang Chen, as his figure appeared in the sky.

Degree.

During this one-month journey, he had arrived, collected several maps, and the maps recorded the situation around the Extreme Yin Land.

In addition, he had also inquired about many details regarding the Extreme Yin Land on his way, and he knew much about this area.

The Extreme Yin Land was a region forcibly opened up by the forces of the Netherworld, stretching like a river and located right at the center of the Southern Realm, dividing the North and the South.

The Netherworld's approach was ingeniously designed to weaken the strength of the Southern Realm, making it difficult for the North and the South to gather together again.

Even because of the Extreme Yin Land, it was difficult for the North and the South to have any interaction. Only when some major events arose would they communicate with each other through special means, while also having to worry about the risk of eavesdropping by the people of Netherworld.

The current location of Yang Chen was the southern region, while Heaven Lord Pavilion and the Three Flowers Sect were in the northern region.

The south side of the Extremely Yin Land was controlled by two Sacred Districts.

These two Sacred Districts were the Haoran Gate and the Heaven's Separation Sect.

Haoran Gate and Heaven's Separation Sect were the main forces fighting against the Netherworld in the Extreme Yin Land. In addition, there were thirty-seven major and minor sects and over a thousand forces forming an alliance to fight against the people of the Netherworld in the Extreme Yin Land.

Furthermore, there were rear reinforcements from the Holy Domain, Extinct Sect, and other large and small forces. It could be said that the entire Southern Domain did not dare to underestimate the confrontation with the Extreme Yin Land.

However, unlike Haoran Gate and Heaven's Separation Sect, the Holy Domain was far away, so their strength was not whole in the Extreme Yin Land.

As for those from the Netherworld in the Extreme Yin Land, they were incredibly cunning and scheming, often initiating attacks or avoiding battle, making it difficult for the human forces on this side to be too aggressive or careless.

Chapter 2618 - Murong Siblings_1

It must be said that the Netherworld's strength is formidable.

The realms attacked by the Netherworld were not just limited to the Southern Realm and Spirit Realm. Even so, the Extreme Yin Land born from their attack on the Southern Realm left the people of the Southern Realm with no means to counter it.

How could the people of the Southern Realm not try to find a way to deal with the Extreme Yin Land? However, with no means to do so, ghost creatures were ceaselessly born from the Netherworld within it.

Attempts had been made to destroy the Extreme Yin Land, but all had been in vain.

This also caused Yang Chen to have a headache.

He wanted to cross the Extreme Yin Land, travel to the Three Flowers Sect, and then to the Heaven Lord Pavilion.

As for the matter of the Young Master's mission, he was not in a hurry. Since the Extreme Yin Land existed here, there was no need to worry about not being able to complete the task.

But now, with the Extreme Yin Land in his way, if he wanted to go to the Three Flowers Sect, he needed to cross it. Crossing the Extreme Yin Land was clearly not an easy task.

Feeling somewhat helpless, Yang Chen could only choose to take the long view.

"Well, I'm already here, no need to rush now," Yang Chen muttered to himself.

Storing his qi, there was plenty of time.

With his decision made, Yang Chen disappeared on the spot...

...

Three days later.

Near the Extreme Yin Land, a large mountain range.

The previously quiet sky suddenly witnessed several people rushing through it in a panic. Their eyes were filled with terror, as if something unimaginable had happened.

"Run, the Ghost Creatures are catching up!"

"Third Brother, don't look back!"

These people hurried forward, not daring to delay their speed for a moment, as if there was a relentless ghost chasing them.

Speaking of which, there really was a relentless ghost behind these people.

However, it was not a group of them, but only one.

It was a huge Ghost Creature, its body shrouded in black qi, its fierce fangs bared displays of ferocity, and a long tail behind it. Its appearance was completely different from ordinary Ghost Creatures!

The qi it released had reached the high Nirvana Stage, and its Dao Intent Inscriptions were most certainly not ordinary. It was just that to which extent it had reached could not be immediately discerned.

The Ghost Creature let out a cackling laugh as it chased after the people...

A team of five Nirvana Stage members were left with no way to escape this single Ghost Creature!

Comparing their speeds, there was no contest at all. The Ghost Creature caught up quickly, getting closer and closer.

"At this rate, we're all going to die."

"Why is our luck so bad? How could there be a Ghost General with up to ten thousand Dao Intent Inscriptions nearby!"

They all lamented, their words filled with desperation and unwillingness.

Just as they despaired, suddenly, a delicate-looking woman among the five stepped forward.

"You guys go first, I'll hold off the Ghost Creature for a moment!" The brave woman stood firm, not giving up on hope even at this time. As the others scattered in a panic, she chose to stay behind and block their way.

This left everyone in shock.

"Captain, you!"

"Captain, don't do anything foolish! How could you survive against this Ghost Creature?!"

"Older Sister!" A young man with a similar appearance to the woman cried out.

"If I don't stay here, everyone will die. Take care of my brother and ensure the final bloodline of the Murong Family! Otherwise, even as a ghost, I, Murong Hongye, will never forgive you!" The woman shouted angrily.

The team understood her and tried to leave with the sobbing young man.

However, at that moment, layers of Ghost Qi suddenly surged, forming Dao Intent Inscriptions and a barrier, blocking all escape routes!

Those who were trying to escape were stopped in their tracks.

"What?!"

"This is bad." Murong Hongye's face paled, knowing that things had taken a turn for the worse.

Meanwhile, the Ghost Creature that had been chasing them suddenly appeared with a sinister laugh, "Do you think a group of you can escape from my grasp? What delusions. Hehe. Want to run? I can very responsibly tell you, not one of you will be able to escape."

Murong Hongye clenched her teeth, "Cloud-penetrating Ghost General, I'll fight you to the end!"

"Heh, little girl, you're still a virgin, your essence must be delicious and flavorful. Hahaha, let me devour you willingly." The Cloud-penetrating Ghost General let out a loud laugh, releasing a torrent of fierce Ghost Qi towards Murong Hongye.

Mingled with Dao Intent Inscriptions, this Ghost Qi was frighteningly powerful, and Murong Hongye instantly became frantic.

The next moment, Murong Hongye had no choice but to use all her strength to fight against the Cloud-penetrating Ghost General.

Eight thousand Dao Intent Inscriptions.

Murong Hongye's strength was also impressive.

Seeing Murong Hongye take action, the other team members quickly joined in.

"We will also help the captain!" The others rushed to help.

In an instant, everyone combined their Dao Intent, some with 2,000 inscriptions, others with 3,000 or even 5,000 to 6,000 inscriptions.

Together, they reached more than ten thousand Dao Intent Inscriptions.

Unfortunately, these inscriptions were combined from different people, so despite their quantity, they were not of much help. Compared to the true over ten thousand Dao Intent Inscriptions, there was a huge gap.

All five of them went all out, unleashing their full strength.

However, when compared, there was only a rumbling sound.

A large amount of Ghost Qi surged, like a sharp weapon. In just a moment, one of the team members could no longer hold on, and a spray of blood shot out as he flew back, unable to stand up.

"This isn't good, we're no match for him at all. Aaah!" Another person was abruptly sent flying.

All of them became terrified and anxious, the air of defiance that had originally gathered now quickly disappearing in face of the relentless onslaught.

The Cloud-penetrating Ghost General sneered, "A group of lowly human trash, banding together as if you can stand against me? I am a high-ranking Ghost General of the Netherworld. Die!"

As he spoke, the Ghost General's qi exploded, and the last three members of the team, including Murong Hongye, were hit by a spray of blood, their bodies flung into the air in utter defeat.

"I'll start with you, devouring you slowly," the Cloud-penetrating Ghost General cackled.

His target was Murong Hongye.

Murong Hongye's face paled, but even at this point, she did not forget about her brother's safety, and shouted, "Wufeng, run!"

Chapter 2619 - Too Weak_1

"Wufeng, run fast! You're the only man left in our Murong family. I'll fight with you, Cloud-penetrating Ghost General!" In her rage, Murong Hongye didn't care about her life and rushed toward the Cloud-penetrating Ghost General.

Murong Wufeng was utterly desperate in his heart, but he knew that he was indeed the only hope for the Murong family now.

He couldn't betray his older sister's kindness. He had to escape.

He forced himself to get up and run!

At this moment, the Cloud-penetrating Ghost General also turned to face the attacking Murong Hongye.

"Humph! Trying to delay time, what a childish choice!" The Cloud-penetrating Ghost General laughed disdainfully.

When the conversation ended, the Ghost Qi in his hand turned into a giant claw with a stroke, and he controlled Murong Hongye in his palm as if manipulating a toy.

"Don't worry. I won't kill you so soon. I'll slowly devour and refine you. After all, the essence of a virgin girl is a great supplement for us ghost creatures, hahaha!"

After the Cloud-penetrating Ghost General sneered, he released more Ghost Qi and said, "Kid, where are you trying to run?"

Murong Wufeng, who had been trying to escape, showed despair in his eyes.

He knew that even the last hope was gone.

Murong Hongye also shed tears.

Even if she sacrificed her life, she couldn't buy any time for her brother.

All efforts were destroyed. To the Cloud-penetrating Ghost General, catching them was as easy as blowing off dust.

Could it be that the heavens really wanted to annihilate their Murong family?

"Since you care so much about your brother, I'll kill him. How about that?" The Cloud-penetrating Ghost General laughed.

"No!" Murong Hongye roared.

But for the Cloud-penetrating Ghost General, the angrier Murong Hongye was, the more he wanted to do it!

He wanted to kill Murong Wufeng and watch Murong Hongye's desperate eyes!

But just as he was about to do so...

The Cloud-penetrating Ghost General suddenly found...

High in the sky, a person appeared next to Murong Wufeng. He didn't know when it happened.

This surprised the Cloud-penetrating Ghost General: "Who are you!"

This man, young in appearance, appeared silently and quite unexpectedly, making the Cloud-penetrating Ghost General shudder.

He should know that his Ghost Qi range didn't detect Yang Chen's appearance, which was as silent and strange as a ghost!

That's right, it was Yang Chen.

Yang Chen now looked around, scratched his head, and couldn't help but laugh and cry.

After arriving near the Extreme Yin Land, he had been thinking about how to cross it, so he wanted to find someone nearby. However, after traveling through spacetime for three days, he never managed to find anyone.

He could only go closer to the Extreme Yin Land. According to his guess, most forces should have stationed their forces near the Extreme Yin Land.

Thus, he used Spatial Teleportation all the way to this place.

Upon sensing the traces of humans here, Yang Chen couldn't miss out and immediately arrived here through Temporal Transfer.

Before coming here, he hadn't paid much attention to what was happening here.

He didn't expect to stumble upon such a scene when he arrived.

A team was being attacked by a powerful ghost general.

The others saw Yang Chen as well, and rejoiced for an instant: "Is it reinforcement?"

However, just by mentioning the word reinforcement, these people quickly became disappointed.

Because, where would reinforcements be so young?

And what could someone so young do?

"It seems like a young man from a sect who came to the Extreme Yin Land to complete a task."

"It's over, is this truly the end? Are we doomed to perish here?"

These people guessed rightly that Yang Chen was indeed a young man who came here from the rear to do a task. It wasn't hard to guess since only someone from behind would pass through here.

The Cloud-penetrating Ghost General was alarmed and chuckled: "Humph, just a wild brat from somewhere. Anyway, I'll just kill you as well."

When the conversation ended, the Cloud-penetrating Ghost General released Ghost Qi, and in an instant, attacked Yang Chen.

Seeing this, Yang Chen rubbed his eyebrows and then moved his palm gently.

"Alright, over ten thousand Dao Intent, that's a bit interesting!"

Yang Chen didn't even use Dao Techniques, but just relied on amazing Dao Intent Inscriptions to form an offensive in an instant, breaking the Ghost Qi completely.

"Netherworld Ghost Qi?"

"No, it's not!"

Yang Chen muttered, "A technique more powerful than Netherworld Ghost Qi. It forms Ghost Qi and Dao Intent Inscriptions combined. As soon as it attacks, ordinary human Dao Intent Inscriptions are disintegrated instantly. It's quite interesting. I just met a ghost creature, and it's already so powerful?"

Yang Chen revealed a smile, not afraid, but even more excited.

Seeing this, a bad feeling arose in the Cloud-penetrating Ghost General's heart. He had a feeling that the man he was facing was very strange.

And now, his attack was broken by the other party.

Seeing Yang Chen break the Cloud-penetrating Ghost General's technique, Murong Hongye gasped, "Brother, you actually have the strength to dissolve the Ghost General's attack. Quickly, take my brother away. You're no match for this Ghost General. His Dao Intent Inscriptions have reached ten thousand

three hundred, and he's a High-Ranking Ghost General, controlling Undead Ghost Qi and perfectly merging with Dao Intent Inscriptions. You're no match for him."

When Yang Chen heard what Murong Hongye said, he wasn't interested in anything else, but just one sentence.

A High-Level Ghost General?

Haha, was his luck really that good right from the start?

If people knew his thoughts, they would probably want to cry.

After all, in the eyes of others, encountering a High-Level Ghost General couldn't be described as having good luck, but for Yang Chen, it was indeed good luck. After all, his mission included killing a High-Level Ghost General.

Hearing Murong Hongye's persuasion, the Cloud-penetrating Ghost General's fear vanished.

Right, what was he afraid of?

Could this person who suddenly appeared from nowhere really contend with him?

"Kid, I don't know how you dissolved my technique just now, but now, you can die." The Cloud-penetrating Ghost General scolded coldly.

However, Yang Chen advanced instead of retreating, and said calmly, "High-Level Ghost General, well, try your technique again."

For Yang Chen, he was quite curious about the strength of a High-Level Ghost General.

So he wanted to use this as a basis to make judgments and comparisons.

"Looking for death!" The Cloud-penetrating Ghost General roared angrily, stomping his feet, and a large amount of Ghost Qi rushed toward Yang Chen.

"Is this the full strength of a High-Level Ghost General?"

Yang Chen murmured.

He had originally given the other party a chance to show off, just thinking about experiencing the power of a High-Level Ghost General.

How should he put it...

Yang Chen shook his head.

Too weak.

Chapter 2620: Unexpected Joy_1

This Cloud-penetrating Ghost General and him, dealing with these few people, indeed formed an absolute crush.

But against him, it's different.

With ten thousand and three hundred Dao Intent versus nearly twenty thousand Dao Intent, the gap was obvious when comparing the numbers.

The Cloud-penetrating Ghost General thought his level to be quite high, but he never expected to encounter a monster-level existence like Yang Chen.

Yang Chen now took it somewhat more seriously.

But only a little more seriously.

The next moment, the Ghost Qi that the Cloud-penetrating Ghost General excelled at, vanished in an instant.

It was scattered on the spot, and the gap was immediately evident when compared.

Yang Chen remained still, calm and composed, a picture of self-possession.

This scene completely shocked everyone.

Just now, they thought they were completely finished, and those who had lost hope in surviving couldn't believe their eyes.

Murong Hongye's eyes were wide open, dumbfounded, still not knowing what had happened, and who Yang Chen really was!

Now, the Cloud-penetrating Ghost General was also completely shocked, staring at Yang Chen and shouting, "Who are you?!"

"It doesn't matter who I am. What's important is that it's not your turn to be rampant and vicious on human territory, you ghostly creature," Yang Chen raised his hand!

The Cloud-penetrating Ghost General saw Yang Chen's hand raising, his heart tightened, and suddenly sensed a sense of impending death.

This feeling was not an illusion.

Because the next moment, Yang Chen's Dao Intent Inscriptions came like a sharp sword, forming an attack, arriving in an instant!

This made the Cloud-penetrating Ghost General's pupils shrink!

He tried hard to resist, turning Ghost Qi into defense and creating barriers, trying to block all of Yang Chen's moves, but in the blink of an eye, his attacks seemed like an egg crashing against a rock.

In the blink of an eye, they were shattered.

And Yang Chen's Dao Intent Inscriptions pierced through his body layer by layer, destroying his vitality in an instant!

The Cloud-penetrating Ghost General didn't know why such a terrifying character suddenly appeared here, even in his death.

The human team members were both frightened and delighted, surviving in the face of despair, there probably wasn't anything happier than that.

But what made them even more concerned and surprised was what kind of character Yang Chen was after all.

They knew just how strong the Cloud-penetrating Ghost General was. They, as a group, couldn't even withstand a single attack from him, let alone besiege him!

But now, the more terrifying fact was that the Cloud-penetrating Ghost General, who had no way to escape from them, proved to be no match for Yang Chen either.

So how big was the gap between them and Yang Chen?

Just how terrifying was this man!

The horror in their hearts filled their minds.

At the tense moment, Murong Hongye quickly stood up. The Cloud-penetrating Ghost General was already dead, and she was no longer bound. She immediately said, "Thank you, brother, for saving our lives."

"Thank you, friend, for saving our lives."

"My name is Murong Hongye, the captain of this small team. We were almost annihilated by the Cloud-penetrating Ghost General. Thank you, brother, for saving our lives."

Mentioning this, Murong Hongye choked up.

She knew that her brother almost died, which would have put an end to their Murong family lineage. If it weren't for Yang Chen's appearance, she wouldn't know what to do.

Murong Hongye's brother, Murong Wufeng, also teared up and hurriedly stepped forward to express his gratitude.

These people came forward one after another, paying their respects. After all, Yang Chen saved their lives, and they dared not be disrespectful.

Yang Chen smiled faintly, "My name is Yang Chen. What happened just now is nothing. You don't have to be so polite. We are all humans. I just happened to pass by here, so I can't help but lend a helping hand."

"So, Brother Yang Chen is indeed a member of a certain force coming to support the front line and complete tasks? Then, is your friend a Great Ascension Stage powerhouse?" Everyone was shocked.

They should have thought that with Yang Chen's strength, it's impossible for him to be in the Great Ascension Stage. It's just that he walks in the outside world, deliberately disguising his identity. As soon as the Great Ascension Stage was mentioned, they became frantic at the same time.

"Junior pays respects to senior!"

“Pay respects to senior!”

These people respectfully spoke one after another.

Hearing this, Yang Chen couldn't help but smile and respond, “You don't have to be so polite, I'm not a Great Ascension Stage senior. Like you, I am in the Nirvana Stage, so you don't have to be so constrained.”

Hearing that Yang Chen wasn't a Great Ascension Stage caused these people not to breathe a sigh of relief, but instead to be even more astonished.

“Your strength is not in the Great Ascension Stage, and yet you are so powerful? Friend, which sect are you a disciple of?” Everyone couldn't help but inquire.

Yang Chen truthfully said, “I am a regular disciple from the Holy Domain, coming to the Extreme Yin Land to hunt ghost creatures and complete tasks. Uh, I'll take the body of this Cloud-penetrating Ghost General, is that okay?”

As these words fell, the crowd looked at each other in shock and surprise.

However, soon enough, many people turned their eyes to Murong Hongye, winking and making gestures, clearly suggesting something.

Murong Hongye was not a fool, how could she not understand the meaning? She hurriedly said, “Since Brother Yang Chen came to the Extreme Yin Land to complete tasks, having a team is necessary. It just so happens that our team has a vacancy. Brother Yang Chen, would you be interested in joining our team...”

As she was speaking, Murong Hongye didn't even know how to continue the invitation.

What was Yang Chen's strength, and what level was their team?

If Yang Chen were to join a team, he could probably choose whichever team he wanted by just kneeling down and begging.

Them inviting Yang Chen? What would they use to invite him? Isn't this humiliating themselves?

Hearing Murong Hongye's invitation, Yang Chen didn't think much about it. He just felt unfamiliar with the environment here.

He was new to the place and needed to learn more. Having a team to help him understand the surrounding environment seemed appropriate.

What's more, he had noticed the affection between Murong Hongye, her brother, and the team members. There wasn't too much hypocrisy and pretense, and their feelings were genuine, which he appreciated.

Just like that, Yang Chen cupped his hands and said, "Well, I just arrived at the Extreme Yin Land, and I do need a team to take care of me. If you don't mind, I will join your team. If there's anything I don't understand, I hope you won't mind too much."

They had all prepared themselves for Yang Chen's rejection, but who could have thought that there would be a change of events?

In the blink of an eye, this man in front of them agreed to join them!

This made the team members jump with joy, the light in their eyes almost uncontrollably shining out.
