Chapter 95: Yang Chen 's Martial Arts Cultivation 1

“Show mercy to me? Haha, Yang Chen, don't you think you're overestimating yourself?” Wang De sneered mockingly.

His blade technique was the same as Wang Yun Kai's, both were the Wang Family's 'Tiger Spirit Blade Technique'. It's just that as the number one genius of the Wang Family, his Tiger Spirit Blade Technique was far more powerful than Wang Yun Kai's. With a single swing of his blade, it seemed as if one could feel the might of the tiger from the blade.

But for Yang Chen, all of this was meaningless.

The Tiger Spirit Blade Technique was indeed powerful, but it couldn't bridge the gap hard strength.

Wang De did not understand the disparity in strength between him and himself.

Of course, letting the opponent understand the difference was only a matter of time.

Yang Chen didn't have time to explain to Wang De either. With a wave of his hand, he tightly gripped his silver spear and faced the golden sword's swing. With a clang sound, the momentum of Wang De's golden sword was blocked. Wang De was suddenly alarmed: “What's going on?”

He exerted all his strength, trying to push the golden sword forward another step, but he realized that Yang Chen's silver spear stood there like an insurmountable mountain, preventing his golden sword from advancing even a little bit further.

Wang De didn't understand what had happened.

Why could Yang Chen so easily block his golden sword?

“What trick did you use?” Wang De said in a deep voice.

Yang Chen shook his head.

Wang De still thought he was using some trick until now?

It seemed that Wang De was too confident in his own strength.

Did the other party really think that his martial arts cultivation was the strongest in the Hundred Clans Trial Battle?

Thinking of this, Yang Chen stopped holding back and said bluntly, "Full of flaws."

Dealing with Wang De, the pressure he felt was even less than facing Murong Liuhe.

Murong Liuhe was clearly an opponent who had experienced many bloody battles in actual combat. One could see his true skills as soon as he made a move, but this Wang De, although his martial arts cultivation was strong, his actual combat experience in martial battles was too little. He wanted to rely on his martial arts cultivation to suppress others, but in fact, there were countless flaws.

If his martial arts cultivation was inferior to Wang De, he would naturally suffer greatly.

But as long as his martial arts cultivation did not lose to Wang De, Wang De's nightmare would begin.

To deal with Wang De, he didn't even need to use Twin Shadows Like Dragons.

Yang Chen's eyes were fixed on Wang De, and in the next moment, his arm shook, and the tremendous force swept towards Wang De.

Wang De was originally trying to figure out how to break through Yang Chen's defense, but in the next moment, he suddenly felt a force far surpassing his own rushing towards him.

Compared to this force, his power was utterly insignificant.

It must be known that Yang Chen's martial arts cultivation had already reached the Body Refining Realm Seventh Layer Peak. When it came to brute force, how could Wang De, who was only at the Body Refining Realm Sixth Layer Peak, be his opponent?

A contest between two different levels!

Wang De wanted to clash with this force, but soon, a wave of pain swept over him.

"Ah!"

Wang De spat out a mouthful of blood, and his entire body flew out backward.

"What happened?" "It seems like Wang De was defeated." "Everyone, look quickly!"

"How is it possible, Wang De lost?"

"No, it's not just a loss, he was defeated in an instant, almost effortlessly. What exactly happened?"

Without a doubt, the battle between Yang Chen and Wang De attracted the attention of many people from the major tribes in the Hundred Clans Trial Battle. Many people knew from the beginning that the gap between the fighters was huge and that the outcome would be decided quickly.

However, no one expected that the outcome would indeed be determined quickly, but the winner was not Wang De, but Yang Chen.

"Wang De was defeated in an instant."

“How is this possible? Wang De had reached the Body Refining Realm Sixth Layer Peak in martial arts cultivation. Even if Yang Chen had some tricks, he shouldn’t be able to defeat Wang De, who has real power.”

This scene undoubtedly shocked everyone.

Wang De also couldn’t believe this was true.

He covered his chest; now, he couldn’t even hold onto his golden sword. His arms were numb from the powerful force of Yang Chen’s blow, making it difficult to continue fighting.

“How is this possible, how is this possible, you...you actually reached the Body Refining Realm Seventh Layer!” Wang De roared.

With this roar, everyone heard the truth clearly.

“What...”

“What did Wang De say?”

“DIUIYL you nears Bouy Kellilling Keann Devencn Layer, yang cnen nas reacneu the Body Refining Realm Seventh Layer!”

“What, Body Refining Realm Seventh Layer? How is this possible? Wang De’s Body Refining Realm Sixth Layer Peak is already enough to challenge the peak of the Hundred Clans Trial Battle. This Yang Chen...Body Refining Realm Seventh Layer?”

Yang Family members were also boiling with excitement at this moment.

Yang Jin He and Elder Yang Si looked at each other, their eyes widening with disbelief, the surprise evident in their expressions.

In their hearts swirled waves of shock they couldn't calm.

As for Elder Yang Si, he knew Yang Chen's martial arts cultivation level might not be as simple as everyone had guessed. However, he assumed Yang Chen's cultivation would be at most the Body Refining Realm Sixth Layer Peak, barely able to draw with Wang De.

Moreover, even with inferior martial skills, it would be challenging for Yang Chen to win.

But who would have thought that Yang Chen's martial arts cultivation level had actually reached the Body Refining Realm Seventh Layer?

This was already far surpassing the martial arts cultivation levels of all major tribes.

At this moment, Yang Jin He was even more dumbfounded. He rubbed his eyes repeatedly, unable to believe this was true: "Yang Chen's martial arts cultivation has reached the Body Refining Realm Seventh Layer. What's going

"This..."

No one knew.

Elder Yang Si's gaze fell on Yang Yiming and Yang Wu, who were whispering to each other: "Yang Wu, Yi Ming, you two knew about Yang Chen's martial arts cultivation level, right?"

"Uh, it's hard to hide anything from Fourth Master." Yang Wu scratched his head.

"What's going on? What is Yang Chen's actual strength now? Even if he's in the

Body Refining Realm Seventh Layer, he shouldn't have been able to defeat Wang De so easily." Elder Yang Si, with rich experience, could tell that it was effortless for Yang Chen to defeat Wang De. This was not something that could be accomplished by merely entering the Body Refining Realm Seventh Layer.

As Yang Yiming was quite a blabbermouth, he smirked: "Fourth Master, actually, Yang Chen's martial arts cultivation has indeed reached the Body Refining Realm Seventh Layer..."

As he spoke, Yang Yiming's voice gradually lowered.

Yang Chen had told them he was at the Body Refining Realm Seventh Layer, but they didn't know that Yang Chen was actually even stronger than that. No one knew that his cultivation went far beyond the Body Refining Realm Seventh Layer.

But this was already enough to shock the Yang family members.

Yang Jin He, Elder Yang Si, and the other family members who were listening all took a deep breath when they learned Yang Chen's true martial arts cultivation level. Their hearts were stormy, unable to calm down, and they found it hard to describe their feelings at this moment.

Is Yang Chen really a demon?

Can this guy be described by common sense?

Delivered at the fourth watch. Asking for everything..
