Chapter 31: Who Received the Favor?_I

This wasn't a strange thing after all, as Yang Chen was a well-known waste in the Yang Family.

Suddenly being stared at by so many pairs of eyes, Yang Chen appeared quite calm. He stood with his hands behind his back, as if he didn't see these gazes at all.

Yang Jinhe also cast his gaze at Yang Chen, but he didn't linger long before he opened his mouth and said, "Alright, the ceremony officially begins!"

Immediately following, Yang Jinhe's old servant loudly called out, "Yang

Wanyou!"

"Present!"

The young man named Yang Wanyou excitedly ran forward.

He glanced at the 300 jin boulder, rubbed his hands together, and in the next moment tightly hugged the 300 jin boulder and raised it high above his head.

Seeing this scene, many elders of the Yang Family nodded in approval.

"Three hundred jin, Yang Wanyou, Late Stage of First Layer of Body Refining Realm!" the old servant called out.

One hundred jin represented the first level of the Body Refining Realm, four hundred jin represented the second level, and then for every three hundred jin, there was an increase of one level.

Next, the second member of the Yang Family Clan stepped forward for the assessment.

This also caused quite a stir among the elders who had come to watch the scene.

“I secretly tested my child, and he can lift 500 jin easily. He has a Martial Arts Cultivation of the second level of the Body Refining Realm. In this generation, my child is destined to become a dragon among people!” This family elder excitedly said.

“Only 500 jin, our child can lift 600 jin boulders!”

At the same time, many foreign race people were also quickly observing the Yang Family geniuses available for marriage alliances.

For them, finding some geniuses from the Yang Family to form a marriage alliance with, and waiting for these geniuses to grow up and become the decision-makers of the Yang Family, would be a great gain for them.

As for the current Yang Family Patriarch, Yang Jinhe, he had already left early to visit the loft above, and to his surprise, he was receiving an honorable guest. Similarly, the Yang Family Elders, from the Great Elder to the Ninth Elder, were all seated here, showing the high status of this guest.

This distinguished guest was an old man with white beard, wearing a black robe, wasn't it Li Youyan whom Yang Chen had seen before?

Li Youyan and the Yang Family Head, Yang Jinhe, sat together in chairs, chatting merrily.

“Brother Li, what do you think of this talent from our Yang Family, his name is Yang Heng, and he'll be up next. His advantage lies in dual cultivation of martial arts and alchemy, but don't underestimate his martial arts cultivation. I believe that Yang Heng has made a breakthrough in his martial arts cultivation in the past two months and should have reached the Body Refining Realm Third Layer,” Yang Jinhe said tentatively.

Deep down, Yang Jinhe was still curious about which Yang Family genius Li

Youyan appreciated.

Consequently, he tried several times.

However, Li Youyan's expression was almost the same for each of the geniuses he pointed out, none of them caught his attention.

When it came to Yang Heng, Li Youyan's expression was the same, he leisurely savored the tea and casually said, "Oh!"

Seeing Li Youyan's uninterested face, Yang Jinhe started to feel both amused and helpless, as he was unsure which Yang Family genius had caught Li

Youyan's eye.

But Li Youyan had no intention of mentioning it.

At this time, the assessment was still ongoing.

As Yang Jinhe had said, it was Yang Heng's turn next.

"Yang Heng! "

As Yang Heng's name was called, his mouth curled up, and he glanced at Yang Chen meaningfully before striding forward to the center.

He disregarded the 100 jin, 200 jin, and 300 jin boulders.

Obviously, Yang Heng's skills were not something that could be measured by a 300 jin boulder.

This made many spectators involuntarily take a deep breath.

“He’s already at the 500 jin boulder and Yang Heng hasn’t stopped. Can he still lift a heavier boulder?”

“It’s hard to say, Yang Heng has always been an excellent genius.”

Hearing Yang Heng’s outstanding performance, Sun Qiaomei thought carefully in the crowd. She was pondering whether to choose Yang Heng as her husband.

In the end, Yang Heng targeted a 700 jin boulder.

“Seven hundred jin!”

“My God, has Yang Heng already reached the Body Refining Realm Third Layer?”

Seven hundred jin indicated that Yang Heng had entered the Body Refining Realm Third Layer.

Under everyone’s puzzled gaze, Yang Heng gathered his strength in both hands, grabbed the boulder, and smoothly lifted it above his head in one breath. After holding it for three seconds, Yang Heng seemed to have not used all his strength, and threw the 700 jin boulder to the ground, kicking up a large amount of dust, making a startling sound.

At this moment, everyone was dumbfounded.

Without a doubt, so far, Yang Heng had the best performance.

The old servant also revealed a satisfied smile: “Yang Heng, Body Refining

Realm Third Layer Early Stage, excellent performance!”

Having the recognition of Yang Jinhe's old servant was also something to be proud of. Yang Heng became even more excited, and he seemed like a proud rooster as he glanced at Gu Mingyue, as if he wanted to tell her how foolish her decision was not to choose him.

Unfortunately, Gu Mingyue's gaze never shifted and remained focused on Yang Chen.

"Damn it," Yang Heng gritted his teeth in anger, "Gu Mingyue, you'll soon know what kind of dog's eyes you've got!"

It had to be said that Yang Heng's emergence undoubtedly elevated the atmosphere of this assessment. Perhaps it was due to his provocation, but in the following assessments of the Yang Family boys, even if their performance was not as good as Yang Heng's, it wouldn't be too far behind.

Moreover, several of the main events were also coincidentally grouped together at the end.

As the main event approaches, Yang Family Head, Yang Jinhe, couldn't help but ask tentatively again, "The next person to be assessed is named Yang Wu, one of the most outstanding talents in my Yang Family. At only thirteen years old, he has already reached the Fourth Level Peak of Body Refining Realm, more than twice as strong as his younger brother Yang Heng. He is a good seedling for our Yang Family, haha."

Speaking of Yang Wu, Yang Jinhe's face was full of complacency.

After all, this was one of the best talents of the younger generation in the Yang Family.

"Oh? Fourth Level Peak of Body Refining Realm, that's not bad," Li Youyan nodded.

Yang Jinhe still couldn't see any satisfaction in Li Youyan's expression. It was obvious that Li Youyan's favorite genius was not Yang Heng, and neither was it

Yang Wu.

What was going on?

Yang Jinhe was completely puzzled.

What was Li Youyan's purpose in coming to the Yang Family?

Which Yang Family genius had attracted this high-status, Spirit Martial Realm master?

Yang Jinhe felt embarrassed; he had almost introduced all the geniuses in the Yang Family to Li Youyan, but Li Youyan's expression remained unchanged. This left him somewhat at a loss.

Who had won Li Youyan's favor?
