

Swordsman 3171

Chapter 3171: True Martial Mystic Realm

— —

For example, the gold-cracking secret manual that Jian Wushuang had exchanged for in the treasure pavilion, the gold-cracking master, dissected the space-time principles step by step, making it easier for Jian Wushuang to comprehend the space-time principles.

But this Time-space Beast God...divided the space-time principles into two parts, four parts, eight parts, and even 16 parts, it continued to divide.

As it continued to divide, although the spacetime principles had increased in number, it had become very simple. It was very easy to comprehend.

“You can see it now, right?” Palace Master Bai Xing looked over. “The Spacetime beast God was born with complete control over the spacetime law, and the complete spacetime principles has fused into the many scales on its body.”

“The Time-space Beast God has a total of 13,300 scales, and each scale contains certain space-time principles. As long as someone can fully understand the space-time principles of the 13,300 scales, he will naturally have complete control over the space-time principles.”

“Is that so?” Jian Wushuang understood, but at the same time, he was ecstatic!

“13,300 scales, which is equivalent to dividing the space-time principles into 13,300 parts, and each part is subtly divided so that people can easily comprehend it. This, this...” Jian Wushuang’s eyes were slightly red!

This Space-time beast God was the dream of countless cultivators who comprehended the space-time principles!

“It’s much easier for me to comprehend the space-time principles when I divide them. It’s easier than dissecting the space-time principles in the golden-crack secret manual. Besides, I’ve only got two volumes of the golden-crack secret manual, so I can’t dissect the space-time principles completely. However, this Time-space Beast God can dissect the space-time principles in the most subtle way...”

“Haha, if I could comprehend it in front of the Time-space Beast God, why would I need the gold-splitting secret manual?” Jian Wushuang growled in his heart.

The gold-splitting secret manual had been of great help to him over the years.

The reason why his comprehension of the space-time principles had improved so quickly was largely due to the gold-splitting secret manual.

However, after seeing the Time-space Beast God in front of him, Jian Wushuang knew that the gold-splitting secret manual was far inferior to the Time-space Beast God in front of him!

The Time-space Beast God was more helpful to him, allowing him to comprehend the space-time principles more quickly. Most importantly, the Time-space Beast God was complete, and the dissection of the space-time principles in the gold-splitting secret book was only a part of it.

“The magic of this Time-space Beast God is not as simple as what you see now. It’s just that the Time-space Beast God contains some special abilities. You’re not qualified to observe it yet. At the very least, you have to fully grasp the space-time principles and become a Principles Master to be qualified. However, for you now, it’s already very good enough to comprehend the space-time principles with the help of the 13,300 scales of the Time-space Beast God,” Temple Master Bai Xing said.

“Time-space Beast God, do you have any other secrets?” Jian Wushuang looked at the Time-space Beast God in front of him, but his heart was burning with passion.

“You can meditate on the Time-space Beast God later. Now, I’ll take you to the other fortuitous places.” Temple Master Bai Xing led the way again.

Under the guidance of Temple Master Bai Xing, Jian Wushuang soon came to the edge of a cliff. There was a black stone bridge floating in front of the cliff.

It was unknown what material the black stone bridge was made of, but the aura it emitted was very unique.

“This is the Heavenly Bridge,” Temple Master Bai Xing introduced, “The heavenly bridge is used by the cultivators of the Temporal Temple to test and test. There are 32 levels of the Heavenly Bridge, and each level is more difficult than the last. If someone can pass all 32 levels, it means that he has completely mastered the principles of spacetime.”

“Heavenly Sword Marquis, you are very talented in space-time principles. Since you just came to the Temporal Temple, with the help of the cultivation resources of the Temporal Temple, you will have a rapid breakthrough in your strength. If you can’t judge the progress in the space-time principles, you can try the Heavenly Bridge.”

“Okay.” Jian Wushuang nodded.

Then, Temple Master Bai Xing led Jian Wushuang to a thatched cottage in the center of the space-time island.

Strangely enough, there were a lot of buildings in the center of the space-time island. These buildings were extremely tall, lofty, or exquisite. Only here was a simple thatched cottage, which looked very different from the others.

“This thatched cottage is where the True Martial Mystic Realm is located,” Temple Master Bai Xing said.

“The True Martial Mystic Realm?” Jian Wushuang was stunned. “Is there a Mystic Realm inside this cottage?”

“Yes.” Temple Master Bai Xing nodded. “Follow me.”

Temple Master Bai Xing led Jian Wushuang into the cottage.

As soon as he stepped into the cottage, Jian Wushuang immediately found that the scene in front of him had changed.

Jian Wushuang had arrived at a huge ice field.

This ice field should be located in the center of the sea. The entire ice field was so huge that one could not see the end of it with the naked eye.

Above the ice field, there were also icebergs standing tall.

These icebergs were all different in size, but they were densely packed and very numerous.

As soon as Jian Wushuang arrived at the ice field, he immediately looked around, but he did not find anything different about this secret realm.

“Heavenly Sword Marquis, come down with me.” Temple Master Bai Xing floated toward the ice field, and Jian Wushuang followed him.

They landed on the ice field, and there was an ice mountain in front of them.

“Look.” Temple Master Bai Xing raised his hand and pointed at the ice mountain in front of him.

Jian Wushuang looked at it and his pupils immediately shrank.

He had noticed that there were three words written on the ice mountain in front of him with a sharp weapon.

“Illusory spear King!”

The three words were obviously a name.

The moment Jian Wushuang saw the name, an ancient image immediately appeared in front of him.

The image happened in the ice field of the True Martial Mystic Realm. A two-meter-tall middle-aged man with a shaggy beard was holding a long spear in one hand, in the silence of the world, the middle-aged man moved his wrist, and a unique artistic conception rose up.

The long spear in his hand immediately whistled out.

Buzz! Buzz! Buzz!

It was just a long spear, but in Jian Wushuang’s eyes, dozens of long spears appeared at the same time. They all stabbed out in the same way, like strange phantoms.

Time and space condensed into a line.

....

Chapter 3172: Left Behind by the Principles Master

—

“What a terrifying spear attack!”

“It’s too fast and too strange. It was only a spear attack, but it felt as if dozens of spears were attacking at the same time. Even I couldn’t tell whether the spear shadows were real or illusory. Furthermore, the strangling power contained within this spear technique was even more terrifying. I’ve already grasped the strangling power of space-time, but I wasn’t able to unleash such power.”

“This spear is too powerful. If it’s aimed at me, I won’t be able to withstand it.”

Jian Wushuang exclaimed.

“Temple Master Bai Xing, this Phantom Spear King should be a Principles Master, right?” Jian Wushuang asked.

In his opinion, someone who could perform such a terrifying spear move must be an expert above the Principles Master level.

“You’re right.” Temple Master Bai Xing nodded. “Phantom Spear King was a Principles Master of our Temporal Temple 30 million years ago. He used Phantom Spear as his name, and the most important part of his spear technique was the word phantom, which was mysterious and unpredictable. At that time, Phantom Spear King was also famous among Principles Masters.”

“Unfortunately, he went to the universe battlefield and never came back.”

“Did he die?” Jian Wushuang felt it was a pity.

Phantom Spear King was definitely a powerful Principles Master, but the universe battlefield was dangerous and unpredictable. Principles Masters also had a high chance of dying.

“Look at the iceberg next to you,” Temple Master Bai Xing said.

Jian Wushuang immediately looked at the iceberg next to him. On the iceberg, he saw another name.

This name was the Master of Gold Emperor.

When he saw the name ‘Master of Gold Emperor’, the same scene immediately appeared in Jian Wushuang’s sight.

Different from the spear technique of Phantom Spear King, the name ‘Master of Gold Emperor’ contained a secret skill.

It was an extremely unique secret skill in space-time.

“This secret skill is so strange. Has it reached an extreme in the application of the rules of space-time?” Jian Wushuang frowned.

The secret skill was strange, but it was undeniable that it was also very impressive.

The name ‘Master of Gold Emperor’ was obviously aimed at the Principles Master.

“Look at the other icebergs,” Temple Master Bai Xing said.

Jian Wushuang looked around and indeed, he could see one name after another on the icebergs on the ice field.

“Temple Master Bai Xing, what’s this?” Jian Wushuang was surprised.

Temple Master Bai Xing smiled faintly. “The True Martial Mystic Realm is specially prepared by the Temporal Temple for the experts under our command. In the future, all the cultivators who have reached the level of Principles Masters will come to the True Martial Mystic Realm and leave some things here!

“As for what the Principles Masters leave behind, it depends on their preferences. Some will leave behind their own unique skills, some will leave behind their own secret skills, some will leave behind their own legacy, and some will leave behind their strongest trump cards!”

“These things are all left on these icebergs.”

Hearing Temple Master Bai Xing’s words, Jian Wushuang’s expression immediately changed, and his eyes were filled with fanaticism as he looked around.

The ice field was very large. There were many icebergs standing on the ice field. There were at least thousands of icebergs of different sizes.

“There’s a Principles Master on every iceberg here?” Jian Wushuang was shocked.

“Yes, each iceberg corresponds to a rule master,” Temple Master Bai Xing said.

“But, isn’t this too many? There are thousands of icebergs here. Could it be left behind by thousands of Principles Masters?” Jian Wushuang widened his eyes.

Thousands of Principles Masters?

It must be noted that there were only more than 1,000 cultivators in the Temporal Temple. The proportion of Principles Masters was probably not too much, and the number of Immortal Saints must be much higher.

In the Divine Beginning Realm, Principles Masters had always been a superior existence. To any force, Principles Masters were an extremely important battle force.

For example, in the First Heaven, a Principles Master could create a powerful sect. For example, the three pavilions in the First Heaven were so powerful because they had a Principles Master.

Even a Principles Master was like this. Several thousand?

This number was too terrifying.

“Several thousand Principles Masters, is that a lot?” Palace Master Bai Xing smiled indifferently. “Little guy, you should know that the Temporal Temple is the oldest force in the Divine Beginning Realm. It has been hundreds of millions of years since Temple Master was founded?”

“Billions of years?”

“Even I don’t know how long the Temporal Temple has existed.

“In such a long time, experts have been born in the Temporal Temple. Now, thousands of Principles Masters have been born. What’s the big deal?”

Jian Wushuang was stunned, but then he nodded.

Indeed, the Temporal Temple was too old.

In the long river of time, new experts were born and old experts died. It was normal for there to be thousands of Principles Masters.

“It’s a pity that 99% of the Principles Masters who left things in the True Martial Mystic Realm have died. Not many are still alive,” Temple Master Bai Xing said.

Jian Wushuang could not help but sigh.

Principles Masters were indeed a superior existence in the Divine Beginning World. Under normal circumstances, it was very difficult for them to die.

However, the real experts would never stop because they had reached the Principles Master level. They would still take risks and go adventuring. For example, they would go to the universe battlefield and many dangerous places in the Divine Beginning World, some would even fight and fight with others.

Of course, some would die while adventuring or fighting.

After such a long period of time, only a few people who stood at the peak of the Principles Master, or supreme existences like the Temporal Temple Master, the Heaven-cleaving Alliance Master, and the founder of the Heavenly Ancestor Daoist Sect could survive, most of the others would die during this process.

Only a few people could reach the peak of the path of the experts, and there were corpses everywhere below them!

The fallen Principles Masters of the Temporal Temple had obviously become such corpses.

“This True Martial Mystic Realm was left behind by thousands of Principles Masters. What they left behind is useful even for Principles Masters of the same level. You’re only a True Saint now, so this place should be very useful to you,” Temple Master Bai Xing said.

Jian Wushuang was already excited.

Useful?

More than useful!

It was left behind by thousands of Principles Masters, and most of the things left behind by them were not hidden!

Chapter 3173: Space-Time Tower

Jian Wushuang could study the spear techniques of illusionary spear king and the secret skill of Emperor Jin carefully.

What they left behind could only be considered ordinary in the True Martial Mystic Realm.

“There are so many principles left behind by the principles master... This is a great help to me in the rules of space-time. It’s definitely more helpful to me than the Time-space Beast God!” Jian Wushuang clenched his hands, his heart full of surprise.

“You can come here to cultivate in the True Martial Mystic Realm later. I’ll take you to the next place first.” After saying that, Temple Master Bai Xing led Jian Wushuang to the Mystic Realm.

After leaving the Mystic Realm, Temple Master Bai Xing led Jian Wushuang to an exquisite black tower.

The tower was not very tall. It was pitch-black and exuded an extremely ancient aura.

The entire tower had three floors, and each floor was about the same size.

“This is the tower of time and space. It’s a special treasure refined by Temple Master Bai Xing,” Temple Master Bai Xing said.

“What’s so special about this tower?” Jian Wushuang asked.

“You’ll know once you enter.” Temple Master Bai Xing led Jian Wushuang to the first floor of the tower of time and space.

After entering the tower, Jian Wushuang saw nothing but a pitch-black void. There was nothing in front of him.

However, walking in the pitch-black void, Jian Wushuang slowly frowned.

“The space-time here seems to be a little different,” Jian Wushuang muttered.

He carefully sensed the power of the space-time around him, and his frown deepened.

He did sense that there was a difference between the space-time around him and the outside world, but he was not sure what the difference was.

“You only know that the space-time is different, but you don’t know what the difference is?” Temple Master Bai Xing glanced at Jian Wushuang, then smiled and said, “Let me remind you, the flow of time!”

“The flow of time?” Jian Wushuang was stunned at first, but then he was shocked. “The flow of time? The flow of time in this void is different from the outside world?”

Jian Wushuang immediately realized this.

He also sensed that the flow of time in this void seemed to be much slower than that in the outside world!

“How is this possible?” Jian Wushuang was shocked.

“Nothing is impossible,” Temple Master Bai Xing said indifferently. “The space-time principles is the combination of time and space. Your comprehension of the space-time principles is still too low, and you have just started to touch the flow of time. Of course, you will find it incredible. But in fact, when a person’s strength has reached a certain level or his comprehension of the space-time principles has

reached a certain level, his control of the power of time and space is no longer limited to what you know.

“For example, many people who have reached an extremely high level in the application of the rules of time and space can change the flow of time. For example, I can do it. However, even if I try my best, I can only slow down the flow of time in a small void by three times. This is my limit!”

“But this tower of time and space was personally refined by the Temple Master!”

“What is the flow of time here?” Jian Wushuang could not help asking.

“There are three levels in the time tower. You are now on the first level. The flow of time here is ten times slower than in the outside world. In other words, you have been cultivating here for ten years, but only one year has passed in the outside world,” Temple Master Bai Xing said.

“Ten times?” Jian Wushuang’s eyes widened. Then he immediately asked, “The flow of time on the first level is ten times slower. What about the second level and the third level?”

“On the second level, the flow of time is 100 times slower!”

“The most powerful one is the third level. The flow of time is 1,000 times slower!” Temple Master Bai Xing’s voice was solemn.

Hearing this, Jian Wushuang was a little confused.

It was one thing for the flow of time to be 10 times slower, but it could actually be 100 times slower? 1,000 times slower?

What an earth-shaking method was this?

Had the Time Temple Master, who had refined the space-time tower, reached such an incredible level in his comprehension and application of the power of time and space?

“Actually, it’s not too difficult for some rule masters who have comprehended the rules of time and space and are powerful machine guns to master the flow of time. What’s really difficult is time reversal,” Temple Master Bai Xing said.

“Time reversal?” Jian Wushuang was stunned again.

“Yes, if you can master time reversal, you can reverse time and space and change things that have happened in the past. For example, some dead people can be resurrected by reversing time and space,” Temple Master Bai Xing said.

“Reverse time and space and resurrect!” Jian Wushuang was shocked.

He was no stranger to reversing time and space.

In his previous life, his Master Xuan Yi reversed time and space and resurrected his soul. Then, he sent his soul into the reincarnation passage and sent it to the Divine Beginning Realm.

Since his master could do this, his strength was naturally earth-shaking.

“Temple Master, you can also reverse time and space?” Jian Wushuang asked.

“Of course, but although you have this ability, you rarely use it. For example, since the beginning of the Divine Beginning World, the Temporal Temple has produced many talented experts and lost many of them. However, over the years, Temple Master has only used reverse time and space once and resurrected one person. That person was a personal disciple of Temple Master a long time ago. He was also his favorite disciple!”

“Unfortunately, the disciple of the Temple Master was very talented, but he was unlucky. After he was resurrected by the Temple Master, he went to the universe battlefield and died again!”

“After his second death, the Temple Master did not resurrect him,” Temple Master Bai Xing said.

Jian Wushuang was secretly amazed.

Reverse time and space was an incredible method.

However, it seemed that it was not easy to use this method, or there were some restrictions, so Temple Master Bai Xing did not dare to use it recklessly.

“Heavenly Sword Marquis, the space-time tower is not very helpful for you to comprehend the space-time principles. However, if you need a lot of time to cultivate or to study secret skills in the future, you can consider coming to the space-time tower. If you want to cultivate in the space-time tower, except for the time flow, everything else is the same. This will save you a lot of time.”

“Of course, if your comprehension of the space-time rules reaches an extremely high level in the future, you can also come to the space-time tower to control the flow of time,” Temple Master Bai Xing said.

“Understood.” Jian Wushuang nodded and then asked, “Temple Master Bai Xing, can I enter all three levels of the space-time tower?”

Chapter 3174: Divine Power

“No.” Temple Master Bai Xing shook his head. “You can enter and leave the first level of the space-time tower at will, but you need some conditions to enter the second or third level.”

“What conditions?” Jian Wushuang asked.

“Divine power,” Temple Master Bai Xing said.

“What’s that?” Jian Wushuang asked, puzzled.

“Divine power is a very special divine power. You’re only at the True Saint Realm, so you’re not qualified to touch it. However, to most Principles Masters in the Divine Beginning Realm, divine power is like a holy elixir, used to trade with each other,” Temple Master Bai Xing explained.

“Only Principles Masters have the right to brew divine power!”

“Little guy, you should know that after Principles Masters master a complete set of rules, they will have a special power of will. Because of this power of will, Principles Masters are much stronger than the

Immortal Saints. For example, many Immortal Saints in the Divine Beginning Realm are so powerful that they are already invincible. Although they are invincible among the Immortal Saints, they are still far inferior to Principles Masters!”

“The reason is because of the existence of that will. Under normal circumstances, if a Principles Master comprehended two principles at the same time, he would be able to obtain two parts of the will, and his strength would naturally be stronger!”

“And the divine power is the special divine power that these Principles Masters, who have grasped the will power, condensed by relying on their own will power. This kind of divine power is nothing to many masters of Laws, but to the Immortal Saints, it is extremely powerful!”

“In the Divine Beginning Realm, the principles gate treats the divine power as an ordinary currency, but the Immortal Saints treat it as a treasure!”

“The Immortal Saints who are weaker can not guide the power even if they have the divine power. But for the Immortal Saints who have reached the peak of invincible strength, they can guide the power of will contained in the divine power to bring their strength to a higher level.”

“Divine power is so useful?” Jian Wushuang was shocked.

He did not expect that Principles Masters could use their will power to condense this special divine power.

And the divine power could help the Immortal Saints, who had reached the peak, increase their strength in a short period of time?

Jian Wushuang immediately understood how important the divine power was to the peak-level Immortal Saints.

“Of course, the divine power is important to the peak-level Immortal Saints, but experts from various forces in the Divine Beginning Realm have long reached a consensus that they would not freely give their condensed divine power to their experts or disciples,” Temple Master Bai Xing said.

“Why?” Jian Wushuang asked, puzzled.

“Firstly, they don’t want their subordinates or disciples to rely too much on the power of divine power, and secondly, there is a great risk in guiding the will power of divine power!” Temple Master Bai Xing said seriously.

“The Immortal Saint is not a Principles Master after all, so he can freely control the will power. Although a drop of divine power contains very little will power, even an Invincible Immortal Saint will suffer the backlash of the will power if he tries to guide it by force. He might die first, not to mention increasing his strength to kill the enemy!”

“Because of these two reasons, there are very few top-notch Immortal Saints in the Divine Beginning Realm who possess divine power. Even if they do, they only have one or two drops at most. It’s impossible for them to have too much.”

“Is that so?” Jian Wushuang understood.

Divine power was a double-edged sword.

It could increase one's strength at a critical moment, but it could also cause a backlash. Therefore, this kind of power was not very common in the Divine Beginning Realm.

"This divine power is very rare for the Immortal Saint, but it's only a common thing for us Principles Masters. That's why we use it as currency," Temple Master Bai Xing said.

"Use divine power as currency?" Jian Wushuang frowned. "Temple Master Bai Xing, if you say that every rule master in the absolute beginning divine realm can condense divine power through the power of their own will, doesn't that mean that divine power is endless?"

"Endless? How can it be so exaggerated?"

Palace Master Bai Xing smiled. "Little guy, you have to understand first. Although Principles Masters can condense divine power, the process isn't easy. Under normal circumstances, a Principles Master can only condense a drop of divine power after dozens or even hundreds of years. Moreover, the process of condensing divine power will affect the will power they control. That's why few Principles Masters dare to use that will power to condense divine power."

"Under normal circumstances, if a Principles Master wants to condense divine power, after concentrating on condensing a few drops of divine power, he would need to spend hundreds or even thousands of years to fully recover the power of the will before he can continue to condense the next batch. In this way, even if a Principles Master tries his best, he can at most condense 20 to 30 drops of divine power in 10,000 years."

"I see." Jian Wushuang suddenly understood.

He had thought that it was easy for Principles Masters to condense divine power, but now it seemed that it was not so.

Naturally, the divine power would not be too overflowed.

"Temple Master Bai Xing, in the Divine Beginning Realm, how many holy elixirs does a drop of divine power cost in exchange for holy elixirs?" Jian Wushuang asked curiously.

"Exchange? No way." Temple Master Bai Xing shook his head. "In the Divine Beginning Realm, the superior Principles Masters use divine power to trade with each other, so they don't use holy elixirs at all. Holy elixirs are useless to Principles Masters. Therefore, no matter how many holy elixirs they give, they can't exchange for a drop of divine power from a Principles Master. Of course, some sects have a way to exchange for divine power in order to provide convenience for their experts."

"In my Temporal Temple, if you want to exchange for divine power, you can exchange 10 billion holy elixirs for one drop."

"10 billion?" Jian Wushuang's eyes widened. "Why is it so expensive?"

Expensive, indeed expensive!

After all, even if he exchanged the universe crystals from Xue Bei for holy elixirs, they were only worth 7.5 billion holy elixirs.

Xue Bei was also a Principles Master, and he was very powerful. He even went to the universe battlefield. However, Xue Bei obviously valued the universe crystals more than divine power..

Chapter 3175: Secret Skill Pavilion

“It shouldn’t be. If the value of the universe crystal is less than a drop of divine power, Elder Xue Bei would never take the universe crystal so seriously.” Jian Wushuang frowned and thought to himself.

Temple Master Bai Xing continued, “The first floor of the Temporal Tower of the spacetime temple is open to all the cultivators under our command, but the second floor requires divine power. A drop of divine power can allow you to stay on the second floor for a year. Of course, the year mentioned here is a year in the outside world, but in the second floor of the Temporal Tower, it’s 100 years.

“As for the third floor, it’s even more ridiculous. Only 10 drops of divine power can stay on the second floor for a year.”

Hearing this, Jian Wushuang secretly clicked his tongue.

Only one drop of divine power could stay on the second floor for a year?

As for the third floor, it required 10 drops of divine power to stay on the third floor for a year?

After all, one drop of divine power required 10 billion holy elixirs to exchange. 10 drops... that was 100 billion holy elixirs!

“I can’t enter the second and third floors of the Temporal Tower,” Jian Wushuang said on the spot.

“Haha, you’re right. For a true saint like you, the first floor is enough. There’s no need to go to the second and third floors. Those two floors are for Principles Masters.” Temple Master Bai Xing smiled.

“These Principles Masters are powerful, and they study secret skills or absolute arts of a high level. Naturally, they need to spend more time. Sometimes, it takes tens of thousands of years or hundreds of thousands of years to study a secret skill absolute art. Such a long time is not too short even for Principles Masters. Therefore, many people are willing to spend some divine power in this Temporal Tower.”

Jian Wushuang nodded secretly.

Tens of thousands of years, hundreds of thousands of years...some Principles Masters who were very old would not think much of it, but for some younger Principles Masters, it was a long time. In the outside world, such a long time...could do a lot of things.

“Let’s go, I’ll take you to a place in my Temporal Temple.”

Temple Master Bai Xing brought Jian Wushuang away from the Temporal Tower. Soon, they came to a purple pavilion.

“This is the secret technique pavilion of my Temporal Temple, which contains the secret techniques created by many experts of my Temporal Temple, and most of these secret techniques are targeted at the aspect of space and time.” As he spoke to Jian Wushuang.

Jian Wushuang kept looking around.

There were many special tokens floating around him. These tokens contained secret skills. There were probably thousands of them.

“So many secret skills are related to space-time?” Jian Wushuang could not help asking.

“Of course, not only that. These secret skills were created by the Principles Master and are very powerful. However, the secret skills here are not complete. They are just beginner-level secret skills,” Temple Master Bai Xing said, “According to the rules of our Temporal Temple, the secret skills in the secret pavilion are open to all the cultivators under your command. However, after you choose a secret skill, you can only get the beginner-level secret skill in the beginning.”

“After you get the beginner-level secret skill, you will have a time limit. Only when you reach the beginner-level of this secret skill within this time limit can you prove that you have the ability and qualification to cultivate this secret skill. Then, you can get the complete secret skill.”

“Is that so?” Jian Wushuang understood.

Although the secret skills of the secret pavilion were open to all the cultivators in the Temporal Temple, there was a certain level of authority, which could prevent many people from blindly pursuing and cultivating more secret skills.

One could not bite off more than one could chew. Secret skills were only useful if they were truly suitable for oneself. Moreover, one did not need to master too many secret skills, so there was no need to spend too much energy on them.

“Let’s go to the third floor,” Temple Master Bai Xing said.

There were three floors in the secret skill pavilion.

The first floor had the most secret skills, while the second floor had fewer secret skills. There were less than 100 secret skills, but they were obviously more powerful.

And on the third floor...

“Huh?”

Jian Wushuang frowned.

When he reached the third floor of the secret skill pavilion, he saw seven black stone tablets instead of a floating special token.

Each of the seven stone tablets was extremely tall, and the word ‘Space-time’ was carved in the center of each stone tablet.

“Temple Master Bai Xing, what are these seven stone tablets?” Jian Wushuang asked in puzzlement.

“This is the secret skill pavilion. The third floor is the record of the most powerful secret skill of our Temporal Temple. Don’t you know what the most powerful secret skill is?” Temple Master Bai Xing looked at Jian Wushuang with interest.

“Is it the spacetime divine skill?” Jian Wushuang’s expression changed.

“Yes.” Temple Master Bai Xing nodded.

“But why are there seven stone tablets here?” Jian Wushuang asked again.

“It’s very simple. There are seven moves of the spacetime divine skill,” Temple Master Bai Xing said with a smile.

Jian Wushuang suddenly understood.

“Each of these seven stone tablets contains a move of the spacetime divine skill. They have been standing here for a long time. However, very few people have been able to comprehend the spacetime divine skill from these seven stone tablets,” Temple Master Bai Xing said.

Jian Wushuang was not surprised.

After all, it was the most powerful divine skill created by the great Temple Master of space-time. How could anyone casually comprehend it?

“Little guy, you comprehended the space-time divine skill through the space-time stone, but as far as I know, the space-time divine skill contained in the space-time stone is not complete, right?” Temple Master Bai Xing asked.

“Yes.” Jian Wushuang nodded. “There are two divine skills contained in the spacetime gold stone. The first one is the heaven-designated skill, and the second one is the void-annihilation skill. As for the next three to seven moves, there are none.”

“Now you can directly comprehend the third move from the third stone tablet,” Temple Master Bai Xing said.

Jian Wushuang immediately walked forward.

He walked to the third stone tablet and sat down with his legs crossed. His consciousness was completely immersed in the stone tablet. To be exact, it was the word ‘Space-time’ in the center of the stone tablet.

After a short while...the screen turned, and Jian Wushuang suddenly came to a vast dark void.

In the dark void, the hazy figure was still standing there. The world was originally calm.

Suddenly...the hazy figure took a step forward.

It was a simple step, but it instantly crossed space-time and appeared in the void hundreds of millions of miles away.

The scene quickly disappeared.

Under the stone tablet, Jian Wushuang’s expression was extremely shocked.

“This is the third move of the spacetime divine skill, teleportation?”

“No, it’s spacetime teleportation!”

“But why does it feel exactly the same as teleportation?”

Jian Wushuang frowned.

In the picture, the shadowy figure’s method indeed looked exactly the same as teleportation!

But teleportation, as long as one’s comprehension of the space-time principles reached the fourth stage, he could master it?

Chapter 3176: Space-Time Teleportation

“Does it feel strange?” Temple Master Bai Xing looked at Jian Wushuang.

“Yes, it does.” Jian Wushuang nodded. “The third move of the space-time divine skill gives me the same feeling as teleportation.”

“The same? That’s not true.” Temple Master Bai Xing smiled mysteriously. “Little guy, if you simply look at it and observe it, space-time teleportation and teleportation are exactly the same, but the gap between them is huge.”

“A big gap? Why?” Jian Wushuang asked with puzzlement.

“First of all, you should know that cultivators who have comprehended the space-time principles can master teleportation after reaching the fourth stage of the comprehension of the space-time principles. Teleportation is a special method used for escaping and traveling, but there are many limitations to this method. For example...space-time blockade?” Temple Master Bai Xing explained.

“In the Divine Beginning Realm, any cultivator who has some attainments in space-time can use space-time seal. Those who have not comprehended the rules of space-time, even if they can’t seal space-time by themselves, there are many treasures or magic arrays in the Divine Beginning Realm that can seal space-time in the shortest time.”

Jian Wushuang could understand this point.

Space-time seal was not a very powerful technique.

With his current comprehension of space-time principles, he could also seal space-time.

In addition, he had the ruler seal, which could seal a huge space-time.

“Once space-time is completely sealed, you can’t teleport in this sealed space-time,” Temple Master Bai Xing said with a smile. “Therefore, in the Divine Beginning World, if you want to kill experts who have a high understanding of space-time principles and know how to teleport, you must first seal the space-time where they are before they have time to react, so that they can’t use their teleportation skills, and then kill them!”

Jian Wushuang understood.

He also knew that a cultivator who could teleport had mastered a lot of life-saving skills, but it was not invincible.

Otherwise, in the history of the Temporal Temple, there had been so many experts in the field of space and time, as well as so many Principles Masters who had perfectly mastered the principles of space and time. All of them had mastered teleportation techniques, but 99% of them had died.

“Teleportation can be restricted by the space-time seal, but space-time teleportation is different.” Palace Master Bai Xing smiled. “Space-time teleportation is a unique move that Temple Master created after studying it for a long time. This unique move is used to protect one’s life. At first glance, it does look the same as teleportation, but teleportation can not break through the space-time seal. However, space-time teleportation can.”

“In other words, as long as I master this move, even if someone blocks space-time in advance, I can escape through space-time teleportation?” Jian Wushuang looked at Temple Master Bai Xing.

“Yes.” Temple Master Bai Xing nodded.

Jian Wushuang immediately became excited.

Teleportation that could ignore the time and space seal?

This time and space move was a perfect life-saving method!

“Heavenly Sword Marquis, don’t be too happy. Nothing in this world is absolute. Although the time and space move created by Temple Master can ignore the time and space seal and can not be restricted by ordinary cultivators and some treasure arrays, this move can also be restricted,” Temple Master Bai Xing said.

“Huh?” Jian Wushuang immediately looked up at Temple Master Bai Xing.

“In the Divine Beginning Realm, some Principles Masters who have reached the peak of the usage of time and space can use the space-binding skill. Once the space is confined, they can’t use space-time teleportation,” Temple Master Bai Xing said.

“Space-binding?” Jian Wushuang was stunned.

“That is a special use of the power of space and time. But don’t worry too much. Space imprisonment is not a move that can be mastered by just anyone. Even in the vast Divine Beginning Realm, there are only 12 Principles Masters who know how to use space imprisonment. Eight of them are from the Temporal Temple,” Temple Master Bai Xing said with a smile.

Hearing this, Jian Wushuang was a little surprised.

There were only 12 experts in the Divine Beginning Realm who knew how to use spatial confinement, and the Temporal Temple had eight of them?

This alone was enough to show the strength of the Temporal Temple.

“In other words, if I master the move of space-time teleportation, there will only be four people in the entire Divine Beginning Realm who can kill me?” Jian Wushuang stared at Temple Master Bai Xing with a strange light in his eyes.

“Normally speaking, that’s true,” Temple Master Bai Xing said.

Jian Wushuang could not help clenching his hands.

Right now, he had been targeted by the will of heaven, the three Saint Realms, and even the Sorcerer God Sect. Not to mention the will of heaven, the three Saint Realms and the Sorcerer God Sect were full of experts and Principles Masters.

He did not have the ability to face Principles Masters head-on.

However, if he mastered the move of time-space teleportation, he would not be able to resist Principles Masters who were extremely strong or even at the top level, let alone ordinary Principles Masters, but he would not have any problem keeping himself alive.

Even if the three Saint Realm Masters came personally..

Jian Wushuang knew that although the three Saint Realm Masters were superior, they were only Principles Masters. The reason why they were so much stronger than the other Principles Masters was mainly because of the power of the will of heaven.

With the move of time-space teleportation, even the three masters of the Saint Realm would not be able to do anything to him?

“I must master this move no matter what!”

Jian Wushuang was full of expectation, but at the same time, he also understood. “The move of time-space teleportation is used on the basis of teleportation. If I want to master this move, I must first master teleportation. However, I’m still a long way from the fourth stage of the space-time Principles. It seems that I have to go through a round of cultivation before I can master this divine skill.”

“Little guy, you can take a look at the secret skill of the secret skill pavilion. If you find something suitable, you can take it and cultivate it. But remember not to cultivate too many secret skills. You can’t bite off more than you can chew. You must remember this principle.”

While exhorting, Temple Master Bai Xing had already left the secret skill pavilion.

“Temple Master Bai Xing, are all the fortuitous places in the Temporal Temple already here?” Jian Wushuang asked.

“The Temporal Beast God, the Heavenly Bridge, the True Martial Mystic Realm, the Temporal Temple, and the secret skill pavilion are five places you can go for the time being. As for the other fortuitous places, of course there are,” Temple Master Bai Xing said..

Chapter 3177: Looking Forward to It

“Little guy, look over there.” Temple Master Bai Xing pointed in a direction.

Jian Wushuang followed the direction and saw a towering mountain. On top of the mountain, there were dozens of palaces.

“There are 16 palaces on the mountain. Each palace contains some special things. Unfortunately, the Immortal Saint can’t touch them. Even ordinary Principles Masters are not qualified to touch them. Only Principles Masters who have comprehended two principles and obtained two wills are qualified to touch them,” Temple Master Bai Xing said.

“There really are more.” Jian Wushuang was secretly amazed.

He felt that the five places Temple Master Bai Xing had taken him to were already very impressive. However, it was clear that the opportunities in the spacetime island were not limited to this, he was just not qualified to come into contact with things of a higher level.

“That is the place where many of the cultivators of the Temporal Temple live. Those with a magic array barrier outside have an owner. Those without a magic array barrier naturally have no owner. You can find a place without an owner to live in. This is my token. If you encounter any problems in the future, you can send a message to me.” Temple Master Bai Xing said as he handed a token to Jian Wushuang.

“Yes.” Jian Wushuang took the token and looked at the buildings in front of him. He nodded slightly.

“Oh, there’s one more thing I want to remind you. You’d better work hard during this period and improve your strength as much as possible. Then you might be able to catch up with the event in 300 years,” Temple Master Bai Xing said.

“The event in 300 years?” Jian Wushuang was puzzled.

Temple Master Bai Xing did not say much. He waved at Jian Wushuang and left alone.

Jian Wushuang shrugged and did not ask any more questions.

“Temporal Temple...”

Jian Wushuang looked around at the huge spacetime island, but his eyes were shining.

After finding his place, Jian Wushuang went to the True Martial Mystic Realm again.

Among the five places Temple Master Bai Xing had taken him to, the one that shocked him the most was the Temporal Tower!

It could change the flow of time, especially on the third floor. It was incredible that it could slow time by a thousand times.

However, the True Martial Mystic Realm was the one that surprised Jian Wushuang the most.

The True Martial Mystic Realm was left behind by thousands of Principles Masters of the temporal temple. Even though these Principles Masters had left it casually, it was still enough to excite Jian Wushuang.

In the True Martial Mystic Realm, icebergs stood on the vast ice field.

Jian Wushuang walked alone, step by step, past the icebergs.

There were names on the icebergs, among which were the things left behind by the Principles Masters.

Every time Jian Wushuang walked past an iceberg, he would carefully examine the things left behind by the Principles Master on the icebergs.

Some of the Principles Masters had left behind their own absolute arts, some had left behind their own secret skills, and some had left behind some special uses of time and space. Jian Wushuang examined them one by one, if he found anything useful that could trigger him, he would stop.

In the blink of an eye, he had been in the ice field for three days.

During these three days, he had only seen about a hundred icebergs, and he had only seen the things left behind by more than a hundred Principles Masters.

At this moment, Jian Wushuang walked to a new iceberg.

“Eh? Master Jian Yuan?”

Jian Wushuang looked at the name left on the iceberg.

“Master Jian Yuan calls himself Sword. This master Jian Yuan should be an expert who specializes in sword principle,” Jian Wushuang murmured and then sank his consciousness into the iceberg.

In an instant, a picture appeared in front of him.

In the picture, a black-clothed Master Jian Yuan silently floated out with a soft black sword in his hand.

The world was still very calm. Master Jian Yuan had completely disappeared. When he reappeared, he was already in the distant void. At the same time, the soft black sword in his hand flew out.

This sword move was silent.

No sound could be heard as the sword edge swept through the void. There was not even the slightest bit of power being transmitted out.

“So fast!”

Jian Wushuang’s eyes were wide open.

This sword move was too fast. It was much faster than the Star Dream he had created, or even the moment of life and death.

Of course, Master Jian Yuan was a Principles Master, so it was normal for his sword skill to be faster than Jian Wushuang’s.

In the scene, after the sword move, Master Jian Yuan immediately performed a second sword move...

“Silent sword art?”

“Assassin?”

While Jian Wushuang was carefully observing the scene, he also received the information from the picture.

This master of sword origin was actually an assassin when he was alive. His sword art was supreme in speed, eerie, dark, and silent, and fatal in one strike!

Just like its name, this silent sword art did not show any power or movement from the beginning to the end. Its speed was extremely terrifying. It was indeed an assassination sword art performed by assassins.

“Although the silent swordsmanship focuses on assassination, it feels very similar to the ‘instant of life and death’ that I created,” Jian Wushuang muttered.

He looked carefully at the scene in front of him and was completely mesmerized.

Half a month later.

“Hmm, fog rain swordsmanship?”

“What a unique swordsmanship. How can it be so unique in the use of space-time principles?”

Jian Wushuang was delighted.

Although most of the Principles Masters in the true self secret realm had left some things here, there were a few Principles Masters who left their proudest things here.

For example, the silent swordsmanship of the sword origin master.

The misty rain swordsmanship left by the Principles Master named Tu was a terrifying swordsmanship. It was also the strongest and most complete skill of the two Principles Masters.

Jian Wushuang happened to be good at sword principle. These two swordsmanship were of great help to him.

“The True Martial Mystic Realm, left behind by so many Principles Masters, is of great help to me!”

“The Time-space Beast God, the Heavenly Bridge, the secret skill pavilion, and even the Temporal Tower are all of great help to me!”

“In this life, I have been cultivating alone since I was born. I haven’t joined a sect in the true sense of the word and used a lot of resources to cultivate. Now...there are many opportunities on the space-time island, and my talent in the space-time principles is also very high. Let me see how far I can reach in 300 years with the help of these resources on the space-time Island!”

Jian Wushuang clenched his fists, his heart filled with anticipation.

Chapter 3178: 290 Years

Jian Wushuang stayed on the time-space island and cultivated with the help of the many resources on the island.

Time passed quickly, and in a flash, 290 years had passed.

Beside the lake.

“Temple Master Bai Xing.” A black-clothed elder stood beside Temple Master Bai Xing with a hint of respect between his brows. He said, “The 100,000-year deadline has passed. In another 10 years, the Blood Wave Realm will reopen.”

“Blood Wave Realm?” Palace Master Bai Xing pondered for a moment. “The opportunities in the Blood Wave Realm are equivalent to a shortcut to the Principles Master. Every time the Blood Wave Realm opens, there will be a large number of top-notch Invincible Saints heading over. Our Temporal Temple will have five spots to enter the Blood Wave Realm as usual. Have you chosen these five spots?”

“I’ve already chosen them.” The black-robed elder nodded, then handed a list to Temple Master Bai Xing.

After taking it, Temple Master Bai Xing began to browse through it carefully.

“Di Hao, he should be the strongest among the many Invincible Saints that our Temporal Temple had first. It’s only natural that he would enter the Blood Wave Realm.”

“Qian Hongzi is an Invincible Saint with extraordinary potential. If he obtains the opportunities in the Blood Wave Realm, his chances of becoming a Principles Master would definitely exceed 90% . It wouldn’t be a problem.”

...

Palace Master Bai Xing browsed through the names on the list one by one.

Palace Master Bai Xing agreed with the first four names on the list until the last name.

“Duan Lang?” Palace Master Bai Xing frowned slightly. “Although Duan Lang has some talent, his strength is still lacking, right?”

“Well...” The black-clothed old man said in a low voice, “Duan Lang’s strength is now infinitely close to that of an Invincible Saint. He is indeed weaker than the other four, but no one else seems to be more suitable than him to enter the Blood Wave Realm.”

There were indeed not many cultivators in the Temporal Temple, but there were actually some Invincible Saints in the Temporal Temple.

However, most of the Invincible Immortal Saints in the Temporal Temple had exhausted their potential. Even if they got the opportunity in the blood wave realm, the chance of becoming a Principles Master was very low, these Invincible Immortal Saints were naturally not suitable to enter the Blood Wave Realm.

Therefore, the black-clothed elder carefully selected Duan Lang and felt that he was more suitable.

“Among the Immortal Saints of the Temporal Temple, no one is more suitable to enter the Blood Wave Realm than Duan Lang, except for Di Hao and the other three? Haha, I don’t think so,” Temple Master Bai Xing said with a mysterious smile, “didn’t Ba Cang bring a little guy back to our Temporal Temple 290 years ago?”

“You mean Heavenly Sword Marquis?” The black-clothed elder was stunned.

The black-clothed elder was also a high-level official of the Temporal Temple. He was in charge of many things in the Temporal Temple, so he naturally knew about Jian Wushuang.

“Heavenly Sword Marquis is indeed very talented, but 290 years ago, when he first came to the Temporal Temple, he was only a rank four True Saint. His battle strength was only around rank seven True Saint. Now, only 290 years have passed. Even if he has made great progress with the help of the many opportunities on the temporal island, there is still a limit to how fast he can improve. In such a short time, his strength should not be comparable to Duan Lang, right?” The black-clothed elder said.

“I can’t say for sure.” Palace Master Bai Xing smiled. “I’ve been paying attention to Heavenly Sword Marquis ever since he entered my Temporal Temple. I’ve seen his progress in the past 290 years. When he first came to my temporal island 290 years ago, he challenged the heavenly bridge once, but he could only pass the 24th level.

“But after cultivating on our spacetime island for more than 200 years, which is three years ago, he already passed the 29th level!”

“What?” The black-robed elder was shocked. “From the 24th level to the 29th level? In less than 300 years, he actually passed the fifth level? How is this possible?”

“It’s a bit unbelievable, but it’s the truth,” Palace Master Bai Xing said, “he has passed the 29th level, which means his comprehension of the space-time principles has reached the fourth stage and he has mastered teleportation. This level has surpassed the level of a rank seven True Saint and is comparable to those Immortal Saints who are infinitely close to the invincible level!”

“As for his own realm, he has made great progress in the past 290 years. As far as I know, his current realm has broken through to the level of a rank six True Saint.”

“Rank six True Saint Realm?” The black-clothed elder’s pupils constricted.

290 years ago, when Jian Wushuang first came to the time-space Island, he was only a rank four Peak True Saint, but now he was already a rank six True Saint.

In other words, he had broken through two realms in less than 300 years.

“How can he improve so fast?” The black-clothed elder could not understand.

“It’s nothing strange. He is a super genius. As far as I know, he spent 50 years on the first floor of the Temporal Tower. The time flow there is 10 times slower. In other words, he stayed in the Temporal Tower for 500 years. With the help of some treasures, his understanding of the principles and Dao has long exceeded his realm. It’s normal for him to break through to rank six True Saint,” Temple Master Bai Xing said.

“No wonder.” The black-clothed elder also understood.

In just 290 years, Jian Wushuang had made such great progress in the space-time principles and made such a great breakthrough in his realm. Of course, he would find it incredible.

However, if Jian Wushuang had stayed in the Temporal Tower for 500 years, he would have broken through two realms in 500 years.

“290 years ago, before Heavenly Sword Marquis came to my Temporal Tower, he was able to kill a rank seven True Saint with the strength of a rank four True Saint. Now, he has reached the level of a rank six True Saint and with the help of the divine power fruit, he has reached the limit of a rank six True Saint. His comprehension of the principles has allowed him to pass the 29th level of the Heavenly Bridge. How strong do you think he is now?” Temple Master Bai Xing asked with a smile.

“I’m afraid he won’t be weaker than Duan Lang,” the black-robed elder said in a low voice.

When he was a rank four True Saint, he could kill a rank seven True Saint directly.

Now that he had reached the limit of rank six and his comprehension of the principles had improved so much, his strength had definitely surpassed that of a rank seven True Saint. He might not be comparable to a True Invincible Saint, but he should be very close.

“That’s it.” Palace Master Bai Xing continued. “In terms of talent, Heavenly Sword Marquis is much stronger than Duan Lang. Now that Heavenly Sword Marquis’s strength can keep up, this last spot is naturally reserved for Heavenly Sword Marquis.”

“Palace Master Bai Xing is right.” The black-robed elder nodded. Clearly, he agreed.

Opportunities were always for those who were capable. The spot to enter the Blood Wave Realm was the same.

...

Chapter 3179: Blood Wave Realm

“Of course, what I just said is only my guess for the time being. Whether the true strength of the Heavenly Sword Marquis is equal to or stronger than Duan Lang is still uncertain. For the sake of the opportunity, countless top Immortal Saints in the Blood Wave Realm fought fiercely and killed crazily. If the Heavenly Sword Marquis’s strength doesn’t meet the requirements, he naturally doesn’t have the qualifications to enter.”

“So...before the final quota is determined, I have to test this little guy’s real strength.”

Temple Master Bai Xing smiled, his eyes flashing with a strange luster.

...

In the True Martial Mystic Realm on the time-space island.

Jian Wushuang sat cross-legged under an iceberg, his consciousness completely immersed in the image of the iceberg.

In the image, a white-clothed figure seemed to be transparent, flickering randomly in the void.

In the blink of an eye, his figure constantly appeared in every corner of the void.

It was obvious that the owner of the iceberg, the Principles Master, had left behind a movement technique.

This movement technique was very strange, and its use of the power of time and space was unfathomable. Every flicker of his was completely integrated with the surrounding space and time.

“The power of time and space is self-integrated with the space and time?”

“So that’s how it is?”

Jian Wushuang had been carefully watching the flashing white-clothed figure in the picture, but many insights had emerged in his heart. On the space-time rule, the difficult problem that had been troubling him for a long time was gradually solved.

In a flash, more than half a day had passed.

Suddenly, Jian Wushuang opened his eyes, and a fierce light suddenly flashed in them.

“The fourth stage of the space-time principles has been completed!”

Jian Wushuang clenched his hands, and there was an uncontrollable ecstasy in his heart.

The fourth stage, yes, his comprehension of the space-time principles had only reached the fourth stage, which was also the last stage of the space-time principles. If he took another step, he would completely comprehend the space-time principles, he would become the master of the space-time principles.

When Temple Master Bai Xing knew that Jian Wushuang had passed the 29th level of the Heavenly Bridge, he had said that his comprehension of the space-time principles had reached the fourth stage immediately. But now, it seemed that he had not!

Temple Master Bai Xing did not know that Jian Wushuang had passed the 29th level because his comprehension of the space-time principles was very close to the fourth stage. The most important thing was his swordsmanship!

In the past 290 years, with the help of the many resources on the time-space island, especially the scenes in the True Martial Mystic Realm, his strength had improved by leaps and bounds, and his comprehension of the space-time principles had greatly increased. At the same time, his swordsmanship had also improved! It was his swordsmanship!

His swordsmanship had made great strides and even made a breakthrough.

Because of this, his swordsmanship combined with his comprehension of the space-time principles was able to pass the 29th level of the Heavenly Bridge.

“Now that I’ve entered the fourth stage of space-time principles, my strength has soared again. If I combine my swordsmanship, I might even pass the 30th level of the Heavenly Bridge.” Jian Wushuang was pleasantly surprised.

In addition, as soon as he reached the fourth stage, he naturally mastered teleportation. He could also comprehend the third move of the space-time divine skill, space-time teleportation, in the secret skill pavilion.

Buzz!

A figure suddenly appeared beside Jian Wushuang.

Jian Wushuang turned his head. When he saw the person, he immediately bowed respectfully and said, “Temple Master Bai Xing.”

“Heavenly Sword Marquis, judging from your pleasant surprise just now, you seem to have gained something big again?” Temple Master Bai Xing looked at Jian Wushuang.

“A little.” Jian Wushuang nodded with a smile.

“It’s indeed a good thing to have gained something, but do you still remember what I told you 290 years ago?” Temple Master Bai Xing said, “I told you to cultivate well and improve your strength as soon as possible. Maybe you can catch up with the event 300 years later.”

Jian Wushuang’s expression changed. Of course, he remembered what Temple Master Bai Xing said.

However, he did not know what Temple Master Bai Xing was referring to at that time.

“300 years, and now 290 years have passed. Temple Master Bai Xing, is that why you came here today?” Jian Wushuang was looking forward to it.

“Yes.” Temple Master Bai Xing smiled. “The thing I’m talking about is the Blood Wave Realm!”

“Blood Wave Realm?” Jian Wushuang frowned. Obviously, he had never heard of it.

“The Blood Wave Realm is an extremely unique secret realm of heaven and earth in the Divine Beginning Realm. It was created by an extremely ancient super expert. There are opportunities in the Blood Wave Realm. These opportunities are only useful to the Immortal Saint, and they are enough to make any Immortal Saint go crazy,” Temple Master Bai Xing said.

“Oh?” Jian Wushuang raised his eyebrows.

Enough to drive any Immortal Saint crazy?

What kind of status and strength did Temple Master Bai Xing have?

Since he dared to say so, he must have his reasons. The opportunities in the Blood Wave Realm must be extraordinary.

“However, the Blood Wave Realm only opens once every 100,000 years. Every time it opens, only the Immortal Saint is qualified to enter. As for the Principles Master, he is completely excluded from the Blood Wave Realm. Every time the Blood Wave Realm opens, the sects of the Divine Beginning World

will send their top Immortal Saints into it. There are also many independent Immortal Saints who can enter the Blood Wave Realm through some means.”

“As for the Temporal Temple, it’s one of the three Freedom Alliances in the Divine Beginning Realm. Although there aren’t many cultivators, we still have five slots to enter the Blood Wave Realm. Ten years later, the Blood Wave Realm will open again. Now, the Temporal Temple is selecting five people to enter the Blood Wave Realm. We’ve already decided on four, but there’s still one more slot.” Temple Master Bai Xing said.

“Temple Master Bai Xing, do you mean I can fight for the last spot?” Jian Wushuang asked.

“Yes.” Temple Master Bai Xing nodded. “As expected, the last spot will be decided between you and Duan Lang, another genius expert of the spacetime temple. Duan Lang is not only extremely talented, but his battle strength is also infinitely close to that of an Invincible Saint. But you...you have terrifying talent and great potential, which is not a problem. However, no one knows how strong your battle strength is, so I came here personally.”

“Heavenly Sword Marquis, here is a scroll. Take a look.”

Temple Master Bai Xing said and threw a scroll to Jian Wushuang.

Jian Wushuang took the scroll, opened it and read it carefully.

When he finished reading the contents of the scroll, his expression became extremely strange.

“Experiential mission?”

“Kill 13 axes?”

...

Chapter 3180: 13 Axes

“Little guy, you can take a closer look at this task. You have 10 years. In 10 years, before the opening of the Blood Wave Realm, if you can complete the task alone, you can compete with Duan Lang for the last slot. But if you can’t complete the task within 10 years, the last slot will be given to Duan Lang. Do you understand?” Temple Master Bai Xing stared at Jian Wushuang.

“Yes.” Jian Wushuang nodded heavily.

“Remember, do it alone. I’ll wait for your news.” After saying that, Temple Master Bai Xing turned around and left.

Jian Wushuang looked at the mission scroll in front of him and fell into deep thought.

“According to Temple Master Bai Xing, the Blood Wave Realm only opens once every 100,000 years. The opportunity contained in it is enough to make any Immortal Saint go crazy. In other words, this opportunity must be very useful to me!

“If I miss it, I have to wait another 100,000 years before I get a second chance.” Jian Wushuang frowned slightly.

100,000 years was too long.

He had only appeared in this life for about 1,000 years. Naturally, he could not wait another 100,000 years for nothing.

“I must seize this opportunity. I must complete this experiential mission.” Jian Wushuang clenched his hands. “However, Temple Master Bai Xing has given me a ten-year time limit, so there’s no need to rush. I’ve just reached the fourth stage of comprehending the space-time principles and have just mastered teleportation. Before I complete the mission, I’ll go to the secret skill pavilion and comprehend the space-time teleportation first.”

Jian Wushuang made up his mind and immediately went to the secret skill pavilion.

On the third floor of the secret skill pavilion, Jian Wushuang sat cross-legged in front of the seven tall stone tablets.

Looking at the stone tablets in front of him, Jian Wushuang’s eyes were full of anticipation.

“Let’s begin!”

Soon, Jian Wushuang closed his eyes and began to comprehend.

Time passed. In the blink of an eye, one year and four months had passed.

For many people, one year was just a snap of the fingers. However, for Jian Wushuang, he had already comprehended the third move of the space-time divine skill, space-time teleportation!

This was also related to his talent in space-time.

After all, he could comprehend the space-time divine skill from the space-time gold stone. According to Temple Master Bai Xing, it was more difficult to comprehend it from the space-time gold stone than from the seven stone tablets in the secret skill pavilion.

“I’ve mastered spacetime teleportation. With this move, I can use it and escape quickly no matter what crisis I encounter. Even if the other party uses spacetime seal, it won’t be of much use to me.” Jian Wushuang clenched his hands, his eyes sparkled.

“I’m a perfect chaotic creature. My life-saving and survival abilities are already amazing. Now, with this move, there are only a handful of people in the Divine Beginning Realm who can kill me!”

“Even if it’s the three Saint Realms and the Sorcerer God Sect, it won’t be easy for them to kill me again!”

Jian Wushuang growled with a hint of heroism in his heart.

After a while, he calmed down.

“I have comprehended space-time teleportation. Now, it’s time to complete the experiential learning task.”

Immediately, Jian Wushuang set off.

...

Ninth wolf mountain range in the first sky.

Although it was called a mountain range, the territory of the ninth wolf mountain range was vast, even larger than a country.

Such a large mountain range had been occupied by the thirteen axes for a long time.

The thirteen axes were the collective name for the thirteen experts in the ninth wolf mountain range.

These thirteen experts were all bandits, but because of their tyrannical strength, their deterrence was no longer comparable to that of ordinary bandits.

In the surrounding areas of the nine-wolf mountain range, and even in the entire First Heaven, the 13 axes were notorious!

“According to the mission given to me by Temple Master Bai Xing, the weakest of the 13 experts of the 13 axes are at the peak of rank seven True Saint. The eldest one, Blood Eagle, and the second one, Violent Bear, are both above rank seven and are infinitely close to the Invincible Saint Realm.” Jian Wushuang appeared alone in the nine-wolf mountain range, looking at the vast mountain range in front of him, he frowned slightly.

The mission Temple Master Bai Xing had given him was to prove his strength and that he was qualified to enter the Blood Wave Realm.

Therefore, this mission was not easy.

Thirteen axes, thirteen experts, and the weakest one was a rank seven Peak True Saint. In addition, there were two Immortal Saints who were infinitely close to the invincible level. This lineup could be said to be terrifying.

Even the overlords in the First Heaven, such as the twelve divine sects, did not have an Invincible Saint in most of the twelve divine sects. Without an Invincible Saint, with the combined strength of the top forces under their command, they would not be able to compete with the thirteen axes.

Even the nine courtyards, with the Invincible Saint in charge, did not dare to provoke the thirteen axes because the combined strength of the thirteen axes was indeed too strong.

Jian Wushuang’s task was to kill all the thirteen axes!

“The thirteen axes have occupied the nine-wolf mountain range for hundreds of thousands of years. Over the years, they have plundered and committed many evil deeds. Many countries and even some small sects in the nine-wolf mountain range have been oppressed by the thirteen axes. They deserve to die, but it’s not easy to kill all the thirteen axes.” Jian Wushuang frowned.

This task was indeed challenging for him, but it was not impossible for him to complete it.

“I have been cultivating in the Temporal Temple for 290 years, and my strength has changed a lot. These 13 axes are so powerful. They are really a good grindstone for me.” Jian Wushuang’s eyes were shining, and then his body flashed, he directly rushed into the depths of the nine-wolf mountain range.

The 13 experts in the nine-wolf mountain range did not live together, but they were scattered and each occupied a mountain peak.

Normally, the 13 axes would only gather together occasionally, but they usually lived on their own mountain peaks.

At this moment, Jian Wushuang had arrived at a mountain peak of the 13 axes through the star map of the nine-wolf mountain range.

“According to the star map, this mountaintop has always been occupied by the Nether Cloud King, who is ranked eighth among the 13 axes. His strength is only average among the 13 axes. I’ll be the first to attack him,” Jian Wushuang said with a smile, then, he moved his consciousness.

Buzz!

A terrifying power instantly erupted from his body.

This power swept out in all directions, and in the blink of an eye, layers of enormous barriers appeared in the surrounding void.

This barrier was like an iron bucket, surrounding all directions, not leaving a single crack.

Sovereign seal, sovereign of spacetime!
