

## Supreme MK 2621

### Chapter 2621: Ghost Core\_1

They couldn't be happier now.

What condition did Yang Chen propose? That's not a condition at all!

Joking aside, this transcendent existence wants to join their team, and they'd do whatever it took to help, not to mention answering his questions.

How dangerous is the Extremely Yin Land? The situation just now had already explained everything. Without the help of a strong team member, a team could vanish in an instant, which is quite normal.

The cruelty of the battlefield meant that even if a team was wiped out, no one would avenge them.

However, having such a transcendent strong one join them would be like guaranteeing their lives.

In an instant, these team members all chuckled and said, "Brother Yang Chen, you're too polite. If you have any questions, just feel free to ask, we'll tell you everything we know."

"Yes, we're all in this together, and we should help each other."

Yang Chen nodded when he heard this.

His main purpose now was the Three Flowers Sect. He was initially going to ask about it, but after thinking about it, he decided to put it aside for now.

After all, he couldn't be too hasty about this. He had to settle down in the southern region of the Extremely Yin Land first and then cross it to reach the Three Flowers Sect.

“Everyone, where are we going back to?” Yang Chen asked as he followed the team.

“We are on patrol outside. After some turmoil, let’s return to the Unparalleled Camp first!” Murong Hongye spoke softly and looked at Yang Chen admiringly.

Yang Chen asked in surprise, “What is the Unparalleled Camp?”

“Actually, the nearby area is occupied by various major forces like the Haoran Gate. These major forces form camps. The Unparalleled Camp is one of them. We are a patrol team from the Unparalleled Camp. When we return, we need to quickly report the information about the attack by the Cloud-penetrating Ghost General. After all, it is a very important matter.” Murong Hongye sighed.

At first, Yang Chen didn’t think much about it, but he realized something later.

Walking forward from just now, it was the human territory. Only after passing through the human territory would one enter the Extremely Yin Land.

So, how did the ghost creatures pass through the human territory and attack Murong Hongye?

This made Yang Chen ask in surprise, “How did the Cloud-penetrating Ghost General manage to attack you?”

Murong Hongye smiled bitterly, “That’s a point we’ve been puzzled about too. Recently, there have been rumors that ghost creatures have crossed the human territory and wreaked havoc in the rear. That’s why our patrol team started patrolling the rear. We thought it was a false alarm, but it turned out to be true. Our team was attacked by the famous Cloud-penetrating Ghost General, and five team members died. The fact that these ghost generals could infiltrate our rear is just too strange.”

“Is the Cloud-penetrating Ghost General famous?” Yang Chen asked, puzzled.

“There are quite a few powerful ghost generals in the Extremely Yin Land, which we have records of on our side. As a high-level ghost general, the Cloud-penetrating Ghost General is one of the more powerful ones who has been elusive for a long time. It has been targeted by many vanguard teams, and it is said

that elite Nirvana Stage practitioners with over ten thousand Dao Intent have been helpless against it. It's incredible that you, Brother Yang Chen, have such great divine powers!" Murong Hongye exclaimed in admiration.

Yang Chen, however, remained calm and indifferent.

This Cloud-penetrating Ghost General was merely a part of his mission, and he couldn't be too proud about it.

After all, his goal was higher: the King-Rank Ghost Beings.

"By the way, Brother Yang Chen, do you want to exchange this Cloud-penetrating Ghost General for Merit Points?" Murong Hongye asked warmly.

"Merit Points?" Yang Chen seemed puzzled.

"Ah, I forgot that Brother Yang Chen is here for the first time. Merit Points are the achievements earned by hunting ghost creatures and accumulating accomplishments in battles. These achievements can be exchanged for many things. It's said that many sects' top Daoist techniques and elixirs are being shared and can be exchanged for Merit Points. Moreover, the higher the Merit Points, the more high-ranking positions you can exchange for!" Murong Hongye smiled.

Yang Chen recalled his Merit Points in the Spirit Realm.

His Merit Points in the Spirit Realm were quite high, but before he could use them, he arrived in the Southern Realm.

However, these Merit Points did give the Xuandao Sect a deep reputation, so it didn't matter whether he used them or not.

The Southern Realm also had this system of Merit Points due to attacks from the Netherworld, which was similar to the Spirit Realm. After a slight understanding, he knew about it.

However, the rewards offered in the Southern Realm aroused Yang Chen's interest.

The first one was the shared Dao Techniques and elixirs!

Under normal circumstances, Yang Chen wouldn't be interested in these at all. However, he thought about the Life and Death Dao Technique of the Three Flowers Sect.

If that technique could be exchanged for Merit Points, or if there were any suitable techniques in the shared Dao Techniques for cultivation, then these Merit Points would be quite useful.

"If Brother Yang Chen wants to exchange Merit Points, there's no need to deliberately carry the corpse of the Cloud-penetrating Ghost General. Just take its Ghost Core!" Murong Hongye said with a smile.

"Ghost Core?" Yang Chen looked puzzled.

Murong Hongye explained, "Brother Yang Chen, you can take out the corpse of the ghost general."

Without any hesitation, Yang Chen took out the corpse of the Cloud-penetrating Ghost General and handed it to Murong Hongye.

Murong Hongye took the corpse of the ghost general and pressed her palm to its head. Even at this point, she looked at the corpse with a bit of trepidation and fear.

The others felt the same.

Yang Chen, on the other hand, stared intently at Murong Hongye. Murong Hongye pressed her hand on the ghost general's corpse, and it disappeared instantly, leaving behind something that looked like a black walnut, which appeared in front of Yang Chen.

"What's going on?" Yang Chen took a deep breath.

“This is the Ghost Core, also known as the Corpse Core. There is a core in the head of a ghost creature, which is the key to their cultivation of Ghost Qi. This Ghost Core is very tough, so there is no need to worry about its destruction after killing these ghost creatures.” Murong Hongye explained with a smile.

Yang Chen couldn't help but be amazed. He'd never encountered such a thing as a Ghost Core in the ghost creatures of the Spirit Realm.

“Do all ghost creatures have this?” Yang Chen asked curiously.

“Of course not, only high-level ghost generals have it. Low-level and mid-level ghost generals don't. But the danger level of these other two types of ghost generals is not as high as the high-level ghosts. They want to accumulate achievements while not killing the ghost generals, which is difficult. But because of this Ghost Core, it avoids such situations.” Murong Hongye said.

Yang Chen nodded when he heard this.

That was a very convenient thing.

However, his doubts still remained, “This Ghost Core is quite convenient, but how does one identify who the ghost general being hunted is by using it?”

“This is not difficult, as the memory of the ghost general is sealed within the Ghost Core and won't disappear with the death of the ghost general. When it is submitted, those people only need to probe the memory of the Ghost Core to find out who the owner is. It will also represent your identity as a hunter of ghost generals.” Murong Hongye said.

Chapter 2622 Handing Over the Ghost Core\_1

Others looked on with envy.

"Brother Yang Chen, the Cloud-penetrating Ghost General you hunted is worth tens of thousands of merit points."

"Yes, this level of Ghost General is a high-level one with the status of a high-class ghost, and has over ten thousand Dao Intent Inscriptions. Once you turn in this level of Ghost Core, the merit points you get can make you rich overnight."

How could they not be envious?

They had saved up for so long, but even combined, they didn't have that many merit points.

Upon hearing this, Yang Chen smiled and sank into deep thought.

He hadn't thought of exchanging the Cloud-penetrating Ghost General for merit points initially because he had a task from the Sacred Domain's Young Master to complete using high-class ghosts.

But now that he thought about it, exchanging it for merit points was also a good choice.

Because Ghost Creatures can still be killed, and although high-class Ghost Creatures are rare, they can still be found eventually.

Exchanging a high-level Ghost General for merit points wouldn't be a loss.

As he thought this, the group moved quickly forward.

"Haoran Gate is just up ahead!" Murong Hongye explained.

Yang Chen nodded and looked over. His Lingxi Divine Pupil opened, and the first thing he saw was layers of white mist, within which was an imposing mountain.

The mountain was obviously controlled by the Haoran Gate forces. One could see many powerful people flying up and down the mountain, bustling back and forth.

"Just beyond Haoran Gate is the Unparalleled Camp."

These people's attitudes towards Yang Chen were nothing but enthusiastic.

Soon, after crossing the Haoran Gate, Yang Chen's sense of the Extreme Yin Land deepened, and he could even feel formidable Netherworld Qi.

As their connection with the Extreme Yin Land deepened, the group stopped.

"We've arrived at the Unparalleled Camp."

When Murong Hongye and the others returned to the camp, they finally breathed a sigh of relief.

Because of the Cloud-penetrating Ghost General, they had been somewhat uneasy on their way back. Who knew when another Ghost General might appear?

It was only because of Yang Chen that they hadn't showed it; otherwise, they would have been even more nervous.

"So this is the Unparalleled Camp." Yang Chen looked around.

There were many people, with the lowest being at the True God Realm. On top of that, there were many Enlightenment Stage experts, and relatively fewer Nirvana Stage experts.

As for the Great Ascension Stage, they were still the most high-end power, and there were few to be found.

Boundless Stage Experts were even rarer.

Murong Hongye and the others led the way to a huge tent in the camp.

Upon entering the tent, what appeared was not the space inside the tent, but another world- as if they were inside an elegant and enormous palace that could accommodate thousands of people.

This was similar to the Demon God Tower but obviously more sophisticated. It was not a rare and strange artifact in the Spirit Realm, let alone in the Southern Realm.

Inside, they could see teams of people reporting on their missions and situations.

Those responsible for reporting and organizing missions and intelligence were all at least at the Nirvana Stage and could easily maintain control of the situation.

Murong Hongye found a familiar steward and led the group forward.

"Steward Mu, we have returned from our mission." Murong Hongye said.

"You... you've lost so many people in your team?" This Steward Mu was a middle-aged woman with an ordinary appearance but an extraordinary aura. She was clearly familiar with Murong Hongye, and looked puzzled when she saw Murong Hongye's team.

Murong Hongye sighed softly, "That's also part of the information we need to report to you. During our patrol, we encountered the Cloud-penetrating Ghost General, and many people on our team were killed."

"What, you encountered the Cloud-penetrating Ghost General? Is this true or false? Although it may sound excessive, Hongye, if you really encountered the Cloud-penetrating Ghost General, could you have survived? It's a Ghost General with over ten thousand Dao Intent Inscriptions. Even a Nirvana Stage expert with the same Dao Intent Inscriptions might not necessarily have the upper hand." Steward Mu's face changed color.

Murong Hongye smiled, "Steward Mu, it's a long story. We met Holy Land disciple Brother Yang Chen on the way. He helped us deal with the Cloud-penetrating Ghost General, and we managed to escape death."

"What, you, you actually killed the Cloud-penetrating Ghost General? Is this unfamiliar person the Holy Land disciple Yang Chen you're talking about?" Steward Mu asked.

"It's him!" Murong Hongye answered.

Steward Mu glanced at Yang Chen, her expression not so good. Then her face turned serious and she said solemnly, "Murong Hongye, although our relationship is good, you cannot lie to me. If this Yang Chen were capable of defeating the Cloud-penetrating Ghost General, I would have certainly heard about him. There are only a handful of genius Nirvana Stage disciples in the Sacred Domain who could cooperate with you to kill the Cloud-penetrating Ghost General, and I know each of them. Where did this kid come from?"

Murong Hongye wanted to say that they didn't even need to cooperate.

They didn't even lift a finger.

But now she wasn't sure how to say it, so she could only say, "This is how it is; Brother Yang Chen plans to exchange the Ghost Core of the Cloud-penetrating Ghost General for merit points. Brother Yang Chen, please take it out for a look, and that should be enough proof."

Yang Chen didn't hesitate, knowing the matter was important, and took out the Ghost Core of the Cloud-penetrating Ghost General.

Seeing the Ghost Core, Elder Mu received it and felt the tremendous power it held.

This sensation made her hold on to it tightly, and a burning sensation rose in her heart, startling her.

"Let me see." Steward Mu, even now, was somewhat unwilling to believe.

Immediately, she locked her gaze on it and performed a small spell. Then, the memories in the Ghost Core were quickly and clearly probed by her.

With this one probe, Steward Mu's previous doubts vanished like smoke, leaving her staring wide-eyed and speechless.

"This is really the Ghost Core of the Cloud-penetrating Ghost General! You all really did it! No, no, now the surprise should not be how you killed the Cloud-penetrating Ghost General, but if a Ghost General like the Cloud-penetrating Ghost General is lurking in the rear. This means that there must be a way for the Extreme Yin Land to freely send the Ghost Generals to our rear. Otherwise, the Netherworld side would not be willing to sacrifice even a high-level Ghost General!"

Steward Mu became anxious in an instant. "The information you have obtained is very important. I'll report it to the higher-ups immediately. You'll receive your merit points later."

Upon hearing that there would be merit points as rewards, everyone was overjoyed.

Chapter 2623 Guangyuan Pavilion and Wind and Cloud Marketplace\_1

Steward Mu also acted quickly, casting a spell on a light sphere. In an instant, under his fingertips, a large amount of information was sealed inside the light sphere.

Immediately after, this light sphere was placed on a small magic circle. Steward Mu gave it a slight press, and the light sphere was teleported to another location.

When all of these tasks were completed, Steward Mu finally said, "All right, the news has been passed on to the higher-ups. Let's see what they have to say."

Everyone's heart was extremely anxious, fantasizing about how many merit points they could get.

Like this...

In less than the time it takes for a cup of tea, everyone engaged in some small talk.

During this time, Steward Mu was quite curious about Yang Chen and asked him many questions in an indirect way, trying to figure out his background.

However, Yang Chen didn't have much to say in detail. He said he was a disciple from the Holy Domain, which was already quite specific. As for other matters, he mixed thirty percent truth with seventy percent of perfunctory responses.

After a cup of tea, a light sphere was teleported back into the small teleportation array.

When the teleportation was completed, Steward Mu said gently, "The news has come back."

When the conversation ended, Steward Mu opened the light sphere and entered it with his soul to receive the message conveyed from above.

"The information you provided is very important. However, you are not the first to report this news. Still, the Cloud-penetrating Ghost General is indeed a high-level Ghost General and could help the higher-ups analyze some things. So, they decided to grant a total of ten thousand merit points. Among the six of you, how would you like to split it? Oh, right, there's also the Ghost Core of the Cloud-penetrating Ghost General. How would you like to divide that?" Steward Mu asked in surprise.

Murong Hongye and the others were overjoyed upon hearing about ten thousand points.

She gladly said, "These ten thousand points will be divided equally among us six people. As for the Ghost Core of the Cloud-penetrating Ghost General, Brother Yang Chen can have it all. Oh, by the way, how many merit points is this Ghost Core worth?"

Hearing Murong Hongye's allocation method, Steward Mu was surprised but didn't ask further questions about it.

She informed them without any omissions, "As a high-class Ghost, the Cloud-penetrating Ghost General's strength has reached over ten thousand Dao Intent Inscriptions, making its bounty very high. It's worth a total of sixty thousand merit points! But are you sure you want only this kid to take it all?"

The others couldn't help but feel envious and jealous when they heard about sixty thousand merit points.

They had been through so much hardship and near-death situations. Six people shared ten thousand merit points, which made them extremely happy. They felt that nothing was more gratifying.

After all, even if they only received a little more than one thousand merit points, that was still a lot.

But Yang Chen had just arrived on the battlefield and had instantly gained sixty thousand merit points. This was simply unbearable when comparing him to others.

However, they also clearly understood that Yang Chen was qualified to get these merit points.

He single-handedly dealt with the Cloud-penetrating Ghost General, and they were not able to help at all. Why would they be entitled to these merit points?

"This merit points should all go to Brother Yang Chen."

"Yes, we don't want it."

The others expressed their opinions one after another.

Joking aside, these merit points were nothing compared to winning Yang Chen's favor and keeping him in the team.

"All right." Steward Mu felt that Yang Chen was quite strange, but he didn't think too much about it.

Yang Chen did not know the concept of sixty thousand merit points.

However, through comparison, he could basically understand their value.

Six people dividing ten thousand merit points, while he gets sixty thousand points all by himself...

Yang Chen couldn't help but chuckle, "You five can split the ten thousand merit points. I just arrived, and I was fortunate to kill the Cloud-penetrating Ghost General. It's already quite excessive for me to take all the merit points from the Ghost General. It wouldn't be appropriate for me to take more."

Murong Hongye couldn't help but say, "Brother Yang Chen, that won't do. You were the main force behind killing the Cloud-penetrating Ghost General. Moreover, this merit is mostly because of the Ghost General's status. If you don't take it, wouldn't it be..."

"Haha, I joined the team after killing the Cloud-penetrating Ghost General. These merit points are mainly given for conveying information. Miss Hongye, don't be polite." Yang Chen bowed his hands and said.

Hearing this, Murong Hongye and the others could no longer be polite, their faces lighting up with joy as they looked at one another.

Ten thousand points shared among five people meant two thousand points each, which was certainly a happy occasion.

So, the merit points were distributed evenly.

With the help of these people, Yang Chen also got a merit token. Like in the Holy Domain, merit points were sealed in the token, which could be used for redemption at any time.

Soon, the group of people left the tent.

Murong Hongye chatted and laughed, "Now we are going back to our own tents. Brother Yang Chen, if you feel bored, feel free to wander around. Unparalleled Camp has a teleportation array that leads to the Wind and Cloud Market and Guangyuan Pavilion. With so many merit points you have now, you can basically go wherever you want."

"What are the Wind and Cloud Market and Guangyuan Pavilion?" Yang Chen asked with confusion.

"Guangyuan Pavilion is a place where all forces share their Dao techniques and treasures. Regardless of whether it's from the Holy Domain or other places, the top items are shared and available in Guangyuan Pavilion. Of course, you need enough merit points to exchange for them. This is also a way for various major forces to motivate their disciples to come." Murong Hongye said.

"What about the Wind and Cloud Market?" Yang Chen asked.

"Wind and Cloud Market is a private trading place set up by the members of these battlefields. Those who lack merit points will usually sell their treasures in the Wind and Cloud Market in exchange for merit points. Some people who have obtained items in the Extreme Yin Land, which cannot be exchanged for merit points at the headquarters, will also take them to the Wind and Cloud Market for exchange. The transactions in the marketplace are generally done using merit points." Murong Hongye explained.

That's why many people were envious.

Whether it was the Wind and Cloud Market or Guangyuan Pavilion, both places offered great opportunities.

However, the key was merit points.

Their merit points simply weren't enough to splurge on, but Yang Chen had enough.

Hearing about the Wind and Cloud Market and Guangyuan Pavilion, Yang Chen became interested. He considered visiting both places.

Murong Hongye also enthusiastically explained various things to Yang Chen, and many people could see the signs that she had a great fondness for Yang Chen.

From Murong Hongye, Yang Chen learned a lot of things.

But at this moment, the group suddenly stopped.

"What's going on?" Murong Hongye asked subconsciously.

One of the members said, "Duan Liuhe's team is coming."

"Duan Liuhe?" Looking forward, Murong Hongye's expression became difficult, her smile disappearing, and she clenched her teeth.

"Hehe, Murong Hongye, long time no see." The middle-aged man called Duan Liuhe led a group of people and stopped in front of Murong Hongye.

Chapter 2624 Pursuit?\_1

Duan Liuhe looked at Murong Hongye's smile, which clearly had ill intentions.

Murong Hongye's attitude towards Duan Liuhe was extremely cold, and she said in a low voice: "Duan Liuhe, we have important matters to deal with, please get out of the way."

"Hahaha, Murong Hongye, what important matters? I just saw you complete your task, how could you say you have important matters? You must be trying to brush me off." Duan Liuhe was domineering and unwilling to let go easily.

Murong Hongye's expression darkened: "Duan Liuhe, what exactly do you want to do?"

Duan Liuhe said gloomily: "Hongye, don't you understand my feelings for you yet? I have already expressed my love for you clearly, why are you still so cold towards me? Can't anything I do touch your heart?"

"Duan Liuhe, enough with your disgusting face. You think you can pursue my sister? You don't even have a chance!" Murong Wufeng scolded.

"Hahaha, Murong Wufeng, why do you have to be so cruel? Who knows, maybe I'll be your brother-in-law someday." Duan Liuhe licked his lips.

Murong Hongye's voice was cold: "Duan Liuhe, die with that thought. Based on your behavior, I will never fall for you in my entire life."

"If not for me, who would you fall for? Murong Hongye, don't be so shameless. Is there anyone better than me in your team?" Duan Liuhe said sternly.

Upon hearing this, Murong Hongye coldly replied: "Duan Liuhe, don't even mention it, there indeed is someone better than you in our team."

Before, she indeed wouldn't dare to say such things, but with Yang Chen's arrival, she dared to now.

Although Duan Liuhe is outstanding, what is he compared to Yang Chen?

Duan Liuhe, who was very keen, noticed Yang Chen as he had not seen him in the team before.

Now that he saw a new character emerging, he became furious: "Who is this guy!"

"He is the person I mentioned who is more outstanding than you. Duan Liuhe, compared to him, you're nothing." Murong Hongye said angrily.

"Hahahaha!"

Duan Liuhe burst into crazy laughter: "You found a new backer huh? Not bad, but unfortunately, Murong Hongye, you can't even guess who I invited. Brother Feixing, show yourself."

As Duan Liuhe finished speaking, a young man emerged from the rear.

As soon as his face appeared, everyone couldn't help but stare in awe and shock.

"Gu Feixing?"

"Duan Liuhe, you actually got Gu Feixing on your side, how did you do that?"

Gu Feixing yawned, acting lazily and indifferent to anything around him. He glanced at Murong Hongye and the others with disdain and said calmly, "Duan Liuhe, unless it's really necessary, don't ask me to show up. I didn't come here to help you save face."

Hearing this, Duan Liuhe immediately bowed to Gu Feixing, not daring to show any displeasure.

Although he was arrogant just now, compared to Gu Feixing, he was still a notch below.

Yang Chen watching the whole thing found it quite amusing.

This Gu Feixing clearly had an extraordinary status.

However, he was an outsider and did not know the nature of the conflict between Murong Hongye and Duan Liuhe, so it was not appropriate for him to comment.

Murong Hongye's expression did show a slight change upon seeing Gu Feixing.

Meanwhile, Duan Liuhe laughed heartily: "Murong Hongye, do you regret it? Although I don't know what kind of worthless backer you have, do you think a newcomer could bring any change to your team? Haha, I told you clearly before, be my woman, join my team, and I'll treat you well. But you refused. Now look, with Gu Feixing in my team, no task is impossible. Your hard-earned merit points are nothing to me."

Murong Hongye spoke in a low voice: "Duan Liuhe, if you think I will regret it, then you are too naïve. I will never join your team in my life."

"Murong Hongye, you are just being stubborn!" Duan Liuhe's veins popped in anger.

Murong Hongye showed no intention of engaging further and left around them.

Seeing this, how could Duan Liuhe keep pressing? After all, there were rules within the Unparalleled Camp.

However, he still did not give up: "Murong Hongye, just wait. We are both teams of the same kind. Now that I have Gu Feixing by my side, I will make you pay for going against me!"

Murong Hongye didn't even glance at Duan Liuhe.

"Bitch, I will make you regret crossing me one day!" Duan Liuhe roared in anger.

"Captain, I'm sure Murong Hongye must be regretting it deep inside. She's just not saying it explicitly."

"That's right, Captain. You managed to get Gu Feixing to join your team. Murong Hongye must be regretting not yielding to you and becoming your woman." Some people tried to flatter Duan Liuhe with laughter.

Duan Liuhe rubbed his eyebrows after hearing this: "Well, women are always insincere. But I will make her submit to me eventually! Humph!"

...

At the same time, as Yang Chen left with the team, he saw everyone's gloomy expressions and couldn't help but ask: "Who is this Duan Liuhe?"

Murong Wufeng sighed: "This man has been pursuing my sister for some time now. His character is really terrible. Before, my sister's attitude towards him was neither cold nor warm, but it was definitely not like this. However, I didn't expect this guy to join forces with my sister on a task and poison her elixir. He tried to force himself on her. If my sister hadn't discovered it in time, she would've really fallen into his trap. Since then, my sister saw through his intentions."

"But Duan Liuhe still doesn't give up. In fact, he's become even more unscrupulous and uncontrollable. How could my sister be such a materialistic woman who would become his woman? Impossible!" Murong Wufeng shouted.

Yang Chen could also see it.

At that time, to save her brother, Murong Hongye was willing to risk her life. How could she succumb to small gains?

"However, Duan Liuhe managed to get Gu Feixing to join his team. How could this be good? He will definitely try to cause us trouble."

As they spoke, the team's mood became depressed again.

"Who is Gu Feixing?" Yang Chen asked.

"Gu Feixing is one of the geniuses of the Qingfeng Sect. It's said that he's competing for the position of Young Master of the sect. He's been on the battlefield for a while now, and his Dao Intent has reached 11,000. His strength and status are unmatched. I didn't expect him to be interested in Duan Liuhe's team!"

"Yeah, this Gu Feixing is terrifying. He's killed countless Ghost Generals!"

Chapter 2625 Third Pavilion\_1

"Yes, the key is that he has the identity of the young master of the Qingfeng Sect, with an incredibly high status."

"What kind of sect is Qingfeng Sect?" Yang Chen asked in confusion.

"The Qingfeng Sect is the strongest sect in the Sacred District below Haoran Gate and Heaven's Separation Sect. To compete for the position of the young master in such a sect, one would basically be at the top within the Sacred District," said one of the team members.

To them, the Qingfeng Sect was already a top-tier existence because their sect was not even as strong as the Qingfeng Sect.

Some of these team members had lived for several hundred thousand years and were no longer young. While they were at the same Nirvana Stage, their statuses differed by tenfold or even a hundredfold due to the difference in age and Dao Intent Inscriptions.

If they knew Yang Chen's status in the Holy Domain, they would probably be even more surprised.

"Indeed, Duan Liuhe has invited Gu Feixing to join forces; what should we do?"

"Should we, Captain, apologize?"

"Yes, if we apologize to Duan Liuhe, maybe there will be a chance to resolve this situation," said another team member.

Hearing these team members say this, Murong Wufeng angrily said, "What are you thinking about? Let my sister apologize to Duan Liuhe? How is it possible? Do you even know what kind of person Duan Liuhe is?"

"But if Duan Liuhe and Gu Feixing team up, what should we do?" The other team members couldn't help but ask.

Murong Hongye sighed, "Asking me to apologize to Duan Liuhe is impossible. If you are really afraid of Duan Liuhe, then there's nothing I can do about it. We will just part ways."

Of course, they wouldn't leave; these team members already had deep connections with each other, and it was just a suggestion.

Seeing Murong Hongye angry, they all said, "Captain, we were just talking; don't take it to heart."

"Yes, Captain, we will always support you."

Murong Hongye also knew that deep down, these people supported her more than anyone else, so she said, "Let's take it one step at a time with Duan Liuhe; he can't just act recklessly on the battlefield."

The others finally let out a sigh of relief when they heard this.

Finally, after completing their task, they returned to their tents.

"We're home! Please, everyone, come in." Murong Hongye gestured.

Yang Chen followed the others into the tent, which was also a separate space. The interior was a paradise, with flowers and trees, a quiet and fragrant loft, and crystal-clear streams.

From the outside, the tent looked small, but upon entering, the interior surprised him with its rich spiritual energy, suitable for both cultivation and living.

"Brother Yang Chen, the environment within this tent is independent. As long as you wish, you can create another loft for you to live in. Take a look and choose which environment you would like to stay in," said Murong Hongye, her previous worries about Duan Liuhe vanishing as she looked at Yang Chen.

Yang Chen was perhaps the only thing that could cheer her up.

Yang Chen pointed at the forest in front of him, "The forest one there."

Murong Hongye controlled a spell, and a loft appeared out of thin air. This method may seem miraculous to others, but it was quite common in their eyes.

Although Yang Chen was amazed, he understood the principle of it; this tent should be a mass-produced treasure, similar to a Storage Bag. The difference was that the internal structure could be changed at any time, which was quite convenient.

Yang Chen temporarily settled down in this loft.

However, he didn't rest for long. Soon, he asked about the location of Guangyuan Pavilion and Wind and Cloud Market.

His curiosity about these two places in the Extreme Yin Land was quite piqued.

The team members were, of course, very polite to Yang Chen, knowing that he had a request for them.

Murong Hongye even offered to personally accompany Yang Chen to the Guangyuan Pavilion but was tactfully refused.

He could tell that Murong Hongye seemed to have a good impression of him, so he pretended not to know.

After asking the location of Guangyuan Pavilion and Wind and Cloud Market, Yang Chen headed to Guangyuan Pavilion first.

Following the directions, Yang Chen arrived in front of the Teleportation Array leading to Guangyuan Pavilion.

The Unparalleled Camp was just a small camp, while Guangyuan Pavilion was located in the most crucial part of the battlefield. Like Wind and Cloud Market, it gathered countless people from various camps.

To get there, naturally, the Teleportation Array had to be used.

There were many Teleportation Arrays, with someone in charge of managing them. Even for teleportation, there was a considerable fee to be paid: one hundred Merit Points.

Yang Chen didn't hesitate to pay the points and then went to Guangyuan Pavilion.

Upon arriving at Guangyuan Pavilion, Yang Chen was stunned by the sight before him.

A huge pavilion stood in front of him, with crowds of people coming and going, countless cultivators flying around. There were True God Realm cultivators, Great Ascension cultivators, and even quite a few Boundless Stage Experts.

In this crowd, Yang Chen seemed like an ordinary person without any sense of existence.

Yang Chen didn't mind this; after all, he came here not to find his existence but to explore.

He entered the pavilion, full of anticipation.

Within Guangyuan Pavilion, there were three large passages with signs indicating that 'Scripture Pavilion' inscriptions were related to Cultivation Methods and Dao Techniques.

Yang Chen muttered to himself, "Dao Techniques are fine, but how come there are cultivation methods in Guangyuan Pavilion? And even methods for cultivation at Nirvana Stage? What does this mean?"

In his opinion, Cultivation Methods should have been eliminated at this level, and Dao Techniques were supposed to be the essential things.

Without lingering on these thoughts, Yang Chen shifted his gaze to the other two pavilions.

The other two pavilions were Heavenly Treasure Pavilion and Earth Treasure Pavilion. Heavenly Treasure Pavilion stored various secret treasures and divine weapons.

As for Earth Treasure Pavilion, it was more comprehensive: Array Plates, Array Flags, materials, Pill Formulas, and Elixirs were all available. It was the most complete place, so many people were coming and going there.

Although Yang Chen was interested in Earth Treasure Pavilion, he was more curious about the Cultivation Methods in the Scripture Pavilion.

Yang Chen entered the Scripture Pavilion.

Before he could enter, someone stopped him.

"To enter, three hundred Merit Points are required," the elder said calmly, with deep, profound eyes.

Yang Chen glanced at the elder, who had reached the Boundless Stage, and couldn't help but be cautious.

"Junior understands." Yang Chen took out his token and handed it to the elder.

After the elder deducted Yang Chen's Merit Points, he let him into the Scripture Pavilion.

Upon entering, there were many people, and Yang Chen started browsing at ease, knowing that there wouldn't be any tasks in the short term.

Chapter 2626 Domain of Earth \_1

Yang Chen began wandering around Guangyuan Pavilion.

There were many Dao Techniques, all stored inside light spheres, and like in the Holy Domain, different Dao Intent of Dao Techniques had their own special markings, without too much clear distinction of levels. However, the required Merit Points for Dao Techniques were also different.

It could be said that the Dao Techniques in this Scripture Pavilion were comprehensive, even stronger than those in their Holy Domain.

"Separation Fire Mysterious Technique, 3,700 Merit Points."

"Water and Fire Breathing, 5,000 Merit Points."

"Eagle Strikes the Sky, 4,000 Merit Points."

Yang Chen showed a smile, but now he wasn't particularly interested in Dao Techniques, he was more interested in the comments he saw earlier outside!

"Mysterious Body Scripture, it can be cultivated to the Realmless." Yang Chen muttered to himself and began to check out a cultivation method.

Upon looking at it, Yang Chen felt that this cultivation method was not bad, but compared to the one he practiced, it was still lacking.

"This cultivation method doesn't seem to be very good, let's see how many Merit Points are required." Yang Chen murmured.

It was marked inside the light sphere, and when he looked at it, he understood completely.

Merit Points needed: 31,000!

"What!"

Yang Chen's pupils contracted, and the rarity of this cultivation method was higher than the few Dao Techniques he just glanced at before.

This meant that according to the Scripture Pavilion's judgment, the value of those Dao Techniques was far inferior to this cultivation method.

This made Yang Chen feel both amused and helpless.

However, in his eyes, this cultivation method was indeed very ordinary, not up to his standards and vision.

This also made Yang Chen frown, thinking it was an exception, so he looked for another cultivation method.

Upon looking, Yang Chen had the same thoughts.

"Empty Gate Sutra."

"It can be cultivated to the Great Stage, and is similarly quite ordinary."

Yang Chen glanced at it, feeling that it couldn't satisfy his vision.

However, the required Merit Points were 18,004!

This made the corner of Yang Chen's mouth twitch, and he became even more confused. He quickly moved around the Scripture Pavilion, looking at several more cultivation methods, but the results were all the same: ordinary effects and ridiculously high required points. In his eyes, they were not worth it.

This made Yang Chen fall into deep thought.

What was going on?

Was it because he couldn't see the value of these cultivation methods?

It was clearly not the case.

These cultivation methods were not worth these Merit Points? It was also unlikely, because people in the Scripture Pavilion were not idiots. If one was priced so high, it could be an error in marking, but all the cultivation methods were expensive, indicating that they were indeed quite important.

Yang Chen carefully considered his thoughts, and after a long time, he finally figured out something.

"Right, the cultivation of a cultivation method determines the realm that one can cultivate to in the future. Can those precious Dao Techniques achieve this?"

When Yang Chen suddenly realized, he took a deep breath: "Just say that by entering the Great Stage, the cultivation of divine power is inevitable. If the cultivation method is not good enough, and the cultivation of divine power is extremely slow, what is the use of having powerful Dao Techniques? In the Spirit Realm, cultivation methods that can be cultivated to the Nirvana Stage are extremely rare!"

The more Yang Chen thought about it, the more he felt this way.

At first, he did indeed overlook the importance of divine power, but later realized its importance and dared not think like that anymore.

"The reason why I don't think these cultivation methods are good enough should be related to the cultivation method I practice!"

Yang Chen recalled and suddenly realized that he seemed to have really forgotten something.

"Taiyuan True Scripture!"

Yang Chen's expression became serious.

What is Taiyuan True Scripture? It is the cultivation method created by Hua Qingfeng, which records his various achievements beyond the Realmless.

This cultivation method can even indicate the path to the Great Stage at its initial level, and as it is practiced further, it can surpass the Great Stage, reach the Realmless and even higher realms.

Hua Qingfeng's created cultivation method records Hua Qingfeng's path. How could it not be precious!

Now, the more Yang Chen thought about it, the more he felt that he had forgotten about Taiyuan True Scripture.

Earlier, he was too focused on Dao Intent Inscriptions, so the cultivation of 'Taiyuan True Scripture' was left behind. Such a divine cultivation method was unexpectedly thrown aside by him.

Now that he thought about it, the cultivation of Taiyuan True Scripture was extremely important. It recorded Hua Qingfeng's secret methods of cultivating to the stage beyond the Realmless.

The reason why he was able to cultivate to the Nirvana Stage so quickly was also somewhat inseparable from Taiyuan True Scripture.

But he put it aside, subconsciously thinking that Taiyuan True Scripture was not important.

Now that he compared it, it was not unimportant?

After looking through a set of cultivation methods, compared with Taiyuan True Scripture, they were all garbage. He had such a treasure-level cultivation method in his hands, and if he didn't cultivate it, he would almost be an idiot.

"When I was in the True God Realm, I only cultivated the Bright Cloud Immortal Scripture, a part of Taiyuan True Scripture, which allowed me to quickly increase my divine power and reach an extraordinary realm. Later, I reached the Enlightenment Stage, and it was just as smooth sailing. Entering the Nirvana Stage was almost inseparable from the Bright Cloud Immortal Scripture and Taiyuan True Scripture."

"And I just forgot about Taiyuan True Scripture."

Yang Chen felt both amused and annoyed.

At first, he was worried about how to replenish his divine power, but now, with Taiyuan True Scripture, wouldn't his divine power be replenished if he cultivated more?

"When I go back this time, I really need to make up for the cultivation of Taiyuan True Scripture..."

Yang Chen muttered a sentence, both bitter laughter and joy.

He was happy that he still had such a powerful cultivation method in his hands, and bitter laughter because he had forgotten about this cultivation method for so long.

"Let's take a look at the surrounding Dao Techniques first." Yang Chen started looking around.

The Dao Techniques in Guangyuan Pavilion were obviously much stronger than those in the Holy Domain, and the scope of Yang Chen's selection was also broader.

There were many Dao Techniques that met his criteria, but few that were absolutely satisfactory.

After looking around, Yang Chen had several alternative Dao Techniques, but there were not many Dao Techniques that he was particularly satisfied with.

As for points, the requirements were not high, and he could almost meet them.

However, the effect was very difficult to meet Yang Chen's absolute requirements.

Just like that, he searched for more than one hour.

In the end, Yang Chen saw a pretty good Dao Technique.

"Domain of Earth!"

This Dao Technique was a very interesting one.

What is the essence of Dao Techniques?

As soon as the domain is activated, slightly weaker enemies who enter the domain will be suppressed by the powerful Dao Intent Inscriptions and immediately find it hard to breathe, while more powerful ones will have their speed slowed and Dao Intent Inscriptions blocked.

It does sound powerful.

However, this Dao Technique was obviously not very popular.

Why?

Because it was easy to cultivate successfully, but achieving perfect results was too difficult.

This domain could only be controlled by those with higher-level Dao Intent and a large number of Dao Intent Inscriptions.

This was also the powerful aspect of this Dao Technique.

Although it was called the Domain of Earth.

However, as long as you have enough Dao Intent Inscriptions of other Dao Intents, you can also have an effect on the domain.

Chapter 2627: Essence of Evil Energy\_1

If a cultivator has neither high-ranking Dao Intent nor enough Dao Intent Inscriptions, then cultivating such Dao Techniques would be useless.

Because the Domain's effects cannot be exerted, the desired outcome will not be achieved.

Consequently, very few people showed interest in this Dao Technique.

However, he was different.

Aside from having the foundation of Earth Dao Intent, he also possessed enough high-ranking Dao Intent and Dao Intent Inscriptions as a support, which made him fully capable of learning this technique.

Moreover, he was quite satisfied with its effects.

Once the Domain was activated, the weak retreated!

Those who were not strong enough would be directly suppressed by him.

The effect was simply too good to be true.

With a surge of interest, Yang Chen glanced at the Merit Points required.

After looking at it, Yang Chen couldn't help but feel both amused and helpless.

"120,000 Merit Points?"

Yang Chen's scalp felt numb. How could it require so many? He had never seen such a high requirement for Merit Points in the previously encountered Dao Techniques.

Most of the techniques required tens of thousands of Merit Points, with 30,000 to 40,000 already considered a very high requirement.

However, after some thought, Yang Chen understood the reason.

He saw that this Dao Technique was good, not because he had good judgment, but because its actual effects were indeed impressive. The reason why no one bought it was not because of the requirements for Dao Intent or Dao Intent Inscriptions, but because of the high requirement for Merit Points.

After all, nobody would admit that their Dao Intent level and Inscriptions were inferior to others.'

"It seems I still need to accumulate more Merit Points," Yang Chen sighed helplessly.

Desiring the current juicy prey in front of him, he could only give up.

So he quickly made a full circle inside the Scripture Pavilion.

Here, he indeed found many unique and bizarre Dao Techniques. Even some rare Dao Techniques could be found. However, the Scripture Pavilion didn't have any Dao Techniques related to the Strongest Dao Intent.

Unlike the Holy Domain, where there were two, the Scripture Pavilion didn't have any.

This left Yang Chen in distress.

"I thought the Holy Domain had two of the Strongest Dao Intent Techniques, but the Scripture Pavilion doesn't have any? It seems that the highest-level techniques are not willingly shared by these sects, even if no one possesses the Strongest Dao Intent." Yang Chen sighed helplessly.

Deep down, he was worried that the Three Flowers Sect would also follow suit.

Nowadays, they could only take one step at a time.

Apart from this Domain of Earth, he wasn't particularly interested in other techniques.

Once he had finished looking around, Yang Chen left the Scripture Pavilion.

At present, he didn't have any thoughts about the other Heavenly Treasure Pavilion and Earth Treasure Pavilion, as he didn't lack Heavenly Materials and Earthly Treasures.

What he was more curious about was the Wind and Cloud Market!

Leaving the Guangyuan Pavilion, Yang Chen slightly expanded his soul and asked some people before finding the Wind and Cloud Market.

There were still kind-hearted people in the battlefield. Yang Chen only had to ask two people to get the location of the Wind and Cloud Market's Teleportation Array.

Since Guangyuan Pavilion had a specific transfer point to the Wind and Cloud Market, he found the location and spent some Merit Points to be teleported to the Wind and Cloud Market.

Yang Chen couldn't help but feel a bit helpless because he didn't buy anything yet had spent so many Merit Points.

After the spatial teleportation was over, Yang Chen found himself in an inn.

Spreading out his soul, Yang Chen walked out of the inn and discovered that the teleportation array to the Wind and Cloud Market was located in an inn at the heart of the market!

Now, stepping out of the inn, he was at the center of the entire market.

As Yang Chen looked around, he saw booths and items for sale everywhere, along with the sound of bargaining.

In addition, many private chambers of commerce were built within, creating a grand scene unlike anything he had seen before.

After all, with the involvement of Extreme Yin Land, all parties would do their best to promote these things, so that the strength of all cultivators could be raised by a level to cope with the Netherworld Ghosts from the Extreme Yin Land.

Yang Chen's interest was piqued, and he took his time wandering around the vast Wind and Cloud Market.

Admittedly, there were many strange and bizarre things in the Wind and Cloud Market.

Pill Formulas and King Divine Tools could be found everywhere.

However, Yang Chen's requirements for King Divine Tools and Pill Formulas had become more discerning than before, especially for Pill Formulas. He would have to learn them well, and they would need to be useful to him. Learning formulas that were of little use to him wouldn't make sense, especially when he had control over several Pill Formulas he could sell.

Additionally, he was quite curious about some other peculiar items, but he eventually held back.

Finally, one item caught Yang Chen's curiosity.

What was it?

A very refined cluster of Demonic Qi, not large, mixed with the Ghost Qi of the Netherworld, which looked terrifying and seemed as if it could kill people.

"I've never seen such refined Demonic Qi before. If I refine it, I wonder how many Eyes of Evil Qi I can create." Yang Chen mumbled to himself, becoming more interested.

After all, the Demonic Qi Technique had become more and more effective since arriving in the Southern Realm, and Yang Chen attached great importance to it.

Moreover, the key was that this Demonic Qi technique was quite uncommon—as he wasn't able to find any techniques for it in either the Holy Domain or the Guangyuan Pavilion.

It seemed that techniques related to Demonic Qi were restricted, which made sense, as very few people could control Demonic Qi.

Yang Chen carefully observed it.

The person selling the refined Demonic Qi was a white-bearded elder, who wore a disappointed expression, sat in a chair with a severed arm, and had a hideous, Ghost Qi-emitting wound on his severed limb.

As the Ghost Qi surrounded the white-bearded elder, he didn't have a pleasant expression. When he saw Yang Chen lingering nearby, he said in a deep voice, "What do you want to buy?"

"How much for this refined Demonic Qi?" asked Yang Chen.

"80,000 Merit Points!" replied the white-bearded elder in a low tone.

Yang Chen's expression tightened, "How is that possible? Why would it require so many Merit Points? This refined Demonic Qi is indeed extremely pure, but it's not worth that much."

The white-bearded elder sneered, "In order to obtain this cluster of Demonic Qi, I ventured deep into the heart of Extreme Yin Land, close to the River of Extreme Yin, and only then was I able to extract this Demonic Qi. I lost more than a dozen brothers in the process. Eighty thousand Merit Points is a bargain for you. This refined Demonic Qi, if controlled properly, can instantly drive a Realmless expert insane. If you don't want it, you can leave!"

Upon hearing this, Yang Chen's mouth twitched. The white-bearded elder was a Mahayana stage expert, and there wasn't much Yang Chen could say.

On the battlefield, Mahayana stage experts were not as rare as Nirvana stage experts, but they were still uncommon.

Moreover, since the items belonged to other people, Yang Chen also found it quite troublesome.

He didn't have enough Merit Points.

However, he was genuinely captivated by this refined Demonic Qi.

After a moment of careful thought, Yang Chen suddenly noticed the white-bearded elder's severed arm and asked, "Is this severed arm also a result of trying to obtain this Demonic Qi and being unable to restore it?"

For a Mahayana stage expert, restoring a severed arm was extremely easy.

But the elder's severed arm was entangled in Ghost Qi, making it difficult to fully recover.

Chapter 2628 River of Extreme Yin\_1

Upon hearing Yang Chen's question about his arm, the white-bearded old man was undoubtedly upset by the sore point and couldn't help but get angry: "Kid, if you can't afford it and waste my time, that's fine, but now, are you provoking me again?"

Yang Chen could understand the old man's pain as he watched his reaction.

After all, a Mahayana Stage Expert losing an arm was an extremely humiliating thing.

Yang Chen said with a faint smile, "Senior, you misunderstand. I meant to say that I indeed don't have enough merit points to afford this Essence of Evil Energy at the moment. However, I have an elixir here that can heal your arm, and I hope that you can give me a slight discount on this Essence of Evil Energy in return. What do you think, senior?"

As soon as Yang Chen finished speaking, the white-bearded old man hesitated for a moment and then said solemnly, "Kid, are you serious? Do you have a way to heal my arm? Do you know how severe the ghost qi in my arm is?"

Yang Chen said with a calm smile, "I understand that it is not easy to dissolve the ghost qi surrounding senior's arm. A hasty attempt to do so could allow the ghost qi to penetrate deeper into the body and make the situation worse. I am aware of this."

The white-bearded old man couldn't help but see Yang Chen in a new light, as Yang Chen had indeed hit the nail on the head.

"So tell me, what method will you use to dissolve this ghost qi for me?" The white-bearded old man asked half skeptically and half believingly.

Yang Chen was confident.

To others, this problem might be difficult to solve, but for him, it was incredibly easy.

At the time when the white-bearded old man lost his arm, the ghost qi had already penetrated into the flesh and was difficult to deal with.

If not handled well, the ghost qi could become rampant.

Moreover, those who could sever the white-bearded old man's arm must have been Mahayana Stage Experts, so suppressing the ghost qi would also be difficult unless a Boundless Stage Expert stepped in.

However, not to mention whether the white-bearded old man could invite a Boundaryless Level powerhouse, even if he could, there would be no way to help him deal with this trouble.

But it was different for Dan Medical practitioners.

Dan Medical practitioners existed specifically to solve such difficult cases.

Before, Yang Chen had refined several elixirs to specifically deal with ghost qi in case of emergencies. He just hadn't had a chance to use them yet.

Now that this elder needed it, Yang Chen naturally wouldn't be stingy and took out the elixir.

"Senior, after taking this elixir, the ghost qi on your arm will naturally be dissolved," Yang Chen said gently.

The old man stared, "What kind of elixir is this? It's not the Tan Yu Dan, yet it can dissolve ghost qi?"

Yang Chen knew without thinking that the old man probably dreamed of acquiring the Tan Yu Dan, and its storage must also have been extremely precious; otherwise, the old man wouldn't have been here selling this essence of evil energy.

Seeing the white-bearded old man's doubtful look, Yang Chen smiled lightly, "Senior, this is indeed not the Tan Yu Dan, but an elixir I refined before to specifically deal with ghost qi. It certainly has the ability to dissolve ghost qi. If you don't believe it, try it yourself."

The white-bearded old man subconsciously felt that Yang Chen was overly confident.

After all, could Mahayana Stage ghost qi be the same as ordinary ghost qi?

However, his desire for recovery still prevailed, and the white-bearded old man took the elixir and swallowed it to see its actual effect.

As soon as he took it, the white-bearded old man's eyes widened in surprise.

The effect of the medicine spread in an instant, and then an astonishing scene occurred as the ghost qi on his right arm gradually disappeared at a visible rate, devoured clean by the elixir's power.

This made him hardly believe what he saw, as if he had made a mistake.

The white-bearded old man stared dumbfounded, "What kind of elixir is this? How did you do this?"

Yang Chen smiled, "This is an elixir that I specifically refined to deal with ghost qi. Although it's not Tan Yu Dan, it can solve my current problems without any issue."

Now filled with joy, the white-bearded old man couldn't wait to regrow his arm.

He had evidently practiced some unique body forging techniques that allowed him to regenerate from injuries.

For someone as powerful as him, this was not an unusual feat.

Now that his arm had fully recovered, the white-bearded old man's eyes were filled with tears of gratitude. He sold the essence of evil energy at such a high price not because it was truly valuable.

The essence of evil energy was indeed valuable, but there were very few who could control it. So who would buy it?

He sold so much of it only to accumulate merit points to buy Tan Yu Dan. The only thing he could offer at this point was the Essence of Evil Energy, obtained at the risk of his own life.

Unexpectedly, he didn't sell the essence of evil energy but instead, someone else solved the problem for him.

This made him extremely delighted, and the look in his eyes when he saw Yang Chen was full of gratitude.

Yang Chen gently said, "Senior, can you give me a discount on this essence of evil energy now?"

The white-bearded old man had a temper earlier, but now he clearly understood the situation and immediately replied, "Take this evil energy, my young friend. I'm sorry if I offended you earlier because of my recent setbacks. I hope you can forgive me."

"Senior, I understand," Yang Chen replied respectfully.

The white-bearded old man didn't hesitate to hand over the pure evil energy to Yang Chen.

Upon receiving the evil energy, Yang Chen was also overjoyed.

"Thank you, senior," Yang Chen said.

"You don't have to thank me. Young friend, may I ask your name and make a new friend? Today, you've helped me solve my most pressing issue, and I am truly grateful in my heart," the white-bearded old man said.

"Yang Chen," Yang Chen replied without hiding anything.

Upon hearing this, the white-bearded old man also hurriedly gave his name, "This old man is Qian Yunsheng."

Judging from the elder's personality, Yang Chen could tell that he was a genuine person, so he asked, "Senior Qian, if I may be so bold to ask, where exactly did you get this Essence of Evil Energy in this Extreme Yin Land?"

"I got it in the River of Extreme Yin. The depths of the River of Extreme Yin are filled with the evil qi of many ghost creatures. However, Yang Chen, my friend, I don't know why you're looking for this evil energy, but I suggest you forget about going to the River of Extreme Yin. I paid a hefty price for venturing there to obtain this evil energy, lost many old friends on the journey, and ended up in the state I was in just now, as you saw," Qian Yunsheng sighed.

Yang Chen nodded and said, "I understand, senior."

However, in his heart, he was still very interested in the River of Extreme Yin.

Chapter 2629 The Ice and Fire Sky Phoenix Reappears\_1

No matter how dangerous it was, it could not compare to the danger of crossing the Extreme Yin Land. He had to take a look at the River of Extreme Yin.

Of course, Yang Chen certainly wouldn't say that out loud. He casually chatted with Qian Yunsheng for a bit before getting up and leaving.

Coming to the Wind and Cloud Market, he only paid one Elixir and got the Essence of Evil Qi. It was definitely worth it for Yang Chen.

Qian Yunsheng thought that his Elixir must be extremely valuable since it could solve the Ghost Qi problem. It was probably worth as much as the Essence of Evil Qi was. That was why he immediately handed over the Essence of Evil Qi to Yang Chen.

In his eyes, he was only making a profit without losing anything. He thought that being able to sell the Essence of Evil Qi and get the Tan Yu Dan in exchange would be good enough.

But he didn't know that for Yang Chen, that Elixir was incredibly ordinary.

It was simply an ordinary God-Level Elixir that couldn't even be considered an Immortal Grade. It could be easily bought on the market with some Divine Stones. To exchange it for the Essence of Evil Qi was an absolute bargain.

Having gotten the Essence of Evil Qi, Yang Chen's plan was to bring it back and refine it to perfect the Ten Transformation Godhood.

Previously, Yang Chen had no clue how to complete the Ten Transformation Godhood, but this ball of Essence of Evil Qi was just too pure. Using it to refine the Eye of Evil Qi would definitely produce a hundred times better results.

Yang Chen couldn't wait, so he didn't waste any time browsing around the Wind and Cloud Market. He went straight back to his residence.

When he returned, Murong Hongye and the others came out to greet him, giving Yang Chen enough face.

After exchanging pleasantries, Yang Chen began refining the Eye of Evil Qi.

Yang Chen was very nervous in his heart, not knowing if the Essence of Evil Qi could really meet his expectations and refine so many Eyes of Evil Qi!

And so, Yang Chen entered a fully focused refining state.

He began refining.

One, two, ten, a hundred, a large number of Eyes of Evil Qi were quickly born. They were transformed into Evil Qi inside Yang Chen's body before becoming Eyes of Evil Qi once more.

In the blink of an eye, he had refined over a hundred of them, making Yang Chen ecstatic.

This gave him hope and made him even more focused on refining. The further he refined, the more Yang Chen felt that he could break through to the Ten Transformation Godhood in one fell swoop.

The requirement for Ten Transformation Godhood was 1,800 Eyes of Evil Qi.

And now, he had already refined more than a thousand.

Moreover, there was still a large amount of Essence of Evil Qi left for him to continue refining.

Yang Chen estimated that reaching the condition of 1,800 should not be difficult.

His guess was quite accurate.

1,100, 1,300, 1,500, 1,800, finally complete.

However, refining 1,800 Eyes of Evil Qi was not the end. Using the Essence of Evil Qi, the number of Eyes of Evil Qi continued to increase, reaching more than 2,000.

Eventually, when it reached 2,200, and then 2,500, the refining of the Eyes of Evil Qi finally came to a halt.

At this moment, Yang Chen felt the endless Evil Qi inside him, completely surpassing his previous Nine Turns Berserk state.

"With so many Eyes of Evil Qi, I feel like I can control even the Powerful Ones at the Great Stage as long as the Evil Qi bursts out in an instant!" Yang Chen built up this kind of confidence.

This was not blind confidence; he had that feeling.

Yang Chen tried it out a bit. "Ten Revolutions Divine Transformation, open!"

Feeling the so-called divine transformation state.

As soon as he unfolded the divine transformation, Yang Chen immediately sensed the difference.

The divine transformation was far more insane and irritable than the berserk state. He felt that his speed, strength, every inch of his skin, and every controllable force had evolved and been sublimated.

His appearance underwent a huge change as well. When the Black Demon God Wings spread out, they became much larger than before, reaching a length of ten zhang.

Evil qi filled the entire room in an instant, and Yang Chen's eyes were also glowing with a strange red light, his aura fluctuating around him.

In this state, Yang Chen felt invincible.

This feeling was not an illusion. His nearly twenty thousand Dao Intent Inscriptions were one factor, and the evil qi was equally powerful.

Just as he harbored this thought, suddenly, Yang Chen sensed something emerging within his Body.

This startled Yang Chen.

"Who!" Yang Chen was shocked.

"What do you mean who? It's this palace." A woman's voice sounded in Yang Chen's head, causing his heart to shake and leaving him dumbfounded.

Yang Chen looked up and down with widening eyes, feeling that the voice was extremely familiar, but he couldn't remember who she was for a moment.

This annoyed him for a while, until suddenly a memory surfaced in his head: "You're the Ice and Fire Sky Phoenix from the Dragon Soul Palace!"

Now that he looked inside, he found that there was indeed a beast soul of the Ice and Fire Sky Phoenix in his Eye of Evil Qi.

The Ice and Fire Sky Phoenix flapped its wings and said proudly, "Of course, who else do you think it would be?"

"Where have you been all this time?" Yang Chen was dumbfounded.

He had previously made a contract with the Ice and Fire Sky Phoenix in the Dragon Soul Palace, making it his companion beast soul. But after signing the contract, the Ice and Fire Sky Phoenix hid itself within his body to prevent being discovered by the members of the Dragon Clan.

Its hiding was indeed deceitful, evading the Dragon Clan, but what left Yang Chen helpless was that he could no longer locate the Ice and Fire Sky Phoenix's position and existence.

He even once thought that he had been deceived by the Ice and Fire Sky Phoenix.

When he arrived in the Southern Realm and still couldn't find the Ice and Fire Sky Phoenix via various methods, Yang Chen could only believe that he had been deceived by it.

After all, if he really couldn't find the Ice and Fire Sky Phoenix, the only explanation was that he had been deceived by it.

But who could have expected that the Ice and Fire Sky Phoenix would appear unexpectedly in such a twist of events?

"You think I didn't want to come out? Isn't it because you only refined the evil qi to this level now? Otherwise, why would this palace not come out?" The Ice and Fire Sky Phoenix instead blamed Yang Chen.

Yang Chen widened his eyes, confused, "What does this have to do with my cultivation of evil qi?"

"Hmph, what do you know? Those Dragon Clan people are clever, this palace would have been discovered long ago if I didn't hide carefully. So when I saw that you were cultivating evil qi well, I hid inside your evil qi cultivation. But I didn't expect that you haven't fully perfected this technique, so I couldn't come out and could only wait for your evil Qi to be fully cultivated before making a breakthrough." The Ice and Fire Sky Phoenix said irritably.

Upon hearing this, Yang Chen felt strange.

The Ice and Fire Sky Phoenix was actually able to hide inside his Ten Revolutions Divine Transformation Technique?

It could be understood that it hid in the core position of the Eye of Evil Qi's cultivation.

But how did it get in there?

## Chapter 2630: Crossing Method\_1

After giving it some thought, Yang Chen still couldn't figure out the reason.

He could only attribute it to the vast divine power of the Ice and Fire Sky Phoenix, which had exceeded the Realmless in its lifetime and had its own special methods.

Yang Chen didn't plan to ask too many questions, after all, the appearance of the Ice and Fire Sky Phoenix was a good thing for him. The accompanying soul beast could still give him some special powers.

"Alright, I'm quite exhausted after separating from your Cultivation Methods. I need to rest for a while, so don't disturb me," said the Ice and Fire Sky Phoenix, just after awaking. It then fell back to sleep with an arrogant and pampered attitude.

Yang Chen couldn't help but feel a mix of laughter and tears at this sight, but with no intention of disturbing the Ice and Fire Sky Phoenix, he let it rest.

After completing his Ten Transformation Godhood cultivation, Yang Chen left the room and found Murong Hongye.

Murong Hongye was instructing her younger brother, Murong Wufeng, in his cultivation. Upon seeing Yang Chen arriving, the siblings both stood up and greeted him.

"Brother Yang Chen."

"Brother Yang Chen, you're here."

Murong Hongye looked at Yang Chen with rosy cheeks, having a good impression of him but not knowing how to express it.

Yang Chen could tell that Murong Hongye had a good impression of him, but he just didn't say anything.

He came to Murong Hongye now for a reason.

Now that he had arrived, he went straight to the point and asked curiously, “Miss Murong, Brother Wufeng, I have something to inquire about today.”

“Brother Yang Chen, please don’t be polite. If you have any questions, just ask,” Murong Hongye replied softly.

After giving a salute, Yang Chen got to the point: “I wanted to ask if there is an easy way to cross the Extreme Yin Land and reach the northern region?”

Murong Hongye didn’t know why Yang Chen would ask this question, but she still answered without any omissions: “Young Master Qin, why do you ask this? Crossing the Extreme Yin Land is quite difficult.”

Upon hearing this, Yang Chen smiled bitterly. He knew it wouldn’t be easy.

He had come to ask about this matter today because he had planned it beforehand.

After all, his journey to the northern region and crossing the Extreme Yin Land was inevitable.

That’s why he had come to ask.

Now that they’ve said this, Yang Chen’s expression turned serious, and he asked: “The thing is, I have some important matters to attend to in the northern region – meeting a friend and dealing with other significant issues. Do you know of any previous examples of crossing the Extreme Yin Land?”

Seeing that Yang Chen was determined to go to the northern region, Murong Hongye felt somewhat disappointed.

But in her heart, she still didn’t want to conceal anything from Yang Chen. “Brother Yang Chen, if you really want to cross the Extreme Yin Land, you must definitely take some risks. Moreover, if you want to

cross the Extreme Yin Land alone, the difficulty would be too high. You must report this to the higher-ups first.”

“Why?” asked Yang Chen, confused.

Murong Wufeng interjected: “That’s because since ancient times, there has only been one way to cross the Extreme Yin Land. That is, our southern region’s various alliances cooperate in advance, using the power of the Great Dharma Gate, and contact the various forces alliances in the northern region. The people from the northern region have to send numerous strong people to guide the person in order for them to have a chance to cross the Extreme Yin Land.”

“However, if you want the higher-ups to help with this, you must have a good reason. Generally, they only arrange important tasks that require people to go to the northern region, at great cost, before they will dispatch people to go. Otherwise, it is basically impossible to get the higher-ups to arrange for assistance. But without anyone to arrange for assistance, Brother Yang Chen, it will be very difficult for you to cross the Extreme Yin Land.”

Upon hearing this, Yang Chen got a clue.

Indeed, if it were that easy, the north and south regions wouldn’t have been separated by such an Extreme Yin Land for all these years and even lost contact, completely forming two separate worlds.

But crossing the Extreme Yin Land was a must for him; he wouldn’t give up on it so easily.

“So, if there is no major matter, there’s no way to get the higher-ups’ help?” asked Yang Chen.

“Theoretically, there isn’t. But if you must ask, if your merit points are high enough to get their attention, they should probably accept even some excessive requests,” said Murong Hongye.

Upon hearing this, Yang Chen’s heart longed for merit points.

Merit points...

“How many merit points are needed to get enough attention from the higher-ups?” asked Yang Chen.

“As long as you’re on the War Merit List, it shouldn’t be difficult. The current War God List has top 100 positions, with Boundless Stage Experts not listed, Mahayana Stage Experts occupying the top 70 positions, and the last 30 positions having a chance for Nirvana Stage. The lowest merit points required to be on the list are 300,000. As long as you can be among the top 70, you should probably get the attention of the higher-ups,” explained Murong Hongye hesitantly.

The word ‘probably’ showed little confidence, making it easy for Yang Chen to judge that this 300,000 was most likely just the minimum requirement.

Getting the attention of the higher-ups was not a simple matter.

“Brother Yang Chen, are you worried about getting merit points?” asked Murong Hongye.

“Yes, is there any way to get merit points faster?” inquired Yang Chen.

Murong Hongye didn’t expect Yang Chen to be so impatient. She gently laughed and said, “Brother Yang Chen, don’t worry. Acquiring merit points shouldn’t be rushed. Although there are many methods, going solo is the most taboo. We have completed our last task some time ago, and in a few more days of rest, new tasks should arrive soon. When that time comes, we can depart together, and there should still be a great chance of earning merit points.”

“Alright, that makes sense,” Yang Chen agreed on the spot.

Just as Murong Hongye said, it took only seven days for the first task assigned to Yang Chen since his arrival.

Because their team was a patrol team, their assigned tasks were related to patrols.

And for this task, it was somewhat related to their last mission because many Netherworld ghosts from the Extreme Yin Land might have come to their rear through special means. Their team’s task was to

conduct a large-scale sweep, find any possible Netherworld ghosts lurking in the rear, and then kill them.

When this task was assigned, many team members were nervous, as they had encountered the Cloud-Penetrating Ghost General during their last mission, which had nearly led to their deaths.

Now that they had the same task again, who knew what would happen.

Nevertheless, they had no choice but to brace themselves and proceed. The only solace was that they would be with Yang Chen, remembering his strength would give them at least some sense of security.

Yang Chen focused solely on gaining merit points. He quickly departed with the team and left the Unparalleled Camp. Upon leaving, he scattered his soul, observing his surroundings and staying alert.
