

Supreme Pupillary Master: Peerless Eldest Miss

#Chapter 21 - 21 - 21 21 Dark Guard Token - Read Supreme Pupillary Master: Peerless Eldest Miss Chapter 21 - 21 - 21 21 Dark Guard Token

21: Chapter 21 Dark Guard Token 21: Chapter 21 Dark Guard Token Editor: Henyee Translations It was a token made of a special material, with a cold metallic sheen, though the material was unknown.

On that token, a strange totem pattern was engraved.

Besides that, there was a large character "Dark" inscribed on it!

"What is this?"

Luo Qingtong looked at the token, completely unaware of what it was or its significance.

Just as she frowned and was about to put it away, suddenly, a sharp pain seared through her mind, and a strong consciousness surged up fiercely from deep within her brain.

"Tianyu Empire!

Dark Guard Token!

So it was them!

It was them who harmed me!"

"Tianyu Empire, if you were dissatisfied with the marriage agreement between Yuwen Mo and me, you could have broken off the engagement!

Why did you have to harm me like this!

Why!"

That consciousness was raging turbulently in Luo Qingtong's mind, the mournful cries almost making her head explode from the noise!

The sobbing and wailing, the piercing cries, caused Luo Qingtong's head to throb with intense pain.

The next second, countless memories poured in like a flood that had burst through a dam.

In an instant, Luo Qingtong's consciousness was filled to the brim.

Very soon, she understood everything.

It turned out that this body belonged to a girl also named Luo Qingtong.

However, compared to her own powerful and wanton self, the girl named Luo Qingtong wasn't as fortunate!

She was the eldest lady of the Luo Family in the Duchess Manor of the Lower-class Dongli Country, the family's number one genius, and the most beautiful woman in Dongli Country!

Yet she was betrayed by a concubine's daughter from the family's second branch, Luo Xinning, whom she regarded as closely as a sister.

In the end, her dantian was destroyed, her cultivation was gone, and she was poisoned blind and thrown to an unknown group for abuse!

Had it not been for Luo Qingtong transmigrating over just in time and killing those Black-clothed Men, and even those Silver-clothed Men monitoring and ambushing from the shadows, her fate would have been tragic beyond measure!

Scenes flashed through Luo Qingtong's mind.

It turns out that that Luo Qingtong had meticulously cared for Luo Xinning, nourishing her frail body, unlocking her martial arts talent, even teaching her cultivation hand-in-hand, and shared her resources to help her enhance her strength.

In the scenes, Luo Xinning appeared as pure as a white lotus!

Sadly, the heart of this white lotus was utterly blackened!

Luo Qingtong watched the memories flash across her mind.

That Luo Xinning stood before the former Luo Qingtong, self-righteously destroying her cultivation, then blinding her eyes!

Afterwards, she said her life was too good!

Too many benefits in dealing with her, so she had no choice but to act.

"Good!

Very good indeed!" A strange bloody gleam flashed in Luo Qingtong's hollow, blank eyes.

So everything she faced after transmigrating was the work of this woman, huh?

"Luo Xinning, is it?

I will remember you!

I particularly enjoy dealing with such bitches like you!"

Loving to torment such bitches indeed!

The smile on Luo Qingtong's lips was as bright as blood.

She didn't care how foolish her previous self was, keeping such clearly malicious Beauty Snake by her side, only to be compromised while breaking through, losing both cultivation and eyesight.

But now, it was she who occupied this body!

She would never allow anyone to bully her again!

Since Luo Xinning didn't finish off her original self with a single strike, allowing her to transmigrate into this body, she naturally inherited these vendettas!

22: Chapter 22: Empire Betrothal 22: Chapter 22: Empire Betrothal Editor: Henyee Translations And then there is the Imperial Family of the Tianyu Empire, the Yuwen family!

Luo Qingtong stared at the Dark Guard Token in her hand.

She knew from memory that this body of hers had a marriage contract with the Heaven's Chosen Son of the Empire, the Fifth Prince Yuwen Mo!

The Tianyu Empire is an Emperor-level Super Country, vastly different from the Lower-class Country of Dongli Country, not to mention just the Luo Family of Dongli Country's Marquis Mansion!

No one knows how Yuwen Mo could have a marriage contract with such a young lady from a Lower-class Country's Marquis Mansion!

After all, Yuwen Mo is an innate genius with exceptional talent and strength, absolutely the number one in an Emperor-level Super Country like the Tianyu Empire.

But who knows that when Yuwen Mo was just born, he was even worse than trash?

Weak and sickly, born with cold energy!

He was destined never to be able to cultivate!

It was the original owner's mother who saved his life, helped remove the illness from his body, allowing him to become a genius, and from then on soared up high, like a roc flying nine thousand miles!

But how did the Yuwen Royal Family treat the original owner?

After the original owner's mother disappeared, they immediately wanted to deny this marriage, and now they have even sent people to bribe Luo Xinning, wanting to put the original owner to death!

Why abolish her cultivation and blind her eyes, then throw her out to be violated and hang her at the city gate?

Because the Yuwen family wants to justifiably dissolve this marriage contract without leaving any stain on Yuwen Mo!

What better reason to cancel the marriage contract than to destroy Luo Qingtong?

Even if the marriage contract is canceled, any criticism will forever be upon Luo Qingtong, and never Yuwen Mo!

After all, how could a woman with no chastity and no cultivation be worthy of the Heaven's Chosen Son, the Fifth Prince?

As Luo Qingtong thought, the smile on her face grew even more profound.

These people are really good!

Truly excellent!

Heaven's Chosen Son?

Hah!

She will let them know that so-called geniuses are worthless in front of her!

"It's been so long since I've been this excited."

The last time, was it when she annihilated the few powerful people from the Superpower Assassination Union who came to encircle and kill her?

She spent nearly a month slowly grinding down the most powerful individuals in the Superpower Assassination Union!

This time, it won't be any different!

No matter how much time it takes, it doesn't matter!

Luo Qingtong's temperament was exceedingly sinister.

She didn't care how Luo Xinning and the Tianyu Royal Family treated the original owner, as after all, she was not the original person before!

But after transmigrating here, facing all this, she was displeased!

Especially those silver-clothed men chasing her, causing her to accidentally enter the healing spring of that man, offending that powerful man.

This account naturally needs to be settled with Luo Xinning and the Tianyu Royal Family!

Shua!

Putting away the Tianyu Royal Family's Dark Guard Token in her hand, Luo Qingtong swiftly leaped back up to the treetop.

This was the wild treasure trove of Dongli Country.

Jiuyu Mountain has treacherous terrain, dangerous jungles, with countless wild beasts and fierce creatures inside.

However, its resources are also extremely abundant.

Although Luo Qingtong's eyes were rendered useless, she could use her Pupil Skill to see, not much different from ordinary people, but still inconvenient.

Pupil Vision only works within the range of her spiritual power, beyond that it doesn't work.

Also, constantly using the Pupil Skill is extremely taxing on spiritual power.

If it were the former peak Luo Qingtong, she naturally wouldn't care about such consumption.

But now, having just transmigrated, this body clearly hasn't cultivated spiritual power, possessing limited spiritual power.

Maintaining it for a long time is indeed a bit tiring, and also very unsafe!

Luo Qingtong still needs to find a way to detoxify her eyes!

This Jiuyu Mountain is her best place to gather antidotes!

But before that, she must first analyze the components of the poison in her eyes.

23: Chapter 23 Supreme Medicine and Poison 23: Chapter 23 Supreme Medicine and Poison Editor: Henyee Translations Luo Qingtong raised her hand and scraped a bit of dark poisonous liquid from the corner of her eye.

Looking at the drop of poison on her index fingertip, the blood-red light in Luo Qingtong's eyes swirled and suddenly became intense.

With her blood-colored pupils, she appeared particularly mysterious and alluring, like a heart-captivating demon, both bewitching and absolutely stunning.

"Heavenly Blood Grass, Double Moon Lotus, Heartless Dragon Root..."

Under the gaze of Luo Qingtong's eerie blood-colored eyes, each medicinal component was analyzed by her.

If someone were here to witness this, they would surely cry out in shock.

Luo Qingtong's eyes were so formidable, just by looking at the poison, she was able to analyze its medicinal properties?!

What kind of monstrous and terrifying ability was this?

One must know, alchemy has its recipes, artifact refining has its plans!

Everything has its exclusive secret manual.

The formulas of alchemists and artifact refiners are the secret treasures of their respective sects and aristocratic families.

Apart from some widely circulated public elixir recipes, other recipes, especially those developed uniquely, are the guardians of the great alchemy and artifact refining sects!

They are the exclusive secret formulas that ensure the unparalleled stature of their respective sects and families!

And Luo Qingtong could see through the essence with just one glance, doesn't that mean that all the exclusive formulas and secrets are virtually nonexistent to her?

Indeed, this was the case!

Luo Qingtong's high ranking in the Superpower Assassination Union of the 24th century was largely due to this ability!

This ability is the true essence of her pupil skill superpower!

Any secret formula, medicine, weapon, defense...

all are laid bare under her pupils!

Countries around the world and various organizations both coveted and feared this ability of hers!

Imagine, a new weapon or medicine developed with great difficulty, or something else, she only needs a look to know your formula proportions, mastering your manufacturing process!

What a terrifying thing that would be?

Of course, if this ability was in your own hands, it would be incredibly wonderful!

Therefore, people truly both love and hate this ability of Luo Qingtong.

Her ranking in the Superpower Assassination Union rose ever higher as her pupil skill improved daily!

Eventually, she reached the number one position, and it never changed since then!

"Tsk!

Supreme Medicine and Poison!

Someone actually used such a thing to harm the original owner?

What kind of grudge or enmity could it be?"

Luo Qingtong completely broke down the components within the poison and immediately raised her eyebrows.

The toxicity of this poison was not only intense but also extremely difficult to counteract!

Supreme Medicine and Poison, in other words, this substance is both a curative remedy and a potent poison!

All of this comes down to the arrangement of the medicine!

The medicinal materials Luo Qingtong analyzed were perfectly counteracting each other, forming a complete circle!

Arranged correctly, the materials enhance each other, becoming a healing remedy!

But if arranged in reverse, they counteract each other, becoming a supreme poison!

The same materials can be both medicine and poison!

Refining such Supreme Medicine and Poison is extremely difficult.

Not only are the required materials very selective, the timing of inclusion is also extremely demanding!

A slight error would lead to failure, and it is not something an ordinary alchemist can refine!

Even the revered Heavenly Alchemist may not be able to refine it!

How could Luo Xinning have such potent Supreme Medicine and Poison in her hands?

The preciousness of this poison, let alone Luo Xinning, even if the Tianyu Empire leveraged all its power, it might not obtain even a drop!

Moreover, more than one drop had entered her eyes!

Who exactly was trying to harm her?

24: Chapter 24 Misunderstanding 24: Chapter 24 Misunderstanding Editor: Henyee Translations "Things are really getting more and more interesting!"

Luo Qingtong sneered coldly.

This Supreme Medicine and Poison definitely doesn't belong to Luo Xinning, even the Imperial Family of Tianyu Empire can't bring it out!

It seems there are hidden secrets behind this matter!

It's not just as simple as the Tianyu Empire breaking off an engagement!

But it's not a problem, she's not afraid of complications, only afraid that things won't be interesting enough!

Otherwise, with such a big world, wouldn't it be too dull?

It would be a waste of living this life again!

She wouldn't let anyone who tried to harm her in the dark go unpunished!

"Alright, since I know the medicinal properties, I just need to find the corresponding antidotal herbs to detoxify it!"

This Supreme Medicine and Poison is indeed formidable to others and might remain unsolved for their entire lifetime.

But to Luo Qingtong, it's no big deal at all.

The reason this poison is hard to resolve is because ordinary people find it difficult to discern how many ingredients it contains, what their properties are, and in what sequence they were added.

But Luo Qingtong knows all of it, is there any suspense in solving it?

As long as the corresponding medicines to the properties of the Supreme Poisonous Holy Medicine are gathered and refined according to the sequence of element compatibility, the poison will be neutralized!

Thinking about this, Luo Qingtong raised her hand, flicked off that drop of poison, and leaped towards the depths of Jiuyu Mountain.

Hopefully, it has the herbs she needs!

Moments after Luo Qingtong had left, Ye Qianming appeared closely in pursuit.

"Swish!"

His figure appeared at the spot where Luo Qingtong had lingered, sensing the still lingering aura, he frowned slightly.

He was a step late.

He just couldn't understand how Luo Qingtong always found the perfect spots to hide, where even his Divine Thought couldn't search out such blind spots.

A mere martial master actually managed to evade his Divine Thought's search multiple times!

If this gets out, it will be incredibly shocking!

The more Ye Qianming pursued Luo Qingtong, the more he sensed the multitude of secrets hidden in her!

This woman is like a treasury hidden within layers of mist, each time bringing him a different feeling and surprise.

Unknowingly, the anger in Ye Qianming's heart subsided slightly; instead, waves of curious exploration arose.

His gaze swept around, suddenly noticing that drop of poison on a leaf that Luo Qingtong had flicked away.

"Is this...

Supreme Medicine and Poison?"

The spiritual energy contained within that drop of poison was overpowering; ordinary people wouldn't feel it, but Ye Qianming was an exception.

Looking at that drop of poison, Ye Qianming's eyes flickered slightly.

He thought of Luo Qingtong's eyes, could it be that her eyes were blinded in this way?

Being secretly harmed with the Supreme Poison and Medicine, what on earth is that woman's identity?

Could it be she's not from the Dongli Country?

Indeed, with the abilities she has shown, she doesn't seem like she's from this Low-class Small Country!

Thinking about it, Ye Qianming's figure moved, heading towards the direction where Luo Qingtong's figure had disappeared.

Yet he didn't know, it was precisely this momentary misunderstanding that made him unable to find Luo Qingtong for a long time afterward!

Swish swish swish!

Luo Qingtong's figure moved rapidly through the dense forest of the deep mountains.

With her Pupil Skill, Luo Qingtong could move freely even in the depths of the infamous Jiuyu Mountain.

She could detect any powerful Demon Beast in advance and avoid them with ease.

Every place she advanced to was a blind spot in the terrain, both safe and hard to discover.

While moving, Luo Qingtong glanced around.

Wherever her crimson gaze passed, every Spiritual Grass and Spiritual Medicine had nowhere to hide from her eyes.

Both the years and the properties of the herbs were revealed.

However, much to Luo Qingtong's disappointment, she hadn't found an herb useful for treating her eyes all along the way.

Clearly, the herbs used for this Supreme Medicine and Poison are not Mortal-grade.

Correspondingly, the herbs to detoxify it are also extremely hard to find.

It seems like even in the depths of Jiuyu Mountain, they might not exist.

"Tsk, troublesome."

Looks like she'll have to think of another way.

As she contemplated, Luo Qingtong prepared to leave.

Just at that moment, there was a sudden commotion ahead.

25: Chapter 25 Swarm of Giant Pythons 25: Chapter 25 Swarm of Giant Pythons Editor: Henyee Translations Rumble rumble!

Luo Qingtong's senses were extremely sharp.

As soon as she noticed something was amiss ahead, a deafening sound suddenly approached.

At the same time, a stench filled the air.

Even separated by dozens of meters and countless giant trees and long grass, the stench hit like a violent storm.

"Swish!"

Like a sharp blade slicing through the air.

Where that aura brushed past, the giant trees collapsed, and the long grass bowed down, revealing the scene ahead.

Luo Qingtong's pupils sharply contracted.

Ahead, numerous giant pythons were intertwined, forming massive balls of flesh, surging toward her.

The hissing snake tongues, triangular snake heads, fierce eyes, and gigantic coiled bodies all indicated the terrifying and horrifying nature of these giant pythons.

Third-level Demon Beast!

Luo Qingtong watched as those nearly hundred-meter-long giant pythons rolled towards each other, intertwined.

The mountains and plains were filled with snakes; this scene was enough to make a strong Military Marquis level expert's scalp tingle!

This kind of third-level Demon Python could easily kill a martial master.

Ordinary military generals had to be cautious against them.

And now, there were not just a hundred!

Such a vast number of giant pythons, yet they were chasing a single person.

"Ah!

Don't chase me!

No!"

A young boy was running in front of the giant pythons, his eyes brimming with tears, crying as he ran.

It was clear he was utterly terrified; his face, as delicate as a jade doll, was streaked with tears, his eyelashes trembling violently as if he would sob uncontrollably at any moment.

The boy was about eight or nine years old, wearing luxurious clothing, with a precious jade pendant hanging at his waist.

All the accessories on his body, including his clothes, were Spiritual Artifacts, all glowing brightly at this moment, resisting the attacks from the giant pythons.

It was evident these Spiritual Artifacts were not just fancy but useless items.

But there were simply too many giant pythons.

No matter how many Spiritual Artifacts he had, they couldn't withstand such consumption; their brilliance was already very faint.

The young boy was crying as he ran toward Luo Qingtong.

His steps were staggering, as if he might fall any moment.

Just then, he spotted Luo Qingtong and suddenly widened his eyes in surprise.

"Fairy Sister!"

—Wherever the stench from the giant pythons passed, the long grass and giant trees bowed down.

Luo Qingtong saw him, and naturally, he saw Luo Qingtong.

At nearly a hundred meters' distance, Luo Qingtong's stunning beauty, like the Jiutian Xuan Nu, crashed straight into the young boy's eyes.

At this moment, she was looking indifferently at the young boy and the group of giant pythons, yet unaware of the enormous impact her appearance had on the boy.

She must be a fairy!

That's how she could face so many third-level Demon Beasts so calmly and composedly.

The boy was filled with joy and was about to run toward her for help.

But then, seeing Luo Qingtong's vacant hollow eyes, he was suddenly taken aback.

Then he noticed the bloodstains and raggedness on Luo Qingtong's pink robe.

So, Fairy Sister was not unafraid, but couldn't see?

How did she end up here?

Was she also secretly harmed?

With these thoughts, the boy's steps abruptly halted.

He gritted his teeth, tears in his eyes, and finally, with a swift turn of his head, he ran towards the other side.

"Fairy Sister!"

Run quickly!

I'll distract these giant pythons!

You run!

Run forward, and don't look back!"

The boy's voice was trembling excessively.

The Spiritual Artifacts on his body couldn't hold out much longer.

If he used Luo Qingtong as a shield, he might be able to find a chance to escape.

But he was naturally kind-hearted and unwilling to risk others' lives for his sake.

After all, he might not survive in the end, so he didn't want to harm others too!

With these thoughts, he wiped his tears while running into the distance, shouting for Luo Qingtong to run quickly.
