

Supreme Pupillary Master: Peerless Eldest Miss

26: Chapter 26: Too Unprepared 26: Chapter 26: Too Unprepared Editor: Henyee
Translations Luo Qingtong watched the direction in which the young boy ran off and raised an eyebrow.

She had just been ready to fight fiercely, even harboring killing intent toward the young boy.

If he dared to rush in front of her and use her as a shield, she would have struck him down without hesitation!

But unexpectedly, the young boy took one look at her and ran off, even luring away those giant pythons.

It seemed he didn't intentionally bring the giant pythons here, nor did he intend to use her as a shield; it was just an accident!

Unfortunately, it's too late.

Luo Qingtong sniffed the faint scent lingering in the air and narrowed her eyes.

This scent would drive demon beasts mad and relentlessly pursue the target!

Apparently, this was why the young boy was being hunted by these demon pythons.

At this moment, because of the recent stench in the wind, many of these scents had already clung to Luo Qingtong.

Even though the young boy had stopped in time and lured the giant pythons away, many of them still tracked the scent toward Luo Qingtong.

Evidently, they had also taken her as a target.

"Troublesome."

Luo Qingtong frowned and her figure soared upwards in an instant.

Swish!

She charged toward the direction the boy ran off.

To stop the hunt of these giant pythons, the problem had to be solved with that young boy!

If she guessed right, the young boy must have ingested some drugs that incited these giant pythons to madness, causing him to emit that alluring scent, making the giant pythons chase him relentlessly, determined to swallow him whole.

To rid these scents, she needed to neutralize the drug in the boy's body!

"Swish!"

Luo Qingtong rushed toward the giant pythons charging at her.

Under her Pupil Vision, the weak points of these giant pythons shone like beacons in the dark night.

The jade hairpin in her hand sliced swiftly through the air.

A giant python immediately let out a miserable scream, its long body thrashing fiercely in the air, sending several other pythons flying away.

Luo Qingtong slipped effortlessly through the huge gaps created by their attack and swept toward the direction the boy ran off.

Before leaving, she didn't forget to pull a few herbs from under a big tree beside her.

"Hiss!"

When she arrived, the spiritual artifact on the boy's body could no longer hold up.

The defensive glow of the spiritual artifact vanished, and he was heavily knocked to the ground by the tail wind from a giant python's swinging tail behind him.

"Ugh..."

"Wow!"

Facing the enormous python head rushing over, the young boy was terrified to the extreme.

Yet even so, he stubbornly refrained from crying for help.

He knew that deep in this forest, no one could save him.

Tears streamed down the young boy's face, carving wet trails on his jade-like visage, making him look pitiful and adorable.

His lip was bitten hard, even to the point of bleeding.

Just when the young boy felt utterly hopeless, a swift breeze suddenly swept by.

His waist was grabbed fiercely, and in the next second, his entire body was lifted into the air.

"Fairy..."

Fairy Sister!"

In shock, the young boy gazed at the exquisite beauty close at hand, completely stunned.

Perhaps because he was rescued, this moment gave Luo Qingtong a massive impact on the boy.

She felt like a ray of light, giving the despairing young boy hope in the endless darkness of his journey.

"Wow!"

Fairy Sister!"

The boy clung to Luo Qingtong, wailing loudly, as if holding on to his final salvation.

Luo Qingtong saved him casually, little expecting the young boy would hold her and cry like he'd just found a relative.

This defenseless and intimate manner left Luo Qingtong momentarily stunned.

If she didn't lack any memory of this little guy, Luo Qingtong might have believed he knew her.

Isn't he too defenseless?

Doesn't he suspect she might be sent by his enemies?

Well, being chased by a swarm of giant pythons, barely keeping his life, only a full enemy would come to save him...

27: Chapter 27 I Will Be Obedient!

27: Chapter 27 I Will Be Obedient!

Editor: Henyee Translations "Alright, it's okay now." Luo Qingtong wasn't very good at comforting people, but the little guy was crying so desperately in her arms that it seemed a bit inhumane to ignore him.

Thinking this, Luo Qingtong patted the little boy on the back and casually stuffed a few herbs she had picked earlier into his mouth.

"Chew a few times, then swallow."

"Okay." The boy nodded with tears in his eyes.

He had just gone through the terror of life and death, and now clinging to Luo Qingtong was like holding onto his last lifeline.

Even so, he still tried his best not to cling too tightly to Luo Qingtong, so as not to hinder her movements.

"Fairy Sister, tha...

thank you."

The smell of the herbs was very unpleasant.

The little boy had been pampered since childhood and had never encountered such a strong odor.

But even then, he didn't hesitate at all and quickly chewed the herbs Luo Qingtong gave him and swallowed, then cautiously leaned against her, holding her with his small hands.

Luo Qingtong could feel his body trembling, clearly very scared, yet he refrained from making a sound.

This obedience made Luo Qingtong unable to immediately leave him.

Forget it; I've already saved him, might as well see it through to the end!

"Give me the defensive spiritual artifacts you're wearing." She said to the little boy.

There were too many giant pythons, and they were relentlessly persistent.

The effects of the drug in the boy's body had been neutralized, but there was still residue on them.

It's unclear who wanted him dead so badly, but even as the drug's scent dissipated, the frenzy of the python swarm would still persist for a while.

And it was getting more and more frenzied!

It seemed that whoever was behind this had anticipated the little guy's detoxification.

Luo Qingtong needed to escape the python swarm before they went completely berserk!

"Okay." The little boy didn't ask anything and directly removed all the defensive spiritual artifacts he had, preparing to pass them to Luo Qingtong.

He completely trusted Luo Qingtong, as it was she who saved him from the frenzied python swarm.

If she really meant him harm, she wouldn't have saved him, so there was no need for such actions.

"Fairy Sister, here you go." He handed all of the defensive spiritual artifacts to Luo Qingtong.

"No need, you hold onto them.

Just do as I say in a moment, alright?"

Luo Qingtong's figure swiftly darted among the swarm of pythons.

She moved incredibly fast.

Every step was perfectly timed.

The giant pythons lunged at her, but each time, they were just a bit short of biting her.

Despite the multitude of crisscrossing pythons, they couldn't do anything to her.

The little boy was already watching in amazement.

The Fairy Sister was truly incredible!

She must have been sent by the heavens to save him!

Absolutely!

The little guy looked at Luo Qingtong in admiration, nodding heavily to her words.

"Fairy Sister, I'll be obedient."

Luo Qingtong couldn't bother anymore with the little boy's nickname for her.

The pythons were getting faster, the signs of frenzy growing more intense.

Originally just Third-level Demon Beasts, now stimulated by the drug's scent, they showed signs of advancing to Fourth-stage Demon Beasts!

Even with her Pupil Skill as support, there were still pythons that managed to get in front of her, forcing her to stop advancing.

If this continued, she would inevitably be trapped within the python swarm, surrounded to death!

"Alright, now, start throwing!"

Luo Qingtong indicated a direction, instructing the little boy in her arms to throw the defensive spiritual artifacts.

Without hesitation, as soon as Luo Qingtong mentioned the direction, he immediately threw the defensive spiritual artifacts he held.

He didn't even question why Luo Qingtong asked him to do this, nor asked about the defensive spiritual artifacts having no Spiritual Energy left and what good it would do to throw them.

The little guy wholeheartedly believed in Luo Qingtong.

He believed that this Fairy Sister sent by the heavens to save him would surely rescue him!

What the Fairy Sister said was definitely correct!

28: Chapter 28: The Wonderful Use of Pupil Skill 28: Chapter 28: The Wonderful Use of Pupil Skill Editor: Henyee Translations "Swish, swish, swish!"

Luo Qingtong's figure darted continuously through the raging horde of giant snakes.

At this moment, her path was completely blocked by the increasingly frenzied giant snakes.

She could only rely on her Pupil Skill to weave and dodge in the chaotic encirclement of the giant snakes charging wildly.

If anyone were present, they would have been astonished by Luo Qingtong's movement and steps.

It wasn't that she was too fast, but that she was incredibly clever!

One after another, the giant snakes lunged with their gaping maws.

Even a Military Marquis Level expert would be overwhelmed by such an attack, ultimately forced to stop by sheer force, resisting with their strength.

But Luo Qingtong's movements remained calm and unhurried.

Even as the giant snakes moved faster and their aura grew more violent, leaving less room to dodge, she could always find a safe foothold amidst the relentless barrage of attacks, skillfully evading all of them.

However, this scenario couldn't last long.

As the snakes became even more frenzied, they began to disregard whether they might harm their companions, attacking all at once.

In this way, Luo Qingtong almost ran out of places to dodge!

Fortunately, she had almost completed the tasks she ordered the young boy to do.

As she threw out the last Defensive Spiritual Artifact, the blood-red light in Luo Qingtong's eyes suddenly burst forth.

Swish, swish, swish!

In the dark red glow of her Pupil Vision, the Defensive Spiritual Artifacts she threw out seemed to be linked by invisible lines, finally coalescing into a massive Array pattern!

This pattern was very similar to the Array Ye Qianming had set up for healing, but it had noticeable differences.

Luo Qingtong had altered it so that the Array not only concealed but also trapped and killed!

At this moment, relying on the artifacts the young boy tossed out to form the Array Eyes, the Array was successfully set up!

The reason for choosing this Array was entirely because Ye Qianming had used the forest terrain to set it up, achieving such strong concealment effects.

Luo Qingtong only had those Spiritual Artifacts without Spiritual Energy to utilize, so she couldn't set up an overly powerful Array.

And a too weak one might be useless against these giant snakes!

So, she opted for such an Array!

At this point, Luo Qingtong was unaware of the astonishing thing she had accomplished.

Ye Qianming had set up a Sixth-level Array.

Even general Spirit Array Masters might not be able to successfully set it up just by copying it exactly.

Luo Qingtong had only been in it once, yet she could set it up with perfect accuracy.

Not only that, she even made improvements and modifications.

Only a master could make such modifications.

Moreover, she altered a Sixth-level Array!

Now this Universe Energy Array had effects approaching the Seventh level!

Although it hadn't quite reached the Seventh level, it wasn't far off!

If word of this got out, it would surely cause a worldwide sensation, with countless forces rushing to recruit this Array prodigy!

"Hold on tight!"

At the moment the Array took shape, Luo Qingtong gave a low shout, and the young boy clinging to her immediately clutched her tightly like a koala.

At the same time, Luo Qingtong let go momentarily and formed seals with her hands.

A force rushed into the main Array Eye at that moment.

As Luo Qingtong moved, the giant snakes seemed to sense some impending danger and rushed at her even more frenziedly.

"Boom!"

The force that Luo Qingtong released hit precisely at the main Array Eye, instantly activating the immense Array!

29: Chapter 29 Ye Qianming's Surprise 29: Chapter 29 Ye Qianming's Surprise Editor: Henyee Translations "Hiss!"

Amidst the furious hissing of the giant snakes, the enormous array diagram soared up, instantly enveloping all the giant snakes surrounding Luo Qingtong.

Luo Qingtong, holding the young boy, swiftly darted out from the life gate of the array. Behind her were countless writhing massive snake bodies and gaping bloody mouths.

"Bang!"

Without looking back, Luo Qingtong shot out a beam of light.

The array closed the moment she darted out!

In an instant, the pitiful hissing of the giant snakes was unending.

Luo Qingtong did not linger outside for long, immediately leaping and quickly taking the boy far away.

Though this array was formidable, it was ultimately formed with a powerless defensive spiritual artifact.

The energy required to activate the array relied solely on the material of the artifacts, and couldn't trap these giant snakes for long.

But as long as it blocked them for a while, it would be enough for their escape.

The boy's internal aura had been resolved; as long as they distanced themselves from these snakes, they wouldn't pursue anymore.

After a bit of tumult, they would disperse.

Just moments after Luo Qingtong left, with a swish, Ye Qianming's figure suddenly appeared in the sky above the dense forest.

The man in silver clothes and black hair stood in the air with the majestic dignity of an ancient divine being.

The powerful aura surrounding him left no trace of insect chirping or bird calls wherever he went.

It was as if with the man's appearance, the entire world fell silent.

"Late again."

He gazed around, sensing the lingering dense aura indicating the girl had just left not long ago.

Ye Qianming's eyes scanned the surroundings, finally fixing on the concealing array that had trapped the group of giant snakes.

This array had the effect of concealment and entrapment, but after all, it was Luo Qingtong who learned from stealing his techniques.

While others couldn't detect it, could Ye Qianming not?

Sensing the array's aura hidden in the void, a faint surprise flickered in Ye Qianming's eyes.

This is...

the Universe Energy Array?

No, not right!

It's not the Universe Energy Array!

Though it has the aura of the Universe Energy Array, there's a significant difference.

The aura emitted by this array is much stronger than that of the Universe Energy Array!

Could this be...

the work of that woman?

Ye Qianming's eyes slightly moved.

He thought he had already esteemed that woman highly enough.

Yet each time he pursued her, she gave him a tremendous surprise!

The Universe Energy Array was a sixth-level array formation he had pondered out himself.

Though just a work of boredom, across the world, those who could successfully arrange it numbered no more than ten.

Aside from himself, the others were all array formation masters!

But Luo Qingtong, having only come and gone once, saw through his array?

And even modified and arranged it!

What a terrifying talent is this?

Could it be that the woman, besides possibly being an artifact refiner, is also a spirit array master?

Artifact refiners and spirit array masters, no matter which, could attract numerous forces and cultivators eagerly, holding very prestigious statuses on the continent!

But those who could have the strengths of both were few and far between.

Ye Qianming searched through all his memories but found none matching Luo Qingtong's strength and cultivation traits.

This woman was truly a mystery.

For the first time, Ye Qianming felt a strong curiosity towards someone.

This woman, he could not see through at all.

Just as Ye Qianming slightly frowned, with a boom, the spiritual artifact in the array below shattered.

The array, losing its array eye, explosively burst open.

The giant snakes trapped within, after killing nearly half of each other, the remaining dozens rushed out.

They had surged into the strength of Fourth-stage Demon Beasts, and as they charged out, upon seeing the man floating in the air, they immediately charged up with crimson eyes.

30: Chapter 30 Adorably Silly 30: Chapter 30 Adorably Silly Editor: Henyee Translations
"Hiss hiss hiss!"

The intense hissing seemed to echo through every part of the air.

Everywhere around were the figures of giant snakes.

Their massive bodies, either coiled or stretched out, rushed towards Ye Qianming.

The huge snake heads were full of ferocious and murderous intent.

Ye Qianming looked on indifferently, his facial expression not changing in the slightest.

"Swoosh!"

There seemed to be a gentle breeze passing by.

The next second, bang bang bang!

A continuous series of explosions suddenly resounded.

The giant snakes that charged forward were instantly frozen in mid-air, as if captured by an invisible giant hand.

A mist of blood filled the air.

The bodies of the giant snakes exploded one after another.

In just a moment, the sky was filled with blossoming blood-colored flowers!

Dozens of frenzied giant snakes, capable of tearing a Peak Martial Marquis to shreds, were completely annihilated in an instant!

"Swoosh!"

In the mist of blood, Ye Qianming stood spotless, like an unmatched Divine presence, looking on with cold and indifferent eyes.

He paused for a moment, amidst the rain of blood and flesh, then vanished into the void.

The air was left with only the overwhelming scent of blood, a testimony to the ultimate slaughter that had just occurred here!

.....

"Swish swish swish!"

Luo Qingtong's figure darted through the dense forest.

After that escape and activating the array, she was slightly fatigued.

Just as she reached a safe place and was about to put down the little boy in her arms, she suddenly detected a hint of blood in the air.

Luo Qingtong suddenly lowered her head, the little boy's pale and exquisite face appeared before her Pupil Vision.

"Are you hurt?"

Luo Qingtong frowned.

She had just been focused on running and hadn't noticed the little one in her arms was injured.

She set him down and discovered that the boy's injury was on his shoulder, right where it pressed against her waist and abdomen.

If it weren't for this little one's block, she might have been the one injured.

Luo Qingtong recalled, thinking of the frenzied giant snakes when she dashed out of the array.

Was that when he got injured?

The wound on the little boy's shoulder was a gaping tear, causing severe pain.

His consciousness was fading, and if Luo Qingtong hadn't noticed in time, he might have silently died.

"Why...

didn't you cry out when you were hurt?"

Luo Qingtong quickly set him down.

With her sharp senses, if he had made any sound of pain, she wouldn't have missed it.

Just as she murmured this, she heard the boy mumbling in his semi-consciousness.

"No...

can't cry out.

It will...

make...

the fairy...

sister...

distracted...

can't..."

This string of words was completely unconscious.

Luo Qingtong's hand paused, and she looked at the boy lying on the grass with a complex gaze.

Was that why he didn't call out?

Afraid of distracting her?

For Luo Qingtong, rescuing the boy was just a spur-of-the-moment decision.

Saving him from the snake chase was the quickest action at the time!

Yet she didn't expect his innocence, repaying her act of saving his life with his own.

"What a foolishly adorable kid," Luo Qingtong mused.

How could anything have happened to her?

As long as there was a sliver of life, unlike that man who blocked all her paths earlier, she could definitely dodge in time when the snakes switched their attack!

But him!

The snake's venom was incredibly potent, and along with the drug in his system that drove the snakes mad, it formed another terrifying poison.

It seemed like the one behind it all had planned it deliberately!

If it wasn't Luo Qingtong here, he would be dead for sure!
