

Swordsman 2003

Chapter 2003: Supreme Meeting

Mixed Element Spirit wasn't a sword principle that focused on its form.

It focused on the mood, or in other words, sword intention.

The sword intention could be combined with the doctrine that a person comprehended perfectly.

Jian Wushuang comprehended Reincarnation Doctrine and his sword intention could become a reincarnation cycle. For instance, Jian Wushuang turned into a space blackhole that revolved like reincarnation and swallowed everything.

Although he continuously performed over a dozen strokes and they looked like they were different, in actual fact, he was performing the same sword principle, Mixed Element Spirit. It was merely because there were many patterns and forms.

"Among the four moves in Sword Principle Xuan Luo, Mixed Element Spirit was the most exquisite one. Because of Mixed Element Spirit, people found the sword principle perfect and almost flawless," Jian Wushuang muttered.

In ancient times, Sword Geek Jiu Jue hadn't found any flaw in the sword expert who created Sword Principle Xuan Luo. No matter how intense his attacks were, the sword expert managed to defend. If it wasn't because there was a difference in their divine power, it would be impossible for Jiu Jue to defeat the sword expert.

Hence, Mixed Element Spirit could be said to be the true essence of Sword Principle Xuan Luo.

As for the other three moves of the sword principle, they were all exquisite and powerful too. However, in Jian Wushuang's view, they weren't as well-crafted as Mixed Element Spirits.

"I completely mastered the four moves in Sword Principle Xuan Luo after comprehending for one thousand and eight hundred years. I could also perform them perfectly. However, the power of the four moves in the sword principle would continue to improve as my comprehension heightened. I have to figure out a way to improve my understanding of swordsmanship," Jian Wushuang thought to himself.

Just then... There was a sudden vibration from a token in Jian Wushuang's Qian Kun ring.

"Huh? Emperor Bai sent me a message?" Jian Wushuang's eyes dilated in shock.

The vibrating token belonged to Emperor Bai.

Jian Wushuang immediately started reading.

"Supreme meeting of Sanctuary Alliance? Held in Thunderbolt Island?" Jian Wushuang was stunned.

Sanctuary Alliance was the highest alliance formed by human cultivators in order to deal with potential danger in Eternal Chaotic World.

Previously, although Jian Wushuang had a conflict with Sanctuary Alliance because of Green Fire World, he was still a member of Sanctuary Alliance.

Sanctuary Alliance was going to have a supreme meeting and he naturally qualified to participate as he was also one with fighting power of a Great Emperor.

...

In Thunderbolt Island, there was an ancient, tall pavilion towering over the peak of Sanctuary Alliance. It was named Presbytery Pavilion.

Presbytery Pavilion represents the highest authority of Sanctuary Alliance. Over the years, the higher-ups and experts from Sanctuary Alliance would gather at Presbytery Pavilion only when there was a major incident in Eternal Chaotic World. Whatever command was given via Presbytery Pavilion would be the highest command from Sanctuary Alliance.

Even the command of the supreme one in Sanctuary Alliance, Emperor Bai, wouldn't be higher than the command from Presbytery Pavilion.

There was a huge round table in the middle of the void in Presbytery Pavilion. There were lofty thrones surrounding the round table.

Every single throne was huge and there were many people who were seated on the thrones.

For instance, Abysmal Saint Master, Ancestor Tian Chen, Great Emperor Zi Xu, Great Emperor Colored Glaze and many others had arrived.

Vroom!!

On one of the thrones, a figure slowly substantiated. It was Jian Wushuang.

Green Fire World and the surrounding ancient battlefield were extremely important to Sanctuary Alliance. Hence, Sanctuary Alliance had already paid a great price to build a spacetime wormhole outside the ancient battlefield, which was Snow Kingdom. It could connect to the ten cultivation sanctuaries and Thunderbolt Island.

Hence, Jian Wushuang didn't need to spend much time to rush to Thunderbolt Island from Green Fire World.

The moment Jian Wushuang appeared, there were many Great Emperors who looked over.

"Sword Emperor!"

"Sword Emperor!"

Great Emperors who didn't have beef with Jian Wushuang, like Great Emperor Purple Moon and Great Emperor East Royal, greeted Jian Wushuang simultaneously.

Jian Wushuang responded with a smile.

"Sword Emperor only came alone? How about your sword servant and Lord Sound Spirit? There was a gentle voice. It was Great Emperor Zi Xu who asked.

Great Emperor Zi Xu flashed a gentle smile and his eyes revealed kindness as well.

Back then, although Great Emperor Zi Xu had once collaborated with Abysmal Saint Master and Great Emperor Colored Glaze to corner him, Great Emperor Zi Xu and Jian Wushuang shared no resentment, nor did they have conflict. Hence, neither party held grudges.

“My sword servant is in Green Fire World. As for Lord Sound Spirit, she isn’t one from Sanctuary Alliance,” Jian Wushuang replied with a smile.

“I see,” Great Emperor Zi Xu was surprised but he didn’t ask further.

As for Abysmal Saint Master and Great Emperor Colored Glaze wasn’t happy, but Jian Wushuang didn’t bother with them either.

Besides that, among the Great Emperors there, there was another person who was unhappy with Jian Wushuang.

The person was, of course, Yan Zun.

One thousand eight hundred years ago, Jian Wushuang had challenged him and trampled on him mercilessly before many experts, which he was embarrassed about.

Although he had investigated and found out it was because of Emperor God Han Ye, who had offered a sword stele in exchange for Jian Wushuang to do that, it was a fact that Jian Wushuang had trampled on him.

“Almost all thirteen Great Emperors of Sanctuary Alliance are here,” Jian Wushuang looked around.

Although there weren’t only thirteen Great Emperors on Heaven and Earth Supreme ranking list, the other few didn’t join Sanctuary Alliance. For instance, Master Wu wasn’t in Sanctuary Alliance. Hence, he naturally wouldn’t participate in the meeting.

Then, if Jian Wushuang didn’t include himself, there were ten of them who were already seated around the round table. Among the ten Great Emperors, there were some who came in person and some who attended with incarnation.

Vroom! Vroom! Vroom!

Then, three figures substantiated at the same time. The last three Great Emperors arrived.

The last three Great Emperors were Emperor Bai, Red Dragon King and Ancestor Tian Chen.

In Sanctuary Alliance, the thirteen Great Emperors, including Jian Wushuang, all fourteen Great Emperor experts were there.

The supreme meeting started then.

“Everyone.”

It was a low, deep voice that belonged to Red Dragon King.

Red Dragon King, in the second place on Heaven and Earth Supreme ranking list, second to Emperor Bai, he had once received the bloodline of an ancient dragon tribe in an ancient battlefield. Hence, he looked

just like an ordinary human. The only obvious difference was the pair of red dragon horns on his forehead.

“Sanctuary Alliance held this supreme meeting for only one matter!”

“Everyone, please watch.”

Red Dragon went straight to the point. He didn’t even bother greeting the Great Emperors and took out a token straightaway.

The token was a mirror token.

There was a huge image that appeared before all the Great Emperors then.

All Great Emperors, including Jian Wushuang, were staring at the image.

It was the black steel ball of the size of a holy kingdom plunging in the boundless void and rolling over everything.

Chapter 2004: Dark Millstone

All Great Emperors were watching closely.

They saw the huge black steel ball roll over everything like breaking pieces of deadwood. It even crushed the holy kingdom into pieces.

The Great Emperors’ gazes became terrified.

It was really an astonishing sight.

One should know how spacious a holy kingdom was and how many the cultivators were there.

Even those Great Emperors, although they had absolute power and they could definitely destroy a holy kingdom, their destruction was limited to taking out the higher-ups only. As for killing all cultivators in the territories of the holy kingdom, although they would be able to do it, it would require a long time.

After all, even if a Great Emperor were to destroy the world one by one, a holy kingdom was made up of thousands of worlds. It would take long enough to be entirely wiped out.

The biggest possibility was to send the experts under their control and they would be able to make a holy kingdom disappear in a very short time.

But then, the black steel ball was much fiercer. It didn’t have any scruples but a holy kingdom had vanished straight away after it had rolled over.

“Red Dragon, what is going on? Where did this thing come from?” Abysmal Saint Master creased his eyebrows and looked at him.

The other Great Emperors looked solemn too.

They could tell how terrifying and powerful the black steel ball was.

Red Dragon King took a deep breath and answered seriously, "What the thing is, where the thing is from, remains unknown for now. Emperor Bai, Tian Chen and I named this thing earlier. We called it a dark millstone.

"Dark millstone?" The Great Emperors nodded simultaneously.

The black steel ball crushed everything along the way. It was really like a huge millstone. On top of that, its body was all black. Hence, it was best suited to the name dark millstone.

"According to the information that Sanctuary Alliance gathered, the dark millstone first appeared at the Holy Kingdom of Celestial Fire and it had descended from the sky above. From the crack in the void above the Holy Kingdom of Celestial Fire, it had expanded and then destroyed the Holy Kingdom of Celestial Fire. Then, the dark millstone had started moving towards other holy kingdoms.

"Until now, besides the Holy Kingdom of Celestial Fire that the dark millstone first landed on, it passed two other holy kingdoms and both holy kingdoms shared the same outcome as the Holy Kingdom of Celestial Fire. They were crushed to pieces and countless cultivators didn't even stand a chance of escape."

"Then, the dark millstone was still moving around," Red Dragon King sounded solemn.

The Great Emperors were astonished at the news.

There were three holy kingdoms that had vanished into thin air in such a short period of time.

The dark millstone was so terrifying!

"Not only that."

An old voice was heard from Ancestor Tian Chen. Then, Ancestor Tian Chen also looked unprecedentedly solemn. "At the very moment I received the news, I immediately sent an Emperor God from Sanctuary Alliance who was nearby to check on the dark millstone. The Emperor God just sent me an update that the dark millstone is constantly growing in size and power as it moves around!"

"What?" The Great Emperors' faces grew grave.

The dark millstone was already so terrifying, but it was still constantly growing in size and power?

"The dark millstone had to be destroyed this instant!" A Great Emperor said.

"Yes, we have to destroy it now. Worse comes to worst, we have to stop it."

"It crushed three holy kingdoms in such a short period of time. Although there are many holy kingdoms in Eternal Chaotic World, we still couldn't afford to be tormented like that.

"If the dark millstone couldn't be destroyed, the entire Eternal Chaotic World would be doomed!!"

The other Great Emperors commented.

They could see how threatening the dark millstone was.

It was a great threat. If it wasn't destroyed anytime soon, it would absolutely cause great danger.

In the end, the dark millstone might even wipe out the entire Eternal Chaotic World.

“Ancestor Tian Chen, did any of our Great Emperor from Sanctuary Alliance try to destroy the dark millstone?” Jian Wushuang asked. He looked extremely solemn.

Ancestor Tian Chen looked at Jian Wushuang and nodded faintly, “When Sanctuary Alliance received the news, there was a Great Emperor who tried and the Great Emperor is Emperor Bai himself!”

“Emperor Bai?”

The Great Emperors around the round table looked at Emperor Bai, who hadn’t spoken since the very beginning.

Emperor Bai was the strongest one in Sanctuary Alliance.

He took action personally...

“What happened?” Jian Wushuang asked closely.

“He failed,” Ancestor Tian Chen let out a sigh.

“How is this possible?” The Great Emperors were taken by surprise.

Emperor Bai took action personally, but he couldn’t break the dark millstone.

Then, Emperor Bai spoke, “The dark millstone isn’t simple. Not only did it contain terrifying power that could destroy everything, there was also a great formation on its surface. The great formation is very magical, very powerful. Its defense power was unbelievable. The defense power of the great formation continuously improved as the dark millstone moved.”

“I think the great formation on the surface of the dark millstone and its setup is not any weaker than the one around the ancient battlefield that merged together with spacetime storm.”

Everyone was shocked once again.

Jian Wushuang was shocked too.

The great formation around the ancient battlefield was created by his master, Xuan Yi.

The great formation could be described as earth-shattering. It was an absolutely unbelievable skill.

However, the great formation on the surface of the dark millstone could compare favorably with the formation that merged with spacetime storm?

Although it was merely Emperor Bai’s personal opinion and there might be a discrepancy, it was enough to show how powerful the great formation around the dark millstone was.

“There is such a powerful great formation set up around the dark millstone? Couldn’t it be that the dark millstone is controlled by someone?” Great Emperor Colored Glaze exclaimed in surprise.

Everyone went quiet when they heard her comment.

Everyone had already thought of the possibility.

The great formation was definitely set up by someone.

As there was a great formation around the dark millstone, it meant that someone was controlling the dark millstone and that person was most likely in the dark millstone.

“In Eternal Chaotic World, only the two dark forces, Holocaust Sect and Acheron Palace, have the ability to produce the dark millstone and do such a thing,” Emperor Bai said in a deep voice, “For the past years, the two dark forces had been preparing to attack. I predicted that they would do something major in these few years and it happened as expected!!”

“Now that they have made the dark millstone, if Sanctuary Alliance doesn’t figure out a way to destroy it or stop it, the entire Eternal Chaotic World will be destroyed!”

“This crisis is a great danger and Eternal Chaotic World’s existence is at stake!”

...
