Chapter 3121 The Frenzied Sword Monarch King_1

All of them were dumbfounded. To them, the gap between the Boundaryless and Heaven-separated Realm was absolutely insurmountable.

For someone with Boundaryless Cultivation to fight a Heaven-separated Realm expert? That was simply impossible.

Yang Chen was already shocking enough to slay three large Sword Slaves with his Boundaryless Cultivation, but Ji Yue Shuang's feat was even more horrifying.

Yang Chen, however, remained calm and observed the exchange between Ji Yue Shuang and Sword Monarch King from a distance.

Different realms offered different perspectives.

To Lu Fa Celestial Venerate and the others, Ji Yue Shuang seemed to be evenly matched against the Sword Monarch King, managing to resist without much trouble.

However, from Yang Chen's point of view, the situation was entirely different.

Ji Yue Shuang indeed possessed the strength to compete with ordinary Heaven-separated Realm experts. However, if she only wanted to defeat them with this level of strength, she was still somewhat lacking.

At present, it seemed that Ji Yue Shuang had already brought out about 80% of her strength. If she could only fight an even match against a witless Sword Monarch King, completely defeating him would be a difficult task.

Nevertheless, it made no difference to Yang Chen. He came here today just to watch a visually captivating battle.

One had to admit, although Ji Yue Shuang's Dao Intent Inscriptions were not as numerous as Yang Chen's, her skills were truly astounding.

Especially when wielding her Emperor Divine Artifact Sword, her elegant and fierce Sword Techniques were so exquisite that even Yang Chen could only describe them as such.

However, it was still not enough to defeat the Sword Monarch King.

At first, Ji Yue Shuang was unaffected and maintained her composure. But as the battle continued, she started to feel the pressure mounting.

Ji Yue Shuang's face was taut as she sensed these changes. Initially, she thought her level of skill could not take on an ordinary Heaven-separated Realm expert, yet fighting one without spiritual intelligence should've been a simple matter.

Unexpectedly, this witless Heaven-separated Realm expert turned out to be even more difficult to deal with than a normal one.

Lu Fa Celestial Venerate and the other two also noticed that something was amiss, and they didn't dare to make any hasty conclusions.

As a lifeless being, the Sword Monarch King had no spiritual intelligence and could maintain an abundant and nearly prime fighting capacity at any time.

He held his treasured sword, and it struck out.

This sword strike was explosive and imposing.

The sword swept through everything in its path, and when it came, sword qi filled the air, with Ji Yue Shuang struggling to withstand it.

"Not good!" Ji Yue Shuang quickly retreated, blood seeping from the corner of her mouth.

"Ji Yue Shuang seems to be struggling, and her Dao Intent Inscriptions aren't as stable as they were at the beginning. What a pity." Yang Chen shook his head slightly, thinking to himself.

As he thought, Ji Yue Shuang spat out blood from the corner of her mouth, becoming increasingly unable to stand up against the Sword Monarch King. If this continued, defeat was only a matter of time.

Ji Yue Shuang actually had more than one Dao Intent Inscription. However, she pursued the ultimate Sword Dao, and the other five Dao Insights seemed to be nothing more than an embellishment to her Sword Dao Insight, making them appear incredibly weak.

During combat, they provided little assistance.

Nevertheless, Ji Yue Shuang might not achieve victory, but her chances of failure seemed slim. At least, Yang Chen had not yet seen any fear in her eyes.

For example, now, spurred by her anger, Ji Yue Shuang suddenly waved her sword, causing it to hum violently.

Then, the phantom of a middle-aged woman suddenly appeared before the eyes of everyone. This woman had floating long hair, revealing her breathtakingly beautiful visage. She held Ji Yue Shuang's sharp sword, directly sweeping it towards the Sword Monarch King.

"What kind of power is this..." Yang Chen was flabbergasted. He could generally tell that when Ji Yue Shuang saw she was no match for the Sword Monarch King, she seemed to summon the power of another person.

He had no idea who this middle-aged woman was, but the force she exerted with her sword was not something an ordinary Heaven-separated Realm expert could break through.

"It's Princess Wenqi!" Lu Fa Celestial Venerate seemed to know something. When he saw this middle-aged woman, his pupils contracted violently.

Yang Chen knew that this Princess Wenqi must be extraordinary. At least, now that Ji Yue Shuang had only slightly manifested her power, she was able to pierce through with a single strike, causing the Sword Monarch King to burst back, unable to withstand her.

"No, something's wrong." Lu Fa Celestial Venerate's expression changed drastically, "Lady Ji, we're in trouble. We have to run."

Ji Yue Shuang did not know what was going on. In her eyes, she had already summoned her master's power, and this situation had become a foregone conclusion. The Sword Monarch King was sure to be captured by her.

Who would have thought that the Sword Monarch King did not collapse, but instead, the color of his body turned red.

As this red body appeared, the Sword Monarch King became even more ruthless and violent, and countless sword qi raged around him, making him appear utterly mad.

"What's going on?" Ji Yue Shuang's expression was full of horror.

"Lady Ji, we forgot to tell you that when facing the Sword Monarch King, you must never use the power of a second person to fight against him. Otherwise, the Sword Monarch King will enter a berserk state. Once he enters this state, his strength will greatly increase, making him even more terrifying than an ordinary Heaven-separated Realm expert." Lu Fa Celestial Venerate said bitterly.

"What? How can that be? My strike just now didn't even manage to hurt him?" Ji Yue Shuang was shocked.

Lu Fa Celestial Venerate gave a bitter smile, "In this world, the rules have all been set by our ancestor. The Sword Monarch King can only be killed by one person with one person's power. A second person cannot be involved. Once they are, the Sword Monarch King's strength will immediately double. Moreover, the power of the second person cannot cause any substantial damage to the Sword Monarch King. Just now, Lady Ji, you used Princess Wenqi's power to fight against the Sword Monarch King, which already violated the rules. In his berserk state, we might not be able to defeat him even if all five of us worked together. And the Sword Monarch King's strength will grow stronger with our combined efforts. We had better leave quickly."

Ji Yue Shuang also sensed that something was wrong and was about to turn around when she suddenly sensed the Sword Monarch King's attack.

When Ji Yue Shuang's pupils shrank, she couldn't help but exclaim, "Such incredible speed."

The Sword Monarch King suddenly sprouted a pair of wings on his back. Flapping them added a considerable amount of speed to his movements.

Moreover, the Sword Monarch King's power had surpassed his previous state. A single strike forced Ji Yue Shuang to retreat several steps, blood spewing out and her condition deteriorating.

"How can he be so strong?" Ji Yue Shuang couldn't believe it.

"Senior brother, something's wrong. Lady Ji probably won't be able to resist the Sword Monarch King. We should run away as soon as possible." Bai Sheng Celestial Venerate exclaimed in shock.

"Run? Where can we run to? If Lady Ji dies in this Sword Servant World, our Yunhua Sect will follow her to the grave." Lu Fa Celestial Venerate was more composed, gritting his teeth, "We must think of a way to rescue Lady Ji first."

"How can the three of us rescue her? With what...?" White Eagle Celestial Venerate's scalp tingled with fear.

With the current display of the Sword Monarch King's strength, if the three of them escaped a little later, they might lose their lives as well.

Chapter 3122 The Inconceivable Arrival_1

Just as they were thinking about what they could use to save her, their minds almost simultaneously turned to Yang Chen, who was standing nearby.

Indeed, with their strength, it was difficult for them to resist the Sword Monarch King. But Yang Chen was different – with his power, he seemed to have the ability to save Ji Yue Shuang.

After all, it was with Yang Chen's mysterious methods that they were saved at that time.

Lu Fa Celestial Venerate looked pleadingly at Yang Chen. Seeing Yang Chen's nonchalance, he almost felt like crying, "Brother Yang Chen, you must save Lady Ji. If you don't save her, I'm afraid we will lose our lives here."

Yang Chen looked at the three of Lu Fa Celestial Venerate, whose eyes were filled with hope. His gaze rested calmly on Ji Yue Shuang and he smiled slightly, "No need to worry. Miss Ji hasn't reached the end of her rope yet. It won't hurt to wait a little longer."

Lu Fa Celestial Venerate forced a smile, "Yang Chen, now is not the time for jokes."

Yang Chen remained calm and composed. He had no reason to save Ji Yue Shuang, but her death wouldn't be so serious. However, he was not in a hurry because he had enough confidence and means to save Ji Yue Shuang instantly.

Now it seemed that Ji Yue Shuang was really at her wit's end, having used up almost all her methods.

"This woman really underestimated the Sword Monarch King too much, only prepared a few tricks." Yang Chen shook his head lightly.

After using some of her techniques, Ji Yue Shuang didn't have the same level of ability and skill as before.

Even more cruelly, when the Furious Sword King's sword fell, Ji Yue Shuang's law protection shattered instantly.

Any cultivator forced into using law protection would have already lost the upper hand, and with their law protection shattered, their lives would be at risk.

"Brother Yang Chen." Lu Fa Heavenly Venerate and the others stared intently, as everything depended on Ji Yue Shuang.

At this critical moment, Yang Chen suddenly moved his finger.

In an instant, spacetime shifted, and Ji Yue Shuang's body was teleported directly to Yang Chen's side.

Ji Yue Shuang was pale with fear. Seeing that she was still alive, her pupils contracted, not knowing who had saved her.

When she looked up, she realized it was Yang Chen, the man she had thought was just a newcomer on the list of Daluo Celestials.

Yang Chen now looked at the Furious Sword King, considered for a moment, then shook his head.

It was better not to deal with this trouble.

With his Dao Intent Inscriptions flowing, combined with Space-Time Law, he declared, "Everyone, don't resist my power. Retreat!"

As he spoke, Yang Chen prepared to leave this place.

But the Furious Sword King refused to let them off so easily. As Yang Chen spoke, his sword was heading for the spacetime teleportation void created by Yang Chen.

If it was in the outside world, it would be fine. But within this interface, the Sword King's sword intent and Yang Chen's own Space-Time Law were clearly not proportional.

With this sword, the Sword King's Sword Law suddenly broke Yang Chen's Temporal Transfer, forcing Yang Chen to retreat hurriedly a few steps back, a trace of gravity appearing in his eyes.

"What should we do now?" Lu Fa Celestial Venerate sensed that the spacetime teleportation had been broken and was flustered.

Could it be that they wouldn't even be able to escape today?

The Furious Sword King, like the Large Sword slave, was not easy to give up once engaged.

With Sharp Sword in hand, he attacked again, furious and relentless, living up to his name as the Berserk Sword King.

Yang Chen, on the other hand, had a serious expression. Seeing the Furious Sword King attacking again, he stepped on the ground forcefully and said coldly, "Looking for death!"

As he spoke, his domain suddenly spread out.

Since the Sword King was really looking for death, he had no choice but to fight him.

As he spoke, Yang Chen strode forward, and his Domain of Earth spread out, directly slowing down the Sword King's movement speed. Sword Monarch King's body trembled for a moment, and his speed dropped significantly, but the effect was much worse than dealing with the Large Sword Servant and ordinary Sword Servant.

However, for Yang Chen, it was still within an acceptable range.

"His strength is very strong, but compared to Xuan Zhen, he is still a bit weaker, and he has no spiritual intelligence. There is a way to deal with it." Yang Chen had already made up his mind after going through the thought in his mind.

He gently pressed his palm into the void, and then, a feeling of emptiness surged into his heart.

"The Slaughter God Spear is gone..."

Yang Chen smiled bitterly.

It was helpless, as his strength was not at its peak right now.

Without the Slaughter God Spear, he really missed the handy feeling of the past.

He could only point his finger and perform the Five Elements Sky-turning Finger, with three fingers landing first.

"Suppress!"

Forcefully suppress.

When the three giant fingers fell from the vault of heaven, they once again showed the majestic and domineering power they had when confronting the three Sword Servants.

However, the strength of the Sword Monarch King and the three Sword Servants were obviously disproportionate. As Yang Chen's three giant fingers fell, the Furious Sword King let out a thunderous roar, fighting against the three giant fingers.

Immediately, with an extremely terrifying force, he directly cut off one finger first.

Seeing this, Yang Chen knew that it wouldn't be easy to suppress this menace with just three fingers.

He must show all his strength.

So be it!

Yang Chen gave a slight sigh, and the hidden Dao Intent Inscriptions erupted in an instant at this moment.

More than 40,000 Dao Intent Inscriptions appeared in the blink of an eye, hovering throughout the space.

When more than 40,000 Dao Intent Inscriptions appeared, Lu Fa Heavenly Venerate and the other two were all dumbfounded, unable to believe it.

They knew that Yang Chen was hiding his strength, but they never thought that Yang Chen at his peak would be so much more terrifying than they had imagined.

More than 42,000 Dao Intent Inscriptions!

"How, how is this possible!" The three great Realmless were all shocked.

Yang Chen's Dao Intent Inscriptions were more than the sum of their three!

However, compared with them, Ji Yue Shuang's shock was even greater!

She originally thought Yang Chen was a genius at the end of the newly promoted Great Luo Celestial Stele, but now she realized that her idea was too naive and childish.

Yang Chen is not the genius at the end of the Great Luo Celestial Stele's ranking. His Dao Intent Inscriptions are a powerful 42,000+, exceeding even herself and potentially ranking in the top three.

"Master once said that there was a great fluctuation in the Great Luo Celestial Stele recently; could it be caused by this person..." Ji Yue Shuang recalled, feeling vaguely shocked.

This was not the end, and what made Ji Yue Shuang feel even more frustrated was that in her hands, even an equally terrifying Furious Sword Monarch King like Xuan Zhen, an absolute powerhouse who could not support her for a cup of tea time,

Now, it has been suppressed by Yang Chen...

It is indeed impossible to suppress the Sword Monarch King with just the three-finger posture.

However, Yang Chen's strength is far from that simple!

"Five Elements Turn Heaven Palm, suppress it for me!"

Chapter 3123 Ji Yue Shuang's Interest_1

Now, the Five Elements Turn Heaven Palm descended with five fingers, representing the five forces of Metal, Wood, Water, Fire, and Earth. It was thoroughly unleashed like a waterfall, directly forcing itself onto Furious Sword King's body in an unstoppable and inescapable manner.

Under this palm, the Furious Sword King was instantly suppressed without even a trace of his figure.

Yang Chen also went all out with his full attention, bringing the palm force to its utmost limit, and unleashing all the five forces of the Five Elements.

Restriction, binding, explosion, and heavy damage – each force reached its limit.

This was the formidable aspect of the Five Elements Turn Heaven Palm. Once the full power of the Five Elements was unleashed, escape was not so easily achieved.

However, Furious Sword King's strength was indeed beyond Yang Chen's expectations.

In the suppression of the Five Elements Turn Heaven Palm, he managed to endure for a moment and then, with a rumbling noise, forcefully created an opening within the Five Elements Turn Heaven Palm.

With the Sharp Sword in his hand and the large amount of sword energy surrounding him, he managed to expand layer by layer, forcibly breaking through Yang Chen's palm force and created a path, intending to escape.

Yang Chen's various bindings seemed to be of no avail against him.

This genuinely surprised Yang Chen, but he quickly calmed down and had to admit, Furious Sword King's strength was formidable.

At this moment, Ji Yue Shuang and the others widened their eyes in disbelief – how could the Furious Sword King be so powerful?

Yang Chen's strength must be above his, could it be that Yang Chen could not suppress him?

"No, I have to help him." Ji Yue Shuang bit her silver teeth, "Furious Sword King is not someone who can be fought alone."

Lu Fa Celestial Venerate looked worried and called out, "Lady Ji, you mustn't take action again. The more people take action, the stronger the Sword Monarch King will become. Since he's already so furious, if you act again, the situation may become even worse."

"But if I don't act now, wouldn't Brother Yang Chen be in danger?" Ji Yue Shuang furrowed her eyebrows.

But just as she thought this, Yang Chen calmly said, "Miss Ji, I appreciate your concern, but there's no need for you to intervene."

He also did not want the strength of the Sword Monarch King to increase any further.

His current strength was already giving him a headache, increasing it would make him cough up blood.

Ji Yue Shuang widened her eyes in disbelief – could it be that Yang Chen still had some hidden means?

While talking, Yang Chen struck again with another palm.

"Five Elements Turn Heaven Palm, suppress again!"

Yang Chen's expression was indifferent, completely focused as he unleashed the second Five Elements Turn Heaven Palm.

When the second Five Elements Turn Heaven Palm descended, it was even more powerful and astonishing than the first one.

Just as the Furious Sword King was about to escape from the first Five Elements Turn Heaven Seal, the second one descended, instantly suppressing him once again and making it impossible for him to escape.

However, Yang Chen's expression did not show any relief.

He kept controlling the palm force, maximizing its power, but the strength of the Furious Sword King was truly exceptional.

Even when the second Five Elements Turn Heaven Palm struck, it was still unable to suppress the Furious Sword King steadily.

Under the various restrictions of the Five Elements Turn Heaven Palm, Furious Sword King seemed to have the intention of breaking free once again. Yet, Yang Chen did not move, but simply moved his finger slightly.

With a roar, the Furious Sword King suddenly broke open a large gap in the Five Elements Turn Heaven Palm.

This shocking sight made Lu Fa Celestial Venerate and the others gasp, as Yang Chen's extraordinary methods surely would have utterly suppressed an ordinary Heaven-separated Realm cultivator. And now, the Furious Sword King was able to break free?

What should they do now?

As they were nervous, a flying sword suddenly attacked from the distance.

The flying sword pierced through with a strikingly fierce posture, directly cutting through the Furious Sword King's body. In an instant, Sword King's body was completely disintegrated, turning into nothingness.

Then, the flying sword returned to Yang Chen's hand, and with a slight shake, it merged into Yang Chen's fingertip and disappeared.

As for the Furious Sword King, he was completely transformed into dense Sword Law particles.

Although they were particles, these Sword Law particles were now bright red, completely different from the previous Sword Servant's Sword Law.

These Law particles appeared in everyone's line of sight, clearly emitting an enticing and powerful aura. As the people looked, their eyes were filled with fiery expressions.

"These Law particles of the Furious Sword King are even more intense than those of ordinary Sword Kings?" Lu Fa Celestial Venerate exclaimed in horror.

Their three gazes were filled with desire, but having lived so long, they were all rational people who knew that although this treasure was right at their doorstep, they couldn't touch it at all.

In an instant, their attention turned to Yang Chen and Ji Yue Shuang.

Yang Chen spoke calmly, "Miss Ji, don't you need these Law particles?"

Ji Yue Shuang, despite her thick skin, blushed at this moment, saying, "Young Master Yang Chen is joking, these Law particles were produced by you, how could I take them? They naturally belong to you."

"These Law particles are indeed tempting, but since Miss Ji came here for them, I shouldn't monopolize them. How about this, Miss Ji. I will keep a portion of these Law particles for you. If you really feel uneasy about it, you can exchange something of equal value with me later," Yang Chen said indifferently, seeing that Ji Yue Shuang was not one to take advantage of others.

Upon hearing this, Ji Yue Shuang's eyes brightened, and she said softly, "That's very kind of you. In that case, Young Master Yang Chen, please take these Law particles back first, and we can discuss this matter later."

At the sight of this, Lu Fa Celestial Venerate and the others couldn't help but envy and jealousy.

Although they had suspected earlier, they didn't expect Ji Yue Shuang to be so respectful to Yang Chen. This was a treatment they could never get. Who was Ji Yue Shuang? A Core Disciple of the Divine Night Sect!

However, their vision was still good, so they hurriedly said, "Brother Yang Chen, Lady Ji, as hosts, our Yunhua Sect would like to hold a grand feast to celebrate the killing of this Furious Sword King."

"Hmm, thank you for your trouble," Ji Yue Shuang wanted to take this opportunity to inquire about Yang Chen's background.

If Yang Chen was really only ranked last in the Daluo Celestial Stele, she would certainly care, but not take it too seriously.

However, the combat power Yang Chen demonstrated just now allowed anyone who wasn't blind to vaguely guess that he must be ranked among the top few on the Daluo Celestial Stele.

Soon, Lu Fa Celestial Venerate quickly arranged the feast.

However, for cultivators of their stage, this so-called feast was just of trivial importance and wasn't worth mentioning.

Ji Yue Shuang was just taking this opportunity to ask Yang Chen more questions.

It seemed that now, at the beginning of the feast, even before the fine wine was toasted, she had already shown great interest in Yang Chen.

Chapter 3124 Arriving at the Divine Night Sect_1

Ji Yue Shuang was most curious about Yang Chen's background, and he didn't hide anything on this matter. He told her everything he knew, from his origins in the Lingnan Two Realms, and so on.

However, the Lingnan Two Realms were not well-known, so even when Ji Yue Shuang learned of them, she didn't know much about this plane.

Next, Ji Yue Shuang asked a few more questions about Yang Chen, but since they were not important, he didn't hide much.

Afterward, Ji Yue Shuang grew serious and asked the question she most wanted to ask: "Brother Yang Chen, earlier, when I saw you in action, your Dao Intent was exceptional. Do you possess the strongest Dao Intent?"

Yang Chen touched his chin and fell into deep thoughts.

Afterward, he nodded and said, "Yes, I do possess the strongest Dao Intent."

Although this strongest Dao Intent was very precious, there was no need to hide it with his current level. Moreover, Ji Yue Shuang didn't know that he had three types of the strongest Dao Intent within him.

Hearing Yang Chen's admission, Ji Yue Shuang's pupils shrank, and she couldn't help but become extremely astonished.

She fully understood what the strongest Dao Intent represented.

That's why Ji Yue Shuang shook her head slightly and sighed with emotion, feeling that there were always higher peaks in the world. Although she originally thought of herself as excellent and outstanding, she realized that she was still lacking compared to Yang Chen.

However, when she thought about Yang Chen's strongest Dao Intent, Ji Yue Shuang showed a rare smile, and said softly, "Brother Yang Chen, my Divine Night Sect loves to recruit talented people like you. To deal with matters related to the law essences, I need to go back to the sect. Why don't you follow me

back to the Divine Night Sect as a guest? I believe my master would be very pleased once he learns of your arrival."

Yang Chen understood Ji Yue Shuang's intentions, but he didn't forget his current priority.

In an instant, he said, "Miss Ji, I can only appreciate your invitation to visit the Divine Night Sect in my heart."

Lu Fa Celestial Venerate and the other two didn't interrupt, but their ears were pricked up, and they listened attentively.

When they heard Ji Yue Shuang invite Yang Chen to be a guest at the Divine Night Sect, they were green with envy. Who could enjoy such treatment?

They dreamt of going to the Divine Night Sect, but they didn't have the qualifications to do so.

If Ji Yue Shuang said those words to them, they would have agreed immediately without hesitation, running faster than anyone else.

However, Yang Chen simply refused the invitation outright.

Ji Yue Shuang seemed genuinely surprised: their Divine Night Sect was a top force and a core pillar of humanity; who would dare resist them?

And yet, Yang Chen declined an invitation from such a top force?

Yang Chen saw Ji Yue Shuang's confusion and knew that if he didn't offer an explanation, it would be difficult to save face.

He said lightly, "Miss Ji, don't misunderstand. I have important matters to attend to; I need to find someone and my lost life-bound divine artifact. I came to Yunhua Sect earlier hoping that Brother Lu Fa

and the others would help me with these matters. If I can't find them, I'll be restless, so I must decline your invitation."

Ji Yue Shuang smiled gently: "Young Master Yang Chen, you're worrying too much. I can personally guarantee that the Divine Night Sect will take care of your matters concerning the life-bound divine artifact and finding someone. Why bother asking for Yunhua Sect's help? With the manpower and resources of my Divine Night Sect, the efficiency in handling such matters would be several times greater."

Although they were talking down about their own sect, Lu Fa Celestial Venerate and the others still flattered and laughed, "Yes, Brother Yang Chen, it would be a hundred times more efficient for the Divine Night Sect to help with the search."

Yang Chen hadn't expected that he would have such an influence, making Ji Yue Shuang go this far.

However, he had never liked taking advantage of others, so he said, "Miss Ji, if you can help me with this matter, I will give you the Law particles as a reward."

"Then it's a deal between Young Master Yang Chen and me." Ji Yue Shuang smiled happily, "Since I'm going back to the sect now, why don't you come along with me?"

Seeing that Ji Yue Shuang wanted to leave immediately, Yang Chen only laughed and thought this woman made swift and decisive decisions without hesitation.

He had nothing more to say, so he stood up and said, "Alright, Miss Ji, please lead the way."

Ji Yue Shuang and Yang Chen left without lingering.

As for Lu Fa Celestial Venerate and the other two, they watched Yang Chen leave with envy in their eyes.

However, Ji Yue Shuang didn't mistreat them. As she was in a good mood, she made a promise to Lu Fa Celestial Venerate and the others before leaving. She promised to put in a good word for Yunhua Sect in front of her master.

Even so, they laughed joyfully, knowing that even a few kind words would be of the utmost importance to Yunhua Sect.

Recalling the whole ordeal, the three of them sighed with emotion, not expecting that their small Yunhua Sect would be visited by Yang Chen and Ji Yue Shuang, two great figures from the Great Luo Celestial Stele.

...

And so, time passed quickly while Yang Chen and Ji Yue Shuang left. A month went by in a flash.

Yang Chen couldn't help but marvel at the vastness of the Star Plane, which was much larger than the Lingnan Two Realms. Even combining the two Lingnan Realms wouldn't be enough to compare to this plane's size.

Traveling from Yunhua Sect to the Divine Night Sect took a month's time.

Yang Chen's soul dispersed, but he still couldn't observe this plane clearly during the journey.

Finally, a month later, Yang Chen and Ji Yue Shuang stopped in front of a majestic waterfall.

"We're here. This is the Divine Night Sect," Ji Yue Shuang said with a smile.

Yang Chen looked around in confusion, unable to see through the surroundings.

This mountain waterfall was shrouded not by the red sun but by a moonlit night sky, which cast a nocturnal scene around the waterfall.

Yang Chen understood this part but was most puzzled by the fact that there were no people around.

Sect? There were no signs of a sect, let alone people.

Yang Chen could only helplessly say, "Miss Ji, don't play a joke on me. Where is the Divine Night Sect? There's no one here."

Ji Yue Shuang laughed lightly, as if surprised that Yang Chen would ask such a question.

Instead of explaining more, she took out a token and shone a light on the night sky at the bright moon.

Chapter 3125 Independent World_1

The next moment, the moon in the sky above emitted a huge light, and a beam of light shined down, falling on the two of them.

"What is going on?" Yang Chen looked up and sensed the moonlight, realizing something.

This moonlight seemed like a passage, beckoning the two of them.

Ji Yueshuang flashed a charming smile: "Please, Young Master Yang Chen."

Yang Chen understood in an instant, guessing that the Divine Night Sect likely had a hidden secret.

He and Ji Yueshuang followed the moonlight, going straight into the moon above the vault of heaven.

When they arrived on the moon, what Yang Chen saw was a door of light. No, to be more accurate, this bright moon was actually a door.

The two of them merged into it and disappeared from the original space in an instant. When they reappeared, they had arrived in a completely different place.

To be more specific, they should be in another plane now.

This separate plane was similar to the Jian Nu World he had previously visited.

"It's another independent world?" Yang Chen finally understood, looking around, folding his hands behind his back, and couldn't help but say, "I see. The powerful ones in the Divine Night Sect are indeed extraordinary, having directly created an independent world as the sect."

"All thanks to the blessings of our Ancestors," Ji Yueshuang said softly.

Yang Chen felt waves of emotion in his heart. Apart from anything else, this world was vastly different from the Jian Nu World he knew.

How to describe it?

The Jian Nu World seemed more solemn and had a singular theme. However, this world was different. It was not just a monotonous law; compared to the Jian Nu World, there were more types of laws.

Although it was still somewhat lacking compared to the planes of the outside world, it was almost indistinguishable unless one observed closely.

"Such a masterpiece is truly like an act of divine intervention..." Yang Chen sighed with emotion.

Looking at such a world unfolding before him, Yang Chen knew that he was too insignificant in front of such powerful beings in the Heavenly Extreme Realm.

Not only in strength but also in ability, there was a world of difference.

Now, looking ahead, a vast world was entirely the territory of the Divine Night Sect, with many people, a vast expanse of land, clouds covering the sky, mountains surrounding it, beautiful sunshine, and picturesque scenery.

As soon as the two arrived, two cultivators dressed as guards in armor approached.

These two guards had quite advanced cultivation levels, reaching the Great Ascension Stage. When they saw Ji Yueshuang, they immediately bowed respectfully: "Greetings, Lady Ji."

Ji Yueshuang nodded calmly, not saying much to these guards, leading Yang Chen all the way in without anyone stopping them.

The number of cultivators in the Divine Night Sect was enormous. At a glance, there were cultivators everywhere, but their cultivation levels and positions varied.

Comparatively, it seemed that most of them were of servant status; at least, as Ji Yueshuang passed by, there were respectful greetings almost all the way.

And Ji Yueshuang, in front of the servants, showed her cold and frosty demeanor. The servants respected her, but she was sparing with her words, not saying much.

Like this, they entered a magnificent city ahead. Only then did Ji Yueshuang lead Yang Chen to a mansion with obviously beautiful scenery and stopped.

"Lady Ji."

"Lady Ji!"

The nearby servants and maidservants saw Ji Yueshuang arrive and all bowed respectfully, showing enough reverence.

These maidservant cultivators all had significant cultivation levels. The weakest among them also reached the Enlightenment Stage, and some even reached the Nirvana Stage.

However, they were all very respectful in front of Ji Yueshuang.

"Young Master Yang Chen, please stay here for now. If you have any needs during these days, you can order the servants here. This city is called Tian Yao City, and you can take a walk around. If there is any

trouble, just call out my name. You all, this person is an honored guest of our Shenyue Sect. You must treat him well, understand?" Ji Yueshuang said at last, giving a stern look to these servants.

"We understand." The servants all bowed their heads.

Yang Chen secretly sighed at the sight.

Although Ji Yueshuang was not a bad person, the sense of superiority ingrained since her youth was deeply rooted in her bones.

She had always been indifferent to these servants. After giving them a cold command, she smiled warmly at Yang Chen: "Brother Yang Chen, I need to report our matter to my master. As for finding someone for you, if my master agrees and knows about it, it should be easy with his connections and resources. For now, I'm sorry to inconvenience you for a few days."

"It's nothing. Miss Ji, please do as you wish." Yang Chen replied.

Only then did Ji Yueshuang leave.

These maids and servants looked at Yang Chen with both amazement and awe, not knowing who he was to be called a guest of the Divine Night Sect.

Yang Chen settled into the mansion.

These maids and servants naturally served him well, and even in the evening, two maids sneaked up to him.

"What are you doing?" Yang Chen asked in confusion.

"Master Yang Chen, we wonder if you need us to serve you in bed?" The maids asked hesitantly.

Yang Chen couldn't help but laugh at the thought that these maids would say such things.

It seemed that the status of these maids was even lower than he had imagined.

"There's no need for that." Yang Chen waved his hand, naturally not accepting. He wasn't that casual.

The two maids looked disappointed with a heavy heart, thinking that if they could win Yang Chen's favor, they would surely soar. Unfortunately, with Yang Chen's status, how could he be interested in the two of them?

But they got it wrong.

These two women, as cultivators at the Nirvana Stage, were also quite beautiful. If they were placed outside, they would be lovely flowers that countless people would fight to possess.

This was also a point where Yang Chen was quite puzzled and curious about the Divine Night Sect. Seeing the two disappointed figures leaving, he said, "Don't rush away, wait a moment."

The two maids heard there was a turn of events, and immediately said joyfully, "Has Master Yang Chen changed his mind?"

"No, you misunderstood. I want to ask you some questions. If you answer truthfully, these few elixirs will be given to you." Yang Chen turned his wrist, and several elixirs emitting Immortal Qi appeared in his hand.

Actually, he didn't want to give out such precious elixirs, but the maids of the Divine Night Sect were quite different. If he wanted to get more accurate and specific information, he had to be a bit more generous.

When the two maids saw the elixirs, their faces lit up with joy, unable to believe their eyes.

"Are you really giving these elixirs to us?" The two ecstatic maids said, "Master Yang Chen, we will tell you everything we know if you ask."

Chapter 3126 Hundreds of Billions of People!_1

Yang Chen saw that the two of them looked eager and asked with a slight smile, "What are your names?"

The two maids thought Yang Chen was going to ask something else, but he started by asking their names, so they answered truthfully.

"My name is Chunyue."

"My name is Ling Shuang."

Yang Chen nodded after hearing their replies, "Among these servants, only your cultivation has reached the Nirvana Stage, while the others are only at the Enlightenment Stage. So, are you two in charge of the other servants in this area?"

Ling Shuang nodded heavily, "Our cultivation is higher, so we usually manage the servants in this area."

It was only then that Yang Chen understood why these two had come to ask if he needed anyone to serve him in bed.

After thinking for a while, Yang Chen said indifferently, "With your Nirvana Stage cultivation, even if you were in the outside world and doing poorly, you wouldn't be in this situation, just being a servant, enduring hardships like this, right?"

Chunyue and Ling Shuang did not know why Yang Chen would ask these questions because they had never been asked them before.

It was Chunyue who spoke this time, her big eyes blinking as she thought for a while before saying, "With mine and Ling Shuang's cultivation, even if we did poorly in the outside world, at least we would be more respected than we are here."

"So, why are you both still here, subjecting yourselves to others' will, even doing things like serving in bed?" Yang Chen asked in surprise.

Both Ling Shuang and Chunyue misunderstood his meaning and thought he was implying something else, and they hurriedly explained in panic, "Sir Yang Chen, please don't misunderstand, although we are willing to serve in bed, we have never done so before. If we had any records of serving in bed, we wouldn't be allowed to present ourselves. So now we are still virgins, Sir Yang Chen, feel free to enjoy us."

After saying that, both Ling Shuang and Chunyue's cheeks were flushed, filled with shyness.

Yang Chen really didn't expect the two to suddenly change the subject, and said helplessly, "Where are your thoughts going? Just answer my previous question."

Ling Shuang and Chunyue also realized that they had misunderstood Yang Chen's meaning and their cheeks turned even redder.

"Sir Yang Chen, we were foolish. As for your question, we don't know how to answer. It is indeed more honorable to be in the outside world, but being a servant here provides countless opportunities to choose from."

After saying that, Ling Shuang bit her lip, "If we serve those important guests well, we might be rewarded with treasures, and opportunities may come, status will rise, and we can achieve success and a life without worry. For example, both Chunyue and I had only reached the Spirit Plate Stage in our cultivation before we came here. But after several thousand years in this city, we have already reached the Nirvana Stage. Such opportunities are impossible to have in the outside world."

Yang Chen was slightly surprised, so it seems that this place is similar to the plane where he was before, where some powerful forces were willing to humble themselves for opportunities.

Why? Just for the sake of opportunity.

Being a local chicken here would be more desirable than being a phoenix in the outside world. People's ambitions and desires have no boundary.

"In some rare cases, sisters are favored by some important people and become their concubines, thereby changing their destiny." After saying this, both of them looked up at Yang Chen, hoping that he could take pity on them and keep them by his side to change their destiny.

Considering Ji Yue Shuang's attitude, Yang Chen must be an important figure.

Unfortunately, Yang Chen remained unmoved, nodding his head thoughtfully as he listened to their answers.

"So it seems that being a servant in the Divine Night Sect would be much higher in status compared to ordinary people." Yang Chen said with a wry smile.

Ling Shuang and Chunyue looked at each other and nodded, but they soon added with embarrassment, "Sir Yang Chen is right, but..."

"But what?" Yang Chen asked.

"But we are not servants of the Divine Night Sect." Ling Shuang said bitterly.

Yang Chen was taken aback, "What do you mean?"

"Strictly speaking, we do not have the qualifications to be servants in the Divine Night Sect. Whether in cultivation, appearance or status, we are far from being qualified to go and serve in the Divine Night Sect." Ling Shuang and Chunyue sighed when they talked about this.

For a moment, Yang Chen couldn't help but laugh and cry, not expecting that he had underestimated the Divine Night Sect.

He exclaimed in surprise, "So, strictly speaking, am I not a part of the Divine Night Sect in this city?"

Ling Shuang explained gently, "Sir Yang Chen, you may not know that this city is called Spirit Emperor City and is only used to entertain foreign cultivators. There are at least hundreds of similar powers in the Divine Night Realm, and although not officially part of the Divine Night Sect, they are all under its influence."

"So where is the Divine Night Sect located?" Yang Chen asked in confusion.

"The Divine Night Sect is located on Crescent Moon Summit at the center of this dense city. Only that place can be called the Divine Night Sect. As for the periphery of the Divine Night Sect, many foreign cultivators are mixed amongst the rest. These foreign cultivators have various motives, some wish to join the Divine Night Sect, others seek opportunities in this plane. These cultivators have different cultivation levels, the strong ones have even reached the Sky-separation Realm, while the weaker ones have not yet reached the True God Realm."

Seeing that Yang Chen was approachable at the moment, Ling Shuang and Chunyue began talking, taking turns to speak with a gentle smile, "Places like ours are considered high-ranking areas of the Spirit Emperor City. Generally, only Sky-separation Realm cultivators who come here can be attended by servants like us."

Upon hearing this, Yang Chen understood the situation.

It turned out that the Divine Night Realm had so much to it.

"There are even powerful Sky-separation Realm experts, and it seems they also cannot enter the Divine Night Sect. Is it so difficult to join the Divine Night Sect?" Yang Chen asked with doubts.

"Of course, every year the Divine Night Sect has clear rules and only selects a hundred people from the hundreds of billions of cultivators in the hundreds of cities to enter the sect. Among these hundred people, there are countless clashes among the strong, including those of the Sky-separation Realm. However, the Divine Night Sect's recruitment doesn't just depend on cultivation level, many other factors are considered as well." the two maids said one after another.

Having said these things, the two of them looked at Yang Chen with astonishment. Just so you know, even those Sky-separation Realm experts definitely couldn't be called guests of the Divine Night Sect by Ji Yue Shuang.

Yang Chen nodded and recalled the earlier scene where the Gold Leisure True Person had turned up his nose at the Sky-separation Realm experts of the Lingnan Two Realms.

It seemed that both the Grand Abyss Palace and the Divine Night Sect had a dismissive attitude towards those Sky-separation Realm experts.

Because of this, he had become increasingly curious.

There must be a reason why the Divine Night Sect was so difficult to join, with so many people flocking to it.

The only question was whether the sect had the Ten Thousand Laws Dao Embryo Secret Art he needed...

Chapter 3127 Emperor Divine Tool Evolution_1

As for now, I don't want to think too much about it.

Yang Chen had already gathered enough information and had a general idea in his mind.

"Take these two elixirs. I will call you when I have assignments for you. You may leave now." Yang Chen waved his hand slightly, signaling for the two people to leave.

Ling Shuang and Chun Yue took the elixirs, looked closely at them, and couldn't help but have their eyes shining with excitement. They knew the value of these elixirs, so they happily left.

Yang Chen sat cross-legged on the bed and began to ponder.

After making a rough plan, he took out the Nine Heavens Wind and Thunder Sword again.

He hadn't had the chance during the journey, but now he had the opportunity to infuse the Furious Sword King particles he had obtained earlier into the Nine Heavens Wind and Thunder Sword.

As for Ji Yue Shuang's share, he had already set it aside.

The law particles of the Furious Sword King felt obviously different, so he needed to refine them well.

With this in mind, Yang Chen gently waved his hand and directly grabbed a bunch of essence particles, incorporating them into the Nine Heavens Wind and Thunder Sword.

Crackling and hissing sounds lingered in Yang Chen's ears.

Soon after, amidst the numerous overlapping sounds, the crimson particles began to integrate into the Nine Heavens Wind and Thunder Sword.

The Nine Heavens Wind and Thunder Sword seemed to be honed sharply, and its entire sword body seemed to be infected by the law particles, becoming fierce and frightening.

Yang Chen sensed the difference in the Nine Heavens Wind and Thunder Sword but didn't pay much attention to it, continuing to embed the furious law particles into it.

The more he infused, the more he felt the Nine Heavens Wind and Thunder Sword was undergoing a metamorphosis.

To be precise, it was going through a transformation process, and this process required these furious red law particles.

Yang Chen sensed the call of the Nine Heavens Wind and Thunder Sword and threw the law particles into it bit by bit.

The Nine Heavens Wind and Thunder Sword quickly devoured the law particles without wasting any of them.

When he had almost reached a certain degree, suddenly, a loud boom sounded.

The entire aura of the Nine Heavens Wind and Thunder Sword changed dramatically, and a large amount of red light burst out, shooting straight into the sky.

This beam of red light appeared for a moment and then disappeared, leaving no trace of what had happened.

But when Yang Chen touched the Nine Heavens Wind and Thunder Sword again, he could clearly sense that this sword was no longer the same as an ordinary Emperor Divine Tool.

"Ancestral Divine Artifact?" Yang Chen said with a puzzled expression on his face.

However, he quickly shook his head.

Although this divine artifact was significantly different from the Emperor Divine Tool, it still fell short of being an Ancestral Divine Artifact.

It seemed to be somewhere between an Emperor Divine Tool and an Ancestral Divine Artifact?

Yang Chen was unsure because he had never heard of any classification of divine artifacts between an Ancestral Divine Tool and an Emperor Divine Tool.

What could be certain, however, was that the power of the current Nine Heavens Wind and Thunder Sword was undoubtedly incomparable with ordinary Emperor Divine Tools. This sword might become one of his most potent weapons.

The sword emitted a surging killing intent, which made people shudder. It seemed that merely looking at this sword would make one profoundly feel its terrifying sharpness.

"Huh?"

Yang Chen sensed many souls probing him.

"Is it because of the evolution of the Nine Heavens Wind and Thunder Sword just now? It has attracted so many people." Yang Chen's expression turned cold as he suddenly released his aura.

As soon as his aura broke out, those souls who sensed it were frightened and immediately withdrew, not daring to probe any further.

Yang Chen, on the other hand, was looking at the Nine Heavens Wind and Thunder Sword and was incredibly puzzled. He didn't know what kind of qualitative change had happened to the sword.

From the moment the souls came over to take a look, it was obvious that the change in the Nine Heavens Wind and Thunder Sword was not to be underestimated. However, he didn't know how to inquire about it.

"Oh? That's right. In the vicinity of the Divine Night Sect, there should be some places to search for information in these many cities." Yang Chen's thoughts stirred.

After thinking about it, he began to quietly meditate and cultivate.

Two days later, he called Chun Yue and Ling Shuang over and asked them about some places where ancient books could be found.

It turned out that there was a place called Sun Pavilion in Spirit Emperor City where one could access secret ancient books. The Sun Pavilion was located in the central Sky Shadow Market of the Hundred Cities.

The Sky Shadow Market was located right in the center of the Hundred Cities and was one of the three major markets outside the Divine Night Sect.

Each of the three markets had its own style. The Sky Thunder Market was run by the Divine Night Sect and was the most stable. Almost no one dared to cause trouble there.

The Sky Might Market, on the other hand, was controlled by the overlords of the Hundred Cities. Although it was nearly as stable as the Sky Thunder Market, some powerful people occasionally caused trouble there.

As for the Sky Shadow Market, it was the most lively market among the three, made up of numerous loose cultivators. This market offered almost anything one could imagine, but the crowd was a real mix of people, and chaos was the norm. However, because it was easy to find good items there, people kept coming.

Yang Chen didn't really care about the chaos in the Sky Shadow Market. He just wanted to investigate the changes in the Nine Heavens Wind and Thunder Sword.

Three days later, Yang Chen led Chun Yue and Ling Shuang to the Sky Shadow Market.

There were many people in the Sky Shadow Market, and powerful ones were not uncommon. The number of stalls set up along the side of the road was vast. At a glance, one could even see a considerable number of Great Stage cultivators among them.

There were countless Nirvana and Enlightenment Stage cultivators, while the Realmless ones were relatively rare.

As for the Heaven-separated Realm, they were extremely rare and seldom revealed themselves to the public. However, with careful observation, Yang Chen could still spot one or two.

Yang Chen didn't pay much attention to them. After having a general look at the Sky Shadow Market, he headed straight to the Sun Pavilion following Chun Yue and Ling Shuang's directions.

The Sun Pavilion housed many ancient books. To enter it, one needed to pay with the common currency of this plane - Taiyuan Pill.

As for the Taiyuan Pill, Yang Chen had already prepared some in advance. He directly entered the Sun Pavilion and began browsing through the ancient books.

The Sun Pavilion had a considerable number of ancient books. After some searching, Yang Chen actually found some rather rare secrets.

He even found records concerning the effects of his own Way of Ten Thousand Laws.

The ancient book he was currently reading recorded the extremely few unparalleled geniuses throughout the Ten Thousand Realms who had used the Way of Ten Thousand Laws and their records.

"It does agree with what the North Night Dragon Emperor said. It really does enhance one's Dao Intent... And there are different stages of enhancement? The initial stage can only enhance Dao Intent, but after that, other enhancements can be made?"

As he browsed through the book, Yang Chen discovered the records of top experts from the countless years throughout the Ten Thousand Realms who had used the Way of Ten Thousand Laws.

Although there were only a few documented cases, it was still enough.

"Ye Bei Hen once used the Way of Ten Thousand Laws to strengthen his Dark Dao Intent, directly changing a plane's day and night, plunging it into complete darkness without sunlight for three thousand years, filling it with fear for those three thousand years..."

Chapter 3128 High-grade Emperor Divine Artifact_1

Yang Chen couldn't help but inhale sharply when he saw this, his eyes deeply shocked.

How terrifying is this Ten Thousand Law Dao Embryo that a single enhancement can make the Dao Intent and Laws so frightening?

He didn't know how strong Ye Bei Hen was, but he knew that even if the Dark Dao Intent and Laws could be so powerful as to reverse day and night in a plane, they would never be able to twist it to the extent of three thousand years.

This period of time is far beyond the normal level of laws, and could not be achieved unless there is a huge difference in realm strength.

Also!

"In the second era, the most powerful expert, Mu Fei Ying, used the Ten Thousand Law Dao Embryo to enhance the Fire Laws, directly engulfing several Star Domain Interfaces with a single breath of fire, causing a great calamity in the Universe Starry Sky. Even after millions of years have passed, cultivators of the same tier dare not approach."

"In the fourth era, the strong man Yu Ye used the Ten Thousand Law Dao Embryo to enhance the Ten Thousand Beasts Rule, creating a group of ancient beast tribe with life."

In the ancient book, there are not many records, only a few people. Yang Chen glanced at it and roughly understood.

Yang Chen was really shocked by the use of this Ten Thousand Law Dao Embryo and couldn't wait to try it out and feel the power of this Ten Thousand Law Dao Embryo.

Otherwise, having an empty Dao Embryo in one's body but not being able to use it would make one feel quite frustrated.

As for this era, Yang Chen was quite curious and wanted to know what exactly this so-called era meant.

Because the powerful individuals recorded in the ancient book, like the Second Era and the Fourth Era, were completely unknown to him.

Yang Chen knew that his knowledge was limited and had not yet reached the cosmic standard, so he turned to look for other information.

With his powerful soul, he quickly flipped through thousands of ancient books, absorbing their contents in an instant.

As a result, he soon found information about the so-called "era."

"The entire Universe Starry Sky has gone through eight eras, each representing an incredibly long period."

"Usually, it takes hundreds of billions of years for the Universe Starry Sky and the Ten Thousand Realms to end an era. The reason for this era division is that every hundreds of billions of years, the Universe Starry Sky will experience a great calamity. This calamity is a nightmare for the entire Ten Thousand Realms. Some weak Star Domain Interfaces will be shattered into nothingness in the calamity, while some powerful interfaces will suffer a lot of casualties."

"Even the Taiyuan Star System, a powerful domain like that, must not underestimate this calamity. In fact, one calamity could even be enough to make a Heavenly Extreme Realm powerhouse fall. Each calamity marks the beginning of a new era and reshuffles the deck for the entire Ten Thousand Realms."

"With the passage of eight eras, too many things have happened in the entire Universe Starry Sky. Now, it is the ninth era."

Yang Chen was shocked and felt that there was so much hidden knowledge in the Universe Starry Sky.

He knew far too little.

Moreover, it was worth mentioning that the lifespan of the Heavenly Extreme Realm experts seemed to be only one era.

The descriptions in the ancient book were vague and incomplete, which made Yang Chen feel surprised.

"This ancient book outside of the Divine Night Sect is already so rich in content. I don't know what the inside of the Divine Night Sect looks like. There must be a way for me to use the Ten Thousand Law Dao Embryo." Yang Chen thought to himself.

If there is, he would strive for it.

Immediately, Yang Chen began searching again.

In his search, he quickly found an ancient book describing divine artifacts.

"This ancient book seems to have the evolution path of Emperor Divine Tools." Yang Chen immediately read it.

His gaze gradually unfolded as he read it, and as he had guessed, there was indeed an evolution path of Emperor Divine Tools.

At the beginning, he knew that Supreme Divine Tools were nourished and evolved into King Divine Tools and Emperor Divine Tools.

As for the specific steps to evolve Ancestral Divine Artifacts after Emperor Divine Tools, he didn't know.

At a glance, Yang Chen finally understood.

Emperor Divine Tools evolved into Ancestral Divine Artifacts, which required four stages. These four stages were called low-grade, middle-grade, high-grade, and quasi-Ancestral Divine Artifacts!

In fact, strictly speaking, they should be divided into five stages.

Because normal Emperor Divine Tools, without being nourished and evolved, would not even be considered as Low-grade Emperor Divine Tools. Strictly speaking, the Slaughter God Spear would not even be considered as Low-grade Emperor Divine Tools.

Low-grade Emperor Divine Tools and Middle-grade Emperor Divine Tools could be considered as supreme treasures at the Heaven-separated Realm level. At this level, possessing an Emperor Divine Tool of this stage could give one a significant advantage in battle with peers.

Compared to ordinary Emperor Divine Tools, Low-grade Emperor Divine Tools might not show a significant gap, but Middle-grade Emperor Divine Tools far surpassed them!

As for High-grade Emperor Divine Tools, even Heavenly Fate Realm Experts might not have them. And their power is much stronger than that of ordinary Emperor Divine Tools.

As for the Quasi-Ancestral Divine Artifacts, they are the treasures held by Heavenly Extreme Realm powerhouses.

Strictly speaking, Quasi-Ancestral Divine Artifacts already fall into the category of Ancestral Divine Artifacts, but they are not considered as true Ancestral Divine Artifacts. The rarity of Ancestral Divine Artifacts is hard to find in the world, and even Heavenly Extreme Realm powerhouses may not necessarily have them.

The North Night Dragon Emperor, for example, took an unknown amount of time to nourish and create these Ancestral Divine Artifacts.

As for the Nine Heavens Wind and Thunder Sword, it should be considered as a High-grade Emperor Divine Tool after comparing it with the left and right!

In fact, the Nine Heavens Wind and Thunder Sword, when first nourished by King Shenwei, could only be considered as a Middle-grade Emperor Divine Tool, infinitely close to High-grade Emperor Divine Tool, but not yet evolved successfully.

The reason King Shenwei was so concerned about the Nine Heavens Wind and Thunder Sword was because he had only temporarily lent it to his disciple, and in the future, it might be evolved into a High-grade Emperor Divine Tool if nourished well.

However, he didn't expect that Yang Chen would benefit from it.

In reality, evolving into a High-grade Emperor Divine Tool is not easy, but Yang Chen was able to absorb Law particles into it.

These are the Law particles of the Heavenly Extreme Realm powerhouse, which, though nourished for a short time, would easily help break the limit of a Middle-grade Emperor Divine Tool.

"The power of this High-grade Emperor Divine Tool is far superior to that of ordinary Emperor Divine Tools. It's no wonder I think the Slaughter God Spear is no match for the Nine Heavens Wind and Thunder Sword. Unfortunately, I am not a sword cultivator after all, so I can only use this sword as a trump card. The Slaughter God Spear might be slightly inferior, but it is still my main cultivation weapon. I need to find it back as soon as possible." Yang Chen murmured to himself.

When the conversation ended, he continued browsing in the Sun Pavilion for a while.

With his Divine Soul Realm, he could quickly understand many things he didn't know with just one glance.

After he had browsed enough, he took Chunyue and Ling Shuang with him, planning to explore the Sky Shadow Market once again.

Chapter 3129 Danyang Red Snowflower_1

Although the Sky Shadow Market was not organized by the Divine Night Sect, the large crowds made the whole market quite lively, and there was a wide variety of goods being sold everywhere.

At first, Yang Chen didn't think much about it. But after taking a closer look, he discovered that there were indeed some treasures in the market.

However, these treasures weren't very useful to him, so Yang Chen didn't rush to buy anything, but still found the Sky Shadow Market quite impressive.

As for Chunyue and Ling Shuang, they followed quietly behind Yang Chen.

After a short while, Yang Chen suddenly stopped in his tracks.

"Hmm?" With his hands behind his back, Yang Chen noticed an auction house not far from him.

The list of treasures being sold at this auction house really caught Yang Chen's attention and piqued his interest.

Other treasures aside, one of the main lots was an item called Danyang Red Snowflower, which would be of great use to him.

His cultivation was currently stuck at the Late Boundaryless Stage and unable to recover to the Peak of No-Boundary.

Actually, his current peak state was at the Peak of No-Boundary, but it was only temporarily lifted during the Black Hole incident, so it is not very stable at the moment.

Therefore, it wasn't easy for him to steadily return to that stage.

Yang Chen had been thinking about using some elixirs to target his cultivation and enhance it. The Danyang Red Snowflower was one of the main ingredients he needed for the elixir.

However, Yang Chen had never had high expectations for finding the Danyang Red Snowflower, as there were very few plants in the entire Lingnan Two Realms. He had only heard about its effects from ancient books, but had never seen it before.

To his surprise, his luck was good, as he encountered it here.

If he had the Danyang Red Snowflower, it wouldn't be a big problem for him to boost his cultivation to the Peak of No-Boundary at once.

With that in mind, Yang Chen led Ling Shuang and Chunyue into the auction house.

As soon as they entered, several cultivators intercepted them.

These cultivators were all at the high level of the Nirvana Stage, and seeing that Yang Chen had no fluctuations in his Qi, they thought he was a low-ranked young cultivator who came from nowhere.

"Daoist friend, to participate in this auction, you need to have at least a Nirvana Stage cultivation level. I wonder if you meet the requirements?" The few Nirvana Stage cultivators asked in surprise.

Yang Chen nodded calmly, "Well, I believe I can meet the requirements of your auction house."

"Besides, we would like you to show us some Taiyuan Pills to prove your eligibility. We don't mean to pry into your private affairs, but recently there have been some shady characters in the auctions. We hope you can understand." These cultivators were all serious in their expressions.

Yang Chen glanced at them and asked indifferently, "How many Taiyuan Pills are required to participate in your auction?"

"At least one million," several Nirvana cultivators replied calmly.

For a moment, Yang Chen was speechless. He shrugged his shoulders, realizing that he didn't have that many Taiyuan Pills on him.

Although he had exchanged some before, it was only a small amount, and most of them had been used to access ancient books in the Sun Pavilion. He really didn't have that many left now.

"Fellow Daoists, I don't have one million Taiyuan Pills, but I can exchange other items for Taiyuan Pills. Your auction house should have the ability to do that, right?" Yang Chen casually asked.

However, the cultivators looked at each other and then said coldly, "Do you think you can make fun of us? You haven't shown any Dao Intent Inscriptions for us to evaluate your cultivation and you can't even take out one million Taiyuan Pills. Do you really think our auction house is something you can play with? Believe it or not, we're going to teach you a lesson right now."

Yang Chen raised an eyebrow and smirked to himself, thinking that the chaos in the Sky Shadow Market was not a joke after all.

But to his surprise, before he could speak, Ling Shuang and Chunyue scolded, "You worthless people with dog eyes, it's an honor for our master to come to your auction house."

As they spoke, Ling Shuang and Chunyue revealed their own Nirvana Stage cultivation, which shocked the group of cultivators and made them take a few steps back.

"What, even the maids are..."

The cultivators were taken aback, only now realizing that the maids beside Yang Chen also had Nirvana Stage cultivation levels.

At this moment, Chunyue, holding a token in her hand, shouted, "Open your dog eyes wide and see what this is. How dare a mere auction house look down on people?"

The cultivators of the auction house looked at the token in Chunyue's hand and exclaimed, "Turns out it's the guest from High-grade Resting Area. We were disrespectful, please forgive us. Sir, please let us apologize to you."

Upon seeing the token, these cultivators were dumbfounded.

They were well aware of the kinds of people who stayed in the High-grade Resting Area, where the minimum cultivation level was No-Boundary, and some even reached the Heaven-separated Realm.

Moreover, someone who had two Nirvana Stage maids was probably not a simple No-Boundary cultivator.

They really didn't dare to offend such important figures, who they rarely encountered in their auctions.

Yang Chen spoke calmly, "I am indeed a little short on Taiyuan Pills right now. I'd like to sell some items directly at your place for Taiyuan Pills. That shouldn't be a problem, right?"

"Of course, of course. Please come with me, sir." The cultivators' attitude toward Yang Chen changed significantly.

Yang Chen also changed his attitude towards Ling Shuang and Chunyue slightly. Although they were just maids, they had good eyes and helped him avoid a lot of trouble.

Now, following the cultivators deep into the auction house, an old man with white hair soon came to see him.

"This junior is an elder of this auction house, Lei Jie. I have met with senior. I don't know what treasures senior would like to sell. Our auction house will surely offer you the fairest price." The old man said with a fawning smile.

Yang Chen looked at the old man and remained emotionless. He said, "I have several King Divine Weapons and many Immortal Grade Pills here. Exchange them for Taiyuan Pills."

As he spoke, Yang Chen threw out a Storage Bag.

Over the years, he had killed countless powerful ones and had collected numerous King Divine Weapons. As for the Supreme Divine Weapons, he had even more in his possession. Coupled with the Immortal Grade Pills, it wouldn't be a problem to exchange them for Taiyuan Pills.

Lei Jie took a quick look at the Storage Bag, and his mouth opened wide, inhaling a breath of cold air.

"Se, senior, please allow this junior to help you with the calculations." The elder's lips trembled as he was truly stunned by Yang Chen's treasures.

So, Yang Chen really was a formidable figure living in the High-grade Resting Area. Selling so many items at once?

Chapter 3130 Sixteen Kings_1

Not daring to delay, he immediately started calculating with all his heart and soul.

After about a dozen breaths' worth of time, Lei Jie tremblingly said, "Senior, these things can probably be sold for two hundred million Taiyuan Pills."

Hearing this, both Ling Shuang and Chunyue couldn't help but gasp in cold air, their eyes widening in shock.

Although they knew that Yang Chen's status was extraordinary, they never expected that he would casually trade a huge amount of Taiyuan Pills.

They were very clear that even ordinary Boundaryless cultivators didn't have this much wealth, let alone easily trade so many Spirit Stones.

What was the identity and strength of Yang Chen?

Lei Jie also wore a smile, extremely respectful as he asked, "Senior Yang Chen, would you like to take them now or wait until after the auction is over?"

"Let's wait until after the auction is over." Yang Chen wasn't in a hurry. It wouldn't be too late to get the remaining Taiyuan Pills after the auction.

Lei Jie immediately led the way: "In that case, Senior, please come and rest at the Cui Xuan Pavilion first. The auction will be in half a month, and you can rest here for that time."

Yang Chen nodded, having no objections to this.

The scenery in Cui Xuan Pavilion was quite good. Cultivating here for half a month would pass in the blink of an eye.

And so, Yang Chen settled down in the Cui Xuan Pavilion temporarily.

Half a month was like an instant for cultivators.

As Yang Chen cultivated here, it felt like he had only closed his eyes briefly. By the time he opened them, half a month had passed, and the number of people at the auction had increased significantly.

Not everyone was like him, with the qualification to stay and cultivate in the Cui Xuan Pavilion. Most people could only sit downstairs.

Looking around, Yang Chen could see many cultivators among them.

Among them, there were quite a few Boundaryless cultivators with noble identities like him, who were also arranged in elegant rooms similar to his.

When most of the cultivators had arrived and the time was coming to an end, the auction officially began.

Yang Chen didn't pay much attention to the auction process. He knew about the treasures being auctioned, but he was only interested in the Danyang Red Snowflower.

Just like that, he patiently waited.

There were a few enticing items at the auction that caused the cultivators to scramble and continue increasing the prices.

However, Yang Chen ignored them all, leaving Chunyue and Ling Shuang in the dark about his target.

In less than half a day, the auction finally reached its climactic stage.

This caused the calm and composed Yang Chen's eyes to reveal a touch of excitement.

"Next, we have the first finale treasure of our auction. This treasure is called Danyang Red Snowflower, which everyone is aware of. As alchemy material, it is a top choice, extremely rare. Our Chamber of Commerce has spent a huge price to obtain it. The starting price is 10 million, with each increase in price no less than 1 million."

The host of the auction was the familiar Lei Jie. With just one sentence, the auction reached its climax.

"The Danyang Red Snowflower is a great item. As alchemy material, it is truly all-around."

"Hehe, as an Alchemist, I must compete for this Danyang Red Snowflower. I bid 15 million Spirit Stones."

"Haha, Master He, do you think you can get the Danyang Red Snowflower for just 15 million Spirit Stones? That's naive. I bid 20 million."

"Master Ming, are you trying to compete with me?"

These cultivators argued incessantly, making it difficult to determine a winner.

Yang Chen, however, just watched from the sidelines, not in a hurry to make a move.

The price continued to soar from the initial 10 million, quickly rising to 25 million, 30 million, and 40 million!

When the price reached 40 million, the number of people continuing to increase bids finally dwindled. At this moment, a seemingly gentle voice tinged with a hint of coldness spoke up softly.

"This Danyang Red Snowflower, this seat wants it. Fifty million!"

When the conversation ended and the price reached 50 million, the noise at the scene gradually subsided.

"It's Yanhe Celestial!"

"Why would Yanhe Celestial come to this kind of auction?"

"It seems he came specifically for this Danyang Red Snowflower."

"This... "

For a moment, the scene quieted down. The intimidating presence of Yanhe Celestial was undoubtedly astonishing. It seemed that just by speaking, nobody else was willing to raise the price and compete with him.

Of course, Yang Chen could also see that Yanhe Celestial had quite a reputation, but he had plans for the Danyang Red Snowflower and wouldn't easily give in. He calmly said, "Ling Shuang, Chunyue, you may increase the price. Just call for 55 million."

"Young Master, are you sure you want to increase the price?" Chunyue asked in surprise.

Yang Chen rubbed his eyebrows, "Is there any problem?"

"This Yanhe Celestial is backed by the Lord of Dusk." Chunyue bit her lip, her eyes showing a hint of fear when mentioning the Lord of Dusk.

"And then?" Yang Chen's expression was gentle, with a slight smile.

Seeing this, Chunyue and Ling Shuang were dumbfounded. But they soon remembered that Yang Chen was unaware of these matters.

Ling Shuang bit her lip and explained, "Young Master, do you know about the three Heavenly Kings and sixteen Earthly Kings within the Divine Night Sect's Hundred Cities? The three Heavenly Kings are secondary members of the Divine Night Sect, and their cultivation levels are all outstanding among the Heaven-separated Realm. They are considered half-members of the Divine Night Sect, while the sixteen Earthly Kings are the sixteen strongest Heaven-separated Realm cultivators selected from among loose cultivators. These sixteen, although not considered members of the Divine Night Sect, practically control the size of a hundred cities and are known as the local tyrants under the Divine Night Sect."

"The Lord of Dusk is one of the sixteen Earthly Kings," Chunyue followed, the implication clearer than ever.

They were worried that Yang Chen wouldn't be able to provoke the Lord of Dusk.

Yang Chen rubbed his eyebrows and revealed a hint of a helpless smile.

He appreciated the kindness Ling Shuang and Chunyue showed, but unfortunately, the Lord of Dusk was not someone he needed to fear.

"You two don't have to worry about these things. Just bid," Yang Chen waved his sleeve.

Hearing that Yang Chen still wanted to increase the price, both Ling Shuang and Chunyue were dumbfounded. However, since Yang Chen had said as much, they had no objections and opened their mouths to call out the prices.

"Fifty-five million!"

Just when everyone thought that the dust had settled and the Danyang Red Snowflower was about to fall into Yanhe Celestial's hands, Ling Shuang and Chunyue's bid of 55 million Spirit Stones, caused everyone to show expressions of astonishment.
