

Supreme MK 2681

Chapter 2681 Absorbing the Source of Evil Qi (Sa Qi)_1

They immediately jumped into the River of Extreme Yin to fish out the Evil Qi's Origin.

This was a great feat, who wouldn't want it?

When humans jumped into the River of Extreme Yin, these ghost creatures grew worried. If the Evil Qi's Origin was stolen by humans, it would be like losing a weapon against them. These ghost creatures would not simply allow humans to take advantage of them.

For this reason, these ghost creatures crazily leaped into the River of Extreme Yin, hoping to seize the humans who had just infiltrated it.

Yang Chen took advantage of the chaos, pretending to hunt down the humans before jumping into the River of Extreme Yin.

Once he had jumped into the River of Extreme Yin, it became much easier to continue taking advantage of the confusion.

The entire River of Extreme Yin was filled with enormous amounts of Sa Qi, making it difficult for one's soul to clearly perceive what was happening within.

Yang Chen had been able to detect Black Wind Ghost Marshal's movements within the River of Extreme Yin earlier because of his intimate understanding of Sa Qi, which made it hard for the Sa Qi to block his vision.

Now that he was inside the River of Extreme Yin, Yang Chen started to stretch his legs.

The vast amount of Sa Qi made it difficult for people to pinpoint their exact location within the River of Extreme Yin. As for finding the Evil Qi's Origin unless they were prepared beforehand, it would be even more challenging.

Moreover, the key point was that if one's protective barrier was not strong enough and became negligent, they might be invaded by Sa Qi, causing their mind to become unclear.

However, humans had Lingyi Grass to protect them, so they could avoid these issues.

But for Yang Chen, the abundance of Sa Qi didn't matter. Even if his Ancient Demon Qi couldn't suppress it, he could still allow it to circulate freely within his body before expelling it.

Yang Chen spread his soul within the River of Extreme Yin, where he couldn't see his own hand, observing his surroundings.

Upon observing, he noticed that many ghost creatures had already entered the depths of the River of Extreme Yin, as well as quite a few humans who had broken in.

During the chaos just now, many people had seized the opportunity to infiltrate the River of Extreme Yin.

This was undoubtedly a good thing for Yang Chen.

The more people, the better; the bigger the commotion, the better. This would provide him with many opportunities.

Now, Yang Chen's soul scanned the surroundings, searching for the hidden Evil Qi's Origin.

It might be hard for others to find, but not for him.

After a careful search, Yang Chen found the Evil Qi's Origin, which had nowhere to hide.

"This Evil Qi's Origin is really smart, its spirituality is extraordinary, hiding in such a hidden corner. If one's soul cannot function within the River of Extreme Yin, finding this Evil Qi's Origin might be quite tricky," Yang Chen muttered to himself.

Thinking this in his heart, Yang Chen effortlessly navigated the River of Extreme Yin, aiming straight for his target, using Space-Time Dao Intent to teleport to his destination with just a few flickers.

On the way, Yang Chen saw several battles between humans and ghost creatures within the River of Extreme Yin.

However, the matter of the Evil Qi's Origin was currently more important. He didn't have time to deal with these matters.

Now, Yang Chen was looking at the Evil Qi's Origin right in front of him.

The Evil Qi's Origin transformed into a cheetah, rushing towards Yang Chen with anger and ferocity.

Seeing this, Yang Chen narrowed his eyes and released the Sa Qi within his body on the spot.

As the vast amount of Sa Qi appeared, it suddenly intimidated the Evil Qi's Origin.

Feeling this, the Evil Qi's Origin trembled, its hostility gradually subsiding under Yang Chen's Sa Qi pressure. It even lowered its head, seemingly ready to submit.

This surprised Yang Chen, as he did not expect the Evil Qi's Origin to be so docile in front of him.

However, upon further thought, it wasn't that strange. The Evil Qi's Origin had just fought a fierce battle with the Black Wind Ghost Marshal and had lost much of its power. Now it was recovering and being pressured by his strong Sa Qi, how could it not submit?

He should be grateful to the Black Wind Ghost Marshal. Without it, subduing the Evil Qi's Origin would not have been easy.

Of course, the primary reason for the Evil Qi's Origin's submission was their compatible nature. It did not have a natural enmity toward him.

"Submit to me, and I will treat you well..."

Yang Chen encased the Evil Qi's Origin in his own Sa Qi.

Fascinated by Yang Chen's Sa Qi, the Evil Qi's Origin felt that they shared the same power. Its mood became even calmer, and eventually, it gave up all resistance as Yang Chen inducted it into the Demon God Tower.

Seeing this, Yang Chen couldn't hide his joy.

Now that the Evil Qi's Origin had been placed in the Demon God Tower, there seemed to be nothing else to worry about.

However, once the Evil Qi's Origin was placed in the Demon God Tower, Yang Chen felt its Sa Qi power diminish significantly, which surprised him.

"So that's it. Once the Evil Qi's Origin leaves the River of Extreme Yin, its power will greatly decrease? No wonder these Netherworld Ghosts never took the Evil Qi's Origin out," Yang Chen realized.

Even if the Evil Qi's Origin was powerful, once it was taken out and placed elsewhere, there would still be ways to deal with it slowly.

But Netherworld Ghosts didn't do that; instead, they kept the Evil Qi's Origin in the River of Extreme Yin because removing it would weaken its power significantly.

"No, it's not just decreasing - it's continuously decreasing. It's constantly diminishing..." Yang Chen's expression grew grave.

He believed that if this continued, the Evil Qi's Origin's Sa Qi would fade away, becoming completely useless.

"What on earth is going on?" Yang Chen hurriedly released the Evil Qi's Origin back out.

As soon as it was released, the power of the Evil Qi's Origin began to slowly recover.

Yang Chen understood the situation.

"So that's how it is..."

Yang Chen took a deep breath: "The Evil Qi's Origin and the Sa Qi of the River of Extreme Yin are mutually connected. The River of Extreme Yin's Sa Qi needs replenishment from the Evil Qi's Origin, and the Evil Qi's Origin requires the River's Sa Qi to circulate. The more Sa Qi enters the Evil Qi's Origin, the more Sa Qi it returns. In this way, the Evil Qi's Origin can remain consistently strong, becoming a genuine 'Sa Qi' source in every sense of the term."

"If the Evil Qi's Origin is taken out and loses that circulation, then it will gradually lose its effectiveness. And once the Evil Qi's Origin is gone, Sa Qi will continue to be endlessly produced!"

It was as if it were well water - the more you invested, the more labor you received.

"So, it's necessary to have a place that maintains a Sa Qi environment in the long term to preserve the Evil Qi's Origin?" Yang Chen quickly understood the situation.

The most suitable place seemed to be within his own body.

Chapter 2682 The Function of Evil Qi's (Sa Qi) Origin_1

With this thought, Yang Chen began to hesitate.

His body's Sa Qi had already reached its limit, and if he were to incorporate another origin of Sa Qi, would he still be able to suppress his ancient Demon Qi?

Thinking of this, Yang Chen began to worry.

"Forget it, I'll take a gamble. If it doesn't work out, I'll have to erase the spiritual intelligence of this Sa Qi origin, and use the Sa Qi inside my body to continuously circulate it into the Demon God Tower, thereby slowing down the loss of this Sa Qi origin."

Yang Chen attempted to integrate this Sa Qi origin into his body.

Upon trying, Yang Chen never expected it to work.

It was possible!

The Sa Qi origin entered his body and could perfectly circulate with his Sa Qi, continuously creating more Sa Qi without conflicting with his ancient Demon Qi.

This was naturally a good thing, which made Yang Chen overjoyed.

He had no time to observe the specific effects of this Sa Qi origin now, so his Space-Time Dao Intent hurriedly left this place, pretending to be in battle with humans.

Now that he had stopped flashing, Yang Chen saw two Ghost Generals attacking a human. Corpses were scattered all around, with four or five human bodies among them.

Upon close inspection, both of these Ghost Generals were astonishingly powerful, with over 15,000 Dao Intent Inscriptions. Their strength was quite extraordinary.

The fallen human Nirvana Stage warriors also seemed to be quite powerful, with some of them being well-known figures. However, they were clearly weaker than the two high-ranking Ghost Generals and their entire team had been wiped out.

Now, this human didn't last long either, screaming miserably and being killed by the two Ghost Generals.

Upon seeing this, Yang Chen's expression became solemn as he began to strategize.

After pondering for a short time, Yang Chen finally made up his mind.

"Hahaha, these five humans can easily bring in 200,000 Merit Points."

"Hehe, the key is this Chen Longhe, his strength is extraordinary, having reached the existence of 15,000 Dao Intent Inscriptions. He's worth quite a few Merit Points. It's a pity that we caught him. This time when we go back to claim Merit Points, just this guy alone could be worth up to 100,000."

"That's right, this guy is indeed quite valuable!"

"But, how do we split the Merit Points?"

The two Ghost Generals brought up the key issue.

As soon as they mentioned this, serious discussions began. The previously happy expressions on their faces all became incomparably solemn, and neither was willing to yield.

After much discussion, it seemed that the two of them had come to a satisfactory agreement.

However, at this moment, a sudden and extremely powerful Domain came crashing down.

This domain seemed like a Knife Mountain and Fire Sea, creating endless fear with each circle that descended, leaving the two Ghost Generals clueless about what had happened.

"Ah!"

"We're under attack!"

As the two Ghost Generals tried to counterattack in fear, they found themselves sinking into a quagmire, unable to move.

This made both of them afraid. Their combined strength of over 15,000 Dao Intent Inscriptions had been suppressed to this extent, and they still didn't know who their opponent was - how terrifying was that?

Looking at the Dao Intent Inscriptions, it wasn't a Great Ascension stage, but a Nirvana stage.

Could there be such a powerful Nirvana stage human?

However, before they could think any further, the Domain suppressive force came, and a palm print whistled towards them. The two ghosts looked at the palm print with hopeless expressions.

They knew very well what fate awaited them once they were hit by that palm.

"No!"

The two ghost creatures were slapped into oblivion with a single palm.

After killing those two ghost creatures, Yang Chen's figure was revealed. It was obvious that the person who had intervened was none other than him.

"These two ghost creatures are indeed powerful. I couldn't kill both of them in an instant with my Domain of Earth. I had to use the Hand of the Giant Golden Bell. I hope that my strength wasn't discovered just now. This place is not suitable for a long stay; I must leave quickly." Yang Chen whispered before erasing all traces of his actions and collecting the bodies of the dead humans. In an instant, he left the River of Extreme Yin.

At this moment, the Black Wind Ghost Marshal in the sky suddenly sensed something.

"Just now, there seemed to be a powerful Nirvana Stage Expert taking action, at least an existence with over 20,000 Dao Intent Inscriptions. Among humans, apart from Gao Menhu and a few other experts of

this level, those I've met mostly flee from me, especially that Gao Menhu. Although he doesn't possess many abilities, he is quite good at running away. However, the feeling I'm getting doesn't seem to be from any of the human experts I've met. So, who could it be?" The Black Wind Ghost Marshal's voice was low, and after licking his lips, he began to search for prey like a hunter, intending to find and expose this powerful Nirvana Stage Expert.

Yang Chen didn't know that the Black Wind Ghost Marshal was searching for him, and after returning to the shore, he began to pretend to be fighting with humans.

Of course, this pretense was quite simple for him, and he was relieved that no one seemed to notice anything.

As the war progressed and became increasingly fierce, it gradually entered a new stage.

Humans were indeed aggressive, but if the River of Extreme Yin had been that easy to conquer, it would have already been captured.

This wave of attacks was nothing but a test. For now, it seemed that the defenses of the Netherworld Ghosts were still as solid as steel, except for the recent incident of a group of humans breaking through and entering the River of Extreme Yin, there were no other opportunities.

However, just one group breaking through the defenses was clearly not enough.

Seeing that the group didn't survive and return, the Realmless leader in the sky spoke in a deep voice: "On my signal, withdraw!"

As soon as his words fell, a group of people swiftly withdrew, not daring to get entangled any further.

Once the human side had completed their retreat, the Netherworld side began to regroup, and the Ghost Generals returned to their posts. Yang Chen watched as this unfolded and couldn't wait to return.

He had to go back and figure out what this Sa Qi origin was about. Yang Chen could feel that it could bring him considerable power!

After the war, the ghost creatures returned to their posts. Yang Chen also safely returned to his ghost hole.

Once he returned, Yang Chen squeezed into the narrow space and began observing the Sa Qi origin within his body.

Now, the Sa Qi origin in Yang Chen's body began to circulate with the large amount of Sa Qi in his body, so much so that under this circulation, the True Qi in his body could actually be slowly transformed into Sa Qi.

Yang Chen was dumbfounded and almost couldn't believe his eyes.

True Qi?

This was already a distant power.

As soon as he entered the True God Realm, his True Qi was completely transformed into divine power. However, that didn't mean he couldn't use True Qi. On the contrary, if he wished, the amount of True Qi within his body was simply vast.

But for him, and for any powerful person who had surpassed the True God Realm, such power would be completely useless.

Chapter 2683 The Use of True Qi_1

But now, what can this Evil Qi's Origin do?

It can convert the True Qi contained in his body into Sa Qi directly, although the speed is slow, this method of continuously producing Sa Qi is in line with the name of Evil Qi's Origin. It can elevate the level of Sa Qi in his body.

The biggest benefit of this Evil Qi's Origin is that it turns his originally useless True Qi into something 'useful'.

Not only useful, but also greatly useful.

"Most of the True Qi in my body is converted into divine power, but there is an upper limit to the cultivation of divine power. Most of the True Qi has been restrained by me from continuing to convert into divine power. Therefore, it accumulates in my body, not refining Qi continuously and not transforming it into divine power either. Now, it's like having an extra path."

Indeed, if he did this, he would have another type of power in addition to Dao Techniques and divine power.

However, it is a pity that the speed of converting True Qi into Sa Qi is too slow.

If it was converted that way, even after ten or eight years, it would be at most a bit over one thousand Eye of Evil Qi's.

"By the way, I haven't really refined this Evil Qi's Origin into my own thing yet. Nowadays, it is only stored in my body, and in fact, it is not my own thing. If I refine it and completely integrate it into my body, the speed of converting True Qi into Sa Qi should be increased by a level. Now, it is obviously still somewhat lacking." Yang Chen silently judged.

Refine it into your own thing.

That's the key.

Yang Chen found the reason and began to take action, planning to refine the Evil Qi's Origin into his body.

Now that the Evil Qi's Origin is stored in his body, there should be no problem with refining. It should not be a big problem as he thought.

Yang Chen thought so, but when it came to the actual refining, his heart was suddenly shaken.

Yang Chen didn't care and continued refining!

But it was because of this that an inexplicable Sa Qi attacked him from within his body. His primordial Demonic Qi could hardly suppress so many Eyes of Evil Qi, let alone suppress this Sa Qi.

"Not good!" Yang Chen's expression changed.

At first, the refining of the Evil Qi's Origin was not a problem, but as the refining progressed, it became increasingly difficult. An astonishing Sa Qi would erupt directly from the Evil Qi's Origin and rampage within his body.

If his primordial Demonic Qi hadn't suppressed so many Eyes of Evil Qi, it wouldn't have been a problem. But the only trace of his primordial Demonic Qi in his body had suppressed a large number of Eyes of Evil Qi. With so much Sa Qi rampaging within his body, he had no choice but to stop refining.

Naturally, he had no way to deal with the Sa Qi within his body.

He could only stop the refining.

It seemed that the Evil Qi's Origin also enjoyed staying in his body, as if his environment was more comfortable than inside the River of Extreme Yin. When Yang Chen stopped refining, the Evil Qi's Origin also stopped rampaging within his body, and the two continued to coexist peacefully.

This almost made Yang Chen feel a bit like laughing and crying.

Yang Chen felt a deep sense of regret in his heart.

You have to know, if he can refine this Evil Qi's Origin, what does that mean? It means that he will become the owner of the Evil Qi's Origin directly. The speed of converting True Qi into Sa Qi will be elevated by a level. If the speed of converting True Qi into Sa Qi can keep up with the consumption of Sa Qi.

Then his Sa Qi will be endless.

His True Qi is Sa Qi.

At his current level, True Qi is endless. How much he wants to, how much he wastes freely.

However, Sa Qi and True Qi are different. Sa Qi can be wasted at will? Once someone gets close to him, they will be directly invaded by his Sa Qi, lose their sanity, and become terrifyingly frightened.

"I must find a way to refine this Evil Qi's Origin..." Yang Chen thought secretly.

But for now, there seems to be no other way.

In this small space, it's really uncomfortable to stay here. As soon as refining fails, Yang Chen doesn't want to be in it.

First, go out for some fresh air, then, Yang Chen thought of the human corpses on his body.

It seems that these human corpses can be exchanged for Merit Points?

Yang Chen thought about it and decided to give it a try.

These Merit Points of the Netherworld are still somewhat useful to him. He is very curious about the Undead Ghost Qi of the Netherworld Ghosts.

If he can find a solution, maybe he can make a huge breakthrough in the battle between humans and ghosts.

Others may not be able to, but Yang Chen believes that with his accomplishments in Alchemy, he can do it!

Thinking about it, Yang Chen thought silently, "My fellow Daoist friends, it's a pity that you still have to hand over your corpses to these Netherworld Ghosts after you die."

Afterward, Yang Chen arrived at the place where Merit Points were exchanged for Netherworld Ghosts.

The Deacon in charge of exchanging Merit Points was very familiar with the Ancient Scar Ghost General. When they saw Yang Chen arrive, they said in a deep voice, "Ancient Scar Ghost General, I remember that you went to the River of Extreme Yin the day before yesterday to do the protection task. How was the battle?"

Yang Chen didn't talk nonsense and handed over the corpses he had obtained.

When these human corpses were handed over, the Ghost Venerable Steward's pupils shrank: "This is... Chen Longhe's corpse? Kid, Chen Longhe is a Human with 15,000 Dao Intent Inscriptions. The reward is 100,000 points. How did you get it?"

"I picked up these corpses by chance, and the ghost who killed Chen Longhe seemed to have died with Chen Longhe." Yang Chen made up a reason.

There are Netherworld Ghosts in the Netherworld.

Even if the human corpses you picked up can play a role.

But the human side is completely different. The Ghost Cores handed in by the humans, once the memory search finds that it was not done by them, will be directly invalidated.

"Hmph, you kid, you've been lucky and encountered such good things. These human corpses can be worth 230,000 Merit Points. Hehe, plus what you've gathered before, you can finally learn your long-desired Undead Ghost Qi." The ghost venerable steward sneered.

Yang Chen handed over his token and Merit Points were in his hands.

Just like the way Humans get Merit Points, Merit Points are stored in the token.

After getting Merit Points, Yang Chen bought the Undead Ghost Qi. This Undead Ghost Qi was what the Ancient Scar Ghost General had dreamed of during his lifetime. Now Yang Chen has helped him achieve it.

Now, according to the memory of the Ancient Scar Ghost General, Yang Chen came to the 'Ghost Hall' of the Extreme Yin Land.

After arriving inside the Ghost Hall, Yang Chen went through the process and directly spent 300,000 Merit Points without any hesitation, obtaining the Secret Manual of Undead Ghost Qi.

It was also a sphere, containing the cultivation method of Undead Ghost Qi...

Yang Chen took a quick look and went deep into it.

Undead Ghost Qi is a very strange thing, not a Dao Technique born from Dao Intent Inscriptions and divine power, but it can crush Dao Techniques and is even the mainstream used in the cultivation of Netherworld Ghosts.

"Wait, Undead Ghost Qi is also something transformed from True Qi..." Yang Chen was suddenly stunned.

It seemed that he had discovered something incredible.

It seemed as if many people had overlooked what True Qi could do.

True Qi itself is indeed not very useful, but True Qi can be transformed into other forces...

Chapter 2684 Yang Chen Exposed?_1

Once transformed into other forms of power, the effect of True Qi would be greatly magnified.

Transforming it into Sa Qi.

Transforming it into Ghost Qi.

These are all things that True Qi can do, but divine power cannot. True Qi is the source of power.

The more Yang Chen thought about it, the more ideas he had. It seemed that he really needed to make use of the source of evil Qi. Once he completely controlled it, he would be able to use the power of evil Qi at will and use it to fight against his enemies.

With this in mind, Yang Chen carefully memorized the technique of Undead Ghost Qi in his mind and began to study countermeasures.

However, it was clearly not an easy task to research it in a short period of time.

Yang Chen put away the sphere and planned to leave and return to his Ghost Hole to study it slowly.

Thinking of this, he left the Ghost Hall.

Just as he was leaving the Ghost Hall, Yang Chen suddenly stopped. In his sight, a group of ghost creatures appeared. He initially thought that these Netherworld ghosts were not looking for him, but they swept their gazes around, finally focusing on him.

"Everyone..." Yang Chen frowned.

"Ghost General Gu Hen?" When they saw Yang Chen, some of them seemed surprised and thought it was unlikely.

But soon, the leading Ghost Venerable Experts began to shift their eyes and said solemnly, "Ghost General Gu Hen, we've had a hard time looking for you. You rendered great service in guarding the River of Extreme Yin a few days ago. Lord Black Demon Ghoul wants to see you. Please come with us."

Upon hearing this, many Ghost Generals were amazed and sighed in surprise.

"What did this Gu Hen Ghost General do to get an invitation from the Enforcement Team?"

"It's unbelievable that the Enforcement Team personally invited him."

"What did this Gu Hen Ghost General do on the River of Extreme Yin that we didn't hear about? Lord Black Demon Ghoul personally invited him."

The Enforcement Team was under the command of the Black Demon Venerable, who was ranked second among the Boundaryless Ghost Venerables, right below the Ghost King!

Yang Chen was also aware of this.

The Enforcement Team, directly obeying the Black Demon Ghoul, had many Great Ascension law enforcement leaders. This team could be considered very elite, dealing with internal issues in the Extreme Yin Land.

This made Yang Chen secretly thoughtful, as the situation was not that simple.

Why would the law enforcement team suddenly invite him to meet Lord Black Demon Ghoul? No one else knew, but he was clear about what he had done on the River of Extreme Yin. As Gu Hen Ghost General, he only picked up a few human corpses and handed them in, which could hardly be considered a credit.

However, Yang Chen didn't dare to defy on the surface and respectfully said, "No problem, thank you all."

He pretended to be excited but was constantly observing the expressions of the law enforcement team. However, all he saw was a hint of scrutiny and suspicion in their faces.

Realizing this, Yang Chen's mood suddenly became heavy.

Something was wrong.

He needed to probe slightly.

"Did you invite me to see Lord Black Demon Ghoul because he learned about me killing the human Nirvana stage expert Liutaichi?" Yang Chen asked with a flattering smile.

Several Great Ascension Ghost Venerables chuckled and said, "Exactly, Ghost General Gu Hen, you did a great job. This Liutaichi posed a great threat to our ghost creatures on the River of Extreme Yin. The things you did helped us a lot."

Having heard this, Yang Chen knew things were not going well.

Liutaichi was just a made-up name. Not to mention, he never killed any such martial arts expert. There was no such character as Liutaichi in the human world, so everything was entirely fabricated by Yang Chen. But these ghost creatures seemed to be in complete agreement with him, as if he had really accomplished this feat.

What does this imply?

It means that these ghost creatures were making up the fact that he had "achieved merit" and accomplished something big; they were fooling him to meet the Black Demon Venerable.

This alarmed him.

"Could my identity have been discovered?" Yang Chen wondered secretly.

He clenched his teeth, thinking that it was indeed possible. He had no idea when this had happened, but his various actions in the River of Extreme Yin had made it very easy to expose his true identity.

Yang Chen didn't know exactly when he had been exposed, but he had already considered it in his heart. Thinking for the best, his identity had not been exposed, and the Black Demon Venerable was indeed seeking him because of his merits. Would a powerful Boundaryless Ghost Venerable not be able to see through his disguise at close range?

His human identity would still be exposed by then, which was too risky for him to gamble on.

Not to mention that the possibility of exposure was still high.

Thinking like this, Yang Chen's expression grew heavier.

"Let's risk it," Yang Chen made up his mind.

He didn't waste any more words; his figure flickered, and his Space-Time Dao Intent was displayed. In a swoosh, he disappeared from the spot.

"Not good, the Ancient Scar Ghost General really wants to swallow the Evil Qi's origin all by himself."

"Chase him! Don't let him escape. This Ancient Scar Ghost General is hiding so deeply, usually keeping a low profile. He's even taken the Evil Qi's origin now. Chase him down, or none of us will end up well when Lord Black Demon Venerable punishes us."

A Great Ascension Ghost Venerable shouted, and the other Ghost Venerables suddenly chased after Yang Chen.

Upon hearing this, Yang Chen was shaken and quickly understood.

He didn't dare to waste any more time; his figure flickered once more. Using his Space-Time Dao Intent, he easily escaped from there.

Several Great Ascension Ghost Venerables wanted to chase Yang Chen, and they had even caught up very quickly, but upon close inspection, Yang Chen's eyes had completely disappeared.

This left a group of Great Ascension Ghost Venerables completely dumbfounded.

"What's going on?"

"Where's the person?"

They couldn't believe their own eyes; how had Yang Chen vanished in the blink of an eye?

Yang Chen, now with his Space-Time Dao Intent, landed in a certain position.

He didn't really care about being chased by several Great Ascension Ghost Venerables. If they wanted to kill him, even the Great Ascension Ghost Venerables would have to make all kinds of plans in advance. Otherwise, a blind attempt at killing him wouldn't pose any threat to him.

Now, he was hiding in the dark, not daring to make any rash moves. He calmed down and carefully contemplated the situation.

After some thinking, Yang Chen figured it out.

It turned out that these people were not chasing him because of his human identity. His human identity had not been exposed; instead, it was because he possessed the Evil Qi's origin.

"How did these people just now know that I got the Evil Qi's origin? How did they know?" Yang Chen was secretly puzzled, thinking: "Could it be that the process of me obtaining the Evil Qi by the River of Extreme Yin was seen clearly by these people?"

The more Yang Chen thought about it, the more frightened he felt. Fortunately, the group of ghost creatures only thought that he was an 'Ancient Scar Ghost General' who had hidden his intentions, wanting to get his hands on the Evil Qi's origin. They didn't know that he was actually a human.

Otherwise, the trouble would probably be even more significant.

Chapter 2685: Weakness of Undead Ghost Qi_1

At the same time, a group of law enforcers returned to the side of Black Demon Venerable.

The Black Demon Venerable was surrounded by soaring evil qi, with black gas swirling around him, making it incredibly difficult to discern his appearance.

Now, the Black Demon Venerable was furious, and standing beside him was a ghost creature, Black Wind Ghost Marshal.

Perhaps because Black Wind Ghost Marshal was nearby, the Black Demon Venerable felt uncomfortable about the loss of his face just now.

"You useless bunch, can't even bring a single Ancient Scar? What use do you have?" scolded the Black Demon Venerable.

A group of Great Ascension Stage law enforcers revealed bitter expressions: "Lord Black Demon Venerable, this Ancient Scar Ghost General is quite tricky. He actually has a large number of Space Talismans. If it were only one or two, we could catch up to him. But this kid used multiple ones in a row and disappeared without a trace. We don't know where he got so many Space Talismans. Such things are incredibly precious, but he can use them consecutively, no wonder we couldn't catch him."

"Are you still trying to make excuses?" The Black Demon Venerable spoke in a deep voice, "Do you know that this Evil Qi's Origin is something the Young Master Black Wind specifically requested?"

Black Wind Ghost Marshal spoke in a deep voice, "These people are indeed somewhat useless. Several Great Ascension Stage Ghost Venerables couldn't even capture an Ancient Scar Ghost General. However, uncle Black Demon, don't worry too much. This Ancient Scar Ghost General is indeed a bit strange. After he obtained the Evil Qi's Origin, I didn't act rashly and investigated his information first.

This kid, his previous external strength was quite ordinary, with no remarkable or astonishing achievements. But now, he has obtained the Evil Qi's Origin and escaped from the hands of many Great Ascension Ghost Venerable experts. It is not just luck and mistakes by these Ghost Venerables."

"Yes, we were surprised when we found out this kid got the Evil Qi's Origin. But we've been very cautious and not underestimated him. It was really our best, but we still let him escape," said several people with bitter expressions.

Black Wind Ghost Marshal spoke in a low voice: "This kid now seems to have been hiding his strength for a long time, and he has long aimed for this Evil Qi's Origin. Humph, he was talented to begin with. If he revealed his strength because of a mere bet, keeping him alive for focused cultivation would be a good thing. But this kid just had to set his sights on the Evil Qi's Origin that I wanted, not knowing the immensity of the heavens and the earth."

"Don't worry, Young Master Black Wind, this matter is the fault of our Enforcement Team, and it is our duty to do so. We will definitely chase back the Evil Qi's Origin," said the Black Demon Venerable.

"No need to worry, there is a prohibition on this Evil Qi's Origin, allowing us to track his location at any time. This time, I will go along as well to prevent any further mistakes," said Black Wind Ghost Marshal.

...

At the same time...

Yang Chen is now hiding in a deserted terrain of an Extreme Yin Land, very well concealed. However, unlike at the beginning, he now has an additional Nirvana Stage Ghost General that he didn't know where he captured from.

The spirit body had been killed, its spirit intelligence completely shattered, and the corpse was lying completely in front of him.

"Mu Heng Ghost General!"

Yang Chen muttered to himself.

He had successfully searched the memory, just like when he dealt with Ancient Scar Ghost General. Capturing it first, searching the memory, and then transforming himself by changing his identity with the ghost qi, he became Mu Heng Ghost General.

He knew that he could no longer use the identity of Ancient Scar Ghost General now because the people in the Extreme Yin Land would hunt him down. But if he discarded the identity of Ancient Scar Ghost General, it shouldn't be too easy for them to hunt him down again, right?

Yang Chen's mouth curved into a slight smile.

For Yang Chen, transforming himself into Mu Heng Ghost General was not difficult either.

He used the other party's ghost qi to refine an elixir, and a lot of ghost qi rose up. Then, using the Face Changing Technique, his ghost qi and appearance became completely identical to Mu Heng Ghost General.

As for the identity of the Ancient Scar Ghost General, he had completely abandoned it.

Next, Yang Chen completely disintegrated Mu Heng Ghost General's corpse into air and went on his way.

Mu Heng Ghost General's strength was much greater than that of Ancient Scar Ghost General. With over 9,000 Dao Intent Inscriptions, he wasn't as incompetent as Ancient Scar Ghost General. Along the way, a few people greeted him.

However, overall, it was still quite ordinary.

But for Yang Chen, it didn't make much difference. Now, he was mainly using this body for concealment.

"Head back to the Ghost Hole first!"

Yang Chen returned to Mu Heng Ghost General's exclusive Ghost Hole.

"According to Mu Heng Ghost General's memory, I am currently in the first half of the middle section of the Extreme Yin Land. If I move forward a little further, I can reach the middle zone."

This was faster than Yang Chen had imagined.

He really wanted to go to the Northern Region sooner but knew that it was not good to act impulsively at the moment.

"Let's research this Undead Ghost Qi first." Yang Chen muttered to himself.

With the Undead Ghost Qi in hand, Yang Chen began his in-depth exploration.

After studying it for seven or eight days, Yang Chen had come to a conclusion. This conclusion was that if he had time, there was a way to crack the Undead Ghost Qi.

He didn't know when he would be able to break it, but at least the complexity of the Undead Ghost Qi hadn't given him an insurmountable feeling yet.

This was enough.

Yang Chen continued to delve into the study. For seven or eight days, he had been completely immersed, neglecting sleep and food, and forgetting his identity.

After those seven or eight days, Yang Chen finally made some progress.

"Got it!"

Yang Chen was overjoyed, "This Undead Ghost Qi is in an extremely Yin state, and it should be resolvable by using Extreme Yang. However, the Extreme Yang heavenly materials and earthly treasures and divine weapons I brought with me don't seem to have much effect on breaking the Undead Ghost Qi. That's why."

He had been studying it these few days.

The vast world still could not get away from Yin and Yang Five Elements, mutual generation, and mutual restraint. After Yang Chen's initial study of Undead Ghost Qi, it was classified as Extreme Yin, which was also an inevitable thing in the Netherworld. Yang Chen originally thought that Extreme Yang could resolve it.

Therefore, he tried all his Thunder and Lightning Dao Intent and other Extreme Yang divine weapons and treasures, but the result was not very effective in cracking the Undead Ghost Qi.

"Indeed, this Undead Ghost Qi is superior to the Netherworld Ghost Qi. With my Thunder and Lightning Dao Intent, I can easily break the Netherworld Ghost Qi, but the Undead Ghost Qi falls just short. Originally, this Undead Ghost Qi, as an Extreme Yin, had a hidden side within it," thought Yang Chen to himself.

When he reached the Nirvana Stage, his Thunder and Lightning Dao Intent was no longer as effective as before against some ghost creatures who cultivated Undead Ghost Qi.

"To cultivate this Undead Ghost Qi, one must kill eighteen thousand Extreme Yang beings, and use the souls of eighteen thousand Extreme Yang beings to merge into the Undead Ghost Qi. With the souls of Extreme Yang beings as the foundation, they would mutually generate and restrain each other with Extreme Yin, producing Undead Ghost Qi. Extreme Yang materials cannot break the Undead Ghost Qi," Yang Chen muttered to himself.

Chapter 2686 Breakthrough of the Entire Southern Realm_1

It turned out to be true.

The Netherworld was so vast, and it wouldn't be easy for anyone to unravel the Cultivation Methods practiced there. Solely relying on Extreme Yang to break the Undead Ghost Qi might not last the Netherworld long.

To have persisted to this day, the Undead Ghost Qi must have something unique to it.

"The souls of eighteen thousand Extreme Yang creatures have been integrated into the Undead Ghost Qi, making it Yin within Yang and Yang within Yin. It's not easy to dissolve, but in reality, ghost creatures are incredibly afraid of Extreme Yang things. They hide the souls of the eighteen thousand Extreme Yang creatures in the depths of their bodies. If we can destroy the souls of these eighteen thousand Extreme Yang creatures, it will be much easier to break the Undead Ghost Qi."

Yang Chen calculated in his heart.

How to draw out and dissolve the souls of eighteen thousand Extreme Yang creatures contained in the Undead Ghost Qi is the key.

In fact, whether to crack the Undead Ghost Qi or not is not important to him because he is not afraid of the Undead Ghost Qi. When the Life and Death Dao Intent unfolds, the Undead Ghost Qi is nothing to him.

But can other humans do the same?

If he can make a breakthrough in this aspect, it would be a breakthrough for humans, and the whole human race would benefit!

Yang Chen wanted to study it further.

But at this time, there was a sudden voice outside: "Mu Heng Ghost General, I want to enter your Ghost Hole and open the door."

When Yang Chen heard this, his heart skipped a beat, but he quickly calmed down.

The voice belonged to the nearby patrol team captain, Ye Xi Ghost General.

Ye Xi Ghost General and Mu Heng Ghost General had a fair relationship, but they didn't hold any grudges against each other, which made Yang Chen ask cautiously: "Captain Ye Xi, why do you suddenly want to enter my Ghost Hole?"

"Not just yours, but everyone's Ghost Hole. Recently, there has been news from above that a brazen man named Ancient Scar Ghost General dared to monopolize the origin of Evil Qi. As a result, the Enforcement Team is in full pursuit. We will search the Ghost Holes one by one to avoid anyone hiding Ancient Scar Ghost General. Mu Heng Ghost General, if you have a clear conscience, let me search for a bit." Ye Xi team leader carefully said.

Yang Chen frowned when he heard this.

Captain Ye Xi probably didn't know his identity; otherwise, he wouldn't have been so explicit. Yang Chen let down his guard and slowly said, "Captain Ye Xi, please."

He opened the Ghost Hole, and Ye Xi team leader transformed into a stream of Ghost Qi and entered the Void.

"Hehe, you don't have to deliberately greet me by dissolving your body into Ghost Qi. I will leave after searching." Ye Xi team leader displayed his Ghost Qi state and said.

Little did he know that Yang Chen didn't dissolve into Ghost Qi to greet him specially. Yang Chen was a human, not a spirit body, and couldn't do such a thing.

"Captain Ye Xi, I am innocent. Take a close look; I am not harboring any Ancient Scar Ghost General. I don't even know him," Yang Chen said with a grin.

Ye Xi team leader heard this and nodded: "Well, I know."

When the conversation ended, Ye Xi team leader didn't intend to stay long and hurriedly left to inspect other Ghost Holes.

Yang Chen breathed a sigh of relief.

"Are they diligently searching for me outside?" Yang Chen thought to himself.

It seemed that the Ghost Hole was not a place to stay for a long time.

After all, he had changed his identity, but he couldn't guarantee absolute safety. He needed to leave as soon as possible; otherwise, it would be hard to keep the search from finding him.

He needed to prepare for the worst.

With that thought, Yang Chen wasted no more time.

According to the memories he searched from the Ghost Generals, he also learned some things.

Like the human side, the Extreme Yin Land has tasks that can be taken. Most of the tasks are not demanding, but the relatively safe ones are scarce, require a certain amount of Merit Points, and offer low returns.

Generally, ghost creatures would not take on such tasks. Not only do they have to pay Merit Points themselves, but the rewards are also not high. Who would do it?

These tasks are prepared for those who do not dare to go to the front lines or have no time to go to the front lines.

Yang Chen planned to accept one such task, alongside his escape preparations.

After all, if he went directly to the Northern Region, it would undoubtedly arouse suspicion. He needed to find a proper reason to do so.

Nowadays, Yang Chen arrived at the nearby task collection point, found the responsible Ghost Honorable Elder, and looked at the tasks left.

At first glance, Yang Chen was delighted; he was in luck and found a suitable task.

"Go to the Ink Flow Area and deliver an item. However, the requirement for Merit Points will be high." Yang Chen glanced at it without even thinking, "Elder, I'll choose this task."

The Ink Flow Area was in the front half of the Extreme Yin Land, and when he went there, he would not be far from the Northern Region.

"You're really willing to accept this task? It's clearly stated upfront that accepting this task requires a deposit of 50,000 Merit Points. The item you have to deliver is a treasure designated by Sky River Ghost Honorable. Afterward, your Merit Points will be returned to you, and you will be rewarded with 10,000 Merit Points, are you sure you want to do this task?" The elder asked in surprise.

Yang Chen thought about nothing, "Yes."

Many other Ghost Generals saw this and could not help but smirk.

"This kid must have gone crazy!"

"Hehe, I think so too. If he hadn't gone crazy, why would he think of doing this?"

"Exactly, Sky River Ghost Honorable is not easy to serve. If he fails to deliver the treasure, let's not talk about the consequences, but only giving an additional 10,000 Merit Points is not worth it."

"The key is, if you're not careful, you'll lose the 50,000 Merit Points deposited, and you'll be punished. It's not worth it."

Other people discussed in great detail.

This made the elder look at Yang Chen and confirm that he had no intention of refusing the task. The elder nodded and said, "Alright, give up the 50,000 Merit Points deposit first, and I will take you to get the item to be delivered."

"No problem." Yang Chen took out the Token directly.

Mu Heng Ghost General had accumulated 50,000 Merit Points over many years.

The elder in charge took Yang Chen's Merit Points and nodded, "Follow me."

Yang Chen followed behind him and came to a room shrouded with Ghost Qi. Various strange items were stored in the room.

These items were apparently all treasures to be delivered to different places.

The elder in charge didn't pay attention to the things placed on the floating shelves in the Void. Instead, he reached out and grabbed something from the darkness.

Yang Chen saw a soul imprisoned in a tiny cage.

Although this soul was imprisoned with various prohibitions suppressing it, it still emanated a terrifying aura.

Chapter 2687 Gun God Ji Wuyi_1

From this, it is evident that this soul must have been a powerful figure in his lifetime.

And upon closer inspection, it turns out that the soul's owner was a human being.

This caused Yang Chen to frown.

Humans?

Yang Chen looked at the soul and couldn't help but ask tentatively, "Elder, who is this human being? It seems that Tianhe Ghost Elder cares about him a lot."

"Hehe, not just cares about, this human is an extraordinary powerhouse from the human area, known as the Gun God Ji Wuyi. He adhered to Spear Technique in his life, and his methods were extremely terrifying. Although he didn't enter the ranks of king-level powerhouses, his combat strength is very formidable and fearsome. Ordinary Realmless Experts are not his opponents." Said the elder.

"But, isn't he still captured by Tianhe Ghost Elder?" Yang Chen smiled.

"Hehe, what do you know? Tianhe Ghost Elder is not his opponent at all. This human is someone who has cost Tianhe Ghost Elder and several other Ghost Venerable Experts a great deal of resources and strategy to kill. Even then, when Ji Wuyi went crazy, he still killed a Boundaryless Ghost Venerable under the siege of many Ghost Venerable Experts. Can you imagine how remarkable he is? To kill Ji Wuyi, Lord Tianhe Ghostly Sovereign basically expended all his resources." The elder said solemnly, "So you better be cautious, although it is unlikely that anything will go wrong on the way to Ink Flow Area, you still have to be careful."

Hearing this, Yang Chen took a deep breath, and thought to himself whether this was good luck or bad luck.

How did he get involved in this?

"Elder, forgive my young age for speaking out, but since Ji Wuyi was defeated by Lord Tianhe Ghostly Sovereign, why would his soul be left here? Couldn't Lord Tianhe Ghostly Sovereign just take it for himself?" Yang Chen asked.

"What do you know, after Ji Wuyi reached the Boundaryless Stage, although he died, he merged with the ultimate Spear Dao, and no force can break him. Protected by laws, he is very formidable and Tianhe Ghost Elder has no way to deal with him. Ji Wuyi's body was brought to our Ghost King for help, who then spent half a year breaking Ji Wuyi's body and extracting his soul. But even Ji Wuyi's soul is extremely firm and yang, which is exactly what Lord Tianhe Ghostly Sovereign wants." The elder sighed with longing, but did not dare to make any rash moves.

Yang Chen blinked his eyes and asked, "What does Lord Tianhe Ghostly Sovereign want Ji Wuyi's soul for?"

"Heh, you do have a lot of questions. Well, let me tell you so you can take this matter seriously. So you won't neglect to guard Ji Wuyi's soul during the journey. Let me tell you, Lord Tianhe Ghostly Sovereign wants Ji Wuyi's soul to absorb Ji Wuyi's Power of Laws, and also his Extreme Yang Body, Ji Wuyi has no wife in his life and is a Pure Yang Body. Once he absorbs its body, Lord Tianhe Ghostly Sovereign can cultivate into the Nether King Ghost Qi, increasing his strength!"

The Ghost Honorable Elder said solemnly, "Do you understand the concept now? If you lose Ji Wuyi's soul, no one can save you!"

Yang Chen, with his own thoughts, did not deny it on his face: "Of course, of course, I will certainly have Ji Wuyi's soul sent to Lord Tianhe Ghostly Sovereign."

"Alright, you understand how things are, and that's enough. The soul of Ji Wuyi has been suppressed by many prohibitions, so you have to watch it closely. If Ji Wuyi's soul escapes the prohibition, it can still recover. With his formidable strength, he can escape or recover at any time as long as he is not completely annihilated in both form and spirit. You cannot bear the responsibility for that." The Ghost Honorable Elder warned sternly.

Yang Chen, hearing this, hurriedly said, "No problem!"

The Ghost Honorable Elder saw that Yang Chen was a clever person and didn't waste any more words, and gave Ji Wuyi's soul to him.

Yang Chen took Ji Wuyi's soul without any change in his expression, but in his heart, he already had his own plan.

It was a joke that he, a human being, would hand over Ji Wuyi's soul to a Boundaryless Ghost Venerable Powerhouse.

How could that be possible?

Thus, Yang Chen, without any change in his demeanor, left the place and went straight to the Ink Flow Area according to the task's given route without stopping.

On the way, Yang Chen kept an eye on the soul in the cage, watching it closely.

Even though Ji Wuyi's soul had been imprisoned, it still displayed its boundless strength, but inside the cage, it was suppressed by the prohibitions. There was nothing Ji Wuyi's soul could do.

It couldn't communicate with him or move.

With this in mind, Yang Chen started to try to crack the cage.

For him, the prohibition was indeed profound and untraceable, but with some time, he could easily break it.

Moreover, with the help of the Ice and Fire Sky Phoenix, Yang Chen asked a few questions and perfectly cracked the prohibition.

Now, only a few prohibitions remained.

Yang Chen treated them seriously and cracked the last few prohibitions bit by bit. Finally, with a bang...

The cage shattered on the spot.

Immediately after, an astonishing aura burst out.

Yang Chen only saw a dazzling flash of light, and then a human in a spirit body state appeared in his vision.

"Hmph, you Netherworld creatures dare to release my soul? What, do you underestimate me, Ji Wuyi? Do you think I don't dare to self-destruct and annihilate myself?" The soul roared.

Yang Chen, seeing Ji Wuyi about to self-destruct, shivered all over and quickly said, "Senior, calm down, I'm not a ghost creature, I'm a human being."

Hearing Yang Chen's words, Ji Wuyi's expression grew severe: "You're a human? How so?"

Yang Chen dispersed the ghost qi, and immediately removed a silver needle from his body, dispelling the Face Changing Technique and revealing his original appearance.

"Now you know, senior?" Yang Chen said.

After completing these steps, he quickly changed his appearance back to Mu Heng Ghost General, as holding on to his human appearance for too long would easily arouse suspicion.

"What a powerful disguise technique. I'm afraid even ordinary Mahayana Stage experts can't tell your true identity. I can't believe I encountered a human being in this Extreme Yin Land. It's hard to believe. Thank you, kid. Thank you for saving me." Ji Wuyi sighed.

Yang Chen smiled faintly, "Since we are both human beings, there's no need for senior to be so polite. By the way, senior, please suppress your aura a little, so as not to be noticed. Later, I will try to find a body for you and help you restore your strength."

If he could help Ji Wuyi find a body in this Extreme Yin Land, then having Ji Wuyi, a Boundaryless Expert, escort him out would be much simpler and easier.

However, Ji Wuyi sighed lightly, "What's your name?"

"Junior, Yang Chen." Yang Chen responded straightforwardly.

Chapter 2688 Crisis Looms_1

Ji Wuyi asked again, "How did you end up here? If I'm not mistaken, we should still be in the Extreme Yin Land, right? Did humans win already?"

Yang Chen heard Ji Wuyi's thoughts and calmly smiled, "Senior, you are mistaken. Humans are still fighting the Extreme Yin Land. It is not easy to take it down. I have a personal reason for being in the Extreme Yin Land. I come from the southern region, and my current goal is to cross the Extreme Yin Land to reach the northern region, mainly to handle some personal affairs."

He did not reveal his plan to collaborate between the two realms to fight against the Extreme Yin Land. After all, he had just met Ji Wuyi, and even though Ji Wuyi seemed like the same kind of person, it was still best to be cautious.

Ji Wuyi sighed after listening to Yang Chen's words, "Good lad! Although I don't know what you are going to do, you have commendable courage to travel from the southern region to the northern region. As it happens, I also come from the northern region, but unfortunately, I was tricked by those Ghost Venerables and ended up in this predicament."

Yang Chen nodded in agreement, "Junior is aware of Senior's situation and will help find a suitable body for Senior."

Ji Wuyi sighed lightly, with no joy in his expression, "Yang Chen, thank you, but unfortunately, I know my situation. My body is destroyed, and I should have found another body to recover. However, not only has my soul left the body for a long time, but it is also in an incomplete state. Even if I find another appropriate body, I will not be able to recover."

"This..." Yang Chen instantly became serious.

Indeed, some powerful individuals, as long as their souls are intact, can recover when they find a suitable body.

However, this has its flaws. If the soul is severely damaged, it loses the qualification to recover a physical body. Even if they find a body, the soul and body will not be able to merge and it will be useless.

Ji Wuyi sighed with bitterness, "Now my soul is constantly losing energy, and there isn't much time left. I can't last much longer. Although I doubt that you can cross the Extreme Yin Land and reach the northern region, at this point, I can only place my hopes on you. Yang Chen, if you return to the northern region, I only hope that you can take me to see the Three Flowers Sect once."

"The Three Flowers Sect?" Yang Chen thought to himself how coincidental it was.

His first stop in the northern region was indeed the Three Flowers Sect, and now, coincidentally, Ji Wuyi's goal was also the Three Flowers Sect.

Yang Chen wanted to ask why the other party was going to the Three Flowers Sect, but he decided against it and said, "No problem, leave it to me."

Ji Wuyi was quite melancholic, as he knew that his departure from the world was inevitable, and no one could remain calm.

"Of course, I won't take advantage of you for nothing. Yang Chen, if you help me, just ask for anything you want. Although I am now just a dying soul and could scatter at any moment, I still have some usefulness. If you see any use for me, you can set the condition, and I will surely satisfy you," said Ji Wuyi.

Yang Chen listened and could not help but ask, "Is Senior strong in spear techniques?"

"Spear techniques? Hehe, I don't dare to say about other things, but in the entire Southern Realm, there are not many people who use spears. I consider myself second best, and no one dares to claim to be the best!" Ji Wuyi said with a faint smile.

"As a junior, I have no other thoughts, I just wish to witness Senior's strength in spear techniques, that would be excellent," said Yang Chen with awe.

He was thinking about learning Ji Wuyi's spear techniques, as he considered his own spear skills not inferior.

However, he was only helping Ji Wuyi go to the Three Flowers Sect by the way, asking for his family's secrets would be unkind.

So, Yang Chen did not ask for the cultivation methods but just thought about seeing their power, which was enough.

Ji Wuyi forced a bitter smile, "I'm afraid I can't satisfy your wish. Now with this body, I can't use my spear technique even at 10 percent of its strength."

"What a pity," Yang Chen sighed secretly.

Ji Wuyi did not know Yang Chen's purpose and only thought Yang Chen was admiring his spear techniques, so he did not think much of it. After all, as he said, there were not many people who practiced spear techniques in the world.

Yang Chen continued to chat with Ji Wuyi while making their way.

Time flew by swiftly.

Yang Chen and Ji Wuyi, one man, one soul, spent five days traveling before finally arriving in the Ink Flow Region.

When they entered the Ink Flow Region, the number of ghost creatures began to increase.

Yang Chen became cautious and placed Ji Wuyi into the Demon God Tower, intending to cross the Ink Flow Region and find a way to leave the Extreme Yin Land.

As for the task?

What a joke, he wouldn't hand over Ji Wuyi for no reason. Even if he lost 50,000 merit points or 500,000, he wouldn't care. He just let it go.

Now, as he walked into the Ink Flow Region, Yang Chen first purchased a map on the way.

After obtaining the map, Yang Chen began to plan his departure from the Ink Flow Region.

"After the Ink Flow Region, there are two more levels: the first is the Hei Song District and the second is the Divine Punishment District!"

These two regions were not particularly special, so Yang Chen didn't pay much attention to them.

After passing through the two regions, he would reach the battleground between the Extreme Yin Land and the northern region. From there, he would be just a step away from completely reaching the northern region.

With this in mind, Yang Chen had a direction.

As long as he crossed these two regions...

Yang Chen looked for a path and planned to head straight for the Hei Song District.

However, just as he was about to start, suddenly, a huge amount of Qi pressure descended upon him. This made Yang Chen feel a sudden shock, and his soul scattered to find a large number of Netherworld Ghosts' Enforcement Team members surrounding him in the sky.

This made a group of ghost creatures wonder what had happened and started discussing among themselves.

"What's going on?"

"Members of the Enforcement Team are here?"

"Look, it's Black Wind Ghost Marshal!"

"Emperor-level Black Wind Ghost Marshal? God, I can't believe I can see him! Isn't he in the southern battlefield of the Extreme Yin Land, learning from the heels of the Ghost King? How did he come here?"

"I'm so excited to see Black Wind Ghost Marshal."

Yang Chen also saw the Black Wind Ghost Marshal in the high altitude.

What made him squint his eyes was that the eyes of the Black Wind Ghost Marshal were also looking at him.

Yang Chen instinctively believed that it was a coincidence, that the Enforcement Team and Black Wind Ghost Marshal's goal was not him, but after thinking about it carefully, it seemed improbable that their goal was not him.

"Mu Heng Ghost General, hahaha, Ancient Scar Ghost General's disguise is really good! He even managed to change his appearance and become Mu Heng Ghost General!" Several Great Stage Ma

-hayana Ghost Venerables in the Enforcement Team sneered.

Chapter 2689 Battle with the Emperor-Level Ghost General_1

Yang Chen's expression became serious, and upon hearing what the several Great Ascension Stage law enforcement team members said, he was unable to figure out the situation for a moment.

What's going on?

Why do these people know his identity?

Although the true identity of humans has not been revealed yet, these people can know that he is disguised as an Ancient Scar Ghost General.

Unable to understand what was going on in his mind, Yang Chen glanced upward with a deep voice: "How did you all find me?"

These law enforcement team members sneered, "Do you think we will tell you? Ancient Scar Ghost General, you are quite a talent. Unfortunately, you never should have meddled with the source of Evil Qi

that Young Master Black Wind is after. It's not something you can touch. If you had shown your true strength instead of hiding it, you would have been taken seriously. Too bad you have no chance now."

"All of you, disperse. The enforcement team is enforcing its law. Anyone who does not leave in time will be judged with the same sin as this person."

For a moment, the enforcement team roared on the spot.

Hearing these words, the other ghost creatures with various cultivation levels couldn't sit still any longer. They scattered in all directions, not daring to linger any further.

In an instant, a large number of ghost creatures locked their eyes on the scene, buzzing with discussions, curious about what was going on.

"What's going on?"

"I guess it might have something to do with the Ancient Scar Ghost General incident that happened a while ago. I heard that a guy named Ancient Scar Ghost General emerged in our Extreme Yin Land, took something he shouldn't have taken, and got chased by the enforcement team."

"The bounty order from the enforcement team has been sent out, which shows that this Ancient Scar Ghost General is quite extraordinary. Unfortunately, he was still captured by the enforcement team."

"Now things are getting interesting. We can actually get to see the enforcement team in action. They've always been considered as the least important team in the Extreme Yin Land. After all, what problems could arise within our Extreme Yin Land? But today, they're really coming in handy."

Now, a group of law enforcement team members said coldly: "Ancient Scar Ghost General, are you going to surrender or do you want us to catch you?"

"This guy won't surrender so easily." The Black Wind Ghost Marshal suddenly spoke in a low voice.

Yang Chen squinted his eyes, his gaze falling on the Black Wind Ghost Marshal. In his eyes, these Great Ascension Stage cultivators were not a big deal. The real threat was this Black Wind Ghost Marshal.

Black Wind Ghost Marshal was more threatening than those Great Ascension Stage cultivators.

Now that he was being watched by the Black Wind Ghost Marshal, Yang Chen felt as if he had been targeted by a venomous snake, his whole body shivering slightly.

Looking at Yang Chen, the Black Wind Ghost Marshal sneered, "I'm right, aren't I, Ancient Scar Ghost General?"

Yang Chen didn't express much concern. Indeed, he wouldn't surrender so easily. At the moment, without saying a word, he immediately tried to use his Space-Time Dao Intent to leave.

He couldn't stay here for long.

The Space-Time Dao Intent flickered, and in an instant, Yang Chen had disappeared from where he was.

However, just as Yang Chen was about to leave, he suddenly felt as if he had hit an invisible wall. Following that, Yang Chen's pupils shrank, and after a brief flickering, he returned to where he was.

The Space-Time Dao Intent had failed.

"Hehe, this kid really does have a spatial Dao Intent technique," other law enforcement team members sneered. "Thankfully we were prepared this time."

The Black Wind Ghost Marshal stood with his hands behind his back, saying, "Ancient Scar Ghost General, it's a pity that you seem to have Space Dao Intent. But the enforcement team has already sealed the surrounding area – escaping now is pointless. It seems that you're quite powerful, so I'll take you on myself. Friends of the Law Enforcement Team, don't take action. I will personally kill this person, and in the meantime, I want to see what kind of character this person is that can subdue the Evil Qi Origin that even I can't control."

When the conversation ended, the Black Wind Ghost Marshal suddenly dispersed his Ghost Qi.

Nether King Ghost Qi, with an astonishing aura!

As soon as he took action, in just a brief moment of fluctuation, the Ghost Qi spread all around, causing everyone present to be shocked.

The onlookers were astonished.

"Lord Black Wind Ghost Marshal has taken action!"

"To have the chance to see Ghost Marshal in action is truly a great fortune."

"Hahaha, this Ancient Scar Ghost General is in trouble, what can he do when Lord Ghost Marshal has set his sights on him?"

As Yang Chen stared at The Black Wind Ghost Marshal's Ghost Qi, he was shaken by the thought, "What a powerful Ghost Qi!"

He knew the effects of Undead Ghost Qi. Once it contaminated a person, it would corrode and paralyze their body and mind, leaving them like walking corpses. This was the horrifying aspect of Ghost Qi, so when fighting with ghost creatures, it is essential to keep the Ghost Qi from getting close.

This Nether King Ghost Qi stands only above Undead Ghost Qi, and Yang Chen can't afford to let it get close to him. Without a second thought, he waved his hand, releasing the Evil Qi he had just gained control of.

With the rolling Evil Qi spreading inside him, Yang Chen no longer needed to exert divine force to display it.

As long as he expanded it slightly, the Evil Qi soared into the sky, spreading in all directions.

When so much Evil Qi burst out, it moved like a tidal wave, rushing towards the Nether King Ghost Qi.

"What? Evil Qi!" Black Wind Ghost Marshal's pupils shrank, almost not believing his own eyes.

Yang Chen's terrifying majestic Evil Qi swept by, colliding with his Nether King Ghost Qi. The clash of the two forces was evenly matched for just a moment.

Everyone watching was amazed!

"This Ancient Scar Ghost General can actually fight on par with Young Master Black Wind!"

"How is that possible? Just wait, we'll see a result soon. This Ancient Scar Ghost General can't possibly fight Black Wind Ghost Marshal evenly. The situation will change."

Many people believed that the situation would change soon.

At present, Yang Chen's Evil Qi was indeed on par with Black Wind Ghost Marshal's Ghost Qi. This also startled Yang Chen. His Eye of Evil Qi had condensed over ten thousand strands of Evil Qi, yet they were only able to match the Black Wind Ghost Marshal?

If he hadn't relied on the Evil Qi Origin and had just compared the Ghost Qi and Evil Qi, he wouldn't have any advantage.

The low-level ghost general was truly extraordinary!

Even Great Ascension Stage cultivators could be killed by one, truly terrifying!

However, unfortunately for him, Yang Chen's Evil Qi was not just limited to the ten thousand strands of Evil Qi in the Eye of Evil Qi, but also the Evil Qi Origin.

The Evil Qi Origin could harmonize Evil Qi so that it would continuously recover. Even though the speed was slow, the amount of Evil Qi restored was undoubtedly much stronger than the Nether King Ghost Qi.

As soon as the two sides started using their "Qi" power, they each held their own methods. However, the more they persisted, the more difficult it became for the Black Wind Ghost Marshal to maintain his stance.

"What!" The Black Wind Ghost Marshal couldn't believe his eyes.

The onlookers didn't know, but he was very clear that he was already on the verge of being unable to hold on any longer. In the initial confrontation with Yang Chen, his Nether King Ghost Qi was already at a disadvantage!

He had to use other means to change the current situation.

But once he did that, even a fool would know that he had lost the first round!

However, facing the horrifying pressure of Yang Chen's Evil Qi, he understood that he no longer had a choice!

Chapter 2690: Are You Human?_1

His Nether King Ghost Qi was indeed no match for Yang Chen. He had to resort to other means to resolve the situation.

Thinking about this, Black Wind Ghost Marshal, full of unwillingness, unleashed his Dao Intent Inscriptions in an instant, spreading out layer upon layer and rushing towards Yang Chen.

When the Dao Intent Inscriptions dispersed, more than 30,000 inscriptions, like a sharp sword, rushed into the sky.

As the inscriptions attacked layer by layer, combined with ghost qi, Yang Chen's Evil Qi Domain also seemed less effective.

“Not good, the Evil Qi can’t hold on.” Yang Chen forcefully suppressed the Evil Qi, but at this moment, the Evil Qi burst apart, and his body also fiercely retreated.

However, this already shocked many people.

“The Young Master Black Wind Ghost Marshal’s Ghost Qi actually can’t suppress this Ancient Scar Ghost General?”

“I can hardly believe it.”

“No, this Ancient Scar Ghost General is not using Ghost Qi, but Evil Qi. However, it is true that Black Wind Ghost Marshal’s Nether King Ghost Qi is still no match, it’s incredible.”

“But it won’t affect the outcome. The Black Wind Ghost Marshal made a move, using more than 30,000 Dao Intent Inscriptions. This kid will still be defeated.”

Yang Chen now faced Black Wind Ghost Marshal’s more than 30,000 Dao Intent Inscriptions, indeed feeling shaken, for the pressure was too great. It was as if a huge mountain was attacking from the air, giving him a deep sense of shock, even shaking his unswerving confidence in himself, almost making him think that he could not rival Black Wind Ghost Marshal.

But fortunately, his Dao heart was very firm, and facing such a strong enemy, he still reacted in time.

As soon as he reacted, Yang Chen did something very simple.

Fight!

“Domain of Earth, suppress!” Yang Chen gritted his teeth.

The Domain of Earth spread out, combined with his successive Dao Intent suppressing it.

However, this suppression made Yang Chen's face extremely difficult.

Black Wind Ghost Marshal's speed was indeed slow, and feeling the surrounding Dao Intent Inscriptions on his bones, he was quite astonished, but he soon reacted, using his unmatched strength to begin to struggle and resist.

As he struggled, Yang Chen's Domain of Earth became turbulent and difficult to calm, even somewhat out of Yang Chen's control.

"Not good." Yang Chen's body shuddered.

In the end, the Domain of Earth crumbled, and his 23,300 Dao Intent Inscriptions in the Domain of Earth could not suppress Black Wind Ghost Marshal at all.

The gap was too big. Even so, there was a difference between 23,000 and 30,000.

"The quality of this Black Wind Ghost Marshal's 30,000 Dao Intent isn't ordinary. Emperor-level Ghost Beings are not to be underestimated." Yang Chen's scalp began to tingle.

As the Domain of Earth collapsed, his situation became exceptionally difficult.

At the same time, Ji Wuyi, who was watching Yang Chen's battle from within the Demon God Tower, was also very clear about this Black Wind Ghost Marshal as a Boundless Stage expert of the human race.

Seeing Black Wind Ghost Marshal, he originally thought Yang Chen was finished.

Because among the humans in the Nirvana Stage, no one could be an equal opponent to Black Wind Ghost Marshal. Black Wind Ghost Marshal was recognized as invincible among the Nirvana Stage.

No Nirvana Stage could compete with him.

Moreover, no Nirvana Stage could even compete with him in numbers. As long as it was the Nirvana Stage, no matter who, they would start running at seeing the Black Wind Ghost Marshal. This was a universally recognized fact in the northern region.

Only elite Mahayana Stage teams were able to deal with the Black Wind Ghost Marshal.

But Yang Chen actually fought several rounds with Black Wind Ghost Marshal, and at most, just fell slightly behind?

“Not good, Yang Chen’s situation is looking bad.” Ji Wuyi saw that Yang Chen’s domain was broken and drew a conclusion.

“More than 23,000 Dao Intent Inscriptions. Yang Chen’s Dao Intent Inscriptions are already quite astonishing, but they are still somewhat lacking.” Ji Wuyi sighed.

Now that the Black Wind Ghost Marshal has broken Yang Chen’s Domain of Earth and controls the Dao Intent, he attacks Yang Chen once again.

Yang Chen no longer hesitated, grabbed the Slaughter God Spear and quickly went towards the ground.

A large number of Dao Intent inscriptions directly began a head-on collision.

Yang Chen’s 23,300 Dao Intent collides with the Dao Intent Inscriptions of the Black Wind Ghost Marshal.

“Thirty-four thousand and seven hundred!”

Yang Chen’s pupils shrank.

It was indeed frightening that Black Wind Ghost Marshal's Dao Intent Inscriptions numbered 34,700. However, even though their Dao Intent Inscriptions collided, Yang Chen still remained unyielding. Instead, during their battle, there was a brief stalemate.

This made Black Wind Ghost Marshal's face turn cold.

His 34,700 Dao Intent Inscriptions couldn't crush Yang Chen's more than 20,000 inscriptions?

How was this possible?

Black Wind Ghost Marshal roared and unleashed all his powerful Dao Intent Inscriptions, displaying all of his power.

It was at this moment that Yang Chen's Dao Intent Inscriptions suddenly collapsed, and Yang Chen himself also kept retreating, as a mouthful of blood spurted out.

Yang Chen's state was indeed somewhat low, but it did not affect his fighting. However, the blood spurt was enough to show the prowess of Black Wind Ghost Marshal.

You should know that even when fighting the strongest Nirvana Stage opponents before, Yang Chen had never been so embarrassed.

But this already stirred up Ji Wuyi's astonishment.

Is there anyone else who can fight against an Emperor-level Ghost Marshal head-on and only spit out a little blood?

Now that Black Wind Ghost Marshal has repelled Yang Chen with one move and even injured him, a group of ghost creatures is greatly delighted.

However, Black Wind Ghost Marshal did not immediately follow up on his victory, but said in a low voice, "Ancient Scar Ghost General... No, one should say, a human kid, right?"

Hearing this, Yang Chen's eyebrows furrowed, not good, was he discovered?

"Human? What's going on? Young Master Black Wind?" The other enforcement teams were puzzled.

Black Wind Ghost Marshal licked his lips, "We were all mistaken. We thought this kid was some Ancient Scar Ghost General, haha, actually not, this kid's true identity is actually human. I always felt something was wrong, and only found it strange when I really fought with this kid. This so-called Ancient Scar Ghost General's control over Ghost Qi is virtually zero. I was quite suspicious at the time, so I started paying attention. Just now, as I fought with him, I observed that this kid's body is not a spirit body but a flesh body. Hehehe, it was only then that I knew his true identity. What do you think, am I right, human?"

Seeing that Black Wind Ghost Marshal had seen through his identity, Yang Chen no longer hid anything and said coldly, "Yes, you're right, I am indeed human."

Black Wind Ghost Marshal sneered, "Human, not bad... I thought there were no more masters among humans. I didn't expect humans to still be brewing this kind of plan, hiding such masters like you in our Extreme Yin Land."
