### Chapter 3341 Killing the Four-direction Ghost Kings\_1

An Insect Mother at the Heaven-separated Realm could even rival the limit of the Heaven-separated Realm, fighting against more than a dozen Heaven-separated Realm Experts. This was common knowledge.

Moreover, this Heaven-separated Realm Insect Mother was obviously not an ordinary character.

Bao Lu witnessed this scene as well.

This made Bao Lu unable to figure out how many trump cards Yang Chen had, and at the same time, she was also extremely curious. What exactly happened during the confrontation between Yang Chen and Xingtong?

Why would Xingtong now turn around and help Yang Chen?

...

Xingtong had already joined the battlefield, as soon as she made a move, more than a dozen Insect Race Heaven-separated Realm members, as well as many other realm Insect Race members, quickly stabilized the tense situation.

The Four-direction Ghost Kings furiously revealed their anger, glaring with wide eyes, burning with rage: "Good kid, you have quite a few tricks, but I will take your life!"

One of the Four-direction Ghost Kings stepped forward, directly controlling the Thorny Whip, and whipped it towards Yang Chen.

Xingtong watched this scene and fell into deep thought. At this time, she had already perfectly controlled the situation with her Heaven-separated Realm insects under her command.

Meanwhile, she was personally fascinated by the confrontation between Yang Chen and the Four-direction Ghost Kings.

From the moment she appeared, she had been watching the confrontation between Yang Chen and the Four-direction Ghost Kings. It was precisely because she had been watching intently that she was deeply shocked by Yang Chen's methods. Then, she recalled her own confrontation with Yang Chen.

Her result in that confrontation was a complete defeat!

One azure pattern unfolded, and Yang Chen took on the demeanor of a killing god. In an instant, he launched his figure and steps. On the spot, more than a dozen Insect Race Heaven-separated Realm experts she possessed all perished.

If she wasn't an Insect Race, and her main body wasn't capable of constantly reproducing insects, she would have been completely defeated in that battle.

Even, she would have perished!

However, Yang Chen did not kill her at that time, but completed a deal with her: to help him make a move once.

It must be said that Yang Chen is a very visionary person because he had already foreseen the scene on the Ice and Fire Star, where he would need her power when he fought her.

At that time, her life was in danger, so naturally she couldn't refuse Yang Chen's conditions, and she agreed.

Actually, at the very beginning, she still had the intention of avenging Yang Chen in her heart. But now, she felt more and more that the mystery of Yang Chen was more attractive to explore than revenge.

For example, now...

A Heaven-separated Realm expert and a Heaven-appointed Realm Ghost King fighting like this, isn't it an unimaginable miracle?

...

At the same time, Yang Chen was also struggling to fight against the Four-direction Ghost Kings, with his current situation not looking good, and his expression gradually stiffening. He had indeed provoked and mocked just now, but when facing the full forced attack of the Four-direction Ghost Kings, he was somewhat helpless.

In an instant, Yang Chen could only summon the Slaughter God Spear.

"Hahaha, I'm out again. However... it seems like our enemy is quite powerful this time." The Slaughter God Spear laughed loudly as it emerged, but then stopped abruptly upon seeing the Four-direction Ghost Kings.

"Go!"

Yang Chen thrust out his spear, fully displaying his strength.

The Four-direction Ghost Kings were not vegetarians either. After Yang Chen's strike, the whip turned into a snake, full of resentment on the thorns, directly entangling towards Yang Chen.

After a collision, the Slaughter God Spear screamed, "It hurts so much. What an evil power in this whip."

"Be careful, there's a lot of resentment on this whip, and you, as an Artifact Spirit, are too ostentatious. Naturally, you will be entangled and heavily injured by its resentment. Stay at the bottom of the divine weapon and don't reveal yourself easily," Yang Chen warned.

"What should I do when I use that move later?" The Slaughter God Spear asked.

Upon hearing the Slayer God Spear, Yang Chen fell silent.

He was also thinking about this issue. His strongest spear required a lot from the Slaughter God Spear, and the Artifact Spirit couldn't just turtle up until the end.

From this point of view, his use of the Emperor Divine Tool in a collision against this Heaven-appointed Realm expert using an Emperor Divine Tool was difficult to be on par with in the true sense.

"There isn't a good opportunity yet!" Yang Chen's expression was solemn: "Stay hidden for now, and wait for my order!"

"Alright!" The Slaughter God Spear naturally obeyed Yang Chen's words.

At this moment, the Four-direction Ghost King saw Yang Chen's Slaughter God Spear clash with his Thorny Whip and be at a disadvantage, his laughter grew more intense. He didn't believe that Yang Chen still had any chance to reverse the situation.

After all, it was already quite incredible for Yang Chen to have reached this point as a Heaven-separated Realm expert!

Now, taking the upper hand, the Four-direction Ghost King controlled the Thorny Whip, various methods directly sweeping out, tightly surrounding Yang Chen, wanting to kill him on the spot.

Yang Chen would not sit still and wait for death. With the Thorny Whip chasing him in various ways, he dashed and leaped, sweeping his spear. Seeing that he couldn't win, he directly escaped by flashing his body.

The Four-direction Ghost King saw Yang Chen escaping and wouldn't let him go, chasing him all the way.

"Hahaha, kid, I want to see where you can run!" The Four-direction Ghost King sneered.

Where could Yang Chen escape to with the whole area wrapped in formations?

Yang Chen did not answer, but looked calm, escaping while controlling the Slaughter God Spear, and said, "Alright, it's about time!"

"No problem!" The Slaughter God Spear also let out a sneaky laugh, as if it was about to do something bad.

The two cooperated seamlessly, and at the moment when Yang Chen's voice fell, the radiance around the Slaughter God Spear burst forth. Then, a bizarre force surged from inside the spear, completely erupting like a flood.

How could the Four-direction Ghost King, who was chasing him with great interest, expect Yang Chen to still have the strength for a backward spear attack?

When this spear pierced through, the Four-direction Ghost King realized that something was wrong, and immediately exclaimed, "Not good!"

Immediately afterward, a streak of light filled the sky, engulfing the entire horizon, covering every inch of space where the Four-direction Ghost King and Yang Chen were.

The onlookers, watching all this, didn't know what had happened. Some even thought it was the Four-direction Ghost King's method.

And under the light, Yang Chen may have already perished completely.

Only Yue Xingzhenren, Xingtong, and a few other extraordinary visionaries stared at the sky, their eyes fixed, lost in doubt and thoughts.

Because they saw it very clearly, they just didn't know if what they saw was true.

This spear's radiance came from Yang Chen, not from the Four-direction Ghost King.

Moreover, the Four-direction Ghost King's aura was already gradually weakening.

Now, as the light gradually dissipated, the body of the Four-direction Ghost King fell from the sky.

As for the final victor after the dissipation of the light, it was obviously Yang Chen who still remained in the sky, holding the Slaughter God Spear, standing tall amidst the golden light.

Chapter 3342 You Won't Kill Me?\_1

Yang Chen stood high in the sky, causing everyone looking at him to feel a suffocating sensation.

Everyone watched as the golden light dissipated, and Yang Chen retracted the Long Spear in his hand, grabbing the body of the Four-direction Ghost King and putting it away.

Even now, many people still felt that this was an illusion.

Especially those Netherworld Ghost Kings who were still fighting, they were stunned and thought it was a mistake.

The Four-direction Ghost King was actually killed by a human who was not even at Heavenly Fate Realm.

How could anyone accept this?

In everyone's minds, only the word "shock" could describe this.

Ming Hu, Bao Lu, Fu Xuanbing, Qian Li, Hu Kui, Ling Fei.

Everyone present was unable to move on from the shock of this battle.

Meanwhile, Yang Chen silently approached Xingtong.

Xingtong stared intensely at Yang Chen, as if trying to see through him, but all she found was a mysterious depth!

Yang Chen didn't say much, instead, he activated the azure pattern, flashed around like lightning, and in an instant...

In a moment, more than a dozen Ghost Kings were annihilated and completely obliterated under Yang Chen's strong power!

After accomplishing all this, Yang Chen came to Xingtong's side.

"Daoist friend Xingtong, you can return now," Yang Chen said.

"You won't kill me?" Xingtong asked.

Yang Chen calmly replied, "I have no grudges against Daoist friend Xingtong, so there seems to be no need to be cruel."

Xingtong trembled, and her heart was filled with complexity while looking at Yang Chen.

She had thought that Yang Chen would kill her, after all, she was no longer useful after all this. But who would have thought that in this man's eyes, she was never considered a threat.

Not killing her because there is no grudge!

These are the words of the powerful ones!

These words have always been said by her to others, but now she has become the one on the receiving end. It was humiliating to be viewed this way.

Xingtong sighed lightly, "Yang Chen, we'll meet again if fate allows it!"

With that, Xingtong left without hesitation.

Yang Chen, on the other hand, descended to the ground and came to Yue Xingzhenren's side, saying, "Senior Yue Xing, let's go back. We shouldn't stay here for long."

He had killed the Four-direction Ghost King, and now the Formation in this area was only concealing his presence temporarily. However, after some time, the other two Heavenly Fate Realm Ghost Kings would definitely notice that something was wrong.

By then, even with his skills, it would be difficult to repel two other Heavenly Fate Realm Ghost Kings. After all, using his power has left him exhausted and weakened.

Yue Xingzhenren felt embarrassed at being called Senior by Yang Chen. After all, even if he had faced the Four-direction Ghost King, he wouldn't have been able to kill him like Yang Chen did.

Yue Xingzhenren chuckled, "Yang Chen, with your strength, you can be on equal footing with me. Moreover, I can see that you're young, and in the future, you'll definitely become a Heavenly Fate Realm Expert. Compared to me, there shouldn't be much difference. There's no need to call me your senior, we can just treat each other as peers."

Yang Chen replied, "How can that be? Seniors are stronger than juniors in terms of experience and knowledge, things that I can't compare to. There's still much for me to learn from my seniors."

Yang Chen was indeed respectful towards Yue Xingzhenren, which made Yue Xingzhenren pause and feel deeply touched by Yang Chen's words.

"Ha-ha, hearing you say that, my injuries seem inconsequential. As you said, the situation is indeed not good now, we should retreat as soon as possible. But before that, we should rescue the others first," Yue Xingzhenren said.

Initially, Yang Chen hadn't planned to rescue so many people because he didn't want to make a scene. After all, before fighting the Four-direction Ghost King, he didn't know if he could win or lose.

However, since things had developed to this point and the Four-direction Ghost King had fallen, it was best to rescue these powerful beings one by one.

It was just that, when rescuing these people, both Yang Chen and the others felt somewhat awkward.

In order to unlock these prohibitions, they had to be done one by one.

Now, from left to right, the first one to be released was Qian Li.

Nowadays, when Qian Li looked at Yang Chen, he showed a bitter smile, not knowing how to speak. After all, at the beginning, he had an average attitude towards Yang Chen and even sided with Fu Xuanbing against him.

However, Yang Chen didn't hold such a grudge against Qian Li for only choosing sides; he still couldn't leave him unaided.

Soon, besides Qian Li, the other Ice and Fire Sky Phoenixes, as well as those under Yue Xingzhenren's command, were all released by Yang Chen.

The last remaining Ice and Fire Sky Phoenix was Ling Fei, who had been suspicious of Yang Chen from the beginning.

Yang Chen wasn't petty, but he wasn't generous enough to ignore others' mockery either.

When he looked at Ling Fei now, Yang Chen's expression was calm, and he said, "Daoist friend Ling Fei, if I save you, it seems like I would have to face your suspicion and mockery again. After all, my presence here today is just a coincidence. So how about this, Daoist friend Ling Fei, I won't save you; you can find your own way out."

Seeing this, Ling Fei became panicked and anxiously said, "Daoist friend Yang Chen, I...I was blind then. I didn't recognize a good person like you. Please don't blame me for not knowing better."

Bao Lu stood beside Yang Chen and persuaded, "Yang Chen, just let it go."

Hearing Bao Lu's words, Yang Chen didn't push any further and released Ling Fei.

When Ling Fei was released, he looked at Yang Chen with even more awe. If given the choice and opportunity again, he would never dare to provoke Yang Chen. He was very clear that such a powerful existence was not something he could mess with.

Yang Chen quickly went to Hu Kui's side.

Hu Kui was also clever enough to know that he needed to make his stance clear now; otherwise, he would be the one to suffer.

For a moment, Hu Kui didn't care about losing face, and yelled, "Daoist friend Yang Chen, we know we were wrong. We shouldn't have been against you. Let us go and treat us as nothing. Don't bother with us."

Yang Chen sneered at Hu Kui and the others but released them without any intention to make things difficult for them.

Seeing that he was released, Hu Kui was overwhelmed with joy and gratitude, showing even more reverence towards Yang Chen, daring not to get too close.

Soon, Yang Chen released Ming Hu and went to the last person's side.

The last person was naturally Fu Xuanbing.

Chapter 3343 - Can't Recover?\_1

Many people knew about the grievances between Fu Xuanbing and Yang Chen.

That's why they had some sympathy for Fu Xuanbing just now. After all, their friction with Yang Chen was minimal, but the situation between Fu Xuanbing and Yang Chen was different.

Fu Xuanbing had completely abandoned his dignity now, and seeing the situation developing to this point, he begged for mercy: "Yang Chen, Sir, please don't remember the faults of an insignificant person like me. It was my mistake. Let me go this time, and in the future, I will follow you and submit to you."

Yang Chen looked at Fu Xuanbing's pleading words, his expression indifferent: "Fu Xuanbing, everyone else has a chance, but you don't."

"Yang Chen, what's between you and this guy..." Yue Xingzhenren asked in surprise.

In his eyes, even at this point, it's better to be united against the enemy. After all, people from the Earth Spirit Hall fighting against each other is not a good thing.

Seeing Yue Xingzhenren asking this, Yang Chen shook his head: "Senior Yue Xing may not know his actions."

"What has this kid done?" Yue Xingzhenren asked in confusion.

Yang Chen explained the ins and outs of the story, and in fact, what Fu Xuanbing had done before was something he didn't bother to argue about. Even if he fought back, he wouldn't hesitate to save his life.

However, Fu Xuanbing should never have exposed Yang Chen's whereabouts, dragging everyone down with him.

Such actions are treacherous and betray the group.

When Yue Xingzhenren heard Yang Chen's words, he suddenly paused and said in surprise, "You exposed Yang Chen's whereabouts to the people of the netherworld?"

Upon being questioned by Yue Xingzhenren in this way, where could Fu Xuanbing admit it? In an instant, he roared like thunder, "No, of course not. Senior Yue Xing, don't listen to this person's nonsense. You can all testify for me, right? I didn't do these things, I didn't."

Fu Xuanbing looked at his subordinates, who in his eyes, would cover up for him in these matters.

After all, these people were his.

However, he overestimated his charm and underestimated human nature.

As soon as he finished speaking, Hu Kui and the others immediately said without hesitation, "Fu Xuanbing, stop making excuses. You told the Ghost Kings about Yang Chen's whereabouts in detail, and everyone saw it clearly. You want to drag us all down with you when your life is at stake, but everyone knows what you're doing."

"That's right, Fu Xuanbing, you better just admit it."

In an instant, Hu Kui and the others who had originally followed Fu Xuanbing all turned against him, pointing their swords at him.

This made Fu Xuanbing shudder, unable to accept all this.

He didn't know that when he planned to drag everyone down with him, he had lost all prestige in everyone's eyes, let alone the fact that he had now been thoroughly discredited.

"You ungrateful people, have you forgotten how well I treated you when you followed me?" Fu Xuanbing roared.

The group of people remained silent, ignoring him.

Only then did Fu Xuanbing's body tremble, realizing how insignificant he really was.

At first, he thought Yang Chen was just an ant, even though Yang Chen had a brilliant fighting record and had taken his prey. He still thought Yang Chen couldn't possibly be his opponent.

Even after Yang Chen's merits increased, he still believed that there was a stark difference between them.

Only then did he realize that the truly insignificant person was himself.

Just by standing here, Yang Chen had already controlled his fate, and even the people around him had become distant from him.

"Very well, Fu Xuanbing, you've really committed such a heinous act," Yue Xingzhenren said angrily. "Yang Chen, there's no need to be polite to such people, just kill him directly. If anything happens, I'll take the blame!"

Listening to Yue Xingzhenren's final warning, Fu Xuanbing's heart turned cold.

At most, Yang Chen would just not save him, but Yue Xingzhenren had even more power and could order him to be killed. What kind of level was this?

Fu Xuanbing finally panicked, not caring about anything else: "Senior Yue Xing, you must think twice. This Yang Chen just used the means of the netherworld and cooperated with the insect race. He must have many secrets on him. This person is not to be trusted, and I am innocent."

How could Yue Xingzhenren believe Fu Xuanbing's desperate nonsense? He said coldly, "Yang Chen, kill him."

Of course, Yang Chen wouldn't hesitate. With a wave of his sleeve, Fu Xuanbing's defending words were silenced, and his Qi disappeared.

Many people watched Fu Xuanbing's demise, feeling a cold air and being grateful that they didn't have a deeper grudge with Yang Chen. Otherwise, today's outcome would not be much better than Fu Xuanbing's.

It's a pity, though, that while they didn't bear any grudge against Yang Chen, they also missed the best opportunity to befriend him.

"Alright, we shouldn't stay here for long. Let's leave this place quickly," Yang Chen ordered.

Under Yang Chen's leadership, the group left.

...

Not long after Yang Chen left, several figures appeared here.

If Yang Chen were here, he would recognize these figures. It was none other than the famous Earthquake Palace Ghost King and Wind-Thunder Ghost King, who ruled over the Ice and Fire Star.

Earthquake Palace Ghost King and Wind-Thunder Ghost King were two of the great Ghost Kings of the Heaven-appointed Realm outside the Four-direction Ghost Kings. They appeared here with great momentum and seriousness.

"The Four-directions Ghost King has died." Wind-Thunder Ghost King said with solemnity after looking around. "His Qi has completely disappeared, and with the air that hasn't completely dispersed, his demise should be real."

Earthquake Palace Ghost King also looked around expressionlessly, "Yue Xingzhenren has been saved."

"Yes, we thought the situation was under our control at first, but we didn't expect the people of the Earth Spirit Hall to reach this level. Earthquake Palace Brother, what do you think we should do next?" Wind-Thunder Ghost King asked.

Earthquake Palace Ghost King snorted coldly, "This person can kill the Four-direction Ghost King, so he must have some ability. However, the Four-direction Ghost King must have died due to carelessness. This person's strength should be within the early stage of the Heavenly Fate Realm, similar to ours. As long as the two of us make thorough preparations and slowly discover this person, killing him will not be difficult."

"It seems that the Earth Spirit Hall has sent another early stage Heavenly Fate Realm master. But what about Yue Xingzhenren? What if he recovers his strength after being saved? It won't be easy for us to deal with him," Wind-Thunder Ghost King said.

Earthquake Palace Ghost King sneered, "Don't worry, Yue Xingzhenren's body is full of prohibitions and highly toxic, and his wounds are severe. How easy would it be for him to recover?"

Chapter 3344 - Acquiring the Prohibition and Refining the Elixir\_1

Upon hearing this, Wind and Thunder Ghost King also burst into hearty laughter: "If Brother Zhen Gong hadn't mentioned it, I would have almost forgotten. With the injuries on Leaping Star Real Person's body, even if we save him, he would still be a cripple, and it won't be possible for him to recover in a short period of time without a hundred years of recuperation. Hahaha, there's nothing to worry about, let's go back."

Shaking Palace Ghost King nodded: "There's indeed nothing to worry about, but Si Fang's death is not a minor matter after all. If we report it, the higher-ups will definitely punish us. We should still be cautious and wait until we find the murderer before reporting it to them. By then, we would have an explanation."

"Yes, that's what I have in mind too," said Wind and Thunder Ghost King.

...

After discussing with Wind and Thunder Ghost King, Yang Chen and the others returned to the place where the Ice and Fire Sky Phoenix was hiding.

Upon their return, Heng Ye sensed the fluctuations in their qi and hurriedly came to meet them.

It was precisely because he came to greet them that he saw so many people returning, even Leaping Star Real Person was saved, and he was immediately surprised.

"Everyone has succeeded? That's great, congratulations to you all, and congratulations to Senior Leaping Star for returning safely." Heng Ye said continuously.

"All of this is thanks to Brother Yang Chen. Without him, none of us would have been able to save Senior Leaping Star." Qian Li now clearly understands how valuable Yang Chen is, and his words are completely flattering Yang Chen.

"Yang Chen?" Heng Ye looked at Yang Chen with mixed emotions.

He was well aware of Yang Chen's strength, but he didn't expect Yang Chen and Bao Lu to save Leaping Star Real Person after they left.

"Where is Fu... Fu Xuanbing?" Heng Ye quickly turned his eyes to look for his backer, Fu Xuanbing, among the Human Race.

He needed some support in the human race too. Otherwise, how could he survive?

However, his backer was nowhere to be found, which made him somewhat worried.

A cultivator who had a relatively good relationship with Heng Ye saw him looking around, and whispered something in Heng Ye's ear.

Upon hearing this, Heng Ye trembled all over, realizing what had happened. He looked at Yang Chen, and his heart skipped a beat.

Yang Chen was so terrifying!

Fu Xuanbing, his backer, had fallen?

Yang Chen paid no attention to Heng Ye and led a large group of people to a palace under Qian Li's guidance. When they entered, Yang Chen focused his gaze on Leaping Star Real Person.

Leaping Star Real Person's injuries were not yet alleviated, and his body revealed pain, showing how serious the injuries were. However, he had been concealing it with his unyielding willpower all this time.

Ordinary people couldn't understand Leaping Star Real Person's pain.

As a Dan Medical Master, Yang Chen could see some of it to a certain extent.

"Yang Chen, can you really heal me?" Leaping Star Real Person asked in amazement.

Yang Chen didn't answer immediately but took a closer look at Leaping Star Real Person's injuries first.

At first, he only took a rough look, and his words back then were merely comforting. However, after a careful examination now, he relaxed.

"Senior Leaping Star, please rest assured, I, the junior, guarantee that the medicine will cure the disease. Within about ten days, you'll be healed." Yang Chen said.

Leaping Star Real Person's face changed: "Is it really that miraculous?"

He knew that these injuries would take him at least several decades to possibly recover, even with the help of highly skilled Dan Physicians.

Without their help, relying on himself alone, the recovery time would have to be increased, and it would take about a hundred years.

Yang Chen said, "Senior, just wait and see."

It's a pity that these ghostly Yin Spirits are clever and set up prohibitions in Leaping Star Real Person's body. These prohibitions overlap with their highly poisonous injuries. To pull them out one by one, it's almost impossible.

To move the prohibitions, the toxins and injuries will be increased. To deal with the toxins and injuries, the core prohibitions must be removed.

It's like a chain, where touching one part might lead to a greater injury. This is also the reason why even professional Dan Physicians need a long time to break through.

However, unfortunately, in the face of Yang Chen's spacetime, all prohibition arrays are useless.

His power of space-time directly invaded Leaping Star Real Person's body, and after a moment of wandering, the power of space-time covered every prohibition position within Leaping Star Real Person's body.

Then, Yang Chen's hand jerked once.

A series of blue light beams jumped directly up and appeared in Yang Chen's hands.

These blue beams gradually turned into layers of rune cards. It's not hard to see that these are the prohibitions placed inside Leaping Star Real Person's body.

Now that he had pulled out these prohibitions, Yang Chen smiled and asked, "Senior Leaping Star, how do you feel now?"

Leaping Star Real Person sensed the injuries in his body again, and though they were not greatly relieved, his body had become much smoother, and the laws could be used flawlessly.

"Hahaha, I can actually use my laws again. Interesting, Yang Chen, you kid really has some skills. Those prohibitions, you actually resolved them in an instant." Leaping Star Real Person was extremely astonished.

Yang Chen smiled, "Junior's laws do have a restraining effect on prohibitions. These prohibitions are actually special means used by these Netherworld ghosts to deal with you, but they don't hold up in front of my methods."

"Indeed, your method has truly opened my eyes." Leaping Star Real Person was more and more pleased, and he believed more than half of what Yang Chen initially said.

He was initially half-skeptical about Yang Chen's Dan Medical abilities, but now he firmly believed more than half of it.

With these prohibitions solved, other injuries and toxins were much easier for Yang Chen to handle.

These Netherworld ghosts had a superficial understanding of poisons, and their injuries to a Heavenly Fate Realm Expert couldn't be too severe.

It was naturally easy for Yang Chen to deal with it.

After some investigation, Yang Chen took out two elixirs from his pocket and handed them to Leaping Star Real Person.

"Senior Leaping Star, please take these two elixirs from me first. Once you've taken them, your injuries will definitely improve. However, if you want a complete cure, I'll have to refine another batch of elixirs. I'm missing about 10% of the materials for that elixir. I can provide 90% of it, but I wonder if your esteemed sect can help with the rest," Yang Chen said.

Although he had obtained a large number of materials in the Medicine Courtyard back then, some rare materials and Lingcao were almost never feared in the refining of most elixirs.

But Yang Chen himself was an alchemy maniac. In his spare time, he refined various types of elixirs, which caused his materials to be consumed quickly, so now he had a lot of elixir stock, but his material stock was becoming less and less.

Now, when refining elixirs, some materials are still missing.

Chapter 3345 - Yang Chen's Alchemy Level\_1

Upon hearing this, Qian Li immediately stepped forward and said with a flattering smile, "Taoist Yang Chen, please feel free to ask for any materials you need. On behalf of the Ice and Fire Heavenly Phoenix Royal Clan, we will do our best to prepare everything for you."

Qian Li's words were full of respect, not daring to be disrespectful. Even his attitude seemed to lower his own status.

Many people were puzzled by this, after all, Qian Li was from the Ice and Fire Heavenly Phoenix Royal Clan. There was no need for him to adopt such a humble demeanor in front of a human Heavenly Separation Realm Powerhouse.

However, they didn't know Qian Li's thoughts.

Qian Li didn't intentionally lower himself. The reason he showed a respectful attitude in Yang Chen's presence was due to Yang Chen's uniqueness.

Yang Chen could kill a Ghost King of the Heavenly Fate Realm, so it wasn't an exaggeration to say that he had the strength of a Heavenly Fate Realm powerhouse.

Thus, Qian Li treated Yang Chen as if he were a Heavenly Fate Realm powerhouse.

If any part of his service was inadequate and Yang Chen decided to leave, how would Qian Li handle the remaining situation? The Ice and Fire Star still had two Heavenly Fate Realm Ghost Kings who had not been dealt with yet.

As for the materials, Qian Li was also happy to collect them since they were for saving Master Yue Xing, a Heavenly Fate Realm powerhouse. How could he not be willing?

Now, with the list of materials in hand, Qian Li took a look and gasped.

Every material on the list was extremely precious. Even for the Ice and Fire Heavenly Phoenix Royal Clan with their abundant stockpile, Qian Li couldn't help but feel a bit distressed.

What worried Qian Li more was not the cost but the concern that Yang Chen might not be able to successfully use these materials to concoct elixirs.

With his rich experience, just by glancing at these materials, Qian Li could tell that the elixir being concocted would not be of low grade.

With Yang Chen's age and his already extraordinary cultivation level, could he really concoct an unfathomable elixir?

Confused, Qian Li shook his head, left, and then began to instruct his subordinates to collect the materials for the elixir.

The powerhouses under Master Yue Xing's command eagerly approached, one after another, bowing and asking respectfully, "Taoist Yang Chen, can you really save our Master Yue Xing?"

"Don't worry," Yang Chen replied.

Unable to be at ease but not daring to say more, they each returned after asking just one question.

Not long after, Qian Li and Bao Lu went to collect the materials and quickly returned to the main hall.

As soon as they returned to the hall, Qian Li immediately delivered the materials to Yang Chen.

"Taoist Yang Chen, these materials are all here. However, I could only gather enough for three batches, which means there will only be three furnaces..." Qian Li said worriedly.

Yang Chen was well aware of Qian Li's concerns and waved his hand without wasting any words, "I understand, step back for now."

Three furnaces?

Yang Chen had almost no chance of failing when concocting elixirs, except at the very beginning of his alchemy practice. There was no possibility of failure in his later attempts!

He was now concocting an Immortal Tier Elixir called Wind Saint Elixir!

Yang Chen had already gained experience in concocting this elixir, so he was now very familiar with the process.

As soon as Yang Chen began the concoction process, he immersed himself in it, showcasing his alchemy skills and experience to their fullest.

His alchemy techniques were unique, impressing the onlookers.

With their discerning eyes, they could see that Yang Chen's alchemy skills were incredibly proficient.

Such proficiency, so smooth and uninterrupted, could only be described as extraordinary. As they continued to watch, they found it increasingly difficult to comprehend the profoundness of Yang Chen's techniques, realizing that they were far superior to any other alchemist they knew of.

Only a very few alchemy masters could be compared with Yang Chen's techniques. In the field of alchemy, Yang Chen could already be considered top-notch.

"This... this!"

"Taoist Yang Chen is truly amazing!"

"He doesn't appear to be very old. Not only has he achieved such a high cultivation level and extraordinary strength, but he also excels in alchemy!"

"Compared to him, I feel like I've wasted so many years of my life."

"It's really true that comparing yourself to others can be exasperating."

These powerhouses looked at each other, feeling somewhat disheartened. Compared to Yang Chen, they all felt inferior.

As they continued to observe Yang Chen's alchemy, they couldn't help but be amazed and feel genuine admiration.

Master Yue Xing was also watching, and couldn't help but marvel at Yang Chen's superb alchemy skills.

Master Yue Xing was filled with doubts in his heart, wondering when the Earth Spirit Hall had produced such an outstanding character that he knew nothing about.

Yang Chen was now completely focused on alchemy, not caring about the outside world.

The reason Yang Chen's alchemy skills could impress so many powerhouses was not just due to his previous solid foundation, but also because of his countless refinements of various elixirs during these years of closed-door practice.

To him and any other alchemist, the only way to improve alchemy skills was through endless alchemy practice.

However, where could one find pill formulas and materials?

By chance, Yang Chen happened to obtain a massive amount of materials. Surrounded by the resources of a Medicine Courtyard, his alchemy practice could only be described as an enjoyable experience. Naturally, his alchemy skills improved rapidly.

Soon, an elixir was finally ready after one concoction.

Once the elixir was born, its fragrance spread through the air and attracted everyone's attention.

Every powerhouse present could tell by the aroma that Yang Chen's elixir had been successfully concocted.

"The elixir is ready."

Many powerhouses took a deep breath.

Qian Li was the most delighted, as Yang Chen not only avoided wasting materials but also produced a high yield of elixirs in a single batch. Judging by the aroma, it was not difficult to determine that.

Yang Chen then waved his hand, took out several elixirs from the furnace, and looked at the results with an expressionless face.

"Master Yue Xing, take two of these Wind Saint Elixirs, then spend about ten days in quiet cultivation. All you need to do is wait for your full recovery," Yang Chen handed the Wind Saint Elixirs to Master Yue Xing.

Upon receiving the elixirs, Master Yue Xing couldn't help but feel incredulous, "Just ten days of cultivation should be enough?"

"Indeed," Yang Chen smiled.

Master Yue Xing felt somewhat unbelievable, but he didn't question it further. He took the elixirs and began to meditate, waiting for the ten days to pass.

Yang Chen, on the other hand, was smiling as he stored the elixirs and the furnace.

His lips moved slightly, whispering something across the void before closing his eyes and ceasing to speak, leaving those who wanted to please him staring helplessly, unable to approach him.

Time flew, and the ten days passed quickly...

During this time, many people were paying close attention to Master Yue Xing's changes.

Chapter 3346 - Insect Mother's Egg\_1

It was precisely because everyone was watching that they saw it clearly.

Yue Xingzhenren's qi was recovering at an extremely fast speed.

If one were to say that Yue Xingzhenren's Qi was initially like a grain of sand before he took the Wind Saint Pill, then after taking the Wind Saint Pill, his Qi started transforming from a grain of sand to a desert, and finally to a sun!

By the fifteenth day, Yue Xingzhenren finally opened his eyes.

As he opened his eyes, many powerful people couldn't help but look at him curiously, asking, "Senior Yue Xing, how are you now?"

Yue Xingzhenren showed a smile but didn't hurry to answer them. Instead, he looked at Yang Chen and said, "Brother Yang Chen, I really have to thank you for your help this time. Your Spirit Elixir Miraculous Medicine worked as promised. After I took it, I quickly saw the results. Hahaha, to be honest, I never expected that I could recover so quickly. Now that I have recovered, I will make those two Heaven-appointed Realm Ghost Kings suffer."

Hearing that Yue Xingzhenren had recovered, a group of powerful people couldn't help but show expressions of surprise and joy.

They had been waiting for this day.

Qian Li saw this and said, "Congratulations to Senior Yue Xing for your recovery. Now that you have recovered, you have the combat power of a Heaven-appointed Realm. Adding Brother Yang Chen, who also has a great Heaven-appointed Realm combat power, both of you can hold your ground even against the powerful Earthquake Palace Ghost King and Wind-Thunder Ghost King."

Both Yue Xingzhenren and Yang Chen were smart. How could they not know that Qian Li deliberately wanted them to take action and eliminate the Earthquake Palace Ghost King and Wind-Thunder Ghost King?

Yue Xingzhenren had this intention. He said, "Yang Chen, now that I have recovered, it's not a problem for me to deal with a Heaven-appointed Realm Ghost King. What are your plans regarding this matter?"

The other powerful people all looked at Yang Chen.

Ultimately, the decision still rested on this man.

Yang Chen's decision was tied to the final outcome.

Seeing everyone's gazes on him, Yang Chen casually said, "As a junior, I should listen to the seniors first."

Yue Xingzhenren smiled upon hearing this, feeling honored.

Yang Chen's words made people feel as if they were basking in the spring breeze, very comfortable.

"Yang Chen, since you put it that way, I won't beat around the bush. Now that the Earthquake Palace Ghost King and the Wind-Thunder Ghost King must be on guard against us, it's not quite appropriate for us to take action rashly. But if we wait too long, it's hard to guarantee that there won't be other Heaven-appointed Realm Ghost Kings coming to Ice and Fire Star. So, planning a swift move is our current priority."

Yue Xingzhenren said this and then solemnly continued, "But taking action swiftly doesn't mean we should act blindly. If we do, we might not gain any substantial advantage and end up alerting the enemy, allowing the Earthquake Palace Ghost King and Wind-Thunder Ghost King to figure out our situation. Even if they call for reinforcements from other interfaces in time, we'll still be at a disadvantage."

Yang Chen nodded after hearing what Yue Xingzhenren said. Yue Xingzhenren saw the situation clearly, and these were indeed the key issues.

"So, Senior Yue Xing, what should we do?" Qian Li asked.

"Our manpower is somewhat insufficient. It would be nice if we could have a little more. In that case, even if we weren't fully confident, at least we could get something substantial," sighed Yue Xingzhenren.

"More manpower?" Qian Li said awkwardly, "But almost all the Heaven-separated Realm combat powers we can use on Ice and Fire Star are already here."

"Yeah... "

A group of powerful people looked at each other, unable to think of any other forces that could be used.

However, at this moment, Yang Chen suddenly said, "If we need combat power, my friend Xingtong may be able to help. With her help, we can gain more than a dozen Heaven-separated Realm combat power. Xingtong, come out."

Xingtong appeared at Yang Chen's side, not knowing when she had arrived.

Yue Xingzhenren was startled, "I thought she had left? When did Daoist Insect Mother call her back?"

"While Senior Yue Xing was recuperating, I thought we might need Xingtong's combat power, so I called her in advance," said Yang Chen.

Yue Xingzhenren was full of emotions, "Brother Yang Chen is truly thoughtful, considering things so far in advance. I didn't expect that you had called Insect Mother Fellow Daoist over earlier."

Yang Chen smiled, "Xingtong, please accompany me on a trip."

Of course, Xingtong had no objections and followed Yang Chen away.

When the two of them left the Great Hall, the others knew that Yang Chen and Xingtong must have had something private to discuss, so they didn't follow.'

Yang Chen said, "This time, I'll need your help again. Once it's done, I'll certainly repay you handsomely."

"This is nothing, no need for any great reward," Xingtong quickly replied as she looked at Yang Chen.

Yang Chen saw Xingtong's magnanimity and gave a light laugh, "Daoist Xingtong misunderstood, I'm not just asking for your help in this operation against the Netherworld, I need another favor."

"What favor?" Xingtong asked, puzzled.

"I need your Insect Mother's Egg," Yang Chen said.

Upon hearing this, the Insect Mother's expression turned cold, "Yang Chen, are you trying to humiliate me?"

Yang Chen was taken aback and said, "Humiliate you? Daoist Xingtong misunderstood. I've heard that upon extraction, the Insect Mother's Egg of your aristocratic family will grow back, right? I do need this Insect Mother's Egg, as it is quite useful for me."

"Indeed, our sect's Insect Mother's Egg will regrow after being extracted. However, this egg is my lifeblood. I won't easily give it to others," Xingtong said.

Yang Chen said, "Daoist Xingtong, rest assured, you can name your condition."

"So that's why you didn't kill me back then?" Xingtong asked, puzzled.

Yang Chen nodded.

Why didn't he kill Xingtong at that time? It was to make use of this Insect Mother's Egg.

What was the implication?

The Ten Thousand Law Dao Embryo!

If he wanted to use the second layer of his Ten Thousand Law Dao Embryo, he needed a crucial material, which was the Insect Mother's Egg. With the help of the Insect Mother's Egg, his Ten Thousand Law Dao Embryo could quickly enter the second layer of usage.

Once he reached the second layer of usage, his Ten Thousand Law Dao Embryo would unlock another use.

However, the Insect Mother's Egg couldn't be taken from a deceased Insect Mother. Once the Insect Mother fell, its eggs would lose their vitality, and extracting them would be meaningless. Yang Chen had no choice but to spare her life until now, offering his conditions.

Xingtong clearly knew that her life was in Yang Chen's control, so she pondered deeply.

After a while, she made up her mind and said, "Fine, I can give you an Insect Mother's Egg. However, an Insect Mother's Egg from my Heaven-separated Realm should be useless to you, right?"

Yang Chen smiled, "You seem to be very clear about the use of Insect Mother's eggs. Yes, I want an Insect Mother's Egg that you would have after entering the Heaven-appointed Realm, and for this, I'm even willing to help you enter the Heaven-appointed Realm."

Chapter 3347 - The Forbidden Spirit Ancestor\_1

"Help me enter the Heaven-appointed Realm? Are you willing to give up Bao Lu, offer it to me, and help me enter the Heaven-appointed Realm?" Xingtong said.

Yang Chen immediately shook his head: "Of course not, Daoist friend Xingtong has thought too much."

It is much more difficult for the Insect Mother to enter the Heaven-appointed Realm than it is for regular cultivators. And it is precisely because of this that if Bao Lu were to help Xingtong enter the Heaven-appointed Realm, it would likely cost her life as a price.

"Since you know all this and still dare to say that you will help me enter the Heaven-appointed Realm, I think you must know the difficulty for our Insect Queen to enter the Heaven-appointed Realm." Xingtong looked at Yang Chen.

Yang Chen nodded: "You are right, I am indeed not very confident in helping you enter the Heaven-appointed Realm. However, I will do my best and try to find a way for Daoist friend Xingtong on this matter."

Xingtong shook her head: "That's not necessary. I do have several ways to enter the Heaven-appointed Realm. If Brother Yang Chen is willing to cooperate, helping me enter the Heaven-appointed Realm would not be difficult."

Upon hearing that Xingtong had a method, Yang Chen was interested for a moment.

However, hearing that it seemed he still needed to cooperate, Yang Chen couldn't help but feel a little suspicious: "What does Daoist friend Xingtong mean?"

Xingtong spoke calmly: "If Brother Yang Chen is willing to mate with me, given the strength of your Law, it shouldn't be difficult to help me break through the Heaven-appointed Realm, and even if I fail, there are still many benefits. Even if I fail, I will think of other ways to break through and enter the Heaven-appointed Realm, and Brother Yang Chen doesn't need to intervene."

"Mate?" Yang Chen was stunned, somewhat dumbfounded.

Xingtong seemed to talk about an insignificant matter: "In your human terms, it seems that it should be called dual cultivation. However, we Insect Race don't have so many terms."

Yang Chen's mouth twitched, and he really couldn't believe that this was Xingtong's intention.

It must be said that the various clan cultures are indeed diverse. As a member of the Insect Race, Xingtong simply spoke of the matter as if it were insignificant.

If it were another member of the Human Race, there might not be anyone who would speak of it so openly.

Looking at Xingtong again, she appeared very eager, as if waiting for his agreement.

Xingtong was indeed looking at Yang Chen with eager eyes, hoping that he would agree.

The Insect Race has only the Insect Mother and no male insects. Their method of reproduction has many forms, and they can even complete one-sided reproduction without relying on males.

Of course, this approach has both its advantages and disadvantages. Single reproduction doesn't result in strong insects, nor does it have any particular specialties. The Heavenly Separation Insect Clan under her command, for example, are quite ordinary.

To reproduce special insects, they must rely on dual cultivation with powerful experts from other groups.

The stronger the partner, the more likely the offspring will be powerful.

For some extremely powerful individuals within their realm, mating might even stimulate the Insect Mother's cultivation, helping her reach the Heaven-appointed Realm.

This was precisely the reason for Xingtong's desire, because, without much thought, it could be determined that Yang Chen had reached the peak of his cultivation realm within his level.

She was really eager for Yang Chen to agree, but would Yang Chen satisfy her desires? With little hesitation, he said: "I'm afraid Daoist friend Xingtong will be disappointed. I am already married."

Seeing Yang Chen refuse, Xingtong looked at him resentfully for a moment and sighed lightly, showing her disappointment.

However, being rejected, Xingtong quickly recovered and said: "Since Brother Yang Chen is unwilling to help me enter the Heaven-appointed Realm in this way, then there is only one last method. This method may be somewhat difficult, so be prepared, Brother Yang Chen."

Yang Chen couldn't help but express his surprise, Xingtong really has many methods, and there's even another way to enter the Heaven-appointed Realm.

As far as Yang Chen is concerned, no matter how difficult it is, he can accept it, because the improvement of Ten Thousand Law Dao Embryo is not an easy task in itself.

"Please speak, Daoist friend Xingtong." Yang Chen said.

Xingtong said, "Brother Yang Chen, have you ever heard of the Origin Land?"

Upon hearing this, Yang Chen didn't hesitate and immediately said: "The Origin Land, of course I've heard of it. It is the most mysterious of all the universes."

Yang Chen has done a lot of research on the Universe Starry Sky.

Each major universe is overseen by various clans, but the Origin Land remains a mystery. Yang Chen couldn't find any information about the Origin Land from numerous Ancient Books.

"Legend has it that before the other universes were born, there was only one piece of the universe, and this piece was called the Origin Land. There are also rumors that the Origin Land contains the secrets of the entire universe. However, there's no doubt that the Origin Land is the most mysterious place in the entire universe. But exploring this mystery is not an easy task." Xingtong sighed.

"What do you mean by that?" Yang Chen's interest was piqued.

Xingtong said, "Over countless years, numerous powerful experts have tried to go to the Origin Land. The weakest among them were at Heaven-appointed Realm, but very few managed to return alive. Even when Heavenly Extreme Realm powerhouses entered, the probability of returning alive was extremely low, even close to zero. So far, everyone who has returned alive from the Origin Land has been recorded in history and became a rare peerless powerhouse. It is precisely because the number of survivors is so scarce that the Origin Land still remains a mystery to this day. Each person who returns alive from the Origin Land becomes the focus of attention of many cosmos clans!"

"What happened next?" Yang Chen knew that the key point Xingtong wanted to say was still to come.

"Three million years ago, several Heavenly Extreme Realm powerhouses were sent by various major cosmos to enter the Origin Land and explore its mysteries. However, in the end, only one person returned. This person was a Ruthless Beast Race Daoist Ancestor Expert nicknamed Forbidden Spirit!" Xingtong continued, "After the return of Forbidden Spirit, countless powerful experts wanted to learn the secrets of the Origin Land from the mouth of the Forbidden Spirit Ancestor. Even the Ruthless Beast Race itself sought to know the truth!"

"What did the Forbidden Spirit Ancestor choose?" Yang Chen asked.

Xingtong lamented: "The choice of the Forbidden Spirit Ancestor was extremely bizarre. Instead of returning to the Ruthless Beast Race, he went to the Ji Yuan Continent, opened a Dao Palace with his own Law, and announced that he would leave all secrets and mysteries in this palace before sitting down to leave the world. After he sat down, countless people rushed to come, all intending to obtain the secrets of this Dao Palace, but unfortunately, this Dao Palace only opened once every ten million years. In the one million years after the death of the Forbidden Spirit Ancestor, it opened for the first time. On that occasion..."

Chapter 3348 - A New Plan\_1

As she said this, a nervous expression flowed through Xing Tong's eyes.

Because when the Forbidden Spirit Dao Palace was opened last time, she was still young, even just born. At that time, her encounter with such a thing was like encountering a legend, with only longing and yearning in her eyes.

Xing Tong clenched her fists and said: "The opening of the Forbidden Spirit Dao Palace that time can only be described as a golden age. Countless groups gathered in the Ji Yuan Continent, eventually fighting in a bloody storm of chaos. Due to the unmethodical nature of this competition, no group gained any significant advantage, and no one obtained the secret of the Forbidden Spirit Dao Ancestor in the Origin Land. Therefore, the various clans set the rules: only those in the Heavenly Fate Realm Early Stage and below can enter the Forbidden Spirit Dao Palace to avoid causing too many troubles and being difficult for all clans to handle."

"After all, you and I both know that if one's cultivation surpasses the Heavenly Fate Realm Early Stage, it's really hard to suppress." Xing Tong said.

Yang Chen nodded, imagining the chaos during the competition.

At the same time, he was quite curious about who the Forbidden Spirit Dao Ancestor was and what the Forbidden Spirit Dao Palace contained.

He didn't know the mystery of the Origin Land, but the fact that it could drive all the clans so crazy meant that the Forbidden Spirit Dao Palace must contain something worth exploring.

Of course, Yang Chen was not the kind of person to easily jump into things blindly. He said, "Heavenly Fate Realm Early Stage and below... so you want me to help you explore this Forbidden Spirit Dao Palace, right?"

"Exactly," Xing Tong said calmly.

Yang Chen curiously asked, "Inside the Forbidden Spirit Dao Palace, is there a way for you to enter the Heavenly Fate Realm?"

"Of course, three Insect Mothers from my race who entered the Forbidden Spirit Dao Palace in the Insect Mother's Heaven Separation Realm eventually reached the cultivation level of the Heavenly Fate Realm. And other races have also achieved similar results. Among them, there seem to be some methods to help Heaven-separated Realm experts enter the Heavenly Fate Realm." Xing Tong said.

With his hands behind him, Yang Chen became increasingly interested.

So, there was a method to enter the Heavenly Fate Realm in the Forbidden Spirit Dao Palace?

That was interesting indeed.

He didn't rush to agree but said, "Helping you shouldn't just be about getting you into the Forbidden Spirit Dao Palace and the Heavenly Fate Realm, right?"

"Of course, letting me into the Heavenly Fate Realm is just part of your duty. The real transaction between us would come afterward," Xing Tong clearly stated. "All the major clans who enter the Forbidden Spirit Dao Palace want to obtain the Origin Essence taken by the Forbidden Spirit Dao Ancestor from the Origin Land!"

"Origin Essence?" Yang Chen was stunned. "What is that?"

"If Jiyu Essence is the essence of the Universe Starry Sky, then Origin Essence is the essence within the Origin Land. And it can only be produced in the Origin Land, with an extremely scarce quantity. Even a single piece can drive people crazy. The various clans have no restrictions on acquiring it. If you can bring out one piece, you can exchange it for a massive amount of Jiyu Essence," Xing Tong's mouth curled up into a smile. "I don't need much. Just one piece of this Origin Essence is enough for me."

Yang Chen squinted his eyes.

The Universal Starry Sky gave birth to the Jiyu Essence, and the Origin Land gave birth to the Origin Essence?

That was interesting.

Since the value of the Origin Essence was even greater than that of the Jiyu Essence, it was not difficult to judge that this Origin Land was more special than the entire Universal Starry Sky.

He fell into contemplation. After a while, he finally said, "Fellow Xing Tong, I can help you with this. However, I don't know much about the Origin Essence. If it's really as valuable as you described, it shouldn't be a problem for me to help you get one. But if it's even more precious than you've depicted and doesn't match what you said, then I'm sorry, I can't promise to get the Origin Essence for you."

"Don't worry, I won't shoot myself in the foot," Xing Tong said softly.

Only then did Yang Chen feel relieved: "If that's the case, let it be settled this way."

"Hold on, Brother Yang Chen, don't rush. Considering your status as a wanted person by the Netherworld, you might want to disguise yourself as a member of my Insect Race and join me there. It's better not to reveal your identity. Let's agree to meet at a special place after we split up. After all, you don't want your own clan to know that you're cooperating with someone from the Insect Race like me in the matter of the Forbidden Spirit Dao Palace," Xing Tong said.

Yang Chen touched his chin, secretly thinking that Xing Tong's consideration was quite thorough. He grinned, "Alright, no problem! We'll regroup later."

"Compared to the cooperation in the Forbidden Spirit Dao Palace, the current cooperation is just a trivial matter. I'll consider helping you this time as a gift," Xing Tong said.

Yang Chen also laughed, and after discussing with each other, they returned to the group of powerful people.

When they returned, the group of powerful ones sighed as they saw Yang Chen and Xing Tong together. Although the Insect Race didn't have any strong grudges with humans, they definitely couldn't be considered friends. But now, Xing Tong was so close to Yang Chen, which was largely due to Yang Chen's own charm.

Seeing Yang Chen return, Yue Xing True Person laughed loudly and quickly approached, "Brother Yang Chen, you're back. I've made a preliminary plan; come over, and let's discuss it."

Yang Chen stepped forward and said gently, "Thank you for your concern, senior Yue Xing. I wonder what plan senior Yue Xing has designed..."

Yue Xing True Person's expression was tense as he said, "Actually, it's not much of a plan. I've thought it through, and by now, the two Ghost Kings of the Netherworld must be on guard against us. Even if we launch a stealth attack, any hint of movement will be seen through. So, if we set up an elaborate arrangement, it would be pointless. We only need one move."

"One move? Senior, you mean..." Yang Chen asked.

Yue Xing True Person said, "Since you already know Insect Mother Fellow Daoist, that makes things easier. At the time you killed the Square Ghost King, nobody knew about it. By then, I'll go ahead with Insect Mother Fellow Daoist; there's no way the Earthquake Palace Ghost King and the Square Ghost King would be expecting you."

Yang Chen hesitated slightly, "Senior, I understand what you mean. If Fellow Daoist Xing Tong stands out, the two Ghost Kings of the Netherworld might think that it was Xing Tong who killed the Square Ghost King. But then, Xing Tong will have to face one of the two Ghost Kings."

Yue Xing True Person said, "The key is here. Insect Mother Fellow Daoist, how long can you hold on against the Heavenly Fate Realm Ghost King?"

Xing Tong's tone was calm, "Although I am not as good as Brother Yang Chen, holding on for half an hour is not difficult. I have some confidence in winning against a Heavenly Fate Realm expert, and I should be safe."

The two of them did not doubt Xing Tong's words. If she couldn't do all this, she wouldn't have been able to survive on the Ice and Fire Star for so long, making the several Ghost Kings uninterested in eliminating her.

Chapter 3349 - A Great Battle\_1

"Half an hour?"

Upon hearing this, Yue Xingzhenren and Yang Chen started to ponder almost simultaneously.

Yue Xingzhenren was somewhat uncertain, but still said, "In half an hour, I'll lure out the other Ghost King, Brother Yang Chen. By then, if we join forces, we must not give them a chance and try every possible way to kill them. As long as we kill them, we will be at an advantage when we face them later."

Yang Chen also said, "No problem!"

Yue Xingzhenren laughed heartily, "Yang Chen, not only did you save me this time, but I also need to trouble you to help me out again. I have decided that I won't take any credit for this Jiyu Essence, it all goes to you!"

"How can I accept this?" Yang Chen was astonished, "Even if you are willing, how can I explain this to the rewards for your subordinates?"

"Hahaha, I still have plenty of Jiyu Essence on me. Isn't it enough to distribute it to those subordinates?" Yue Xingzhenren laughed heartily.

Yang Chen couldn't help but laugh, "That's still not right!"

"Ah? Yang Chen, are you trying to put distance between us? If you keep refusing, I will think that you don't regard me as a friend." Yue Xingzhenren said seriously.

Hearing this, Yang Chen could only helplessly give up and said, "Alright, since Senior Yue Xing thinks so highly of the junior, I shall respectfully obey."

"That's more like it." Yue Xingzhenren laughed heartily.

For him, if he didn't give all the credit to Yang Chen, he would feel extremely guilty.

After all, if it weren't for Yang Chen to save him, where would he have the chance to fight again!

For him now, being able to fight a hearty battle and vent his hatred is already a rare thing!

"Alright, everyone, get ready. Next, we are going to have a big battle. As long as you heal your injuries, we will set out in two months and have a decisive battle with the Netherworld Ghosts on this Ice and Fire Star." Yue Xingzhenren said with murderous intent.

A group of powerful ones heard this, all full of fighting spirit, and began to heal and prepare for the big battle.

...

In this way, powerful individuals recovered their strength, and the time passed swiftly. In the blink of an eye, several months had gone by.

This period of several months, for cultivators, is just a blink of an eye.

And several months later, all strong individuals in the Ice and Fire Sky Phoenix stronghold set out, directly targeting the locations of the Zhen Gong Ghost King and Wind and Thunder Ghost King.

Zhen Gong Ghost King and Wind and Thunder Ghost King were quite clever and sensed something was wrong, so they recalled all the Ghost Kings guarding outside, leaving only a few Ghost King Experts patrolling.

However, a day later, the patrolling Ghost King Experts were suddenly and mysteriously caught in a net, with nothing left.

All of this, Zhen Gong Ghost King and Wind and Thunder Ghost King saw clearly.

It was only after seeing this that Zhen Gong Ghost King and Wind and Thunder Ghost King became cautious.

However, the human experts did not intend to launch any sneak attacks. Several days later, a group of them appeared directly above the stronghold,

Leading them were Yue Xingzhenren and Star Red Worm Mother.

"Hahaha, Zhen Gong Ghost King, Wind and Thunder Ghost King, stop hiding and show yourselves to me." Yue Xingzhenren shouted.

Hearing Yue Xingzhenren's words, the two great Ghost Kings quickly appeared in mid-air.

These two great Ghost Kings were none other than Zhen Gong Ghost King and Wind and Thunder Ghost King.

Zhen Gong Ghost King's tone was cold, sarcastically laughing, "Yue Xingzhenren, I really didn't expect that after being a prisoner for so long, you would recover so quickly. What, after being sent back for some time, you miss this place and want to taste being locked up again by us?"

Zhen Gong Ghost King's words were sharp, hitting Yue Xingzhenren's pain point.

However, Yue Xingzhenren was also a man of deep city, how could he be easily angered by the Zhen Gong Ghost King.

He still had his plans.

Yue Xingzhenren chuckled, "I do miss you two, but whether or not you can imprison me again as your prisoner, we'll have to see how capable you two are."

Wind and Thunder Ghost King laughed loudly, "Yue Xingzhenren, I was wondering who was the one you had invited to save you, turns out it's this Worm Mother. Hmph, it seems Four-direction Ghost King died due to carelessness, but do you really think this Worm Mother can be as useful as a Heaven-appointed Realm Expert?"

Yue Xingzhenren, with hands behind his back, laughed, "Why don't you two try it to find out?"

Upon hearing this, Zhen Gong Ghost King and Wind and Thunder Ghost King were really taken aback. It was false to say that they were not suspicious since Four-direction Ghost King's death was laying there. If they were careless, they might end up dead next.

However, the enemy was already at their doorstep, and there was no reason for them to retreat.

Wind and Thunder Ghost King snorted, "Alright, I'll see what skills this Worm Mother has."

With that said, he stepped forward and headed straight towards Star Tung.

To cooperate with the plan, Star Tung naturally appeared calm, displaying a confident demeanor.

She quickly took action, releasing the Insect Race under her control.

However, even if she appeared calm, the gap between her and the Heaven-appointed Realm was still irreversible. The many Insect Races had a numerical advantage but still had a huge disparity when it came to battle.

This made Wind and Thunder Ghost King very happy, thinking that Star Tung was not that scary.

After all, they had been with Star Tung on the Ice and Fire Star for quite some time, and it was impossible for them not to know her details.

But soon, Zhen Gong Ghost King reminded him, "Be careful, this Star Tung was able to kill Four-direction Ghost King, she must have some trump cards. Don't follow the same path as Four-direction Ghost King."

Upon hearing this, Wind and Thunder Ghost King didn't dare to take it lightly anymore. It would have taken only a moment to capture Star Tung, but now that he was being cautious, capturing her in a short time became impossible.

Zhen Gong Ghost King reminded Wind and Thunder Ghost King, then immediately went after Yue Xingzhenren.

"Yue Xingzhenren, take my attack!" Zhen Gong Ghost King's attack was fierce.

In an instant, both sides were engaged in an intense battle.

Yue Xingzhenren faced Zhen Gong Ghost King, Star Tung faced Wind and Thunder Ghost King, and the other powerful people fought the Netherworld's Heaven-separated Ghost Kings.

For a time, the human side was at a great disadvantage.

Whether it was the number of Heaven-separated realm experts or their combat power, they were overall inadequate.

All of this, Yue Xingzhenren saw it clearly, and for a moment, he became anxious.

After all, he knew his own combat strength very well, and also knew that even if he fought alone, as a Heaven-appointed realm expert, he was still slightly inadequate against either of the two Heaven-appointed Ghost Kings.

Zhen Gong Ghost King, seeing the advantage, sneered, "Yue Xingzhenren, is this all you've got? Hahaha, I think you came here today to dig your own grave!"

Yue Xingzhenren ignored him and suddenly turned around to flee.

Seeing Yue Xingzhenren attempting to flee, Zhen Gong Ghost King's killing intent surged and he chased after him directly.

Chapter 3350: Perfect Cooperation\_1

Yue Xingzhenren sped up, and the faster he went, the more the Earthquake Palace Ghost King felt that he was truly attempting to escape and gave chase!

As the two engaged in the chase, the Earthquake Palace Ghost King laughed loudly, "Yue Xingzhenren, you were just running away fine, but why did you choose such a dead-end for yourself? I don't think you can escape today, just obediently stay here."

When the conversation ended, Earthquake Palace Ghost King's body suddenly made a crackling noise. In the next moment, a flash of lightning appeared, and he was already in front of Yue Xingzhenren, blocking him.

Yue Xingzhenren looked at Earthquake Palace Ghost King's astonishing speed and narrowed his eyes, his body momentarily stopped, then said, "What a fast speed, but..."

Earthquake Palace Ghost King clenched his fists, “Yue Xingzhenren, what else do you want to say when death is near?”

He was quite confident since Yue Xingzhenren had fought several Ghost Kings several times before, and none of them he could defeat.

If he could defeat even one of them, Yue Xingzhenren wouldn't have ended up being caught alive.

However, in the next moment, Earthquake Palace Ghost King felt a chill on his back and an unprecedented sense of terror was born.

Upon feeling this, Yue Xingzhenren was shocked and hurriedly tried to dodge and escape.

But he felt that the surrounding space-time had been rewritten somewhat, slowing him down and lacking explosive power. While escaping, Yue Xingzhenren even directly launched a palm strike, intercepting his path forward.

Yue Xingzhenren's palm exploded with the Power of Laws, the space vibrated, penetrating in all directions and turning into a bright red firelight.

The fire instantly blocked Earthquake Palace Ghost King's path, forcing him to turn and look.

Upon seeing this, Earthquake Palace Ghost King's pupils constricted even further.

A bellowing soul that looked like a bull appeared above him, wielding a weapon that was directly slashed down at him.

This thing was none other than the Crimson Ox Soul.

When the Crimson Ox Soul struck, its technique could only be described as sharp.

This strike was unavoidable for the Earthquake Palace Ghost King, and there was no time to defend against it. He forcefully took the hit, receiving a solid blow!

“Ah!” Earthquake Palace Ghost King screamed in pain, blood spattered, and his body flew back several breaths before finally stopping.

But when they looked at Earthquake Palace Ghost King again, he was already in a feeble state, having taken a heavy hit.

With just one strike, Earthquake Palace Ghost King realized that he was in trouble.

The black smoke dissipated, and he saw Yang Chen who had suddenly appeared beside Yue Xingzhenren, his pupils shrank.

This person was Yang Chen.

Although he didn't know who this person was and didn't recognize him at first glance, Earthquake Palace Ghost King was very clear that the terrifying Qi emanating from Yang Chen, along with that confident look deep in his bones, was even more terrifying than Xingtong.

At this time, Earthquake Palace Ghost King suddenly realized...

Xingtong was just a decoy, and the real person who killed the Four-direction Ghost Kings back then should be someone else. There was no need to guess who that person was; it was Yang Chen!

Earthquake Palace Ghost King's mind was sharp, figuring out the situation in an instant, without any further thinking, he turned and tried to escape.

“Earthquake Palace is trying to escape, chase quickly, we must not let him get away!” Yue Xingzhenren shouted.

Yang Chen naturally knew all this, so just now he had the Crimson Ox Soul intercept early in front of him.

Moreover, escaping under his spacetime techniques would be a bit delusional.

“You want to escape? Where would it be that easy!” Yang Chen directly struck out with a palm, and with the help of spacetime acceleration, the Crimson Ox Soul directly blocked Earthquake Palace Ghost King’s path.

Earthquake Palace Ghost King had just been hit by the powerful strike of the Crimson Ox Soul, and he knew that he was no match for the combined efforts of Yang Chen and Yue Xingzhenren.

That strike from the Crimson Ox Soul had almost killed him, and even though he had survived, his condition was extremely poor. With his current state, dealing with just the Crimson Ox Soul was difficult enough, let alone Yue Xingzhenren by its side.

The Crimson Ox Soul blocked the way, and Yue Xingzhenren quickly caught up, saying coldly, “Yang Chen, this Earthquake Palace Ghost King is already at the end of his rope. If we work together, we can kill him here.”

“Junior also has the same intention!” Yang Chen agreed.

Earthquake Palace Ghost King roared out, “You two want to kill me? Wishful thinking!”

When the conversation ended, he ignored his injuries and tried to escape.

Unfortunately, Yang Chen controlled the Crimson Ox Soul and kept a close watch on him, not giving him any chance. When he tried to escape, the Crimson Ox Soul blocked his way and struck out again.

Yue Xingzhenren directly stepped forward, and in the moment when Yang Chen’s Crimson Ox Soul struck out, he aimed a palm at the back of Earthquake Palace Ghost King.

The Power of Laws from this strike, combined with the bombardment of the Crimson Ox Soul, made it difficult for the Earthquake Palace Ghost King to defend against both.

If it was just one, it would be alright, but he couldn't handle both.

Moreover, Yue Xingzhenren had clearly gone all out, killing with a great determination. The power he displayed was extremely astonishing, making it difficult for Earthquake Palace Ghost King to decide which one to block first.

For a moment, Earthquake Palace Ghost King decided to deal with the strike of the Crimson Ox Soul first.

However, just as he had neutralized the attack of the Crimson Ox Soul, Yue Xingzhenren's strike fell solidly.

Earthquake Palace Ghost King was full of tricks, and his figure flashed into an electric light and disappeared.

However, Yue Xingzhenren had prepared an interception in advance, and with a flash of starlight, a sky-reaching flame turned into a bright red light, dazzling and eye-catching, suppressing Earthquake Palace Ghost King.

This time, there was no place for Earthquake Palace Ghost King to dodge, and the strike hit him squarely, nearly causing his soul to collapse from the burns. The painful, miserable screams echoed in all directions and couldn't be calmed for a long time.

But the attacks were far from over.

Taking advantage of an enemy's illness to kill them is an eternal principle. Yang Chen had not been idle when Yue Xingzhenren had made his move, and seeing that Earthquake Palace Ghost King was already in a desperate situation, naturally, he didn't mind stepping in and dealing a fatal blow to him.

The Crimson Ox Soul had already aimed at the right position, and the moment Earthquake Palace Ghost King was hit by Yue Xingzhenren, it launched another attack.

As the strike fell, it brought an astonishing momentum along with its immense restraint against ghost creatures. Earthquake Palace Ghost King's Ghost Qi defense was torn apart like paper.

Then, under Yue Xingzhenren's attack, Earthquake Palace Ghost King became extremely vulnerable, his whole body convulsing, and he fell from the sky on the verge of death.

Seeing this, both Yang Chen and Yue Xingzhenren couldn't help but smile, for this meant that Earthquake Palace Ghost King had fallen.

This made Yue Xingzhenren burst into laughter, feeling delighted. He didn't know how long it had been since he had fought such a satisfying battle.

During this battle, they didn't give their enemy any chance to regroup and killed them in one breath. This level of cooperation was something he had only experienced in the early years when he worked with his seniors.
