

Swordsman 3031

Chapter 3031: Submit

— —

The hazy figure quickly disappeared, and a moment later, Lord Wu, who had been waiting outside the palace, walked in.

“Monarch.” Lord Wu stood there respectfully.

“Do you know where those four are hiding?” Magic Note King looked down.

“Of course I do. I personally arranged for them to hide.” Lord Wu nodded.

“That’s good. Make a trip to meet Heavenly Sword Marquis and tell him where the four of them are hiding. Also, pass a message to me,” the Magic Note King said.

“I’m going to meet Heavenly Sword Marquis?” Lord Wu was stunned.

He wanted him to meet Heavenly Sword Marquis and tell him where the four of them were hiding. Was the Magic Note King going to lower his head and admit defeat?

“Remember, when you meet the Heavenly Sword Marquis, don’t let the third person know, and don’t let anyone know that it was I who ordered you to tell the Heavenly Sword Marquis where the four of them were hiding. You must remain extremely unyielding to the outside world, and you must swear to protect the four of them with your life. Do you understand?” The Magic Note King added.

When he heard this, Lord Wu instantly understood.

He was not stupid. After thinking about it, he naturally knew the intention of the Magic Note King.

“Go.” The Magic Note King waved his hand.

“Yes.” Lord Wu answered respectfully and then left.

...

On a peaceful barren mountain, Jian Wushuang, who was wearing a gray robe and a gray mask, was sitting cross-legged on a giant rock with his eyes slightly closed, as if he was waiting for something.

Soon, a figure appeared in front of him.

It was Lord Wu.

“Are you here?” Jian Wushuang opened his eyes and looked at Lord Wu.

“You knew I would come?” Lord Wu said in a low voice as he stared at Jian Wushuang.

“Of course, unless the Magic Note King is really capable of killing me, he can only send someone to negotiate with me,” Jian Wushuang said with a sneer.

Lord Wu’s expression was uncertain. After a while, he waved his hand and threw a token to Jian Wushuang, saying, “My king asked me to give this to you.”

After saying that, Lord Wu did not care about Jian Wushuang's reaction and turned to leave.

Jian Wushuang took the token and scanned it with his consciousness. However, a playful smile appeared on his face.

"Are you finally willing to give in?" Jian Wushuang sneered in his heart, but he was not surprised at all.

The Magic Note King was able to create a Great Divine Kingdom. He was not a reckless fool. He was also smart.

He should know the consequences of completely falling out with him. The consequences were not a joke.

Moreover, it was just four True Saint subordinates. It was nothing to the Magic Note King. It was just a loss of face and prestige.

It was obviously not worth taking such a huge risk just for a little bit of face and prestige.

And now, the Magic Note King's methods were rather wise and smart.

On the surface, he still pretended to be tough and wanted to protect the four of them, putting on an act in front of the experts under him. On the other hand, he sent someone close to him to quietly tell him the location of the four of them, asking him to kill them...

"I killed the four people to complete the task and also because they were extremely evil and worth killing. As for me and the Magic Note King, there is no need to make things too difficult. Since he is willing to submit to me, I will accept his offer."

Jian Wushuang smiled faintly and then went straight to the place where the four people were hiding.

...

They were still in the territory of the Magic Note Divine Kingdom.

However, it was an extremely quiet place, where almost no one would come and go.

It was a desolate forest.

There was a swamp in the deepest part of the forest. One of the last four people on Jian Wushuang's kill list was hiding in the swamp.

The huge swamp was completely covered by a layer of restriction.

Inside the restriction, there was a towering and extremely huge palace, deep in the palace.

"Ah ah"

"No, no!"

"Sir, please spare my life! Spare my life!"

Shrill and crazy screams echoed throughout the entire palace.

Many people were screaming. It was obvious that they were suffering from extreme pain.

The screams lasted for more than an hour before they gradually subsided.

Clang!

A door in the inner hall suddenly opened. Then, a middle-aged man in a golden robe walked out of the door with his chest open and his feet bare.

The middle-aged man had a bewitching smile on his face and there was a trace of blood on the side of his mouth. He stood in front of the door and glanced at the inside of the hall. "Go and clean up the inside. Carry the two people who were killed out."

"Yes!"

Immediately, more than a dozen maidservants in beautiful clothes walked into the inner palace.

Looking at these maidservants, the middle-aged man's lips curled into a sinister smile.

Because he was targeted by Jian Wushuang, he had no choice but to hide in this swamp and did not dare to show his face.

However, he was a person who enjoyed himself in peace. Even if he hid here, he brought many maidservants and beauties with him. These maidservants and beauties were all for his enjoyment.

Otherwise, it would not be a big deal if he hid here alone for a short period of time. However, if he hid here for a long time, he would probably go crazy.

Not long after, the middle-aged man appeared in the main hall. He sat upright on the majestic throne and took out a token to check the information that was transmitted from the token.

"That Heavenly Sword Marquis actually went to the Heaven Magus Palace? How dare he!"

The middle-aged man's expression was extremely cold, but at the same time, he felt a hint of worry.

"This Heavenly Sword Marquis is so decisive in his killing, and the king clearly has no way to deal with him. In the end, the king will not give in to him and hand me over, right?"

"No, definitely not!"

"The king is such a lofty existence. He has always been a man of his word in the Magic Note Divine Kingdom, and I am an expert under him. It is impossible for him not to protect me with all his strength. If he really hands me over, then his prestige in the Magic Note Divine Kingdom will be completely swept away. He will definitely not do so."

The middle-aged man was constantly consoling himself.

And very quickly, he received news that the Magic Note King had personally sent word. His stance was extremely tough, and he even said that he had paid a huge price to invite experts to personally rush to the Magic Note Divine Kingdom to help him. As long as the Heavenly Sword Marquis dared to make a move, he would immediately kill him.

“Haha, as expected, what sort of character is the king? Why would he submit to the Heavenly Sword Marquis? If the Heavenly Sword Marquis was a little smarter, he could just leave right now. If he doesn’t leave, hmph, he will definitely die!”

The middle-aged man’s eyes flashed with a fierce light. He really wished that the Heavenly Sword Marquis could die right away. That way, he would not have to hide here.

However, he did not know that the Heavenly Sword Marquis that he longed for had already arrived at his hiding place.

Chapter 3032: Mission Accomplished

— —

In the void above the swamp, Jian Wushuang looked down at the towering temple with cold eyes.

“The first person is hiding here? How remote.” Jian Wushuang sneered in his heart. At the same time, his soul power had sensed the presence of a large number of maids and beauties in the temple.

“He was clearly hiding from the pursuit, but he still brought so many maids and beauties with him for his enjoyment. Humph, he really deserves to die!”

Without any hesitation, Jian Wushuang dived down.

Boom!

The restriction that had always existed in the sky above the swamp was broken by Jian Wushuang in an instant, and he directly charged into the palace.

The golden-robed middle-aged man sitting in the main hall also looked up in horror. When he looked up, he found Jian Wushuang who had entered the palace.

He was wearing a gray robe and a gray, cold mask, which was obviously the attire of a member of the Heaven-cleaving Alliance.

There was only one person from the Heaven-cleaving Alliance who might come to kill him.

“Heavenly Sword Marquis, it’s Heavenly Sword Marquis!”

The gold-robed middle-aged man turned pale with fright, and his heart turned cold instantly.

He immediately began to flee. At the same time, he immediately wanted to send a message to the highest level of the Magic Note Divine Kingdom, Lord Wu.

“How is it possible?”

“My hiding place is so remote. How did Heavenly Sword Marquis find me?”

“Could it be that the maidservants around me, the beauties, leaked the news?”

The golden-robed middle-aged man kept growling in his heart.

At first, he thought that it was the people around him who leaked the news so that Jian Wushuang could find them.

But soon, he denied this guess.

Because he had already set up a special magic array in this swamp, which was the restriction that Jian Wushuang had just broken.

The restriction could prevent the handmaidens and beauties from communicating with the outside world. Except for him, no one could communicate with the outside world.

The news that he was hiding here could not have been leaked by someone close to him.

Since it was not the maids and beauties who leaked the news, then the person who leaked the news...

"Could it be...could it be the king?!"

The golden-robed middle-aged man just thought of this.

Buzz!

A silver light appeared beside him like a ghost, and at the same time, a cold sword light swept toward him.

The golden-robed middle-aged man was only a rank one True Saint, and his strength was average. Even before Jian Wushuang had broken through to the Immortal Saint Realm, he could easily kill this man's rank one True Saint. Now that he had broken through to the Immortal Saint Realm...his battle strength was strong enough to rival a rank four True Saint.

Killing such a rank one True Saint was as easy as killing a chicken or slaughtering a dog.

After consuming two drops of the god-burning poison, the golden-robed middle-aged man's eyes were wide open, but his consciousness was gradually dissipating.

When his consciousness was about to completely dissipate, he had completely figured it out.

The Magic Note King's tough attitude toward the outside world was just an act.

In fact, the Magic Note King had already submitted to Heavenly Sword Marquis and told him where he was hiding.

Unfortunately, it was too late for him to figure it out.

Whoosh!

A moment later, Jian Wushuang set off again toward the second person's hiding place.

The last four people on the must-kill list were hiding in four different places. However, Jian Wushuang already knew about these four places. All he had to do was to find them one by one and kill them.

His movements were very fast and neat.

The four people had not received any news and thought that the Magic Note King would try his best to protect them. In the end, they all died under Jian Wushuang's sword.

After killing these four people, all twelve people on the must-kill list had died. Naturally, Jian Wushuang had completed the heaven-level task.

He did not plan to stay in the Magic Note Divine Kingdom and left directly.

However, no one in the outside world knew about their deaths.

The experts under the Magic Note Divine Kingdom had not received any news. Most of them thought that the four people were still hiding or had left the Magic Note King, but they did not know that they had died at Jian Wushuang's hands.

Therefore, the reputation and dignity of the Magic Note Divine Kingdom were barely preserved.

...

In the Magic Note Divine Kingdom, there was a secret lair of the Heaven-cleaving Alliance.

In the secret lair, Xue Dong King was already waiting for him.

"Xue Dong King, I'm sorry to have kept you waiting." Jian Wushuang appeared in front of Xue Dong King with an apologetic look on his face.

"Haha, not at all. Besides, it's worth waiting for decades to see the good show between you and the Magic Note King." Xue Dong King laughed.

Deep down, Xue Dong King still had not completely calmed down.

He had not left immediately after giving Jian Wushuang the god-burning poison. Instead, he had stayed behind to watch the battle between Jian Wushuang and the Magic Note Divine Kingdom.

He had seen it clearly.

Jian Wushuang had defeated Gold King at the beginning, then massacred many True Saint experts of the Magic Note Divine Fruit, and finally, the king of the Magic Note Divine Kingdom had personally arrived. In the end, he could not do anything to Jian Wushuang, he was even forced back by Jian Wushuang in a head-on confrontation.

This scene shocked Xue Dong King more than he had ever seen before.

At that time, he could not help roaring in his heart, "A rank one True Saint is fighting against a rank four True Saint. Does he still want to live?"

Xue Dong King was more and more impressed with Jian Wushuang, and he could not see through him.

"Xue Dong King, wait for me. I'll go and hand in the task." Jian Wushuang immediately walked to the counter.

At the counter, Jian Wushuang took out his identity token and began to hand in the task.

When the purple-robed elder who handed in the task to Jian Wushuang knew Jian Wushuang's identity and the task he had completed, his heart was filled with excitement.

The secret lair was located in the Magic Note Divine Land. The person in charge of the lair was well aware of what was happening in the Magic Note Divine Land, so he was naturally amazed.

It did not take long for Jian Wushuang's mission to be completed. At the same time, he received a reward of 150 million sacred elixirs.

"Xue Dong King, this is for you." Jian Wushuang waved his hand and handed an interspatial ring to Xue Dong King.

Xue Dong King took it and took a look. His body suddenly trembled. "Brother Heavenly Marquis, what are you doing?"

"You sent me 100 drops of god-burning poison. It's very expensive, but I haven't given you the sacred elixirs." Jian Wushuang smiled.

"But isn't this too much?" Xue Dong King said immediately.

It was not his fault for being shocked. There were 100 million sacred elixirs in the interspatial ring that Jian Wushuang gave him!

100 million!

He had only used 40 million sacred elixirs to buy the 100 drops of god-burning venom, but now Jian Wushuang had given him more than twice that.

...

Chapter 3033: Return to the Nine Realms of the Golden Crow

— —

"Take it." Jian Wushuang smiled faintly.

He had a certain friendship with Xue Dong King, but it was not very deep.

But this time...when he sent a message to Xue Dong King asking him to send him some god-burning poison, he told him in detail about his situation, including the fact that the surrounding area was completely sealed and he was only allowed to enter and not leave, in the end, Xue Dong King did not hesitate at all and directly agreed. This made Jian Wushuang feel very touched and grateful.

A friend like Xue Dong King was worth making a deep friendship with. Therefore, Jian Wushuang was not stingy and directly took out 100 million sacred elixirs. The extra 60 million sacred elixirs were his gratitude to Xue Dong King for taking the risk for him.

Looking at the interspatial ring in his hand, Xue Dong King did not hesitate and said, "Okay, I'll take it."

Xue Dong King had seen Jian Wushuang slaughter many experts of the Magic Note Divine Kingdom. Many True Saint experts had died at Jian Wushuang's hands, and those True Saint experts were all rich. Therefore, Jian Wushuang had gained a lot of wealth, in addition to the reward for this mission, it could be said that he had made a lot of money, so he was not too unreasonable.

"Brother Heavenly Marquis, what are your plans next?" Xue Dong King looked at Jian Wushuang.

"I still have some private matters to deal with," Jian Wushuang said.

"In that case, let's split up again. I'll go to the Barbarian King Team. Brother Heavenly Marquis, if you have any problems in the future, like this time, you can look for me at any time," Xue Dong King said.

"Okay." Jian Wushuang nodded.

Soon, they separated.

Jian Wushuang was already planning his next move.

"I've already reached the Immortal Saint realm, and I've just reached the rank one True Saint Realm. Logically speaking, my strength is still rising. As long as I have the opportunity, my strength can be greatly improved in a short time."

"Opportunity..."

"In the secret realm, I promised the spirit of the secret realm that when I reached the Immortal Saint Realm, I would go to the secret realm again to accept the test left by the master of the secret realm. Now that my realm has reached, I should fulfill my promise," Jian Wushuang muttered.

Jian Wushuang's eyes flashed with a glimmer of light, but he had an idea in his heart. Then, he directly set off.

The endless territory was vast and boundless.

The Magic Note Divine Kingdom occupied a total of 36 territories, which was already an extremely large Divine Kingdom. However, compared to the entire endless territory, it was only a drop in the ocean. The Magic Note Divine Kingdom was also very far away from the Nine Realms of the Golden Crow.

Fortunately, Jian Wushuang was now a member of the Heaven-cleaving Alliance, and he was also a heaven-level member. His authority was not small, and the secret nests of the Heaven-cleaving Alliance were scattered all over the Divine Beginning World, there was also a secret lair of the Heaven-cleaving Alliance around the territory of the Nine Realms of the Golden Crow.

Through the spatial passage, Jian Wushuang appeared directly in the secret lair of the Heaven-cleaving Alliance around the Nine Realms of the Golden Crow.

After that, Jian Wushuang spent some sacred elixirs and obtained an intelligence report.

This intelligence report was about the changes that had occurred in the years since Jian Wushuang left the Nine Realms of the Golden Crow.

It had been nearly 300 years since Jian Wushuang left the Nine Realms of the Golden Crow.

These 300 years were a long time for Jian Wushuang in this life.

In the vast void.

Jian Wushuang flew while carefully reading the piece of information in his hand.

"As expected, after I left, a large number of mysterious experts arrived, including many principles masters."

Looking at the information in his hand, Jian Wushuang secretly praised.

In order to get Leng Rushuang back from the Supreme Emotion Valley, he had used his last trump card, the life-level pressure, and even used the heaven-cleaving skill to kill several disciples of the Supreme Emotion Valley at the True Saint level.

However, because of this, he was targeted by the power of the will of heaven. If not for Daoist Xuan Shen's help in secret and the teleportation token he had obtained from the secret realm, he would not have been able to escape that day.

After he left, a large number of top experts from the third heaven arrived.

According to the information provided by the Heaven-slaying Alliance, there were many experts who had arrived. They searched wantonly and almost turned the entire Nine Realms of the golden crow upside down, especially the places that Jian Wushuang had been to and the Pill Sun Sacred World where he was born, they searched the entire place several times.

Moreover, anyone who had a certain connection with Jian Wushuang had been interrogated, but in the end, they still could not find any trace of Jian Wushuang.

Not only the Nine Realms of the Golden Crow but also a large number of surrounding territories had also been searched by those experts.

However, after searching for more than a hundred years without any news, those experts still left.

By now, the Nine Realms of the Golden Crow had calmed down again.

"Humph, although the information from the Heaven-cleaving Alliance says that all the experts have left, I'm afraid that it's not absolute. If I'm not wrong, although the experts have left on the surface, I'm afraid that there will still be a few experts left in the dark. However, they won't be searching as recklessly as before. Instead, they will go into hiding and wait for me to appear," Jian Wushuang said with a cold snort.

He knew very well how terrifying his enemies were

The three Great Saint Realm experts, the four great divine clans, and the eight directions celestial sect — how terrifying were any of them?

Any one of them was enough to shake the entire Divine Beginning Realm.

Such a super force had countless experts under their command, and their desire to kill him was even more intense.

Even though they had searched for hundreds of years without finding any trace of him, these forces would never give up. They would definitely be willing to let some experts stay here and wait for tens of thousands of years, they would be willing to wait for hundreds of thousands of years.

After all, these super forces should not lack experts.

As for the will of the Heavenly Dao..

Jian Wushuang could not help looking up.

Although the world seemed calm, Jian Wushuang knew that the power of the will of the Heavenly Dao in this territory was much stronger than before.

As expected, the will of the Heavenly Dao had been keeping an eye on this territory. He had just stepped into this territory, so it was not a big deal.

However, once he fought in this territory and revealed his powerful strength or revealed his trump card, the power of the will of the Heavenly Dao would immediately be sensed, the experts hiding in this territory would definitely come to kill him at the first moment.

“Fortunately, my purpose of returning to the Nine Realms of the Golden Crow is only for the opportunity in the secret realm. I don’t want to have any friction or fight with others. At most, I just want to walk around. As long as I don’t make a move, the power of the will of heaven and the experts hiding in the Nine Realms of the Golden Crow will never know that I have returned.” Jian Wushuang smiled slightly, put on a strange smile.

Chapter 3034: Entered the Secret Manual Again

— —

The Nine Realms of the Golden Crow. A total of nine realms.

The Heavenly Curve World.

Inside a towering hall in the middle of a densely packed group of buildings made up of countless palaces and pavilions.

“Supervisor Xiao, my Palace Master said that this conflict is purely caused by the Sword Alliance taking the initiative to stir up trouble. That’s why the Heavenly Void Alliance retaliated directly. Even if your people were all killed by the Heavenly Void Alliance, it’s their own fault. However, Supervisor Xiao, you’ve now gathered an army at the border of our heavenly void world and made an aggressive stance. Why? Don’t tell me that the Sword Alliance wants to start a war with our Heavenly Void Palace?” A brown-haired elder with a childlike face stood in the hall, his expression was cold and filled with anger, and his words were loud and clear.

Beside him were many experts from the Sword Alliance. They looked at the white-haired elder with a child-like face with ice-cold eyes, and some of them even carried killing intent.

At the top of the great hall, a woman in purple armor stood there.

This woman’s appearance was extremely beautiful, but she was extremely cold and arrogant. Her eyes were cold and did not contain the slightest bit of sympathy. There was also an ice-cold and... murderous aura between her brows!

Yes, it was the murderous aura!

This murderous aura was very strong, and everyone in the hall could clearly feel it.

However, what was surprising was that the aura on this woman’s body was not very strong. She had barely reached the level of a Divine Master. The people below were all Great Divine Masters and above.

However, it was this kind of woman that emitted the murderous aura, that caused many Great Divine Master level experts below to not even dare to raise their heads.

“Hmph, starting a war? So what if I want to start a war?” The voice of the woman in purple armor was ice-cold, it reverberated throughout this palace, “Go back and tell the Heavenly Void Palace Lord that I need him to give me an explanation for this matter. Also, I don’t have that much patience. Three months, three months later, if he doesn’t give me an explanation, the army of experts from my Sword Alliance will directly cross the border and enter the Heavenly Void Palace’s territory.”

“Supervisor Xiao, aren’t you going too far? What kind of status does my palace master have? Why would he give you an explanation?” That white-haired elder with a child-like face shouted in a low voice.

“Your Palace Master’s status?”

“Hehe, back then when my young master was around, your Palace Master didn’t even dare to appear in front of my young master. With just a word from young master, that Heavenly Void Palace Master didn’t even dare to utter a fart. Now that my young master has left, he immediately jumped up. What a joke!”

“What a joke!”

“Listen carefully. Even if my young master is no longer around, the Sword Alliance is still not something that any Tom, Dick, or Harry can easily bully. At the very least, a mere Heavenly Void Palace Master does not have the qualifications to do so!” The purple-armored woman shouted in a low voice.

“You!” The white-haired elder pointed at the purple-armored woman. His eyes were burning with anger, but it was not good for him to flare up.

“Blood lamp, chase this old thing out. If he dares to say any more nonsense on the way, kill him immediately and send his head back to the Heavenly Void Palace Master,” the purple-armored woman shouted.

“Yes.”

Divine Master Blood Lamp immediately walked up from the great hall and chased the white-haired elder out.

The white-haired elder did not dare to get angry again, afraid that Divine Master Blood Lamp would really kill him.

The other experts in the hall reluctantly raised their heads to look at the purple-armored woman, but they quickly lowered their heads.

Obviously, they were all in awe of the purple-armored woman.

Although the scene just now happened in the hall, it was witnessed by one person from beginning to end.

This person was Jian Wushuang.

He was in the void not far from the buildings, and his soul power had already covered this place.

“Xin ‘er, this girl is really good.” Jian Wushuang secretly praised her.

The purple-armored woman in the hall with great majesty and killing intent was his maid, Xiao Tiexin.

He had killed Realm Lord Tianqu and occupied the tianqu world. Then, he moved the Sword Alliance he created to this place.

Under his tyrannical methods, the Heaven Curve World completely respected the Sword Alliance.

After that, there was a huge change and he had no choice but to leave the Golden Crow Nine Realms. When he left, he also sent a message to Xiao Tiexin, telling him a few things.

After that, he did not know what happened.

But now, it seemed that Xiao Tiexin's methods were extremely powerful. Even without his deterrence, he still managed the Sword Alliance and the entire Heaven Curve World in an orderly manner. The experts in the Heaven Curve World were filled with reverence toward him.

The Sword Alliance was even more powerful because of the corpse puppet army that he had left behind. The only thing that it lacked was probably that there was no Immortal Saint in charge of it.

However, the Golden Crow Nine Realms had the rules set by Bone Emperor, so no one dared to violate them. It was very difficult for the forces of the other realms to invade the Heaven Curve World.

For example, the Heaven Void Palace would be defeated this time.

"Xin 'er is probably more skillful than Yin Su'er of the red stone castle," Jian Wushuang thought.

He only came here to understand the current situation of the Sword Alliance, but he did not show up and did not send a message to Xiao Tiexin and the others.

Xiao Tiexin and the others did not know that he had returned.

After all, when those mysterious experts from the third firmament had descended, some of those experts had looked for Xiao Tiexin and the experts under him. If nothing went wrong...Xiao Tiexin and the others must have been soul-searched by someone with powerful means and all their memories had been read.

Only when they were certain that Xiao Tiexin and the others did not know his location, could those experts let them off.

However, they probably let them go to catch a big fish.

If Jian Wushuang's guess was correct, Xiao Tiexin and the Divine Masters under the Sword Alliance who were close to Jian Wushuang must have left a special mark on their bodies. Once Jian Wushuang appeared in front of them, the mark would be triggered, the experts hiding in the Nine Realms of the Golden Crow would immediately detect him and come to kill him as soon as possible.

Therefore, it was impossible for Jian Wushuang to contact Xiao Tiexin and the others, let alone appear in front of them.

After having a certain understanding of the Sword Alliance, Jian Wushuang returned to the Pill Sun Sacred World.

The Pill Sun Sacred World did not change much. Jian Wushuang only took a look at Crimson Rock Castle, and then he went straight to the secret realm.

The entrance to the secret realm was here.

It was not Jian Wushuang's first time here, so he was naturally familiar with it.

Soon, he opened the passage of the secret realm and entered the secret realm.

Entering the secret realm and breaking through the obstacles in front of him, Jian Wushuang arrived at the true core of the secret realm in less than 15 minutes. At the same time, he saw the spirit of the secret realm again.

Chapter 3035: The Probability Was Low

— —

"Elder Gu."

Jian Wushuang looked at the plain-clothed elder in front of him with a humble expression.

"You're here." Elder Gu also looked at Jian Wushuang with a smile on his face. "You must have just become an immortal saint, right?"

"Yes." Jian Wushuang nodded. "According to what I said, I came to the secret realm as soon as I became an Immortal Saint. I just don't know if I have a chance to get the opportunity left by the Master of the secret realm."

"The opportunity left by Master can only be obtained by completely passing the test set by him. The minimum threshold of this test is the Immortal Saint. You've just barely met the requirement to accept the test. As for whether you can pass it...I don't know," Elder Gu said.

Elder Gu admired Jian Wushuang very much.

Back then, Jian Wushuang had shown extraordinary skills and talent in the secret realm. Some of his skills even made Elder Gu astonished.

For example, Jian Wushuang's soul had been killed six or seven times in a space in order to get the corpse puppet army to accept the test. In the end, he was still alive and well.

Elder Gu knew that Jian Wushuang was extraordinary and had great secrets. Therefore, he hoped that Jian Wushuang could pass the test left by his master and inherit his master's legacy. However, whether he could really succeed or not...it depended on Jian Wushuang's ability.

"How about this."

Elder Gu waved his hand.

Whoosh!

A figure suddenly appeared in front of Jian Wushuang.

It was a bald man who was more than two meters tall and as strong as a hill. This bald man was lifeless. He was obviously a corpse puppet, but his aura was very impressive, he had reached the level of a third level True Saint.

"Before you really go to the master's test, you should fight with this corpse puppet. If you can't defeat it, you should cultivate for a while before coming back," said Elder Gu.

"I understand." Jian Wushuang nodded slightly and immediately looked at the corpse puppet.

"Let's do it," Elder Gu said indifferently. As soon as the corpse puppet next to him received his order, it instantly turned into a flowing light and flashed out.

A golden axe appeared in the corpse puppet's hand. The corpse puppet held the axe with both hands at the same time.

Whoosh!

A streak of golden light flashed out, which was extremely majestic and domineering. It whistled and slashed toward Jian Wushuang.

Jian Wushuang's Blood Mountain Sword appeared in his hands immediately. Without any fancy moves, the blade of the sword directly smashed toward the golden light with astonishing divine power.

Clang!

A low sound of metal colliding rang out, and the golden light dimmed. Under the pressure of Jian Wushuang's terrifying power, the golden axe in the corpse puppet's hand was directly thrown away, and its entire body was instantly pushed back.

In just one exchange, the corpse puppet, which had reached the level of a rank three True Saint, had been completely defeated.

"You defeated this corpse puppet cleanly." Elder Gu nodded slightly, but he frowned slightly.

"Elder Gu, what do you think?" Jian Wushuang looked over.

"Your strength is indeed good, but if I'm not wrong, the reason why you were able to defeat this corpse puppet so easily was because of your divine power, which is much stronger than that of an ordinary rank three True Saint. In other words, your strength is only strong, but in other aspects, although it's very good, it's not ridiculously strong," Elder Gu said.

Jian Wushuang directly admitted this.

Indeed, his strength was mainly reflected in his strength and power.

Apart from his strength and power, his other aspects were similar to those of the top geniuses in the Divine Beginning World.

"It's impossible to pass the test left by master if you only have strong strength and power," Elder Gu said in a deep voice, "The test master left behind is very special. In the test, no matter how strong your power is, it's useless. Master's test is purely based on your comprehension of the principles and the

Dao. Not to mention your power, even if you know many secret arts and special techniques, you won't be able to use them during the test.

"Therefore, the chances of you succeeding in the test left by master are very low."

"What?" Jian Wushuang's expression changed slightly.

It was purely a test of comprehension of principles and Dao. Power was useless?

After all, he had just reached the Immortal Saint Realm and his strength was still in the explosive stage. His comprehension of principles and Dao could be greatly improved at this level, in other words, his strength had not reached the limit of this level.

Under such circumstances, it was obviously very disadvantageous for him to pass the test left by the Master of the secret realm.

"It is indeed very unlikely for you to pass the test left by master. However, master has already set a rule that the same cultivator can challenge the test three times. Since you are here today, you can try it first. Even if you fail, you will at least have a certain understanding of the test and have a good idea of it. In the future, when you come to challenge me for the second time, you will be more confident," Elder Gu said.

"I see." Jian Wushuang understood. "In that case, I'll give it a try today."

There was a hint of anticipation in Jian Wushuang's eyes.

He really wanted to know what kind of test the owner of this secret realm, a principle master who could open a great secret realm, had left behind.

Whoosh!

A burst of majestic divine power condensed in the void in front of Jian Wushuang, and in the blink of an eye, it formed a dark tunnel.

"Enter through this passage and you'll be in the trial ground. I'll tell you the content of the trial when you get there," Elder Gu said.

Jian Wushuang nodded. He took a look at the dark passage in front of him and took a deep breath. Without much hesitation, he stepped into the passage.

Whoosh!

With a flash of light, Jian Wushuang appeared in a vast world.

In the center of this world stood a towering mountain that was hundreds of thousands of feet tall.

This mountain gave Jian Wushuang a feeling of vastness and even a sense of fear.

"Little Guy, the mountain you see now is called Di Mountain. Master once moved to this secret realm by great means." Elder Gu's voice came from the void, and a faint figure appeared there.

"Di Mountain?" Jian Wushuang raised his eyebrows and looked at the huge mountain in front of him.

He had noticed that Di Mountain was very different from an ordinary mountain at first glance.

Chapter 3036: Di Mountain

— —

“Di Mountain is very special!”

Elder Gu’s leisurely voice came from the void next to him.

“This Di Mountain is completely covered by a special restriction. Cultivators, no matter who steps on the Di Mountain, will immediately be restricted by the restriction. The power they can use is at most at the level of an ordinary first level True Saint. Even if your realm has already surpassed that of a first level True Saint, or if you have secret techniques that can increase the power of your divine power or special techniques, once you reach the Di Mountain, these secret techniques will not be able to be used!”

“On Di Mountain, the only things you can use are the principles and Dao, as well as the various unique skills you created.”

“Di Mountain is divided into three levels, namely the foot of the mountain, the mountainside, and the mountaintop. Each level has three gatekeepers. What you need to do is to start from the foot of the mountain, then climb to the mountaintop and reach the top. That’s enough.”

After hearing Elder Gu’s words, Jian Wushuang moved.

“There are gatekeepers at the foot of the mountain, the mountainside, and the top of the mountain. Does this mean that I will experience three trials in total? And it seems that these three trials will become more difficult as time goes on,” Jian Wushuang thought to himself.

“Let’s begin.” After Elder Gu finished speaking, the rest was left to Jian Wushuang.

Jian Wushuang took a deep breath and appeared at the foot of the mountain.

As soon as he arrived, he saw three figures standing quietly at the foot of the mountain.

They were a black-clothed woman, a cold-looking elder, and a middle-aged man with red hair.

Their expressions were cold and emotionless.

“Is this my opponent at the foot of the mountain?” Jian Wushuang’s eyes focused.

“Challenger, defeat us and you can go to the mountainside,” the red-haired middle-aged man said coldly.

As soon as he said this, the red-haired middle-aged man immediately moved.

He rushed toward Jian Wushuang like a ball of hot flame.

The red-haired middle-aged man wore a pair of red fists and his body was full of murderous aura. This murderous aura immediately swept toward Jian Wushuang.

At the same time, the black-clothed woman and the cold-faced elder also made corresponding movements.

The black-clothed woman directly merged into the surrounding void and completely disappeared.

As for the cold-faced elder, a strange light flashed in his eyes.

Buzz, buzz, buzz!

The world in front of Jian Wushuang completely changed.

He was originally taking the test at the foot of Di Mountain, but in the blink of an eye, he found himself in a dark void.

No, it was not a dark void. To be more precise, it was a dark prison.

The dark prison had completely imprisoned him. There were even huge chains that completely bound him, making him unable to move. There were people around him who held knives and swords and wanted to cut his flesh.

“Illusion?”

Jian Wushuang’s face was cold. “Break!”

His body only shook for a moment, and a terrifying willpower burst out. The surrounding dark space immediately collapsed.

“You actually broke my illusion in an instant?”

The cold elder looked at Jian Wushuang in surprise, and then snorted coldly. He pointed his right hand from afar, and six sharp dark spikes turned into six pitch-black beams of light, piercing through the void and shooting toward Jian Wushuang’s head.

Each of the six dark spikes contained a strong impact power.

Before the six dark spikes appeared in front of Jian Wushuang, the red-haired middle-aged man’s fist had already arrived.

His fist was hot and violent, like a raging flame, directly covering Jian Wushuang.

“Humph!”

Jian Wushuang snorted and suddenly brandished his Blood Mountain Sword.

His divine power exploded the moment he brandished it, but at the same time, his face darkened.

“As expected, no matter how much I use my divine power, the power I can release is only at the level of a rank one True Saint. I can’t use any means to amplify the power. Even the boundless sword tree, which is 6,600 meters tall, can’t amplify the power of my swordsmanship.” Jian Wushuang frowned.

However, he could not use all his strength. The three people guarding at the foot of the mountain could only activate the power of a rank one True Saint.

Under the same power, Jian Wushuang was not afraid of them at all.

“Die!”

Jian Wushuang suddenly let out a low shout, and a terrible evil aura suddenly burst out.

Space-time sword art...Evil Xiang!

It was the most terrifying move that Jian Wushuang had created.

Roar!

A deep, angry roar suddenly came from the heaven and earth.

The shocking sword light that Jian Wushuang waved turned into a complete and huge ancient exotic beast in the blink of an eye, and fiercely smashed into the red-haired middle-aged man's fist.

Crack!

The sound of bones cracking was heard.

The red-haired middle-aged man let out a shrill scream, and his body was sent flying heavily.

Suddenly, a cold black light appeared behind Jian Wushuang without any warning. The black light was cold, dazzling, and full of killing intent.

However, Jian Wushuang only slightly moved his body, and silver light burst out.

Swish!

The dark dagger cut through the void, but it did not have the time to cut through the corner of Jian Wushuang's clothes.

Jian Wushuang had already appeared beside the black-clothed woman. A sword light was extremely fast and directly slashed at the black-clothed woman. It was much faster and more violent than when the black-clothed woman stabbed out with the dagger.

Whoosh!

The sword light directly passed through the divine body of the black-clothed woman. Then, Jian Wushuang's body burst forth again. He easily dodged the six dark spikes and chopped off the cold elder's head.

In just a moment, two of the three people who surrounded Jian Wushuang were killed and one was injured.

Jian Wushuang naturally passed the test at the foot of the mountain.

After passing the test, Jian Wushuang immediately went to the mountainside. As for the black-clothed woman and the cold-faced elder, their divine bodies had recovered.

...

In the void not far from Di Mountain, the elder of the secret realm, Spirit Valley, had been standing there quietly watching.

He had witnessed everything that had happened at the foot of the mountain.

When he saw that Jian Wushuang had easily defeated the three people at the foot of the mountain, he could not help nodding slightly. "His comprehension of the space-time principle is not bad. He has reached the limit of the second stage, which is considered good among rank three true saints. The swordsmanship he created is at the peak of rank three. This kind of comprehension... it should not be difficult to pass the tests at the foot of the mountain or at the mountainside. What is difficult is the mountaintop!"

Elder Gu knew very well that the three tests of Di Mountain were more and more difficult.

Especially the trial on the mountain top, which was the most difficult of the three trials. In the primordial divine world, ordinary geniuses could not pass the trial on the mountain top. Only the top super geniuses could.

As for Jian Wushuang...Elder Gu did not think that Jian Wushuang could pass the trial on the mountain top.

Chapter 3037: The Mountaintop

— —

Di Mountain, on the mountainside.

There were also three gatekeepers on the mountainside, just like at the foot of the mountain. One of them was good at close combat, and their attacks were tyrannical.

The other was good at speed, and good at sneak attacks and assassinations.

The last person knew how to use soul attacks, and his soul techniques were incomparably powerful.

The difference was that the three gatekeepers on the mountainside were much more powerful than the three at the foot of the mountain.

"Get lost!"

Jian Wushuang's voice was cold. He slashed out his Blood Mountain Sword and performed the Evil Xiang move. The terrifying sword light collided with the sledgehammer wielded by a strong young man. Although he had the upper hand, the strong young man was not defeated by him. He was not completely crushed.

Next to him, an evil-looking young man slashed at Jian Wushuang's head again and again.

The last gatekeeper, who was not far away, used his soul attack to affect Jian Wushuang.

The three of them worked well together, which put a lot of pressure on Jian Wushuang.

However, at this moment, Jian Wushuang finally burst out.

His silver light movement suddenly burst out, and his speed completely surpassed the fastest of the three. He directly appeared in front of the gatekeeper who had used soul attack. Then he used Star Dream, which was so fast, the gatekeeper did not have time to react and was killed on the spot.

After one of the three was killed, the other two obviously could not defeat Jian Wushuang, so they were soon defeated by Jian Wushuang one by one.

They passed the mountainside.

...

Finally, Jian Wushuang arrived at the top of Di Mountain.

There were also three gatekeepers on the mountaintop. They were a stocky elder and two women, one black and one white.

"Master left Di Mountain behind and set three tests. You passed the two tests at the foot and the mountainside. This proves that your talent is not weak. Even in the vast Divine Beginning World, you can be considered a first-class genius. But that's it," the stocky elder said.

"You'll never pass the test of the three of us," the white-robed woman also said.

"How would I know if I don't try?" Jian Wushuang just smiled faintly.

Soon, he fought with the three gatekeepers.

After the real battle, Jian Wushuang understood why Elder Gu had said that the probability of him passing the test was very low.

It was because the test on the mountaintop was too difficult.

Although the three gatekeepers on the mountaintop had also displayed the power of a rank one True Saint, each of them had reached the peak of a rank three True Saint in terms of their comprehension of the rules and Dao!

Jian Wushuang's comprehension of the space-time principles and sword principle was only at the peak of a rank three True Saint. Any one of the three could fight him head-on, and it was hard to predict who would win.

But now it was a three-on-one fight. The three of them were working well together. Under such circumstances, how could he be a match for them.

Jian Wushuang held on for a while, but he was defeated in the end.

As soon as he was defeated, Jian Wushuang was immediately sent out of Di Mountain.

"I failed!"

Jian Wushuang returned to the hall with a sigh.

"Little guy, how do you feel?" Elder Gu looked at him with interest.

"Too weak. Any one of the three gatekeepers on the top of the mountain is equal to me. If the three of them work together, I'm no match for them," Jian Wushuang said.

"I've already said that it's very unlikely for you to pass the test left by master. It's true, but don't take it too seriously. I can see that you've just reached the Immortal Saint level, and your strength is still in an

explosive stage. You still have a lot of room to improve your strength at the level of a rank one True Saint.”

“Judging from your fight with the three gatekeepers on the top of Di Mountain, you are not too far away from passing the test. As long as you can make great progress in the future, you should be able to pass it.” Elder Gu smiled and said.

“Indeed.” Jian Wushuang nodded solemnly.

It was true that he could not pass Di Mountain’s test, but he was not too far away from passing the test. He was close to passing it. With such a small gap, as long as he made some progress in his strength, he should be able to pass it.

“Now, under the situation where I can’t fully utilize my strength, I can’t deal with the joint attack of the three gatekeepers. If I want to defeat the three of them, I can only make a big breakthrough in the rules or sword principle.”

Among the rules and sword principle, his comprehension of reincarnation principles was even lower than the space-time principles. Even if he improved to the same level as the space-time principles, the increase in his battle strength was minimal. He was afraid that he would still be unable to pass the test on the top of the mountain.

As for the sword principle, although his immeasurable sword tree was already 6600 feet tall, his understanding of the sword principle was not very high. However, it was very difficult to improve the sword principle. In a short time...Jian Wushuang could not make great progress in his sword principle.

The only thing he could improve now was the space-time principle!

“Space-time principle...right!” Jian Wushuang’s eyes suddenly lit up. Then he flipped his hand and took out a golden stone the size of an infant’s fist.

Looking at the golden stone, Jian Wushuang’s eyes shone with a strange light.

This golden stone was the strange stone that contained the space-time divine principle.

Jian Wushuang had stepped into the space-time temple from this golden stone and learned the heaven-designated skill.

However, the heaven-designated skill was only one of the first moves of the space-time divine principle.

Jian Wushuang knew that there were two moves of the space-time divine principle contained in this golden stone alone.

However, because his comprehension of the space-time principles was too low, he was not qualified to learn the second move. Now, his comprehension of the spacetime rules had greatly improved, reaching the limit of the second stage, he could try to learn the second move of the space-time divine skill.

Most importantly, when Jian Wushuang was comprehending the first move of the space-time divine skill, the heaven-designated skill, his comprehension of the space-time principle had also greatly improved.

Now, his comprehension of the space-time principle had reached the limit of the second stage. He could use the second move of the space-time divine skill to improve his comprehension of the space-time principles so that his comprehension of the space-time principles could reach the third stage!

Once his comprehension of the space-time principles reached the third stage, he would have the confidence to pass the test on the top of Di Mountain.

Thinking of this, the light in his eyes grew brighter.

...

Chapter 3038: One Finger Oblivion!

— —

“Elder Gu, I want a place where I can cultivate and comprehend in peace,” Jian Wushuang said.

“Sure, this secret realm is very big, and there is no other cultivator besides you. I can arrange a place for you to ensure that no one will disturb you,” Elder Gu said, “but I have to remind you that any cultivator only has three chances to enter Di Mountain. You’ve already used it once before, and there are only two chances left. You must seize these two chances. You must be at least 70 to 80 percent sure that you can go again.”

“I understand.” Jian Wushuang nodded.

Soon, Elder Gu arranged a separate dark void for Jian Wushuang.

The dark void was boundless. Jian Wushuang sat alone with his legs crossed. In front of him was a golden stone the size of a baby’s fist.

“Let’s begin.”

Taking a deep breath, Jian Wushuang sank his consciousness into the golden stone.

Buzz, buzz, buzz. The scene immediately began to change.

Whoosh, whoosh, whoosh!

Waves of terrifying space-time storms filled every corner of the world. The killing power contained in these space-time storms was ridiculously strong. Jian Wushuang even suspected that even a principles master would be torn into pieces by this space-time storm, let alone a True Saint, he reckoned that he would be torn into pieces by this space-time storm.

In many places in the space-time storm, space-time seemed to have completely frozen and stopped. Pieces of space continued to break and regenerate.

In the center of this space-time storm, there was an extremely tall golden palace door. This palace door was magnificent and majestic, but the inside of the palace door was mysterious. What he could sense was still the vast and boundless power of space-time, it was as if it led to another space-time.

Jian Wushuang was standing under the Golden Palace Gate.

“Here I am again.”

Seeing the space-time palace gate in front of him, Jian Wushuang's heart was still filled with many waves.

The words that he had heard before were still echoing in his ears.

"Cross the space-time gate, enter my space-time palace, and be a member of my divine palace!"

Jian Wushuang had stepped through the time-space palace gate before he was able to comprehend the first move of the time-space divine skill, the heaven-designated skill.

But now..,

Taking a deep breath, Jian Wushuang stepped into the palace gate again without any hesitation.

As soon as he entered the palace gate, he came to a vast and boundless void.

In the void, a tall figure stood there.

The tall figure was three meters tall and wore a simple but clean white robe. His figure was obscure and his face could not be seen. He stood in the middle of the void with his hands behind his back.

"It's him again."

Jian Wushuang, you are not unfamiliar with this tall figure.

When he was comprehending the heaven-designated skill, he saw the tall figure personally use the heaven-designated skill to imprison many experts, causing them to be stuck in time and space for a long time and unable to recover.

If Jian Wushuang was right, the tall figure was probably the creator of the time and space divine skill, the temporal temple master.

Now, Jian Wushuang saw the tall figure again, standing in front of a star.

It was a huge star that was much larger than the Magic Note Divine Kingdom.

Such a star was simply a colossus. Jian Wushuang also sensed the aura of countless cultivators in the star. They were all very powerful, including many Immortal Saints, Jian Wushuang even faintly sensed the aura of the principles master.

"What is he going to do?"

As a bystander, Jian Wushuang stared at the tall figure quietly.

Finally, the tall figure moved.

He still did not move much. He just slowly extended his right hand and pointed in the direction of the giant star.

Yes, it was the simplest finger.

It was exactly the same as when he used the heaven-designated skill.

However, under this finger, an obscure power of space-time rules suddenly swept out.

In front of them, on the giant star... A terrifying space-time storm appeared out of thin air.

The space-time storm completely covered the entire star, and a large number of space-time blades crazily rampaged and strangled everything.

Then, the giant star, including the countless cultivators on the star, began to be annihilated at a speed visible to the naked eye.

It was annihilated!

Completely annihilated.

Whether it was the giant star, the cultivators in the star, or the few hidden principles masters that Jian Wushuang sensed, there was no room for struggle. In the blink of an eye, they were all annihilated.

The giant star completely disappeared, and the world returned to peace as if nothing had happened.

Jian Wushuang was completely stunned.

After a while, a vast amount of information flooded into his mind.

The second move of the space-time divine art...one finger void annihilation!

“One finger void annihilation!!”

“Space-time annihilation!!”

Jian Wushuang was still standing in the void, but his body was faintly trembling.

It was too terrifying!

The scene just now was too terrifying.

It should be known that the giant star was much larger than a Magic Note Divine Kingdom.

Such a huge star, the tall figure only needed one finger to completely annihilate it.

Such a terrifying method was simply unbelievable!

“Space-time annihilation, yes, the tall figure just used the space-time annihilation which can be used in the third stage of the space-time principles.” Jian Wushuang was still recalling the scene just now.

The space-time storm appeared and annihilated everything in the world, and the method was obviously space-time annihilation.

According to Jian Wushuang’s understanding of the space-time principles, each level of the space-time principles had a new ability.

The first level of the space-time principles could condense a space-time illusion body.

The second level could control the space-time blade.

The third level allowed one to perform the space-time annihilation.

The fourth level allowed one to perform teleportation.

Jian Wushuang had not yet reached the third level of the space-time annihilation, but he had clearly used the space-time annihilation with his finger earlier.

He had used the space-time annihilation in a special way to its fullest and most perfect effect. This move was terrifying in terms of its destructive power alone.

“It’s just right that my space-time principles has advanced one step further, which is to control the space-time annihilation move, and the one-finger void annihilation move is to perfectly utilize the space-time annihilation move. I can completely comprehend this move while controlling the space-time annihilation, and I can easily step into the third level of the space-time principles.” Jian Wushuang’s eyes were shining.

Chapter 3039: The Third Stage of the Space-Time Principles

— —

In the dark void, Jian Wushuang was very excited.

“With the gold-splitting secret manual in hand, I have already dissected the first three stages of the space-time principles in great detail. It’s still very helpful to me. With the three heaven-sealing scrolls in hand, I can improve my comprehension speed by many times. Now, I can comprehend the space-time annihilation from the space-time annihilation skill of one finger...”

“With so many cultivation resources, it won’t take an ordinary person long to make a breakthrough. As for me...let’s see how long it will take.” Jian Wushuang’s eyes were filled with anticipation, then he began to meditate carefully.

Time began to pass slowly.

One day, one month, one year!

After only one year, Jian Wushuang’s eyes were still open in the dark void.

He stared at the void in front of him. With a move of his consciousness, the power of the space-time rule suddenly burst out.

Whoosh

A large amount of the power of the space-time principles condensed in the void, and in the blink of an eye, it had formed countless space-time blades.

Each of these space-time blades was extremely powerful and contained an astonishing killing power.

However, under Jian Wushuang’s control, the space-time blades immediately began to evolve.

Boom!

A space-time storm rose.

The space-time storm cut through the void like a blade, and then it began to destroy.

In the blink of an eye, all the matter in that small piece of void had been completely destroyed, leaving no trace.

“The third stage of the space-time principles, space-time destruction, is done!”

Jian Wushuang’s eyes sparkled!

Just as he had expected, he had the golden-splitting secret manual which perfectly dissected the first three stages of the space-time principles, and he also had three heaven-sealing scrolls which could speed up his comprehension of the space-time principle, finally, there was the space-time annihilation finger skill which could be used as a reference.

With these three great opportunities in front of him, it provided him with the fastest way.

His comprehension of the space-time principle had already reached the limit of the second stage and was only one step away from the third stage.

But now, this one step was directly crossed in the short span of a year.

In the third stage of the space-time principles, the space-time annihilation had been controlled, which meant that Jian Wushuang’s comprehension of the rule had completely entered a new level.

Especially in the use of the space-time principles, it would be much stronger than before.

“Let’s try it first.”

Jian Wushuang stood up and looked at the endless dark void in front of him. In the next moment, his body suddenly moved.

Whoosh!

His body instantly burst out, but he had already appeared at the end of the dark void and then returned to his original place. This process had been completed in a flash.

“My speed...is so much faster than before?” Jian Wushuang muttered.

After his comprehension of the space-time principle was greatly improved, he could control the power of the space-time principle more easily. The space-time around him had less influence on him, so his speed naturally increased. Just now, Jian Wushuang had just made a simple move, but his speed was definitely several times faster than before he broke through!

“I haven’t used my movement skill just now.” Jian Wushuang clenched his hands, and then his body moved again.

This time, he directly used the ‘silver light’ movement skill.

Swish! Swish! Swish! Swish! Swish!

One after another, silver phantoms shuttled back and forth in the dark void. Their figures were so ghostly that no one could catch a trace of them. Let alone an ordinary person, even a genuine rank three True Saint would not be able to catch a trace of Jian Wushuang here, he was afraid that he would not be able to catch a glimpse of Jian Wushuang’s actual figure.

Whoosh!

Jian Wushuang’s figure once again returned to the distance.

“When I use the silver light movement technique, my speed should be about six times faster than before,” Jian Wushuang thought to himself.

“Only six times?” Jian Wushuang frowned.

With a simple sweep, he found that his speed had not only increased by six times, but should have increased by seven times or even eight times. But now, when he used the movement technique, his speed had only increased by six times, this meant...

“My movement technique is not perfect enough. There is still a lot of room for improvement,” Jian Wushuang said.

Movement technique was different from an absolute art. An absolute art was created by combining the rule and sword principle.

But movement technique relied purely on the rule.

When Jian Wushuang created the silver light movement technique, his comprehension of the space-time principle was only at the limit of the second stage.

But now, his comprehension of the space-time principles had reached the third stage and reached a new level. At this time, he was looking at the silver light movement technique, which had many shortcomings and could be improved.

“No rush, let’s test the power of the sword skill first.”

Jian Wushuang smiled faintly and then took out his Blood Mountain Sword.

In the dark void, Jian Wushuang began to display his sword skill.

First, he simply used the power of space-time principles to display his swordsmanship, feeling the changes in the speed and power of his swordsmanship.

Then, he displayed the two ultimate skills, Evil Xiang and Star Dream one by one.

The result was obvious. As he improved the space-time principles, his swordsmanship improved greatly in both speed and power.

For example, in terms of power, his Evil Xiang should be three times more powerful than before.

Do not underestimate the power of three times, because it was just an absolute art. If Jian Wushuang used all his divine power and all kinds of techniques at the same time, his overall strength would be greatly improved.

As for Star Dream, it did not focus on power, so it would not be much stronger. However, its speed was greatly increased, becoming faster and faster, at the same time, the tearing and cutting ability of the sword edge had also increased by a large margin.

In general, Jian Wushuang’s swordsmanship had also improved to a new level.

In addition, after he had reached the third stage of comprehending the space-time principles and had mastered the space-time annihilation, he could barely perform the second move of the space-time divine skill, the one-finger void annihilation skill.

“I wonder how powerful the one-finger void annihilation skill will be?” Jian Wushuang was full of expectation.

He took a deep breath, looked at the void in front of him, and then slowly raised his right hand.

Just like the tall figure in the golden stone, he slowly raised his right hand and pointed at the void in front of him.

This finger seemed ordinary, but the moment it was pointed out, the power of space-time principles burst out.

Rumble~ A majestic space-time storm appeared out of thin air.

Chapter 3040: Another Challenge at Di Mountain

— —

Hualala~

The space-time storm destroyed everything.

Although the space-time storm was not as big as the giant figure in the golden stone picture, it still existed in a vast void, and all the materials in that void were destroyed, all the matter in that void had been annihilated.

“So powerful!”

Looking at the completely annihilated void in front of him, Jian Wushuang’s eyes sparkled.

He could feel that the power of his finger-space-annihilating skill should be more than a hundred times stronger than the space-time annihilation he controlled!

In other words, he could control the space-time annihilation only after he had comprehended the space-time rules to the third stage, but after the special application of the space-time divine skill, it was a hundred times more powerful. It was too terrifying!

“I can feel that even if I use my divine power to perform this move, I can easily crush a rank three true saint and completely annihilate him. Even his immortal body is useless.” Jian Wushuang was shocked.

The annihilation of time and space was to completely annihilate an area of time and space.

All matter was completely annihilated, including divine power. For an expert of the True Saint Realm, even if his divine body was destroyed, his divine power could still be regenerated when scattered around. However, this finger annihilation of space could completely annihilate the divine power of this area of time and space, naturally, it could destroy this True Saint directly.

"This is only the strength of my divine power. If I use many secret skills, the power of my divine power will soar again. Even a rank four True Saint would not be able to resist this move," Jian Wushuang muttered to himself.

The void annihilation technique was too powerful.

Jian Wushuang was also shocked.

He had only grasped the first step of this technique, and his comprehension of the space-time principles had just reached the third stage. In the future, his comprehension of the space-time principles could continue to improve, he would become more and more familiar with this technique, and when he used it, it would be more powerful.

"Space-time divine skill, one-finger heaven-designated skill, and now one-finger void annihilation technique...I wonder what kind of supreme existence the space-time temple master who created this divine skill is." Jian Wushuang secretly praised.

With the space-annihilating finger skill, he had another trump card in his hand, or even a killer move.

"Phew!"

Taking a deep breath, Jian Wushuang gradually calmed down.

"Now, my comprehension of the space-time principles has improved so much that it has greatly improved my speed and swordsmanship. As for the space-annihilating finger skill, although it is not useful when I go to Di Mountain, even without the space-annihilating finger skill, I should have an 80% chance of passing through Di Mountain now!"

"If I slightly improve the silver light movement skill that I created so that it can perfectly combine with my speed, then I have a 90% chance of passing through it." Jian Wushuang was quite excited.

Immediately, in this dark space, Jian Wushuang began to comprehend and improve his movement skill again.

In the dark space, streaks of silver light constantly flickered. This was Jian Wushuang constantly trying to perform his movement skill. While performing it, he constantly discovered his shortcomings and then improved them.

With his talent and comprehension of the space-time principles, it was very easy for him to improve his movement technique.

It only took him ten days.

After ten days, Jian Wushuang's 'silver light' movement technique had been improved.

Of course, this improvement was only from Jian Wushuang's current point of view. But if his comprehension of the space-time principles improved to a new level in the future, his view of his movement technique would be different.

"My movement skills have improved. I'm 90% sure that I can pass the Di Mountain. I can go now."

Jian Wushuang clenched his hands and immediately shouted, "Elder Gu!"

...

A moment later, Jian Wushuang arrived in front of elder Gu.

"Elder Gu, I want to challenge the Di Mountain again," Jian Wushuang said directly.

"Challenge again? It's only been a year?" Elder Gu frowned slightly.

He had warned Jian Wushuang that anyone who tried to challenge Di Mountain would only have three chances. Jian Wushuang had already used it once, so there were only two chances left.

For this reason, Elder Gu had specifically reminded Jian Wushuang to be as cautious as possible in the next two chances and to try again when he was sure.

But now, it had only been a year since he first tried to challenge Di Mountain.

He came here after a year?

Could it be that he had made great progress in this one year?

"Little guy, how confident are you?" Elder Gu tried to ask.

"70-80%," Jian Wushuang said.

He was being humble. Although he was 90% confident, he only said 70-80% .

"70-80% , I can try." A smile appeared on Elder Gu's face again. Then he waved his hand, and the tunnel leading to Di Mountain appeared in front of Jian Wushuang again.

"Go in," Elder Gu said.

Jian Wushuang also stepped into the tunnel.

...

Di Mountain was tall and majestic, which was extremely shocking.

Although Jian Wushuang had reached the top of the mountain last time, he still had to start from the foot of the mountain this time.

Chi! Chi! Chi!

The three gatekeepers at the foot of the mountain could not hinder Jian Wushuang at all. In just a moment, Jian Wushuang had reached the top of Di Mountain again.

On the top of the mountain, the burly elder and the two women, one black and one white, were still standing there, looking at Jian Wushuang calmly.

"You're here again," the black-clothed woman said, "it's only been a year since you came here last time. Although master gave you three chances, you didn't take this test seriously. How much progress can you make in just a year? How can you overcome the obstacles of the three people?"

"We'll know if we can." Jian Wushuang smiled faintly.

“Oh, you’re very confident? Then the three of us will crush your confidence now.” The stocky elder said in a deep voice, “Do it!”

Whoosh!

The stocky elder and the black-clothed woman moved at the same time.

As for the white-robed woman, a warm white light emerged from her body and shone toward Jian Wushuang.

Jian Wushuang’s consciousness was also affected by the warm white light, but he quickly came back to his senses.

As soon as he regained consciousness, he saw the black-robed woman appear behind him. At the same time, a cold blood-red saber light cut toward Jian Wushuang’s head from behind.

The angle was tricky, and the speed was also very fast.

If Jian Wushuang had not broken through the comprehension of the space-time principle before, he would have been a little embarrassed in the face of this saber light.

But now...
