### Chapter 3031 Sky Annihilation Ghost King\_1

Accepting the position of Cloud Highness Dharma King was out of helplessness, but Yang Chen did not intend to stay in this position for too long.

As soon as the people from Grand Abyss Palace came, he would leave.

As for now, whether he was in this position or not, if there was a need on the battlefield, he had to help, so for him, it was just a position, not that important.

Moreover, as a king-level combatant, he would not allow himself to take action unless absolutely necessary. This actually saved Yang Chen considerable effort.

After that, Yang Chen started his cultivation journey!

...

At the same time as Yang Chen's cultivation, deep underground in the Extreme Yin Land.

Here, no one had ever explored, nor did anyone know what was connected deep under the ground of Extreme Yin Land. Even Yang Chen was completely unaware of this well-guarded place.

Nowadays, looking at the central part of the Extreme Yin Land, there was a huge deep pit, which seemed like a black hole. Looking down, one could not see the bottom at all.

However, it was this black hole that had a large number of Netherworld Ghosts moving downwards.

In the periphery, there were even three Ghost King-level powerhouses guarding!

"We have laid enough groundwork to summon Lord Sky Annihilation here, and Lord Sky Annihilation has waited long enough, it's time to summon him." A Ghost King said solemnly, and from his face, a trace of fear could be seen as he mentioned the Sky Annihilation Ghost King.

A green-bodied ghost king powerhouse in the middle moved his claws and said solemnly, "You must be clear that the Seven Star Nether Lord and the Black Wind Ghost Marshal, both Emperor Level, have died one after another in the Southern Realm. We are fully responsible for this matter. If Lord Sky Annihilation becomes aware of this, there is a high possibility he might launch an investigation against us..."

"Flying Feather Ghost King, I know you are afraid. But if we don't summon Lord Sky Annihilation, it would be an even bigger sin." The other two Ghost Kings said.

Flying Feather Ghost King had a low tone and glanced at the two people, "Hmph, you two speak lightly, but that's because you have no idea how powerful Lord Sky Annihilation is. He is naturally cruel and kills people in a heartbeat. I have seen this kind of thing many times. Now that we let the Black Wind Ghost Marshal die, the Seven Star Nether Lord, who is Lord Yan's personal disciple, is also dead. What shall we use to explain to Lord Yan? But never mind, no matter how angry Lord Sky Annihilation is, he won't do anything to us three. Now it's time to summon him, we must follow through."

When the conversation ended, Flying Feather Ghost King waved his sleeves and said, "Let's go down."

The three Ghost Kings led a large group of powerful ones and jumped directly into the black hole.

This black hole was filled with the power of time and space, and it was in the center of some void turbulence. However, for these king-level powerhouses, these fearsome things like void turbulence were not that terrifying.

The three of them jumped straight into the depths of the earth, and when they reappeared, they had already reached its dark depths.

In the depths of the darkness, there was a large door connected, and in front of the door, there were countless dead souls and skeletal crowds, as if it were an altar and a ceremony.

As soon as the three Ghost Kings arrived, several Enlightenment Stage little ghosts arrived immediately.

"The ceremony has been prepared, and the powerful ones of the Netherworld can be summoned at any time..."

"Begin." Flying Feather Ghost King said calmly.

Hearing this, a group of Extreme Yin Land's ghost creatures started to chant quickly without delay.

In an instant, a large amount of Heaven and Earth Spirit Qi emerged from the ground, penetrated deep into the ground, and then covered the Main Gate.

With a loud bang, the Main Gate suddenly opened, bursting out with dazzling light that illuminated the four directions.

As the Main Gate opened, a cold wind rushed out first, and a huge dark ghost figure walked out from the other side of the door.

The moment the figure appeared, the temperature plummeted, and its pair of icy eyes which could make one's hair stand on end, looked at the group of people, causing the three Ghost Kings in the lead to shiver uncontrollably.

Underneath the shivering, the three quickly bowed down and shouted together: "Greetings, Lord Sky Annihilation Ghost King!"

The coming person was indeed the Sky Annihilation Ghost King.

Sky Annihilation Ghost King looked coldly at the three of them and said with a hint of coldness in his tone: "I heard that Seven Stars has died too?"

The three Ghost Kings didn't expect Sky Annihilation Ghost King to ask about this issue, and after shivering all over their bodies, they had no choice but to answer quickly: "Yes, that's right..."

"Who was responsible for the area at that time?" The Sky Annihilation Ghost King asked in a low voice.

Seeing the anger of Sky Annihilation Ghost King, the three Ghost Kings exchanged glances for a moment, and the other two Ghost Kings without hesitation pointed at the Flying Feather Ghost King in the center.

"It was Flying Feather Ghost King's responsibility..." The two Ghost Kings pointed out decisively.

Flying Feather Ghost King watched as all the blame was pointed at him, his whole body stiffened. He was naturally unwilling to admit, but knew he could not avoid it, and quickly cried out, "Lord Sky Annihilation, this matter really has nothing to do with me. No one expected that the Seven Star Nether Lord would encounter such a powerful character. He was killed by a young man of the same Great Ascension Stage order. This was something none of us foresaw. We all thought that by guarding the king-level human experts, Lord Seven Star Nether would be invincible."

"A young man of the Great Ascension Stage?" Sky Annihilation Ghost King said coldly.

"This person, this person is the same person who killed the Black Wind Ghost Marshal, his name is Yang Chen. When he killed the Black Wind Ghost Marshal, he was just at Nirvana Stage, but later when he fought Lord Seven Star Nether, he had already cultivated to the Great Ascension Stage, and now he's even cultivated to the Boundaryless Stage." Flying Feather Ghost King said.

"I see, such a demonic genius, it's no wonder that Seven Star Nether Lord met his end at his hands." Sky Annihilation Ghost King stood with his hands behind him.

"Yes, this Yang Chen is really a demon, and this matter has nothing to do with me..." Just as Flying Feather Ghost King showed a happy expression, thinking that he had avoided Sky Annihilation Ghost King's trouble.

However, before his thoughts had even settled, an astonishing Qi emanated from Sky Annihilation Ghost King's body, and his sharp claws struck down with incredible force, directly suppressing the Flying Feather Ghost King.

Flying Feather Ghost King had not even reacted when the Sky Annihilation Ghost King struck his spirit body. He had already been taken down by the Sky Annihilation Ghost King without even struggling, and his life was taken on the spot.

A Ghost King powerhouse fell and died, which made the other two Ghost Kings shudder in fear!

Chapter 3032 The Mystery of the Universe Starry Sky\_1

A Ghost King powerhouse was killed on the spot and they couldn't help but feel afraid.

In an instant, they were trembling and begging for mercy, not caring about the dignity they held as King-level strong people. They were no match for these powerful ones.

Sky-Ending Ghost King looked at the two begging Ghost Kings, his face expressionless. "I originally wanted to kill you two as well, but now you are still of some use to me. Tell me the details about this surnamed Yang. I want to capture this kid alive!"

When the two Ghost Kings heard that Sky-Ending Ghost King might spare their lives, they were naturally delighted, and they couldn't close their mouths fast enough while introducing Yang Chen to him.

Now that Sky-Ending Ghost King had arrived, not taking their lives was already a great blessing. After all, with his strength, who could resist him in the entire Southern Realm?

...

Yang Chen was unaware of what had happened in the Extreme Yin Land, and during these days, he had not been just focusing on cultivating.

Considering his upcoming trip to the Grand Abyss Palace, he conducted a lot of research on the Universe Starry Sky. In his previous level of cultivation, moving within the Universe Starry Sky was difficult, let alone leaving the Southern Realm and crossing through the spatial turbulence to enter the Universe Starry Sky.

It should be known that he had been trapped by Li Chongxiao's scheme back then and was kicked out of the spatial channel. Only with the help of the Black Mountain Black Bear brothers could he enter the Southern Realm. Otherwise, he would have perished in the Universe Starry Sky.

But now, with his current cultivation, leaving the Southern Realm and entering the Starry Sky was no longer an impossibility.

Yang Chen had been studying these things for several days.

Since the people of the Southern Realm had little understanding of the Universe Starry Sky, there weren't many records available. That's why Yang Chen had to research on his own.

With the help of his soul's perception, he spent several days studying the spatial density in various parts of the Southern Realm.

Finally, he found a suitable location.

At this moment, he had already reached the top of the sky, above the clouds at the highest point in the sky. Above him was the extremely dense spatial turbulence.

Looking up at the spatial turbulence above, Yang Chen murmured to himself, "The density of this spatial turbulence isn't that high, so it can be easily crossed. If it were denser, even with my Space-Time Dao Intent, it would be troublesome to pass through. This is the most suitable place to enter the Universe Starry Sky."

In terms of his current strength, it was still a bit difficult for him to be on par with King-level powerhouses. Even King-level powerhouses could only ignore ordinary spatial turbulence, and could not disregard the enough dense spatial turbulence.

"Go through!"

Yang Chen unfolded his Space-Time Dao Intent, directly merging into the space. When he reappeared, he had already arrived in a pitch-black environment.

In this pitch-black environment, dots of light occasionally appeared. It was easy to tell that these were stars from various places.

When Yang Chen returned to the Universe Starry Sky, his experience was different from before. Previously, he knew nothing about the Universe Starry Sky, and felt only the unknown and vague fear.

But now, it was a completely different feeling. He was eager to explore and admire the beautiful scenery before him.

"Universe Starry Sky, Ten Thousand Realms..." Yang Chen muttered to himself.

He tried a little and realized that without his Space-Time Dao Intent, maneuvering within the Universe Starry Sky was almost impossible.

However, as long as he used his Space-Time Dao Intent, he could do it with ease.

"Let's check out the nearest star from here first." Yang Chen whispered to himself.

He locked onto his target, unfolded his Space-Time Dao Intent, and took flight!

As he flew, he looked back to see two adjacent stars of different colors. These two stars represented Lingnan Two Realms.

Yang Chen had been running in the Universe Starry Sky for a long time before he finally arrived in front of the stars closest to the Lingnan Two Realms!

"The Universe Starry Sky is truly vast. If I were in the Southern Realm, my Space-Time techniques would allow me to cross the whole Southern Realm in this amount of time. Yet now, I've only just reached an adjacent star interface of the Southern Realm!" Yang Chen couldn't help but sigh, feeling all sorts of emotions.

If he wanted to explore even farther interfaces, he had to be mentally prepared.

"This interface has no life; it's a star wrapped in flames," Yang Chen observed. "It's full of vitality and is a fire attribute star. However, most of its flames seem to have been stripped away and only a little remains."

Yang Chen touched his chin, puzzled, but soon figured it out.

"I wonder what happened. It seems that Bao Lu has restored her strength here. The power of this star interface has been absorbed by her." Yang Chen touched his chin, not expecting that the power of the stars could be absorbed.

However, upon further thought, it didn't seem like something special.

Not to mention anything else, many secret arts in their Lingnan Two Realms allowed them to communicate with the power of stars. And where did this star power come from? From the stars themselves?

For example, this Fire Star, if a strong person from Lingnan Two Realms were to communicate with it, they would gain the power of flames. However, the power they gained would be extremely scarce, which was fairly insignificant for the star.

However, countless strong people still pursued it.

As for stars, they came in different sizes. For example, the small stars they saw from the Star Observatory on Luo Star Island were actually very small stars. They didn't even possess life, and compared to this star, they were insignificant.

"This Fire Star's power can't be communicated by ordinary cultivators of Lingnan Two Realms. If they could, it would surely increase their strength significantly. What a pity that half of its power has been taken by Bao Lu." Yang Chen shook his head secretly.

Now that he had taken a look inside the Universe Starry Sky, he had gained a certain understanding of it and was no longer blind like before.

He decided to return the same way he came. On the way back, Yang Chen gazed into the distance and saw many distant stars. He believed that there must be interfaces similar or even stronger than the Lingnan Two Realms.

However, he had no time to explore them for now.

As he was on his way back, the sound transmission talisman in Yang Chen's possession suddenly began to hum.

"Someone is transmitting a message?" Yang Chen couldn't help but be surprised.

These King-level powerhouses had unique sound transmission talismans in order to facilitate communication in case of emergencies.

Now, when Yang Chen opened the sound transmission talisman, an urgent message suddenly sounded in his ear.

"Brother Yang Chen, the situation is urgent, there has been a large-scale attack on the Extreme Yin Land, please return quickly!"

The voice came from Heavenly King, filling Yang Chen with confusion.

The Extreme Yin Land was suddenly launching an attack?

Chapter 3033 Changing Wind and Clouds\_1

At the moment when Yang Chen was deeply puzzled, he sped up, passing through the layers of obstacles, and returned to Southern Realm.

When he returned, Yang Chen hurriedly headed towards the battlefield below.

Upon Yang Chen's return, the other King-level Powerhouses quickly sensed it. Heavenly King and King of Angry Seas were in the Spirit King Sacred Area and did not rush to take action.

Now seeing Yang Chen arrive, they all hurriedly went to greet him.

"Brother Yang Chen, we're glad you're back," said the Heavenly King, his serious expression easing slightly.

Yang Chen asked doubtfully, "What's going on in the battlefield, my friends?"

"It's a long story. A few days ago, the Extreme Yin Land suddenly launched a fierce and aggressive attack on us..." Heavenly King explained the ins and outs of the matter clearly.

Yang Chen was slightly startled, he hadn't really calculated the time. However, now he realized that it had been more than ten days since he left.

Many things happened during these ten days, including the sudden fierce attack of the Extreme Yin Land, which was quite alarming to these King-level Powerhouses.

"It shouldn't be surprising that these creatures from the Extreme Yin Land are launching a total attack. As long as those Ghost Kings don't move, you two shouldn't panic so much," said Yang Chen, puzzled.

"Brother Yang Chen, the key point is that the Ghost Kings have already taken action," lamented the Heavenly King.

"What!" Yang Chen's emotions fluctuated, gradually frowning, "These Ghost Kings usually can't be seen, but now they have come out? However, I haven't noticed any intention of them taking action."

"These Ghost Kings haven't taken action yet, but they've been on the battlefield, always ready to make a move, which makes us worried. Maybe these Ghost Kings aren't ready yet. That's why we hurriedly called Brother Yang Chen back!" said the Heavenly King as he shook his head.

Yang Chen gradually understood, "It turns out that's the case. This battle seems inevitable. Everyone, since these Ghost Kings have gone to the battlefield, let's go to the battlefield to take a look."

"No problem," said the Heavenly King and the King of Angry Seas, feeling more confident when they heard Yang Chen agree.

The story of Yang Chen killing Cloud Highness Dharma King was still fresh in their minds.

With such a terrifying strength, if he could kill a Ghost King Level character, it would be a huge boost to their morale.

The only drawback was that the King of Joyful Sound had not yet awakened, which was not good news for the battlefield.

Thus, the three of them joined together and went to the battlefield.

On the battlefield, both hidden and open, several King-level Powerhouses had already taken their positions. Most of them hadn't revealed themselves yet, and they were only deeply entrenched in a stalemate with the Ghost Kings from the Extreme Yin Land.

When Yang Chen arrived and looked down, he saw countless people fighting fiercely down below, each dedicating their power to the battlefield.

He didn't know how long this war would last, but the ground was covered with rivers of blood, and corpses piled up like mountains.

As Yang Chen looked, he saw the powerful Ghost Kings from the Extreme Yin Land. He didn't know whether it was an illusion or not, but he felt that all of these Ghost Kings' eyes were staring at him!

"What's going on?" Yang Chen wondered secretly. Why were these King-level Powerhouses paying so much attention to him?

He originally thought that it was because he, a Realmless, was standing with these King-level Powerhouses. But upon closer inspection, he found that it wasn't the case!

As Yang Chen thought, the Ghost Kings were staring at him, their eyes not even blinking, as if they were regarding him as prey.

"It's Yang Chen!"

"That man is Yang Chen!"

Several King-level Powerhouses locked onto the human, all shouting out.

In the void, a surprised voice asked, "Are you sure? Is this man Yang Chen?"

"Sky Annihilation Ghost King, that's right. This is Yang Chen. We guarantee we won't mistake him. The Black Wind Ghost Marshal and the Seven Star Nether Lord both died at his hands," several Ghost Kings said.

Hearing this, the Sky Annihilation Ghost King sneered coldly, "Indeed, he's very young. A mere youth like him, having reached such a level, even killing the Seven Star Nether Lord. I don't know how you wastes managed to spare his life. Anyway, since this seat is here, it's time for the kid to give up his life. Attack!"

Upon hearing the command of the Sky Annihilation Ghost King, these Ghost Kings no longer hesitated, and with the backing of the Sky Annihilation Ghost King, they took action directly.

"Humans, die!" The Ghost Kings quickly struck, swift and decisive.

This scene caused the human King-level Powerhouses to show shock. These Ghost Kings from the Extreme Yin Land rarely acted so frequently and crazily, but now, all of them started to mobilize at once?

"Everyone, it seems that the creatures from the Extreme Yin Land are ready for a tough battle with us. Don't hold back, let's do it," bellowed the Heavenly King.

On the humans' side, more than a dozen figures emerged instantly, representing more than a dozen King-level Powerhouses taking action one after another.

As the King-level Powerhouses took action, the heavens and earth changed, and spacetime trembled!

While facing these Ghost Kings, these King-level Powerhouses didn't hesitate or show mercy. They all rushed to the front, looking for their own opponents.

The King of Angry Seas and the Heavenly King were among them. Yang Chen was also included.

However, what made Yang Chen feel uneasy was that for some reason, he always felt a palpitation in his heart, as if something unexpected was about to happen.

"The Ghost Kings of the Extreme Yin Land are indeed quite unusual today," Yang Chen thought silently.

Just as this thought crossed his mind, Yang Chen suddenly felt a sense of danger sweeping over him. The next moment, a blood claw swept over him from a distance and turned into a storm, surrounding him completely!

"Not good!" Yang Chen sensed this terrible Law, which was enough to make people feel desperate.

In that instant, he lost even the thought of fighting back and immediately merged into spacetime, disappearing into the distance.

When he reappeared, Yang Chen felt a lingering fear, thinking that if his reaction had been a little slower just now, he might have already lost his life.

"Who is it?" Yang Chen's expression turned ice-cold.

As he looked at the front, the storm suddenly swept away, and the blood claws were aimed at the nearest King of Angry Seas.

King of Angry Seas naturally didn't have Yang Chen's escape means and instinctively counterattacked. As a result, the moment his body touched the blood claws, it began to dissolve.

"Ah!" the King of Angry Seas screamed.

Chapter 3034 Tragic Pursuit\_1

Amid the fleeting screams and after regaining their senses, they saw that the King of Angry Seas had completely fallen, his body turned into nothingness and disappeared without a trace.

Seeing this scene, all the king-level powerhouses became silent, their eyes filled with shock and disbelief, staring straight at the figure standing in front of them, as if they couldn't believe their own eyes.

A king-level sky-separating realm expert had been instantly killed like this?

Keep in mind that it was an instant kill.

The aura of the King of Angry Seas had utterly vanished, and he had fallen!

"Everyone, be careful, there is a Ghost King at the Heaven-appointed Realm!" Yang Chen said at this moment, suddenly sensing something and shouting with certainty.

He deeply felt that this murderous intent, this coldness, and this breath were not something an ordinary sky-separating realm expert could possess.

Even the peak of the sky-separating realm, who had vaguely broken free from the shackles of Heavenly Dao, was not this powerful. The opponent's realm was as strong as the Spirit King, no, even stronger than the Spirit King!

It was precisely because of this that Yang Chen had felt a bit of fear when his scalp tingled just now.

Soon enough, the figure of a huge Ghost King emerged in the sky enveloped by black smoke.

"Not bad, it really takes a character who can kill the Seven Star Nether Lord to make it interesting. He managed to dodge my attack and even sensed that I am a Ghost King at the Heaven-appointed Realm." The Ghost King appeared and spoke in a cold tone. It was Ghost King Tian Jue!

When Tian Jue Ghost King appeared, the other Ghost Kings' faces also showed expressions of respect.

In their eyes, with Tian Jue Ghost King here, everything was no longer a problem.

Yang Chen looked at Tian Jue Ghost King with his scalp tingling, and the King-level powerhouses on the human side were also filled with fear. They looked at Tian Jue Ghost King as if they had seen something unimaginable.

"Who are you?" Yang Chen gasped.

Tian Jue Ghost King said with his hands behind his back: "Yang Chen, you killed Black Wind Ghost Marshal, and then killed the Seven Star Nether Lord. Did you think that the Emperor-level powerhouses of our Netherworld could be killed at will by you?"

"So you're here because of that?" Yang Chen suddenly understood.

"It's not entirely that. There's also a part of it because of the special power in you. Anyway, enough chit-chat. You can give up resisting peacefully now. Don't worry, I won't kill you, I'll just take the entire Southern Realm as your funeral!" Tian Jue Ghost King said coldly.

As Yang Chen wondered what Tian Jue Ghost King wanted from him, he suddenly had a realization.

Could it be the Strongest Dao Intent?

As he was amazed, a giant claw pierced through the void, and suddenly arrived in front of him.

This claw was as fast as lightning, astonishingly fast. Seeing this, Yang Chen didn't hesitate and directly activated his Space-Time Dao Intent and started to run away.

"Escape? Where do you think you're going!" Tian Jue Ghost King waved his hand.

The only thought in Yang Chen's mind now was to escape. He knew very well that if he didn't run, he would undoubtedly die. He had clearly seen the means Tian Jue Ghost King had displayed just now; a king-level powerhouse was instantly killed in a second, and there was no way for him to resist.

Just the pressure alone was enough for him to feel suffocated.

If he escaped, at least the king-level powerhouses on the battlefield would not be affected for the time being. If he didn't escape, everyone would die.

No one could do anything about the appearance of a Heaven-appointed expert, unless Spirit King returned to his peak and personally dealt with it.

Yang Chen unleashed his speed and started to move towards the sky, traversing through space-time.

If it were other king-level powerhouses, they wouldn't be able to keep up with his speed at all. His space-time travel would leave those king-level powerhouses far behind in an instant.

But when he turned his head and looked back, he found that, instead of falling behind, Tian Jue Ghost King was even getting closer and closer to him.

This startled Yang Chen, making his entire body shiver, and he tried to increase his speed.

He quickly thought it through and came up with a plan.

It was not suitable for him to escape anywhere now. To escape to the Sacred District? That would be bringing disaster to his own people. Escape to the other direction? That was the land of Extreme Yin.

He could only escape upward, traversing through space-time, heading straight for the Universal Starry Sky.

"You want to escape to the Universal Starry Sky? It won't be that easy." Tian Jue Ghost King sneered, looking at him like a hunter eyeing his prey.

Yang Chen was about to activate his space-time Dao Intent again when he suddenly felt like he had hit a wall, and space was restricted.

This startled Yang Chen, and he hurriedly slapped a palm forward.

Dissolve!

Boom! Yang Chen forcibly created an opening in the confined space and traversed it. The entire process took only an instant.

"What!" Tian Jue Ghost King glared angrily, unable to believe his own eyes. How had Yang Chen managed to dissolve the confined space that he had created? How had this been possible?

If it were during the Great Ascension or Nirvana stages, he wouldn't have been able to do all these things because his space-time Dao Intent would have been limited. But now that he had reached the Boundaryless Cultivation stage, he could do many things.

Confined space?

Who would understand space better than him? With his understanding of space-time Dao Intent, it was extremely simple to forcefully create an opening.

However, the same principle applies: the use of his laws and Dao intent consumes a tremendous amount, and it is difficult to use it continuously multiple times.

Because of the earlier restriction, the distance between the two of them had shortened again, and Yang Chen had to maximize his speed.

Finally, they reached the area of spatial turbulence, and Yang Chen plunged in headfirst.

After entering, Yang Chen used his understanding of space-time to step into the Universal Starry Sky at an extremely fast speed.

Following closely behind him, Tian Jue Ghost King also stepped into the starry sky. He and Yang Chen were almost one after the other, with no difference in speed!

Now, Yang Chen was in a state of panic, and after escaping to the Universal Starry Sky, he didn't have a clear idea in his head and didn't even know where to run.

For a moment, as soon as he arrived in the Universal Starry Sky, he rushed towards several stars connected together that were visible to the naked eye.

"Taicang Starfield? How naive!" Tian Jue Ghost King continued to look at him like a hunter would.

Did Yang Chen think that he could distance himself by entering the Universal Starry Sky? How foolish.

Not to mention his cultivation at Heaven-appointed Realm, he could also move freely in the starry sky, in addition to having some equipment that could be used independently within the starry sky. So how could Yang Chen outmatch him?

With a wave of his hand, a huge fan appeared beneath his feet. He stepped on it, and the fan, like a galloping horse, rapidly chased after Yang Chen with a whoosh.

Yang Chen was moving forward with his head down, not noticing the situation behind him. But as he looked back now, he saw that Tian Jue Ghost King was about to catch up with him on a fan!

Chapter 3035 Opening the Ten Thousand Law Dao Embryo?\_1

Upon seeing this scene, even the calm Yang Chen felt a wave of shock and panic in his heart.

How could the powerful experts of the Destiny Realm be so fast? Moreover, the fan they ride through spacetime seems like a fish in water, increasing their speed even further, directly causing his Space-Time Dao Intent to dim down.

"Yang Chen, where do you think you can run?" Tian Jue Ghost King sneered coldly, his laughter filled with disdain, indifference, and chilling air.

Yang Chen clenched his teeth. If things continue this way, Tian Jue Ghost King will eventually catch up with him sooner or later, so he has to think of a solution quickly.

But what could he do?

His Space-Time Dao Intent had already been pushed to its limit. To maximize its effect, he had been using it in the Universe Starry Sky at an overload capacity.

Even so, he still couldn't widen the distance between them, and even started to be overtaken gradually.

Yang Chen knew he was slowly digging his own grave.

By overloading his Space-Time Dao Intent, his consumption rate increased significantly. Even then, he still couldn't pull away, and being caught was just a matter of time.

Tian Jue Ghost King smirked, showing no urgency at all.

Yang Chen also understood the lack of urgency. Have reached such a vast expanse of the Universe Starry Sky, there was no chance of anything happening to change the situation. He was completely treated as prey by Tian Jue Ghost King, and wherever he escaped, he would be chased.

Like this, the two chased one after another.

However, Yang Chen had underestimated the speed of Tian Jue Ghost King. In this chase, Tian Jue Ghost King's speed had not reached its maximum.

Now, with the fan that was riding like a whirlwind, Tian Jue Ghost King accelerated even more. In an instant, he was close to Yang Chen.

"Yang Chen, just surrender obediently." Tian Jue Ghost King gave a deep laugh, and his blood-drenched claws reached out from the sky towards Yang Chen.

These Blood Claws didn't reveal any killing intent, but they covered an extremely wide range, directly sealing Yang Chen's escape route, giving him no time to dodge.

"Not good!"

Yang Chen's pupils constricted, as he watched the claws about to bind him, his heart filled with desperation.

He knew very well that once he was captured, it would be a thorough defeat, with no hope of recovery. The fate of falling into Tian Jue Ghost King's hands was likely to be worse than death.

"Is this where my story ends?"

Yang Chen gritted his teeth, clenched his fists, and looked at the Blood Claws, his heart trembling.

His aura suddenly changed: "No, I can't lose here!"

Yang Chen's emotions fluctuated wildly in an instant.

"If my Space-Time Dao Intent could be stronger, if it could be just a little bit stronger, I might have been able to escape."

"Even just a little bit stronger would do!"

But now, his Space-Time Dao Intent was of no more use. With such a close distance between them, Tian Jue Ghost King would not give him a chance to employ his Space-Time Dao Intent.

As Yang Chen was losing hope, he suddenly felt that his deep emotion had subtly affected the Dao Embryo that had always been sleeping within him!

The Ten Thousand Law Dao Embryo slowly opened its sleepy eyes, seemingly responding to Yang Chen's call. Its chubby little finger gestured slightly, playing with a series of laws in its hand.

These series of laws were exactly the Space-Time Law that Yang Chen had just touched. Seeing these laws, Yang Chen's pupils constricted sharply. In the next moment, he sensed the changes and disappeared suddenly, evading the grasp of Tian Jue Ghost King.

When he reappeared, he was already far away, leaving Tian Jue Ghost King with wide eyes and a face full of disbelief.

"How is this possible!" Tian Jue Ghost King couldn't believe his own eyes, feeling as if he had encountered something incredible.

Yang Chen was equally shocked, not knowing how he managed to escape.

Although he had just managed to escape with Tian Jue Ghost King's carelessness, it was still something he couldn't have done before.

Thinking back now, Yang Chen was amazed. He only felt that in that instant, his emotions had triggered the Ten Thousand Law Dao Embryo, and it actually played with his Space-Time Law. This made his control over spacetime rise to a new level.

This improvement wasn't because his Space-Time Dao Intent had gained some insights, but a very straightforward enhancement.

It was precisely this enhancement that allowed him to escape from the grasp of Tian Jue Ghost King.

Moreover, the most crucial point was that this improvement still existed now!

"The enhancement of my Space-Time Dao Intent by the Ten Thousand Law Dao Embryo is still here, but it seems to be temporary. It can only last for less than the time it takes for a cup of tea!" Yang Chen muttered to himself.

A cup of tea's time?

This was already extremely precious for him.

Yang Chen sped up and flew away like a whirlwind, his speed much faster compared to before.

Seeing his speed, Tian Jue Ghost King stared with an icy glare, "This kid..."

Yang Chen had clearly reached his limit, which he could tell by his emotions. However, he didn't expect that Yang Chen would somehow improve within a short period of time.

With his Space-Time speed raised to a higher level, the difficulty for Tian Jue Ghost King to catch up increased suddenly.

"Kid, do you think just because your Space-Time Dao Intent has improved, you can escape?" Tian Jue Ghost King was finally angered.

He had always regarded Yang Chen as prey, and the facts proved it. But what he didn't expect was that Yang Chen was much more tenacious than he had imagined, and even managed to escape from his grasp.

If other Ghost Kings of the same level found out that he, a mighty expert of the Destiny Realm, had taken so long to capture a mere Realmless individual, they would surely laugh at him.

In a burst of anger, Tian Jue Ghost King's speed surged again, like a fierce storm, relentlessly chasing after Yang Chen.

His speed was inarguably fast. However, compared to Yang Chen's current peak speed, it was still lacking.

Nevertheless, Tian Jue Ghost King's speed had not yet reached its limit. After a slight change in his laws, his speed increased once more. But the terrifying speed made Tian Jue Ghost King look pale, showing that although his speed had reached its peak, it had a severe burden on his body.

In this manner!

Now, the two chased after each other, one in front and one behind. During the chase, the distance between them would sometimes close then widen, a perfect description of the intensity.

After a cup of tea's time, the chase continued, and both Tian Jue Ghost King and Yang Chen's hearts were filled with boundless anxiety.

Yang Chen was anxious because the time for the speed to last for a cup of tea was almost over.

Tian Jue Ghost King was also anxious. He had used a forbidden technique to increase his speed earlier, and now his time was nearly up as well!

Chapter 3036 Five Elements Turn Heaven Palm\_1

While Yang Chen and Sky Annihilation Ghost King were in a desperate chase, not far away and within the sight of both of them, a group of people were flying towards the increasingly larger Taicang Starfield nearby.

Leading this group were the Spirit King and the hunchbacked elder Jin Lao.

Jin Lao, at the forefront, held his crutches, looking around the vicinity of the Taicang Starfield with an austere expression. He stroked his beard as he spoke, "According to you, Spirit King, it seems that the Lingnan Two Realms is somewhere nearby."

"Yes, the Lingnan Two Realms is not far from this Taicang Starfield," Spirit King replied truthfully.

"If that's the case, why don't we rest a little in this Taicang Starfield? We're almost there, so we don't need to rush. Some interesting things were found in the Taicang Starfield just now," a king-level powerhouse laughed heartily.

Jin Lao frowned, "Wind Rider, you're making a fuss over just two or three full, uninhabited stars. Those stars might be of great use to the powerhouses in this starfield. Are you really going to absorb and devour them recklessly?"

Having guessed his intentions with just one glance, Wind Rider chuckled, "Jin Lao, as you know, my Emperor Divine Tool has been damaged for tens of thousands of years because I couldn't find stars with compatible attributes to repair it. You wouldn't let me absorb the life-filled stars, and now that I've finally found one that's uninhabited, surely I can use it."

Jin Lao's expression darkened, but then he sighed and shook his head, "Fine, let's rest for a few days in this Taicang Starfield."

Displeasure appeared on Spirit King's face. With urgent matters in the Extreme Yin Land, they could not afford to be delayed for any length of time. Now that they had arrived at the Taicang Starfield, they could head directly to Lingnan Two Realms. However, the group insisted on staying put.

Feeling frustrated, the Spirit King couldn't simply speak his mind. Frowning, he followed the rest of the group as they landed slowly in the Taicang Starfield.

...

At the same time, Yang Chen's frantic state caused the Ten Thousand Law Dao Embryo's enhancement of the Space-Time Dao Intent to gradually slow down.

Yang Chen had no idea how the Ten Thousand Law Dao Embryo was able to enhance his Space-Time Dao Intent. But as he thought, after a cup of tea's worth of time, his Space-Time Dao Intent returned to its original state.

Meanwhile, the Ten Thousand Law Dao Embryo closed its eyes tightly and fell into a deep, unresponsive slumber. The golden light protected him, and the inscriptions hovered around, motionless.

Regardless of how Yang Chen tried to communicate or use the same emotional tactics as before, it was all fruitless.

Yang Chen was frantic, as his speed had dropped significantly.

The only good news was that, in his haste to chase after Yang Chen, the Sky Annihilation Ghost King had used some forbidden techniques. Like Yang Chen, he managed to sustain his technique for about a cup of tea's worth of time before being exposed.

Moreover, his speed had decreased even more after using the forbidden technique.

Nevertheless, the Sky Annihilation Ghost King was still much faster than Yang Chen.

With Yang Chen already exhausted and the use of Space-Time Dao Intent approaching its limit, it was only a matter of time before he would be caught by the Sky Annihilation Ghost King if this game of cat and mouse continued.

Yang Chen had no idea that the Sky Annihilation Ghost King was utterly enraged by now.

He had never wanted to kill such an insignificant Realmless little guy so much in his life, yet it proved impossible for him, a powerful expert of the Destiny Realm, to kill right now!

He was infuriated as he chased after Yang Chen, however, his anger quickly turned into a cold sneer.

It turned out that Yang Chen's speed, like his own, was due to some unique means.

The current Yang Chen's speed had slowed significantly and was nowhere near as fast as he had been before!

Although both of their speeds had slowed considerably, returning to their original states, it was apparent that the Sky Annihilation Ghost King still had the advantage.

Considering this, the Sky Annihilation Ghost King gradually regained some confidence. It was only a matter of time before Yang Chen would be caught if things continued like this.

As expected, the gap in their speed began to close steadily.

Yang Chen, sensing the urgency of the situation, clenched his fists and grew increasingly anxious.

He didn't know what would happen next, but the distance between him and the Sky Annihilation Ghost King was undoubtedly getting closer.

As the distance between them dwindled, Yang Chen could sense the Sky Annihilation Ghost King's Qi.

"Yang Chen, this is the end," the Sky Annihilation Ghost King sneered. "It seems you can't use your Space-Time speed like before, can you?"

As he spoke, the Sky Annihilation Ghost King's ghost face roared, and one of his hands transformed into a massive Blood Claw, covering Yang Chen's body within the Universe Starry Sky.

Seeing the Blood Claw enveloping him, Yang Chen wouldn't give up easily. Determined, he unleashed his own techniques.

"Five Elements Sky-turning Finger, Fire, Gold, Wood!"

As he spoke, all three fingers came together, supporting the colossal Blood Claw.

But in the blink of an eye, his Laws seemed to have been shattered by the Blood Claw, vanishing into thin air.

Refusing to give up, Yang Chen swung his hand once more, using his strongest technique, which had never been used even against king-level powerhouses before.

"Five Elements Turn Heaven Palm!"

Unlike the Five Elements Sky-turning Finger, the Five Elements Turn Heaven Palm used all five fingers at once. With Gold, Wood, Water, Fire, and Earth combined, it suppressed and transformed into a palm, the power of which far exceeded that of the previous technique and reached an unprecedented height.

This was Yang Chen's most powerful trump card, fully deployed with no reservations.

As soon as he unleashed the Five Elements Turn Heaven Palm, the Sky Annihilation Ghost King was slightly surprised, "Is this another Strongest Dao Intent? The Five Elements? This is not an ordinary Five Elements, but rather, it connects the Five Elements together. Not even the regular Five Elements could achieve this; it's truly the Strongest Dao Intent of the Five Elements..."

Thinking of this, the Sky Annihilation Ghost King trembled inwardly, astonished.

How many kinds of the Strongest Dao Intent did this guy have?

If an ordinary person had even one, they would be unmatched. But this guy was using one Strongest Dao Intent after another!

However, the Sky Annihilation Ghost King quickly snorted with disdain.

What did the Strongest Dao Intent matter when there was such a gap in strength? With just one claw, slightly increasing his power, the Sky Annihilation Ghost King heard a boom.

Yang Chen's Five Elements Turn Heaven Palm collided with the Blood Claw, holding out briefly for three breaths.

After three breaths, Yang Chen's Five Elements Turn Heaven Palm was instantly torn apart by the Blood Claw.

Seeing this, Yang Chen's breath suddenly caught in his throat.

This was it - it was all over!

Chapter 3037 Heavenly Dao Shackles, Heaven-appointed Realm\_1

The Five Elements Sky-turning Palm was powerful, but it wasn't powerful enough to bridge the gap in strength and break the Sky Annihilation Ghost King's attack with just one strike.

Being able to withstand three breaths was much stronger than having been defeated instantly by a single finger.

"If it were an ordinary Heavenly Fate Realm Expert, I might have a chance to fight, but unfortunately, the strength of the Sky Annihilation Ghost King is probably stronger than that of an ordinary Heavenly Fate Realm. Is this where my journey ends?" Yang Chen stared upward.

Staring at the blood claws coming at him, he had already exhausted all his strength and had no means to resist!

Just as he was about to be captured alive, Yang Chen gritted his teeth, drew out the Slaughter God Spear, and his eyes were filled with determination.

"Slaughter God Spear, kill me. I, Yang Chen, would rather die in battle than be captured alive!" Yang Chen's voice was low and angry.

The Slaughter God Spear shook, feeling Yang Chen's determination. To make such a decision at this moment showed just how resolute Yang Chen's heart was.

It had no reason to refuse!

However, just as things were getting critical, a ray of rosy light suddenly came from the distance, illuminating the dark night sky.

In just a short while, a golden bell shot through the void and fiercely struck the blood claws.

To Yang Chen, these originally unbreakable blood claws seemed extremely brittle in the face of the golden bell and were smashed into pulp on the spot, dissipating into Laws and returning to the Sky Annihilation Ghost King's body.

The Sky Annihilation Ghost King stood far away, watching all this happen but unwilling to give up. He immediately launched another claw attack.

The blood claw raged, ignoring the golden bell, attempting to capture Yang Chen alive.

Yang Chen's eyes widened in shock, not knowing what had happened. He just watched as the golden bell and the blood claws clashed.

With the clanging sound continuing, the golden bell and blood claws seemed to be enjoying their battle. However, in just a short time, the golden bell clearly gained the upper hand, suppressing the blood claws and smashing them into the Law state once again.

"Hmph, Gold Leisure True Person. I sensed your arrival earlier, and you were indeed very timely," the Sky Annihilation Ghost King said with anger in his voice.

Yang Chen didn't know who this Gold Leisure True Person was, but he knew that after the golden bell broke the blood claws, it suddenly swayed and went in the distance.

Then, amidst the golden light, an old man with a humpback leaning on crutches appeared.

Standing beside him was none other than the Spirit King.

Following behind these two were dozens of people, both large and small – King-level Powerhouses and Boundless Stage Experts. Their combined combat power was astonishing.

As soon as Yang Chen saw them, he realized that he was saved.

It was the people from Grand Abyss Palace who had arrived.

"Yang Chen, are you alright?" The Spirit King asked with concern.

"Thank you, Spirit King, and all the seniors for saving my life." Yang Chen glanced around, seeing that many of them were King-level Experts. After they saved his life, his attitude was very respectful.

However, these King-level experts obviously had a general attitude towards Yang Chen, only giving him a brief look without paying much attention.

Some merely nodded their heads slightly, while others didn't even bother to look at him.

As for the person called Gold Leisure True Person by the Sky Annihilation Ghost King, Jin Lao, he stood quietly with his hands behind his back, glancing at Yang Chen and then focusing his gaze on the Sky Annihilation Ghost King.

The moment their eyes met, the tension between them was palpable.

With his hands behind his back, Jin Yi spoke coldly, "Old Man, if I hadn't come, wouldn't you have allowed the Sky Annihilation Ghost King to succeed?"

The Sky Annihilation Ghost King replied coldly, "What? Gold Leisure True Person, as a True Person of the Grand Abyss Palace, don't you think you're meddling too much? This king wants to kill a little Realmless kid, and you want to interfere? Even if this matter reaches the Enforcement Palace of the Grand Abyss Palace, this king should not be in the wrong, right?"

Jin Yi's eyes flickered, unable to deny Sky Annihilation Ghost King's words.

He had previously promised his subordinates that he would go to Taicang Starfield to take a break. However, sensing the disturbance here, he changed his mind.

Normally, if the Sky Annihilation Ghost King killed someone, Jin Yi really wouldn't have the right to interfere in such grudges.

But today, he had to intervene: "Sky Annihilation Ghost King, stop pretending. You know very well what the Netherworld has done. I came here today to enforce the law. Sky Annihilation Ghost King, you are a powerful figure in the Netherworld. Go back and tell your King of Hell to restrain himself. Just because Grand Abyss Palace doesn't take action against the Netherworld doesn't mean they are afraid of the Netherworld. If you are sensible, stay out of trouble."

The Sky Annihilation Ghost King sneered, "So, you want to protect this Yang Chen today?"

Gold Leisure True Person's expression remained unchanged, "Old Man, I want to protect the entire Lingnan Two Realms! Sky Annihilation Ghost King, you should be a wise man too. Give up early and don't waste your efforts in doing pointless things. If possible, I don't want to end up with both of us getting hurt!"

"Hahahaha!"

Hearing this, the Sky Annihilation Ghost King burst into a mad laughter.

"I say Gold Leisure True Person, aren't you too arrogant? Do you really think that I don't care about you because I'm afraid of you? Let me tell you, today, this Yang surnamed kid, it's useless for whoever comes. This king will definitely kill him!" Sky Annihilation Ghost King said coldly.

Yang Chen shuddered at this, as the Sky Annihilation Ghost King's audacity was staggering.

Putting aside anything else, Gold Leisure True Person was clearly a strong expert of the Destiny Realm, and together with the Spirit King, there were two strong Destiny Realm experts, along with a large number of King-level experts. Yet against them, Sky Annihilation Ghost King still dared to challenge them head-on?

Gold Leisure True Person also broke out in a cold sweat. He didn't want to fight the Sky Annihilation Ghost King, but the Ghost King pushed him to the point where he was furious.

"Sky Annihilation Ghost King, it seems that you don't appreciate kindness until you suffer. You're courting death!" Jin Lao shouted loudly.

However, the Sky Annihilation Ghost King only sneered and didn't speak. He tore through the void with another blood claw, aiming it at Gold Leisure True Person.

Gold Leisure True Person also had formidable skills. He struck the golden bell on the spot, and as an Emperor Divine Tool, it clashed with the blood claw of the Sky Annihilation Ghost King. In the collision, Jin Yi's golden bell clearly had the upper hand.

However, in the next moment, the Sky Annihilation Ghost King went through a Law Transformation, and countless blood claws emerged from the void.

In the ensuing clash, Gold Leisure True Person appeared to struggle a little.

"Hmph, do you think you're the only one who has Rule Power?" Gold Leisure True Person stomped his foot, and his own Rule Power was also unleashed.

As Yang Chen watched the battle from the sidelines, his heart was pounding in fear.

If it had been in the past with his current realm, watching the battle between these Heavenly Fate Realm experts would not have revealed much. However, now, he could see that every move of the Heavenly Fate Realm experts was terrifying.

When compared to the Five Elements Sky-turning Finger attack that he had used earlier against the Sky Annihilation Ghost King, the difference was apparent.

His Five Elements Sky-turning Finger was still within the Heavenly Dao trouble.

On the other hand, the Sky Annihilation Ghost King's attack had already transcended the constraints of the Heavenly Dao and reached a higher dimension!

#### Chapter 3038 Death Omen Scripture Helps\_1

Take the King-level Heavenly Departure Realm, for instance. They have indeed comprehended a complete Law Path. But in the end, most of the Sky Separation Realm Experts are still within the category of Heavenly Dao.

As long as they are within the Heavenly Dao category, Yang Chen has the power to fight. This is why he can resist and even defeat Sky Separation Realm Experts.

However, once they break free from the Heavenly Dao category, it would become more difficult for Yang Chen to cope.

For example, those who have reached the Half-step Heavenly Fate Realm are already beginning to try to break free from the Heavenly Dao category. Once they reach this level, it is impossible for Yang Chen to contend with them.

Jin Lao, the hunchbacked old man, and Sky Annihilation Ghost King, are both at the level of the Heaven-appointed Realm.

Now that the two sides have made their move, the entire Universe Starry Sky is filled with Rule Power, shocking and appalling.

"Stand back a little. With your strength, if you're not careful while watching the battle between Heavenly Fate Realm Experts, you could lose your life here." The Wind Riding King, who was originally planning to absorb the power of the stars next to Spirit King, looked at Yang Chen displeasably.

Keep in mind that if it weren't for Yang Chen's actions, those stars would have been absorbed by him by now.

Because of the other party, his absorption of the stars had to be halted.

Wind Riding King looked at Yang Chen as if he were a country bumpkin, scolding him directly.

Yang Chen frowned, seeing that Wind Riding King seemed to be targeting him but didn't say much. He stood back a little further.

With his Space-Time Dao Intent, he quickly blinked several times and arrived in the distance in an instant.

At that point, looking back at the battle between Jin Lao and the Sky Annihilation Ghost King, it was too close to call, extremely tense. However, Yang Chen's expression soon turned serious.

Now it seems that in the battle between Jin Lao and the Sky Annihilation Ghost King, Jin Lao appears to be at a great disadvantage.

As part of the Heavenly Fate Realm Experts, their strength naturally varies, and judging from the current battle between Jin Lao and the Sky Annihilation Ghost King, there is a considerable gap in their strength. The former is actually being suppressed by the latter and is unable to get up.

Jin Lao was also terrified, never expecting the Sky Annihilation Ghost King to be so powerful.

Yang Chen watched in a daze, unable to deny that, with his current realm, it was a bit difficult to understand the strength level between the Heavenly Fate Realm Experts.

Now that the situation has come to this, seeing Gold Leisure True Person unable to defeat the enemy, Spirit King had no choice but to step in and intervene.

"Gold Leisure True Person, let me give you a helping hand!" Spirit King shouted.

Gold Leisure True Person's face turned red, feeling embarrassed to ask others for help since they had failed to win. But at this point, he had to put his pride aside. Fighting one-on-one with the Sky Annihilation Ghost King was putting a lot of pressure on him.

With a sarcastic laugh, the Sky Annihilation Ghost King said, "Gold Leisure True Person, you guys can join forces. Hehe, after all, if I kill you in this faraway star domain, no one would know that I did it..."

"Heavenly Extinction, you have some nerve!" Gold Leisure True Person bellowed in anger.

The other King-level Powerhouses also came forward to intervene one after another. However, they didn't dare to venture into the Inner Area Battlefield and only dared to interfere a little on the Periphery.

Yang Chen stood at a distance, watching the battle without any surprise or movement, unsure of the outcome of this battle.

At this point, watching the battle proved to be a deadlock. Although Yang Chen couldn't see the specific details, he could see the serious expressions on the faces of Spirit King and Gold Leisure True Person.

"It seems there's still some pressure for Gold Leisure True Person, teamed up with Spirit King, to contend with Sky Annihilation Ghost King?" Yang Chen's scalp tingled for a moment, feeling deeply shocked.

The strength of the Sky Annihilation Ghost King was so incredible that he did not even fall under the wind when fighting two Heavenly Fate Realm Experts at the same time?

"Ah!"

At this moment, a scream rang out.

Yang Chen looked up and saw that it was a Heaven-separated Realm King-level Expert who screamed, and then his body was directly turned into a bloody mist under the Blood Claws, dying on the spot.

"Not good, all of you stay away and don't get involved in this battle recklessly." Jin Yi shouted angrily.

He wanted these people to get involved, but now it seemed that Sky Separation Realm Experts getting involved recklessly was just seeking death.

The expressions of the Wind Riding King and the others were filled with fear, and they didn't dare to get any closer. They quickly retreated, their faces full of panic.

As these King-level Powerhouses retreated quickly to ensure their safety, it also instantly increased the pressure on Gold Leisure True Person and Spirit King.

"Hahaha, Gold Leisure True Person, you should have let them join you. It might have delayed your death a bit. Wanting to save their lives is just bringing forward your own demise." The Sky Annihilation Ghost King sneered.

The expressions of the Wind Riding King and Spirit King were filled with seriousness and tension.

They knew that the words of the Sky Annihilation Ghost King were not baseless - the latter indeed had the strength to achieve such a level.

However, the two of them had not yet used their full strength and were not willing to admit defeat so easily. They brought out their trump cards one after another.

In an instant, the three were locked in a fierce battle, with as many as four Emperor Divine Tools being displayed. Various laws filled the battlefield, which was about the size of a big or small Star Domain Interface.

The array shocked Yang Chen, who realized that the battle between Heavenly Fate Realm Experts could only take place in the Universe Starry Sky. Otherwise, if it were carried out within the Interface, it would easily destroy the Lingnan Two Realms in just an instant.

Existences at this level could even destroy the stars!

Yang Chen watched in horror, feeling more and more worried.

Spirit King and Gold Leisure True Person were still slightly inferior when contending with the Sky Annihilation Ghost King. Although they were not on the verge of losing right away, their odds of winning seemed much lower than those of the Sky Annihilation Ghost King.

Meanwhile, the King-level Powerhouses didn't dare to intervene deeply to help, which led Yang Chen to change his mind and come up with an idea.

"Death Omen Scripture... I've rarely used it since I entered the Realmless." Yang Chen muttered to himself.

In fact, after entering the Realmless, the power of the Death Omen Scripture would be greatly enhanced, and it would have a particularly good targeting effect on Netherworld Ghosts.

However, due to the loss of the Tribulation Divine Body's assistance, using the Death Omen Scripture alone has become very difficult for him. Without a specific environment, this powerful scripture would be of no use.

But now, with the Sky Annihilation Ghost King so far away and being held up by Gold Leisure True Person and Spirit King, he wasn't unable to use the scripture.

Although he doesn't expect the Death Omen Scripture to be able to solve the Sky Annihilation Ghost King, even a slight help in the battle between the Powerful Ones would be enough.

Yang Chen stopped hesitating and immediately took out the Heaven Scourge Ancient Qin, and started playing!

The Death Omen Scripture completely pulled its curtain open!

The sound quickly spread, and the Wind Riding King frowned slightly, whispering, "What is this kid doing? Is he seeking death by interfering in the battle between the Heavenly Fate Realm Experts?"

Keep in mind that even they, the Sky Separation Realm Experts, didn't dare to get close!

Chapter 3039 The Law of Sound\_1

Wind Riding King had no good feelings towards Yang Chen to begin with, and now that he ordered Yang Chen to retreat, he ended up not being able to get involved in the ensuing events, which damaged his pride.

Now that Yang Chen even dared to meddle in these matters, he was even more enraged. However, he did not stop him. If Yang Chen wanted to court death, he'd let him go ahead.

What he had forgotten was that Yang Chen had managed to escape from Sky Annihilation Ghost King's hands until they intervened. If they were in his situation, who among them would have been able to do the same?

Yang Chen started the Death Omen Scripture now, having calculated all the various processes beforehand.

From Emperor Divine Punishment Ancient Zither combined with the Death Omen Scripture, an unusual melody emerged which spread in all four directions on the spot.

Wind Riding King was slightly startled at first, sensing the unusual nature of the melody. Soon after, his gaze was drawn to Yang Chen's Emperor Divine Punishment Ancient Zither and a greedy expression appeared on his face.

However, Yang Chen's expression remained unchanged, as he continued to support and execute the Death Omen Scripture.

Sky Annihilation Ghost King and his companions naturally heard Yang Chen's Death Omen Scripture. However, Sky Annihilation Ghost King didn't take it seriously at all. At first, it seemed that the scripture would hardly have any effect on him, so he pushed it aside and ignored it completely.

He knew that he could slap powerful Heaven-separated Realm experts to death, so why would he even care about an insignificant Realmless attack?

As for Gold Leisure True Person and Spirit King, they also noticed Yang Chen's sound wave attack, but subconsciously, they all felt that Yang Chen was meddling in something useless.

However, no one could have imagined that when Yang Chen's Death Omen Scripture reached its climax, its power would gradually increase.

Gradually, Sky Annihilation Ghost King suddenly felt his mind disturbed, feeling that his body was being controlled to some extent, never as agile as before.

Although he could still control it without any problems, it was clearly not as easy to use as in his heyday.

For powerful people like him, even subtle changes could be easily detected.

"Damn it, it's that Yang kid!" Sky Annihilation Ghost King carefully observed the details and quickly realized that it was due to Yang Chen's tactics.

"Was it that melody just now?"

The more Sky Annihilation Ghost King listened to it, the more uncomfortable he felt.

This sense of discomfort was not enough to be fatal, nor was it enough to have a significant effect on him. However, when fighting against two Heaven-appointed Realm experts, even a subtle effect could be sufficient to put him in an extremely dangerous position.

"Get lost!" Sky Annihilation Ghost King stopped dealing with Gold Leisure True Person and Spirit King and attempted to kill Yang Chen.

However, Gold Leisure True Person and Spirit King had now noticed the anomaly with Sky Annihilation Ghost King and were surprised by the frightening effect of Yang Chen's tactics. Moreover, against all odds, it had indeed affected Sky Annihilation Ghost King.

While they were surprised, they naturally didn't let Sky Annihilation Ghost King attack Yang Chen. If Yang Chen really collapsed, then the slight advantage they had gained in the battle would vanish instantly!

"Come back." Gold Leisure True Person executed his tactics and together with Spirit King, surrounded Sky Annihilation Ghost King both front and back.

"Keep an eye on this young friend surnamed Yang!" Gold Leisure True Person quickly shouted.

Several King-level powerhouses were dumbstruck, unable to believe their own eyes. Not only did Yang Chen's tactics have a subtle effect on the powerful experts of the Destiny Realm but it also genuinely helped them gain an advantage.

Wind Riding King felt embarrassed, thinking that just now he had reprimanded Yang Chen, saying that he didn't even have the qualifications to watch the battle between Heaven-appointed Realm experts.

Now that Yang Chen had not only provided help, but he also had to protect Yang Chen!

Although Wind Riding King was unwilling, he had to obey Gold Leisure True Person's orders. Furthermore, the battle situation was rapidly changing, leaving no room for him to ponder. He could only join a team of powerful experts to protect Yang Chen's vicinity.

Yang Chen was now playing the Heaven Scourge Ancient Qin and Death Omen Scripture, creating an astonishing and lingering melody.

If ordinary Sky-separating Realm experts were touched by it, it would be difficult for them to remain calm and unaffected. However, Sky Annihilation Ghost King still maintained extreme clarity, despite his powerful strength and ghostly body.

Yang Chen frowned secretly. His Death Omen Scripture was about to end. If it didn't achieve its intended effect, the second time he played it, it would be even more exhausting on his soul.

As he pondered, Yang Chen's expression became more serious.

The first Death Omen Scripture ended quickly, and Yang Chen had no choice but to play the second one.

However, the effects of the two melodies weren't much different. Since the first one had only a subtle effect, the second one would be equally insignificant.

If that was the case, it would be difficult for Spirit King and Gold Leisure True Person to take advantage of the situation and defeat their opponent.

Yang Chen knew that he had to use his true tactics.

"All of them, all in!" Yang Chen gritted his teeth, and in an instant, more than 40,000 Dao Intent Inscriptions were all displayed.

When the Dao Intent Inscriptions appeared, Yang Chen integrated all his power into the Death Omen Scripture, unleashing rolling sound waves. However, the consumption of his soul became more significant as a result.

This was the last piece, success or failure; he had to make it work!

With his current Divine Soul Realm, he couldn't sustain the use of too many Death Omen Scriptures.

When Yang Chen's 40,000 Dao Intent Inscriptions emerged, the surrounding King-level powerhouses were all stunned, speechless.

After a while, a King-level powerhouse finally exclaimed in astonishment, "Could this person be the Yang Chen mentioned on the Great Luo Celestial Stele?"

"40,000 Dao Intent Inscriptions, there's no doubt about it. It matches the number of inscriptions mentioned on the Great Luo Celestial Stele!"

"Is he really the Yang Chen mentioned on the Great Luo Celestial Stele?"

At the same time, Gold Leisure True Person not far away also noticed these inscriptions. However, despite being fully focused on fighting his opponent, he didn't reveal any emotions when he noticed them.

Nevertheless, his heart had already been set ablaze by waves of shock.

Only Yang Chen was confused. He knew about the Great Luo Celestial Stele, but when these people talked about it, he still found it extremely strange. In a blink of an eye, these people seemed to claim they knew him, which really puzzled him.

At present, his Death Omen Scripture under the influence of various Dao Intent Inscriptions indeed had an effect.

However, the effect was still not very helpful, and there was a considerable distance between Spirit King and Gold Leisure True Person exploiting Sky Annihilation Ghost King's weaknesses to defeat him.

For a time, Yang Chen frowned but quickly thought of something.

"It seems that I'll have to use the King of Joyful Sound's law, which has been sealed within my body for an extended period." Yang Chen murmured to himself.

He and the King of Joyful Sound had merged, both taking advantage of each other.

The King of Joyful Sound's body contained Yang Chen's spacetime and life-and-death essence, and likewise, Yang Chen's body also possessed the King of Joyful Sound's sword and sound rules.

Chapter 3040 Yang Chen on the Great Luo Celestial Stele\_1

The law of the sword had almost no effect on him.

However, the law of sound was different. The help that the law of sound provided to him was mainly applied to the Death Omen Scripture.

It was just that he rarely used these sound laws. Even without them, the effects brought by the Death Omen Scripture and the Heaven Scourge Ancient Qin were enough for him to kill his enemies. Therefore, these valuable sound laws were all saved for last.

But things were different now. Without them, if his Death Omen Scripture wasn't in use, both Jin Yi Zhenren and the Spirit King would likely fall into a disadvantage.

With this thought in mind, Yang Chen immediately unleashed his abilities.

The law of sound, grant me your strength!

All kinds of Dao Intent Inscriptions were added, along with a complete Sound Dao Intent, which made the effect of the Death Omen Scripture reach its limit immediately!

This was not even at its peak state, but with the help of a complete law, the effect of the Death Omen Scripture immediately becomes fundamentally different.

Sky Annihilation Ghost King, who could originally barely deal with the situation, suddenly felt his heart disturbed and was increasingly overwhelmed.

"Surnamed Yang, I'll kill you!" Sky Annihilation Ghost King was now so angry that it seemed like his whole body was burning with fire, only hating that he couldn't tear Yang Chen to pieces.

He initially tried to kill Yang Chen but couldn't. Now, he was in a stable advantage, but it was still ruined by Yang Chen.

If he wasn't fighting with Jin Yi Zhenren and the Spirit King, Yang Chen's methods wouldn't have worked against him. But now, with the slightest distraction, he would lose his life. How could he cope with the giant opponents like a huge ant crawling in his ears?

In his anger, Sky Annihilation Ghost King still wanted to kill Yang Chen.

Unfortunately, Jin Yi Zhenren and the Spirit King were watching closely and would not let him succeed.

"Sky Annihilation Ghost King, today is your death path!" Spirit King shouted angrily.

"Just with the two of you? If it weren't for this kid with the surname Yang supporting you in secret, do you two really think you can beat me? No chance!" Sky Annihilation Ghost King roared out.

However, as his roar fell, Yang Chen's sound wave suddenly reached its peak, increasing its attack power once more, and directly poured into his heart.

The whole body of Sky Annihilation Ghost King stiffened because the moment he was distracted by the Spirit King, Yang Chen took advantage of the gap and caused his heart to momentarily lose its guard, making his body slightly stiff.

When the experts of the Sky Separation Realm fight, a momentary lapse in concentration can be fatal!

Jin Yi Zhenren and the Spirit King were not going to miss this opportunity, and in an instant, they used their trump cards.

Looking at the Universe Starry Sky, a sudden burst of radiance appeared above Sky Annihilation Ghost King. Everyone was clueless about what happened.

All they knew was when they came back to their senses, Sky Annihilation Ghost King had escaped from the radiance, his body was severely damaged, and his breath had greatly plummeted; he no longer exhibited the initial arrogant attitude.

The current Sky Annihilation Ghost King was obviously seriously injured, and for a moment he roared angrily, "Very well, Jin Yi Zhenren, Spirit King, today you might have an advantage. But there's still time in the future!"

When the conversation ended, Sky Annihilation Ghost King suddenly disappeared and entered the void, leaving no trace.

Jin Yi Zhenren was about to catch up, but after careful consideration, both he and the Spirit King were weaker than the Sky Annihilation Ghost King. Chasing him, they would be at a disadvantage if they were separated, so they could only give up reluctantly.

Sky Annihilation Ghost King did not return to the Southern Realm but headed for an unknown direction, apparently knowing that if he went to the Southern Realm, he would be hunted down by Jin Yi Zhenren and Spirit King.

Now that the fierce battle had ended, Jin Yi Zhenren and the Spirit King both took a long breath.

"Yang Chen, this time we really have to thank you. Haha, your support from the sidelines has played a significant role." The Spirit King came over with his hands behind his back, looking at Yang Chen and laughing.

Yang Chen immediately replied respectfully, "Spirit King, you're giving me too much credit. I'm just doing what I can."

"Sometimes, being able to do what one can is enough. Yang Chen, my friend, you really do make everyone take a second look at you. I never thought that the Spirit King's words could be so real, or even a bit underestimated. That you, a genuine genius, could actually be born within the Lingnan Two Realms." At this moment, Jin Yi Zhenren also came forward with a sigh.

Yang Chen was a little bewildered, "Senior, have you met me before?"

"Hahaha, although I haven't seen you before, I've already heard of your fame. You've made quite a name for yourself on the Great Luo Celestial Stele." Jin Yi Zhenren laughed.

The Spirit King saw that Yang Chen still seemed a bit confused and explained with a smile, "Yang Chen, let me explain. This Jin Yi Zhenren is a master from the Grand Abyss Palace. You must have seen some clues earlier."

"Yes, I was overjoyed when I heard the Grand Abyss Palace experts were coming." Yang Chen said softly.

The Spirit King kindly said, "And near the Taiyuan Star, there is a Great Luo Celestial Stele which, although not managed by the Grand Abyss Palace, once there is any change, it will be known to every force in the Ten Thousand Realms. The Great Luo Celestial Stele records the rankings of Dao Intent Inscriptions of all Mahayana Stage experts in the Ten Thousand Realms."

Yang Chen knew about this; Bao Lu had mentioned it to him.

"You have now ranked third on the Great Luo Celestial Stele," said the Spirit King.

At first, he and Jin Yi Zhenren didn't quite believe it and thought that Yang Chen, who was on the Great Luo Celestial Stele, wasn't the same person as Yang Chen from the Lingnan Two Realms.

But now, this Yang Chen was indeed the one from the Great Luo Celestial Stele.

Yang Chen was taken aback, "I ranked third on the Great Luo Celestial Stele?"

He really didn't know about this.

Jin Yi Zhenren smiled and watched Yang Chen's seemingly ignorant appearance, feeling a sense of appreciation in his heart.

Such a genius who knew nothing about the Southern Realm could also compete for a place on the Great Luo Celestial Stele. If this child received more orthodox training, how far would he reach in the future?

It was incalculable.

When Jin Yi Zhenren looked at Yang Chen again, his smile became a little more compassionate, "Yang Chen, my friend, you only need to show your Dao Intent Inscriptions to me once, and I will know."

Although Yang Chen was somewhat unwilling, as it might inevitably reveal himself, since Jin Yi Zhenren had already said so, he, of course, couldn't say otherwise. He revealed all of the more than 40,000 Dao Intent Inscriptions he had.

More than 40,000 Dao Intent Inscriptions, which instantly left everyone breathless.

Among them, the Inscriptions of the Strongest Dao Intent were especially eye-catching.

"Is this... the Strongest Dao Intent?"
