

Supreme MK 3041

Chapter 3041 Returning to the Southern Realm_1

The strongest Dao Intent in various Dao Intent Inscriptions appeared incomparably dazzling, making it impossible for people to ignore.

Paired with Yang Chen's 40,000 Dao Intent Inscriptions, the shock it had brought was enough to make people unable to stand firm. And what was even more shocking was that Yang Chen's strongest Dao Intent was not just one.

It wasn't shown before, but when it was revealed now, there were as many as three of the strongest Dao Intents.

"So many strongest Dao Intents..."

"Three of them, I can only recognize the Five Elements. As for the other two, I temporarily can't identify them."

"This is too terrifying."

Yang Chen saw that these powerful people had recognized all his strongest Dao Intents, and his expression was somewhat flustered. At first, he really hadn't thought that much about it because Gold Leisure True Person asked him to reveal his Dao Intent Inscriptions, and not doing so was not an option.

Moreover, he had not concealed his strongest Dao Intent for a long time because his strength was no longer the weak Yang Chen of that time.

But now, being watched by so many Sky-separating Realm experts, this strongest Dao Intent was still a bit too eye-catching.

Seemingly having noticed this, Gold Leisure True Person waved his sleeve: "Yang Chen, my friend, you can take it back."

Yang Chen immediately withdrew the Dao Intent Inscriptions, and the shock on the scene was finally slightly calmed.

"Today's matter regarding Brother Yang Chen's Dao Intent Inscriptions can be said, but as for these three strongest Dao Intents, everyone should not spread the word." Gold Leisure True Person calmly said with his hands behind his back.

All King-level powerhouses here responded, "Yes, Jin Lao."

Yang Chen looked at Gold Leisure True Person with a few more grateful feelings, knowing that he was helping him. If the news of his three strongest Dao Intents were to spread, he couldn't even imagine the storm it would cause.

Just looking at the greedy eyes of these King-level powerhouses was actually enough to analyze the situation.

With his hands behind his back, Gold Leisure True Person smiled: "Brother Yang Chen, you can probably guess some things now. Your Dao Intent Inscriptions have more than 40,000, already having the qualifications to compete for the Great Luo Celestial Stele. It's just that you didn't know about it. Speaking of which, Grand Abyss Palace has always been open to outstanding talents. Brother Yang Chen, do you want to go to Grand Abyss Palace together with me this time? If so, when I return, I can give you a ride."

Upon hearing Gold Leisure True Person's invitation, Yang Chen shouldn't have refused. After all, he didn't have a reason to refuse.

But after thinking about it, he still shook his head in his heart.

Firstly, he had to help Gold Claw find Tianyuan Star, and secondly, the way these King-level experts looked at him had changed greatly from the beginning. Going to Grand Abyss Palace so abruptly might not necessarily be a good thing.

After going through it in his mind, Yang Chen eventually asked: "May I ask Senior, are the Tianyuan Star and the way to Grand Abyss Palace on the same route?"

"Not the same route. These two places are very far apart. Brother Yang Chen, do you want to go to Tianyuan Star?" Gold Leisure True Person asked with astonishment.

"That's exactly what I want." Yang Chen answered truthfully.

"The True Dragon of Tianyuan Star has always been very repulsive to foreigners. Brother Yang Chen, what are you going to do there?" Gold Leisure True Person asked in confusion.

Yang Chen was slightly speechless, then answered: "Junior has some personal matters to attend to."

Seeing as Yang Chen didn't want to share more, Gold Leisure True Person didn't ask any more questions, and could only say: "That's really a pity. Since Brother Yang Chen wants to go to Tianyuan Star, then we can only take separate paths. However, if you want to go to Grand Abyss Palace in the future, you can come by just by mentioning my name."

"Junior will definitely." Yang Chen immediately thanked him.

The Spirit King, curious for a moment, asked: "Yang Chen, how did you end up being hunted by the Sky Annihilation Ghost King?"

Yang Chen explained the ins and outs of the matter and said: "The Sky Annihilation Ghost King appeared out of nowhere and chased me all the way from the Lingnan Two Realms to this Universe Starry Sky Space. If I hadn't had some special means, I would have died at the hands of the Sky Annihilation Ghost King by now. Currently, in the Southern Realm, humans and the Ghost Kings of the Extreme Yin Land are at an impasse. I hope that all seniors can help out and resolve the current situation."

After finishing the talk, a group of King-level powerhouses couldn't help but wonder: "This Lingnan Two Realms is still some distance away from here, right?"

"How did you manage to escape from the hands of the Sky Annihilation Ghost King and get here?"

These King-level powerhouses looked at each other, feeling that Yang Chen seemed to be lying. However, even if he was lying, running to this place was a real fact.

Gold Leisure True Person also looked deeply at Yang Chen, sensing his extraordinariness. However, unlike the other King-level powerhouses, he did not examine this matter further and said: "Brother Yang Chen, rest assured, we came here to resolve the situation in Lingnan Two Realms. If the Sky Annihilation Ghost King were here, there wouldn't have been any room for struggle for the Extreme Yin Land. Now that the Sky Annihilation Ghost King has escaped, we, the Grand Abyss Palace, will settle the situation for Lingnan Two Realms."

Hearing this, Yang Chen was overjoyed: "Thank you very much, Senior Jin Yi."

"No need for thanks. Since this is the case, let's go." Gold Leisure True Person waved his sleeve and led the way.

The group of people followed him closely, heading straight for the Lingnan Two Realms.

The further they went, the more incredible these Sky-separating Realm experts found the situation.

Because returning to Lingnan Two Realms still had a significant distance to go. To easily cross this distance was indeed not a simple matter.

At least, for these Sky-separating Realm experts, there was no slightest assurance that they could escape from the hands of the Sky Annihilation Ghost King.

How did Yang Chen manage it?

Little did they know that for Yang Chen, crossing the speed of the Sky-separation Realm Expert was an effortless matter.

In this way, with a group of powerhouses filled with doubts, they arrived in the Southern Realm.

Looking at the ferocious fight below with his soul, Yang Chen could see how fierce the situation was.

Although the Sky Annihilation Ghost King had withdrawn from the battlefield to chase Yang Chen, the battlefield was still in a disadvantageous situation. Firstly, the King of Angry Seas had withdrawn, and secondly, the original King of Joyful Sound and Cloud Highness Dharma King were both absent, one unconscious and the other Yang Chen, who had taken the place of Cloud Highness Dharma King, was still being hunted by the Sky Annihilation Ghost King.

The number of King-level experts was disproportionate, causing the human side in the battle to be frequently disadvantaged.

If the fighting continued this way, they would sooner or later fall into a disadvantage and be defeated.

However, just in such a tense situation, Yang Chen unexpectedly descended from above and swept away with a spear.

In an instant, this spear swept away millions of miles, and all Netherworld Ghosts below the Great Ascension Stage were wiped out!

"It's Yang Chen!" A Ghost King powerhouse suddenly appeared, exclaiming, "Yang Chen, how come it's you, and how did you come back alive? Where's the Sky Annihilation Ghost King?"

On the human side, they also noticed the return of Yang Chen and couldn't help but be startled!

With Yang Chen back, wouldn't that mean that the Sky Annihilation Ghost King had returned as well?

Chapter 3042 Victory Celebration Banquet_1

Both sides had their own thoughts, only Yang Chen appeared to be quite calm and natural.

Because he knew, his return would change the entire situation, overturning everything.

"The Sky Annihilation Ghost King? If I say he's gone, would you believe me?" Yang Chen stood with his hands behind his back, chuckling softly. To make sure everyone could hear him, he purposely raised his voice, infusing it with his True Qi, spreading it like thunder.

In an instant, the entire battlefield heard these words.

The cultivators with different levels of understanding reacted differently.

Some didn't know who Sky Annihilation Ghost King was, while some had an idea, and those Ghost Kings were shocked, feeling a great sense of unease.

"Yang Chen, don't be ridiculous. Ghost King is a powerful figure in the Destiny Realm. How could you possibly handle him?" The Ghost Kings yelled fiercely.

Yang Chen smiled with his hands behind his back: "But, here I am now, safe and sound. It seems that the Sky Annihilation Ghost King you depend on hasn't appeared safely before you, has he?"

Hearing this, the bodies of these Ghost King Experts stiffened, unable to deny Yang Chen's words.

Yang Chen also smiled lightly: "That's right, as you said, the Sky Annihilation Ghost King, being a Heavenly Fate Realm Expert, shouldn't have had any problems with me. But what if I say there are two other Destiny Realm Experts involved? What would you think?"

As soon as he finished speaking, a group of powerful figures appeared from somewhere. The leader of them was none other than Gold Leisure True Person and Spirit King.

Gold Leisure True Person looked around slowly, "When we did not show up earlier, we had already taken a rough estimate of the surroundings. Please improvise later, everyone. There is no Destiny Realm combat power here. Since we have come, we must display the style of Grand Abyss Palace and sweep the battlefield clean with thunderbolt-like power!"

Hearing this, the human King-level powerhouses couldn't help but reveal expressions of surprise and delight.

They understood completely and were completely enlightened.

Yang Chen was chased by the Sky Annihilation Ghost King, but not only was he not killed, he actually attracted the attention of the Grand Abyss Palace's experts.

Now, this group of people was from the Grand Abyss Palace, here to save people.

"It's so great, the experts of the Grand Abyss Palace are here, we are saved!" These human cultivators showed ecstatic expressions.

When they looked at the Ghost Kings from the Extreme Yin Land, they were all in a state of shock: "How... how could this be? How could the experts from the Grand Abyss Palace appear here?"

"I'm afraid it's up to the seniors to handle this matter today. The rampage of the Extreme Yin Land against our Southern Realm is something that I believe all of you have witnessed." Yang Chen said with a slight bow.

"Of course, just leave this matter to us," Gold Leisure True Person said with a smile, hands behind his back, "Everyone, take action!"

As his command fell, the King-level Heavenly Departure Realm experts he had brought with him quickly joined the fray.

Moreover, both Gold Leisure True Person and Spirit King did not remain idle and rushed in on the spot.

The two great Destiny Realm experts made a move, and the situation was naturally changed. For a single plane, one Destiny Realm expert was the pinnacle.

The power of an expert at this level is far beyond the Sky Separating Realm. Whether it's Spirit King or Gold Leisure True Person, with a flick of their sleeves, these so-called Ghost Kings were all caught in the harvest.

"Not good, run, run!"

Seeing the situation was not good, the Ghost Kings directly gave the order to retreat.

As the humans took advantage of their momentum and pursued, they were overjoyed.

And so, this battle, completely suppressed from beginning to end, swept through the Extreme Yin Land with a crushing force. Only a few quick-reacting Ghost Kings managed to escape into the deep pits and return to the Netherworld.

An overwhelming majority of the ghost creatures were completely wiped out. The Extreme Yin Land was thoroughly destroyed with a single flick of Spirit King and Gold Leisure True Person's hand and the entrance opened by the Netherworld was completely sealed off.

From then on, as long as the North and South regions of the Southern Realm were more thorough and meticulous, it would not be easy for the Netherworld to open up another entrance and invade the Southern Realm again.

Thus, a sacred war lasted for over a month!

It was quite normal for a war to last for over a month. Even with the intervention of two Destiny Realm experts, it took many meticulous steps to suppress the entire Extreme Yin Land.

Later sealing the entrance and cleaning up took a lot of time as well.

After the cleanup was over, the North and South regions held a Victory Celebration Banquet.

This Victory Celebration Banquet invited all the top meritorious human experts of both regions, and the lowest cultivation level of the attendees was Great Ascension.

Great Ascension cultivators, at this banquet, appeared to be greatly overshadowed. Because apart from those, there were many Boundless Stage Experts and Sky-separating Realm Experts.

And the most important factor was the experts from the Grand Abyss Palace.

This celebratory banquet was supposedly held to commemorate their achievements, but in fact, it was intended to please the experts from the Grand Abyss Palace. After all, the experts coming from the Grand Abyss Palace were all sophisticated in their cultivation, especially Gold Leisure True Person, who was a Heavenly Fate Realm expert. If one could please him, their future would undoubtedly be brighter.

This also made Gold Leisure True Person the/a focal point of the celebratory banquet, making him the savior in the mouths of the Southern Realm cultivators.

Even Spirit King was slightly overshadowed by Gold Leisure True Person.

Suddenly, there was an uproar.

"It's Yang Chen!"

"Yang Chen has arrived."

As soon as a young man appeared, many powerful experts cast their gazes upon him and greeted Yang Chen when they saw him.

Everyone was well aware of Yang Chen's strength. Most importantly, the arrival of the Grand Abyss Palace was indeed closely related to Yang Chen. So when Yang Chen arrived, many people responded accordingly.

Yang Chen responded to them one by one and was soon invited by a group of King-level experts to join the group.

This made many Boundaryless Stage Experts extremely envious.

The treatment Yang Chen received as a Boundaryless expert was much better than the others.

Of course, it was not Yang Chen's fault. After all, compared to the others, Yang Chen's combat power was indeed much stronger.

Yang Chen sat down and had a pleasant conversation with these King-level experts. However, they did not talk for long before most of the Kings began flocking to Gold Leisure True Person.

For a while, their conversations were all related to the Grand Abyss Palace.

From the sidelines, Yang Chen could see that these experts were all trying to take advantage of this opportunity to enter the Grand Abyss Palace.

Chapter 3043 Preparations for Departure_1

Some powerful ones have already bluntly expressed their intentions, wanting to inquire about the conditions and qualifications to join the Grand Abyss Palace from Gold Leisure True Person.

Seeing a group of people so enthusiastic, Gold Leisure True Person shook his head helplessly. It was not unexpected. After all, countless powerful ones want to join Grand Abyss Palace every year.

But how easy it is to get into Grand Abyss Palace?

It's not that cultivating to reach the Heaven-separated realm would grant entrance to Grand Abyss Palace. There are some necessary conditions before one can join, otherwise, wouldn't the Grand Abyss Palace be overcrowded?

Gold Leisure True Person now calmly said: "My Daoist friends, I understand your feelings. However, entering Grand Abyss Palace is not something that just I alone can decide. At most, I can only be a guide for you. To truly join Grand Abyss Palace, you must go through a comprehensive examination. To put it simply, Grand Abyss Palace only accepts elite cultivators, regardless of your cultivation level. If you are excellent and have outstanding talent, even if you are only in the True God Realm, Grand Abyss Palace will gladly accept you."

Hearing Gold Leisure True Person's words, a group of powerful ones couldn't help but be discouraged. However, since Gold Leisure True Person had already spoken, they obviously couldn't continue discussing this matter.

Just as Gold Leisure True Person's words fell, his gaze turned to Yang Chen.

This made Yang Chen slightly surprised, but since Gold Leisure True Person looked at him, he naturally couldn't be indifferent.

As a senior, Yang Chen immediately stood up and respectfully said, "Thank you, Senior Jin Yi, for your help on the battlefield. Without you, it would have been incredibly difficult for the Southern Realm to pacify this Extreme Yin Land."

Hearing Yang Chen's words, Gold Leisure True Person waved his sleeve gently: "Yang Chen, my friend, you don't need to thank me. You should thank Wen Feng more. My disciple seldom asks me for favors. He hasn't stopped asking my help in this matter, so I came here."

Upon hearing this, Yang Chen was slightly startled. Although what Gold Leisure True Person said was not explicit, the meaning was clearer than ever.

It seemed that Grand Abyss Palace didn't strictly control matters concerning the Netherworld.

After all, from Gold Leisure True Person's attitude, it could be seen that if Wen Feng hadn't asked, it was likely that Gold Leisure True Person wouldn't have come here to take on such an unrewarding task.

Also, if Grand Abyss Palace had a firm stance on this matter, how could the Netherworld be so rampant?

Yang Chen sighed softly in his heart, feeling quite emotional. However, now that the threat to the Lingnan Two Realms had been removed, he would indeed have to thank Wen Feng more in the future.

Speaking of which, he had only recently learned that Wen Feng was Gold Leisure True Person's disciple: "Thank you, Senior Jin Yi. I wonder how Brother Wen Feng is doing?"

"That kid Wen Feng kept mentioning you. He went back to Grand Abyss Palace, and is now preparing to enter the Realmless realm. When I go back this time, I'll help him select some materials and formation devices for advancement. He mentioned a lot about you to me, but I originally thought he was just bragging. Even what Spirit King said, I didn't take seriously. I didn't expect you to be so exceptionally excellent."

At this point, Gold Leisure True Person didn't conceal anything, "Yang Chen, are you really not going back to Grand Abyss Palace with me? If you go with me, I assure you that you will be able to enter Grand Abyss Palace without any issues."

As a recommender, bringing back a genius like Yang Chen would definitely earn him many benefits.

Geniuses on the Great Luo Celestial Stele are not joking matters.

Upon hearing Gold Leisure True Person's words, many king-level powerful ones couldn't help but feel bitterness in their hearts.

They had just inquired and shown goodwill earlier, only to get perfunctory answers from Gold Leisure True Person.

At first, they didn't think it was perfunctory and assumed that joining Grand Abyss Palace was not an easy task. But now, Gold Leisure True Person directly guaranteed that as long as Yang Chen went, he would be able to join.

The words to them just now were obviously perfunctory.

In particular, many old acquaintances from the north and south realms who knew Yang Chen regretted it greatly. Like the Nine Suns King, Heavenly King, and True Mountain King, they had many opportunities to befriend Yang Chen, but they ended up in this predicament due to the present situation.

Although they didn't stand in opposition to Yang Chen, they were in an awkward situation because they didn't befriend him, and it would be too late for them to try now.

Spirit King also gently smiled and said, "Yang Chen, what Gold Leisure True Person said is true. The Grand Abyss Star does, indeed, have a top-notch level of resources. If you can join, it will be a great help to your future. Do not hesitate on this matter."

Seeing Spirit King persuading him, Yang Chen's heart was indeed moved, but in the end, he said, "Thank you for the invitation, Senior Jin Yi. However, I will not go with you this time. After I have dealt with the current matters, I will go to the Grand Abyss Palace, and I will definitely mention your name."

Only then did Gold Leisure True Person feel somewhat relieved, smiling, "That's fine. Well, let's start the Victory Celebration Banquet. I won't linger in the Southern Realm any longer, and I'll leave after it's over!"

It was obvious that besides Yang Chen's affairs, Gold Leisure True Person had no interest in anything else.

Seeing this, a group of powerful ones could only treat Gold Leisure True Person with the utmost respect, hoping that he would stay for a few more days.

Unfortunately, after the end of the Victory Celebration Banquet, Gold Leisure True Person left without any further delay.

Spirit King also left with Gold Leisure True Person.

After Gold Leisure True Person and a group of powerful ones left, Yang Chen became the most sought-after person. His ability to speak a few words in front of Gold Leisure True Person and Spirit King had undoubtedly become the last straw for these powerful ones to climb upward.

Even powerful people who had some grievances with Yang Chen before came to mend their relationship with him. However, they were all politely rejected by Yang Chen.

The current Yang Chen was completely treated as a peer powerhouse by these king-level powerful ones.

However, Yang Chen rejected them all one by one.

He didn't have time to accept the goodwill of these king-level powerful ones. He himself was already prepared to leave the Lingnan Two Realms, intending to head straight to the Tianyuan Star.

After dealing with the matters of the Tianyuan Star, he would head straight to the Taiyuan Star to find Zhang Xuelian.

However, before leaving, he had to plan accordingly.

Before their departure, Spirit King and Gold Leisure True Person told him a few common misconceptions about traveling within the Universe Starry Sky. This made Yang Chen realize that the Universe Starry Sky was not a safe place.

Moreover, the Lingnan Two Realms were quite a distance from the Universe Starry Sky. If one wanted to simply traverse the starry sky, they would struggle. Without adequate planning, even with his Space-Time Dao Intent, it would be difficult for him to guarantee that he wouldn't encounter any unknown situations in the Universe Starry Sky.

And so, Yang Chen stayed in the Southern Realm for half a year.

Chapter 3044 In the Taicang Starfield_1

In this half a year, Yang Chen's cultivation level had faintly shown signs of breakthrough. Although it was still a bit far from the Late Boundaryless Stage, it was already much stronger than the Middle Boundaryless Stage before!

Until this day, a Voice Transmission Talisman arrived.

If it were a Voice Transmission Talisman from other powerful ones, Yang Chen would lose interest after just one glance.

But this Voice Transmission Talisman...

"It's hers..." Yang Chen was filled with mixed emotions.

King of Joyful Sound.

Yang Chen sighed softly, and returned the Voice Transmission Talisman.

After trembling for a moment, the Voice Transmission Talisman was sent back thousands of miles away.

And not long after it was sent back, a woman's figure appeared in front of his mansion.

Yang Chen stood inside the door, feeling the woman's figure outside, and sighed, "Didn't I make it clear on the Voice Transmission Talisman not to come?"

Standing opposite the door was the King of Joyful Sound.

But more precisely, it should be Hua Wanru.

The King of Joyful Sound had long been in deep slumber, and if she were to awaken now, it would naturally be that Hua Wanru had completely taken control of this body. As well as her strength as a Sky Separation Realm Expert.

Listening to Yang Chen's words, Hua Wanru did not speak, her lips slightly parted: "Do you think I can't bear to see you leave?"

"I have no such intention." Yang Chen said.

"But I really can't bear to see you leave." Hua Wanru spoke softly.

"..." Yang Chen was at a loss for words: "What do you want to say?"

"I won't stop you from leaving, but I want to know, where are you going?" Hua Wanru asked, frowning.

Yang Chen did not give a definite answer, but only said faintly, "I'm going to find Zhang Xuelian."

"Do you only have her in your heart?" Hua Wanru bit her lip.

"Yes." Yang Chen's answer was very straightforward.

"Then if I integrate with her and no longer oppose her, would you think of me when you think of her?" Hua Wanru suddenly said out of nowhere.

It was such a sentence that caught Yang Chen off guard, and he exclaimed, "You... What do you mean?"

"Nothing, I just asked casually. Alright, you can go." Hua Wanru came quickly and left quickly as well.

With just a gentle smile, she left like the sound of a bell, no longer entangled with Yang Chen.

This left Yang Chen somewhat indecisive, but leaving was inevitable, so he didn't waste any more words.

Now that his cultivation level was almost stable, it was time to leave the Southern Realm.

Before leaving, Yang Chen returned to the Heaven Lord Pavilion for a glance, looking at his Xuandao Sect disciples.

After showing his face briefly and asking Yun Bietianzun to take care of them a little, Yang Chen left many benefits for Yun Bietianzun and left casually.

Not many people knew about this departure, only a few powerful ones found out about it several days later, knowing that Yang Chen had already left the Southern Realm...

Yang Chen left the Southern Realm, the first stop was the Taicang Starfield.

Back then, when he was chased by the Sky Annihilation Ghost King, he fled towards the Taicang Starfield. However, that day he didn't actually reach this starfield.

As for this starfield, Yang Chen didn't know much about it. It wasn't until the Spirit King mentioned it to him later that he got a lot of news.

There are countless stars distributed in this Universe Starry Sky.

The Ten Thousand Realms were derived from this. However, not every star is the same.

Some star domains will be very small, accommodating only one Sacred District in size, while others will have no people at all and can only be used as resources for the Powerful Ones to absorb and refine.

And there are stars, like Taiyuan Star, which are probably dozens of times larger than Lingnan Two Realms, and even more terrifying.

There are also stars that will grow together with three or four others, in which case the domain interfaces will be extremely close to each other.

Lingnan Two Realms are like this.

And the Taicang Starfield is the same.

Furthermore, there are even more extreme cases, where dozens of star domains are combined, which can be called star systems.

Near Taiyuan Star, there are actually dozens of neighboring stars, so Taiyuan Star is also called Taiyuan Star System.

The Taicang Starfield is composed of six star domains combined, with an average combat power similar to Lingnan Two Realms. However, there are two Heavenly Fate Realm Experts in the area due to the six stars. It can be considered one of the more civilized star domains in the region.

Although it is still lacking compared to the first-class domains of the Ten Thousand Realms, the Taicang Starfield still has things Lingnan Two Realms do not have.

For example, vehicles that can travel within the starry sky, which are necessary for traveling through the starry sky, otherwise, even with his Space-Time Dao Intent, it would not be for long in the end.

Apart from that, it is a map.

The Spirit King once told him that if he wanted to go to Tianyuan Star, it would be almost suicidal to blindly move forward. There are many natural dangers in the Universe Starry Sky, and it is not uncommon for Sky Separation Realm Experts to perish carelessly.

Therefore, it is necessary to obtain a map before heading to Tianyuan Star.

That's why the entire Taicang Starfield has a bit of a station's vibe.

Yang Chen moved forward with his eyes set on this place...

...

Although the Taicang Starfield is relatively close to Lingnan Two Realms, even with his Space-Time Dao Intent, Yang Chen still took nearly a month to arrive in the Taicang Starfield.

Now, Yang Chen had aimed for the spatial turbulence outside the Taicang Starfield.

With his Space-Time Dao Intent, he spent a little time and passed through it.

After a flash of space-time, Yang Chen appeared and landed calmly.

However, looking around as he landed, Yang Chen was unfamiliar with the surrounding environment and intuitively glanced around first.

After this glance, Yang Chen found that he was in an ancient city with a rich history surrounded by a large number of cultivators, including humans, demonic beasts, and some unknown races.

However, compared to the others, there were more humans.

"True God Realm, Enlightenment Stage..." Yang Chen made a rough judgment.

True God Realm was already quite rare, and more were in the Sky Martial Domain, Spirit Plate Stage, Integration Period, and so on.

As for the Enlightenment Stage, there were even fewer.

"There are quite a few races in this Taicang Starfield that I haven't seen before, and while humans are clearly not in complete control, their forces should still be a dominant presence." Yang Chen made a brief judgment and drew a conclusion.

No wonder the Spirit King had little interaction with the Taicang Starfield. If the groups encountered in a star domain are different, it's hard to communicate.

"The order in this ancient city is not bad, with cultivators being prohibited from flying, and the prohibition applied to the surrounding space is even more powerful than that of the Southern Realm. If one's cultivation level is not sufficient, it's hard to stretch out one's movements." Yang Chen muttered to himself.

But as he muttered to himself, he suddenly sensed some movement in front of him.

Chapter 3045 Venerable Yifeng_1

"Get out of the way! Get out of the way! My Cloud-Treading Tiger Beast is out of control. If you don't move and get trampled to death, don't blame this young master!"

Upon hearing the words, Yang Chen's soul spread slightly, and he saw a young man riding a giant fierce beast galloping towards him.

The body of this fierce beast was about several dozen feet tall, which didn't seem too big, but it was incredibly ferocious. The sharp, knife-like protrusions on its head swept everything clean wherever it passed. It had obviously lost its sanity and was crazed.

At that moment, many cultivators screamed and dared not approach.

"It's Young Master Hong, run!"

"Young Master Hong's Cloud-Treading Tiger Beast has gone out of control. Hurry up and run, or you might get trampled by the Cloud-Treading Tiger Beast!"

In an instant, these cultivators fled in panic, but even so, some of them were inevitably trampled to death by the Cloud-Treading Tiger Beast.

At a glance, even cultivators at the True God Realm would find it difficult to escape from the Cloud-Treading Tiger Beast's feet.

Yang Chen stood by with his hands behind his back, not minding watching the situation.

This young man known as Young Master Hong had some talent. It seemed that he had been cultivating for about a thousand years, and his cultivation had reached the True God Realm.

In Yang Chen's eyes, this talent was naturally nothing special, but it should be quite outstanding in this ancient city.

Of course, this Young Master Hong was not terrifying, but the more terrifying was the Cloud-Treading Tiger Beast beneath him having gone mad.

This Cloud-Treading Tiger Beast had the combat power to crush the Enlightenment Stage. It would be difficult for anyone to approach it without being at the peak of the Enlightenment stage. With one step, the average cultivator in the Enlightenment Stage had to retreat, and no one dared to provoke it.

Moreover, this young man had an amazing status. In the blink of an eye, the Cloud-Treading Tiger Beast lost its target and targeted Yang Chen instead.

Yang Chen didn't react for a moment. As he was about to react, the Cloud-Treading Tiger Beast was already rushing towards him.

"You little bastard, do you want to die? I told you to get the hell out of the way. Are you not content until you're dead?" Young Master Hong scolded while riding the beast.

Behind him, a large number of servants followed, worrying and shouting.

As for Yang Chen's life, obviously nobody cared about it.

Seeing this scene, Yang Chen secretly shrugged his shoulders, thinking that he shouldn't have been watching the fun, otherwise he wouldn't have attracted this unnecessary trouble.

However, such a Cloud-Treading Tiger Beast was insignificant in his eyes.

He raised his hand gently...

Then, with a flash, he disappeared from the spot and appeared at another location not far away.

Looking at Young Master Hong's mount, the Cloud-Treading Tiger Beast, it was already lying on the ground like a kitten, sleeping soundly.

Seeing this, Young Master Hong was surprised and didn't know what had happened. He had just thought that Yang Chen would be crushed to death, who would have thought that Yang Chen actually survived? Moreover, his Cloud-Treading Tiger Beast somehow mysteriously fell asleep?

"Young Master, Young Master, are you all right?" A group of followers came over, with different cultivation levels, including some Enlightenment Stage experts who followed closely and asked with concern.

"Young Master, the Cloud-Treading Tiger Beast is my master's mount, and usually only my master can tame it. You should not try to ride it."

Young Master Hong completely dismissed their warning, touched his chin, and pondered quietly: "My father's belongings are mine, why can't I ride it? Ah, go and find that guy who almost got hit just now and ask if he is alright."

"Yes, Young Master." These servants, seeing Young Master Hong suddenly interested in Yang Chen again, could only agree.

Yang Chen ignored the Cloud-Treading Tiger Beast and was about to leave when several Enlightenment Stage cultivators rushed over.

Seeing Yang Chen's youth and ordinary appearance, these servants spoke with an indifferent attitude: "Daoist friend, are you alright?"

Yang Chen smiled and waved them off without taking it seriously: "I'm fine. If there's nothing else, I'll take my leave now."

"Wait!" These followers scolded angrily: "What kind of attitude is that? We are concerned about you. Anyway, our Young Master would like to invite you over for a chat. Would you please grace us with your presence?"

Yang Chen felt both amused and helpless. He had managed to avoid the Cloud-Treading Tiger Beast, and to keep a low profile, he had not used his Spacetime Dao Intent, but just a simple dodge. Even so, it seemed to have aroused their interest.

With his cultivation level and strength, he didn't care about their thoughts and calmly said, "No need, I have other things to do!"

"You actually refuse our Young Master?" The followers were all shocked: "Do you know who our Young Master is?"

The young man riding the Cloud-Treading Tiger Beast had also come over at some point and angrily scolded, "You brat, it's your great fortune that this Young Master cares about you and wants to talk to you. But you dare to refuse me?"

Seeing Young Master Hong's high and mighty demeanor, Yang Chen shook his head and laughed. He wasn't angry, but slightly curious, and casually said with a smile, "It's my first time in this ancient city. I don't even know its name yet, so if I have offended Young Master Hong, I hope you can forgive me."

"Alright, there's no need for forgiveness. It's just that this Young Master saw that you were able to dodge the attack from my Cloud-Treading Tiger Beast just now, and after seeing you, the Tiger also seemed to calm down. I have taken a liking to you. My father is always looking for talented people, and your cultivation seems to have reached the Enlightenment Stage. Since you are wandering around, why not join my father? He will definitely treat you well." Young Master Hong said confidently.

Yang Chen couldn't help but laugh. The Cloud-Treading Tiger Beast didn't like him, it was obviously subdued by him using his imposing aura.

However, he would naturally not say this openly and merely asked, "Who is your esteemed father?"

"You don't even know my father? He is the City Lord of Ninghe Ancient City, the renowned Venerable Yifeng. He has mastered more than thirteen thousand Dao Intent Inscriptions, controlling the entire Ninghe Ancient City and the Eastern District of Shanhe County. Even in Daoist Mountain Gate, my father has some say. If you really join my father, consider yourself lucky." Young Master Hong was full of pride, and his face was brilliant when talking about his father.

Yang Chen's eyes lit up upon hearing this.

Daoist Mountain Gate?

How lucky he was. He had heard from Spirit King that Daoist Mountain Gate often recorded map routes of the Universe Starry Sky. So, the one he wanted to find was Daoist Mountain Gate. Unexpectedly, he had just landed and already found some clues.

Seeing this, Yang Chen touched his chin and thought for a while before saying with a smile, "Since Young Master Hong sincerely invites me, I certainly cannot refuse."

He couldn't help laughing in his heart. He was an expert comparable to Sky-separating Realm experts, but now he had to pledge allegiance to someone in the Nirvana Stage? What a joke.

However, at this point, there was no need for him to expose his strength. It would be an appropriate choice to check out the situation first.

Chapter 3046 The Immortal on the Great Luo Celestial Stele_1

Seeing Yang Chen acceding(joining), it's evident that the realization period cultivators who were next to Young Master Hong became quite unhappy.

After all, they were considered popular figures by Young Master Hong, and they all hoped to use him to gain some quotas to climb upward in the Daoist Mountain Gate.

But now with an additional Enlightenment Stage cultivator, there is undoubtedly one more competitor for the quotas.

In an instant, a white-bearded Enlightenment Stage elder stroked his beard while saying, "Daoist friend, it seems that you've come to this area intending to join the Daoist Mountain Gate."

"Join the Daoist Mountain Gate?" Yang Chen paused for a moment and then didn't deny it when he sensed some ulterior motives. "Yes, indeed, I have this intention!"

Yang Chen came to Taicang Starfield this time without being too high-profile. Almost immediately after getting the map, he just left gracefully.

If he could enter the Daoist Mountain Gate quietly and get the map, that would be best. It would also avoid other troubles, so he simply agreed to do so.

Listening to Yang Chen's words, Young Master Hong said with his hands behind his back, "If you want to join the Daoist Mountain Gate and follow me back, then you have good vision. Hehe, my father can have a say in the Daoist Mountain Gate. Every year, he would recommend some realization period cultivators among his subordinates to join the Daoist Mountain Gate. If you're lucky enough to be chosen by my father, just be happy. Not every Enlightenment Realm Expert has the talent to be selected into the Daoist Mountain Gate!"

Yang Chen was puzzled and asked, "Is there a strict examination process?"

Young Master Hong replied indifferently, "Of course, regarding talent, age, and the number of Dao Intent Inscriptions, there are stringent requirements, and none can be missing. The entry conditions for the Daoist Mountain Gate are very high. If your talent is insufficient, why would my father take you to the Mountain Gate? It would be embarrassing."

Yang Chen finally understood.

When he looked at the other Enlightenment Stage cultivators glancing at him, he knew why they were somewhat hostile towards him. It turns out they thought he came to take their place.

In an instant, several Enlightenment Stage cultivators hurriedly spoke good words to Young Master Hong to try to get him to promote them further.

"Young Master, when your father selects people to go to the Daoist Mountain Gate this time, you must say a few good words for us. We've been serving you before and after..."

These Enlightenment Stage cultivators praised each other, but Young Master Hong was obviously indifferent, coldly saying, "Humph, enough with the useless talk. Don't think I don't know your thoughts. If it was like the previous times, I would have said some good words for you because of your service. Do you know what's different about this Daoist Mountain Gate selection?"

The Enlightenment Stage cultivators looked at each other, puzzled. "What does Young Master mean...?"

Yang Chen also pricked up his ears to listen, curious about the reason.

"Well, anyway, the Daoist Mountain Gate selection is about to begin, so I'll tell you. This time, the selection of geniuses in the Daoist Mountain Gate is personally hosted by the unparalleled genius of several eras in the Daoist Mountain Gate, Fairy Murong Qi."

Young Master Hong was indeed arrogant and proud, but when he mentioned Murong Qi, his face was full of admiration, respect, and not the slightest hint of blasphemy.

Upon hearing Murong Qi's name, Yang Chen couldn't help but touch his chin. It seemed that this woman was indeed very outstanding.

"Fairy Murong Qi?"

"Wasn't it said that Fairy Murong Qi had been in closed-door cultivation for decades? She's actually come out this time?"

"But there's no reason for Fairy Murong Qi to worry about selecting disciples."

Young Master Hong snorted, "You don't know why she came out of closed-door cultivation this time, or why she's called a genius that's hard to come by in several eras of the Daoist Mountain Gate? It's because her Dao Intent Inscriptions have broken through 30,000, ranking her at the 50th place in the Great Luo Celestial Stele. Although she's still at the bottom of the list, do you know what it means to be in the top 50 in the Great Luo Celestial Stele? It represents the top Mahayana Stele (powerful rankings) in countless planes and the entire Universe Starry Sky."

Yang Chen raised his eyebrows slightly, not expecting to encounter another genius on the Great Luo Celestial Stele so soon after arriving in the Taicang Starfield.

"The Great Luo Celestial Stele? I've heard of it before."

"Fairy Murong Qi is in the Great Luo Celestial Stele?"

These Enlightenment Realm experts were all shocked, having never heard this news before.

"But Fairy Murong Qi entering the Great Luo Celestial Stele has nothing to do with her selecting geniuses."

With admiration, Young Master Hong said impatiently, "You don't know anything. Do you know why Murong Qi is now in the Great Luo Celestial Stele, and what the main goal is for her and the entire Daoist Mountain Gate? To attract the attention of the legendary Grand Abyss Palace. Whenever a genius in any Star Interface appears on the Great Luo Celestial Stele, the Grand Abyss Palace will have ranking changes. If the ranking is high, the Grand Abyss Palace will send someone to investigate and ask whether the person is interested in joining the Grand Abyss Palace within less than a hundred years."

Yang Chen touched his chin, feeling kind of ignored as nobody came to approach him.

However, upon careful thought, Young Master Hong mentioned that the Grand Abyss Palace needed a century to investigate. The Grand Abyss Palace must spend some time to find his specific location.

As for Gold Leisure True Person, he probably came to deal with the Netherworld Ghosts and to confirm his existence, right?

Unexpectedly, there was so much to say about it.

So the Enlightenment cultivators asked, "Does Fairy Murong Qi's ranking within the top 50 qualify her for the attention and assistance of experts from the Grand Abyss Palace?"

Young Master Hong shook his head lightly, "To have this qualification, at least you have to be in the top 30. Fairy Murong Qi still has a long way to go. Moreover, she's ranked at the bottom, and it's unknown when she'll get squeezed off the list. One ranking change will make her fall out of the Great Luo Celestial Stele, which is quite cruel. Although our Daoist Mountain Gate can contact the Grand Abyss Palace, they are not yet interested in Fairy Murong Qi. If they want to pique the interest of the Grand Abyss Palace, the worst conditions would be for Fairy Murong Qi to rank in the top 30 of the Great Luo Celestial Stele, or..."

"Have another genius from the Daoist Mountain Gate enter the Great Luo Celestial Stele."

Several Enlightenment cultivators couldn't help but say, "With Fairy Murong Qi's talent, it shouldn't be difficult to enter the top 30 as long as she takes her time."

"Not difficult? Ridiculous! You don't know how monstrous the geniuses on the Great Luo Celestial Stele are. Each one is terribly strong, and while you progress, others do too. For Fairy Murong Qi to reach the 50th place, we don't know how many resources the Daoist Mountain Gate has exhausted. Despite this, getting to the top 30 is still as difficult as reaching the sky. However, if the Daoist Mountain Gate can connect with the Grand Abyss Palace, it will surely prosper. So, the Daoist Mountain Gate and Fairy Murong Qi are unwilling to give up, and they chose the second option!" Young Master Hong became more excited as he spoke.

"That is, having Fairy Murong Qi personally host the selection of the second genius who can enter the Great Luo Celestial Stele... Although the difficulty is almost the same as her entering the top 30, at least, it's a possibility to try their luck."

Chapter 3047 Recommending Talents_1

"If we get lucky and actually find another genius capable of entering the Great Luo Celestial Stele, then our Daoist Mountain Gate would have the qualifications to contact the Grand Abyss Palace. At that time, we can achieve the goal of the Daoist Mountain Gate, and the entire sect may even rise to power," Young Master Hong said, his eyes filled with longing.

The Enlightenment Realm Experts also listened with fascination, but their enthusiasm was quickly interrupted by Young Master Hong's words.

"So, do you understand now?"

Young Master Hong snorted coldly: "This matter involves whether Fairy Murong can enter the Grand Abyss Palace in the future, so Fairy Murong takes it very seriously, and that's why she made an exception to recruit disciples in large numbers. Otherwise, over thousands of years, would the Daoist Mountain Gate recruit people so frequently? How could I ask my father to make an exception for you? Once we pull strings, it would mean deceiving the Daoist Mountain Gate, and even my father wouldn't be able to cover it. If you want to join the Daoist Mountain Gate, hmph, show your own strength."

Hearing these words, the faces of the Enlightenment Realm Experts turned bitter.

What Young Master Hong said was simple, but how easy was it to actually meet the requirements? The most basic requirement was to have at least two kinds of Dao Intent.

This alone eliminated them.

Now, Yang Chen had some understanding of the situation. He didn't expect that his arrival would coincide with such a major event in the Daoist Mountain Gate.

However, things like Fairy Murong Qi and the selection of disciples had nothing to do with him.

What he wanted now was to find a way to learn about the map of Tianyuan Star, and Murong Fairy's disciple selection provided him with an opportunity to enter the Daoist Mountain Gate.

Throughout the journey, Yang Chen remained silent.

Speaking from time to time, compared to these people who had been constantly flattering Young Master Hong, he had little to say.

Along the way, Yang Chen learned more about Young Master Hong.

Young Master Hong, originally named Xu Hong, was from the Xu Family in Ninghe Ancient City. He was the eldest son of Venerable Yifeng and was famous in Ninghe Ancient City.

Although he also had talent, he fell short compared to the geniuses of the Daoist Mountain Gate and was not a member of the gate.

This indicated to Yang Chen that Young Master Hong had exaggerated his relationship with the Daoist Mountain Gate. His father was likely in a menial position, dispensable on the periphery of the Gate.

However, even so, he was still quite impressive to ordinary people who had not joined the Daoist Mountain Gate.

The strength of the Daoist Mountain Gate was quite formidable, ranking among the top three sects in the Taicang Starfield, situated on the Tianbei Star of the Taicang Starfield. It was the number one sect on the Tianbei Star.

This situation was superior to that of the Southern Realm, where power was dispersed, and there were few forces that could dominate the realm.

In this way, after several double-hours, Yang Chen arrived at the Xu Family under Young Master Hong's guidance.

Upon entering the Xu Family, the grand scale and countless servants were evident.

When Young Master Hong arrived, a few cultivators quickly came forward to greet him respectfully, addressing him as Young Master with great affection.

Young Master Hong immediately asked, "Where's my father?"

"Master is in the Heavenly Fragrance Pavilion. It seems that Fourth Young Master wants to see him..." The servants quickly replied.

"What? What does that kid, Fourth Brother, want to do this time?" Hearing the servants' words, Young Master Hong couldn't sit still. He immediately disregarded everything else and led Yang Chen and the others towards the Heavenly Fragrance Pavilion.

Yang Chen was puzzled by this and wondered who this Fourth Young Master was. After all, as a guest in the Xu Family, the best way to entertain him was to find a place to entertain him first, then arrange a residence, and discuss other matters later.

It was worth noting that the cultivation level of the Enlightenment Realm should be valued in the Xu Family even if it wasn't as impressive as Young Master Hong's.

However, Young Master Hong was in such a hurry that he soon arrived at a loft with falling cherry blossoms.

When he reached the loft, there was a middle-aged man with a fierce-looking face, a mustache in the shape of the character 八, and thick eyebrows.

This middle-aged man exuded an intimidating aura, giving people the feeling that he was not to be trifled with. But at this moment, he was very happy, laughing as if he had encountered something enjoyable.

"Little Fourth, this Daoist friend you introduced is quite good, very excellent. Most likely, he can be selected by the Daoist Mountain Gate. Once he has a place in the Daoist Mountain Gate, I will definitely reward you. Keep up the good work, hahaha!" The dignified middle-aged man laughed loudly.

A handsome young man next to him immediately laughed and said, "Dad, look at what you're saying. I'm your son; it's only natural for me to help you. Lin Qi, haven't you thanked my father for giving you this opportunity to join the Daoist Mountain Gate yet?"

As a solemn black-robed middle-aged man, Lin Qi's cultivation had obviously reached the Enlightenment Realm. He smiled and said, "Thank you, Senior Yifeng, for this opportunity. And thank you, Fourth Young Master, for recognizing me."

"Hahaha, gold will always shine," Fourth Young Master patted Lin Qi's shoulder, but soon, his eyebrows raised, and he said with a seemingly smiling but hostile face, "Isn't this my Eldest Brother? How come you're here too?"

"Hong'er? How come you're here too?" Venerable Yifeng stood with his hands behind his back, looking at Young Master Hong's arrival with a slightly displeased expression.

Young Master Hong could see Venerable Yifeng's dissatisfaction and gritted his teeth in anger. He glared at Fourth Young Master Xu Fei and said, "Father, I see you're in urgent need of talents for the Daoist Mountain Gate. I just happened to come across one outside and brought him to serve under your command. Let me introduce him to you!"

Venerable Yifeng did not share the same joy for the Fourth Young Master; instead, his expression became even more serious: "Hong'er, your father is very busy these days. Don't come here to cause trouble. Which talent are you talking about? The ones beside you? Hmph, sending them to the Daoist Mountain Gate, your father might just end up being kicked out by the people of the Daoist Mountain Gate."

Yang Chen observed Venerable Yifeng's angry expression and was able to discern some clues.

The Daoist Mountain Gate was in urgent need of talents. It seemed that people on the periphery, like Venerable Yifeng, were also given many rewards. If someone like Venerable Yifeng could discover enough talented cultivators and send them to the Daoist Mountain Gate, the gate would be happy to give out rich rewards once they succeeded.

It seemed that the Fourth Young Master had just recommended Lin Qi, who met Venerable Yifeng's satisfaction and was most likely a sure bet to join the Daoist Mountain Gate. As a result, Venerable Yifeng stood to gain a lot.

There must have been some conflict between Young Master Hong and Lin Qi, or else he wouldn't have been so impatient.

However, in Venerable Yifeng's view, Young Master Hong wasn't as reliable, and his attitude toward the cultivator introductions was completely different, taking on a whole new stance.

Chapter 3048 Three Types of Tests_1

This was not surprising. After careful observation, it was clear that Young Master Hong had been acting like a spoiled young noble from start to finish.

On the other hand, Fourth Young Master Xu Fei appeared more poised, polite, and unrestrained.

Feeling angry about Venerable Yifeng's words, Young Master Hong was determined to compete with Fourth Young Master for more benefits in the future. He wouldn't let this go easily.

He originally planned to test Yang Chen and then report to his father, but now he stopped thinking and said immediately, "Father, I've really brought a genius here. His performance had just amazed me. This is Brother Yang Chen."

When the conversation ended, Xu Hong pointed directly at Yang Chen.

Hearing this, Xu Fei burst into a laugh, "Eldest Brother, Young Master Yang Chen looks even younger than you and me. If he has reached the Enlightenment Stage, he might have already qualified to join the Daoist Mountain Gate based on his age alone. Why would it be your turn to discover him?"

Venerable Yifeng stood with his hands behind his back, staring at Yang Chen with a hint of astonishment.

Xu Fei and Xu Hong couldn't see anything special, but Yifeng's cultivation level was higher than them both. He suddenly felt a mysterious sense emanating from the young man, as if looking at an unfathomable abyss. Yifeng could only see a tip of the iceberg.

But with a second look, this feeling disappeared completely, making him wonder if it was just an illusion.

"Has this Daoist Friend really reached the Enlightenment Stage?" Venerable Yifeng asked.

Hearing this, even Xu Hong showed some doubt. He had not asked too much before, only assuming that Yang Chen could avoid the Cloud-Treading Tiger Beast with a minimum Enlightenment Stage cultivation level. How could he have thought more about it?

Seeing everyone looking at him, Yang Chen smiled slightly and let a bit of his cultivation level show, "I'm merely fortunate to have reached the Enlightenment Stage early with a dash of luck."

Upon hearing this, Venerable Yifeng showed a few hints of satisfaction on his face, "If the Daoist Friend really reached the Enlightenment Stage at such a young age, then he would not be unqualified to join the Daoist Mountain Gate. However, your age and other aspects still need to be tested. I happened to be taking Lin Qi and several other Daoist Friends for the test; you can come with me."

When the conversation ended, Venerable Yifeng's expression towards Yang Chen and Xu Hong finally softened.

However, Xu Fei's expression turned more displeased. When Venerable Yifeng turned his back, he looked at Xu Hong and Yang Chen, his expression suddenly turning cold.

Xu Hong didn't hesitate to return the coldness, sneering back in confrontation.

Venerable Yifeng pretended not to see any of this and led the group to their destination.

Venerable Yifeng brought everyone to the Xu Family's Practice Field. It was empty with only a few cultivators, but there were many exquisite instruments.

Upon arrival, Venerable Yifeng briefly explained a few things.

"Most of these instruments are modeled after those found in the Daoist Mountain Gate, but there is a vast difference. However, if you pass the test using these instruments, you'll have a much better chance of passing the Daoist Mountain Gate's assessment," Venerable Yifeng calmly stated, "So please don't blame me for speaking bluntly. If you pass my test, it doesn't necessarily mean you can join the Daoist Mountain Gate. If you can't pass my test, joining the Daoist Mountain Gate would be like a fool's dream."

Feeling confident, Lin Qi asked, "Senior Wind Mind, may I ask what the specific test is about?"

Venerable Yifeng held Lin Qi in high regard, viewing him as their trump card for gaining favor with the Daoist Mountain Gate.

So as for Xu Fei, Venerable Yifeng also highly valued his efforts to introduce talents to the team.

With a benevolent smile, Venerable Yifeng said, "My test is simple. There are three instruments to test: First is to test your age, second is the number of Dao Intents, and third is the power of a single strike! For the first one, testing your age is to assess your talent. The second, the number of Dao Intents, assesses how far you can progress in the future with your Dao Intent Inscriptions. This step is especially important because this time, the Grand Abyss Palace has an astonishing requirement for the number of Dao Intents—the more, the better. It's not like before when having a large number of Dao Intents before entering the Nirvana Stage wasn't necessarily a good thing."

Yang Chen could understand that having a large number of Dao Intent Inscriptions would lead to more Dao Intent Inscriptions during the Nirvana Stage.

To reach over 30,000 Dao Intent Inscriptions, one would need at least four types as a bare minimum.

Even with four types, the hope of comprehending 30,000 Dao Intent Inscriptions was slim. The more promising number of six or more Dao Intent Inscriptions was even rarer, making it extremely difficult to enter the Nirvana Stage.

As they talked about the number of Dao Intent Inscriptions, some Enlightenment Stage cultivators already appeared tense. Even Lin Qi seemed a bit less confident in his smile.

"The third kind, the power of a single strike, is both important and not important. It's to test the overall strength. If either of the first two requirements is met, as long as you pass the third, it should be easy to pass the Daoist Mountain Gate's test. But if you haven't passed the first two, even if the third is excellent, it would be very difficult to meet their requirements," explained Venerable Yifeng thoroughly. "All right, who would like to test first?"

"I'll give it a try." Lin Qi stepped forward confidently.

Seeing this, Xu Fei nodded in satisfaction. Lin Qi was his man, and his decisive move undoubtedly demonstrated his authority.

Seeing Lin Qi stepping up, Venerable Yifeng nodded lightly as well.

Thus, under the guidance of a white-robed elder, Lin Qi stood in front of the first instrument.

The instrument was a Rune Stone, similar to the ones Yang Chen had often seen for testing age.

Lin Qi knew what to do and placed his hand on the stone. His age was immediately displayed.

"Cultivating for 235 years, this test has already placed you in the ordinary genius category of the Daoist Mountain Gate," reported the white-robed elder without any omissions. After finishing, he looked at Lin Qi with an appreciative expression.

Venerable Yifeng was quite pleased, "235 years is not bad."

Upon hearing this, Lin Qi's face immediately showed joy.

Yang Chen didn't really pay too much attention to this.

Cultivating to the Enlightenment Stage in 235 years, even in the Southern Realm, wasn't much to boast about. Remember that when the Holy Domain selected disciples, a genius named Mo Baiyu had reached the Nirvana Stage after just over 200 years of cultivation.

Of course, the requirements of the Daoist Mountain Gate were very strict. Over 200 years of cultivation was considered just barely qualifying as an ordinary genius.

But even so, it seemed quite satisfactory to Venerable Yifeng.

Chapter 3049 Instrument Error?_1

Next, the second test began. It was another rune stone, but much larger than the previous one used for testing age. In the center, there was a hollowed-out area emitting blue light from the inscriptions, where one could place their hand.

"Taoist Lin Qi, place your hand inside it, and the rune stone's power will automatically flow into your body. At that time, it will detect how many types of Dao Intent you have inside. You only need to remain passive," the white-robed old man guiding the test said with a smile.

"No problem." Lin Qi placed his hand inside the hollow area.

In just a short while, the rune stone emitted a brilliant light.

"Two kinds of Dao Intent," the white-robed old man said in a hurry. "Congratulations, Family Head. Based on Lin Qi's results, it seems almost certain that he will join the Daoist Mountain Gate."

"That's good to hear," Yi Feng Venerable said, stroking his beard with a smile.

Lin Qi was also overjoyed, casting a somewhat provocative glance at Xu Fei's face. His gaze then shifted to Xu Hong, the meaning behind his eyes all too clear, as if to say, can your so-called talent reach this level?

At this moment, Xu Hong's face was a little embarrassed. Although Yang Chen might look young, no one could be sure of his real age. What if he didn't pass the age test? Wouldn't that be awkward?

But now, Yang Chen's expression was calm. He only showed a trace of curiosity as he looked at the Dao Intent testing rune stone.

This Dao Intent testing rune stone was of a higher grade than any he had seen before. It could directly project its power into the human body to detect the number of Dao Intent's present.

This would force him to put a little more effort into faking his results.

Unexpectedly, Lin Qi's results for the third test were not exceptional. According to the white-robed old man's words, he didn't even pass the standard benchmark. But Yi Feng Venerable didn't seem to care much and was still exceedingly satisfied.

However, Yang Chen secretly shook his head.

It seemed that Yi Feng Venerable didn't understand the real purpose of Daoist Mountain Gate's power testing requirements.

This one-hit power test mainly assessed the stability of a cultivator's cultivation. If a cultivator reached the Enlightenment Stage with unstable cultivation, neglected their foundation, and relied too much on other methods for breakthroughs, their one-hit power might be much weaker than that of other cultivators at the same stage.

For such cultivators, entering the Nirvana Realm would be much more difficult, and even if they managed to enter, the number of Dao Intent Inscriptions they would form would be scarce. They would not be considered valuable prospects by any sect.

Lin Qi likely relied on many alternative methods when entering the Enlightenment Stage as a True God.

However, there was no need to discuss these matters with Yi Feng Venerable.

Yi Feng Venerable became more and more fond of Lin Qi and instructed him to take a seat while the other cultivators in line took their tests.

About twenty cultivators at the Enlightenment Stage had followed them here for testing.

However, after these tests, it was only more difficult for them to pass.

Among the twenty or so cultivators, either their age was insufficient, or they didn't have enough Dao Intent.

After all the tests were done, only three people barely passed besides Lin Qi, and their test results were not very high. They belonged to those who had a glimmer of hope and were brought along by Yi Feng Venerable purely for a chance.

Finally, it was Yang Chen's turn to take the test.

Yi Feng Venerable almost forgot about Yang Chen. Now, seeing him, his curiosity was piqued, and he wondered what Yang Chen's results would be.

Yang Chen placed his hand on the hollow area of the rune stone for a normal test.

Upon seeing the result, the white-robed old man's jaw dropped. "My lord, this Taoist friend has only been cultivating for... 93 years!"

Upon hearing this, Yi Feng Venerable, who hadn't taken the matter seriously before, widened his eyes. "What did you say? 93 years? How is that possible? This could be considered top-tier or even peerless genius!"

The white-robed old man was embarrassed. "My lord, I dare not say peerless, but claiming this young friend as a top-tier genius for reaching the Enlightenment Stage in 93 years according to the Daoist Mountain Gate evaluation should be indisputable. Of course, this is just one aspect, as for the other ones... "

"Hurry up and test the rest," Yi Feng Venerable suddenly became interested.

However, Xu Fei and Lin Qi were displeased.

They had just been basking in glory, not taking Yang Chen seriously, and never thought that he could upstage them. Yet, Yang Chen was really so young.

Surprisingly, Xu Hong was delighted. He never imagined that a random person he met on the road could actually make Yi Feng Venerable beam with joy.

For the second test, Yang Chen began to focus.

He couldn't let anyone know how many Dao Intents he had, or it would create a commotion. After all, he had absolutely no interest in the so-called Fairy Murong's plan to recruit another genius from the Daluo Celestial Monument.

As the third-ranked individual on the Daluo Celestial Monument, why should he care about his ranking on the monument?

Thus, he immediately concealed his numerous Dao Intents before pressing his hand on the rune stone.

When the force from the rune stone entered Yang Chen's body, he didn't care much. It was effortless for him to defend against it.

However, what made Yang Chen dumbfounded was that, after a long while, the white-robed old man frowned and said with confusion, "My lord, the test results are mixed up. I can't determine how many Dao Intents this young man has."

"What? How could that be?" Yi Feng Venerable asked in puzzlement.

"I really don't know what's going on. The instrument should be working fine; the problem must be with the young man, Yang Chen," the white-robed old man explained.

Yang Chen quickly understood what was happening.

It had nothing to do with his hiding methods, but rather, his Dao Intent and abilities were simply too powerful for the instrument to detect.

After all, he had already reached the State Absence.

Yang Chen also didn't know the reason, but it was better if the test couldn't detect his abilities.

"Yi Feng Venerable, I'm not sure why it can't detect my Dao Intent," Yang Chen said, shaking his head.

Yi Feng Venerable was puzzled. "Try another instrument."

Two more instruments were tested by the white-robed old man, but none produced any results. Yi Feng Venerable shook his head in frustration. "Taoist Yang Chen, how many Dao Intents do you actually have? Tell me."

"I have three," Yang Chen replied truthfully.

"What? Is that really true?" Yi Feng Venerable exclaimed with joy.

Seeing their master happy, Xu Fei couldn't help but speak up. "Father, the instrument can't detect his Dao Intents, and the problem likely lies with him. We shouldn't blindly believe his claim of having three Dao Intents. After all, our instruments should be able to detect three Dao Intents."

Chapter 3050 Fairy Murong?_1

Xu Hong was immediately displeased and angrily scolded, "Xu Fei, what do you mean? Are you implying that the person I arranged lied?"

Xu Fei sarcastically said, "I'm not sure if they lied or not, but having three Dao Intents is indeed a bit exaggerated. Do you think anyone can casually pick up and achieve three Dao Intents? I'm worried that this kid is living in a dream."

Venerable Yifeng waved his sleeve: "Enough!"

When he spoke, Xu Fei and Xu Hong immediately quieted down, not daring to speak again.

Venerable Yifeng looked deeply at Yang Chen, and after hearing what Xu Fei said, he indeed felt that Yang Chen having three Dao Intents was somewhat absurd.

After all, having an additional Dao Intent was as difficult as climbing to the sky, so where could they find someone with three Dao Intents in such a small place?

However, there was no doubt about Yang Chen's youth.

Moreover, since the instrument could not detect his age, all he could do was say, "Yang Chen, please sit down and test with this third instrument again. As long as your result is similar, I'll take you to the Daoist Mountain Gate to give it a try."

Upon hearing this, Yang Chen slightly bowed his hand and then waved his fist, directly hitting the third test instrument.

Upon testing, the white-robed elder beside him said with a smile, "My lord, on this power test, Brother Yang Chen's strength barely meets the standard and shouldn't be a problem."

Hearing this, Venerable Yifeng's expression relaxed a bit. Yang Chen's strength met the standard, and his age test showed he was a genius. There might be a real possibility for him to pass the test by taking him there.

Venerable Yifeng nodded, "En. Brother Yang Chen, you can come along with me."

"Thank you, Venerable Yifeng." Yang Chen said slowly.

Venerable Yifeng was slightly dissatisfied as Yang Chen directly called him 'Venerable' without addressing him as 'senior', which was a bit disrespectful and made him unhappy.

However, he didn't take it too seriously, as long as Yang Chen could pass the assessment, these small things didn't matter.

What he didn't know was that Yang Chen, with his Boundaryless Cultivation, would call him 'senior'? What a joke.

Nowadays, when Xu Fei saw Yang Chen joining the team, he was truly unhappy, but Xu Hong was overjoyed. Yang Chen being able to join the team meant that he could also accompany them on this trip to the Daoist Mountain Gate. It was an unparalleled honor.

In the past, he had never been successful in going there.

"Alright, the quota is set. We will rest here for ten days, and then set off." Venerable Yifeng said simply, and after giving his instructions, he directly ordered his subordinates to make various arrangements.

Xu Hong's attitude towards Yang Chen changed dramatically now, from his previous arrogance to being almost cheerful and polite.

Other Enlightenment Realm Experts were also very gentle towards Yang Chen, and they no longer opposed him. They all wanted to get closer to him and say a few words to him in order to please him and have him take care of them more.

This made Yang Chen secretly shake his head, keeping his distance and waiting quietly for the ten days to pass.

When the ten days arrived, everyone gathered, and Venerable Yifeng pulled out a Cloud-Treading Tiger Beast larger than Xu Hong's mount.

Everyone sat on the Cloud-Treading Tiger Beast, led by Venerable Yifeng, and headed straight for the Daoist Mountain Gate.

It took a little time to arrive at the Daoist Mountain Gate, but it wasn't long - just half a month.

Half a month later, they arrived in a mountain range surrounded by clouds and mist, with a surge of Immortal Qi.

Yang Chen sat on the Cloud-Treading Tiger Beast, his eyes closed and silent. But his eyes were observing everything around him, seeing clearly everything in the surrounding area.

The scale of the Daoist Mountain Gate was indeed astonishing. Just the gate alone was as big as the Sacred District he had seen in the Southern Realm. There was a clear order and countless disciples, with the majority being Enlightenment Stage experts, a huge amount of people in the Nirvana Stage, and a considerable number of Great Stage and Boundaryless Cultivators.

This was also the reason he was not in a hurry to reveal his identity. With his strength, he could certainly compete with King-level Powerhouses. But the more he did so, the more conspicuous he became. If he was not careful and caught the attention of a Heavenly Fate Realm expert, it would be difficult to ensure that there would be no problems.

Being a little low-key had its advantages.

Now, along the way, he could see many teams led by people like Venerable Yifeng, leading several Enlightenment Stage experts, rushing in one direction.

Venerable Yifeng noticed it too, and his face showed a touch of displeasure. Afterward, he gradually landed on a mountain peak among the hundreds of continuous peaks.

When the clouds dissipated, the grand buildings on the mountain peak were revealed, and just the sight of the Thousand Zhang (height unit) majestic lions made people feel an urge to worship.

"Show your identification plate." A Nirvana Stage Elder Hengmei said coldly on the periphery of the mountain peak.

Although they were both at the Nirvana Stage, Venerable Yifeng lowered his attitude towards the elder, talking as if he were a junior seeing a senior, fawningly said, "I am Venerable Yifeng, and this is my nameplate."

After saying that, Venerable Yifeng hurriedly took out his identification plate.

It wasn't surprising to see Venerable Yifeng's flattering appearance. Venerable Yifeng's more than ten thousand Dao intents were indeed true, but it was his limit. Without a Daoist Divine Body, he was not really considered powerful.

The gap between Nirvana Stage cultivators was huge, and upon seeing Venerable Yifeng's nameplate, Elder Hengmei indifferently said, "Go in."

Venerable Yifeng immediately waved to the back and led the crowd into the depths of the high mountain.

Going forward, they could see a large crowd, at least tens of thousands of people. Yang Chen's eyebrows showed a touch of surprise at the sight.

"What a terrifying scale. The Daoist Mountain Gate is indeed worthy of being the number one sect in the Interface." Yang Chen took a deep breath, as he would not encounter such a scale in the Southern Realm.

With such a lineup, it would take years to complete. However, Venerable Yifeng obviously had a way, leading the group through another passage, turning left and right, and finally appeared in another palace.

The palace was built under a flying waterfall, with a grand scene and beautiful scenery.

There were also many people in the cave, but only a few hundred compared to the tens of thousands outside, they were not on the same level.

Obviously, Venerable Yifeng, as a peripheral member of the Daoist Mountain Gate who was sent to push for talents, had privileges in this regard.

"Venerable Yifeng is here?"

"It's Venerable Yifeng!"

As soon as Venerable Yifeng arrived, many peripheral members like him cast their eyes on him, some friendly and some hostile, with varying attitudes.

Venerable Yifeng walked in with a straight back, remaining silent and unobstructed.

Yang Chen, on the other hand, looked around after entering the depths of the palace and finally locked his gaze on a woman sitting cross-legged in the depths of the palace.

The woman did not appear in everyone's line of sight but hid in the back, motionless like him, her divine soul observing everything within ten thousand miles.

Yang Chen's expression slightly fluctuated as he stared at the woman's beautiful, fairy-like appearance, gradually realizing something.

This woman was probably Murong Qi, Fairy Murong, who ranked 50th on the Daluo Celestial Stele.
