Chapter 69: I'm Curious How You 're Going to sell It! 1

He didn't know how to describe his emotions at the moment: "Yang Chen, this elixir is made by you. Would Second Master be able to help you test the pill?"

"Having Second Master test the pill personally is a blessing for me." Yang Chen said with a slight smile.

Testing the pill is a necessary step.

When a new type of elixir is created, even the creator cannot guarantee with 100% certainty that the effects of the elixir will be as expected. Therefore, a pill tester is essential. As a great alchemist, Elder Yang testing the pill can help him fully understand the ingredients and effects of the elixir.

Yang Chen has great confidence in the Gravity Pill, so he is not afraid of Elder Yang testing it.

Elder Yang did not hesitate and directly picked up a Gravity Pill and swallowed it.

Soon, Elder Yang sat cross-legged and began refining the pill.

Elder Yang did not have any martial arts talent, and he began to study alchemy at a young age. His martial arts cultivation level was only at the Body Refining Realm Third Layer.

It was precisely because his cultivation level was not high that it would be easier to test the effects of the elixir.

Elder Yang concentrated on refining the ingredients of the Gravity Pill.

Gradually, gradually...

Elder Yang could feel his strength rapidly increasing.

His bones and muscles seemed to be undergoing a qualitative change with a crackling sound.

About one hour later, Elder Yang suddenly stood up and swung his fist: "It turns out, it's really true. The Body Refining Realm Fourth Layer. I actually reached the Body Refining Realm Fourth Layer. Yang Chen, this Gravity Pill you created can really improve the strength of a Body Refining Realm martial artist by one level!"

He was now stiff, and even speaking became somewhat shivering.

Too shocking.

He simply couldn't believe it was true.

What kind of talent and intelligence does Yang Chen have? Not only is he a Dan Medical practitioner, but he can also create his own pill formulas!

"Second Master, if this pill really works, it would be great." Yang Chen also pretended to be pleasantly surprised.

In fact, he had created the Gravity Pill for a long time already.

Elder Yang said with great joy: "Yang Chen, the Gravity Pill you made is great news for the Yang family. How to distribute this Gravity Pill is up to you, but I still hope you can share the pill formula with the family. This matter is too important. If we have this pill, the Yang family can definitely become one of the Great Tribes within five years!"

"Second Master, when I created this pill, I wanted to give back to the family." Yang Chen said respectfully.

He was not lying when he said this.

When he took back the Purple Elegance Dan Furnace, the Yang family played an indispensable role.

Yang Chen would never do anything ungrateful. He didn't think that he could put enough pressure on the Wang family as an individual. Without the Yang family backing him, even if the Wang family was determined to deceive, what could he do?

Others respect me one inch, I will return them one zhang. This is Yang Chen's principle in life.

That's why he pretended to borrow the Pill Refining Room actually to promote the Gravity Pill to the Yang family.

He has done this much for the Yang family.

With the Gravity Pill, the strength of the Yang family will inevitably increase significantly, but whether it can become one of the Great Tribes has nothing to do with him. What he has given back is enough to make up for what the Yang family has done for him.

"Great, great, Yang Chen, with your intentions, the Yang family will definitely not treat you badly. I will take you to see the Clan Leader right now and immediately initiate the highest family meeting!" Elder Yang took Yang Chen with him, already eager to inform the high-ranking members of the family about the matter.

The news of the Gravity Pill was quickly announced by Elder Yang to Yang Jin He. Upon hearing the news, Yang Jin He was greatly shocked and immediately initiated the highest family meeting. The high-level members of the Yang family gathered to discuss the solution to the Gravity Pill issue.

As the creator of the Gravity Pill, Yang Chen was naturally among them.

"Is the Gravity Pill really true?"

"Who knows."

Inside the room, the high-ranking members of the Yang family were all discussing loudly. Eighth Master Yang sat among them, sneering, "I am sure it must be fake. It's normal for a young boy to have creative ideas. He managed to create an elixir by chance and claims that it has an amazing effect. I can understand that, but to know the true effectiveness of this elixir, it still needs to be tested."

Eighth Master Yang was quite dismissive about it.

Yang Chen again?

What a joke, creating an elixir is not an easy task.

Hearing Eighth Master Yang's words, Yang Jin He expressionlessly said, "Eighth Elder, are you suggesting that I would call everyone here for this highest meeting without testing the effectiveness of the elixir?"

When Elder Yang brought Yang Chen earlier, the effectiveness of the elixir had already been tested.

Shockingly, it turned out to be real.

At first, Elder Yang Ba looked at it skeptically, but when he heard that the effectiveness of the elixir had been tested, his eyes widened in shock, "Clan Leader, this matter cannot be taken lightly."

"Eighth Elder, do you think I would joke about this?" Yang Jin He coldly snorted, clearly annoyed by Elder Yang Ba's words.

Elder Yang Ba took a deep breath, "If this matter is true, the implications are too huge!"

"Yes, this matter is of great significance. Clan Leader, is this Gravity Pill specifically for our Yang family, or is it for external sale? It is a matter worth deliberating," said Elder Yang Si.

"That's exactly what I'm thinking about. Yang Chen, can this Gravity Pill be mass-produced?" asked Yang Jin He.

“If there are enough Fire Red Fruits, mass production will not be a problem. The main material needed for this pill is Fire Red Fruit; the other materials are not difficult to gather. So, mass production is not an issue,” Yang Chen replied truthfully.

Hearing this, Yang Jin He said with joy, “If that’s the case, that’s great. If there are enough Gravity Pills for mass production, our Yang family cannot keep them all. We can choose to sell them externally. Of course, the price must be driven up. If other families want to benefit from the Gravity Pill, they must pay a price.”

Yang Chen nodded. Yang Jin He’s decision was the right one.

Because the strength of a family does not solely rely on elixirs but also on wealth such as Spirit Stones.

If there is not enough wealth, the Yang family may gain a bit of strength, but it will soon expose the insufficiency of the foundation of a middle-class family.

“However, the problem is how to sell it. Our Yang family is not a chamber of commerce.”

“We just cooperated with the Li Family Commerce Group recently. Why not let them handle the Gravity Pill? By that time, giving them a 10% profit share would be enough,” Eighth Master Yang said joyfully, “Yang Chen, you have an obligation to contribute this pill formula to the family. The family will not treat you unfairly.”

He was extremely happy now.

After all, once the Gravity Pill is sold externally, a huge amount of money will flow into the Yang family.

At that time, as a high-ranking member of the family, he would surely benefit from the profit sharing.

Even if he only got one percent, that would be enough for him to live on.

Seeing Eighth Master Yang's expression, Yang Chen felt a flash of disgust in his heart. He asked without expression, "How do you plan to repay me, Eighth

"Hmph, how can the Yang family treat you unfairly? If you contribute this pill formula to the family, whatever resources you want, the Yang family can give you," Eighth Master Yang said slowly.

"Hahaha, Eighth Elder, are you treating me like a beggar? You think the Yang family can give me whatever resources I want? So you mean that I, Yang Chen, who created this elixir, don't even have the right to control or inquire about it?" Yang Chen scolded, "How to deal with this pill formula is up to me, Yang Chen. It doesn't seem to have anything to do with you, Eighth Elder." What a joke!

He created the Gravity Pill, so how it is processed and controlled is his business.

At the very least, he must get at least 20% of the profits from the external sale of the Gravity Pill.

Eighth Master Yang had some wishful thinking, expecting to send him off with just a few resources?

Did he take Yang Chen for a child? No matter how many resources he had, it would never compare to the profits derived from the Gravity Pill. Even just getting 2% of the profits would be a hundred, even a thousand times better than the resources Eighth Master Yang promised.

Eighth Master Yang was annoyed at Yang Chen's response. He said angrily, "Yang Chen, what do you mean? Do you think that without the Yang family, you could sell this Gravity Pill? As a member of the Yang family, making a contribution is your duty."

"Hehe, Eighth Elder, you keep talking about the family, but do you think you can represent the family? The Gravity Pill was created by me, and since it has reached the point where a meeting must be held today, I have already planned to contribute it to the Yang family. But you must be clear that I created the Gravity Pill, not you!"

Yang Chen said coldly, "Of course, if the Eighth Elder feels that I, Yang Chen, am dispensable, then that's fine. I won't hand over the pill formula for the Gravity Pill. I'm curious how you, Eighth Elder, would sell this Gravity Pill!"

Here's an extra update for today! I won't say much, there will be more updates in the coming days.
