### Chapter 57: Digging Ancestral Graves, I'm Good at It 1

Not to mention those foreign races, Yang Chen still underestimated the hatred Wang Yun Kai and Yu Xiaohui had for him. The extent of the publicity of this matter might have reached some peak. At least, Yang Chen had not yet left the Yang family, and there were at least dozens of Yang family members following him by his side.

“What are you doing...?” Yang Chen looked at these people who were planning to leave the Yang family with him and asked suspiciously.

Yang Wu was among the crowd, and though he had only one arm left, he looked more energetic than before. Waving his arm, he said warmly, “Yang Chen, we are here to support you. You must defeat Wang Ren and Wang De.

Their Wang family has never stopped humiliating our Yang family brothers. We all hope you can help us vent our anger.”

After all, the Yang family was a middle-ranking tribe, and in front of the great tribes, they had to get used to bowing their heads.

Therefore, many middle-ranking tribes, including the Yang family, had to act according to the whims of the great tribes, and naturally, they could not avoid being bullied by the geniuses of these great tribes.

However, on ordinary days, people would just endure it, but it didn't mean they would not resent it!

They were all dignified men, so why should they let others bully them? “Yes, Yang Chen, it's all up to you now.”

“If it really doesn't work, I'll lend you our family's Silver Bell Furnace!”

“I also have quite a few alchemy materials here, Yang Chen, if you need them,

I'll give them all to you."

"You must fight for our honor!"

Yang Wu stood in the forefront, shouted: "Don't chit-chat for now. I know Yang

Chen's alchemy level. My younger brother is no match for him. Today, when we go there, don't forget our original intention. Yang Chen is going to challenge the Wang family, and he won't avoid being ridiculed by the Wang family. At that time, Yang Chen might be suppressed in terms of numbers, so what should we do?"

"If they want to scold, we scold back. If they want to fight, we fight back. Our

Yang family is not short of men!"

"Well done," Yang Wu laughed heartily.

Yang Chen also laughed.

Although the previous Yang Chen was bullied by the Yang family brothers, upon further thinking, these young people were eventually just enthusiastic teenagers.

"Alright, let's go make a scene at the Wang family!"

"Causing a scene is fine, but we still have to stay cautious and not cross the line. So to be safe, I'll accompany you there."

As the teenagers were shouting loudly, suddenly, Elder Yang walked over, with his hands behind his back and a strong aura. As soon as he appeared, the young people bowed their heads respectfully.

Yang Chen said with joy, "Elder Yang!"

How could he not know what it meant for Elder Yang to show up now?

In fact, Elder Yang's presence most likely indicated that he feared the Wang family members would interfere and wanted to escort them personally.

After all, this challenge was a big event. Having one more elder by one's side undoubtedly provided an extra layer of security.

Yang Chen was indifferent to whether Elder Yang would go or not, but his arrival warmed his heart.

Of course, Elder Yang wouldn't be as aggressively clear-cut as these young people, intent on causing trouble. However, he had clearly been stirred up, saying slowly, "Yang Chen, today's challenge is just a simple test of alchemy. But in my heart, you've already represented the face of alchemy among the younger generation of the Yang family."

"If you lose, it means our Yang family's challenge to the great tribes has failed once again." Elder Yang murmured as if talking to himself, "Back in the day, I was as young and passionate as you. Unfortunately, I failed. Challenging the great tribes is so difficult. But failure is far better than not having the courage to challenge at all. We are not afraid of failure, Yang Chen, you need not worry." His way of thinking was different from that of these younger ones. Most of these young ones thought that the matter at the end of the day only represented Yang Chen.

But in his eyes, the meaning was different.

Indeed, Yang Chen initiated the challenge. But what does Yang Chen represent? He represents the Yang family! If Yang Chen really managed to cause the Wang family to capsize in the gutter on such a grand stage, it would no doubt tell everyone that the Yang family now has the capability to contend with the great tribes in terms of alchemy skill and power!

"Give it your best." Old Yang stroked his beard.

“Don’t worry, Elder Yang, I will.” Yang Chen took a glance at Elder Yang’s aged face, and suddenly, he seemed to understand his intentions deep down. With that thought, Yang Chen revealed a gentle smile: “Let’s go.”

When they arrived at the Wang family, Yang Chen finally witnessed what could be called a grand spectacle!

Because countless people were gathered at the entrance of the Wang family’s main gate. These people were engaged in various discussions, cluttered and disordered, clearly outsiders who had come to watch. Now, as they saw Yang Chen and the others arrive, they stepped aside to make way, and the discussions grew even more intense.

“There are so many people here...”

“Don’t be timid, what are you afraid of? Learn from Brother Wu and Brother

Chen! Look at them, how calm they are.”

“The Yang family members are here!”

“Look at this setup, they are indeed here to fight. I didn’t expect the rumors to be true. Yang Chen actually brought a group of people to challenge the Wang family here.”

“The Wang family members have been waiting for a long time. This time there’s going to be a good show, the Wang family and Yang family. Wang Ren and Wang De don’t need to be mentioned, they are both well-known alchemy geniuses. As for Yang Chen, he is said to be the treasure of the Yang family. This clash between two groups is going to be fantastic.”

Just like the speculations of these onlookers, the Wang family members had indeed been waiting for quite a while.

After all, rumors on top of rumors, plus Wang Yun Kai's confirmation, the Wang family had no reason not to take this matter seriously. Challenges from middle-ranking tribes were exactly what the great tribes wanted to see.

Before the current trial war of the Hundred Clans, which great tribe wouldn't want to deter the monkeys by killing a chicken and demonstrate their might? The Yang family was rushing headlong into the barrel of a gun, and the Wang family couldn't be happier, as they had been worried about not having a chance to assert their authority.

Soon, Yang Chen and the others arrived at the open space in the middle of the crowd. Both sides met each other's gaze, and Yang Chen focused on the two young men in the Wang family's group. These two young men were none other than Wang Ren and Wang De.

Behind Wang Ren and Wang De stood a group of people, including both the Wang family's youngsters and elders.

The moment they faced each other, the atmosphere immediately became tense.

"Yang Chen, you guys took so long to get here, I thought you didn't have the guts to come." Wang Ren stood at the front of the crowd and looked at Yang Chen, wearing a smug and mocking expression without hesitation: "Speaking of which, Yang Chen, have you grown some courage recently? Did losing to us last time not hurt enough? You managed to save up some spirit stones with your open-crotch pants, and now you want to come and pay homage to me?"

the \* are you talking about?" Upon hearing Wang Ren's words, a young man from the Yang family burst out, pointing at Wang Ren and swearing loudly.

This made Yang Wu's face awkward as he hurriedly said, "Ahem... Yi Ming, you were too hasty."

"Uh...Brother Wu, did I jump the gun?" Yi Ming, who had just shouted, suddenly noticed the disapproving glances cast at him and awkwardly retreated.

"Nonsense? Can't you show some decency? Don't get angry just because others do. One look at you and it is obvious that you have never seen a grand stage. Remember, although you are here to help, don't

act as if you want to tear the other party apart the moment you open your mouth, okay? They are from the great tribes after all. What good will it do for Brother Chen if we really fight? What we have to do today is not let Brother Chen lose his momentum before the fight begins." Yang Wu said irritably.

Yi Ming quickly apologized, thinking that if someone disrespected Yang Chen, he would jump out and fight with them, but it seemed... that wasn't the case.

Yang Wu glared at Yi Ming fiercely: "All of you listen up, act according to my cues later. As long as the situation doesn't look good, shout like Yi Ming did just now, understand? Let's start by showing the fierceness of our Yang family men. If they really tear their faces apart, don't hold back and curse their eighteen generations of ancestors!"

"Brother Wu, rest assured, I am an expert in digging up ancestor's graves." Yi Ming patted his chest and guaranteed: "I won't let Brother Chen's momentum drop. That group of white-faced kids from the Wang family, I can curse five of them at once!"

The fire has retreated, let's start the third watch.

Cough cough, you all understand, give me some support, okay?
