

Swordsman 2741

Chapter 2741: Finally Made A Move!

‘Isn’t this... Su Han?’ Saber Master narrowed his eyes.

He was not the only person who noticed Jian Wushuang who had appeared in the void behind him, Devilish Wind King noticed it as well.

“Alliance Master Su Han, you’re so daring to return?” Devilish Wind King turned around and glanced at Jian Wushuang with a cold look in his eyes.

Jian Wushuang stood in the dark void and stared at Devilish Wind King with a smile at the corners of his mouth. “Devilish Wind King, I’ve realized since earlier on that you were hiding your means all this while. I grew more alert toward you since you managed to escape from being chased by a Gold-armored Corpse Puppet. It seems like my assumptions were correct.”

“You own a Gold-armored Corpse Puppet and a Silver-armored Corpse Puppet. Haha... You’re really quite strong.”

Devilish Wind King said with a snicker, “So what if you realized? Hong Chen and Long Xianzi have died. What changes can you alone make?”

The person Devilish Wind King feared the most among the other five who entered the secret realm that time was Saber Master with Hong Chen and Long Xianzi next in line. As for Jian Wushuang and Yi Shen, he did not pay much attention to them from the beginning.

It was naturally the same at that moment since he did not pay much attention to them previously.

“You have a really good plan. Unfortunately, you’ve calculated something incorrectly,” said Jian Wushuang.

“What did I calculate incorrectly?” Devilish Wind King asked.

“You’ve underestimated my true strength.” Jian Wushuang smiled oddly and instantly moved.

Whoosh!!

The Space-time Law was directly activated as Jian Wushuang’s speed achieved its peak within moments.

However, Devilish Wind King smiled in disdain as he pointed at Jian Wushuang. “What a joke, kill him!!”

The Silver-armored Corpse Puppet beside Devilish Wind King who had not made any moves immediately took action when he received Devilish Wind King’s order.

Although the Silver-armored Corpse Puppet was not as terrifying as the Gold-armored Corpse Puppet, its combat power was considered top-tier among High-level Grand Ultimate Gods.

A Silver-armored Corpse Puppet was capable of fighting head-on with Saber Master for some time—which self-explains his true strength.

Devilish Wing King noticed Jian Wushuang might have hidden his true strength previously. However, he truly thought that a Silver-armored Corpse Puppet was sufficient to kill Jian Wushuang with ease.

Jian Wushuang smiled coldly when he saw the Silver-armored Corpse Puppet coming toward him. A huge wave of golden divine power immediately coagulated behind him before the 10,000-foot-tall Golden Emperor once again appeared between Heaven and Earth. He also instantaneously activated the Seven Stars Secret Technique in his body which directly raised his realm to another level.

At the same time, a layer of dark gold-colored armor slowly appeared on the surface of his body.

All three secret techniques—Divine God of Punishment, Seven Stars Secret Technique, and Precious Armor of the Nine Sparkle Star Armor—were activated at the same time. Jian Wushuang's strength had increased to its extreme level at that moment.

Jian Wushuang then pointed with a single finger following his course of actions.

Clatter~ A wave of hazy dark golden light directly swept across all directions and completely covered the entire area within the blink of an eye.

The surging golden divine power sea also came sweeping outward crazily as a huge prison was instantly formed.

The 100,000 miles Sword World was also directly unleashed without restraints.

All three domains—Star Armor Domain, Prison of Punishment, and Sword World—had superimposed!

Boom!!

The terrifying power immediately suppressed the Silver-armored Corpse Puppet's body.

Although the Silver-armored Corpse Puppet was a corpse puppet without any consciousness, his body still suddenly paused under the suppression wave with his skimming speed also immediately slowed down.

Once all of that was executed, Jian Wushuang finally took action with his sword.

It was the first time he took action after stepping foot in the secret realm and 30 years of training in retreat.

No matter what previously happened in the secret realm, he only showed a small portion of his means and had never used the Seven Stars Secret Technique or Nine Sparkle Star Armor. He also did not unleash his divine power to its extremities. However, his divine power had reached its extreme level at that moment with him activating all his secret techniques.

"Silver-armored Corpse Puppet, let's see if you can withstand this sword attack of mine!!" A fierce look burst outward from Jian Wushuang's face as he waved forward the Blood Mountain Sword in his hand.

It was a purely strong sword attack without any additional moves. However, the strength was enough to shake the heavens.

The Silver-armored Corpse Puppet suddenly raised his head under the crazy domains' suppression as he fiercely punched forward.

The punch came like a huge mountain before both attacks collided with one another.

Bang!!

A low banging sound could be heard.

The Silver-armored Corpse Puppet was created using special means and had an extremely strong divine body. However, the Silver-armored Corpse Puppet's outer layer punching hand had directly broken under the collision with his entire arm twisted. The Blood Mountain Sword's domineering power had directly sent the Silver-armored Corpse Puppet falling toward the void below.

On the other hand, Jian Wushuang had recovered with a slight tremble of his body.

It was completely crushed in terms of power.

The Silver-armored Corpse Puppet with the same combat power as a top-tier High-level Grand Ultimate God was completely crushed by Jian Wushuang during a collision of pure strength.

"How's this possible?" Devilish Wind King turned pale with fright when he saw what transpired.

He had no idea that Jian Wushuang had crushed a top-tier Primary-level Grand Ultimate God called Fo Yi 30 years ago with his full power even before he made a breakthrough. His power back then was already much stronger than Fo Yi and very close to a High-level Grand Ultimate God's.

At that moment, he had made a breakthrough in his realm and reached the High-level Heaven Ultimate God which resulted in a great increase of his divine power. As for his secret techniques, his Divine God of Punishment had achieved the third level and when coupled with the 10,000-foot-tall Divine God of Punishment—his strength at that moment was the highest among High-level Grand Ultimate Gods.

He was no weaker when compared to Saber Master and slightly stronger than the Silver-armored Corpse Puppet.

It had to be highlighted that the Silver-armored Corpse Puppet could not even use 70 percent of its true strength under his triple domain suppression.

The Silver-armored Corpse Puppet could only be completely crushed by Jian Wushuang when fighting against him under such circumstances in a fight that relied on pure strength.

"In order not to attract the others' attention, I've greatly downplayed my divine power and secret techniques. It's really a nice feeling now that I can finally take action with my full power." Jian Wushuang smiled softly but the look in his eyes felt as though it might burst forward like two lightning bolts as he looked over to Devilish Wind King as a strong killing intent began to rise.

'Sh*t!!' Devilish Wind King's expression darkened.

He could see the strong killing intent in Jian Wushuang's eyes.

He did not have any means to stop Jian Wushuang with the Gold-armored Corpse Puppet fighting Saber Master and the Silver-armored Corpse Puppet crushed by Jian Wushuang.

"Run!!" Devilish Wind King immediately made his decision and wanted to escape with his strong self-protecting means.

During his course of escape, he immediately ordered the Gold-armored Corpse Puppet to stop pestering the Saber Master and protect him instead.

The Gold-armored Corpse Puppet also did as ordered and immediately gave up fighting Saber Master and skimmed toward Devilish Wind King.

However, Jian Wushuang slowly pointed his finger at the Devilish Wind King from the void at that moment.

Chapter 2742: The Most Well-Hidden Person

“A Finger Pointing Heavenly Technique!!” Jian Wushuang mumbled softly.

The vast Space-time Law immediately started moving as he finished speaking.

The Devilish Wind King originally had been escaping at a fast speed but his surrounding space-time had completely stopped at that moment—unable to even put up a struggle.

The Devilish Wind King held hints of horror in his eyes as his body had completely paused in the void—incapable of any movements.

Even a High-level Grand Ultimate God would find it difficult to endure Jian Wushuang’s ‘A Finger Pointing Heavenly Technique’ with his current strength and understanding of Space-time Law. Although Devilish Wind King was extremely calculative, his true strength was only a Primary-level Grand Ultimate God and unable to withstand the technique.

Jian Wushuang had floated forward and crossed paths with the Devilish Wind King’s figure within the blink of an eye the moment Devilish Wind King was in the course of entering a stagnant state.

Jian Wushuang was holding the sword with one of his hands as blood started dripping from the Blood Mountain Sword.

The space-time Devilish Wind King located had recovered. However, his eyes were widened with horror and unwillingness as he stared at Jian Wushuang.

He could not believe what had happened even till the moment he died. He had calculated everything including letting Saber Master kill Hong Chen and Long Xianzi before forcing Saber Master into desperation. He only needed to kill Saber Master to obtain all the precious items and opportunities before leaving the secret realm.

However, he died in the hands of Su Han—a person he did not pay much attention to—in the end.

He almost killed Saber Master but died in a mere Primary-level Grand Ultimate God such as Su Han’s hands.

How could he accept such a fate?

He was reluctant to accept it.

However, his source of vitality had been cut off as it gradually dissipated until it completely disappeared.

Devilish Wind King had died on the spot!!

Hum! Hum!

Two figures suddenly paused in the dark void.

Those two figures were naturally the Gold-armored Corpse Puppet and Silver-armored Corpse Puppet.

Although those two corpse puppets were originally under Devilish Wind King's control and stopped moving the moment Devilish Wind King was dead, they were still bound to him even though Devilish Wind King was dead. Therefore, they did not directly attack Jian Wushuang and Saber Master like what previously happened in the first cemetery.

The entire dark void entered a short period of silence.

Jian Wushuang took Devilish Wind King's precious items and Interspatial Ring with a wave of his hand before slowly turning around and looking toward Saber Master.

Saber Master was also staring at him at that moment.

This time, four of the six Grand Ultimate Gods that entered the secret realm had fallen and only the two of them were still alive.

"Alliance Master Su Han, great means!!"

"I originally thought Devilish Wind King had deeply hidden his strength, who knew you were the one who had hidden his strength the most amongst all of them!" Saber Master had a serious look on his face as he spoke with a heavy voice.

Saber Master did not pay much attention to Jian Wushuang previously, just like Devilish Wind King. In addition, he had previously fought Jian Wushuang. Although the sword formation Jian Wushuang used was quite strong and comparable to ordinary High-level Grand Ultimate God, it could not threaten him at all.

Therefore, he did not suspect anything when Jian Wushuang chose to avoid the battle and escape to the surrounding dark void.

Who would have expected such a person to have hidden his strength so deeply?

He also saw the means Jian Wushuang used to kill Devilish Wind King just moments ago, especially the sword attack that crushed the Silver-armored Corpse Puppet head-on such that even he dared not look down upon such strength. It was obvious Jian Wushuang's true strength was so much stronger than he previously displayed.

Apart from that, Saber Master also realized Jian Wushuang had purposely chosen to avoid the battle and escape to the dark void surrounding them.

Jian Wushuang wanted Devilish Wind King to show his trump cards as he waited for the opportunity to reap the benefits without much effort.

He grabbed the opportunity to directly kill Devilish Wind King the moment Devilish Wind King had revealed all his cards while the Gold-armored Corpse Puppet had wounded Saber Master badly—forcing Saber Master to his limits.

Nobody was controlling the Gold-armored Corpse Puppet and Silver-armored Corpse Puppet anymore with Devilish Wind King dead.

Saber Master was also badly wounded, hence the current situation was obviously within Jian Wushuang's range of control.

"Saber Master, you're the one with the best means as you continuously killed Hong Chen and Long Xianzi. You still managed to hold for so long after facing a Gold-armored Corpse Puppet alone. I really admire your strength. I only wonder how much strength you still have at that moment?" Jian Wushuang smiled.

Saber Master slightly narrowed his eyes.

He was initially slightly wounded from the Meteorite Bead's impact and being crushed by the Gold-armored Corpse Puppet moments ago had worsened his injuries. He could not yield even 70 percent of his full strength at that moment.

He did not forget that Jian Wushuang had domain-related means which could also hugely suppress his strength.

He was uncertain about his capabilities to fight Jian Wushuang at that moment after considering everything.

Saber Master said in a low voice, "Alliance Master Su Han, there's no need for us to have a life or death fight as we can discuss this in peace. Both of us had obtained a lot of benefits during this journey to the secret realm. I admit I've taken the Interspatial Ring Master Gu left behind, but I'm willing to take the Interspatial Ring out. We can equally divide the precious items inside including those we obtained from killing Hong Chen, Long Xianzi, and Devilish Wind King. What do you think?"

"Divide equally?" Jian Wushuang's facial expression wavered.

He was able to see the huge concessions Saber Master had made.

Saber Master would not be so generous under normal circumstances. However, it was obvious that he greatly feared Jian Wushuang under such circumstances and had no other means apart from dividing the precious items equally with Jian Wushuang.

"What an unfortunate situation..." Jian Wushuang sighed softly.

"What's so unfortunate?" Saber Master looked at him.

"Saber Master, it's unfortunate because of the clan you belong to. You're from the Crimson Stone Fort and the most crucial part is that you're one of the faction's leaders. In addition, you're badly wounded at this moment, so I can't think of an excuse not to kill you under these circumstances." Jian Wushuang smiled softly.

Saber Master narrowed his eyes when he heard that.

Jian Wushuang's killing intent had already risen from his body.

He was telling the truth. He would not have such strong killing intent if Saber Master was not the leader of a huge faction belonging to the Crimson Stone Fort. It was unfortunate that Saber Master a leader of those other factions in Crimson Stone Fort.

He supported Yin Su'er among Crimson Stone Fort's seven factions.

The greatest problem Yin Su'er faced at that moment was the extremely intense internal battles in the Crimson Stone Fort. Yin Su'er had been thinking about ways to make a breakthrough and get rid of the internal strifes in the Crimson Stone Fort. However, she never managed to find such an opportunity. One of the factions in the Crimson Stone Fort could be directly dismantled with Saber Master falling there and it would stir up Crimson Stone Fort's internal affairs. It would then be an opportunity for Yin Su'er.

Chapter 2743: Jian Wushuang Versus Saber Master

No matter if it was to get rid of a large faction in the Crimson Stone Fort to create an opportunity for Yin Su'er or so he could gain the most benefits during that trip to the secret realm, Jian Wushuang would not let go of that once in a lifetime opportunity.

"Saber Master, make your move." Jian Wushuang smiled as his facial expression turned cold.

Saber Master also had an extremely cold expression. His killing intent slightly rose in the eyes as he looked toward Jian Wushuang.

Boom!!

Overpowering divine aura surged as Saber Master attacked in a domineering way as the crimson battle saber in his hand unleashed its strong power.

Jian Wushuang smirked as he slowly stretched out his hand and pressed downward in Saber Master's direction.

"Domain Suppression!!"

Boom~~~

A total of three huge domains was unleashed at the same time.

The Star Armor Domain, Prison of Punishment, and Jian Wushuang's Sword World brought humongous suppression to Saber Master.

The assembly of all three domains caused Saber Master's facial expression to suddenly change.

'This suppression is too strong. It's even stronger compared to when he activated it with Long Xianzi's golden light domain!' Saber Master was secretly horrified.

He had no idea that Jian Wushuang had not done his utmost when working together with Long Xianzi to display their suppressing domains. For example, he did not unleash his Sword World's complete power, and neither did he use his Star Armor Domain.

Although domains could be superimposed, it was done by two different people who would still have some differences when working together. Therefore, it was truly impossible to perfectly superimpose the domains.

However, he was executing the Star Armor Domain by himself at that moment, hence its power could be unleashed to the full potential when stacking up to perform three-domain suppression. Therefore, the suppression he gave Saber Master was naturally stronger than before.

Saber Master could barely execute 70 percent of his combat power as he was badly wounded. At that moment, he was only left with 50 percent of his combat power when faced with triple domain suppression.

Jian Wushuang was naturally unafraid of Saber Master who could only execute 50 percent of his combat power.

Hum! Hum! Hum! Hum!

Jian Wushuang channeled his mind as Space-time Blades appeared one by one out of nowhere in the void before him.

Each of those 18 Space-time Blades contained strong killing power.

Those 18 Space-time Blades directly attacked Saber Master under Jian Wushuang's control.

Saber Master's eyes turned cold as he slightly trembled before flames started pouring out and covered the heavens as he completely turned into a giant made out of flames. The flames covering the heavens started coming together to form several burning beasts that pounced toward the Space-time Blades as he made a simple step forward.

As a result, those burning beasts were torn from their middle by the Space-time Blades before those blades continued to attack Saber Master.

'D*mn it, the suppression I'm facing is so strong that even the power of my law is largely affected when used.' Saber Master's facial expression darkened as he once again sent two burning flames from his eyes. Those two flames formed two flaming battle saber and slashed forward fiercely before those Space-time Blades were destroyed.

However, a strong wave of wind had already arrived as the Space-time Blades dispersed.

Waves upon waves of sword shadows could be seen in the void ahead as they came toward Saber Master like a vast sea of swords.

Saber Master could only immediately take action to withstand the attack as he completely unleashed the Holy Treasure battle saber's power in his hand and crimson saber-lights sparkled continuously.

Clank! Clank! Clank! Clank! Clank! Clank!

The densely packed clashing sounds could be heard along with Saber Master's extremely darkened facial expression.

'This is bad, his sword technique is too domineeringly fast and strong. I can't endure it in my current situation.' Saber Master could feel a great wave of pressure as he clashed against Jian Wushuang's sword technique.

The wave of pressure left him breathless.

Whoosh!

Saber Master made a move like the sea of flames directly invaded the space ahead before he retreated in a hurry.

Whoosh!

The heaven-covering sea of flames was directly cut open by another heaven-shattering sword attack. However, Jian Wushuang did not walk through the sea of flames thereafter. Instead, a huge black wood that exuded boundless Samsara Strength attacked Saber Master in the form of a black light ray.

The second sword formation of the Transmigration Sword Formation—All Sank!!

Saber Master's facial expression changed when he saw that huge piece of black wood.

That sword formation had previously left him with a deep impression when he fought against Jian Wushuang. However, Jian Wushuang had not taken it seriously back then and only showed a little bit of his strength. At that moment, he was going all out which meant that the power of the huge black wood that was coming to attack him would be so much stronger compared to its previous state.

"Get lost!" Saber Master gritted his teeth and released all of the crimson battle saber's full power as the domineering sword attack directly landed.

The saber-light was quick as lightning and collided head-on with the huge black wood.

However, the collision... Saber Master could feel his arm slightly numb following the bang as the battle saber almost flew out from his hand. On the other hand, Saber Master was sent flying outward like a cannon.

The huge black wood only slightly trembled before continuing its path to attack Saber Master.

'It has such strong powers?' Saber Master had a hint of horror in his eyes but his rage was much more prominent.

"*sshole, do you think you can beat me if I'm at my peak state?" Saber Master's yell filled the sky as his face turned red with a hint of craziness filling his eyes.

Jian Wushuang secretly smiled when he heard the Saber Master yell.

He admitted he had been taking advantage at that time. Jian Wushuang would not have many advantages in facing him head-on if Saber Master was in his peak when coupled with the Holy Treasure battle saber's support.

However, the world was cruel and nothing was fair.

If they were speaking about fairness, Jian Wushuang was only a High-level Heaven Ultimate God. It was truly unfair for him to cross an entire realm to face a top-tier High-level Grand Ultimate God such as Saber Master in a fight.

“Saber Master, accept your death willingly!” Jian Wushuang had a cold voice as the huge black wood formed from the Transmigration Sword Formation attacked crazily. He also moved his body as he pointed his sword to form a huge sword web that surrounded and covered Saber Master.

“You aren’t qualified to ask for my death!!” Saber Master was extremely angry and seemed completely crazy while looking on as the huge black wood attacked again. He knew he was unable to withstand it head-on so he suddenly retreated backward. In the course of retreating, he flipped his hand and took out a red pill.

The pill had a pungent fishy smell. Jian Wushuang’s eyes narrowed the moment Saber Master took the pill out.

“Is that...” Jian Wushuang was unable to recognize the pill the moment he saw it. However, he knew Saber Master had been forced to the edge by him and that pill must be extraordinary for Saber Master to take it out.

It was as indeed as he thought. Saber Master’s originally extremely weak aura had a sudden burst and increase after swallowing the pill!

Chapter 2744: One More Trick Up the Sleeves

Hum! Hum!

The sky-high flames once again came surging out with their flame waves red as blood while it crazily burnt everything around it. The Star Armor Domain that filled the surrounding Heaven and Earth was affected by its bright red domain with its suppression power also greatly weakened.

Jian Wushuang slightly narrowed his eyes as the expression on his face turned solemn.

On the other hand, Saber Master’s face was completely distorted.

“Su Han, you should be proud of yourself for forcing me into such a state despite being a mere Primary-level Grand Ultimate God.” Saber Master’s eyes were extremely red as though he had lost his wits. In addition, not only had he recovered his aura to its peak condition, he even seemed to be slightly stronger compared to his peak.

‘It looks like the pill is something that can increase his strength within a short time with serious side effects. His strength has increased tremendously within a short period with this pill. This is really troublesome.’ Jian Wushuang slightly frowned.

He originally thought Devilish Wind King had already forced Saber Master into desperation when he previously controlled the Gold-armored Corpse Puppet. He chose to take action and killed Devilish Wind King because he felt that Saber Master would have previously used any measures he had left.

He never expected Saber Master to have one more trick hidden up his sleeves and only use it at that moment.

“Die!!”

Boom!!

Saber Master took action.

Heaven and Earth were shaken by his move.

The momentum was a whole level stronger compared to his peak state when he defeated Hong Chen and Long Xianzi.

The endless bright red flames expanded crazily as a wave of overpowering aura directly suppressed Jian Wushuang.

Jian Wushuang dared not act carelessly. The huge black wood formed by nine Infernal Crimson Divine Swords slightly trembled and attacked Saber Master with a horrifying power.

“Move!” Saber Master casually waved his saber as the crimson battle saber Holy Treasure in his hands looked as though it was covered in a layer of blood.

A bloody saber-light was directly sent outward and landed on the huge black wood.

Clank!

A loud noise could be heard as the huge black wood was sent flying with the slash and the entire sword formation started trembling crazily as though it was going to be dismembered.

‘Such strength is comparable to even ordinary Peak Grand Ultimate Gods.’ Jian Wushuang was horrified.

Although he was horrified, Jian Wushuang was not frightened at all.

Jian Wushuang could be seen quickly retreating and did not face Saber Master head-on before concurrently waving his hand and a wave of flowing light was sent outward before immediately integrating with the surrounding black void during his retreat.

Heaven and Earth instantaneously changed.

An extremely beautiful world from a scroll painting appeared out of nowhere in the surrounding dark void.

The beautiful world in the scroll painting looked extremely real. In addition to the mountains and waters, there were also nine great continents within it.

“This is?” Saber Master frowned as he looked at his surroundings with a bad feeling arousing from the bottom of his heart.

“Thousand Treasures Grand World, Space-time World!” Jian Wushuang’s cold voice had already sounded at that moment.

Rumble~

Changes had occurred to the surrounding Heaven and Earth.

Jian Wushuang's domains and Saber Master's sky-covering flames in the original vast dark void had changed into a Space-time World within the blink of an eye.

The Space-time World had a huge number of space-time cracks and space-time storms. In addition, there was an uncountable number of Space-time Blades in the Space-time World.

Those Space-time Blades also had terrifying killing power.

The entire world was filled with the endless power of Space-time Law.

It was a Space-time World filled with unlimited Space-time Energy with Jian Wushuang standing in the middle as though he was that world's ruler!!

"Saber Master, welcome to my world." Jian Wushuang smiled as his laughter reverberated in every corner of the world.

Thousand Treasures Grand World. It was the second time Jian Wushuang had activated the Stately Painting's power after regaining it.

"Your world?" Saber Master's facial expression changed drastically.

Although he was unsure when the void change happened, the simple act of changing Heaven and Earth alone was enough to terrify him.

"Let's fight." Jian Wushuang did not say anything more and once again moved his body.

His speed had been further increased. The Space-time World was filled with all sorts of Space-time Laws and his originally amazing speed had been greatly improved at that moment.

Whoosh!

Jian Wushuang had already appeared in front of Saber Master as though he teleported.

In addition, a cold sword-light was already attacking Saber Master's throat like a lightning strike.

'So fast!!' Saber Master was shocked but immediately reacted with Endless flames rising as it burned and its high temperature almost turned Jian Wushuang into ashes.

Waves after waves of crimson saber-lights attacked Jian Wushuang from every direction.

Jian Wushuang once again disappeared before Saber Master with another move and appeared beside him.

'D*mn it, his speed has increased by so much?' Saber Master's eyes turned blood red with a crazed look as he could sense that Jian Wushuang's current speed was so much faster than previous. He would not have any methods left under such horrendous speed if Jian Wushuang did not want to fight him head-on and only pester him.

"B*stard, fight me face-to-face if you dare." Saber Master yelled out loudly and repeatedly waved the battle saber fiercely while yearning to kill Jian Wushuang.

However, Jian Wushuang's figure traveled in an extremely ghostly way and did not meet him head-on. Instead, he relied on his speed and attacked Saber Master at a weird angle from his sides.

Although Saber Master was strong, he could only continuously think of ways to withstand Jian Wushuang's repeated attacks and seemed to be in an extremely embarrassing situation.

'Fight him face on? What a joke.' Jian Wushuang scoffed inwardly.

Saber Master's full strength had been increased due to the scarlet pill. His current combat power was almost comparable to a true Peak Grand Ultimate God, yet he asked Jian Wushuang to fight him head-on under such circumstances? Jian Wushuang would be extremely dumb if he did.

'Although the pill greatly increases his power, the side effects must be great too. In addition, the pill will only take effect for a short time. I only need to rely on my absolute speed and pester him in this Space-time World without allowing him the chance to escape. It'll be extremely easy if I want to kill him after his pill's effect wears off.' Jian Wushuang's eyes as he already had an exact plan in his heart.

Whoosh! Whoosh! Whoosh! Whoosh!

Under the support of the Space-time World, his figure kept flashing and the speed he released at that moment was so much faster compared to previously.

Saber Master could do nothing to him as he was unable to catch up to Jian Wushuang's speed.

Although Saber Master kept roaring angrily during the process and tried to fight Jian Wushuang head-on, Jian Wushuang ignored him.

A quarter of an hour had passed in the blink of an eye.

Chapter 2745: Finally Killed

The effects of the pill had started to fade away half an hour later with the aura on Saber Master's body starting to weaken crazily.

"Su Han! Su Han!!" Saber Master stared at Jian Wushuang as his heart was filled with unprecedented unwillingness.

He was unwilling to die in such a way but had indeed reached his limits.

He wanted to escape into the surrounding dark void or out of the area but was not given the chance to do so. Jian Wushuang was so much faster than him and had easily stopped him.

There was no way for him to escape as his strength started to crazily fade away. The pill's side effects had even started to show.

"Saber Master, didn't you ask me to fight you head-on just now? I will now fulfill your wishes." Jian Wushuang smiled indifferently.

The 10,000-foot-tall Golden Emperor Shadow exploded in a brilliant golden light behind him.

Jian Wushuang made the huge Golden God Shadow wave both its hands with his thoughts.

Those two golden hands expanded at a shocking speed without limits until they covered the sky and the sun. One of the palms was enough to cover half the world while both palms were able to completely cover the surrounding void.

Both palms slowly closed in toward the void Saber Master was located.

“Punishment, Divine Destruction!!!” Jian Wushuang also shouted out.

The terrifying power came exploding from both palms of the Golden Emperor Shadow.

At the moment the palms slowly closed up, the void Saber Master was located had been completely imprisoned.

Although Saber Master had reached his limit, he had not given up as the Purple Clock once again appeared engulfing his body’s outer layer.

The Purple Clock was originally a strong defensive treasure but needed a period of time to reconsolidate its energy when the protective barrier formed by the Purple Clock was previously defeated by the Gold-armored Corpse Puppet. The protection barrier of the Purple Clock had recovered during the period Jian Wushuang and Saber Master was fighting furiously.

However, the Purple Clock’s appearance only enabled Saber Master to be alive for a short moment under the current circumstances.

Whoosh! Whoosh! Whoosh!

The noise of divine power’s crazy impact and extrusion could be heard throughout Heaven and Earth.

The skill Divine Destruction was extremely powerful under Jian Wushuang’s full force when he used it.

The horrendous divine power suppression directly crushed the Purple Clock’s barrier but the golden divine power had also been completely used up.

Jian Wushuang simply skimmed forward and arrived beside Saber Master with his Blood Mountain Sword sliding past Saber Master’s neck.

Saber Master was unable to withstand the attack as his head was sent flying outward.

Saber Master’s mouth was still open even though his head had already been sent flying. “Su Han, who knew you’ll be the one still smiling in the end.”

Hum!

Saber Master was completely dead.

In the dark void, the beautiful scroll painting world disappeared with a wave of Jian Wushuang’s hand as a strand of flowing light returned to his body. Jian Wushuang then looked down at Saber Master’s body with a cold expression on his face as a hint of shrewdness surged from his eyes.

‘Saber Master was really strong and a top-tier existence among High-level Grand Ultimate Gods. Apart from that, he had two precious items—the Holy Treasure and Purple Clock—a combination of offensive

and defensive with him and would've still been invincible had he not bump into Peak Grand Ultimate Gods. Unfortunately... He's really unlucky!'

'He was first plotted by Devilish Wind King before bumping into me after being badly wounded by Devilish Wind King's Gold-armored Corpse Puppet.' Jian Wushuang secretly sighed.

Jian Wushuang's total strength had increased by leaps and folds after 30 years of concentrated training under the assistance of both Fengtian Scrolls.

His realm had also been improved along with his soaring divine power. He was not any weaker compared to Saber Master at his peak when coupled together with all sorts of means he was capable of if he gave his all. However, he was also not that much stronger.

Jian Wushuang might not be able to kill Saber Master were they to carry out a face-to-face fight.

However, Saber Master was really unlucky as he was plotted by Devilish Wind King, allowing Jian Wushuang the opportunity to defeat him.

Only Jian Wushuang was left alive among the six Grand Ultimate Gods who came into this secret realm with Saber Master's death.

'Oh yes, the treasures once belonged to them...' Jian Wushuang's eyes suddenly lit up.

The six of them—apart from Yi Shen who died in the cemetery and lost all his items—the precious treasures that belonged to the others were in that dark void.

The death of Saber Master, Hong Chen, Long Xianzi, and Devilish Wind King obviously meant that the precious treasures once belonging to the four of them naturally became his.

For example, the Holy Treasure Battle Saber and Purple Clock that once belonged to Saber Master...

The bronze mirror that once belonged to Long Xianzi.

The Pinnacle Heavenly Treasure defensive armor Grand Ultimate God Hong Chen wore and his two remaining Bronze-armored Corpse Puppets—since two were destroyed.

In addition, the Gold-armored Corpse Puppet and Silver-armored Corpse Puppet that Devilish Wind King previously controlled also stood intact in the void.

The most important item was the Interspatial Ring—the last blessing Old Gu provided. It originally belonged to Saber Master but all of those things belonged to him from that moment on.

Whoosh! Whoosh! Whoosh! Whoosh!

Jian Wushuang was already standing in the void with two steps and kept the stagnant Gold-armored Corpse Puppet, Silver-armored Corpse Puppet, and two Bronze-armored Corpse Puppet into his Interspatial Ring.

Those corpse puppets were non-living items like war puppets and could be stored in the Interspatial Ring.

Saber Master's Interspatial Ring and the precious items he was carrying were also taken by Jian Wushuang.

Jian Wushuang felt extremely excited after finishing everything but did not have time to calculate his gains yet.

Suddenly... Hum!

A figure appeared beside Jian Wushuang without any warnings.

The person had on a gray robe and was the spirit of the secret realm, Old Gu.

"Young man, you have really good means." Old Gu had a devilish smile on his face as he looked at Jian Wushuang as though he could see through Jian Wushuang.

"Thank you for your praises, Old Gu." Jian Wushuang seemed extremely humble but was secretly alert.

Jian Wushuang was extremely fearful toward Old Gu.

His fear was not only because Old Gu was the secret realm's spirit of the secret realm who had absolute means and strength in the secret realm.

The most important matter was Old Gu's weird behavior which seemed like he wanted them to personally search for the Interspatial Ring when he took it out and threw it into the dark void. However, his true motive was to pit the five of them against each other to snatch the ring. In addition, Old Gu said he would only give them three hours but he previously did not appear even though the three hours deadline had long passed. On the contrary, Old Gu only appeared after their fight for the ring had concluded with him being the only survivor.

He was taking their fight purely as his entertainment.

In addition, Jian Wushuang was worried because he used some means to kill Saber Master just moments ago and had even used The Stately Painting.

The Stately Painting was one of Seven Stars Black Sect's Pinnacle Premier Treasure. Although ordinary experts could not recognize it, Old Gu's master was a strong Law Lord who might recognize The Stately Painting.

Would Old Gu not take action against him if he recognized it?

Chapter 2746: Leaving The Secret Realm

Old Gu was watching Jian Wushuang strangely in the dark void.

"Little kid, your name is Su Han, right?" Old Gu asked.

"Yes." Jian Wushuang nodded.

"Your methods are quite powerful despite the fact you seem to only be a Primary-level Grand Ultimate God. I always feel that your divine power is a little weird for some reason," said Old Gu.

Jian Wushuang's pupils shrank slightly.

He had in fact not reached the Primary-level Grand Ultimate God realm and was only a High-level Heaven Ultimate God. The reason people would mistake him for being a Primary-level Grand Ultimate God was due to the black stone on his body that increased his divine power by two realms.

The black stone that Daoist Xuan Shen personally refined.

The black stone had disguised Jian Wushuang's divine power. Although Old Gu could sense something weird, he failed to see what exactly was going on with Jian Wushuang's divine power.

Old Gu's eyes flickered with a strange luster. "Not only is your divine power a little weird, but the several secret techniques you have performed in this dark void are amazing. Although I can't recognize some of them, I could feel that they are extremely extraordinary. In addition, the treasures you displayed... I can see you have many hidden secrets."

Old Gu stared at Jian Wushuang with great interest.

Jian Wushuang was silent and said nothing at all.

"Little kid, don't be nervous. Although I can see you have many hidden secrets, I won't do anything to you. Perhaps my master might be interested in you if he was alive. As for me, I'm just a spirit of this secret realm who has wisdom but not life. They are of no use to me no matter how many secrets you have." Old Gu smiled.

Jian Wushuang seemed a little more relaxed.

It was indeed as Old Gu said, he was only the secret realm's spirit.

Just like the divine weapons, they had wisdom but would not turn against Jian Wushuang.

"In fact, you're powerful while your method and temperament are also perfect. It's a pity your current cultivation realm is still quite weak. If you have a chance to make a breakthrough and reach the Undying Saint realm in the future, you can come to this secret realm again and there's a chance you may obtain the real opportunity left by my master." Old Gu smiled.

His statement caught Jian Wushuang's interest and he nodded slightly.

"Well, even the last opportunity I gave out is with you now. You have received enough so you may leave now and come back again when you've made a breakthrough to the Undying Saint realm," said Old Gu and he waved his hand.

A spatial passage appeared in the void next to Jian Wushuang.

"Senior, farewell."

Jian Wushuang did not linger around as he moved and stepped into the spatial passage before it disappeared.

Old Gu stood alone in the dark void watching the place Jian Wushuang disappeared with a strange smile on his face.

“Funny little kid—he has so many secrets.

“He has used several great secret techniques with each being extremely powerful. I’m afraid that even my master can’t handle them. In addition, there’s also that trick...”

Old Gu murmured with a rather strange expression.

Jian Wushuang had previously used several great secret techniques in the dark void whereby Old Gu could not recognize most of them, but he did know one particular technique.

It was the A Finger Pointing Heavenly Technique!

“It was a Divine Technique from the Space-time Palace. Rumors mentioned that the technique was created by the Palace Master who was someone my master admired and worshiped.” Old Gu was praising the technique in his heart.

...

Jian Wushuang left the secret realm after stepping through the spatial passage and arrived at the City of Bones.

He was looking at the ancient dense forest that was filled with thick gray mist. Jian Wushuang sighed at the gloomy and mysterious atmosphere.

“I was quite lucky. Although Old Gu knew I carried a lot of secrets, he didn’t make things hard for me and even told me to make a breakthrough and reach the Undying Saint realm before returning to the secret realm again.” Jian Wushuang narrowed his eyes.

Jian Wushuang was indeed hoping to return to the secret realm again someday.

The secret realm’s master was a powerful Law Lord. He was someone formidable whose strength was beyond the Undying Saint realm.

A super expert like him must have left great opportunities and treasures in the secret realm. Jian Wushuang was unable to retrieve it because he was still weak.

He would be qualified to take up the challenges in the secret realm again once he became an Undying Saint in the future.

“I don’t know if I’ll come again in the future, but I’ve gained a lot from this trip.” Jian Wushuang clasped his hands tight from elation.

“I have benefited a lot from this secret realm. I should look for a place to settle down first and I’ll sort this out.”

Jian Wushuang moved and headed toward the outskirts of the City of Bones.

After leaving the City of Bones, Jian Wushuang immediately found a remote place and cracked open a cave before beginning to organize the treasures he collected in the cave.

He had gained a handsome amount of treasures from the trip.

The treasures Saber Master, God Hong Chen, Long Xianzi, and Devilish Wind King obtained from the secret realm surprised Jian Wushuang as he took them out one by one and examined them.

“Bronze Mirror...”

He first took out Long Xianzi’s bronze mirror.

The Bronze Mirror could execute the very powerful Golden Light Domain.

“It turns out it’s called Golden Feather Phantom Mirror.” Jian Wushuang held the Bronze Mirror that had already begun to acknowledge Jian Wushuang as its master.

The process was rather smooth and it only took a moment for the Golden Feather Phantom Mirror to merge into his body.

Thereafter, it fused with Jian Wushuang’s mind.

Buzz!

Mighty streams of golden light instantly diffused out.

Those golden rays of light were so dazzling that they permeated the vast void around him which thereafter a huge pressure domain came into effect.

“What a strong oppressive force, it’s indeed worthy of being a Pinnacle Heavenly Treasure!” Jian Wushuang exclaimed.

He felt the oppressive force from the Golden Light Domain was much stronger than his own Star Armor Domain and Prison of Punishment.

He believed he would be able to suppress an ordinary High-level Grand Ultimate God or above in a duel using the Golden Light Domain. It would even work on someone like Saber Master.

In addition, the Golden Light Domain was not the only domain oppression Jian Wushuang had.

He had yet to display his other secret techniques like Star Armor Domain, Prison of Punishment, and Sword World.

“Golden Light Domain is a domain treasure. The Star Armor Domain and Prison of Punishment are both part of secret techniques. The Sword World is a principle oppressive force. Although I have four types of oppressive methods, they don’t conflict with each other and can even be superimposed on each other!” Jian Wushuang excitedly held his hands together.

Chapter 2747: Organizing Treasures

Jian Wushuang had previously displayed the triple oppression method that consisted of Star Armor Domain, Prison of Punishment, and Sword World superimposed on each other when he used it to suppress Saber Master who ended in a miserable state of defeat.

He had four methods of oppression at that moment with the additional Golden Feather Phantom Mirror—all of which were extremely powerful.

It would cause a considerable amount of suppression on a High-level Grand Ultimate God or even a genuine Peak Grand Ultimate God when those four oppression methods were unleashed and superimposed.

It would be a great advantage for Jian Wushuang in a duel.

After refining the Golden Feather Phantom Mirror, Jian Wushuang took out a pitch-black defensive armor that looked like the scales of a ferocious beast.

Grand Ultimate God Hong Chen used to wear that defensive armor.

“This is a Pinnacle Heavenly Treasure defensive armor and is the best defensive armor I’ve seen, but unfortunately it’s been severely damaged.” Jian Wushuang disappointingly shook his head.

Grand Ultimate God Hong Chen obtained the defensive armor that had the amazing physical protective ability from the secret realm. It was unfortunate that he went against Saber Master who was using a Holy Treasure.

No matter how strong the physical protective ability of the defensive armor, it could not gain an advantage in the face of a Holy Treasure.

Saber Master killed Hong Chen by making a slit through the defensive armor with a single saber move before finally beheading Hong Chen.

The defensive armor’s value greatly depreciated after it was severely damaged.

Jian Wushuang put the defensive armor aside before taking out the Purple Imperial Bell and Holy Treasure Crimson Battle Saber belonging to Saber Master.

Jian Wushuang was carefully examining them.

“The Purple Imperial Bell isn’t too bad.” Jian Wushuang was grinning.

The defensive armor he took out earlier was only good for defending one’s divine body while the Purple Imperial Bell was a comprehensive physical protective treasure.

It could directly withstand face-to-face physical as well as soul attacks. Therefore, it could also be regarded as a soul defensive treasure.

In addition, the force bombarded on the Purple Imperial Bell would produce a sonic boom counterattack upon resisting an attack.

Jian Wushuang had seen the Purple Imperial Bell’s potential when it was still in Saber Master’s hands.

Its defensive ability was extremely powerful since it managed to even repel Long Xianzi’s Meteor Bead’s terrifying power.

The only flaw was its defensive barrier would weaken over time from repeated impacts struck by the opponent. Once the barrier was destroyed, it would take quite some time to recover before being put to use once again.

“Although its protective barrier could not be immediately restored, its value was still several times more expensive than the Pinnacle Heavenly Treasure defensive armor.” Jian Wushuang smiled and immediately claimed ownership of the Purple Imperial Bell which was soon refined and fused into his divine body.

“My physical protective ability is extremely powerful on top of my perfect immortal body. It’s almost impossible for the average expert to kill me. The Purple Imperial Bell isn’t very useful to me but since I shouldn’t expose my immortal body just yet, it’s not a bad idea to use the Purple Imperial Bell as a disguise.” Jian Wushuang smiled faintly.

Next, he looked at the Crimson Battle Saber.

The Crimson Battle Saber was truly a Holy Treasure!

“Even an Undying Saint would cherish a Holy Treasure.” Jian Wushuang was excited.

“The defensive armor and Purple Imperial Bell are extremely precious, but the Crimson Battle Saber’s value is probably more than ten times the Purple Imperial Bell’s.” Jian Wushuang was beaming.

Holy Treasure and Heavenly Treasure were very different.

A Pinnacle Heavenly Treasure was definitely far less valuable than an ordinary Holy Treasure regardless it was an offensive-type divine weapon.

Unfortunately, the Holy Treasure was absolutely useless to Jian Wushuang since it’s a battle saber, so he could only sell it to exchange for the resources he needed.

After sorting out those treasures, Jian Wushuang waved his hand and took out an Interspatial Ring.

Jian Wushuang could not wait to explore the contents in the Interspatial Ring in front of him.

It was the final Interspatial Ring Old Gu offered and was also the one that made five Grand Ultimate Gods compete for it frantically.

No one else would know the Interspatial Ring’s contents apart from Saber Master who initially received it.

However, they were still fighting frantically for it even when they knew nothing about its content.

They knew very well its contents must be some important treasures. There was no doubt about it.

“Let me see what kind of treasure did the old man put in this Interspatial Ring.”

After taking a deep breath, Jian Wushuang began to investigate the ring’s content.

Jian Wushuang found there were only three treasures in the Interspatial Ring.

Jian Wushuang waved his hand and the three treasures appeared in the void before him.

It was a Silver Battle Armor, a baby-sized Black Beast Statue, and a dark gray jade slip.

Jian Wushuang first looked at the Silver Battle Armor.

It looked ordinary at first glance with a relatively dull color and not releasing much aura.

Copious messages flooded in as soon as Jian Wushuang sent out his soul power to examine the armor.

“Moire Battle Armor—a Holy Treasure!” Jian Wushuang’s eyes went wide.

“Holy treasure! It’s another Holy Treasure! In addition, a defensive armor-type!”

Jian Wushuang was dumbfounded.

Saber Master’s Holy Treasure Battle Saber was extremely valuable.

It was a known fact that a Holy Treasure Offensive Divine Weapon was far less valuable than a defensive armor of the same level!

Among the few treasures that Old Gu gave, there was a Holy Treasure defensive armor?

How much was the defensive armor’s value?

“If the Battle Saber was something ordinary Undying Saints would cherish, then this Moire Armor is probably good enough to cause ordinary Undying Saints to fight for it,” mumbled Jian Wushuang.

Jian Wushuang knew that many weaker Undying Saints did not own a suitable Holy Treasure Offensive Divine Weapon with most still using Pinnacle Heavenly Treasures. Therefore, a suitable Holy Treasure Offensive Divine Weapon would trigger a fierce contest.

Indeed, the defensive armor was good enough to make ordinary Undying Saints go crazy for it.

“He’s very generous!”

Jian Wushuang exclaimed.

Although the Moire Battle Armor was good, it was also of little use to Jian Wushuang.

After all, he had his own life armor—the Golden Glass Armor.

Although the physical protective capability of the Golden Glass Armor was far inferior to the Moire Battle Armor, it was connected with Jian Wushuang’s lifeblood. In addition, it could continuously improve its power as Jian Wushuang’s strength improves.

In correlation to Jian Wushuang’s strength increase, the Golden Glass Armor had also been upgraded from Primary-level to High-level Heavenly Treasure. It was in actuality at the peak of a High-level Heavenly Treasure and only a thin line away from being a Pinnacle Heavenly Treasure.

The most important part of choosing a divine weapon or treasure was still compatibility toward its user after all.

It was sufficient for Jian Wushuang to have the Golden Glass Armor, hence we would not need the Moire Battle Armor.

Chapter 2748: A Windfall

Jian Wushuang calmed down and looked at the second treasure—the baby-sized Black Beast Statue.

“This statue...”

Jian Wushuang looked at the statue, but could not understand it.

He felt an extremely powerful destructive force from the statue.

The destructive force was astounding.

The baby-sized Black Beast Statue seemed to come alive under Jian Wushuang’s gaze as though it was sleeping quietly.

“This is such an unusual Beast Statue... Although I can’t figure it out, it should be a Destruction Law-based Premier Treasure. It must be extraordinary for it to be placed in the same Interspatial Ring as a Holy Treasure defensive armor,” said Jian Wushuang.

Jian Wushuang moved on from the statue to the third treasure—the dark gray jade slip.

Jian Wushuang instantly understood the function of the jade slip with the influx of his soul power.

“Teleportation! It’s teleportation!” Jian Wushuang was surprised.

The jade slip was imbued with a technique—a teleportation technique!

Teleportation—instantaneously moving from one space-time to another.

An expert could execute such means once their perception of Space-time Law had reached an extremely high level.

Many Undying Saints who were good at Space-time Law including those Undying Saint experts were not qualified to utilize such methods.

It was a highly sophisticated method with an extremely high requirement on Space-time Law understanding. In the Ancient God Domain, few Undying Saints could perform the method. They were the best of the best Undying Saints who were truly invincible!

Whoever could perform a teleportation method was no doubt a peak expert.

It was no doubt an excellent life-saving method.

An Undying Saint who could perform a teleportation method could easily run away from a Law Lord not well-versed in Space-time Law under normal circumstances and the Law Lord would not be able to catch up.

Even when used for normal transportation purposes, simply relying on one’s feet to move around was completely different from using a teleportation method.

It was why countless experts were envious of those who could perform teleportation methods. Unfortunately, it was a method mastered by exceptional experts who were good at Space-time Law.

Jian Wushuang’s understanding of Space-time Law was far from being able to perform a teleportation method. However, the jade slip in his hand was imbued with a teleportation method. As soon as he smashed the jade slip, the teleportation method would kick into effect and immediately teleport him to another place.

In other words, the jade slip was an excellent life-saving method.

“Three treasures—Holy Treasure Moire Battle Armor, the Destructive Law-embedded baby-sized Black Beast Statue, and life-saving jade slip containing a teleportation method...” Jian Wushuang shuddered.

The value of those three treasures was amazing.

Among those three treasures, the Moire Battle Armor and Beast Statue were of no use to him.

Although the jade slip was equivalent to an additional life-saving trump card for Jian Wushuang, it could only be used once.

In the future, he could crush the jade slip and escape if he was in a desperate situation—a life and death crisis that he could not resolve.

However, it did not guarantee absolute success.

Saber Master who was driven to desperation by Jian Wushuang did not crush the jade slip in the end.

It was useless to crush the jade slip in the first place because he was in a different space-time.

He was in a secret realm under the influence of a unique space-time method that nullifies the jade slip’s teleportation method.

If he similarly met a top expert who was good at Space-time Law outside the secret realm, the jade slip’s teleportation method might not be able to help him escape.

Nonetheless, those three treasures were pleasant surprises for Jian Wushuang.

Jian Wushuang had gotten too many treasures in one go in addition to the Golden Feather Phantom Mirror, Purple Imperial Bell, and Holy Treasure Battle Saber.

In addition, Saber Master, Hong Chen, Long Xianzi, and Devilish Wind King were Grand Ultimate God experts and wealthy—especially Saber Master, who was the leader of a faction within the Crimson Stone Fort. The numerous resources those people once possessed fell into Jian Wushuang’s hands.

There were also a couple of corpse puppets...

Devilish Wind King had previously obtained a Gold-armored Corpse Puppet and a Silver-armored Corpse Puppet. Hong Chen received four Bronze-armored Corpse Puppets where Jian Wushuang had killed two of them while the other two were still in great shape. Those corpse puppets had now fallen into Jian Wushuang’s hands.

After he properly refined those corpse puppets, they would be controlled by him.

Those corpse puppets had the combat power of a Peak Grand Ultimate God, a powerful High-level Grand Ultimate God, and two ordinary High-level Grand Ultimate Gods after all!

Not forgetting, Jian Wushuang had received five Golden Huangji Pills at the beginning that were of equally extraordinary value.

After adding all those treasures... Jian Wushuang had made a windfall fortune!

“It’s indeed a fortune—a windfall fortune!”

Jian Wushuang was over the moon over the surprises.

Soon, he managed to recover from feeling surprised before starting to refine those corpse puppets in the cave.

Although no one was controlling those corpse puppets, it would still take a while for Jian Wushuang to refine them.

It was not too bad since had Jian Wushuang tried to refine the Moire Battle Armor or the Holy Treasure defensive armor, it would have taken a much longer time and he had no idea when it would be completed.

Therefore, it explained the reason Saber Master was unable to use the Moire Battle Armor in the duel against Jian Wushuang as he did not have time to refine it.

A month soon passed.

The four corpse puppets were finally refined and completely under Jian Wushuang’s control.

“I have strong combat power on hand from today onward.

“A Gold-armored Corpse Puppet, a Silver-armored Corpse Puppet, two Bronze-armored Corpse Puppets, Old Snake, and myself... My Sword Alliance combat power should be comparable to Danyang Continent’s top forces when based purely on the highest Grand Ultimate Gods’ combat power, right?” Jian Wushuang smiled.

He knew that there were a lot of activities occurring in the Danyang Continent under the radar which placed Yin Su’er in a very difficult situation.

Chapter 2749: Meeting Yin Su’er

Jian Wushuang once again returned to the Sacred Palace with his disciple status.

He immediately went to meet Palace Keeper Si Zhen within a magnificent-looking palace upon his arrival.

“Palace Keeper Si Zen, please help me send a message to the Fort Master and tell her that I’d like to see her,” said Jian Wushuang with a smile.

Palace Keeper Si Zhen frowned and looked at Jian Wushuang. “You want to see the Fort Master? Jian Yi, you may not know about this but the relationship between the factions within Crimson Stone Fort is very delicate during this period and there are signs of chaos happening. I suggest if you don’t have very urgent matters...”

Jian Wushuang waved his hand before Palace Keeper Si Zhen could finish and said, “Palace Keeper Si Zhen, please send the message as I want to see her because of some major issue which will affect the situation within Crimson Stone Fort.”

"In that case, wait a moment as I send a message to the Fort Master now." Palace Keeper Si Zhen immediately sent a message to Yin Su'er before receiving a reply within a short moment.

"Jian Yi, the Fort Master said she'll find time to see you later. She hopes what you want to tell her is really very important," said Palace Keeper Si Zhen.

"Don't worry." Jian Wushuang smiled confidently.

Jian Wushuang waited quietly in the magnificent palace.

A tall and beautiful woman with an oval face who was wearing an ice blue gown appeared in the palace after half a day.

The beautiful woman was none other than Yin Su'er.

"Jian Yi, what can I do for you?" Yin Su'er looked cold.

"There's something...about Saber Master," answered Jian Wushuang.

"Saber Master?" Yin Su'er was surprised.

There were seven factions within the Crimson Stone Fort. Although Saber Master belonged to a small faction, his faction still carried a lot of weight and influence in the Crimson Stone Fort. In addition, Saber Master was rather powerful with similar strength as Blood Thunder King who controlled the Crimson Stone Official Army with only weaker being weaker than the Fort Master and Grand Elder Yun Shan who were Peak Grand Ultimate Gods.

Therefore, Yin Su'er had never considered Saber Master as someone paltry.

"What's the matter with Saber Master?" Yin Su'er looked at Jian Wushuang curiously.

"Fort Master, you probably haven't got this news yet but he's dead," said Jian Wushuang with a grin.

"What did you say?" Yin Su'er was shocked to hear the news.

Palace Keeper Si Zhen had also been alerted.

"Jian Yi, did you say that Saber Master is dead? How can this be possible? I just got the news that Saber Master had gone to cultivate in seclusion not long ago. He seems to be at a very important cultivation stage and told his followers not to disturb him unless necessary." Yin Su'er looked at Jian Wushuang dubiously.

Jian Wushuang gave a simple wave before a purple battle saber appeared in his hand.

"Fort Master, do you recognize this battle saber?" Jian Wushuang smiled.

"This..." Yin Su'er and Palace Keeper Si Zhen's pupils constricted as they looked at the saber and were startled.

Palace Keeper Si Zhen said, "This battle saber indeed belongs to Saber Master. I've seen him use this many times and can't be wrong about it. How did this battle saber appear in your hands? Is Saber Master really dead?"

“Jian Yi, how did Saber Master die? Why is his battle saber with you? Did you kill him?” Yin Su’er frowned slightly.

She initially did not believe Saber Master was dead. However, she knew it must be true the moment she saw the battle saber.

Yin Su’er was immediately reminded that Jian Wushuang could be the person who killed Saber Master since the battle saber was with him.

However, she was still uncertain as even she might not succeed in killing Saber Master. ‘How can Jian Yi possibly kill Saber Master?’

“It doesn’t matter how he died and who killed him. What’s important is that he’s now dead. The faction he belongs to will definitely fall apart without a leader in control. The entire Crimson Stone Fort might be affected and turn chaotic. Fort Master, you have to make early preparations,” said Jian Wushuang.

Yin Su’er and Palace Keeper Si Zhen looked solemn.

Saber Master was rather influential in the Crimson Stone Fort—his death would indeed cause a great deal of impact in the Crimson Stone Fort.

The most important matter was his faction’s collapse might also in turn affect the situation of several other factions.

Although there were incessant internal conflicts among the Crimson Stone Fort for years, there were no overt conflicts. There were the occasional assassinations but the situation was under control nonetheless. The situation in Crimson Stone Fort might be disrupted with Saber Master’s death.

“Saber Master’s death will definitely wreak havoc in Crimson Stone Fort. This is definitely an excellent opportunity for me to take advantage of the chaos to wipe out the other factions and unify Crimson Stone Fort. However, my current strength may not be enough for me to carry out the plan,” said Yin Su’er coldly.

Saber Master’s death and the subsequent chaotic future situation were seemingly a good opportunity for her.

However, it was true that she was not powerful enough to handle the situation.

Her current strength was inadequate even to go against Grand Elder Yun Shan or Blood Thunder King’s faction. It was absolutely impossible for her to completely smoothen out all the major factions. The best scenario was she might get lucky and reap more benefits from those factions but gaining control over them would be challenging.

“Fort Master alone may not be enough to take this opportunity to smoothen out the other factions, but matters will be different with my assistance,” said Jian Wushuang with a smile.

“You?” Yin Su’er looked at Jian Wushuang quizzically.

Palace Keeper Si Zhen was also staring at Jian Wushuang.

“Jian Yi, I know you’re the Sword Alliance Master that has been stirring up the situation in the Danyang Continent over this period of time. Am I right?” Yin Su’er asked.

She had always paid attention to Jian Wushuang and knew Jian Wushuang was creating his own force.

Although Jian Wushuang had never revealed the name of the force he had created, Yin Su’er and Crimson Stone Fort had the capabilities to easily discover it.

“Yes.” Jian Wushuang nodded.

“It’s indeed amazing to be able to create a huge Sword Alliance in the Danyang Continent within just a few decades. In fact, the Sword Alliance is as powerful as first-rated forces but there’s still a long way to go for the Sword Alliance before it is capable of threatening the situation in the Crimson Stone Fort or exercising influence over Danyang Continent.” Yin Su’er shook her head.

“A long way to go? That’s not necessarily.”

Jian Wushuang smiled with absolute confidence.

He then waved his hand before four figures appeared out of thin air beside him.

Those four figures were the four corpse puppets he obtained from the secret realm.

“Fort Master, can you see what these are?” Jian Wushuang smiled.

“Are these war puppets? No, they must be some cultivators but they’re so lifeless... These must be corpse puppets.” Yin Su’er narrowed her eyes.

“You’re right. They’re corpse puppets. I’ll get them to greet you.”

Jian Wushuang grinned before waving his hand as the Gold-armored Corpse Puppet immediately raised its head.

Chapter 2750: Handling the Treasures

Boom!

The Gold-armored Corpse Puppet made a move without any warnings.

It discharged a horrifying breath of aura before soon appearing in front of Yin Su’er using just one long stride and swiftly drew out a battle saber.

Yin Su’er’s eyes sank slightly as she lifted her jade-like hands. A spear appeared in her hands as she spun her spear around and thrust...

Clang!

The Gold-armored Corpse Puppet was instantly sent back into its original position when her spear and the Gold-armored Corpse Puppet collided.

Yin Su’er was slightly shaken up with traces of surprise in her eyes.

"A Peak Grand Ultimate God?" Yin Su'er's beautiful eyes were frozen on the Gold-armored Corpse Puppet's body.

"How do you feel, Fort Master?" Jian Wushuang smiled.

"Jian Yi, where did you get this corpse puppet?" Yin Su'er asked solemnly.

"Well, I don't want to disclose how I got it but I wonder about your thoughts on it. Do you think this Gold-armored Corpse Puppet in my hands can compete with ordinary Peak Grand Ultimate God?" Jian Wushuang asked with a smile.

Yin Su'er pondered for a moment and replied, "Yes, this corpse puppet is enough to fight against the ordinary Peak Grand Ultimate Go in a one-on-one duel. Even if I take a shot by myself, I'm probably capable of suppressing it with my strength."

"That's indeed the case. This Gold-armored Corpse Puppet is completely under my control. In addition, I also have a Silver-armored Corpse Puppet and two Bronze-armored Corpse Puppets which are equivalent to one extremely powerful High-level Grand Ultimate Gods and two ordinary High-level Grand Ultimate Gods. Considering all of them and myself...I wonder if you think the Sword Alliance can change the situation within the Crimson Stone Fort?" Jian Wushuang explained with a wide grin.

"A Gold-armored Corpse Puppet, a Silver-armored Corpse Puppet, and two Bronze-armored Corpse Puppet..." Yin Su'er narrowed her eyes to focus while deep in thought. She then nodded after a while. "If we have these corpse puppets helping us alongside my careful planning and execution, I think there may be a chance to succeed."

"I don't think many have found out about Saber Master's death yet. I guess probably only a few of his faction's henchmen might have found out about it but I'm sure they will try to keep the news to themselves so there shouldn't be any chaos within the Crimson Stone Fort for now. Fort Master, you should have time to prepare," said Jian Wushuang with a smile.

Yin Su'er's eyes lit up and she continued, "That's right. However, the other top forces in Danyang Continent have also been eyeing the Crimson Stone Fort apart from the major factions who wanted to expand their influence within Crimson Stone Fort. I'm afraid those top forces won't miss the chance to reap benefits if they notice Crimson Stone Fort is going through some major changes."

"Fort Master, rest assured that I'll be putting pressure on those top forces as much as possible during this period to distract them," said Jian Wushuang reassuringly with a faint smile.

Jian Wushuang spoke after a momentary pause, "By the way, there's one more matter I wish to discuss. I have a few treasures with me but unfortunately don't have the right channels to sell them. Could you please help me with them, Fort Master?"

"What are those treasures?" Yin Su'er looked curiously at Jian Wushuang.

She gained a lot the last time Jian Wushuang gave her a Royal Blood Gem weighing 130 catties which helped relieve a fair bit of her pressure.

She wondered what good things Jian Wushuang would share with her at that moment.

“Fort Master, you should take a look at the battle armor I have first.” Jian Wushuang took out the tattered battle armor.

“This is...a Pinnacle Heavenly Treasure Battle Armor?” Yin Su’er was surprised before started shaking her head. “It seems powerful and perhaps considered top-tier among Pinnacle Heavenly Treasures, but it’s a pity this battle armor has been damaged with an exorbitant repair cost.”

“Jian Yi, are you going to exchange this battle armor for Divine Elixir Pills or the Primordial Stones?” Yin Su’er asked.

“Only Divine Elixir Pills,” replied Jian Wushuang.

“Your battle armor is of an extremely high level. It’ll probably be worth seven to eight thousand Divine Elixir Pills if it’s in good condition. However, its value has probably halved now that it’s been badly damaged. I can get you at most three thousand Divine Elixir Pills,” explained Yin Su’er.

“Three thousand Divine Elixir Pills isn’t bad at all.” Jian Wushuang smiled before taking out something else.

He took out a saber and a crimson battle saber.

Yin Su’er and Palace Keeper Si Zhen were taken aback to see the crimson battle saber.

“Holy Treasure! It’s a Holy Treasure Battle Saber!”

“It’s a Holy Treasure?”

Even Yin Su’er was shocked when Jian Wushuang took out the Holy Treasure Battle Saber.

It was a Holy Treasure after all.

“Jian Yi, you have a Holy Treasure?” Palace Keeper Si Zhen stared wide-eyed at Jian Wushuang.

“I was lucky,” Jian Wushuang answered with a smile.

He was not lying as he was indeed lucky to be able to get so many treasures from the secret realm.

“This battle saber isn’t of much use to me. I wanted to let the Gold-armored Corpse Puppet use it but the Gold-armored Corpse Puppet was only a corpse puppet after all and may not be able to utilize the Holy Treasure Battle Saber’s full potential, hence it has very limited room to improve its combat prowess. However, I do need a lot of Divine Elixir Pills to improve my cultivation realm so I need your help to take care of this battle saber for me.” Jian Wushuang explained his situation with a smile.

Yin Su’er could not help but feel overwhelmed when she heard Jian Wushuang.

A Holy Treasure... Even when Yin Su’er’s father—Crimson Stone Saint was alive, he had the opportunity to only come across one throughout his entire life which went missing upon his passing.

Therefore, there was no Holy Treasure in the Crimson Stone Fort at that instance. In other words, Yin Su’er did not have a Holy Treasure on hand.

However, did Jian Wushuang just casually took out a Holy Treasure and asked for her help to dispose of it?

“Jian Yi, this is a Holy Treasure after all. It’s not any ordinary piece of treasure. Are you sure you want to exchange it for Divine Elixir Pills?” Yin Su’er was puzzled.

“Of course.” Jian Wushuang smiled faintly.

In Jian Wushuang’s opinion, a treasure was of no value if he could not use it.

A treasure that was not usable was only a piece of useless ornament. It was better to exchange it for much-needed resources.

“I’ll find a way to sell your battle saber as soon as possible in that case,” said Yin Su’er.

“Do you know how many Divine Elixir Pills this battle saber can be exchanged for?” Jian Wushuang asked.

“Well... I haven’t handled a Holy Treasure weapon before, so I don’t know the specific price for it. However, it shouldn’t be difficult to sell for a few ten thousand Divine Elixir Pills,” said Yin Su’er.

“Fifty thousand Divine Elixir Pills. I need fifty thousand Divine Elixir Pills. I wonder if it’s possible?” Jian Wushuang asked.

“Yes.” Yin Su’er nodded.

Although she had no idea of the specific price of a Holy Treasure, it shouldn’t be difficult to sell it for 50,000 Divine Elixir Pills or more.

“That’s fine.” Jian Wushuang smiled.

He had previously accumulated a certain amount of divine power. If he could get his hands on 50,000 Divine Elixir Pills in addition to those Divine Elixir Pills he obtained from killing Saber Master and the other Grand Ultimate Gods, he should be able to make another cultivation realm breakthrough and cross over to the Peak Heaven Ultimate God realm!
