

Swordsman 2005

Chapter 2005: Expert Troop

Danger!

A danger where Eternal Chaotic World's existence was at stake!

The Great Emperors on the spot and were extremely sure of that.

"Emperor Bai," a purple-haired woman stood up.

The purple-haired woman was Great Emperor Zhi Luo in the eleventh place on Heaven and Earth Supreme ranking list. She was also a master of a sanctuary.

"As the great formation outside the dark millstone is so powerful and even Emperor Bai can't have any effect on it, there is only one way to resolve the great formation and to destroy the dark millstone completely. We have to gather all Almighties in Eternal Chaotic World and Sanctuary Alliance. It'd be best if we could have a complete war formation or unique formation to break formation with formation. We could stand a chance to fight against the dark millstone," Great Emperor Zhi Luo suggested.

"Mm, I was thinking the same," Emperor Bai nodded faintly. "But it isn't easy to gather all forces in the entire Eternal Chaotic World at such short notice. On top of that, we have to form a war formation. On the other hand, the dark millstone is getting stronger too quickly and its travel speed is not slow either. Looking at its travel track, it is aiming at where the ten sanctuaries are."

"At most, it would take a few thousand years for the dark millstone to appear in the ten sanctuaries.

"But most importantly, we didn't even have time for a few thousand years because the size of the dark millstone would be at least a few dozen times bigger after a few thousand years. By then, we won't be able to have any effect on it even if we gather all Almighties in Eternal Chaotic World."

"A thousand years. A thousand years at most!"

"Within a thousand years, if we don't destroy the dark millstone or stop it, Eternal Chaotic World will definitely be exterminated.

Everyone was shocked.

A thousand years?

To Great Emperors, a thousand years passed like a blink of an eye.

However, they had to figure out a way to destroy the dark millstone within a thousand years.

"A thousand years, a thousand years' time is too short. I'm afraid Sanctuary Alliance won't be able to prepare much within such a short period of time," Great Emperor Zhi Luo said.

"That's right. Hence, Red Dragon King, Tian Chen and I discussed it and we plan to send out an expert troop to barge into the dark millstone. Then, Sanctuary Alliance will figure out a way to collaborate from within with forces from without. Then, Sanctuary Alliance won't need to prepare much but is only

required to prepare some experts to form a great formation. That should be sufficient to influence the dark millstone,” Emperor Bai said.

“Expert troop?”

The Great Emperors exchanged a look and nodded.

It was naturally difficult to break a powerful formation with an external attack. However, if it was carried out from within, it would be much easier.

“Emperor Bai, didn’t you say the great formation was extremely tough? It is hard to affect it even when you attacked it personally. Under such circumstances, it wouldn’t be easy for us to break an opening on the great formation and send our experts in, right?” Great Emperor Zhi Luo creased her eyebrows and asked.

“It wouldn’t happen if we forcefully barged in by force, but Sanctuary Alliance’s foundation was solid after being established for so many years. If we were to play some tricks, we would still be able to break an opening to get in. However, the opening wouldn’t last for long. It would only be a split second and we could only send four people at most. Hence, there will only be four people in the expert troop. As for the four people, Red Dragon, Tian Chen and I already discussed it,” Emperor Bai said.

Then, the Great Emperors looked at Emperor Bai.

They knew that there might be a large number of experts from Holocaust Sect and Acheron Palace in the dark millstone. It might even be their base camp or lair.

It would be extremely dangerous to barge inside, even if one were a Great Emperor.

Hence, these four members of expert troop definitely couldn’t be reckless.

“Abysmal Saint Master,” Emperor Bai looked at Abysmal Saint Master by his side.

“Mister Emperor Bai,” Although Abysmal Saint Master was arrogant and ambitious, and had been dying to stand on par with Emperor Bai or even above him, he would maintain an appropriate reverence when he was in front of Emperor Bai as he wasn’t powerful enough yet.

“Among the Great Emperors in Sanctuary Alliance, you and Red Dragon are the strongest besides myself. But Red Dragon has got other matters to attend to and couldn’t take up this task. So, you will be the leader of the four-member expert troop to barge into the dark millstone. Will you?” Emperor Bai said.

“Yes,” Abysmal Saint Master nodded in agreement without hesitation.

Although he was arrogant and jealous, he understood right and wrong.

The crisis concerned the life and death of Eternal Chaotic World. As one of the higher-ups in Sanctuary Alliance, Abysmal Saint Master was naturally obligated.

“Zhi Luo,” Emperor Bai then looked at Great Emperor Zhi Luo. “Although you’re not the strongest of the Great Emperors, your manipulation power of spacetime power is the best amongst all Great Emperors. Especially when you have the few secret skills of spacetime, you would be extremely important at

crucial times. Among the four members, all you need to do is to assist the other three, including yourself, to flee.”

“Yes,” Great Emperor Zhi Luo nodded heavily.

“Emperor Jiu Qiao!” Emperor Bai spoke again.

“Mister Emperor Bai,” an elder in a grey robe stood up. He was scrawny and he had a crescent moon mark in between his eyebrows. The aura that he gave out was unique too.

Emperor Jiu Qiao was in ninth place on Heaven and Earth Supreme ranking list.

In terms of power, he was stronger than Great Emperor Zhi Luo by one notch, but he wasn’t that much stronger either.

“No one knows what is inside the dark millstone, especially the spacetime within. If the four-member expert troop from Sanctuary Alliance enters the dark millstone and can’t connect to the outside world using a communication token, we will need your doppelg?nger,” Emperor Bai explained.

“Yes,” Emperor Jiu Qiao didn’t refuse.

When Emperor Bai said that he was going to send a four-member expert troop, he already foresaw himself being one of the members.

Because he was the only one who had a doppelg?nger. It was very useful to send messages between the dark millstone and Sanctuary Alliance.

“The last person.”

Emperor Bai paused and looked at all the surrounding Great Emperors.

The Great Emperors looked solemn.

In the end, Emperor Bai’s gaze stopped on a young man with a sword on his back.

“Jian Wushuang,” Emperor Bai said.

“Me?” Jian Wushuang was stunned.

He wasn’t nervous, nor was he afraid to go into the dark millstone. But he was shocked.

Not only him, all the surrounding Great Emperors were shocked too.

One should know that the three Great Emperors that Emperor Bai mentioned...

Abysmal Saint Master was strongest in power. Hence, it would require his fighting power to deal with some danger when they entered the dark millstone.

Emperor God Zhi Luo was an expert in spacetime. She could help the members of expert troop to flee at a critical moment.

Emperor Jiu Qiao had a doppelg?nger. In other words, he had a soul that shared two bodies. No matter what happened to his original body, his doppelg?nger would immediately know.

In short, the three of them were extremely useful to the expert troop.

However, what could Jian Wushuang bring to the table?

...

Chapter 2006: Jian Wushuang's Value

Just as everyone was confused, Emperor Bai spoke again, "No one knows what is in the dark millstone. Under such circumstances, the four members of the expert troop from Sanctuary Alliance have to be extremely careful. Jian Wushuang, you are an inverse cultivator and you have a unique ability that could be put to use. Besides, unlike the other three, you are still in Sir God realm. There are many things that would be too obvious if the three Great Emperors were to do them in the dark millstone. So, you will have to do on their behalf."

"Understood," Jian Wushuang nodded.

The other Great Emperors understood then too.

It was true that Jian Wushuang was just a Sir God and he wouldn't catch so much attention as compared to the other three Great Emperors. Hence, it would be much more convenient for him to carry out some task.

"This crisis concerns the life and death of Eternal Chaotic World. Before such a crisis, everyone should prioritize the situation. Everyone here, including the experts under your control, have to put down all resentment. Do you understand?" Emperor Bai looked around and intentionally lingered his gaze on Abysmal Saint Master for a while.

Everyone knew that Abysmal Saint Master and Jian Wushuang were unhappy with one another and they had been in a fight before.

Now, both of them were in the expert troop. If they were to have conflict, they would be in big trouble.

Abysmal Saint Master noticed Emperor Bai's gaze and nodded heavily.

"Colored Glaze," Emperor Bai spoke again.

"Mister Emperor Bai," Great Emperor Colored Glaze stood up.

"The unique concealment skill that you obtained from the ancient battlefield is useful for the expert troop. Share it with the four of them," Emperor Bai commanded.

Great Emperor Colored Glaze had a unique concealment skill.

The concealment skill could rein in one's aura entirely without leaking any bit. If they were to perform this skill when they hid, even when a Great Emperor spread his soul power, he wouldn't be able to find them. It was absolutely the strongest concealment skill in Sanctuary Alliance.

Such a skill was really useful for the expert troop.

For instance, if the experts from Acheron Palace and Holocaust Sect were to be hunting for them in the dark millstone, as long as they leave their sights and hide, the enemy could only dream of finding them.

“Sure,” Great Emperor Colored Glaze didn’t hesitate and agreed.

Although she was the only one with the concealment skill, she knew her limits as the existence of Eternal Chaotic World was at stake.

“Jian Wushuang,” Emperor Bai looked at Jian Wushuang again, “Lineage of Star’s Secret Skill of Star Palace is powerful. Anyone who can cultivate it will have an extra trump card. The four of you should form expert troops to barge into the dark millstone. It is very dangerous. The four of you having an extra trump card will mean having another layer of defense. So... I hope you will share the Secret Skill of Star Palace as well.

“The Secret Skill of Star Palace?” Jian Wushuang thought but instantly decided, “Sure!”

Although the Secret Skill of Star Palace was precious and it could even be described as the biggest trump card that Lineage of Star had.

Eternal Chaotic World was at the brink of extermination. If Eternal Chaotic World were to disappear, Lineage of Star naturally would go down altogether.

Under such a situation, Jian Wushuang, of course, wouldn’t be loath to share it.

Forget about the fact that it was only for Abysmal Saint Master, Great Emperor Zhi Luo and Emperor Jiu Qiao to inherit the Secret Skill of Star Palace, even if Sanctuary Alliance wanted all experts in Eternal Chaotic World to inherit the secret skill in the end, he wouldn’t hesitate.

“That’s great. The four of you shall head back and get ready. Leave within ten years’ time,” Emperor Bai said.

“Yes!”

Jian Wushuang, Abysmal Saint Master, Great Emperor Zhi Luo and Emperor Jiu Qiao took the order.

“Jian Wushuang, stay back. The others can be dismissed too,” Emperor Bai waved.

Very soon, the Great Emperors left.

Eternal Chaotic World was facing such great danger. The Great Emperors who were the higher-ups in Eternal Chaotic World naturally came to the forefront and they had to be prepared at their fastest speed. They would collaborate with the four-members expert troop who would barge into the dark millstone from within with force so they could destroy the dark millstone.

...

In the spacious Presbytery Pavilion, there was only Jian Wushuang and Emperor Bai.

“Actually, in the beginning, Red Dragon and Tian Chen recommended that Zi Xu should go. After all, not only is Zi Xu powerful, he has many skills. He would be helpful to the four-members’ expert troop. In the end, I chose you. Jian Wushuang, you should know the reason behind this,” Emperor Bai looked at Jian Wushuang.

“Yes, it’s because of the defensive power of an inverse cultivator,” Jian Wushuang replied.

“Yes,” Emperor Bai smiled faintly, “An inverse cultivator is ridiculously amazing. The unique capability of one on the seventh step of inverse cultivation, the others might not know it but you and I are both inverse cultivators and we know clearly that it means that the perfect Chaotic divine body is almost immortal. With such power, you will be even more useful than Zi Xu in the four-members expert troop.”

Jian Wushuang looked cold.

Perfect Chaotic divine body, even when his divine body collapsed entirely, it could be reorganized as long as his divine power was sufficient.

Although Jian Wushuang had only reached the first stage and the divine power that he possessed was only enough to reorganize his divine body four times, he couldn’t be truly defined as unrivaled. However, in terms of defensive power or his ability to suffer a beating, only Emperor Bai from Sanctuary Alliance was stronger than him.

“Mister Emperor Bai, don’t worry. I will give my all in the trip into the dark millstone, but as for Abysmal Saint Master...” Jian Wushuang frowned.

“Don’t worry too much about Abysmal Saint Master. I know him well enough. He is arrogant and easily jealous. In simpler terms, he is narrow-minded and he couldn’t take anyone stronger than him. However, he knows what’s right and what’s wrong. In the trip into the dark millstone, he wouldn’t cause you any trouble, nor will he scheme against you because he himself knows that it’s extremely dangerous for the four of you to barge in. If you die in there, there will be no benefit to him at all,” Emperor Bai reassured him.

“Mm, alright then,” Jian Wushuang nodded.

With his current power and skills, he wasn’t afraid of Abysmal Saint Master, nor was he worried that he was being schemed against. However, the mission was no trivial matter. Jian Wushuang didn’t wish for unnecessary trouble that would affect the success or failure of the mission.

“Oh yeah, I have an elixir here. I prepared it for you. This is also the reason I made you stay back,” Emperor said and he flipped his wrist. He took out a white elixir that was the size of a pigeon egg.

There was only one elixir but it gave out a tempting fragrance. It instantly filled the entire Presbytery Pavilion.

If there were other experts in Presbytery Pavilion, it absolutely would stir their greed.
