Chapter 33: Goal, 1200 Jins (600 KG)_I

“Haha, Yang Chen, how pathetic are you? You are so scared of a mere Coming of Age Ceremony assessment that you dare not even take it? And you need Elder Yang to speak up for you?” Yang Heng mocked sarcastically from the side, looking forward to Yang Chen making a fool of himself later.

Yang Chen didn't respond to Yang Heng this time. In fact, everyone was looking forward to the results from him at this point.

So, let him speak with the results.

At this point, nothing is more convincing than results.

As for Elder Yang speaking on his behalf, he was also surprised and hadn't expected it beforehand. He somehow found it both funny and touching, knowing that Elder Yang didn't know about his martial arts cultivation and was doing this entirely for his own sake. He felt warmth in his heart and was already prepared to repay Elder Yang.

After all, it took courage to speak up for him in this situation.

If he fails the assessment, he would truly be expelled from the household records.

At this point, Elder Yang was still negotiating with Yang Jinhe in the loft, at least his eyes were filled with a pleading expression.

“Clan Leader, we cannot give up an alchemy genius just because of this.” Elder Yang was anxious.

“Elder Yang, technically speaking, I, as an outsider, shouldn't be speaking up.

However, I think letting Yang Chen try might surprise you even more.” Li

Youyan smiled slightly, thinking that Yang family had hidden Yang Chen really deep, even an elder like him didn't know Yang Chen's true details.

Based on his understanding of Yang Chen, that kid could never be like what the Yang family members said – unable to practice martial arts.

Elder Yang was a bit confused.

Why was Li Youyan meddling at this point?

Yang Jinhe was initially willing to agree with Elder Yang, but with Li Youyan interrupting now, it became even more difficult for him to make a decision. He said expressionlessly, "Second Elder, please stop insisting on this affair." "But..." Elder Yang felt unwilling.

At this time, Elder Yang Si spoke gently from the side, "Second Brother, don't be impatient. Let the kid give it a try."

"Fourth Brother, what are you..." Elder Yang was at a loss.

He knew that Elder Yang Si was usually on good terms with him, so why didn't he help him today?

Elder Yang Si chuckled, "Second Brother, heed my advice. Perhaps the outcome won't disappoint you too much?"

Nobody knew Yang Chen's strength better than him.

Yang Chen not passing the assessment would simply be a huge joke.

He just wanted to say that Yang Chen being behind Yang Wu was a bit of bad luck for the latter.

Eighth Master Yang knew that insisting would be pointless at this point. He could only sigh and say, "Fine, let the younger generation determine their own destinies."

He had done everything he could, but he couldn't solve it. There was no point in interfering any further. Of course, he had made up his mind that even if Yang Chen was expelled from the household registration, he would find a way to bring him back. He would never give up on such an alchemy genius. Yang Jinhe waved his hand, "Continue with the assessment!"

"Yang Chen, you might as well just give up this time, haha. Even Elder Yang can't protect you. What's the point of pretending to be strong?" Yang Heng sneered.

Yang Chen didn't even glance at Yang Heng and strode forward.

A hundred-jin boulder...

Yang Chen didn't even glance at it and directly ignored it.

Next, the two hundred-jin boulder and the three hundred-jin boulder.

Yang Chen acted as if they didn't exist and moved straight ahead. Was he not doing the same as Yang Wu, heading straight for the thousand-jin boulder?

This stunned many people.

'What is Yang Chen doing?

"I don't know, maybe his brain has gone haywire due to being pushed too hard.'

"Yang Chen always loves to attract attention. It seems like every time he plays the clown, he gains more presence. I wonder what kind of embarrassing situation he'll create this time."

In everyone's eyes, Yang Wu had the confidence to do that, but when Yang Chen did it, it was considered pretentious. Such a well-known good-for-nothing went straight to the thousand-jin boulder. Wasn't that just putting on an act?

"Haha, it seems that Yang Chen doesn't plan to stop stirring up trouble in the

Yang Clan's Coming of Age Ceremony."

"What a disgrace."

"Still pretending at this point? Can he even move the thousand-jin boulder?" "I doubt he can even lift 100 jin."

"You're right, this Yang Chen hasn't even reached the First Layer of Body Refining Realm, how can he possibly lift 100 jin of giant stones?"

Hearing these people's discussions, the angriest one was undoubtedly Yang Caidie, who was in the crowd.

Yang Caidie was famous for protecting Yang Chen, not allowing anyone to humiliate him in the slightest. If it were just one or two people gossiping, she might have ignored it, but these people were addicted to their snide remarks. She couldn't stand these personal attacks on her brother any longer.

Yang Caidie clenched her fists and shouted, "Shut up all of you!"

With Yang Caidie's martial arts cultivation, her angry shout was like thunder on a clear day, deafening to those around her.

This scared many people, and some were even stunned, "What's going on?"

"It's Yang Caidie, the number one genius among the female generation of the

Yang family! ”

“Does a lady this fierce even have some refinement?”

“She’s Yang Chen’s sister, daring to call her fierce? Do you want to die? Do you know what happened to the black-haired wolf of the Sun family?”

“Oops, this Yang Caidie is famously overprotective, we better not talk about Yang Chen anymore. With her temperament, she can do anything.”

The unreasonable fear the audacious, the audacious fear the fearless,

Yang Caidie is both audacious and fearless.

Who dares to provoke her?

With Yang Caidie’s roar, everyone became quiet.

No one dared to point fingers at Yang Chen, and everyone behaved.

Yang Caidie crossed her arms, looked around, and said softly, “Sisters, cheer for me.”

Unknowingly, more than a dozen foreign girls were standing beside Yang Caidie. All of them were pulled over by her to cheer for Yang Chen.

It wasn’t strange at all. Yang Caidie may seem fierce, but she was actually quite popular. Also, with her amazing talent, she naturally had many close friends.

Not only she had many friends, but she also had a strong appeal. With her call, more than a dozen people came together at the Coming of Age Ceremony of the Yang Family.

Under Yang Caidie's command, these girls started to cheer loudly.

"Go Yang Chen!"

'Go Yang Chen!"

Yang Caidie also shouted with all her strength in the crowd, "Baby, do your best, sister is here."

"Sister Caidie, what is Yang Chen's actual martial arts cultivation? If we keep cheering and he can't even lift 300 jin, wouldn't we be embarrassed?"

"Uh, I don't know what my brother's martial arts cultivation is." Yang Caidie thought about it, and she really didn't know her brother's current martial arts cultivation.

With Yang Caidie and her sisters cheering out loud, Yang Chen naturally couldn't help but hear them. Not only him, but probably the entire practice field could hear these people's cheers clearly. This left him with a wry smile on his face.

Then, he focused his eyes on the heavy stone beside him.

1200 jins, and finally, he stopped here.

Yang Chen's target was also the 1200 jin stone.

"Let's start with this 1200 jin stone." Yang Chen rubbed his hands and prepared himself.

In fact, with his strength level, he could lift 1300 jin of stone. A month ago, his martial arts cultivation had broken through to the fifth level of the Body Refining Realm. Lifting 1300 jin of stone was not a problem. However, reaching the fifth level of Body Refining Realm was too shocking.

After some thought, he locked his target on this 1200 jin stone, demonstrating only a late stage fourth level of Body Refining Realm cultivation.

However, even this thought was enough to shock the onlookers.

“What is this kid trying to do?” Yang family head, Yang Jinhe, frowned.

yang wucal 111tea tne 1100 Jin stone, ana yang cnen actually annea ror tne 1200 jin stone!
