

Supreme MK 2691

Chapter 2691 Ice and Fire Sky Phoenix Takes Action_1

When this sentence fell, everyone was shocked. Before this, who could have thought that Yang Chen was actually human?

No one could have guessed. Everyone thought that Yang Chen was an ancient scar ghost general, just a ghost creature who had taken something he shouldn't have.

But now, things are far more complicated than they imagined.

"This is much more interesting now, this kid is actually human?"

"When did humans sneak into this place? It seems that as soon as humans step into the Extreme Yin Land, even the Boundless Stage experts can hardly survive."

"Where did this kid come from?"

These ghost creatures discussed with each other.

Meanwhile, the members of the Enforcement Team were also investigating Yang Chen's soul.

Upon this investigation, some people quickly reached a conclusion, and the Mahayana-period Ghost Honors were not entirely inexperienced.

"That's right, this is indeed a human kid. It's unbelievable that this guy is actually human."

"Black Wind Ghost Marshal, why don't we make a move and kill this kid?"

Black Wind Ghost Marshal coldly said: "No need, it's not often that humans encounter such a master, so I have to play with him properly. Humph, you guys just make sure to seal the surrounding space and don't let this kid escape. Although the Space Dao Intent is faster than Gao Menhu's Light Dao Intent, it

still has its shortcomings. As long as the space is sealed in time, this kid's Space Dao Intent will be useless."

When the conversation ended, Black Wind Ghost Marshal's gaze locked onto Yang Chen again.

Yang Chen also became extremely solemn, knowing that his situation was very bad.

Black Wind Ghost Marshal sneered: "Human, I underestimated you before. Since that's the case, I'll be a bit more serious when dealing with you."

With that said, Black Wind Ghost Marshal stomped his foot.

"Black Wind Crow!"

Then, a crow's illusory wings suddenly appeared around him, and immediately, a large amount of black ghost qi and Dao Intent Inscriptions merged together, transforming on the spot into the shape of a crow.

No one knew what his Dao Intent Inscriptions were, only that there were numerous crows floating around him, their wings spread out, each exuding a strange and gloomy aura.

The eyes of these crows were blood red, flapping their wings around Black Wind Ghost Marshal, controlled by him.

Now Black Wind Ghost Marshal sneered coldly, his figure disappeared and he appeared above Yang Chen, striking down with a palm.

"Crow God!"

With this palm, the crow wings behind him spread out and let out a strange, eerie cry. Immediately, rows of crows neatly and orderly rushed towards Yang Chen, their ferocity fierce.

"The Hand of the Giant Golden Bell!"

Yang Chen struck out with a palm.

However, with just one palm, Yang Chen suddenly felt a shock in his heart. As he just made the move and looked ahead, his soul carefully swept, and suddenly felt that something was wrong.

Because the large number of crows in front of him, attacking him, surprisingly, was accompanied by a giant invisible palm print!

This palm print was invisible, but it actually carried a large number of Dao Intent Inscriptions and terrifying power, which the Hand of the Giant Golden Bell couldn't dissolve at all.

Seeing this, Yang Chen dared not be careless. His whole body suddenly separated the Tribulation Divine Body.

When the Tribulation Divine Body was born, Yang Chen shouted: "Domain of Earth, suppress it for me!"

Double Earth Domain immediately spread out, and then, it also hit the Hand of the Giant Golden Bell in the same direction at the same time.

With this palm strike, it collided with the 'Crow God', and the two forces collided, dissipating each other, and ending in a stalemate.

But he had to use the Tribulation Divine Body to stalemate with Black Wind Ghost Marshal, which showed how powerful Black Wind Ghost Marshal was in his Black Wind Crow state.

"Good kid!" Ji Wuyi was becoming more and more shocked.

There was such a brilliant genius in the south?

Tribulation Divine Body!

Although they also had a genius with a Tribulation Divine Body in the north, Ji Wuyi felt that Yang Chen was more cool-headed and a little more outstanding compared to that genius.

At least, that genius with the Tribulation Divine Body would definitely not be able to fight against the Black Wind Ghost Marshal to such an extent.

Now, Yang Chen was controlling the dual domain, starting to suppress the Black Wind Ghost Marshal, and it was indeed having some effect.

The Black Wind Ghost Marshal's speed was becoming incredibly slow.

This made Black Wind Ghost Marshal let out an angry roar, "Kid, do you think you can suppress me?"

Immediately, the Black Wind Ghost Marshal's body also separated into a Tribulation Divine Body.

As soon as the Tribulation Divine Body appeared, there was a lot of discussion around.

"This kid is not even at the Mahayana Stage, yet he forced Black Wind Ghost Marshal to use the Tribulation Divine Body?"

"This human is extraordinary."

"No shit, daring to enter our Extreme Yin Land, he definitely isn't an ordinary human."

"Whether he's ordinary or not isn't important; this kid's dead for sure."

Black Wind Ghost Marshal also felt angry about using his Tribulation Divine Body now. In his eyes, the existence of more than twenty thousand Dao Intent Inscriptions was in no way threatening him and had an absolute gap compared to him.

But now, Yang Chen could actually force out his Tribulation Divine Body.

So be it, let's end it completely.

The Black Wind Ghost Marshal unleashed his Tribulation Divine Body and let out a fierce roar. Boom!

Even though Yang Chen forcefully maintained his dual domain, the Black Wind Ghost Marshal was too overbearing. When the Tribulation Divine Body was activated, his domain couldn't withstand it, and it shattered like a mirror on the spot.

Immediately after, the Black Wind Ghost Marshal, controlling the Tribulation Divine Body, swung his palm once again.

"Human kid, let's see how you counter this!"

Black Wind Ghost Marshal sneered coldly.

Yang Chen had barely managed to withstand the Crow God by cooperating with the Tribulation Divine Body, and now with two Crow Gods attacking together, even Yang Chen had some difficulty resisting.

Ji Wuyi sighed, knowing that it was over, completely over.

"As an Emperor-Rank Ghost Being, the Black Wind Ghost Marshal has not only been personally cultivated by a Ghost King-level powerhouse but also has cultivated for ten thousand years in pursuit of the Ten Thousand Law Dao Embryo without entering the Great Stage. His strength is indeed terrifying. No one among the human Nirvana Stage can compete, and even Mahayana Stage experts are hard-pressed to win. How astonishing..."

Ji Wuyi smiled bitterly. He wasn't afraid of death, but he felt pity for Yang Chen.

However, Yang Chen did not give up hope. Faced with the pursuit of the double Crow Gods, he suddenly retreated and shouted, "Senior Bao Lu, if you don't make a move, I'm really going to be done for."

When the conversation ended, a sharp cry suddenly rang out.

Then, a sound came from within Yang Chen's body.

"Kid, I told you that this power needs to be brewed before it can be used."

Around Yang Chen, a glamorous phoenix illusion emerged. When the phoenix illusion was born, it spat out a fireball and an ice ball!

The two forces pressed each other down. The fireball force dissolved the double Crow Gods, and the ice ball pressed towards the Black Wind Ghost Marshal and his Tribulation Divine Body.

Black Wind Ghost Marshal was suddenly shocked, wanting to counterattack. However, as soon as his Dao Intent Inscriptions touched the ice ball, his body came into contact with the law and became frozen!

Chapter 2692 Escaping by Snatching the Path_1

Black Wind Ghost Marshal was unexpectedly frozen and unable to move? It was something that no one could have imagined.

Without a second thought, Yang Chen decided to take advantage of the situation and kill the Black Wind Ghost Marshal, seizing his life.

After all, such an opportunity might not easily come again.

However, the other enforcement team members would not stand idly by and watch Black Wind Ghost Marshal get injured.

"Not good, Young Master Black Wind is in danger!"

"Quickly save the Young Master!"

A group of enforcement team members could not sit still, they furiously attacked Yang Chen, trying to rescue the Black Wind Ghost Marshal.

Yang Chen saw the Great Ascension experts from the enforcement team rushing over like madmen, fearing that the Black Wind Ghost Marshal might be injured even slightly. He took a deep breath and knew that killing the Black Wind Ghost Marshal would not be easy today.

In fact, even without these Great Ascension experts, killing the Black Wind Ghost Marshal would be difficult for him, but there was no doubt that he could hurt him.

He wouldn't give up such an opportunity.

But it was clear that it wasn't feasible now. Yang Chen turned around and left, not daring to stay any longer.

The minds of these Mahayana Stage enforcement team members were focused on Black Wind Ghost Marshal, giving Yang Chen the opportunity to charge toward the barrier formed by numerous Dao Intent inscriptions.

Bao Lu shouted, "Let me handle this! It won't be easy for you to break through this barrier formed by Dao Intent inscriptions in an instant!"

Yang Chen also saw these difficulties and dared not be arrogant. He handed over the task to Bao Lu.

After Bao Lu accepted the assignment, she spat a ball of fire from her mouth. The fire hit the barrier instantly, and it shattered the barrier formed by the Dao Intent inscriptions of numerous Mahayana Stage experts.

Upon seeing the barrier broken, Yang Chen immediately escaped.

"Crack, crack!"

Just as Yang Chen was fleeing, the frozen state around Black Wind Ghost Marshal was also broken.

When he regained consciousness, Black Wind Ghost Marshal was infuriated. He had been frozen, but he knew everything that had just transpired.

Yang Chen had managed to freeze him.

"Young Master, you're awake."

"Young Master, it's a relief that you've recovered. We didn't know what method that kid used just now, but it had rule power and was very dangerous."

Black Wind Ghost Marshal thought of being threatened by Yang Chen and was filled with anger, "What are you waiting for? Hurry up and chase him!"

At this moment, a group of Mahayana Stage experts realized that Yang Chen had broken through their barrier.

It was something that none of these Mahayana Stage experts had expected – Yang Chen had broken through the barrier formed by their Dao Intent inscriptions.

These experts felt quite embarrassed.

They knew it would be disgraceful for their enforcement team – with so many Great Ascension experts, along with Black Wind Ghost Marshal – to have let this human kid escape.

"That kid is getting away."

"Chase him!"

A group of Mahayana Stage experts chased after him.

But by the time they started chasing, Yang Chen had already disappeared.

"Huh, where is he?"

"That guy used spatial means to escape again!"

"Don't panic. Even if that kid escapes using spatial means, we can still track his location. There's nowhere for him to hide!"

...

At the moment, Yang Chen was fleeing, using spacetime techniques, and his speed was as fast as lightning. By now, he had escaped from Ink Flow Area and entered the second level, the Hei Song District.

When he arrived in the Hei Song District, Ji Wuyi was astonished.

Could they really have survived?

What was the Ice and Fire Sky Phoenix that Yang Chen had used earlier? There was no such species of phoenix in the Spirit Realm.

"I finally managed to escape." Yang Chen breathed a sigh of relief at this point.

"Don't be too happy too soon," the Ice and Fire Sky Phoenix spoke with a somber voice inside Yang Chen's mind. "Although I used my power earlier, each use of my power represents a lengthy period of slumber. It happened the last time I hid in your evil Qi and it will happen again this time."

As the conversation ended, the Ice and Fire Sky Phoenix fell asleep inside Yang Chen without giving him a chance to say anything. This made Yang Chen secretly reveal a bitter smile.

Afterward, he fell into deep thought.

Although he had escaped to the Hei Song District, it didn't mean he was absolutely safe.

He instinctively wanted to change his identity again and get rid of Mu Heng Ghost General's status. However, upon further reflection, the real issue wasn't about changing his identity.

The netherworld's enforcement team being able to find him once wasn't a problem, but the fact that they could locate him accurately a second time after he had changed his identity, without even a hint of suspicion, was very suspicious.

"Did someone put a tracking seal on me? No, that's unlikely. How could that explain the first time? The only explanation is that the origin of this evil Qi was subjected to a prohibition by these ghost creatures from Netherworld long ago."

Yang Chen had thought about this before but was never sure. Plus, he had attempted to investigate without finding any clues.

But now, there must be a problem with the origin of the evil Qi!

Upon closer inspection, Yang Chen placed the origin of the evil Qi before his eyes and looked left and right with his Lingxi Divine Pupil, but found nothing.

This left Yang Chen feeling troubled.

Yang Chen was confident in his Lingxi Divine Pupil. Any prohibition would be exposed upon being seen by his eyes.

And it was because of this that he hadn't suspected the origin of the evil Qi containing a tracking seal.

Yang Chen couldn't help but look a few more times.

In the latest inspection, Yang Chen abandoned his Lingxi Divine Pupil and carefully investigated with his soul. At once, the truth became clear to him!

"So it's really like this..." Yang Chen muttered to himself.

The prohibition at the deepest part of the evil Qi's origin was directly imposed on the source of the evil Qi's spiritual wisdom.

Looking through it using any eye technique would be impossible. Only the soul could see it clearly.

"The prohibition is sealed in such a place..." Yang Chen took a deep breath, secretly admiring the thorough planning of the netherworld's ghost creatures.

Not only did the prohibition serve as a marker, allowing others to sense the location of the evil Qi's origin at any time, but forcefully extracting it would also damage the origin, causing it to collapse along with the dissipation of its spiritual wisdom. It was a lose-lose situation.

These ghost creatures from the netherworld had already figured it out: If the evil Qi's origin was seized by humanity, they wouldn't let them benefit from it.

Yang Chen's expression tightened. With his current means, he couldn't break the prohibition at all.

With the prohibition unbroken, would he let them lock his position continuously?

"You think that will leave me with no options?" Yang Chen's expression turned cold. He had studied the Way of Forbidden Methods as well.

Although he couldn't break the prohibition, he could seal the evil Qi's origin using his own prohibitions. At worst, he just wouldn't use the evil Qi's origin anymore.

Chapter 2693 Spear Dao Intent_1

As he said!

Seal, he can do it too!

Yang Chen found a few materials and directly slapped them on the source of the evil qi. The next moment, a perfect seal was formed, wrapping up the evil qi source.

When the Sa Qi's source was wrapped up, it was completely sealed, unable to be used. Similarly, the prohibition inside it would also be completely invalid and could no longer take effect.

It was like mutual destruction, with neither side gaining any advantage.

But now, it was undoubtedly Yang Chen's only choice.

After doing all this, Yang Chen put the Sa Qi's source into the Demon God Tower and disappeared with a leap.

Not long after Yang Chen disappeared, a group of Enforcement Team Ghost Venerables quickly arrived at this location.

When they arrived here, these Ghost Venerables looked around with increasingly ugly expressions.

"How could this be? According to the Sa Qi's source tracking mark, the last location was here. After that, the human disappeared!"

"What did this kid do?"

A group of Enforcement Team's Mahayana Stage members shouted in a deep voice.

Black Wind Ghost Marshal was even more furious, sneering: "Do you need to ask? We could find him again and again, this kid must have realized that we put a tracking seal on the Sa Qi's source unless he's an idiot. As long as he finds out, all he has to do is find a way to seal the Sa Qi's source, and our tracking seal will fail."

"This, this kid can use sealing prohibitions?" A group of Great Ascension Stage Enforcement Team Ghost Venerables panicked.

How could they not panic?

You know, without the Sa Qi's source's tracking seal to assist, it would mean that they might have a hard time catching Yang Chen accurately.

"You bunch of garbage." Black Wind Ghost Marshal roared.

As a member of the Nirvana Stage, he could even shout at these Mahayana Stage Ghost Venerables.

However, these Great Ascension Stage Ghost Venerables could only remain silent and dared not argue.

Black Wind Ghost Marshal would be furious.

You know, Yang Chen's disguise was superb, and his entourage of Mahayana-period ghost honors almost certainly could bring Yang Chen to justice. But what happened? After he was frozen, a group of Mahayana Stage waste had let Yang Chen escape, so how could he not be angry?

This group of Mahayana Stage Enforcement Team members were quite wronged, muttering secretly. If the Black Wind Ghost Marshal hadn't been so confident and fought Yang Chen directly, cooperating with them to kill Yang Chen, there wouldn't have been so much trouble.

Now it's good. Yang Chen has escaped, and the responsibility is blamed on them.

"Humph, now this kid has escaped, it's difficult to catch him again." Black Wind Ghost Marshal said in a deep voice, "You, as Enforcement Team members, just wait for your punishment."

"Young Master Black Wind, you must help us!" A group of Enforcement Team members cried out.

"I help you? The only one who can help you is yourselves are. This kid is now on his way and has an obvious purpose, from the south to the north. It is very likely that he intends to cross the Extreme Yin Land and go to the Northern region. Don't you hurry up and seal off the passages at the checkpoints in the Hei Song District and the Divine Punishment District? As long as they are closely guarded, this kid, with his physical body, won't be able to escape!" Black Wind Ghost Marshal was calm and scolded.

Several Mahayana Stage members were frustrated, but undoubtedly, Black Wind Ghost Marshal's words made sense and were indisputable.

...

Two days later, Yang Chen had crossed the Ink Flow Area and Hei Song District and arrived at the Divine Punishment District.

Divine Punishment District, the last level. When he arrived at this level, a string in Yang Chen's heart was tightened. Even he couldn't help but feel nervous at the end.

The fact proved that his tightness was not meaningless.

As he had thought, after he had sealed the evil qi source's prohibition, the Enforcement Team would not be unprepared.

Now, when he arrived at the last checkpoint of the Divine Punishment District, Yang Chen found that the whole district had been completely locked down. Whether entering or leaving, everyone had to go through strict inspection.

This also made Yang Chen, who was watching from a distance, dare not act rashly.

He was now disguised as an unknown ghost creature, but in fact, his disguise was not meticulous.

As long as he was thoroughly examined, he would certainly not be able to escape and would surely be detected.

Now, looking at the ghost creatures above being strictly inspected one by one, not allowed in or out unless they pass the inspection, Yang Chen knew that trouble had arisen.

It seemed like the last hurdle, and once it was over, everything might be bright again. But it was this last hurdle that he had no way to deal with.

"Let's hide first and think about what to do," Yang Chen judged in secret.

At this point, impulsiveness must be avoided; otherwise, his previous calmness would be wasted.

He casually found a place to stay, cultivating while thinking about how to escape.

After thinking about it for a long time, Yang Chen was clueless.

At the moment when he was clueless, Ji Wuyi, who had been inside the Demon God Tower all along, spoke up.

"Yang Chen!" Ji Wuyi said.

Yang Chen was surprised and said, "Senior Ji, what's the matter?"

"When you fought with the Black Wind Ghost Marshal before, did you use the King Artifact Spear simply because it was the King Artifact, or did you already have some experience with spear techniques?" Ji Wuyi asked.

Actually, Ji Wuyi had wanted to ask this question when Yang Chen escaped. However, Yang Chen was in such a desperate situation that Ji Wuyi never got the chance.

Moreover, he didn't know if Yang Chen was really proficient in spear techniques. Now that he had some time to think, he couldn't help but ask.

"Junior has always been involved in spear techniques and has specialized in them. However, my understanding of the Way of the Spear is really insignificant, I'm afraid it's hard to catch Senior's Dharma Eye." Yang Chen heard the other party ask and smiled faintly.

Hearing Yang Chen say this, Ji Wuyi gradually showed a smile.

"That's not how spear techniques should be used," Ji Wuyi said kindly.

Yang Chen was slightly stunned, knowing that Ji Wuyi had the intention to guide him, so he went along with the conversation and said, "Then, according to Senior's opinion, how should spear techniques be used?"

"The best Dao Intent for practicing spear techniques is the Golden Dao Intentions. It's a pity if you don't specialize in spear techniques with this intent. But do you know that there is actually one Dao Intent that is more suitable for the Way of the Spear than the Golden Dao Intentions?" Ji Wuyi smiled faintly.

Yang Chen's face was dumbfounded, "What does Senior mean? What Dao Intent inscriptions are more suitable for the Spear Dao than the Golden Dao Intentions?"

"That is the Spear Dao Intent." Ji Wuyi said calmly.

"Spear Dao Intent?" Yang Chen was slightly surprised, "There is such a Dao Intent?"

"Why not? There's Sword Dao meaning, so why not Spear Dao meaning? In fact, the most basic Dao Intent, although the lowest level, has a wide variety of types. As long as you are willing to comprehend, even if there is not originally one, you can comprehend a new type of Dao Intent." Ji Wuyi laughed faintly.

Chapter 2694: Crafting the Space Talisman_1

Upon hearing what the other party said, Yang Chen nodded.

What Ji Wuyi said made sense, and it was indeed the case. Among the 3,000 different Dao, any of them could be considered Dao.

Moreover, there had been such sayings in history. The comprehension of a new Dao Intent was not non-existent; it just hadn't been discovered yet, not that it didn't exist.

Hearing Ji Wuyi say this, Yang Chen also recalled it and secretly thought that he had been shortsighted.

"When you comprehend the Spear Dao Intent, you will have reached the true essence of Spear Dao," Ji Wuyi calmly said.

This made Yang Chen smile bitterly: "But the junior didn't know about this before, and now that I've reached the Nirvana Stage, it's too late to comprehend the Spear Dao Intent, right?"

If he had known about this Dao Intent earlier, he would have comprehended it before entering the Nirvana stage no matter what.

After all, the Spear Dao had accompanied him for so many years, and it had always been his focused Dao.

It would be a real pity to lose it now.

But it was only now that he learned about the existence of such a concept as Spear Dao Intent.

"Yes, it is indeed a bit of a pity. However, it doesn't matter, this seat will provide you with guidance in other aspects," Ji Wuyi said.

Hearing this, Yang Chen listened attentively.

The guidance provided by Ji Wuyi was not much, just a few brief instructions. However, even with that, Yang Chen couldn't help but nod secretly. It had to be said that every piece of guidance on spear techniques was precise and insightful, making him realize the key problems in his current spear technique.

However, Ji Wuyi's guidance was not extensive, and there was no intention to impart his lifelong learning to Yang Chen. This caused Yang Chen's previous expectations to turn into slight disappointment.

But after thinking carefully, Yang Chen understood that perhaps because he did not have Spear Dao Intent, Ji Wuyi couldn't pass his knowledge to him even if he wanted to.

This made Yang Chen sigh; it was indeed too late for him to comprehend Spear Dao Intent at his current Nirvana Stage. He didn't know if there were any other methods to comprehend the Spear Dao Intent.

"Speaking of which, how do you plan to break through the Divine Punishment District with its strict guarding and stringent checks, which are almost impossible to pass?" Ji Wuyi curiously asked.

Yang Chen sighed deeply, looking worried and said: "I originally wanted to see if there were any other methods. But now, after thinking about it, there doesn't seem to be any particularly suitable method. It's impossible to pass the check using any method. Since there is no way to pass the check, the only choice is to forcefully break through."

"Forcefully break through?" Ji Wuyi murmured.

"Right, if we don't force our way through now, it will be even harder to break through when the guards of the Divine Punishment District become stricter," Yang Chen said.

"You're right. If we don't break through now and wait to do so later, it will be even more difficult. However, these Netherworld Ghost Venerables don't have any measures to intercept your space Dao Intent. They might have other methods to guard against you or intentionally lure you into going out. You must be careful," Ji Wuyi explained.

Upon hearing Ji Wuyi's words, Yang Chen couldn't help but be slightly astonished.

Ji Wuyi's perspective was quite ingenious, and he immediately saw the crux of the matter.

Indeed, these Netherworld Ghosts could use Dao Intent Inscriptions to form barriers and render his Space-Time Dao Intent ineffective. Although it was impossible to cover any space completely, there were always loopholes to exploit.

However, they could also greatly restrict the range in which he could escape.

But these Ghost Creatures didn't do so, which was undoubtedly a tactic to lure the snake out of the hole.

A few words from Ji Wuyi had awakened Yang Chen and made him reconsider the situation.

"How far can your Space Dao Intent travel when teleporting?" Ji Wuyi asked.

Yang Chen answered truthfully: "In the blink of an eye, I can teleport more than a hundred miles. If I prepare for it, I can probably teleport over 3,000 miles, but the limit would be 5,000 miles, and I can't go any further. However, doing so would be too risky. When I gather my strength, a large number of Dao Intent Inscriptions will disperse and attract others' attention. Even if I barely succeed, I won't be able to use my Space Dao Intent for a while afterward."

"5,000 miles..."

Ji Wuyi paused, slightly surprised: "I heard of Space Dao Intent before, but it's not like your kind. Those Space Dao Intent teleportations were considered good if they cover 500 miles."

Yang Chen scratched his head with a smirk, not elaborating on the matter.

How could they be the same?

His Dao Intent was that of Space-Time, while those were mere Space Dao Intents; naturally, there was a vast difference.

“It might be because you have more Space Dao Intent Inscriptions,” Ji Wuyi said without giving it much thought and continued, “By the way, have you ever thought of any other methods?”

“Other methods?” Yang Chen asked, puzzled.

“Do you know the origin of the Space Talisman?” Ji Wuyi asked.

“I don’t know,” Yang Chen shook his head.

Ji Wuyi chuckled: “A Space Talisman allows people to use the Divine Power of spatial teleportation. There is a simple and a complicated method to make this talisman. The complicated method uses spatial fragments and other materials, consuming a vast amount of them, while the simple method is to find someone with Space Dao Intent and directly seal the Space Dao Intent into it, creating a Space Talisman.”

Yang Chen’s eyes lit up. “So, senior, you mean to have me make Space Talismans by myself to save the consumption and limitation of Space Dao Intent?” Ji Wuyi’s experience was indeed rich, and with just one sentence, he had given Yang Chen a new idea.

When he gathered his strength to perform large-scale spatial teleportation, it was indeed difficult. However, he could entirely make a similar talisman in advance.

“Exactly, although the effect of the talisman made would not be as good as you directly using the Space Dao Intent, it will save you some time and trouble. You can consider trying this method,” Ji Wuyi said.

“Senior, your idea is excellent, and it has helped me a lot.”

Yang Chen laughed and didn’t waste any words; he started drawing talismans right away.

“You can make blank talismans too?” Ji Wuyi asked with surprise.

He had initially thought Yang Chen would have to go and buy some, and he didn’t know whether the Netherworld Ghost Creatures in this Extreme Yin Land could use talismans.

However, to his surprise, Yang Chen started to draw the talismans himself.

Yang Chen revealed a grin.

Are you kidding? He used to be a Talisman Master. It’s just that, as his cultivation level got higher and higher, and there were no Talisman Master-level experts in the Spirit Realm, he put aside the Talisman Dao and never used it again.

Still, Yang Chen was skilled at making talismans.

In a place like the Southern Realm, his talisman-making skills might not be enough to show off, but creating a few simple blank talismans to seal energy was not a big deal.

Chapter 2695 Sky River Ghost Honorable’s Pursuit_1

This series of blank talismans left Ji Wuyi completely shocked.

The key point was that Yang Chen not only drew them, but also drew them with noses and eyes, making the talismans look quite exquisite, not worse than the ones sold outside.

Goodness, Yang Chen was truly all-around, lacking in nothing.

After drawing these blank talismans, Yang Chen didn’t hesitate and started trying to use them.

Making talismans had its own unique tricks. If he hadn’t been exposed to the Dao of Talismans before, he would have needed Ji Wuyi to guide him a little to seal the spatial power into the blank talismans.

But he had experience, and it was richer than Ji Wuyi's, so naturally, he didn't need guidance. He went up and did it in one go, sealing a large amount of Space-Time Dao Intent into the blank talismans.

The main cost of this kind of sealing was the consumption of soul and the consumption of Space Dao Intent.

It had to be said that even just creating such a spatial talisman for large-scale teleportation had a huge consumption for Yang Chen.

Even he didn't expect it; after making one, his soul was consumed by thirty percent.

In addition, Space-Time Dao Intent was also consumed massively.

He almost used Space-Time Dao Intent that could teleport him 5,000 miles away, but when he sealed it into the talisman, the outcome was different.

He could only teleport about 1,000 miles away.

This left Yang Chen at a loss, with the effect directly reduced by as much as five times.

You should know that consuming so much Space-Time Dao Intent at once was a bit overwhelming even for him.

Even so, Yang Chen still made a second one.

Why?

Right now, his Space-Time Dao Intent could recover, but during a battle, how could he recover? The enemy would not give him a chance; having an extra Space Talisman was like having an extra life-saving charm.

Yang Chen had no qualms, making two more talismans.

After making these two talismans, Yang Chen was completely exhausted.

Not only was his soul consumed completely, but even his Space-Time Dao Intent was also nearly depleted.

This result left Yang Chen quite helpless.

Whether it was soul or Dao Intent, recovery was extremely difficult.

As for the soul, even though it was tough, he could still use elixirs to help recovery, but Dao Intent recovery depended on time.

And so, after waiting for three days, Yang Chen's Dao Intent gradually recovered to its peak state.

With the help of elixirs, his soul also recovered nearly completely.

However, Yang Chen did not continue to make space talismans. Because when he spread his spiritual sense, he could already feel that the defensive checkpoints of Divine Punishment District were becoming stricter and stricter, not comparable to a few days ago.

It could be seen that people of Extreme Yin Land took this matter very seriously and were determined not to give any chances.

He was preparing, and the people of Extreme Yin Land were also preparing.

Yang Chen knew that if it went on like this, even if he made more Space Talismans, it would be useless. He had to act decisively.

"Let's force our way through."

Yang Chen made up his mind and arrived at a checkpoint in the Divine Punishment District.

When he arrived here, countless people were lined up for inspection.

But without exception, everyone had to go through a strict examination. Yang Chen hid in the dark, found a position, and planned to secretly teleport away from this place.

"Simply relying on simple space teleportation is not enough to escape this heavily guarded checkpoint. I have to use a talisman to borrow power." Yang Chen took out the freshly made talisman.

Teleporting a thousand miles in one go.

It was likely that there were not many talismans as strong as his in the entire Southern Realm.

Upon a thought from Yang Chen, he activated divine power and started the Space Talisman. With a swoosh, he disappeared from the spot.

It was also at this moment that the ghost creatures above the Divine Punishment District's checkpoint suddenly sensed something.

"There is a spatial fluctuation, there is a spatial fluctuation."

"That human kid broke through, not good, go after him quickly!"

"The spatial fluctuation is very serious, hurry up and chase!"

"How did this human go through? We didn't see anyone at all!"

"What's the hurry? This seat is here. Where can this kid escape to?"

As a group of ghost creatures panicked, suddenly, two ghost creatures appeared in everyone's sight with ghastly air rising.

As soon as these two ghost creatures emerged, they truly shocked all the other ghost creatures and made their hearts tremble.

One of them was Black Wind Ghost Marshal. However, even the arrogant Black Wind Ghost Marshal was quite respectful when encountering the ghost creature beside him this time.

The other ghost creatures were also momentarily shocked before gradually calming down when they saw the newcomer.

"It's Lord Sky River Ghost Honorable!"

"With Lord Sky River Ghost Honorable here, we can rest assured!"

"Hahaha, it's Lord Sky River Ghost Honorable!"

This person was none other than Sky River Ghost Honorable, who had besieged Ji Wuyi and killed him.

Sky River Ghost Honorable didn't know how he found his way to this place, and he said coldly, "This human kid even took away Ji Wuyi's soul. Humph, another human. They are even more unforgivable. Did they come specifically to save Ji Wuyi, or for some other reason? But no matter what, it's not important now. This kid must die."

Nowadays, Black Wind Ghost Marshal looked calm, very composed.

The reason why they were not worried was that Sky River Ghost Honorable was on guard, with Boundless Stage Experts personally garrisoning the checkpoint. What could Yang Chen do to escape!

"Found him." Sky River Ghost Honorable closed his eyes and swept his spiritual sense past. Soon, he locked onto his target.

After locking on, Sky River Ghost Honorable licked his lips, flashed into ghostly air, and quickly chased Yang Chen at lightning speed.

After escaping with the Space-Time Talisman, Yang Chen did not dare to be careless. Maintaining his peak speed, he continued to use his Space-Time Dao Intent, teleporting and teleporting again.

After employing such methods, Yang Chen had already left the Divine Punishment District and arrived in the Northern Battlefield behind the Divine Punishment District!

This area was the gathering place for evil forces in Extreme Yin Land. If humans invaded, they would first break into this place.

Only a little further and he could successfully complete the task!

But at this moment, Yang Chen suddenly felt a formidable pressure.

This pressure made Yang Chen's heart tremble, he exclaimed, "A Boundaryless Level powerhouse?"

Yang Chen was completely unsettled. It was not easy to face this level of powerhouse.

"Yang Chen, it's Sky River Ghost Honorable. I didn't expect this guy to have personally targeted you. It's a pity; if I were alive, it wouldn't be a problem to deal with this Ghost Honorable. But now... You'd better run. With a roar, all the people and ghost creatures present were shocked.

Among them was Black Wind Ghost Marshal. However, even the arrogant Black Wind Ghost Marshal was quite respectful when encountering the ghost creature beside him this time.

Other ghost creatures, upon seeing him, were momentarily shocked and then gradually calmed down.

"It's Lord Ghostly Sovereign!"

"Lord Ghostly Sovereign is here, we can be at ease now!"

"Hahaha, it's Lord Ghostly Sovereign!"

This man was none other than the Sky River Ghost Honorable who had ambushed and killed Ji Wuyi.

Sky River Ghost Honorable didn't know how he got to this place, and said solemnly, "This human kid even took Ji Wuyi's soul away, humph, another human, even more unforgivable. Did he come specially to save Ji Wuyi, or for some other reason? But no matter what, it's not important now, this kid has to die."

Now, Black Wind Ghost Marshal was calm and composed.

The reason they were so unworried was because of Sky River Ghost Honorable's presence, with the Boundaryless Stage Experts personally guarding the passage, what could Yang Chen use to escape!

"Found him." Sky River Ghost Honorable closed his eyes and scanned with his spiritual sense, quickly locking onto his target.

Once he locked onto his target, Sky River Ghost Honorable licked his lips, flashed, and turned into ghoulish energy. Instantly, he chased after Yang Chen at lightning speed.

After escaping through the use of Space-Time Talismans, Yang Chen did not dare to be careless and continued to maintain his peak speed, unfolding the Space-Time Dao Intent by continuously teleporting.

With the utilization of these techniques, Yang Chen had already left the Divine Punishment District and arrived at the Divine Punishment District behind the Northern Battlefield!

This area was a gathering place of evil forces in the Extreme Yin Land. If humans attacked, they would first infiltrate this place.

Just a little further and he would successfully complete his mission!

But just then, Yang Chen suddenly felt a tremendous pressure on his heart.

This pressure made Yang Chen's heart tremble, he exclaimed, "A Boundaryless Level expert?"

Yang Chen was shocked silly. Facing such a strong expert was not easy.

"Yang Chen, it is Sky River Ghost Honorable. I didn't expect this guy to target you personally. It's a pity; if I were alive, dealing with this Ghost Honorable would not be a problem. But now... You should run fast. Boundaryless Level experts, with a distance of hundreds of miles, can catch up in a moment!" Ji Wuyi reminded him.

Taking a deep breath, Yang Chen had already experienced the power of a Boundaryless Level expert. Because now, Sky River Ghost Honorable was already behind him, and he was shocked.

His normal Space-Time Dao Intent speed was not even as fast as Sky River Ghost Honorable's!

Chapter 2696: The Fine Line between Life and Death_1

Sky River Ghost Honorable had already surpassed Yang Chen's speed and caught up with him at an extremely fast speed, causing a storm of fear to rise in Yang Chen's heart.

"Kid, where are you trying to escape?" Sky River Ghost Honorable said mockingly, like a hunter chasing after his prey, full of ridicule and amusement.

In his eyes, Yang Chen was merely struggling in vain.

He could kill Yang Chen at any moment, but he wanted to see the panic and fear of this prey.

Yang Chen felt it too, that Sky River Ghost Honorable could kill him at any moment, but the latter was not eager to do so, and instead was torturing him, making him wish for death.

This made Yang Chen's expression cold.

Sky River Ghost Honorable seemed to think that the time was right, and suddenly waved his hand. The power imbued with the flavor of the law was stirred up, and it suddenly pressed towards Yang Chen fiercely.

Just as the power of the law was about to smash down, Yang Chen reacted without much thought and used the second Space Talisman immediately.

In an instant, a thousand miles away!

Now that he was a thousand miles away, Yang Chen took a deep breath, not daring to delay, and immediately continued to flee in madness. He was well aware that a thousand miles meant nothing to the Boundaryless Stage Experts.

Indeed, a thousand miles didn't mean much.

He had once used a Thousand Miles Instant-Travel Talisman before.

Although the actual effect couldn't reach a thousand miles, the distance actually moved was about the same. He could use the talisman to teleport a thousand miles even then, so it was clear that the distance of a thousand miles really wasn't much.

Of course, the Thousand Miles Instant-Travel Talisman couldn't be used effectively for battles at this level, so it didn't come in handy.

One was pure spatial teleportation, which was impossible to interrupt, while the other was the common effect of a talisman. A thousand miles in an instant, but it would still take a few breaths of time. In that time, Sky River Ghost Honorable could kill him several times already.

Space Talisman, a thousand miles, direct spatial teleportation, in the blink of an eye!

Now that he was a thousand miles away, Yang Chen used spatial teleportation again, and within a moment, he had covered a hundred miles. He dared not waste any time. His speed reached its limit!

He raced against time, staring straight ahead.

“Yang Chen, if you get here, going ahead is the battlefield area. If you can get across the battlefield area, or even if you’re lucky, just in time for a battle to start, you might have a chance to slip away and return. You must cross the battlefield area now.” Ji Wuyi said seriously.

Yang Chen knew all of this very well too. He only had one Space Talisman left. This last one was his trump card, and he couldn’t use it yet.

“Not good!”

Yang Chen pondered in his heart and looked back to see Sky River Ghost Honorable had caught up with him, which made Yang Chen’s pupils contract.

Sky River Ghost Honorable initially intended to play with Yang Chen, but he didn’t expect that when he was about to kill Yang Chen, Yang Chen suddenly managed to escape from his grasp.

It left him quite embarrassed, and he immediately chased after him in anger.

“Kid, where are you trying to escape?” Sky River Ghost Honorable roared.

Yang Chen’s heart was already filled with extreme anxiety.

However, the good news was that in the blink of an eye, he managed to completely cross the Divine Punishment District and arrive in the sky filled with ghost qi.

This airspace was filled with the smell of war, the air was permeated with seriousness, and the surrounding chaotic scene and flowing blood made it easy to determine that this was the battlefield area.

Now Yang Chen looked ahead and saw only a black mass of ghost creatures below, heavily armed and ready to go, as if waiting for something.

Upon seeing this, Yang Chen's expression darkened, knowing that he had encountered the worst situation. The battlefield area is on the periphery of the Extreme Yin Land, but in reality, it is still part of the Extreme Yin Land's territories.

The best situation would be for humans to launch a campaign on this area, causing chaos and allowing Yang Chen to escape under the pursuit of Sky River Ghost Honorable.

A slightly better situation would be if there was no war at all, but the performance of the Netherworld Ghosts on this side would also be quite lax.

The worst-case scenario would be these Netherworld Ghosts lying in wait, awaiting the arrival of war.

What would this lead to?

It would lead to him entering this battlefield and immediately drawing the attention of all the ghost creatures!

Yang Chen couldn't help but be alarmed, his heart uneasy, but he dared not linger in his speed, disappearing from his original position in a flash.

Far away, Sky River Ghost Honorable also closely followed.

"What's going on?"

"Is it the Sky River Ghost Honorable?"

“Who is the person being chased by Sky River Ghost Honorable? It looks like a human?”

“Indeed, it’s a human, what’s going on? How could there be humans around here? And the person being pursued by the Sky River Ghost Honorable seems to be just a Nirvana Stage human? What exactly happened?”

All the ghost creatures were confused, having no idea what was going on. But without a doubt, they all got up and forcefully blocked Yang Chen’s way!

A human? Kill him, of course!

...

At the same time, far outside the Extreme Yin Land, the human army assembled from several Sacred Districts, one after another. At the forefront were Boundaryless-level Powerhouses, followed by Great Stage, numerous Nirvana Stage, Enlightenment Stage, and True God Realm. They were countless!

Such a large-scale war was just waiting to begin!

“Yunqi Tianzun, when are we going to launch an attack?” A Boundaryless Heaven Lord asked, looking to an Elder standing nearby.

This Elder seemed to be the head of all Boundaryless Heaven Lords, now riding a huge toad among the crowd, stroking his beard.

“According to the instructions given by the King of Wind Withering, now is the most appropriate time to attack,” Yunqi Tianzun calmly said. “We can go in now, everyone has no objections, right?”

Yunqi Tianzun looked around.

“I, Spirit Flower Venerate, have no objection.”

“I, Sea and Peace Venerate, also have no objection.”

Several Celestial Experts nodded, but at this moment, one of them shook his head and smiled amiably, “Yunqi Tianzun, fellow Celestial Experts, there’s no need to rush. It won’t be too late to start after my spirit pet Huyun Beast has eaten its fill.”

“Daoming Tianzun, your Huyun Beast doesn’t have much use anyway, what’s the difference whether it’s full or not? We can’t delay the start of the war because of you.” Yunqi Tianzun frowned.

The other Celestial Experts didn’t say anything, after all, among the Boundaryless-level Powerhouses, it was rare for anyone to point out the faults of others, and no one wanted to do such an unpopular thing.

Daoming Tianzun laughed heartily, “What’s the point of launching this war? What does it matter if it happens a little earlier or later? Perhaps it’s not even as important as this Huyun Beast.”

“Absurd! The Southern region has already communicated with us, saying that they might send a messenger across the boundary to deliver a message to our Northern Region. We have to find a way to launch the war as a diversion. Your delay now might cost the life of the envoy.” Yunqi Tianzun said in a deep voice.

Daoming Tianzun laughed wildly, unconvinced, “What nonsense about envoys? How many times has the Southern Region arranged this? How many times have we arranged this? Has it ever succeeded?”

Chapter 2697: The Choice of Humans_1

Daoming Tianzun spoke with conviction, coldly saying, “In the past thousand years, the Southern region has arranged it three times, and has any of them succeeded? Moreover, how many times have we sent envoys to the Southern region from our side? None of them has ever succeeded, right? These so-called envoys? Are they even possible? It’s just our wishful thinking. The old man has said it a long time ago: we must rely on ourselves in everything. Do you want to form an alliance on both sides? Let the envoy pass? How can we accomplish such an impossible task?”

Yunqi Tianzun was undoubtedly angry and wanted to argue but every sentence Daoming Tianzun said hit the nail on the head, leaving him with no strength to fight back.

How could he argue against the sentences that made sense?

Yunqi Tianzun felt quite upset as well.

Daoming Tianzun wouldn't let it go, and lazily said, "In the end, for an illusory envoy? It might be even less valuable than my Huyun Beast. So, there's no need to rush. It's not too late to go to war after everyone has fully recovered. After all, we didn't plan to fight seriously, why the hurry?"

Having said that, Daoming Tianzun started teasing the Huyun Beast in his arms, full of joy.

Yunqi Tianzun sighed lightly as he watched.

That was Daoming Tianzun's nature – arrogant, casual, and unrestrained. Yunqi Tianzun didn't bother to say anything more.

Indeed, as the other party said, everyone was just talking about the envoy issue. None of them took it seriously.

Following Daoming Tianzun's words, a group of realmless powerhouses shrugged their shoulders and gave up on continuing the expedition, waiting instead. For them, there would be no difference between going to war early or late.

However, for Yang Chen, things were different. In the blink of an eye, a large number of ghost creatures from the Netherworld appeared in front of him, blocking his path.

Yang Chen's pupils contracted as he noticed that among them were Ghost Honors at the Mahayana period.

Yang Chen was shaken and hurriedly used the Space-Time Dao Intent to traverse away.

Luckily, there were no particular precautions against him using Space-Time tactics here, allowing him to successfully traverse through the numerous ghost creatures surrounding him. Otherwise, he would have met his end right here.

In the blink of an eye, Yang Chen traversed away.

Sky River Ghost Honorable didn't possess Yang Chen's ability to traverse through space. He could only move by normal means. With a group of ghost creatures blocking his path, he was unable to ignore the obstruction and shouted, "Get out of my way!"

The ghost creatures saw Sky River Ghost Honorable approaching and hurriedly let him pass, allowing him to continue chasing Yang Chen.

"Kid, where are you running to!"

Now, with the pursuit, Sky River Ghost Honorable was filled with murderous intent. With a flip of his hand, he fiercely attacked Yang Chen.

This time, he was determined to crush Yang Chen!

Seeing this, Yang Chen didn't hesitate at all. He immediately pinched a Space Talisman and his body disappeared once again!

When he appeared again, he was still a thousand miles away, having used spatial teleportation!

Upon arriving a thousand miles away, the scene was completely different from before. Yang Chen looked carefully and surprisingly found that there were a large number of human camps in front of him, ready to go.

Yang Chen's spirits were suddenly lifted.

The human camp?

He immediately dispersed his True Qi and shouted, "Everyone, I am Yang Chen, the messenger sent by the Southern Faction. My identity has been exposed, and I am being hunted down by a powerful expert from the Netherworld. I hope you can help me!"

Yang Chen's shout reached the ears of many powerful people in the human camp.

The souls of the numerous strong people in the human camp couldn't penetrate the extreme Yin Land's ghost qi in the Netherworld, they could only observe the scene vaguely. They vaguely saw human beings being chased by ghost creatures from the Netherworld, but they couldn't see the truth and didn't dare to act rashly.

After all, the Netherworld had used similar tricks to deal with humans many times.

However, now when they heard these words, a group of human powerhouses were all shaken.

"What? Has the envoy really arrived?"

"How is that possible? Has someone manage to cross over from the Southern region here?"

A group of Boundless Stage Experts discussed animatedly, and several Heavenly Venerates couldn't sit still. They immediately shouted, "If that's the case, we can't just sit still. We need to act quickly and rescue this person first."

At this moment, the most embarrassed one was Daoming Tianzun.

He had just confidently said that the envoy's matter was impossible, so they should wait patiently and let things take their course. Even if a group of people were waiting for him to feed the Huyun Beast, it wouldn't matter in his eyes. What kind of status did he have? What would it matter if people had to wait for him?

But now, an envoy suddenly appeared. Wasn't that a slap in his face?

Again, hearing the anxiety from the group of boundless experts, Daoming Tianzun angrily shouted, "What are you all anxious about? The moment we talked about envoy, the envoy appeared. I think it's fake. This kid must be a ghost creature disguised from the Netherworld."

While saying this, he forgot that even if there was a glimmer of hope, it would be true. For them, it was worth saving.

However, in his eyes, that glimmer of hope had long been ignored.

A beautiful, realmless woman suddenly said, "Brother Daoming, do you know that it's impossible for the Netherworld to disguise a human body? Just based on this alone, this person might really be the envoy sent by the Southern Faction. If we ignore this, it's very likely to cause a great disaster."

"Hmph, absurd. Just because they couldn't disguise before, doesn't mean they can't do it now. In my opinion, this person is just a new ploy from the Extreme Yin Land to confuse us. Everyone, don't be fooled. If anything goes wrong, I'll take responsibility," Daoming Tianzun said with conviction.

Yunqi Tianzun was extremely anxious at this point. How could you take responsibility if something went wrong? What would you be responsible for?

But he couldn't say anything right now, as he watched closely.

Yang Chen was now in a desperate situation, and his circumstances could be described as extremely dangerous. Even if he used the Space Talisman, his situation had not changed much.

He was still in the middle of a large army in the Extreme Yin Land, with Sky River Ghost Honorable chasing after him.

If it were just Sky River Ghost Honorable, it wouldn't matter, but after shouting furiously, a large number of powerful beings from the Extreme Yin Land had come to encircle Yang Chen, including numerous Boundless Ghost Venerables.

Sky River Ghost Honorable made this choice out of anger. If possible, he certainly didn't want other beings from the Extreme Yin Land to be involved in this matter.

But when he tried to kill Yang Chen just now, what happened? Yang Chen disappeared in the blink of an eye!

That made him finally afraid.

Just now, when Yang Chen shouted, the humans might come to the rescue. If that happened, things would be terrible. The soul of Ji Wuyi, which he had obtained with great difficulty, would simply vanish before his eyes.

Thinking of how he had been playing with Yang Chen earlier, if Yang Chen really managed to escape, where would he put his face!

So, Sky River Ghost Honorable couldn't care less at this point and started calling people, asking all the ghost creatures gathered in the battlefield to surround Yang Chen, even calling several Boundless Ghost Venerables nearby.

Chapter 2698 A Grand Bet_1

This was what nearly drove Yang Chen to despair.

If it were just the Tianhe Ghost Lord alone, it would be fine. But now, in all directions, ghost creatures were surrounding him. With just a sweep of his eyes, he saw at least seven Realmless powerhouses coming from different directions.

If they all joined forces, he would undoubtedly perish, and even his spacetime Dao intent would be of no use.

Yang Chen grew increasingly anxious.

What were the humans from the north doing?

What happened to the promised support?

His anger burned.

He arrived at the battlefield area, and they didn't start the war in advance to cover him. Now, when he shouted out, they still held back their forces?

Yang Chen felt as if he was on fire, without much choice left. Now, he could only risk it all and gamble one more time!

How to gamble?

Before being completely surrounded, he had to use all the power of his spacetime Dao intent for a great spatial transfer.

This was the only way to have a slim chance of survival.

With the great spatial transfer, he could teleport 5,000 miles in one go, which would allow him to move to a far-off place and have a hope of staying alive.

With this thought, Yang Chen knew there was no time to waste. He had to make a choice, for time wouldn't wait for him.

Thus, Yang Chen made a decisive decision.

He gambled.

As a group of Netherworld ghosts was about to approach him, Yang Chen gathered a large amount of spacetime Dao intent and silently waited.

Time, time, everything depended on time!

Yang Chen scanned the area and saw a huge number of ghost creatures converging on him.

"This kid isn't moving?"

"Kill him, kill him, and we'll get merit points."

Listening to the countless fierce ghosts wanting to kill him, Yang Chen calmed down, not feeling the absolute danger he was in.

Everything was up to fate; whether he could escape or not depended on Tian Yi.

Yang Chen felt that a Realmless Ghost Venerable had already appeared in front of him. The moment the Realmless Ghost Venerable appeared, he raised his hand and directly pressed down towards Yang Chen.

A majestic pressure accompanied by the power of laws suppressed down from the unknown Ghost Venerable, trying to forcefully kill Yang Chen.

Yang Chen closed his eyes, and deep inside, a flame suddenly ignited.

"Almost, almost there!"

"Go!"

In an instant, Yang Chen's spacetime Dao intent suddenly gathered enough strength, disappearing from the spot in a flash, reappearing 5,000 miles away.

Upon arriving 5,000 miles away, the Realmless powerhouses were completely stunned.

"How did this kid do it?" These Realmless Ghost Venerables were dumbfounded.

Tianhe Ghost Lord had just arrived when Yang Chen disappeared again, furious, he shouted: "This kid has a spatial divine ability, quickly chase! Don't let this kid escape. He carries Ji Wuyi's soul, whoever can help me capture him, I'll share half of Ji Wuyi's soul."

Tianhe Ghost Lord was genuinely anxious, not even afraid of revealing the matter of Ji Wuyi's soul.

Joking aside, if he didn't release the information now, he might lose his last chance to capture Yang Chen.

As soon as the Realmless Ghost Venerables heard about Ji Wuyi's soul, they weren't polite, quickly chasing after, moving as fast as lightning, like a flash of light.

At this moment, Yang Chen was frantically using the spatial teleportation before stopping and standing in place, clenching his fists.

He didn't want it to be like this, but after using so much spacetime Dao intent all at once, he couldn't use it again in such a short time.

After a brief moment of rest, Yang Chen still didn't stop.

If he couldn't use spacetime Dao intent, he would just run.

"Thundering Trichotomy, Movement Form!"

Yang Chen took a breath and directly began to move using the Thundering Trichotomy Movement Form.

The Thundering Trichotomy Movement Form allowed him to move through thunderbolts at a fast speed, able to pass a hundred miles with just one breath. However, its speed was significantly slower than that of spatial teleportation, and couldn't match the blink-of-an-eye disappearance of spatial divine ability.

That was the mystery of spatial divine ability.

There was still a gap between moving a hundred miles in a single breath and teleporting a hundred miles in the blink of an eye.

The most critical thing was that if he left in his present moving state, the powerful enemies would be able to track his figure and easily intercept him using other means.

Just as Yang Chen thought, he had just started moving when the next moment, a massive mountain suddenly blocked his way!

As the mountain appeared in front of Yang Chen, he was shaken.

He was not far from the human camp; he could even see it clearly. He didn't know why the human camp wasn't mobilizing to save him, but he had to figure out a way to escape this place.

But now, a massive mountain separated him from his hope of rescue.

At this moment, several Realmless powerhouses in the human camp began arguing.

Yunqi Heavenly Lord shouted angrily, "Daoming Heavenly Lord, how can you still say that this kid is a tool of the Netherworld ghosts?"

"I think it's a trick deliberately used by the Netherworld ghosts. Hehe, Yunqi Heavenly Lord, I think you've gone mad thinking about the messenger so much. How could this kid be a messenger? He's clearly a trick set by the Netherworld people. If we go to save him, that's when we fall for their trap. By then, the Netherworld ghosts will infiltrate our rear, and another tragedy may take place!" Daoming Heavenly Lord was increasingly convinced that Yang Chen could indeed be a messenger.

Did the Realmless experts not possess their own judging abilities?

However, he still refused to admit it now. If he admitted it, where would he put his face? Even if Yang Chen was the real messenger, what would it matter if he died?

However, other Realmless powerhouses believed in their judgment.

In the crowd, a beautiful woman among the Realmless Heavenly Lords spoke, "The two of you can keep arguing, but our sacred district of the Three Flowers Sect can't just watch the messenger from the south perish. We are going ahead."

"Spirit Flower Heavenly Lord, wait for me!"

Several other Realmless powerhouses also took action without wasting words, leading a large group of people towards Yang Chen's direction.

"It's obvious that this kid is a human. How could he be fake? I'm going too."

"People of the Primordial Sacred District, follow me and kill our way out!"

Yunqi Heavenly Lord followed closely, shouting angrily, "The people of our Spirit King Sacred District will also head out! And Daoming Heavenly Lord, if it turns out this kid is indeed the messenger from the south, hehe, you better prepare to take responsibility."

As the conversation ended, a huge crowd erupted out. In an instant, only Daoming Heavenly Lord's faction remained in the human camp.

Daoming Heavenly Lord's face turned extremely ugly, and he still refused to admit his mistake, shouting, "You all just wait to be tricked by the Netherworld!"

Chapter 2699: Exhausted Mountains and Rivers_1

The people below saw that all the forces had gone out to fight, leaving only their sect uninvolved and couldn't help but ask nervously, "Sect Leader, should we... should we take action too?"

“Take action for what? Did I say I would take action?” Daoming Tianzun’s voice was low.

The disciples below immediately stopped talking, after all, in their sect, Daoming Tianzun was the greatest authority.

...

Switching the camera angle.

Yang Chen was blocked by the giant mountain, his heart chilled, as it exposed his greatest weakness – being unable to use his space-time Dao Intent.

Theoretically, Nirvana Stage Experts have no chance against Boundless Stage Experts. Escaping from the Divine Punishment District to here is already a stretch, let alone surviving three breaths before being beheaded by Boundless Stage Experts.

Not to mention these elite Boundless Stage Experts who could even touch the power of laws.

The only reason he was able to get this far was by using his Space-Time Divine Power, with various methods that made it impossible to detect his whereabouts.

But now, once the space-time Dao Intent was unable to be used, those Boundless Stage Experts would have countless ways to capture him.

Just like now, a giant mountain blocking his way, leaving him with no escape route!

Yang Chen tried to bypass the mountain, but to his horror, wherever he fled, the mountain seemed to follow him, always perfectly positioned in front of him, blocking his path.

Upon closer inspection, Yang Chen realized that the mountain was actually a King Divine Tool.

When Yang Chen reacted and tried to forcefully repel the King Divine Tool, a terrifying pressure appeared behind him before he could make a move.

Yang Chen's heart chilled, had a Boundless Stage Expert already caught up?

"Hehe, it's still me, Wind Demon Ghost Venerable, who is the fastest. Kid, you are a human who has come out of nowhere- who knows what kind of information you might have. We can't let you go. I heard that you also have the soul of Ji Wuyi on your body, so we definitely can't let you go. Die for me!" Wind Demon Ghost Venerable sneered and sent a palm attack rolling towards Yang Chen with a wave of his hand.

This palm used the power of Dao Intent Inscriptions, creating a vortex of wind like a wild dragon, tearing towards Yang Chen.

Seeing that it was not the power of laws, Yang Chen hadn't given up hope and suddenly summoned the Tribulation Divine Body.

When the Tribulation Divine Body was summoned, it immediately manifested the Thundering Trichotomy Defense Form, shielding him.

However, even with the Thundering Trichotomy Defense Form, the attack of the Boundaryless Stage Expert was still unstoppable.

His Tribulation Divine Body instantly shattered into pieces, and the Wind Demon's attack still hadn't dissipated, raging forward and heavily hitting Yang Chen's body.

Yang Chen coughed up blood and flew backward, almost losing consciousness.

Yang Chen was well aware that if it weren't for the Tribulation Divine Body taking the brunt of the attack at its peak power, he would've been dead by now. Moreover, it was fortunate that this Wind Demon Ghost Venerable wasn't too strong among the realm-less ones. Otherwise, even with the Tribulation Divine Body to block the attack, he would have still been killed if Rule Power were used!

However, his current condition was far from good, with blood spilling from the corner of his mouth, he could pass out at any moment.

But Yang Chen knew he absolutely had to remain conscious now, even though he was powerless to resist, there was still hope if he remained conscious.

“Space-Time Dao Intent has recovered!”

Yang Chen’s heart leaped with joy, unfolding his space-time Dao Intent, and suddenly, he vanished from the spot.

As soon as he disappeared, Wind Demon Ghost Venerable was immediately startled: “This kid, he still has a breath left?”

Yang Chen used his space-time Dao Intent to escape, originally thinking he could escape to the sky, but only managed to shift slightly before stopping in his tracks. A large amount of rule power had already surrounded him.

“Kid, where are you trying to escape?” A gigantic Ghost Venerable blocked Yang Chen’s path, revealing a cold smile on his face.

Yang Chen shuddered all over.

He knew that he was truly helpless this time.

Against a Boundaryless Realm Ghost Venerable, he had no chance of fighting back. The power of laws filled the surroundings, making it impossible for even the Space-Time Dao Intent to pass through.

Yang Chen felt aggrieved. It was just a short distance, just such a short distance. Was he really going to perish here?

“Black Hawk Ghost Venerable, you’re stealing my prey!” Wind Demon Ghost Venerable ran over and yelled angrily.

Black Hawk Ghost Venerable sneered, “Whoever can snatch it owns it. You, a useless creature, couldn’t finish him off with a single move and let him escape just now. Who else can you blame?”

“Die.” This gigantic Boundaryless Ghost Venerable didn’t show any courtesy. With a wave of his hand, a large amount of rule power suddenly pressed down.

Yang Chen closed his eyes too.

But just when Yang Chen thought it was the end, in an instant, another overwhelming force suddenly pierced through. This force directly tore through the void, forming a fist like a giant mountain, which suddenly slammed out with a loud bang.

This punch instantly shattered the Ghost Venerable’s attack.

Immediately after that, countless flower petals appeared from nowhere, catching Yang Chen and instantly disappearing from the area.

When Yang Chen reappeared, he was already embraced by a beautiful woman.

The beautiful woman was none other than Spirit Flower Heavenly Sovereign. She was now holding Yang Chen in her arms, her lips slightly parted in surprise, “This boy is so young? He persisted all this way. It’s such a pity.”

“Spirit Flower Heavenly Sovereign, good job.” Cloud Rise Heavenly Sovereign singlehandedly fought with Black Hawk Ghost Sovereign.

Heavenly River Ghost Sovereign and other Ghost Venerables also arrived at this moment. Seeing that Yang Chen had actually been rescued by a group of Heavenly Venerate experts, they were furious.

“Ah, humans, give me your lives!”

In an instant, a group of humans began to fight with these Netherworld Ghosts.

Yang Chen, feeling that he had entered a warm embrace, his consciousness dimming. He knew he was safe and couldn't help but black out, reaching his limit and fainting.

The Netherworld Ghosts of the Extreme Yin Land and the humans of the North had a shocking battle. This battle was intense, with both sides paying a heavy price.

In the end, the humans forcefully retreated. Unlike before, the Ghosts of the Extreme Yin Land crazily pursued and showed no signs of stopping.

The battle, which originally only involved a few Boundaryless Stage experts, eventually involved more and more Boundaryless Stage experts who provided reinforcements from the rear. Even King-level powerhouses were forced out, turning the conflict into a full-scale holy war.

In the end, when King-level powerhouses made their move, the scale of the battle was naturally beyond words. However, when the King-level powerhouses did not make their move, it was a mutual deterrent. This matter eventually ended inconclusively.

Just like that, in the blink of an eye, half a month later...

At the peak of Wind-watching Mountain in the Spirit King Sacred Area, numerous people gathered in front of the palace. There were people of all sizes gathered, with many making appearances.

Many disciples discussed the matter.

“Did you hear? The person living in that palace is the key figure that triggered this holy war!”

Chapter 2700: After Awakening_1

“Yes, I heard yesterday that this person seems to be an envoy coming from the southern faction. It is said that he is the first one in thousands of years to have safely come to our northern region from the south since the Netherworld invaded the Southern Realm.”

“I heard that he is quite young, and at the time, even King-level Powerhouses were mobilized and a super war broke out in the Extreme Yin Land. The Ghost Creatures there were crazed trying to kill him.”

“If I were him, I would have gladly died to have so many powerful ones protecting me.”

“Come on, you don’t have such ability.”

Many disciples could only watch from a distance, discussing the shocking war that took place earlier, and the core figure involved in the war was the existence that everyone talked about.

Without a doubt, this person had a huge influence.

“I don’t know what he looks like. I heard he’s very young and has reached the Nirvana Stage. He crossed the Extremely Yin Land; I really don’t know what kind of character he is.”

“It is said that he was able to escape from the hands of Boundless Stage Experts, killing countless Netherworld Ghosts and fighting his way through many battles to get here. Ah, I really want to meet such a person.”

Many female disciples had curious and envious glints in their eyes.

The news about this mysterious person spread throughout several Sacred Districts.

After all, the war that happened not long ago was widely known, and more and more rumors about this mysterious person emerged.

The more the rumors spread, the more bizarre they became. Initially, it was only mentioned that this mysterious person traversed the Extreme Yin Land, arrived at the Northern Region as a Southern Realm Envoy, and escaped from the clutches of the Boundaryless Ghost Venerable.

Later, it was rumored that this mysterious person had killed countless Netherworld Ghost Lords and could rival Boundless Stage Experts. It was only after being heavily besieged that he managed to escape back.

More bizarre stories emerged.

At this time, deep inside Tai Ding Palace in Wind-watching Mountain.

In the depths of the palace, on a bed, the young man was still asleep. It was none other than Yang Chen.

Surrounding Yang Chen were numerous powerful beings, including the Cloud-rising Heavenly Venerate, Spirit-flower Heavenly Venerate, and Dao-ming Heavenly Venerate, who had previously saved Yang Chen; they all had grim expressions on their faces.

In addition, there were many other influential figures present, all waiting for Yang Chen to wake up.

“This kid’s journey from the south to this place is truly a miracle. I can hardly believe it. I don’t think any of us here could have accomplished this task. It’s really hard for this young friend. I can’t believe he reached this stage after only cultivating for about fifty or sixty years. The Southern Realm has a big heart to let such a genius take on this task.” Cloud-rise Heavenly Venerate sighed.

The other Venerates scratched their chins, “The people from the south are really shortsighted. Letting this genius come to our northern region, I’m afraid he won’t go back anymore. As for us old fellows...”

Cloud-rise Heavenly Venerate coughed twice, “Brother Wen River, what you said is too much. This young friend represents the southern region visiting our northern region. How can we discuss this issue now?”

Wen River Celestial Lord smiled dryly and coughed, “Cloud-rise Heavenly Venerate is right, right.”

Cloud-rise Heavenly Venerate admonished on the surface, but he couldn't deny in his heart.

Yang Chen coming to the north meant he probably wouldn't return. Once he settled down, having such a talented person in the north would be a blessing for any force given the tense battles and a person possessing extraordinary information about the Extremely Yin Land.

However, at this time, Daoming Tianzun seemed displeased, "Don't you think this kid's excellence is a bit too much? There are strange things all around this matter. I think it's necessary to investigate more strictly. When this kid wakes up, we must interrogate him a few more times!"

Other people frowned upon hearing Daoming Tianzun's words.

Spirit Flower Venerate shook her head helplessly, "Daoming Tianzun, as for this matter, the Great Universe True King of Spirit King Sacred Area has personally examined it once. This kid is undoubtedly one of us. And along the way we also learned about his age. If you still doubt, you can ask your Sacred Area's Cloud Highness Dharma King to have a check."

Upon hearing this, Daoming Tianzun's face darkened, and his lips trembled with anger.

It was true that this matter had been checked by Great Universe True King, but he was still unwilling to admit it, or else where would his face go?

But if he asked his own Sacred Area's Cloud Highness Dharma King to have a look, wouldn't he be inviting the Dharma King to punish him?

Seeing Daoming Tianzun being so aggressive, others were quite unhappy, but they did not push him too far due to Yunxiao Dharma King's presence in Daoming Tianzun's Sacred Area.

Meanwhile, Yang Chen felt his entire body pained as he regained consciousness, his soul gradually enveloping his surroundings, and his qi gradually dispersing. It immediately reminded him of the various experiences in the Extremely Yin Land and woke him up in a moment.

Upon waking, Yang Chen looked around defensively with a killing intent in his eyes.

However, when he saw that they were humans, he slowly relaxed.

“Young friend, don’t worry, you have been saved by us, and you are now completely safe.” Cloud-rise Heavenly Venerate said with a gentle smile.

Others, such as Spirit-flower Heavenly Venerate, looked at Yang Chen with empathy.

Thinking that the first thing Yang Chen did when he woke up was not to observe his surroundings, but to immediately look at everyone defensively showed how tightly wound he was in the Extremely Yin Land, always on high alert.

It was precisely because of this, that he exhibited a terrifyingly defensive mindset in the first moment when he woke up.

Even for these powerful beings, Yang Chen was highly admired for reaching this stage as a young man.

Yang Chen now truly relaxed, slowly loosening his tense nerves and smiled, “Thank you, seniors, for saving me. I am truly grateful.”

After finishing speaking, he thought of his injuries and looked at his wound.

The wound had healed?

After all, he was injured by a Boundaryless Ghost Creature, which was not easy to recover from.

“Your wound has been treated with the divine medicine from our Three Flowers Divine Region. During the time you were in a coma, your injuries have all recovered. As for the Ghost Qi, we originally intended to help you extract it, but unexpectedly, there is a large amount of Sa Qi in your body that repels all the Ghost Qi, which is very astonishing.” Spirit-flower Heavenly Venerate said with a sigh.
