### Chapter 3311 Entering the Secret Realm\_1

"The limit of the Heaven-separated Realm?"

Yang Chen was full of doubts.

However, according to his understanding, the Heaven-separated Realm limit mentioned by these people should be just a classification of strength, not a realm difference like the early, middle, and late stages of the Heaven-separated Realm.

As for Ba Xia Ming Wang, he surpassed the limit of the Heaven-separated Realm, with unparalleled strength, causing Mu Fei, Fairy Yun Xiu and the others to show fear in their words.

It also made Fairy Qing Wan so determined to surpass him.

Of course, these were just his speculations. As for the truth, he would have to ask Mu Fei and Fairy Yun Xiu.

However, Yang Chen wouldn't ask at this moment, considering the current situation, it seemed that Fairy Qing Wan had encountered a problem, and the expressions of Mu Fei and Fairy Yun Xiu had become more and more embarrassing after sweating a bit.

"Senior Sister Qing Wan..." Both Mu Fei and Fairy Yun Xiu couldn't help but feel sorry.

"Did Senior Sister Qing Wan fail just like that?" Fairy Yun Xiu said angrily.

"This puppet is different from cultivators after all. Senior Sister Qing Wan's strength is not inferior to this puppet. However, this puppet doesn't consume any energy. In terms of endurance, Senior Sister really isn't its opponent. Unless it's defeated before Senior Sister is exhausted, otherwise, there's only one outcome – failure." Mu Fei explained.

Fairy Yun Xiu was very unwilling, "In terms of strength, Senior Sister has already achieved parity with this puppet; it's just that she is not as good in terms of endurance. This means that she has already surpassed the Limit of the Sky-separating Realm and can be on par with that Netherworld King."

But Mu Fei smiled bitterly, "Yun Xiu, I think so too, but with Senior Sister's current ability, she is still not enough to compete with the King of the Netherworld."

"Why?" Fairy Yun Xiu appeared displeased.

Mu Fei shook his head and said, "Reaching the limit of the Heaven-separated Realm isn't that easy. This limit is a standard to measure the strength of the Heaven-separated Realm, and many people can't achieve it in their entire lives. How could it be so easy to reach? Only after passing through can it be considered a breakthrough, this is a certainty. If Senior Sister can't pass through, it can only prove that she is still wavering between this limit. If we let her challenge the King of the Netherworld now, it would be more harmful than beneficial."

Fairy Yun Xiu bit her red lips and said, "Senior Sister must be very sad."

As they were discussing, in the scene, Fairy Qing Wan's eyebrows revealed a sigh. In the end, she seemed to have finally come to terms with reality, let out a bitter sigh and chose to give up.

When she gave up, Fairy Qing Wan returned swiftly, and in a short while, she came back to Fang Xuan Villa.

"Senior Sister, are you alright?" Mu Fei and Fairy Yun Xiu quickly stepped forward to ask.

Fairy Qing Wan's tone was cold, not a bit softened: "I'm not that fragile."

In an instant, both Mu Fei and Fairy Yun Xiu couldn't help but fuss over her.

Seeing the three of them like this, Yang Chen originally didn't want to step forward, but since the three were blocking the entrance to the Ice River Secret Realm, he couldn't help but sigh in his heart.

Moreover, it wasn't hard to see that Fairy Qing Wan was in a bad mood, as she didn't listen to the comforting words of the two.

Seeing this, Yang Chen could only step forward and say, "The three of you, I don't know if you could make way. I also want to go to this Secret Realm and try it out."

This made the already unhappy trio raise their eyebrows.

Fairy Qing Wan and Mu Fei didn't say anything, but Fairy Yun Xiu, who seemed to have a hot temper, was annoyed and said, "Can't you see we're discussing? What's the hurry?"

Yang Chen originally intended to be reasonable, but Fairy Yun Xiu's attitude made him feel a bit angry as well.

Even if the three were from Fang Xuan Villa, they shouldn't be so unreasonable and rude.

"I just think that if you want to discuss something, you can go anywhere. It doesn't seem necessary to deliberately stay here." Yang Chen said.

Fairy Yun Xiu looked at Yang Chen still talking back and became even angrier: "Who cares if we want to discuss things here? What's it to you? You're so anxious to enter the Ice River Secret Realm; do you think you're amazing? Do you think you can get to which palace? Can't you see that my Senior Sister is sad because of her failure? Why are you still here adding fuel to the fire? Are you blind?"

Upon hearing this, Mu Fei quickly waved his hand, signaling his Junior Sister to shut her mouth, "Junior Sister, say a few less words."

"I'm just saying, I was already angry, and this guy has to bump into me." Fairy Yun Xiu said rudely.

Mu Fei sighed helplessly. Although he was also a little unhappy with Yang Chen's actions, he understood the situation and knew that they were the ones in the wrong, and his Junior Sister was too arrogant.

He pulled Fairy Yun Xiu aside and said, "Sorry for the trouble, Brother Yang Chen. My Junior Sister is just like this, we'll leave now."

Seeing her Senior Brother stand up, Fairy Yun Xiu didn't have the heart not to give him face, so she pursed her lips and said, "Really, he's in such a hurry to go in, as if he can reach which hall."

"Alright, you'd better say a few less words." Mu Fei sighed helplessly, pulling his Junior Sister and Fairy Qing Wan, and together they made way.

Seeing this, Yang Chen clasped his hands: "Thank you, Brother Mu Fei."

"You're welcome." Mu Fei said.

Yang Chen was really in a hurry and didn't want to waste too much time. At the moment, he saw the three of them make way and stepped into the Secret Realm.

As soon as he entered, the scene changed instantly. Yang Chen only felt the surrounding temperature drop several times. As the frost and snow fell, he knew that he had entered the Ice River Secret Realm.

For cultivators, this temperature was naturally not difficult to accept. Yang Chen released his laws around him and easily walked around here.

After just a few steps, Yang Chen arrived at the first palace.

Without any hesitation, Yang Chen entered the first palace directly.

As soon as he entered the palace, Yang Chen saw more than ten people standing in the palace.

Upon closer observation, Yang Chen felt that these were ghostly creations.

Previously, when he had watched Fairy Qing Wan fight these puppets from a distance, he had already felt that the puppets were incredibly lifelike. Their appearances were fine, but their auras and expressions were as real as humans, making it difficult for anyone to tell them apart.

At first, he thought that it was because he was too far away that he couldn't analyze it.

But now, when he took a closer look, there was still no difference. It showed just how skilled the puppet-making technique was.

"This Daoist Ancestor expert really has extraordinary methods. These puppets can truly deceive the real with the fake. If I didn't know beforehand that they were puppets and observed them carefully, I would hardly be able to tell the difference. If I didn't know about these things from the beginning, I'm afraid I wouldn't have been able to tell the difference between the puppets and real people at all." Yang Chen thought to himself with a smile.

When the conversation ended, he also smiled slightly, "These puppets are quite sensitive. They noticed me so quickly..."

Chapter 3312 Can We Surpass\_1

When they noticed themselves, these puppets, too, sped toward Yang Chen with various weapons in hand.

These few puppets were as fast as lightning, and in only an instant, they arrived by Yang Chen's side.

But Yang Chen just lightly raised his hand and put it down.

Then, these originally lightning-fast puppets stopped in their tracks after an instant, not knowing what they had experienced or what they had encountered.

...

At the same time, outside the Ice River Secret Realm, Mu Fei helplessly said, "Junior Sister, don't bother with this person. After all, we are the hosts, and he is the guest. Others have handed over the Jiyu

Essence, so we can't make a fool of ourselves. Moreover, with his cultivation level in the Heaven-separated Realm, his merit surely won't be too low."

"How high can it be? I know all the powerful figures above the seventh level of the Heaven-separated Realm. I've never heard of him before. Does he really think he's that big of a deal?" Fairy Yun Xiu sneered.

Mu Fei shook his head helplessly, "Alright, don't be angry. Now that Senior Sister Qing Wan has finished, we can go back to report to Master."

Yun Xiu Xianzi stamped her foot and wore a sulky expression, "No, I want to see which Palace this kid can reach. He's quite arrogant? If he can pass the Third Palace, I'll write my name backward."

As she spoke, she stared unblinkingly at the Ice River Secret Realm.

At a glance, Yun Xiu Xianzi narrowed her eyes, "How did this happen? How did this guy pass the First Palace?"

She remembered that Yang Chen hadn't been in the Ice River Secret Realm for long.

But now with a start, the other party had already arrived at the Second Palace? No, it was already the Third Palace.

In just a moment of distraction, like a bolt of lightning that was hard to detect, Yang Chen had already arrived in the Third Palace?

"That's it; I'm going back." Fairy Qing Wan, with her cold temperament, had been listening to the two quarreling and couldn't leave. Seeing that they finally stopped talking, she said coldly, not passing the Sixth Palace was a considerable blow to her.

However, when her words ended, she didn't hear the familiar pleas to stay, causing Fairy Qing Wan to be slightly surprised.

As she turned to look, Fairy Qing Wan's eyes showed a hint of astonishment.

Because she saw clearly that Yang Chen was already in the Third Palace. This time, this speed...

...

At the same time, Yang Chen, who was in the Third Palace, still opened his exclusive domain.

When the domain opened, the surrounding space and time were entirely under his control. Within this realm, these puppets became as weak as prisoners, easily defeated.

Yang Chen showed no mercy and went straight for the kill. The weight of the domain increased by a moment, completely destroying the puppets in the Third Palace.

Crackling...

All the puppets turned into fragments, scattered in all directions, like countless discarded parts.

This scene left the three people observing from the outside world dumbfounded. Because Yang Chen's speed in passing the Third Palace was also so fast.

Then, Yang Chen, within the domain, like a phantom or a nightmare, took a step and vanished without a trace.

When he appeared again, Yang Chen seemed like a weightless shadow, already in the Fourth Palace.

This Fourth Palace was similar to the previous ones, possessing more than a dozen puppets. However, compared to the first three Palaces, these dozen puppets were clearly more exquisite in craftsmanship. Most importantly, among these dozen puppets, there was one wearing armor, distinctly different from the other puppets.

This puppet was the 'Puppet General.'

The Puppet General's released Qi was incomparable to the other puppets.

In an instant, several puppets rushed forward, their speed, brute force, and explosive force all giving an extremely shocking sensation.

However!

At the very first moment when they entered the domain, all their power seemed to be hindered, completely shattered, and turned into nothingness.

What remained was their obviously slow bodies, which were still ravaged by Yang Chen.

With crackling noises, more than a dozen puppets, like those in the Third Palace, shattered into parts on the ground.

Only the Puppet General struggled, and the simulated expression between its brows showed difficulty, anxiety, and fear.

Yang Chen saw this, flashed, and disappeared. When he appeared again, the Puppet General's armor shattered, and its body, like the other puppets, turned into a pile of parts.

The puppets could not be completely destroyed, only smashed into various parts. That was because there was a core within the puppets' bodies. Yang Chen did not know how the core was made, but it was filled with power from Daoist Ancestor experts.

This power was enough to allow these puppets to recover and become the core of the endless cycle of this Secret Realm.

Thus, it was enough to just break them, and there was no need to completely destroy these puppets. If they were truly destroyed, Fang Xuan Dao Ancestor might not let him go easily.

In this way, after the Fourth Palace, Yang Chen obtained another 3,000 Jiyu Essence.

But this 3,000 Jiyu Essence did not make Yang Chen reveal the slightest happiness.

"I got 1,000 Jiyu Essence from the Second Palace, 3,000 from the Fourth Palace, adding up to 4,000. Indeed, I barely broke even." Yang Chen shook his head.

With the word "barely," he knew there was a catch.

He had to spend 5,000 to enter, and now only got back 4,000. The term "barely" was not a problem at all.

Yang Chen didn't think about it too much. If he wanted to break even, he still had to pass the Sixth Palace.

Since that was the case, then... the Sixth Palace!

Yang Chen barely stopped after the Fourth Palace and immediately headed to the Fifth Palace!

At this moment, Yun Xiu Xianzi, Qing Wan Xianzi, and the third person were all watching without blinking, their eyes not leaving the scene for a moment.

Yun Xiu Xianzi became completely quiet, with no trace of her previous arrogance. All she had left was watching Yang Chen's performance in the Ice River Secret Realm with a calm demeanor.

And from time to time, her heart jumped, as if she had been greatly shocked.

Mu Fei and Qing Wan Xianzi were slightly more composed than Yun Xiu Xianzi, but when they saw Yang Chen's almost terrifying display, they could not help but feel uneasy.

Because Yang Chen was still incredibly relaxed in the Fifth Palace, and almost effortlessly overcame it in a crushing manner.

After that, there was the Sixth Palace!

The three of them couldn't help but think of the same question at the same time.

That was, would Yang Chen in the Sixth Palace be as relaxed as in the Fifth Palace?

"It won't happen. Only powerful figures who have surpassed the limit of the Heaven-separated Realm can surpass the Sixth Palace. That Puppet General is created by Master with the standard of the Heaven-separated Realm limit. How could this nobody win? Even Senior Sister couldn't win." Yun Xiu Xianzi comforted herself in her heart.

At this time, Yang Chen had completely reached the Sixth Palace.

Chapter 3313 Is This the End?\_1

The Sixth Palace, is the true palace that distinguishes the levels of Sky Separation Realm Experts.

When Yang Chen arrived, he looked at these puppets with various appearances without any disturbance in his mind.

These puppets, with great variations in appearance, have the most significant difference in their Qi. The difference between the Fifth Palace and the Sixth Palace is larger than the previous palaces, and can even be said to be much larger.

This is a breakthrough of rapid progress.

Especially the Puppet General of the Sixth Palace, the aura he exudes and the Laws lingering around him make Yang Chen feel a bit tricky.

He remained calm and unmoved.

However, these puppets have already noticed Yang Chen!

Without many words, they attacked Yang Chen at the first moment. All kinds of means were thrown out like sugar beans. It seemed like a rain of bullets, catching people off guard.

Yang Chen took a light step.

Before these puppets approached him, an azure pattern was set at his feet.

As the pattern was formed, the puppets' speeds were suddenly reduced. In this domain, their movement was controlled by Yang Chen in an instant.

However, this control was not as smooth as in the previous palaces.

"The Sixth Palace is indeed interesting. Each of these puppets has Sky Separation Realm combat power, and the Puppet General is even stronger than ordinary Sky Separation Realm experts. In my domain, it can achieve this level..." Yang Chen muttered to himself, looking at the Puppet General attacking without stopping from a distance.

The stronger the power, the less influence by the change of spacetime in his domain.

This Puppet General had great strength!

Although its speed had been slowed down in Yang Chen's domain, it still swept in like a storm, as if a gale was pressing down.

Yang Chen could see that relying solely on his domain would be somewhat difficult to achieve victory.

If so, it was time to use some other means.

"Deathly Silent Black Wind!"

Whoosh, a large amount of Deathly Silent Black Wind came from a distance, howling and surging, covering thousands of miles in an instant.

In an instant, it directly hit the body of the Puppet General.

However, the effect seemed to be much less.

Seeing this, Yang Chen couldn't help but feel disappointed: "The Deathly Silent Black Wind is effective against the body and soul, but it doesn't work so well on puppets."

Like the Death Omen Scripture, it had an excellent effect on the soul, but when it came to puppets, it had no effect at all.

The Puppet General made its way through the Deathly Silent Black Wind effortlessly. Surrounded by it, it roared and swung both arms, instantly dissolving Yang Chen's Deathly Silent Black Wind.

Seeing this, Yang Chen had no choice but to use his palm.

If the Deathly Silent Black Wind didn't work, then let him taste this!

This palm strike was the Five Elements Turn Heaven Palm!

As the palm descended, it suppressed and captured the Puppet General like grabbing a chick, firmly holding it in his hand.

This scene shocked Mu Fei and the others, who couldn't believe their own eyes.

Was this real or fake?

Especially Fairy Yun Xiu, with her mouth slightly open and an incredulous look on her face. Her admired Senior Sister Qing Wan, who she respected, had failed to break through the Sixth Palace. Now, the Puppet General of the Sixth Palace was like a little lamb, being held firmly by Yang Chen.

It was not difficult to judge that Yang Chen could pass the Sixth Palace as easily as turning his hand over, just like the other palaces. Looking at Fairy Qing Wan, her expression was the same.

She had always believed that she was the most powerful existence in Sky Separation Realm within Fang Xuan Villa, and also the most outstanding one among her Family Master Fang Xuan Dao Ancestor's subordinates.

All her junior brothers and sisters took pride in her.

She felt sad about passing the Sixth Palace but not ashamed because she knew very few people could surpass the limit of the Sky-separating Realm in the Sixth Palace.

But now, Yang Chen, someone she never paid attention to or even disliked, had successfully achieved this.

He arrived at the Sixth Palace, and with his incredible strength, overcame the puppet there.

It was because Yang Chen achieved all this that so many spectators came to watch; the soul of the Powerful Ones could cover half a realm or even an entire realm.

The movements of Fang Xuan Villa were naturally noticed by people very quickly. Consequently, many cultivators from the Great Stage to the Sky Separation Realm came to this place, curious about what happened here.

When these cultivators arrived, Yang Chen had already successfully passed the Sixth Palace and had arrived at the Seventh Palace.

When he arrived at the Seventh Palace, Yang Chen showed a slight smile.

"The reward for the Sixth Palace is satisfactory, it gave ten thousand at once." Yang Chen grinned, "At least I'm not disappointed. It seems that the old Daozu knew very well that very few people could pass the Sixth Palace, and he was generous enough to give out Jiyu Essence."

Earning so much Jiyu Essence in one breath certainly made this trip to the Secret Realm worth it.

Moreover, he wasn't just satisfied with the Sixth Palace in his heart.

"Let's see about the Seventh Palace..." said Yang Chen.

He walked calmly, and when he stopped, he arrived before the Seventh Palace.

The puppet of the Seventh Palace made Yang Chen gasp for air because all the puppets inside the Seventh Palace had transformed and put on armor.

This armor made Yang Chen feel a hint of pressure.

Combined with the fluctuations of qi, Yang Chen concluded in an instant, "This Seventh Palace is much stronger than the Sixth. The difference in strength is probably not too far off compared to the Sixth Palace and the Fifth Palace..."

Yang Chen couldn't help but smile wryly. The Sixth Palace truly marked a turning point.

Facing such high difficulty, Yang Chen did not take it lightly.

Before these puppets could make a move, he had already released his azure pattern domain beforehand.

As soon as the domain opened, the space-time changed.

The speed of these puppets slowed down significantly.

However, the degree of slowing down did not satisfy Yang Chen.

Because more than a dozen puppets could still move freely in his domain, their speed decreased and already seemed to be out of his control.

"They've become so much stronger..." Yang Chen took a deep breath and without another word, slapped his hand down.

This Five Elements Turn Heaven Palm slammed down, directly unleashing Yang Chen's Five Elements Laws' power.

The blow was deafening.

Yang Chen wanted to see how these puppets would fare under the power of his Five Elements Turn Heaven Palm.

However, the result was somewhat disappointing.

These puppets had extraordinary techniques, easily breaking free from his Five Elements Turn Heaven Palm. This forced him to suppress them with another palm.

The second Five Elements Turn Heaven Palm!

The result was slightly better, but still not up to his expectations. The suppression was only temporary, and it didn't achieve a permanent effect!

Chapter 3314: Investigate This Person!\_1

In the outside world, more and more onlookers began to gather.

"This guy actually passed the Sixth Palace..."

“But the difficulty of the Seventh Palace is higher than the Sixth Palace. Because the Seventh Palace is designed for the Heavenly Fate Realm, the difficulty is tailored to the Heavenly Fate Realm experts. This little guy is impossible to pass the Seventh Palace.”

“He’s already running out of tricks. Those two giant palms in a row couldn’t do anything to these puppets. I’m afraid it’s very difficult for him to persist.”

People discussed among themselves, having more or less made some judgments in their hearts.

As for Yang Chen, he also secretly shook his head due to these puppets.

Not being able to suppress them with the Five Elements Turn Heaven Palm was indeed giving him a headache. If he couldn’t suppress them, these puppets would escape from the Five Elements Turn Heaven Palm, and then, he would be the one in trouble.

“It seems I can only bring out my trump card.” Yang Chen murmured: “Since I created this move, I’ve never used it before...”

He had never dared to use this move before. At least within one realm, he didn’t dare to use it when facing Sky-separating Realm experts.

Because once he used it, that entire realm would be completely destroyed by his move!

“Are you ready, Slaughter God Spear? It’s time to warm up.” Yang Chen said.

The Slaughter God Spear chuckled: “I’ve been ready for a long time. However, Young Master, this move is a bit too much for me. Every time it’s finished, I’ll have to suffer for a while.”

...

The number of onlookers outside grew, and a Sky-separating Realm limit expert appeared, leaving people in awe.

However, many people also felt that the Seventh Palace would be Yang Chen's end. At least, that was how it seemed at the moment.

However, not long after, the thought vanished from everyone's minds.

Then, with a sudden burst of brilliant light.

All they saw was Yang Chen holding a long spear, and in an instant, everything disappeared from sight.

Everyone was outside the Ice River Secret Realm, so they could only see with their naked eyes. If their vision was blocked, they wouldn't be able to sense anything using their souls.

For a moment, no one knew what had happened.

All they knew was that after the flash of light disappeared.

Yang Chen was no longer in the Seventh Palace. Instead, he had gone straight into the Eighth Palace!

His sharp aura could only be described as unfathomable.

"He passed the Seventh Palace!"

The onlookers all showed deep shock on their faces. At least from the moment Yang Chen passed the Seventh Palace, they didn't know what to say.

"How did he do it?"

Many people were pondering this question.

Mu Fei, Fairy Yun Xiu, and Fairy Qing Wan were also deep in thought.

At this time, the three of them were no longer in a hurry to leave, and Fairy Yun Xiu obediently closed her mouth. She didn't dare to say anything.

Yang Chen's strength was stronger than her senior sister, which was a fact.

"Who exactly is this guy..." Mu Fei sighed.

Yang Chen still did not stop, entering the Eighth Palace directly.

Many people wondered if Yang Chen would create another miracle.

Inside the Eighth Palace, there was a moment of silence followed by a fierce battle, and finally, there was a dazzling brilliance just like before...

No one knew what had happened, but after that beam of light, Yang Chen emerged from the Eighth Palace, announcing a fact that was almost terrifying.

That was!

He successfully passed the Eighth Palace.

With his Sky Separation Realm cultivation, he passed the Eighth Palace. This news, this fact, was like a bomb, completely bombarding everyone's hearts.

"How is it possible for someone in the Sky-separating Realm to pass the Eighth Palace?!"

“At most, those in the early Destiny Realm can barely reach the Eighth Palace!”

“What’s his name? I’ve never seen him before. Where did he come from?”

Many powerful people discussed, and at the same time, in a small house covered with weeds in Fang Xuan Villa, an elderly man with white hair was silent. But at this moment, as if sensing something, he gradually opened his eyes.

In his eyes, there was a hint of brilliance, as if he had been amazed by something!

...

As for Yang Chen, he had arrived at the Ninth Palace and was facing the nearly abnormal level of puppets in it.

“Each of these puppets has the strength of the Heavenly Fate Realm!” Yang Chen was on the verge of breaking into a cold sweat. He opened his domain, which was like a weightless object, and was chased by more than a dozen puppets, with no power to fight back.

“It seems I can only end it here!”

Yang Chen shook his head slightly, feeling helpless. He still wanted to go further, but the Ninth Palace was obviously not within his power to surpass.

However, Yang Chen was still satisfied, because the Eighth Palace rewarded him with more than 30,000 Jiyu Essence.

Apart from that, there was also a Supreme Treasure, which further excited him.

“It’s time to leave.”

Yang Chen waved his sleeve and left, directly withdrawing from the palace.

As long as he left the palace, the puppets would immediately stop. The palace itself was not big, so as long as he withdrew properly, there was almost no risk of danger.

But once he withdrew, it would mean losing the opportunity to challenge, and before the next Secret Realm opened, this palace's main gate would not open again.

Yang Chen naturally wouldn't take any chances. After leaving the palace, he went straight to the exit of the Secret Realm.

When he reappeared, Yang Chen was back in Fang Xuan Villa.

Just as he was returning to Fang Xuan Villa, Yang Chen was startled by a large number of onlookers at the exit. There were hundreds of them, making Yang Chen's scalp prickle.

He initially thought that he wouldn't be seen by too many people this time. Outside the Secret Realm, there were only a few onlookers like Mu Fei, and these few onlookers seemed disinterested in him, ready to leave at any time.

That was what he wanted, and he was happy about it.

But to his surprise, so many powerful people suddenly appeared.

The sudden appearance of so many powerful people really startled Yang Chen. It also made him not want to stay any longer.

He immediately bowed: "I apologize for any inconvenience I've caused, everyone. I have urgent matters to attend to and will leave first."

After saying that, Yang Chen waved his hand and quickly left.

He was difficult to catch, and by the time a group of powerful people reacted, Yang Chen had already left.

“What!”

Mu Fei lamented for a moment: “If I had known, I would have tried harder to keep him here earlier. How did this guy leave so fast?”

Fairy Qing Wan had been silent all along, but at this moment, she spoke decisively: “Mu Fei, Yun Xiu, help me find out who exactly this Yang Chen is. I want his detailed information.”

Chapter 3315: Hometown of the Ice and Fire Sky Phoenix\_1

Mu Fei and Fairy Yun Xiu couldn't help but be surprised. Their Senior Sister rarely showed such interest in someone, especially someone of the same Heaven-separated Realm as her.

For the proud and unparalleled Fairy Qing Wan, this was naturally a surprising matter.

However, upon thinking about Yang Chen's performance just now, if their Senior Sister was not surprised, that would be strange.

Looking at Yang Chen, who left nonchalantly, he didn't care that he had caused quite a stir in Fang Xuan Villa.

He was simply delighted with his spoils of war.

It must be said that this Secret Realm was worth exploring again if there was nothing important going on.

Because just by rushing into the Ninth Palace in one breath, the Jiyu Essence he obtained made him very satisfied.

It should be known that tens of thousands of Jiyu Essence isn't a lot, but just one trip in several days without facing any danger brought such benefits. Even if it happened ten or a hundred times more, Yang Chen would definitely be willing.

Moreover, when he reached the Eighth Palace, Yang Chen had also obtained a treasure.

Yang Chen couldn't name this treasure, but upon leaving, he unconsciously took it out.

It was a gray iron-like substance. Looking at it from left to right, Yang Chen could roughly see that its quality was extraordinary, but he was unable to describe or name it.

However, when he was puzzled, the Slaughter God Spear couldn't help but be overjoyed: "Young Master, this is Silver Snow Fine Iron!"

"Silver Snow Fine Iron?" Yang Chen asked, puzzled: "What is Silver Snow Fine Iron?"

"Hehe, Silver Snow Fine Iron is actually the name and appearance of the Ancient Essence Cold Iron before it fully evolved. Although the effect is very different from Ancient Essence Cold Iron, the effect is still substantial. Young Master, why don't you just feed this thing to me, and my strength will definitely increase greatly." The Slaughter God Spear chuckled.

Yang Chen was astonished: "How do you know so much?"

"Of course, when I was imprisoned by Absolute Yi Daozu, I got to know many Divine Weapons under his hands. I know about things that are good for nurturing artifacts. Not to mention, this Silver Snow Fine Iron and the Ancient Essence Cold Iron I ate before are just an evolutionary gap apart," said the Slaughter God Spear proudly.

Yang Chen couldn't help but laugh, "You weren't caught by Absolute Yi Daozu for nothing."

"Of course, Young Master, this Silver Snow Fine Iron..." The Slaughter God Spear looked at him expectantly.

“This Silver Snow Fine Iron is of course for you. I wouldn’t swallow it myself.” Yang Chen turned his hand and immediately threw the Silver Snow Fine Iron into the Demon God Tower.

As soon as the Silver Snow Fine Iron entered the Demon God Tower, the Slaughter God Spear immediately pounced on it, excited.

Yang Chen quickly returned to the Earth Spirit Hall along the way.

Upon returning to the Earth Spirit Hall, Yang Chen went straight to the room where he had arranged to meet Fairy Linglong. When he arrived, Fairy Linglong was already waiting for him with a gentle smile.

Seeing that Fairy Linglong was already waiting, Yang Chen calmly asked, “Fairy Linglong, have you prepared everything?”

“Of course, please have a look, Young Master Yang Chen.” Linglong Fairy smiled faintly, gently waving her silken sleeves, and a few Star Interfaces appeared before Yang Chen: “Should Young Master Yang Chen examine them one by one, or would you like me to highlight the most important ones for you?”

Yang Chen thought for a while, then said, “Fairy Linglong, just pick out the important ones.”

Fairy Linglong wore a gentle smile on her face but couldn’t help but feel bitter inside. Yang Chen’s request at that time really gave her a hard time.

Even though she had thought a lot, the few interfaces she finally picked were still extremely challenging.

As she thought, Fairy Linglong sighed inwardly, but she could only proceed according to Yang Chen’s conditions. Whether he could handle it or not, that was Yang Chen’s business.

“There are three interfaces whose value can be mined for up to One Million Jiyu Essence. The other four have an estimated Jiyu Essence of around 800,000, but the difficulty is much lower. Do you want to choose the former or the latter, Brother Yang Chen?” asked Fairy Linglong.

“The former,” Yang Chen answered without much hesitation. The more, the better for him.

A tremor appeared at the corner of Linglong Fairy’s mouth. Yang Chen really had no intention of joking around on this matter.

He seemed to have every intention of aiming for the One Million essence right away.

She felt helpless inside her heart, as she thought she had finally chosen a powerful cultivator who could bring benefits to her. But who knew that he would be so overconfident.

It seemed that her fate in cultivation hadn’t arrived yet.

Fairy Linglong could only sigh softly and explain in detail, “First, let’s talk about this Interface, which has up to One Million Jiyu Essence that can be mined. This Interface is called Ye Tianxing and is fully controlled by the Insect Race. It has a Destiny Realm Insect Clan inside. The entire Interface is very dangerous, and I estimate that the Jiyu Essence that can be mined is around 1,070,000. This is assuming there is no competition and you complete all the tasks you can.”

“The Insect Clan... What about the other two?” asked Yang Chen.

“There is another one called Lei Feng Boundary, controlled by the Ruthless Beast Race. There is also a Heavenly Fate Realm Ruthless Beast Clan inside the interface. The danger level of this interface is not only because there is a Heavenly Fate Realm Ruthless Beast Clan guarding it, but also because the entire interface is filled with the Sa Qi that Ruthless Beast Clan is good at. This Sa Qi controls an interface, and once other interfaces enter this Interface, they would be immediately controlled by the Sa Qi. Therefore, although this Interface’s Jiyu Essence is highly valuable for development and mining, there are only a few powerful ones who are willing to set foot in it.” Fairy Linglong explained in intricate detail without any omissions.

“Sa Qi?” Yang Chen was intrigued for a moment.

He had always thought that this Ruthless Beast Race seemed to have some connection with the Earth Fiend Clan he knew.

To his surprise, this Ruthless Beast Race also used Sa Qi!

Yang Chen couldn't help but ask, "How much Jiyu Essence does this interface have?"

"Estimated to be 1,200,000," said Fairy Linglong.

"1,200,000..." Yang Chen was slightly disappointed.

He wasn't afraid of Sa Qi, but the number of Jiyu Essence did not completely satisfy him.

He didn't mind and asked again, "What about the third Interface? Tell me more about it!"

"The third interface is called the Ice and Fire Star. Hundreds of years ago, this Ice and Fire Star was invaded by the Netherworld, and after the invasion, the Netherworld quickly installed the Gates of Life and Death on it. The Netherworld showed great concern for the Ice and Fire Star. In one fell swoop, they placed three Heavenly Fate Realm Experts within the Interface." Fairy Linglong said.

Back then, Yang Chen didn't pay much attention to it, but after thinking about it...

Ice and Fire Star...

Wasn't this the Ice and Fire Star Mo Wenfeng mentioned before?

"Is this Ice and Fire Star the hometown of the Ice and Fire Sky Phoenix Clan?" asked Yang Chen.

"Yes, it is." Fairy Linglong confirmed casually.

Chapter 3316 Feel Free to Let the Horses Gallop\_1

Yang Chen hesitated for a moment, and his thoughts began to churn. Originally, he wasn't too concerned about the Ice and Fire Star. However, if it had something to do with the Icefire Heavenly Phoenix's hometown, that would be a different story.

He had always been curious about Bao Lu's whereabouts and had even asked Heng Ye about it before. However, Heng Ye's response was somewhat baffling.

Therefore, Yang Chen had no choice but to let it go and plan for the future. Despite that, he kept the Ice and Fire Star in mind, intending to visit it if he had the chance, and it would be best if he could find Bao Lu's whereabouts.

Now hearing about the Ice and Fire Star, he became interested and asked, "How many Jiyu Essence can be mined on the Ice and Fire Star?"

"Around 1.8 million," Linglong Fairy replied softly. "The Ice and Fire Star has the highest number of Jiyu Essence compared to the previous two, but the danger level, as Young Master Yang Chen just heard from me, is quite high. There are three powerful experts of the Heavenly Fate Realm on the Ice and Fire Star. I really don't think it's a good choice for Young Master Yang Chen."

Yang Chen didn't think too much about it and said, "It's fine, just show me the mini planet."

Linglong Fairy couldn't understand Yang Chen's thoughts.

Though the number of Jiyu Essence on the Ice and Fire Star was indeed more, those three experts of the Heavenly Fate Realm weren't just for show. Even if Yang Chen decided to go, he should at least bring more people with him. Going alone to the Ice and Fire Star was truly a worrying prospect.

However, she couldn't pry any further and simply handed the mini planet to Yang Chen.

Yang Chen took the mini planet, scanned it with his soul, and understood all its details.

"Killing the Four-direction Ghost Kings will reward 300,000 Jiyu Essence!"

"Killing the Wind-Thunder Ghost King will reward 240,000 Jiyu Essence!"

"Killing the Earthquake Palace Ghost King will reward 270,000 Jiyu Essence."

"Rescuing..."

Yang Chen was most interested in these three Ghost Kings.

Just these three Ghost Kings alone accounted for 800,000 Jiyu Essence.

It couldn't be helped. These were three Heavenly Fate Realm Ghost Kings, so it was reasonable for their rewards to be higher. It was no wonder Linglong Fairy didn't agree with his choice of this plane. After all, killing the experts of the Heavenly Fate Realm seemed unbelievable.

"Fortunately, the strength of these three Heavenly Fate Realm powerful experts is only in the early stage of the Heavenly Fate Realm. If I face them, it's not like I have no chance of fighting back," Yang Chen thought to himself.

He also considered the pros and cons. If he didn't take Bao Lu into account, the previous two planes were indeed much more suitable for him than the Ice and Fire Star.

But considering Bao Lu, Yang Chen gritted his teeth and decided to take the risk once.

Even if he fought against the experts of the Heavenly Fate Realm Early Stage, he wouldn't be able to defeat them and retreat entirely.

"Has Young Master Yang Chen made a decision?" Linglong Fairy, who was watching Yang Chen from the side, seemed to have made a choice and asked.

Yang Chen nodded and said, "Okay, I'll choose this Ice and Fire Star."

Linglong Fairy wanted to cry but couldn't, "Young Master Yang Chen, your thoughts are truly hard to understand. Don't you want to reconsider? The Ice and Fire Star might have some pros and cons for you.

The 1.8 million Jiyu Essence may look tempting, but just those three Heavenly Fate Realm Ghost Kings alone account for 800,000. How much Jiyu Essence can you actually get in the end?"

Yang Chen knew that Linglong Fairy was looking out for him, but he didn't say much. He simply stated, "I choose the Ice and Fire Star."

Seeing that Yang Chen had made up his mind, Linglong Fairy could only sigh and say, "Alright, since Young Master Yang Chen has decided, there's no point in me trying to persuade him otherwise. I'll do as Young Master Yang Chen says. I'll go register now."

"Thank you, Miss Linglong," Yang Chen said.

Linglong Fairy smiled bitterly, "Young Master Yang Chen, you don't need to thank me. If you really want to thank me, just get more Jiyu Essence and return safely from the Ice and Fire Star, then I'll be grateful."

"Hahaha, of course," Yang Chen confidently said with his hands behind his back. No three Heavenly Fate Realm Early Stage experts could stop him.

Linglong Fairy didn't know where Yang Chen's confidence came from, but she didn't pry any further. She said softly, "I'll handle the registration, there's no need for Young Master Yang Chen to bother."

"There's no need. I'll go with my friends," Yang Chen said.

Linglong Fairy sighed inwardly. Yang Chen was humble and approachable despite having a five-level merit. They got along well in every aspect, except for his pride and ambition, which left people helpless.

"If Young Master Yang Chen wants to accompany me, that's even better," Linglong Fairy said with a smile.

It seemed that there were few people in the sub-hall for four-level merit and above.

Two people came together without forming a line, and they quickly reached the registration area.

The Elder in charge of registration had a sallow complexion and seemed to have practiced some Dao techniques and laws.

This Elder looked skinny and was familiar with Linglong Fairy. He chuckled and said, "Fairy Linglong, long time no see. It seems you have a new Daoist friend in your care. May I know which plane this Daoist friend intends to visit?"

Linglong Fairy calmly replied, "Young Master Yang Chen is planning to go to the Ice and Fire Star. Please register him, Elder Xu."

"Ice and Fire Star? It is indeed a dangerous plane, usually frequented by powerful experts with six-level merit and above. Moreover, not long ago, a strong expert of the Heavenly Fate Realm went there. Their whereabouts remain unknown, and I wonder what happened in the battle. Alright, I digressed. How many people does Daoist Yang Chen have with him? It looks like Fairy Linglong has only brought him alone. Did the others not come with him?" Elder Xu asked.

Linglong Fairy smiled bitterly, "Elder Xu misunderstood. Young Master Yang Chen plans to go to the Ice and Fire Star by himself."

"What?" Elder Xu's eyebrows twitched upward in surprise, exclaiming, "Going alone?"

Linglong Fairy's lips moved slightly, and she transmitted her voice to Elder Xu, "This Daoist friend has an eccentric personality. Just register him directly, Elder Xu."

Even though Elder Xu was surprised by what he heard, he didn't ask any further questions.

Yang Chen didn't know what Linglong Fairy had said in her voice transmission, and he didn't care. As he was registering, his soul covered the area and saw a group of more than a dozen people arriving behind him.

This group of people happened to be Fu Xuanbing's enemies. Fu Xuanbing led more than a dozen people, including some familiar faces such as Hu Kui. The person Yang Chen paid the most attention to was Heng Ye, who was also among them.

Fu Xuanbing sneered, "Are you going to the Ice and Fire Star too?"

"So what if I am?" Yang Chen replied nonchalantly.

Fu Xuanbing laughed arrogantly, "It's quite a coincidence, as our group is also going to the Ice and Fire Star to take a look. I hope we don't bump into each other and snatch some jobs you're looking forward to, causing you to lose a large amount of Jiyu Essence. Make sure you don't get upset."

Yang Chen knew that Fu Xuanbing was deliberately threatening him and replied indifferently, "If Fu Daoist Friend has the ability to do so, he can come and try. In fact, compared to Fu Daoist Friend, I consider myself to have a clear conscience. After all, Fu Daoist Friend has had some experience of being robbed before."

Chapter 3317: Saving Bao Lu\_1

This sentence made Fu Xuanbing furious, reminding him of the previous humiliation of having his Fantasy Horn taken away by Yang Chen.

However, Fu Xuanbing was, after all, deeply scheming, so even if he was mocked by Yang Chen this time, he still responded coldly: "Hehe, fortunes change. It was just a moment of negligence on my part last time. I only hope that you don't forget to be cautious later, Brother Yang Chen."

Yang Chen's mouth lifted into a faint smile and said lightly, "There's no need for you to worry about that, Brother Fu."

When the conversation ended, Fu Xuanbing snorted coldly and ignored Yang Chen's presence, leading more than a dozen people to complete their registration directly.

Yang Chen just glanced at Heng Ye indifferently.

Heng Ye also looked at Yang Chen briefly, but quickly averted his gaze.

Yang Chen shook his head, somewhat disappointed in Heng Ye's decision to follow Fu Xuanbing, but he didn't blame him. After all, Heng Ye had fought against the Flame Spirit Race together with Fu Xuanbing before Yang Chen arrived.

Yang Chen didn't stay long and left with Linglong Fairy.

When they were leaving, Linglong Fairy suddenly asked, "Brother Yang Chen, do you have a grudge against this Fu Xuanbing?"

Yang Chen nodded, "Yes, there is indeed some resentment between him and me."

Linglong Fairy said helplessly, "Brother Yang Chen, why did you have to provoke him? He is the type to never let go of a grudge, and most importantly, his own strength is indeed extraordinary. His merits have made him quite famous in the Dragon Pattern Mountain area. If you anger him, he will definitely seek revenge on you. Moreover, this trip is to the Ice and Fire Star, and your two people ..."

Linglong Fairy sighed quite a bit, wondering why Yang Chen had so many troubles.

All she could do was offer a piece of advice, "Young Master Yang Chen, let me offer you a suggestion. You might as well apologize to Fu Xuanbing. After all, he has been in the Ancient Divine Realm for a long time, and his connections and strength are likely unmatched by you. If you apologize, the matter will be over. Fu Xuanbing will still be furious, but at least as a human, he won't dare to do anything to you. But if you don't apologize, I'm afraid that he will not let you off easily during your trip to the Ice and Fire Star."

"Lady Linglong, you don't need to worry about me; I'll handle this on my own terms." Yang Chen replied with a smile.

Despite his agreement externally, Yang Chen couldn't truly accept it internally. After all, he didn't believe that he had done anything wrong by taking the Fantasy Horn.

Seeing that Yang Chen didn't intend to follow her advice, Linglong Fairy could only shake her head slightly.

It couldn't be helped, if Yang Chen didn't heed her advice, she had no other recourse. The young man's arrogance might lead him to suffer a bit now, but he would come to understand in the future that her words were like golden advice.

With that, Yang Chen and Linglong Fairy didn't spend any more time on the topic. After a brief discussion, the two went their separate ways.

Yang Chen returned to his cave mansion in Dragon Pattern Mountain and began to plan his actions on the Ice and Fire Star.

As for the matters of the Ice and Fire Star, he had already learned quite a bit from the mini-star, and Linglong Fairy also provided him with some reliable information.

This allowed Yang Chen to become well acquainted with the Ice and Fire Star.

According to Linglong Fairy, if he were to venture into the Ice and Fire Star alone, he should avoid fighting alone as much as possible. If he found others who shared the same goals, it would be better to cooperate with them.

Although the Ice and Fire Star was full of dangers, it was also rich in resources, which attracted numerous cultivators to explore.

Even a Heavenly Fate Realm Expert had stepped into this plane. Unfortunately, that expert led many Sky-separation Realm cultivators into the realm and ended up losing contact with them.

Yang Chen made some preparations before riding the Spirit Leaf Flying Boat directly, leaving the Ancient Divine Realm, and heading towards the Ice and Fire Star.

The Ice and Fire Star was even farther away from the Spirit Fire World, and it was close to the core area of the Netherworld, the Dark Flow Universe.

It was precisely because of this that the plane was so dangerous, with hazards lurking everywhere.

One misstep and one could easily be surrounded and killed by the powerful experts drawn from the Dark Flow Universe.

However, Yang Chen had already made an agreement with Luo to try his best to remove the Gates of Life and Death, so he was not afraid of going to the Ice and Fire Star.

If he were truly afraid, how would he pull out the dozens of Gates of Life and Death in the future?

The closer they got to the Ice and Fire Star, the more tight the defense became. Yang Chen could see more and more Netherworld guards stationed nearby, enveloping the entire surrounding starry sky.

However, Yang Chen had his means to infiltrate the place.

With his mastery of spacetime, it would be easy for him to enter.

In the blink of an eye, three months had passed.

Now, Yang Chen had already spent four days in this plane.

During these four days, Yang Chen had gained some understanding of the Ice and Fire Star.

The entire Ice and Fire Star had a rare sun and moon in the same sky. The red sun was like a huge fireball, while the moon was even more bizarre, as if it was composed of blocks of ice.

The Ice and Fire Star had already been completely occupied by the Netherworld, and most of the Ice and Fire Sky Phoenix Clan had been enslaved.

These enslaved Ice and Fire Sky Phoenixes, similar to the Spirit Fire Clan of the Spirit Fire World, were either weak and thrown into the Unwarranted Black Hole or stronger ones were captured to reinforce the Gates of Life and Death and build the Calamity City.

During these four days, Yang Chen had also found a target.

For him, the most important thing in coming to the Ice and Fire Star was not the Jiyu Essence, but to find Bao Lu.

Bao Lu's whereabouts had always been unknown, causing Yang Chen to worry. During these four days, he inquired a little and set his sights on a stronghold not far from Calamity City.

This stronghold was garrisoned by three Sky-separation Realm Ghost Kings. Under these Ghost Kings, a Sky-separation Realm Ice and Fire Sky Phoenix and numerous Realmless and Great Stage Ice and Fire Sky Phoenixes were being held captive.

This was why Yang Chen chose this place!

To find Bao Lu's whereabouts, he had to start by finding members of the Ice and Fire Sky Phoenix Clan.

He didn't dare to act rashly now, because there were strong experts of the Destiny Realm present in this plane. If possible, it would be best not to provoke these strong figures from the Destiny Realm.

At this moment, Yang Chen was waiting for an opportunity outside the stronghold.

For him, killing these three Sky-separation Realm Ghost Kings would be extremely easy. However, the most crucial matter was how to silently eliminate this stronghold without being detected by other powerful experts, rescue the captives, and then make a clean getaway.

With such thoughts in mind, Yang Chen felt a bit uncertain.

But just then, he suddenly sensed something in his soul.

“Someone’s coming?” Yang Chen was startled, “Is it from the Ice and Fire Sky Phoenix Clan?”

In his soul, he saw more than a dozen powerful members of the Ice and Fire Sky Phoenix Clan silently approaching this place as if their goal was the same as his.

This made Yang Chen intrigued, “There are actually Ice and Fire Sky Phoenixes that have not been enslaved?”

He had always thought that all the Ice and Fire Sky Phoenixes in this plane had been enslaved, but he didn’t expect that there were still some who were free. Moreover, it seemed that they were about to perform a rescue mission here.

Chapter 3318: Red Alert\_1

These Ice and Fire Sky Phoenixes were now on high alert, their expressions tense and extremely serious.

Among the dozen or so Ice and Fire Sky Phoenixes, two had reached the cultivation level of the Heaven-separated Realm, while the rest were all in the Realmless stage. Their combat power was indeed formidable.

The goal of these Ice and Fire Sky Phoenixes was obviously to rescue the trapped Ice and Fire Sky Phoenixes.

Their actions were swift, scouting where they needed to and infiltrating where necessary, all in one go. It was apparent that they had a well-defined plan beforehand.

However, despite the perfection of these Ice and Fire Sky Phoenixes’ plans, there was still something amiss.

Unfortunately, the ghost creatures in this stronghold seemed to be well-prepared. Prohibitions were set up everywhere!

The Ice and Fire Sky Phoenixes were only halfway through their rescue mission and hadn't even begun to dive in yet when they triggered a prohibition. Immediately afterward, ghost faces appeared in mid-air, with eerie laughter echoing in all directions, announcing that all Ice and Fire Sky Phoenixes had been discovered.

The group of Ice and Fire Sky Phoenixes panicked, their faces full of terror, knowing they were exposed.

"Not good, we've been found! Let's go!"

Decisive as they were, seeing they had been discovered, they immediately abandoned their plans, knowing it would be impossible to succeed, and prepared to leave.

However, by the time they tried to leave, it was already too late.

Three Ghost Kings had already appeared, blocking the path of the group of Ice and Fire Sky Phoenixes, with cold smiles on their faces, as if mocking them for walking right into their trap.

"Hehe, Xuan Feng, we were just worrying about how to capture you all. You came right to our doorstep. If we capture you, the Heavenly Fate Realm Experts will surely reward us handsomely," the three Ghost Kings said with a smile.

The Ice and Fire Sky Phoenix named Xuan Feng clenched his teeth and shouted, "Ye Qi, if only we had been able to rescue Lord Ming Hu, the three of us Ice and Fire Sky Phoenixes might not have lost to you ghostly Yin spirits."

"Hahaha, Xuan Feng, you're really overestimating yourself. Even if you managed to rescue Ming Hu, what could you do? Do you really think your Ice and Fire Sky Phoenixes can contend with our Netherworld? Haha, while humans may treat you with respect and give you a seat at their table, our Netherworld doesn't care for you little Phoenixes," Ye Qi, the Ghost King, scoffed with disdain.

"Enough talk, let's take them down directly. These unenslaved Ice and Fire Sky Phoenixes are causing trouble everywhere. The more we catch, the fewer we'll have to deal with!" one of the Ghost Kings shouted.

As the conversation ended, the three Ghost Kings directly attacked while little ghost creatures in the Realmless stage quickly moved to surround the dozen Ice and Fire Sky Phoenixes.

In an instant, the battle resulted in a disparity between the dozens of ghost creatures and the dozen Ice and Fire Sky Phoenixes.

It was impossible for these Ice and Fire Sky Phoenixes to fight against these ghost creatures.

Not to mention the Realmless Sky Phoenixes, even Xuan Feng and the two Heaven-separated Realm Ice and Fire Sky Phoenixes were clearly at a disadvantage.

Even one-on-one, they might not be able to obviously gain the upper hand, let alone in a two-on-three scenario and their moves clearly proved insufficient.

If they continued to fight like this, the best outcome for the dozen Ice and Fire Sky Phoenixes was that at most, one Heaven-separated Realm Sky Phoenix would be able to escape.

And that was the best-case scenario.

Looking at the situation now, it seemed the several Ghost Kings had no intention of letting any of the Ice and Fire Sky Phoenixes live. According to Yang Chen's calculations, all of the dozen Ice and Fire Sky Phoenixes were destined to fall here, leaving no survivors.

Seeing this, Yang Chen could only sigh quietly.

Just as well, he had originally planned to take action here and didn't intend to blatantly kill these people without revealing his identity.

Since that's the case, it was better to take action this way, using the cover of these Ice and Fire Sky Phoenixes so that the Heavenly Fate Realm Experts might not pay too much attention to him.

At the same time, the dozen Ice and Fire Sky Phoenixes were now in a desperate situation.

Both the Heaven-separated Realm Ice and Fire Sky Phoenixes felt a deep sense of despair.

Xuan Feng gritted his teeth and cursed, "Ah, you Netherworld Ghosts won't have it easy. If I have a next life, I will make sure not to let you go."

"A next life? Hahaha, Xuan Feng, you're thinking too much. Your next life is to have your soul transformed into one of our Netherworld's minions and continue to serve our Netherworld!" Ye Qi, the Ghost King, laughed arrogantly.

Xuan Feng's entire body shuddered. Even though he knew it was brutal, he couldn't help but accept this cruel reality.

That's the truth.

The beings embedded in the Life and Death Gates interface, even if they died here, their souls would be snatched into the Netherworld, completely rewriting their lives and becoming Netherworld members.

If that were the case, would he still be himself?

He had become a complete puppet controlled by the Netherworld, thoroughly dominated by it.

Xuan Feng felt powerless in his heart. Wasn't even death the end for him?

Ye Qi, the Ghost King, and the other two laughed wildly. The more they saw the faces of Xuan Feng and the others filled with despair, the more they enjoyed it.

The more their faces showed despair, the more the Ghost Kings found it entertaining.

But just at that moment, an azure pattern silently spread beneath their feet.

With the arrival of the azure pattern, the several Ghost Kings were startled, and their faces lost color, not knowing what had happened.

They felt their hearts tighten and their movements slow, as they realized they were no longer in control of themselves in an instant.

“What’s going on...”

“What happened?”

The three Ghost Kings were horrified in unison, “Who is it!”

The several Ice and Fire Sky Phoenixes were also stunned, not knowing who was this powerful person that had saved them.

Yang Chen, from the shadows, slowly emerged.

As he emerged, the three Ghost Kings froze for a moment and cried out in shock, “You are Yang Chen!”

Yang Chen looked confused, “You know me?”

At first, he wasn’t concerned and hadn’t thought about it, but now, seeing the terrified expressions of the several Ghost Kings, he knew he seemed to have become a celebrity.

“The Netherworld’s red-level wanted criminal... you, how can you be here?” The three Ghost Kings suddenly went pale.

Yang Chen’s mouth turned up, not knowing what this red-level wanted criminal was all about, but based on the situation, it seemed that the Netherworld had been targeting him and had labeled him as highly dangerous.

“As for why I’m here... I don’t think there’s any need to explain to you,” Yang Chen said indifferently with his hands behind his back.

“Daoist friend, no need to waste words. The three of us, together, will slay these three Ghost Kings right here,” Xuan Feng declared.

Yang Chen glanced at Xuan Feng’s weak and exhausted appearance and smiled, “Daoist friend Xuan Feng, just focus on recovering for now.”

After saying that, Yang Chen’s figure seemed to transform into a phantom, disappearing in an instant.

Spacetime was at his command!

His speed turned into afterimages, and as the afterimages fell, the three Ghost Kings also completely fell, leaving none standing.

Chapter 3319 Bloodline Distinction\_1

Witnessing this scene, the Ice and Fire Sky Phoenixes were all dumbfounded and stammering, seemingly unable to believe their own eyes. Some even wondered if they were still in an unawakened dream.

They had initially been trapped in a desperate situation, but now, in the blink of an eye, not only were they safe, but the three previously arrogant and domineering Ghost Kings all fell here without exception.

And the root of all this was the seemingly ordinary human before their eyes.

"Who is he?" Xuan Feng initially felt that Yang Chen’s move just now was a bit reckless, but upon seeing the result, where was there any recklessness?

"The three Ghost King experts are just... gone?" A nearby Ice and Fire Sky Phoenix also shrank its pupils, filled with amazement and terror.

At this moment, the other Ghostly Yin Spirits also found it difficult to accept the truth before them.

They had a perfect situation, but in an instant, it turned into this.

As the three Ghost Kings all fell, they realized they could no longer linger. In no time at all, they did not hesitate to flee, not looking back.

However, escaping from Yang Chen's azure pattern seemed like a foolish dream.

With the three Ghost King experts having fallen, the remaining small prawns were naturally not a problem for Yang Chen.

Yang Chen strengthened his azure pattern and those complete laws and pure powers arrived instantly. A large number of small ghost creatures were all killed by Yang Chen, none were spared.

As for these Ghostly Yin Spirits, Yang Chen naturally showed no mercy, killing them as he pleased.

However, what made Yang Chen sigh was that killing these Ghostly Yin Spirits deviated slightly from his plan of acting low-key.

Fortunately, he only acted after the Ice and Fire Sky Phoenixes, so even if the Ghost Kings of the Heaven-appointed Realm investigated, they would only trace it back to the Ice and Fire Sky Phoenixes, and he wouldn't be exposed too quickly.

Speaking of exposure, Yang Chen was reminded of his 'Red Arrest Warrant' status.

This Red Arrest Warrant was clearly not simple. Normally, even if a Ghost King recognized his identity, they would not be so terrified.

But when it came to the Red Arrest Warrant, those three Ghost Kings earlier were clearly filled with immense horror and even wanted to flee without a fight, which was beyond Yang Chen's expectations.

Because of this, Yang Chen stood with his hands behind his back, shook his head gently, and muttered to himself, "I'm afraid this additional Red Arrest Warrant is not good."

Having such an identity carried too much risk. With it, he had already been targeted by the Netherworld.

Of course, at this point, any further thinking was useless.

After dealing with the Ghostly Yin Spirits, Yang Chen turned around and looked at the Ice Fire Sky Phoenixes.

The Ice Fire Sky Phoenixes also looked at Yang Chen, each of them showing a grateful expression and bowing, saying, "Thank you for your help, Daoist friend!"

Yang Chen said, "It's nothing, just a helping hand."

Xuan Feng clasped his hands and laughed, "For us, it's not just a small favor. We will remember this great kindness. By the way, how did you end up here, Daoist friend?"

"When I first entered the Ice and Fire Star, my target was already this stronghold. I saw that one of the trapped Ice and Fire Sky Phoenixes seemed to have an important status, so I wanted to get some information about the Ice and Fire Star's situation from them. But I haven't made a move yet, and I ran into all of you!" Yang Chen said with a smile.

He could see that Xuan Feng's seemingly casual question actually contained a hint of suspicion.

It was normal for the Ice and Fire Sky Phoenixes to be cautious in this plane since they were on difficult ground.

Upon hearing Yang Chen's words, Xuan Feng quickly thought it through and laughed, "It turns out that Brother Yang Chen has the same goal as us. We came here to save a certain Lord. Later, if Brother Yang Chen has any questions, feel free to ask us. For now, let's hurry and save this Lord."

"Alright, that's the best." Yang Chen replied.

Xuan Feng quickly led the way, with Yang Chen following behind.

One after another, they soon arrived at the stronghold where the Ice and Fire Sky Phoenixes were imprisoned.

There were quite a few Ice and Fire Sky Phoenixes imprisoned in this stronghold, at least dozens of them. Among them, there were Ice and Fire Sky Phoenixes of various cultivation levels.

However, Yang Chen's divine soul scattered and focused mainly on the two Ice and Fire Sky Phoenixes who were imprisoned in the lowest level of this prison.

These two Ice and Fire Sky Phoenixes, one male and one female, both had reached the Heaven-separated Realm in their cultivation levels. Among them, the female Ice and Fire Sky Phoenix had a more powerful aura.

These two individuals obviously held important positions, which led Xuan Feng to let the other Ice and Fire Sky Phoenixes save the others as quickly as possible, while he personally led Yang Chen to the prison cells of these two Ice and Fire Sky Phoenixes.

"Xuan Feng, you've arrived!"

The imprisoned male Ice and Fire Sky Phoenix spoke with excitement.

Xuan Feng immediately bowed and said, "It's my incompetence!"

The female Ice and Fire Sky Phoenix gently said, "Xuan Feng, thank you for your hard work. You've already done us a great favor by rescuing us. How can you say you're incompetent?"

Xuan Feng scratched his head awkwardly, "Lord Ming Hu overestimates me. I was indeed eager to save the two Lords, but my abilities were not up to par. That's why I almost lost my life outside. It was thanks to the help of this human Daoist friend that we managed to defeat the three Ghost Kings. Otherwise, I'm afraid our lives would have been in danger."

"What? That happened!" Ming Hu was surprised and looked at Yang Chen.

Since they were in the dungeon, their divine souls couldn't be released, so it was natural that they didn't know the situation outside and were puzzled.

When Yang Chen heard Xuan Feng introducing him like this, he calmly said, "Daoist Xuan Feng is being too modest. It's only natural for me to help as a human."

"Regardless, we still want to thank Daoist Yang Chen for your help." Minghu Heavenly Phoenix said.

"Right, I forgot to introduce myself to Daoist Yang Chen," Xuan Feng said, while helping the two Ice and Fire Sky Phoenixes to break free, "This is Lord Ming Hu, and this is Lord Ling Fei. Both of them are important figures with spiritual bloodlines in our Ice and Fire Sky Phoenix clan."

"Spiritual bloodline?" Yang Chen was surprised.

"Daoist Yang Chen may not know that our Ice and Fire Sky Phoenix clan has bloodlines greater than the heavens. They are divided into the royal bloodline, spiritual bloodline, and our common bloodline, as well as the lowest and most inferior bloodline," Xuan Feng explained.

Chapter 3320: Extraordinary\_1

Yang Chen was genuinely unaware of this and asked, "Are there differences among these bloodlines?"

This time, before Xuan Feng could speak, Ling Fei, who had just been saved, immediately said, "In our Ice and Fire Sky Phoenix Clan, bloodlines represent strength, status, and identity."

In her words, there was pride and a sense of superiority about the nobility of her bloodline.

Although Yang Chen didn't obtain any useful information, he could roughly see that in the Ice and Fire Sky Phoenix Clan, bloodlines seemed to be just as important as cultivation and strength.

For example, even though Xuan Feng, of ordinary bloodline, was also in the Heavenly Extreme Realm, he still had to respectfully call Ming Hu and Ling Fei “Sir”.

Xuan Feng reluctantly spoke when he saw Ling Fei saying this, “That’s true.”

Now that Ling Fei had been freed and had moved her body a bit, she asked with her hands behind her back, “Speaking of which, how did Brother Yang Chen happen to appear here and save Brother Xuan Feng just in time? How could it be such a coincidence? Can you tell us more about what happened?”

Upon hearing this, Yang Chen’s expression grew a little unhappy.

He could understand if Xuan Feng was somewhat suspicious of him.

But for Ling Fei to bluntly voice her suspicions, was she really taking him, Yang Chen, for granted?

Yang Chen said coldly, “What do you mean? Are you implying that I, Yang Chen, shouldn’t have saved you?”

Ming Hu saw Yang Chen’s anger and quickly said, “Brother Yang Chen, please don’t be angry. Ling Fei has always been outspoken; please don’t take it to heart. After all, the situation for our Ice and Fire Sky Phoenix Clan is quite different now. Being cautious is always the right thing for our group.”

Ling Fei seemed to hold Ming Hu in high regard and stopped speaking. However, the suspicion and wariness in her eyes were not hidden very well.

Seeing that Ming Hu spoke kindly, Yang Chen’s anger subsided a bit and he said indifferently, “Since Brother Ming Hu wants to know my intentions, let Brother Xuan Feng explain.”

Ling Fei looked at Xuan Feng with great interest.

Xuan Feng naturally didn’t hide anything and explained the whole story to Ling Fei and Ming Hu.

After hearing this, Ming Hu was relieved and said with a smile, "So that's how it is. Brother Yang Chen is from the Earth Spirit Hall. Friends from Earth Spirit Hall have come to the Ice and Fire Star to help us Ice and Fire Sky Phoenix. Our Ice and Fire Sky Phoenix Clan is very grateful. Humans will always be friends of our Ice and Fire Sky Phoenix Clan. Since Brother Yang Chen wants to know more, if you don't mind, please come with us to our Ice and Fire Sky Phoenix stronghold. We can talk more there."

Yang Chen naturally didn't mind, but Ling Fei immediately became restless and said cautiously, "Sister Ming Hu, how can we do this?"

"Why can't we do this?" Ming Hu said.

Ling Fei glanced at Yang Chen and then gritted her teeth and sent a sound transmission, "I am grateful to this human for saving me, and for killing the three Ghost Kings. However, Sister Ming Hu, don't you find it strange? Why would he happen to appear here and kill three Ghost Kings at once? There is too much mystery here, and very few individuals can kill three Ghost Kings alone. I'm afraid even those at the limit of the Heaven-separated Realm might be possible. How could someone as famous as him in the Earth Spirit Hall have time to come to us?"

Although Yang Chen didn't know what Ling Fei said to Ming Hu, he could roughly guess their intentions.

Ming Hu, however, fell into deep thought for a moment and didn't respond.

Ling Fei continued, "Sister Ming Hu, I suspect that this Yang Chen might be from the Netherworld, putting on a show to try and expose our Ice and Fire Sky Phoenix Clan members' positions. Our Ice and Fire Sky Phoenix Clan has encountered this kind of situation before. Although the methods used by the Netherworld back then were quite different from now, the overall strategy is consistent with the current situation."

Ming Hu pondered with her hands behind her back, but she didn't allow Ling Fei's opinion to sway her. Instead, after some thought, she said in a low voice, "Xuan Feng, what do you think?"

Xuan Feng replied, "Sir Ling Fei's words make sense, and we should be cautious with this Yang Chen."

Ming Hu fell into deep thoughts.

Yang Chen shook his head, knowing that these people still doubted him.

Whether the Ice and Fire Sky Phoenix Clan trusted him or not was not his concern. If they really didn't trust him, he would have to find another way to locate Bao Lu.

Ming Hu paused for a moment before saying, "Brother Yang Chen saved us and is an honored guest of our Ice and Fire Sky Phoenix Clan. On behalf of the Ice and Fire Sky Phoenix Clan, I sincerely invite Brother Yang Chen."

Upon hearing this, Ling Fei's pupils contracted for a moment.

"Sister Ming Hu, you!" Ling Fei was shocked.

Ming Hu said, "With my eyes, I can see that Brother Yang Chen has an extraordinary aura. He does not possess the Ghost Qi, so he is most likely human. I believe him!"

"Sister Ming Hu, there are countless ways for the Netherworld to disguise themselves as humans!" Ling Fei exclaimed.

Ming Hu snorted softly, "If anything goes wrong, I'll take responsibility."

Ling Fei was at a loss for words, but her gaze towards Yang Chen was still hostile and didn't seem to ease.

Yang Chen shook his head. How could he not see Ling Fei's hostility? If it weren't for wanting to find out more about Bao Lu, he would have simply left.

He had just saved someone, yet he was still being treated with distrust? This didn't make sense.

Yang Chen said with a bow, "Since Sister Ming Hu has invited me, I can only oblige. However, I hope that if Sister Ming Hu treats me this way, the rest of the Ice and Fire Sky Phoenix Clan members won't try to bite the hand that feeds them."

Ming Hu could tell that Yang Chen was angry and glared at Ling Fei.

She chose to believe Yang Chen because of her intuition.

Every time she saw an Ice and Fire Sky Phoenix Royal Clan member, she felt an inner sense of inferiority. This inferiority made her deeply realize the gap between her and the Royal Clan.

However, this inferiority was mostly due to bloodline differences; had it not been for bloodlines, the Royal Clan Ice and Fire Sky Phoenix wouldn't have such daunting suppression on her based on strength alone.

But for some reason, when looking at Yang Chen, she couldn't help but feel like an ant!

This feeling came not from bloodlines, but from the elusive aura that surrounded Yang Chen.

It was this feeling that made her want to befriend Yang Chen!

She felt that this man was extraordinary!

Ming Hu smiled, "Brother Yang Chen, don't worry. Our Ice and Fire Sky Phoenix Clan has always been very hospitable." She spoke warmly and sincerely to Yang Chen.

Upon hearing this, Yang Chen finally nodded, "In that case, I'll have to trouble Sister Ming Hu to lead the way."
