Chapter 3011 Another Promotion?_1

Last time they parted, Yang Chen's display of strength left her feeling somewhat uneasy and fearful.

For a king-level powerhouse, there could be no doubt that this was a completely disgraceful matter. She would not let this go easily!

...

At the same time, Yunxiao Demon King also sensed Yang Chen's return. As soon as he detected it, he slowly opened his eyes and said softly, "Disciple, the kid surnamed Yang has returned."

"Master, has Yang Chen finally come back?" Master Daoming revealed a surprised joy.

"Yes, it's time to proceed with the cooperation agreement with Yueyin King." The Yunxiao Demon King's expression was cold, emanating a few strands of chilling murderous intent.

Master Daoming felt a burst of joy in his heart, but he soon expressed his concern: "Master, Yang Chen is a realmless expert after all. Will it be inappropriate for us to cause him trouble so blatantly?"

"Hmph, what's inappropriate about it? No matter how powerful Yang Chen is, he's only at the realmless stage. In front of the king-level powerhouses, he still needs to behave. Whether he's a dragon or a tiger, he must submit!" The Demon King declared coldly.

"But, the other king-level powerhouses..." Master Daoming couldn't help but worry.

The Demon King said disdainfully: "Those king-level powerhouses cannot fail to distinguish the difference between king-level and realmless experts. They are all so shrewd in their daily lives, that they have never turned a blind eye to any situation that benefits them. I used to be worried about it, but last time I gave a warning for Yang Chen, they didn't do anything. Why? What benefits could they gain from protecting Yang Chen? Although Yang Chen has a remarkable talent, the true outcome of a battlefield is still decided by the king-level powerhouses. It's easy to determine who is more important."

"That being the case, Master, isn't Yang Chen at your mercy upon his return? And with the help of Yueyin King, Yang Chen will have no chance to escape." Master Daoming became more excited as he thought about it, and his expression showed his thrill.

"That's natural. Hmph, this kid surnamed Yang is indeed a talent, but it's a pity that he insists on being my enemy. Since that's the case, I can only make his death a little uglier." Yunxiao Demon King twisted his neck.

Master Daoming's heart was also extremely excited.

Yang Chen, do you think you can do whatever you want just because you have outstanding talent?

Unfortunately, if I can't deal with you, someone else certainly can!

"Speaking of which, the Yueyin King was very close to the kid surnamed Yang before, but now has turned against him. It's quite strange. But never mind, with the help of this woman, it'll be difficult for Yang Chen to even stay alive." Yunxiao Demon King sneered.

...

After returning, Yang Chen was very clear that his whereabouts were being observed by these king-level powerhouses.

He had no intention of dealing with these king-level powerhouses. These old fellows were all extremely shrewd, down to being hollow-hearted.

Now that he was back, he first met with Cloud Rising Master, and the two had a joyful reunion.

Afterwards, Yang Chen asked Cloud Rising Master about matters concerning the Extreme Yin Land.

Speaking of the Extreme Yin Land, Cloud Rising Master frowned and sighed, "The situation in the Extreme Yin Land is not good at the moment. Ever since you left, it seems that many netherworld ghosts

have emerged there. These netherworld ghosts are all of a high cultivation level, and I have even observed several half-step Heavenly Leaving Realm ghost venerables appearing. If the number of such ghost venerables increases, it will not bode well for the battlefield."

"How can there be so many ghost creatures?" Yang Chen was puzzled.

"I don't know, but tracing the cause, it seems to have started when you saved people from the Lihuo District last time. After that incident, there have been far fewer general attacks from the Extreme Yin Land. They only launch small attacks occasionally, but each time, the changes in the Extreme Yin Land can be felt. Half-step Heavenly Leaving Realm ghost venerables with unfamiliar faces appear frequently." Cloud Rising Master sighed helplessly.

Hearing this, Yang Chen furrowed his brows and recalled his experience saving people in the Lihuo District.

If the sudden increase of so many ghost creatures was related to the rescue, he wouldn't believe it for anything.

What else did he do when he saved people last time?

It was nothing more than killing numerous ghost venerables and...

Yang Chen suddenly remembered that he had killed the Seven Star Nether Lord last time!

This Seven Star Nether Lord, as an emperor-class ghost monarch, was so highly respected even by realmless experts and held an extraordinary status. Could the emergence of so many ghost venerables be related to him?

Yang Chen couldn't help but feel deeply puzzled.

Cloud Rising Master paced back and forth: "Nowadays, we have fortified our defenses here and not ventured too far forward. For the time being, we are in a stalemate with the Extreme Yin Land. However, this cannot go on forever. Fortunately, there is some good news."

"Is there a turning point?" Yang Chen asked in confusion.

"Do you recall the genius boy and girl from Taiyuan Star you brought, Wen Feng and Lin Wan'er?" Cloud Rising Master smiled and stroked his beard.

Hearing this, Yang Chen naturally remembered: "Of course, what's going on? Does this matter have anything to do with them?"

"Haha, after their return, they formally reported the matter to the higher-ups. A few days ago, Spirit King sent us a sound transmission, saying that before long, he will lead powerful members of the Grand Abyss Palace to personally handle the situation in the Southern Realm!" Cloud Rising Master grinned from ear to ear as he spoke.

Hearing this, Yang Chen also smiled: "If that's the case, it's indeed good news."

Afterward, the two sat and chatted happily.

Yang Chen originally planned to deal with the Southern Realm's matters and then escort Golden Claw to Taiyuan Star before heading straight to Taiyuan Star.

But now that the powerful members of Taiyuan Star were already on their way, there was no need to rush. It wasn't too late to wait until they arrived before leaving.

Later, Cloud Rising Master arranged a temporary residence for Yang Chen to stay in.

After settling down, Yang Chen began to cultivate earnestly.

He now needed to work hard in his cultivation. Among many areas that required cultivation, the most important was the realmless conversion of laws.

Currently, the speed of conversion for his three strongest Dao intents was incredibly fast.

However, for the remaining few laws, such as Spear Dao intent, Thunder and Lightning Dao intent, and Unyielding Dao intent, the conversion process was much slower. If he really were to rely on hard cultivation, he wouldn't know how long it would take.

As long as each Dao intent inscription touched a law, it could bring about huge changes in his strength.

Chapter 3012 The Dharma King's Demeanor_1

Yang Chen did not believe that his current strength could guarantee his safety.

Although everything had been calm since his return, Yang Chen did not think that the King of Joyful Sound would let things go so easily!

When it came to the matter of the King of Joyful Sound, Yang Chen was constantly on edge.

He could vaguely guess the strength of the King of Joyful Sound.

Although he had not had many encounters with king-level powerhouses, there should be a considerable difference in strength among them.

The True Mountain King was considered the weakest of the king-level powerhouses. Not to mention his strength, just the fact that he was always hiding in the back showed his weakness.

Moreover, the power of the Three Flowers Sect was not inferior to other sacred areas in the past, and even better in some aspects.

It was known that both the Holy Domain and the Extinct Sect had two king-level powerhouses each. There must be many such powerful figures in the sacred areas of the Northern region.

But the Three Flowers Sect could still stand strong today, relying solely on the King of Joyful Sound, which said a lot.

The King of Joyful Sound had always maintained his position at the frontlines, and even now, his strength was undoubtedly superior to the True Mountain King.

Additionally, his strength last time was enough to make even the True King afraid to provoke him, which made Yang Chen even more uneasy.

Of course, what made him the most uneasy was not these things, but the fact that in his anger last time, he chose to fight back. Although his strength was enough to resist the King of Joyful Sound, the King did not even use his full power and chose to be patient.

This made him feel that the King of Joyful Sound was like a lone wolf hiding in the dark, ready to pounce and bite him at any moment.

"The strength of the Cloud Highness Dharma King and the King of Joyful Sound are both unknown. These two are battlefield heroes, not comparable to the level of the True Mountain King. I must be cautious." Yang Chen muttered to himself.

Unfortunately, in the Southern Realm, there were very few records of cultivation levels above the Heaven-separated Realm. As a result, his understanding of these king-level powerhouses was not clear enough.

Another headache was the Ten Thousand Law Dao Embryo.

Yang Chen could now feel the dead, silent Dao embryo within him, full of surprise. No matter what method he tried to use to stimulate it, the Ten Thousand Law Dao embryo remained motionless, making it extremely difficult for Yang Chen to figure out its purpose.

"It seems that I need to go to a place like Taiyuan Star to learn more about the Ten Thousand Law Dao Embryo." Yang Chen thought to himself.

Next, Yang Chen chose to practice quietly, not leaving his closed cultivation.

He still hadn't refined Mu Taiqing's corpse. If he could refine it, his strength would definitely increase further.

With his current strength, not to mention the King of Joyful Sound and Dharma King, he would also need a certain level of cultivation for the long journey to Taiyuan Star.

However, just before he had the chance to refine Mu Taiqing's corpse, Yunqi Tianzun came and informed Yang Chen that the king-level powerhouses, including the King of Joyful Sound, wanted to see him.

Upon hearing this news, Yang Chen was momentarily startled and said, "Why do these lord-level figures want to see me, a junior?"

Hearing Yang Chen's question, Yunqi Tianzun looked downcast and sighed lightly, saying, "This matter is a long story; just follow me!"

Yang Chen didn't know what had happened, but he had a vague feeling that the so-called summons from the king-level powerhouses might not be a good thing.

However, Yang Chen knew very well that if he didn't go, those who wanted to cause him trouble would have even more reason to do so.

In any case, Yang Chen didn't think too much and went straight with Yunqi Tianzun to the same mountain range as last time.

Yunqi Tianzun also didn't know why these king-level powerhouses were looking for Yang Chen, but he led him into the mountain range all the same.

Entering the mountains, several familiar figures appeared in Yang Chen's vision, just like last time.

Each of these figures was a king-level powerhouse with terrifying strength, all having reached the peak of the Southern Realm, the Heaven-separated Realm!

"Yang Chen, paying respects to the seniors." Yang Chen looked at these king-level powerhouses and first bowed, carrying out the proper courtesy.

The powerhouses all looked at Yang Chen, their expressions varied, and their eyes calculating different things as they appraised him.

Yang Chen was naturally good at watching and listening, but aside from the slight change in their eyes, these king-level powerhouses showed no signs of emotion, making it difficult to detect any clues.

Even the King of Joyful Sound, who already had some conflict with him last time, maintained a calm expression with no fluctuations.

Yang Chen, with his hands behind his back, asked with puzzlement in his tone, "Sirs, may I know why you are looking for me?"

"Yang Chen, how can you ask this question without shame?" The Dharma King said in a deep voice.

Yang Chen responded indifferently, "Dharma King, please tell me, why should I be ashamed to ask this question?"

The Dharma King sneered, "Yang Chen, since you asked, good. This king will make it clear to you. Today, I will tell you why we called you here. Tell me, what were you doing when you left the Northern region a while ago?"

"I already told Senior Cloud Ascending about my journey to the Southern region." Yang Chen slowly replied.

"Hahaha, ridiculous! Going to the Southern region? Do you believe it? Who believes it?" The Cloud Highness Dharma King glanced around and said with a cold meaning, "You, a boundaryless cultivator, gave up a great future to pursue but instead insisted on going back to the Southern region? The road to the Extreme Yin Land is a long one, and it leads to Yama Palace. Are you rushing to reincarnate?"

Hearing this, even Yunqi Tianzun couldn't help but feel upset. He had been reluctant to mention these matters earlier, but now Cloud Highness Dharma King was actually targeting Yang Chen over them.

Yang Chen knew that the Cloud Highness Dharma King would certainly try to make trouble for him after his return. But he didn't expect the other party to have such a tricky angle, easily placing him in a position to be questioned and making him clarify what he had done.

The key was that the other king-level powerhouses remained silent, showing no intention of supporting him, and they all maintained their silence on this matter.

The only one who showed any change was the King of Joyful Sound.

However, at this moment, the King of Joyful Sound nodded in agreement with the matter, as if he was deeply convinced.

Cloud Highness Dharma King became even more confident, and coldly said, "Yang Chen, tell me what did you do during your disappearance?"

This made Yang Chen's face change with anger. However, he didn't lose his temper immediately. Instead, he said calmly, "What do you think I should have done, Dharma King?"

"You went to the Extreme Yin Land and returned unharmed after such a long time. Do you expect me to believe that you traveled so easily between the North and South? Hahaha, that's absurd! No one in this world can do that!" The Dharma King's chilly voice pressed him harder.

"Then you tell me, what did I do in the Extreme Yin Land for the past month?"

Chapter 3013 Dharma King's One Strike_1

Many king-level powerhouses nodded secretly.

Indeed, while everyone knew that the Dharma King was targeting Yang Chen deliberately, the angle he took was indeed intriguing.

Yang Chen said he had gone back to the Southern region, which everyone knew, because Yunqi Tianzun had told them. However, who would believe that Yang Chen could move freely between the North and the South?

Indeed, Yang Chen accomplished this in the past, but that was when his cultivation was not high and he was good at disguising himself, barely succeeding. But now that he has reached the Boundaryless Cultivation level, he must break through head-on.

No one would believe that he could rely on head-on breakthroughs to pass through the Extreme Yin Land, and not just once, but twice. Did Yang Chen consider the Extreme Yin Land his back garden?

This was simply illogical!

This also made these king-level powerhouses curious about Yang Chen's answer, even though they knew the Dharma King was trying to make trouble for Yang Chen.

Yang Chen sneered in his heart, knowing full well that the Dharma King had found a good angle.

He was just about to explain it in his heart, but with careful thoughts, these explanations were futile. Since the Dharma King wanted to target him, he must have thought of a way to easily refute anything he could explain.

Daoming Tianzun, who was sitting beside the Dharma King, also said fiercely, "Yang Chen, why aren't you speaking? Did you do something unspeakable in the Extreme Yin Land? Are you afraid that everyone will find out?"

Upon hearing this, Yang Chen's tone gradually became colder: "You are not worthy to speak to me. Shut up!"

When Daoming Tianzun heard Yang Chen rebuking him like this, his whole body trembled. He wanted to refute, but when he met Yang Chen's cold eyes, he felt like he was trapped in an icy cave, and he was too frightened to speak for a while.

Yang Chen looked at the Dharma King with a calm expression: "What does the Dharma King think I have done in the Extreme Yin Land?"

"Humph! Yang Chen, you went to the Lihuo District last time. It seemed like you were saving people, but ever since you came out of the Lihuo District, a large number of Netherworld Ghost Venerables have been emerging one after another, with their numbers increasing. This, in my opinion, is no coincidence. And this time you've spent so long in the Extreme Yin Land, could it be that you are a spy sent by the Extreme Yin Land?" the Dharma King scolded.

Upon hearing this, Yang Chen's anger soared completely.

The Dharma King had completely crossed his bottom line.

He had been tolerant time and again, but even his patience had its limits.

Now, upon hearing Yunxiao Dharma King's slander, his smile revealed a hint of cruelty.

Suddenly, the Domain of Earth expanded rapidly, and the laws he touched also spread abruptly.

"Dharma King, I know you're targeting me. But I'm not in the mood to accompany you right now. I, Yang Chen, have killed Nirvana Stage Ghost Generals, Mahayana Stage Ghost Venerables, and Boundaryless Ghost Venerables, numbering in tens of thousands! I've contributed countless merit points, and I've traversed the North and the South to deliver secret messages with my life on the line, achieving the cooperation of the North and South. Now you're telling me I'm a traitor?"

Yang Chen's eyes turned cold: "Alright, Dharma King, let me ask you. Your disciple here, who abandoned his companions and left, doesn't that make him even more suspicious of being a traitor?"

Upon hearing Yang Chen mention his abandonment of his companions again, Daoming Tianzun recoiled as if his tail had been stepped on and said, "Yang Chen, you're slandering me!"

Several Boundaryless Female Cultivators under the King of Joyful Sound wanted to support Yang Chen, but they were all stopped by the King of Joyful Sound.

However, the King of Joyful Sound's expression seemed to carry a touch of triumph.

As for the other king-level powerhouses, they became silent upon hearing Yang Chen's words.

Indeed, they had just doubted Yang Chen. Yang Chen had killed tens of thousands of ghost creatures, not an overstatement.

His countless contributions to the war effort were indeed vast, and it would be hard for anyone to believe he was a spy.

However, crossing both the North and the South was simply too incredible and difficult for them to believe. It was better for them to remain silent about it.

As for Yunxiao Dharma King, he was also unable to refute Yang Chen's words.

However, seeing Yang Chen angry, his eyebrows raised slightly, revealing a meaningful smile. He was waiting for this moment.

A mere Boundaryless kid dared to get angry with a king-level powerhouse? This crime was far greater than the others!

Yunxiao Dharma King slapped the void fiercely and shouted angrily, "Very well, Yang Chen, I am only making a guess. But you now seem so aggressive that it seems you want to do something with me, the Dharma King!"

Upon hearing this, Yang Chen sneered.

He knew that saying anything more was useless today, so he stood with his hands behind his back and said, "Dharma King, I think you know better than I who really wants to take action. If you want to do something, I will be more than happy to oblige!"

Yunqi Tianzun looked horrified and quickly said, "Yang Chen, don't be impulsive."

The other king-level powerhouses also shook their heads, pretending not to see what was happening. Yang Chen did indeed make many contributions, but the one thing he shouldn't have done was to have a hard time with the Dharma King.

This was the most foolish choice!

Everyone knew that no one could violate the dignity of a king-level powerhouse. This was an unshakable rule!

Now that the Dharma King wanted to punish Yang Chen, it was his own fault. After all, they were also king-level powerhouses. There was no need for them to support the Dharma King when their status at this level was being violated.

As for Yang Chen's contributions?

In the eyes of these king-level powerhouses, Yang Chen was not part of their forces. No matter how big his contributions, in the end, he was just a chess piece that could be discarded at any time.

Now that Yunxiao Dharma King saw that no one was stopping him, he became even more fearless, laughing wildly, "Yang Chen, very good, very good. It's been many years since anyone dared to provoke me. If you want to die, I shall grant your wish!"

As soon as the words were spoken, Yunxiao Dharma King launched a palm attack towards Yang Chen.

This palm, containing a complete Dao, burst out with an astonishing power as it rushed towards Yang Chen.

Seeing this, Yang Chen grunted, stood still with his hands behind his back, and didn't budge.

A few lines of deadly silent black wind swept in from the distance and directly struck the palm.

The two forces collided, producing a deafening sound that filled the four directions, with the power rolling and shaking, unable to subside!

However, after a while, the astounding collision turned into nothingness.

Everyone who saw this was dumbfounded, with all the king-level powerhouses feeling deeply shocked.

Everyone thought Yang Chen would suffer. Although Yunxiao Dharma King would not dare to kill Yang Chen in front of everyone, it was still very likely for him to disable Yang Chen at this opportunity.

But now, Yang Chen had waved his hand and broke the Dharma King's attack. How did he do it?!

Keep in mind; Yang Chen was still a boundaryless cultivator. How did he do it!

Chapter 3014 You'd Better Not Provoke Me_1

No one knew.

Daoming Tianzun had originally prepared to watch Yang Chen make a fool of himself; however, the scene before him now completely thwarted his intentions.

With his eyes wide open, he almost couldn't believe what he was seeing.

This also included Cloud Highness Dharma King, whose pupils shrank at the same time, staring intently at Yang Chen, filled with amazement and shock.

Was his attack directly dissolved by Yang Chen's bare hands?

Yang Chen's cultivation level was in the Realmless, while he was in the Heaven-separated Realm!

Could it be that what King of Joyful Sound said was true?

Yang Chen looked frosty, turned his head, and stared directly at Cloud Highness Dharma King, coldly saying, "Cloud Highness Dharma King, I advise you not to provoke me!"

As soon as his words ended, Yang Chen suddenly turned to leave, leaving behind the King-level powerhouses who originally wanted to watch the show and the shocked Cloud Highness Dharma King.

Only a moment later, Cloud Highness Dharma King recalled the provocation of Yang Chen just now, and couldn't help but stand up in rage.

"Yang Chen!" The Dharma King roared in a low voice.

He was a King-level powerhouse, and he was openly challenged by Yang Chen. Where would his face be placed!

Thinking of this, King of Joyful Sound suddenly had a thought and heard the sound transmission, involuntarily looking at the nearby King of Joyful Sound.

...

Yang Chen was thoroughly enraged by the Dharma King and the other King-level powerhouses. So much so that he didn't even bother to care about them anymore and directly confronted the Dharma King with a thunderous rage.

In his opinion, if he wanted to leave, who could stop him in the vast Southern Realm?

Why did he get angry with those King-level powerhouses?

They only cared about their own interests,

ignoring right and wrong and allowing the Dharma King's authority to blind them.

These King-level powerhouses may have some unspeakable secrets, or they may be necessary leaders, but they indeed hurt his heart.

Now that he has returned, Yunqi Tianzun quickly came to persuade him. He thought about Yang Chen's shocking move just now, easily dissolving the Dharma King's one attack, and Yunqi Tianzun was also filled with shock.

"Yang Chen, those King-level powerhouses may have only said some extreme words, don't take them to heart." Yunqi Tianzun said awkwardly.

Yang Chen naturally had his own judgment ability and spoke gently, "Senior Cloud Ascending, I can tell right from wrong."

Yunqi Tianzun didn't know how to persuade him, so he could only sigh: "Yang Chen, if you need anything, just tell me."

"Thank you, Senior Cloud Ascending." Yang Chen smiled faintly.

Yunqi Tianzun said no more and left with a polite gesture.

At this moment, Yang Chen sat down, intending to concentrate on practicing. However, considering the current battlefield situation, he estimated that he would not be able to practice calmly.

After thinking about it, Yang Chen recalled the prohibition the King of Joyful Sound had placed on himself.

Initially, he didn't lift the prohibition because he wasn't able to. Even if he did, the King of Joyful Sound would definitely know, and it would be even worse than not lifting it at all.

But now that he had laid his cards on the table with the King of Joyful Sound, what does it matter if he lifted the prohibition? Would he be afraid of the King of Joyful Sound causing him trouble?

"But how can I undo this prohibition?" Yang Chen pondered.

However, it didn't take long for him to have a sudden inspiration and realize something: "That's right, how could I forget that I have Space-Time Dao Intent? Space-Time is all within my control. I couldn't touch the law back then, and my Space-Time Dao Intent couldn't handle this prohibition. Now that I have reached the laws and have control of Space-Time, what am I afraid of this prohibition for?"

Space-Time Dao Intent had unique assistance in dealing with prohibitions.

And once it reaches the level of touching the laws, it is even more of a nemesis to prohibitions!

Why?

He could control a part of the spatial range's time and space. As long as he trapped the prohibition set inside his body by the King of Joyful Sound in space-time, removing it would be as easy as pie.

With this idea, Yang Chen immediately attempted it!

Assisted by space-time, it was immediately injected into his body.

As soon as it was done, the space-time scattered, wrapping all the prohibitions within his body. After wrapping them up, Yang Chen checked it briefly.

"It's really effective!" Yang Chen exclaimed with joy.

Space-Time Dao Intent had perfectly imprisoned the prohibitions, and at this point, all the prohibitions were in a completely closed space and time.

Even if it suddenly exploded, it would not cause any harm to Yang Chen. It wouldn't be as dangerous as attempting to remove the prohibition without imprisonment, which could even threaten his life!

Slowly, Yang Chen dissolved the prohibitions one by one, unraveling them step by step!

Finally, the restrictions were completely removed, and Yang Chen breathed a long sigh of relief.

It's not that his prohibition skills were superb, his ability to dissolve prohibitions was just average, all relying on Space-Time Dao Intent!

"Now, that eases some of my worries." Yang Chen murmured to himself.

...

As Yang Chen broke the prohibition, Liu Mei, who was quietly practicing in the courtyard, suddenly raised her eyebrows slightly.

"He has really lifted the prohibition. Men indeed cannot be trusted. Even after getting my body, he's still thinking about other women all the time. He truly deserves to die! However, it's a pity to kill someone so talented." Liu Mei's red lips parted, and a coldness appeared in her raised eyebrows.

As soon as Yang Chen lifted the prohibition, she could detect it immediately.

When Liu Mei was indifferent, her gaze fluctuated suddenly, looking to the distance, sensing something.

"Dharma King, since you are here, why bother hiding? Show yourself." Liu Mei said lightly.

Cloud Highness Dharma King appeared gradually with his hands behind his back: "Hehehe, King of Joyful Sound, your cultivation is truly profound and unfathomable. I recently touched some laws with my Dark Dao Intent, which is particularly helpful for hiding and escaping. I didn't expect that you would see through me right away."

"Don't use these useless tricks in front of me. I came to discuss business with you today." King of Joyful Sound said coldly.

Cloud Highness Dharma King's face darkened and said, "I know you came to talk about business with me, King of Joyful Sound. This surnamed Yang's strength is truly surprising. He can even withstand my one move. His strength might not be so easy to deal with."

"That's why I said we should join hands. You and I never predicted that this Yang Chen would create such a momentum just by entering the Realmless Realm. Of course, if you and I fight him, we can still suppress him without any problems. But don't think that with the strongest Dao Intent, we could easily stop him if he wanted to go!" King of Joyful Sound said expressionlessly.

"So what do you want me to do? I've already deliberately provoked this kid!" Cloud Highness Dharma King replied coldly.

"Don't forget, it's true that you provoked the kid on purpose, but you also saw Yang Chen's performance. As a Realmless, he dared to fight hard with a King-level powerhouse like you. Even if he had a good reason, he was still wrong. Then we can justifiably make a move against him!" King of Joyful Sound said indifferently.

Chapter 3015 Extending a Helping Hand_1

Upon hearing this, Cloud Highness Dharma King's expression softened slightly: "That's true, but if we don't cooperate, I might encounter some troubles facing the kid alone so straightforwardly."

King of Joyful Sound calmly said, "Don't worry, you just need to act according to my plan..."

When the conversation ended, King of Joyful Sound suddenly opened her lips slightly, changed her voice into a sound transmission.

Upon hearing King of Joyful Sound's sound transmission, Cloud Highness Dharma King's eyes sparkled with excitement, gradually understanding the plan from King of Joyful Sound.

After hearing King of Joyful Sound's plan, Cloud sovereign Dharma King's expression eased even more, and he soon showed a smile, seeming that the plan was quite feasible.

"Not bad. If we follow this plan, it won't be difficult to kill the surnamed Yang boy. Our combined efforts will be enough to teach this kid a lesson." Cloud Highness Dharma King sneered.

King of Joyful Sound opened her lips lightly: "You misunderstood, I just want you to help me capture him, killing him is unnecessary."

"Not killing him? How can I vent my hatred if I don't kill him!" Cloud Highness Dharma King angrily said, "What, changing your mind now?"

Changing her mind was impossible, King of Joyful Sound had never intended to kill Yang Chen from the beginning.

In her heart, killing Yang Chen would be such a waste.

"Controlling a genius like him is far more valuable than killing him," King of Joyful Sound calmly said, "Of course, you can rest assured that when the time comes, I will give you an explanation regarding your grudge with Yang Chen."

Cloud Highness Dharma King listened and pondered for a moment: "Humph, King of Joyful Sound, you play a good game. But I hope that in our cooperation, you won't play any tricks, otherwise, it won't be good for both of us!"

...

Yang Chen used his spacetime ability to unlock the prohibition ability imposed by King of Joyful Sound on himself, and then entered a brief period of cultivation.

Not long into his cultivation, Yunqi Tianzun came looking for Yang Chen for some unknown reason.

Yang Chen had always had a good relationship with Yunqi Tianzun, and he didn't know the other party's intention, so he naturally got up quickly to invite Yunqi Tianzun in.

"Senior Cloud Ascending, what brings you here?" Yang Chen asked puzzledly.

It could be seen that Yunqi Tianzun had a worrisome expression on his face, as if there was something quite important weighing on his mind.

Yunqi Tianzun sighed softly, looking somewhat embarrassed, but then said, "Yang Chen, I know that Dharma King has hurt your heart, but there's some trouble on the battlefield now. I hope you can lend a hand."

Upon hearing Yunqi Tianzun's words, Yang Chen smiled slightly, "Senior Cloud Ascending misunderstood me. Although Dharma King has displeased me, he cannot represent the entire battlefield. There are still many good friends who have a good relationship with me on the battlefield, like Senior and many other Boundless Stage Experts. If something happens on the battlefield, I won't ignore it. But I don't know what has happened on the battlefield?"

He was in a slump in his Divine Soul Realm now and hadn't had time to collect enough materials to break through the third layer of the Forbidden Divine Art, so he really didn't know much about the situation on the battlefield.

Now that Yang Chen said this, Yunqi Tianzun took a long breath and laughed, "Yang Chen, my friend, as long as you say that, I can put my mind at ease. The thing is, as I told you before, there have been a lot of inexplicable Ghost Venerables emerging in the Extreme Yin Land. Among them, quite a few are at the Half-step Heavenly Leaving Realm."

"Well, you mentioned that. Is the situation related to these Ghost Venerables that have appeared inexplicably?" Yang Chen asked puzzledly.

"That's right. The Extreme Yin Land has not launched its grand attack yet, but a few days ago, there was a sudden wave of moderate attacks. They clashed with our human experts near the Gengjin District. At first, we human powerhouses didn't take it too seriously, but who would have thought that the Extreme Yin Land would send out four Half-step Heavenly Leaving Realm experts to garrison the Gengjin District? They seemed very determined to capture the Gengjin District. We humans will not just stand by, but near the Gengjin District, we can only send a Half-step Heavenly Leaving Realm master to garrison. How can he stand against four Half-step Heavenly Leaving Realm experts from the Extreme Yin Land?"

The more Yunqi Tianzun spoke, the more he sighed in frustration, obviously very worried about the current situation.

Yang Chen could tell, and said to himself, "Four Half-step Heavenly Leaving Realm Ghost Venerables are indeed a bit exaggerated."

Could it be related to his killing of the Emperor-level Nether Venerable? Otherwise, why would so many high-level Ghost Venerables appear out of nowhere?

This scale was already somewhat beyond the scale that Southern Realm could support.

"That's right. But the Gengjin District is quite important. Once it is undefended, we humans will be equivalent to handing over the battlefield initiative to the other party. However, a single Half-step Heavenly Leaving Realm expert is no match for the Extreme Yin Land. Now, King-level powerhouses have yet to make a move. Half-step Heavenly Leaving Realm is already our highest combat power. In desperation, I could only think of Daoist Friend Yang Chen." Yunqi Tianzun said with a candid smile.

If it were before, he wouldn't have thought that Yang Chen could solve these problems.

But a few days ago, Yang Chen single-handedly dispelled Dharma King's methods with just his own power, which was not something an ordinary Boundless expert could accomplish.

He believed that Yang Chen would be able to solve the current problem.

Yang Chen looked at Yunqi Tianzun's sincere request and said indifferently, "Senior Cloud Ascending doesn't have to be so cautious, I will naturally lend a hand if the battlefield requires it. Please lead the way, Senior."

Upon hearing Yang Chen's agreement, Yunqi Tianzun was overjoyed, knowing that there was hope for the situation.

"Yang Chen, my friend, come with me." Yunqi Tianzun revealed a joyful expression, leading Yang Chen as they both got up.

Yang Chen and Yunqi Tianzun flew together and arrived at the Gengjin District without spending too much time.

Now, under Yunqi Tianzun's guidance, as they set foot in this sky, they could see many powerful experts guarding the area. Among the Boundless Stage Experts, quite a few were people Yang Chen knew.

For example, Spirit Flower Heavenly Venerate from Three Flowers Divine Region and others from different Divine Regions, such as Ink Crystal Heavenly Venerable, all of whom Yang Chen knew.

As soon as Yang Chen arrived, these Heavenly venerates all looked over and many of them greeted Yang Chen.

Spirit Flower Venerate opened her mouth gently and said softly, "Yang Chen, congratulations on entering the Boundless Stage."

As she spoke, her face had a hint of melancholy. Her relationship with Yang Chen was not shallow, but she was helpless due to King of Joyful Sound's order to keep her distance from him. She just said one sentence and no more.

Chapter 3016 Expanding Netherworld Forces_1

Yang Chen could naturally understand this. After laying his cards on the table with Yueyin King, it was like when he was being hunted by Yueyin King. The female cultivators in the Three Flowers Divine Region didn't dare to maintain too close a relationship with him anymore.

As for this, he didn't take it too seriously, but anger burned in his heart.

He hoped that Yueyin King could restrain himself a bit.

If the other party didn't want to trouble him, he wouldn't pay much attention to them either!

However, people like Mojing Tianzun, Yuanhong Tianzun, and others still had a good relationship with Yang Chen and greeted him warmly.

“Friends, how is the battle going now?” Yunqi Tianzun looked at these Boundaryless Level Heavenly Venerate experts and asked with concern.

“The situation is not optimistic.” Mojing Tianzun shook his head slightly: “I’m afraid we won’t be able to hold on for long in this Gengjin District. Brother Zhaoye is indeed powerful, but in the end, few can’t withstand many. And we can’t resist these Half-step Heavenly Leaving Realm Ghost Venerables. Frankly speaking, it’s already quite difficult to stay alive. To resist the Extreme Yin Land’s offensive is like climbing to the sky.”

Other Heavenly Venerate experts also sighed and felt helpless.

“By the way, Yunqi Daoist Friend, what do you mean by bringing Yang Chen here? Also, didn’t you just say that you were going to bring someone to save the situation, but I don’t see any other half-step Heavenly Leaving Realm experts here...” Other Boundaryless Heaven Lords asked with puzzled expressions.

Everyone looked around, but they didn’t see any Half-step Heavenly Leaving Realm experts.

Just now, they only heard Yunqi Tianzun say that there was someone who might be able to solve the current situation, so they thought Yunqi Tianzun was going to call Half-step Heavenly Leaving Realm experts to reinforce this place.

Who would have thought that not only were there no three Half-step Heavenly Leaving Realm experts needed to save the Gengjin District, but they didn’t even see one, only Yang Chen.

It’s not that they looked down on Yang Chen, but Yang Chen and the Half-step Heavenly Leaving Realm are clearly two different concepts.

Hearing everyone’s questions, Yunqi Tianzun explained without any omissions: “Fellow Daoist, this young friend Yang Chen is the one I mentioned who can save the situation.”

“What, Daoist Friend Yang Chen, is the savior you were just talking about who can help with this matter?”

“Isn’t Daoist Friend Yang Chen at the Mahayana Stage of cultivation?”

“Haven’t you heard that not long ago, Daoist Friend Yang Chen has already reached the Boundaryless Stage of cultivation?”

“But even if he has Boundaryless cultivation, it’s a bit unrealistic to deal with Half-step Heavenly Leaving Realm.”

These Heavenly Venerate experts looked at each other and started discussing in low voices for a while. They felt that the situation was quite incomprehensible.

Yang Chen stood with his hands behind his back, showing no intention of explaining. He just looked calm, watching the many puzzled people, as always.

Yunqi Tianzun didn’t know how to explain either, so he asked, “Speaking of which, where is Daoist Friend Zhaoye?”

“Daoist Friend Zhaoye is just ahead. He has been paying close attention to the movements of the other four Half-step Heavenly Leaving Realm Ghost Venerables,” Spirit Flower Venerate said with slightly parted red lips.

Upon hearing this, Yunqi Tianzun nodded, “Let’s go find Daoist Friend Zhaoye first.”

Yunqi Tianzun led the way, followed closely by many Boundaryless Stage Experts.

Soon, the group saw a middle-aged man guarding not far away. This man, dressed in white, exuded an aura of high elegance, standing in high altitude, calm and undisturbed.

Although Yang Chen didn’t know the man, he could tell at a glance that this man was Lin Zhaoye, a Half-step Heavenly Leaving Realm expert stationed in the Gengjin District, known as the powerful Bright Night Heavenly Sovereign.

Zhaoye Heavenly Sovereign naturally sensed the arrival of many Heavenly Venerates behind him. With a humble attitude and calm demeanor, he turned around with his hands behind his back and said, "Fellow Daoists have arrived."

Yunqi Tianzun asked, "Brother Zhaoye, what is the current situation of the four Half-step Heavenly Leaving Realm Ghost Venerables?"

"I've been keeping an eye on them. These four Half-step Heavenly Leaving Realm Ghost Venerables know that I'm watching them, so they stick together and don't give us humans any opportunity to take advantage of. The Netherworld Ghosts of the Extreme Yin Land are currently on the move, fearing that they really intend to sweep the Gengjin District clean and thoroughly expand the range of the Extreme Yin Land. This is very bad news for us humans," Zhaoye Heavenly Sovereign said.

"How do you explain that?" Yunqi Tianzun and the other Heavenly Venerate experts were somewhat puzzled.

"Haven't you noticed? After the Lihuo District fell, a large number of Half-step Heavenly Leaving Realm Ghost Venerables appeared. Once the Netherworld people have expanded their territory enough, the more Ghost Creatures will appear only when all these places are included in the range of the Extreme Yin Land," Zhaoye Heavenly Sovereign explained.

Other Heavenly Venerate experts suddenly realized, "Could it be that the support of these Ghost Venerables is related to the size of the Extreme Yin Land's power in the Southern Realm?"

"Very likely. I've always had this conjecture, but I wasn't sure. Now I think it's highly probable. Adequate territory will create a sufficient amount of Ghost Qi. This sufficient amount of Ghost Qi should be the basis for the Netherworld people to be transported here. This is also the reason why these Netherworld people have been silent and not attacking during this time, but are now starting to crazily expand their scope," Zhaoye Heavenly Sovereign said solemnly.

Yang Chen had to say that Zhaoye Heavenly Sovereign's discovery was quite useful. He hadn't thought of these things before.

Now that he heard it, he found that what Zhaoye Heavenly Sovereign said made sense, and it could really be the case.

What had kept the Extreme Yin Land hidden and not attacking before?

It was because a large number of Netherworld experts were being transported. Naturally, they had no reason to fight during the transportation process.

But now it's different, after being transported, they want to transport even more experts, so they have to expand their territory even more.

"If it's really like this, if the Gengjin District is taken by them, wouldn't it cause even more Netherworld experts to be summoned? If it's really like that, the situation would be quite disadvantageous for us," Yunqi Tianzun frowned.

Other Heavenly Venerates also noticed these points.

"What should we do?"

"If the Gengjin District doesn't fall, we can't deal with the large number of Half-step Heavenly Leaving Realm Ghost Venerables. Once the Gengjin District falls..."

Only Zhaoye Heavenly Sovereign remained calm and said calmly, "The most critical thing now are these four Half-step Heavenly Leaving Realm Ghost Venerables. If they can be solved, and the Gengjin District doesn't fall, causing other areas to suffer losses, then the situation would still be acceptable for us."

"But how do we deal with these four Half-step Heavenly Leaving Realm Ghost Venerables?"

"Brother Zhaoye, since these four Half-step Heavenly Leaving Realm Ghost Venerables are so afraid of you, they stick together during their patrol. We'll risk our lives to help you delay the other three, so you only need to deal with one, then one less is better than nothing," the other Heavenly Venerates proposed.

With a bitter smile, Zhaoye Heavenly Sovereign said, "You misunderstand. These four Half-step Heavenly Leaving Realm Ghost Venerables are not afraid of me. But they must be afraid of something, otherwise

they wouldn't stick together. As for me, dealing with one is already my limit, and frankly, my chances of winning aren't that great."

Chapter 3017 The Person Feared_1

"What!"

Other powerful experts were greatly shocked after hearing Bright Night Heavenly Sovereign's confession. They initially pinned their hopes on the Bright Night Heavenly Sovereign since he was the only one currently at the Half-step Heavenly Leaving Realm. The fate of the Gengjin District depended entirely on him.

But now, he has admitted that even defeating a Half-step Heavenly Leaving Realm Ghost Venerable was difficult?

"I'm really ashamed, but this is the truth. These Half-step Heavenly Leaving Realm Ghost Venerables have unimaginable power, and their cultivation method, as well as their ability to manipulate Ghost Qi, are not what I've understood before. It's difficult to achieve victory." Bright Night Heavenly Sovereign sighed lightly.

In his words, he was somewhat implying that he was even raising his own status by saying he was only slightly at a disadvantage just now.

Everyone present became secretly anxious after hearing this.

If the Bright Night Heavenly Sovereign was in such a situation, what could they do?

Bright Night Heavenly Sovereign felt helpless as well. But upon thinking about it, he looked towards Yunqi Tianzun and said, "Brother Yun Qi, I've heard your conversation earlier. You said your friend, Yang Chen, had come to save the situation."

"I, Yang Chen, have met Bright Night Heavenly Sovereign." Yang Chen greeted with a slight bow.

Bright Night Heavenly Sovereign's steadfastness, knowing that it was impossible for him to fight against four Half-step Heavenly Leaving Realm Ghost Venerables alone but still standing firm, made him a respectable figure.

Upon seeing Yang Chen, he smiled slightly and said, "Friend Yang Chen, I have heard quite a bit about your deeds. However, I don't know how you plan to save this current situation."

Yang Chen caught onto Bright Night Heavenly Sovereign's meaning. He pondered for a moment, unsure of how to explain his plan.

But after thinking about it, he realized that making empty promises would be useless, so he straightforwardly replied with a smile, "I have some methods, which I believe should be able to deal with these four Half-step Heavenly Leaving Realm Ghost Venerables. Although it will surely be perilous, I am willing to give it a try."

Hearing these words, even the calm-hearted Bright Night Heavenly Sovereign couldn't help but be shocked, "What are you saying? You can handle all four at once?"

This was almost like a joke. If he could barely handle one, how could he possibly handle four? This was not a matter that could be solved by relying on external means, true strength was key.

The others also stared with disbelief, thinking that Yang Chen's words were mostly lies or exaggerations.

Yang Chen responded, "I can try, and if something goes wrong, it will not involve anyone else!"

For a moment, a Heavenly Sovereign frowned and said, "Fellow Yang Chen, if your words are true, then you should go alone. We won't accompany you."

Hearing this, Yang Chen's expression gradually turned serious, revealing a hint of displeasure. But he quickly said, "If nobody wants to accompany me, that's fine!"

Although somewhat disappointed, Yang Chen knew that not all Heavenly Sovereigns were like that.

Bright Night Heavenly Sovereign spoke, "Friend Yang Chen, even if I don't fully understand how you can solve the current situation, I am willing to believe in you. If the Gengjin District falls, the situation will be even more dangerous than it is now. I must give it a try, even if it means going through a knife mountain and a sea of fire."

Hearing these words, Yang Chen laughed. It seems that not everyone was selfish and greedy.

Ink Crystal Heavenly Venerable had been saved by Yang Chen in the past and was grateful for it. He always had some degree of trust in Yang Chen's strength.

"I am also willing to accompany Friend Yang Chen in this endeavor. As Bright Night Brother said, if the Gengjin District falls, death would be slow and painful, it would be better to fight."

"I'll go too. But I don't think there is any possibility of victory against these four Half-step Heavenly Leaving Realm Ghost Venerables. Even Bright Night Brother couldn't handle them, so what capability do ordinary Boundless Stage Experts have? If the situation goes wrong, don't blame me for running away at any time. I'm definitely not willing to throw my life away here."

At that moment, these Boundless Stage Experts offered various opinions, making it difficult to reach a consensus.

However, as they listened, most of the people did not trust Yang Chen but considered going along with him to save face. If the situation turned bad, they were all prepared to leave at any moment.

Only a few were willing to advance and retreat alongside Yang Chen.

Yang Chen couldn't help but feel regretful. However, he knew that there was no other way and he couldn't expect everyone to believe in him.

Yunqi Tianzun, too, was full of worry, not knowing how to explain Yang Chen's strength to the others.

It was because even if he explained, they might not necessarily believe him.

He could only say, "I will accompany all of you as well. Brother Bright Night, you know the location of the four Half-step Heavenly Leaving Realm Ghost Venerables, please lead us there."

"These four Half-step Heavenly Leaving Realm Ghost Venerables have also brought many Boundless Stage Ghost Venerables with them. We should be prepared for a tough battle." Bright Night Heavenly Sovereign said solemnly.

Hearing this, the Boundless Stage Experts took it seriously, not daring to treat it as a joke. They got ready for a fierce battle.

No longer wasting time, Bright Night Heavenly Sovereign led the group of Boundless Heaven Sovereigns towards their target, preparing to engage in a sacred battle.

This battle would determine the future!

Thus, the group streaked across the sky, and soon discovered the location of the four Half-step Heavenly Leaving Realm Ghost Venerables.

At the same time, the Ghost Venerables also discovered the arrival of Yang Chen's group. When they sensed the group's presence, they couldn't help but sneer.

"Hahaha, these humans actually dare to deliver themselves to our doorstep. And so many ordinary Boundaryless Stage experts have come at once. It's like they're delivering food right into our mouths..." The four Half-step Heavenly Leaving Realm Ghost Venerables laughed sinisterly.

As their divine souls scanned the area, they did not find any Half-step Heavenly Leaving Realm experts other than Bright Night Heavenly Sovereign in Yang Chen's group. This was what pleased them.

How could a team led by a single Half-step Heavenly Leaving Realm possibly compete with them?

However, as soon as Yang Chen's group set foot on the battlefield, the expressions of the four Ghost Venerables suddenly sank. Their eyes fixed on the young man beside Bright Night Heavenly Sovereign, with their pupils narrowed and eyes filled with apprehension.

"It's him, the guy in the wanted order! The Ghost Kings warned us to be cautious of this person. The very reason the four of us never let him out of our sight!" As the four Ghost Venerables laughed arrogantly, their expressions turned unusually somber when they saw the crowd.

This sight left the group puzzled, not knowing what had happened. When they looked closely, they finally saw that all four Ghost Venerables had their eyes fixed on Yang Chen.

These four Ghost Venerables appeared to be inexplicably apprehensive of Yang Chen?

With his hands tied behind his back, Yang Chen was quite surprised by this. But upon further consideration, it seemed that the news of him traversing the Extreme Yin Land and killing Half-step Heavenly Leaving Realm Ghost Venerables had spread quickly within the Extreme Yin Territory.

In addition to that, his previous exploits of killing the Seven Star Nether Lords and Peng Wanli would not have been unknown to the Extreme Yin Territory.

So it turned out that the person whom the four Half-step Heavenly Leaving Realm Ghost Venerables were apprehensive about as mentioned by Bright Night Heavenly Sovereign was him!

Chapter 3018 Too Weak!_1

A group of people didn't know why these Ghost Venerables were so afraid of Yang Chen.

Could it be that Yang Chen really had some special abilities? Could he rival these four half-step Heaven-separating Realm Ghost Venerables?

However, as soon as such thoughts arose in everyone's minds, the four half-step Heaven-separating Realm Ghost Venerables revealed mocking expressions in a short period of time.

"I wondered what kind of character I was dealing with, but it turned out to be just an ordinary Boundless Stage expert. It seems that either the information is wrong, or this kid surnamed Yang has been overestimated by our people," a half-step Heaven-separating Realm Ghost Venerable sarcastically laughed.

"Hahahaha, these ghost creatures were just cannon fodder sent to the Southern Realm before us. We are the elite forces coming afterward. Naturally, our vision is completely different from theirs. How can we compare them? A mere Boundless Stage expert is considered a formidable enemy by them, and yet they must be cautious. I really wonder what those wastes had in mind. In my opinion, there's no need for so much useless talk. Just go straight ahead and kill this kid," another one said.

The four half-step Heaven-separating Realm Ghost Venerables were initially wary of Yang Chen, but after seeing his cultivation level, their concerns were not as serious as before.

However, the leader of the half-step Heaven-separating Realm Ghost Venerables said with a gloomy expression, "Don't be careless and don't be misled by this kid's cultivation level. When he was at the Great Stage, he killed the Seven Stars Young Master, which is the real reason why we are here. If it were not for the killing of the Seven Stars Young Master, we should not even be in this plane. As for the strength of the Seven Stars Young Master, you should all be aware that he was killed by a peer in the Great Stage, and now, he has reached the Boundless Stage in cultivation..."

"So what? Cold Light brother, you're being too cautious. Even if the Seven Stars Young Master enters the Boundless Stage, his cultivation is still just ordinary, so to fight against the likes of us, he would have to tread carefully. In the end, this kid is just an ordinary Boundless Stage expert. Can he really turn the tables?" The other few half-step Heaven-separating Realm Ghost Venerables sneered.

At this moment, Yang Chen quietly observed the expressions and fluctuating emotions of the four half-step Heaven-separating Realm Ghost Venerables.

Seeing the several people gradually becoming careless towards him, Yang Chen revealed a slight smile.

However, upon close inspection, the strength of these four half-step Heaven-separating Realm Ghost Venerables was not weak at all. Just as Bright Night Heavenly Sovereign had mentioned, these four had significant statuses and were a notch stronger than the previously encountered half-step Heaven-separating Realm Ghost Venerables.

In particular, the character called Cold Light Ghost Saint exuded an imposing aura that could only be described as terrifying. His energy was much stronger than that of the other three half-step Heaven-separating Realm Ghost Venerables.

Ominously, Yang Chen sensed some trouble brewing.

"Brother Yang Chen, how do you plan to deal with this? These four half-step Heaven-separating Realm Ghost Venerables are not simple," Bright Night Heavenly Sovereign asked cautiously while watching the four ghosts with apprehension.

"How to deal with these four half-step Heaven-separating Realm Ghost Venerables?"

"They are no match at all."

A look of fear had already appeared in the eyes of many Heavenly Venerates.

This made the four half-step Heaven-separating Realm Ghost Venerables even more arrogant. The fear in the eyes of these humans made their morale soar.

How to deal with this?

Yang Chen pondered for a moment. If he asked these people for help, it would be difficult to even hold back one half-step Heaven-separating Realm Ghost Venerable, let alone two that would be the limit.

After all, there were many Boundless Stage Ghost Venerables beside these four half-step Heaven-separating Realm Ghost Venerables, which matched the number of people on the human side.

For him, holding back one or two half-step Heaven-separating Realm Ghost Venerables didn't make any real difference.

"Everyone should just try their best. As for my solution..." When Yang Chen said this, he paused for a moment and then chuckled.

It seemed that he really didn't have any solutions.

The only solution was to use his strength to completely suppress them!

When the conversation ended, Yang Chen suddenly unfolded the Domain of Earth in an instant, mixing it with his Dao Intent and the touched Laws. As it surged like ocean waves, it swept across everything in its path.

"Such a powerful domain suppression, but what a pity! Do you really think it's too naive to suppress the likes of us with this?" Cold Light Ghost Saint fiercely roared.

The speed of the four Ghost Venerables slowed down slightly, but under the suppression of Yang Chen's domain, they swiftly broke free.

Upon seeing this, Yang Chen squinted his eyes, "Indeed, they have some tricks up their sleeves!" These four half-step Heavenly Leaving Realm Ghost Venerables were different from those he had fought before, making it extremely difficult to suppress them with his Domain of Earth.

Dealing with four of them simultaneously would make anyone feel crazy.

Seeing this, Yang Chen no longer held back and took out his Slaughter God Spear on the spot.

"Ten Thousand Miles Spear!"

One Spear chased after them, aiming directly at a half-step Heavenly Leaving Realm Ghost Venerable.

The Celestial Experts on the human side also took action one after another.

"Kill!"

In the high altitude with dense clouds, Bright Night Heavenly Sovereign waved his hand and led many Boundless Stage Experts to kill the enemies.

Just as Yang Chen had expected, many Boundless Stage human experts killed an equal number of the Netherworld's Ghost Venerables. Bright Night Heavenly Sovereign was barely able to hold off a half-step Heavenly Leaving Realm Ghost Venerable.

Meanwhile, Yang Chen faced three half-step Heavenly Leaving Realm experts on his own, forming a stalemate in the high altitude.

"Yang Chen, you're really bold, daring to kill the Seven Stars Young Master. But unfortunately for you, we found you today, and you can die here." Cold Light Ghost Saint spoke coldly.

"Is that so? If you want to kill me, you'll need to show enough strength," Yang Chen said confidently, hands behind his back.

Cold Light Ghost Saint sneered, "It seems that killing a few worthless Ghost Venerables has made you quite confident."

When the conversation ended, the three half-step Heavenly Leaving Realm Ghost Venerables swept in from three different directions.

After advancing into the boundaryless stage, Yang Chen's most significant help was the leaps and bounds of his space-time Dao Intent. Nowadays, he could easily walk through time and space without any effort!

As the three half-step Heavenly Leaving Realm Ghost Venerables came sweeping in, Yang Chen disappeared on the spot.

"Five Elements Sky-turning Finger, Fire!"

In an instant, when Yang Chen disappeared, a giant finger suddenly descended from the vault of heaven. It aimed at one of the half-step Heavenly Leaving Realm Ghost Venerables, and was like a world-ending flame when it pointed directly downward!

"Fanxing, be careful!"

This Ghost Venerable named Fanxing naturally reacted quickly, but when he wanted to move, he found that his body had become difficult to move!

"The biggest mistake you've made is thinking you can move freely within the range of my Domain of Earth..."

Yang Chen mused to himself.

At first, his Domain of Earth hadn't exerted its full power!

What was its greatest power?

Space-Time Imprisonment, sealing off space and time.

Now, Fanxing Ghost Monarch couldn't move at all!

His Space-Time Imprisonment couldn't seal off king-level powerhouses, but it could easily deal with half-step Heavenly Leaving Realm Ghost Venerables. These four half-step Heavenly Leaving Realm Ghost Venerables were stronger than those he had dealt with before.

However, they were still...

Too weak!

Chapter 3019 Overwhelming Situation_1

Fanxing Ghost Monarch had no idea what happened. All he knew was that he couldn't control his body at all and couldn't move.

At first, it was fine. However, when he saw the Fire-element giant finger that fell from above the sky, from Yang Chen, he began to feel frightened.

He knew that with just this one move, he would undoubtedly die.

"No good! Save me, save me!" Fanxing Ghost Monarch cried out in terror. He didn't want to die, and he didn't know why this was happening.

However, when he tried to shout, he found that even his voice had come to a standstill.

The surrounding space seemed to have completely solidified, time ceased to flow, and space was entirely confined...

This was Yang Chen's newest method - Space-Time Congeal, which completely stopped the space-time of a certain range in a moment.

The space where the Fanxing Ghost Monarch was located had been specifically extracted by Yang Chen, and then completely stopped by the Space-Time Dao Intent.

It was just that Yang Chen was not very skilled at using this method. It had always been a speculation, and there wasn't a suitable target for practice, so it had never been used.

But now it was different. The power of space-time was displayed, quite unexpectedly for Yang Chen, and the effect was excellent.

Of course, wanting to use this method multiple times was still a bit short. With his current ability, it was already the limit to use it one or two times, and the target must be a Half-step Heavenly Leaving Realm. If it were a King-level, the effect would be greatly reduced.

Using it too many times would cause Yang Chen's Dao Intent to overload.

If he could reach the Late Boundaryless Stage or Peak of No-Boundary, the situation would be much better!

Now, space confinement in an instant...

The Flames of the Five Elements Sky-turning Finger directly burned the space in all directions, completely annihilating the still lively Fanxing Ghost Monarch in the void after tearing through the vault of heaven.

A Ghost Venerated Half-step Heaven-Severing Realm fell.

This scene fell, and the originally intense battle suddenly became quiet.

The fall of a Half-step Heaven-Severing Realm Ghost Venerable was clearly seen by everyone engaged in the battle.

It was precisely because of this that everyone showed a shocked expression. Many Boundaryless Heavenly Venerates recalled Yang Chen's initial self-confidence.

Could it be...

Does Yang Chen really have such ability?

Cold Light Ghost Saint's veins were exposed with fear. After surprise, he stared at Yang Chen fiercely, "Yang Chen, you are indeed powerful. We really underestimated you."

As he spoke, Cold Light Ghost Saint began to lose confidence. Yang Chen's performance just now was too strong, making it hard for people to breathe.

Yang Chen, with another push of his empty hand.

"Five Elements Sky-turning Finger, Wood!"

A giant finger fell from above the sky again, fiercely suppressing everything. It broke the air currents and spaces, aiming at the center!

Seeing this finger falling, Cold Light Ghost Saint's pupils narrowed, and he roared, "Be careful, let's join forces together!"

Cold Light Ghost Saint roared, wanting to disintegrate Yang Chen's Five Elements Sky-turning Finger with the Half-step Heavenly Leaving Realm Ghost Venerable beside him.

It must be said that their approach was indeed not a problem—two people jointly resisted, and under the rising Ghost Qi, the laws were like sharp blades intercepting from the empty air.

These two Law transformations were like a sharp blade, soaring up from the lower part of the sky, turning into a storm of blasts that could hardly be stopped.

So that Yang Chen's Five Elements Sky-turning Finger immediately lost its previous power.

Soon, Yang Chen's giant finger was directly torn apart.

The two Half-step Heavenly Leaving Realm of Cold Light Ghost Saint resolved Yang Chen's finger and quickly breathed a sigh of relief. "As long as we join forces, this kid surnamed Yang is not so scary. His methods can be easily resolved by us!" After dealing with Yang Chen's moves, Cold Light Ghost Saint calmed down and said.

The Half-step Heavenly Leaving Realm Ghost Venerable beside him also sobered up from the shock of Fanxing Ghost Monarch's death after breaking through Yang Chen's methods.

They were indeed careless just now, but now that they calmly dealt with it, Yang Chen was not so terrifying.

"Yang Chen, your move just now can only take us by surprise. Now that we have experience, how could we fall for your tricks again? Just obediently die." Cold Light Ghost Saint said emotionlessly.

Yang Chen listened to this and shook his head gently, "Do you still think that the gap between us is just because I caught you off-guard just now?"

He didn't pay too much attention to it, but just had a slight unwillingness in his smile.

He didn't care too much about it because, for him, there was no need to pay attention to these things.

His vision had long been different.

After he defeated True Mountain King, the Half-step Heavenly Leaving Realm was no longer a match for him.

These four Sky-separating Realm Experts were strong, but compared with True Mountain King, they were still far behind.

Too weak...

Yang Chen calmly held his hands behind his back, "It's time to let you understand the gap in our strength!"

Yang Chen pressed another finger again.

Five Elements Sky-turning Finger, Water!

Water waves attacked, converging into rivers, and centered on one finger that swept through unexpectedly.

"How many times do you think the same move can succeed?" Cold Light Ghost Saint said disdainfully.

Yang Chen ignored him and made another move.

"Five Elements Sky-turning Finger, Fire!"

Another finger, falling once again.

As two continuous fingers suppressed down, Cold Light Ghost Saint began to get a little uneasy. At first, he thought Yang Chen could only use this move one at a time.

But now, two fingers came down simultaneously!

"Not enough? There's more!" Yang Chen waved his sleeve again.

"Five Elements Sky-turning Finger, Earth!"

Cold Light Ghost Saint's face changed. One finger could be easily resolved, two fingers could be accepted, but three fingers falling at the same time gave a different concept.

Three fingers, each converging on different powers, suppressing everything from the sky like a violent storm!

Cold Light Ghost Saint's face turned pale with fear, and as he watched the giant fingers fall, he roared. He and the Half-step Heavenly Leaving Realm Ghost Venerable beside him resisted the three fingers' crazed convergence together.

However, as the three fingers fell, it wasn't so easy for the two of them to resist.

In an instant, their bodies were crushed by the three fingers.

"I-I can't hold on any longer!" The Half-step Heavenly Leaving Realm Ghost Venerable following Cold Light Ghost Saint, with his disordered Ghost Qi and body convulsions, had his laws shattered.

As for the power of the Five Elements Sky-turning Finger, it completely crushed down and passed through his body, crushing him into nothingness!

Only Cold Light Ghost Saint was left struggling bitterly. Every person present was shocked by this scene.

The scene just now...

Only by crushing could it be described.

These Half-step Heavenly Leaving Realm Ghost Venerables, three of them working together, two of them...

Were crushed and killed by Yang Chen!

Chapter 3020 Ice and Fire Sky Phoenix, King-level?_1

Now only Cold Light Ghost Saint was left struggling.

However, if one's eyes were not deceiving, it was clear that Cold Light Ghost Saint's strength was no match for Yang Chen's.

The two were not opponents of the same level.

Admittedly, compared to the other three Ghost Venerated of the Half-step Heaven-severing Realm, Cold Light Ghost Saint was much stronger. But in this situation, he still could not stand up to Yang Chen directly.

At least these three Five Elements Sky-turning Fingers had already pushed him to the limit, with no resistance left!

"Impossible, impossible!"

Cold Light Ghost Saint had tried every trick in the book, but even now, he still couldn't believe that everything before him was real. He, Cold Light Ghost Saint, was a standout among the Half-step Heaven-separated Realm, very likely to step into the King-level in the future. Even some Ghost Kings held him in great respect, simply because he had absolute strength!

At least, when he arrived in the Southern Realm, everyone thought that where Cold Light Ghost Saint went, he was invincible and absolutely unbeatable!

But then, after someone told him Yang Chen's name, even the powerful Ghost Kings reminded him to be careful and not to underestimate the opponent.

He met Yang Chen, initially thinking that the advice of the Ghost Kings was false. But only now did he realize that it was all true!

The terror of Yang Chen was like a blazing shining sun, and compared to this red sun, he was just an inconceivably small star!

"Still holding on?!" Yang Chen looked at Cold Light Ghost Saint's unwillingness to accept the reality, his expression as chilly and cold as ever.

With the Slaughter God Spear in hand, he laughed manically, and under Yang Chen's attack, the spear cooperated with him to unleash its full power!

"Ten Thousand Miles Spear!"

With a thunderous roar following this attack, the spear was aimed at Cold Light Ghost Saint.

In the face of Yang Chen's three-finger suppression and this attack, Cold Light Ghost Saint had no strength to resist. His body was completely torn apart under this attack, spewing blood and dying on the spot!

After this attack, the entire space was filled with a few breaths of silence.

Yang Chen stood in the high-altitude, like an invincible killing god. Holding the Long Spear in his hand, he would kill gods and crush buddhas in his path!

With a single glance, all the ghost creatures in this land of extreme yin looked terrified and shivered with fear from the bottom of their hearts.

Yang Chen moved and arrived above Zhaoye Heavenly Sovereign's body!

Naturally, Zhaoye Heavenly Sovereign sensed Yang Chen's arrival and knew what he was going to do, so he timely stopped his attack.

At the same time, Demon Rune Ghost Monarch, who was fighting with Zhaoye Heavenly Sovereign, also sensed Yang Chen's arrival. When he roared, he directly unleashed one of his blows.

This blow, containing the Heavenly Law, caused the surrounding area of hundreds of miles to be filled with the residual power of the law.

Yang Chen, who came from the core, attacked with one spear and blocked the blow!

Immediately, several Deathly Silent Black Winds swept from a distance, directly surrounding the Demon Rune Ghost Monarch.

"Not good!" Demon Rune Ghost Monarch had realized something was wrong and tried to defend himself hastily, but the power of each Deathly Silent Black Wind was terrifying, making it difficult to deal with easily.

At this moment, Yang Chen reached the rear, and his spear attack came like lightning, like a ghost, without making a sound!

After a single attack, Demon Rune Ghost Monarch's body disintegrated and fell completely!

All four Ghost Venerated of the Half-step Heaven-Separating Realm were killed here!

Zhaoye Heavenly Sovereign panted heavily, not knowing what had happened. When Yang Chen took action, he even thought if he should lend a hand to help Yang Chen.

However, in the blink of an eye, Yang Chen had killed Demon Rune Ghost Monarch effortlessly!

With such speed, he had no chance to intervene.

It was because of this that he looked horrified, and even now his body was still trembling. Four Half-step Heaven-Separating Realm experts were resolved just like that?

How did Yang Chen do it?

Meanwhile, Yang Chen stood with his hands behind his back and gave a faint smile to Zhaoye Heavenly Sovereign, "Brother Zhaoye, let's finish off the remaining ordinary soldiers together, shall we?"

Zhaoye Heavenly Sovereign nodded lightly and swallowed his saliva.

By now, the remaining Ghost Venerables had all sensed something was wrong.

The experts of the Half-step Heaven-separated Realm were all gone, leaving them useless here.

"Run, we must run!"

As soon as the conversation ended, these Ghost Venerables hurriedly fled.

Human Heavenly Venerates had yet to fully grasp the current situation, and when they saw these Ghost Venerates escaping, they instinctively gave chase after recovering.

However, there was no need for these experts to chase.

Yang Chen's domain expanded, directly suppressing more than half of them. In cooperation with these experts, all the remaining Ghost Venerables were eliminated!

The sky was peaceful and quiet...

At this moment, all the Realmless Heavenly Lords looked at Yang Chen with expressions of shock and awe.

Their suffocating feeling when they reminisced about Yang Chen's display of supreme fighting power earlier still lingered in their minds.

Now even thinking about it, they couldn't help but feel as if the whole thing had been a surreal dream.

Resolving four powerful experts of the Half-step Heaven-separated Realm with an almost overwhelming level, and helping them to deal with these ordinary Realmless Ghost Venerates now...

At first, they had even doubted whether Yang Chen had this capability!

Zhaoye Heavenly Sovereign was the first to react, smiling politely, "Yang Chen, my friend, I really admire you. You are truly the terror of the younger generation. With you on the battlefield, I will no longer have any concerns."

"Brother Zhaoye is too kind. Just now, I was merely lucky. Taking down so many powerful opponents is not an easy task at all." Yang Chen smiled.

Everyone knew that calling it luck would be a great joke.

Luckily taking down four Half-step Heaven-separated Realm experts? The people here probably wouldn't have this luck in their entire lives.

Even though Yang Chen was being modest, these experts still had the ability to discern his sincerity. They changed their attitudes towards Yang Chen and became exceptionally friendly.

Many clever individuals even tried to please Yang Chen. If they could build a relationship with Yang Chen, who had shown such impressive fighting prowess, they knew it would be a strong support in the future without having to think much about it.

However, Yang Chen was well aware of this and kept a certain distance from all the powerful figures.

He was always selective in making friends.

After the fierce battle, Yang Chen returned to his residence and began his cultivation.

...

At the same time, in a desolate Star Domain Interface close to the Southern Realm, a complete Ice and Fire Sky Phoenix body emerged, revealing its appearance.

This Ice and Fire Sky Phoenix unveiled an astonishing aura. If someone was present, they would certainly feel that this aura could even compare to the King-level!
