

## **Supreme MK 3171**

### Chapter 3171 Mo Wanchou's Thoughts\_1

At the same time, far away, within the Ten Nights City!

Mo Wanchou's resting place for recuperation could be seen, and Mo Wanchou had already completely recovered by now. He just announced to the outside world that he still had injuries that had not yet been healed.

Now Mo Wanchou was standing on the high platform, mumbling to himself, and unexpectedly, a colorful realistic painting appeared before his eyes.

Wasn't this scene exactly what was happening at Yang Chen's location?

Now, Mo Wanchou was watching as Yang Chen remained unharmed, even being surrounded and admired as a hero. The rage in his heart burned fiercely, and it seemed he could explode at any moment.

"Dammit!"

In the end, Mo Wanchou could no longer endure it and roared out almost like a howl.

His Sun and Moon Law could control the power of the sun and moon. This sun and moon force might not give him the most substantial attack ability, but as long as there was the sun and moon, he could see any place on the Star Domain Interface.

Of course, he couldn't do all that for now.

One reason was that his Sun and Moon Law cultivation was not mature enough, and the second was that he was not skilled enough in controlling the sun and moon on this interface.

Moreover, Xuan Jie hid well before, so he had not found him. But now it was different.

From the moment Yang Chen started pursuing Xuan Zhen, Mo Wanchou had been using his Sun and Moon Law to watch the scene of Yang Chen being besieged by Xuan Jie and Xuan Zhen.

That day, he was able to escape mainly by relying on his strongest Dao intent, plus the fact that the two of them seemed not to want to kill him. Only then was he able to survive and return.

After returning, he had initially wanted to mention this matter, but on second thought, he gave up. What benefits would it bring to him if he announced that he had been ambushed by Xuan Jie?

It would be better not to mention anything. When the time came, Yang Chen would surely take action and fall into the ambush of Xuan Jie and Xuan Zhen. Then, they would be killed by the two of them, wouldn't this be a great thing?

At that time, his interests and fame could both be protected, and it would be perfect.

In fact, he had also prepared for Yang Chen's death. He knew very well how powerful Xuan Jie and Xuan Zhen were. He guessed that their real target was probably Yang Chen as well.

Indeed, reality proved it to be so.

But the result was completely different from what he had thought. Yang Chen did not die, but lived well and even killed Xuan Zhen.

"Yang Chen!" Mo Wanchou clenched his fist, his nails piercing into his flesh, showing his deep hatred.

Today, Yang Chen killed Xuan Zhen, utterly ruining Mo Wanchou's reputation.

First, he knew about Xuan Jie's ambush but kept silent. Second, Mo Wanchou could not kill Xuan Zhen while Yang Chen could...

He had never been so angry before. After encountering Yang Chen, he had suffered losses twice in a row.

"Yang Chen's strength is indeed terrifyingly strong. I have to kill him. Otherwise, if left alive, it will be a disaster for me!" Mo Wanchou rubbed his eyebrows and said, "With my strength, it's unlikely that I can kill him now. I have to think of a way. Elder Han, can you help me?" After squinting his eyes, Mo Wanchou spoke to the void.

...

Time passed quietly, and Yang Chen's fame grew once again after his battle. Moreover, this time, his reputation was even more exaggerated than last time. Almost overnight, Yang Chen became famous throughout the entire Bi Shuangxing.

Even the foreign races knew that a human could kill Xuan Zhen, a super Boundless Stage Expert.

Among the humans, Yang Chen was regarded as a divine existence. Although there were very few people who had actually seen Yang Chen kill Xuan Zhen, rumors about it spread as if they were true. Stories about Yang Chen killing Xuan Zhen in three moves and shattering Xuan Zhen's body with a single punch were widely spread among the major human forces in Bi Shuangxing.

This made Yang Chen's reputation skyrocket, and for several months, the humans were all talking about Yang Chen's story.

However, after returning, Yang Chen once again entered a state of closed cultivation.

This cultivation lasted for half a year.

After half a year of silence, it seemed that because of Yang Chen killing Xuan Zhen, the Spirit God Race became much more restrained, and even other foreign races stopped attacking the human forces' mining areas as fiercely as before.

Until this day.

Boom...

Following a thunderous rolling sound, the sky became noisy, and a beam of light fell directly from the sky. It was like a thunderbolt, striking the ground.

Then, a sound like a stone gate opening echoed in every corner of Bi Shuangxing, resonating in everyone's ears.

This caused many powerful experts to notice the movement and become extremely surprised.

Various clans discussed and doubted the situation.

"What's going on?"

"What sound is that..."

"Did something happen?"

Only some longtime experts on Bi Shuangxing, after sensing all this, paused for a moment and then said, "Could it be that the Seven-colored Glaze Mine is about to appear?"

...

This movement resonated in the outside world, but did not disturb the focused Yang Chen who was cultivating.

A few days after the noise, Yang Chen gradually opened his eyes and felt the results of this cultivation session.

"As expected, many benefits came from refining Xuan Zhen's corpse. My cultivation level has soared to the Half-step Heavenly Leaving Realm. No wonder he was a Royal Spirit God, ha ha ha ha." Yang Chen laughed heartily.

He didn't expect that his cultivation level could jump to the Half-step Heavenly Leaving Realm so quickly. But the royal Spirit God race was indeed that precious.

It not only pushed his cultivation level to the Half-step Heavenly Leaving Realm in one fell swoop.

His other Dao intents also increased, two of them reaching the Peak of No-Boundary, while the rest reached the Late Boundaryless Stage.

With ten Dao intents, his lowest level reached the Later Stage of Realmless. His combat power was even more terrifying than before.

Of course, the reason why his Dao intent improved so quickly was not just because of Xuan Zhen.

Although Xuan Zhen was a Royal Spirit God with a precious body, it didn't completely fit Yang Chen's Dao intent.

The reason that promoted Yang Chen's Dao intent so quickly was partly due to the ores obtained from within the Ten Nights City.

Yang Chen now deeply felt the power of these ores.

Although these ores seemed to be just stones, they contained various essences. They even had the ability to help Boundaryless cultivators improve their legal realm.

In this way, Yang Chen naturally benefited greatly. After refining several ores in succession, his cultivation growth was incredibly rapid.

"Now that I've reached the Half-step Heavenly Leaving Realm, facing Xuan Jie again shouldn't be as much pressure as before." Yang Chen's mouth curved slightly upward.

Moreover, because of the versatile ores, he was also able to cultivate another special secret art that he had been dreaming of.

Chapter 3172 Triple Destiny of Heaven\_1

"Originally, I planned to take advantage of being in this treasure land of Bi Shuangxing to cultivate more, but it seems that something has happened outside..."

It was precisely because of the sound transmission from the outside world that interrupted his cultivation.

Nowadays, Han Bo, Ji Yue Shuang, Lin Tian Yi and others are already waiting outside.

Yang Chen naturally did not hesitate, quickly got up, pushed the door open, and came outside.

"Brother Yang Chen, you... have entered the Half-step Heavenly Leaving Realm." Han Bo's eyes were like torches, and he was terrified when he saw Yang Chen's cultivation level change at a glance.

"This time, with the help of those ores and the results of defeating Xuan Zhen, I was able to make some breakthroughs." Yang Chen smiled.

Han Bo and Lin Tianyi were both envious, as not everyone had the opportunity to refine a Royal Spirit God.

Even they, the Sky Separation Realm Experts, dreamed of getting such an opportunity.

Unfortunately, their strength was not enough, so they could only envy it.

"By the way, what happened to the two seniors that suddenly made me stop cultivating?" Yang Chen asked puzzledly.

"It's a long story. Let's make it short. Brother Yang Chen, let's talk further." Han Bo gestured invitingly.

Yang Chen was puzzled but his expression remained calm, following the three of them closely.

In the blink of an eye, the four came to a small pavilion.

Han Bo and Lin Tianyi courteously invited Yang Chen to take a seat.

When all four of them had sat down, Han Bo said solemnly, "Brother Yang Chen, it's like this. Not long ago, something happened in the Liuli Mine."

"What happened?" With an unchanged expression, Yang Chen asked quietly, "The Liuli Mine shouldn't have had any accidents, right?"

"No, there hasn't been any. How should I put it, there is a 'Sky Cave' in this Liuli Mine area. This cave connects to the depths of the underground of Bi Shuangxing..." Han Bo pondered for a moment before speaking.

"The depths of Bi Shuangxing? What's inside?" Yang Chen was slightly stunned: "What is the connection between the Sky Cave and the Liuli Mine?"

Han Bo and Lin Tianyi exchanged glances, knowing that it would be troublesome to explain.

However, the two had already prepared their words. Hearing Yang Chen's question, Han Bo said, "If we have to say, the reason for the many special aspects of this Star Domain Interface of Bi Shuangxing might very well lie beneath Bi Shuangxing."

Yang Chen froze for a moment, "What exactly is inside?"

"No one knows. In fact, this Bi Shuangxing has been in existence for several eras in history, and it's not the first time that the Sky Cave inside the Liuli Mine has opened. It has appeared several times in history, but the interval between each appearance is very long. Every time it appears, it only opens for about three months. After three months, it will definitely close again. As for cultivators who couldn't come out of the Sky Cave in time, they will be completely sealed inside." Han Bo said.

"If that's the case, shouldn't there have been cultivators who thoroughly investigated what lies deep under Bi Shuangxing that makes it so special?" Yang Chen asked.

"No one has found anything. In theory, the reason for Bi Shuangxing's uniqueness should indeed lie deep beneath the surface, but no clues have been found after numerous investigations. Over time, everyone has given up." Han Bo laughed bitterly.

Yang Chen was puzzled, "In that case, there should be no particular interest in the Sky Cave for everyone. Just a simple secret should discourage people from going out of their way to understand it."

"If it weren't for the existence of the Seven-colored Colored Glaze Mine, most people would probably have the same idea as Brother Yang Chen. However, there is a kind of ore deep under Bi Shuangxing called the Seven-colored Colored Glaze Mine, which is the most precious treasure of the entire Bi Shuangxing. It is precisely because of this treasure that every time the Sky Cave opens, it will lead to a fierce fight." Han Bo explained.

"Seven-colored Colored Glaze Mine?" Yang Chen was suddenly astonished: "What is that?"

"The Liuli Mine in this Liuli Mine Cave is actually a kind of Seven-colored Colored Glaze Mine, but it grows on the surface rather than underground. Only the underground environment allows the Seven-colored Colored Glaze Mine to grow perfectly, so the underground Seven-colored Colored Glaze Mine can have the most perfect mining effect after being irrigated by the underground environment. As for the ordinary Liuli Mine on the surface, its effect is probably less than one percent compared to the perfect Colored Glaze Mine." Lin Tianyi added from the side.

Yang Chen was suddenly shocked, "So, the reason why the Liuli Mine has a Sky Cave that connects to the depths of Bi Shuangxing is because of the connection between the Liuli Mines?"

"Most likely it is because of that, but that's not important. What's important is that the Seven-colored Colored Glaze Mine is indeed an important treasure for us cultivators." Han Bo sighed and said with a trace of greed in his eyes.

"What is the Seven-colored Colored Glaze Mine exactly?" Yang Chen asked puzzledly, "And what is its effect?"

Han Bo pondered for a while before saying, "Brother Yang Chen, to explain the Seven-colored Colored Glaze Mine in detail, we have to start with the Heaven-appointed Realm. How much do you know about the Heaven-appointed Realm?"

"Not much," Yang Chen admitted truthfully.

"It's quite normal for Brother Yang Chen to be young and not know much about the Heaven-appointed Realm. But Brother Yang Chen should know that the Heaven-appointed Realm is a realm for creating a world." Han Bo said with excitement and emotion, "This realm completely transcends the Heavenly Dao Category, mobilizes laws, and opens up a world. It controls the world's power and completely surpasses the Leaving Realm."

Yang Chen naturally knew this and nodded.

"But does Brother Yang Chen know that not every Heaven-appointed Realm has its own independent world? The vast majority of Heaven-appointed Realms have only just completely transcended the Heavenly Dao Category, and a small part of them have created a world embryo. Only a very small number of Heaven-appointed Realms can use laws to create a world." Han Bo explained.

"What does this have to do with the Seven-colored Colored Glaze Mine?" Yang Chen asked.

Han Bo chuckled secretly, "Does Brother Yang Chen know how difficult it is to create a world? Let alone creating a world, just cultivating a world embryo can take a Heaven-appointed Realm expert a lifetime."

"Is it that difficult?" Yang Chen's pupils shrank.

"What else would Brother Yang Chen think? The Heavenly Fate Realm experts have an infinite gap between them. Those with a world embryo and those without are two different levels of Heavenly Fate Realm experts. However, it is as difficult as climbing to heaven to cultivate a world embryo, so many Heavenly Fate Realm experts would spend their entire life savings to buy or even risk their lives to steal another Heavenly Fate Realm's world embryo." Han Bo said.

"But the ones without a world embryo are of a different level than those who have one. How dare the former touch the latter?" Yang Chen wondered.

"Indeed, but if they don't make a move, many Heavenly Fate Realms will never be able to create a world embryo in their lifetime. The dilemma between failing to progress for a lifetime and gambling for a chance at success oftentimes leaves many Heavenly Fate Realm experts choosing the latter." Han Bo shook his head with a light smile.

Chapter 3173 Life in the Complete World\_1

"So Senior Han Bo means that this Seven-colored Colored Glaze Mine can help nurture a World Embryo?" Yang Chen asked.

"No, the function of the Seven-colored Colored Glaze Mine is even more precious than nurturing a World Embryo," Han Bo replied.

"Then what is its function?" Yang Chen inquired.

"As I mentioned earlier, there are three levels in the Heaven-appointed Realm: first, No World; second, World Embryo; third, Complete World! For a Boundaryless cultivator to enter the World Embryo stage, many Boundaryless Stage Experts would scratch their heads in confusion, unable to practice. But Brother Yang Chen, do you know that the journey from a World Embryo to a Complete World is even more difficult than the previous stage?" Han Bo said.

As Han Bo said this, Yang Chen felt the difference between the stages of the Heaven-appointed Realm.

"What is the difference between a Complete World and a World Embryo?" Yang Chen asked subconsciously.

"A World Embryo can technically be considered a world already, but it's a world without life," Han Bo said.

"Having life or not having life?" Yang Chen pondered thoughtfully.

Ji Yueshuang was also listening quietly. Although she was from the Divine Night Sect and had some understanding of these matters, her knowledge was limited.

Han Bo said: "Yes, a world also has life. If a world doesn't have life, it cannot accommodate other life forms. Then it is not a complete world, but only an embryo, a semi-finished world. This kind of world may hold some powerful life forms, but if there are too many life forms, the rules will collapse, the order will disintegrate, and the world will shatter."

"As for the life of a world, simply put, it is like the Heavenly Dao. The Heavenly Dao is actually a life form. It's just that you can't perceive it or touch it, but for Heaven-appointed Realm Experts, the Heavenly Dao is just a life form. However, this life is different from how you and I understand life; it exists as a rule, maintaining the core of order."

As he said this, Han Bo paused slightly and then continued more solemnly: "However, if one wants to evolve a World Embryo into a Complete World with life, it also requires a Heaven-appointed Realm Expert to utilize their own rules and nourish it with their lifetime effort. Its difficulty is roughly the same as nurturing an Ancestral Divine Artifact."

"However, creating an embryo has already consumed a Heaven-appointed Realm expert's life force, and giving life to the embryo would require a lot more effort. How can this be done?" Yang Chen said with a wry smile.

"That's why there are many Heaven-appointed Realm Experts in the entire Universe Starry Sky, but very few Heavenly Extreme Realm Powerhouses. Even our Divine Night Sect has only a few, which are few and far between, and each of them stands at the very top of this pyramid," Han Bo said with deep emotion.

"So, this Seven-colored Colored Glaze Mine can give life to the embryos of Heaven-appointed Realm Experts?" Yang Chen asked.

"That's exactly it, so this Seven-colored Colored Glaze Mine is extremely important," Han Bo said.

Yang Chen finally understood.

No wonder this Seven-colored Colored Glaze Mine is so precious and has entwined so many issues inside.

"The function of this Seven-colored Colored Glaze Mine is heavily involved in a sect's power. Even if only a fraction of its essence remains and turns into ordinary colored glaze mines underground, it is enough to help cultivators enter the Heaven-separated Realm, which shows its efficacy," Han Bo explained.

Yang Chen said, "Does Senior Han Bo mean that I should help?"

"We have already learned that Brother Yang Chen is not a disciple of the Divine Night Sect, so we shouldn't ask for your help. However, Uncle Wen Qi sent a message not long ago. Inside this Sound Transmission Talisman, there are words from Uncle Wen Qi. He hopes that Brother Yang Chen can help us one more time." As Han Bo spoke, he took out the Sound Transmission Talisman.

Yang Chen took the Sound Transmission Talisman and listened to it.

"Yang Chen, my friend, this Liuli Mine Sky Cave opening is extremely rare. Since you are going, it must be destined. I heard that you have already killed Xuan Zhen, and This Palace is very happy. I shouldn't ask you to do this again, but I still hope that you can help one more time."

"Regarding the Seven-colored Colored Glaze Mine, if you can obtain one and hand it over to This Palace, this palace will definitely give you a treasure of equal value in return, and absolutely not treat you unfairly. If you can obtain two, we will also purchase the other one in your hands at the same price as the first one."

When the sound transmission ended, Yang Chen and the others heard it.

Yang Chen couldn't help but shake his head and smile: "Senior Han Bo, Elder Lin, it's true that I do have some strength, but it's limited to the Boundaryless Cultivation. Now the Seven-colored Colored Glaze Mine will probably attract Heaven-appointed Realm Experts."

Although Yang Chen was tempted, his calm mind prevailed, knowing that this matter involved too much and was not suitable for him to intervene.

"Brother Yang Chen, you can rest assured, those Heaven-appointed Realm Experts want to go down there, but in a small interface like Bi Shuangxing, one interface can hardly support the fight between Heaven-appointed Realm Experts, let alone an underground area. Those Heaven-appointed Realm

Experts won't go down, and there are clear rules between them. In this underground, the strongest can only be Sky Separation Realm Expert," Han Bo said.

"If the senior Heaven-separated Realm Experts go down and fight, I don't think I can do much," Yang Chen said helplessly.

"How can you say that, Brother Yang Chen, you must be joking. How many of us Heaven-separated Realm Experts can there be? For example, our Divine Night Sect has only about a hundred Heaven-separated Realm Experts in this area, and more than half of them will be left behind. At most, only a dozen can go, and more will rely on Brother Yang Chen and other Boundaryless cultivators. After all, Boundaryless cultivators are really a special existence in this interface," Han Bo said with a laugh.

Hearing this, Yang Chen couldn't argue anymore. Both Han Bo and Princess Wenqi had shown enough sincerity, and he was indeed interested in this Seven-colored Colored Glaze Mine.

"In that case, I am willing to contribute my humble efforts..." Yang Chen said.

"Hahaha, not humble at all, not humble at all. If Brother Yang Chen is willing to help, I believe that our Divine Night Sect will certainly get a lot of Seven-colored Colored Glaze Mines this time," Han Bo laughed heartily.

"Of course, I dare not guarantee anything, but I will do my best. Speaking of which, when are we going to set off?" Yang Chen asked.

"Oh, I almost forgot about that. The various groups have already gathered, and the Colored Glaze Mine tunnels they occupy can all lead to the underground of Bi Shuangxing. The Sky Cave has not fully opened yet, but it's not late either. We should prepare as soon as possible. We can leave in two days," Han Bo said.

Yang Chen nodded.

He didn't need to prepare much for these two days.

He had done almost everything he needed to do during his closed-door cultivation.

With his current Half-step Heavenly Leaving Realm cultivation level, dealing with ordinary Heaven-separated Realm Experts would be easier than ever before.

However, Yang Chen's current main interest was not the Seven-colored Colored Glaze Mine.

It was the Mountain and River Destruction Map that he had possessed for a long time...

Chapter 3174 Mountain and River Destruction Map?\_1

The Mountain and River Destruction Map had been with him since an early age. However, due to the change of time, the usefulness of the map to him became smaller, so he temporarily put it aside and rarely used it.

He initially thought it was because his cultivation level was too high, making it difficult for the Mountain and River Destruction Map to help him.

But now, it seems that was not the case.

He learned from Han Bo's words.

The Heaven-appointed Realm can create world embryos and complete worlds.

Combining this with the similar feeling he had when entering the Sword Servant World before and the Mountain and River Destruction Map, Yang Chen suddenly felt more and more that the Mountain and River Destruction Map might actually be a world!

The more Yang Chen thought about it, the more he felt it was possible.

He had had this idea before, but couldn't prove it. Now, he was even more certain.

Of course, the Mountain and River Destruction Map didn't have life. According to Han Bo's explanation, the Mountain and River Destruction Map should be a world embryo.

"Back then, Elder Hua Qingfeng left this treasure, and transformed into a feather, probably as a fake." Yang Chen shook his head: "At first, I thought Elder Hua Qingfeng might have gone to another interface, but now it seems that Elder Hua Qingfeng might have spent his life creating this world embryo, leaving it behind, and unable to advance any further."

A world embryo could consume the energy of a Heaven-appointed Realm expert.

With the Mountain and River Destruction Map, one could integrate into the rivers and mountains, and even the sun and moon; this ability was not something any other divine weapon could achieve.

Only the Mountain and River Destruction Map could accomplish it.

But he had been unable to use the full power of the Mountain and River Destruction Map.

Why?

Because he simply couldn't bring it out, this was Hua Qingfeng's world, and it was the power of the world that could only be controlled by the Heaven-appointed Realm. How could he, a tiny boundaryless cultivator, control it? How could he fully unleash the power within?

"Elder Hua Qingfeng had such a high level back then..." Yang Chen sighed with emotion.

He originally thought that Hua Qingfeng's cultivation level was at most Heaven-separated Realm.

Now that he thought about it, many of the previous puzzles could be unraveled.

Why was there no real attack power in this world, and the effect was more of suppression?

And why could the Mountain and River Destruction Map accommodate rivers and mountains?

"That being said, the Artifact Spirit of the Mountain and River Destruction Map should only be a creature left behind by Senior Hua Qingfeng. When I have time, I should communicate well with this Artifact Spirit." Yang Chen said.

There was no time for that now.

He had to focus more on the Seven-colored Colored Glaze Mine.

If the Mountain and River Destruction Map was really a world embryo, then the Seven-colored Colored Glaze Mine would have unimaginable effects for him.

While in deep thought, Yang Chen hid all these ideas.

If the Mountain and River Destruction Map was indeed a world embryo, then its existence had to be kept secret. The temptation of a world embryo to a Heavenly Fate Realm expert was simply too terrifying.

...

Two days later.

Yang Chen met up with Han Bo and Lin Tianyi at the agreed-upon location.

When they met, Yang Chen looked around and asked in surprise, "Where's Ji Yue Shuang? Isn't she going?"

Lin Tianyi laughed, "How could she not go? She's been clamoring to go before but was rejected by us. Now she's sulking in her room."

"Junior Sister's strength is actually quite strong already, but this matter is too big. Many Heaven-separated Realm experts are involved, and various clans' experts are coming in. We're just not at ease." Lin Tianyi shook his head slightly.

Yang Chen smiled wryly, understanding the painstaking efforts of the two. Although Ji Yue Shuang was strong, she could not get any assistance from Han Bo and Lin Tianyi once she entered the depths. As senior brothers, they naturally worried about her; they would rather not let Ji Yue Shuang go than risk her safety.

For Yang Chen, Ji Yueshuang's non-participation did not matter.

As the three looked at each other, they exchanged a few words, and without further delay, they led a group of people to the Colored Glaze Mine.

On the way, Yang Chen gained a more detailed understanding of the situation.

All these groups, as long as they had a Colored Glaze Mine, could go deep underground on the Bi Shuangxing. The Colored Glaze Mine was a necessary path to the depths of Bi Shuangxing.

Human forces also had a Colored Glaze Mine.

This Colored Glaze Mine was jointly guarded by Heavenly Melody Mountain, Divine Night Sect, and Grand Abyss Palace, the three major powers.

And Yang Chen's group was heading to this Colored Glaze Mine.

On the way, Yang Chen got to know the people he was going with.

In addition to Han Bo and Lin Tianyi, there were more than a dozen Heaven-separated Realm experts already waiting at the entrance to the Colored Glaze Mine.

Those who were following now included dozens of Boundaryless cultivators, with Guo Huaian, whom Yang Chen was familiar with, among them.

These Boundaryless cultivators were naturally led by Yang Chen. Han Bo and Lin Tianyi had intentionally mentioned this.

Regarding this, Yang Chen wanted to decline but was unable to.

It took about a cup of tea's time for everyone to arrive at the Colored Glaze Mine area.

The Colored Glaze Mine was colorful, and many soldiers were gathered in front of the mine.

Among them, the forces of the Divine Night Sect, Heavenly Melody Mountain, and Grand Abyss Palace were stationed in different locations, and the distribution of the military forces of the three parties could be seen at a glance.

Han Bo and the others naturally landed within the range of the Divine Night Sect.

As soon as they arrived, several Heaven-separated Realm experts came forward, smiling, "Brother Han Bo, you're here. Brother Yang Chen is here, too. Haha, it's great that Brother Yang Chen was able to make it."

Many other Heaven-separated Realm cultivators also nodded their heads, treating Yang Chen with great courtesy.

Yang Chen immediately cupped his hands in respect.

Between the cultivators of the Divine Night Sect, they were relatively united. While they might not have complete trust in each other, there were not many disagreements between them.

"Brother Gao Ming, how much longer before the Sky Cave is fully open?" Han Bo asked.

"About two more days." Gao Ming answered, "Speaking of which, we Heaven-separated Realm experts have a specific plan for taking action. How are you Boundaryless cultivators going to prepare?"

"This..." Han Bo glanced at Yang Chen: "Brother Yang Chen, we will enter the depths of Bi Shuangxing later. The area will be extremely vast and the target is uncertain. Any Seven-colored Colored Glaze Mine could trigger a battle anytime, and the situation would be extremely chaotic. What are you planning? Do you intend to act alone, or lead these Boundaryless cultivators together?"

The Boundaryless cultivators all looked at Yang Chen.

After some thought, Yang Chen cautiously said, "Senior Han Bo, esteemed friends, it's not that I don't want to follow you all. It's just that I really can't lead. I may have some battle experience, but I'm too young. I can't lead you all. Please choose someone else for this leadership position, Senior Han Bo."

Chapter 3175 Apologize?\_1

He was used to acting leisurely and couldn't find it in him to lead a large group of people to collect the seven-colored crystal ore.

Moreover, most importantly, he could genuinely operate better alone. However, such words weren't easy to articulate, so he had to be more tactful in his explanation.

When the powerful ones heard Yang Chen's decision, they looked at each other and exchanged glances, but they weren't surprised. They knew that Yang Chen didn't want to lead the team and understood his intentions.

"Since Brother Yang Chen has decided this way, then alright. Gao Tong, you'll be the team leader, and Guo Huaian, you'll be the deputy leader," Han Bo said.

Gao Tong and Han Bo both stepped forward and respectfully said, "Thank you, Senior Han Bo."

"Yang Chen, you're free to contribute however you please. Whether you join the team or go on your own, the choice is yours," Han Bo added.

"Thank you, senior," Yang Chen replied.

Everyone discussed more, mainly to understand the environment deep underground of Bi Shuangxing.

After they gathered enough information, suddenly, two groups of people approached from a distance; one from Heavenly Melody Mountain and the other from the Grand Abyss Palace.

These two forces appeared, and Han Bo and Lin Tianyi quickly went to greet them.

"King Bai Ku, King Jin Jue. Master Fang, Brother Ye Gao," Han Bo greeted them, "How did you all gather so early? If nothing goes wrong, there's still some time before the Sky Cave opens."

Master Fang from Heavenly Melody Mountain was an old man with white eyebrows and a beard. He stroked his beard thoughtfully and said, "The three sects have come together early to discuss some matters. The situation with the seven-colored crystal ore is of great concern, and we will face many threats from alien tribes deep underground in Bi Shuangxing. If we can't unite against the common enemy, humans as a whole will suffer in the end."

Han Bo and Lin Tianyi were no fools and could hear Master Fang's intentions.

So, Master Fang was playing peacemaker.

However, after what had happened recently, Han Bo and Lin Tianyi weren't ready to let things go easily. They said, "Master Fang, we don't quite understand what you mean."

Knowing that the two were playing dumb, Master Fang coughed twice and had no choice but to clarify, "Some unpleasantness arose between the Divine Night Sect and the Grand Abyss Palace recently. I propose that we resolve it today."

Humph," Han Bo knew that it wasn't the right time to escalate things, but he couldn't let the Divine Night Sect off the hook so easily either.

Seeing this, King Bai Ku stepped forward and ingratiatingly said, "Brother Han Bo, Brother Lin, we were indeed in the wrong for what happened back then. We've brought Mo Wanchou here to apologize."

Hearing Mo Wanchou's name, many people from the Divine Night Sect narrowed their eyes.

They knew that Mo Wanchou was the one who started it all, and now they were curious about how he would apologize.

Yang Chen stood with his arms crossed, wondering what kind of drama the Grand Abyss Palace was putting on.

Mo Wanchou was indeed in the crowd, and now that it was his turn, he stepped forward.

His appearance was different from before. He respectfully greeted Han Bo and Lin Tianyi before turning his gaze to Yang Chen.

"Brother Yang Chen, a while back, I suffered severe injuries from Xuan Jie and Xuan Zhen. I was in a state of half-consciousness, manipulated by their secret art, and didn't know how to convey the news. Later, I found out that you also encountered Xuan Jie and Xuan Zhen, and I regret not being able to inform you earlier. Now, thinking about it all, I truly regret it."

After saying this, Mo Wanchou appeared angry at himself for being useless, and gritted his teeth, "Of course, I know that nothing I say now will make a difference, but I hope Brother Yang Chen will forgive me and not hold this against me."

Yang Chen listened, his eyes half-closed, and wondered about Mo Wanchou's flawless apology.

Could Mo Wanchou genuinely be apologizing to him?

It definitely didn't match what he knew about Mo Wanchou.

Mo Wanchou was arrogant, disdainful of others, and used to overlooking everything. Had he genuinely repented after losing a battle?

Yang Chen couldn't believe it, and he suspected ulterior motives behind Mo Wanchou's apology.

However, he maintained a calm expression on his face. At this point, if he held onto past grievances, he would be the one in the wrong.

He slowly replied, "Alright, it's all in the past now. I won't mind it, especially since Brother Mo Wanchou had reasons. Let's just let this go."

"Thank you for your understanding, Brother Yang Chen," King Bai Ku said with a chuckle. "Now is a critical time, and our three sects can't afford internal strife."

Han Bo and Lin Tianyi found it strange but, seeing Mo Wanchou's sincere apology, they didn't suspect too much.

Most of their anger had dissipated.

"Alright, let's let this go. Now that the three sects are entering Bi Shuangxing's underground, we indeed need to unite against external enemies. Do you all understand?" Han Bo looked back at the group.

"Yes."

The Divine Night Sect disciples naturally obeyed.

Seeing this, Master Fang smiled broadly, "Hehe, that's right. Now, it's about time. Does anyone have any good plans or targets for entering Bi Shuangxing's underground?"

For a while, the three sides discussed amongst themselves.

Yang Chen, however, just watched Mo Wanchou quietly, noticing that Mo Wanchou was also looking at him.

But now, Mo Wanchou's smile was gentle, and there was no hint of malice. This stirred doubt in Yang Chen's heart.

Unusual things usually signal danger, so it's best to be careful with Mo Wanchou.

With the three factions all gathered here, Yang Chen became the center of attention, like a celebrity.

His own sect, the Divine Night Sect, had met him before, but not the Grand Abyss Palace or Heavenly Melody Mountain. However, many rumors had spread about Yang Chen, and everyone was extremely curious about him.

That's why, when many people saw Yang Chen, they were excited and talked about him, even looking at him with admiration.

After all, the Spirit God Royal Clan, led by Xuan Zhen, was known to be unbeatable among their peers. As soon as they appeared, cultivators of the same level had to retreat or face a higher-level threat.

Xuan Zhen represented the unbeatable existence of alien tribes.

Yet Yang Chen defeated him decisively, completely shattering the notion of their invincibility.</p>

Chapter 3176 Searching for the Seven-colored Colored Glaze Mine\_1

This was also the reason they worshipped Yang Chen.

Before, no one had done it, but with the appearance of Yang Chen, everything changed.

This made Yang Chen the center of attention through and through.

Seeing this scene, Mo Wanchou's originally serene expression flashed with a hint of cold hatred.

Before, whenever he went anywhere, all the attention should have been on him, gathered around him.

But now, when he came here, no one was discussing him, and many didn't even look at him, as if they didn't consider his presence a rare occurrence.

All the focus was on Yang Chen.

This was also the reason for Mo Wanchou's anger, and he clenched his fists, with a hint of killing intent in his eyes.

However, this killing intent was soon concealed by him.

Yang Chen was also somewhat helpless towards the attention of others, and could only wait quietly for the Sky Cave to open.

Now, his soul could cover the entire Colored Glaze Mine.

There were many colored glaze mines growing all around the mine, their colors eye-catching and beautiful.

At the depths of the mine, there was a circular hole, which was gradually opening, but the opening progress was very slow. The opening was still not big enough for a person to enter.

At the moment, it seemed that it wouldn't take long before they could enter.

Soon, King Jin Jue, King Bai Ku, Han Bo and others fixed their gazes on the leaders of the three factions.

"The time is almost up. Now that the entrance of the Sky Cave is almost big enough for us to enter, we should set off without further delay," said King Bai Ku.

Han Bo reminded his subordinates: "Remember, the Sky Cave will only be open for three months. Within three months, whether or not you have found the Seven-colored Colored Glaze Mine, you must come

out of the underground of Bi Shuangxing. You must also remember the position where you came in from. Otherwise, once the Sky Cave is closed in three months, it will be difficult to come out."

"Moreover, don't think that if you don't come out of the Sky Cave within three months, you can still survive and wait for the next opening. Many people have never returned from the Sky Cave, but when they went there again, they couldn't find any survivors. Bi Shuangxing is very special, as is its underground. I hope you all can be a little more careful," Lin Tianyi also warned.

"Everyone, the time is almost up, let's go," Master Fang shouted.

The Sky Separation Realm experts of the three major factions did not delay and quickly attacked, aiming directly at the Sky Cave ahead.

Under the vast opening of the Sky Cave, a group of people disappeared into it, including numerous Sky Separation Realm experts.

The Realmless forces of the Divine Night Sect, led by Ye Gao and Guo Huaian, followed suit and vanished.

Yang Chen, naturally, was also among the crowd, entering the Sky Cave as well.

Upon entering the Sky Cave, the surrounding walls were narrow, and the space could only accommodate a few people at once.

Numerous strong people followed the narrow space and headed straight for the depths of the underground.

Yang Chen possessed the Space-Time Dao Intent, and to him, this narrow space wasn't a big deal. This made him arrive a little faster.

Just as he arrived, other powerful ones also made their way there.

"Don't go too far, everyone. Search the surroundings first. This underground space is vast, and we're likely to encounter alien tribes. If a companion is surrounded by foreign race people, be sure to go and help," Master Fang shouted, "Alright, let's split up and look for the colored glaze mines."

In an instant, the three major factions dispersed, intending to find the Seven-colored Colored Glaze Mine at the fastest pace.

Yang Chen also acted alone, but he didn't rush too much. After entering the depths of the underground, he first observed the surroundings with his soul and then began to move slowly.

According to Han Bo and Lin Tianyi, these Seven-colored Colored Glaze Mines were very scarce even in a massive underground space. Judging by estimates, most likely only a dozen or so Seven-colored Colored Glaze Mines could be found each time the Sky Cave opened.

It seemed that their human race could only collect one or two at most each time. At most, they could collect three, and if they were unlucky, it was normal to return empty-handed.

Finding the Seven-colored Colored Glaze Mine indeed relied on luck, as the location of the Seven-colored Colored Glaze Mine was entirely random, and it was impossible to predict where it would be.

Moreover, if you were lucky, you could find it directly on the ground. If you were unlucky, the Seven-colored Colored Glaze Mine would be hidden within the various walls.

The walls of the depths of the underground were made of a thick concentration of Bi Shuangxing's rules, and souls could not penetrate them. It was very difficult to find out if there were any Seven-colored Colored Glaze Mines hidden within.

Now, it seemed that human luck was not good. At least after searching the surroundings, there were no colored glaze mines beneath their own mine.

"Dig more into the walls," the experts of the major factions shouted.

However, after a round of digging, there were still no colored glaze mines in the walls.

"It seems that it is difficult to find any in the surrounding area. We'll have to head to the Mo Xin Lake... That's where the most colored glaze mines are."

Mo Xin Lake was also the place Yang Chen was planning to go to.

This Mo Xin Lake was at the core center of the underground of Bi Shuangxing, and there were more colored glaze mines compared to other areas.

Now that the surrounding areas were being scoured by their own people, it was naturally more appropriate to go to other places.

Yang Chen didn't linger, since he was acting on his own and didn't need to worry about other matters.

In the blink of an eye, Yang Chen had disappeared from the spot.

...

The journey to Mo Xin Lake was not a short one, and Yang Chen was not in a hurry. Along the way, he carefully observed the surroundings, trying to see if he could find the Seven-colored Colored Glaze Mine.

After all, it was hard to say where the Seven-colored Colored Glaze Mine would be. Mo Xin Lake only had a slightly higher probability of encountering the mine. It wasn't necessarily more abundant than the mines in other places.

On the way to Mo Xin Lake, Yang Chen saw more than one group of alien tribes, of different races that Han Bo had introduced to him. And their movements were in groups, apparently heading towards Mo Xin Lake. Then along the way, they would search for the Seven-colored Colored Glaze Mine.

Yang Chen ignored these alien tribes and had no intention of taking action against them.

After all, his target was the Seven-colored Colored Glaze Mine, and taking action would be meaningless if there was no gain.

In this way, Yang Chen observed everything in the dark, searching for the Seven-colored Colored Glaze Mine!

But it had to be admitted, the Seven-colored Colored Glaze Mine was indeed rare!

Chapter 3177 The Meng E Clan's Secret\_1

Along the way, he saw members of the foreign race digging into the ground, excavating the walls, or looking for hidden places. However, without exception, they had almost turned the entire underground of Bi Shuangxing upside down, and yet had found no trace of the seven-colored Colored Glaze Mine.

This made Yang Chen himself couldn't help but laugh and cry at the same time.

He hid in the shadows, hoping that these foreign races would excavate the seven-colored Colored Glaze Mine, and then he would immediately take action. Even if he couldn't win the fight, he could still use the Space-Time Law to snatch and run. There should be no problem with that.

This was also the reason why he didn't take action against these foreign races. They could help him find the seven-colored Colored Glaze Mine.

But who could have imagined that after a round of searching, he had observed several batches of foreign races, yet no one had any luck finding the seven-colored Colored Glaze Mine.

Now, he got to watch a free show of a great battle between two clans.

Currently, at the front, on a main road, powerful individuals from both clans were stationed here. With drawn swords and tense expressions, a confrontation was imminent.

These two clans were the Ta Niu Clan and the Meng E Clan.

Both clans had their own unique divine powers and talents, with strengths that were middling on Bi Shuangxing -- neither too strong nor too weak. For instance, in their current teams, there were only two sky separation realm experts leading below who comprised entirely of boundaryless cultivators.

Such a scale, if they were to collide with humans, would likely be swept away without a trace in an instant.

"Ta Niu Clan, previously you injured three of our Meng E Clan members. Today, we will settle this account right here, deep underground in Bi Shuangxing!" The Meng E Clan's sky separation realm expert shouted.

The sky separation realm expert of the Ta Niu Clan, with dual horns atop his head and a conspicuous large bull nose, growled: "Meng E Clan, if you want to settle the score, do it on the surface. Now, everyone's target is the seven-colored Colored Glaze Mine. Don't tell me you don't want it anymore."

"Hmph, the seven-colored Colored Glaze Mine? Hahaha, you killed my grandson. On the surface, I won't bother with you out of respect for the other clans. But underground, where else can you run?" The Meng E clan's sky separation realm expert with his jet-black body roared angrily.

As the words were spoken, the two sides started fighting.

The sky separation realm expert of Ta Niu Clan also had a very bad temper and said angrily, "Ah, you Meng E Clan really think our Ta Niu Clan is a pushover. Kill them all!"

In just a short time, the two foreign race clans fought fiercely, with endless casualties.

Yang Chen secretly watched this dramatic scene, stroking his chin and feeling increasingly amused.

He had originally planned to take advantage of the situation and seize the benefits of the dispute between the two clans. After all, when the confrontation reached its end, he could step in and take control of the remnants, potentially still gaining some benefits.

However, just when the two clans were halfway through their fight, Yang Chen, who had activated his soul detection, caught sight of some movement.

"Huh?"

Yang Chen squinted his eyes, looking into the distance, only to find that, secretly, a group of Meng E Clan members had emerged from somewhere.

This group of Meng E Clan members was not much different in strength compared to the main force. Although they had no sky separation realm experts guarding them, there were several no-boundary cultivators at the forefront.

This group was sneaking around. When the Meng E Clan's main force bit the Ta Niu Clan members like mad dogs, they quietly snuck to a different position. Then, by turning left and right, they reached a seamless wall.

Upon seeing this, Yang Chen immediately became interested.

"Interesting. The Meng E Clan's main force bites like mad dogs, but they have another group hiding secretly with such a sneaky plan. It seems that the Meng E Clan, although seemingly crazy, has some hidden agenda." Yang Chen's interest was piqued, and he couldn't help but smile.

As he watched in secret, he saw the Meng E Clan members standing in front of the Liuli wall, fumbling around.

"Sir Wuer Duo, it's definitely here." A boundaryless Meng E Clan member laughed confidently.

"Are you sure?" Wuer Duo asked doubtfully.

"Absolutely. Last time, millions of years ago, our Meng E Clan excavated this very wall and went even deeper into the cave. We discovered four seven-colored Colored Glaze Mines. Now that millions of years have passed and the wall has healed itself, it indicates that the deep underground should have grown new seven-colored Colored Glaze Mines." The boundaryless Meng E Clan member excitedly explained.

Wuer Duo's mouth curved in a smile: "If this is true, it's great news. While the elders stall for time, we must hurry!"

As soon as the conversation ended, Wuer Duo immediately slapped the Liuli wall with one palm.

With one slap, Wuer Duo's palm strike was astonishingly powerful. The Liuli wall cracked and shattered.

"Wuer Duo is really impressive. With his half-step Heavenly Leaving Realm strength, he should be comparable to the top thirty combatants on the Great Luo Celestial Stele. It looks like there's no shortage of talent among these foreign races. It's not in the minority, just like the powerful experts on the Human Daluo Sky Ranking." Yang Chen said to himself.

"Sir Wuer Duo's strength is indeed formidable," There were quite a few people flattering him.

Wuer Duo enjoyed the flattery, but he didn't lose his cool, saying indifferently, "Don't just focus on flattering me; remember the important things. The seven-colored Colored Glaze Mine is what matters. Let's all go in together."

"Sir Wuer Duo, should we leave someone to keep watch?" A Meng E Clan member asked.

"Keeping watch? Are you crazy? If someone sees us here, won't it be like announcing there's hidden treasure?" Wuer Duo said expressionlessly, "Just in case, let's all go in together."

All the members entered together, which saved Yang Chen some effort. He followed them closely.

Upon entering, the Liuli wall indeed concealed something remarkable.

A wide tunnel appeared before them, descending deeper and deeper, with the space getting larger and larger.

Moreover, the light became increasingly tempting, with the radiance of the seven-colored Colored Glaze dazzling people's faces.

"Sir, it's the light of the seven-colored Colored Glaze Mine! This place really hides a seven-colored Colored Glaze Mine. Hahaha!" The Meng E Clan members laughed heartily.

"Keep your voices down!" Several Meng E Clan elders scolded.

"What's there to be afraid of? In any case, the elders will lead the Ta Niu Clan away."

Wuer Duo said coldly, "Don't be so excited. It's always best to be careful and cautious. However, it does seem that there is a seven-colored Colored Glaze Mine here."

As they spoke, the group had already reached the end of the tunnel, and under a vast expanse of light, several brightly-colored ore blocks appeared in front of them.

"It's definitely the seven-colored Colored Glaze Mine!" At this point, even Wuer Duo could not hide his excitement.

The others were also ecstatic, their eyes gleaming with delight as they looked at the seven-colored Colored Glaze Mine.

"One, two, three, four..."

Chapter 3178 Yang Chen in the Dark\_1

Uerdo laughed heartily: "Still four pieces, no more or no less. That's enough, it's already enough. In millions of years ago, these four pieces of Seven-colored Colored Glaze Mine allowed four of our predecessors to successfully create a complete world in the Heaven-appointed Realm, and now one of them has entered the Heavenly Extreme Realm. These four pieces of the Seven-colored Colored Glaze Mine will surely continue to bring blessings to our Sect."

Wusson watched this in the dark, shocked and overjoyed when he saw the four pieces of Seven-colored Colored Glaze Mine.

It's hard to see a Seven-colored Colored Glaze Mine outside, but now there's so many of them here."

"This Seven-colored Colored Glaze Mine is really amazing, creating four complete Heavenly Extreme Realm warriors. Reaching this level, combining luck, and giving birth to another Heavenly Extreme Realm in thin air. No wonder the various clans regard this Seven-colored Colored Glaze Mine so highly. It's a pity that Heaven-appointed Realm combatants can't get in, otherwise, this Bi Shuangxing wouldn't avoid a bloody storm."

Now, when Uerdo is planning to take away these four Seven-Colored Colored Glaze Mine, Yang Chen is all about Laws, ready to make a move.

He won't hand over these four pieces of the Seven-colored Colored Glaze Mine so easily to the Meng E Clan.

However, just as he was about to make a move.

Uerdo, exclaimed in a cold voice: "Not good, someone's coming!"

At this moment, Yang Chen also sensed the movement outside.

"It's not the Ta Niu Clan" Uerdo.

Who was coming?

Yang Chen remembered the alien races he had seen nearby earlier, and they were not of that kind of aura. Only when those people approached him did Yang Chen suddenly realize:

"The atmosphere is so familiar, it's clearly human. No wonder I was so confused, I had thought of all the clans but had missed our own kind so much."

He was doubtful in his heart, wondering which human power had arrived.

Heavenly Melody Mountain? Yang Chen gradually discovered: "I remember that the first one was Man Yunfei, the sixth disciple of Heavenly Melody Mountain. He ranked about 34th on the Daluo Celestial Monument, with slight fluctuations, and I don't know the specific ranking now."

Man Yunfei led a large group of Boundaryless cultivators from Heavenly Melody Mountain to this place, and sensed abnormalities near this place, so they approached.

When they came in after breaking through the concealment method outside, they were all surprised.

"People are there, and the light of the Seven-color Luminous Stone!" Man Yunfei was immediately on alert.

Two Boundaryless elders around him also expanded their Eye Technique and looked inside. Then they were both surprised and happy, "Young Master Yunfei, this group of people are from the Meng E Clan, and they have four pieces of Seven-colored Colored Glaze Mine!"

"Humans!" Uerdo and others all changed their colors.

Uerdo originally wanted to take back the Seven-colored Colored Glaze Mine, but it was already too late and was noticed by Man Yunfei.

"Uerdo Sir, what should we do?" A group of Meng E people started to panic a bit.

"What can you do? Since we've been discovered, we'll just have to kill these humans. This Man Yunfei is my defeated opponent. Hmph, take him down first, and these humans will be nothing to worry about!" Uerdo sneered as he made his move.

Man Yunfei, who was resisting Uerdo, looked slightly pale: "It's you, Uerdo!"

A hint of fear flashed in his eyes, and he clearly had been fighting with Uerdo before, and it seemed that the result was not favorable to him.

That's why Uerdo specifically pointed out Man Yunfei, knowing that he should first break down Man Yunfei, and the Heavenly Melody Mountain forces will not be so strong.

Man Yunfei also has a bad temper, seeing Uerdo targeting him, he getting angry and suddenly fighting with Uerdo.

During this fight, the strengths and weaknesses of both sides were almost immediately apparent.

The attacks of the Meng E Clan seemed to have a hypnotic effect, causing people to fight against them with a disturbed state of mind, as if they wanted to faint.

Man Yunfei obviously knew this, and had been consciously keeping himself awake. But his own hand and Daoist Inscriptions were a level lower than Uerdo, so he was able to suppress Yunfei during the fight and maximize Meng E Clan's natural talent.

As the fight went on, Man Yunfei felt more and more weak in his heart, and he might faint at any time.

Noticing this, the other strong men of Heavenly Melody Mountain couldn't sit still.

Man Yunfei is the genius of their Heavenly Melody Mountain, if the other party fails, how could they explain this to their seniors when they go back.

What they wanted to intervene in, but Meng E people immediately came forward to stop them, so that they couldn't take care of themselves, where could they interfere with Man Yunfei's affairs.

Yang Chen looked at it from the dark and shook his head slightly. Man Yunfei wasn't weak, but his various methods were very tightly controlled by Uerdo, and Uerdo's ability did have some restraint against Man Yunfei, making Man Yunfei's defeat not unusual.

Seeing that Man Yunfei could no longer hold on, Yang Chen knew that it was time for him to make a move.

As Man Yunfei fought, he felt more and more that things were not going well. His mind was no longer clear, and he might faint at any time due to Uerdo's constant pressure.

"No, I have to stay awake, a little more awake." Man Yunfei gritted his teeth.

But Uerdo caught the opportunity and slammed his palm on Man Yunfei's chest.

Man Yunfei spat out a mouthful of blood and retreated violently.

But just as Uerdo was about to take advantage of the situation, a terrifying pressure came suddenly, like a huge mountain crushing it down.

This pressure instantly covered the entire scene and formed a domain. Inside the domain, all of the Boundaryless cultivators trembled in fear.

"Who is it?" Even Uerdo, under the influence of the domain, trembled in fear.

The master of this domain is clearly in the Boundaryless Realm, but he is so powerful that he suffocates.

"Yang Chen!" Man Yunfei felt someone make a move and was surprised. When he saw Yang Chen, there was a hint of joy in his eyes.

"You're that human who killed the Spirit God Royal Clan, Yang Chen!" Uerdo had obviously heard of Yang Chen's notoriety, and shuddered all over his body as he combined Yang Chen's aura.

Yang Chen said indifferently, "Yes, it's me."

Uerdo looked at Yang Chen's calm eyes and burst into anger: "So what if you're Yang Chen, I want to see how powerful you are. Die!"

When the conversation ended, Uerdo instantly unleashed his strength, urging the natural gift of the Meng E Clan, intending to be in control of the situation.

But Yang Chen didn't move. The moment Uerdo made a move, several strands of Deathly Silent Black Wind came from afar, followed by the suppression of the Domain of Earth.

Boom...

Chapter 3179 Trading with Heavenly Melody Mountain\_1

Before this, Wuer Duo believed that there were cultivators of the same level stronger than himself.

However, he would never believe that a cultivator of the same level could be so strong as to make him feel suffocated.

But now, he has no choice but to believe this fact!

The Domain of Earth exploded, and the power of laws coming from Yang Chen directly twisted and transformed, making Wuer Duo's body completely stiff and unable to move.

He was completely suppressed by Yang Chen's domain and unable to move, which had become something he could not accept at all.

Now that his body was difficult to move, Wuer Duo had already imagined his fate.

"No, no!" Wuer Duo's pupils constricted.

The deathly silent black winds coming from not far away encircled him, completely enveloping him from all directions in an instant.

Then, within a few breaths, before Wuer Duo could even scream, his body was completely separated and turned into nothingness.

This scene shocked everyone who witnessed it.

Not far away, Man Yunfei's eyes were wide and his mouth was open, unable to believe what he had just seen was real.

The Meng E Clan's top expert, Wuer Duo, who had been pushed to a desperate situation by Yang Chen, did not even last three breaths before he was killed by Yang Chen on the spot.

Before, Man Yunfei thought that Yang Chen's strength was somewhat superficial and unreal. He thought it was just hearsay and not necessarily true.

But now, he found that Yang Chen's strength was even more terrifying than the rumors.

"Is this the strength that killed Xuan Zhen... too, too powerful." Man Yunfei swallowed his saliva.

Now that he had regained his senses, he immediately shouted, "You Meng E Clan members, your leader has already fallen, why don't you surrender quickly?"

These Meng E Clan members woke up just now and saw that their leader Wuer Duo had fallen, and they immediately panicked and scattered in all directions.

"Wuer Duo is dead, Wuer Duo has fallen!"

The group of powerful ones was thrown into disarray, and with the head of the dragon gone, there was no one to organize them. They naturally either escaped or died.

But under Yang Chen's domain, all of these Meng E Clan members were covered, their strength greatly reduced and completely suppressed by Yang Chen's domain. Escaping was not an easy task.

A group of human experts intervened, and within an hour, everyone had perished in the depths of the underground.

Seeing this, the forces of Heavenly Melody Mountain, including Man Yunfei, couldn't help but sigh and breathe a sigh of relief.

Originally, they were in a desperate situation, but because of Yang Chen, the situation had changed.

"Thank you, Brother Yang Chen, for your help," Man Yunfei immediately stepped forward and said respectfully, along with several elders, "If it wasn't for Brother Yang Chen's help, we really don't know what to do."

"It's nothing, just a small effort. Besides, I've had my eye on these people for a long time." Saying this, the four pieces of seven-colored colored glaze ore were taken by Yang Chen into his waist pouch.

Man Yunfei swallowed his saliva, feeling itchy in his heart for a moment, extremely interested in the four pieces of seven-colored colored glaze ore.

The other people of Heavenly Melody Mountain also had gleaming eyes, but even if they wanted it, they wouldn't be able to get a share of it. Both emotionally and logically, they had no way to intervene.

If they had been initially advantageous, suppressing the Meng E Clan in battle before Yang Chen intervened, they could have obtained a share.

But just now, it was obvious that they had fallen behind and were on the verge of losing.

If the other party was truly defeated, the situation would have to be turned around.

Since Yang Chen had changed the situation single-handedly, they didn't have the face to make a claim to him.

Yang Chen could see the desire in the eyes of Man Yunfei and the others, but since it was his gain, he naturally had no intention of giving it away.

"Everyone, since you're all fine, don't stay here for too long. The Meng E Clan have been planning to take this place for who knows how long. If their main force comes here later, it will be another trouble for us." Yang Chen said.

Man Yunfei was slightly surprised after hearing this, "The Meng E Clan actually has a main force? In that case, we can't stay here for long. Brother Yang Chen, where do you plan to go now?"

"Of course, I plan to go to the Mo Xin Lake." Yang Chen said.

Man Yunfei laughed, "If Brother Yang Chen is heading to Mo Xin Lake, why not come with us?"

Upon hearing this, Yang Chen rubbed his chin, hesitating for a moment.

He wasn't with his own Divine Night Sect members, so there wasn't much point being with this group from Heavenly Melody Mountain.

However, upon reconsideration, when heading to Mo Xin Lake, he would encounter countless powerful experts, probably including many Sky-separating realm experts. If a fight really broke out, he could make use of Man Yunfei and the others to hide in the shadows and cover his tracks.

Man Yunfei clearly wanted to rope Yang Chen in, and seeing Yang Chen's indecision, he immediately said, "Brother Yang Chen, don't worry. If you join us and there is any benefit to be gained, we'll share it between us—seven parts for you, three parts for us. How about it?"

"Young Master, this, how can you...?" A few elders nearby spoke up with solemn expressions.

But Man Yunfei insisted on his path, his attitude sincere.

Yang Chen's mouth curled up, thinking that Man Yunfei was a good businessman. Although he got seven and the opponent got three, it seemed that he was taking advantage. However, with someone like him, Man Yunfei would most likely be able to win against the vast majority of opposing teams, making it a very advantageous situation for him.

The previous battle had obviously made Man Yunfei much more aware, and he knew not to underestimate these alien tribes.

Their human race may be powerful overall, but the Divine Night Sect, Heavenly Melody Mountain, and the Grand Abyss Palace were the three major factions fighting each other. In clashes between teams, the humans didn't actually have much advantage.

Yang Chen also needed to take advantage of these people to hide his whereabouts, so he said, "Fine, I'll go with you. But I won't guarantee when I'll leave, and I'll only act in the shadows without showing my face. I will only help when you need me. If you have no objection, then I will join you."

Man Yunfei could guess Yang Chen's idea. After all, Yang Chen had just taken advantage of the situation and used them as a shield to help hide his identity. Even when they reached Mo Xin Lake, it might still be of great benefit to him.

Although their partnership seemed shrewd, Man Yunfei couldn't help but admire it and respectfully said, "No problem, all according to Brother Yang Chen's wishes."

This was an unequal trade, but when Man Yunfei thought of Yang Chen's powerful tactics in killing Wuer Duo just now, he knew that the trade was extremely fair to him, and even felt like he was taking advantage.

He and Yang Chen were both powerful experts on the Great Luo Celestial Monument, but the gap between them was simply too large.

Chapter 3180 Ore Eruption\_1

"As Brother Yang Chen said, let's hurry and leave so as not to be targeted by the people of the Meng E Clan." Man Yunfei said quickly.

All the powerful people naturally didn't dare to object and left quickly.

Yang Chen's joining, however, became the topic of discussion for the entire team.

Considering that Yang Chen wanted to conceal his identity, Man Yunfei couldn't help but reprimand them, causing them to stop discussing it in order not to leave any traces.

Yang Chen hid himself within the team, not giving away any hint of his presence.

He was very confident in his concealment skills. While hiding, he accompanied the team on their journey and studied the Seven-colored Colored Glaze Mine along the way.

He was puzzled as to what this Seven-colored Colored Glaze Mine was, wondering how it could directly give life to the world and allow the World Embryo to evolve into a complete world.

However, after some research, he was unable to find any results and couldn't figure out any secrets.

His current realm was still too weak. If he could reach the Heavenly Fate Realm, this item might be very useful to him.

In this way, Man Yunfei's team traveled quickly without encountering any other powerful alien clans on their way. All those they met had the same objective - Mo Xin Lake and the Seven-colored Colored Glaze Mine. There were no major conflicts in an instant.

Finally, Man Yunfei led the people to Mo Xin Lake's location.

"According to the map, this is Mo Xin Lake," Man Yunfei informed Yang Chen through Sound Transmission.

Yang Chen began looking around.

Mo Xin Lake, although called a lake, had a vast area difficult to see the edge at first glance.

However, using their cultivators' souls to probe, they could see an enormous island in the middle of the lake. On this island, various Qi and movements were fluctuating, causing Yang Chen and Man Yunfei's team to sense an anomaly.

Moreover, there were many foreign race people on the surface of the lake, also heading towards the island. Man Yunfei naturally didn't dare to delay and rushed there quickly.

On the way to the island, the atmosphere was tense, and everyone sensed the situation clearly.

From a high altitude, a large number of people of different races gathered here, including the familiar Ta Niu Clan, Meng E Clan, and other major and minor alien races, all in this place.

Even the Spirit God Race was present.

"Elder Han Bo, Elder Lin Tianyi are both here..." Yang Chen muttered.

These Sky Separation Realm experts were at the frontline and rushed directly to Mo Xin Lake. It was normal for them to arrive here before him.

Master Fang from Heavenly Melody Mountain waved to Man Yunfei.

Man Yunfei immediately went in the direction of Master Fang.

"Man Yunfei, why are you only just arriving? Did you encounter any accidents on the way?" Master Fang asked in surprise.

"There were some minor accidents, but they were not a big deal. What's the situation here? How come there are so many foreign race people gathered here? Shouldn't they be mining the Seven-colored Colored Glaze Mine?" Man Yunfei asked in surprise.

Yang Chen was also surprised and curious about what happened here.

Looking around now, he found that many of his acquaintances were present. For example, there was the Mo Wanchou from the Grand Abyss Palace.

Additionally, the Second Prince of the Spirit God Clan, Xuan Jie, was there as well.

"It's good that you're fine. This time is different from the past. The opening of the Sky Cave didn't coincide with the birth of the Seven-colored Colored Glaze Mine. We arrived just in time for the eruption of the Seven-colored Colored Glaze Mine from the bottom of the lake," Master Fang explained.

"Eruption? What's going on? I've never heard of this before," Man Yunfei said with a stunned expression.

"It's normal that you don't know. Over countless years, the Sky Cave has opened several times, but there has only been one eruption from the bottom of Bi Shuangxing. To put it simply, the reason for the abundance of Seven-colored Colored Glaze Mine in Mo Xin Lake is the unique environment beneath the lake. This special environment produces a large amount of Seven-colored Colored Glaze Mine."

Master Fang said: "At the moment of the mine's emergence, it will erupt like a volcano, shooting out directly. After that, Mo Xin Lake will instantly freeze, not melting for countless years, only thawing when the next batch of Seven-colored Colored Glaze Mine is about to be produced."

"So, Master Fang means that the Seven-colored Colored Glaze Mine is about to erupt?" Man Yunfei asked in surprise.

"Exactly. In a while, the Seven-colored Colored Glaze Mine will erupt at different locations across the lake surface. Although the various major forces are not fighting now, this is just the calm before the storm. Once the Seven-colored Colored Glaze Mine appears, the struggle between the powerful ones could only be described as a bloodbath," Master Fang said gravely.

Upon hearing this, Yang Chen gradually understood the situation.

It turned out to be like this.

With this in mind, Mo Xin Lake would soon become a battlefield.

It involved many Sky Separation Realm and Boundaryless cultivators, so he couldn't underestimate them.

"But why don't these powerful people go directly into Mo Xin Lake to wait?" Man Yunfei asked, confused.

"If they could, who wouldn't want to? The special environment of Mo Xin Lake hides the secret behind the uniqueness of Bi Shuangxing. However, entering the lake means certain death for us Sky Separation Realm experts, not to mention Boundaryless cultivators like you," Master Fang explained.

"Going into the lake means death?" Man Yunfei considered.

"Yes, that's why we must not let ourselves get splashed with the lake's water during the fight later on, or the consequences will be severe. Just now, I saw a Boundaryless cultivator of a foreign race try to touch a bit of the lake water, and as a result, his death was extremely gruesome. Now, no one dares to approach the lake, even high-altitude flight is avoided, and everyone waits on the island," Master Fang sighed.

"That's terrifying..." Man Yunfei looked apprehensive.

"I'm afraid it would take a Heavenly Fate Realm Expert to enter the lake and explore the truth. However, those experts have all cast off the Heavenly Dao's shackles, and it's unlikely that they would be interested in the secrets of the Star Domain Interface," Master Fang said helplessly, aware that those old fellows cared most about their interests.

Man Yunfei asked solemnly, "What should I do when the Seven-colored Colored Glaze Mine is born later?"

Master Fang spoke with heavy sense, "After the mine emerges, we, the old fellows, will compete for the closest Seven-colored Colored Glaze Mine. As for you Boundaryless cultivators, head towards the direction where the Seven-colored Colored Glaze Mine will be born in the further area of the lake's surface. When the time comes, be quick and try to grab as many mines as possible."

"No problem," Man Yunfei said seriously.
