

## Supreme MK 3191

Chapter 3191 Strengthen, Spacetime!\_1

Yang Chen never expected that there would be a Heavenly Fate Realm expert of the World Embryo level beside Mo Wanqiu.

Such an existence was quite tricky for him.

According to his estimation, even the Sky Annihilation Ghost King who chased him, Jin Yi Zhenren, and Ling Wang were all in the early stages of the Heaven-appointed Realm, not yet entering the World Embryo Realm.

If the Sky Annihilation Ghost King had entered the World Embryo Realm at that time, he would probably have lost his life already.

The World Embryo Realm was far superior to the Early Destiny Realm.

With this in mind, Yang Chen also frowned secretly, already beginning to think about how to escape this predicament.

Now the situation was quite unfavorable for him.

Yang Chen didn't say much and just followed the team of the Divine Night Sect.

Grand Abyss Palace, Divine Night Sect, and Heavenly Melody Mountain, the three major forces, did not speak and continued their silent journey.

Master Fang wanted to ask Yang Chen for the seven-colored glazed ore, but after thinking for a moment, Man Yunfei hadn't really helped Yang Chen much. Obtaining the seven-colored glazed ore was almost entirely due to Yang Chen's strength.

Now there's trouble between Yang Chen and Grand Abyss Palace, and he can't interfere at all. Asking for the seven-colored glazed ore would be like asking for trouble, wouldn't it?

With this thought, Master Fang could only sigh.

So, the group of people arrived near the Sky Cave.

People from Heavenly Melody Mountain were the first to walk out of the Sky Cave.

As soon as these powerhouses from Heavenly Melody Mountain showed their faces, an extremely terrifying aura instantly pressed down on them.

"Where is Yang Chen?"

This voice roared like thunder, causing Master Fang to shudder involuntarily and looked towards a white-bearded elder in front of him with a crutch.

The elderly man held a crutch, just like the ten Power Rod that Mo Wanqiu was holding.

Seeing this, Master Fang was nervous, saying: "Han, Han senior, Yang Chen is below."

Han Yi roared: "Yang Chen, come out!"

This voice was filled with murderous intent, pressing down like a mountain.

Next to Han Yi, a white-bearded elder stood by. He looked old and had a weaker breath compared to Han Yi. However, his cultivation had also reached the Destiny Realm. It seemed that he was a strong expert in the early stages of the Destiny Realm.

"Brother Han Yi, let's calm down a little bit about Yang Chen's matter. After all, there might be some misunderstandings in Mo Wanqiu's death." The white-bearded elder said unwillingly.

Seeing this person, Master Fang also greeted respectfully: "Junior greets Senior Sun Meng."

This white-bearded elder was named Sun Meng, with a cultivation level of the Destiny Realm. He was a Heavenly Destiny Expert that the Divine Night Sect had planted here.

However, compared to Han Yi, Sun Meng was obviously shorter, so much so that when he spoke, he was respectful and did not dare to act rashly.

But Han Yi didn't give him any face, coldly saying: "Sun Meng, what do you mean? Are you saying that my Young Master died in vain? Or are you saying that you want to represent the Divine Night Sect and go against my Grand Abyss Palace?"

Upon hearing this, Sun Meng's face darkened, quite annoyed.

The Divine Night Sect was not to be trifled with; they were not afraid of the Grand Abyss Palace. However, they were in the wrong in this matter, Mo Wanqiu's death was a fact, and they could no longer argue.

"I'll tell you, Sun Meng. I've decided to kill this Yang Chen, and if you stop me, I'll take it as the Divine Night Sect going against my Grand Abyss Palace!" Han Yi yelled angrily.

Sun Meng trembled all over. He originally had a good impression of Yang Chen. Although he had been hiding in the dark and not showing up, Yang Chen's combat power was of great help to the Divine Night Sect.

If Yang Chen were to be killed by Han Yi now, wouldn't that be a pity? But now that Han Yi has made up his mind to kill, even using the Grand Abyss Palace as an excuse to question him, Yang Chen is powerless to resist.

Mo Wanchou is under the command of the Spirit Separation Ancestor, while Ling Biedao Respect represents the Grand Abyss Palace more than enough, who will represent Yang Chen?

No one can help!

Han Yi wants to kill Yang Chen, and no one dares to intervene!

Seeing this, Sun Meng could only sigh slightly, giving up, and ceasing to meddle in Yang Chen's affairs.

Han Yi glared down and roared, "Yang Chen, come out and die obediently!"

"Die!" Yang Chen below the Sky Cave, his voice cold and harsh, "Han Yi, your people in the Taiyuan Palace attacked me first. It is only natural for me to kill them. If you want me to come out and die, let's see if you have the ability."

Han Yi gritted his teeth and said, "You even dare to talk back!"

Now Yang Chen has decided to go all out, how could he reason with Han Yi? You should know that Ten Power Rod was given by Han Yi's hand, without Han Yi, how could Mo Wan Chou force him into Mo Xin Lake? Han Yi also had a hand in this!

He first looked at Han Bo, then with a swoosh, he disappeared from the spot and directly leaped out of the Sky Cave.

Seeing Yang Chen transformed into a light shadow disappearing into the Sky Cave, Han Yi uttered a word, "Where are you going!"

As soon as Han Yi finished speaking, he was already in pursuit.

This made everyone feel a little suffocated. Is Yang Chen's speed so incredibly fast?

If it weren't for Han Yi's quick reaction, Yang Chen might have disappeared without a trace.

However, it was still a little too late.

Han Yi was as fast as lightning, always capturing Yang Chen's movements. Now that Yang Chen disappeared in a flash, Han Yi immediately slapped out his palm. The power of the World Embryo spreads out directly, covering Yang Chen inside.

"This is the power of the World Embryo? It feels like the laws of the surrounding heaven and earth have all been rewritten." Yang Chen's pupils shrank, greatly shocked.

Yang Chen could understand the situation, Han Yi used the power of his own world to transform the surrounding space and heaven into his own world of space and heaven. The rules had completely changed. How could he escape under the power of someone else's world?

"Yang Chen, do you think you can escape from me!" Han Yi shouted angrily.

Seeing this, many powerful ones sighed, and many people hoped that Yang Chen could escape. However, unfortunately, reality is so cruel; no matter how strong Yang Chen is, he is only at the Boundaryless Cultivation level, controlling Space-Time Dao Intent, it is very difficult to escape from the powerful ones of the Heaven-appointed Realm.

Experts in the Heaven-appointed Realm already disregard the laws of Heavenly Dao!

Yang Chen was now also feeling a tingling scalp, sensing the sweeping power coming from Han Yi, he withdrew rapidly.

Han Yi looked down at him as if he were an ant.

Yang Chen, he's determined to kill.

However, just when Han Yi thought he would kill Yang Chen, Yang Chen slightly raised the corners of his mouth and said, "Han Yi, you can't kill me!"

As soon as he finished speaking, Yang Chen murmured softly.

"Ten Thousand Law Dao Embryo, open!"

"Enhance, Space-Time Law!"

In an instant, Space-Time Law flowed into the body of Ten Thousand Law Dao Embryo, once the Ten Thousand Law Dao Embryo opened its mouth, the power of Space-Time changed dramatically all in a sudden.

Yang Chen aimed at the power of the World Embryo, knowing that he could not miss the opportunity, he instantly used the power of Space-Time and escaped the suppression of the World Embryo with a violent leap.

In the blink of an eye, Yang Chen had disappeared, and his traces could not be found throughout Bi Shuangxing!

Chapter 3192 Spirit Separation Ancestor and Fu Tiandi\_1

The scene fell silent, and the entire room was quiet.

Everyone thought the outcome was set in stone, that Yang Chen would surely be killed by Han Yi, and that this result was irreversible. However, after just an instant, the outcome was completely reversed.

Yang Chen had somehow managed to escape.

"What just happened?"

Master Fang, Han Bo, and King Bai Ku were all shocked, completely clueless as to what had occurred.

The power of the world had already descended. Although Han Yi's world power was from the world embryo and greatly inferior to the true world power, it was indeed world-class power.

Under such power, rules were rewritten, and the power within Heavenly Dao could not be used at all. Boundless Stage experts would be rendered useless inside!

Realmless may have the possibility of crossing the Heaven-separated realm.

Heaven-separated Realm might have the possibility of crossing the Heaven-appointed Realm Early Stage.

However, if one reaches the Middle Stage of the Heavenly Destiny Realm and possesses their own world power, they would have overwhelming power against Heaven-separated Realm experts, let alone a mere Realmless kid.

"How did he do that!" Everyone wondered without end.

After a brief moment of surprise, Han Yi became furious. His soul enveloped the entire Star Domain Interface, but Yang Chen's trail was nowhere to be found.

This made Han Yi so angry that smoke seemed to come out of his seven orifices. He was a Destiny Realm expert, and Yang Chen had managed to escape him?

"Search, search! Issue a Wanted Order, and take this person's life! This Yang Chen won't be able to get far. Search every nearby Star Domain Interface!" Han Yi shouted angrily.

"Yes!" The people under Taiyuan Palace had no choice but to comply.

In an instant, Bi Shuangxing stirred up huge waves due to this matter. The news of Yang Chen killing Mo Wanchou spread at an extremely fast speed, reaching the ears of both the Divine Night Sect and the Taiyuan Palace.

The various forces were shocked one after another, as no one had expected so many significant events to happen within Bi Shuangxing in such a short amount of time.

In the blink of an eye, a month had passed.

One month later, within the Taiyuan Palace, Frost Sky Taoist Nunnery.

Frost Sky Taoist Nunnery was a very mysterious place in Taiyuan Palace, which no one usually dared to set foot in. No one was allowed into this area either.

This was because a very old ancestor of Taiyuan Palace, Spirit Separation Ancestor, lived here!

Spirit Separation Ancestor's place for seclusion had never been disturbed by anyone, but now several people had gathered at the Frost Sky Taoist Nunnery.

Among them, Han Yi, who was familiar to Yang Chen, was present.

Spirit Separation Ancestor looked calm on the surface, but the anger and killing intent in his eyes were hard to hide: "You said Mo Wanchou... was killed, and you let the murderer escape?"

Han Yi now looked uneasy as he faced Spirit Separation Ancestor, and said in a flustered manner, "Ancestor, this has nothing to do with me. As the Young Master was on Bi Shuangxing, I couldn't intervene. I tried my best to stop this person, but who could have known that Yang Chen would use some unknown method to escape my embryonic world power and let Yang Chen go. I... I still don't know what happened."

Spirit Separation Ancestor looked at Han Yi coldly, directly causing Han Yi to dare not speak any further.

"You're just a waste, all the resources spent on cultivating you to the mid-stage of the Destiny Realm were for nothing. You couldn't even catch a mere kid with a Boundaryless Cultivation! What use do I have for you?" Spirit Separation Ancestor said angrily.

Han Yi could only lower his head, not daring to utter a word.

"I don't care about your affairs. Since you know Yang Chen, bring him back to me personally. I will issue a Wanted Order on behalf of Taiyuan Palace, directly summoning the power of the Ten Thousand Realms to hunt him down. If you still can't catch him, don't blame me for being heartless." Spirit Separation Ancestor said coldly.

This frightened Han Yi, who quickly replied, "No problem, Ancestor, rest assured, I will capture Yang Chen."

A Wanted Order that would involve the Ten Thousand Realms?

Han Yi initially didn't have much confidence, considering Yang Chen's mysterious methods. However, things were different now.

"Spirit Separation, don't go too far with this matter. We can try another approach."

At this moment, a gentle voice came from far away. An elderly man in white robe and sleeves appeared, stroking his beard as he descended from the sky.

"Fu Tiandi, what are you doing here!" Spirit Separation Ancestor shouted.

Fu Tiandi was on equal footing with Spirit Separation Ancestor, apparently also a Heavenly Extreme Realm Expert.

"Spirit Separation, concerning Yang Chen's matter, this might not be the best approach." Fu Tiandi said with his hands behind his back.

"What do you mean," Spirit Separation Ancestor asked sharply.

"You know who Mo Wanchou really is, and so do I. In his previous life, he had a domineering and arrogant personality. Now that he has reincarnated with our protection, he has become even more arrogant. I predicted that something would go wrong, but you refused to believe it, thinking that with your protection, there would be no deviation. But now the outcome is clear. Mo Wanchou has indeed encountered trouble." Fu Tiandi said.

"Are you here to ridicule me?" Spirit Separation Ancestor asked grimly.

"Of course not. I just want to tell you that now that Mo Wanchou is truly facing this disaster, it's his well-deserved fate. I have already inquired about King Bai Ku and others. If there were no accidents, it was Mo Wanchou who made the first move against Yang Chen. This matter needs only one more piece of evidence for us to have a reason. But in reality? It's not!" Fu Tiandi shook his head.

"So, are you telling me to give up killing this kid, and let my brother's death go unanswered?" Spirit Separation Ancestor asked fiercely.

"Not at all. Now that Mo Wanchou is dead and cannot be revived, there's no point in pursuing this matter any further. As for Yang Chen, he was originally going to join our Taiyuan Palace. I have heard about this from Gold Leisure True Person. The fact that he hasn't joined Taiyuan Palace yet is due to Mo Wanchou. My point is, instead of pursuing Yang Chen any further, why not open our hearts to him and let Yang Chen fill the void left by Mo Wanchou? At least with the talent that Yang Chen has shown now, he's even better than Mo Wanchou!" Fu Tiandi explained.

Upon hearing this, Spirit Separation Ancestor burst into laughter.

"Hahaha, Fu Tiandi, are you joking with me?" Spirit Separation Ancestor suddenly became furious, his murderous aura revealed.

Seeing this, Fu Tiandi furrowed his eyebrows, "Spirit Separation, I have discussed this with the Palace Master, and he thinks it's appropriate."

"Whether he and you think it's appropriate is your business, Fu Tiandi. Don't play your tricks on me. Mo Wanchou is my brother, and I must avenge his death. If you want to protect Yang Chen, you're going against me! I must kill this Yang Chen. You decide for yourself!" Spirit Separation Ancestor said fiercely.

Hearing this, Fu Tiandi was slightly stunned. He had wanted to say something else but had to swallow his words.

He was quite interested in Yang Chen, but now that Spirit Separation Ancestor was acting this way, Fu Tiandi had no choice but to give up.

Chapter 3193 Mysterious Exposure\_1

After all, there are many young geniuses, but not many talented strong men in the Great Luo Celestial Stele can produce a Heavenly Extreme Realm cultivator.

This is common sense. Compared to the Grand Abyss Palace, the Spirit Separation Ancestor is more important.

Now full of anger, the Spirit Separation Ancestor said: "Issue the Wanted Order to all the Ten Thousand Realms, spread it to all the surrounding Star Domain Interfaces, and kill Yang Chen. Whoever can provide the information will be rewarded with a low-grade Emperor Divine Artifact, and whoever can take this person's life will be rewarded with a high-grade Emperor Divine Artifact!"

"Yes, sir!" Han Yi took a deep breath, as even a high-grade Emperor Divine Artifact was offered as a reward. The Spirit Separation Ancestor had put in a great effort to kill Yang Chen.

Fu Tiandi sighed gently and did not say anything further, leaving with resignation.

...

Time passed and a year went by quickly.

The speed of the Wanted Order's dissemination was nothing short of fast. The efficiency and scale of the Grand Abyss Palace's handling of a single matter were astonishing. In just a year, the Wanted Order was spread throughout all the major Star Domain Interfaces.

And the scale of the search for Yang Chen grew bigger and bigger, with more and more powerful Grand Abyss Palace guards appearing everywhere.

Nowadays, within an interface called Wenye Star, a huge wall with a light sphere suspended in its center can be seen.

People passing by only need to use their Divine Souls to detect and look into the light sphere for information.

Inside the light sphere is a wealth of information about Yang Chen, including his cultivation level, strength, appearance, and more.

The information is so detailed and comprehensive that many cultivators become interested when they see it.

"The Grand Abyss Palace protects the peace of our Star Domain Interface. Now that the entire Grand Abyss Palace is furious, who is this Yang Chen that they want to catch?"

"I think this Yang Chen must have done something bold and outrageous. Otherwise, why would Grand Abyss Palace target him?"

"Heh heh, there are many people seeking death nowadays."

"I really hope this Yang Chen can be quickly captured!"

There were countless discussions around, and many people still maintained absolute trust in the Grand Abyss Palace, believing that the Palace was everything!

And just under this light sphere, a middle-aged man with a scar on his face looked up and quickly disappeared on the spot.

No one knew that this scar-faced man was the very same Yang Chen that everyone sought, the wanted criminal of the Grand Abyss Palace!

Yang Chen gradually left the city and headed in another direction to seek a new path.

He had fled from Bi Shuangxing to this place, which was the third Star Domain Interface he had changed. Before this, he had been constantly embroiled in pursuits, finding it difficult to stop and rest.

Afterward, he arrived at Wenye Star.

He changed his appearance, qi, and even suppressed his cultivation within the Great Ascension Stage to keep himself from being discovered.

However, not long after he had left the city, several Sky-separating Realm experts surrounded him the very next day in a desolate desert.

"Yang Chen, where else can you run!" As many as five Sky-separating Realm experts, looking down on Yang Chen, were filled with cold intent.

Yang Chen shook his head lightly as he saw that these five Sky-separating Realm experts had discovered his identity.

This was not the first time such a thing had happened. Earlier on, at Jinghai Star nearby, he had been inexplicably blocked by several Sky-separating Realm experts.

He fought his way through and fled from Jinghai Star, only to be besieged again by Sky-separating Realm experts when he arrived at the second Star Domain Interface.

Now, he had arrived at the third Star Domain Interface!

And yet, he was intercepted again.

No matter how he changed his appearance or disguised himself, these people could always find him. Yang Chen couldn't figure out the logic behind it.

He couldn't understand why, despite having changed his appearance so drastically, he could still be found by these people so quickly even without any prohibition or tracking mark on him.

Now unable to make sense of his thoughts, Yang Chen stared coldly at the five Sky-separating Realm experts and said, "You...won't catch me."

"Yang Chen, it's better for you to surrender obediently. A Heaven-appointed Realm expert is already on his way here. If you go back with us now, you can still avoid some of the pain. If you don't go back with us now, heh heh, even if you can escape, you're on a dead-end!" The several Sky-separating Realm experts threatened fiercely.

Yang Chen ignored them and, with a flash, attempted to escape using the Space-Time Law.

"He still wants to use Space-Time? Seal the surroundings!" The leading bearded man shouted angrily.

In an instant, the five Sky-separating Realm experts directly sealed off the five directions, making it difficult for Yang Chen to use the Space-Time Law perfectly.

When a sufficient number of Sky-separating Realm experts were present, their combined effort to seal off the Space-Time Law was perfect and just right.

As Yang Chen's Space-Time Law failed, he retreated and stared angrily at the five Sky-separating Realm experts of the Grand Abyss Palace.

"You...are courting death!" Yang Chen turned his wrist.

"Be careful! This Yang Chen has a record of killing Sky-separating Realm cultivators. Some Sky-separating Realm cultivators rushed to fight him recklessly and were killed on the spot. This person's strength is extremely powerful!" The leading bearded man shouted.

As his words fell, Yang Chen's domain was released.

As the domain exploded, the five Sky-separating Realm experts inside felt their bodies sinking and losing control.

At the same time, Yang Chen immediately launched the Nine Heavens Wind and Thunder Sword, flying straight toward the bearded man.

This bearded man roared, "Attack together!"

The five Sky-separating Realm experts swept in from five directions.

As Yang Chen's Nine Heavens Wind and Thunder Sword touched the bearded man, it was deflected away by a mysterious Dao Technique used by the bearded man.

Seeing this, Yang Chen closed his eyes lightly. While controlling the Nine Heavens Wind and Thunder Sword for another attack, he murmured to himself.

"Way of Ten Thousand Laws Embryo..."

The Dao Embryo in his body opened its mouth, and a surge of Five Elements Laws gradually spread out from it.

"Five Elements Turn Heaven Palm!"

At the instant when the Way of Ten Thousand Laws Embryo was strengthened, Yang Chen unleashed the Five Elements Turn Heaven Palm.

The Five Elements Turn Heaven Palm, which appeared once again from the sky, was completely different from the previous one.

It was a giant palm several times larger than before, covered with numerous inscriptions. Each finger seemed like a mountain, filled with various Laws.

The Five Elements Giant Palm, like a cage and like a mountain, fell down!

At the sight of this palm, the pupils of the five Sky-separating Realm experts constricted!

"Not good, what kind of technique is this! How can it have such great pressure!" At the moment when the bearded man's pupils contracted, he immediately launched his technique.

The five Sky-separating Realm experts ignored the trouble of dealing with Yang Chen and joined forces to counterattack the giant palm!

Chapter 3194 Calamity King\_1

They could not believe that a Realmless cultivator could unleash such a terrifying attack. However, Yang Chen's methods were indeed horrifying.

A giant palm came down, almost crushing everything, forcing the five of them to hurriedly counterattack, worrying that they could not resist.

Boom boom boom...

Sand and gravel splattered, the ground cracked, and the rules of the entire space began to twist and change.

The five Sky-separation Realm cultivators, headed by the bearded man, joined forces to resist this palm, going all out just to have a chance to block it.

Yang Chen watched from the side and frowned.

The Five Elements Turn Heaven Palm strengthened by the Ten Thousand Law Dao Embryo had indeed become more powerful, but it was still not easy to suppress five Sky-separating realm experts at once.

If they were just ordinary Sky-separation Realm experts, it would be different, but these five were elite Sky-separation Realm experts from the Grand Abyss Palace.

To defeat these five, even his current self was still more than willing, but not strong enough.

He kept his thoughts and expression unchanged, and then controlled the Deathly Silent Black Wind. With a whoosh, a hundred or more black winds swept toward the five Sky-separation Realm experts in all directions.

Originally, it was already somewhat difficult for the several Sky-separation Realm experts to fight against Yang Chen's Five Elements Turn Heaven Palm, and they could hardly cope with so many Deathly Silent Black Winds at this time.

"Everyone, bring out all your skills because this Yang Chen's strength is indeed terrifying. If we underestimate him, we will absolutely fail..."

His words had just fallen, and he was about to show his trump card, but he didn't notice that the Nine Heavens Wind and Thunder Sword, which had been hovering around, had already swept over like lightning.

Soon, with a plop, it directly pierced through his body and killed him on the spot.

"Not good! Brother Luo Hu!"

The four powerful Sky-separation Realm cultivators suddenly paled. They had killed one of their own while fighting against one?

How could people believe this?

But the fact was that Yang Chen's methods were ruthless, and he killed Luo Hu on the spot.

In shock, the other four Sky-separation Realm cultivators did not dare to hold back any longer, and they were all ready to use their best skills.

However, just as they were about to use their methods, Yang Chen's figure disappeared in the blink of an eye, leaving no trace.

"Not good, the kid escaped!" The faces of the four men were filled with rage, but they could only watch helplessly as Yang Chen left.

Their combined strength was barely enough to seal Yang Chen's spacetime, but now one of them was dead, plus they were a bit flustered, revealing flaws that directly led to Yang Chen's escape.

In the blink of an eye, Yang Chen was gone, and it seemed as if he could no longer be found in this world.

Yang Chen's escape was truly a helpless move, as his cultivation level had now reached the half-step Heavenly Leaving Realm and was much higher than before. However, he was facing the Sky-separation Realm experts of the Grand Abyss Palace, who were all elites and not easy to defeat.

With his current strength, he could face two at once and succeed, even kill them.

But against three, he would gradually become overwhelmed.

Facing four or five, he could only choose to escape. In a real fight, even if he went all out and barely won, it would still be a bitter victory.

Moreover, what made him hesitant to fight was that he still couldn't figure out what exactly led these Sky-separation Realm experts to discover him.

Whether it was his whereabouts, appearance, or other factors, he believed he had hidden them well, but he was ultimately discovered, and the discovery was inexplicable, without any warning, blocked by people as if they had the eyes of heaven and could detect his position.

This made Yang Chen feel powerless and didn't know where the problem was.

If these problems are not solved, he will have to deal with one wave after another now.

At this point, there is no benefit in engaging these Sky-separation Realm experts in a head-on battle. The best solution is to avoid their edge and choose another way out.

Now that Yang Chen had escaped, he changed his appearance and thought about what to do next.

In the blink of an eye, three days later.

In a huge and magnificent city, amid the flying crowds in the high altitude, Yang Chen, disguised as a white-haired old man, looked at the map in his hand.

"Distant Earth Star, this is the closest plane to this star domain interface, the next stop is here." Yang Chen thought to himself.

He couldn't stay in this plane for long, so he had to escape as soon as possible.

However, just as he was about to leave, the soul he sent out once again sensed that something was wrong.

"Here we go again?" Yang Chen's expression was cold.

As soon as his thoughts settled, several Sky-separation Realm figures appeared in front of him once again.

Among them, four of them were the ones who chased and killed him yesterday and survived. But now, there were not just four of them, but a total of ten Sky-separation Realm cultivators, blocking his way.

Yang Chen's pupils shrank, and his expression flashed with a hint of coldness.

"Grand Abyss Palace enforcement officers, idle people, leave immediately!" The powerful ones from the Grand Abyss Palace shouted one after another.

"Grand Abyss Palace enforcement officers?"

"So many Sky-separation Realm experts!"

The overall strength of Wenyue Star was similar to the Southern Realm. How could they have seen so many powerful people appearing at once? For a moment, everyone was scared and quickly retreated, not daring to watch.

"Yang Chen, you have nowhere to run. Surrender obediently." The Sky-separation Realm experts stared at Yang Chen and spoke in a cold tone.

Yang Chen didn't rush to speak, but looked at the rear instead.

Unknowingly, two more Sky-separation Realm cultivators had appeared, blocking his path.

With a total of twelve Sky-separation Realm cultivators coming here, Yang Chen said expressionlessly, "You people from the Grand Abyss Palace really think highly of me."

"Of course! Yang Chen, there is more than one Sky-separation Realm cultivator who has died by your hands. And you killed Young Master Mo. If Young Master Mo dies, even if you and your bloodline perish together, it will not be enough. Don't worry, Yang Chen, we won't let you die easily. This is what Spirit Separation Ancestor said." The old man clad in solid armor among these Sky-separation experts sneered.

Yang Chen looked at this Sky-separation Realm cultivator, and asked indifferently, "What is your name?"

"This old man's name is Calamity King. Remember my name because soon, you will forget it." Calamity King spoke in a low tone.

Upon hearing this, Yang Chen closed and opened his eyes, and then the Domain of Earth spread out around him.

"Don't be afraid of this kid's domain power. As long as we join forces, all we need is to engage three of us to block the surrounding area to prevent him from using the Space-Time Law to escape." With a command from Calamity King, these Sky-separation Realm experts cooperated either in the main attack, side attack, or sealing spacetime, all seamlessly and without giving Yang Chen any chance.

Chapter 3195 Fierce Battle of Madness\_1

Yang Chen watched as these Sky-separation Realm Experts gradually approached him, his mind thinking of any feasible methods to escape.

How could he escape the siege of twelve elite Sky-separation Realm Experts? What method could he use to escape?

Spatial sealing, unless he used the Way of Ten Thousand Laws Dao Embryo to strengthen his Space-Time Dao Intent, only then could he have a chance to flee.

However, having used this method several times before, these people wouldn't be unprepared. As his eyes scanned the area, he saw various rules intertwined with Thunder and lightning within the sealed space.

It was not like last time with Han Yi, who was purely careless and allowed him to escape.

These Sky-separation Realm cultivators were fully focused and had no intention of letting him go. Even if Yang Chen forcefully created an opening, it would be difficult to break through the barrier with only an enhanced Space-Time Dao Intent.

In an instant, these Sky-separation Realm Experts had already surrounded Yang Chen, blocking his escape routes.

Yang Chen leaped and whispered a flash word. The next moment, he disappeared from his original position, reappearing far away.

"Yang Chen's mastery of the Space-Time Law is very proficient, but he can only teleport within this enclosed area. You three should suppress the surrounding space and gradually reduce his range of movement. I'd like to see where he can escape to!" The Calamity King said coldly.

Yang Chen glanced over and saw three people in the distance, positioned in a triangular shape. They slowly sealed the entire area, then shrank it again and again.

Upon seeing this, Yang Chen immediately vanished, his sights set on the three people responsible for sealing the space.

"Hahaha, Yang Chen, I knew you would target these three. But did you think I wouldn't be prepared?" The Calamity King laughed wildly.

A thick lock chain, mixed with Thunder and lightning, smashed down from the sky. With eighty-one chains coming from all directions, Yang Chen was immediately trapped.

Yang Chen knew that these three wouldn't be easy to reach. Seeing the lock chains, he immediately attempted to use the Space-Time Law.

However, when he tried to use the Space-Time Law, he discovered that the available space had been greatly compressed. He nearly failed to teleport far enough and was almost hit by the lock chain.

"Damn it, I failed." In the distance, a Sky Separation Realm Expert who had been watching Yang Chen's every move said in frustration. This lock chain was apparently launched by him.

Not a word was spoken as Yang Chen waved and controlled the Nine Heavens Wind and Thunder Sword. However, as soon as it touched the triangular barrier, it was struck by lightning and deflected back.

"Yang Chen, you're too naive to think you could break our Heavenly Lock Thunder Array. Did you really think we'd come unprepared to kill you?" The Calamity King sneered.

At this moment, two more Sky-separation Realm cultivators rushed directly towards Yang Chen.

Other Sky-separation cultivators attacked from the side, launching various techniques simultaneously.

Yang Chen continued to teleport using Space-Time Law, but the more he moved, the more he realized that the safe places available for teleportation were becoming fewer and fewer.

It was also at this time that he finally began to counterattack.

"Way of Ten Thousand Laws Dao Embryo!"

"Five Elements Turn Heaven Palm!"

Strengthened by the Five Elements Dao Intent, the Five Elements Turn Heaven Palm suddenly struck down from the sky, suppressing the twelve Sky-separation Realm cultivators.

"This palm is quite powerful! We have to work together to dissolve it first." The Calamity King, who clearly had some understanding of the technique, roared.

In an instant, six Sky-separation Realm cultivators flew out and faced Yang Chen's palm strike. As they stood tall on the battlefield, they directly collided with Yang Chen's Five Elements Turn Heaven Palm.

This clash could only be described as earth-shattering.

"Break!" The six Sky-separation Realm cultivators used all their strength, and even Yang Chen's enhanced Five Elements Turn Heaven Palm was clearly at a disadvantage.

Seeing this, Yang Chen gritted his teeth and launched another palm strike.

"Five Elements Turn Heaven Palm, fall again!"

Another Five Elements Turn Heaven Palm quickly descended.

The two Five Elements Turn Heaven Palm strikes fell together and battled against the six Sky-separation Realm cultivators.

However, just as Yang Chen summoned his double Five Elements Turn Heaven Palm strikes to descend, two other Sky-separation Realm cultivators freed their hands and attacked him from three directions.

Yang Chen could only use Space-Time to escape once more. However, the moment he emerged from the confines of Space-Time, another Sky-separation Realm Expert's attack fell upon him, seemingly having waited for a long time.

"Yang Chen, I've been waiting for this moment for a long time!" The Calamity King suddenly appeared, drinking coldly.

Seeing this, Yang Chen knew it was not good. Now, it was too late to escape. Yang Chen could only move his mouth slightly, and then someone jumped out of the Demon God Tower in an instant.

When this person appeared, there was a loud noise, lightning-fast. The Calamity King's killing strike was blocked.

"How is it possible? How can you still spare your hands?" The Calamity King's face changed suddenly.

As the dust cleared, the Calamity King looked carefully at the man standing beside Yang Chen.

"What? Aren't you the Expedition King? What happened? Didn't the Expedition King die? Expedition King, why did you join Yang Chen?" The Calamity King was shocked and couldn't comprehend the situation.

Yang Chen and Expedition King both had wooden expressions, giving no response.

This was not the real Expedition King, but Yang Chen's Rejuvenation Technique.

On his journey, he had slain six Sky-separation Realm cultivators, and among them were three whose corpses remained intact, including the Expedition King.

At first, Yang Chen didn't think much of it when he had collected and preserved the corpses. But now, it had saved his life.

If he hadn't managed to summon Expedition King in the nick of time, even if he wasn't killed by the Calamity King, he would have been severely injured.

However, things were different now...

With a press of his hand, three corpses appeared simultaneously.

Among them, six Sky-separation Realm cultivators were being delayed by the strengthened Five Elements Turn Heaven Palm. Three others were responsible for maintaining the Formation and preventing him from escaping.

There were only three people left: the Calamity King and two others. Waving his hand, Yang Chen controlled the two Sky-separation Realm corpses and started a fight with them.

"What is this? Aren't you..."

The two Grand Abyss Palace's Sky-separation Realm cultivators were obviously confused and engaged in combat with the corpses controlled by Yang Chen.

The next moment, Yang Chen stared coldly at the Calamity King and said, "Calamity King, only you are left!"

The Calamity King's body stiffened, and then he replied coldly, "Yang Chen, so what if it's just me? Killing you will still be easy!"

His allies were at his side; he had no reason to fear Yang Chen!

Yang Chen's expression was cold. Knowing that time was precious, he controlled the Expedition King's corpse, and in an instant, engaged the Calamity King in battle.

The Calamity King could only grit his teeth and fight the Expedition King. It was difficult for him to gain the upper hand in the battle, and he couldn't even defeat the puppet easily.

Yang Chen wasn't idle at the side either. He controlled the Nine Heavens Wind and Thunder Sword and launched it at the Calamity King while he was distracted with the Expedition King's body.

On the other hand, the Calamity King was already doing his best to deal with the Expedition King. How could he have time to resist Yang Chen's Nine Heavens Wind and Thunder Sword?

Chapter 3196 Zhang Xuelian's Entrusted Dream\_1

In an instant, Calamity King had no choice but to divert his attention. In a flash, he barely managed to dodge the Nine Heavens Wind and Thunder Sword.

But the next moment, the attack from Expedition King arrived in an instant, forcing Calamity King to turn back and deal with it. Dividing his attention, his tactics were nowhere near enough to cope with the situation, making him extremely hasty and unable to keep up.

Yang Chen would not show any mercy to Calamity King. At the moment when Expedition King made his move, he conjured up a massive amount of Deathly Silent Black Wind, aiming for a chaotic attack.

At this moment, Calamity King truly felt like crying. How could he have known that, despite seemingly having many allies around him, in reality, he was the only one!

For a time, he felt unable to resist Yang Chen's bombardment, and exclaimed, "Come and help me quickly!"

But who could help him?

Seeing that the Deathly Silent Black Wind was not enough to pressure Calamity King, Yang Chen controlled the Nine Heavens Wind and Thunder Sword, locking onto Calamity King.

Calamity King's pupils shrank, but his reaction was swift. In the face of danger, he instinctively dodged the attack once again.

Now, Calamity King was furious. He shouted, "The three of you, have one of you stop maintaining the Formation, and come help me."

Calamity King could now tell that only the three Sky-separation Realm cultivators maintaining the Formation could help him.

Now, he could no longer bother about Yang Chen's escape and could only suddenly shout out.

One of the Heaven-separated Realm cultivators maintaining the triangular Formation had no choice but to jump out and rush over to aid Calamity King in his plight.

But Yang Chen had already anticipated this. With a press of his palm, he locked Calamity King in place with Spatial Suppression.

When he was at the Boundaryless Cultivation level, he couldn't suppress someone from the Heaven-separated Realm. But now that he had reached the Half-step Heavenly Leaving Realm, with his greatly improved cultivation level, he could still suppress someone from the Heaven-separated Realm for a brief moment.

It was precisely during this moment of Time-Space Suppression that the Nine Heavens Wind and Thunder Sword pierced through!

Until his death, Calamity King could hardly believe that he had been killed by Yang Chen despite having so many sect allies around him.

It was precisely because he firmly believed this point that he had dared to speak arrogantly earlier, and dared to say that Yang Chen would definitely die.

Who could have thought that now, he had been killed by Yang Chen.

Watching Calamity King's corpse, Yang Chen spoke emotionlessly, "If you had kept your mouth shut from the beginning, maybe you wouldn't be the one dead now!"

Calamity King could never have imagined that his death was actually caused by his initial mockery of Yang Chen.

Now, with Calamity King dead on the spot and the triangular Formation broken due to the departure of one cultivator, Yang Chen seized the moment to unfold the Space-time Law and prepared to escape immediately.

To be honest, today's battle was a dead end, and he had already prepared himself for the possibility of not being able to escape. He hadn't expected that Calamity King, fearing death a little too much, had given him a helping hand just before dying.

If it hadn't been for that, he really wouldn't have had the slightest chance to escape with the Formation in place.

But now that the Formation was ineffective, Yang Chen would not miss the opportunity to escape.

However, just as he was about to slip away, three Sky-separation Realm cultivators suddenly appeared in the distance.

"I knew it would be like this, a bunch of trash. Yang Chen, where do you think you're running!" The three Sky-separation Realm cultivators had long been prepared in the shadows, and as Yang Chen's first flash reached their location, they suddenly struck out with a palm.

This palm was aimed at Yang Chen as he emerged and was accompanied by a giant palm, like a mountain, akin to a Heavenly Thunder, crashing down with a rumbling sound.

If Yang Chen had been at his peak, he might have been able to resist, but now, after a bout of fighting, his methods were nearly exhausted. Long-term consumption of the Way of Ten Thousand Laws Embryo was too much for him to bear.

Facing this palm, he had no choice but to use the law of protection to block it. As a result, his body was forced back, coughing up a mouthful of blood.

"Not good!"

Yang Chen's soul shook, realizing that his condition was extremely critical and nearly losing consciousness.

This palm from the Heaven-separated Realm cultivator was not easy to bear.

"Maintain the Formation again, lock him inside!" An unknown Heaven-separated Realm cultivator shouted.

With his consciousness blurred, Yang Chen knew that he could not simply sit and wait for his death, or else he would truly die.

He gritted his teeth and, just before the Formation was about to be reestablished, he manipulated the bodies of Expedition King and the other two cultivators to cause chaos by crashing into each other like a self-destructive attack.

Seizing this opportunity, he once again used Way of Ten Thousand Laws Embryo to strengthen the Space-Time Law!

With a swoosh sound, the Space-Time Law disappeared from this place just before the Formation was maintained, completely vanishing from sight.

All the Heaven-separated Realm experts who witnessed this were left with their scalp tingling as their eyes searched every corner and their souls scattered, but they could no longer find any traces of Yang Chen.

Each of these Heaven-separated Realm experts was thoroughly shocked and dejected. They knew that they had probably failed once again and let Yang Chen escape.

...

As Yang Chen used the Space-Time Law to escape, he knew that he couldn't stay in this Plane for too long and fled all the way to the Universe Starry Sky.

As soon as he reached the Universe Starry Sky, he immediately summoned the Spirit Leaf Flying Boat and divided his spirit body to control the Spirit Leaf Flying Boat towards the Distant Earth Star.

He had no choice but to do this because he felt his consciousness becoming blurred, as if he was about to lose control.

The palm of the Heaven-separated Realm expert had hit him hard. At that time, his protective law was already hard to support, and his injuries were now severe.

With a thud, Yang Chen fell into the Spirit Leaf Flying Boat and passed out.

It was after passing out that Yang Chen felt as if he had a strange dream.

In the dream, Zhang Xuelian was by his side, gently taking care of him. She watched as his injuries slowly healed, and when she left, she said a few words to him.

"The Grand Abyss Palace may not control all the Ten Thousand Realms, but compared to the not-too-distant Star Domain Interface, its power lies in the Heavenly Dao. The reason you were found so easily is because you were completely within the sight of the Heavenly Dao. The Heavenly Dao will give the observers of the Grand Abyss Palace your position, and no matter how much you change your appearance or hide, you can never escape it!"

"The best way to avoid detection and stay hidden is to use the Law protection before entering the Interface. It can avoid the inspection of the Heavenly Dao, but once the time is too long, you will still be discovered..."

When the conversation ended, Zhang Xuelian disappeared as if her dream image had shattered.

And Yang Chen suddenly woke up.

Upon waking up, he looked at the spirit body by his side, which dispersed and returned to his body.

Looking around, he was on the Spirit Leaf Flying Boat, having fallen into an unknown location within the Interface.

Yang Chen shook his head and looked at his body. His injuries were still present and had not completely healed.

However, that dream seemed so real, and what Zhang Xuelian said was definitely not a coincidence.

"Could it be that Zhang Xuelian used some secret art to send me a dream?" Yang Chen expressed his amazement.

While it would be impossible for others to do such a strange thing, he believed that Zhang Xuelian, as the Chosen One, still had the ability to do so.

Chapter 3197 Heavenly Eye\_1

However, he couldn't exactly explain how it happened right now, so he could only understand this strange occurrence as a "dream revelation."

When he woke up, his injuries hadn't healed much, but his understanding of laws had recovered a bit.

Yang Chen took an elixir to help him adjust,

His soul spread out, first taking a look around, then letting out a sigh of relief.

He was in a rather fortunate uninhabited area. Within countless miles, no signs of human life could be found.

As for which plane he was in, as he expected, it was his original target, Distant Earth Star.

He used his soul's spirit body to control his movement, coming to Distant Earth Star while he was unconscious.

However, now that he was in this star, Yang Chen still didn't feel relaxed.

"In that dream, Zhang Xue Lian's words seem to completely match the situation I encountered..." Yang Chen murmured.

Indeed, the only explanation for him being constantly tracked and hunted was the Heavenly Eye.

After all, in his former realm, changing his appearance and qi would make it difficult for anyone to detect him.

But at the Universe Starry Sky level, the heights and methods were completely different from before. The fact that the Grand Abyss Palace could borrow the power of Heavenly Dao was truly unimaginable.

Now that he was in Distant Earth Star, if the Grand Abyss Palace also used the power of Heavenly Dao, he would be detected soon.

"To be safe, I must go to other planes. However..."

Yang Chen was quite worried.

Even if he went to other planes, he would eventually be discovered.

"Zhang Xue Lian once told me that if I enter this plane with law protection before, Heavenly Dao wouldn't be able to sense me for a certain period. However, this can't last forever, I will eventually be detected!" Yang Chen muttered.

But after thinking about it, Yang Chen suddenly made up his mind.

"If I face multiple Sky-separation Realm cultivators again, I'll undoubtedly die." Yang Chen didn't believe that his luck would still be as good as last time.

"But if I can use this time to reach the Sky-separation Realm, maybe there's a chance!" Yang Chen's expression was solemn. He felt that this plan was a gamble.

If he was given more time, he could enter the Sky-separation Realm with confidence within ten or eight years. But to try it now, even with the help of the Liuli Mine and Xuan Jie's corpse, it was still quite risky for him.

However, after thinking it over, Yang Chen didn't have any other options.

"Although there are risks, if I don't advance successfully, I may face being surrounded by enemies. Then, I'll be caught between two fires and unable to escape. But if I don't take this gamble, I'll end up in a similar situation eventually. It seems that I'll have to take this gamble," Yang Chen made up his mind.

For now, he had to leave Distant Earth Star first.

With a plan in mind, Yang Chen quickly searched for a map of this plane.

Since he knew that he would eventually be discovered, Yang Chen decided to be more high-profile and went directly to the most powerful force in this plane. Using the Space-Time Law, he'd steal or rob if he couldn't!

The strongest force in this plane was also at the Sky-separation Realm level, which he could completely control. On his way, he stole the map and then left.

The plane adjacent to this one was called Law God Star.

With the map, Yang Chen rode on the Spirit Leaf Flying Boat, rushing for several days and finally reached the Law God Star.

Looking at the Law God Star, Yang Chen took a deep breath.

It was time to see if his gamble would be successful or not.

He first took back the Spirit Leaf Flying Boat and protected himself with layers of laws, entering the plane directly.

Even after entering the plane, he carefully protected himself. With all the protection, Yang Chen didn't know if he had escaped the Heavenly Eye or not. After entering the plane, he immediately aimed for a deserted desert.

Upon landing in the desert, Yang Chen went deep underground and excavated a subterranean area.

"Let's cultivate here..." Yang Chen sat cross-legged, took out the Liuli Mine in the underground area.

This Liuli Mine wasn't a Seven-colored Colored Glaze Mine but a treasure from the ore that he had obtained after assisting Ten Night City in killing Xuan Zhen.

Now, holding this mine, Yang Chen made a bold move and began to absorb it in large quantities.

After the absorption, the essence of the mine completely integrated into Yang Chen's body.

Yang Chen only felt his whole body burning like fire. As soon as this feeling appeared, he didn't delay and quickly took out Xuan Jie's corpse.

The corpse of the Spirit God Royal Clan combined with the Liuli Mine, both aiding his breakthrough to the Sky-separation Realm.

Yang Chen closed his eyes.

"I must succeed!"

With his heart set, he began to push his cultivation level.

...

A month later.

In Law God Star, there was a place called the Sky Spirit Tower, which was a pagoda built by the Grand Abyss Palace.

Standing above this Sky Spirit Tower, several Sky-separation Realm cultivators were looking around. If Yang Chen were here, he would recognize several familiar figures, most of whom had tried to kill him before.

"Yang Chen can't escape far. With this much time, he has at most reached the Law God Star and Distant Earth Star. And not long ago, we checked the Heavenly Dao power according to Distant Earth Star's Heavenly Eye and were able to confirm that Yang Chen had been there. And after leaving, he headed towards the Law God Star. How could he be without a trace now?" This King-level powerhouse said.

A Sky-separation Realm cultivator dressed in black was standing at the center of the Sky Spirit Tower with his eyes closed, chanting something as if performing a spell.

After a while, this black-robed Sky-separation Realm cultivator coldly said, "Still haven't sensed anything. Perhaps this Yang kid has realized something and is hiding in Law God Star using law protection. Otherwise, we couldn't possibly fail to locate him by communicating with Law God Star's Heavenly Dao."

"How could he know about this for no reason?" The other Sky-separation Realm cultivators couldn't help but be surprised.

"This kid is clever. We've hunted him so many times, and we could always accurately locate his position. It would be fake if he didn't sense anything wrong," the black-robed Sky-separation Realm cultivator said. "But don't worry, there are also people dispatched in several other planes. Yang Chen can't escape no matter what. Besides, a Heaven-appointed Realm expert is about to arrive; Yang Chen has nowhere to go!"

Hearing these words, a few Sky-separation Realm cultivators didn't argue, "Of course. However, if we wait for the Heaven-appointed Realm expert to arrive, we won't be able to take any credit."

"Don't worry, we'll find Yang Chen."

While speaking, the black-robed Sky-separation Realm cultivator seemed to find some clues and sneered, "It turns out that Yang Chen used the law protection to hide in this plane. What a pity, it's not so easy to escape the Heavenly Eye. He's been infiltrated by the Heavenly Dao, and the location has been found!"

Chapter 3198 The Tribulation Begins\_1

"Hahaha, as expected, heavens do not disappoint those who try. I knew that Yang Chen wouldn't be able to escape far and must be on Law God Star. Wherever he is, let's quickly set out to kill him first." Several Heavenly Boundary cultivators were already eager to act.

If they were to kill Yang Chen, the merit would be great, and they were all looking forward to it.

"Don't be hasty, last time we all acted together and still let him escape in the end. This time, we absolutely cannot let him get away again. If we can't succeed this time, when the Heaven-appointed Realm experts arrive, we will have no more opportunities. Fortunately, the Heavenly Eye has informed me that Yang Chen is in the midst of his cultivation. There's no need to rush, let's first shift all the manpower from other interfaces and set up a Sky-Roaming Net to kill him."

...

In an instant, many Heavenly Boundary experts were on the move, waiting. In a blink of an eye, another ten days had passed.

Ten days later, Yang Chen faintly sensed that he was already surrounded by numerous Heavenly Boundary experts. However, he showed no fluctuations and remained motionless with his eyes closed.

At this point, the essence of the Liuli Mine in front of him had completely dissipated, and the body of Xuan Jie had turned into the void.

His Qi was sometimes strong and sometimes weak, extremely unstable, being stuck at the most critical stage of breaking through the realm.

At the same time, the Heavenly Boundary experts of the Grand Abyss Palace were silently approaching him.

"Dark Night King, you are in charge this time, when will you make a move!" Other Heavenly Boundary experts looked towards a black-clothed Heavenly Boundary cultivator not far away and asked.

This black-clothed Heavenly Boundary cultivator was called the Dark Night King. He responded as he mingled with the crowd, "We have twenty-three Heavenly Boundary experts. Four of us will block the way, three will maintain the formation. The others will follow me and directly suppress Yang Chen. Last time, if it wasn't for the Calamity King fearing you, we would have caught Yang Chen already. But this time, this kind of thing won't happen again."

Just as the Dark Night King finished speaking, his eyes were suddenly fixed on the front, "What's wrong with Yang Chen, why is his aura fluctuating like that?"

"This fluctuation in aura, could it be that he's breaking through to the Heavenly Boundary Realm?"

"And looking at this aura, it seems to be infinitely close to the Heavenly Boundary Realm, could it be that he's about to succeed?"

The group was shocked. The Dark Night King roared, "Make a move, kill him directly!"

He obviously realized that something was wrong, and wanted to take action immediately.

But at this moment, a bolt of thunder rang out in the clear sky, followed by rolling thunder and the sound of the Thunder Pool. Suddenly, everything changed.

"Not good, the Heaven's Tribulation is here!" The Dark Night King and other Heavenly Boundary cultivators retreated hastily, their eyes filled with shock.

They knew that they were already too late. The arrival of the Heavenly Tribulation meant that it would be difficult for them to make a move.

The Dark Night King clenched his teeth tightly, filled with hatred, but there was nothing he could do.

Although they could communicate with the Heavenly Dao, they could not change it. Every birth of a Heavenly Dao was absolute, and the existence of the Heavenly Dao represented the rules of the Universe Starry Sky.

Only when one's cultivation level reached the Heavenly Extreme Realm, could one possibly rewrite the Heavenly Dao. Even the Heaven-appointed Realm couldn't do it.

Even if it was the Heavenly Extreme Realm, attempting to modify the rules would face the difficulty of the Thunder Tribulation. The horror of these tribulations was unprecedented.

So, they could only avoid Yang Chen's Thunder Tribulation and couldn't interfere.

"This Thunder Tribulation is really bad timing, but its power is so strong!"

"Boundaryless Cultivation entering the Heavenly Boundary Realm theoretically needs to face the thirty-nine Thunder Tribulations. Even some formidable characters face the forty-nine Thunder Tribulations. Even if it's the first few names on the Great Luo Celestial Stele, it's rare to see the fifty-nine Thunder Tribulations."

"Would the power of his Thunder Tribulation be so terrifying if it was the fifty-nine Thunder Tribulations?"

"My Grand Abyss Palace had a powerful cultivator ranked fourth on the Daluo Celestial Monument who faced the tribulation 240,000 years ago. It was a fifty-nine Thunder Tribulation, but the power under the drastic changes in the sky wasn't so strong..."

These Heavenly Boundary cultivators looked at each other, shocked.

"Could it be, could it be the Six-Nine Tribulation Thunder!"

These Heavenly Boundary experts thought of a possibility.

If it was the Six-Nine Tribulation Thunder, it would be too terrifying. Heavenly Boundary cultivators entering the Heaven-appointed Realm might not even trigger such a high-level Heavenly Thunder. Just how monstrous was Yang Chen that he could summon this Heavenly Tribulation while entering the Heavenly Boundary Realm?

Yang Chen was now also getting up from the ground.

Although he had sensed the encirclement of powerful men around him, he was not flustered and appeared extremely calm.

As he thought, the Heavenly Tribulation could not be easily reversed, and these people could only obediently watch from the sidelines.

However, the power of the Heavenly Tribulation was indeed a bit nerve-wracking.

"Six-Nine Tribulation Thunder!" Yang Chen's face was extremely serious.

Every time the Thunder Tribulation struck, it was as if the heavens were deliberately making things difficult for him, each time nearly taking half his life before relenting.

He didn't know just how powerful the Six-Nine Tribulation Thunder would be in the end, but he hoped that it would be a little easier.

Yang Chen glanced out of the corner of his eye and found that these Heavenly Boundary experts had already set up an ambush and formation around him. It seemed that even if he passed the Thunder Tribulation, he would face a group of powerful experts' joint attack, creating a very unfavorable situation.

But at this point, he could only relax himself and not think about it anymore.

Otherwise, if he were distracted while facing tribulation, he would be the one to suffer.

Boom! Boom! Boom!

Yang Chen stared at the rolling black clouds and intertwined Thunder above him, and his surrounding aura gradually dissipated.

Finally, the first level of Thunder Tribulation arrived.

The power of the Nineteen Thunder Tribulation was indeed strong, but for Yang Chen in his current realm, it was as easy as pie. All the levels of the One-Nine Thunder Tribulation were wiped out by Yang Chen.

Suddenly, the Two-Nine Thunder Tribulation!

With the start of the Two-Nine Thunder Tribulation, its power was completely different from that of the One-Nine Thunder Tribulation.

However, Yang Chen had already entered the Heavenly Boundary Realm, and his strength had also increased greatly compared to before.

Two-Nine Thunder Tribulation, still crushed!

Then, the Three-Nine Thunder Tribulation!

The series of events during which Yang Chen dissolved the Thunder Tribulations was swift and resolute, leaving the surrounding Grand Abyss Palace Heavenly Boundary experts in shock, their eyes wide open.

"This Yang Chen is even stronger than before, and much, much stronger at that."

"After entering the Heavenly Boundary Realm, his strength will naturally advance by leaps and bounds. But even so, it's too much for him."

"Even before the Thunder Tribulation has completely cleansed him, his Heavenly Boundary Realm strength is not fully displayed, but it's already like this..."

These Heavenly Boundary cultivators were shocked, and even when comparing themselves to Yang Chen, they felt chills down their spine.

They felt that if they were to go up and fight against Yang Chen with this strength, it would undoubtedly be a humiliating result, without any chance of success!

"This Yang Chen was already capable of killing Heavenly Boundary cultivators when his cultivation was Boundaryless. Now that he has entered the Heavenly Boundary Realm, his strength will naturally increase further. But you don't need to scare yourselves. With more than twenty of us stationed here, are we afraid that he can turn the heavens and earth upside down?" The Dark Night King said coldly.

Upon hearing this, the others looked a little more relaxed. "Besides, whether this child can pass the Thunder Tribulation is still unknown. Even if he does, are we afraid of someone who has been severely injured by the Thunder Tribulation?"

Chapter 3199 The Might of Six-Nine Tribulation Thunder\_1

Upon hearing these words, the people finally relaxed slightly.

Indeed, during Yang Chen's confrontation with the Heaven's Tribulation just now, the astonishing strength he displayed had put immense pressure on them, so much so that they felt incapable of fighting against it.

Now that he had said this, they regained their senses.

What were they afraid of? Even if Yang Chen were to survive this tribulation by chance, he would certainly be severely injured. By using a series of formations to suppress and kill him here, they didn't think Yang Chen could escape.

How could Yang Chen not know what these powerful ones had in mind? He locked his gaze on the sky, remaining calm, and waited for the forty-nine thunder tribulations to arrive.

When these forty-nine thunder tribulations arrived, Yang Chen felt that they had gradually come within his tolerable range.

At first, the thirty-nine tribulations were also quite strong, but he believed that he could dissolve them with ease.

However, when it came to the forty-nine thunder tribulations, he had to take them seriously. If he treated them with the same disregard as he did the thirty-nine tribulations, he would be the one to suffer.

Yang Chen was meticulous. As the forty-nine tribulations arrived, he suddenly created the Deathly Silent Black Wind.

The forty-nine tribulations put some pressure on him, but overall, by using the Deathly Silent Black Wind, he could still achieve a perfect resolution.

It didn't force him to use too many means.

But when the fifty-nine tribulations arrived, the pressure was different.

Yang Chen felt the Sky Thunder Pool change dramatically, as the power of the tribulations suddenly increased, interweaving and giving him a restless feeling.

Yang Chen unconsciously increased the amount of Deathly Silent Black Wind he released, so as to better react during the confrontation.

The fifty-nine tribulations quickly descended.

Yang Chen used hundreds of strands of Deathly Silent Black Wind together to collide with the sky tribulations.

Although these experts in the Heaven-separated Realm wanted to kill Yang Chen, they could not deny his strength. Every time he fought the tribulations, there was a terrifying collision that caused their minds to waver, unable to gauge the gap between themselves and Yang Chen.

In the early stage of the fifty-nine tribulations, Yang Chen was able to resolve them only by using the Deathly Silent Black Wind. But in the later stage, he had to summon the Nine Heavens Wind and Thunder Sword to do so.

The fifty-nine tribulations gradually dissipated, and what came next was the even more terrifying sixty-nine tribulations.

Even before the sixty-nine tribulations were born, the change in the sky had spread over hundreds of billions of miles. A vast area had changed color due to Yang Chen's tribulations.

The powerful ones in the entire Star Domain Interface could sense the commotion here, but they didn't know what exactly was happening.

"This sixty-nine tribulation is so powerful..." Yang Chen felt his heart tremble, on guard at all times.

Suddenly, the first tribulation of the sixty-nine thunder tribulations shattered and descended.

As the first tribulation fell, the surrounding space was crushed under the pressure of the tribulation. Spatial cracks were everywhere, and the black holes seemed to proclaim the arrival of the doomsday.

This was only the first tribulation, yet it distorted space with its pressure, showing its strength!

Yang Chen also waved his hand and released his own attack.

Hundreds of strands of Deathly Silent Black Wind, together with the Nine Heavens Wind and Thunder Sword, clashed with the first tribulation of the sixty-nine tribulations.

With crackling noises, Yang Chen's Deathly Silent Black Wind combined with the Nine Heavens Wind and Thunder Sword gained the upper hand, breaking apart the first tribulation.

However, Yang Chen also sensed that he had narrowly won against the first tribulation. If the second tribulation were to arrive and he still relied solely on this method, he feared that he would die miserably.

Now, the pace of the sixty-nine tribulations was rapid, leaving him no time to catch his breath. The second tribulation had already descended like lightning.

As it fell, Yang Chen immediately offered up the Nine Heavens Wind and Thunder Sword, and then used the Deathly Silent Black Wind to guard and protect himself.

After that.

"Five Elements Sky-turning Finger!" With a single finger, he landed and merged with the twisted Second Layer of Thunder Tribulation, combining with the Nine Heavens Wind and Thunder Sword, dissolving it on the spot.

Immediately, the Third Layer!

Yang Chen used two fingers of the Five Elements Sky-turning Finger for the Third Layer, three fingers for the Fourth Level, and four fingers for the Fifth Layer.

By the time he reached the Sixth Level, Yang Chen's pressure grew increasingly heavier. Feeling compelled, he executed his Five Elements Turn Heaven Palm. Otherwise, he might perish in the midst of this Sixth-Level Thunder Tribulation.

Fortunately, with his current cultivation level in the Heaven-separated Realm, Yang Chen's proficiency in the Five Elements Turn Heaven Palm had significantly improved. He struck down with a palm, colliding with the Sixth-Level Thunder Tribulation.

A massive vibration, which directly caused the surrounding space to become utterly damaged, resounded.

Yang Chen's Five Elements Sky-turning Palm, its power still astonishing, holds the upper hand in the collision with the Sixth-Level Thunder Tribulation and tears it apart.

However, with hardly any time to catch his breath, the Seventh Layer arrives, rolling thunderously.

"So fast!"

Yang Chen recalled the last time he faced such tribulation.

The closer to the last thunder tribulation, the more wildly unpredictable the trial was like a raging storm.

For the Seventh Layer of the Thunder Tribulation, he gritted his teeth, repeatedly executed the Five Elements Sky-turning Palm, and descended once more.

However, this time, it wasn't a single palm but three in one fell swoop.

Yang Chen could feel that just two palms might not be enough.

Three Five Elements Sky-turning Palms descended from the sky, colliding with the Seventh Layer of Thunder Tribulation. Amidst the crackling, the Seventh Layer was shattered.

Then, without even a moment's pause, the ferocious Eighth Level arrives.

Yang Chen's sweat dripped down, even with his various skills at hand, dealing with these relentless, consecutive Thunder Tribulations was immensely taxing.

Using the simple Five Elements Sky-turning Palm would probably not be enough for the Eighth Level.

Yang Chen took a deep, cold breath, knowing that he had to use some more powerful techniques.

His eyes closed and opened, and then he began to murmur.

"Ten Thousand Law Dao Embryo, Open!"

Strengthened Five Elements Dao Intent!

The Five Elements Sky-turning Palm fell again. However, this time, it was imbued with the strengthened Life and Death Dao Intent, like a giant mountain descending from the sky!

Compared to the Eighth-Level Thunder Tribulation, it was akin to a tiny thread. The two intertwined, with the strengthened Life and Death Dao Intent quickly gaining the upper hand.

The Eighth-Level Thunder Tribulation was also dissolved.

This scene left the Sky Separation Realm experts astonished, their eyes wide and flashing with fear.

Yang Chen had passed the Eight of the Six-Nine Tribulation Thunder, leaving only the last one.

The opponent was too demon-like; none of them could pressure him at all. Now, he was only one tribulation away from passing the Six-Nine Tribulation Thunder completely!

This last tribulation would dictate whether they should engage in a deadly battle with Yang Chen!

Feeling the consumption of the Ten Thousand Law Dao Embryo, Yang Chen furrowed his brows.

With the current strength of his Ten Thousand Law Dao Embryo, it wouldn't be a problem to go all out against the incoming Ninth Thunder.

But the real problem clearly wasn't the Ninth Thunder!

Chapter 3200 Leaving Casually\_1

The real threat lay in the Sky-separation Realm cultivators who had been secretly ambushed around him.

However, Yang Chen no longer had time to think. The arrival of the Ninth Thunderburst happened in just a brief moment.

The Ninth Thunderburst was ferocious and its power was astonishing.

Yang Chen had been readying himself and used the Five Elements Turn Heaven Palm, which had been enhanced by the Way of Ten Thousand Laws.

But obviously, this Ninth Thunderbolt was not so easily resolved.

At least, it was not easy for Yang Chen to break it with a single enhanced Five Elements Turn Heaven Palm.

The huge palm in the sky intersected with the Ninth Thunderbolt, like an enraged gigantic dragon. Yang Chen's Five Elements Laws rose, clashing with the layers of thunder and lightning, clearly at a disadvantage.

Seeing Yang Chen at a disadvantage, many Sky-separating Realm experts were also pleased. They naturally wished the worse for Yang Chen.

But there was still some distance before Yang Chen was left with no options.

Seeing that the first palm was unsuccessful, Yang Chen swung his sleeves, quickly following with a second palm.

Now that his strength had reached Sky-separation Realm, his own laws had become incomparable to before. It was still within his limits to continuously apply pressure with three palms, but it would make him slightly fatigued.

This second Five Elements Turn Heaven Palm descended, seemingly forming giant hands from the sky to fight the heavenly thunder.

Even so, it was still hard to determine the winner or loser between this Ninth Thunderbolt and the palm, like a huge dragon locked in combat.

Yang Chen took a deep breath, the Ninth Thunderbolt as the final variant was indeed terrifying.

Seeing that even two Five Elements Turn Heaven Palms were unable to dissolve the Ninth Thunderbolt, Yang Chen had to do his best!

Combined with the Nine Heavens Wind and Thunder Sword, it created an extremely terrifying blow!

Yang Chen's heart was restless under these circumstances, as he collided with the Ninth Thunderbolt again.

He had other methods, and he was confident that crossing the Ninth Thunderbolt was not a problem. But to say that he had run out of options was too early.

However, if he resorted to other methods, the means he would later use to deal with other Sky-separation Realm experts might not be enough.

Yang Chen's expression was heavy, worried in his heart, but he soon relaxed.

Because under his various methods, the Ninth Thunderbolt turned into nothingness. He had successfully survived this tribulation.

Seeing this, Yang Chen let out a sigh of relief and a relaxed smile appeared on his face.

After the Ninth Thunderbolt had passed, the sky gradually cleared, and Yang Chen felt that under the baptism of the Thunder Tribulation, three complete sets of laws took shape.

Yes, as he broke through to the Sky-separation Realm in one breath, unlike other Sky-separation Realm experts, he completed not just one complete law but three full laws.

Thunder and Lightning Dao Intent, Spear Dao Intent, and Space-Time Dao Intent were all upgraded to complete laws.

This also declared that he would completely become a Sky-separation Realm cultivator, with far more complete laws than ordinary Sky-separation Realm cultivators.

The formation of Thunder and Lightning Laws and Space-Time Laws was within Yang Chen's expectations.

But what he didn't expect was that Xuan Jie also had the talent for the Way of the Spear, which he refined, so his Spear Dao Intent evolved into a law before the other Dao Intents.

Unfortunately, now that he had lost the Slaughter God Spear, even with this complete law, he could not fully utilize its power.

Having successfully survived the Thunder Tribulation, Yang Chen slightly adjusted his breath and turned his gaze to the real trouble that remained after the Thunder Tribulation.

"Yang Chen, you are indeed terrifying, but everything ends here!" Dark Night King and numerous Sky-separation Realm experts quickly positioned themselves, staring at Yang Chen fiercely.

Seeing himself surrounded by these powerful people, Yang Chen smiled lightly, "Looks like you're all afraid of me?"

At these words, Dark Night King trembled, unable to deny the truth in them.

Indeed, ever since they saw how terrifying Yang Chen was when he was in the tribulation, they felt extreme fear towards him. However, considering their numbers and Yang Chen's situation...

Dark Night King sneered, "Yang Chen, your strength is indeed strong, but how much longer can you last?"

"So why don't you come at me?" Yang Chen laughed with his hands behind his back.

Dark Night King looked at Yang Chen's mocking eyes, clenched his fists, pondered for a long time, and then shouted, "Don't be intimidated by him; he's just trying to scare us. Charge!"

As the conversation ended, Dark Night King took the lead, leaping thousands of miles forward with other Sky-separation Realm experts, attempting to kill Yang Chen with fierce methods.

As for Yang Chen, he also revealed a cold smile.

With a light touch of his hand!

Taking advantage of the strengthening of the Way of Ten Thousand Laws, he once again brought down the Five Elements Turn Heaven Palm.

But this time, he wasn't dealing with the Thunder Tribulation; it was the Sky-separation Realm cultivators.

When it came to dealing with these cultivators, the effect was significantly different. Previously, against the terrifying Thunder Tribulation, even the strengthened Five Elements Turn Heaven Palm seemed powerless.

But against these cultivators...

Rumbling sounds spread, and immediately, screams were suddenly heard.

"What is this!"

Three Sky-separation Realm cultivators tried to intercept, but as soon as they touched it, the gold, wood, water, fire, and earth emanating from the Five Elements Turn Heaven Palm killed them instantly.

Yang Chen, however, vanished in an instant, only to reappear elsewhere.

With the Nine Heavens Wind and Thunder Sword in hand, the flickering lightning emitted a very sharp sword that instantly killed another person. There was silence, almost impossible to trace.

This made many people realize something terrifying.

Yang Chen's Space-time Law had become even stronger than before, and they could no longer detect any traces or movements from Yang Chen.

If this were before, when Yang Chen moved through space-time, they could still find some clues!

"Be careful!" Dark Night King shouted.

But it was already too late. When Yang Chen appeared, another Sky-separation Realm cultivator fell.

"The fight ends here today – Farewell!" Yang Chen killed five people in a row before vanishing in a flash.

"Where do you think you're going?" Dark Night King wouldn't let go so easily, and although he lost five people, he still had the advantage in numbers and couldn't let Yang Chen escape.

Yang Chen, without hesitation, swung his sword as if entering an uninhabited place. As soon as the man guarding one corner of the triangular formation saw Yang Chen's sword approaching, he was instantly shocked and his scalp tingled – he didn't dare to resist.

Facing this sword, he seemed extremely weak, having no choice but to abandon the formation and dodge aside.

Yang Chen let out a wild laugh, then left insouciantly.

Dark Night King trembled, not knowing how to catch Yang Chen now.
