Chapter 2631: Scouting Ghost General_1

It has to be said that the intrusion of Netherworld ghosts into the rear is almost a fait accompli by now.

Previously, they encountered the Cloud-penetrating Ghost General as one example, and not long after they began their search, they came across a straggler ghost creature.

Fortunately, this ghost creature wasn't powerful, and was only a Ghost General with roughly two thousand Dao Intent Inscriptions.

Upon facing it, a group of people immediately surrounded the Ghost General.

"Hahaha, Sister, we're quite lucky this time. We ran into a Ghost General with only two thousand Dao Intent Inscriptions right off the bat," Murong Wufeng said.

"Only two thousand, I alone could take care of it," another team member laughed.

This Ghost General, however, didn't seem scared at all. Now surrounded, it fiercely said: "You will all die!"

Murong Hongye spoke coldly: "Still daring to be stubborn as you face death, who is going to kill it? It's still worth a thousand Merit Points!"

This Ghost General was a middle-ranking one with two thousand Dao Intent Inscriptions, and its value wasn't high; it was worth only a thousand Merit Points.

It didn't mean much to Yang Chen, but for these people, even if they had to share a thousand Merit Points, a few hundred Merit Points each would still be quite a considerable amount.

Action was taken immediately. One person stepped out and began fighting the Ghost General.

In their group, even the weakest one had around four to five thousand Dao Intent Inscriptions; fighting against this Ghost General naturally put them at an advantage, and they quickly suppressed it.

These people, however, didn't count on Yang Chen as their trump card. They never thought of letting him deal with minor opponents.

But Yang Chen wasn't idle either. He spread out his soul and observed the surroundings, as he had a huge doubt in his mind.

What was the doubt?

The presence of this Ghost General here was strange.

It was understandable for the Cloud-penetrating Ghost General to act alone, since he had overwhelming strength, over ten thousand Dao Intent Inscriptions, and the status of a High-Level Ghost General, which made him fearless of being besieged by others.

However, what was so special about this Ghost General with only two thousand Dao Intent Inscriptions that he dared to act alone?

Even if acting alone wasn't an issue, but the more arrogant thing was that this Ghost General dared to say they were going to die.

Yang Chen subconsciously thought that there were other Ghost Generals lurking around. However, when he spread out his divine soul, he found nothing.

He didn't think someone could have a stronger divine soul than him...

For a moment, Yang Chen's thoughts were countless, and he couldn't figure it out.

Meanwhile, the teammate who had attacked had successfully suppressed the Ghost General and was on the verge of killing it.

The Ghost General, however, showed no fear whatsoever. Just as it was about to be defeated, it suddenly let out a cackling laugh.

Following that, it viciously spat out a ball of black Ghost Qi from its mouth.

This Ghost Qi seemed to contain life and was about to escape, rushing towards the distance in an instant.

“Not good, quickly stop that Ghost Qi!” Murong Hongye suddenly shouted.

Without paying any attention, the others didn’t bother to react.

However, Yang Chen had been cautious all along. As he saw the Ghost Qi escaping, he didn’t make a move.

The Ghost Qi was instantly frozen in the air.

“How is that possible!” The Ghost General wasn’t afraid to die, but what he was afraid of was that the news wouldn’t be passed on.

How could these people intercept his technique?

“Die for me already.” Seeing that the Ghost General had ill intentions, a few team members joined forces to kill it.

At this time, Yang Chen also stretched out his hand and used his Space-Time Dao Intent to send the Ghost Qi directly into his own hands.

Upon seeing this, everyone breathed a sigh of relief.

“Thank you, Yang Chen. If it weren’t for you, this Ghost General might have actually sent the news out,” Murong Hongye said, feeling relieved.

Yang Chen looked at the ball of Ghost Qi, surprised: “What is this? It looks like just an ordinary ball of Ghost Qi.”

“It’s not ordinary. We were too careless just now. This is a Scouting Ghost General, responsible for reconnaissance and patrol. This kind of Ghost General is born with divine abilities, able to turn their life essence into Ghost Qi and escape, sending messages to other Netherworld ghosts,” Murong Hongye explained.

“That is to say, the messages they wanted to send were recorded in this Ghost Qi? What kind of information did they want to send? The few of us shouldn’t count as much information, right?” Yang Chen pondered.

The others looked at each other, equally puzzled.

“Speaking of which, it’s true. We few are not considered to have heavy information,” Murong Hongye said.

Yang Chen suddenly was taken aback.

“Wait, if we say that there are other Ghost Creatures nearby who are planning something major, and the purpose of this Scouting Ghost General is to guard the surroundings to prevent others from intruding. Then, us coming here might have been significant enough to warrant its life risk to report the news,” Yang Chen said.

Upon hearing this, everyone seemed to understand.

“Brother Yang Chen is right; are there other Ghost Creatures around?”

“It is not impossible. Netherworld Ghosts are cunning and treacherous. Let’s search quickly, but be more careful this time and not expose our Qi,” Murong Hongye, as the captain, spoke with confidence and experience.

Everyone took a deep breath, dared not underestimate the situation, and got ready!

As they carefully continued searching, they found...

It wasn’t long before they stopped and concealed their Qi.

Because in the valley ahead, they saw more than a dozen Ghost Generals planning something.

“Our strength as Ghost Generals isn’t particularly strong. If we want to achieve something big, we have to take risks. According to this plan, we can slaughter a vast number of Southern Realm people. Hehe, by that time, causing damage to the Southern Realm would be an inevitable consequence!”

“Brother He’s strategy is good.”

“I think it’s worth a try.”

The dozen or so Ghost Generals showed their ferocious fangs, eagerly discussing and occasionally cackling sinisterly, revealing their inner joy.

Upon arriving here, Yang Chen and the others couldn’t help but take a deep breath as they saw so many Ghost Creatures.

Moreover, judging by their Qi, these Ghost Creatures were not weak. Among them, several had already reached eight or nine thousand Dao Intent Inscriptions.

No Ghost Generals were as powerful as the Cloud-penetrating Ghost General, but their strength completely surpassed this small team.

“Be careful not to make any noise,” Murong Hongye whispered.

“Alright, let’s stick to this plan,” He Guijiang grinned.

“No problem, but first, let’s take care of these eavesdroppers,” one of them said.

The dozen or so Ghost Generals chuckled, and immediately, Ghost Qi surged, suddenly attacking in Yang Chen’s direction.

Yang Chen and the others quickly dodged.

“Not good, we’ve been discovered,” Murong Hongye was alarmed, sensing the severity of the situation.

“You humans, eavesdropping on our conversations. This small team doesn’t look particularly strong, so just leave your lives here,” the Ghost General at the forefront said confidently.

Chapter 2632 Adding Insult to Injury_1

Murong Hongye and the others were all in a panic, as they had just been on edge, afraid of being discovered.

Who would dare to make any rash moves with this group of ghost generals?

Unexpectedly, these ghost generals had actually found them.

As these ghost generals were about to take action against them, Murong Hongye tensely prepared and said, "Everyone, be careful!"

As soon as the words fell, the ghost generals ignored any reason and directly charged at the group.

Murong Hongye’s face changed, and just when she was about to counterattack, another team appeared out of nowhere.

When this team appeared, their aura spread out and the relentless ghost generals hesitated, not daring to act rashly.

"I didn't expect you to have backup." He Guijiang burst into anger.

Murong Hongye was also quite surprised by the arrival of the backup, as she had no idea there was any support from her family.

Now seeing these newcomers, Murong Hongye's expression did not improve, but rather became even more unpleasant.

Because the ones who had arrived were none other than Duan Liuhe and Gu Feixing, whom she least wanted to see.

Duan Liuhe's arrival now certainly wouldn't be to help. It was obviously an attempt to kick them while they were down.

As she thought, Duan Liuhe stood there with his hands behind his back, chuckling as if he had been waiting for this moment for a long time.

"Brothers of the Netherworld, don't be anxious. I'm not necessarily here to interfere." Duan Liuhe said with a light smile.

He Guijiang and the other Netherworld Ghost Creatures hesitated, wondering what Duan Liuhe meant.

Duan Liuhe looked at Murong Hongye and said while holding his hands behind his back, "Murong Hongye, you have two choices before you now: one, submit to me and become my woman, and your entire team will be spared. I can protect you with my strength, and dealing with these ghost generals shouldn't be a problem with Gu Feixing here. Two, death."

At this, Duan Liuhe burst into laughter.

How long had he waited for this moment?

Now, he wanted to see what Murong Hongye could use to fight him, to play with him!

He wanted to see how this woman would still not submit to him and become his woman!

"You better think it through. Don't let your teammates and your dear brother be buried with you." Duan Liuhe sneered.

Murong Hongye's expression was ugly, and unconsciously, a flicker of fear crossed her mind.

After all, her biggest weakness was her younger brother.

Being the lone bearer of her family's bloodline, she had to protect her brother.

As the situation was dire at the moment, Murong Hongye subconsciously struggled with the choice. However, suddenly, she thought of Yang Chen, the man who had once defeated the Cloud-penetrating Ghost General.

This existence was now with them.

She didn't seem to have a reason to be afraid.

Yes, what was she afraid of?

Thinking this, Murong Hongye made up her mind.

"Duan Liuhe, do you really think you're something? Even without you, I can resolve the current situation." Murong Hongye said coldly.

"Hahaha? Really? I'm very curious as to how you'll resolve this. Don't escape and then not find a suitable way out." Duan Liuhe said sarcastically, then stepped back a fraction, as if saying he wouldn't interfere in their affairs.

And if you look closely...

The position where Duan Liuhe stood had completely blocked Yang Chen and the others from leaving.

Murong Hongye could also see this, and her cheeks flushed with anger, "Duan Liuhe, you despicable and shameless guy! Now you not only refuse to help, but you're also blocking our way out? Aren't you afraid of punishment?"

Duan Liuhe had a clear message.

If you don't agree with me, you all will die.

But, it's not dying in my hands, but in the hands of the Netherworld Ghost Creatures.

This maliciousness, it simply ignited people's anger.

Duan Liuhe didn't have the slightest shame on his face, but rather was proud of his masterpiece, "Despicable and shameless? Punishment? Haha, Murong Hongye, I just rushed here with my teammates and didn't have time to save you all. Is that despicable and shameless?"

"You!" Murong Hongye was furious.

Duan Liuhe taunted, "Ghost generals, feel free to take action at will. We'll deal with our issues later."

Although the ghost generals knew Duan Liuhe was not a good person, for them, it was more economical to deal with one group of people first than dealing with two groups at once.

"Let's kill you all first." Led by He Guijiang, the ghost generals attacked, trying to overpower Yang Chen and the others.

Seeing this, Duan Liuhe stood back with a mocking expression, blocking the way for Murong Hongye and the others.

In his eyes, Murong Hongye only had two choices: one, agree with him; two, die.

He was purposely blocking Murong Hongye's way out, making her have nowhere to go!

Murong Hongye was foolish enough to refuse him, and choose death!

"What should we do now?"

"Ahh, I'll fight with you all!"

"Everyone, calm down!" At this moment, Murong Hongye's expression hardened.

Immediately, she turned around and focused her attention on Yang Chen.

"Yang Chen, we are in a critical situation this time, and we need you to take action. These ghost generals, can you deal with them?" Murong Hongye said uncertainly.

Yang Chen was indeed amazing, having defeated the Cloud-penetrating Ghost General last time with extraordinary courage.

However, no one knew if his victory had been a fluke, and whether Yang Chen could be just as brave again.

Seeing Murong Hongye's questioning gaze, Yang Chen smiled slightly, "Everyone, just step back."

A group of people looked at Yang Chen, and remembering his prowess, they all felt a glimmer of hope. However, wasn't Yang Chen too arrogant? To face a team of ghost generals all by himself? Moreover, the strength of this ghost general team was even higher than their entire team.

For one person to deal with this group of ghost generals, people would think that Yang Chen was courting death!

But Yang Chen dared to do it!

He stepped forward alone, facing a group of ghost generals with his own strength.

Seeing Yang Chen step out, Duan Liuhe and the others laughed mockingly.

"Is it him?"

Duan Liuhe had clearly said that Yang Chen was better than him.

"Hahaha, even if a reckless kid is better than me, so what? Does Murong Hongye think he can turn the tide?" Duan Liuhe sneered.

Even if Yang Chen was better, could he be better than Gu Feixing?

In the current situation, only a powerful figure like Gu Feixing could possibly turn the tide!

Yang Chen? He didn't think the other party would be at that level.

Now, Yang Chen stood calmly and composed in front of everyone with his hands behind his back.

Murong Hongye and the others hesitated, not daring to take action, and just stood behind Yang Chen, choosing to trust his decision.

Seeing that Yang Chen was the only one who stepped forward, a group of ghost generals couldn't help but disdainfully voice their contempt.

"Seeking death!"

Chapter 2633 How Did They Invite Yang Chen?_1

In their eyes, it would be normal for an exceptionally powerful ghost general to challenge a team of humans.

Because among their many ghost generals, there were indeed some strong ones.

But humans challenging a team of ghost generals?

That was undoubtedly courting death.

Humans would not yet be strong enough to do so.

This was their idea of 'common sense'.

But what they didn't know was that in Yang Chen's eyes, the reason he chose to have these people step back and do it himself was precisely because he felt that these ghost generals were so weak that it wouldn't make any difference whether others helped or not.

The cruel reality, however, was quick to happen!

Yang Chen made his move!

But what Yang Chen did was quite simple, he casually stepped forward, and then his powerful Dao Intent Inscriptions could instantly surround any ghost general present.

Thunder, Gold, Wood, Water, Fire, Earth.

Life and death, unyielding, spacetime!

Immediately after, these nearly twenty thousand Dao Intent Inscriptions, like a sharp blade, suppressed at lightning speed.

Just a rumbling sound was heard.

Yang Chen stopped his hand.

But these dozen ghost generals were suppressed to the point where they could hardly stand up under Yang Chen's absolute power.

"Wu-wa!"

These Netherworld ghost generals seemed to be crushed by a huge mountain, screaming and struggling in vain, with no effect at all.

As this scene fell, the whole scene was dumbfounded.

Murong Hongye and others took a deep breath, and from this moment on, they would no longer have any doubts about Yang Chen's strength.

In just an instant, more than a dozen ghost generals were completely crushed by Yang Chen's absolute power, unable to lift their heads ever again.

"How is this possible?!" Duan Liuhe's heart was also shaken by waves.

Even the conceited Gu Feixing, who was standing next to him, had his pupils violently constrict, and after the sudden shock, his expression became extremely rich and full of emotions.

He couldn't help but ask himself if he could do all this.

He might be confident that he could handle this group of ghost generals alone, after all, his Dao Intent Inscriptions strength had reached more than 12,000.

However, he absolutely couldn't do it like Yang Chen, suppressing and capturing more than a dozen ghost generals in an instant.

That was even more difficult than killing them.

Now that these ghost generals had been suppressed, it was their turn to fear and tremble.

In an instant, it was heaven for some and hell for others.

The ghost generals of the Netherworld experienced the true meaning of fear, staring at Yang Chen, and exclaimed in surprise, "Who are you?"

Yang Chen didn't have much intention to explain, and his Dao Intent began to intensify.

Bang!

In an instant, more than ten ghost generals were turned into nothingness.

All of them fell!

Only one ghost general was spared by Yang Chen.

This ghost general was He Guijiang.

After seeing all his comrades around him turned into ashes and killed by Yang Chen's absolute power, He Guijiang breathed a sigh of relief, but the fear of being controlled by others quickly resurfaced, even worse than before.

He knew that Yang Chen must have a reason for sparing his life.

Knowing that he would die, but not yet at that moment, it was simply torture.

Yang Chen didn't explain much either, just casually holding He Guijiang and calmly said, "Alright, it's settled."

When the conversation ended, he returned to the crowd.

This scene greatly increased the admiration in Murong Hongye's eyes.

Not to mention her as a woman, even the other men were inwardly admiring Yang Chen's strength. How strong must Yang Chen be to say a team of ghost generals is gone just like that. What kind of terrifying strength could he have to do that?

Murong Hongye glanced at Yang Chen who had spared a ghost general's life and didn't ask any more questions.

She turned her gaze to Duan Liuhe instead.

Just now, Duan Liuhe had repeatedly targeted her. Now that their problem was solved, Murong Hongye wanted to see how Duan Liuhe would react.

How could Duan Liuhe's expression be happy at this moment?

"Murong Hongye, you!" Duan Liuhe's voice was low and suppressed.

"Duan Liuhe, today's incident will be truthfully reported. I hope you can find good explanations and reasons when the time comes." Murong Hongye angrily said.

If she had died, naturally no one would expose Duan Liuhe.

Unfortunately, she was still alive.

Duan Liuhe was now furious and couldn't help but roar, "Murong Hongye, what are you so arrogant about? This kid's origin is unknown, and his strength is indeed not weak. You are lucky to be with him, but do you think that's enough to be arrogant in front of me? The person I brought here, Gu Feixing, has 12,000 Dao Intent Inscriptions and is the young master of Qingfeng Sect."

When the conversation ended, Duan Liuhe's confidence increased a bit.

As long as Gu Feixing was mentioned, his confidence would grow a lot, and Gu Feixing was the only card up his sleeve now.

"Even if this kid is powerful, compared to Brother Gu, he's still nothing." Duan Liuhe licked his lips.

In his eyes, very few people could be compared to Gu Feixing.

And the fact was indeed so.

Even if there were people stronger than Gu Feixing, it wouldn't be Yang Chen!

But just as he thought so, Gu Feixing stood up and spoke with a gloomy expression, "Duan Liuhe, shut up!"

If anyone else had said that to him, Duan Liuhe would not have agreed, but the one who said it was Gu Feixing.

Considering Gu Feixing's status, when he heard this, Duan Liuhe immediately wilted.

"Gu, Brother Gu, what's the matter?" Duan Liuhe's smile was wry.

Now Gu Feixing stood up and stared at Yang Chen, surprisingly respectful, "Your Excellency's name is unknown. Which great expert... "

"Yang Chen, a disciple of the Holy Domain." Yang Chen saw that Gu Feixing was so polite and remained calm.

This Gu Feixing seemed arrogant, but he had some vision. Seeing how Yang Chen had made his move, his attitude changed, indicating that his vision was quite high.

Not like Duan Liuhe, who was still yelling until just now.

When Gu Feixing heard the words "Holy Domain," he immediately took a deep breath. Although he hadn't heard of any great experts coming out of the sacred region these years, would the talented disciples of the Sacred District really display their prowess openly?

This person was from the Holy Domain...

"Could it be that you are here to participate in the Young Master of the Holy Domain competition?" Gu Feixing said tentatively.

Yang Chen didn't think that Gu Feixing was so clever, and without hiding anything, he smiled and said, "Yes, Brother Gu is right."

Hearing Yang Chen say this, everyone was shocked.

Yang Chen was actually here to participate in the Young Master of the Holy Domain competition? Did that mean Yang Chen was a candidate for the Young Master of the Holy Domain?

What a concept this was, and probably no one in the room didn't know.

They had never thought that Yang Chen would have such a status. No wonder Yang Chen was so powerful.

Exactly because of this, everyone was stunned. How on earth did they invite Yang Chen in the first place?

Chapter 2634 Gu Feixing Leaves the Team_1

Yang Chen's presence would make any team cry and beg him to join, regardless of the cost involved.

Gu Feixing's status as a candidate for the Young Master of Qingfeng Sect is already impressive enough; it must have taken Duan Liuhe a significant effort to recruit him.

Undoubtedly, Yang Chen's status as a candidate for the Young Master of the Holy Domain is even more terrifying than Gu Feixing's!

All these facts made people gasp.

Murong Hongye's face flushed as well with excitement and disappointment. She was excited by Yang Chen's incredible strength but disappointed as she suddenly realized that she and Yang Chen didn't belong in the same world.

How long could she keep Yang Chen?

"I see." Gu Feixing took a deep breath upon hearing Yang Chen's reply.

Without much hesitation, he said: "Brother Yang Chen's presence near our Unparalleled Camp is truly a blessing for us. I will take my leave now, and let me clarify that I disdain to associate with these people and will leave Duan Liuhe's team from now on."

With that said, he wanted to turn around and leave.

Before departing, he added: "If Your Excellency needs my testimony, I won't mind providing it. The likes of Duan Liuhe should be punished. In the battlefield, harming one's colleagues is a grave taboo."

When the conversation ended, Gu Feixing finally left completely.

Hearing this, Duan Liuhe was completely desperate.

"Brother Gu, what do you mean by this? We made an agreement beforehand, how can you go back on it?" Duan Liuhe roared, regret filling his eyes.

He understood the reason for Gu Feixing's departure.

All because of Yang Chen.

If he hadn't provoked Murong Hongye and offended this team and Yang Chen in the first place, none of this would have happened.

Gu Feixing left, and it seemed that he was about to face disgrace for some time.

Gu Feixing left very decisively.

Of course, he wasn't leaving because Duan Liuhe was evil; he was leaving because of Yang Chen.

If there were no Yang Chen, what would Duan Liuhe's actions have to do with him? Why would he care to turn a blind eye?

As far as he was concerned, it wouldn't matter much if Murong Hongye and the others died.

But with Yang Chen involved, it was different. Gu Feixing wouldn't dare offend Yang Chen just to protect a waste like Duan Liuhe. That would be a huge joke, and he wouldn't do such a thing.

Only he truly understood Yang Chen's absolute strength.

Yang Chen smiled upon seeing this.

Gu Feixing was quite clever as his stance just now was very clear. It wasn't because Gu Feixing was so noble; if Yang Chen hadn't shown his terrifying strength earlier, Gu Feixing would never have chosen to leave the team and disdain the situation as he did.

Gu Feixing did this purely to save face for Yang Chen and avoid opposing him.

Gu Feixing was really smart.

"Duan Liuhe, just you wait," Murong Hongye said fiercely.

When the conversation ended, she also left as the leader, leaving no room for Duan Liuhe's feelings.

Seeing everyone leaving, Duan Liuhe suddenly collapsed.

In normal times, other team members would come forward to support him, but now, they looked at each other hesitatingly, becoming indecisive.

If they stayed in the team, they might not be able to extricate themselves when Duan Liuhe's deeds were exposed.

Thinking of this, one person immediately spoke up: "Captain Duan, I have friends waiting for me to do tasks together, so I won't stay in the team any longer."

"Captain, I'll retreat first too. I have some important matters to deal with."

These people wanted to leave as well. Seeing the situation turning bad, who would want to get involved in the mess?

They wanted to leave as soon as possible.

Duan Liuhe wanted to stop them, but could he?

No one would consider his feelings when they decided to leave.

At first, only two or three people left, but when the others saw them leaving, they knew the situation was serious and refused to stay, leaving one after the other.

In the blink of an eye, he was the only one left!

Duan Liuhe couldn't help but feel tearful.

He knew that he was finished now.

...

Meanwhile, Yang Chen captured the Ghost General He Guijiang and left with Murong Hongye and others, arriving in an uninhabited mountain range in the sky.

When they arrived, Murong Hongye asked Yang Chen curiously.

"Brother Yang Chen, your purpose for catching this ghost general is..." Murong Hongye couldn't help but ask.

Yang Chen smiled peacefully, looked at the captured He Guijiang, and calmly said, "Don't worry, here are some ghost cores for all of you."

When he finished speaking, Yang Chen handed out the ghost cores that he'd obtained from killing the ghost generals earlier.

Upon receiving the ghost cores, the group was both shocked and overjoyed. Yang Chen's hunted ghost cores were all elites. One could be worth thousands of merit points.

In normal days, they would all work together to encircle and kill a ghost general, and even just killing one of them would be enough to excite them for half a day.

But now, Yang Chen directly gave two cores to each of them.

How could they not be happy about this?

For this reason, the group felt somewhat embarrassed and awkwardly said, "Brother Yang Chen, you don't have to give us these ghost cores. We didn't help at all. It was you who singlehandedly solved the issue. Giving us the ghost cores like this makes us feel unworthy."

Yang Chen didn't have much thought and just laughed: "We are all part of one team, so there's no need to be so restrained. Although I'm the one who got these ghost cores, all of you helped me in the battle. So, please accept them."

What battle assistance?

These people knew that Yang Chen was just trying to comfort them.

Moreover, besides comforting them, they also received these ghost cores. They couldn't be more delighted. After a few polite remarks, they agreed to take the cores.

"In that case, we will gratefully accept it," they all agreed without hesitation, placing the ghost cores into their storage bags, too delighted for words.

At this time, Yang Chen also revealed his purpose.

"Everyone, it's obvious why I captured this ghost general. Although our mission is to patrol around, what is the ultimate goal of patrolling? It's to expose the hideouts of these ghost creatures. If we can, we should try to uncover the true purpose of the Netherworld Ghosts sneaking into our rear. That would be a great accomplishment," Yang Chen said with a faint smile.

Upon hearing this, the group had a sudden realization.

"Does Brother Yang Chen mean that he wants to discover the secrets of these ghost creatures through this ghost general?"

Everyone in the group was intelligent, and they quickly responded.

Yang Chen smiled: "Exactly."

"But to be honest, these ghost generals are very tight-lipped..."

Chapter 2635 The Soul Search Begins_1

"Yeah, these ghost generals are fearless in the face of death. Trying to force them by killing them is too difficult."

"The high-level members of the Unparalleled Camp have tried this before, but the results were all the same. Failure. These ghost generals don't have any significant weaknesses. They even have astonishing methods of suicide. If they're not careful, they'll kill themselves. This is not like us humans, who can easily be tortured into submission."

"Hehehe..."

When He Guijiang heard their conversation, he showed a proud smile for a moment: "Do you think the ghost creatures of the Netherworld are like you humans? We ghost generals of the Netherworld do not fear death. We are on the edge of death, and sometimes death may even be a relief to us. I hope you'd use some methods to scare me..."

Upon hearing this, Yang Chen's expression slightly sank.

The ghost generals of the Southern Realm were quite different from those he knew in the Spirit Realm.

When he fought with those ghost generals in the Spirit Realm, they were not as fearless as today, and some of them were even clearly afraid of complete destruction.

After all, these Netherworld ghosts have no physical bodies; when they die, it's for real, with no chance of coming back.

But the ghost creatures of the Southern Realm were quite different from what he knew.

Not afraid of death?

Not afraid of torture?

Even threatening him verbally?

"What if we use Divine Soul Detection to explore their memories?" Yang Chen asked.

Hearing this, He Guijiang's expression paused, revealing a slight look of panic, which quickly turned to composure.

Murong Wufeng bitterly laughed: "Yang Chen, it's too difficult to use Divine Soul Detection to explore their memories. These Ghostly Yin Spirits are all soul bodies, so their defense against Divine Soul is very strong. They have all gone through special training. Whether we can win against their Divine Souls is

questionable. Even if we can win, their souls have a strong protective effect on our Divine Souls, making it difficult for us to break through."

"Moreover, even if we break through these numerous levels, the soul cores of these Ghostly Yin Spirits are sealed with prohibitions. If we attempt to explore their memories, the prohibitions sealed within their souls will explode in an instant, causing their complete destruction, hurting our Divine Souls, and making it impossible for us to obtain any information."

Yang Chen, with his hands behind his back, felt troubled as he listened to this.

"Hehe, so, do you have any solutions now?" He Guijiang laughed as he saw the people feeling helpless in dealing with him.

But Yang Chen just smiled slightly: "What if the strength of the Divine Soul is absolutely dominant?"

"That would be very difficult. However, if it really can be dominant, it might be worth trying." The teammates said.

Yang Chen smiled: "Then, let me give it a try."

He had clearly seen that when the topic of Divine Soul Detection came up, He Guijiang's expression had changed momentarily.

Although it quickly disappeared, it indicated that deep down, He Guijiang was afraid.

Afraid of what?

Afraid of Divine Soul Detection.

Even though they have defense against Divine Soul Detection, if they're afraid, it means deep down they still fear this technique.

Yang Chen was quite certain about what he had seen just now.

Since that was the case, it was necessary for him to try it.

He was very confident in his Divine Soul abilities.

Having cultivated the Second Forbidden Divine Technique, his Divine Soul abilities have improved further than before.

Seeing that Yang Chen was about to perform Soul Search on him, He Guijiang angrily said: "You human brat, you want to use Soul Search on me? Hahaha, I think you're just impatient to die. Watch how my soul backlash hurts you."

"Really? Let's see how your soul backlashes against me then."

As Yang Chen suppressed He Guijiang so he couldn't move, his Divine Soul suddenly became like a sharp sword, fiercely piercing into He Guijiang's soul.

Boom.

An empty void. Upon entering with his powerful Divine Soul, Yang Chen immediately shattered the void, as it was the first layer of protection for He Guijiang's soul.

After the void was broken, specks and spots appeared, which belonged to He Guijiang's Divine Soul.

He Guijiang's Divine Soul guarded in front of his soul, and when seeing Yang Chen's soul intruding, ferociously bit at Yang Chen.

There isn't much technique in the battle between souls.

Yang Chen simply controlled his soul to swiftly entangle with He Guijiang's soul, and in a short while, the result came to light.

His soul quickly gained the upper hand, layer by layer, tearing apart He Guijiang's soul.

Frightened, He Guijiang's soul hastily fled and dispersed, not daring to fight against Yang Chen.

Yang Chen didn't bother with He Guijiang and directly went deep into his soul.

He Guijiang's soul revealed a panicked color, but there was nothing he could do.

However, Yang Chen did not hesitate and arrived in front of He Guijiang's soul.

He Guijiang's soul was a huge barrier.

The barrier was densely covered with luminous electric protection, similar to the treasures humans use to protect their souls. This was clearly a special method used by Netherworld Ghosts to guard their souls.

Seeing this, Yang Chen did not explain and forcibly invaded with his terrifying Divine Soul Realm.

Like a sharp sword and an iron hammer, Yang Chen rushed in continuously with a series of thuds.

"It has some tricks."

Yang Chen muttered to himself.

No wonder people said that it is difficult to enter the souls of Netherworld Ghosts.

As it seemed now, it was indeed the case.

However, his soul was still in peak state, and he had the stamina and time to play with He Guijiang. If he couldn't break through in one go, he would try twice or even three times!

Yang Chen continued with thuds in his attacks.

Finally, before his soul had consumed thirty percent of its power, He Guijiang could no longer persist.

With a rumble, the soul dissipated, and Yang Chen's soul drilled deep into He Guijiang's core.

He Guijiang sensed the imminent danger and thought about self-destructing...

But would Yang Chen not be prepared for such a move? He was always cautious of He Guijiang.

Escape with self-destruction under my watch? Not even a chance.

Yang Chen suppressed his enemy in an instant, pinning He Guijiang down so he wouldn't have a chance to break free and self-destruct.

Then, his body also fully entered the opponent's soul.

Since he had heard about it from his team members before, Yang Chen was very careful, not daring to search He Guijiang's soul's memories carelessly. Instead, he first searched for the prohibition seals.

"The prohibition really is here..."

It wasn't too hidden, and Yang Chen found it quickly.

"This prohibition is quite ingenious." Yang Chen muttered to himself.

After taking a brief look, he could analyze the level of the prohibition.

If it were someone else, they might be truly helpless against this prohibition.

But he wasn't completely ignorant of the prohibition!

Chapter 2636 King-Rank Ghost Creatures_1

If he didn't try to break the prohibition first and went for soul searching instead, he might end up not only failing in soul searching but also being seriously injured by the prohibition.

With this caution in mind, Yang Chen began to examine the prohibition.

Although his soul state couldn't activate the Lingxi Divine Pupil to find the weak points of the prohibition, most of the prohibitions' weaknesses were similar. And with his proficient knowledge of prohibitions, he could see the flaws of this prohibition at a glance.

He used his soul to transform it into divine consciousness, like a needle threading through the prohibition.

Immediately, he meticulously, ingeniously, and accurately removed the layers of prohibition.

Starting from a single point, Yang Chen disarmed every layer perfectly and exquisitely, unraveling the prohibition like threads.

Under Yang Chen's various meticulous controls, no accidents occurred during the removal process.

It was the removal of the prohibition that allowed Yang Chen to feel at ease in probing He Guijiang's soul now!

"I want to see what important clues are hidden in your soul."

Yang Chen's soul probed, searching carefully.

As soon as he did so, a smile appeared on his face.

Sure enough, he found something useful.

Yang Chen's eyes lit up, and when he had searched almost everything in the soul, he withdrew his soul.

When he did so, He Guijiang showed despair, staring at Yang Chen, and roared, "You, you actually succeeded in soul searching me, you, you. Ahh, the Royal Clan will take revenge for me."

When the conversation ended, He Guijiang was about to choose to self-destruct and die on the spot.

But Yang Chen would not give him the chance; the moment He Guijiang tried to self-destruct, Yang Chen slapped him with a palm to suppress the Life and Death Dao Intent...

In an instant, He Guijiang was completely killed by Yang Chen just before the self-destruction.

The ghost core remained, floating in the air, and was grabbed by Yang Chen's hand.

After He Guijiang was killed, the people around were all amazed by Yang Chen's great divine power.

Did Yang Chen seem to have succeeded in soul searching?

"Brother Yang Chen, did you really succeed in soul searching?"

Yang Chen smiled and replied with his hands behind his back, "Yes, I succeeded."

The crowd was shocked, incredibly horrified.

They knew very well how difficult it was to search the souls of ghost creatures. Otherwise, wouldn't anyone be able to capture a ghost and casually search its soul for enough information?

It was because it was difficult that everyone was helpless, and ghost creatures were unbridled in this respect.

But Yang Chen had succeeded just like that?

Murong Hongye curiously asked, "Brother Yang Chen, did you find any useful information?"

"These Netherworld ghost creatures are cunning, and I couldn't find any traces of how they were transported here. That memory seems to have been erased, so even if I forcibly searched their souls, I couldn't find it. The most recent memory I could find was of these ghost creatures gathering at a nearby point. There might be king-level ghost beings there, and going there would definitely involve great risks. I'm definitely going there, but I don't know what you all think..." Yang Chen said.

The others heard this and exchanged glances, and soon none hesitated.

"We're going too!"

"Since Brother Yang Chen is going, we'll follow along."

The words "king-level ghost creature" scared them a bit. But thinking about Yang Chen's vast divine powers, even if they couldn't defeat the king-level ghost creatures at the location, Yang Chen should be able to protect them without any problems.

Moreover, if there were no king-level ghost creatures, it would be even more profitable.

Seeing everyone agree, Yang Chen said, "In that case, let's all follow me."

He took the lead, and along with a large group of people, he headed directly to the location he had found through soul searching, arriving at a mountain range...

"I remember this mountain range used to be full of clear water and green hills with beautiful scenery. Now, it's filled with haunting ghost qi, and even the trees have become so gloomy and dead." Upon arriving here, a few team members said.

"In that case, this area must indeed be a gathering point for ghost creatures."

Yang Chen raised his palm and said solemnly, "Everyone, be careful. There are patrolling ghost generals nearby. Follow behind me."

These team members all had the intention of following Yang Chen's lead.

Murong Hongye could also see this. Although she was the captain, she was well aware of the strength of Yang Chen.

As for Yang Chen taking charge, she didn't mind at all and was actually very happy. After all, Yang Chen was also someone she admired and looked up to.

Under Yang Chen's leadership, they soon saw a patrolling ghost general.

He suddenly made his move, and with the absolute suppression of his Dao Intent Inscriptions, he instantly killed the ghost general, collected its ghost core, and proceeded to the center of the mountain range ahead.

"Stop," Yang Chen said in one word, and everyone stopped.

Looking further into the valley, they saw a large number of ghost generals among them.

Yang Chen had great confidence in his own concealment skills, but he had no such confidence in the others.

To avoid detection, he unfolded his space-time Dao Intent, creating a small domain and forming an independent space in which no qi, sound, etc., would leak out.

For someone with time and space abilities like him, this was an easy task.

After completing these tasks, Yang Chen finally felt at ease.

Now they were absolutely safe.

"This is..."

A team member exclaimed in shock, unable to hide the astonishment in his heart.

"So many humans have been captured?"

"Not just the Unparalleled Camp members, but also the Great Dragon Camp and Heavenly Scold Camp members. How come there are so many people..."

"It's Gao Shiming! Gao Shiming has been captured too! He has a Daoist Divine Body with over ten thousand Dao Intent Inscriptions!"

"No wonder we've been hearing about people going missing. Turns out they weren't killed by these ghost creatures, but captured instead."

These few people were shocked.

Murong Wufeng suddenly said, "Look, it's Jiang Zhiliang from Haoran Gate."

"Jiang Zhiliang has been captured as well."

"Jiang Zhiliang is the top-level genius of Haoran Gate, with 14,000 Dao Intent Inscriptions and a Daoist Divine Body. How has such a powerful being been captured alive? My God... these ghost generals..."

These few team members were originally excited to come here and never thought too much, but now that they saw so many prominent and powerful figures being captured, they realized the severity of the situation.

This area was no joke.

Listening to the whispers of the few, Yang Chen also learned some of the situation, and made some guesses. Even a being with 14,000 Dao Intent Inscriptions had also been captured?

It seemed that there must be a king-level ghost creature nearby. The only question was whether it was in the Great Ascension Stage or the Nirvana Stage.

And, among these ghost generals, which one was the king-level ghost general?

It was a good thing that he had isolated space, otherwise their whispering would have been discovered sooner or later.

Chapter 2637: Nine Yin Ghost General_1

These few people whispering quietly seemed to have no problem, and indeed, it is difficult for weaker ghost generals to detect anything.

But if they're powerful ghost generals, they could easily observe what's going on.

However, now that he had separated the space, this space was his, and nothing could be transmitted out, so people outside could not detect it.

He had to observe carefully, after all, with so many ghost generals, he still didn't know which one was the king-level ghost general.

But after observing for a long time, Yang Chen couldn't find any clues. Were the king-level ghost generals not among these people?

But one thing could be confirmed.

That is, many powerful beings on patrol had been captured by these netherworld ghosts and held here.

There were even a few with more than ten thousand dao intents, which showed what kind of things these ghost creatures were planning.

“Huh?”

Yang Chen suddenly sensed something and observed it with his soul.

There seemed to be a pitch-black passage deep in the valley, and it was unknown what was inside the passage.

While Yang Chen was curious, he didn't plan to take any rash actions.

“Yang Chen, what should we... what should we do?” A member of the team was somewhat scared.

It was no joke: so many powerful people had been captured and brought here, so how could they not be afraid?

Even Murong Hongye, who was usually calm, was sweating profusely at this moment.

“Yang Chen, this place is too dangerous,” Murong Hongye said gravely. “Our best option is to return quickly and let the people above handle this matter.”

Yang Chen nodded, thinking it made sense.

Although he was confident in his own abilities, there might be other Great Stage beings here, and the king-level ghost beings had yet to reveal themselves. In this situation, retreating would be the best choice.

“Alright, let’s retreat first... Huh? Wait.”

Yang Chen had made up his mind, but suddenly, he waved his hand and stopped the few people who had heard they could leave and couldn’t wait to turn around and go.

“What’s the matter?” The members of the team looked like they were about to cry.

Yang Chen said, “Come back, someone is coming. There are more ghost generals nearby. If we retreat now, we’ll definitely be discovered. Let’s stay here and observe the situation.”

“What?!”

Everyone’s face showed panic, and their spirits sank at the thought of more ghost generals coming.

Yang Chen was extremely calm. As he examined the incoming ghost generals with his soul, his eyes suddenly narrowed, and his expression darkened.

Soon, the appearance of this group of ghost generals surfaced.

A dozen ghost generals arrived with an astonishing lineup, capturing another team of humans as they appeared.

Among these humans were Duan Liuhe and Gu Feixing, whom Yang Chen was familiar with.

In addition, there were several dozen men and women, all members of various patrol teams.

“Gu Feixing?”

“Even Gu Feixing got caught!”

“This is too scary.”

Such a powerful man as Gu Feixing was captured alive!”

“You see, these ghost generals seem to be all high-ranking ones, all of them transcendent Nirvana Stage among the high-ranking ghost creatures!”

“And these ghost generals are guarding the ghost general at the front!”

Everyone was discussing it.

Yang Chen also noticed it.

These dozen or so high-ranking ghost generals were indeed intimidating. After all, high-ranking ghost generals were all on the level of Cloud-penetrating ghost generals, with at least over ten thousand Dao Intent Inscriptions.

A dozen of them together, what kind of concept was that?

That was not the point; they were all only escorting a single ghost general. The identity of this ghost general could be easily guessed.

“King-level ghost creature...”

Yang Chen took a closer look.

This king-level ghost creature, wearing a layer of scale armor all over its body like a coat of armor, was awe-inspiring.

Yang Chen was most worried about the strength of the king-level ghost general, but now it seemed that his strength had not yet reached the Great Stage.

“Nirvana stage strength...”

King-level ghost general!

Great Ascension and Realmless powerful beings are not so easy to encounter. After all, there are not many of them in the Southern Realm, and they are also the top-tier category in the Netherworld.

When the king-level ghost general led the way back into the valley, all the other ghost generals bowed down in submission.

“Greetings, Nine Yin Ghost General!”

“Nine Yin Ghost General, Sir!”

These ghost generals and ghost creatures greeted each other, all of them respectful.

“It seems that the Ghost King has had a fruitful comeback.”

“Yes, so many humans have been captured, it must be a huge sacrifice!”

“With so many humans around, our teleportation array should be able to be completely perfected.”

Standing high in the sky, the Nine Yin Ghost General said coldly, “All of you, quiet down. Although we have found many sacrifices now, we cannot be careless. There are still many human patrol teams that could investigate us at any time.”

“Ghost King Sir, this place is not easy to investigate. And with you here, even if they find out about this place, they still won’t be able to return!” Several ghost generals flattered and laughed sneeringly.

The Nine Yin Ghost General listened to those words and revealed a smile. He faintly said, “The human Great Stage has not yet intervened, so we should not be too careless. Now, these are the newly captured sacrifices; you all watch them closely.”

When the conversation ended, the dozen high-ranking ghost generals threw the newly captured humans to the ground, and other ghost generals began to watch over them as their ghost qi rose.

These people were controlled by Restriction Shackles and couldn’t move...

“Gu Feixing, I can’t believe you were captured too.

“Oh, we were too careless, so many powerful beings were controlled by them one by one!”

Gu Feixing gritted his teeth in secret: “The strength of the king-level ghost general is too strong. I am no match for him!”

He had just left Yang Chen and soon encountered the king-level ghost general. In one round of fighting, with his strength, he could barely defeat a high-ranking ghost general at best.

With more than ten ghost generals plus a king-level ghost general, he didn’t know how to resolve such a lineup.

If he had known, he would have stayed with Yang Chen. Maybe Yang Chen couldn’t beat this team, but together with Yang Chen, they could have supported each other and not end up like this.

Now, it’s too late to say anything!

“Now, this seat will ask you one more time. Those who are willing to pledge allegiance to my sect and bring information to us, step forward. This seat will spare your life. Think carefully.” The Nine Yin Ghost General said in a low voice.

Upon hearing his words, Jiang Zhiliang shouted, “Nine Yin Ghost General, don’t even try it! Since we’ve entered the battlefield, how can we submit to you and bring information to the netherworld ghost creatures? No way!”

The Nine Yin Ghost General sneered, “Jiang Zhiliang, you have some abilities, but unfortunately, you are going to die soon. Now let you yell a bit, and later, this seat will have time to deal with you. Alright, let’s get back to business. Who among you is willing to pledge allegiance under my Netherworld Sect’s command?”

Chapter 2638 Escaping the Predicament?_1

After questioning everyone, no one answered.

This surprised Yang Chen a bit, as he didn’t expect these people to have such backbone.

But it made sense!

If there had been any betrayal, the Nine Yin Ghost General wouldn’t be asking again now. Obviously, he had asked several times before and no one had agreed.

Since they came to this battlefield, they came with determination and passion.

Betrayal?

They had cultivated to the Nirvana Stage, not for nothing.

The Nine Yin Ghost General released his Qi, forcibly suppressing the powerful ones in the Nirvana Stage, all of them shuddered, but their eyes remained firm, and their waists were still upright. No one surrendered, and no one betrayed.

However, just when everyone was trying hard to persevere, suddenly someone cried out.

"I... I'm willing to betray and pledge allegiance to the Netherworld and give you information."

This person's statement made Yang Chen's face darken.

Because this person was Duan Liuhe.

Murong Hongye and others were all furious. How could Duan Liuhe dare to betray them?

This was a betrayal of humans and a betrayal of their group. Did he even dare?

"Duan Liuhe is despicable. He actually betrayed his group and the humans!"

"Joining the Netherworld, this guy won't have a good outcome."

A group of people was furious at Duan Liuhe's actions.

Not only them, but when Duan Liuhe stood up, the others who had been imprisoned were also extremely angry.

Gu Feixing didn't consider himself a good person, but he would never do something that betrayed his group. He understood very well that once he did this, he would lose his bottom line and stance completely.

But now, Duan Liuhe dared to do such a thing.

"Duan Liuhe, you dare to betray the humans."

"Shameless, do you have no shame at all?"

"Dare to betray our group, kid, if I had the power now, I would make you beg for life and unable to die."

Many people hated Duan Liuhe to the bone and felt that he had disgraced their group.

Duan Liuhe had given up now and went all out. He shouted angrily, "Gu Feixing, you still have the nerve to say this, if it weren't for you, would I betray the group and you? Blame yourself, huh, you're helping Yang Chen, leaving me behind? And then you want to fawn over Yang Chen and correct me. Ha ha ha, if you don't leave me a way to live, you can't blame me for seeking another way!"

Upon hearing Duan Liuhe's words, Gu Feixing sighed.

Indeed, there were some reasons for Duan Liuhe's actions.

But it didn't justify what he did.

Gu Feixing said gravely, "Duan Liuhe, you have no idea what a big mistake you've made by choosing this path. Today, if you don't betray and go back to the group, even if Yang Chen and Murong Hongye expose you, without solid evidence, how could I point my finger at you? At most, you'd just lose some merit points. Do you think they would really kill you? Moreover, you've done those disgusting things, and you deserve to be punished. But now that you have betrayed the group, you have no way back, and you don't even deserve to be called a human."

"Gu Feixing, you still dare to lecture me now? Do you know what your situation is?" In an instant, Duan Liuhe, having nothing to respond, was furious.

Gu Feixing immediately wanted to get up, "Duan Liuhe, I'll kill you first."

As soon as these words fell, Duan Liuhe was really frightened. He quickly retreated, swallowing a mouthful of saliva for fear that Gu Feixing would kill him.

But before Gu Feixing could stand up, he was bound by the Restriction Power and couldn't move. The next moment, the ghost general behind him quickly suppressed Gu Feixing, making him unable to move.

At this point, the Nine Yin Ghost General laughed, "There's no need for our human friend to be afraid. As long as you betray the humans and become our friend in the Netherworld, we will give you absolute protection. Anyone who wants to hurt you will have to get my Nine Yin Ghost General's consent first."

Upon hearing this, Duan Liuhe was overjoyed, "In that case, I'll rely on your protection, Nine Yin Ghost General."

"No problem, just leave it to me. But you have to answer my questions truthfully." The Nine Yin Ghost General said.

Hearing this, Duan Liuhe felt unrestrained.

He had been forced into this position by Yang Chen and Murong Hongye anyway, so why not blame them? What did it have to do with him?

His betrayal was just a last resort.

"Alright, no problem. Nine Yin Ghost General, whatever you ask me, I'll definitely answer without omission." Duan Liuhe said without any omissions.

This made a group of people furious, almost spewing fire from their noses.

Gao Shiming was livid, "Duan Liuhe, you scoundrel! If you dare to tell our human information to the Netherworld, I'll smash you to pieces!"

"Duan Liuhe, you'll get your retribution."

Now Duan Liuhe's expression was hideous, looking arrogant and triumphant, "Nine Yin Ghost General, these people are too noisy. Can you make them shut up first?"

"No problem, cast a prohibition on them to make them speechless." The Nine Yin Ghost General said casually.

The other ghost generals casted restrictions on these people one by one, so that in a blink of an eye, the people who were yelling just now couldn't say a word.

Seeing these people unable to speak, Duan Liuhe laughed wildly.

"Look at you now, what can you do?"

Duan Liuhe, who had just been scolded, would not be feeling good about it, "Look at me, I'm a wise man who knows the times. Unlike you, who'll be like this till you die. What can you do to me now?"

A group of powerful humans had fire in their eyes and wanted to kill Duan Liuhe for his arrogance.

The Nine Yin Ghost General was happy now and asked, "Alright, now that they're quiet, let me ask you, how many teams did the humans send to patrol?"

"For the Unparalleled Camp, there were more than ten teams, for other camps..." Duan Liuhe gave all the information he knew without omission.

"How many powerful people are stationed in the Unparalleled Camp?" The Nine Yin Ghost General asked again.

Duan Liuhe didn't hide anything and told everything he knew.

As a result, Jiang Zhiliang and others were also filled with fiery eyes, wanting to kill this Duan Liuhe.

Now, Duan Liuhe was addicted to talking. Even if the Nine Yin Ghost General didn't ask him, he would still tell everything to the Nine Yin Ghost General, fearing that the Nine Yin Ghost General would not pay attention to him.

The Nine Yin Ghost General was very satisfied with Duan Liuhe, the dog.

But who knew that at this moment, Jiang Zhiliang, who had been restrained, suddenly stood up.

"Duan Liuhe, die!" Jiang Zhiliang was furious, not knowing what methods he used to break free from the restrictions, suddenly charged towards Duan Liuhe.

Chapter 2639 The Terror of the Nine Yin Ghost General_1

When Jiang Zhiliang broke out like this, no one could have anticipated it. Not to mention Duan Liuhe and the Nine Yin Ghost General being greatly surprised, even the other humans were dumbfounded, never expecting Jiang Zhiliang to escape.

Jiang Zhiliang now only wanted to defeat Duan Liuhe in one move, but the Nine Yin Ghost General's reaction was incredibly timely, suddenly spreading out his Ghost Qi and colliding with Jiang Zhiliang.

Among the Ghost Qi, a huge claw stretched out, slapping towards Jiang Zhiliang.

This claw was entirely red and seemingly small in area when extended but squeezed an incredibly terrifying power.

It was like a mountain, suppressing everything fiercely downward.

As Jiang Zhiliang collided with this claw, he let out a cry, his Dao Intent Inscriptions shattered one after another, unable to withstand the impact and withdrew, blood oozing from the corner of his mouth.

Jiang Zhiliang wiped the blood from the corner of his mouth, his heart filled with hatred.

He knew he was no match for the Nine Yin Ghost General, so he never thought to escape from the bind so early on.

He had a way to escape, and his original plan was to wait for the Nine Yin Ghost General to capture more people, find an opportunity to break free with them, and then fight their way out.

At that time, with many people joining forces, the Nine Yin Ghost General would definitely be unable to suppress them, and they would have a chance to break out.

However, he had to change his strategy now.

All because of Duan Liuhe.

As Duan Liuhe revealed all the human intelligence, the Nine Yin Ghost General became fully aware of the humans' situation.

There were many important pieces of information that both the Netherworld and humans were protecting. It wouldn't be easy for the Netherworld Ghosts to obtain them through normal Soul Search techniques.

But now, Duan Liuhe had actually revealed this information himself.

With this knowledge, perhaps it wouldn't have much impact overall, but Unparalleled Camp, Shenhe Camp, and several other camps would undoubtedly face trouble.

He had to implement his plan ahead of time, even if he couldn't guarantee success now.

"Hmph, Jiang Zhiliang, I've known for a long time that you're no small fry. I should have killed you first. I didn't think you would escape. Die!" The Nine Yin Ghost General suppressed Jiang Zhiliang with one hand.

Without hesitation, Jiang Zhiliang released his Dao Intent Inscriptions and applied them to the imprisoned Nirvana Stage Experts.

He first chose seven or eight talented individuals with over ten thousand Dao Intent Inscriptions and released them.

Although they only had slightly more than ten thousand inscriptions, they could still be of use at this time.

As soon as they were released, the situation changed immediately.

"Hahaha, I'm free too."

"You Netherworld Ghosts, I'll fight you to the death."

Gu Feixing was also freed, his cold eyes staring at Duan Liuhe, scaring him out of his wits.

Jiang Zhiliang wanted to release more people, but it was getting difficult at this point.

The Nine Yin Ghost General reacted quickly, taking action so that when other Ghost Creatures reacted, they tightly guarded the imprisoned powerful experts, preventing Jiang Zhiliang from freeing more people.

Seeing that he was only able to free seven people, Jiang Zhiliang was furious, gritting his teeth.

"Jiang Zhiliang, you think that just the eight of you can turn the tables, go to hell!" The Nine Yin Ghost General glanced at the few who had escaped, without any fear, and charged forward.

The other high-ranking Ghost Generals also followed closely behind the Nine Yin Ghost General, laughing sinisterly.

"Everyone, together! Kill this Nine Yin Ghost General first!" Jiang Zhiliang commanded.

"Hahaha, come at me together!" The Nine Yin Ghost General laughed arrogantly, facing the combined attack of Jiang Zhiliang and the others, smiling sarcastically. Waving his wrist, the Undead Ghost Qi with skull-like emanations surged like waves, killing them one by one.

Jiang Zhiliang and the others launched a joint attack, unleashing all of their Dao Intent Inscriptions and Dao techniques.

"Blood Qi Transforming Dragon!"

"Blade Battle Mountains!"

These powerful experts had their own unique Dao techniques, and they would not hold back, using their techniques to suppress the Nine Yin Ghost General first. Their starting point was not a problem.

There was no doubt about their choice.

But the horror of the Nine Yin Ghost General was that, facing these Dao Techniques together, he also chose to face the difficulties.

Facing eight experts who had over ten thousand Dao Intent Inscriptions, he still laughed wildly and released his Ghost Qi.

Immediately following a series of continuous explosions, the Dao Techniques released by the eight experts vanished in an instant. All their Dao Intent Inscriptions, after colliding with the Ghost Qi mixed with Nine Yin Ghost General's Dao Intent Inscriptions, were dissolved.

"How is this possible?"

"Ten thousand, nineteen thousand three hundred Dao Intent Inscriptions!"

"How does he have so many Dao Intent Inscriptions!"

"It's close to twenty thousand!"

Jiang Zhiliang and others' pupils shrank. They had encountered the Nine Yin Ghost General before to some extent. However, they now realized that what they saw was not the true strength of the Nine Yin Ghost General.

Because they were not able to make the Nine Yin Ghost General reveal his true strength.

But now that they attacked together, the strength of the Nine Yin Ghost General finally revealed itself.

"Whip of the Undead!"

Out of nowhere, the Nine Yin Ghost General emerged from the Ghost Qi, holding a black Ghost Qi whip and fiercely lashed it out.

An Nirvana Stage Expert tried to resist, but his Dao Intent Inscriptions were instantly shattered, and then the whip struck him.

"Ah!"

The Nirvana Stage Expert, entangled by the whip, could not move.

The other Nirvana Stage Experts wanted to help, but the Nine Yin Ghost General suddenly pointed one finger.

"Yinsha One Finger!"

As soon as he spoke, his finger raised and suddenly a crimson Yin Qi mixed with Ghost Qi turned into a finger Qi. With a bang, it penetrated the chest of a Nirvana Stage Expert.

"Ahh!"

This Nirvana Stage Expert was pierced through by the Finger Qi, screaming in agony. Yin souls and ghost Qi emerged from his body, causing his combat effectiveness to drop rapidly.

In the blink of an eye, two Nirvana Stage Experts lost their combat power.

"It's the Yin Dao Intent!"

"Special Dao Intent Yin Dao Intent!"

"Not good, Yin Dao Intent is very strange!"

Seeing two Nirvana Stage Experts defeated immediately, the other people's faces showed fear.

But the Nine Yin Ghost General's onslaught did not stop.

His figure flashed and disappeared into the Ghost Qi, his terrifying techniques completely elusive.

"Do you think... "

"The reason for my Nine Yin Ghost General's reputation."

"Just now, I only used one Yin!"

"Now, it's the Yinsha Two Fingers!"

When the conversation ended, two Finger Qi appeared from somewhere, and two more Nirvana Stage Experts were hit by the Ghost Qi in an instant, unable to get up. Among them, Gu Feixing was also involved.

The protection of the Dao Intent Inscriptions was completely useless!

Chapter 2640 Yang Chen Exposed_1

This scene, this kind of suppression, made every human present feel cold to the bottom of their hearts.

How can we fight this? How can we compete?

Several of the strongest, with tens of thousands of Dao Intent Inscriptions, fought against the Nine Yin Ghost General and were utterly crushed, without the slightest chance to fight back.

Looking at Murong Hongye and the others, their faces revealed fear, and they were trembling uncontrollably. They wanted to escape but didn't know how, and there was no possibility of winning in the fight.

The Nine Yin Ghost General was too terrifying. The gap between them, both in the Nirvana Stage, was simply like the difference between heaven and earth.

At this point, only Jiang Zhiliang and a few others were still struggling to support themselves.

But even Jiang Zhiliang, who had a lot of confidence in himself, looked desperate now. He had worked so hard to save these powerful ones, but in the blink of an eye, they were all defeated.

He was the only one still struggling, but he didn't know how long he could hold on.

The Nine Yin Ghost General licked his lips and raised his cold, cruel smile, chuckling wickedly, "What, are you scared? Afraid? Hahaha, Jiang Zhiliang, your biggest mistake was trying to resist me. It would've been much simpler to just obediently die, but instead, you had to drag a bunch of people into some pointless, useless actions."

When the conversation ended, the Nine Yin Ghost General suddenly made a move.

And then...

"Yin Sha Three Fingers."

This third finger was even more terrifying than before, with three streams of ghost qi coming from different directions. Jiang Zhiliang trembled all over, and everyone else besides him was hit by the ghost qi, unable to get up as they were tortured by the terrifying ghost qi.

"You, you've cultivated this Undead Ghost Qi to the third layer." Jiang Zhiliang was shaken.

Undead Ghost Qi was even more terrifying than Netherworld Ghost Qi. Once cultivated, the ghost qi would enter a person's body and spread rapidly, causing them to lose their fighting ability.

It could be said that once one was hit by this Undead Ghost Qi, unless they had a special method to resolve it, their wounds would be difficult to heal even if they survived.

Yang Chen observed this scene and understood it clearly.

At first, Qian Yunsheng was injured by this Undead Ghost Qi, and his severed arm couldn't recover. It seemed that this Undead Ghost Qi needed to be cultivated to the third level to have this effect.

The Ghost General who injured Qian Yunsheng must have been a Great Stage existence, and his Undead Ghost Qi was only at this level. Now, this Nine Yin Ghost General at the Nirvana Stage had reached this level.

"It's just you left now." The Nine Yin Ghost General raised his finger.

Jiang Zhiliang glared, his eyes wide open, unwilling to let his guard down. He knew he couldn't win, but even in defeat, he wouldn't back down.

"Jiang Zhiliang, just behave." The Nine Yin Ghost General aimed and locked on.

Yin Sha Three Fingers!

These three ferocious ghost qi attacked, and Jiang Zhiliang, unwilling, let out an angry roar. With the roar echoing, his voice revealed the humiliation and madness from within his heart.

Masses of Dao Intent Inscriptions turned into defense, resisting layer by layer.

However, they were useless against this Yin Dao Intent and Undead Ghost Qi.

His methods were easily broken, and then, the three ghost qi hit him directly.

"Ugh!" Jiang Zhiliang sprayed blood, retreated in waves, and fell to the ground, unable to get up again.

Upon seeing this scene, the happiest person was Duan Liuhe.

He had been somewhat hesitant about his choice before, as betraying humans needed deep consideration. However, he didn't expect the Nine Yin Ghost General to be so fierce.

Jiang Zhiliang and the others were all easily captured by the Nine Yin Ghost General.

"Hmph, a bunch of trash, in front of the Nine Yin Ghost General, they are nothing but ants, yet they still dream of resisting?" Duan Liuhe shouted harshly, feeling quite pleased.

Everyone else showed angry expressions, not only had Duan Liuhe betrayed them, but now he was also bragging about it?

At the same time, Murong Wufeng and the others found it difficult to speak, their voices trembling slightly, "Ya-Yang Chen, we should hurry back and report this news to our superiors."

Yang Chen thought about it and nodded.

He could have made a move just now, but these people were defeated too quickly. In the blink of an eye, the Nine Yin Ghost General defeated more than a dozen people, making his move useless at this point.

Moreover, he was uncertain whether there were other powerful beings besides this Ghost King.

His soul couldn't even probe the mysterious depths of the valley.

The best choice was to leave this place first and develop steadily.

For Yang Chen, leaving was not difficult.

His space was now independent, so as long as the Nine Yin Ghost General wasn't watching, they could still leave.

However, what shocked Yang Chen was that the Nine Yin Ghost General was actually looking straight at their location.

"Hmph, how long do you plan to hide?" The Nine Yin Ghost General pointed, and a large amount of Undead Ghost Qi rushed over.

For him, dealing with these lurking observers didn't even require the use of Yinsha Finger.

However, just as he was lingering on this thought, suddenly, an explosion echoed instantly.

Immediately, his ghost qi was dissolved layer by layer, and Yang Chen's figure appeared in everyone's line of sight.

Only Yang Chen could remain calm.

Murong Wufeng, Murong Hongye, and the others were so frightened that they could barely stand.

Had they actually been discovered?

"There are still humans?"

"So what? In front of the Nine Yin Ghost General, no matter how many people come, they'll all end up the same." These ghost creatures laughed arrogantly.

The captured humans also showed bitter smiles. They had just kindled hope, thinking that rescue had arrived, but now it seemed that it was just a group of secret observers. Now it seemed that this group would not be able to avoid being captured themselves.

Jiang Zhiliang and the other powerful ones were subdued again, this time with an even stronger prohibition for control.

Now most of the powerful ones stared at Yang Chen's appearance with dull eyes, not recognizing him.

Only Gu Feixing knew Yang Chen, but thinking about the power of the Nine Yin Ghost General, all he could do was sigh heavily.

"How did you discover me?" Yang Chen asked in surprise.

"I know how many patrolling Ghost Generals there are here. When one was missing earlier, I had been on guard. To be honest, I was really surprised that you could isolate the space and make my soul probes fail multiple times. But it's a pity, you were still discovered by me. Now that the mouse has been caught by the cat, prepare to obediently die."

As he finished speaking, the Nine Yin Ghost General looked at Yang Chen and the others greedily, like a predator.

The only thing that surprised him was that Yang Chen had managed to block his ghost qi, which was a very surprising thing>

However, with absolute confidence in his own strength, he didn't think this would have much effect on the situation.
