

Swordsman 3531

Chapter 3531: Shame

This was the entrance to tornado stream. Jian Wushuang had come here before and left a space mark here. After using space-time teleportation, he had returned to this place.

After getting rid of God Fei Master, Jian Wushuang began to think about the battle just now.

“After 600 years of cultivation, although my strength has greatly improved and I’m no weaker than an ordinary expert of the six realms of the void, it’s still very difficult for me to fight against an expert like God Fei Master who can exert the battle strength of the peak of the six realms of the void. At most, I can barely fight with her,” Jian Wushuang thought.

In the battle just now, he had not fought with God Fei Master for a long time, and he had forced her back twice. It did not seem like he was at a disadvantage, but Jian Wushuang knew very well, there was still a big gap between his strength and God Fei Master’s.

First, in terms of absolute arts, other than his strongest sword technique, the seven sword techniques of the Peerless Sword Manual, which he had created, were only at the threshold of level six absolute arts, or even barely, compared to God Fei Master’s Absolute Arts, there was a big gap.

Secondly, in terms of true treasures, God Fei Master’s offensive true treasures and true treasure armors were of a very high level, and he even had the assistance of a flying universe true treasure. Jian Wushuang’s true treasure armors were fine, but the level of Blood Mountain Sword...was a little too low.

Just these two points alone, God Fei Master could crush him without any scruples. Jian Wushuang had a bigger problem.

The reason why he could unleash power that was no less than that of an expert of the six void realms was because of his life divine power and the heaven-cleaving skill, it was equivalent to giving him two more levels of willpower.

However, the life divine power was fine, as it only stimulated the potential of a perfect creature. It would not be a burden to him, but the heaven-cleaving skill consumed a lot of his divine power.

As a perfect chaotic creature, his divine power was vast, hundreds of times more than that of a regular Principles Master. However, the heaven-cleaving skill consumed a lot of divine power. Even if Jian Wushuang used it at all costs...in a fierce battle, he could only use the heaven-cleaving skill about 20 times at most.

In other words, he could only use the power of an expert in the sixth realm in 10 or 20 attacks. The rest of his attacks could not meet that requirement.

Naturally, he could not keep fighting with such combat strength. Therefore, when he fought with God Fei Master just now, he chose to escape immediately after he had a simple understanding of her strength and used his strongest combat strength.

The reason was not that he did not want to continue fighting with God Fei Master, but because he could not keep his strongest combat strength and had to escape.

“Although this battle has not been long, I have already gained a lot,” Jian Wushuang said with a smile.

This battle allowed him to clearly understand his current strength and some of his shortcomings. He also understood how to improve his strength.

First of all, he had to improve his absolute arts.

He had to improve the seven sword moves of the Wushuang sword manual as soon as possible. This was the most urgent matter.

Secondly, he had to find a more powerful attack supreme treasure. “Search our n?wno?el.?rg” As for the Blood Mountain Sword, unless he found another expert to refine it, it would be difficult for it to meet his requirements.

As for finding a way to fuse all three rules that he had mastered, it would take a longer time. Jian Wushuang could only take it slowly.

Jian Wushuang was deep in thought when suddenly..

“Heavenly Sword Marquis.”

Heavy Master’s voice came from the void beside him.

Jian Wushuang came back to his senses and immediately looked over.

When he got rid of God Fei and returned to the entrance of tornado stream, he had already sent a message to Heavy Master. Heavy Master and Purple Sound Master, who had received the message, immediately rushed over.

“Heavenly Sword Marquis, did you lose God Fei Master?” Heavy Master asked first.

“Yes.” Jian Wushuang nodded. “God Fei Master is very fast. Unfortunately, I have a space-time domain, which greatly limits his speed. He can’t catch up with me at all, so he had to leave.”

Jian Wushuang lied and did not tell Heavy Master and Purple Sound Master that he had actually fought with God Fei Master. Moreover, he had left in front of God Fei Master, so God Fei Master could only watch.

“It’s good that he has left. God Fei Master has been wandering in the depths of Devil Smoke Valley and killing crazily. Many experts have died at his hands. However, because he has killed too many people, experts from various forces in the star realms have become very wary of him. They have ordered to flee as soon as they see him. Our Star Palace has also given such an order.”

“I didn’t expect that God Fei Master would be so cunning. After knowing that the experts from various forces were on guard against him, he sneaked into the outer area and joined hands with Master Bitter Hand. He told Master Bitter Hand to leak his tracks in front of us to lure us to kill him. Meanwhile, he hid in the hurricane at the edge of tornado stream, waiting for us to fall into his trap!”

“Purple Sound Master and I fell for his trick and almost died at his hands. Fortunately, you arrived, Heavenly Sword Marquis,” Heavy Master said as he looked at Jian Wushuang. Suddenly...he bent down and gave Jian Wushuang a big bow.

"Heavy Master, what are you doing?" Jian Wushuang's expression changed.

"Heavenly Sword Marquis, don't reject me. I have to give you this big bow. Not only to thank you for your kindness, but also to apologize to you for the contempt I showed you. I was stupid and blind. Now that I think about it, I'm really ashamed," Heavy Master said sincerely.

"Heavy Master, you don't have to do this," Jian Wushuang said with a bitter smile.

"Heavenly Sword Marquis, just let him be," Purple Sound Master said. "If you don't accept his gift, he won't be able to survive for the rest of his life. You know, when I saw you outside the Star Palace stronghold, Heavy Master told me that you were courting death by wandering around Devil Smoke Valley alone."

"Um..." Jian Wushuang was stunned.

"I'm ashamed, I'm ashamed," the Heavy Master apologized repeatedly.

Jian Wushuang shook his head and accepted the gift, but he did not care.

Axe One Master had given him information about many experts in the territory, including those in Star Palace. Of course, there was also an introduction about the Heavy Master.

In addition to his strength, the information also mentioned the character of the Heavy Master, which was reckless and one-track-minded. However, he was extremely loyal, which was evident from the time when Master Purple Sound Master was trapped, the Heavy Master had spared no effort to ask Marquis Duan Yu to help him.

Jian Wushuang was very willing to befriend such a person who valued loyalty.

...

Chapter 3532: Poluo God

Because he knew how Heavy Master was like, even though he knew that Heavy Master did not like him, when he found out that Heavy Master was being hunted by God Fei Master, he still rushed over to save him.

If it were anyone else, even if Jian Wushuang came to save them, he would not be so enthusiastic.

"Heavenly Sword Marquis, I'll remember what happened today. I'll definitely return the favor in the future," Heavy Master said.

"Heavy Master, you're too kind." Jian Wushuang smiled.

They were still exchanging pleasantries, but at this moment...

"Huh?"

Jian Wushuang and Heavy Master's expressions changed.

"What's wrong, you two?" Purple Sound Master looked over.

"It's a message from my Star Palace saying that a universe supreme treasure is being born in the nearby territory. They want us to go there immediately," Heavy Master said seriously.

"A supreme treasure is being born?" Purple Sound Master raised his eyebrows. "If it's just an ordinary elementary universe supreme treasure, it will take a very short time for it to be born. Even if we get the news now, it's probably too late for us to go there. The person who sent the message must know this. But since he sent the message, could it be that it's an advanced universe Supreme Treasure?"

The three Universe Battlefields were filled with a large number of opportunities and treasures. For example, the birth of a true treasure was a common occurrence.

As long as it was a universe true treasure, it would take a certain amount of time for it to be completely born. The higher the level of the true treasure, the longer it would take for it to be born.

"It's not an advanced universe true treasure, but its value is higher than an ordinary advanced universe true treasure," said Heavy Master.

"It's not an advanced universe true treasure, but its value is higher than that of an advanced universe true treasure? Could it be..." Purple Sound Master immediately thought of a possibility.

"It's Poluo God! It's a part of Poluo God!" Heavy Master said excitedly.

"Is it really Poluo God?" Purple Sound Master became excited.

"Guys, what is this Poluo God? Why are you so excited?" Jian Wushuang asked in surprise.

Although he had received the message, it only said that it was a component of Poluo God. He had just entered the Universe Battlefield, so he did not know what Poluo God was.

Heavy Master immediately explained, "Poluo God is a very famous treasure in Devil Smoke Valley. No one knows what level it is exactly, but conservative estimates say that it is at least at the peak level, and its power is extremely strong."

"Unfortunately, this true treasure hasn't been complete since it was discovered. Instead, it has been disassembled and formed into parts. It is said that there are a total of 36 Poluo God parts, and these Poluo God parts alone have power equivalent to a low-level universe true treasure. However, if three Poluo God parts are combined together, their power is far higher than a high-level universe true treasure, and it is even close to the level of a top-tier true treasure!

"If there are more than nine Poluo God parts, the combination of them would be extremely terrifying, even among top-tier universe supreme treasures."

"However, although there are 36 Poluo God parts, there seem to be less than 20 Poluo God parts in Devil Smoke Valley. Some parts have already been spread around. Some people have collected three Poluo God parts, but some don't. This makes the Poluo God parts even more valuable than ordinary advanced universe supreme treasures, even though they are only elementary universe supreme treasures."

"Is that so?" Jian Wushuang raised his eyebrows.

“It’s a once-in-a-lifetime opportunity for us to see the Poluo God component appear near us. Let’s go. We’ll rush there immediately. If we’re too late and let the Poluo God component fall into someone else’s hands, we’ll regret it,” the Heavy Master said.

Immediately, the three of them rushed toward the place where the Poluo God component had appeared.

The Black Thunder Pool was also a dangerous place in Devil Smoke Valley.

This place was filled with dark black divine lightning. These dark black divine lightning were extremely violent and powerful. Ordinary Principles Masters would dare to enter this black thunder pool, but this black thunder pool was only on the ground...there were some in the lower sky, but the void above was not touched. Thus, Principles Masters who passed by could choose to fly directly from the void above the Black Thunder Pool, not having to worry about encountering any dangers.

However, today, a holy rod part was born in the Black Thunder Pool.

When Jian Wushuang, Heavy Master, and Purple Sound Master arrived at the Black Thunder Pool, they immediately saw a black holy rod in the void in the middle of the pool.

The black holy rod was not big, and it was smaller than ordinary stick-type supreme treasures. However, the power it emitted was quite impressive.

“Is that the Poluo God part?” Jian Wushuang glanced at the black staff and narrowed his eyes slightly. Then, he noticed the human figure in the void near the black staff, and his expression became solemn.

The three people appeared beside one of the human figures.

“Saber Python Master,” Heavy Master greeted the man.

“Heavy Master, Purple Sound Master.” Saber Python Master nodded slightly, but then he looked at Jian Wushuang and asked, “Who is this?”

“He just arrived in our Star Palace. His name is...” Heavy Master did not finish his sentence.

“Blood Sword, just call me Blood Sword,” Jian Wushuang said first.

“Blood Sword Master, it is very nice to meet you.” Saber Python Master was very humble.

Jian Wushuang also nodded slightly.

Saber Python Master was a Principles Master in Star Palace, and his strength had reached the peak of the void four realms.

This time, Saber Python Master was the first to discover the appearance of the Poluo God component. He was also the one who had sent the message to them.

“Saber Python, how long until the Poluo God component is born?” Asked Heavy Master.

“Although the Poluo God component is only a low-level universe true treasure, it was decomposed by Poluo God. The time it takes for it to be born is not any shorter than a normal high-level universe true

treasure. It has been a while since I discovered the Poluo God component. It should be soon before the Poluo God component is born,” said Saber Python Master.

“However, it was born in the Black Thunder Pool. As long as it doesn’t go underground, it’s not dangerous. Therefore, people often pass by here. Although I was the first to see it, others still found it while I was waiting for it to be born. So far, many people have gathered here.”

Jian Wushuang and the other two also looked carefully at the people around them.

At this moment, there were eight experts waiting for the appearance of the Poluo God component, not counting them!

Chapter 3533: Was Born

The other eight experts were divided into four camps.

Jian Wushuang first looked at the burly man who had put a lot of pressure on them.

The burly man was wearing red armor and carrying a huge axe on his back. He stood there with his arms folded like a statue, but he did not bother to look at anyone around him.

“He is the Eight Axe Master, right?” Jian Wushuang narrowed his eyes slightly.

The Eight Axe Master was a solitary expert who had been wandering around Devil Smoke Valley all year round. He was extremely powerful and had reached the peak of the fifth void realm. Moreover, his axe skills were extremely violent and he had created a sixth-level absolute art.

He was only one person, but the pressure he brought was much stronger than the other camps.

Therefore, there was no other expert who had reached the peak of the fifth void realm.

Among the other three camps, one had two experts of the fifth void realm working together, one had one expert of the fifth void realm and one expert of the peak of the fourth void realm. The remaining three experts of the fourth void realm were all in the same camp, including Jian Wushuang and the others, there were a total of 12 experts present.

“Fortunately, the strongest among these people is only the expert of the peak of the fifth void realm, Eight Axe Master. There are no experts of the sixth void realm here. If the four of us work together, we can still have a chance,” the Heavy Master said.

“This is the outer area of Devil Smoke Valley after all. It’s already good enough to have experts of the peak of the fifth void realm. As for experts of the sixth void realm...almost all of them have gone to the depths of Devil Smoke Valley. Who would come to this outer area?” The Saber Python Master said.

“You don’t say. Not long ago, we ran into one. It was the infamous God Fei Master,” Heavy Master said.

“What? God Fei Master came to this outer region?” Saber Python Master was shocked.

“That is indeed the case. Heavy Master and I were pursued by him. Fortunately, Blood Sword Master helped us to get out of the situation. Moreover, the place where he was pursuing us was nearby. We don’t know if the appearance of this broken Poluo God part will attract him here,” Purple Sound Master said.

"It shouldn't be." Heavy Master shook his head. "Has the appearance of this Poluo God component caused too much of a commotion? The only ones who can discover it are the experts who just happened to pass by the Black Thunder Earth Pool. After these experts discover it, they will at most pass on the news to their own forces, but they will definitely not make this matter completely public. After all, they also want to snatch this Poluo God component. Naturally, they do not want too many people to know that this Poluo God component was born here."

"As for that God Fei Master...although it is true that he is extremely powerful, he is an expert who travels alone. Who would tell him the news of the appearance of the Poluo God parts here?"

"As long as he doesn't happen to pass by this Black Thunder Pool, then he won't be able to participate in this battle."

"Mm, that makes sense." Purple Sound Master and Saber Python Master both nodded.

At this moment, in the void beneath their feet, Poluo God trembled slightly. He was about to break free from the Black Thunder Pool.

"Poluo God's component is about to be born." Saber Python Master's eyes lit up.

"Everyone, be prepared to fight for it at any time," Heavy Master said.

"Once something happens to Poluo God's component, I'll immediately use my spacetime domain to suppress them," Jian Wushuang said.

"With your space-time domain, Blood Sword Master, their speed will be greatly restricted. This will increase our chances," Heavy Master said.

It was obvious that Jian Wushuang did not want to expose his name, so Heavy Master now called Jian Wushuang Blood Sword Master.

Buzz!

With a shrill cry, the Poluo God component, which was trapped in the Thunder Pool, finally broke free from the Thunder Pool.

The aura of a universe true treasure instantly spread out.

"It's born!"

The eyes of the twelve Great Beings who had been waiting around all lit up.

"Attack!"

"Snatch it!"

In an instant, each great being emitted a terrifying aura as they directly rushed toward the Poluo God part.

Eight Axe Master, who was standing alone in the void realm like a statue, had already taken out his huge axe. In an instant, he turned into an ancient fierce beast and dashed out.

The two experts of the five void realms who were standing together also rushed out at the same time.

As for Jian Wushuang and the other three, Saber Python Master, Heavy Master, and Purple Sound Master all rushed out at once. Jian Wushuang was the only one who did not rush out. Instead, he took out the golden sky-painting banner and used the spacetime domain.

Buzz! The enormous spacetime domain covered the area around the Poluo God component. In addition to Saber Python Master, Heavy Master, and Purple Sound Master, the other experts in the area were also affected, they were all slowed down by the enormous speed.

“A domain type true treasure?”

“No, this feeling should be a space-time true treasure.”

The Great Beings who were trapped in the space-time domain had a change of expression.

However, at this moment, without any warning, a large amount of golden light suddenly shone.

With Eight Axe Master as the core, the crimson-gold flowing light surged like a raging ocean. In the next moment, it filled the entire battlefield.

Within the crimson-gold flowing light, Eight Axe Master seemed to have become the ruler. Even Jian Wushuang’s space-time domain was greatly impacted by the crimson-gold flowing light.

“A domain type true treasure. This is a domain type universe true treasure!”

“It’s Eight Axe Master!”

“Damn it! We’re both trapped in the space-time domain at the same time, so we’re much slower than the golden light. But Eight Axe Master used the golden light to block the space-time domain, so his speed isn’t affected at all!”

“Quick! Block Eight Axe Master!”

The Great Beings who were eager to get the Poluo God parts started to get anxious.

Eight Axe Master was originally the strongest among them, and his speed was also the fastest.

Now that Eight Axe Master’s speed was not being suppressed, he could be the first to appear in front of the Poluo god parts and take them away. Once the Poluo God parts fell into Eight Axe Master’s hands...if they wanted to fight for them again, there would be no chance at all.

After all, if they wanted to fight for the treasure from Eight Axe Master, they would definitely have to think of a way to kill Eight Axe Master. But who here had the strength to do so?

Even if everyone joined hands, they probably would not be able to do anything to Eight Axe Master, right?

Thus, everyone understood that they absolutely could not let the Poluo God component fall into Eight Axe Master’s hands.

Immediately, the Principles Masters who were still some distance away from the Poluo God component all made their moves.

All of them made their moves almost at the same time. Even though they were some distance away, the Eight Axe Masters did not dare to ignore their attacks.

...

Chapter 3534: Battle

However, facing the attacks of the surrounding people, Eight Axe Master merely smiled coldly. The huge axe in his hand suddenly drew a beautiful scar in the air, forming a huge axe shadow, it swept away the attacks of these Principles Masters with ease.

"So powerful!"

"We have so many people working together, yet he managed to sweep them away with a single axe?"

"He's too powerful. We can't stop him at all."

The expressions of these Principles Masters were extremely unsightly. Their attacks were unable to stop Eight Axe Master, and they were not even able to obstruct Eight Axe Master. They could only watch as Eight Axe Master approached the Poluo God component.

Eight Axe Master appeared in front of the Poluo God component, and he waved his hand. He was about to put the Poluo God component into his interspatial ring. The surrounding Principles Masters all had helpless expressions on their faces.

But at this moment, a scarlet sword light suddenly lit up beside Eight Axe Master.

"What?" Eight Axe Master's expression suddenly changed.

This sword light had appeared too suddenly, and its angle was extremely tricky. As soon as it lit up, it stabbed toward his throat.

Most importantly, that sword light was too fast, so fast that he could not swing his huge axe in time to block it. Moreover, this sword light contained an astonishing piercing power, which made his heart palpitate, he did not dare to face it with his godly body.

There was nothing he could do. Eight Axe Master could not be bothered to retrieve the Poluo God component anymore. Instead, he retreated hastily.

With this rapid retreat, he once again widened the distance between him and the Poluo God component. At this moment, a figure appeared beside the Poluo God component like a ghost. Then, with a simple wave of his hand...the Poluo God component had already fallen into his hands.

This sudden change caused the surrounding Principles Masters to be somewhat stupefied.

They had originally thought that no one present could stop Eight Axe Master, and that the Poluo God component was bound to fall into Eight Axe Master's hands. "Search our n?wn0?el.?rg"Unexpectedly, at this crucial moment, someone had suddenly appeared beside Eight Axe Master, furthermore, he had forced Eight Axe Master to retreat, and he had obtained the Poluo God component.

The three most shocked ones were the Heavy Master, Saber Python Master, and Purple Sound Master.

They had clearly seen the other party's appearance. It was Jian Wushuang, who had cast the spacetime domain behind them.

"It's Blood Sword Master!"

"It's him! Isn't he behind us? When did he run to the Poluo God component?"

The Heavy Master, the Saber Python Master, and the Purple Sound Master could not help but turn around. They found that the void where Jian Wushuang was previously was empty. However, when did he leave for the Poluo God component, no one noticed him at all.

"The shadowless escape art at the exceptional level is very useful. Cultivators below the six realms of the void, as long as they are not particularly good at soul perception, can hardly detect my presence," Jian Wushuang said with a smile.

He had learned the shadowless escape art in the Temporal Temple. It originated from the Blood Sword Master, a very terrifying Principles Master in the Temporal Temple. When the Shadowless escape art was used, it could disappear without a trace, it could hide from the soul detection of a cultivator.

Jian Wushuang had mastered the Shadowless escape art long ago. He had not relied on it to kill or escape from enemies during battles on more than one occasion. For example, when he was adventuring in the blood wave realm, he had relied on the shadowless escape art, at that time, he was recognized as the best assassin at the Saint Level in the Divine Beginning Realm.

However, at that time, his mastery of the Shadowless escape art was still in the initial stage. Even if he had mastered it later, he could only hide it from the soul detection of some Principles Masters of the three or four void realms. However, not long ago, during the 600 years that Jian Wushuang had been in seclusion in the Star Palace, he had finally mastered the Shadowless escape art to the perfect level!

The shadowless escape skill at the perfection level was not much weaker than the Blood Sword Master at his peak. Under normal circumstances, only Principles Masters above the sixth realm of the void realm could sense it, or experts at the fifth realm of the void realm, who were particularly good at soul perception, could sense it.

Just now, when everyone was fighting for the Poluo God component, Jian Wushuang had actually moved. However, he had used the shadow escape skill to move forward, so no one noticed his existence.

It was not until Eight Axe Master approached the Poluo God component and was about to take it into his hands that he made his move decisively. He forced Eight Axe Master back and took the Poluo God component himself.

"I'm sorry to have wasted your time." Jian Wushuang looked at everyone with a smile.

However, except for Heavy Master and the other two from the same camp, the other Principles Masters all looked at him with fierce eyes.

Especially Eight Axe Master, whose eyes were full of killing intent.

"How dare you snatch food from my mouth? You're courting death!" Eight Axe Master growled. His aura suddenly soared, and in an instant, he charged toward Jian Wushuang like a furious beast.

Wherever he passed, the air was forced back by the overwhelming killing intent.

"Blood Sword Master, be careful!" Heavy Master shouted.

"Let's go!" The Principles Masters from the other camps would not give up just like that. They charged forward one by one, but their target was no longer Eight Axe Master, it was Jian Wushuang instead.

"Quick, stop them!" Saber Python Master growled. In an instant, he joined hands with Heavy Master and Purple Sound Master to find a way to stop the Principles Masters around them. With their strength...with the help of the space-time domain, more than half of the Principles Masters around them were successfully stopped by them.

However, three people still broke through their obstruction, especially Eight Axe Master, who was in a rage. No one could stop him.

Seeing Eight Axe Master and the other two Principles Masters who had reached the fifth realm of the Void, Jian Wushuang just smiled faintly and disappeared in front of everyone.

"Disappeared?"

"Damn it, where did he go?"

The two Principles Masters of the fifth realm of the void looked gloomy. They scanned the surroundings with their soul power, but they could not find any trace of Jian Wushuang.

As for Eight Axe Master, he also released his soul power, trying to find Jian Wushuang, but he found nothing.

"Can he hide his special secret skill from soul detection?" Eight Axe Master's face darkened. "No, it's impossible for his secret skill to hide from the cultivator's cultivation detection. The reason why I can't find him is because my soul perception is not strong enough. In that case..."

Eight Axe Master was stunned. He flipped his hand and took out a purple bead.

Chapter 3535: Suppression

"Is that...a soul golden pearl?"

The Principles Masters around them all noticed what Eight Axe Master had brought out.

"It's a soul golden pearl, and it's of an extremely high level. Its value is also extremely shocking, and it's equivalent to one-third of a low-level universe true treasure. Under normal circumstances, a soul golden pearl of this level would be used to swallow and strengthen one's soul resistance when it's attacked by the soul. Of course, after a cultivator consumes it, his soul power will soar, and his soul sensing ability will also be greatly enhanced," Heavy Master said seriously.

"Eight Axe Master is really generous." Purple Sound Master sighed.

On the battlefield, everyone saw Eight Axe Master take out the Purple Pearl and swallow it without thinking.

After swallowing it, his soul power and soul perception ability increased greatly. In a short time, his soul perception ability would not be weaker than an ordinary expert of the six void realms.

With the help of the soul gold pearl, Eight Axe Master immediately found Jian Wushuang.

"I found him, he's there!"

Eight Axe Master's eyes were cold, but he appeared in an empty void.

This void was also in the battlefield. It seemed empty, but Eight Axe Master knew that Jian Wushuang was hiding here.

"Die!"

Eight Axe Master shouted and swung his giant axe at lightning speed.

The void was almost split open, and Jian Wushuang's figure appeared in the void and retreated rapidly.

"You found my position by consuming treasures. Eight Axe Master, you're quite skilled." Jian Wushuang smiled.

"Boy, hand over the Poluo God component and I'll let you go. Otherwise..." Eight Axe Master stared at Jian Wushuang with a cold gaze.

"Otherwise what?" Jian Wushuang smiled indifferently, "Eight Axe Master, you think too highly of yourself. I just didn't want to go through so much trouble, so I used my escape art to leave. Do you really think I won't dare to fight you face-to-face?"

"Huh?" Eight Axe Master frowned and stared at Jian Wushuang.

"Eight Axe Master, since you've found me, I'll play with you." "Please reading on N?WNOV?L. 0?G" Jian Wushuang had already pulled out the Blood Mountain Sword behind him and looked at Eight Axe Master with interest.

"Very good." Eight Axe Master's voice was cold, and his body suddenly rushed out.

This time, Jian Wushuang did not have the slightest intention of retreating. He also went up to meet him.

Just as he was about to fight with the Eight Axe Master, Jian Wushuang activated his life divine power.

Of course, he only activated his life divine power. As for the heaven-cleaving skill, he was not in a hurry to use it.

However, even though he only activated his life divine power, the power that Jian Wushuang unleashed was not weaker than that of the Void five-realm Principles Master. In addition, the first stage of the Blood Crystal Armor magnified his advantage in basic divine power, in terms of power, he was not much weaker than Eight Axe Master.

"Eight Axe Master, take this."

Jian Wushuang smiled faintly, but the Blood Mountain Sword in his hand slashed out rapidly.

A huge blood-red sword light with a violent aura suddenly swept out,
it was the Peerless Sword manual, Xi Xiang!

“Get lost!”

Eight Axe Master growled in a low voice, and the huge axe in his hand swept out in a mighty and straight manner.

He did not hold back in this axe attack, and he did his best. In his eyes, he was an expert at the peak of the fifth level of the void, yet he was facing this Principles Master who had no reputation before and whose aura was extremely ordinary, he could definitely crush him.

However, the moment the axe shadow he swung out truly collided with the blood-colored sword light, the Eight Axe Master was stunned.

The blood-red sword light contained an extremely violent power. When it collided with the axe shadow, it was shattered and even the giant axe in his hand was slightly changed, he staggered backward.

“This is...a level six absolute art?” Eight Axe Master was still a little stunned.

However, Jian Wushuang had already rushed out like a ghost in front of him.

Whoosh!

Another sword attack. This sword attack emitted a terrifying tearing force and directly tore apart the void.

It was the peerless sword technique, Star Dream!

Eight Axe Master subconsciously raised his hand to block the sword attack, but the tearing force contained in the sword technique made him stagger again.

“How can this strength be so strong?” Eight Axe Master was extremely surprised.

However, Jian Wushuang began to perform his swordsmanship.

Whoosh! Whoosh! Whoosh! Whoosh!

One after another, sword lights were displayed from Jian Wushuang’s hands.

Some of these swordsmanship were swift and violent, some were strange and enchanting, and some were terrifying and oppressive. Most importantly, each of these swordsmanship was extremely powerful, every sword attack forced Eight Axe Master to defend with all his strength, but it was only a passive defense. He could not find a chance to fight back.

“He’s too strong. His strength is no weaker than mine, and his swordsmanship is too terrifying!” The Eight Axe Master was a little terrified of Jian Wushuang’s swordsmanship.

Because Jian Wushuang had fought with him many times, he had displayed many swordsmanship, and each of these swordsmanship was a sixth-level absolute art!

It should be known that a sixth-level absolute art was compatible with an expert in the six realms of the void. Although the five realms of the Void could create sixth-level absolute arts, like him, it was very difficult to create a sixth-level absolute art.

However, Jian Wushuang had not only created a sixth-level absolute art, but he had also created more than just one sword move. Many of his sword moves had reached the sixth-level absolute art level.

What he did not know was that although Jian Wushuang was not a true Principles Master, in terms of real strength, he was definitely not weaker than a Principles Master of the sixth realm of the void. Most importantly, his talent in sword principle was extremely high, along the way, he received many incredible opportunities. For example, six hundred years ago, the Heaven Ancestor, a ruler-level expert, gave him a demonstration of the axe skill. The axe skill had greatly affected him.

He often came into contact with experts of the six void realms and even fought with them. Naturally, his swordsmanship had improved greatly. Up until now, his seven sword moves of the Wushuang Sword Manual had all reached the level of a sixth-rank absolute art, all have been elevated to the level of level six.

Under the premise that their powers were about the same, Jian Wushuang had the absolute advantage in the competition of strength and ultimate skills.

“Don’t get cocky, kid!”

After being suppressed by Jian Wushuang’s swordsmanship for a long time, Eight Axe Master was finally enraged. A golden lightning suddenly flashed from his body, and a terrifying aura burst out from his body. His eyes turned scarlet.

“Are you going to use your killer move?” Jian Wushuang smiled slightly. “It’s good that I’m tired of playing. It’s time to end it.”

Chapter 3536: Thunder Pool

Jian Wushuang’s expression turned cold, and a shocking destructive will suddenly rose up.

“I won’t stop until I die!”

Whoosh!

The sword was instantly slashed out.

The moment the sword was slashed out, the shocking destructive will also immediately rose to the extreme.

The destructive will, filled with hatred and endless destruction, directly covered Eight Axe Master.

Eight Axe Master had also displayed his strongest skill. The giant axe in his hand seemed to cover the void and oppress the whole area. However, the mighty shadow of the axe...after it collided with Jian Wushuang’s sword light, which was determined to die.

Clang!

With a crisp sound, Eight Axe Master's body slightly sank. The light in the axe shadow immediately dimmed, and his move was instantly disintegrated.

However, this was only the beginning. After destroying his axe shadow, the astonishing sword skill with a terrifying destructive will came crushing toward his divine body again. A majestic power directly hit Eight Axe Master's divine body.

Sou!

The Eight Axe Master was unable to control his godly body after being struck by this power. His entire body suddenly fell downwards like a cannonball.

One had to know that this place was in the Black Thunder Pool. The ground of the Black Thunder Pool was covered with black divine lightning. The power of those black divine lightning was extremely tyrannical. Ordinary Principles Masters would not dare to step into it.

However, because of the impact of the power, Eight Axe Master's entire body was smashed into the Thunder Pool below. The Thunder Pool instantly surged with a large amount of black divine lightning, crazily covering Eight Axe Master like a wave.

This scene caused the surrounding Principles Masters to be shocked.

"Eight Axe Master was actually struck into the Thunder Pool?"

"Is Eight Axe Master dead?"

"This man defeated Eight Axe Master and hacked Eight Axe Master into the Thunder Pool?"

The Principles Masters widened their eyes and looked at the Thunder Pool below, exclaiming in disbelief.

However, Jian Wushuang ignored them.

After hacking Eight Axe Master into the Thunder Pool below, he withdrew his Blood Mountain Sword and performed shadowless escape art.

Eight Axe Master was still in the Thunder Pool. As soon as Jian Wushuang performed shadowless escape art, the surrounding people did not know where he was. Naturally, they could not obstruct him. He directly passed through the battlefield, he walked out of the Black Thunder Pool. At the same time, he sent a message to Heavy Master to ask them to leave.

Heavy Master, Saber Python Master, and Purple Sound Master immediately retreated. The few Principles Masters did not stop them.

In the blink of an eye, Jian Wushuang and the others had disappeared from everyone's sight.

After Jian Wushuang and the others left, the thunder pool below suddenly rumbled. Then, Eight Axe Master, who was emitting a terrifying murderous aura, struggled out of the Thunder Pool.

The Black Divine Thunder in the Black Thunder Pool was powerful and posed a great threat to ordinary Principles Masters. However, Eight Axe Master was an expert at the peak of the fifth void realm, and he

was wearing armor at the level of an elementary universe supreme treasure, he could barely resist the erosion of the divine thunder.

He had been trapped in the Thunder Pool for only a moment, so his life was not in any danger. However, he had consumed a lot of divine power.

After he got out of the Thunder Pool, he immediately looked around with his ruthless eyes, but he did not see Jian Wushuang again.

“Where are they?” Eight Axe Master shouted in a low voice.

“Eight Axe Master, the people from Star Palace, including the one who fought with you, have left,” an expert of the fifth void realm said.

“Left?” Eight Axe Master’s face darkened slightly, but he could only shake his head helplessly.

Jian Wushuang had already obtained the Poluo God component, and then he fought with him and defeated him. At this point, Jian Wushuang would naturally choose to leave.

Moreover, even if Jian Wushuang had not left, what could he do?

To snatch the Poluo God component from Jian Wushuang again?

Was that possible?

Jian Wushuang had already proven his strength in the battle just now. Even if he did not use the shadowless escape art to fight him head-on, he would definitely crush him. If the Poluo God component fell into the hands of such an expert...he, Eight Axe Master, was completely helpless.

“Do you know the name of the person just now?” Eight Axe Master asked.

“I don’t know. That person is very unfamiliar. He must have just entered the Universe Battlefield not long ago, so we don’t know him. However, he is with Saber Python Master and Heavy Master. He is most likely from Star Palace,” the expert of the five void realms said.

“Oh right, I heard Heavy Master call him Blood Sword Master just now.” A void fourth level Principles Master beside him said.

“Blood Sword Master?” Eight Axe Master’s eyes narrowed slightly before he nodded. “Blood Sword Master should be his title. Furthermore, his sword techniques are strange and terrifying. When he executed his sword techniques, he left behind streaks of blood-colored sword light in the void. He indeed deserves this title.”

“Eight Axe Master, you have just fought head-on with Blood Sword Master. What do you think of his strength?” Asked the Principles Master of the fifth level of the void realm.

There were dozens of astral worlds around the three Universe Battlefields, and there were countless forces of all sizes. There were countless Great Beings, and these Great Beings were all adventuring in the three battlefields. Naturally, they had to know themselves and their enemies well.

For example, if an extremely powerful expert appeared in the three battlefields, it would not take long for everyone to know his name and information. It was because of this information, the various forces did not deliberately hide it, and most of them were willing to share it.

Their encounter with Jian Wushuang this time also showed that Jian Wushuang's strength was extraordinary. However, only the Eight Axe Master, who had really fought with Jian Wushuang, knew what level Jian Wushuang's strength was at. Therefore, the surrounding Principles Masters all wanted to know Jian Wushuang's specific battle strength level from the Eight Axe Master, they all wanted to know the level of Jian Wushuang's battle strength from the Eight Axe Master so that they could be prepared when they fought with Jian Wushuang in the future.

After a moment of silence, the Eight Axe Master spoke directly, "Blood Sword Master's aura alone is not very strong among Principles Masters, but his battle strength is extremely terrifying. The power he possesses is not much weaker than mine and has reached the peak of the fifth void realm. However, this is not the most important thing. The most important thing is his unique skill, his sword skill!"

"His swordsmanship is too terrifying. When he fought with me, I saw that among the swordsmanship that he displayed, there were at least five sword techniques that had reached the level of a sixth-tier ultimate art. Especially that last sword technique that he displayed. If I'm not mistaken, that should already be a peak sixth-tier ultimate art!"

...

Chapter 3537: Awe

"An absolute art at the peak of level six?" The surrounding Principles Masters were all shocked.

If Jian Wushuang's creation of several initial level six absolute arts was only a surprise to them, then the creation of an absolute art at the peak of level six was enough to completely shock them.

This was because under normal circumstances, a peak stage six absolute art could not be created without the battle strength of the sixth realm of the void.

The power that Jian Wushuang displayed just now was only at the peak stage of the fifth realm of the void, but with this absolute art, he was probably not much weaker than an ordinary expert of the sixth realm of the void.

"This Blood Sword Master's swordsmanship is really terrifying, and his other methods are also very brilliant. For example, the time and space domain that he displayed just now, as well as his strange escape skill, are even more amazing. With all these methods combined, his threat to ordinary Principles Masters is probably no less than that of an ordinary expert of the sixth realm of the void," Eight Axe Master continued.

"However, the strange thing is that Blood Sword Master's offensive magic weapon doesn't seem to be very high-level. It's not even a universe true treasure. If he can get an offensive magic weapon at the level of a universe true treasure, his combat power might be able to improve even further."

Hearing Eight Axe Master's words, the Principles Masters all secretly drew in a breath of cold air.

In their eyes, Jian Wushuang was already terrifying enough. Would he not be even more terrifying if he took another step forward?

"Eight Axe Master, thank you for informing us." The void five-realm Principles Master cupped his hands and then turned to leave with the people around him.

The other Principles Masters knew that there was nothing to fight for, so they naturally left one after another.

In the end, only Eight Axe Master was still standing there.

"Blood Sword Master..." Eight Axe Master's face was solemn, but his mind was full of thoughts. 'I don't know why, but I always feel that he didn't use his full strength when he fought with me. Even when he used his ultimate skill at the peak of stage six, I still feel that he didn't use his full strength. What's going on?'

Eight Axe Master was a little confused.

In fact, his intuition was right. Although Jian Wushuang had shown many skills in the fight, his real battle strength had not been fully unleashed. He had never used the heaven-cleaving skill alone.

Once he used the heaven-cleaving skill, it was equivalent to an additional portion of his will power. His strength could crush Eight Axe Master in an instant. However, Jian Wushuang did not do that. Instead, he deliberately reserved his strength, the reason why he fought head-on with the Eight Axe Master was that Jian Wushuang wanted to use the Eight Axe Master to train his swordsmanship as much as possible.

After all, he had already taught an absolute art at the peak of level six.

Although he had gained enlightenment from the Heaven Ancestor's axe and mastered the destructive will, he had created this absolute art, it meant that he had reached a new level in swordsmanship.

After reaching this level, he could also improve the seven sword moves in the Peerless Sword Manual.

Although these sword moves could not reach the peak of the sixth level like the 'fight to the death', they could still be improved to the advanced level of the sixth level.

Since he wanted to improve, he naturally needed to spend time and practice.

The Eight Axe Master was not weak, so his battle with him was undoubtedly a form of training for Jian Wushuang.

Unfortunately, the Eight Axe Master definitely did not know about this.

...

In the void outside the Black Thunder Pool, Jian Wushuang, the Heavy Master, the Saber Python Master, and the Purple Sound Master gathered together again.

However, at this moment, the Heavy Master, the Saber Python Master, and the Purple Sound Master looked at Jian Wushuang with a hint of shock.

After all, they had seen with their own eyes that Jian Wushuang had snatched the Poluo God component from Eight Axe Master. Moreover, Jian Wushuang had fought with Eight Axe Master head-on, and most importantly, he had crushed Eight Axe Master.

Eight Axe Master was an expert at the peak of the fifth void realm. Moreover, he was very famous. How Strong was Jian Wushuang to be able to crush such an expert head-on?

“Heavy, didn’t you say that Blood Sword Master had just become a Principles Master not long ago? Where did you get the news?” Purple Sound Master looked at Heavy Master with some resentment.

“Just broke through? Are you kidding me? Blood Sword Master’s strength is not much weaker than an expert at the sixth void realm. How could he have just broken through?” Saber Python Master said directly.

“I, I...” Heavy Master was at a loss for words. Six hundred years ago, he had indeed seen that Jian Wushuang was only at the Immortal Saint Realm, but the battle strength that Jian Wushuang displayed today...it was definitely not something that a person who had just broken through to become a Principles Master could possess.

“Is it really as Marquis Duan Yu said, that when Heavenly Sword Marquis was at the Immortal Saint Realm, his strength was no less than mine?” Heavy Master muttered in his heart.

Jian Wushuang, who was standing next to the three of them, saw this scene and smiled. “There’s no point in talking about these things. All I need to do is get my hands on the Poluo God component.”

“Yes.” The Heavy Master nodded, but he was sure that he was looking at Jian Wushuang in a completely different way now.

In this world, no matter where they went, the experts would always be respected. These cultivators also respected the experts in their hearts.

Previously, although the Heavy Master no longer looked down on Jian Wushuang, and his relationship with Jian Wushuang had eased, it was mainly because of Jian Wushuang’s life-saving means and because Jian Wushuang had saved him, moreover, he was able to escape from the hands of God Fei safely.

It could be said that the Heavy Master had only been grateful to Jian Wushuang before, but he did not have any respect for him.

However, it was different now. The Heavy Master was completely in awe of Jian Wushuang now because he knew that Jian Wushuang was much stronger than him.

It was not only him, but also Saber Python Master and Purple Sound Master.

“Blood Sword Master, congratulations. That Poluo God component is a good thing.” Saber Python Master sighed softly.

“It is indeed a good item. However, the Poluo God component was obtained by the four of us together. Although I put in a little more effort, I can’t monopolize it. So, let’s discuss how to distribute it,” Jian Wushuang said.

Upon hearing Jian Wushuang's words, Saber Python Master, Heavy Master, and Purple Sound Master were delighted.

Of course, they were full of desire for the Poluo God parts. However, because of Jian Wushuang's strength, and because of his overwhelming strength, they had obtained the Poluo God parts in this competition, therefore, if Jian Wushuang did not mention the distribution, they would definitely not mention it.

But now that Jian Wushuang had taken the initiative to ask for it, they naturally wanted to share it. After all, they had contributed.

Chapter 3538: Distribution

"Blood Sword Master, our Star Palace actually has some rules about the distribution of treasures," Heavy Master said.

"Oh, tell me about it." Jian Wushuang looked at him.

"First of all, the first expert who finds a true treasure and sends the news must take a share. Under normal circumstances, the first one to find a true treasure can take 10 to 20 percent of the share. Secondly, during the treasure competition, the rest of the share will be distributed according to each person's contribution," Heavy Master said.

"And this time, Saber Python Master was the first to see the Poluo God parts, and he passed the news to us. Only then could we rush over in time to fight for them. Saber Python Master would definitely get a share. In addition, during the fight, Saber Python Master had more or less put in some effort, so it shouldn't be too much to get a 20% share."

"As for Purple Sound Master and I, we only gave those cultivators some hindrance during the fight. The others basically didn't do anything. In the end, it was almost all thanks to you, Blood Sword Master, that we were able to get the Poluo God parts. Therefore, it's already pretty good that Purple Sound Master and I can get a 10% share together. The remaining 70% will all go to you, Blood Sword Master."

"Blood Sword Master, Saber Python Master, what do you think of the distribution?"

Heavy Master knew his own limits.

He and Purple Sound Master did not put in much effort in this competition. They would be satisfied if they could get 10% of the shares.

"I don't have any objections. After all, I didn't put in much effort in the competition. I only found the Poluo God component and passed the news to you. It's already a lot to get 20% of the shares. Blood Sword Master, what do you think?" Saber Python Master looked at Jian Wushuang.

In fact, the distribution was just their wishful thinking. They mainly had to see if Jian Wushuang would accept the distribution.

If Jian Wushuang did not accept it, of course, they would make some concessions.

However, Jian Wushuang gave a forthright smile and said, "As long as the three of you are satisfied, of course I won't have any objections."

“Well, it’s settled then.” Saber Python Master smiled.

“Blood Sword Master, you can send a message to Axe One Master. He controls the true treasure vault of our Star Palace. The experts of our Star Palace need his permission to exchange for treasures in the true treasure vault. At the same time, if we get any treasures, we can go to the true treasure vault and exchange them for contribution points. The Poluo God parts are useless to us. In the end, we must exchange them for contribution points.”

“Ask him how many contribution points he will exchange for the Poluo God parts, and then we will distribute them according to our respective shares,” Heavy Master said.

“Okay, I’ll ask him now.” Jian Wushuang did not hesitate and immediately sent a message to Axe One Master.

“My young friend, you said you got the Poluo God parts?” Axe One Master could not help being surprised when he received Jian Wushuang’s message.

After all, the Poluo God component was quite famous in the Universe Battlefield, and its value was extremely precious. Jian Wushuang had obtained a Poluo God component not long after he set off for Devil Smoke Valley. It was truly a rare stroke of luck.

“Axe One Master, this Poluo God component was obtained by me, Saber Python Master, and Heavy Master together. Now, I want to ask how many contribution points this Poluo God component can be exchanged for in the true treasure vault, so that we can share it,” Jian Wushuang said.

“Well...” Axe One Master pondered for a moment, then he said, “Although there have been a lot of Poluo God parts in the universe, not many of them have been spread in the Universe Battlefield. There are also people who are eager to get a Poluo God part. As far as I know, two of them have obtained two Poluo God parts and are eager to get a third one. Their prices are also very high, so the Poluo God part is naturally very valuable.”

“If you want to exchange it for contribution points, you can get 350 contribution points.”

“350 contribution points?” Jian Wushuang nodded slightly and cut off the communication.

“Blood Sword Master, what do you think?” The Heavy Master and the Saber Python Master looked at Jian Wushuang eagerly, especially the Saber Python Master.

After all, he could get 20% of the total contribution points. In his opinion, 20% should be a significant amount of contribution points.

“Ladies and gentlemen, the contribution points given by Axe One Master are 350 points,” Jian Wushuang said.

“350 points?”

Upon hearing this number, Saber Python Master and Heavy Master were stunned at first, but then they were overjoyed.

“Haha, I knew it. The value of the Poluo God parts is very shocking. It must be higher than the value of an ordinary advanced universe true treasure. Now it seems that it is true!” Saber Python Master laughed loudly.

“350 contribution points. That’s close to the value of an advanced universe true treasure armor. Haha, we really made a profit this time,” Heavy Master said with a laugh.

Jian Wushuang had a strange look on his face. After all, he had never been to the Star Palace true treasure vault, so he had no idea about these contribution points. He had thought that 350 contribution points was not a big number, however, judging from the expressions of Saber Python Master and Heavy Master, the contribution points should be quite a lot.

“Gentlemen, are 350 contribution points a lot?” Jian Wushuang asked.

“Yes, of course.” Saber Python Master nodded. “Blood Sword Master, let me put it this way. In the Star Palace’s true treasure vault, ordinary offensive magic weapons at the level of elementary universe true treasures can only be exchanged for 10 contribution points, while offensive magic weapons at the level of advanced universe true treasures can only be exchanged for 100 contribution points. As for the Poluo God parts, they are directly exchanged for 350 contribution points, which is equivalent to the price of three and a half advanced universe true treasures.”

“That’s right. Purple Sound Master and I can only get 10% of the total, but that’s still 35 contribution points, which is equivalent to three and a half low-level universe true treasure attack weapons. I exchanged my true treasure armor for Purple Sound Master, and that true treasure armor was only worth 42 contribution points.”

“This time, Purple Sound and I came to Devil Smoke Valley to find a way to get more contribution points to exchange for the true treasure armor, and now, almost all of them have returned. The point is, I didn’t take any risks when I got these contribution points,” Heavy Master said with a laugh, his face was full of surprise and joy.

Purple Sound Master, who was beside him, was also smiling.

Chapter 3539: Adventuring Alone

This time, Heavy Master and Purple Sound Master had come out to explore together. They had come out to find a way to get enough contribution points, and then they would exchange Heavy Master’s true treasure armor back. But now...the 10% share of this Poluo God component had almost all been returned.

As for the Saber Python Master, he was even happier.

He had received 20% of the share, which was 70 contribution points, which was a huge fortune for the Saber Python Master.

Of course, they could not compare with Jian Wushuang.

Jian Wushuang alone could receive 70% of the share, which was 245 contribution points, which was more than two advanced universe supreme treasures.

"The Poluo God part is in my hands now, but I don't have any contribution points. I can only give you the contribution points when I return to the Star Palace and go to the Supreme Treasure Vault to exchange for it. But the problem is that I just came out of the Star Palace and don't want to go back immediately," Jian Wushuang suddenly said.

"That's okay. Purple Sound Master and I just came out of the Star Palace and didn't expect to go back so soon. You can give us the contribution points later when you return to the Star Palace. What about you, Saber Python Master?" Heavy Master looked at Saber Python Master.

"I'll return to Star Palace soon, but I'm not in a hurry for the contribution points. I can wait in Star Palace for a while, but how long do you plan to stay in Devil Smoke Valley?" Saber Python Master asked.

"I think I'll stay in the outer area of Devil Smoke Valley for now. After a while, I'll go to the core area of Devil Smoke Valley. I'll definitely go back to Star Palace before entering the core area," Jian Wushuang said.

"Blood Sword Master, are you going to explore the core area of Devil Smoke Valley?" Heavy Master looked at Jian Wushuang in surprise, but he immediately understood. "That's right. With your strength, you can go there. However, there are many experts in the core area of Devil Smoke Valley, which is much more dangerous than the outer area. You have to be careful."

"Of course." Jian Wushuang smiled.

"In that case, I'll go back to Star Palace and wait for one or two hundred years. When you return to Star Palace, you can send me a message, Blood Sword Master," Saber Python Master said.

"No problem." Jian Wushuang nodded.

"Since it's a deal, let's part ways again. Goodbye, both of you," Heavy Master said and then left with Purple Sound Master.

Saber Python Master cupped his hands at Jian Wushuang and turned to leave.

Jian Wushuang stood in the void and looked around calmly.

"Devil Smoke Valley, one of the three battlefields, not only contains countless opportunities and precious treasures like the Poluo God parts, but also countless experts from the surrounding star worlds. Although the experts in the outer area are not as good as those in the core area, they are enough to practice swordsmanship."

"My goal in Devil Smoke Valley is to reach a very deep area, the special place that the Xue Bei Master discovered. However, there are too many unknowns and it's too dangerous. Therefore, before venturing into that special place, "I must improve my strength to the peak that I can temporarily reach. Naturally, I must improve my swordsmanship first." Jian Wushuang clenched his hands.

He already had a detailed plan in his heart.

He would stay in the outer area of Devil Smoke Valley first, not only to familiarize himself with the illusion in the battlefield, but also to hone his swordsmanship.

After he had completely improved his swordsmanship and reached a new level of strength, he would set off for the core area of Devil Smoke Valley until he went to the special land discovered by Xue Bei.

“Let’s begin.”

Jian Wushuang smiled and immediately flew to the side.

Half a day later, two figures were flying side by side in the void outside Devil Smoke Valley.

One of them was a white-haired skinny elder, and the other was a chubby bald youth. They walked together with a relaxed expression.

It was normal. After all, they were both Principles Masters in the fifth realm of the void and had extraordinary life-saving skills. If they worked together and did not encounter a madman like God Fei Master in the outer area of Devil Smoke Valley, or they were seeking death by intruding into dangerous places. Otherwise, no one would be able to threaten them.

However, halfway through, a figure suddenly blocked their way.

The person who stood in their way was Jian Wushuang.

“Who are you?” The white-haired skinny elder stared at Jian Wushuang coldly.

“Blood Sword,” Jian Wushuang answered.

“Blood Sword?” The white-haired skinny elder and the fat bald youth immediately recalled the information they had read about the experts, but they found that there was no Blood Sword Master.

“Blood Sword, you must be an expert who has just appeared, right?” The chubby bald young man smiled. “Do you know who we are?”

“Of course I do. Master Yun and the Chubby Master are from the ancient Yuan Star World. You two have always been famous in the Universe Battlefield,” Jian Wushuang said with a smile.

“You know our names, but you still dare to stand in front of us. Boy, you have guts.” The chubby bald young master flipped his hand, took out a fruit, and took a bite, he looked at Jian Wushuang with interest.

“It’s because I know your names that I came here. If it were a weaker Principles Master, I wouldn’t be interested.” Jian Wushuang smiled and said, “Let’s cut the crap. Let’s fight.”

“Tsk, tsk, it seems that you really don’t care about us.” The Chubby Master praised. He had casually thrown away the fruit in his hand.

“He knows their strength, but he still dares to come to us. He must have something to rely on. Fifth brother, don’t be careless. Let’s attack together.” Master Yun said.

“Okay.” The Chubby Master nodded.

The next moment, the two attacked at the same time.

Jian Wushuang immediately drew his Blood Mountain Sword and went up to meet them.

In an instant, a great battle broke out.

Jian Wushuang fought against two masters at the same time, relying on his swordsmanship to fight against Master Yun and the Chubby Master.

The battle was extremely fierce, but it did not last long.

Soon, Jian Wushuang chose to retreat.

“Thank you for your guidance. Goodbye.”

Jian Wushuang said goodbye and turned to leave. Master Yun and the Chubby Master had no intention of keeping Jian Wushuang.

...

Chapter 3540: The Name Blood Sword

“What was the Blood Sword Master’s intentions?” The Chubby Master took out another fruit and ate it while watching Jian Wushuang leave.

“I don’t know. Although he came to us, it seems that he doesn’t really want to be our enemy. After fighting with us, he just left. If I’m not mistaken, he just wants to fight with us,” Master Yun said.

“Purely to have a battle with us? Could it be another battle maniac?” Chubby Master sighed.

The three Universe Battlefields had gathered dozens of experts from the astral worlds around them. There were simply too many of them.

And with so many experts, their temperaments were naturally different. Among them, there were some who liked to kill, like God Fei Master. They almost killed anyone they saw, but at the same time, there were also some who liked to challenge others, they would take the initiative to fight with others to improve their strength.

These crazy killers only pursued fierce battles, but they did not pursue killing. They were completely different from God Fei Master.

In the eyes of Master Yun and the Chubby Master, Jian Wushuang was the second kind of crazy killer.

“It’s better to meet a crazy killer than a crazy killer. Blood Sword Master is very strong. If he really kills us, we might not be his match,” the Chubby Master said.

“Maybe.” Master Yun nodded slightly.

The two chatted for a while and then continued to move forward.

From this day on, Jian Wushuang had indeed become a battle maniac.

He roamed the outer area of Devil Smoke Valley, looking for experts everywhere, and then took the initiative to fight with them.

The opponents he found were usually experts of the fifth void realm with some strength. Of course, he would not miss the chance to meet experts above the peak of the fifth void realm. But no matter who he fought with, he was almost evenly matched, he did not have any advantage in a fight.

He did not have any advantage in a fight with an ordinary expert of the fifth void realm, but he did not have any disadvantage either.

However, he was the same when he fought an expert at the peak of the fifth void realm.

The reason for this was that Jian Wushuang had deliberately reserved his strength from the beginning to the end. When he fought with these experts, he would try his best to control the power of his divine power and then try his best to hone his swordsmanship, he would rely on himself to gain an advantage.

For example, when he fought with an ordinary expert of the fifth void realm," Jian Wushuang basically did not even activate his life divine power. He would rely on his own will and the power of his basic divine power, which was equivalent to the power of the peak of the fourth void realm, then he would rely on his swordsmanship to fight fiercely with his opponent.

No matter who he fought with, he would always control his power to be weaker than his opponent, and then try to maximize his advantage in swordsmanship.

In this way, he could better hone his swordsmanship.

Of course, his unbridled challenge naturally attracted the attention of all the Great Beings in the surrounding astral world.

The name of Blood Sword Master gradually began to spread in the Universe Battlefield.

Not long after, everyone who was adventuring in the Universe Battlefield knew of the existence of Blood Sword Master, and this Blood Sword Master was a madman who loved to fight, recently, he had been crazily challenging experts from all over the outer area of Devil Smoke Valley. As for the strength of Blood Sword Master...

Experts from all over the universe were unable to accurately gauge Jian Wushuang's strength.

This was because all the experts who fought with him were basically evenly matched. They only knew that his swordsmanship was extremely good.

However, Blood Sword Master had defeated Eight Axe Master in the fight for the Poluo God parts. Therefore, the star worlds' definition of Jian Wushuang's strength was that he was a Principles Master at the peak of the five void realms, at the same time, he was very close to the level of the six void realms.

As for his challenges in the outer area of Devil Smoke Valley, anyone could see that he must have used these battles to hone his strength.

Star Palace, in the Secret Pavilion.

"Recently, the Blood Sword Master who has been wandering in the outer area of Devil Smoke Valley seems to be quite famous," Marquis Duan Yu said.

"It's like this. Moreover, I heard that this Blood Sword Master is from our Star Palace, but when did our Star Palace have a Blood Sword Master?" Seven Emotions Master looked puzzled.

When Axe One Master heard this, he smiled. "Blood Sword Master is indeed an expert from our Star Palace. He is the Heavenly Sword Marquis that Marquis Duan Yu brought back from the Divine Beginning Realm. It's just that when he roamed Devil Smoke Valley, he deliberately used the alias Blood Sword."

"It's him?" Seven Emotions Master had a strange expression. "If I remember correctly, this heavenly Marquis Sword should still be an Immortal Saint. He hasn't broken through to the Principles Master, right?"

"He hasn't broken through." Axe One Master nodded. "I've told you before that the Heavenly Sword Marquis isn't weak. Even if he ventured into Devil Smoke Valley alone, you don't have to worry. You didn't believe it, but now, you believe it, right?"

"A mere Immortal Saint actually defeated Eight Axe Master and seized Poluo God's component. Moreover, he made such a name for himself in Devil Smoke Valley. This is a little too terrifying." Seven Emotions Master couldn't help but exclaim, "Oh right, why did he crazily challenge all the experts in Devil Smoke Valley during this period of time?"

"I've asked him about this before. He said that he was honing his sword techniques." Axe One Master smiled, "Oh right, only a few of us know that Blood Sword Master is the Immortal Saint. Please don't leak this out."

"Of course. We're not stupid enough to leak this out. However, if he encounters an extremely powerful ruler-level expert while adventuring in Devil Smoke Valley, you'll be able to see through his level of strength. When that time comes, he'll definitely leak it out, and it'll definitely cause a sensation." Seven Emotions Master said.

"We'll talk about it later, but for now, just keep it a secret," Axe One Master said.

The surrounding people also nodded.

As time passed, Jian Wushuang continued to wander around the outer area of Devil Smoke Valley, challenging experts from all over the place and honing his swordsmanship at the same time.

In a flash, 50 years had passed.

Outside Devil Smoke Valley, there was a vast black land.

Weng! A faint aura of a true treasure surrounded it. In the center of this land, a long spear surrounded by a faint purple godly thunder slowly rose from the ground.

This long spear, however, judging from its aura, was clearly a universe true treasure. Even though it was only a low-level universe true treasure, after it was born, there were still many Great Beings attracted to it.

Right now, there were no less than ten Great Beings standing around the long spear. Among them, there were two Great Beings at the fifth level of the void realm.

They were all waiting for the long spear to be born completely, and then they would start fighting for it.
