Chapter 3441 - Show Mercy_1

Yang Chen thought of his companions and naturally would not leave and abandon them.

That's why he quickly took action, heading directly to various interfaces, bringing back those strong experts one after another.

With Yang Chen's spacetime techniques, it was quick and easy to bring back these powerful experts.

Most importantly, his current methods were very different from before.

When he was in the Heavenly Separated Realm, he couldn't lead so many powerful people out like this. But at this stage of strength, when he unfolded his world, he could accommodate all the experts and put them into his own world.

His world could accommodate hundreds of millions of people without any problem, and no matter how many experts from different interfaces he brought, he would not find it too much.

So, Yang Chen walked through the various interfaces, bringing all the powerful people he could into his world.

Among them, the most valuable were the six remaining Heavenly Fate Realm World Stage Experts.

Out of the original eleven World Stage experts, five had fallen. Yang Chen was helpless about this. After all, even he could hardly protect himself in a place like the Netherworld.

When the powerful experts of the Forbidden Spirit Dao Palace returned, they caused a huge impact on the entire outer perimeter of the Dark Flow Universe.

Fortunately, the human experts arrived in time; otherwise, he would have died too.

What relieved Yang Chen the most was that Bao Lu was still safe and sound. That was the most valuable thing to him.

In this way, Yang Chen led a group of powerful experts and quickly headed towards the agreed place with Ye Shan Dao Ancestor.

This place had already been prepared by three Daoist Ancestor Experts, allowing them to leave the Dark Flow Universe in time.

"It's Yang Chen, Yang Chen is here."

A group of powerful experts saw Yang Chen safely returning, and a smile appeared on their faces.

Yang Chen was the person that the three Daoist Ancestors had repeatedly instructed to ensure their safety. Now that he was safe, they were reassured.

"Are the three Dao Ancestors alright?" Yang Chen asked.

A Heavenly Fate Realm Expert said: "Brother Yang Chen, the three Daoist Ancestors are now fighting against the Netherworld's Ghost Ancestor. If we join in now, we will only affect the three Daoist Ancestors. Our most important task now is to evacuate from this universe. Once we leave, the three Elder Dao Ancestors can easily withdraw without distractions."

"That's good," Yang Chen nodded.

"You want to go? It's not that easy!" At this moment, a group of Yin Qi floated over, and several Yin Soul Ghost Creatures directly appeared in front of the powerful experts.

These Yin Soul Ghost Creatures included four late-stage Heavenly Fate Realm experts and six mid-stage Heavenly Fate Realm experts. Their combat power could not be underestimated.

Yang Chen knew that these were the Ghost Kings who had just returned from the Forbidden Spirit Dao Palace.

Otherwise, they wouldn't dare to be so rampant in front of him, because they knew nothing about him.

As for the Night Ghost Ancestor, he had been chasing Yang Chen for the past few days, so he didn't have time to tell these juniors about Yang Chen.

"Lone Wind Ghost King, you want to stop us? That depends on whether you have the ability to do so." The human experts stood up one after another.

There was no lack of combat power among the human experts.

Once they stood out, there were five late-stage Heavenly Fate Realm experts and eight mid-stage Heavenly Fate Realm experts. Their combat power was higher than that of the Netherworld side.

Lone Wind Ghost King saw that his side was slightly at a disadvantage, but he wasn't scared at all. Instead, he sneered: "I never said I would win against you. I just need to stop you. We have another Heavenly Extreme Realm Ghost Ancestor senior in the Dark Flow Universe who is free now and is rushing towards this place. Once he arrives, it'll be time for you all to be buried."

"What!" The Heavenly Fate Realm experts suddenly panicked.

They couldn't deny these words, because according to their estimates, there were currently four Heavenly Extreme Realm experts in the outer perimeter of the Netherworld Dark Flow Universe.

There were only three of them fighting with Ye Shan Dao Ancestor, and the other one had yet to appear...

"Let's go first!" A late-stage Heavenly Fate Realm human expert barked.

"Listen to Captain Han, evacuate first!" An elder immediately followed.

"You want to leave? Is it possible?" The Lone Wind Ghost King waved his hand, and Ghost Qi surged directly, filling the broken gap of the Dark Flow Universe barrier that was originally broken.

As the barrier filled up, the powerful experts had to stop and their pupils shrank.

"What's going on? It actually fixed itself?"

"It's because of the Ghost Qi of the Lone Wind Ghost King. This barrier itself is made from an extremely terrifying Ghost Qi. Although the three Daoist Ancestors have broken a hole, it's easy to fix it. But with the Ghost Qi of Lone Wind Ghost King, the filling effect won't be very strong. If we continue to bombard it, in a short time, we can reopen the gap." Captain Han said.

"Hehe, you're all welcome to try, but don't say I didn't warn you," Lone Wind Ghost King said coldly.

The group of powerful experts knew Lone Wind Ghost King's plan well.

If they actually bombarded the Dark Flow Universe barrier, they might just fall into Lone Wind Ghost King's trap.

They had to deal with Lone Wind Ghost King first.

But, with another Heavenly Extreme Realm powerhouse arriving...

"Damn it!" Some powerful experts felt resentful. If it weren't for Yang Chen, they might have already left the Darkflow Universe by now.

At this moment, Yang Chen's voice was transmitted into everyone's ears through his soul.

"Everyone, follow my plan later. We can completely solve them before that Heavenly Extreme Realm expert arrives."

This voice was indeed Yang Chen's.

A group of experts listened to Yang Chen's words, bewildered: "Brother Yang Chen, are you joking? What can we use to deal with these Ghost Kings?"

Yang Chen moved his lips slightly, explaining his methods one by one.

"Spacetime Domain..." The group of experts, listening to Yang Chen's words, did not understand Yang Chen's Spacetime Domain.

"Seeing is believing, try it for yourselves."

Yang Chen stomped on the ground, and the power of the world instantly unfolded, directly strengthening the flow of time. All the experts within the scope of his world power felt a dramatic change.

Time had changed.

"So fast, my speed is so fast."

"How is this possible? It's so mysterious."

A group of powerful experts couldn't believe what was happening in front of them.

"Hahaha, with this speed, there's no need to worry about not defeating these Ghost Kings."

At first, some of the experts held grudges against Yang Chen, but now, their grievances vanished in an instant.

At first, they were skeptical about Yang Chen's Spacetime Domain, but after experiencing it, they were no longer doubting at all.

That's because, within the Spacetime Domain, they felt their own combat power increased several times.

Even when dealing with these Ghost Kings, their confidence was at an all-time high.

With their numerical superiority, they might be able to kill one or two Ghost Kings.

But at this moment, Yang Chen made a shocking statement: "Everyone, please be merciful towards these Ghost Kings and do not kill them."

Chapter 3442 - Take as Much as They Can Give_1

The group of Powerful Ones were completely confused.

"Yang Chen, what do you mean by that!"

"Yang Chen, why should we show mercy to these Ghost Kings of the Netherworld? Even if there's a reason, we absolutely can't be soft-hearted at this time. If you show them mercy, it's like sacrificing our lives."

What does Yang Chen mean?

It was not easy to gain an advantage in spacetime and be able to suppress these Netherworld Ghost Kings. Just as they were about to enjoy themselves, Yang Chen, with a single sentence, told them not to kill?

What feelings and sentiment can exist between humans and the Netherworld, that they should spare their lives?

Yang Chen smiled faintly: "Fellow Daoists, don't worry, just do as I say and spare their lives. I am confident that I can make these Netherworld Ghost Cultivators even more passive than they are now."

"But..." A few Powerful Ones couldn't help but speak up again.

However, Captain Han waved his hand: "Let's listen to Brother Yang Chen."

"Captain, why are you also..." The other Powerful Ones were full of doubts.

Captain Han said with his hands behind his back: "Think about it carefully, Brother Yang Chen has survived in the Outer Darkflow Universe for so long. Can he achieve this just by talking? At least, for those of us with the same life stage, do you think we can do better than Brother Yang Chen?"

Captain Han's words served as a wakeup call, causing the group of Powerful Ones to be stunned at first and then to recognize the reality.

That's right, if it were them, would they have the confidence to do better than Yang Chen?

Surviving in the Dark Flow Universe for so long was no joke.

"Alright, let's listen to Brother Yang Chen!"

The group of Powerful Ones agreed without delaying too much time.

As for the numerous Ghost King Experts of the Heavenly Fate Realm, they were all angry: "Humans, you are too full of yourselves, do you really think you can kill us just because you say so?"

The human Experts did not make any explanations and attacked the Netherworld Ghosts without hesitation.

Upon making a move, they were increasingly able to feel the benefits of being in Yang Chen's World Domain.

As long as Yang Chen's Domain remained active, they would never be defeated. They directly crushed their enemies in speed. Even these Ghost King Experts seemed to have slowed down significantly in the process.

All of this was, of course, due to Yang Chen.

With such means and advantages, they would be idiots if they couldn't win against their opponents.

The group of Ghost King Experts was also dumbfounded. They had just returned from the Forbidden Spirit Palace and had little knowledge and clues about Yang Chen. They were too lazy to study further.

But now they realized how passive, ignorant, and foolish they were for knowing nothing about Yang Chen.

While in this Domain, they were almost completely suppressed.

Yang Chen, of course, was not idle. When the Powerful Ones made their move, he also operated his World Treasure.

The Nine Fiery Sun Swords transformed into the Red Sun State and burned instantly.

Transforming back into swords, they were incredibly sharp and aimed at their opponents, flashing past them.

Yang Chen always liked to capture the king before catching the thieves.

His target was the Lone Wind Ghost King. He really wanted to see the difference between the Destiny Realm Late-stage and the Heavenly Destiny Realm Middle Stage.

The Lone Wind Ghost King was already struggling to cope with one opponent, and with Yang Chen sweeping across, he was already starting to look unable to resist. However, as a Destiny Realm Late-stage

expert, the Lone Wind Ghost King did have some means. Seeing Yang Chen's world treasure attack, he opened his mouth and spat out a bead.

This bead grew larger and larger, dazzling in the starry sky, shining with radiance, and surprisingly blocked Yang Chen's Nine Fiery Sun Swords.

This made Yang Chen secretly amused, this Lone Wind Ghost King indeed had some ability.

If it had been an ordinary Heavenly Destiny Realm Middle Stage person dealing with him now, they would only be crushed. Even his world's power may not be bearable for the other party, let alone blocking his magic treasure.

However, could he resist the Nine Fiery Sun Swords, as well as the numerous powerful people that Yang Chen had brought with him?

"Daoist Friends, join in the fight," Yang Chen shook the world within him, and in an instant, six powerful people who had been purified by Yang Chen and were still alive stood out.

These six Mid-stage Heavenly Fate Realm experts represented a battle power that almost turned the tide.

A group of human experts was shocked, not knowing where Yang Chen had gathered so many Mid-stage Heavenly Destiny Realm soul body experts.

Although these soul body experts did not have physical bodies and had average combat power, the combined power of the six was not to be underestimated.

"Brother Yang Chen, leave it to us." The several soul bodies were loyal to Yang Chen Ke without the slightest hint of deceit, directly joining the battle and aiming their group attack at the Lone Wind Ghost King.

Even though the Lone Wind Ghost King was formidable, the saying 'unity is strength' held true. Six Mid-stage experts of the Heavenly Fate Realm, along with a Late-stage Human Expert of the same realm, joined forces with Yang Chen launching sneak attacks. How could he withstand it?

Yang Chen nodded with satisfaction and carefully watched from the sidelines.

Could the Lone Wind Ghost King still hang in there?

In the short term, it seemed that the six mid-stage Heavenly Destiny Realm soul bodies could not defeat him. In that case, he would try the magic treasure he had obtained from the Forbidden Spirit Palace.

"Hellfire Mountain, go!"

Yang Chen waved his hand, and a huge burning mountain appeared, falling from the sky directly towards the opponent.

This sudden descent of the mountain was utterly different from just now.

With the Lone Wind Ghost King already having difficulty defending against the numerous experts, the arrival of another world treasure obtained from the Forbidden Spirit Palace proved too much for him to bear.

He couldn't dodge it and was directly struck on his body.

"Ah!" The Lone Wind Ghost King screamed, completely suppressed by Hellfire Mountain.

With the raging flames burning on Hellfire Mountain and its own enormous weight, it was difficult for the Lone Wind Ghost King to escape.

The many experts heeded Yang Chen's words and did not kill the Lone Wind Ghost King.

Filled with terror, the Lone Wind Ghost King stared at Yang Chen and cursed, "Yang Chen, kill me if you want. What are you going to do?"

Yang Chen shook his head. Everyone feared death, but these Netherworld Ghost Kings almost always chose death over betrayal.

This is also the reason for the Servitude Restriction.

"You'll soon find out who you really are," Yang Chen's purification power was once again deployed.

Chasing after him?

No, these Netherworld people were actually delivering battle power to him.

Yang Chen would take as many battle powers as there were Heavenly Fate Realm experts. For any sect, the combat power of these experts was never too much.

As the power of Luo Tian Scripture enveloped him, it directly fell onto the Lone Wind Ghost King's body.

The Lone Wind Ghost King shuddered, and after his pupils contracted, the Ghost Qi around him gradually dissipated...

Chapter 3443: Yang Chen's Troops_1

After the demonic qi dissipated, Lone Wind Ghost King's soul gradually became clean and pure.

Although his body remained still under the suppression of Hellfire Mountain, his eyes were completely different from before.

Yang Chen then began to withdraw Hellfire Mountain.

This left many human experts dumbfounded. Yang Chen had just suppressed a Netherworld Destiny Realm expert with great success, so why did he release them now?

But then, a surprising scene took place.

The transformed soul of Lone Wind Ghost King stood up firmly, faced Yang Chen, and bowed deeply.

“Yang Chen, thank you for saving my life. I was once a member of the Human Race, but I committed a great mistake and was manipulated by the enemy. From now on, I pledge my allegiance to you,” said the soul of Lone Wind Ghost King without hesitation.

Seeing this, Yang Chen laughed heartily, “Hahaha, alright then, let’s work together to awaken the other Ghost Kings from their stupor.”

As soon as the conversation ended, Lone Wind Ghost King didn’t waste any words, directly attacking the other Ghost King Experts.

This left the group of human experts flabbergasted, completely stunned by Yang Chen’s divine ability.

Yang Chen had actually turned a Destiny Realm Late-stage Ghost King into his ally?

“I heard from several Dao Ancestors that Yang Chen seems to have a method of purifying Ghost Kings. At first, I didn’t take it seriously, but it turns out to be true.”

As these experts came to their senses, they realized Yang Chen’s strength and started taking action against the remaining Ghost Kings without any hesitation.

Their morale surged, unstoppable.

On the other hand, the Netherworld Ghost King Experts were completely taken aback. They had just returned from the Forbidden Spirit Palace and had not seen Yang Chen’s methods.

Completely outmatched, they were forced to retreat continuously.

With one side full of spirit and the other absent of it, the battle played out in two distinct ways.

Yang Chen's side held a complete advantage, whether it was in numbers or morale.

And with Lone Wind leading the charge, other Ghost Kings were also successively conquered. Once subdued, they were handed over to Yang Chen for purification, one by one.

As the purification continued, purifying a single Ghost King wasn't a big deal, but it became easier as more were purified. This was because the enemies were completely drained of their will to fight.

In less than half a day, Yang Chen and the group of human experts emerged victorious.

All the Ghost King Experts who had come to hunt them were purified by Yang Chen and became his subordinates.

"Brother Yang Chen, from now on, we will follow you wherever you go," said these experts unanimously.

They all knew that without following Yang Chen, they would have no future. Choosing to reincarnate would only be a foolish decision.

Given their current soul state, finding a body was extremely difficult, but with Yang Chen around, what couldn't be achieved?

Even if they couldn't maintain their peak strength after finding a body, their years of cultivation as ghost creatures would not be in vain. Upon regaining the body, their strength might advance even further.

All of this depended on Yang Chen.

They all treated Yang Chen with utmost respect, unanimously choosing to follow him and pledging their undying loyalty to him.

Not one to refuse, Yang Chen took in all of the Destiny Realm Ghost Kings, more than a dozen in total, under his command.

This made a group of human experts envious and jealous, finally realizing why the three Dao Ancestors were willing to risk their lives to save Yang Chen.

“Everyone, there’s no time to waste. We have to leave the Dark Flow Universe immediately. If the Heavenly Extreme Realm Experts catch up to us, our efforts would have been in vain, and we might die here,” said Captain Han.

“No problem.”

After conferring with each other, the group of experts hesitated no more, and bombarded the exit that Lone Wind had sealed earlier.

Blasting open the exit wasn’t difficult, and after finishing, the group of experts swiftly left, fleeing the Dark Flow Universe.

Upon leaving the Dark Flow Universe, Yang Chen sighed with relief.

Finally, they were out.

After leaving the Dark Flow Universe and under Captain Han’s leadership, the group of experts fled far away before finally settling down on an interface called Fu Hai Star, where they began to rest and recuperate.

They rested there for more than ten days.

After more than ten days, several shocking auras descended from the sky. Everyone couldn't help but lift their heads to look upward.

However, these auras meant no harm, which allowed everyone to breathe a sigh of relief. On closer inspection, they were the three human Dao Ancestors returning.

“Greetings to the three Dao Ancestors!”

The return of these three Dao Ancestors allowed everyone to breathe a sigh of relief.

Yang Chen was also grateful, “I thank the three Dao Ancestors for saving my life.”

Ye Shan Dao Ancestor and the other two, though slightly injured, returned with joy on their faces. After all, they had achieved great success in this battle. Not only were the three Dao Ancestors unharmed, but Yang Chen had also escaped unscathed.

“Yang Chen, are you alright? Did you bring everyone?” Ye Shan Dao Ancestor asked.

Knowing that Ye Shan Dao Ancestor was concerned, Yang Chen did not hide anything, and released all the Heavenly Fate Realm Experts from his world.

Upon releasing them, there were more than twenty Heavenly Fate Realm Experts on display – an awe-inspiring sight.

Even the composed Ye Shan Dao Ancestor and the others were taken aback when they saw the lineup of experts.

More than twenty Heavenly Fate Realms! Even for powerful forces like Grand Abyss Palace or Earth Spirit Hall, mobilizing such forces was no easy task.

And now, Yang Chen had brought out so many at once.

Yang Chen smiled casually. These more than twenty Heavenly Fate Realms were purified by him in the Forbidden Spirit Palace, along with the Night Ghost Ancestor as the leader of the Dark Flow Universe.

This was equivalent to the forces of the Human Race's Earth Spirit Hall combined with one of the three major powers like the Grand Abyss Palace.

Spirit Communication Ancestor laughed heartily, "Hahaha, Yang Chen, is this all the result of your purification?"

"That's right, everyone, these are the three Dao Ancestors from the Human Race," Yang Chen said to his subordinates with soul bodies.

Among these soul body experts, there were human experts as well as non-human experts. When they saw the three Dao Ancestors, they all bowed respectfully.

"Huh? You're Ye Heng," Ye Shan Dao Ancestor asked with puzzlement.

The soul body of Ye Heng choked up, "Greetings to Dao Ancestor. Back then, I was captured by the Netherworld and became a part of it. It was all thanks to Brother Yang Chen that I can return to my original state."

Ye Shan Dao Ancestor sighed emotionally, "I didn't expect to meet you again after so many years. Ye Heng, you've suffered for all those years. However, from now on, things will be different."

Chapter 3444 - The Whereabouts of the Primordial Treasure_1

Among the powerful ones saved by Yang Chen, there was no lack of former human experts.

Even though these human experts had turned into soul bodies, their memories from those years still remained. Just like Ye Heng, he was once a peerless expert among humans. Unfortunately, he was killed by Netherworld Experts and ended up in this miserable state.

Ye Shan Daozu and Ye Heng felt a touch of emotion but did not talk too much, saying directly: "Well, there's no time to lose, hurry up. The powerful ones of the Netherworld could strike at any time, and we shouldn't stay here for long."

After Ye Shan Daozu finished speaking, the group of strong ones did not linger and sped away.

Under the leadership of the three Daozu Experts, they returned safely with adequate protection.

The journey back to the human universe went smoothly.

When they set foot in the Human Universe, many strong people breathed a sigh of relief. Along the way, many strong people were nervous, fearing that the Netherworld experts would catch up.

However, these powerful ones from the Netherworld were now frightened. After all, so many Netherworld Ghost Kings were subdued by Yang Chen in one breath. No matter how powerful these Netherworld Ghost Ancestors were, they couldn't just chase after a few Ghost Ancestors.

It was precisely because of this that Ye Shan Daozu, Communication Spiritual Daozu, and even the Tyron Palace Daozu, looked at Yang Chen with more and more favor.

Thus, a group of powerful ones finally returned to the Earth Spirit Hall.

The news about their return to the Earth Spirit Hall spread quickly. The rumor about Yang Chen's fall in the Earth Spirit Hall was debunked after the return of these strong people.

In an instant, a huge uproar was caused throughout the entire Earth Spirit Hall.

After all, in the Earth Spirit Hall, Yang Chen's performance had already been widely known. It was rumored that Yang Chen had defeated Emperor-level Ghost Kings and fought against the Spirit God Race, seizing the Origin Weapons. Each of these deeds was worth celebrating.

With Yang Chen's return, some were happy and some were worried.

The most worried among them was Silver City.

Now, Silver City was pacing anxiously in his room, with his legs even feeling a bit weak as he walked.

"Are you sure Yang Chen is still alive? And that he has entered the Heavenly Fate Realm?" Silver City asked his subordinate.

At that time, when the Communication Spiritual Daozu and other powerful ones went to the Netherworld, he had directly returned to the Earth Spirit Hall. After all, as a Heavenly Fate Realm Early Stage, entering the Forbidden Spirit Palace would have consumed too much. Even if he went to the Netherworld, he wouldn't be able to provide any combat power, so he came back early with other strong ones.

From the moment he came back, Silver City had been worried.

To be precise, he was afraid.

He had a guilty conscience, so how could he not be afraid? If Yang Chen really lived and returned to face him, what would he say?

But as they say, what you fear will come true. Yang Chen had come back alive indeed.

"It's true. I've checked it thoroughly. Many people are currently talking about Yang Chen entering the Heavenly Fate Realm," his subordinate said with a trembling voice.

Silver City trembled as panic overtook him.

Yang Chen was really alive, and he had entered the Heavenly Fate Realm?

"Why is this Yang Chen still alive? Why?" Silver City clenched his fists.

...

Meanwhile, Yang Chen had quickly settled back in after returning.

After settling down, Yang Chen immediately began cultivating quietly. He knew that the Daozu of the Earth Spirit Hall would definitely come to find him. It was just a matter of time, as the various events on his body would be inquired clearly by these powerful people.

In fact, time didn't make Yang Chen wait too long.

Just over ten days after returning, Yang Chen had received the sound transmission from several Dao Ancestors and headed to the highest council hall of the Earth Spirit Hall, the Extinct Spirit Palace.

It wouldn't be surprising to call the Extinct Spirit Palace the highest council hall of the Earth Spirit Hall. Even powerful ones in the Heavenly Fate Realm Early Stage might not be qualified enough to enter here.

But now, whether it was Yang Chen's cultivation level or qualifications, he had the right to step into this place.

When he arrived, the gatekeepers were all at the Heaven-separated Realm level.

Yang Chen passed by them, and these powerful ones quickly made way.

"Yang Chen, my young friend, has arrived."

In the grand and magnificent scene of the Extinct Spirit Palace, there were as many as five old people with different appearances, sitting at the highest level. On both sides were dozens of powerful ones, all of whom had reached the Heavenly Destiny Realm Middle Stage and above.

Only a few of them were at the Heavenly Destiny Realm Early Stage.

This mighty show of force was indeed intimidating.

Nowadays, many people looked at Yang Chen with doubt, but many others looked at him with great respect.

Most of these doubtful strong ones had not been to the Netherworld or the Forbidden Spirit Palace. They had only heard rumors about Yang Chen and did not know the truth.

Those who had been to the Netherworld and the Forbidden Spirit Palace knew how powerful Yang Chen was, especially when he showed his might in the battle against the Netherworld Ghost King that day, commanding more than twenty Heavenly Fate Realm Ghost Kings. It was hard not to be impressed by him.

"Yang Chen, we've heard about your deeds. Good job! However, before we discuss that, there's one thing we need to inquire clearly. You should know what it is," Fang Xuan Dao Ancestor asked.

Yang Chen nodded, saying, "The senior wants to ask about the Origin Weapons, right?"

Several people nodded, and Yang Chen was indeed smart.

Ye Shan Daozu said: "Yang Chen, we heard that you have obtained two Origin Weapons at that time. Now, can you tell us how it was with these Origin Weapons? Of course, you can rest assured, regarding the Origin Weapon issue, we will give you a satisfactory answer in the end and will not take advantage of you in this regard."

Yang Chen naturally wouldn't hide it at this point.

He didn't want to tell Silver City at the time, since he didn't have anything good to say to him.

Now, he had already thought about what to say, and said, "At that time, Junior indeed obtained two Origin Weapons. One was the Heavenly Thunder Tree, and the other was the Heaven Shaking Lock."

Upon hearing this, the bystanders couldn't help but gasp.

Yang Chen really obtained two Origin Weapons. These three total Origin Weapons had caused so many groups to compete fiercely, yet Yang Chen snatched away two of them by himself?

Yang Chen continued, "However, of these two Origin Weapons, only one remains with me. The reason should have been guessed by the senior. On that day, Junior cooperated with the Insect Race, and their Heavenly Fate Realm had also contributed a lot along the way. Junior had no reason not to give them one, otherwise, having a disagreement would have done him no good."

Chapter 3445 - The Revelation of Origin Essence_1

He had given the Heaven Shaking Lock to Wan Huaruo that day, but since Wan Huaruo's status was hard to explain, he used Xing Tong to cover it up for the time being. After all, everyone understood his cooperation with Xing Tong.

Upon hearing this, many powerful people nodded in agreement, expressing their understanding.

After all, the Insect Race Heavenly Fate Realm expert was not easy to deal with. One Insect Race Heavenly Fate Realm expert was equivalent to several Human Heavenly Fate Realm experts. Yang Chen couldn't afford to provoke them, so it was reasonable to let them have one of the Origin Treasures through cooperation.

Ye Shan Daozu and the others also nodded in agreement.

"This matter is not far from what we have guessed. No wonder that day, Silver City forced you to hand over two Origin treasures, and you were unwilling in your heart. As for Silver City, we'll deal with it later," said Ye Shan Daozu with an icy aura.

As the True Life Daoist of the Grand Abyss Palace, he felt helpless when he saw Ye Shan Daozu's anger.

At this time, even if he wanted to stand up for his own juniors, he had no choice.

"Yang Chen, so you still have an Origin Treasure on you now. Can you show us the Heavenly Thunder Tree?" asked Tong Ling Daozu.

Yang Chen waved his sleeve and unfolded the power of the world. Then, the World Treasure inside his body was revealed.

The most dazzling of them was the huge tree in the sky.

This tree looked similar to an ordinary tree, but upon closer inspection, one would notice that there was a snake-like zapping thunder and lightning surrounding it.

Upon even closer inspection, one would find that besides the thunder and lightning, there were a few fruits on this tree that contained an extremely powerful Thunder and Lightning power.

A large ancient tree stood here, attracting everyone's attention.

Everyone had extensive experience and could tell the difference between this ancient tree and a normal World Treasure at first sight.

"So this is one of the three great Origin Treasures, the Heavenly Thunder Tree..." All the Daozu present couldn't help but feel overjoyed, their hearts boiling with excitement as they stared at the tree.

Ye Shan Daozu couldn't contain his excitement: "With this Heavenly Thunder Tree, our Human Race can be safe until the next time the Forbidden Spirit Palace opens."

Everyone understood the value of the Heavenly Thunder Tree.

"Then let's discuss the distribution of this Heavenly Thunder Tree now. Currently, the most suitable person to have this tree would be someone who possesses both the Wood Law and the Thunder and Lightning Law. Only with the combination of these two laws can the best use of the Heavenly Thunder Tree be achieved," said Tong Ling Daozu.

"It seems none of us have the Thunder and Lightning Law," several Daozu said as they looked at each other.

Ye Shan Daozu chuckled: "Since we don't have it, why not give the Heavenly Thunder Tree to our young friend Yang Chen? Since he obtained this tree, it's quite natural and reasonable for him to keep it. As for us old fellows, if we really had someone suitable for this tree, we could shamelessly ask for it, but if we don't have anyone suitable, why covet it?"

"But, isn't Yang Chen a little too young..." Qu Feng Daozu said, "Being able to control this Primordial Treasure with his strength would be good luck. However, it's hard to guarantee that Alien Tribes wouldn't target him. As you all know, our Human Universe is filled with miscellaneous races, even in the rear area of the Grand Abyss Palace, there are many Alien Tribes secretly mixed in."

Tong Ling Daozu stroked his chin: "Brother Feng, you are worrying too much. I've told you about Yang Chen's achievements. He survived in the outer region of the Dark Flow Universe for about a year without any problems. Not only that, but he also subdued a large group of Netherworld Ghost Kings as his subordinates, with more than 20 Heavenly Fate Realm experts. This is a major breakthrough for our entire human race. This little guy isn't as simple as you might think."

Yang Chen laughed: "Thank you for the seniors' compliments."

The choice of these Daozu was beyond his expectations.

Initially, he was prepared to offer the Heavenly Thunder Tree, but his priority was Ye Shan Daozu and Tong Ling Daozu.

At that time, he could see that the two of them had truly risked their lives to save him.

He owed them a debt of gratitude, so there was no reason for him to covet the Primordial Treasure.

However, to his surprise, these Daozu were so understanding that they directly gave the Heavenly Thunder Tree to him since they didn't have a suitable match for it.

Only Qu Feng Daozu seemed a little unwilling: "You're right, but I don't know if Brother Yang Chen has a suitable match with the Heavenly Thunder Tree. If not, it would be a bit of a waste to have it in his hands, wouldn't it?"

Hearing this, Yang Chen didn't hesitate any longer.

With a wave of his sleeve, the Thunder and Lightning Laws intertwined, rising and born.

"Thunder and Lightning Laws." Tong Ling Daozu and Ye Shan Daozu both nodded in satisfaction.

Afterward, without any hesitation, Yang Chen waved his sleeve again, and the Five Elements Laws were revealed in an instant.

"This is the Five Elements Laws. I had already noticed some of it earlier, but I didn't expect that our young friend Yang Chen really possessed this law. The three strongest laws, the three strongest laws, haha, what a pity, Yang Chen, why aren't you from my Heavenly Melody Mountain?" Ye Shan Daozu sighed deeply.

Yang Chen scratched his nose: "Although I'm not from Heavenly Melody Mountain, I'm from the Earth Spirit Hall. As long as I'm a member of the Earth Spirit Hall, I'll follow my seniors' orders."

These words really made Ye Shan Daozu happy, and he laughed: "Very good, Yang Chen, I like to hear you say that. Now that you have shown your Five Elements Laws and Thunder and Lightning Laws, whoever says that you and the Heavenly Thunder Tree are not a good match, I absolutely won't agree."

Yang Chen was grateful to Ye Shan Daozu, as he could see that Ye Shan Daozu truly admired and helped him. He wasn't like the other powerful people he had known before, who were selfish and only thought of themselves.

It seemed that Ye Shan Daozu, having reached the Heavenly Extreme Realm, had no desires and only thought about the whole race's wellbeing. These small benefits were not that important to him anymore.

"Thank you, Ye Shan Daozu and all the seniors and Daoist friends for allowing me to have this treasure. I won't get this Origin Treasure for nothing. On my way to the Forbidden Spirit Palace, I also obtained many other treasures. I will hand over these treasures to my race one by one. As for the Jiyu Essence, let the seniors decide how much to give." said Yang Chen.

"Oh? Brother Yang Chen, what treasures are you going to hand over?" A group of powerful people asked curiously.

Yang Chen didn't hesitate any longer and waved his sleeve. A large amount of blue essence material appeared in front of the various powerful people.

All the powerful people couldn't help but widen their eyes when they saw it.

That's because these essences were all Origin Essences.

How could this not make people stare in disbelief? They knew what Origin Essence represented better than anyone.

Even one of them would make these Heavenly Fate Realm experts green with envy.

Chapter 3446 - Confrontation in Silver City_1

But how many Origin Essences is Yang Chen showing now?

The number is nothing short of horrifying.

Because the number of Origin Essences has already surpassed fifty!

In this Forbidden Spirit Palace, where a single Origin Essence is enough to trigger a bloody battle among the powerful, Yang Chen had actually acquired fifty. Who would believe it!

"This..." The Daoist Ancestor experts were also shocked and amazed.

Keep in mind, when they returned from the Forbidden Spirit Palace, they had already combined the Origin Treasures they had acquired from their own teams.

The Origin Essences that those Heaven-appointed Realm experts had obtained together barely matched Yang Chen's quantity.

And how many Origin Essences were those experts willing to hand over?

Seeing that the experts were satisfied, Yang Chen nodded in his heart. As others helped him, he was also willing to help them.

He didn't obtain too many Origin Essences himself. These Origin Essences were acquired from the enemies he had killed.

The number of Heaven-appointed Realm and Heaven-separated Realm experts he had killed in the Forbidden Spirit Palace was beyond his own count.

Moreover, the fifty Origin Essences were not even all he had obtained. He had only taken out a portion of them.

"Yang Chen, are you really going to take out all these Origin Essences?" Ye Shan Dao Ancestor couldn't help but exclaim.

"Yes, I will hand over all these Origin Essences to my seniors." Yang Chen said.

The several Dao Ancestors couldn't help but nod their heads, Yang Chen was becoming more pleasing to their eyes.

"Good, good, Yang Chen, since you're so generous, we won't take these Origin Essences for nothing. Normally, one Origin Essence can be exchanged for fifty million Jiyu Essences. You now have fifty Origin Essences, which can be exchanged for 2,500 million Jiyu Essences! For this exchange amount, we won't take a single point from you. Our Sect has never treated meritorious people unfairly." Ye Shan Dao Ancestor said.

Yang Chen was delighted.

While Origin Essences were indeed precious, he only needed a certain amount of them.

What he cared more about was his own merit points.

Two thousand five hundred Jiyu Essences were only half of the distance left to be promoted to Protector Emperor.

Spirit Communication Ancestor said: "In addition, there is Yang Chen's battle in the Netherworld. The value of the Netherworld Ghost Kings that Brother Yang Chen has subdued is incalculable. It seems somewhat unfair to calculate it based on the individual killing of Ghost Kings."

Several Dao Ancestors looked at each other, then at the other Heaven-appointed Realm experts, wanting to solicit their opinions.

Now, these Heaven-appointed Realm experts were not fools. Considering that Yang Chen had more than twenty Heaven-appointed Realm combat power under his command, in addition to revealing so many Jiyu Essences, holding Primordial Treasures, who would still be willing to be hostile to Yang Chen?

They all said, "The Dao Ancestors are right. Subduing Ghost Kings can even be used by our Sects, while killing Ghost Kings just gets rid of them. The rewards for Jiyu Essences should not be leveled."

"How much do you think the reward should be?" Ye Shan Dao Ancestor asked.

"This matter really needs careful discussion. Brother Yang Chen has saved more than twenty Heaven-appointed Realm experts alone, and the value of this alone is immeasurable. Not to mention the Heaven-separated Realm experts as well. These are all foundational powers. Given time and cultivation, who can guarantee that there won't be potential talents? This matter shouldn't be taken lightly." Spirit Communication Ancestor said.

The group of Dao Ancestors discussed with each other, and finally Ye Shan Dao Ancestor said: "Brother Yang Chen, we will discuss your merits in the Netherworld battle further and inform you of the results through an arranged person. You can rest assured, we will never treat you unfairly."

Yang Chen had no worries in this regard: "Thank you, seniors."

"Alright, now let's talk about your matter with Silver City." Ye Shan Dao Ancestor said.

Spirit Communication Ancestor said with his hands behind his back: "You can summon Silver City."

"Yes!" A few Heaven-appointed Realm experts sent a Sound Transmission to Silver City.

At the next moment, a familiar figure entered from outside. Yang Chen would never forget this figure. It was none other than Silver City.

Seeing Silver City, a hint of murderous intent flashed in Yang Chen's eyes. He couldn't forget that it was this person who had almost driven him to a dead end.

When Silver City saw Yang Chen, he also shuddered with guilt. Feeling Yang Chen's astonishing Qi, his heart became more flustered, knowing that he was in big trouble today.

But he had come prepared. At this moment, he first respectfully bowed to the Dao Ancestors and paid his respects.

Then, he made a series of winks and made faces at True Destiny Ancestor, with the obvious intention of hoping for some help from the Grand Abyss Palace expert.

However, True Destiny Ancestor shook his head, not giving Silver City too much attention, which made Silver City realize the bad situation.

Qu Feng Daozu slowly said: "Silver City, I heard that you had attacked your companions in the Forbidden Spirit Palace. Is that true?"

"This... Esteemed Dao Ancestors, there is a misunderstanding in this matter. At that time, I thought that Yang Chen had some plot with the Alien Tribes, so I pushed him into the Spatial Divine River in anger, without giving much thought to it." Silver City was clinging to this point.

Qu Feng Daozu looked at Yang Chen again: "Brother Yang Chen, what do you have to say about this matter?"

Yang Chen shook his head gently: "Esteemed seniors, just because of a single 'thought', without any evidence, is it really reasonable for Silver City to attack me?"

These Dao Ancestors exchanged glances, and naturally, they all had their answers in their hearts.

"I'll explain the whole incident to the seniors from beginning to end. At that time, I risked my life to snatch the Primordial Treasure and finally managed to reach the Spatial Divine River after a narrow escape. This Silver City led a few Heaven-appointed Realm Daoist friends and came forward to ask me to hand over the Primordial Treasure, claiming that it should be handed over to the Sect."

Yang Chen said expressionlessly: "I think that even if I hand it over, I should hand it over to my Heavenly Extreme Realm seniors. What qualifications does Silver City have to represent the Sect? Naturally, I would not hand it over, and it was because of this that he asked me to take out two Primordial Treasures. Otherwise, it would mean that I was colluding with the Alien Tribes. Esteemed seniors, this is the course of events. Right or wrong, I believe that you will have your own judgment in your hearts!"

When the words fell, many Heaven-appointed Realm experts gasped in cold air.

Now they all saw it, Silver City was clearly targeting Yang Chen at that time. Otherwise, how could he say such words?

"This is interesting, Silver City is really going too far."

Ye Shan Dao Ancestor snorted coldly: "Silver City, back then I asked you if you had any evidence that Yang Chen had betrayed the Sect, but at that time I did not understand the specifics of the situation. What do you have to say now?"

Chapter 3447 - The Meeting Gift before Going Back_1

Silver City clearly understood the whole confrontation and hurriedly said, "Elders, this is just Yang Chen's one-sided words. The actual situation is very different from what Yang Chen said. It was not like this at the time."

Spirit Communication Ancestor said expressionlessly: "Then you tell us, what was the reason for you to attack your fellow clan member at that time."

Silver City hesitated for a moment and couldn't find anything to say.

How could he make up a story right now? Every one of these powerful people is shrewd, how could they be easily deceived by him?

"What, can't you think of anything?" Ye Shan Dao Ancestor scolded sternly.

Now, Silver City could only insist: "Elders, at that time, I really acted wholeheartedly for the Human Race, without any other intentions."

He didn't believe that they would do anything to him as a direct disciple of the Grand Abyss Palace Dao Ancestor, just because he insisted on acting for the group.

Ye Shan Dao Ancestor said in a deep voice, "Do you still dare to argue? For the sake of the Human Race, you attacked your own people!"

Silver City did not dare to look into the eyes of these powerful people, but still insisted, "I am loyal to the human race, and Heaven and Earth can testify!"

But at this moment, a Heavenly Fate Realm Expert stepped forward.

"Elders, I can testify that Silver City was indeed a bit impulsive that day. I want to clear the grievances for Brother Yang Chen." This Heavenly Fate Realm Expert stepped forward and slowly said.

Silver City was suddenly astonished and said coldly, "Han Tianqi, what do you mean."

This Heavenly Fate Realm expert, Han Tianqi, didn't even glance at Silver City and looked straight at these Daoist Ancestor Experts.

These Daoist Ancestor Experts were naturally quite interested and said, "Han Tianqi, you were with Silver City that day, as the vanguard team arranged by our Human Race. Tell us, what exactly happened."

Han Tianqi said coldly, "From the moment Silver City took the Primordial Treasure from Yang Chen, he wanted to take advantage of it. At the time, I didn't give it much thought. After all, everyone had the idea of obtaining the Primordial Treasure. However, after Yang Chen obtained the Primordial Treasure and had already left Jianhen Palace, he could have been considered safe. At that time, it was actually inappropriate for us to chase Yang Chen. After all, this Primordial Treasure could already be considered the property of our Human Race, and there was no point in chasing after it."

"What happened next?" Ye Shan Dao Ancestor asked.

Silver City's heart went completely cold.

"After that, Silver City suggested chasing after him, persuading us repeatedly to snatch the Primordial Treasure. At that time, we didn't quite understand Silver City's intentions and thought that Silver City just wanted to take care of the treasure more securely, so we went along with him. Who would have thought that Silver City had such malicious intentions, trying to frame Brother Yang Chen. That day, Brother Yang Chen put his life on the line to obtain the Primordial Treasure for our clan, and I saw it all clearly."

Han Tianqi, filled with righteous indignation, said: "I only regret that I didn't see through Silver City's intentions at the time. I thought Silver City was just sparring with a fellow clan member as a lesson. Who would have thought that he, as a Heavenly Destiny Realm elder, along with others, would go against an injured junior Yang Chen, whose strength was far from his peak, and attack with the intention to kill."

As these words fell, Silver City was so scared that he fell onto his buttocks.

He didn't know why Han Tianqi would expose him.

But Yang Chen knew why.

Silver City took it for granted. That day, he dealt with Yang Chen, making it difficult for those powerful people, but he didn't give them any benefits. Now he wants them to keep his secret?

Those powerful people were willing to keep his secrets at first because they didn't want to offend Silver City.

But now, on one side, there is Silver City, a Heavenly Destiny Realm early stage, and on the other side, there is Yang Chen, who has reached the Heavenly Destiny Realm middle stage, his cultivation growing rapidly.

Those Heavenly Destiny Realm experts who were watching the scene that day were not stupid, so how could they not know whose team to join?

After all, they were present that day, and if they didn't take this opportunity to befriend Yang Chen, when would they?

"Silver City, what else do you have to say?" Ye Shan Dao Ancestor said fiercely, "You went straight for the kill without any hesitation. Don't tell me that you still did this for the sake of the clan. For the sake of the clan, you could directly attempt to kill a powerful person of our race without any evidence? And a junior who risked his life to obtain the Primordial Treasure!"

Silver City shuddered all over, and was so shocked by Ye Shan Dao Ancestor's imposing manner that he couldn't speak.

"This...Elders, this...this person is slandering me, you can't believe his words." Silver City stammered.

"Elders, I can also testify to what Silver City has done." At this moment, another Heavenly Fate Realm Expert stepped forward.

"So can I."

All the people present that day had been arranged to enter the palace.

Seeing Han Tianqi come forward, the others did not hesitate too much and stood up one after another to testify for Yang Chen.

Invisibly, Yang Chen had already won over everyone with his strength.

Upon hearing this, Silver City's face turned pale with fright, knowing that whatever he said now would be useless, and there was no other way.

"You're quite something, Silver City." Spirit Communication Ancestor's anger burned as he listened, and he wanted to burst into a thunderbolt. "Let me tell you, Silver City, just this point of you wanting to kill your own kind is already unforgivable, let alone that you actually did it. Fellow Daoists, I propose to deal with him directly according to the rules of the Earth Spirit Hall. No one should have any objections."

"I have no objections." Ye Shan Dao Ancestor said.

The other Dao Ancestors naturally followed suit, not feeling any sympathy for Silver City due to his unquestionable deeds.

Now, Silver City's face was ashen, placing his last hope on True Destiny Ancestor.

True Destiny Ancestor, seeing how Silver City looked at him, waved his sleeves and no longer had any intention of helping him.

He directly said, "Deserved to die."

Silver City's heart went completely cold, knowing that this time, even the gods couldn't save him.

Seeing that there was no hope, he didn't hesitate and shouted, "I... I am a disciple of Spirit Separation Ancestor, you can't kill me. My master is Ling Bie Dao Ancestor."

Ye Shan Dao Ancestor waved his sleeves, and a force of the world's power directly pressed Silver City down.

Silver City's body trembled, unable to move or even speak.

These Earth Spirit Hall Dao Ancestors would give Ling Bie Dao Ancestor face on ordinary days, but the emperor was far away, and Ling Bie Dao Ancestor couldn't manage things on this side, could he?

Besides, talking about merit, which one of these Earth Spirit Hall Dao Ancestors wasn't higher than Ling Bie Dao Ancestor? When it came to giving orders, Ling Bie Dao Ancestor could never ride on their heads.

By using Ling Bie Dao Ancestor's name, Silver City was only digging his own grave.

"Take him away." Ye Shan Dao Ancestor said.

A group of powerful people dragged Silver City away.

As for Silver City's fate, Yang Chen had no sympathy, all of this was just Silver City's own doing.

Besides, this could also be considered a greeting present for Ling Bie Dao Ancestor before he returned to the Taiyuan Star System.

Chapter 3448 - Ready to Return at Any Time_1

However, it wasn't that simple for him to let it go at this point.

"Fellow Daoists, it was not only Silver City who wanted to kill this junior back then." Yang Chen said slowly.

"We know about this matter, Hu Zhou, you should also step forward." Spirit Communication Ancestor said coldly.

Hu Zhou shuddered all over, frightened and trembling, as he stood up.

Seeing Silver City's outcome, how could he not be frightened? After all, Silver City's death was already a foregone conclusion.

Compared to Silver City's background, he was far inferior. If even Silver City ended like this, what about him...

"Hu Zhou, at that time, it was you and Silver City who worked together to attack Brother Yang Chen, right?" True Destiny Ancestor said coldly with displeasure.

He couldn't protect Silver City, so he naturally didn't care about Hu Zhou's life or death.

Hu Zhou, frightened, hurriedly said, "All seniors, at that time, this junior was completely bewitched, and it was Silver City who deceived this junior. It was Silver City's fault; he was the mastermind. I hope all seniors would be lenient towards this junior."

"How absurd! If we let you off lightly today, will there be any rules in the future?" Spirit Communication Ancestor said expressionlessly.

Today, they also took the opportunity to give a warning to all these powerful beings by using Yang Chen as a chance.

"Let me tell you, in the rear, you can make as much trouble as you want, but this is Earth Spirit Hall. We are guarding the frontline combat power of the human race. We are facing countless and endless foreign races. If you can't be united against the enemy, never set foot here with me ever again. If you dare to harm your own race, no matter what cultivation level, all will be killed without mercy." Spirit Communication Ancestor said expressionlessly.

Yang Chen secretly sighed, if Spirit Separation Ancestor truly had such awareness, he and the other party might not have made it to this point.

The powerful people of the Taiyuan star system were too comfortable, so comfortable that they thought they could control everything and kill their own race at will.

On this point, they were far inferior to Spirit Communication Ancestor and the others.

"Alright, take him away." Ye Shan Dao Ancestor didn't waste any more words, and directly gave the order with a wave of his sleeve.

Hu Zhou cried out in an instant, but no one had sympathy for him.

Nowadays, Hu Zhou regretted it deeply. If he had known better, he would not have helped Silver City back then.

But it's too late now. Everything is set in stone.

Ye Shan Dao Ancestor looked around, and his gaze at every powerhouse present caused tremendous pressure on them. From now on, they would probably never dare to harbor the thought of harming their own race.

"Yang Chen, my friend, as for your matters, we have given you a fair deal today. If you have any grievances, you can speak them out. We are here and can stand up for you." Spirit Communication Ancestor said.

"This junior has no grievances, just lamenting that my time in the Forbidden Spirit Palace was not long enough. Otherwise, the treasures I would have acquired would have been far greater in contribution to my race." Yang Chen sighed.

He had spent a year in the Netherworld, and the Forbidden Spirit Palace had just been closed. It was evident how much time he had wasted.

With that year, he and Xingtong could have acted recklessly in the Forbidden Spirit Palace, and there would be no treasure that they couldn't obtain.

Of course, he didn't gain nothing, at least he had entered the Heavenly Destiny Realm Middle Stage before going to the Netherworld.

Yang Chen's words made many powerful people feel embarrassed. What Yang Chen said was very casual. They had tried their best to obtain treasures, but even the ones they handed in were far inferior to Yang Chen's.

"You, kid, haha, more than fifty Origin Essences are already good enough. However, it's true that if it weren't for the two scumbags Silver City and Hu Zhou, your achievements might have been even more precious." Ye Shan Dao Ancestor said.

Spirit Communication Ancestor chuckled, "It can also be considered a blessing in disguise. Yang Chen has made a big fuss in the Netherworld and obtained the combat power of more than twenty Heavenly Fate Realm experts."

"Well, that's true. This is a significant improvement for our entire human race." The Daoist Ancestors looked at each other and laughed heartily.

Just like that, Yang Chen didn't stay in this council hall for long. Once his issue was resolved, he took the initiative to leave.

In the following half-year, a storm caused by Yang Chen spread thoroughly.

Yang Chen made a sensational name for himself throughout the entire Ancient Divine Realm.

At first, Yang Chen's fame was controversial.

But now, no one could deny Yang Chen's reputation.

Rumors about Yang Chen, one after another, spread throughout the Ancient Divine Realm.

Many powerful people were already planning to make friends with him, including a batch of Heavenly Fate Realm experts. These powerful ones were no fools; they understood that Yang Chen's strength and fame in the Earth Spirit Hall had reached an unprecedented level.

Even those Daoist Ancestor experts couldn't let go of Yang Chen. If they didn't make friends with him, that would be truly idiotic.

However, Yang Chen still kept his distance without any exceptions.

At this moment, Yang Chen had once again entered a closed-door state shortly after his brief return.

It wasn't that Yang Chen wanted to close himself off, but because he possessed the treasure of Seven-colored Colored Glaze Stone. With it, he could advance to the Heavenly Destiny Realm Late-stage at any time.

However, now that he had just entered the Heavenly Destiny Realm Middle Stage, he urgently needed to solidify his cultivation at this level before he could use the Seven-colored Colored Glaze Mine to make further progress.

Otherwise, even with the treasure, there was still a possibility of failure if he tried to use it forcibly.

Yang Chen dared not underestimate it, and for half a year, he had been forcibly secluded.

Apart from that, he was also waiting.

Waiting for those powerful people to make arrangements regarding his incalculable merit and Jiyu Essence from his rampage in the Netherworld.

If he could reach the Merit of Protector Emperor, he would go back at any time.

One must know that he was not what he used to be.

He had reached the Heavenly Destiny Realm Middle Stage, and even if he went back, he wouldn't fear Spirit Separation Ancestor. Even if Spirit Separation Ancestor wanted to kill him, he wouldn't be inferior to the other party.

Moreover, he had twenty Heavenly Fate Realm experts by his side. With these experts around, he believed that both Spirit Separation Ancestor and Grand Abyss Palace would take him seriously.

"Zhang Xue Lian, since you are my wife, your freedom should be my responsibility." Yang Chen murmured.

His cultivation was gradually improving and becoming more solid, soon reaching the stage where he could refine the Seven-color Luminous Stone and enter the Heavenly Destiny Realm Late-stage.

World Life Stage.

Once he entered this realm, his strength would increase greatly.

Time continued to slip away.

In the blink of an eye, another half-year had passed.

Half a year later, the Daoist Ancestors finally seemed to have made a decision and arranged for powerful people to inform Yang Chen to go to the highest-level council hall of Earth Spirit Hall.

Upon hearing this, Yang Chen naturally didn't waste any words. After a year of closed-door cultivation, he once again set foot in this place.

The same lineup, powerful people all around, and the five Daoist Ancestors guarding the Earth Spirit Hall, all sitting high above.

Chapter 3449 - Gaining the Title of Protector Emperor_1

Once again meeting, these powerful ones were somewhat dissatisfied with Yang Chen, more or less.

After all, for the past year, Yang Chen had been in closed-door cultivation, making it difficult for those who wanted to get close to him, leaving them all with cold faces.

They were all well-known figures, and being rejected like this, they couldn't be content in their hearts.

However, considering Yang Chen's current status, being the favorite of so many Daoist Ancestors, even if they were unhappy, they didn't dare to speak out and show it on their faces.

Yang Chen could easily see that these Destiny Realm experts had quite a few opinions about him. He knew this, but it was all an unavoidable matter.

When the time came, Yang Chen was still polite and said, "Yang Chen, I pay my respects to all the Daoist Ancestor seniors and also to all Daoist friends."

Such an attitude put many powerful people in a more relaxed mood towards Yang Chen.

Ye Shan Dao Ancestor saw Yang Chen and laughed heartily as he always did: "Yang Chen, my friend, we old fellows have been discussing your affairs for quite some time. Now, we finally reached some results. You can take a look and see if it meets your expectations."

Yang Chen replied, "No matter how the seniors decide, I, as a junior, feel that the decision will be the best for me."

At these words, the Daoist Ancestors rubbed their beards with great satisfaction.

Although Yang Chen's status was now at its peak, he still showed great respect to these old fellows. Just this point alone was enough for them to think highly of Yang Chen.

Spirit Communication Ancestor nodded with a smile: "Don't worry, young friend Yang Chen, we old fellows have undoubtedly made the best arrangement for you. Just to give an example, according to normal calculations, killing a Heavenly Destiny Realm expert would reward you with at least hundreds of thousands of Jiyu Essence. Now you have more than twenty Destiny Realm experts under your command, with that many Heaven-separated Realm experts. Just counting the killing, the reward of Jiyu Essence should be no less than 10 million."

"If we really calculate it based on killing, you can get roughly 18 million Jiyu Essence. But what you did was not just kill these powerful beings, but also purify and save them. This carries great significance. You not only caused a great loss of combat power to the Netherworld but also strengthened our human race. Therefore, after discussing with these old fellows, we decided to award you 30 million Jiyu Essence."

Upon hearing this, Yang Chen's heart was filled with joy.

With 30 million Jiyu Essence, he had successfully accumulated 50 million Jiyu Essence needed to promote him to the Protector Emperor.

"Yang Chen, with this much Jiyu Essence in hand, you can now be promoted to the Protector Emperor. Once you become the Protector Emperor, you probably won't stay in the Earth Spirit Hall for long," Qu Feng Daozu stroked his beard.

Yang Chen was slightly surprised, "How did the seniors know about this?"

No one knew that he would leave after achieving the title of Protector Emperor.

"Haha, young friend Yang Chen, even if you don't say anything, it's not a particularly hidden matter. It's not strange for us old fellows to know," the powerful ones laughed.

Upon further thought, Yang Chen understood.

Indeed, it seemed like he had underestimated these Daoist Ancestor experts. Just by grasping a slight clue, they could deduce many things.

Although it seemed like a secret to him, perhaps these Daoist Ancestor experts had already figured it out.

Yang Chen chuckled and shook his head, "So that's how it is. Indeed, as the seniors have said, once I become the Protector Emperor, I will leave immediately. So, I will exchange all of this Jiyu Essence for merits and become the Protector Emperor."

At these words, many Destiny Realm experts couldn't help but gasp in surprise, finding it hard not to admire Yang Chen.

If Yang Chen were to become the Protector Emperor, the significance would be different.

The title of Protector Emperor was one of the three highest merits in the entire human race.

Just by displaying this merit, Yang Chen's status would already have reached an unparalleled level. In the Earth Spirit Hall, not even the Daoist Ancestors would dare to treat him disrespectfully.

Would these Destiny Realm figures dare to provoke Yang Chen? That would be a suicidal act.

The status of the Protector Emperor was inviolable and could not be infringed upon.

Take Silver City for example.

If Yang Chen had been the Protector Emperor before, even without the judgment of these Daoist Ancestors, just a single word from Yang Chen would have been enough to end Silver City's life.

Absolute merit and absolute status.

Protector Emperor, how many Daoist Ancestors have only reached the level of Protector Emperor?

In the Destiny Realm, only a few individuals in the past and present have had this kind of status.

"You kid, you sure are realistic. Alright, then we will only give you five million Jiyu Essence. From now on, congratulations on becoming the supreme 'Protector Emperor' of our human race. From now on, you will be known as Yang Chen Emperor Lord," Ye Shan Dao Ancestor laughed.

Yang Chen immediately bowed in thanks, "Thank you, senior."

"You don't have to thank us, this is what you rightfully deserve," Spirit Communication Ancestor stroked his beard and said, "Alright, back to the main topic. We were just talking about you going back to the Taiyuan Star System. Now that we're sure about that, we need to discuss the following matters."

"What do the seniors mean..." Yang Chen asked.

"It's like this, since you're going back, those Netherworld experts you've subjugated and purified seem to need to accompany you back as well," Qu Feng Dao Ancestor said.

"Yes, indeed," Yang Chen guessed some of the Daoist Ancestors' intentions.

"Could you leave some of these powerful experts in the Earth Spirit Hall?" Ye Shan Dao Ancestor stroked his chin.

"Of course, we won't take the powerful experts you've purified for nothing," Spirit Communication Ancestor quickly added: "For the Realmless experts you've purified, for each one you leave behind, we'll give you 100,000 Jiyu Essence. For each Heavenly-separated Realm expert, we'll give you one million. As for the Early Destiny Realm, it's 10 million, Mid-stage Destiny Realm, 30 million, and Late-stage Destiny Realm, 50 million!"

Upon hearing this, everyone present gasped in awe, feeling their scalps go numb.

It seemed too extravagant.

million, 30 million, 50 million.

Jiyu Essence was being offered like it cost nothing.

However, they all knew that these Daoist Ancestors' offers didn't give Yang Chen any advantage. On the contrary, Yang Chen was actually at a disadvantage personally.

Are you kidding? The combat power of a Destiny Realm expert wasn't just about eliminating an enemy's Destiny Realm combat power. It was also about having an extra Destiny Realm combat power of your own.

A single Destiny Realm expert could accomplish a lot of things on their own. The deterrence they posed to the enemy alone was immeasurable. Especially for the Late-stage Destiny Realm, it could no longer be measured by Jiyu Essence alone.

Offering 50 million, what does that really count for?

Yang Chen listened to the requests of these powerful figures, stroking his chin and fell into deep thought.

At first, he had guessed part of their requests. Now, it seems that they weren't too far off from what he had thought.

Tens of millions of Jiyu Essence was placed in front of him, which was indeed a huge temptation for him.

Could it be that he should try to challenge the legendary merit title once again?

'Heavenly Defender'?

Chapter 3450 - Crazy Squandering!_1

It would take a simple thought to know that the conveniences and privileges that a Heavenly Defender can possess, the legendary title that even a few Daoist Ancestors haven't achieved, must be astoundingly great.

After all, now that the powers of the Protector Emperor are well known to everyone, it's no secret.

However, after pondering, Yang Chen decided to give up on it for the time being.

According to his budget, even if he turned all his subordinates into strong Heavenly Defenders, it would take five hundred million Jiyu Essence to be promoted.

He would barely be able to collect such a massive amount of Jiyu Essence if he kept all his Heavenly Fate Realm, Heaven-separated Realm, and Boundaryless cultivators.

But for him personally, the title of Heavenly Defender was not as valuable as keeping these powerful ones for now.

After all, his current Protector Emperor's title already provided him with astonishing conveniences and privileges.

However, the intentions of these powerful ones were quite obvious, as they were clearly interested in his subordinates. If he said that he would not keep any of them today, he would undoubtedly offend these powerful ones.

Yang Chen was troubled for a moment.

After pondering for a while, he said, "Seniors, here's the thing. Without me, the soul bodies of these powerful ones under my command would not last long before they perish. You must understand what I mean. So, to ensure their safety, we must find suitable physical bodies for them."

"Yes, we know that." The eyebrows of several Daoist Ancestors furrowed upon hearing this.

Finding suitable bodies may seem simple, but it's not that easy.

A soul body of a Heavenly Fate Realm expert requires a body of a Heavenly Fate Realm expert to be reborn with the Heavenly Fate Realm's strength.

But where can you easily find a Heavenly Fate Realm expert's body?

Seeing the difficulty faced by these Daoist Ancestors, Yang Chen knew that things were not that simple. He said, "So, the key lies in this. I thought about keeping only the human experts' soul bodies for now. It'll be easier for you seniors to help find suitable bodies for our race. As for those soul bodies that aren't from our race, I won't keep them. Otherwise, without a body, even if they're kept, it won't help much."

A group of Daoist Ancestor experts appeared unwilling to accept only this offer.

After all, if all these powerful ones were kept, it would mean a great improvement for the Earth Spirit Hall.

But on careful consideration, where can you find suitable bodies for alien tribes? Even if they can exhibit the combat power of the Destiny Realm, how long can it last without a body? It's ultimately not a long-term solution.

"Yang Chen, just follow your plan. It seems that your proposal is the most reasonable choice for now," said Ye Shan Dao Ancestor with understanding.

Seeing this, Yang Chen relaxed and said, "In that case, I'll choose to keep the soul bodies of the strong humans."

When the conversation ended, he released the souls of the human experts one by one from his inner world.

Upon their release, they all showed excitement, knowing that they had returned to the human realm, and there was even a chance for them to resurrect and regain their physical body.

Yang Chen said, "Daoist friends, from now on, you'll follow the footsteps of our seniors and live anew in the Earth Spirit Hall."

"Thank you, Brother Yang Chen, for your promotion."

"No, now he should be called Emperor Yang Chen."

"Thank you, Emperor Yang Chen!"

These soul bodies of powerful ones were quite astute; they knew everything that happened outside while in the inner world and respectfully called him.

Yang Chen smiled slightly, "You're all too polite. Since we are of the same race, there should be no barriers between us, wherever we are."

Ye Shan Dao Ancestor and other experts laughed heartily as they looked at these soul bodies of powerful ones.

"Hai Ling, Fei Tian, you, think of some ways to find suitable strong bodies as soon as possible," commanded Spirit Communication Ancestor. "Old man, I remember there are quite a few leftovers in my closed-door cultivation."

"Yes, Ancestor." The Heavenly Fate Realm experts went to act on the order.

"Yang Chen, here are four Heavenly Fate Realm, seventeen Heaven-separated Realm, and one hundred and twenty-one Boundaryless cultivators. We give you 150 million Jiyu Essence. With this much Jiyu Essence, even if you don't become a Heavenly Defender, you should be able to walk sideways in the Ancient Divine Realm's marketplaces," said Ye Shan Dao Ancestor, stroking his beard.

The other powerful ones looked at him enviously.

Jiyu Essence is the currency for transactions in the Ancient Divine Realm.

With this much Essence, what can Yang Chen not buy with his current cultivation level?

It is perfectly normal for him to walk sideways.

Yang Chen touched his nose and said, "I must thank the seniors for their generosity."

"This has nothing to do with generosity. Anyway, we will arrange for your Protector Emperor status as soon as possible. By then, you will receive a Protector Emperor's Identity Token. With this token, you can represent your status as Protector Emperor. From now on, among the entire human race, you will be Emperor Yang Chen, with a status far above all Heavenly Fate Realm experts, equal to Daoist Ancestors," said Ye Shan Dao Ancestor cheerfully.

"Thank you, seniors," said Yang Chen with respect.

Not lingering for too long, Yang Chen soon left the council hall.

Within just a few days, the matter concerning Yang Chen caused another astonishing storm. Everyone knows that there is a new Protector Emperor among humans, and he is none other than Yang Chen.

From now on, whenever powerful ones mentioned him, they would no longer simply address him as Yang Chen, but Emperor Yang Chen.

The title "Emperor" is a unique one within the human race.

This title is rare, not inferior to the term "Daoist Ancestor".

Not long after returning to Sky Opening Mountain, Yang Chen received his exclusive Protector Emperor's Token.

With this token in hand, Yang Chen felt relieved. For with this token, he would have an Imperial Sword that would ensure he's safe even against Ling Bie Daoist Ancestor.

He was already planning to return, but he wanted to cherish his time here before that.

As the Daoist Ancestor experts said, with a vast amount of Jiyu Essence on hand, Yang Chen can walk sideways across all marketplaces across the Ancient Divine Realm. If he doesn't splurge a bit, he won't do himself justice.

Considering Yang Chen's current cultivation level, most treasures wouldn't provide much help to him.

So, Yang Chen focused on improving the Slaughter God Spear.

He was not at all concerned about the Jiyu Essence and would purchase as many precious materials as needed to enhance the Divine Weapon...

Several millions of Jiyu Essence were spent without hesitation!

No effect?

He would buy more, 10 million Jiyu Essence.

Still no effect? Buy, 20 million!
