

Swordsman 3561

Chapter 3561: Special Time and Space

After passing through the crack in the precipice, Jian Wushuang had completely stepped into the unknown region.

What entered his eyes was still a dark and boundless land, with a faint black smoke floating in the void. It did not look much different from other places.

In fact, from the moment Jian Wushuang set foot in the unexplored area, he knew nothing except for a route marked on the star map from Xue Bei.

As the saying went, the unknown was dangerous. The areas explored in the Devil Smoke Valley had many dangerous places, such as the Corpse Cave, the Death Hurricane Eye, and the Devil Flame Land, all of which were famous for their savagery, even a Ruler Realm expert would have a slim chance of survival if he stepped into them.

However, although these places were dangerous, they were known areas after all. The experts from various star worlds and forces knew that they would definitely die if they entered these places, so they naturally avoided them from afar, they would not step into them at all.

However, the unknown areas were completely different. There was no way to know where the danger was. In other words, if you simply rushed forward, you would unknowingly step into some certain death places.

"This unknown region is too dangerous. I must completely follow the path Xue Bei pointed out. I must not deviate. Once I deviate, I may encounter unknown dangers." Jian Wushuang's expression was solemn.

After entering the unknown region, his nerves were completely tensed and he became fully alert.

Under this full alert, he also followed the path Xue Bei pointed out and slowly moved forward.

His speed was very slow, even slower than the speed of an ordinary Principles Master. There was nothing he could do, because although Xue Bei had left a route, it was only a rough direction, there was no complete star map, so he naturally had to carefully find the right direction to move forward.

If he did not pay attention to the direction while moving forward, even if it was just a small deviation, it could make him completely lost.

Fortunately, Jian Wushuang was careful and achieved results. After a long ten years, he finally came to a dark abyss.

"The dark abyss is here."

Jian Wushuang stood in the void and looked down at the abyss.

The abyss was pitch-black and bottomless, but if one looked carefully, they would find a slowly flowing dark vortex in the center of the abyss.

The dark vortex was not big and its color was not deep. It was difficult to find it in the surrounding darkness.

Master Xue Bei had come here by chance and stayed for a period of time before he discovered the existence of the dark vortex.

What Jian Wushuang was looking for was this dark vortex.

“According to what Xue Bei said, this dark vortex is the passage to enter that special space-time.” Jian Wushuang’s face was solemn. He stared at the dark vortex in the abyss, took a deep breath, and then jumped down.

Whoosh!

Ear-piercing air-piercing sounds continued to ring out. Jian Wushuang’s eyes were cold as he fixed his gaze on the dark vortex. After a while, he directly flew into the dark vortex.

When Jian Wushuang flew into the dark vortex, it was like a drop of water dropping into the sea. There was no fluctuation from the dark vortex, and the dark vortex was still slowly rotating in the middle of the abyss, as always, it was the same.

...

After entering the dark vortex, Jian Wushuang came to the special space-time.

It was a gray void, vast and boundless. There was no light, and there was no sky or earth.

There was only a void.

As Jian Wushuang stood there, he immediately sensed the difference between this space-time and the outside world.

“It’s just as Xue Bei said. I can’t sense the power of space-time at all here, and my connection with the outside world will be completely cut off.” Jian Wushuang looked around and tried to contact the people outside, but there was no response.

“A completely independent space-time is completely different from the outside world,” Jian Wushuang murmured.

Not only that, but Jian Wushuang also sensed an extremely obscure crisis in this space-time.

This sense of crisis had been present since he stepped into this space-time, which was also mentioned by Xue Bei in the star map.

“According to Xue Bei, after he entered this space-time, he immediately felt a sense of danger. As he continued to move forward, the sense of danger grew stronger. Later, he vaguely saw a floating platform, but because he saw that platform, the sense of danger in his heart rose to the extreme, as if he would die at the next moment. Therefore, he didn’t have time to see what was on the platform before he turned around and left.” Jian Wushuang narrowed his eyes.

Xue Bei had indeed paved the way for him, but this path only led to the high platform. As for what happened next, Xue Bei did not know.

“When I came to the core area of Devil Smoke Valley and entered this special space, I had the battle strength of the peak of the fifth realm. He didn’t even see what was on the high platform and left in fear. But now, my strength is much higher than Xue Bei’s, and my life-saving ability is much stronger than his. I should be able to see more things in this special space than him,” Jian Wushuang muttered.

In the next moment, Jian Wushuang slowly moved forward.

As Xue Bei had said, as Jian Wushuang slowly moved forward, the sense of crisis in his heart grew stronger.

However, this level of crisis naturally did not scare Jian Wushuang. He continued to move forward as usual.

In the gray void, Jian Wushuang did not know how far he had walked or how long he had walked. He only knew that the sense of crisis in his heart was growing stronger, and he was getting closer and closer to the high platform.

But at this moment...

“Huh?” Jian Wushuang’s expression suddenly changed.

He saw a golden light in the gray void in front of him.

Yes, it was a golden light.

Although the golden light was dim and not as dazzling, it was still very eye-catching in the gray void.

“What is that golden light?”

With a trace of curiosity, Jian Wushuang rushed toward the golden light.

However, when he approached the golden light and finally saw it clearly, he was stunned.

The golden light was nothing else but a golden long spear!

“A long spear?”

“There is such a spear floating in this special space and time?”

Jian Wushuang frowned and walked to the side of the golden long spear. After carefully observing the golden long spear, he reached out his hand and grabbed it.

Chapter 3562: The Corpse on the High Platform

The moment Jian Wushuang’s palm touched the golden spear, an extremely powerful aura of a supreme true treasure instantly burst out.

“This aura...is a top-tier universe true treasure?” Jian Wushuang’s face was full of astonishment.

A top-tier universe true treasure was a treasure that many Principles Masters coveted. It was rare to see it in the three battlefields, and it was very difficult to see it in the world, for example, Jian Wushuang had been lucky enough to get a top-tier universe true treasure axe in Nine Twists Demon Cave.

But now, he had not encountered anything in this special space, nor had he reached the high platform mentioned in the star map by Xue Bei. Just on the way...he had found a spear of a top-tier universe true treasure?

Moreover, when he had obtained the top-tier universe true treasure axe in the Nine Twists Demon Cave, he had spent a lot of effort to kill that demon. But now, he did not spend any effort here.

"This spear is indeed a top-tier universe true treasure, but how could such a top-tier universe true treasure just float in this space-time casually?" Jian Wushuang could not help clenching his hands.

At the same time, he remembered that Xue Bei had said that the Bodhi world was a treasure he had obtained in this special space-time.

Now it seemed that Xue Bei had also discovered the existence of the Bodhi world when he was wandering in this gray void.

"It's not surprising that this gray void should only be the edge of this special space-time. The opportunities here should be the least, but even so, I still found a top-tier universe supreme treasure. I really don't know how many opportunities there are in this special space-time." Jian Wushuang praised, after putting the golden spear into his interspatial ring, he collected his emotions and continued to fly forward.

After a few days, Jian Wushuang could finally see the floating high platform in front of him.

"That should be the high platform that Xue Bei saw. If I'm not mistaken, Xue Bei must have turned around and left here." Jian Wushuang stopped and looked up, he could vaguely see the existence of a high platform.

The high platform should still be some distance away from him. Because of the obstruction of his vision, he could not see what was on the high platform. However, the moment he could vaguely see the high platform...the sense of crisis in his body instantly rose to a whole new level.

This sense of crisis was too strong.

It was only because he was stronger and more confident in his ability to survive. Xue Bei did not have his ability, so he did not dare to continue walking, instead, he turned around and left.

"The judgment of Xue Bei is right. There should be a great opportunity in the high platform, but it should also be accompanied by great danger. He was only at the peak of the five states at that time. If he continued to walk blindly, he might not be able to get down," Jian Wushuang thought.

Even he was a little hesitant and hesitant after feeling the strong sense of danger.

But soon, his expression became firm. "I had already expected the danger here. Since I dared to come here, I must have mentally prepared myself. Moreover, although the sense of danger is very strong, it's not so strong that I don't dare to move forward."

After making up his mind, Jian Wushuang continued to move forward.

As he continued to move forward, the sense of danger he sensed became stronger and stronger, and Jian Wushuang's expression became more and more solemn.

Finally, he came to the front of the high platform, and at the same time, he could finally see the things on the high platform clearly.

“That is...”

Jian Wushuang looked at the high platform in front of him. The high platform was not very big, and there were no buildings on it. It was almost an empty space, but there were human-shaped statues around the empty space.

These statues were lifelike and looked like real people. At a glance, there were a total of 18 statues. They stood neatly on the four sides of the high platform, facing the center of the high platform, it was as if they were guarding something.

In the center of the high platform, there was a purple-haired elder sitting cross-legged.

The purple-haired elder wore a blood-red armor and held a dark-green long stick in his hand. He was sitting cross-legged with his head lowered, but he was no longer breathing. Jian Wushuang's soul power swept over him, he did not sense any life fluctuation from the purple-haired elder.

“This man must have died many years ago,” Jian Wushuang thought.

The purple-haired old man was indeed dead. However, because of his incredible strength, his divine body was still intact even though he was dead.

Not only his divine body, but also the blood-red armor and the dark-green long stick in his hand.

Jian Wushuang's soul power swept toward the armor and the long stick. However, he could not sense the specific power of the blood-red armor and the dark-green long stick.

“I can't sense it with just my soul power. I can't know the level of the armor and the long stick unless I'm really close to them,” Jian Wushuang murmured.

If it were any other place or any other cultivator, they would definitely rush up and take the scarlet armor and the dark cyan long stick left by the purple-haired elder without hesitation, however, Jian Wushuang was not so impulsive.

After all, this space-time gave him a strong sense of danger.

Especially now, in front of the high platform, the sense of danger was even more terrifying. It was as if if he approached the high platform, he would immediately suffer a disaster, therefore, even though he knew that the purple-haired old man's armor and the dark cyan long rod were universe supreme treasures of an extremely high level, he did not rush to the high platform immediately. Instead, he carefully studied the high platform.

“There are no buildings on the high platform, and I can't sense any restrictions or magic arrays. If there really is a great danger, then it's most likely the human-shaped statues around the high platform.” Jian Wushuang narrowed his eyes, he looked at the human-shaped statues.

The human-shaped statues looked ordinary, but they were like guards. Although they did not have any vitality, they did not emit any power, however, Jian Wushuang still felt that these statues were

extraordinary. There were many dangers on the high platform, and they were most likely on these human-shaped statues.

After understanding this, Jian Wushuang began to ponder.

Chapter 3563: Star Thunder Ruler

“These human-shaped statues are obviously the guards of this high platform. It’s fine if I don’t go near the high platform, but once I get close to the high platform, these human-shaped statues will probably wake up and kill me. The trouble is that I don’t know the strength of these human-shaped statues.”

Jian Wushuang understood that the three battlefields in this territory were not formed naturally, but probably came from the depths of the universe.

In the depths of the universe, experts were as numerous as clouds. There were many overlord-level experts and their methods were earth-shaking. The battlefields they left behind were filled with too many unknowns.

In Jian Wushuang’s opinion, these human-shaped statues on the high platform might be the battle strength of a Principles Master, but they might also be the battle strength of a Ruler Realm expert.

If they were only the battle strength of a Principles Master, then it would be fine. Even if they were all at the pinnacle of the six realm, he still had a chance to protect himself. However, if all the human-shaped statues had the battle strength of a Ruler, then he would be courting death, if he rushed forward, it would be no different from courting death.

“But I’ve come here with great difficulty, and the opportunity is right in front of me. I can’t just turn around and leave like Xue Bei.” Jian Wushuang frowned and thought for a while, in the end, Jian Wushuang could only think of a way to neutralize the situation.

“I must get close to the high platform, but I don’t need to be anxious. I’ll try to get close first and see the reaction of these human-shaped statues. Even if they wake up, they can’t rush to my side all at once. I can try to fight with them first and figure out their strength.”

“If they are far beyond me and I can’t fight them, I will escape immediately. As long as I don’t go too deep, I can still escape from the edge of the high platform.” Jian Wushuang made up his mind.

He carefully approached the high platform in front of him.

As he slowly approached the high platform, he focused his attention on the reactions of the human-shaped sculptures on the high platform and was ready to escape at any time.

However, to his surprise, he was still extremely close to the high platform. However, the human-shaped sculptures on the high platform still did not have the slightest reaction, even though he had half a foot on the high platform, the human-shaped sculptures still did not move at all.

“What’s going on? Am I thinking too much? Are these human-shaped sculptures not dangerous?” Jian Wushuang frowned. He was also full of doubts, but now he was completely standing on the high platform, although he was at the edge of the high platform, those human-shaped sculptures should be able to wake up.

But in fact, there was still no movement from those human-shaped sculptures.

“Let’s not worry about that for now. Let’s get the blood-red armor and the long stick first.” Jian Wushuang narrowed his eyes. He took another step and slowly walked toward the corpse of the purple-haired elder in the center of the high platform.

One step, two steps...Jian Wushuang had already appeared in front of the human-shaped sculptures. Even when he was close to the center of the platform, the sculptures still did not move.

In the end, Jian Wushuang finally came to the side of the purple-haired elder.

“Did it really go so smoothly?”

Jian Wushuang stood beside the purple-haired elder’s corpse and looked around the human-shaped sculptures with a trace of doubt, but the sculptures still did not respond.

Shaking his head, Jian Wushuang did not think too much about it. He carefully inspected the purple-haired old man’s divine body and confirmed that there was nothing wrong with it. Then he bowed slightly to the purple-haired old man and said, “Sorry to offend you!”

After bowing, he took the purple-haired old man’s blood-red armor and the dark cyan longstaff in his hand.

When he came into contact with the blood-red armor and the dark cyan longstaff, Jian Wushuang finally sensed the power of the two supreme treasures and knew their specific levels.

“Shadow Demon Thunder Rod...a pinnacle universe true treasure!”

“Blood Demon Cave Armor...a pinnacle universe true treasure armor!”

After learning the name and level of the armor and the long rod, Jian Wushuang was stunned.

“A pinnacle universe true treasure? And there’s a pinnacle universe true treasure armor?” Jian Wushuang’s eyes were wide open.

Universe true treasures were divided into elementary, advanced, pinnacle, peak, and supreme true treasures.

Top-tier universe true treasures were enough to make countless Principles Masters fight over them. As for pinnacle true treasures and supreme true treasures, they were usually only available to great beings at the Ruler Realm, and only a few Principles Masters who were extremely powerful had them, that was why there were pinnacle universe true treasures.

But now, Shadow Demon Thunder Staff and Blood Demon Cave Armor were both at the level of Pinnacle Universe true treasures.

The Blood Demon Cave Armor was a pinnacle universe true treasure armor, which was so valuable that even an ordinary Ruler Realm expert would be envious of it.

“Under normal circumstances, even an extremely powerful Principles Master would be very lucky to have an attack weapon at the pinnacle universe true treasure level. It’s impossible for him to have a pinnacle universe true treasure armor. Since this old man left behind such a true treasure, then his

identity..." Jian Wushuang looked at the purple-haired old man in front of him, waves of emotions rose in his heart.

This purple-haired old man should be a Ruler, if he was not mistaken!

"Eh?" Jian Wushuang's expression suddenly changed. He noticed that there was a black ring on the ring finger of the purple-haired old man's right hand.

"Interspatial ring!" Jian Wushuang's eyes lit up. "This Ruler left not only the Blood Demon Cave Armor and the Shadow Demon Thunder Staff, but also the interspatial ring."

Jian Wushuang was overjoyed.

The Blood Demon Cave Armor and the Shadow Demon Thunder Staff alone were invaluable, but now there was an interspatial ring...

The interspatial ring was left by the Ruler. It should contain all the wealth of the Ruler Realm expert and the entire wealth of a Ruler Realm expert. Jian Wushuang was excited just thinking about it.

Jian Wushuang possessed it and took off the interspatial ring on the ring finger of the purple-haired elder.

Since the owner of the interspatial ring had died, Jian Wushuang could use his consciousness to check it. However, when he checked it, he immediately frowned.

"What's going on? How can there be a token in this interspatial ring?"

Jian Wushuang took out the only token left in the interspatial ring with surprise and then sank his consciousness into the token.

In an instant, a vast amount of information surged toward Jian Wushuang.

"I am the Star Thunder Ruler in the mortal world!"

The first sentence of the information revealed the true identity of the purple-haired elder, and it also proved Jian Wushuang's guess.

"He is indeed a Ruler, but I have never heard of the Star Thunder Ruler. There is also the mortal world... There seems to be no mortal world in the dozens of starworlds in the surrounding territories." Jian Wushuang frowned, then he continued reading.

Chapter 3564: Pathetic, Pitiful, Hateful!

"I have been wandering in the unexplored area of Devil Smoke Valley for many years. I accidentally discovered this special space-time and barged into this high platform. From that day onward, I fell into a nightmare of endless years.

"On this high platform, there are 18 human-shaped sculptures. They formed their own magic formations. When I barged into this high platform, they did not wake up. However, when I wanted to leave the high platform, they would immediately wake up and display shocking strength to stop me. I tried my best, but I could not break through their obstruction, nor could I take half a step out of this high platform!

“During this long period of time, I was trapped by these 18 human-shaped sculptures on this high platform.

“After a million years, I racked my brain and tried countless ways, but I still couldn’t break through the array of these 18 human-shaped sculptures. I was almost in despair!

“After being trapped for three million years, I found that although the array of the human-shaped sculptures on this high platform was extremely powerful, it was not impossible for me to break through it. Therefore, I began to study and study the array of the human-shaped sculptures.

“After being trapped for five million years, my staff technique improved greatly, and I finally had the ability to fight these human-shaped sculptures head-on. However, I was only able to compete with one of the human-shaped sculptures. It was still extremely far for me to break through the array formed by eighteen human-shaped sculptures. However, I have already seen a great hope.

“After being trapped for eight million years, my staff technique improved again. Even if I were to face two or three human-shaped sculptures at the same time, I would still be able to do it with ease. This made me even more convinced that I could rely on my own ability to break through these eighteen human-shaped sculpture arrays.

“After being trapped for 10,000,000 years...although my staff skills did not improve greatly, they were still much better than before. My hopes were also growing. However, when the 10,000,000 years period was just over, the 18 human-shaped sculptures that would not take the initiative to attack me as long as I did not try to leave the high platform actually took the initiative to attack me. Moreover, the 18 human-shaped sculptures attacked me at the same time, not giving me the slightest chance to struggle.

“Only then did I understand that these 18 human-shaped sculptures were a test, and the duration of the test was 10 million years. If I could break through these 18 human-shaped sculptures within 10 million years, then I would pass the test. Unfortunately, I didn’t do it.

“18 human-shaped sculptures attacked at the same time. I knew that I was going to die!”

“But I hated it. I couldn’t accept it!

“I was a Ruler. How could I die in this place that no one knew about?

“Even if I was going to die, I couldn’t die a coward. I wanted to let people know about this place. I wanted more people to come here. Most importantly, I wanted people to die with me!

“Then, I threw all the treasures I’ve collected in my life out of the high platform, and let them wander in this space and time on their own. I hope that one day, someone will find these treasures and find this place. I even put my shadow demon lightning rod and Blood Demon Cave Armor in a conspicuous place. I want those who come near the high platform to see the two treasures I left behind, and then charge into the high platform without caring about their own safety. That way, they can follow in my footsteps!

“You’ve been trapped here for tens of thousands of years, and you’ve been working hard with only a tiny bit of hope. In the end, when you finally saw the chance to break out, you were immediately wiped out. How could I be the only one who experienced this despair!?”

“Haha, aren’t you furious and terrified when you see this? It’s useless. From the moment you entered the platform, picked up the command token that I left behind, and saw the contents of the command token, you were destined to be trapped here. You were destined to experience my despair!”

“Haha, be angry and resentful. Remember my name, the Star Thunder Ruler!”

The message finally ended here.

After Jian Wushuang read all the information in the token, he was as shocked and angry as the Star Thunder Ruler said.

“A trap?”

“The Star Thunder Ruler deliberately put his supreme treasure armor and magic weapon in a conspicuous place before he died to attract people to break into the high platform and get trapped here like him?”

“He’s taking revenge! He’s taking revenge on the experts who came to this high platform!”

Jian Wushuang clenched his hands.

In his opinion, the Star Thunder Ruler was really hateful.

He was the one who accidentally broke into the high platform and was trapped here. If he was kinder, he could leave some traces here so that the newcomers would notice the danger of the high platform and not easily break in.

Even if he was not so kindhearted, he would have done nothing and left the newcomers to fend for themselves.

However, he first threw the treasures he had collected all his life out of the high platform and let them float in this special space and time, so as to attract the experts who had mistakenly entered this special space and came to the high platform with the desire for opportunities.

Then he deliberately revealed his two true treasures to make the experts who came to the high platform greedy and then intruded into the center of the high platform.

When Jian Wushuang came to the high platform this time, he saw the two true treasures left by the Star Thunder Ruler at first glance. Although he could not see the specific level of power of these two true treasures, he could tell at a glance that these two true treasures were extraordinary.

The more he could not see the truth, the more attractive they were to the cultivators.

Jian Wushuang could not help but feel that he had already come. He could not come here for nothing, so he entered the center of the high platform.

If he did not have these two supreme treasures, he would have sensed the danger from the beginning and would not have entered the high platform so easily.

“He is a hateful person, but at the same time, he is also very sad, very pitiful!” Jian Wushuang said again.

It was sad because the Star Thunder Ruler, a dignified Ruler, was a super expert who could do whatever he wanted in this territory, but in the end, he was trapped in this place and no one knew about it. It was really sad.

It was a pity that the Star Thunder Ruler had seen a chance to walk out of the high platform in the past tens of millions of years. If he was given more time, he would be able to walk out, however, when the tens of millions of years were up, his hope was gone and he was killed on the spot. His hope turned into despair. It was a pity.

Although Jian Wushuang was angry at such a pitiful person, he could not feel any hatred at this moment.

“Star Thunder Ruler, although you deliberately tricked me, the two supreme treasures you left behind did indeed fall into my hands. It can be considered as a great benefit to me. I still have to thank you. As for whether I can walk out of here alive, it depends on my own luck.” Jian Wushuang took a deep breath, then, he looked at the human-shaped statues around the high platform.

“As expected, the biggest danger of this high platform is these human-shaped statues. When I walked in earlier, I was on guard against them, but I didn’t expect that these statues were not blocking my way in, but would prevent me from leaving.”

Chapter 3565: Human-Shaped Statues

The human-shaped statues on the high platform had no reaction from the moment Jian Wushuang stepped onto the high platform.

“According to the Star Thunder Ruler, these human-shaped statues will only wake up when you try to leave the high platform. They will not wake up completely in the beginning. Only one or two will wake up, but even if it’s just a human-shaped statue, it will crush the Star Thunder Ruler in the beginning.”

“If the Star Thunder Ruler is right and the human-shaped sculpture is so powerful, then the human-shaped sculpture array is too terrifying.” Jian Wushuang frowned. “In any case, I have to try it myself. Besides, the Star Thunder Ruler said that the human-shaped sculpture array is just a test. It won’t kill you directly in the beginning. It will only kill you when the time comes.”

Thinking of this, Jian Wushuang took a deep breath and took out his shadow sword. Then he slowly walked out of the high platform.

Jian Wushuang had only taken two steps...buzz!

The high platform suddenly shook. Then, Jian Wushuang saw a human-shaped sculpture in front of him shake a little and a lot of dust scattered. The human-shaped sculpture slowly moved. At the same time...the eyes of the human-shaped statue opened directly.

These eyes were emotionless and without any intelligence. After opening them, they directly aimed at Jian Wushuang.

“Let’s try.”

Jian Wushuang clenched his teeth and immediately used his life magic power. His body turned into lightning and suddenly shot out.

The moment he moved, the awakened human-shaped statue also moved. It took a series of steps, each step easily crossing hundreds of feet. In a flash, it appeared in front of Jian Wushuang, at the same time, the ancient dark-black longsword in his hand also slashed down.

“Heaven-cleaving skill, no rest until death!”

Jian Wushuang knew how terrifying the human-shaped statue was, so he did not dare to underestimate it. As soon as he attacked, he unleashed his strongest battle strength. Not only did he use the heaven-cleaving skill, but he also used his strongest skill, no rest until death!

Swoosh!

The sword light with endless destructive will, accompanied by endless hatred, slashed out directly.

In the blink of an eye, the sword light collided with the dark black longsword of the human-shaped statue.

Clang!

With a loud sound, Jian Wushuang’s arm shook slightly, and his whole body shot out like a cannonball. He did not stop until he returned to the center of the high platform, which was the corpse of the Star Thunder Ruler, seeing Jian Wushuang return here, the human-shaped statue returned to where it had been standing before, and its eyes were closed.

Jian Wushuang was not frightened by the strength displayed by the human-shaped statue. Instead, he was surprised.

“What’s going on? Didn’t the Star Thunder Ruler say that the human-shaped statue was enough to crush him?”

“However, although the human-shaped statue is very powerful and can crush me, its battle strength is still at the level of a Principles Master, and it hasn’t reached the pinnacle of a Principles Master, but a Principles Master at the pinnacle of the six realm?” Jian Wushuang’s expression was strange, however, he immediately thought of a possibility.

“Could it be that the human-shaped sculpture array is based on the strength of the cultivator trapped in the middle of the high platform?”

“The Star Thunder Ruler is a Ruler Realm expert, so these human-shaped sculptures display the battle strength of a Ruler. Although I have the battle strength of a Principles Master, I’m only an Immortal Saint. So what these human-shaped sculptures display is the battle strength of a Principles Master?”

Jian Wushuang thought of this possibility, which seemed very likely to him.

“Let’s try again.”

Jian Wushuang did not hesitate to try again. This time, although he activated his life divine power, he did not use the heaven-cleaving skill. The battle strength he released was only in the initial stage of the sixth realm, but he still used his strongest move.

The result...was that he was defeated again, the same result as before.

However, after this attempt, Jian Wushuang's eyes lit up.

"As expected, as expected!"

"This human-shaped sculpture array is a test, and this test is determined by the strength of the cultivator. To be exact, it depends on the power of the cultivator!"

"When I used the heaven-cleaving skill, the power I displayed was at the pinnacle of the six realm, so the power displayed by the human-shaped sculpture was also at the pinnacle of the six realm. Later, when I didn't use the heaven-cleaving skill, the power displayed by the human-shaped sculpture was only at the initial stage of the sixth realm, so the power displayed by the human-shaped sculpture was only at the initial stage of the sixth realm."

"The power is exactly the same, even the power of the supreme treasure and the secret skill are the same. The only difference is the secret skill!"

Jian Wushuang recalled the two collisions he had just had with the humanoid statue.

During the two collisions, the swordsmanship displayed by the humanoid statue was the same. The power of the swordsmanship was extremely powerful, even more powerful than the ultimate skill that he had created.

"According to the information left by the Star Thunder Ruler, he has made a lot of progress in his strength over the past tens of millions of years. The progress is mainly in his staff skills. If nothing goes wrong, it should be the strongest ultimate skill that he created!"

"In other words, if you want to break through the human-shaped sculpture formation, you have to rely on your own absolute art. As for other powers or other methods, they are useless." Jian Wushuang's eyes were shining.

He could see that the absolute art displayed by the human-shaped sculpture was still at the peak of rank six, but it was stronger than his deadly one. In other words, as long as he could create a stronger absolute art...in terms of power, it was superior to the absolute art of the human-shaped sculpture, so he could win the head-on collision with the human-shaped sculpture.

If he won the head-on collision, he would not be repelled by the human-shaped sculpture. Instead, he could repel the human-shaped sculpture, and then he could naturally leave the high platform.

Of course, there was not only one human-shaped sculpture on the high platform, but a total of 18. If all the absolute arts displayed by the 18 were like that, then even if Jian Wushuang created a more powerful absolute art at the peak of level six than the human-shaped sculpture...he would still be unable to break through the human-shaped sculpture formation.

At the very least, he had to create an ultimate skill at the sixth rank!

"The strongest ultimate skill!" Jian Wushuang clenched his hands, his eyes shining with a fierce light.

When he was in the Divine Beginning Realm, he had seen Demon Master Chenhuo perform the strongest ultimate skill with his own eyes. The power was indeed earth-shaking.

Demon Master Chenhuo had also put in endless effort to reach that step. Now, he was still very far from that step.

Chapter 3566: Two Consciousnesses

“Fortunately, this human-shaped statue array has a time limit of tens of millions of years, which is enough for me. Let’s take it slowly.”

Jian Wushuang was not in a hurry. He had experienced too many storms and waves in his two lives. He had also experienced many trials of this human-shaped statue array, he was no longer afraid, and it was useless even if he was afraid.

With the facts in front of him, he could only try his best to pass this trial.

“This human-shaped statue happens to use a sword as a weapon. Its swordsmanship is extremely powerful and contains profound mysteries. I can observe it during the battle. Although I have attacked twice in a row, I have only met it head-on twice. I wonder how its swordsmanship is in other aspects.” Jian Wushuang smiled slightly, then he struck again, and swept toward the figure.

Soon Jian Wushuang and the human-shaped sculpture again.

While Jian Wushuang was trapped in the middle of the high platform and fighting with the human-shaped sculpture, behind the high platform, in the deepest part of this special space-time, there was a consciousness that had been sleeping for God knows how many years, and then he woke up.

“Has someone come to this place again, and is breaking through the eighteen deadly arrays?”

“The last time someone came to challenge the eighteen absolute formations was three chaos cycles ago. Although the person who came to challenge the eighteen absolute formations ended up dying within it, he was still a Ruler-level figure, and he was more or less on the verge of passing through it. But this time, the only person who came was an Immortal Saint?”

“I didn’t expect a mere saint to be able to come to this space-time. How interesting.”

This consciousness was obviously awakened in the deepest part of this space-time, but it seemed to have complete control over everything in this space-time.

Like what happened to Jian Wushuang on the high platform, this consciousness was also very clear.

“Third brother, third brother.” This consciousness suddenly let out a deep voice, echoing in the deepest part of this space-time.

Not long after, another consciousness also woke up in the deepest part of this special space-time.

“What’s the matter?” A cold voice was heard.

“Have you seen that little guy who is challenging the eighteen ultimate formation?” The first consciousness said.

“He is just an ant. Is He worth you waking me up?” The second consciousness said coldly.

“The saint level is indeed an ant, but this little guy’s ability is extraordinary. Didn’t you see that he has already created the Pinnacle Absolute Art of a Principles Master?”

“Moreover, his battle strength doesn’t seem to be much weaker than an ordinary Principles Master of the sixth realm. A mere saint can actually possess such battle strength. If I’m not mistaken, his life level should be extremely high. He might even be a legendary perfect level life form. Such a life form is as rare as a phoenix feather or a qilin horn even in the vast universe.” The first consciousness said.

“So what? Even though perfect level life forms are rare, it’s not like there aren’t any in the vast universe. However, how many people can reach the peak? Not to mention standing at the top of the universe, even stepping into the position of supreme being would be extremely difficult. And this little fellow, even though he has a perfect level life form, from the moment he stepped into this space-time and entered the eighteen ultimate formations, his fate was already determined. Over tens of millions of years, he will never be able to break through the eighteen ultimate formations. In the end, he will still die.” The second consciousness said coldly.

“Mm, you’re right. The eighteen ultimate formations left behind by master are an extremely terrifying test even in the vast universe. In addition, these tests usually target cultivators at the Ruler Realm. If this little fellow is already a Ruler, then with his talent, he might have a chance to make it through in ten million years. Unfortunately, when he entered this formation, he was only an Immortal Saint...”

“The test that the Immortal Saint will face in the eighteen ultimate formations will be tens or even hundreds of times more difficult than that of a Ruler Realm cultivator. After all, it is indeed inconceivable for an Immortal Saint to reach that level in absolute arts. However, when this little fellow entered the eighteen ultimate formations, he already created a peak tier 6 absolute art. His starting point is already very high, so there might be a slight chance.” The first consciousness said.

“Humph, a slight chance? Maybe, but do you think he can succeed?” The second consciousness snorted.

“This...” The first consciousness hesitated for a moment, but smiled bitterly.

“Fourth, don’t forget, we are now at the edge of the universe. It can be said that we are in the barren land of the vast universe. The cultivators born in this barren land are far inferior to those born in the core area of the universe in terms of talent, comprehension, and other aspects. Master had such a great reputation and power in the deepest part of the universe. He had rushed to this space and time for countless years, and there were countless people who deliberately came to challenge the 18 ultimate formation. But in the end, only three people were able to pass!”

“Those three are all top-tier beings in the universe. In fact, they can be said to be the most incredible geniuses. Later on, they became autarchs one after another, and all of them were the most terrifyingly powerful of them all. However, two of them passed the tests at the Ruleric level, while the other was a Principles Master. This Little Fellow is merely an Immortal Saint. Do you think that this little fellow, who was born in a barren land, is even more monstrous than the three decision-making geniuses who passed the eighteen absolute formations?”

“Even though this little guy has a perfect level life form, his life level is only an innate advantage. Even though he has endless potential, it doesn’t explain his talent.” The second consciousness said.

“You’re right.” The first consciousness nodded, obviously agreeing with this point.

In their opinion, not to mention this barren land at the edge of the universe, even if there were super geniuses from all corners of the universe in the deepest parts of the universe...there probably would not be a super monster who could break through the eighteen absolute arrays at the level of the Immortal Saint.

“Third brother, if you have time to pay attention to that little fellow, why don’t you sleep well and recover from your injuries? We followed our master in battle and have been down and out since then, but you probably don’t want to continue like this, right? Only by doing our best to recover can we get out of this predicament as soon as possible.” The second consciousness said.

“Understood.” The first consciousness nodded and immediately fell silent.

The two consciousnesses quickly fell into a deep sleep again. The deepest part of this vast space-time was once again completely silent. Not a single sound could be heard.

Chapter 3567: Evolution of Sword Techniques

The vast universe was vast and boundless.

The territory where the Divine Beginning Realm was located did indeed belong to the edge of the universe. It could also be said that it was a barren land of the universe.

However, the universe had its own laws. Although this territory did not have such excellent cultivation conditions as those in the depths of the universe, it had three great battlefields filled with endless opportunities.

For a long time, experts from various forces in the astral world of this territory had competed to explore these three battlefields.

Jian Wushuang was now in a special space-time in the unknown region deep in Devil Smoke Valley.

Because this place was an unknown region, no one knew about it, and no one would be able to find it.

When Jian Wushuang was trapped in this special space-time, he was completely cut off from the outside world. He could only explore the human-shaped sculpture array day after day, trying his best to improve his swordsmanship, to improve his absolute art.

Time passed by quickly, and 1,800 years passed in a flash.

1,800 years was a long time for Jian Wushuang in this life, but for many cultivators in the universe, it was very short, almost in the blink of an eye.

In addition, 1,800 years was a long time compared to the tens of millions of years of the human-shaped sculpture array.

On the high platform, Jian Wushuang’s eyes were like lightning and he was still fighting with the human-shaped sculpture with the Shadow Divine Sword in his hand.

However, unlike before, he did not show any power at all. He did not use the power of several wills he had mastered, including some secret skills and the power of the Blood Crystal Armor, he knew that these powers would have no effect on him breaking out of the array.

No matter how much power he showed, even if he showed the power of a Ruler, the humanoid sculpture would show the same power as him.

Therefore, he simply relied on his basic divine power to fight with the humanoid sculpture. The difference was his swordsmanship.

Compared to 1800 years ago, Jian Wushuang's swordsmanship had improved greatly.

Whoosh!

A ghostly purple phantom, like an extremely agile purple demonic beast, jumped down from above and slashed toward the shoulder of the humanoid sculpture.

"Level six pinnacle absolute art, purple charm!"

The humanoid sculpture simply moved and easily avoided the Purple Phantom. At the same time, the dark-black longsword in his hand quickly slashed down like a black lightning bolt.

Jian Wushuang had been prepared for this. A wave of destructive will suddenly swept up and burst out with a deadly hatred.

"An absolute art at the peak of level six, deadly!"

Bang!

A low collision sound was heard. Jian Wushuang and the human-shaped sculpture both retreated. However, the moment Jian Wushuang steadied himself, the Absolute Shadow Divine Sword in his hand strangely pierced like a meteor phantom, it pierced directly into the chest of the human-shaped statue, and a terrifying strangling power suddenly erupted.

"The sixth stage pinnacle skill, Sword Rainbow!"

However, the sword was still blocked by the human-shaped statue.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

One after another, sword lights and sword shadows lit up in the void on the high platform, and the terrifying sword essence filled the entire high platform.

Jian Wushuang displayed his swordsmanship to the fullest. The human-shaped sculpture did not emit any aura, but it could still easily deal with Jian Wushuang's swordsmanship.

In the blink of an eye, Jian Wushuang fought fiercely with the human-shaped sculpture for an hour before finally stopping. Jian Wushuang returned to the center of the high platform.

After he returned, Jian Wushuang took a deep look at the human-shaped sculpture that had closed its eyes again and let out a long sigh in his heart.

"1,800 years. I have studied swordsmanship for 1,800 years. I have made great progress in swordsmanship, but I am only on par with this human-shaped sculpture. I am even slightly inferior." Jian Wushuang sighed in his heart.

In the past 1,800 years, he had fought with this human-shaped sculpture many times. As he fought, he realized that this human-shaped sculpture did not only know swordsmanship, but also swordsmanship in all other aspects, it was extremely terrifying among the top-tier sixth-level absolute arts.

Because of this, he was completely crushed by this human-shaped sculpture even after using all of his skills at the beginning. However, as he fought and observed it over and over again, he also gained some insights into swordsmanship, gradually, his swordsmanship improved as well. After 1,800 years, his swordsmanship had indeed improved tremendously.

In terms of swordsmanship alone, other than the deadly attacks at the beginning, he had created a total of three sword techniques. These three sword techniques were all peak tier 6 ultimate techniques, and among those peak tier 6 ultimate techniques...they were all extremely powerful.

There was also the deadly attacks. In the past 1800 years, he had improved and improved several times. Now, he could rely on this move to fight head-on with the humanoid sculpture. At the very least, he would not be at a disadvantage, it could be said that his sword techniques had improved too much.

However, even so, he could not gain the slightest advantage in this fierce battle with the humanoid sculpture. He could not even break through the obstruction of the first humanoid sculpture, not to mention the other 17 humanoid sculptures that had yet to make a move.

“My swordsmanship has already improved greatly. Furthermore, the few sword techniques I created should have reached the peak of tier 6 ultimate arts, but they still can’t break through the obstruction of this human-shaped sculpture. It seems that if I want to break through the obstruction of this sculpture, I must create the strongest ultimate art. As for this strongest ultimate art...this human-shaped sculpture doesn’t know how to use it, so I have no way to observe and experience it. I can only slowly comprehend it myself.”

“Fortunately, my comprehension of sword principle has reached a new level, and I have created the four strongest absolute arts of the peak of the six states. It’s not too difficult to create the strongest absolute arts based on this.”

Jian Wushuang took a deep breath and sat down with his legs crossed. Soon, he closed his eyes.

He knew very well that without any reference or observation, he could only create the strongest absolute arts by evolving and simulating them in the depths of his mind, only when he had a rough model of swordsmanship in his mind could he try to follow it.

Therefore, the most important thing for him now was the evolution of swordsmanship.

From that day on, Jian Wushuang did not fight with the human-shaped sculpture. Instead, he sat cross-legged in the center of the high platform without moving at all. All kinds of swordsmanship appeared in his mind, these sword techniques kept combining and evolving to form new sword techniques.

Time passed quietly.

Chapter 3568: The Most Powerful Ultimate Skill, Starfire Burning Sun! Translation

Another 1,200 years passed in a flash. Jian Wushuang had been trapped in this high platform for 3,000 years, including the 1,800 years he had spent before.

During the 1,200 years, Jian Wushuang did not move at all. He had been sitting cross-legged and thinking about various sword techniques. It was not until this moment that he slowly opened his eyes.

"It's about time. If the evolution of swordsmanship in my mind is correct, then the final sword move that I have evolved should be able to reach the level of the strongest ultimate skill. Now I can only keep trying and practicing it." Jian Wushuang took a deep breath, then he stood up.

He glanced at the motionless humanoid sculpture with its eyes closed, and in the next moment, he directly rushed out.

The moment he moved, the human-shaped statue immediately woke up and rushed forward with a dark-black longsword in its hand.

The two of them met head-on on the high platform. Jian Wushuang did not dodge and directly used his swordsmanship to meet it head-on.

"Cut!"

A low shout came out of Jian Wushuang's mouth, and the shadow-killing sword in his hand turned into a purple graceful sword. It was extremely violent and swift.

The human-shaped statue also slashed out its dark black longsword.

The two sword shadows collided head-on.

Bang!

A low sound of collision rang out. The two powerful forces collided, but the human-shaped statue was the first to be unable to withstand it. It took a few steps back.

"As expected, I have the upper hand." Jian Wushuang smiled.

The sword skill he had just displayed was the sword skill that had evolved in his mind over the past 1,200 years.

In his opinion, this swordsmanship could reach the level of the strongest absolute art. However, because he had just evolved it and had not really tried to practice it, it was naturally impossible for him to directly reach the level of the strongest absolute art, however, it was still much stronger than the average peak level six absolute art.

Therefore, he had gained the upper hand when he fought head-on with the human-shaped sculpture.

This was the first time that Jian Wushuang had gained the upper hand in the collision with the human-shaped sculpture after being trapped on the high platform for so many years.

"I have just evolved, and now I have such power. It proves that my evolution is not wrong. Next, I just need to keep practicing." Jian Wushuang's eyes were shining. "Again!"

He immediately rushed toward the human-shaped sculpture again and chose to fight head-on.

Bang!

It was another confrontation. Jian Wushuang used the same sword move, but the power of this sword move was obviously a little stronger than the previous one, and it had a greater advantage in the collision with the human-shaped sculpture.

“Haha, continue!”

Jian Wushuang’s face was full of smiles as he rushed forward to meet the human-shaped sculpture head-on again and again.

He attacked again and again, displaying the swordsmanship that had evolved over 1,200 years. During this practice, the power of the swordsmanship had been increasing.

At first, he only had a slight advantage in the head-on collision with the human-shaped sculpture, but gradually, the advantage grew until it was completely crushed. Every head-on collision., the human-shaped sculpture was almost pushed back by him by hundreds of feet.

Until the 171st collision between Jian Wushuang and the human-shaped sculpture.

“It’s like a volcano that has been dormant for many years suddenly erupting. The most important part of my sword attack is the instantaneous explosive power!”

“Instantaneous...explosive power!”

Jian Wushuang’s eyes flashed with a fierce light, and the Shadow Divine Sword in his hand emitted a faint purple cold light. In an instant, he slashed out.

The sword shadow swept across the air, but in the process, it seemed to form a burning purple flame and instantly covered the human-shaped sculpture.

After all, the human-shaped sculpture had no intelligence and was only blindly using sword skills to resist. However, when the two sword lights collided, the purple flame contained an earth-shaking power, it was like a volcano that had been silent for hundreds of millions of years suddenly exploded and destroyed the world in an instant.

Boom!

A violent explosion was heard, and the surrounding void faintly trembled.

The human-shaped sculpture had been completely swallowed by the terrifying power that erupted from the Shadow Divine Sword.

Whoosh!

Like a meteor, the human-shaped sculpture was completely blown away and directly flew out of the high platform. However, because of the material of the human-shaped sculpture, Jian Wushuang’s sword attack did not really cause any damage to it.

However, the result of sending the human-shaped statue out of the high platform was already a pleasant surprise to Jian Wushuang.

“The most powerful ultimate skill has been achieved!”

Jian Wushuang clenched his hands, his eyes filled with unconcealable ecstasy.

The moment he sent the human-shaped statue out of the high platform, he knew that the power of his sword attack had indeed reached the level of the most powerful ultimate skill.

After 1,800 years of refining and upgrading his swordsmanship, and then 1,000 years of evolution, he finally created his most powerful ultimate skill.

He had already thought of the name of this ultimate skill.

“When this swordsmanship is performed, it’s like a sky full of sparks devouring everything. Its name should be Starfire Burning Sun!” Jian Wushuang said with a smile.

The most powerful absolute art created by Jian Wushuang, Starfire Burning Sun, was born.

When Jian Wushuang created Starfire Burning Sun and sent the human-shaped sculpture flying out of the high platform, the first consciousness woke up again in the deepest part of this special space-time.

“He created the most powerful level six absolute art in just 3,000 years? He’s quite capable.”

The consciousness could not help but praise him at first, but then he said, “But he has already created a top-tier skill of the sixth rank when he arrived, so his starting point is quite high. It’s not too shocking for him to create the strongest skill of the sixth rank in 3,000 years. Moreover, the Immortal Saint can’t just create the strongest skill of the sixth rank to pass the 18-skill formation. He is still far from passing the 18-skill formation.”

With that, the consciousness went silent again.

Of course, Jian Wushuang did not know the existence of this consciousness at all, nor did he know how it evaluated him. He was only happy and surprised at his breakthrough in swordsmanship, at the same time, he began to look forward to the human-shaped sculpture array.

“I have created the most powerful skill of the sixth realm. A single human-shaped sculpture is no longer a threat to me, but I wonder if I can break out of this high platform now.”

Taking a deep breath, Jian Wushuang arrived at the central area of the high platform in the next moment.

Chapter 3569: Six Human-Shaped Sculptures

Previously, Jian Wushuang had only tried to rush out of the high platform. As soon as he moved, the human-shaped sculpture closest to him would wake up and stop him. He had been unable to break through just one human-shaped sculpture, naturally, the other human-shaped sculptures did not wake up.

But now, the humanoid statue had been thrown out of the high platform. He had successfully arrived at the middle of the high platform. When he arrived here, a total of five humanoid statues around the high platform opened their eyes at the same time, including the one that had been thrown out of the high platform by Jian Wushuang, a total of six humanoid statues moved to kill him at the same time.

“Only six?” Jian Wushuang frowned.

He thought that he had created the most powerful skill and broken through the first human-shaped statue, so the next 17 statues should all wake up. However, only six of them attacked, only one-third of them, the remaining 12 statues still did not move.

“Can six human-shaped sculptures stop me?” Jian Wushuang’s expression was cold.

After all, there was a huge gap between an absolute art at the peak of the sixth rank and the most powerful absolute art at the sixth rank.

The difference in the power of the absolute art was more than 10 times.

This meant that Jian Wushuang could easily crush any human-shaped sculpture. However, if six of them joined hands, he could still crush them with the Starfire Burning Sun move.

Soon, Jian Wushuang made his move.

Boom!

The power burst out. Jian Wushuang’s shadow sword emitted a faint purple cold light and slashed out in an instant.

The Sword Shadow swept out, forming a raging purple flame that covered the six human-shaped sculptures in front of him.

The six human-shaped sculptures immediately made their moves. They stood in front of Jian Wushuang and attacked together. The posture and power of the six human-shaped sculptures were exactly the same, it was exactly the same as the swordsmanship of the human-shaped statue that Jian Wushuang had been fighting for 3,000 years.

The swordsmanship was only at the peak of stage six.

However, after the six human-shaped statues displayed their swordsmanship, an incredible scene appeared.

The six human-shaped statues displayed their swordsmanship individually, but after they displayed their swordsmanship, the swordsmanship of the six human-shaped statues immediately formed a whole, as if their swordsmanship was a whole, the six Sword Shadows also completely merged into one, instantly forming an incredible sword shadow that slashed toward Jian Wushuang.

Boom!

The Sword Shadow swept through the battle as if it was a piece of dried twigs. The burning purple flames that covered the entire sky disappeared in an instant, and Jian Wushuang’s sword move completely disintegrated.

The power of the sword shadow was still applied to Jian Wushuang. Jian Wushuang only felt an incredible power rushing toward him, instantly pushing him back to the starting point, which was the center of the high platform.

After returning to this place, the six human-shaped sculptures immediately stopped and returned to where they were standing and closed their eyes again.

However, at this moment, Jian Wushuang's mind was in a daze.

"How, how could this be?"

Jian Wushuang's face was full of disbelief.

After all, he had created the most powerful skill of the sixth stage. His Starfire Burning Sun move was obviously much more powerful than the swordsmanship displayed by the human-shaped sculptures, even more than ten times, however, when the six human-shaped sculptures joined hands and displayed the same swordsmanship, they actually merged together and completely crushed him.

"A formation. These human-shaped sculptures use a special formation." Jian Wushuang narrowed his eyes slightly.

He could see that these human-shaped sculptures combined their swordsmanship with a special formation to form a whole. After forming a whole, the swordsmanship was dozens of times more powerful than the swordsmanship displayed by each of them, it was much stronger than his Starfire Burning Sun, which was why he was crushed.

"I thought that as long as I created the strongest sixth-level skill, I would have a chance to pass through this high platform. But now it seems that I'm still far from it." Jian Wushuang felt bitter in his heart.

The swordsmanship power formed by the combination of six human-shaped sculptures was much stronger than the strongest skill he had created. So if ten human-shaped sculptures joined hands...or if all 18 sculptures joined hands? Then what incredible power would they have after combining their swordsmanship?

"It's not enough. Creating the strongest absolute art of the sixth realm is not enough to break out of this array. It's far from enough!"

"If these 18 sculptures can perfectly combine their swordsmanship and increase the power of their swordsmanship by dozens or even hundreds of times, then if I want to break through this place, I have to create at least the Ruler Realm, which is a seventh-level absolute art!" Jian Wushuang's face was very ugly.

A rank seven secret art was a Master Realm secret art.

Under normal circumstances, only experts at the Master Realm could create such a secret art. Of course, a few heaven-defying experts at the pinnacle of the six realm could also create such a secret art, but after all, there were too few of them, in this territory, there were not many experts at the pinnacle of the six realm, but among these experts, there was probably no one who had created a Master Realm secret art.

If there was one person, Jian Wushuang knew it was Di Shisan!

Di Shisan, the leader of the Seven Star Mysterious Sect, who had a great relationship with Jian Wushuang.

According to Elder Dark Bone, Di Shisan was a genius of sword principle. His understanding of sword principle had reached a new level, which many experts at the Ruler Realm had never been involved in.

His understanding of sword principle was so high, it was no surprise that he must have created a Master Realm absolute art.

However, Jian Wushuang could not find another person in this territory besides him.

What kind of person was Di Shisan?

He was definitely a shocking sword principle genius.

Jian Wushuang was not so arrogant as to be able to compete with such a sword principle genius.

Moreover, Di Shisan was a genuine Principles Master, and he was also a Principles Master at the pinnacle of the six realm. However, Jian Wushuang was just an Immortal Saint.

For an Immortal Saint to create at least a level seven absolute art, the test of the human-shaped sculpture array was so harsh that it was unbearable.

"This test..." Jian Wushuang clenched his hands, feeling a little angry.

He was angry because the test was too difficult.

He had been through all kinds of tests in his two lives, but he had never felt that it was so difficult.

It was so difficult that he even felt a little hopeless.

"No, I can't be anxious, and I can't be completely hopeless."

Jian Wushuang clenched his teeth and quickly calmed down.

Chapter 3570: Death?

Jian Wushuang had experienced many storms, so he could remain absolutely calm no matter how angry he was.

He knew very well that this human-shaped sculpture array was a test. Since it was a test, he naturally had a chance to pass it. Even if the chance was slim, there was still a glimmer of hope.

Moreover, this test had a duration of 10 million years, which was an extremely long time for Jian Wushuang.

"I can't be impatient. After all, I've only been trapped on this high platform for 3,000 years. I still have enough time. If I devote myself to studying sword principle and swordsmanship in the remaining long years, who knows what level I will reach?" Jian Wushuang clenched his hands, his heart also became firm.

Then, Jian Wushuang looked at the human-shaped statues in front of him.

"The six human-shaped statues just now displayed swordsmanship at the peak of the skill level, but when they combined their swordsmanship, the power of their swordsmanship suddenly increased by dozens of times. How did their swordsmanship merge together? And how did the power of their swordsmanship suddenly increase so much?" Jian Wushuang was full of doubt and puzzlement, soon, he fought with the six human-shaped statues again.

This time, Jian Wushuang wanted to see how the human-shaped statues combined their sword skills to increase their power.

The process of combining sword skills would certainly be of great help to his swordsmanship and sword principle.

On the high platform, Jian Wushuang was soon immersed in the bitter cultivation of his swordsmanship.

Time passed quickly.

In the blink of an eye, Jian Wushuang had been trapped on the high platform for 10,000 years.

During these 10,000 years, the special space-time was certainly calm, but the outside world of this special space-time was still in a state of fervor.

Especially in Star Palace.

"It has been 10,000 years. After Heavenly Sword Marquis entered the unexplored area of Devil Smoke Valley, there has been no trace of him for more than 10,000 years. I'm afraid he has already met his doom."

Several high-level experts of the Star Palace gathered together. Among them, the master of seven emotions was the first to speak.

"The three great battlefields are extremely dangerous. Therefore, not only our Star Palace, but also experts from the surrounding star realms and various forces will maintain contact with the outside world while adventuring in the three great battlefields. Every once in a while, they will take the initiative to report their situation to the higher-ups. They will also let the higher-ups of the forces they are in know that he is at least still alive. But now, little friend Heavenly Sword Marquis has been missing for a full 10,000 years..."

"According to what we know, little friend Heavenly Sword Marquis hasn't been born in the Divine Beginning Realm for more than 10,000 years. Now, he has disappeared for such a long time. Moreover, he is in an unexplored region. Most likely, he has already fallen," Axe One Master added.

Hearing this, the people around them also fell silent.

If one suddenly lost contact with the outside world while adventuring in the three battlefields, it was possible that they had fallen into some sort of predicament or special space-time. Falling into these places did not mean that they would fall.

However, such a place would not be trapped for long. 10,000 years was indeed too long.

Moreover, someone had seen Jian Wushuang enter the unexplored area in the depths of Devil Smoke Valley.

Many dangers in the unexplored area were unknown. If one was careless, even a Ruler Realm expert could die instantly, let alone an ordinary Principles Master, Jian Wushuang had completely disappeared not long after entering the unexplored area, and it took him 10,000 years in an hour. It was almost certain that he was dead.

"It's a pity. It's really a pity." Marquis Duan Yu could not help sighing, "The Heavenly Sword Marquis is extremely talented, and his potential is limitless. If he did not die, his future achievements would be immeasurable. But now...sigh!"

"He can't blame anyone. He can only blame himself." Seven Emotions Master said in a low voice, "I said before that although Heavenly Sword Marquis has some strength, he is only an Immortal Saint. He still has a lot of room to grow, and there is no need to rush to the three battlefields. However, he went to the three battlefields, and he went to the unknown region in the depths of Devil Smoke Valley alone!"

"Even some top Principles Masters don't dare to take risks in that place. As an Immortal Saint, it would be strange if he didn't die there."

Seven Emotions Master was the only one among the four who had not dealt with Jian Wushuang. Therefore, she did not have to be too emotional about Jian Wushuang's death. At most, she felt a little pity.

"Heavenly Sword Marquis, you are indeed a little too impulsive this time," Marquis Duan Yu said.

"Ladies and gentlemen, although this Heavenly Sword Marquis has been missing for 10,000 years, we can not be sure that he is dead. Perhaps he still has a chance to live?" Star Saint Master, who had not spoken up, said.

"Yes, it is too presumptuous to say that Heavenly Sword Marquis is dead now. We should wait for a while. If there is still no news from him, we can announce his death later," Axe One Master said.

Jian Wushuang was now known as Blood Sword Master, and he had a certain reputation in the three battlefields. Most importantly, Axe One Master knew Jian Wushuang's true identity and strength, he also knew how much their Palace Master valued Jian Wushuang. This could be seen from the fact that Desolate Emperor, the Heaven Ancestor, had summoned Jian Wushuang alone.

It was not appropriate for such an important figure to conclude that Jian Wushuang was dead, so they could only wait.

"By the way, I heard that when the Heavenly Sword Marquis was in the Divine Beginning Realm, he was still a member of the Temporal Temple. The founder of the Temporal Temple, the spacetime Ruler, has extraordinary means. The experts of the Temporal Temple under his command all left their life aura in their divine seats. We can send someone to the Temporal Temple to see if his divine seat is still there," Axe One Master said.

"It's useless."

As soon as Axe One Master finished speaking...Seven Emotions Master shook his head and said, "I've heard of the divine seat that contains the aura of life. It's not only in the Divine Beginning Realm, but also in some big forces in other astral worlds. But that thing is only useful in or around the astral world. If the cultivator is too far away from the divine seat, then he can't sense it."

"Right now, Heavenly Sword Marquis is in an unknown area deep in Devil Smoke Valley. It's too far away from the Divine Beginning Realm. Even if Heavenly Sword Marquis has fallen there, his divine position in the Divine Beginning Realm will not change."
