Chapter 3401: Appearance of Wan Huaruo_1

Transcending the Heavenly Boundary Realm comes with a huge difference compared to those who haven't.

This gap is difficult to bridge, and the fact that the Knife Edge Brothers alone could have demonstrated many things proves this.

Even if the Knife Edge Brothers were infinitely close to the limit of the Heaven-separated Realm, and coupled with a powerful Fairy Qing Wan, they were still like thin paper when facing the King of the Netherworld, with an incomparably huge difference in power.

Today is no different.

Yang Chen hardly needed to watch the outcome to predict the result.

Two Emperor-level Netherworld Kings smirked, revealing contempt in their eyes, as they both attacked at almost the same time.

As soon as they attacked, laws spread out, penetrating all directions, forming a storm and enveloping the dozens of Spirit Fire Clan and human experts.

In an instant, a group of people were fighting together, a scene of great power.

However, this spectacle did not last too long, so it became clear who had the upper and lower hand.

A group of human and Spirit Fire Clan powerhouses was almost completely suppressed by the Netherworld experts, without any power to fight back.

Other Ghost Kings were of no great concern. The most important ones are the two Emperor-level Netherworld Kings. Their strength is truly amazing, far surpassing the limit of the Sky-separating Realm.

In battle, even if it was just the two of them, they might not lose to the dozens of Heaven-separated Realm opponents in front of them, let alone the many Ghost King followers.

After some confrontation, Yang Chen no longer needed to think about the outcome.

“This is bad, all of you!” the Eldest Elder of the Spirit Fire Clan, Di Tu, exclaimed in surprise. He didn’t expect that the Netherworld would randomly produce two powerful beings who transcended the limits of the Heavenly Boundary Realm.

He regretted not noticing this earlier, as there might still be a chance to escape. But where to escape now?

He felt anxious and regretful.

No wonder their Lord Wan Tianyu always invited experts who had surpassed the Heavenly Boundary Realm limit to take action. He already anticipated that without experts who transcended the Heavenly Boundary Realm limit, they would not be able to fight against these Netherworld Ghost Kings.

Di Tu felt resentment and rage, which caused him to lose his sanity. He no longer wanted to think, only wanting to break through everything and fight the Ghost Kings.

A group of Spirit Fire Clan experts and humans were completely shattered. As for Di Tu, even in his rage, he could not withstand the fierceness of these Ghost Kings. After just a few rounds, he was showing signs of defeat.

Seeing this, Yang Chen shook his head. If he didn’t take action now, these experts would likely perish today.

Watching this, Yang Chen no longer hesitated and prepared to take action.

However, just before he could act, a sudden change occurred, leaving Yang Chen surprised and at a loss as to what had happened.

A stream of law, born out of nowhere, suddenly surged in. As this law swept and oscillated, it directly repelled the several Ghost Kings attacking Di Tu, dissipating into nothingness.

Yang Chen didn't see a figure, but from the law, it was not difficult to guess that the user of this law was also an expert who had transcended the Heavenly Boundary Realm limit.

This aroused Yang Chen's interest. Among humans, he was well informed of experts who had transcended the Heavenly Boundary Realm limit, but this energy seemed unfamiliar and strange as it did not seem human.

As Yang Chen wondered, a group of Ghost King experts was also surprised, looking around, shouting, "Who, all you hidden cowards, better get out now."

The two Emperor-level Netherworld Kings had already found the direction of their target with their eyes.

Yang Chen also looked in the same direction. Upon seeing the person, Yang Chen's pupils suddenly shrank.

Because this person was none other than Wan Huaruo.

Yang Chen was very curious about Wan Huaruo because she had an inseparable connection with the Mysterious Giant Egg. It was precisely because of this that he wanted to meet her and ask about the mysterious giant egg's origin.

But he had never seen her whereabouts. Unexpectedly, he met her here now.

"Wan Huaruo, meddling in the affairs of the Spirit Fire Clan?" Yang Chen said with a puzzled expression.

The Elders of the Spirit Fire Clan were also stunned, staring at Wan Huaruo in disbelief, exclaiming, "You, could it be that you...?"

Wan Huaruo's expression remained unchanged, her hands clasped behind her back, "Everyone, don't be in a hurry to reminisce about the past. The top priority right now is to deal with the crisis at hand."

Both Emperor-level Netherworld Kings looked at Wan Huaruo, licking their lips greedily, "Spirit Fire Clan, you've really hidden yourselves well. You even have a powerful expert who transcends the Heavenly Boundary Realm limit. Haha, this is interesting. But do you really think that with your strength alone, you can win against us?"

"Aunt, what should we do about today's event?" Di Tu asked Wan Huaruo, inexplicably calling her 'aunt.'

Watching this, Yang Chen was puzzled. He knew from the beginning that Wan Huaruo might not be a snake person, but he didn't expect her to be involved with the Spirit Fire Clan.

Wan Huaruo, Wan Tianyu, Wan Qiuying...

What was their relationship, all sharing the prefix 'Wan'?

Yang Chen couldn't figure it out, so he decided to watch quietly from the shadows.

Wan Huaruo now stared at the two Emperor-level Netherworld Kings, watching their provocation, and said coldly, "I didn't think I could beat you, but I didn't plan to have a head-on clash. Di Tu, today is not a good day for battle; let's go!"

"But Holy Maiden..." the Elders anxiously said.

"I know, but we have to save our lives first." Wan Huaruo appeared calm and composed, not showing panic. Her energy spread, and she prepared to leave the area.

As soon as the conversation ended, the Original Stone Nether King laughed, "Spirit Fire Clan, do you think you can escape? There's no way. I don't know where this Heavenly Boundary Realm limit expert came from, but now that you're here, you might as well stay. Everyone stay here."

As he spoke, the Original Stone Nether King waved his hand and shouted, "Activate the great formation."

Several Ghost Kings heeded his command, immediately getting up and taking action. One by one, divine stones were thrown in different directions, causing a formation that burned with intense flames to surge around them.

This formation was connected to none other than Qiuying, who was held captive and enslaved in the center, her consciousness gone.

As the formation drew Qiuying's power, the entire sea of lava fire erupted into chaos.

"Hehehe, originally this formation was supposed to deal with the lava fire sea, but now it's more appropriate to trap you here. Today, no one can leave," the Original Stone Nether King laughed wildly.

A group of Ghost Kings swiftly took action, surrounding the group in all directions.

Chapter 3402 - Yang Chen, Not as Good as Him!_1

This gave Wan Huaruo quite a scare. If it weren't for this formation, she was confident that she could lead a group of people to escape this place.

However, with this formation, she could only save herself at most. To leave with these people was undoubtedly a delusion.

Nevertheless, even if she wanted to escape by herself, it would now become very difficult. Glancing around, she saw two Emperor-level Netherworld Kings staring straight at her.

"Keep an eye on this woman. Don't worry about the others; they can't escape our Five Fingers Mountain," commanded the Original Stone Nether King.

The Ghost King experts below agreed and followed the Original Stone Nether King's order, targeting Wan Huaruo and intending to kill her on the spot.

Wan Huaruo's pupils contracted, not expecting these people to have such a clear target. They almost didn't think and focused their attention on her.

Having no other choice, she clenched her teeth and fought back against this group of Ghost Kings.

The cultivators from the Spirit Fire Clan naturally shared the same enemy as Wan Huaruo. When they saw her being attacked from all sides, they immediately stepped forward to help her, unyielding even in death.

However, the human experts didn't have the same loyalty as these Spirit Fire Clan powerful ones. Seeing that the situation was bad, they immediately turned to flee without any hesitation.

But as these humans tried to escape, they encountered an incredibly difficult formation.

Once this formation was activated, it attracted the power of the Lava Fire Sea and could be said to be borrowing the power of the Lava Fire Sea. Also, the formation's power was within it, making it quite difficult to deal with.

Even those who had transcended the Heavenly Boundary Realm limit would take a lot of time to break through in an instant. Not to mention these ordinary Sky Separation Realm experts.

In an instant, they collided and screamed in pain before retreating.

As they retreated, several Ghost King experts seized the opportunity to launch a surprise attack. When these humans were being pushed back by the formation, they sneak-attacked, taking advantage of their vulnerability. Their laws swept through, and the humans trying to escape were all killed on the spot.

Seeing this, Yang Chen couldn't help but shake his head in helplessness.

If these humans hadn't tried to flee and fought alongside the Spirit Fire Clan, there might have been a glimmer of hope. But by attempting to flee, they pushed themselves into a dead-end.

With the death of these humans, the situation for the Spirit Fire Clan was also dire. Wan Huaruo was also in a difficult situation.

Now, the Original Stone Nether King and the other Nether King directly targeted Wan Huaruo. In their frenzied attack, they aimed to kill her on the spot.

It was two against one, and they naturally held a significant advantage. Wan Huaruo fought the two Nether Kings and soon fell on the losing end, suffering greatly. Defeat seemed inevitable.

This made Wan Huaruo extremely anxious. She clenched her teeth in secret and thought that if only those humans hadn't fled. The current situation was precarious, and she could see that clearly.

If she had chosen to escape from the start, these people might have caused her some disturbance, but she still would have managed to escape.

At this point, attempting to escape had become exceedingly difficult.

"As for the Spirit Fire Clan, we are very familiar with them. It's rather strange to have such a character suddenly appear here. Hehe, today, I will capture you alive and find out who you really are," said the Original Stone Nether King with a fierce expression.

At that moment, he suddenly launched an attack. Seemingly coming from nowhere, he released multiple laws that directly attacked from behind Wan Huaruo.

Seeing this, Wan Huaruo had no time to react. She unconsciously tried to dodge but couldn't avoid it. Her pupils contracted, and she screamed. Then, the heavy blow hit her.

Her Qi weakened in an instant, and she couldn't help but spit out blood as she retreated. The blood oozing from the corners of her mouth made her look charming and pitiful.

"Aunt!" The several Spirit Fire Clan powerful ones couldn't help but worry as they looked at her.

"Boom!"

Showing no mercy, the two Emperor-level Nether Kings tried to finish Wan Huaruo off while she was critically injured.

As the attack came again, Wan Huaruo saw the Nether Kings approaching from different directions. Biting her teeth, she thought that she could handle one attack, but how could she deal with two powerful onslaughts coming at her simultaneously?

However, just as Wan Huaruo didn't know what to do, a sudden burst of light seemed to appear beneath her feet.

Immediately, the surrounding space-time domain changed in an instant, becoming so familiar and advantageous to her.

Wan Huaruo felt her speed increase several times, while the speed of the attacks from the two Nether Kings slowed down drastically. She quickly dodged the attacks.

Boom!

With the attack landing nowhere near its target, the two Nether Kings couldn't help but shrink their pupils in disbelief. They didn't know what had happened.

"Just now, our speed seemed to slow down for an instant."

"What's going on?!" The two Nether Kings were both shocked.

"Quick, look at our feet!"

Reacting quickly, the Original Stone Nether King let out a low roar, causing the other Nether King to glance at the ground. They saw a huge, azure pattern appearing under their feet.

With their experience, they naturally understood that it was a domain. They were inside the domain, which slowed their speed down quite a bit earlier.

"Who else is intervening? Come out now!" The Original Stone Nether King shouted angrily.

Yang Chen had no intention of hiding anything. When the domain unfolded, he appeared in front of the two Nether Kings with a calm smile and a carefree demeanor.

In his eyes, the only opponents were these two Nether Kings since, to him, the other Ghost Kings were not worth mentioning.

Upon seeing Yang Chen, Wan Huaruo's pupils contracted, surprised, "Is... is it Yang Chen?"

Along with Wan Huaruo, the two great Nether Kings were equally shocked. They, of course, were very familiar with Yang Chen's name. They had seen Yang Chen's appearance on the Red Arrest Warrant.

However, they clearly did not pay as much attention to Yang Chen as the Spirit God Race did. The Spirit God Race even instructed their Royal Spirit Gods to flee immediately upon seeing Yang Chen.

Seeing Yang Chen appear here, the Original Stone Nether King sneered, "Good, it seems we have a big fish on the hook. Killing you would undoubtedly reward us handsomely in our race. Hahaha!"

Yang Chen lightly laughed, "I don't know what the Red Arrest Warrant is, but it seems that I'm quite valuable. I'm right here; if you want to kill me, come on."

To the Original Stone Nether King, Yang Chen's attitude seemed quite unruffled, just like the Dominating Nether King's.

However, as Nether Kings, they possessed a pride that was unique to them.

Yang Chen was powerful, but compared to them, he still fell short!

Chapter 3403: You Know, I Know_1

“Since you’re seeking death, fine, we’ll grant your wish.” Yuan Shi Ming Wang disdain and directly attacked, trying to annihilate Yang Chen.

Yang Chen looked at the aggressive Yuan Shi Ming Wang, still as calm as ever.

Yuan Shi Ming Wang’s momentum was indeed impressive.

“Yang Chen, be careful!” Wan Hua Ruo shouted gently from the side.

She knew that Yang Chen was strong and that his strength was definitely above hers. But she was still worried since these were two powerful beings beyond the Heavenly Boundary Realm limit.

Yang Chen didn’t respond to Wan Hua Ruo.

He was not someone who liked wasting time. If he could defeat his opponent earlier, there was no need to hide his abilities. Besides, he had already used this technique once before.

With that thought in mind, there seemed to be no visible change in Yang Chen’s unmoving body. However, upon closer observation by Wan Hua Ruo at the rear, she could discern some subtle differences in his body.

But she couldn’t pinpoint exactly what was different.

Yang Chen’s lips moved slightly, muttering, “Way of Ten Thousand Laws Dao Embryo, open!”

“Enhance, Deathly Silent Black Wind!”

As soon as these words were spoken, the nightmarish scene appeared once again. The whole world seemed to undergo drastic changes; even the flames of the Lava Fire Sea seemed to have dimmed.

Dense shadows emerged, and the tearing wind seemed to want to destroy space itself.

Ghostly wind whispers filled the ears, leaving terror in people's hearts.

Seeing such a drastic change, everyone was shocked and dumbstruck.

Just how powerful must a Dao technique be to cause such a drastic change in all of space?

Only powerful beings in the World Stage could achieve this, right?

A group of Ghost Kings was also horrified, along with the two great Netherworld Kings, Yuan Shi Ming Wang and Di Tu, who sensed a terrifying crisis approaching.

The crisis hadn't yet surfaced but was lurking in their surroundings, as if it could strike at any moment to claim their lives.

"What is it? What could it be?"

Buzzing...

Without giving them much time to contemplate, countless powerful gusts of deathly silent black wind suddenly attacked them from all directions. It was impossible to describe their sheer number.

One, ten, a hundred.

Thousands, millions, endless!

One wave after another, without any stopping. These deathly silent black winds were a nightmare for the Ghost Kings of the Netherworld. Even Emperor-level Netherworld Kings were no exception.

Wan Hua Ruo and the strong beings of the Spirit Fire Clan were all dumbfounded. They hadn't yet recovered from the shock when everything had already settled down.

Finally, the space filled with gloomy winds disappeared; along with it, all the Ghost King experts who had once been clamoring to annihilate Yang Chen—the Original Stone Nether King and all others—had all fallen.

Not a single survivor.

With a single move, Yang Chen's power of laws demonstrated its true terrifying strength.

Wan Hua Ruo stared in a daze while all the strong beings of the Spirit Fire Clan were left speechless and dumbfounded. They only realized now why Yang Chen was sincerely invited by Wan Tianyu.

This was Yang Chen's strength.

He single-handedly killed two powerful beings beyond the Heavenly Boundary Realm limit.

Yang Chen was calm and composed about this, as if accomplishing these things meant nothing to him.

Finally, he gently turned his gaze to Wan Hua Ruo, as his eyes were filled with some calm curiosity.

Seeing Yang Chen's questioning gaze, Wan Hua Ruo trembled and immediately turned to flee without saying a word.

Witnessing this, the strong beings of the Spirit Fire Clan were all surprised, not knowing what was going on with their Aunt and Yang Chen.

As Yang Chen watched Wan Hua Ruo fleeing, he was slightly surprised but quickly reacted. He raised his hand and gently grabbed forward.

In an instant, time slowed down; Wan Hua Ruo's body shook violently, and the spacetime domain that had once been so gentle to her had turned into an impediment at once.

She knew it was Yang Chen.

Under the hindrance of the domain, she still wanted to struggle forward, but her speed had slowed down considerably.

After running for a while, Wan Hua Ruo realized that she hadn't even reached the edge of the Lava Fire Sea yet. For a moment, she sighed and gave up.

Yang Chen had come to Wan Hua Ruo's side, speaking indifferently, "Lady Wan, there's no need to be afraid. I have no ill intentions towards you. If I really wanted to kill you, do you think you can escape from my grasp?"

Wan Hua Ruo's pupils contracted, and with a deep breath, she looked at Yang Chen.

Others might not know, but she sensed it very clearly through comparison.

Yang Chen had become stronger.

He was more powerful than before.

"Yang Chen, our paths should have never crossed. I'm not running away; I'm leaving. It's only natural for me to walk away. What's the point of staying? We were nothing more than passing acquaintances." Wan Hua Ruo spoke softly, seemingly unintentionally, but her allure was irresistibly captivating.

Yang Chen said, "First of all, whether or not our paths should cross, you know better than me. Secondly, whether you're running away or leaving, you can only convince yourself with such a preposterous lie. Lastly, this is how you treat your life-saving benefactor, by merely saying we're passing acquaintances?"

Wan Hua Ruo sighed bitterly when confronted by Yang Chen, asking, "What do you want to hear from me?"

Upon hearing Wan Hua Ruo say this, Yang Chen finally gave a slight smile.

Both of them were smart people and knew what the other was thinking.

Just as he was about to question her, the strong beings of the Spirit Fire Clan quickly rushed over.

"Thank you, Brother Yang Chen, for saving our lives."

"Thank you, Brother Yang Chen."

The group of strong beings expressed their gratitude, while Di Tu, who was among them, couldn't help asking, "Aunt, do you and Brother Yang Chen know each other?"

Wan Hua Ruo replied with a sigh, "We do know each other, but for now, we have some important matters to discuss. You go and save Wan Qiu Ying first, and we'll talk about the rest later."

Hearing this, the strong beings of the Spirit Fire Clan didn't dare to disobey and quickly rushed to save Wan Qiu Ying.

As Yang Chen watched those strong beings leave, he refocused his gaze and calmly asked, "It's simple. First of all, why do they call you 'Aunt'? What's the relationship between you and the Spirit Fire Clan?"

"I've traveled the universe for countless years and have made friends with innumerable clans. The snake people you've seen are like this, and so are the Spirit Fire Clan. I have many different identities; you can't expect to inquire about each one, can you?" Wan Hua Ruo said with a slight smile.

Yang Chen stood with his hands behind his back, saying, "I want to know your true identity, the one and only identity in your heart! People have many identities, but your true identity is only one. You know this, and so do I."

Chapter 3404 - Trading with Wan Huaruo_1

Seeing Yang Chen's aggressive questioning, Wan Huaruo knew that resolving this issue would not be easy.

She sighed, her expression solemn, and said, "Yang Chen, knowing too much about my affairs is not good for you. You'd better change the topic."

Seeing Wan Huaruo's reaction, Yang Chen narrowed his eyes, realizing that even if he were to continue questioning, he probably wouldn't be able to get to the bottom of it.

But if he were to let it go just like that, it obviously wouldn't be possible.

Yang Chen said indifferently, "Fine, since Lady Wan doesn't want to reveal her identity, I won't ask any more. Instead, I'll change the question, as you said. This question, Lady Wan must have some guesses about, it's about the Mysterious Giant Egg."

Wan Huaruo knew that in the end, Yang Chen would definitely ask about this issue.

She didn't want to answer, but she had already refused Yang Chen one question, and at this moment, if she were to refuse again, it would be both emotionally and logically difficult to explain.

Her eyes were full of helplessness. Finally, she clenched her shell teeth and said, "Alright, since Young Master Yang Chen is interested, I will tell you about this Giant Egg."

Yang Chen, of course, was all ears, curious about the origin of this Giant Egg.

Otherwise, with such a huge thing in his hands, he really wouldn't know if it was a blessing or a curse.

Wan Huaruo said, "First of all, before answering this question, I want to ask Young Master Yang Chen, how much do you know about the Asura Clan?"

"I only know that the Asura Clan seems to be a special method of the Spirit God Royal Clan. Whenever the Royal Spirit Gods are in desperate situations, they always use the Asura Soul Body to fight. Although this Asura Soul Body is a soul body, it has extremely strong defense. It can be said that in a real fight, the main means of the Royal Spirit Gods lie in this Asura Soul Body. A single Asura Soul Body is equivalent to a strong expert who has transcended the Heavenly Boundary Realm limit," Yang Chen said.

Wan Huaruo, upon hearing this, sneered, "Royal Spirit God? Hah, the Spirit God Race is not even worthy of carrying shoes for the Asura Clan. They were just relying on some despicable means to achieve their position today. The Spirit God Race is fearful in their hearts, afraid that even if they manage to defeat the Asura Clan, they would still be fearful. They are afraid of the resurgence of the Shura Clan. Hence, they destroyed the Asura's physical body and enslaved their soul."

Yang Chen, looking at Wan Huaruo's emotionally charged expression, couldn't help but curiously ask, "So, does this giant egg have anything to do with the Asura Clan?"

Wan Huaruo knew that she had become quite emotional, and quickly calmed herself down, saying, "This giant egg is the Asura Saint Child, the Extreme Heavenly Way, born countless years ago. It is the last remaining Asura Fire Seed after the massacre of the Asura Clan, secretly hidden by the Asura Clan."

Yang Chen was stunned, "The Asura Clan Saint Child?"

"That's right. The Asura Soul Bodies you've seen are all ordinary Asuras. The Asura Royal Clan, not even the Spirit God Race has control over them. They all committed suicide when they were defeated by the Spirit God Race," Wan Huaruo said.

Yang Chen said, "I see, no wonder it felt so familiar."

He had already felt a strange familiarity between this giant egg and the Asura Soul Body he knew. Now he understood the reason.

Thinking of the connection with the Asura Clan, Yang Chen was extremely interested, after all, he had always wanted an Asura Soul Body like the Royal Spirit Gods.

Now that there was an Asura Saint Child with a substantial existence here, how could he not want it?

"How can this giant egg be hatched?" Yang Chen asked.

"In order to bring the Asura Egg to maturity, it requires a great price to be paid, especially for the Saint Child Asura. This is why I've told you to treat him well. This giant egg is not picky about refining things, as long as they possess immense energy. However, comparatively speaking, the growth of the Asura of the same Asura Clan is more remarkable,"

Wan Huaruo gave a detailed explanation, "If you really can't afford to support it, you can give this egg to me. After all, having this egg in your hands is not necessarily a good thing."

Yang Chen laughed, "Lady Wan is joking. I, Yang Mou, dare to say that no matter how bad my background and strength are, they are still better than yours. Having this giant egg in my hands is more suitable than in yours."

Wan Huaruo's lips parted slightly, unable to deny it. Indeed, Yang Chen's status, background, and strength were all superior to hers.

Thinking of this, she could only sigh lightly.

Yang Chen, on the other hand, asked, "I'd like to know more specifics about the Spirit God Race and the Asura."

Wan Huaruo, however, refused to elaborate. "Young Master Yang Chen, I've already said enough. These secrets would never be known to anyone if I didn't speak them. But..."

Wan Huaruo suddenly changed her tone.

Yang Chen asked puzzledly, "But what?"

"There is still a way for you to know, but first, you have to do me a favor," Wan Huaruo said.

"What favor?" Yang Chen asked curiously.

"In the Heavenly Palace, there are a total of three World Treasures from the Origin Land, known as Primordial Treasures. I want one of them, the Heaven Shaking Lock. If you can help me get it, I'll tell you everything you want to know," Wan Huaruo said, her eyes filled with expectation as she looked at Yang Chen.

Getting a Primordial Treasure was like a fool's dream, she thought so too.

One must know that many powerful experts of the Destiny Realm were eying this treasure, including numerous fights among strong experts of the Destiny Realm. Yang Chen, who was only in the Sky-separating Realm, had a minor role in this game, which was clear at a glance.

But she inexplicably believed that Yang Chen had the ability to do so.

Yang Chen asked curiously, "How come you seem to be very familiar with the Heavenly Palace? You even know how many Primordial Treasures there are in it!"

It was an uncharted territory, how did Wan Huaruo know exactly how many Primordial Treasures there were, even accurately naming them?

Wan Huaruo smiled, "How I know this, is not something I can tell you. You only need to know if you will do it or not!"

Yang Chen, with his hands behind his back, replied, "It's easy to ask for my help, but I need to know how much you know about these Primordial Treasures. If you know about all three Primordial Treasures, I might be willing to help."

Wan Huaruo paused slightly, what did Yang Chen mean? This was a huge appetite.

The other party was clearly planning to understand the Primordial Treasures and not only help her get the Heaven Shaking Lock but also get a Primordial Treasure for himself.

Chapter 3405 - Competing in Speed?_1

Wan Huaruo took a deep breath, secretly marveling at Yang Chen's boundless ambition. If it were any other Heavenly Fate realm expert, they would probably not dare to guarantee obtaining a Primordial Treasure, let alone two.

Thinking of this, Wan Huaruo had no intention of hiding anything.

She was a smart woman who knew when to hide and when not to hide.

"I do have a deep understanding of these three Primordial Treasures. They are the Heaven Shaking Lock, the Heaven-Splitting Tower, and the Heavenly Thunder Tree. The Heaven Shaking Lock must be obtained by me, and to control the Heaven-Splitting Tower, one must possess a Law of Light that matches its attributes. As for the Heavenly Thunder Tree, I think you can guess without me saying much; it corresponds to the Law of Thunder." Wan Huaruo said.

Upon hearing this, Yang Chen had a target in mind.

As for the Heaven-Splitting Tower, forget about it. He hadn't comprehended the Law of Light, so forcefully taking the Heaven-Splitting Tower and integrating it into the World Treasure might not bring him any benefits.

However, the Heavenly Thunder Tree was worth a try. After all, his mastery in the Thunder and Lightning Laws was also at its peak. However, it wasn't clear whether he could achieve the same effect as when he used the Five Elements Laws to absorb the Hellfire Mountain during the absorption of the Heavenly Thunder Tree.

After all, the Heavenly Thunder Tree is a treasure from the Origin Land and should be more difficult to conquer than ordinary treasures from the outside world.

"Are all these three Primordial Treasures together?" Yang Chen asked.

"They are very close to each other and not far apart," Wan Huaruo replied.

Yang Chen pondered, "Are you confident that you can absorb the Heaven Shaking Lock in a short period? If you're not sure, even if I create an opportunity for you, our outcome may not be that good."

Wan Huaruo smiled faintly: "Don't worry about that, I have already conducted detailed research on the Heaven Shaking Lock. As long as there's an opportunity, I have enough confidence to absorb it."

"That's good." Yang Chen thought for a moment and felt that taking this risk was not impossible.

After all, Wan Huaruo had a detailed understanding of these three Primordial Treasures, which was almost like having an extra pair of eyes. Why wouldn't he want that?

"The sooner we start, the better. But how are we going to deal with this Lava Fire Sea right now?" Yang Chen asked.

Wan Huaruo pondered, "I'm afraid you won't be able to touch this Lava Fire Sea, as it has already been activated by Wan Qiuying's formation. To absorb it, Wan Qiuying will have to do it."

"I understand." Yang Chen wasn't surprised, as there was usually a first-come-first-served basis in absorbing World Treasures.

He could understand Wan Huaruo's desire to secure benefits for her people.

He could have tried to compete, but there was no need to waste time on his own people. After all, he had already obtained a Hellfire Mountain, and the attraction of this Lava Fire Sea was not as great for him.

With that in mind, Yang Chen turned his gaze to Wan Qiuying, who was not far away.

Wan Qiuying had woken up, and now looking at Yang Chen and Wan Huaruo coming over together, she was weak but still immediately said, "I've met Aunt Huaruo and Young Master Yang Chen. Thank you, Young Master Yang Chen, for saving my life. Without your help, I wouldn't know what to do."

"Miss Qiu Ying, you don't have to be so polite. I am acquainted with your father, so helping you out is not a big deal. Right now, the priority is for Miss Qiu Ying to use this formation to absorb the Lava Fire Sea," Yang Chen said.

Wan Qiuying naturally did not dare to waste time and quickly used the power of the formation to draw and absorb the entire Lava Fire Sea into the space she had prepared.

During this process, other members of the Spirit Fire Clan also provided some assistance. It was not difficult to judge that it was somewhat difficult for Wan Qiuying alone to complete this absorption.

When the absorption was completed, Wan Qiuying took a light breath, looking a bit disheveled, managing to stabilize herself with the help of the Spirit Fire Clan members.

Once the Lava Fire Sea had been completely absorbed, Yang Chen said, "Let's hurry up and go."

"Yes, the sooner, the better. We may not have enough time. If nothing goes wrong, the other powerful ones should have already found the location of the Primordial Treasures. If we are too slow, the Primordial Treasures might be snatched away by someone else. Qiu Ying, Di Tu, you guys should stay out of this matter. The struggle for the Primordial Treasures is deep, and it may not be a good thing for you guys to participate with your strength. In my opinion, you should leave and let Yang Chen and I handle the rest," Wan Huaruo said.

Although Qiu Ying and Di Tu were somewhat reluctant, Wan Huaruo was right. Their strength was indeed much weaker compared to others. The struggle for the Lava Fire Sea was already so intense, not to mention the Primordial Treasures, which would likely result in even more casualties.

"Yes, Aunt!" They all responded, and one after another, they left.

Upon seeing them leave, Wan Huaruo finally felt satisfied. She had done her best by securing the Lava Fire Sea for the Spirit Fire Clan.

At this moment, she turned to look at Yang Chen again and immediately said, "Yang Chen, we can go now. I have an Emperor Divine Tool to save us time. This Emperor Divine Tool is called the Mysterious Sky Flying Vessel, and its speed is extremely fast. If we ride on it, we can save a lot of time."

Yang Chen smiled lightly and said, "Lady Wan, we don't need this Mysterious Sky Flying Vessel."

"Why?" Wan Huaruo asked, puzzled, "If we walk there, we might waste a lot of time, which is very unfavorable for the contention for the Primordial Treasures. You need to understand this."

"I do understand, but your Mysterious Sky Flying Vessel may not be fast enough. I have a method that can help us get to the location of the Primordial Treasures quickly. Just show me the way, and I believe my speed will be faster than the Mysterious Sky Flying Vessel," Yang Chen laughed.

Though he wasn't confident about other things, when it came to speed, Yang Chen believed that this so-called Emperor Divine Tool could not compete with him.

Wan Huaruo looked disbelievingly at Yang Chen with wide eyes, "Yang Chen, my Emperor Divine Tool has been nurtured for countless years, and its speed is the foundation of my standing in the Universal Starry Sky. There aren't many people who dare to say they are faster than my Emperor Divine Tool."

Yang Chen laughed heartily, without further explanation, and immediately said, "Lady Wan, let's not waste words. All you have to do is give up resistance. After that, you'll know everything."

When the conversation ended, Yang Chen covered them with spacetime, and in an instant, grabbing the unresisting Wan Huaruo, he entered spacetime directly.

Chapter 3406 - Jianhen Palace, The Three Great Primordial Treasures_1

At first, Wan Huaruo did not believe that Yang Chen could surpass him in speed. In her eyes, even with Yang Chen's control over space-time, he could only ensure rapid short-distance travel.

As for long-distance journeys, his pace would certainly not match her Xuantian Flying Boat.

However, she soon discovered that her thinking was completely off the mark.

Yang Chen's speed could no longer be described as fast. He had completely mastered space-time, allowing him to subtly shrink time and utilize the spatial transport to maximize his speed.

When she emerged from the space again, Wan Huaruo glanced around and exclaimed, "Yang Chen, your speed is truly astonishing. I must admit, I am impressed. I didn't expect that we would arrive so quickly."

"Are you sure the Origin Treasures are nearby?" Yang Chen asked.

"Certainly. The Heavenly Palace has the Sword Scar Palace as the main palace, and the Three Great Origin Treasures are placed within it by Dao Ancestor Jin Ling. We have now arrived at the location of the Sword Scar Palace. I never expected your space-time abilities to be not only fast but also incredibly accurate," Wan Huaruo said with a gentle smile.

Yang Chen was always confident in his own space-time skills, so upon hearing Wan Huaruo's words, he looked towards the distance.

"Sword Scar Palace, then that must be it," Yang Chen said, looking not far away.

It was not that there were clear markings on the palace, but rather a multitude of forceful auras inside it. These auras were tense, as though they could ignite a battle at any moment.

Seeing this, it was not difficult to judge that this was indeed Sword Scar Palace.

"Let's go in, and with my space-time skills, we can enter more covertly. Don't resist, follow me," Yang Chen said.

This time, Wan Huaruo no longer doubted or denied Yang Chen, as she immediately gave up resistance and followed him into the space-time. When they emerged from it, they had already entered the Sword Scar Palace.

The entire Sword Scar Palace was huge, more like an independent space rather than a palace.

This independent space was also as large as an interface, making Yang Chen secretly marvel at its ingenious design when they entered.

It should be noted that the Jin Ling Tao Palace outside was already incredibly enormous, comparable to a refined independent interface, with the Heavenly Palace also being an independent interface.

Now, within the Heavenly Palace's independent interface, there was another independent interface like the Sword Scar Palace.

Jin Ling Tao Palace truly had vast magical powers, as no one could guarantee that there were no other independent interfaces within this one.

At this thought, Yang Chen couldn't help but sigh and examine the area using his Divine Soul.

This independent interface was quite small, so with his Divine Soul, he could quickly observe all the conditions within it.

"This interface is triangular, without a sea, only land. Each corner has an Origin Treasure. Now it appears that it is exactly as Wan Huaruo said: the Heaven Shaking Lock, Heavenly Breaking Pavilion, and Sky Thunder Tree," Yang Chen muttered to himself.

Completely gentle, this made Yang Chen even more curious about Wan Huaruo's mysterious identity.

One corner, one Origin Treasure – it seemed like a long journey, but for Heaven-Separation Realm or Heavenly Destiny Realm cultivators, it was only a stone's throw.

"Let's go!" Wan Huaruo said.

Yang Chen had no thoughts about the Heavenly Breaking Pavilion, so after a moment's consideration, he led Wan Huaruo to the location of the Heaven Shaking Lock first.

As they approached the location, hiding in the shadows and the space Yang Chen had altered, they could see several groups engaged in tense confrontations and fierce battles below.

The real reason for this tension stemmed from the giant mountain perched high up in the sky not far away.

Nearby the mountain were massive black chains wrapped around it, as though they were decorations. However, upon closer inspection, it became obvious that the actual decorations were the mountains themselves.

The chains emitted an astonishing aura, as if they were to lock the entire mountain.

This aura attracted the attention of many powerhouses, who took a keen interest in it.

As a result, the Human Race, Netherworld, Fierce Evil Clan, Insect Clan, Spiritual God Clan, and all the affiliated races gathered here – none were absent.

Compared to the others, Yang Chen naturally paid more attention to the situation of the Human Race.

On the Human Race's side, six Heavenly Destiny Realm powerhouses led the group, all of whom had reached the Heavenly Destiny Realm Early Stage, with formidable strength.

Yang Chen was familiar with most of the six Heavenly Destiny Realm powerhouses, as he had conducted a brief investigation beforehand.

Among them, there was one person he knew quite well – a disciple of Spiritual Separation Dao Ancestor, with whom he shared a deep enmity: Yin City.

Yang Chen knew that Yin City had come to Jin Ling Tao Palace as well, but he did not expect that they would meet in such a place.

Of course, Yang Chen had no good feelings about Yin City.

Lead by the six Heavenly Destiny Realm powerhouses, Yang Chen could sense the intensity of the struggle for the Origin Treasures.

Since there were already six Heavenly Destiny Realm powerhouses leading the Human Race, it was clear that the other races' Heavenly Destiny Realm powerhouses would also be well-represented.

The Spiritual God Clan had three, not many in number, but with astonishing combat power.

The Insect Clan also had three, equally matched with the other races.

The Fierce Evil Clan had five, while the Netherworld had the most, with seven Heavenly Destiny Realm cultivators among them.

All of them were focused on the chain, and no one dared to act rashly. It seemed that everyone was waiting for an opportunity to present itself.

"Yang Chen, let's take action now. I'm confident that I can quickly absorb the Heaven Shaking Lock, and with your space-time law, we can swiftly leave," Wan Huaruo said.

"Take action? You're too impatient," Yang Chen chuckled. "Moreover, you think too simply of these people. These Heavenly Destiny Realm cultivators are all focused on the Heaven Shaking Lock; if we take action, they'll react immediately and block us. Your method may be fast in absorbing the Heaven Shaking Lock, but can you maintain that speed under interference?"

"What do you suggest?" Wan Huaruo asked.

"We'll bide our time, wait for a chaotic moment, and act then..." Yang Chen muttered.

This was his usual approach – seeking stability and playing the long game.

Although he was eager to take the Heaven Shaking Lock and then obtain the Sky Thunder Tree, he couldn't act recklessly in the current situation.

Compared to all these Heavenly Destiny Realm powerhouses, his combat power was still too insignificant.

Yang Chen remained still, while the powerhouses from various clans watched each other closely, neither daring to make a move.

Finally, a rumbling noise swept in from the distance.

"It's the sound from Heavenly Breaking Pavilion."

"Heavenly Breaking Pavilion has been taken by the Netherworld. Damn it!" One Human Race Heavenly Destiny Realm cultivator gritted his teeth and cursed.

"We must seize the Heaven Shaking Lock. We didn't prepare well enough before our arrival. The Thunder Art we can use is not enough to take control of the Sky Thunder Tree; we can't hope to win the struggle. Now, our only chance is the Heaven Shaking Lock."

Chapter 3407 - Intervening and Competing_1

These powerful ones were all releasing their souls, so they could sense any changes in the three great origin treasures.

When the various clans sensed that the Netherworld had taken the Heaven-Splitting Tower, they couldn't help but feel angry.

Only the seven Netherworld Ghost Kings were laughing heartily, feeling elated as they gained the upper hand in absorbing the Heaven-Splitting Tower.

Although the powerful ones from other factions were angry, they couldn't leave now, because if they left, they might lose not only the Heaven-Splitting Tower but also the Heaven Shaking Lock here.

"No matter what, we must obtain the Heaven Shaking Lock!" A strong human in the Heavenly Fate Realm declared unequivocally, "The outcome of this Forbidden Spirit Palace expedition determines the future destiny of each clan. If we can obtain an origin treasure for our clan, we will gain an advantage in future conflicts with other factions!"

A group of Heavenly Fate Realm experts knew the seriousness of the situation and couldn't afford to be careless, clearly aware of the grim circumstances.

Silver City, on the other hand, narrowed his eyes in contemplation. If he were to obtain the Heaven Shaking Lock first and offer it to Spirit Separation Ancestor, the Ancestor would undoubtedly nurture him even more. His cultivation level would soar sooner or later.

As these thoughts settled, the various clans were eager to act, no longer willing to wait patiently.

Yang Chen also sensed the change in the atmosphere and was ready to take action at any moment.

This wait did not last long; finally, when a strong member of the Ruthless Beast Race could no longer hold back, he was the first to make a move.

When he made a move, he directly summoned a mirror, which he shone all over the Heaven Shaking Lock.

The dazzling light from the mirror shone on the Heaven Shaking Lock, causing it to react instantly.

Obviously, this Heavenly Fate expert from the Ruthless Beast Race intended to use the mirror to capture the Heaven Shaking Lock.

However, other Heavenly Fate Realm experts wouldn't agree. When the Ruthless Beast Race expert made a move, they immediately took to the air, trying to surround and attack him.

But the other four Heavenly Fate experts from the Ruthless Beast Race were prepared, and they joined forces to block the experts from other factions, buying enough time for their clan member to absorb the lock.

However, they underestimated the absorption speed and overestimated their own combat power.

Experts from other factions were not fools. Seeing the Ruthless Beast Race trying to make a move on the Heaven Shaking Lock, they would attack the Ruthless Beast Race first to prevent the lock from falling into their hands.

With so many powerful beings attacking, how could the Ruthless Beast Race hold on? In just a short moment, the Ruthless Beast Race expert holding the mirror was attacked by a strong member of the Spirit Clan.

This attack caught the Ruthless Beast Race Heavenly Fate expert by surprise, forcing him to dodge hastily, and he had no choice but to stop the pulling force from the mirror.

Seeing this, an insect mother expert from the Insect Race seized the opportunity to summon a red sun shining brightly and aiming it at the Heaven Shaking Lock.

In an instant, numerous powerful experts attacked the Insect Race, and the scene was plunged into chaotic fighting.

"Yang Chen, it's almost time for you to make a move." Wan Huaruo said anxiously.

"Don't worry, don't worry..." Yang Chen still remained calm, waiting patiently.

Wan Huaruo was anxious, feeling that if they were not careful, the Heaven Shaking Lock would be absorbed by someone else.

However, Yang Chen was extremely patient, continuing to wait.

The scene was still incredibly chaotic, and for a time it was difficult to see who held the upper hand. Even if one side had a more overwhelming combat power, they couldn't show their full potential in this chaotic situation.

Nevertheless, as the chaos continued, Yang Chen soon noticed the movements of a strong member of the Spirit God Race.

Now, it was Silver City, a human Fate Realm expert, who was trying to absorb the Heaven Shaking Lock.

The Spirit God Race Heavenly Fate Realm expert that Yang Chen was paying attention to seemed to be fighting other experts, but he was secretly setting up a secret array with his law tactics.

When the array was almost in place, the Spirit God Clan expert slapped Silver City, who was currently attempting to absorb the Heaven Shaking Lock.

This slap was life-threatening, and Silver City, engrossed in absorption, had no choice but to dodge.

As he dodged, the secret array was immediately activated, emitting an explosive, brilliant light as it began to pull and absorb the lock chain.

"It's the Nine-Light Heavenly Pearl Array!" Many experienced and cunning experts were shocked when they saw this array.

"Not good, stop those Spirit God Clan experts quickly. The Nine-Light Heavenly Pearl Array is extremely powerful, and it might really absorb the Heaven Shaking Lock at an extremely fast speed!" Various clan experts urged, rushing toward the Spirit God Race Heavenly Fate experts.

But those Spirit God Heavenly Fate experts showed an upward curve in their mouths, showing no fear, and instead formed a defensive line together by shaking their bodies.

And around them, each gave birth to a soul body Asura.

They didn't count on using the Soul Body Asura to achieve victory, but instead used it to block the experts from getting close.

"Soul Body Asura, these Spirit God Clan experts have it too, even though they are not from the Royal Spirit God Clan?" Yang Chen asked in surprise.

"They were given it by the Royal Spirit Gods in order to obtain this Heaven Shaking Lock," Wan Huaruo replied angrily.

Yang Chen watched and pondered for a moment before asking, "Wan Huaruo, what method have you prepared, and is it faster than the Nine-Light Heavenly Pearl Array absorption?"

"Almost, the Nine-Light Heavenly Pearl Array's absorption speed is already considered the peak. If we don't intervene, I'm afraid the Heaven Shaking Lock will become someone else's possession," Wan Huaruo said.

Yang Chen chuckled, "Don't worry, just bring out the thing you're relying on."

Not daring to hesitate, Wan Huaruo immediately took out a light sphere and handed it to Yang Chen.

Upon receiving the light sphere, Yang Chen's figure flashed, leaving a message: "You wait for me here."

After saying this, he leaped forward.

At this point, the situation had entered a critical phase, and experts from all factions were so excited that their scalps tingled. In a short space of time, they simply couldn't break through the defense line of the Spirit God Clan.

Without breaking through their defenses, how could they stop the Spirit God Clan from absorbing the lock?

"Not good! The Nine-Light Heavenly Pearl Array is about to absorb the Heaven Shaking Lock!" A Heavenly Fate Realm expert from the Human Race shouted.

"What a disaster! Are we really not going to get a single origin treasure this time?"

They all knew what the outcome would be if they were the only ones who didn't obtain an origin treasure.

The Human Race would suffer a devastating defeat in the battle for destiny.

The Spirit God Race was now showing excited smiles, believing they already had the Heaven Shaking Lock in the bag.

However, just as they were displaying their confidence, a beam of light suddenly pierced into the Nine-Light Heavenly Pearl Array.

The intrusion of this light was none other than Yang Chen, who used space-time traversal to pass through the Soul Body Asuras and arrived at the center of the three great Spirit God Race Heavenly Fate experts.

Chapter 3408 - The Last Trump Card_1

Yang Chen's intervention was sudden.

With his spacetime insertion, it took almost an instant, and even the three Heavenly Fate Realm Spirits of the Spirit God Clan, who had quick reactions, couldn't anticipate this situation.

When they finally reacted, it seemed a bit too late.

Yang Chen first launched a spear, directly aiming at the Heavenly Fate Realm Spirit God Clan member controlling the Nine Light Heavenly Pearl Formation. This attack used his peak spear, the God-killing gun.

This attack was obviously not a joke. At first, the Heavenly Fate Realm Spirit God Clan member didn't think much of it, believing that a Heaven-separated Realm expert couldn't hurt him in any way.

However, in an instant, he suddenly felt the crisis approaching.

This crisis caused him to dodge subconsciously.

As soon as he dodged, the Nine Light Heavenly Pearl Formation ceased to work, unable to attract the Heaven-shaking Lock. On the contrary, Yang Chen's light sphere emitted light, directly shining into the Heaven-shaking Lock.

Seeing this, the onlookers were dumbfounded, while the three Great Spirit God Clans roared: "No good! Stop him quickly!"

None of the three Great Spirit Races could calm down.

They were well aware that the Nine Light Heavenly Pearl Formation had almost succeeded in capturing the Heaven-shaking lock, which had become extremely docile at this moment and was about to be successfully captured. However, Yang Chen intervened, and the progress made by the Nine Light Heavenly Pearl Formation was now being hijacked by him.

At this point, Yang Chen used his light sphere to absorb the Heaven-shaking Lock, and in an instant, he could almost absorb it completely.

How could they not be angry?

The strong experts of other races were also taken aback, not knowing what had happened. All they knew was that a figure suddenly appeared, and the Three Great Spirit Races couldn't sit still.

The most unbelievable were the Heavenly Fate Realm experts of the Human Race.

They thought that their own race was doomed this time, failing to obtain any of the Three Great Origin Treasures. How could they explain such a loss when they returned home?

But now, who would have thought that while they didn't have the ability to obtain the treasures, a dark horse suddenly appeared and stopped the Spirit God Clan.

A group of Human Race experts laughed heartily.

"Is this Yang Chen?"

"Yes, it's Yang Chen."

"Hahaha, that's great. Although I don't know why Yang Chen is here, it's a good thing for us that he can obtain the Heaven-shaking Lock. Let's quickly help him and not let other race's experts take advantage."

At present, it's even difficult for other races to take advantage, as they can't break through the three Great Soul Asuras.

And the Three Great Spirit Races were burning with anxiety. They had to block the experts of various races in front of them and guard against Yang Chen behind them.

In a blink of an eye, it all happened in an instant.

Yang Chen's light sphere shone on the Heaven-shaking Lock, emitting a brilliant light, and before the Spirit God Race experts could stop it, it burst opening. The Heaven-shaking Lock directly ascended from the mountain stream, and was attracted by the force of the light sphere, directly disappearing into Yang Chen's space.

Seeing this, the corners of Yang Chen's mouth curled slightly into a confident smile.

"Let's go!"

Having obtained the Heaven-shaking Lock, Yang Chen didn't dare to stay for long and hurriedly left. He left without any hesitation.

Together with Wanhua Ruoru, they disappeared into the space, leaving no trace.

This scene almost infuriated the Three Great Spirit Race experts to the point of their lungs exploding. Their eyes were fierce, bloodshot, and they looked like ferocious beasts, unable to bear such humiliation.

The Heaven-shaking Lock was about to become their possession, but it was robbed at the most critical moment. How could they be willing to accept that?

For a moment, the Three Great Spirit Races' Heavenly Fate Realm experts let out an angry roar: "Chase him, shatter this kid into pieces!"

Seeing that the three Spirit God Race Heavenly Fate Realm experts were about to chase Yang Chen, the other Human Race Heavenly Fate Realm experts naturally wouldn't sit idly by.

In their eyes, as long as this Origin treasure was obtained by humans, it would suffice. Yang Chen obtaining it first and running away was the right thing to do, and there was no need to greet them any further.

What they needed to do was to buy time for Yang Chen, get enough time for him. Once Yang Chen was safe, the Origin treasure would also become an item of their human race.

However, there was one person who didn't think this way.

This person was Silver City.

At this moment, Silver City was standing in front of the Three Great Spirit Races, unwilling. He and Yang Chen had an irreconcilable feud.

Yang Chen has now obtained one of the Three Great Origin Treasures...

He had to find a way to get it from Yang Chen. If it really fell into the hands of the Spirit God Race, he might not be able to obtain it, but if it fell into Yang Chen's hands, it would be a different story.

...

At the same time, Yang Chen and Wanhua Ruoru left, but they didn't escape from this place as the other Human Race Heavenly Fate Realm experts had wished.

Yang Chen's ambition was obviously greater, and his goal was the Heavenly Thunder Tree.

It had to be said that the six human Heavenly Fate Realm experts had bought enough time for him, allowing him to come to the vicinity of the Heavenly Thunder Tree and shake off the pursuit of their souls.

These experts had probably never thought that after obtaining the Heaven-shaking Lock, Yang Chen didn't escape but instead approached the Heavenly Thunder Tree.

On the way, Yang Chen had already handed the Heaven-shaking Lock to Wanhua Ruoru.

At this moment, when they arrived near the Heavenly Thunder Tree, Yang Chen and Wanhua Ruoru took a look at the situation around the tree first.

Compared to the Heaven-shaking Lock, the Heavenly Thunder Tree wasn't much stronger. The fight had already begun here as well.

However, compared to the forces of the human race present, there were fewer human Heavenly Fate Realm experts here, only three of them.

Apparently, humans didn't value the Heavenly Thunder Tree as much as the Heaven-shaking Lock.

In this fight, the humans were at a disadvantage, barely managing to snatch some small opportunities thanks to the mutual entanglement of the various races.

As for now, it was hard to determine who would obtain the Heavenly Thunder Tree. However, it can be inferred that the Ruthless Beast Race was more ferocious and powerful.

The Ruthless Beast Race had seven members present, and their strategic intention was obviously to gather together.

As for the Netherworld and Spirit God Races, they were weaker in terms of numbers and strength, but they still wouldn't be easily defeated in a true battle.

"Yang Chen, you helped me get the Heaven-shaking Lock, and I won't let you down in return. If you need anything, just ask. I'll do my best to help you get the Heavenly Thunder Tree," said Wanhua Ruoru.

Yang Chen looked at the Heavenly Thunder Tree, deep in thought.

Wanhua Ruoru definitely couldn't help him much. It wouldn't be as easy for him to obtain the Heavenly Thunder Tree as it was to get the Heaven-shaking Lock.

That's because he didn't have advance preparation like Wanhua Ruoru. If having only one Thunder and Lightning Law could get him the Heavenly Thunder Tree, then many experts would have done so long ago.

To obtain the Heavenly Thunder Tree, he would definitely need to spend some time.

Who could buy him that time?

As Yang Chen pondered, he thought of the only trump card he could use at the moment! The question was whether this trump card would willingly step forward...

Chapter 3409: Instantly Killing the Heaven-appointed Realm_1

Having thought about this, Yang Chen closed his eyes, not knowing what he was doing.

Wan Hua Ruo's eyes were also filled with confusion. At this time, Yang Chen should have focused his attention more on the Heavenly Thunder Tree in front of him, but instead, he closed his eyes and seemed unconcerned.

However, it was not difficult to see that Yang Chen's expression was serious. As he closed his eyes, it seemed that he was not doing nothing.

But as for what he was doing, she couldn't figure it out.

Thinking this way in her heart, Wan Hua Ruo could only focus on the situation ahead of her, so that she could describe the more favorable circumstances to Yang Chen when he was finished.

Yang Chen's closed eyes did not last long, and soon, he opened them abruptly, as if he had received some confirmed news.

When this message was confirmed, Yang Chen's mouth curled into a small smile, and then his eyes stared directly ahead, with a burning gaze.

"Yang Chen, there's no time to waste. The Ruthless Beast Race has now gained the upper hand, and they have already begun to absorb the Heavenly Thunder Tree. If you don't make a move now, I'm afraid there will be no chance later." Wan Hua Ruo said.

Yang Chen looked at Wan Hua Ruo, who was still observing the situation for him, and nodded lightly in gratitude, then said: "No need to worry..."

Taking action now was not the best timing for his plan.

Yang Chen's soul dispersed, observing every change around him. Not only the change of the Heavenly Thunder Tree but also the distant changes from the Heaven Shaking Lock.

At the Heaven Shaking Lock, the six major human race heaven-mandated realm experts were trying hard to buy time for him, and Yang Chen saw it all.

However, the time they fought for wouldn't be too long. As Wan Hua Ruo said, he had to act faster.

"Not much time left..." Yang Chen thought to himself.

However, just as he intended to make a move, he saw an interesting scene.

The Ruthless Beast Race was indeed firmly in control of the situation, but other races weren't just waiting for death. The Netherworld, in particular, was lurking around, seemingly plotting something.

As the saying goes, those in the game are blinded, while those who watch from the sidelines see clearly. The powerful ones from various clans in the battle could hardly detect the intentions of the Netherworld people, but Yang Chen could see it clearly from the side.

Seeing the appearance of these Netherworld Ghost Cultivators, Yang Chen shook his head. He didn't believe for a moment that these Netherworld Ghost Kings had no ulterior motives.

Since that was the case, he didn't mind playing the role of the mantis catching the cicada with the oriole waiting behind.

Just as he had guessed, several Netherworld Ghost Kings seemed unintentional but suddenly, they simultaneously offered a treasure with a ghost face on it.

These treasures were clearly high-grade Emperor Divine Artifacts, and several of them gathered together, their power was astonishing and extremely shocking.

Several ghost faces hissed and tore towards the Ruthless Beast Race, causing the powerful ones to retreat while the initiative to absorb the Heavenly Thunder Tree was nearly occupied by these Netherworld Ghost Kings.

"Hmph, Netherworld, I knew you were up to no good!" The powerful experts of the Ruthless Beast Race were also well-prepared and guardedly prevented the schemes of the Netherworld Ghost Kings from succeeding.

Seeing that they had only forced the Ruthless Beast Race back, but failed to shake the control of the Heavenly Thunder Tree, the Netherworld Ghost Kings frowned and looked serious.

“Ruthless Beast Race, you are indeed not easy to deal with, but getting the Heavenly Thunder Tree won’t be so easy for you either!” When the conversation ended, a group of Netherworld cultivators charged towards the Ruthless Beast Race.

The powerful experts of the Ruthless Beast Race were covering the ones who were manipulating the Heavenly Thunder Tree. In an instant, they attacked with their laws, and their bodies were surrounded by black gas. The surrounding area was pitch black.

Yang Chen was actually pleased to see this darkness, as it was none other than Sa Qi. The Ruthless Beast Race was indeed related to the Earth Fiend Clan that he had learned about, and they were adept at using Sa Qi.

Moreover, their use of Sa Qi was evidently very sophisticated, far more so than any other group that Yang Chen had encountered.

However, at this moment, this Sa Qi had become an essential treasure to assist and help Yang Chen.

“With this Sa Qi, it won’t be difficult for me to sneak in,” Yang Chen thought to himself.

Highly skilled Sa Qi could block the effects of souls, even more, advanced than Ghost Qi.

Now the Ruthless Beast Race was engaged in a battle, specifically a battle between Sa Qi and Ghost Qi. The Ghost Qi was completely and utterly devoured by the Ruthless Beast Race’s Sa Qi.

Meanwhile, Yang Chen said, “Huaruo, you should leave first. With the Heaven Shaking Lock, it’s too dangerous for you to stay here.”

Wan Huaruo gratefully looked at Yang Chen, knowing that he meant well for her, and softly said, “Thank you. I’ll keep my promise. Everything you want is here. Yang Chen, we’ll meet again.”

Wan Huaruo waved her hand and directly took out a light sphere. The light sphere was made by carving souls and was filled with memories.

Yang Chen knew what it was and accepted the light sphere, storing it in the space.

Wan Huaruo did not linger for too long, and in a single leap, she disappeared from the spot.

Only after seeing Wan Huaruo leave did Yang Chen feel relieved. It was not a good thing for her to stay here, as her strength was relatively weak compared to the situation here.

Yang Chen's eyes were bright, and with Wan Huaruo's departure, it was time for him to act.

He targeted the situation ahead, and the Sa Qi, which he hadn't used for a long time, suddenly unfolded.

It was precisely because of the unfolding Sa Qi that Yang Chen used his Spacetime Divine Power to infiltrate the crowd of Ruthless Beast Race members.

Wrapped in Sa Qi, the powerful warriors of the Ruthless Beast Race were engaged in a fierce battle with Netherworld people, and when they sensed the Sa Qi, they had no idea whether Yang Chen was an ally or an enemy. They assumed it was their companion who had summoned the new Sa Qi.

Seeing that no one had noticed him, Yang Chen became even more at ease; this was the effect he wanted.

The next moment, he aimed at the Ruthless Beast Race warrior who was pulling the Heavenly Thunder Tree and was preparing to make his move.

"Slaughter God Spear, I'll need your help again," said Yang Chen with a click of his tongue.

The Slaughter God Spear knew that its master still needed its God-slaying Spear move, and its body shuddered involuntarily. With a tearful and pained voice, it said, "I am willing to give my all for Young Master."

Yang Chen laughed at the Slaughter God Spear's reluctance and then, without hesitation, aimed the God-slaying Spear at the Ruthless Beast Race's Heaven-appointed Realm expert.

This was an ambush, and its effects were even better.

Swift as lightning, it was not easy to dodge.

A soft thud was heard, and in an instant, the Ruthless Beast Race's Heaven-appointed Realm expert, who had yet to react, had already perished on the spot.

Nobody else noticed when Yang Chen had killed this Ruthless Beast Race expert, and all of their attention was on the Netherworld Ghost Cultivators.

Yang Chen sighed in relief after successfully killing the Ruthless Beast Race Heaven-appointed Realm expert with a single hit.

"Not bad. The power of the Ruthless Beast Race is weaker than that of the Spirit God Race, and they didn't react much. They were slain with a single strike..." Yang Chen thought to himself: "But I don't have much time left. I need to absorb the Heavenly Thunder Tree quickly."

Chapter 3410 - The Final Moment_1

Yang Chen immediately used his means and released the Thunder and Lightning Laws.

Of course, to be on the safe side, he still released an abundant amount of Sa Qi so that when using the Thunder and Lightning Laws, he would not be detected by the enemy.

Once the Thunder and Lightning Laws were released, they struck the Heavenly Thunder Tree.

Yang Chen's expression was solemn, meticulous, not daring to slack in the slightest.

He didn't know what kind of effect using Thunder and Lightning Laws on the Heavenly Thunder Tree would have.

However, the result was quickly revealed.

When the result was revealed, Yang Chen's whole body froze.

On the Heavenly Thunder Tree, a burst of astonishing power crackled, and then, Yang Chen only felt his whole body freeze as the attraction of the Thunder and Lightning Laws was rebounded back.

This shocked Yang Chen. His failure to attract wasn't due to someone interrupting him, but purely being rejected by the Heavenly Thunder Tree.

To gain the approval of the Primordial Treasure and absorb it into space, a huge cost must be incurred, and a power that can suppress and stabilize the Heavenly Thunder Tree must be used.

His Thunder and Lightning Laws were obviously inadequate.

"Not good..." Yang Chen felt a bad omen. The most ominous was not his failure to absorb the Heavenly Thunder Tree with the Thunder and Lightning Laws, but the possibility of being exposed once he failed.

Yang Chen's worries were not unfounded. At the first moment of his failure, a Ruthless Beast Race expert of the Heavenly Fate Realm sensed that something was wrong.

"Hmm? Just now, the Heavenly Thunder Tree seemed to fluctuate for a moment, as if the attraction had failed? Impossible, our prepared Thunderfire Separation Array has a full-proof plan, the previous process went smoothly, how could it fail here? Something must be wrong somewhere... No..."

The Heavenly Fate Realm Ruthless Beast Race expert looked at the Sa Qi in front of him and felt more and more wrong: "Hao Jing's Sa Qi isn't like this, this Sa Qi..."

When the conversation ended, the Heavenly Fate Realm Ruthless Beast Race expert immediately wanted to rush over but was suddenly stopped by another Netherworld Ghost King.

...

Yang Chen didn't know that he had been saved by a Ghost King from the Netherworld again.

Now that he had failed to absorb the Heavenly Thunder Tree using only the Thunder and Lightning Laws, Yang Chen also knew he underestimated the Heavenly Thunder Tree too much.

"I can only use this..." Yang Chen murmured, "Ten Thousand Law Dao Embryo, strengthen Thunder and Lightning Laws!"

The only thing on him that could change the current situation was the Ten Thousand Law Dao Embryo.

Ten Thousand Law Dao Embryo first level - strengthen the Thunder and Lightning Laws.

However, now that Yang Chen's Ten Thousand Law Dao Embryo had been cultivated to the second level, even if he only strengthened the Laws, it was much stronger than when he cultivated to the first level.

Once strengthened like this, the use of the Thunder and Lightning Laws became completely different from the beginning.

Yang Chen didn't dare to waste any time. The strengthening time of the Ten Thousand Law Dao Embryo was limited, so he took advantage of the opportunity and directly attempted to attract the Heavenly Thunder Tree with the strengthened Thunder and Lightning Laws.

The absorption this time was indeed different from the beginning.

Yang Chen's attitude became increasingly serious. If it didn't work even after being strengthened by the Ten Thousand Law Dao Embryo, he wouldn't have any other options.

It had to be successful.

With a solemn expression, Yang Chen paid full attention and devoted all his energy to absorbing the Heavenly Thunder Tree.

The process went smoothly, and the strengthened Thunder and Lightning Laws did not disappoint Yang Chen.

As the process went so smoothly, Yang Chen let out a sigh of relief.

As long as he had enough time, the Heavenly Thunder Tree would be his.

Yang Chen's eyes gleamed, ready for battle.

At this rate, it was only a matter of time before the Heavenly Thunder Tree became his possession. However, just at this moment, the Sa Qi he had set up around him was suddenly dispelled.

Immediately after, a Ruthless Beast Race expert at the Heavenly Fate Realm appeared in front of Yang Chen in an instant.

This caused Yang Chen's pupils to shrink, knowing that something was wrong and that his actions had been exposed. Moreover, it was exposed at such a critical moment, which made him unwilling to accept.

"Sure enough, an accident happened. A mere Heaven-separated Realm human dares to meddle in our affairs. Die!" This Heavenly Fate Realm Ruthless Beast Race expert was furious, and while speaking, he moved to attack Yang Chen.

At this moment, the Netherworld Ghost King couldn't hold back either. Whoever touched the Heavenly Thunder Tree would be their opponent, so they rushed towards Yang Chen.

Yang Chen hurriedly used Spacetime Sudden to teleport a short distance away.

He managed to barely avoid the onslaught of Laws.

Once the absorption process was disturbed and changed, it would often fail. However, Yang Chen's space teleportation was entirely space-driven, and Yang Chen stayed still, so it did not affect the process at all.

However, such spacetime teleportation was obviously only a temporary solution, because the range of the Heavenly Thunder Tree was extremely small, and where could he teleport to?

A group of strong experts of the Destiny Realm targeted Yang Chen, not caring about his spacetime teleportation. Seeing Yang Chen dodge, they directly pursued and killed him again.

"Die!"

"You want to take our Ruthless Beast Race's treasure. It's not that easy!"

Yang Chen saw the strong experts of the Ruthless Beast Race coming from all directions, and the Ghost Kings of the Netherworld were also ready to strike, knowing that even using spacetime teleportation to evade would be of no avail.

These strong experts of the Destiny Realm had already prepared to defend.

Not only the Netherworld and Ruthless Beast Race, but the Spirit God Race and Insect Race were also here. The few human cultivators present were shocked to see a human cultivator trying to snatch the Heavenly Thunder Tree.

However, when they wanted to intervene, the powers of the three Heavenly Destiny experts seemed too weak.

Yang Chen was shaken. Unless he teleported out of the Heavenly Thunder Tree area now, he would lose his life here.

Would it just end in failure?

Yang Chen's heart wouldn't be content with it.

But just at this critical moment, suddenly, a few Heavenly Destiny Realm cultivators appeared.

These Heavenly Destiny cultivators were actually all from the Insect Race, a total of six appeared, with an astonishing lineup. Although it was still unrealistic to defeat the strong experts of the Destiny Realm in front of them, it was still easy to change the situation and hinder them for a bit.

This reinforcement arrival immediately changed Yang Chen's predicament, allowing him to breathe a sigh of relief.

"If you hadn't come, I would have been in trouble." Yang Chen sighed and said.

A woman's delicate voice rang: "Yang Chen, you owe me a big favor now. Among the Three Great Origin Treasures, none are suitable for me. I didn't plan to fight for them, and I didn't even help my own sect group. But today, I made a move for you, so you better repay me well."

Yang Chen laughed: "Miss Xingtong, don't worry, you should trust my character, I, Yang Chen."
