Chapter 2881 The Reappearance of the Emperor Divine Tool's Power_1

He Mu Ghost Venerate didn't seem to notice his presence.

This was normal, as Yang Chen's Divine Soul Realm was incredibly high.

The Boundless Stage, compared to the Mahayana Stage, was actually a stage where Dao Intent Inscriptions evolved into rules. There was not much difference in soul, and Yang Chen could completely crush the four directions with his soul, using the mystery of the second layer of the Forbidden Divine Art.

None of these Netherworld Ghosts could surpass him in soul realm.

As he crushed their soul realms, as long as he could keep his Qi concealed and not make any overly conspicuous moves, there would be no problem.

Now, He Mu Ghost Venerate had clearly entered the most critical moment of devouring and refining.

Luo Zhiheng and Qin Yuwen had already lost themselves under the erosion of Ghost Qi. Only the last trace of their consciousness remained, and their eyes were filled with fear.

At this time, not only Luo Zhiheng, but also Qin Yuwen was yelling nervously.

However, compared to Luo Zhiheng, he was still smarter, knowing that begging for mercy was useless.

"Hahaha, why are you so reluctant? It's your good fortune to be refined by me. Just obediently become a part of this seat's power. I will treat your souls well, hehehe." As He Mu Ghost Venerate finished speaking, he suddenly grabbed with his hand.

The next moment, the souls of Luo Zhiheng and Qin Yuwen came out of their bodies, directly heading towards He Mu Ghost Venerate.

He Mu Ghost Venerate laughed loudly, and controlling the human bodies he had invaded, revealed his true form, opening his big mouth, intending to swallow these two souls in one bite.

The souls of Luo Zhiheng and Qin Yuwen desperately tried to control themselves, struggling, but it was of no use.

Just as they were about to be devoured, suddenly...

An eerie sound came from a distance.

This sound was like music, but not music. Chanting, the sound came clearly, making all four Ghost Venerates pause.

At first, they didn't care, thinking it was some Ghost Creature humming a little tune. But upon careful listening, they only felt their heads swelling and their consciousness blurring.

"Not good, enemy attack!"

He Mu Ghost Venerable was the first to react.

By the time he had, the other three Ghost Venerates had already been suppressed by the sound, becoming confused and unable to clear their heads.

Seeing this, He Mu Ghost Venerate was shocked and wanted to wake them up. But suddenly, a cold wind came from behind him.

He Mu Ghost Venerate looked back to see several black winds.

When he saw these black winds, He Mu Ghost Venerate's pupils shrank: "What is this? Not good."

He panicked and counterattacked, slapping down a ghost claw, colliding with the black wind.

But in this collision, he didn't gain any advantage, instead, he was forced to retreat step by step.

The one who made his move was naturally Yang Chen, who had been preparing for a decisive attack.

He had just used the Death Omen Scripture.

Unfortunately, He Mu Ghost Venerate turned out to be more resourceful than the other Mahayana Stage Ghost Venerates. In response to his surprise attack with the Death Omen Scripture, he managed to stay alert and maintain a clear state of mind.

Even when faced with his sneak attack of the Deathly Silent Black Wind, he was able to resist it, only suffering a minor loss.

"Then taste this move!"

Yang Chen took out the Slaughter God Spear and immediately aimed it downwards, launching a fierce attack!

This attack turned into a beam of extreme white light, tearing through the air, tearing through space, and tearing through the surrounding geomagnetic environment!

Boom...

The entire desert was ripped apart from the ground up, with the earth shaking violently. The huge cave was no longer in shape. As a Mahayana Stage expert and with the strike of an emperor divine tool, if set in the Spirit Realm, it could be considered earth-shattering.

In the Southern Realm, which was transformed by the Spirit King himself, the power was not that terrifying. Most of it was blocked by the prohibition that reinforced space.

Nevertheless, altering the geographic environment was still a piece of cake.

With a single blow, the desert twisted and deformed.

All the Netherworld Ghosts became restless and uneasy because of this attack.

Yang Chen's gaze locked in.

The power of the Divine Tool's spear was quite astonishing.

However, it has to be said that He Mu Ghost Venerate really had some skills. Under his Slaughter God Spear, he still managed to maintain his life force.

"Interesting..."

Yang Chen waved his sleeve, dispersing a large amount of wolf smoke, allowing him to see He Mu Ghost Venerate's current appearance clearly.

He Mu Ghost Venerate had actually grown an old man holding crutches behind him. This old man looked identical to Luo. Wasn't it the same as the means created at the time by the Black Wind Ghost Marshal?

"Emperor-class Ghost Monarch?"

Yang Chen muttered to himself but quickly shook his head.

It wasn't an Emperor-class Ghost Monarch.

Although he is powerful now, he still can't deal with Boundless Stage Experts at the Emperor level. Even at the king level, it would be slightly overwhelming.

It seems that after reaching the Boundless Stage, these Ghost Venerates all have the ability to create 'Yan' legal bodies.

This legal body is quite powerful, allowing He Mu Ghost Venerate to survive under his own spear attack.

Of course, although He Mu Ghost Venerate survived under his own spear attack, his current state is not in good shape. He has obviously suffered a lot of injuries.

"Kid, who are you?" He Mu Ghost Venerate said fiercely.

His heart was filled with anger.

Yang Chen chose to take action at the most critical moment, making it difficult for He Mu Ghost Venerate to defend himself. If he hadn't created the Yan legal body in time, he might have already suffered a deadly outcome by now.

It can be seen that Yang Chen had been plotting in the dark for a long time.

He Mu Ghost Venerate couldn't fathom when this person had appeared.

At the same time, Luo Zhiheng and Qin Yuwen's souls instantly returned to their bodies.

It was only after their souls returned that the two weak people looked around and found that the newcomer was Yang Chen!

When they saw Yang Chen, their eyes widened, especially when they vaguely observed the astonishing blow earlier in the state of their souls. They couldn't help but swallow their saliva.

Yang Chen's move just now, wasn't that his true strength?

"You guys wanted to find me, right? No need to bother, now, I'm presenting myself." Yang Chen smiled slightly.

He Mu Ghost Venerate said in a low and deep tone, "Are you Yang Chen?"

"It seems that Luo Zhiheng said quite a lot to you." Yang Chen hugged his shoulders, glanced at Luo Zhiheng, making Luo Zhiheng feel ashamed.

"So it's you. With just your strength at the Great Ascension Stage, you dare to come here and show off? Kid, watch me take your life."

Although he spoke confidently, He Mu Ghost Venerate knew very well that he was injured at the moment, and if Yang Chen struck again like before, he wouldn't be able to withstand it.

Yang Chen probably couldn't use that attack many times. He Mu Ghost Venerate pretended to threaten Yang Chen, but in reality, he waved his sleeve and slapped the three Ghost Venerates who were suppressed by Yang Chen's Death Omen Scripture.

The three Ghost Venerates suddenly woke up and looked around in astonishment, seemingly not reacting to the situation.

Chapter 2882 Bountiful Harvest_1

They indeed hadn't recovered yet.

Everything that happened just now was too fast for them to think. In the blink of an eye, they had already lost consciousness.

Now that they came to their senses, they saw that the surrounding environment had changed drastically, even He Mu Ghost Venerate was injured!

"Just now someone sneak-attacked us, you three, go kill this kid!" He Mu Ghost Venerate commanded viciously.

One of the Ghost Venerates was not stupid. Just as he was about to go, he suddenly realized Yang Chen's strength. Even He Mu Ghost Venerate was injured, so what use would they be?

They needed to know that He Mu Ghost Venerate's Yan Legal Body only came out when it was absolutely necessary.

Now even this thing was used and injured, it showed how terrifying Yang Chen's strength was.

He Mu Ghost Venerate naturally saw the fear in the three people's eyes and angrily gritted his teeth, "What are you afraid of? This kid is only at the Mahayana stage. You'll see. He has already used up all his cards to deal with me just now and didn't even take advantage of the sneak attack. Now there are three of you against him, are you still afraid of him?"

Upon hearing this, the three Ghost Venerates seemed sober.

Indeed, upon close inspection, Yang Chen's cultivation was indeed only at the Mahayana stage.

Even if it was just the Mahayana stage, they had nothing to fear. With their combined strength, they could resist Yang Chen, and there was no fear of him causing any turmoil.

With this thought, their inner fear was reduced by more than half, and they rushed straight towards Yang Chen. They even thought about getting credit for the kill.

"Kill this kid, and the credit will be mine!"

As they all thought this, the three Ghost Venerates fiercely charged at Yang Chen.

Seeing this, Yang Chen's mouth raised a smile.

"He Mu Ghost Venerate, you're injured and dare not make a move. Do you really think that relying on these three, you can take me down?"

Yang Chen sneered sarcastically.

He Mu Ghost Venerate laughed loudly, "Yang Chen, don't pretend with me. You are nothing more than a Mahayana stage cultivator. Just now, you used the Emperor Divine Tool by overdrawing your body as the price to strike. It's impossible for you to use it again."

Yang Chen shook his head with a smile.

"A second time? To deal with you guys, there's no need for a second time."

Yang Chen raised his hand, and as he watched the three Ghost Venerates attack from different directions, he spread out the Domain of Earth.

As the Domain of Earth spread, the strongest Dao Intent suppressed them.

The level of suppression from this Domain of Earth could only be described as terrifying. It was extremely difficult for those in the same realm to maintain their ability to move within this domain.

As for the three Ghost Venerates, two of them could hardly move due to the suppression.

Only the Ground Duty Ghost Venerable was slightly better. After all, he single-handedly captured someone like Qin Yuwen, a powerful Mahayana stage cultivator, with over 25,000 Dao Intent Inscriptions.

However, even so, under Yang Chen's Dao Intent inscriptions, he was still no match!

"Break for me!"

Yang Chen's expression was cold, and he had not used all his strength just now for his Dao Intent inscriptions.

Now, the Dao Intent inscriptions directly formed a crushing pressure, pouring down on the spot.

All the Dao Intent inscriptions were integrated into the domain.

Bang, bang, bang.

After three consecutive sounds, the three Ghost Venerates who were struggling helplessly within the Domain of Earth all had their bodies burst open.

They didn't even have the chance to scream.

Seeing this, He Mu Ghost Venerate, who was originally calm and confident, was now shocked and pale.

"How is this possible, you are only at the Mahayana stage, how can you be so powerful!" He Mu Ghost Venerate finally panicked.

Only he knew that he was currently unable to use any other methods.

It's not worth mentioning that he was Yang Chen's teammate, even Qin Yuwen and Luo Zhiheng were dumbfounded.

Just now, Yang Chen swiftly and decisively killed three Ghost Venerate-level experts, something that was simply impossible in their eyes.

Is this Yang Chen's true strength?

Is this the Yang Chen they were not convinced of?

Looking back, the two of them felt embarrassed and ashamed. If they had followed Yang Chen and listened to him, they wouldn't have ended up in this situation.

No wonder Yun Bietianzun valued Yang Chen so much...

Looking at He Mu Ghost Venerate now, he had already lost his momentum before even starting the fight.

Fear was in He Mu Ghost Venerate's eyes.

As a Boundless Stage expert, it was not normal for him to fear a Mahayana stage expert. But now, he was really scared.

He had run out of tricks and had no other options!

"Die!"

In panic, He Mu Ghost Venerate still refused to give up, suddenly slapping out a palm. He used all the Power of Laws he could muster to strike, hoping to change his current predicament.

Unfortunately, his palm strike couldn't change anything at all.

Yang Chen simply waved his sleeve to completely dissolve the Power of Laws from He Mu Ghost Venerate. Seeing this made him feel as if he had encountered a demon.

Immediately after, Yang Chen showed no mercy, and the Deathly Silent Black Wind tore through the sky, whistling as it went.

At this moment, He Mu Ghost Venerate was no longer able to resist the Deathly Silent Black Wind. Under its devastating force, his body and spirit were completely destroyed.

Only two Storage Bags were left on the ground, looking quite conspicuous.

Looking at these two Storage Bags, Yang Chen raised his eyebrows, revealing a hint of interest.

He raised his hand, attracting the two Storage Bags towards him.

Upon opening them up and looking inside, Yang Chen's eyes lit up with delight.

"I didn't expect He Mu Ghost Venerate to have such a rich bounty. I was originally worried about finding the materials for the third layer of the Forbidden Divine Art. Some of the most important materials are hard to find. I didn't expect He Mu Ghost Venerate's Storage Bag to be so rich. There are even materials I need. In addition, there are several other materials that seem to be helpful for me to practice the Mysterious Wandering Spear Canon. Not bad..."

Yang Chen smiled faintly, and this battle had some unexpected gains.

Now that he had reaped a great harvest, Yang Chen was in high spirits. However, when he looked at Qin Yuwen and Luo Zhiheng, his face darkened, and he couldn't be cheerful anymore.

After all, the appearance of these two people just now greatly disappointed Yang Chen.

Qin Yuwen and Luo Zhiheng were also acutely aware of their embarrassing state just now, and they immediately flattered, "Yang, Yang Chen Captain. Thank you for saving our lives. We will remember your kindness."

Yang Chen snorted coldly. Qin Yuwen was fine, but Luo Zhiheng's face, he could not stand.

If he hadn't come today, with Luo Zhiheng's character, he would have said even more about the matter.

"Luo Zhiheng, I don't want to dwell on the past. But the matter of you revealing information to the Netherworld Ghosts, I will report it truthfully to Yun Bietianzun. You guys really disappoint me." Yang Chen's expression was cold.

Betraying humans was a taboo.

Chapter 2883 Killing Realmless, How Is It Possible_1

The sins of these two are indelible.

However, it would be inappropriate for him to judge this matter, so he could just hand it over to Yun Bietianzun for handling.

Luo Zhiheng and Qin Yuwen both knew very well what the outcome would be if this matter were exposed. They couldn't help but tremble inwardly.

Betrayal is the most taboo thing for humans. People like them who exposed the information without even going to the battlefield, their future prospects are basically ruined.

In the past, they would have tried to cover up the matter by killing and silencing witnesses. But unfortunately, they were facing Yang Chen.

When seeing Yang Chen's figure, they completely despaired, knowing well that they would never be able to overcome this majestic mountain problem in any way.

"Let's go."

Yang Chen didn't say much and led the two back to the Heaven Lord Pavilion.

...

Three days later, the three returned safely to the Heaven Lord Pavilion.

Upon returning to the Heaven Lord Pavilion, Yang Chen brought the two directly to Yun Bietianzun and told him everything without any omissions. He then handed the matter over to Yun Bietianzun for handling.

Yun Bietianzun was furious when he heard that Luo Zhiheng had done such a thing.

"Good, good, Luo Zhiheng, I never thought that after I carefully nurtured you and had you work for Heaven Lord Pavilion just once, you would do such a disgraceful thing." Yun Bietianzun said fiercely: "Is what Yang Chen, my friend, said true?"

Luo Zhiheng knew very well that he couldn't hide this matter.

Even if he insisted on hiding it, Yun Bietianzun would find a way to learn the truth eventually. In the end, he would be the one to suffer.

In an instant, Luo Zhiheng smartly fell to his knees and kowtowed: "Lord Yunbie, I was really possessed by evil at that time and didn't think much about it. I swear I won't dare to do it again. I participated in this kind of thing for the first time and had no experience. Give me another chance, just one more chance. I promise that such a terrible thing will never happen again."

Hearing these words, Yun Bietianzun exchanged glances with the Boundless Stage Experts beside him.

All the Boundless Stage Experts shook their heads.

Some things, once they happen for the first time, are bound to happen again. Even if they don't happen a second time, such things are absolutely unforgivable.

The consequences of Luo Zhiheng's actions this time could have been relatively minor, but if he had exposed greater secrets, the interests at stake would be even broader.

"Luo Zhiheng, from today onwards, you are no longer a member of the Heaven Lord Pavilion. Give up your cultivation yourself, as I do not wish to do it for you." Yun Bietianzun said solemnly.

Yang Chen didn't expect the punishment to be so severe that Luo Zhiheng's cultivation would be abolished and he would be expelled from the sect.

It seemed that the punishment for betrayal was even more severe than he had imagined.

Luo Zhiheng's eyes widened, and he couldn't believe that the situation had turned so horrifying.

"Lord Yunbie, I really know my mistake. Please, give me just one more chance. I beg you, give me one more chance." Luo Zhiheng cried out with a sobbing tone.

Seeing that Luo Zhiheng had no self-awareness, Yun Bietianzun didn't hesitate to slap him fiercely.

This slap contained the astonishing power of Yun Bietianzun's laws and swept over Luo Zhiheng's entire body.

Since Luo Zhiheng was unwilling, Yun Bietianzun had to do it for him.

With one move, the power of the laws completely restrained Luo Zhiheng.

Before Luo Zhiheng could react, he was completely imprisoned by the power of laws. Fire Elder, who was next to Yun Bietianzun, also suddenly slapped out a palm right after.

This palm contained the law of fire, flames burning within Luo Zhiheng's heart. As the flames spread, they completely destroyed Luo Zhiheng's cultivation.

Luo Zhiheng's Great Ascension Stage's Qi vanished entirely, reducing him to an ordinary mortal. His vision went black, and he fainted on the spot.

"Throw him out of the Heaven Lord Pavilion." Yun Bietianzun's mouth twitched, feeling somewhat heartbroken.

After all, it hurt to see a Great Ascension Stage cultivator, who had been trained with a large amount of resources from the Heaven Lord Pavilion, have their cultivation destroyed so easily.

Nevertheless, the rules had to be followed. If these rules couldn't be established, everyone would eventually betray, and humans wouldn't stand a chance against the Netherworld Ghosts.

Yang Chen also nodded in agreement.

The Netherworld Ghosts, although afraid of death, would rather self-destruct than reveal any clues. This kind of quality was extraordinary. If humans couldn't achieve the same level of commitment and were instead consumed by the desire to survive, they would never gain an advantage in the battle against the Netherworld Ghosts.

Now, with Luo Zhiheng thrown out, Qin Yuwen was left sweating in fear.

Fortunately, Qin Yuwen didn't commit any betrayal so his punishment was not as severe as Luo Zhiheng's.

"Qin Yuwen, when you get back, take a good rest and regroup. As for dealing with the Netherworld Ghosts, you will no longer follow Yang Chen, my young friend. I hope you can be ready for action and think things through before taking any further steps, so you don't end up like Luo Zhiheng." Yun Bietianzun sighed, looking at Qin Yuwen with disappointment.

Considering that all the truly backbone members of Heaven Lord Pavilion had gone to the battlefield, he couldn't really place high hopes on these so-called 'elite' left behind.

Qin Yuwen was sweating profusely and quickly said: "Junior will definitely not let something like what happened to Luo Zhiheng happen."

"That's good. You may leave now." Yun Bietianzun said solemnly.

Qin Yuwen finally felt relieved and hurriedly fled.

Only Yang Chen remained, and seeing him, Yun Bietianzun regained a hint of joy.

"Yang Chen, I didn't expect these people to be so useless, making you witness such disgrace. For handling the matters afterwards, it will still be you who will have to take care of them. Now that a Boundary-less Level Ghost has appeared, you need to be even more careful in your actions. If you

encounter any troubles you cannot handle, feel free to come back first to discuss and then act, as it's not too late." Yun Bietianzun expressed concern.

"This junior understands, and I thank you for your concern, senior. Junior will be on his way again." Yang Chen respectfully said.

Yun Bietianzun nodded his head.

Yang Chen quickly left without any hesitation.

Watching Yang Chen leave, Fire Elder hesitated for a moment before asking Yun Bietianzun: "Brother Yunbie, do you think the kid is telling the truth?"

"What do you mean?" Yun Bietianzun asked in surprise.

Fire Elder said: "This kid, although he didn't explicitly say that he defeated He Mu Ghost Venerate, it basically implies that he defeated a Boundaryless-level powerhouse like He Mu Ghost Venerate. If it were not for this, how could he have brought these two back? It just seems a bit far-fetched that he defeated a Realmless expert like He Mu Ghost Venerate with his mere Great Ascension Stage strength. It seems rather impossible no matter how you think about it."

The other Boundaryless-level Powerhouses nodded in agreement upon hearing these words.

Yun Bietianzun shook his head: "Fire Elder, it seems that you really don't know anything about Yang Chen, my young friend, saving Spirit King."

Chapter 2884 Another One Who Can Kill the Realmless?_1

Fire Elder had only heard a little about it, but his knowledge of Yang Chen saving Spirit King was limited. He only thought that someone was behind the scenes, purposely spreading the word.

Actually, it wasn't entirely true.

After all, at that time, Yang Chen had just passed the Two-Nine Heaven's Tribulation and entered the Great Stage, and was able to break the shackles on the Spirit King Palace of Heaven Lord Pavilion, and save Spirit King. This was a bit illogical.

But looking at it now, it seemed that there might be some truth to the matter?

"Is this really true?" Fire Elder asked with confusion.

"I saw it with my own eyes at the time. How could it be fake? The strength of young friend Yang Chen indeed exceeded our expectations. He had control over the strongest Dao Intent which was personally confirmed by Spirit King and cannot be false. Perhaps it is for this reason that common Boundaryless Stage experts are no match for him." Yun Bietianzun said.

"The strongest Dao Intent!" Fire Elder's eyes shone brightly.

"Hehe, Fire Elder, please don't target this young man just because he has the strongest Dao Intent. It was said that Spirit King will protect him. To be honest, we Boundaryless Stage experts are all quite interested in the strongest Dao Intent, but we'd better not defy the words of Spirit King," Yun Bietianzun advised.

Fire Elder's eyes were indeed shining brightly at first, but he quickly calmed down, and when he heard the words "Spirit King," his whole body trembled as if he had been splashed with a basin of cold water.

"Hehe, Yun Bietianzun, you worry too much. How could I have malicious intentions toward my fellow human? Young friend Yang Chen is so young and talented, it's truly admirable. Such a good seedling should be nurtured, not destroyed. I was just itching to learn more about the strongest Dao Intent," Fire Elder said with emotion.

The other Boundaryless Stage experts who heard this, all nodded their heads in agreement, evidently sharing the same thoughts as Fire Elder.

While they were casually chatting, suddenly Yun Bietianzun felt something and raised his eyebrows: "Oh, there's a message from the frontline. I wonder what happened."

Yun Bietianzun closed his eyes and released his soul.

Suddenly, an Avatar soared into the sky above Heaven Lord Pavilion. This Avatar stopped in the sky, leaving a message that no one could hear. When it had finished speaking, the Avatar vanished, no longer existing.

The onlookers looked at each other in confusion, not knowing what the Avatar had said.

Only when Yun Bietianzun opened his eyes did the others turn their attention to him and ask, "Yun Bietianzun, what did the frontline just say?"

The few Boundaryless Stage experts eagerly asked.

Yun Bietianzun frowned and said with his hands behind his back, "Everyone, I'm afraid you won't be able to enjoy these laid-back days in the rear any longer."

"What's going on...?" the others looked at each other.

Although they were not afraid to go to the front lines, they didn't want to give up their comfortable lives in the rear either.

"Here's the situation: the Extreme Yin Land seems to have borrowed part of the Netherworld's forces. Our combined forces in the Southern Realm had been effectively suppressing the Extreme Yin Land. But who would have thought that a mysterious power would suddenly emerge in the Extreme Yin Land? This power has caused significant damage and losses to our frontline forces," Yun Bietianzun took a deep breath and continued: "At first, I thought it was just the Enlightenment Stage and Nirvana Stage that suffered losses, but it turned out that the damage to the Mahayana Realm and Boundaryless Stage was even more severe."

"How is that possible? Most experts at the Mahayana Realm and Boundaryless Stage have absolute self-protective abilities. How could the losses be so severe?" Fire Elder asked with a slight pause, his face filled with shock.

The others also showed deep doubts and confusion, wondering what had happened.

Yun Bietianzun's expression gradually grew heavier: "It's a long story, but a Mahayana Realm-level Emperor-class Ghost Monarch suddenly emerged in the Extreme Yin Land. The strength of this Emperor-class Ghost Monarch is terrifying. He runs rampant in the Mahayana Realm, invincible and almost unstoppable. Even Boundaryless Stage experts can hardly punish him. A few days ago, several major Sacred Districts reported that three Boundaryless Stage experts had been killed by this Emperor-class Ghost Monarch."

"What? A Mahayana Realm expert killing a Boundaryless stage expert again?"

The several Boundaryless Stage experts that were listening felt like weeping but couldn't shed tears.

They had a hard time accepting it when it was Yang Chen before, but they comforted themselves with the thought that a freak like him would emerge once every few years.

But who would have thought that a Netherworld Ghost Monarch would suddenly appear, and he could also kill Boundaryless Stage experts at the Mahayana Realm?

"This Netherworld Ghost Monarch is extremely powerful. His Dao Intent Inscriptions are known to have reached over 35,000. He's even more powerful than Yang Chen, but no one has seen his true strength. It seems that 35,000 is still insufficient to describe his full potential," Yun Bietianzun sighed.

"35,000 Dao Intent Inscriptions? This is horrifying. If he enters the Boundaryless stage, and such a huge amount of Dao Intent Inscriptions are converted into Law, it would be unimaginable," the few Boundaryless experts looked at each other aghast.

"Indeed, the emergence of this Netherworld Ghost Monarch has completely disrupted the current situation. Moreover, it is rumored that the Extreme Yin Land has even stronger reinforcements. We don't know if it's true or not. The situation is extremely unfavorable for us. Brothers, we have no choice but to ask for your help now," Yun Bietianzun said solemnly, "All the major Sacred Districts have sent Boundaryless experts to the frontline. We, the Spirit King Sacred Area, can't hold back any longer."

"There's no problem with us helping. We can do it. It's just that with all these Netherworld ghosts rampaging and harassing our rear, what can we do...?" the others worriedly asked.

"At this point, I can only worry more about it myself," Yun Bietianzun said with a bitter smile.

"It seems that's the only way," the Boundaryless experts were somewhat reluctant, but once the news broke, they had to take action whether they wanted to or not.

After discussing briefly, they wasted no time and left quickly.

...

Yang Chen was unaware of the developments that took place after his departure. At this point, he was fully focused on helping Heaven Lord Pavilion clean up the Netherworld ghosts in the rear.

With the experience of cleaning up last time, Yang Chen now had his own ways of dealing with it.

By using smaller victories to bait bigger ones, then using larger victories to lure the true Netherworld ghost nests lurking behind the human forces.

However, having already killed a Boundaryless level ghost creature, finding a second one wouldn't be so easy. After all, the Extreme Yin Land wouldn't place too many Boundaryless forces in the rear, or they wouldn't be able to support the frontline.

Chapter 2885 Heavenly Raising Essence_1

In the past few days, Yang Chen had moved around various locations, dealing with many Nirvana Stage ghost creatures and performing soul searches on several ghost generals. Unfortunately, the largest ones he encountered were only at the Nirvana Stage; he did not even see a shadow of a Great Ascension Stage Ghost creature, which made him feel quite puzzled.

Despite his doubts, Yang Chen's journey did not deviate too much from his plan.

His plan was twofold: first, to slay ghost creatures and purify the entire Sacred District, and second, to cultivate the Forbidden Divine Art.

Last time, he had received many materials from the Hemu Ghost Lord. He had reaped considerable benefits from them, allowing Yang Chen to gain the initial ability to cultivate the third layer of the Forbidden Divine Art.

However, it was only an initial ability.

So, what does this initial ability mean?

Before cultivating the third layer of the Forbidden Divine Art, one must first cultivate another supporting art. This supporting art was called Divine Travelling Thousand Miles.

This Divine Travelling Thousand Miles could turn one's soul into an intangible state, allowing it to travel thousands of miles away, far beyond the ordinary range of one's soul. It was an excellent skill for reconnaissance.

This technique made Yang Chen very interested.

It is important to know that in most cases, even if his soul realm is high, it would still be risky to use his soul to spy on enemies.

While sweeping his soul to find enemies, it cannot protect itself. If he enters the range of an enemy's soul, the enemy's soul could overpower his own. Even if his soul realm is higher, it would still be in danger of being detected by the enemy.

However, this Divine Traveling Thousand Miles would make such concerns disappear entirely.

With this skill, he could project his soul from a much greater distance, three times farther than his usual reach.

This distance would make it almost impossible for enemies to detect him.

Although his current soul realm was rarely detected by others, it was worth learning this skill since it could further reduce the possibility to be detected.

Whenever Yang Chen had free time, he would focus on this skill and begin to study and research it.

However, cultivating the Divine Travelling Thousand Miles was not a simple task.

Before starting the cultivation, a large number of materials must be prepared to raise his soul realm another level. Only then could he achieve the desired effect of Divine Travelling Thousand Miles by combining the power of his cultivation methods.

Otherwise, for ordinary humans, rashly projecting one's soul to a previously unreachable realm might cause side effects, leading to soul damage and difficulty in recovery.

As for the materials, Yang Chen had collected enough of them.

He had previously collected some materials for the Forbidden Divine Art, as well as receiving more from the Hemu Ghost Lord. Although it may not be enough to cultivate the third layer of the Forbidden Divine Art, it should be enough to cultivate the Divine Travelling Thousand Miles without any major issues.

In the Spirit King Sacred Area, there was no one who could harm Yang Chen.

All the way to his destination, he killed small ghosts and cultivated Divine Travelling Thousand Miles. This made his days more leisurely compared to fighting in the frontlines.

In this manner, about a dozen days passed, and Yang Chen had visited four different cities.

Within these four ancient cities, he dealt with a large number of ghost creatures but still did not see any Great Ascension Stage ghost venerates. The only one he had seen was a ghost creature at the level of a ghost general.

The baffling situation made Yang Chen feel stranger and stranger.

He could understand if he did not encounter any Boundary-less Stage ghost venerates.

However, the fact that he had not encountered a single Great Ascension Stage ghost venerable along the way was truly unexpected.

As he grew more and more puzzled, Yang Chen couldn't help but become more careful. While the current situation appeared advantageous to him, he knew that unusual events often hinted at more dangerous secrets. If he wasn't careful, he might be caught off guard by sudden changes in the situation.

And so, with the help of many materials, Yang Chen's progress with the Divine Travelling Thousand Miles was coming along quite well.

However, as the journey continued, the behavior of the Netherworld ghost creatures grew increasingly abnormal.

These little ghosts seemed to have no intention of harming humans and were instead searching everywhere for something called Heavenly Raising Essence.

"Heavenly Raising Essence?"

Yang Chen was completely puzzled.

He was not entirely sure what this Heavenly Raising Essence was.

Why were these Netherworld ghosts looking for Heavenly Raising Essence and not anything else?

The key point was that, during his soul searches, he discovered that the Heavenly Raising Essence belonged to the Yang energy, which should have been something that Netherworld ghosts despised. But now, these little ghosts were searching for it everywhere. All sides were trying to gather information in

hopes of finding Heavenly Raising Essence. For every piece found, the higher-up ghost generals would reward them handsomely.

Yang Chen decided to follow the trail and find the ghost general responsible for this area. Then, he captured that general and performed another soul search!

After this soul search, Yang Chen finally found Ghost Venerables at the Mahayana Realm level. To his surprise, the order to search for the Heavenly Raising Essence was issued by these Ghost Venerates themselves.

Yang Chen grew even more puzzled. What exactly was the use of this Heavenly Raising Essence?

After much thought, he resorted to his old tricks. He transformed into the appearance of the previously soul-searched ghost general.

This ghost general was called the Ling Bie Ghost General, and Yang Chen adapted his appearance accordingly.

His disguise was difficult to detect even in the Extreme Yin Land, let alone in fooling others.

"I really want to see what these ghost creatures are trying to achieve by finding the Heavenly Raising Essence. Interesting..." Following the memory he obtained from the soul search, Yang Chen headed straight for Dao Ming Ghost Sovereign, the Great Ascension Stage ghost venerable who was in charge of the Ling Bie Ghost General.

...

"According to the memories of the Ling Bie Ghost General, all the Netherworld ghost creatures in the area to the north are actually searching for Heavenly Raising Essence. And the Heavenly Raising Essence that they found must be delivered to the Fei Qiu Cave within three months. The powerful venerates there will be waiting in the Fei Qiu Cave, and the more Heavenly Raising Essence they hand in, the more rewards they will receive..." Yang Chen muttered to himself, calculating that the three-month deadline was fast approaching.

He was already on his way, carrying the Heavenly Raising Essence collected by the Ling Bie Ghost General and heading straight for the Fei Qiu Cave.

Fei Qiu Cave was similar to the previous lair of Hemu Ghost Lord that Yang Chen destroyed, both were in vast underground caves.

As a stronghold for the ghost creatures, this place was even more immense than the one Yang Chen previously destroyed.

When Yang Chen arrived, there were already many ghost generals from every corner who had also arrived.

These ghost generals all looked serious and held boxes similar to the one Yang Chen was carrying, each filled with the precious Heavenly Raising Essence.

"Ling Bie Ghost General, how much Heavenly Raising Essence have you found this time? Hahaha, I found thirty pounds! I wonder how Lord Ghostly Sovereign will reward me this time." A Netherworld Ghost General, who seemed to be on friendly terms with the Ling Bie Ghost General, came up to Yang Chen and began to talk and laugh.

Chapter 2886: Mu Taiqing?_1

He did not notice any anomaly from Yang Chen's body and assumed that Ling Bie Ghost General was still the same Ling Bie Ghost General. He laughed and greeted him, with a hint of comparison.

Yang Chen pretended to be familiar and laughed, "Is that so? I've collected quite a bit this time too, but it's a little less compared to yours."

"Hahaha, I had expected this. In order to gain merit this time, I sent all my little ghosts to collect it. Fortunately, we had good luck and collected more than thirty pounds." The ghost general was very happy, and without spending much time reminiscing with Yang Chen, he entered Fei Qiu Cave.

Yang Chen did not linger either.

As soon as he entered Fei Qiu Cave, he saw a large number of ghost general powerhouses here.

Besides, the most eye-catching ones were the fourteen Mahayana-Period Ghost Honors among the crowd.

With fourteen Mahayana-period Ghost Honors gathered here, even Yang Chen was quite surprised.

You must know that before this, he could not even see one Ghost Honor. Now, fourteen of them suddenly appeared, which was no joke. Even the Heaven Lord Pavilion, with its current deployment of a large number of troops on the frontlines, could hardly find so many Mahayana Stage Experts from the rear.

Yang Chen became more and more interested, looking at these fourteen Ghost Honors and began searching for the Dao Ming Ghost Sovereign responsible for him.

Dao Ming Ghost Sovereign now had many ghost generals by his side, giving Heavenly Raising Essence.

These ghost generals were all under his command, with the same purpose as Ling Bie Ghost General.

Yang Chen pretended to be Ling Bie Ghost General, quickly lined up, with an intention to present the Heavenly Raising Essence he had collected to Dao Ming Ghost Sovereign.

After the other ghost generals handed in their Heavenly Raising Essence, it was Yang Chen's turn.

"Ling Bie Ghost General, how much Heavenly Raising Essence have you collected this time?" Dao Ming Ghost Sovereign asked in surprise.

"Junior has collected twenty pounds this time..." Yang Chen handed the box of Heavenly Raising Essence to Dao Ming Ghost Sovereign.

Dao Ming Ghost Sovereign took the box, and upon hearing the amount of twenty pounds, he was not particularly satisfied.

“Ling Bie Ghost General, I have high hopes for you. I’m not very satisfied with this amount.” Dao Ming Ghost Sovereign said with a cold expression.

Yang Chen hurriedly laughed ingratiatingly, “Junior will definitely do his best next time.”

“That’s good.” Dao Ming Ghost Sovereign’s expression finally softened a bit.

“By the way, Lord Dao Ming, what is the purpose of collecting so much Heavenly Raising Essence?” Yang Chen asked puzzledly, “As far as we know, Heavenly Raising Essence has no use for our Netherworld ghost creatures, right?”

“Didn’t I tell you to ask fewer questions about these matters?” Dao Ming Ghost Sovereign said in a low voice.

Yang Chen’s body stiffened, and he quickly said, “Junior has spoken out of turn.”

“Well, since you really want to know, it’s not impossible to tell you. This Heavenly Raising Essence is not what our Boundaryless Ghost Venerables want to collect, but someone else.” Dao Ming Ghost Sovereign revealed slightly.

“Someone else?” Yang Chen was slightly startled.

Looking at this situation, it seemed that this person was not a ghost creature.

“Yes, as for who it is, there is no need for you to know.” Dao Ming Ghost Sovereign said coldly.

“Would Junior have the honor to follow and pay tribute to the seniors this time I hand in the Heavenly Raising Essence? Junior really wants to admire the grandeur of those seniors.” Yang Chen made a small excuse.

“You are not qualified to follow.” Dao Ming Ghost Sovereign said coldly.

Seeing this, Yang Chen's heart grew cold.

How could he investigate this matter without following them?

Left with no choice, Yang Chen narrowed his eyes and slightly made up a reason, saying, "Lord Dao Ming, to be honest, Junior really wants to follow and admire the seniors' demeanor. For this, I can pay a special price to honor my seniors. However, these treasures are not for public display. How about, my lord, you..."

Dao Ming Ghost Sovereign was greedy in nature. Hearing that there were treasures to honor himself, he immediately changed his indifference to a pleasant demeanor.

"Oh? Is there such a thing? If the treasure is really good, then this quota for following me to gain experience can be changed." Dao Ming Ghost Sovereign stroked his chin.

It was reasonable for someone under his command to follow him and see the world.

After all, these ghost commanders always thought about how to climb up to the Boundaryless Level Ghost Venerables every day.

Getting to know and make friends with them is good for their future journey.

Therefore, fighting for a quota and shedding blood is a common occurrence. For Yang Chen's treasure statement, he had no doubt at all. Following Yang Chen, he left Fei Qiu Cave all the way.

In the end, they arrived at a deserted location outside. Dao Ming Ghost Sovereign, without any suspicion, said, "There are no people here, you can take out your things and let this seat have a look."

"The treasure Junior wants to honor his seniors with is this ..."

Before Yang Chen could finish speaking, a Black Wind suddenly formed in his hand and struck Dao Ming Ghost Sovereign.

At such a close distance, how could it fail? One slap knocked Dao Ming Ghost Sovereign down completely.

However, he did not kill Dao Ming Ghost Sovereign. Instead, he left him alive, intending to thoroughly search his soul first.

As they were near Fei Qiu Cave, Yang Chen dared not be careless or waste time. He immediately injected his divine soul into Dao Ming Ghost Sovereign's head and began searching.

Upon searching his soul, Yang Chen trembled all over and looked astonished.

"Goodness, I did not expect it to be him."

Who?

It's Mu Taiqing.

He didn't know when Mu Taiqing had established a good relationship with the two Boundaryless Ghost Venerables, and used the power of the two Boundaryless Ghost Venerables to search for Heavenly Raising Essence.

Yang Chen did not know the use of Heavenly Raising Essence before, but after carefully searching his soul, he understood the majority of it.

This Heavenly Raising Essence was the favorite food of the Golden Pattern Bird. Legend has it that as long as you collect enough Heavenly Raising Essence, you can attract the Golden Pattern Bird in the environment of the Extreme Northern Land.

Speaking of the Golden Pattern Bird, Yang Chen was quite interested.

Because the Golden Pattern Bird also had a story with him.

What story?

This Golden Pattern Bird was the key to breaking his Gold Dao Intentions limit.

He had already made breakthroughs in the limits of his fire and water through the Origin of Strange Fire and the Spirit of the Divine Sea. Now, he only needs gold, wood, and soil. The latter two needed to find Peng Wanli, while the former needed to find the Golden Pattern Bird.

Yang Chen had indeed coveted the Golden Pattern Bird for a long time, but he had no idea where it was.

Now he did not expect that it could be summoned in this way.

“It seems that Mu Taiqing is indeed thinking about this Golden Pattern Bird. Should I get involved in this muddy water or not?” Yang Chen fell into deep thought.

Three Boundaryless Ghost Venerables, plus fourteen Great Ascension Period Ghost Venerables, this is not a joke.

Chapter 2887 Netherworld God Pill_1

Even with his formidable strength, capable of taking on a Boundaryless Stage Expert single-handedly, facing three was a bit too exaggerated.

Moreover, Yang Chen had self-awareness about his own strength.

For an ordinary Boundaryless Stage Expert, using his strongest Dao Intent and various other methods would be enough to defeat them.

However, it should be noted that Mu Taiqing was not an ordinary Boundless Stage Expert.

He should be considered one of the most peak Boundless Stage Experts, even close to King-level. With Yang Chen's current strength, his chances of winning against him were not high.

Yang Chen fell into deep thought.

"Regardless, fortune favors the bold. If this Golden Pattern Bird is taken by Mu Taiqing first, then it would be very difficult for me to have my turn. If I want to break through the Five Elements Dao Intent and reach the strongest Dao Intent, I must vie for this bird," thought Yang Chen as he made up his mind.

Take a chance.

However, even when taking chances, he wasn't foolish enough to challenge the three opponents alone.

Moreover, Peng Wanli also seemed to be close to Mu Taiqing. If the two attacked him together, he might not even be able to run away.

"Disguise again!"

It was the simplest and most convenient method.

So far, no one had seen through his disguise as Ling Bie Ghost General, which was good news.

Since this was the case, there was no need to hold on to the identity of Ling Bie Ghost General. As a Nirvana Ghost General, his disappearance wouldn't be a big deal.

He transformed into the appearance of Dao Ming Ghost Sovereign, mimicking his Qi.

"However, after all, I still have a physical body and not a spirit body. Although the disguise of Ling Bie Ghost General has not been discovered, I can't let my guard down."

"Ah? Not good, someone is coming." Yang Chen sensed something and sighed inwardly.

He hadn't finished searching Dao Ming Ghost Sovereign's memory, and he didn't know some important things yet.

But at this point, there was no time to think about it.

Yang Chen thought to himself, then quickly cleaned up the scene, and with the strength of Dao Ming Ghost Sovereign, he returned to Fei Qiu Cave.

As soon as he returned, two Ghost Venerables approached him.

"Dao Ming, what were you doing with a junior just now? Why did it take you so long to come back? Don't you know that the double-hour for paying respects to the three great men is almost upon us?" These Mahayana Stage Ghost Honors scolded him.

Upon seeing this, Yang Chen smiled wryly, "Don't worry, it was just handling some trivial matters. Since the time is approaching, let's set off right now."

"Hmph, when the great men blame us later, it will all be on you. Let's go."

Few Ghost Venerables experts snorted coldly but didn't ask any more questions, allowing Yang Chen to breathe a sigh of relief.

Fourteen Ghost Venerables, including Yang Chen, left Fei Qiu Cave and headed in different directions.

Just now, Yang Chen had searched Dao Ming Ghost Sovereign's memory. Now, he had a rough idea of where they were going.

The place they were going was called Earth Sea Cave.

Earth Sea Cave was located near the seaside, right at the edge of Spirit King Sacred Area. Various evils were committed in this area, and nobody could really control it.

The activity of ghost creatures in this area was incredibly high. Even humans couldn't contend with the sheer number of them. In addition, the two Boundaryless Level Ghost Venerables bolstered their forces, rampaging in all four directions and leaving nearby humans miserable. They wanted to contact Heaven Lord Pavilion for help, but it was too far away.

Yang Chen and the thirteen Ghost Venerables gradually approached the Earth Sea Cave.

Yang Chen wanted to use his soul to search, but after thinking about it, he decided to give up. Mu Taiqing might be nearby, so he had to be careful not to expose too much.

Thus, the fourteen Ghost Venerables entered the Earth Sea Cave together.

Within the entire Earth Sea Cave, in the outer area, over ten Ghost General experts guarded it. Entering the inner area, there were four Mahayana Stage Ghost Venerables on guard as well.

Upon seeing the arrival of the fourteen Ghost Venerables, the four of them just nodded slightly.

"The three great men, Mu Daren, and the others, have been waiting for a long time. Please enter quickly." These variously-shaped Ghost Venerables spoke one after another.

Yang Chen and the others replied and quickly entered the core area of the Earth Sea Cave.

The further they went, the hotter and more unbearable the atmosphere became, causing great discomfort to the Netherworld Ghosts. Their expressions were filled with disgust.

But it seemed that they had been here before, so they quickly adapted.

Finally, the group stopped, and through the hazy mist, they saw three figures sitting in a higher position.

Among the three figures, two were shrouded in ghost Qi, giving an extremely horrifying and gloomy feeling. The other one was a human, sitting in the center of the two Ghost Venerables, appearing more prestigious than the former two.

Upon careful inspection, wasn't this person Mu Taiqing?

"Damn this Mu Taiqing..." Yang Chen squinted and looked at him, but had to quickly suppress his anger.

Mu Taiqing was now colluding with these ghost creatures, and it was unknown how he had made a deal with these Netherworld Ghosts.

"How much Heavenly Raising Essence did you bring this time?" Mu Taiqing asked in surprise.

"Mu Daren, this is my humble offering to you, 320 pounds of Heavenly Raising Essence!"

"Mu Daren, this is mine..."

These Mahayana Stage Heavenly Venerates respectfully offered their Heavenly Raising Essence one after another. Then, they looked at Mu Taiqing expectantly.

Mu Taiqing chuckled, and as the Heavenly Raising Essence was delivered to him, he casually flicked a pill and handed it to those who had offered the Heavenly Raising Essence.

Yang Chen looked at the pill and quickly recalled Dao Ming Ghost Sovereign's memory, figuring out something.

"This pill is called the Netherworld God Pill and is very beneficial to the cultivation of Netherworld ghosts. I don't know where Mu Taiqing refined so many of them. He used them to capture the hearts of these Netherworld ghosts, and in the end, have struck a deal with them," Yang Chen thought to himself.

He didn't know much more, and sighed inwardly, regretting not searching Dao Ming Ghost Sovereign's memory earlier.

On the surface, Yang Chen didn't hesitate. He hurriedly rushed forward, handed over the Heavenly Raising Essence he had collected, and received a Netherworld God Pill.

Maybe because he sensed something different about Yang Chen, Mu Taiqing looked over at him a few more times. This made Yang Chen's heart race and he was ready to run at any moment.

Fortunately, Mu Taiqing didn't become more suspicious in the end. He quickly lost interest in Yang Chen after a few moments of thought.

Chapter 2888: Mu Taiqing's Ambition_1

This allowed Yang Chen to breathe a sigh of relief.

He had just thought that he was exposed. Fortunately, Mu Taiqing didn't doubt him much. After all, no matter how Mu Taiqing thought about it, he couldn't imagine that the person he wanted to kill day and night would have such a vast ability to disguise himself as a ghost creature and appear in front of him.

"Brother Mu, we have been collecting the Heavenly Raising Essence for you for so long. When can you promise to help us with our plans to wreak havoc behind the humans?" The two Boundaryless Level Ghost Venerables looked at Mu Taiqing and asked with a smile.

Upon hearing this, Mu Taiqing rubbed his chin: "Gentlemen, don't be impatient. We've collected just over two thousand catties of Heavenly Raising Essence so far, plus what we gathered before. There's still a distance before we reach ten thousand catties. I can't see the Golden Pattern Bird until then. I'm afraid it's not easy for me to deal with your affairs until my own matter is resolved."

"Is it so difficult to summon the Golden Pattern Bird?" The two Boundaryless Ghost Venerables took a deep breath.

"Of course, although the Golden Pattern Bird likes Heavenly Raising Essence, you shouldn't think that a mere trifle amount can attract it. Ten thousand catties is the minimum; the more, the better with no upper limit. If you bring me the Heavenly Raising Essence, I can even break through to the King level all at once. At that time, with my cooperation with you, it won't be a big problem to destroy the Heaven Lord Pavilion, let alone cause trouble behind the scenes." Mu Taiqing laughed.

Hearing this, the faces of the several Ghost Venerable experts were filled with joy.

Yang Chen, on the other hand, secretly frowned. What a Mu Taiqing! He has no bottom line at all when it comes to his actions, even daring to collaborate with Netherworld Ghosts.

No surprise there, as Mu Taiqing once dared to work with the Spirit God Race, which was an enemy of the Spiritual World, so what wouldn't he dare to do?

Others wouldn't dare to do this, but Mu Taiqing would.

"This Mu Taiqing plans to use the Golden Pattern Bird to break through to the three Heavenly Realms?"

Yang Chen whispered to himself, pondering in his heart.

Although the two Boundaryless Ghost Venerables were delighted, they were not easily fooled. They rubbed their chins and said, "Brother Mu, it's not easy to enter the Heavenly Realms. What we want is a definite promise."

"Hahaha, what are you two worrying about? I've already sworn an oath with you. As long as you all help me collect enough Heavenly Raising Essence, I will immediately help you deal with your matters after refining the Golden Pattern Bird. Even if I can't enter the Heavenly Realms, with my strength, only Yun Bietianzun can compete with me in the Heaven Lord Pavilion, and the others are no match for me. You both have witnessed this, so don't you trust me?" Mu Taiqing said.

Upon hearing this, the two Boundaryless Ghost Venerables glanced at Mu Taiqing, their eyes filled with a hint of jealousy. It was clear that they had all experienced Mu Taiqing's power to some extent and knew how terrifying he was.

In the entire Heaven Lord Pavilion, perhaps only Yun Bietianzun, who was infinitely close to the Heavenly Realm, could rival Mu Taiqing.

Even when compared to Yun Bietianzun, it's still not clear who would win or lose against Mu Taiqing.

Mu Taiqing was also calculating in his heart.

Absorbing the Golden Pattern Bird could make him enter the Heavenly Realms?

How could that be possible?

His reason for absorbing the Golden Pattern Bird was to enhance his strength and then find trouble with Peng Wanli. Absorbing the Golden Pattern Bird would not greatly increase his chances of entering the Heavenly Realms, but if he could absorb Peng Wanli, entering the Heavenly Realms would be almost a sure thing.

Unfortunately, Peng Wanli's strength was still above his. Peng Wanli's strength had now recovered to its peak, and he was unfathomably powerful. Yang Chen was at a disadvantage when fighting with Peng Wanli in his heyday, and now that one of his Three Souls was missing, and Peng Wanli's strength seemed to have slightly increased, he dared not easily take action against him.

That's why he tried every means to separate himself from Peng Wanli and sent him away. He then set his sights on the Heavenly Raising Essence.

"Hehe, with Brother Mu's words, we can rest assured. This Heavenly Raising Essence has already been collected for more than half of it, and it should take only one or two more times to reach the ten thousand catties for Brother Mu. After the collection is finished, whether or not the Golden Pattern Bird matter succeeds, we hope Brother Mu can keep his promise." The two Boundaryless Ghost Venerables laughed.

Mu Taiqing slapped his chest and assured, "Don't worry, I will keep my word and never go back on it."

The two Ghost Venerables finally felt at ease and quickly made arrangements below.

"Everyone, as you've heard, our plan now depends on Brother Mu's human body leading us. We have a great chance of destroying the Heaven Lord Pavilion with his help. This is something beyond our power. If we can destroy the Heaven Lord Pavilion in the humans' backyard, Ghost King will surely reward us

generously. So, I hope everyone can make more efforts to collect Heavenly Raising Essence. We'll meet back here in one month." The two Boundaryless Ghost Venerables spoke separately.

The fourteen Great Ascension Ghost Venerables were more or less unwilling.

After all, they had been searching for the Heavenly Raising Essence for so long, and the collection process was becoming more difficult as they went on.

But since the two Boundaryless Ghost Venerables said so, they had no other choice but to agree and leave immediately.

As one of the fourteen Great Ascension Ghost Venerables, Yang Chen also bowed and left.

Upon leaving, Mu Taiqing still didn't suspect anything and didn't pay much attention to Yang Chen.

Little did he know that while Yang Chen seemed to leave the Earth Sea Cave with the other Ghost Venerables, his mind was full of plans for this matter.

"Everyone, I will rest here for a while. I'll go to another direction later to investigate the news of the Heavenly Raising Essence. You go ahead first." Yang Chen said with a gentle smile.

His original plan was to kill all thirteen Ghost Venerables in one fell swoop. However, after much consideration, he gave up.

Thirteen Great Ascension Ghost Venerables could be killed by his strength if he spent some time, but it would be very easy for things to go wrong during that period...

So, Yang Chen had no choice but to give up and find an excuse to leave the team.

The other Ghost Venerables secretly mocked him, not knowing if Yang Chen's brain was messed up, as there was no Heavenly Raising Essence anywhere nearby. They had already been completely scavenged by some of their party.

But since Yang Chen was their competitor, they didn't feel obligated to remind him, so they just exchanged some polite words, and then everyone went their separate ways.

Seeing the Great Ascension Ghost Venerables leave, Yang Chen began planning in the midst of the desert...

"Mu Taiqing wants to refine the Golden Pattern Bird? I can't let him succeed. First of all, Mu Taiqing refining the Golden Pattern Bird could possibly enter the Heavenly Realms. Second, I can't give up the Golden Pattern Bird so easily."

Chapter 2889 Luring the Snake Out_1

The Gold-patterned Bird barely had to think to determine its rare value.

If they missed this opportunity and let Mu Taiqing take it, it would be difficult to obtain it later.

"Yang Chen!"

As Yang Chen was lost in thought, the Weapon Spirit of the Universe Destroying Map suddenly spoke.

"Huh? What's wrong?" Yang Chen asked with confusion.

"We must not let Mu Taiqing get away with it." The Weapon Spirit's tone was as blunt and cold as ever when it said this to Yang Chen.

Yang Chen couldn't help but laugh inwardly; this Weapon Spirit was so vindictive.

It was never concerned about any other matters, but when it came to Mu Taiqing, the Universe Destroying Map was more determined than ever.

Yang Chen could understand it to some extent. After all, Mu Taiqing had been deceiving the Universe Destroying Map for so many years. The Universe Destroying Map, being an intelligent object, might have fallen for Mu Taiqing's schemes if it hadn't been somewhat cautious.

"Don't worry, I won't ignore Mu Taiqing's affair."

Yang Chen rubbed his brow. A destined battle between him and Mu Taiqing was inevitable. There was no escape.

Previously, he didn't have enough strength to face Mu Taiqing and could only flee. But now, he had the power to fight against Mu Taiqing.

However, he wasn't very confident about winning.

"What should I do now..."

Yang Chen hesitated back and forth.

Honestly, the most crucial factor was these two Boundless Ghost Venerables.

One of them was called Gluttonous Ghost Lord, and the other was Giant God Ghost Lord.

Both of these Ghost Lords had control over the Laws and accompanied Mu Taiqing, which made it difficult for Yang Chen to take action.

"I don't believe these two Ghost Lords will always stay with Mu Taiqing. Their mission is to cause destruction and chaos behind human lines. Will these two Boundless Ghost Lords stay in the Earth Sea Cave with Mu Taiqing? It's impossible."

Yang Chen thought inwardly. However, the problem soon presented itself, "But the issue is, I need to keep track of the movements in the Earth Sea Cave. If the Boundless Ghost Lords come out and I don't know, then what?"

Realizing this, Yang Chen was ready for a drawn-out battle.

His Divine Soul was released and slowly moved forward, trying to see if he could detect anything in the Earth Sea Cave.

Unfortunately, the distance wasn't enough.

"If my Divine Soul doesn't reach far enough and I approach hastily, I might be noticed by Mu Taiqing. His strength is much greater than those two Ghost Lords. It seems I have to use the newly learned Divine Traveling Thousand Miles technique."

Yang Chen rubbed his brow and made a decision.

He didn't have a particularly good grasp of the Divine Traveling Thousand Miles technique, and he didn't want to use it unless he had no choice.

But it seemed there was no other way.

Yang Chen placed two fingers on his temples and pressed slightly.

Immediately, his Divine Soul condensed into a small figure.

This small figure appeared like a baby, suddenly crawling out from Yang Chen's head and quickly moving forward at an extremely fast speed.

In no time, the Divine Soul baby had left the range that ordinary Great Path Stage people could detect and arrived near the Earth Sea Cave.

"Success..."

Yang Chen smirked, hiding the Divine Soul baby in a concealed location.

"It's a pity that although the Divine Soul baby created by the Divine Traveling Thousand Miles technique can easily extend the range of the Divine Soul, it has some disadvantages. The area it can observe is too small. It can only detect half of the Earth Sea Cave... But for me, it's enough."

Yang Chen sat cross-legged, controlling the Divine Soul baby, and began waiting for these Netherworld Ghosts to reveal their weaknesses.

Time gradually passed.

In the blink of an eye, ten days passed.

Then, a month...

Although Yang Chen was prepared for a protracted battle, he was still growing more impatient.

These two Boundless Ghost Lords were still holed up in the Earth Sea Cave, showing no intention of coming out.

This made Yang Chen somewhat frustrated. If things continued this way, not handing over Heaven-nurtured Essence would eventually raise the suspicions of these Ghostly Beings.

"Huh, suspicions..."

An idea struck Yang Chen's mind.

He could force these two Ghost Lords out.

These two Boundless Ghost Lords were biding their time, refusing to leave the Earth Sea Cave like old monks. But it didn't mean they had nothing to do. They simply assigned tasks to their Great Ascension Ghost Lord subordinates.

Their Great Ascension Ghost Lords had been coming and going many times.

Yang Chen seized the opportunity, targeting one of the Great Ascension Ghost Lords. If he managed to kill them, the two Boundless Ghost Lords would definitely become suspicious. At that point, they would have to leave the Earth Sea Cave to investigate the situation, wouldn't they?

Yang Chen's mouth curved upwards. With this idea, his plan took shape.

He was quite restrained when dealing with Boundless Ghost Lords, but there were fewer restrictions with Great Ascension Ghost Lords.

Yang Chen immediately targeted one and made his move!

...

Three days later, in the howling yellow sand, a Great Path Stage Ghost, named He Luo Ghost Lord, traveled through the sky at a speed like a bolt of lightning.

As He Luo Ghost Lord pierced through the sky, he was in high spirits.

"I'm lucky to be assigned this task by Gluttonous Ghost Lord. Hehe, there must be a lot of rewards waiting for me after I complete it..."

But just as He Luo Ghost Lord was about to laugh heartily, an extremely terrifying force suddenly came crashing down like a tidal wave.

In an instant, before He Luo Ghost Lord could react, he let out a scream.

Then, a Hei Feng surged from afar. Under this crushing force, He Luo Ghost Lord couldn't resist and was hit by the Hei Feng, his body shattering on the spot.

Next, Yang Chen's figure appeared in the area, looking coldly at the scene.

"If I don't cause some trouble, it seems I won't be able to make those two Boundless Ghost Lords suspicious. In that case..."

Yang Chen's mouth lifted into a smirk. He raised his hand and violently slammed down.

The Great Golden Bell Hand roared out, making quite a scene.

Immediately afterward, Yang Chen didn't bother cleaning up the traces of his actions. He leaped into the air and disappeared from the spot.

...

As Yang Chen caused a commotion, the Earth Sea Cave seemed to sense something too.

"What's going on?" Gluttonous Ghost Lord and Giant God Ghost Lord were both puzzled.

Mu Taiqing smiled amicably, "Perhaps He Luo Ghost Lord encountered some overjoyed human during his mission and used a bit too much force?"

Giant God Ghost Lord and Gluttonous Ghost Lord exchanged glances. Their original worries had vanished.

"Haha, Brother Mu is laughing at us. These little useless minions are truly troublesome. They just left, and they're already distracted."

Chapter 2890 Battling Two Great Realmless_1

"When we get back, we'll definitely need to punish them a bit." Giant God Ghost Sovereign said, somewhat displeased.

Mu Taiqing didn't care about it: "Haha, it's a small matter. My previous subordinates were just like that. I've seen it all before."

Both sides chatted awkwardly for a while, then stopped talking to each other.

For them, time just passed in an instant, and in the blink of an eye, five days had gone by.

During these five days, other ghost generals delivered more Heavenly Raising Essence to the Earth Sea Cave.

As a result, the amount of Heavenly Raising Essence now had almost reached the 10,000 catties that Mu Taiqing required, making him gradually happy and satisfied.

However, Gluttonous Ghost Sovereign and Giant God Ghost Sovereign couldn't be happy about it.

Firstly, Dao Ming Ghost Sovereign had unexpectedly disappeared from the group of fourteen Great Ascension Ghost Venerables.

Secondly, the Heluo Ghost Sovereign they sent out for errands should have returned long ago for such a small task, but he has not returned yet.

Three days ago, Gluttonous Ghost Sovereign arranged another Ghost Venerable expert to find him, but astonishingly he too disappeared like Heluo Ghost Sovereign.

"Brother Mu, Brother Giant God, my two subordinates have not returned yet. There might be some mistakes. This seat will go and take a look; maybe they ran into some trouble? After all, it's on the Humans' territory, and there are inevitably some masters..." Gluttonous Ghost Venerable said in a deep voice.

Mu Taiqing didn't stop him: "It's true that there is a problem since they haven't returned for so long. Just be careful, brother Gluttonous."

"Hmph, careful is not really needed. Nobody here can do much harm to me. Just wait a while, and I'll be back soon." Gluttonous Ghost Venerable declared.

"Brother Gluttonous, why don't I go with you?" Giant God Ghost Venerable said with some apprehension as once Gluttonous Ghost Venerable left, he would be left alone to face Mu Taiqing.

With his strength, he had almost no chance of winning against Mu Taiqing. At that time, Mu Taiqing could squeeze him into any shape he wanted, right?

So, he made up his mind without hesitation to accompany Gluttonous Ghost Venerable on the trip.

Gluttonous Ghost Venerable saw the intention of his companion and chuckled: "Oh? Since Brother Giant God wants to go with me to find some fun, that's welcome. Let's go."

After discussing for a moment, the two Boundaryless Ghost Venerables left together.

...

As they left the Earth Sea Cave, Yang Chen's Divine Soul infant saw this scene.

"Not good!"

Yang Chen, who sensed the situation, immediately became serious.

At first, what he was most worried about was these two Ghost Venerables leaving together. It would indeed be hard to handle. He had to deal with both Ghost Venerables at once; it's a challenging task.

However, he must make a choice now. If this chance is missed, waiting for the next opportunity will be as difficult as climbing to the sky.

"Forget it, let's go all out."

Yang Chen took a deep breath and made a crazy decision.

To use his power alone to deal with these two Ghost Venerables!

Thinking about this, Yang Chen waited in the distance.

As soon as the two Ghost Venerables left the Earth Sea Cave, they began to sweep their divine souls with great speed.

Yang Chen didn't deliberately conceal himself, even deliberately released some of his Qi, intending to let the two Boundaryless Ghost Venerables discover him and lure the fish onto the hook.

As expected, Yang Chen only revealed a bit of his Qi, and the two Boundaryless Ghost Venerables' noses quickly sensed him.

"There!"

Both Ghost Venerables locked their eyes on Yang Chen.

"It indeed is a Mahayana Stage human. It seems you, kid, killed Heluo Ghost Venerable and the others. In that case, you better give your life to me." Gluttonous Ghost Venerable's expression was cold, wanting to take Yang Chen's life.

Yang Chen wouldn't just take this. With lightning-fast speed, he dodged as Gluttonous Ghost Venerable made his move. He directly controlled the Space-Time Dao Intent and fled the scene.

Both Boundaryless Ghost Venerables widened their eyes at the sight, unwilling to let Yang Chen go so easily. They immediately followed him.

Nowadays, with the help of Space-Time Dao Intent, Yang Chen could actually escape from the two Boundaryless Ghost Venerables if he tried his best.

However, what he needed was to lead the two of them farther away. Otherwise, if Mu Taiqing noticed the situation, he would be in trouble.

So, he slowed down a bit, keeping his speed neither fast nor slow, leading the two Boundaryless Ghost Venerables to chase him all the way and moving far away from the Earth Sea Cave's range.

When he felt the timing was right, Yang Chen stopped.

In just a moment, two Boundaryless Ghost Venerables had caught up with him.

When they saw that Yang Chen was no longer running away, the two Ghost Venerables' anger swelled, and they stared at Yang Chen.

"Kid, why don't you run anymore?" Gluttonous Ghost Venerable roared angrily.

Before, Yang Chen's Space-Time Traverse had astonished the two Boundaryless Ghost Venerable experts.

They had never seen anyone escape like this.

They thought that Yang Chen wouldn't be able to use this method many times, but Yang Chen kept using it, forcing them to keep chasing him.

Both of the Boundary-less Experts were annoyed that they couldn't catch a Mahayana Stage cultivator.

Giant God Ghost Venerable twisted his neck: "Kid, your time is up."

Nevertheless, Yang Chen wasn't worried and grinned: "Do the two of you really think that if you catch up to me, you can kill me? Perhaps it's not that you killed me, but that I killed you?"

The two Boundaryless Ghost Venerables looked at each other, both apparently thinking they had just heard the funniest joke in the world. They laughed heartily.

As Boundaryless experts, they had never heard of a Mahayana Stage cultivator being so arrogant.

"Kid, it seems that this seat really needs to teach you a lesson about the power of the Boundaryless Level." Gluttonous Ghost Venerable immediately flipped his palm to suppress Yang Chen with the power of laws.

As for Giant God Ghost Venerable on the side, he didn't have the slightest intention of helping. It seemed that he believed Gluttonous Ghost Venerable could kill Yang Chen on his own and that his help was unnecessary.

But he didn't know that his thought had hit Yang Chen's mind!

Yang Chen had already prepared for a fierce battle with the two Ghost Venerables. However, these two Ghost Creatures didn't take him seriously.

Since that was the case, it was what Yang Chen wanted. He took out the Slaughter God Spear without hesitation, intending to strike one with lightning speed first.

Gluttonous Ghost Venerable had no idea that danger was coming, thinking that his power of laws could easily strike down Yang Chen on the spot.

He didn't expect that, the next moment, a loud bang occurred.
