

Supreme MK 3231

Chapter 3231 The Purpose of Huan Ye Ming Wang_1

There are not too many cultivators of the Spear Dao, but the quality varies. Yang Chen's one spear contained endless essence that he had never seen before.

Willow Stain could be absolutely certain that Yang Chen's Spear Dao was profound and immeasurable, far beyond his reach.

Just now, the seemingly casual spear strike, if he could comprehend it, would benefit him for a lifetime.

Willow Stain's body stiffened and he was in a daze for a while, before finally regaining his senses under his father's reminder. He nervously said, "Yes, Junior will not let Senior down."

Yang Chen looked at the eager expression in Willow Stain's eyes and nodded lightly.

Without saying anything else, at least he could see that Willow Stain was an extremely hard-working person.

As for his own spear strike, whether or not Willow Stain could comprehend its essence was beyond his control.

"Work hard, little guy." Yang Chen patted Willow Stain's shoulder, flashed his figure, and disappeared.

Willow Stain stared blankly at the direction Yang Chen left, clenching his fists, knowing that this was a precious opportunity for him and he must seize it.

Willow Feng was also extremely excited: "Son, you must seize this chance. If you could become a disciple of this powerful person, I would be relieved of you in the future. It just so happens that this gentleman is also a cultivator of the Spear Dao and it couldn't be better for him to be your master."

...

After Yang Chen returned, Broken River and the other two returned one after another in a short time.

The three of them came back and happened to see Yang Chen. They couldn't help but feel a sense of loss.

"How did the three of you investigate?" Yang Chen asked.

Broken River shook his head: "The three of us went to the Lingtian Array and couldn't find any clues or results. This is actually quite normal. If there were clues, our junior sister and the others wouldn't have gone to the Desolate Snake Desert."

"So, what do you intend to do now?" Yang Chen asked.

Broken River folded his arms and said after a moment of thought, "There's no other way. The four of us will go to the Desolate Snake Desert first and find the Snake people to ask about it. Since Junior Sister Moon Orchid disappeared in the Desolate Snake Desert, naturally we have to ask those Snake people for details. What do the three of you think?"

"I have no problem with that." Yang Chen said.

Madame Autumn Plum and Dao Guangwang looked at each other, clearly somewhat hesitant, but as things had come to this point, they couldn't say anything else, so they nodded their heads and agreed to it.

The four made some preparations, said a word to Willow Feng, and then went together to the Desolate Snake Desert.

For the four of them, they could easily cross the distance between realms, so going to the Desolate Snake Desert was a piece of cake.

The Desolate Snake Desert stretched endlessly, and throughout the entire desert, it was empty, with no signs of life. There were, however, snake statues scattered everywhere, standing in the yellow sand, covered by dust and sand, exuding an ancient atmosphere.

"This Desolate Snake Ancient City is really hidden." Broken River said.

Dao Guangwang said coldly: "These Snake people built the city so covertly, I think they must have some ulterior motives."

Madame Autumn Plum shook her head: "Brother Daoguang, don't be so sure. The Snake people have contributed countless treasures to our Heavenly Melody Mountain over the years, proving their loyalty. In this matter of Junior Sister Moon Orchid, let's investigate the matter first before drawing conclusions. Don't make hasty comments. If Brother Daoguang keeps this temper, I'm afraid that if we offend the Snake people, they might not tell us the whereabouts of Junior Sister Moon Orchid and the others sincerely."

Broken River also nodded: "Brother Daoguang, you better restrain your temper."

Although Dao Guangwang was somewhat unwilling, since the other two said so, he could only nod in agreement and say, "All right."

Yang Chen remained calm, seemingly casually watching the surroundings while actually observing every detail.

Broken River and the others didn't know, but he was very clear that he was being watched all the time.

Now that they had entered this desolate and uninhabited Desolate Snake Desert, it was difficult to guarantee that the person spying on them would not take action.

Just as Yang Chen was pondering, he suddenly sensed something.

He was about to speak when Broken River's eyebrows twitched, as if he had noticed something too.

This made Yang Chen hold back his words and pretended not to know.

Broken River shouted, "Be careful, everyone. Enemies are attacking!"

As the words fell, four Snake people burst out from the ground.

These four Snake people were already of age, but their appearance remained exceptionally handsome. Now, they were holding sharp weapons, and they had all achieved the cultivation of the Heaven-separated Realm.

When the four Heaven-separated Realm Snake people appeared, Broken River was taken aback.

"When did the Snake people produce so many Heaven-separated Realm cultivators?" Broken River became furious: "You Snake people dare to attack us humans? Tired of living, huh?!"

"Humph, humans? Only foolish royal clans trust and fear you humans. We, the Heaven's Might Army, are not afraid of you humans!" The four Snake people's tongues stretched out, their long scales making one's hair stand on end.

"Heaven's Might Army?" Broken River and the other two were all unsure.

Before they had time to think and ask, the four Snake people of the Heaven-separated Realm had already attacked them.

One person against each, the battle instantly became heated.

Yang Chen also went up against one of the Heaven-separated Realm Snake people. This Snake person was holding a trident, which struck with a force strong enough to change wind and clouds.

Under the rolling yellow sand, the fights between the four Heaven-separated Realms caused a huge disturbance.

Yang Chen looked at the Snake person of the Heaven-separated Realm with a cold smile on his face. With his abilities, the four Snake people would be easy prey even if they attacked together.

He originally intended to suppress the Snake person with a wave of his hand. However, thinking that there was always a pair of eyes watching him from behind, revealing his strength now would inevitably alert the enemy.

By then, it would be very difficult to catch the person hiding in the dark.

So Yang Chen pretended to struggle, fighting against the Snake person of the Heaven-separated Realm, showing an easy-going demeanor.

This scene was clearly seen by Huan Ye Ming Wang and a few Snake people.

"Lord Huan Ye, if you arrange for them to go, it won't be enough to kill these four humans. Why don't we go help them?" A few Snake people with cultivation levels that had also reached the Heaven-separated Realm said with concern.

Huan Ye Ming Wang sneered, "What do you know? These four Heaven-separated Realm cultivators are all from Heavenly Melody Mountain. It's not easy to defeat them, let alone kill them. They can escape if they can't win. It's useless for you to go. It would just startle the enemy."

"So Lord Huan Ye's intention is..." The few Snake people asked, puzzled.

"My intention is to let them test the strength of these humans. If they're not that good, I can kill them anytime with my power!" Huan Ye Ming Wang said.

Chapter 3232 - Weak Strength?_1

"So, Lord of the Underworld plans to take action personally. With your methods, Sir, these four people will definitely not even know how they died." The snake people fawn and flatter with a smile.

Huan Ye Ming Wang coldly said, "You think too much. I only said I would take action, not necessarily by myself. I sent these four snake people to test their abilities, to see what they are capable of. Now, comparing these four humans with those of Grand Abyss Palace, they are far behind and not worth my full attention."

The other snake people also looked at the picture, watching how these four humans were fighting the snake people and followed Huan Ye Ming Wang's words.

"Indeed, the strength of these four humans is much weaker than that of the Grand Abyss Palace. Only that old man in the Taoist robe seems to have some strength. It seems that without two or three snake people, he might not be easy to capture."

Huan Ye Ming Wang sneered, "This man is Broken River from Heavenly Melody Mountain. He was a famous figure in his early years. With the combat power of your snake people, I'm afraid that even two or three Heaven-separated Realm experts couldn't take him down."

"It's really Broken River!" The snake people's faces turned pale upon hearing this prestigious name.

"Why are you panicking over a mere Broken River? Are you all really a bunch of useless trash!" King of Hell spoke coldly.

Being scolded by Huan Ye Ming Wang, the group of snake people dared not say anything.

Huan Ye Ming Wang spoke expressionlessly, "Although these four have some strength, they are still weaker than Fairy Moon Fu and her group of six. I have ways to deal with those six, so these four pose no threat. Your only task is to keep an eye on the Jiuyou Emperor Grass. I'll handle these four."

"Yes, Lord Huan Ye..."

...

Little did Broken River and his companions know that they were playing right into the calculations of their enemies. They believed that they were dealing with a normal enemy attack and had to utilize all their abilities.

Compared to them, Broken River had it easy, defeating a snake person effortlessly. He could even kill a Heaven-separated Realm snake person if it went on for a long time.

As for Dao Guangwang and Madame Autumn Plum, they were each suppressing a Heaven-separated Realm snake person, so victory was only a matter of time.

Only Yang Chen was struggling greatly against the snake person in the Heaven-separated Realm, with a red face and near-exhaustion. It seemed as if he had used his most powerful abilities, yet he was still unable to suppress his opponent.

This scene was naturally seen by the other three who were faring far better, and their attitudes toward Yang Chen had changed drastically in an instant.

At first, when they saw Yang Chen casually refining the Poison Concealing Pill, their opinions of him greatly improved, thinking that he truly lived up to the rumors.

But now, as they watched Yang Chen struggle to defeat even one snake person, they all shook their heads in disbelief.

From the beginning, they felt that Yang Chen's reputation did not live up to reality. After all, to single-handedly slay twenty-eight Heavenly Leaving Realm experts did seem too miraculous.

But without enough evidence, they couldn't make a clear judgment.

Now, looking at Yang Chen's true strength, it seemed that the rumors were too exaggerated. His actual abilities were not that impressive. At least now, as he struggled against a Heaven-separated Realm snake person, he was clearly several levels below the average experts of Heavenly Melody Mountain.

If compared to Broken River, who was an outstanding Heaven-separated Realm expert, the gap was even greater.

Broken River frowned upon seeing Yang Chen's poor performance, and was annoyed when he thought back to how Yang Chen had boasted that he could single-handedly take on two to three Heaven-separated Realm experts.

Yang Chen had insisted on taking this task without considering the difficulty, and Broken River couldn't help but feel displeased. But if Yang Chen encountered danger, he would still help.

Although Broken River was focused on fighting a snake person, he could still lend a hand. With a flick of his wrist, he struck at the snake person fighting against Yang Chen.

Initially, the snake person fighting Yang Chen was enjoying his triumph, but after being sneak attacked by Broken River's palm, with the lingering power of the Laws, he became flustered and disorganized.

The other three snake people saw the situation turning unfavorable and shouted, "These four people are more difficult than we thought. Let's retreat first!"

As they spoke, the four snake people exchanged glances and quickly burrowed underground, disappearing into the ground.

Dao Guangwang, seeing the situation, let out a cold shout and slapped the ground with his palm.

As the Laws lingered, the ground trembled, and even caused a horrifying earthquake.

"What happened?" Broken River asked, watching Dao Guangwang's pursuit.

Dao Guangwang shook his head slightly, "We let the four snake people escape."

Hearing this, the three of them couldn't help but sigh and feel disheartened.

At this time, Yang Chen stepped forward and said with a bow, "Thank you, Brother Gu, for your help just now."

Broken River didn't feel happy seeing Yang Chen coming to express his gratitude, but rather frowned.

The difference in Yang Chen's strength compared to what they had previously known was huge, making it hard for them to feel pleased. It was already good enough that he didn't hold them back with his performance just now.

Although he didn't show the indifference of Dao Guangwang and Madame Autumn Plum, Broken River couldn't help but shake his head. After all, the Poison Concealing Pill was made by Yang Chen, so he said, "It's nothing. It was just a small effort. However, Yang Chen, you must focus on improving yourself. The journey ahead is extremely dangerous, and we may not be able to help you again if you encounter such powerful enemies."

Dao Guangwang couldn't help but add, "Brother Yang Chen, when you said you could rival two or three Heaven-separated Realm experts, you meant relying on others' help, right?"

"Dao Guang!" Broken River chided him, preventing him from speaking any more offensive words.

Yang Chen secretly smiled, knowing that his earlier performance had led the three of them to change their attitudes toward him.

But he didn't care. Their attitude towards him was not important. The important thing was how the person secretly observing him felt about him.

Yang Chen's lips curled up slightly, considering that deceiving the heavens and crossing the sea would be what he was doing now.

"Thank you for your advice. I'll be more careful next time!" Yang Chen said.

Dao Guangwang, persuaded by Broken River, stopped making sarcastic comments but still didn't think much of it. After all, strength was not something that could be improved simply by being careful.

If Yang Chen's strength was not up to par, he shouldn't have insisted on undertaking this task at that time. Now, they had to bring a burden along on their journey, and no one could be happy about it.

Chapter 3233: Entering the Snake City_1

“These snake people actually dared to attack us? Brother Gu, I propose that we let the Heaven-appointed Realm seniors of our Heavenly Melody Mountain suppress them directly!” Dao Guangwang didn’t want to bring up Yang Chen at this time, and recalled the actions of the snake people, angrily said.

Broken River looked serious and waved his hand: “No, these Heaven-appointed Realm seniors have a heavy task. If they can’t be asked for help, it’s better not to ask. If we ask for help, doesn’t that prove that we Sky-separating Realm cultivators are all useless?”

“This...” Dao Guangwang couldn’t continue when he heard this.

The fact is, if things can be resolved by these Sky-separating Realm experts, it’s better not to use the Heaven-appointed Realm. Otherwise, it would be embarrassing to spread the word.

“The situation of the snake people is very strange now, but from what I have just seen, there seems to be a division among the snake people. I’m afraid they have completely changed over the years. This Heaven’s Might Army should be different from the orthodox snake people royal family. We will see how it is when the four of us go to the Snake People Royal Family. If we can’t handle it, we can flee later. The only concern is that the snake people’s situation may not be what we can determine, and by the time we flee, it might be too late.” Madame Autumn Plum said worriedly.

Broken River frowned and thought for a while, then said: “There’s nothing wrong with it, I have a treasure with me. With this treasure, as long as my strength remains, I can activate it, and it won’t be difficult for us to escape.”

“Is the treasure Brother Gu mentioned...?” Madame Autumn Plum paused and was about to speak but saw Broken River’s hint and closed her mouth.

Obviously, this supreme treasure should not be mentioned if it can be avoided. Firstly, because Yang Chen was nearby, and secondly, since the snake people had just appeared, it was better to be careful in case they were overheard.

Dao Guangwang said: “Since Brother Gu is confident, I will take this risk with Brother Gu.”

His implication hinted at Yang Chen’s presence.

Yang Chen didn't care, standing with his hands behind his back, as if he didn't understand their meaning.

After a brief discussion, the four of them set off together again and headed to the Snake People Ancient City.

However, not long after the four of them started, a large number of snake people's army appeared. Among them, there were a lot of cultivators, Nirvana Stage, Great Ascension Stage, and even two Sky-separating Realm snake people.

"What's going on with these snake people?" Dao Guangwang asked puzzledly.

Madame Autumn Plum said: "These snake people seem to be wearing royal attire? Could it be that our recent fight caught their attention? It seems they don't have any malicious intent. How do you think, Brother Gu?"

"There must have been a split within the snake people. The royal family and the so-called Heaven's Might Army must not be on the same side. These royal snake people seem to have come in response to the sounds, let's go and meet them." Broken River hesitated for a moment and led the three others straight toward the snake's people army.

The four appeared in an instant, causing the snake people's army to react accordingly.

"Who are you?"

A group of young snake people shouted loudly.

However, the two huge snake people sitting in the driver's seat waved their hands and shouted, "Shut up!"

The group of snake people saw the two Sky-separating Realm snake people speaking, they quickly closed their mouths, knowing that these four people were not easy to provoke.

“Are you all experts from Heavenly Melody Mountain?” Both Sky-separating Realm snake people asked in unison.

Yang Chen looked around and touched his chin.

This army of snake people was not strong and only had two Sky-separating Realm experts without any hidden ambush.

The appearance of the snake people was indeed beautiful. The men were handsome and bright, while the women were stunning and beautiful.

“You snake people still recognize us as people from Heavenly Melody Mountain. Judging by the two of you, you should be of prince status.” Dao Guangwang scolded.

“I am the Crown Prince of the snake people!” Both of the Sky-separating Realm snake people were wearing royal robes, and obviously more composed, introduced themselves, then pointed to the Sky-separating Realm snake person beside them and said: “He is the recently promoted prince of our snake people, ranked eighth...”

Broken River seemed to have heard of him: “You are the Crown Prince Modao of the snake people? I have heard of you in the past. I am Broken River and these three are my friends from Heavenly Melody Mountain. I won’t introduce them one by one.”

Crown Prince Modao of the snake people was stunned when he heard Broken River’s words, then he said nervously: “It turns out to be the famous Master Gu from Heavenly Melody Mountain, I’ve heard a lot about you. We have come quickly to check out the commotion in the desert, which seemed to involve Sky-separating Realm experts.”

Dao Guangwang said coldly: “You still dare to ask, the four of us have been attacked by four of your snake people Sky-separating Realm experts. Do your snake people dare to attack us humans like this?”

Broken River waved his hand: “Brother Dao Guang!”

Dao Guangwang had to hide his anger and say no more.

However, Modao couldn't help but feel distressed and sighed: "Did those four snake people claim to be from the Heaven's Might Army?"

"Yes, it seems Crown Prince Modao knows about it." Broken River said.

Modao sighed: "You four, please follow me into the ancient city palace and we will discuss the matters of the Heaven's Might Army in more detail."

Broken River and the other two naturally wouldn't agree so easily, but after they exchanged glances and ignored Yang Chen, they all felt that Modao was not an issue and finally agreed one by one.

Broken River said lightly: "No problem, I hope the Aristocratic Families can give a reasonable explanation for these matters. Otherwise, it will be difficult for me to explain when I report back."

Upon hearing this, Modao paused for a moment and immediately smiled: "Master Gu, rest assured, I will give you a fair and reasonable explanation of this matter."

Broken River did not ask any further questions and followed this group of troops back to the Desolate Snake Ancient City.

It must be said that the location of the Desolate Snake Ancient City is very secretive, hidden in a recessed part of the desert. It is covered heavily by yellow sand, making it difficult to detect and find.

However, when they finally found this place and entered it, they discovered that the Desolate Snake Ancient City was covered in green trees and had a unique atmosphere.

Not to mention the ancient city being constructed for millions of miles, the grand and spectacular interior is full of talented and resourceful people. The Heavenly Materials and Earthly Treasures grown were everywhere, completely different from the outside desert.

Also, the appearance of the snake people, both male and female, is another spectacle. At a glance, one can see many stunning and beautiful snake women, whose beauty is incomparable.

“These snake women are indeed born beautiful.” Yang Chen muttered to himself, unable to deny it either.

Chapter 3234: King Ming Cheng's Provocation_1

A group of people passed by in the sky, attracting the attention of many Snake People’s cultivators. No matter how high or low their cultivation level was, they all maintained a sense of awe towards the Royal Family.

As the Royal Family of Snake People passed in the sky, the group of cultivators bowed their heads, knelt and watched the procession leave.

However, Mo Dao and the other prince treated Yang Chen and the rest of the group with great respect and consideration.

Thus, the convoy moved forward and finally arrived at the Royal Palace Hall.

The Snake People’s Royal Palace was built on a grand scale with numerous guards at the entrance.

Of course, Yang Chen and Duanhe were experienced individuals and didn’t pay much attention to this Snake People’s Royal Palace. What they focused on more was the matter at hand.

Today, as Mo Dao returned, many Snake People’s bodyguards immediately greeted them: “Greetings to the Crown Prince, Eighth Prince.”

“We welcome the return of the Crown Prince and the Eighth Prince.”

Mo Dao nodded slightly and said nothing more, leading Yang Chen and the others into the palace.

As soon as they entered the palace, another large snake person greeted them.

This snake person obviously had a cultivation level of Heaven-separated Realm, with profound and deep cultivation. At first glance, he was not comparable to the Crown Prince and the Eighth Prince.

Even when compared to Duanhe and the other three, he was not inferior.

His head was adorned with a crown, and upon seeing Duanhe and the others, he exclaimed in excitement, "Master Gu, you have indeed graced us with your presence, truly bringing brilliance to this humble place."

"Wind Emperor Daoist Friend, it has been a long time since we last met, and your cultivation has advanced further." Duanhe said.

"Haha, compared to Master Gu, there is still a long way to go. Master Gu has cultivated at Heavenly Melody Mountain with great strength and cultivation that I, Feng Mouren, can't compare to." The snake person Wind Emperor laughed heartily.

"Who is this...?" Dao Guangwang and Madame Autumn Plum couldn't help but be amazed.

Duanhe stood with his hands behind his back and said, "This is the Snake People's Emperor, Angry Wind, who I mentioned on our way here. He is known as the Wind Emperor, and even I admire his cultivation."

"I don't deserve such praise. I have just been in the Heaven-separated Realm for a longer time, compared to the daoist friends of Heavenly Melody Mountain and Grand Abyss Palace, my cultivation is nothing worth mentioning." Wind Emperor laughed heartily.

"Grand Abyss Palace?" Dao Guangwang and Duanhe both narrowed their eyes.

Duanhe slowly said, "Are there people from the Grand Abyss Palace in the Royal Palace?"

Wind Emperor naturally understood the displeasure of Duanhe and the others. But he had no control over these matters and could only answer truthfully, "Indeed, they have come for business too. It would be best if we discuss this inside."

Dao Guangwang and Madame Autumn Plum were undecided and looked at Duanhe.

Duanhe used his divine soul detection and coldly snorted, "Let's go. Our Heavenly Melody Mountain is now the master of the Nine Dragons World. We have to ask why these people from Grand Abyss Palace have come here."

As they spoke, the atmosphere between Duanhe and the others became tense and filled with the smell of gunpowder, leading the group into the palace.

Wind Emperor couldn't stop them and could only let Duanhe's group enter. As soon as he entered, Broken River saw several people leisurely enjoying tea in the palace chair.

There were a full twelve people present, a far larger scale than the four of them.

At such a sight, Broken River's morale weakened considerably. The Grand Abyss Palace had sent twelve people, while they had only four. It would be ridiculous if he didn't feel at a disadvantage.

"Friend Gu, are you here to enjoy the scenery of the Snake People? You've only brought four people here. Well, the Snake People's landscape is quite beautiful, hahaha." A burly middle-aged man, holding an unusual folding fan in his hand, laughed loudly as he looked at Broken River and Yang Chen's group of four.

Seeing the middle-aged man, Dao Guangwang and Madame Autumn Plum grew silent, not daring to say any more than necessary.

Although Dao Guangwang was known for his violent temper and sarcastic speech, he became quite subdued when seeing this man, not daring to speak any further.

Broken River was also wary of the man, but his arrogant words angered him. Snorting coldly, he found a seat and looked at the middle-aged man, speaking coldly, "King Ming Cheng, this Nine Dragons World still bears the name of our Heavenly Melody Mountain. If anything goes wrong, it's our responsibility to resolve it. When did it become your Grand Abyss Palace's place to interfere?"

King Ming Cheng chuckled, "Brother Gu, you're mistaken. Yes, if anything happens in the Nine Dragons World, your Heavenly Melody Mountain will handle it first. But didn't we give you a chance? Six of your Heaven-separated realm cultivators came here, and what was the result? All six of them disappeared mysteriously, and their whereabouts are still unknown. The Ancient Dragon Pattern Flag still hasn't been found, and the Nine Dragons World remains in peril. Keep in mind that, on a smaller scale, Nine Dragons World is just an ordinary world. But on a larger scale, it represents the Taiyuan Star System."

Saying this, King Ming Cheng continued with a serious expression, "If something happens to the Nine Dragons World, the Taiyuan Star System may also be affected. Our Grand Abyss Palace is in charge of this area, so how could we not get involved?"

Broken River's anger made him grind his teeth and exclaim, "You!"

King Ming Cheng laughed, "Friend Gu, I'm not wrong, am I? If your Heavenly Melody Mountain can really handle this situation, we from the Grand Abyss Palace wouldn't need to intervene. But look at what your Heavenly Melody Mountain has shown. First, the six Heaven-separated cultivators failed, and now you've sent just four of you? Four Heaven-separated cultivators, oh my, Friend Gu, it seems like you're really here to enjoy the scenery."

Listening to King Ming Cheng's sarcasm, Broken River felt increasingly angry. Initially, he had indeed considered bringing more people, but he trusted Yang Chen.

If Yang Chen's strength were truly extraordinary, it would be enough to deter King Ming Cheng and the others. But Broken River had seen Yang Chen's lack of strength, so how could he deter them?

Broken River had no choice but to retort angrily, "So what if there are only four of us? Our strength alone is enough to handle this matter, and we may not necessarily lose to the likes of you, King Ming Cheng."

King Ming Cheng laughed loudly, "Friend Gu, are you joking with me? Among your Heavenly Melody Mountain members, perhaps some can stand on equal footing with me. But you three, well, Madame Autumn Plum, Brother Dao Guang, do you think you can win against me?"

Dao Guangwang and Madame Autumn Plum snorted, but remained silent and unwilling to speak further.

Seeing this, King Ming Cheng continued to provoke Broken River, smiling, "Or are you, Friend Gu, the only one who can exchange blows with me?"

Anger surged in Broken River's heart, and he really wanted to teach the man a lesson.

But when he thought of the man's strength, he shuddered and dared not say anything more.

King Ming Cheng obviously wouldn't let it go, finally casting his gaze upon Yang Chen.

"Hmm? Who is this young man? He doesn't seem to be a member of Heavenly Melody Mountain." King Ming Cheng narrowed his eyes.

Broken River, filled with anger and knowing that today's defeat had something to do with Yang Chen, didn't even give an introduction to Yang Chen.

Seeing that no one would introduce him, Yang Chen would normally just smile and let it go.

But not when it came to the people from the Grand Abyss Palace.

He didn't have as much patience for them. Smiling, he bowed slightly, "Indeed, I am not from Heavenly Melody Mountain. However, I believe my name should be very familiar to you, King Ming Cheng."

Chapter 3235 Yang Chen's Deterrence?_1

"Earful and detailed? Your Excellency is perhaps a bit overestimating yourself. I, King Ming Cheng, have met many powerful ones in my life, but very few have left an impression on me. As for those unknown, I have never placed them in my heart." King Ming Cheng sneered.

Yang Chen smiled faintly: "Is that so? I, Yang Chen, may be considered a nobody in front of other forces, but in front of the Grand Abyss Palace, I believe I can be called a celebrity."

"What, you are Yang Chen!" King Ming Cheng suddenly lost his color, and the name Yang Chen echoed deeply in his mind.

"This person really looks exactly like the Yang Chen in the Wanted Order!"

"How come Yang Chen is with these people from Heavenly Melody Mountain!"

The people from the Grand Abyss Palace who heard this became restless in an instant.

Yang Chen touched his chin, looked at King Ming Cheng and others, with a faint smile, unruffled and unflustered.

But King Ming Cheng and the others were already feeling anxious, even the calmest King Ming Cheng furrowed his brow, unable to maintain the same composure as before.

Indeed, he had heard of Yang Chen, but he was not interested in the chase after Yang Chen at that time, so he didn't know Yang Chen's appearance.

Now that someone mentioned it, this person turned out to be the legendary Yang Chen, how could he stay calm at the moment?

After all, the incident where Yang Chen killed twenty-eight experts in the Heaven-separated Realm was still clear in their minds. It was almost a disgrace to their Grand Abyss Palace.

Looking at King Ming Cheng and the others changing their expressions, the three Broken River regarded it as unworthy. Does King Ming Cheng really think that the story of Yang Chen killing 28 experts in the Heaven-separated Realm is true?

They had personally witnessed Yang Chen's strength in fighting against the Snake People's experts in the Sky-separation Realm. If they said that he killed twenty-eight experts in the Heaven-separated Realm, they would probably be able to kill fifty.

But seeing King Ming Cheng's expression moved, they were happy to see and would naturally not interrupt.

What they didn't know was that other forces might not be able to confirm if it is true or not that Yang Chen had killed twenty-eight Heaven-separated Realm experts, but the Grand Abyss Palace itself wouldn't be unable to confirm it, would it?

That was also the reason why King Ming Cheng and others regarded Yang Chen with some fear.

For a time, the scene became deadlocked, and what was originally a tense situation confused the Wind Emperor, Crown Prince, and the others. They didn't understand why King Ming Cheng and the others, who had twelve Heaven-separated Realm experts on their side and held the advantage, became so scared because of a person's name.

At this point, Wind Emperor could only step forward and smooth things with a smile, saying, "Master Gu has come for the matter of the Ancient Dragon Pattern Flag, right?"

"That's natural. But before that, we'd really like to know what the ambush by those Snake People was all about." Broken River asked solemnly.

Wind Emperor was embarrassed for a moment, shook his head lightly, and said helplessly, "It's quite normal for Master Gu to be puzzled. Our Snake People were indeed united back then, but not so in recent years."

"What's the matter? I heard that those four people call themselves the Heaven's Might Army. Is there a rebellion within your Snake People?" Broken River asked.

Wind Emperor sighed, "That is indeed the case. This has been going on for a few years now."

"It's been a few years. Why haven't you reported it to Heavenly Melody Mountain?" Dao Guangwang asked.

"This..." Wind Emperor showed a bitter smile. He wanted to report it, but would it be of any use? Heavenly Melody Mountain might not even take care of these things after reporting.

Broken River signaled Dao Guangwang to be patient and said, "Wind Emperor, my friend, just tell us about this Heaven's Might Army."

"The matter of the Heaven's Might Army started with a few powerful loose cultivators in the Heaven-separated Realm. These loose cultivators in the Heaven-separated Realm were always treated well by our Royal Family, but we had no idea that they would suddenly betray us and lead numerous Snake People into the Desolate Snake Desert, claiming to overthrow the outdated policies of our Snake People Royal Family." Wind Emperor explained.

"Couldn't you suppress these so-called Heaven's Might Army?" King Ming Cheng couldn't help but interject.

Wind Emperor shook his head: "Our Snake People Royal Family has six Heaven-separated Realm experts. At first, we didn't take the Heaven's Might Army seriously. But after several battles, we discovered that initially, there were only four experts in the Heaven-separated Realm in the Heaven's Might Army, but as the battles continued, their numbers grew, and now our Snake People Royal Family doesn't even know how many Heaven-separated Realm cultivators the Heaven's Might Army has."

"How strange, where did their Heaven-separated Realm cultivators come from?" Madame Autumn Plum asked in astonishment.

"We don't know about that either. It seems that the Heaven's Might Army has mastered some method to quickly cultivate the originally Realmless Snake people into Heaven-separated Realm experts. That's why our Snake People Royal Family feels threatened. We originally wanted to send a distress signal to Heavenly Melody Mountain, but since Fairy Moon Fu and the others have come, we didn't take it too seriously. Who would have thought that Fairy Moon Fu would mysteriously disappear after being here for only a few days?" Wind Emperor said.

Hearing about Fairy Moon Fu and the others' disappearance, King Ming Cheng and the others couldn't hide their mocking smiles.

Broken River snorted and said, "The disappearance of my Junior Sister Moon Orchid and others happened within your city, and you Snake People have no clue about their whereabouts?"

"Fairy Moon Fu and the others were originally going to the Heavenly Crystal Snake Spirit Tower. However, on the way there, there seemed to be some accidents. Fairy Moon Fu and the others were led away by someone, and they never returned. As the Wind Emperor spoke, he looked at Broken River and the others, fearing that they would get angry.

How could Broken River not be angry? He scolded, "Wind Emperor, my friend, since my Junior Sister and others disappeared in your city, if you don't investigate this matter and come up with a result, it will be difficult for us to explain to Heavenly Melody Mountain, right?"

Wind Emperor's heart skipped a beat. He quickly wiped the cold sweat from his forehead and smiled, "Master Gu, rest assured, I will definitely find some clues to this matter. You all, hurry up and serve tea to Master Gu."

The Snake People servant girls nearby hurriedly approached, with their enchanting eyes and flirtatious charm, pouring tea while casting seductive glances and enticing postures.

These Snake People servant girls were all carefully selected for their appearance. Seeing their tea-pouring now, Broken River and Dao Guangwang's minds were disturbed, and their anger dissipated quite a bit.

"Alright, remember to investigate Junior Sister Moon Orchid's disappearance. Firstly, let's talk about the matter of the Heavenly Crystal Snake Spirit Tower. I heard before that the Ancient Dragon Pattern Flag had fallen into the Heavenly Crystal Snake Spirit Tower. Is that true? And what exactly is this Heavenly Crystal Snake Spirit Tower?" Broken River asked in confusion.

Wind Emperor sighed helplessly for a moment, "Master Gu, I don't know how to tell you about this. The Ancient Dragon Pattern Flag is said to be on the top of the Heavenly Crystal Snake Spirit Tower, but there is no evidence for this at all."

Chapter 3236: The Bizarre Heavenly Crystal Snake Spirit Tower_1

“No evidence?” Broken River was stunned.

King Ming Cheng’s expression also changed, as he was unaware of this information. He, like Broken River and Yang Chen, had only heard about it from Willow Feng and then came to this place.

Wind Emperor sighed: “Yeah, we don’t know where this rumor came from, but somehow, it got out that this Ancient Dragon Pattern Flag was placed inside the Heavenly Crystal Snake Spirit Tower.”

“Haven’t you gone to the Heavenly Crystal Snake Spirit Tower to confirm this?” King Ming Cheng asked.

Wind Emperor shook his head helplessly upon hearing this.

Then, the Crown Prince followed up: “King Ming Cheng, you may not know that this Heavenly Crystal Snake Spirit Tower was created by one of our snake ancestor, who reached the world life stage in the Heaven-appointed realm. The Tower itself contains the essence of that great being’s life. After that great individual’s passing, it is said that their remains fell into the top of the Heavenly Crystal Snake Spirit Tower. However, reaching the tower top is incredibly difficult.”

“Difficult? How difficult?” Dao Guangwang asked.

Crown Prince Mo Dao explained: “First of all, the necessary condition to enter the Heavenly Crystal Snake Spirit Tower is to have Boundaryless Cultivation. Even with Boundaryless Cultivation, trying to enter the first three floors of the Heavenly Crystal Snake Spirit Tower would be a fool’s dream. The Tower has a total of ten floors. Since people in the Heaven-appointed realm cannot enter, the ones most likely to reach the top are people like us who have Sky Separation Realm Cultivation.”

“So, your royal family has been unable to investigate the top floor of the tower over the years?” King Ming Cheng asked.

“That’s right, after our snake ancestor fell several million years ago, many Sky Separation Realm experts among us have tried, but the highest any have reached is the ninth floor. None have been able to reach the top floor of this Heavenly Crystal Snake Spirit Tower,” Mo Dao sighed.

“Several million years with no one succeeding? How can it be that hard? If so, how did that mysterious person place the Ancient Dragon Pattern Flag on the top floor of the Heavenly Crystal Snake Spirit Tower?” Madame Autumn Plum asked with a confused face.

“We don’t know about that, but I, the old man, think the majority of it is based on rumors. Even if that person used great divine power to steal the Ancient Dragon Pattern Flag, to say that they silently placed the flag on the tower top still seems absurd to me,” Wind Emperor shook his head.

“So, does your royal family have any other clues about the whereabouts of the Ancient Dragon Pattern Flag?” King Ming Cheng asked.

Wind Emperor shook his head: “As for the Ancient Dragon Pattern Flag, it has always been under the control of Blackstone Ancient Castle. My abilities are limited, and I don’t know much about it.”

Upon hearing this, the party from Grand Abyss Palace fell silent.

Broken River, Yang Chen, and Dao Guangwang exchanged glances with each other.

Although they didn’t say anything, they had some ideas about what Wind Emperor had said.

“So that’s how it is. In that case, we’ll discuss the matter of the Ancient Dragon Pattern Flag later on. We will stay here for now, and Brother Wind Emperor, remember to carefully investigate the whereabouts of my Junior Sister Moon Orchid,” Broken River said.

Wind Emperor quickly clasped his hands: “Certainly, certainly. Mo Dao, hurry up and make arrangements for Master Gu and the others.”

“Let’s stay here as well, and discuss matters another day,” King Ming Cheng also said.

“Old Eight, quickly arrange accommodations for King Ming Cheng and the others,” Wind Emperor quickly arranged.

In an instant, both parties settled down in the Snake People Royal Family's residence.

The snake people naturally provided the best accommodations available.

As for the accommodations, Yang Chen and the others didn't care about it. After settling in, they quickly set up a Formation to prevent eavesdropping, so others wouldn't hear their conversation.

Now that the four of them were together, the topic they were discussing was naturally about the Heavenly Crystal Snake Spirit Tower.

"Everyone, what do you think about this Heavenly Crystal Snake Spirit Tower and the Ancient Dragon Pattern Flag?" Broken River asked indifferently.

Madame Autumn Plum said: "I think that the person who stole the Ancient Dragon Pattern Flag and placed it inside the Heavenly Crystal Snake Spirit Tower must have done it as a diversion, and I doubt it's true. The reason for doing so must have been to deliberately lure us to the Tower top. There must be something advantageous for them once we reach there."

"Maybe this person stole the Ancient Dragon Pattern Flag and deliberately spread rumors to toy with us? Actually, this person may have long taken the flag and fled away?" Dao Guangwang suggested.

"That's not impossible, but if so, we can't explain what happened to Junior Sister Moon Orchid. Since something happened to her, it must be related to the person who stole the Ancient Dragon Pattern Flag. I think the person who stole the flag and attacked the Snake people are related," Broken River stroked his chin.

Madame Autumn Plum and Dao Guangwang nodded upon hearing this.

Broken River glanced at Yang Chen, wanting to ask what he thought, but in the end, he decided there was no point in asking Yang Chen and didn't bother: "Now we can prove that this person indeed has the intention of luring us to the Heavenly Crystal Snake Spirit Tower, and Junior Sister Moon Orchid was harmed during her journey to the Tower."

“What should we do?” Madame Autumn Plum asked.

“The problem lies in the journey to the Heavenly Crystal Snake Spirit Tower. We must be cautious when we go there. No matter the purpose of the person who stole the Ancient Dragon Pattern Flag, or the purpose of the Heavenly Crystal Snake Spirit Tower, we have to visit the Tower; otherwise, we can’t find any clues. I think King Ming Cheng and his party must be thinking the same,” Broken River said.

“Brother Gu is right. No matter the purpose of the person who stole the Ancient Dragon Pattern Flag, everything depends on the Heavenly Crystal Snake Spirit Tower. We have to go there and see for ourselves. It’s just that the Heavenly Crystal Snake Spirit Tower seems to be quite challenging,” Madame Autumn Plum said.

Broken River stood with his hands behind him: “When the time comes, we’ll see who surpasses the others. Hmph, don’t listen to the snake people’s words; just because they haven’t been able to break through the Tower over the years doesn’t mean we have no means.”

“That’s the way it is,” Madame Autumn Plum covered her mouth and smiled.

Yang Chen never said a word from the side, looking like he was being treated as if he didn’t exist. However, he didn’t care; all he wanted was to understand the situation clearly.

Broken River’s analysis was thorough. Now, everything depended on the Heavenly Crystal Snake Spirit Tower, but if they wanted to find out what was going on, they had to go to the Tower and see for themselves.

“Hmm, there seems to be some movement outside, like snake people,” Dao Guangwang said.

“What’s going on? Let’s go out and see.” Broken River waved his sleeves, opened the soundproofing Formation, and went outside.

As soon as they stepped out, they saw Crown Prince Mo Dao leading several beautiful Snake People Servant Girls. The girls, with their snake bodies twisting, were full of charm.

Chapter 3237 Killing at the Doorstep_1

These snake people were all incredibly beautiful, more alluring than the snake maids who had served tea and water to the people in the palace just earlier. Their beauty amazed Dao Guangwang and Broken River.

Seeing Broken River and Dao Guangwang being completely captivated, Crown Prince Modao showed a hint of confidence and said: "Master Gu, Sir Dao Guangwang, these maids from our clan have always admired you and hope to serve you. May I know how you feel about it?"

Hearing the words from the maids, Broken River and Dao Guangwang's faces brightened with joy.

"I've long heard that the beautiful women of the snake people have amazing skills in serving men, which are unparalleled even among our humans. I have never experienced it, and I appreciate Modao's kindness. I will choose these four snake maids to serve me," Broken River laughed.

Dao Guangwang happily chose four snake maids as well, with a smile on his face.

As these snake maids approached the two men, they wrapped their snake bodies around them, making Dao Guangwang and Broken River laugh heartily.

Witnessing this scene, Madame Autumn Plum snorted and stormed into the room with a red face.

At this point, only Yang Chen was left alone. Modao looked at him in surprise: "Sir Yang Chen, are you not satisfied with these maids?"

Yang Chen wasn't unsatisfied, but rather confused: "It's not that, I just don't understand what's going on yet."

Modao was confused, but Broken River and Dao Guangwang were aware of Yang's limited knowledge and humble origins.

Broken River, now surrounded by the maids, was extremely happy and momentarily forgot his displeasure with Yang Chen: "Brother Yang Chen may not know, but although the snake people cannot

practice dual cultivation with humans, their tiny mouths are incredibly delicate, and their tongues are the envy of countless human men."

Only at this moment did Yang Chen understand, as he watched Broken River and Dao Guangwang in their joyful state, he couldn't comprehend their thoughts.

Perhaps due to their long lives, these two cultivated a carefree attitude towards many things. As for himself, even if Zhang Xuelian wasn't present, he would never accept the snake people doing those things for him.

"The feeling of being torn between ecstasy and death, haha, Brother Yang Chen, try it and you'll understand. Besides, ordinary people simply cannot enjoy this delightful experience," Broken River said.

"Why is that?" asked Yang Chen, puzzled.

"For cultivation levels like the Nirvana and Enlightenment stages, one night of passion may drain away quite a bit of a cultivator's power. However, for us at the Heaven-separated realm, there's nothing to worry about. Even if these little creatures try their hardest to drain us, it won't cause much harm," laughed Broken River.

"Oh my, Sir, what are you talking about? We're not that bad," the snake maids giggled and smiled sweetly.

With that, Broken River and Dao Guangwang laughed heartily and led their snake maids into their respective rooms to enjoy themselves.

"Sir Yang Chen..." Modao hesitated, unsure of Yang Chen's choice.

Initially, Yang Chen wanted to refuse, but after some thought, he said indifferently, "Those four will do."

Yang Chen pointed at the four snake maids, then led them into the room."

Modao sneered to himself, thinking that Yang Chen had shown his true nature as no human man could resist the temptation of the snake people's women.

After leading the four snake maids into the room, Yang Chen calmly brushed his sleeves, signaling the maids to stop their advances.

Seeing this, the four snake maids were momentarily shocked: "S-, Sir, are you angry? Did we not do a good job?"

"I'm not in the mood now, I want to practice my cultivation first. You just need to serve tea, pour water, and massage my shoulders," Yang Chen replied calmly.

Hearing this, the four snake maids couldn't help but feel surprised, unable to understand Yang Chen's intentions.

Any other human male would have excitedly indulged in pleasure once inside the room. However, Yang Chen was more straightforward, asking them to serve tea and pour water instead.

Though they were puzzled, the snake maids dared not disobey Yang Chen. They quickly assumed their roles, serving tea, pouring water, and massaging Yang Chen's shoulders efficiently.

In this manner, Yang Chen lay down and began cultivating without showing any reaction.

Yang Chen's agreeing to have the maids in the room was merely not to arouse any suspicions from the watcher of the Heavenly Eye.

Now, with prohibitions set up inside and outside the room, the watcher could only know that Yang Chen was inside with the four snake maids but not what they were doing specifically.

What Yang Chen didn't know, however, was that his unintentional move had led to unexpected consequences!

"Huh?"

As Yang Chen cultivated with his eyes closed, he suddenly opened them wide. This unexpected move startled the snake maids nearby.

"This aura... Ghost King Experts!"

Yang Chen's calm demeanor shifted as he sensed the strong presence, eager to figure out what was happening.

The moment his thoughts shifted, the three neighboring rooms exploded one after another. Amidst the sharp screams, Dao Guangwang, Madame Autumn Plum, and Broken River emerged from the rooms.

At the same time, Yang Chen felt a sudden surge under his feet, as the attack of a Ghost King powerhouse arrived unexpectedly.

Upon seeing this, Yang Chen pushed the snake maids away with a wave of his hand and pretended to be surprised. With a single move, he collided with the Ghost King's attack and was sent flying.

The rooms collapsed, and the four of them regrouped, only to face six ghostly Yin Spirits.

These ghostly Yin Spirits were at the Ghost King level in strength, and were incredibly powerful. They seemed to be well-prepared.

"Netherworld Ghost Kings? Why are there Netherworld Ghost Kings in the Nine Dragons World? Well, well, I thought it was just a random encounter. So, the theft of the Ancient Dragon Pattern Flag has something to do with you!" Broken River gritted his teeth: "You've got some nerve to attack within the snake people's royal family!"

"Hehe, does it matter where an attack happens? As long as the timing is right, just accept your fate!" Without any reason, the several Ghost Kings immediately attacked.

Seeing this, Broken River shouted angrily: "The three of us will hold them off. Once the Wind Emperor arrives, we will kill these Ghost Kings and search their souls to learn the truth!"

Chapter 3238 Strength Exposed_1

It seemed that they were at a numerical disadvantage now, but in reality, they weren't. This was the territory of the Snake People Royal Family, and the people from the Grand Abyss Palace were present as well.

Even if the Grand Abyss Palace and others were in a competitive relationship with them, they would still definitely lend a hand in times of crisis. No matter how dire their situation, they wouldn't need to be afraid.

However, the six Ghost Kings clearly came prepared. They laughed and said, "I'm afraid you all might not be able to wait for others to come and help you. The Snake people's service? You really dare to enjoy it!"

As soon as the words fell, six Ghost Kings swiftly attacked, charging straight at the four of them, including Yang Chen.

Broken River, confident in his strength, went ahead to stall two of them, while Dao Guangwang and Madame Autumn Plum joined forces to deal with three others. Yang Chen faced one by himself.

Yang Chen pretended to deal with one, and it was incredibly easy.

Now, he was actually worried about the situation of the three Broken Rivers.

That was because the three Broken Rivers might not know that when he took a glance, he could tell that the inscriptions of Laws and Dao Intent within them seemed to be somewhat abnormal.

As expected, the moment they began fighting, the effects were immediately apparent.

When Broken River made a move, it was clear that the fierce wind and awe-inspiring momentum from before were gone. If it was during his peak, although he would still be no match for two opponents, he would not be too embarrassed. But now, his power was greatly reduced, and he was immediately

suppressed by the two Ghost Kings. In his current state, it would even be very difficult for him to deal with one opponent, let alone two. If this continued, his life would truly be in danger.

As for Madame Autumn Plum and Dao Guangwang, they were in a similar situation.

Madame Autumn Plum was still fine without too many issues, but Dao Guangwang was not. His weakness was just as obvious as Broken River's.

"It's because of those Snake people!" Both Broken River and Dao Guangwang came to a sudden realization.

"Hahaha, you're not stupid to know what's going on," the several Ghost Kings sneered.

"How is that possible? These Snake people supposedly shouldn't be able to harm us, Sky Separation Realm Experts like us!" Broken River gritted his teeth and said.

A Ghost King powerhouse with a sinister tone sneered, "That's because your understanding is not clear enough. Indeed, the service of these Snake women cannot harm the Sky Separation Realm Experts, but after the relaxation, it will cause your inscriptions of Laws and Dao Intent to be unstable and chaotic for a short period of one hour. During this time, your strength will definitely plummet. If you do not engage in combat, even Sky Separation Realm Experts like you won't notice."

"How come we've never heard of this before!" Broken River roared angrily.

"Hahaha, when you humans come here, you are treated like ancestors and grandfathers by the Snake people. After enjoying yourselves for an hour, why would you fight others? And why would the Snake people want to provoke your anger by telling you this? Furthermore, even if you knew, would you really not enjoy it? If you must blame someone, blame your own desires." The Ghost King laughed.

"Alright, enough talking. This man obviously wants to stall for time. Less talk, more killing."

The few Ghost Kings laughed and continued their assault after a few words.

Seeing that his scheme to stall for time had been seen through, Broken River could only roar and try to unleash all his power.

However, the side effects were real and not fake. No matter how much he wanted to bring out his power, he couldn't reveal it at all.

Seeing this, Madame Autumn Plum panicked and cursed in her heart.

These three, including Yang Chen, were all lustful, and upon hearing that there was something enjoyable, one Snake person's service wasn't enough, so they each chose four of them.

Now all of them were in such a state. How could they fight against these Ghost King powerhouses?

What could she do alone?

"Not good, we have to run!" Broken River made a judgment as he could no longer keep up with the fight.

If they continued like this, all four of them would die here.

"You want to escape? Where to?" Several Ghost Kings already had murder in their eyes as they came prepared. They sneered and completely surrounded the four of them.

As Broken River fought hard, with one move left unprotected, he was struck by two Ghost Kings on the spot with a loud bang. Blood spurted from his mouth.

At this moment, Dao Guangwang was also hit, his body convulsing, clearly unable to withstand much longer.

Only Madame Autumn Plum was barely holding on. With her strength, she could resist, but how could she hold on for long?

"Let's kill these two first." Several Ghost Kings attacked Broken River and Dao Guangwang simultaneously.

As the attack started, both Broken River and Dao Guangwang were panicked. They never imagined that they would fall in such a way today.

These six Ghost Kings obviously had set up some methods nearby so that Wind Emperor and others hadn't noticed the movement here yet, otherwise, they wouldn't still be late by now.

"I can't accept this!" Broken River shouted.

The several Ghost Kings sneered, showing no mercy as they moved to kill.

But just at the moment when they were about to execute the attack, suddenly, an immense and powerful pressure descended from the sky, covering all the surrounding areas.

As soon as this pressure emerged, it was accompanied by the complete arrival of an expert's domain.

It was this domain's birth that completely immobilized the six Ghost Kings, making it incredibly difficult for them to move.

"What's going on? It shouldn't be possible. We set up a formation nearby, so Wind Emperor and others can't make it, and this domain shouldn't be theirs either..."

The Ghost Kings only realized when they thought about it and looked again.

This domain didn't come from reinforcements, but from the one they had been ignoring all along, the seemingly not-so-strong Yang Chen.

It was also because they thought Yang Chen's strength wasn't enough that they only arranged for one Ghost King to confront him.

But now they only realized how wrong their idea was. Because Yang Chen, without even moving, dominated them with just a powerful domain, making it difficult for them even to breathe.

"What's going on!" At this point, Broken River, Dao Guangwang, and Madame Autumn Plum were completely dumbfounded.

Looking at Yang Chen, they even thought they had seen wrongly.

Yang Chen shook his head as well. He originally didn't intend to make a move, since exposing his strength before drawing out the big fish didn't fit his plan!

But now, even if he didn't want to expose his strength, he had no choice but to do so.

"Since you want me to show my strength, the six of you might as well leave your lives here," Yang Chen said calmly and decisively.

As he spoke, he waved his hand gently.

Several deathly silent black winds slashed through from a distance, like blades.

A Ghost King powerhouse fell on the spot!

Chapter 3239: Consecutive Kills of Ghost Kings_1

As he said, since they forced him to expose his strength, these six people had no reason to exist.

Death was the only outcome!

A Ghost King powerhouse was almost effortlessly killed by Yang Chen!

Madame Autumn Plum, who had been in despair, looked on with her mouth slightly agape, almost unable to believe her own eyes.

Had Yang Chen not been harmed by that snake woman from the Snake people tribe?

No, something was wrong. Even if Yang Chen hadn't been injured, he shouldn't have been this strong – killing a Ghost King expert with ease was beyond her understanding of Yang Chen.

Dao Guangwang and Broken River were taken aback as well, never expecting that the one who saved them would be Yang Chen.

Now, the remaining five Ghost Kings turned their heads and stared fixedly at Yang Chen.

“What’s going on? This kid’s strength contradicts the intelligence we have!”

“It seems that this kid has been hiding his strength. Let’s not worry about those three for now, Dao Guangwang and Broken River are no longer a threat. We should go forward and kill this kid first.” Several Ghost Kings discussed and used their methods to break free from Yang Chen’s oppressive domain, already heading for Yang Chen.

Madame Autumn Plum panicked at the sight, but she quickly sobered up, realizing that Yang Chen was their only hope of buying time. They couldn’t let these five Ghost Kings hurt Yang Chen, so she planned to go save him.

However, just when she moved to help, a shocking scene unfolded.

Yang Chen’s palm went up once more, and the power of his domain had not yet reached its limit. It suddenly surged, increasing by another level.

When the domain’s power was completely elevated to a certain extent, the five Ghost Kings who had barely managed to withstand Yang Chen’s oppressive force seemed to have had their wings broken, and their movement became incredibly difficult.

Thus, with a gentle twist of his wrist, Yang Chen unleashed a large amount of Deathly Silent Black Winds, directly suppressing the five Ghost Kings.

Deathly Silent Black Wind, the power between life and death, was exceptionally effective against these Ghostly Yin Spirits.

For these Ghostly Yin Spirits, Deathly Silent Black Wind had an extremely horrifying suppressive effect. This made it much easier for Yang Chen to kill these Netherworld Ghost Kings compared to killing human beings.

Now, several hundred Deathly Silent Black Winds were rushing in a dazzling manner from all directions, making the Ghost King experts feel their scalps tingle.

Just what were these Deathly Silent Black Winds? They merely gazed at the winds, and they could already feel an indescribable sense of fear emerging from the depths of their hearts, as if they were absolutely unable to resist these black gales.

“Not good, this black wind is by no means ordinary. We must work together to counter it!” A Ghost King shouted out.

The other Ghost King experts, of course, also sensed this and simultaneously took action, trying to jointly resist Yang Chen’s incoming Deathly Silent Black Winds.

With five experts joining forces, Madame Autumn Plum was on her toes, not knowing what to do to help Yang Chen.

That was because she could see that even without her help, Yang Chen was more than a match for the five Ghost Kings, holding an overwhelming advantage.

On the contrary, her assistance now felt somewhat superfluous and even burdensome.

As she had thought, there was no need for her to intervene at all!

Yang Chen's several hundred Deathly Silent Black Winds managed to suppress all five Ghost Kings at the same time in an instant, so much so that they could hardly lift their heads.

"How is this possible? What kind of power is this?"

All five Ghost Kings shuddered at heart, unable to believe what they were seeing. It was too terrifying. The five of them together couldn't withstand a casual blow from Yang Chen?

Seeing that the five Ghost Kings were barely able to resist his attack, Yang Chen raised his eyebrows slightly, his palm pressing down to unleash another attack.

This attack descended like a bolt from the blue, striking down with his Five Elements Sky-turning Finger.

Act swiftly and decisively!

As several hundred Deathly Silent Black Winds weren't enough to resolve the situation, Yang Chen used the Five Elements Sky-turning Finger to suppress them even further.

Although this finger didn't possess an extraordinary amount of power on its own, when combined with several hundred Deathly Silent Black Winds, it instantly killed three Netherworld Ghost Kings, leaving no trace of life behind.

"No, no!"

The remaining two were overcome with fear, now tasting the full extent of Yang Chen's power.

It wasn't just them. Broken River, Dao Guangwang, and Madame Autumn Plum all witnessed Yang Chen's true strength.

They knew that his strength was no joke. Yang Chen definitely had the capability to kill twenty-eight Heavenly Leaving Realm experts.

The rumors were not false, but utterly true!

Bang!

Following the sound of an explosion, another Heavenly Leaving Realm Ghost King powerhouse turned into nothingness.

There was only one Ghost King expert left, who was now looking at Yang Chen with great terror in his eyes. Rather than being confident as he initially was, his gaze now held dread, helplessness, weakness, and a lack of any hope.

Yang Chen took action and his domain power suppressed the last remaining Ghost King. He controlled him with absolute binding force, rendering him unable to move a single inch.

Yang Chen chose not to kill the last Ghost King, but spared him a life.

“What do you want?” The Ghost King trembled with fear.

“You should be able to guess what I want.” Yang Chen released his soul.

Seeing this, the Ghost King shuddered, trying to threaten, “Our Netherworld is best at manipulating souls. Do you think you can outperform me in soul manipulation?”

Yang Chen sneered sarcastically, “Do you think my soul wouldn’t defeat yours?”

With a simple sentence, Yang Chen completely terrified the Ghost King. It was impossible to believe that Yang Chen’s soul manipulation could be weaker than his, given his extraordinary strength.

Yang Chen was truly a demon.

Before the Ghost King had a chance to think, Yang Chen's soul had already entered his mind. Like a knife, a sharp blade ruthlessly wreaking havoc within him.

The Ghost King couldn't control himself and knew that Yang Chen would perform a Soul Search on him.

The first half of Yang Chen's Soul Search went smoothly, but just when he started to gather some important information, the Ghost King's body suddenly caught fire from within, burning to nothingness and vanishing into thin air.

Seeing this, Yang Chen's expression grew solemn, knowing that it must be the prohibition within these Ghost King experts' bodies. Once subjected to a Soul Search, the prohibition would trigger and ultimately lead to their demise.

This was what made these Netherworld Ghost Creatures so terrifying. Their bodies were filled with such meticulous prohibitions, showing that even Ghost King experts couldn't escape the invisible grasp of their masters!

Though he hadn't found any useful clues, Yang Chen wasn't discouraged. He looked at Madame Autumn Plum, Broken River, and Dao Guangwang behind him and asked calmly, "How are you three doing? Is everything alright?"

Chapter 3240 Fear and Apology_1

Nowadays, hearing Yang Chen coming forward to comfort them, Madame Autumn Plum, Broken River, and the other three were filled with shame and embarrassment.

Although Yang Chen didn't care and never mentioned it, they felt humiliated and embarrassed when they thought about it and faced Yang Chen.

You should know that their attitudes towards Yang Chen before underwent two significant changes.

At the very beginning, they were respectful towards Yang Chen but carried some doubt and dissatisfaction. However, as Yang Chen struggled greatly to defeat even a single Snake person of the Heaven-separated Realm, their attitudes changed greatly, thinking that Yang Chen was overrated. Naturally, they did not put on a good face towards Yang Chen.

But who would have thought that Yang Chen's strength would be so formidable?

He had truly defeated twenty-eight Heaven-separated Realm experts before, and there was no exaggeration in it.

Broken River and Dao Guangwang were extremely embarrassed. At a loss, Broken River awkwardly said, "Brother Yang Chen, your strength is so powerful. We underestimated you before. If we have offended you, please forgive us."

Dao Guangwang also laughed and bowed his head.

Yang Chen put his hands behind his back and said, "You three don't need to take it to heart; I don't mind too much about it."

After all, he was the one who had announced his intention to face multiple enemies alone and deliberately hidden his strength so he couldn't blame the three of them.

Hearing that Yang Chen was magnanimous and didn't blame them, they breathed a sigh of relief.

If they really made an enemy of someone like him, they would find it chilling just by thinking about it.

Madame Autumn Plum also looked at Yang Chen apologetically and said, "By the way, Brother Yang Chen, with your divine power today, why were you so... when you faced the Snake person of the Heaven-separated Realm before?"

Madame Autumn Plum did not finish, but the three of them were obviously confused about this matter.

Yang Chen stood with his hands behind his back, his face calm, and said, "I will explain everything to the three of you later. As for now, the Wind Emperor and the others have arrived."

"The Snake people from the Royal Family are finally here." Broken River and the other three were somewhat displeased.

After all, without Yang Chen's display of divine power today, they would have been killed by the six Netherworld Ghost Kings by now.

Who wouldn't be angry about such a thing?

Wind Emperor is now leading several Heaven-separated Realm Snake people, including the Crown Prince and the Eighth Prince.

When they arrived and saw the aftermath of a fierce battle, the Wind Emperor knew that they were late and shuddered, "Are the four of you okay? What happened here?"

Speaking of which, another group of people arrived, led by King Ming Cheng.

"Just now, it seemed that there were some Netherworld Ghosts here." King Ming Cheng narrowed his eyes as he was now leading a group of people, glancing at Wind Emperor and Broken River, just as ignorant of what happened.

Broken River glanced at everyone who had arrived and said with anger on his face, "Wind Emperor, you should have sensed something just now."

"I...I only sensed several Netherworld Ghosts here, so I hurried over, but it turned into such a situation..." Wind Emperor said stiffly.

King Ming Cheng sensed something similar, but what was different was that he also sensed a terrifying pressure coming from someone's body at the same time the Ghost King appeared.

This kind of pressure seemed to be the reason why the six Ghost King Experts disappeared and fell.

Dao Guangwang clenched his teeth and shouted, "Wind Emperor, you knew about it, don't you dare to say? Six Ghost King Experts appeared just when we were vulnerable. Are you using them to sneak attack us? Is your Royal Family just for decoration?"

"How is that possible? Our Royal Family's guards are heavily fortified. Even I have been diligently guarding the surroundings day and night. How could there be a mistake?" Wind Emperor said with a trembling face.

Dao Guangwang asked, "Then tell me, with your tight security, how did these Ghost Kings get in? Or did your Snake people deliberately collude with the Netherworld Ghost Creatures? Were you helping them to try to harm us humans?"

Hearing this, Wind Emperor and the Snake people experts all changed their color.

"This...this can't be, Daoist Friend Dao Guang, it's a misunderstanding, a misunderstanding!" Wind Emperor wore a bitter expression.

Yang Chen glanced at Wind Emperor, who seemed genuinely innocent about the matter. All the other Snake people seemed flustered as well, alarmed at his words, except for one person.

Yang Chen accidentally noticed that the Crown Prince's expression was slightly moved, then quickly became as flustered as everyone else.

Yang Chen didn't know if it was just his imagination, but he remained as calm as ever.

"It's interesting that Ghost Kings actually appeared here." King Ming Cheng stroked his chin, looking at the situation.

Wind Emperor was sweating coldly, aware that if this matter was not resolved, he would be implicated. He quickly said, "Master Gu, Dao Guang, I will definitely investigate this matter. As for the Netherworld Ghost matter, I really had no idea. Please rest assured, though, our Snake people will never be involved with the Netherworld Ghosts."

Broken River squinted and looked at the Phoenix. Coldly he said, "Alright, Wind Emperor, I'll give you some time to investigate. But I don't want to see this kind of thing happen in the future."

"Definitely, definitely." Wind Emperor instantly promised.

Broken River then said, "Also, in three days, we will go to the Heavenly Crystal Snake Spirit Tower to investigate the Ancient Dragon Pattern Flag. Wind Emperor, you'd better get ready."

Wind Emperor replied at once, "No problem, no problem."

King Ming Cheng then smiled and said, "In three days, we will also go to the Heavenly Crystal Snake Spirit Tower to have a look!"

Broken River glanced at King Ming Cheng, and their gazes collided tensely.

Broken River knew well that King Ming Cheng's intentions were the same as his, they both wanted to investigate the Heavenly Crystal Snake Spirit Tower.

Now that things had come to this, they could only compete for who could seize the initiative first.

"Let's go." King Ming Cheng waved his sleeve and left.

After leaving, a Heaven-separated Realm expert asked King Ming Cheng, "Mingcheng Friend, we just watched as six Heaven-separated Realm Netherworld Ghost Kings were killed in a short time. Do Broken River and the four others have such strength?"

"Broken River, Madame Autumn Plum, and Dao Guangwang may not have the strength. But do you think Yang Chen scored those twenty-eight Taiyuan Palace Heaven-separated Realm experts by luck? With his help, the four of them together could quickly defeat the six Ghost Kings. It is not impossible!" King Ming Cheng said.
