Chapter 2801: True King's Arrival_1

Upon hearing the servant's words, Mountain Suppressing Heavenly God stroked his chin, lost in thought, "Spirit Demon Brother, I think we have to do it this way for now."

"But if we forcibly use the Sky Eye to observe everything within the Array, it will consume a massive amount of energy, delaying our plan to kill the Spirit King even further." Venerate Wind Smile squinted his eyes, "Ghost King is already on his way, so will it be an issue to delay the plan at this time?"

"Spirit Demon Brother, it's precisely because Ghost King is coming that we must deal with this kid. Think about it, if the Ghost King arrives and finds out that we still haven't cleaned up the humans, wouldn't we be severely punished? We just need to expose this human, and when the Ghost King arrives, we can let him handle everything, and it won't have anything to do with us."

Upon hearing this, Spirit Demon Ghost Venerate became lost in thought, "You make some sense. It's true that when Ghost King arrives, we can leave everything to him. After all, with the plan having reached this point, there can be no more accidents. As long as we handle this issue, everything will be fine."

"Exactly, we must catch this kid to avoid bringing disaster upon ourselves." Mountain Suppressing Heavenly God laughed.

After discussing, the few Ghost Venerates had made up their minds. When it was time to move, they went directly to the Array Formation Sky Eye, intending to use it to reveal everything about Yang Chen.

They soon arrived at where the Formation Eye was located.

There are six formations in this Ancient Castle Sixth Layer. However, the actual location of the Formation Eye for each formation is sealed in a huge deepwater ancient pool in front of the Spirit King's Sleeping Palace.

From this ancient pool, a beam of black light shot into the sky. The light was surprisingly a dazzling wheel-like object.

Looking at the wheel, Spirit Demon Ghost Venerate focused his eyes and slapped it with one palm. The wheel was immediately caught by his hand.

As he held the wheel, Spirit Demon Ghost Venerate immediately performed a hand seal. After three moves, a large amount of light emerged from the wheel, projecting images onto a gray wall nearby.

Numerous images appeared on the wall. These were scenes of various small spaces in different levels of the ancient castle, which appeared after the formations were removed. The spaces were not large, so it was very easy for everyone to carefully observe and find something unusual.

This was the reason why Spirit Demon Ghost Venerate was so confident about capturing Yang Chen.

After all, through the Formation Eye, the entire formation was under his control.

Like this, the first floor was quickly scanned, and nothing was discovered.

Spirit Demon Ghost Venerate was not worried, as if not on the first floor, Yang Chen could still be on the second floor.

After scanning the second floor, however, it was still empty.

This made Spirit Demon Ghost Venerate's expression start to become weird.

He then scanned the third floor.

Still empty!

Spirit Demon Ghost Venerate was becoming more and more nervous.

Could it be that Yang Chen had crossed the fourth floor without him knowing? This didn't make any sense!

Scan again!

The fourth floor was scanned, and still, nothing was found.

"What..."

All four Ghost Venerates exchanged puzzled looks.

"Keep scanning, he must be on the fifth floor," Mountain Suppressing Heavenly God said.

They scanned the fifth floor.

However, after scanning, no trace of Yang Chen was found on the fifth floor. Mountain Suppressing Heavenly God and Spirit Demon Ghost Venerate both became increasingly anxious, with sweat forming on their faces.

If there was nothing on the fifth floor...

Then he couldn't possibly be on the sixth floor, could he?

The sixth floor was the least likely since they were already on the sixth floor.

"Maybe it is possible that this kid is really on the sixth floor? After all, there were so many illusions on the way up here. It would only be normal for us not to notice him. Let's search." Mountain Suppressing Heavenly God comforted.

Spirit Demon Ghost Venerate could only stiffen his head and scan the sixth floor once again.

However, the result was extremely cruel. The sixth floor was not impossible, but there were only the five Ghost Venerates. There was no one else!

“What!” Spirit Demon Ghost Venerate’s scalp tingled, “Where on earth did this kid go? Did he really escape?”

“That’s absolutely impossible!” Mountain Suppressing Heavenly God said firmly, “My people, my Avatar are guarding the outside. This kid can’t possibly escape. He must still be in the formation.”

“But the Formation Eye has already been used, and we still can’t find this kid’s whereabouts!” Spirit Demon Ghost Venerate said in a low voice.

“Don’t worry; this kid might have some treasure that can help him hide within the formation.” Mountain Suppressing Heavenly God said, “Such treasures do exist. We just need to keep searching, and eventually, we can unmask this kid!”

Upon hearing this, Spirit Demon Ghost Venerate calmed down a bit, “I was a little too impulsive; it indeed is a possibility. It’s still too early to judge now. However, the task of searching for this kid will have to be handed to you. The Formation Eye consumes a lot of energy, and I must go keep an eye on the Black Sky Formation, so that Ling Wang doesn’t find an opportunity to catch his breath.”

“Right, you must keep an eye on Ling Wang. He is incredibly powerful and has reached the Number One in the Southern Realm. He is already on the verge of reaching Lord Yan’s realm. One mistake could easily lead to failure!” Mountain Suppressing Heavenly God said.

After discussing, the two had divided the tasks between themselves.

Spirit Demon Ghost Venerate went to keep an eye on Ling Wang, while Mountain Suppressing Heavenly God continued to search the other layers.

...

At the same time, Yang Chen was still in the middle of his cultivation, completely unaware of what had just happened not long ago.

Actually, he had already been close to reaching Great Perfection in integrating Dao Intent Inscriptions with his divine power but had to risk coming here to find evidence, so he gave up entering the Mahayana stage.

Now that there was no other way to leave, Yang Chen could only force himself to cultivate here.

As he cultivated, Yang Chen was also keeping track of the time, feeling extremely anxious inside.

This was because half a month had already passed!

...

The time was precise.

Heaven Lord Pavilion was brightly lit and full of joy. Everyone was cheering, not for any other reason but one – the True King was coming.

As the only king-level powerhouse in the Spirit King Sacred Area at present, the True King's popularity had reached its peak.

Being the only king-level powerhouse in the Spirit King Sacred Area, True King naturally garnered a lot of attention.

However, one person couldn't be happy at the moment!

Chapter 2802: Heaven's Tribulation Strikes_1

Naturally, this person was Golden Claw.

Golden Claw remembered everything Yang Chen told him, he had unconditional trust in Yang Chen, so he knew exactly how terrifying it was for the True King to come to the Heavenly Venerable Hall.

It meant that a plan big enough to shake the Spirit Realm was about to unfold.

However, what disturbed him more was that up to now, Yang Chen had not returned.

By now, over half a month had passed, and Yang Chen still hadn't returned. It suggested that Yang Chen had not collected the evidence, and even now is missing with his life and death uncertain.

Golden Claw was thrown into anxiety, hoping above all that the young master was safe and sound. For the moment, he didn't dare to think about what could happen in the Spirit Realm.

As it stood, he already had no control over what was happening to Yang Chen. He had to tell his master everything Yang Chen and he had said.

Only his master was capable of taking such action.

"My master should be meeting the True King now," Golden Claw murmured.

Thus, Golden Claw immediately rose up and went to find his master.

Yunbie Heavenly Venerable was indeed meeting with the True King. They were in deep conversation and in high spirits. Being the only King-level expert in the Spirit King Holy Area at present, he had to play the host and make sure nothing went wrong.

The True King, being an amiable person, greeted everyone in Heavenly Venerable Hall with a smile. He brought back some results from the front line, rewarded quite a few people in the Heavenly Venerable Hall, and won over many hearts.

Yunbie Heavenly Venerable also had a positive impression of the True King.

Although the True King had done some strange things over the years, they all appeared to be for the benefit of the Spirit King Holy Area.

Moreover, under the leadership of the True King, the confrontations between humans and Netherworld Ghosts had slowly started to stabilize.

Everyone could see this.

Yunbie Heavenly Venerable naturally regarded the True King as his pride.

Just then, Yunbie Heavenly Venerable suddenly heard a message from one of his subordinates.

“What, Golden Claw is looking for me? This little guy doesn’t know I’m meeting with the True King? Why is he looking for me at a time like this?” Yunbie Heavenly Venerable laughed dryly before responding.

The person immediately retorted, “From the looks of Golden Claw, it seems to be a matter of great importance, Heavenly Venerable, you better go and check it out.”

Yunbie Heavenly Venerable frowned, unsure what Golden Claw needed him for. But he favored his disciple and didn’t blame him, responding, “That kid, alright, I’ll go see him to find out what he urgently wants.”

After saying so, Yunbie Heavenly Venerable had no choice but to address the True King and others. “My friends, I’m really sorry, but I have an urgent matter to attend to and must leave you for a bit. I hope you won’t take it amiss.”

Despite their doubts, the True King and the others expressed no objection, and allowed Yunbie Heavenly Venerable to leave.

Upon stepping out, Yunbie Heavenly Venerable soon saw his disciple.

Seeing Golden Claw, Yunbie Heavenly Venerable couldn't help but say with a laugh and a cry, "You youngster, what is it that you need me for? Don't you know that I'm meeting with Lord True King?"

Golden Claw knew the matter was too shocking, but still took a deep breath and explained everything, from beginning to end, in detail.

After hearing everything, Yunbie Heavenly Venerable was suddenly taken aback, and fell silent.

...

In the meantime, within the sixth layer of the ancient castle at the Spirit King Sleeping Palace.

Everyone was still searching for Yang Chen, especially Zhen Shan Heavenly Venerable, who was beginning to get a bit anxious.

He didn't think much of it at first, thinking it wouldn't be too hard to find Yang Chen. But who would have known, after all these days of searching, they still hadn't managed to find him.

This was a blow to his pride, and within his mind, he began to curse at the Soul Demon Ghost Lord.

If the Soul Demon Ghost Lord had killed Yang Chen sooner, would there have been so much trouble? A Ghost Lord of Boundless Stage let a Nirvana Realm youngster escape, what a joke!

...

As for Yang Chen, he was still comfortably situated in the second layer.

One had to say, by now he was in awe of the Ice and Fire Heavenly Phoenix's abilities. It had chosen an ideal location for him, which kept him unharmed after several days of cultivation without revealing his location.

And due to him not being found, he was able to cultivate peacefully. Because of this peaceful cultivation, Yang Chen's strength had made leaps and bounds, making the integration process very smooth.

Now, he only had one more set of Dao Intent Inscriptions to merge. Then the integration with the divine power will be completed.

This gave Yang Chen a glint of joy. As long as he reached the Great Path Stage, there was still hope for the situation.

Yang Chen concentrated fully. The closer he got to the end, the more careful he was, and didn't allow any room for errors.

The remaining Dao Intent Inscriptions took no time to merge.

An hour passed, and twenty more inscriptions were merged.

Two hours, another twenty more.

Three hours, four hours, five hours!

The sixth hour!

Finally, the hundred odd Dao Intent Inscriptions, all merged perfectly with the divine power.

In that moment, the sky changed color instantaneously, and the Sky Thunder Pool silently appeared above. Following that, the thunders resembling great dragons coiled themselves above, gazing upon the ground beneath.

This gave everyone in the ancient castle a slight jolt.

“What’s going on? Someone’s undergoing tribulation?” Zhen Shan Heavenly Venerable was going numb, “Who is it? Who would be doing such a thing at this time? How can they undergo tribulation here? Aren’t they afraid of causing unrest? Besides, this scale. What on earth is happening, is it the thunder tribulation of advancing to the Boundless Stage?”

“No one’s reaching the Boundless Stage, and no one’s entering the Great Path Stage either, what’s happening?”

All his subordinates were getting a bit panicked.

If it was just an ordinary thunder tribulation, that wouldn’t matter.

But this thunder tribulation’s scale was indeed a bit terrifying.

“This, sir, this has nothing to do with us. This thunder tribulation, I’m afraid it’s even scarier than the ones faced by those advancing to the Boundless Stage,” they said.

Zhen Shan Heavenly Venerable had also calmed down by now.

Indeed, upon contemplation, even when he was advancing to the Boundless Stage, his thunder tribulation was not as terrifying as this.

“What’s going on, we’ll know when we go check it out,” Zhen Shan Heavenly Venerable said seriously. “It seems to be happening around the second layer. Let’s go!”

Zhen Shan Heavenly Venerable tried to get closer.

Yang Chen also knew that upon reaching the Great Path Stage, he would certainly have to undergo the tribulation of thunder cleansing.

When that happened, he would certainly attract attention from others. However, Yang Chen was not panicked about this. During the tribulation, no one could get close, or else the thunder tribulation would strike them together.

As long as he could safely get through the thunder tribulation and enter the Great Path Stage, even if he couldn't fight against the opponents in the Boundless Stage, he would at least have no problem protecting himself.

At least for now, having completely merged the divine power and Dao Intent Inscription, he could already feel his difference from before.

Power was surging within him; as long as he could survive the thunder tribulation, his power would take another leap!

But the prerequisite was, of course, to survive the thunder tribulation.

Looking at the thunder tribulation, even Yang Chen felt a shiver run down his spine.

Chapter 2803 Two-Nine Thunder Tribulation_1

He had a strong premonition that this time, the Heavenly Tribulation would be completely different from before.

But he couldn't pinpoint exactly what would be different.

"Yang Chen, you're in trouble this time, hahaha." The Ice and Fire Sky Phoenix laughed smugly: "It's so interesting that you could encounter such a tribulation when you enter the Great Ascension Stage."

"What's going on? What kind of tribulation am I facing?" Yang Chen's uneasiness seemed to grow.

Considering Bao Lu's character and her habit of taking pleasure in other people's misfortune, the thunder tribulation must be no ordinary one.

Bao Lu giggled: "You'll know when you feel it later."

"..."

Yang Chen secretly felt bitter as he stared at the tribulation thunder, feeling as if its power in the sky was endless.

The power gathered in the thunder pool was already terrifying, but it still hadn't stopped; it was still gathering stronger and stronger!

No one knew what kind of form the tribulation would take before it came crashing down with force.

At this time, Mountain Suppressing Heavenly God and others had arrived at the scene.

When several Great Ascension Stage cultivators and the Boundary-less level Ghost Venerable arrived, they all halted and didn't dare to move forward.

The reason for doing so was obviously that the terror emanating from the tribulation made them not dare to step forward.

If Yang Chen's tribulation was just an ordinary one, they would take the risk of the thunder tribulation enveloping them and seize the opportunity to kill Yang Chen.

But the power of this thunder tribulation...

"That kid is actually hiding there!" Several Great Ascension Stage cultivators and the Mountain Suppressing Heavenly God finally found Yang Chen's position.

"This guy, I didn't search around that area because it was the densest area of the Formation Eye. How could he have hidden there?"

"The key question is, how did he avoid the Formation Eye's search? This doesn't make sense."

Several Great Ascension Stage cultivators looked at each other in anger. Yang Chen had been hiding in that place for a long time, and they had failed to find him. The fact that they only found him after he had cultivated for several days and reached the Great Ascension Stage, attracting the thunder tribulation, was simply humiliating.

However, as angry as they were, they still didn't dare to step forward.

Mountain Suppressing Heavenly God's pupils shrank, and he stepped back: "Could this be the legendary Ninefold Heavenly Thunder?"

"Ninefold Heavenly Thunder? What's that?" Several Great Ascension Stage Heavenly Venerates asked curiously.

As cultivators at the Great Ascension Stage, they had never heard of the Ninefold Heavenly Thunder.

Only Mountain Suppressing Heavenly God had some knowledge of it. After clenching his teeth in shock, he said: "It is said that after the fifteenth thunder tribulation, the next tribulation will be nine-fold, with nine thunder strikes for each level. The Ninefold Heavenly Thunder you understand is completely different from this one. Even if there are only two layers of Ninefold Heavenly Thunder, it is already an eighteen-fold tribulation, which is terrifying."

"There is such a tribulation?"

"When I entered the Great Ascension Stage, I only endured a twelve-fold thunder tribulation."

"Yes, I also experienced twelve."

Mountain Suppressing Heavenly God was taken aback: "Not to mention you, I only experienced a fifteen-fold thunder tribulation when I entered the Boundaryless Stage. Only when comprehending the Law would I possibly encounter Ninefold Heavenly Thunder again. So I have some understanding of it. But how could this kid bring down the Ninefold Heavenly Thunder? Could it be that he had already experienced a fifteen-fold thunder tribulation during his Nirvana Stage?"

That was the only explanation.

Now that he was facing the Ninefold Heavenly Thunder, his previous stage must have had a fifteen-fold tribulation. Experiencing a fifteen-fold thunder tribulation during the Nirvana Stage was simply unbelievable.

At the same time as the thunder tribulation was brewing, not only was the entire ancient castle being affected.

Even within the Heaven Lord Pavilion, the changes here were sensed.

"Look at the sky."

"What is that? Someone is crossing a tribulation?"

"This tribulation aura, it must be at the level of an Unbounded Ancestor crossing a tribulation."

"I've seen a tribulation experienced when one breaks through to the Boundaryless Stage, but it seems a little inferior compared to this."

"How can this tribulation be so terrifying?"

Many disciples started to talk, and True King also noticed it.

As soon as True King sensed the birth of the thunder tribulation, he narrowed his eyes and looked at the scene.

"Two-Nine Thunder Tribulation? Who provoked such a terrifying thunder tribulation..." True King murmured to himself.

This thunder tribulation indeed was terrifying, but at the beginning, he didn't take it to heart. It was only when he saw that the location of the tribulation was actually coming from Ling Wang's Sleeping Palace that True King's expression suddenly became serious.

"Who is responsible for the thunder tribulation at Ling Wang's palace? How can these youngsters not give old man a break?" True King became a little anxious inside.

If Yun Bietianzun went there to investigate due to this thunder tribulation, what could he do?

After all, he had used lies to deceive Yun Bietianzun, making her not suspicious of Ling Wang's Sleeping Palace, which was an extremely difficult task.

"I must go and check it out myself." True King planned to get up.

But at this moment, Yun Bietianzun suddenly appeared in front of him.

"True King, what are you going to do now..." Yun Bietianzun smiled and blocked True King's path.

"..."

At this time, the gather of thunder tribulation's power finally seemed to come to an end.

Yang Chen sensed that Mountain Suppressing Heavenly God and others were nearby. He felt a little nervous but quickly returned to normal.

After all, the Mountain Suppressing Heavenly God wouldn't dare approach this.

In the meantime, he had asked Bao Lu about this thunder tribulation.

Despite Bao Lu's casual attitude, she would not withhold key information about the thunder tribulation from him during crucial times!

"Two-Nine Thunder Tribulation!"

The so-called Two-Nine Thunder Tribulation was just a term for the tribulation he was experiencing now.

This tribulation was Ninefold Heavenly Thunder, meaning there were nine thunder strikes per level. His current tribulation was two layers of nine thunders, or eighteen thunder tribulations.

That's three more than last time!

Yang Chen couldn't help but smile bitterly. Although he was a little nervous, the situation hadn't reached the worst point yet. If it had been Thirty-nine Thunder Tribulations, he would have faced twenty-seven thunders, which would have been extremely difficult to resist.

"Eighteen Thunder Tribulations, bring it on." Yang Chen's eyes were fixed on the sky above.

Finally, familiar lightning sparks flickered across the sky, accompanied by the sound of thunder, announcing that the thunder tribulation was about to come crashing down destructively.

Yang Chen was ready, poised to strike.

The first thunder tribulation came in an instant.

This first thunder caused those several Great Ascension Stage cultivators nearby to be shaken, as well as making Yang Chen instantly focus and thrust his spear.

Boom...

The rumbling sound spread, and the first thunder tribulation was shattered by Yang Chen's one spear, completely broken.

However, this could not possibly quench the momentum of the thunder tribulation. After the first one was broken, the second one quickly followed, descending once more.

Chapter 2804: Exhausting All Means_1

The rhythm was clearly much faster than the Thunder Tribulation Yang Chen had experienced before.

In the past, each Fallen Lightning layer would have a soothing rhythm, but this time it was completely different. Right after he shattered the first layer, the second layer arrived immediately, smashing down without giving anyone a chance to catch their breath.

This made Yang Chen secretly smile bitterly.

It seemed that this was the so-called Ninefold Heavenly Thunder.

Nine layers as one lightning – it's not a joke.

Yang Chen didn't have much time to think and immediately shook his Long Spear, using the 'Mysterious Wandering Body' he had cultivated along with his Spear Technique to directly resist the lightning.

In fact, the effect of Mysterious Wandering Body was quite good, at least during the crossing tribulation, using the Mysterious Wandering Body could achieve a good effect.

For the second thunder, Yang Chen relied on the Slaughter God Spear and once again tore it apart forcefully.

Then, the third thunder!

It fell quickly, with no suspense and no turning point!

As the rumbling and crackling sounds rang, the thunderous roars were already rolling around his ears. At the birth of the thunderous roar, the terrifying thunder and lightning had already smashed down.

Yang Chen still relied on the Mysterious Wandering Body and the Slaughter God Spear to forcibly resist and once again tore this third thunder apart.

The first three thunders didn't pose much difficulty for Yang Chen.

However, only Yang Chen knew clearly that the Nine Lightning was said to be one thunder, but in fact, every descending thunder and lightning would be much stronger than the previous one.

He could withstand these three thunders, but it didn't mean that the power of these three thunders was equal!

The Third Layer Thunder was obviously more terrifying than the Second Layer Thunder by a lot!

Now, as the Third Layer Thunder was shattered once again, the Fourth Layer Thunder had already arrived.

Yang Chen still used the Mysterious Wandering Body to resist.

But in this round of resistance, Yang Chen felt the difficulty. His Mysterious Wandering Body was already somewhat overwhelmed.

He even felt a tingling sensation in his arm.

He felt that the hard resistance limit of the Mysterious Wandering Body was the Fifth Thunder. If he dared to use the Mysterious Wandering Body to resist the Sixth Thunder, his painstakingly cultivated Mysterious Wandering Body might be torn apart by the Heaven's Tribulation.

The Fifth Layer had arrived.

Yang Chen still used the Slaughter God Spear to resist forcibly.

This time, he only felt his heart shake.

The power of the Fifth Thunder was evidently much stronger than that of the Fourth Thunder, and it was even somewhat beyond his expectations, making his Mysterious Wandering Body somewhat difficult to support.

“Break!”

Yang Chen also began to fight back, and the Long Spear burst out with destructive power. Combined with the laughter of the Slaughter God Spear, he directly resolved the Fifth Thunder on the spot.

The Sixth Thunder then quickly descended with an unreasonable and overbearing attitude.

Yang Chen’s eyes were focused as he fully unfolded Thundering Trichotomy and showed off its defensive form. Then, the Qi of Dao Intent Inscriptions on his body finally spread out.

Since the Mysterious Wandering Body couldn’t withstand it, it was time for him to show some real skills.

“Break!”

Yang Chen’s eyes narrowed in concentration.

He released the Dao Intent Inscriptions and used Thundering Trichotomy as a supplement.

The Sixth Thunder was easily resolved.

After that, the Seventh Thunder and the Eighth Thunder were all shattered in Yang Chen’s hands, without exception. The Ninefold Heavenly Thunder, the first eight layers, were completely controlled by Yang Chen.

However, the last one was obviously much more powerful than the first eight. When it came crashing down, even Yang Chen felt a palpitation.

Yang Chen didn't dare to take it lightly. Facing the crushing onslaught of the Ninth Layer Thunder, he also used his true methods.

“The Hand of the Giant Golden Bell!”

The explosion of this Hand of the Giant Golden Bell, combined with his Dao Intent Inscriptions, collided with the Ninth Layer Thunder one layer at a time, shattering it.

“The Nineteen Heavenly Tribulation has been broken...”

Mountain Suppressing Heavenly God swallowed saliva at the side: “Is it that simple to break?”

They were originally aiming to see a joke since the Twenty-Nine Heavenly Tribulation wasn't easy to pass.

Yang Chen faced the Twenty-Nine Thunder Tribulation in the Nirvana Stage, which was undoubtedly a doomed situation.

If Yang Chen died at the hands of the Thunder Tribulation, it would be a great joy for them. After all, there would be no need for them to take action again, so why not?

But now, the first Nineteen Thunder Tribulations had been successfully resolved by Yang Chen.

“Who exactly is this kid?” Mountain Suppressing Heavenly God's scalp tingled.

He could feel that the ordinary understanding of the Nirvana Stage could no longer be applied to this human.

Yang Chen also took a deep breath now.

Having gone through the Nineteen Heavenly Tribulations, he clearly felt the difference from the previous Thunder Tribulations. Fortunately, he hadn't used all his strength, so the situation was still under his control.

He just didn't know how the Twenty-Nine Heavenly Tribulations would compare to this Nineteen Heavenly Tribulations.

As he pondered, the Twenty-Nine Heavenly Tribulations did not come.

During the Ninefold Thunder Tribulation, every nine layers counted as one layer, so the pause between nine layers was very short. But after the nine layers were completed, there would be an obvious pause.

Now, it was that pause.

During this pause, Yang Chen didn't dare to waste time and quickly recovered the consumption of his Dao Intent Inscriptions. Relying on this short time, he would recover as much as he could.

But the pause time of the Twenty-Nine Thunder Tribulation was much shorter than Yang Chen had imagined.

With just a slight brewing, the power from the Sky Thunder Pool began to gather to a terrifying level. Then, this power quickly descended at an extremely fast speed.

A horrifying pressure, as if Yang Chen's doom had arrived, made him even feel the illusion that the sky was being separated.

Then, a strand of green lightning came at an indistinguishable speed.

"So strong!"

He subconsciously deployed his Hand of the Giant Golden Bell.

However, when the Hand of the Giant Golden Bell resisted the green lightning, it was destroyed in an instant and completely unable to resist.

The Thunder Tribulation, like a poisonous snake, quickly broke through Yang Chen's Hand of the Giant Golden Bell and attacked him.

This made Yang Chen's scalp tingle, and he immediately used the 'Domain of Earth'.

Rumble...

As soon as the Domain of Earth was born, the Thunder Tribulation entering the domain would be affected.

Yang Chen expanded the Domain in a targeted way, and the speed of the Thunder Tribulation was significantly slowed down. Gritting his teeth, Yang Chen made the first layer of the Twenty-Nine Thunder Tribulation dissipate.

Yang Chen took a deep breath, feeling the difference between the Twenty-Nine Thunder Tribulation and the Nineteen Thunder Tribulation – the power was so much stronger.

What was even more terrifying was that, just like the Nineteen Thunder Tribulation, it didn't give him much time to adapt.

The second layer of thunder pressed down!

Fortunately, Yang Chen had deployed the Domain of Earth, which could slow down the strong pressure of the second layer of the Twenty-Nine Thunder Tribulation. Then, under Yang Chen's sweat-drenched efforts, the second layer of the Twenty-Nine Thunder Tribulation was forcibly broken by his Domain of Earth!

Chapter 2805: The Final Collision!_1

With the Domain of Earth, the Second Layer of the Heavenly Tribulation was resolved.

However, it was not difficult to see that Yang Chen was now starting to struggle.

Now, Yang Chen's expression was heavy, and he no longer had the calm demeanor he had during the first level of the Heavenly Tribulation. Instead, he looked at the thunder and lightning in the sky with a serious expression, knowing that the thunder tribulation born from the 29 Heavenly Tribulation was much stronger than the one from the first level.

At first, his Domain of Earth could perfectly suppress the First Thunder Tribulation, but when the Second Layer came, it became difficult for his Domain of Earth to deal with it.

And then, the Third Layer descended.

Yang Chen still used the Domain of Earth to resist it.

However, it was obvious that the Domain of Earth had become difficult to counter the Third Layer of Thunder Tribulation.

The third layer of thunder and lightning spread within the Domain of Earth, making it difficult for Yang Chen's domain to support it.

Yang Chen himself was drenched in sweat in an instant, with the Domain of Earth seeming to be torn apart by the lightning.

"Not good."

The Domain of Earth could no longer hold on.

Yang Chen could only wave his hand.

“Deathly Silent Black Wind!”

He used his bare hands to unleash the Deathly Silent Black Wind, aimed at the Thunder Tribulation, and collided them together. The Third Layer of Thunder Tribulation was shattered by the Deathly Silent Black Wind.

Yang Chen breathed a sigh of relief as Deathly Silent Black Wind managed to gain the upper hand against the Thunder Tribulation.

Yang Chen had almost adapted to the rhythm of the Two-Nine Thunder Tribulation by now.

The Fourth Thunder Tribulation quickly fell, but Yang Chen had already prepared the Deathly Silent Black Wind in advance, fighting against the Thunder Tribulation and colliding with them.

Admittedly, the Fourth Thunder Tribulation was much stronger than the Third Layer. However, the power of the Deathly Silent Black Wind was still incomparable to that of the Fourth Thunder Tribulation.

As Yang Chen’s trump card, when they collided, the power of his Deathly Silent Black Wind was still a bit stronger, completely dispelling the Fourth Thunder Tribulation.

Next was the Fifth Thunder Tribulation!

The descent of the Thunder Tribulation left no breathing room for anyone.

Yang Chen still controlled the Deathly Silent Black Wind!

It had to be said that the Fifth Thunder Tribulation was already putting pressure on Yang Chen. His Deathly Silent Black Wind was strong, even strong enough to destroy the Great Stage, but it was still somewhat difficult to resist the Fifth Thunder Tribulation of the 29 Heavenly Tribulation.

“This kid can still withstand the fifth layer of the 29 Heavenly Tribulation!”

Mountain Suppressing Heavenly God and the others were now all dumbfounded.

They took a deep breath, watching the power of these Thunder Tribulations, and secretly judged within their hearts, asking themselves if they could remain unscathed under this Thunder Tribulation.

The results were unanimous.

They couldn't!

Only Mountain Suppressing Heavenly God had confidence, but bear in mind that he was a Boundaryless-level Powerhouse.

However, it had to be said that when the Fifth Thunder Tribulation came, Yang Chen's Deathly Silent Black Wind was already somewhat struggling to resist it.

After a terrifying collision, Yang Chen managed to claim a miserable victory.

At this point, Yang Chen could foresee that his Deathly Silent Black Wind alone would definitely be unable to withstand the Sixth Thunder Tribulation.

Yang Chen's brows furrowed, and with a stomp, the Tribulation Divine Body separated from his body in an instant.

As the Tribulation Divine Body separated, a Dual Domain suddenly spread out.

At this moment, the Sixth Thunder Tribulation descended with a rumble, entering Yang Chen's Dual Domain.

The Dual Domain more than just doubled in strength, but even so, Yang Chen still let out a muffled grunt, his scalp numbing from the power of the Thunder Tribulation, which made his Dual Domain difficult to resist.

The Dual Domain could only weaken the power of the Thunder Tribulation, but it could not directly shatter the Tribulation.

If he forcibly confronted this Sixth Thunder Tribulation, his Domain would also be shattered.

Yang Chen could only wear a tense expression and create the Deathly Silent Black Wind once more.

With the help of the Dual Domain, he pierced through the Sixth Thunder Tribulation on the spot.

In but a mere moment, the Seventh Layer arrived.

With no time to spare, the pace was suffocating.

This Seventh Layer was far stronger than the Sixth Layer, and as soon as it entered Yang Chen's domain, Yang Chen immediately felt the explosive power of the Seventh Layer and proceeded to use the Deathly Silent Black Wind to resist it.

"Break!"

Yang Chen unleashed all his strength, and with the Deathly Silent Black Wind and Dual Domain, the power of the Tribulation Divine Body turned the Seventh Layer into nothingness.

After that, the Eighth Layer.

No chance to catch one's breath, it descended fiercely.

Yang Chen had already prepared everything, and the Tribulation Divine Body released the Deathly Silent Black Wind in conjunction with the Dual Domain. Although the power of the Eighth Thunder Tribulation had a qualitative leap, the two combined Deathly Silent Black Winds and the Dual Domain were still stronger!

However, the crisis had not yet been resolved. The most dangerous part was the Ninth Thunder Tribulation.

Yang Chen had already seen during the First Nine Thunder Tribulation that the most terrifying part of it was the Ninth Thunder Tribulation.

The Ninth Thunder Tribulation was far stronger than the Eighth.

He could resist the Ninth Thunder Tribulation of the First Nine Tribulation, but could he resist the Ninth Thunder Tribulation of the Two-Nine Tribulation?

It's here.

Without giving him much time to think, the last and the Ninth Thunder Tribulation of the Two-Nine Heavenly Tribulation had descended.

The power, even before it fully arrived, suffocated Yang Chen with its terror.

This Thunder Tribulation was far stronger than any previous one and was multiple times more powerful.

At the root, they were not on the same level.

How could it be so strong?

Yang Chen clenched his teeth.

It seemed that it had something to do with the strongest Dao Intent. Since his strength was so different from ordinary people, the Heavenly Dao would naturally bring down a far more extraordinary Thunder Tribulation for him.

Yang Chen knew that he could no longer have any reservations. The matter of Mountain Suppressing Heavenly God and the others had to be put aside first, and he had to do everything he could.

“Deathly Silent Black Wind, go!”

With an angry roar from Yang Chen, he used up every Deathly Silent Black Wind he was able to.

His main body could use three Deathly Silent Black Winds, and the Tribulation Divine Body could do the same. However, after using them all, the Death Path Intent would be completely exhausted.

Six Deathly Silent Black Winds came out together, along with the Dual Domain and all Dao Intent Inscriptions.

He had exhausted everything.

Whether he could pass the Thunder Tribulation and break through to the Great Stage in one go depended on this move.

“Break!!!”

Yang Chen screamed, unleashing his strongest attack without any reservations.

This attack collided with the Ninth Thunder Tribulation of the Two-Nine Tribulation, igniting the entire sky. The light spread out in all directions, illuminating the entire sacred area so clearly that it seemed like a world-shaking event had taken place!

Yang Chen had already exhausted all his strength and collapsed...

He had to win.

However...

Chapter 2806 Yang Chen at the Great Ascension Stage_1

His Deathly Silent Black Wind collided with the Heavenly Tribulation, but it was instantly broken through.

Then, the power of the Heavenly Tribulation seemed to have diminished, however, Deathly Silent Black Wind still found it difficult to resist, and the second wave was broken through as well.

Then the third, fourth and fifth waves!

Yang Chen was fully focused, his eyes filled with anxiety. Only the last wave of Deathly Silent Black Wind was left to support him, and he had to hold on.

But...

The last wave of Deathly Silent Black Wind still couldn't withstand the power of the Heavenly Tribulation. As expected, the power of the Heavenly Tribulation had been significantly reduced by his Deathly Silent Black Wind, but it still exuded terrifying horror.

All six waves of the Deathly Silent Black Wind were gone.

Yang Chen's heart shuddered.

The Heavenly Tribulation was too overbearing. He had summoned six waves of Deathly Silent Black Wind, enough to kill several Great Stage cultivators, but now, they were all destroyed by the Heavenly Tribulation.

Only his Dual Domain was left struggling to support him, but it was obviously still being torn apart like thin paper by the Ninth Level Heavenly Tribulation, without any ability to resist.

With the Dual Domain broken, Yang Chen couldn't help but sigh, feeling truly desperate now.

Seeing that the Heavenly Tribulation was about to reach him, Yang Chen bitterly smiled and said, "So, am I going to lose like this?"

He had already reduced the power of the Ninth Level Heavenly Tribulation to just a tiny bit. If he were to lose like this, it would be such a pity.

But he had no more power to resist the Heavenly Tribulation!

Just when he had already given up hope in his heart and didn't know what to do, suddenly, a blue light burst forth, accompanied by a fierce whinny that pierced through the air.

Immediately, the bright lights of ice and fire enveloped the Heavenly Tribulation.

The power of a Law was born, turning the Heavenly Tribulation into nothingness.

"Bao Lu?" Yang Chen was dumbfounded.

"How about that, surprising, isn't it?" Bao Lu chuckled, "Did you think you had already lost all hope?"

Yang Chen couldn't help but feel both surprised and amazed as Bao Lu said this. Indeed, he had already felt like he had no hope left.

But Bao Lu's arrival unexpectedly helped him overcome this last Heavenly Tribulation.

"No, you may have saved me, but as an outsider intervening, the Heavenly Tribulation will only become more terrifying." Yang Chen shook his head in secret.

Heavenly Tribulation did not allow any interference from anyone else, even if it was one's own demon beast companion. If outsiders intervened, the Heavenly Tribulation would punish both parties, making it an unpleasant situation for everyone. No one would do it.

Of course, he didn't mean to blame Bao Lu either.

After all, Bao Lu had good intentions.

But Bao Lu didn't seem nervous at all, instead smiling mischievously, "You're overthinking it. I am now part of your strength, so the Heavenly Tribulation won't bring down any punishment."

Only then did Yang Chen remember.

That's right, Bao Lu was now his companion spirit beast, not an outsider.

He had always subconsciously thought of Bao Lu as an existence similar to the Golden Claw, feeling that Bao Lu was very powerful.

So when he was at his wit's end, he hadn't thought of her much.

But now, thinking about it, she was his companion spirit beast, and part of his strength.

"I passed the Heavenly Tribulation? Haha, that's great!" Yang Chen couldn't help but feel overjoyed.

"But the crisis hasn't been resolved yet." Bao Lu reminded him.

Yang Chen was naturally aware of this as well.

He had just passed the Heavenly Tribulation, and his Dao Intent had been exhausted to the limit.

But the enemy wouldn't pity him. Seeing that Yang Chen had just passed the Heavenly Tribulation and was in a weak state, they immediately attacked.

Mountain Suppressing Heavenly God's voice was filled with malice, "Attack and kill this kid." A few Heavenly Venerates had planned to surround Yang Chen from all directions.

"Escape!"

Yang Chen didn't even think about it.

It seemed that the Mountain Suppressing Heavenly God didn't know much about his methods.

Right, that Spirit Demon Ghost Venerate probably thought that his Space-Time Dao Intent was only achieved through the Space Talisman, so he didn't think Yang Chen had many Space Talismans, thus it was unlikely that he would tell this Mountain Suppressing Heavenly God.

As a result, the Mountain Suppressing Heavenly God didn't guard against his Space-Time Dao Intent at all.

This allowed Yang Chen to unleash his Space-Time Dao Intent in an instant, disappearing from where he was.

"Where is that kid?"

After Yang Chen disappeared, the Heavenly Venerates all stood there, dumbfounded.

The Mountain Suppressing Heavenly God was also taken aback, realizing: "Not good, I was careless. The Spirit Demon Ghost Venerate reminded me that this kid seemed to have a few Space Talismans. Ah, damn it. I can't believe I let this kid take advantage of this loophole. Hurry up and chase him. Block the entrance to the First Floor and search the Third Floor!"

Now, Yang Chen changed his position with a single leap, aiming for the Third Level.

Escaping to the First Floor was pointless, and he didn't intend to flee anyway.

He was very familiar with the Second Floor's space and knew his way around, so it didn't take him long to find the entrance to the Third Level and successfully enter it.

Once he entered the Third Level, Yang Chen immediately found a concealed place to hide.

The layers of formations protecting him made it difficult for him to be discovered easily while hiding.

This allowed Yang Chen to recover without worry.

The Heaven's Tribulation just now indeed consumed a lot, but he was always prepared with elixirs, so his recovery wasn't too difficult.

The only trouble was the Dao Intent Inscriptions, as they were the most complex things to recover. Even the power of elixirs could hardly alleviate the process.

However, there was one thing that Yang Chen found peculiar.

What was it?

It was the 'Immortal Qi' of the Mountain and River Destruction Map.

This Supreme Treasure was left behind by Hua Qingfeng and had helped Yang Chen better comprehend Dao Intent during the Enlightenment Stage.

During the Nirvana Stage, it helped Yang Chen improve his Dao Intent Inscriptions.

And at the Great Stage, it also perfectly aided Yang Chen by accelerating the recovery of his Dao Intent Inscriptions.

At first, Yang Chen was prepared for a protracted battle since recovering Dao Intent Inscriptions indeed took some effort.

But now, with the help of this Immortal Qi, his Dao Intent Inscriptions recovered much faster.

Yang Chen patiently waited. At this moment, his Dao Intent Inscriptions had not yet recovered, and his strength was greatly diminished, so it wasn't wise to go head-to-head with the Mountain Suppressing Heavenly God.

When he recovers, that would be the time for his powerful battle.

After all, he had just entered the Great Ascension Stage, and his heart was itching to experience the power of this new stage.

Time passed.

One day!

Two days!

Three days!

This Mountain Suppressing Heavenly God had become frantic in his search, going through the Third Level, Fourth Level, Fifth Level, and Sixth Level, sweeping the ground like a bulldozer!

Now, the more the Mountain Suppressing Heavenly God searched, the angrier he became. They had already used a Formation Eye to check once, so it wasn't easy to use it again.

This meant that the time to find Yang Chen would be unavoidably delayed!

Chapter 2807: Slaying Great Ascension, Battling Realmless_1

Without relying on the Formation Eye, it was extremely difficult to find Yang Chen within the layers of the maze.

This forced Zhen Shan Heavenly Venerate to disperse the Great Ascension Stage Experts, and considering Yang Chen's formidable strength, even during the Nirvana Stage, he could kill a Great Ascension Stage Power. Zhen Shan Heavenly Venerate dared not be careless and ordered these Great Ascension Stage Experts to form pairs and search for Yang Chen.

Even if they couldn't defeat Yang Chen, two Heavenly experts should be able to escape and report the news.

...

Zhen Shan Heavenly Venerate's plan and ideas were clear, and it had to be said, what he was doing had already been the best choice.

Having two Great Ascension Stage Heavenly experts working together made the search much more efficient, and relatively safer.

Although Yang Chen was well hidden, on the third day, he was discovered by two Great Ascension Stage Heavenly experts.

"Over here!"

"Found him."

When the two Great Ascension Stage Netherworld Ghost Venerates found Yang Chen, they became very excited.

Indeed, Yang Chen's position was finally exposed and discovered by these two Netherworld Great Ascension Stage Ghost Venerates.

However, Yang Chen did not show any fear, but rather smiled, "Three days to find me, don't you think it's a bit late?"

“Kid, late? Not at all. Now that we’ve found you, don’t think about hiding anymore,” the two Great Ascension Ghost Venerates sneered.

“Don’t bother fighting this kid, just hold him off until Lord Bloodshadow Ghost Sovereign arrives, and then he’s dead for sure,” the two Ghost Venerates agreed, and the plan was set.

Yang Chen smiled faintly, “You two are so afraid of me that you want to stall me? Maybe if you two work together, you can kill me?”

The two ghost venerates exchanged glances, and in their hearts, how could they not have had that thought?

Indeed, killing Yang Chen would be a great achievement. No matter how evil Yang Chen was rumored to be, they hadn’t fought with him yet. They didn’t believe that Yang Chen would be so powerful as to be able to fight both of them.

“Kid, let’s see how powerful you are.” The two ghost venerates attacked without a moment’s hesitation.

Yang Chen smiled, seeing this.

He had long detected the arrival of the two ghost venerates, and if necessary, he could simply use Space-Time Dao Intent to leave.

But there was no need.

That was because his Dao Intent Inscriptions, combined with his Immortal Qi, had already recovered to their peak state.

It had to be said, the effect of Immortal Qi was quite surprising to Yang Chen, as the speed of recovering his Dao Intent Inscriptions was much faster than he had anticipated.

It should be known that in the Great Ascension Stage, the Dao Intent Inscriptions and strength were merged together, which meant that to recover the Dao Intent Inscriptions, one had to recover their divine power as well.

Consequently, the speed would naturally slow down.

However, the Immortal Qi increased this speed several times, so that in just three days, Yang Chen's excessively exhausted Dao Intent Inscriptions were restored to their peak state.

Now that he was fully restored,

It was time to see how he differed after entering the Great Ascension Stage.

"Great Ascension Stage Ghost Venerate with twenty thousand Dao Intent Inscriptions..."

Yang Chen made a preliminary assessment of the strength of these two people.

Both of them were ghost creatures hiding in human bodies!

Yang Chen's expression was cold, and he stepped on the ground in an instant. The Domain of Earth erupted, and in an instant, the two ghost venerates felt a terrifying pressure, like a giant mountain, as if it had the power to destroy the world, crushing down on them.

They were utterly incapable of resisting the fear this force brought them, and what little resistance they could muster only stemmed from their deep sense of powerlessness...

"Aah!"

With a scream, the two ghost venerates were crushed and suppressed by the Domain of Earth.

"What is this!"

“Not good, run!”

“Run?”

There was mockery in Yang Chen’s voice.

What could these two use to escape?

Upon entering the Great Ascension Stage, the power of the Domain of Earth reached a realm that he had not reached before.

This made it impossible for the two ghost venerates to resist him and were perfectly defeated by him.

He didn’t even need to take action personally, just using the Domain of Earth was enough!

“Die!”

Yang Chen showed no mercy to these ghost creatures, and with a vicious squeeze of his palm, the power of the Domain of Earth gathered like a thousand blades.

“Aah!”

The two ghost venerates screamed, their bodies crushed by the Domain of Earth and their spirit bodies unable to resist under Yang Chen’s Domain of Earth. They were completely killed by Yang Chen and turned into ashes.

In an instant, the two ghost venerates ceased to exist!

When the two ghost venerates were killed, Zhen Shan Heavenly God, who was rushing towards them, and Bloodshadow Ghost Venerable felt it too!

“Dead...” Bloodshadow Ghost Venerable’s veins bulged as he roared lowly, “Kid, I want you dead!”

After finishing speaking, Bloodshadow Ghost Venerable quickened his pace even more, intending to forcefully kill Yang Chen!

Yang Chen didn’t need to guess to know that killing the two ghost venerates now would definitely attract the siege of ghost venerates from all sides.

However, he did not retreat, and headed directly towards the upper level.

The reason he entered the Great Ascension Stage was to increase his strength, and now that he saw his strength had far surpassed what it was before, he naturally had no reason to fall back.

It was already too late to go back and hand over the evidence, as the True King must have arrived by now.

So now, he had no other choice but one goal: to save Spirit King.

Otherwise, his fate would be death!

Today, if he caused trouble in Ling Wang’s Sleeping Palace, True King would definitely not spare him. Life and death were only a fine line apart in his current situation!

Yang Chen took a step and went directly along the path to the fourth level!

Although the maze was complex, Bao Lu’s methods were still rich and extraordinary. She could accurately see through the various layers of the maze, find the true location, and lead Yang Chen successfully into the fourth level.

Immediately after entering the fourth level, Yang Chen went straight to the fifth level without any hesitation.

However, the journey was undoubtedly not smooth.

Along the way, those Great Ascension Stage Ghost Venerates attempting to encircle Yang Chen rushed over, trying to delay Yang Chen's pace and wait for Bloodshadow Ghost Venerable's arrival.

Unfortunately, they clearly did not know much about Yang Chen's strength.

Yang Chen didn't have to take action himself. With the spread of the Domain of Earth, those Great Ascension Stage Ghost Venerates were directly crushed to dust!

Nobody could halt his steps!

However, Yang Chen eventually stopped.

Because he had met the formidable opponent he had been waiting for on his way to the fifth level.

Zhen Shan Heavenly Venerate, who was also Bloodshadow Ghost Venerable, a Boundaryless-level Powerhouse, was blocking his only path to the fifth level!

Chapter 2808: Touching the Power of Law_1

An expert at the Boundaryless Level blocked Yang Chen's path, making a great battle inevitable.

Moreover, the worst part was that two Great Ascension Ghost Venerables accompanied this Bloodshadow Ghost Venerate, who managed to completely block all of Yang Chen's paths in a single encounter.

The Dao Intent Inscriptions had completely sealed off Yang Chen's escape route, leaving him unable to flee.

Bloodshadow Ghost Sovereign finally found Yang Chen, veins bulging and anger visible on his face.

He had exhausted the strength of nine bulls and two tigers to capture Yang Chen, so seeing him now only intensified his fury.

He wanted to release all his anger on Yang Chen.

“Kid, weren’t you trying to run away?”

Bloodshadow Ghost Venerate twisted his neck, “Now, where are you going?”

Seeing Yang Chen’s cold smile, hands behind his back and not nervous at all, he looked around and said with a smile, “I don’t think I ever mentioned where I was going.”

Bloodshadow Ghost Venerate was even more furious when he saw that Yang Chen seemed completely unworried. In a fit of laughter, he shouted, “Kid, it seems you won’t shed a tear until you see your own coffin. Yes, you want to escape, but can you really escape?”

In his eyes, Yang Chen was only good at using the Space Talisman to leave.

However, it was simple to counter this method, as he had brought two Great Ascension Ghost Venerables with him and directly used the Dao Intent Inscriptions to seal off the surrounding space.

Then he would deal with Yang Chen himself. Where could Yang Chen escape to?

But he didn’t see Yang Chen shaking his head slightly at this moment.

Immediately after, Yang Chen’s mouth curved into a smile, and the Domain of Earth spread out unnoticed.

As the Domain of Earth expanded, he sensed that the timing was right, so Yang Chen fully unleashed its power.

“Suppress!”

With just one word, a terrifying pressure spread out within the domain. Then, the nearly despairing pressure descended upon the three of them.

Bloodshadow Ghost Sovereign was fine since he had reached the Realmless Stage and had touched the power of Laws, but the other two Great Ascension Heavenly Venerates were not so lucky.

“Not good!”

“What power is this?”

Before the two Great Ascension Ghost Venerates could react and resist, the unstoppable flood-like force overwhelmed them without giving them any chance to respond.

Only one Ghost Venerate realized the crisis and immediately shouted, “Not good, Bloodshadow Sir, save us!”

Unfortunately, Yang Chen wouldn't give Bloodshadow Ghost Venerate any chance. Before Bloodshadow Ghost Venerate could rescue them, Yang Chen's domain power had already reached its maximum, instantly killing two Great Ascension Ghost Venerates on the spot.

It was quick and decisive, leaving no chance for survival.

Yang Chen is now uncertain about the gap between himself and the Boundaryless Level experts. Hence, before the fight begins, it's necessary to eliminate the potential threats first.

With these two Great Ascension Ghost Venerates, who sealed his Spacetime Dao Intent, gone, he can now unleash his full potential.

Now that he has killed the two Great Ascension Ghost Venerates, Yang Chen smiles calmly, “You see, is this what you call having nowhere to go? I can leave whenever I want. Bloodshadow Ghost Sovereign, you can’t stop me.”

Bloodshadow Ghost Venerate’s anger reached its peak, and with an earth-shaking roar, his entire fury was ignited by Yang Chen.

“Kid, I want your life!” Bloodshadow Ghost Venerate had never been humiliated to this extent, especially not from a Great Ascension, or even a recently Nirvana Realm, kid, who had inflicted such a huge humiliation upon him.

Unable to tolerate it, he launched an attack directly towards Yang Chen.

Bloodshadow Ghost Sovereign attacked with a series of Blood Sea formations around Yang Chen.

These Blood Seas possessed the power of Laws, and when they were formed, they completely sealed off Yang Chen’s surrounding paths.

Immediately after that, Bloodshadow Ghost Venerate did not show any politeness, and as the Blood Sea surrounded Yang Chen, a Blood Claw flew towards Yang Chen’s celestial cover, trying to take his life.

Facing Bloodshadow Ghost Venerate’s attack, Yang Chen was prepared and dared not take it lightly.

It could be seen that Bloodshadow Ghost Venerate had also touched the power of Laws, but compared to that Spirit Demon Ghost Venerate, he was still a grade lower.

This also gave Yang Chen a clue in his heart.

It seemed that there was a difference among Boundaryless Level experts.

This Bloodshadow Ghost Venerate was obviously a slightly weaker Boundaryless Level expert, and his power of Laws was not that strong. Therefore, there was no better whetstone for Yang Chen.

With this thought, Yang Chen didn't waste any more words and directly took out the Slaughter God Spear.

With the Slaughter God Spear piercing through and the Mysterious Wandering Body technique, a Flash Dragon Strike was unleashed!

“Break!”

The Blood Sea was torn apart by Yang Chen on the spot, allowing him to escape from the Blood Sea's encirclement.

Seeing that Yang Chen could actually break his power of Laws, Bloodshadow Ghost Venerate's pupils shrank abruptly. Naturally, he wouldn't let it pass and struck Yang Chen with the Blood Claw once again.

Seeing the menacing Blood Claw chasing him, Yang Chen seized the opportunity to unleash his true powers.

“Deathly Silent Black Wind!”

He had just used the Flash Dragon Strike to dissolve the Blood Sea, and the Deathly Silent Black Wind technique should take care of the Blood Claw.

Bloodshadow Ghost Venerate was proficient in the Dao Intent of Blood, but after touching the Laws, the Dao Intent inscriptions within the Blood held a certain Rule Power!

This Rule Power was not the complete power of Laws.

At the Boundaryless stage, they only touched the Laws. When they fully transform into Laws, they would be considered King-level Powerhouses.

And the Rule Power that Bloodshadow Ghost Venerate applied to the Blood Claw was clearly more potent than that of the Blood Sea.

This was his main offensive method. While the ferocious Blood Claw attacked Yang Chen.

But Yang Chen wasn't one to be trifled with either. Now, as he retreated, he unleashed his Spacetime Dao Intent, using it with agility to keep Bloodshadow Ghost Venerate at bay.

"What?" Bloodshadow Ghost Venerate stared in shock at Yang Chen's flickering movements, which were as fast as lightning, leaving him momentarily dumbstruck.

What kind of technique was Yang Chen using?

Yang Chen was also slightly surprised by his Spacetime Dao Intent.

Now that he had entered the Great Ascension stage, using Spacetime Dao Intent was much smoother. The distance and speed covered had increased a whole grade, and control was more precise, making it perfect for short-range use.

This was precisely the advantage of integrating the Divine Power with the Dao Intent Inscriptions.

As Yang Chen's Spacetime Dao Intent made the Blood Claw powerless, it was time for him to counterattack.

"Deathly Silent Black Wind, take it!"

Yang Chen summoned the Deathly Silent Black Wind, which howled and appeared in an instant. In a fierce stance, it immediately surrounded the Blood Claw.

The Blood Claw was enveloped by the Deathly Silent Black Wind, and after some struggle, it was clear that Yang Chen's Deathly Silent Black Wind had the upper hand!

Chapter 2809 One, Two, Three Paths?_1

Blood Shadow Ghost Lord was shocked to the core. His blood claws, which were imbued with considerable amounts of law power he was able to control and understand, had been somehow restrained by Yang Chen's strength.

How is this possible?

Yang Chen is in the Great Path Stage, could his Dao Intent Inscription destabilize the law power he has touched?

Blood Shadow Ghost Lord was shocked. Unwilling to believe, he rose to his full ghostly form and bared his fangs for all to see.

As he revealed his frightful guise, a mist of blood appeared out of thin air.

And following that, there came another swipe of Blood Shadow Ghost Lord's claw.

When his claw moved, it was more forceful than before. The blood claw wasn't overly large but the contained power could not be doubted.

Actually, the higher one's cultivation, the less focus is placed on the ostentatious power.

Like during the True God Stage, a casual hit could cause seas to overturn and mountains to crumble, but the truly targeted power wasn't strong. All the power was spread out and not focused on a single point, superficial and void.

Like now, a blood claw attack doesn't seem as terrifying, but the power is incredibly astounding. A minor slip could cost one their life.

Yang Chen could see that the Blood Shadow Ghost Lord had fallen into a complete rage. The method he used was an all-out strike, with no trace of holding back.

But Yang Chen isn't a pushover either. The fact that he used the Deathly Silent Black Wind to dissolve the enemy's blood claw wasn't by chance.

As he saw the blood claw swoop, Yang Chen immediately unleashed the Deathly Silent Black Wind again.

The Deathly Silent Black Wind roared as it collided with the blood claw, sparking a remarkable explosive clash.

The sounds were carried far and wide, with Blood Shadow Ghost Lord going all out.

However, Yang Chen's Deathly Silent Black Wind had clearly gained the upper hand! Upon collision, it started to absorb the blood claw, rendering the power of the blood claw once again inferior to the Deathly Silent Black Wind.

Blood Shadow Ghost Lord's gaze was filled with nothing but shock and fear.

He, as a powerful being of the Boundless Stage, had channeled the power of laws into his blood claw attack only to have it broken through by Yang Chen.

How in the world did he manage to do that?

"Boy, you..." The Blood Shadow Ghost Lord unconsciously backed off a couple of steps.

He refused to believe that he was unable to compete with Yang Chen, who was merely in the Nirvana Realm. He wanted Yang Chen to pay the price in their bout.

"Boy, good job, really impressive. I'm truly curious about what kind of power you are using, but once I've killed you, all will be revealed." The Blood Shadow Ghost Lord cracked his neck.

Merely a flash of fear, he couldn't care less about it, dismissing it as an illusion.

Next, he would show Yang Chen what true terror was.

The Blood Sea opened once again, wave after wave, rolling intensely.

However, this time the Blood Sea was quite different from before. As it spread out, it felt as if Yang Chen's territory was expanding.

The fourth floor of the Ancient Castle didn't have much space to begin with, and it was quickly blanketed by the Blood Sea. Yang Chen found himself with nowhere to stand.

Just then, the Blood Sea beneath Yang Chen's feet exploded with a deafening boom.

A surge of law power tore the surrounding space apart, transforming into a giant blood hand that swiftly grabbed at Yang Chen.

Yang Chen, with his sharp reflexes, quickly retreated, dodging the blood hand.

However, as he withdrew, the blood hand appeared everywhere, born anew within the Blood Sea.

Yang Chen withdrew again.

Yet, the blood hands were truly omnipresent. Wherever Yang Chen retreated to, that's where a blood hand would appear, reaching for Yang Chen, prepared to tear him apart.

"Boy, where do you think you're going to run off to!" The Blood Shadow Ghost Lord obviously had brought out his trump card.

Every single appearance of a blood hand signifies the power of laws. The bloody laws, ever-present and tailing like a shadow, justifying the name Blood Shadow Ghost Lord.

The emergence of hand after hand of bloody shadows put significant pressure on Yang Chen, but he also believed that if he hadn't reached the Great Path Stage, he wouldn't have the means to contend with these persistent law hands.

However, unfortunately for them, he had reached the Great Path Stage.

Feeling the blood hands hot on his tail, Yang Chen snorted coldly.

"Deathly Silent Black Wind!"

He instantly conjured another Deathly Silent Black Wind to protect his surroundings. The Deathly Silent Black Wind, as his current trump card, seemed a bit strained when deployed during the Nirvana Realm. However, now at the Great Path Stage, one or two instances of its use were perfectly manageable for him.

A Deathly Silent Black Wind manifested around Yang Chen, and when the blood hand within the Blood Sea stirred, it collided with the Deathly Silent Black Wind and was immediately nullified.

Yang Chen waved his left hand, summoning the power of death, and controlled another Deathly Silent Black Wind, directing it straight towards the Blood Shadow Ghost Lord.

Watching as Yang Chen commanded the Deathly Silent Black Wind again, the Blood Shadow Ghost Lord felt his scalp prickle. The thought that Yang Chen's Deathly Silent Black Wind could obliterate his law power was deeply unsettling.

With a grunt, he clenched his left hand and a large amount of blood and shadow melded together.

Then, the Blood Shadow Ghost Lord opened his mouth and spat out myriad ghostly souls.

Fusing with the blood and shadow, they formed a gigantic ghostly being clad in armor, wielding a massive blood blade that it slashed towards Yang Chen.

Each swing was filled with the continuous force of laws; there was no need to analyze its power. However, Yang Chen didn't retreat now. He controlled the Deathly Silent Black Wind and collided head-on with the law power.

However, this Bloodshadow Giant was clearly extraordinary, clad in armor, the law power wielded by its blade incredibly astounding.

Upon collision, his Deathly Silent Black Wind couldn't gain any advantage and instead was pushed back noticeably, taking the lower hand.

Seeing this, the Blood Shadow Ghost Lord revealed a smile.

"Hahaha, boy, what will you use to defeat me!" Seeing Yang Chen finally out of options, the Blood Shadow Ghost Lord let out a grin.

"Take this!"

Controlling the Bloodshadow Giant, the Blood Shadow Ghost Lord laughed heartily, intending to suppress Yang Chen and strike while the iron's hot!

Unfortunately, how could Yang Chen end up being so easily cornered?

A Deathly Silent Black Wind did indeed struggle to keep up with the Bloodshadow Giant under collision.

But swiftly, Yang Chen gently pressed his palm.

Immediately, a third Deathly Silent Black Wind was conjured.

One for defense, two for offense!

Two Deathly Silent Black Winds swooping from the same direction aimed straight at the Bloodshadow Giant.

Seeing Yang Chen conjure another Deathly Silent Black Wind, the Blood Shadow Ghost Lord was taken aback. He dared not take it lightly and controlled the Bloodshadow Giant to launch a series of heavy blows towards Yang Chen.

They met head-on, entangled with the Deathly Silent Black Wind.

The result, unlike the first time, saw his advantage.

The two Deathly Silent Black Winds clearly exhibited an increased level of power, and under this standoff, it obviously suppressed the Bloodshadow Giant!

Chapter 2810: Collecting the Formation Eye_1

The Blood Shadow Giant had no problem dealing with a single Deathly Silent Black Wind, but when it faced two, it immediately started to struggle.

While resisting, the Bloodshadow Ghost Venerable turned cold with tension. He let out an angry roar and tried to launch a strong counterattack, but to no avail as he failed to overcome the Deathly Silent Black Wind.

At this point, the Bloodshadow Ghost Venerable started to panic.

Before, he had some doubts, but he also had an ace up his sleeve, so he still believed there was a possibility of turning the tables.

But now, no matter how much he thought about it, he couldn't see any chance of him turning the situation around.

In theory, Yang Chen, a cultivator merely at the Great Ascension stage, should not be able to defeat him no matter what.

However, he couldn't think of any ability to win against Yang Chen.

All his tactics had been defended against by Yang Chen.

The surprise ambush of the Blood Sea Law was thwarted by Yang Chen, who was able to protect himself using the Deathly Silent Black Wind.

The armor created by the Law and the Blood Shadow Giant made up of ghostly Yin spirits with one powerful strike was his strongest card. Enough to kill any Great Ascension stage cultivators, no matter the number.

However, he could not get any advantage over Yang Chen.

"Bloodshadow Ghost Venerable, you've lost!" said Yang Chen calmly.

He now controlled the Deathly Silent Black Wind and had a sufficient estimate of his current strength.

The Boundless Stage experts were not invincible!

Hearing Yang Chen's words, the Bloodshadow Ghost Venerable was furious to the extreme and said viciously, "Yang Chen, do you think you've won for sure? What do you plan to use to break my Blood Shadow Giant?"

Seeing the overly confident expression of the Bloodshadow Ghost Venerable, Yang Chen shook his head with a smile.

Since the other party was so confident in his Blood Shadow Giant, Yang Chen thought it best to let him know how naive and laughable his ideas were.

Yang Chen raised his hand.

At this moment, he created another Deathly Silent Black Wind.

The fourth Deathly Silent Black Wind emerged suddenly.

The moment it appeared, Yang Chen waved his hand, aimed at the Blood Shadow Giant and launched the attack.

Seeing this, the Bloodshadow Ghost Venerable who originally thought that even if he couldn't win against Yang Chen, he was in an invincible position, panicked!

Two Deathly Silent Black Winds were enough to suppress his Blood Shadow Giant, and now there was a third one.

"Impossible, impossible!" Worry and even cold sweat exuded from the eyes of the Bloodshadow Ghost Venerable.

He was a Boundless Stage expert, would he be defeated by a Great Ascension stage expert?

This was an impossible thing to happen.

However, the reality was even more cruel than he had imagined!

Yang Chen's Deathly Silent Black Wind, three of them working together, crushed and suppressed the Blood Shadow Giant, shattering its armor with a loud sound in an instant.

The countless ghostly Yin spirits beneath the Blood Shadow Giant, the moment they came into contact with the Deathly Silent Black Wind, were like mice meeting a cat. They were completely crushed into nothingness without any strength left to fight back.

As Yang Chen's three Deathly Silent Black Winds defeated the Blood Shadow Giant, the Bloodshadow Ghost Venerable's pupils shrank and without any hesitation, he turned around and tried to flee.

He had already used all of his means, and if he still lost, there were no other options but to run.

Yang Chen had thought that the Bloodshadow Ghost Venerable would stubbornly fight to the bitter end, unable to accept the fact that he had lost.

But who knew that he was still so calm.

However, escaping from his grasp?

It was a pipe dream!

Yang Chen controlled the Deathly Silent Black Wind, and the three of them worked together to block all escape routes for the Bloodshadow Ghost Venerable.

For him, controlling multiple Deathly Silent Black Winds at the same time was a piece of cake. Four?

Four was not his limit.

If he wanted to, he could still create five or six of them.

Of course, for now, four was enough.

Yang Chen's four Deathly Silent Black Winds chased, and in a short while, a scream filled with the word "no" echoed.

Then, in Yang Chen's soul, he saw the scene of the Bloodshadow Ghost Venerable vanishing into the void. Naturally, Yang Chen was relieved upon seeing this.

“This Bloodshadow Ghost Venerable, a Boundless Stage expert, was far weaker compared to Venerate Wind Smile. Although I didn’t use my Tribulation Divine Body, I still need to be careful and cautious. I don’t want to be taken advantage of by Venerate Wind Smile in a sneak attack,” said Yang Chen after the fight.

Now within his mind, he wondered where Venerate Wind Smile had gone. It was as if he had disappeared along the way.

While puzzled, he didn’t think too much about it and moved forward with careful steps.

Under Bao Lu’s guidance, he smoothly arrived on the Fifth Floor, and then, through layers of mazes, found the correct position and eventually arrived at the sixth floor.

As he entered the sixth floor, Yang Chen felt an increasingly gloomy and cold atmosphere.

The sixth floor seemed exceedingly dim and dark.

Further up was Ling Wang’s Sleeping Palace. Yang Chen became even more cautious, meticulous, and unrelenting, not daring to slack off at all.

This sixth floor also had a maze, but Bao Lu easily cracked it.

“If everything goes according to plan, the Formation Eye should be in this sixth floor. If you can control the Formation Eye, we will have the upper hand in the subsequent battles,” said Bao Lu.

“Are you sure the Formation Eye is on the sixth floor?” asked Yang Chen.

“Don’t worry. Would This Palace deceive you? I’ve observed all the previous five floors, and they weren’t suitable to hold the Formation Eye. The only place left is the sixth floor,” Bao Lu confidently said, before adding arrogantly, “Of course, you can also choose not to believe This Palace. It’s all up to you.”

“...”

Yang Chen looked at Bao Lu, who was throwing a tantrum, and shrugged, “Don’t worry, I trust you.”

He now had even more faith in her mastery of formations.

If she said so, there must be a reason. He quickly found the location of the Formation Eye after a brief search.

Originally, Yang Chen was quite worried. After all, the Formation Eye should be guarded by Masters such as Wind Smile, who should be nearby.

However, he never saw Wind Smile. The only explanation was that Wind Smile was not here but had gone to a different location.

This made Yang Chen suspicious and cautious.

“So this is the Formation Eye,” said Yang Chen looking straight ahead.

This so-called Formation Eye was actually a small pool, with its water incredibly clear, and it seemed to contain an enticing power within.

“Yes, this is the Formation Eye. It’s strange that there’s no one guarding it. These people must be out of their minds, don’t they know the value of the Formation Eye?” Bao Lu remarked.

“It’s possible that they don’t have enough people left to defend it,” said Yang Chen.

He didn’t know it, but his guess was absolutely correct.

He didn’t think it over too much and raised his hand without any hesitation to pull the small pool into the Demon God Tower.

He easily took control of the Formation Eye.

Next, he would go to Ling Wang's Sleeping Palace and rescue Ling Wang.
