

Swordsman 3741

Chapter 3741: Master Qing

Jian Wushuang, who was besieged by the two Rulers, released sword essence and terrifying sword light one after another.

The sword light was swift, violent, ethereal, or as fast as lightning!

Relying on his swordsmanship, Jian Wushuang was not at a disadvantage when fighting against the two Rulers at the same time. Instead, he had completely suppressed the two Rulers.

Yes, he was suppressing them!

Although the Ruler Tyrant Axe's axe skill was overbearing and powerful, it was not exquisite enough. Previously, Jian Wushuang was able to gain the upper hand in a head-on fight with him. Now, he did not choose to fight head-on, instead, he used his exquisite swordsmanship to fight fiercely with him. With one sword move after another, the Ruler Tyrant Axe could only struggle to resist.

As for Pupil Master, his strength was much weaker than the Ruler Tyrant Axe's. It was even easier for him to crush Jian Wushuang with a thunderbolt-like method.

Even if it was one against two, the two masters were still no match for him.

"Too strong!"

"One against two, but he suppressed the two masters?"

"Is this the true strength of Blood Sword Master?"

The surrounding Principles Masters were all stunned.

If they had not seen it with their own eyes, they would never have believed that a Principles Master could be so strong.

Now that they thought about what the Tyrant Axe Ruler and Pupil Master had said, Jian Wushuang was only a Principles Master, so his body-protection ability should not be that strong. They could find an opportunity to kill him. It seemed to be a joke.

Both of them had been crushed by Jian Wushuang. How could they find an opportunity to kill him?

Even if Jian Wushuang's protective ability was not strong, could they touch his divine body?

"How? How could this be?" The Tyrant Axe roared in disbelief.

"This kid's swordsmanship is so terrifying. When he fought with me 3,000 years ago, his swordsmanship had not reached such a terrifying level," Pupil Master also hissed.

He did not know that during the 3,000 years, Jian Wushuang had been meditating under the Sword Stone. Although most of the time, he was meditating to perfect the Earth Guard, while he was meditating, his understanding of sword principle was constantly improving, and his swordsmanship was also constantly improving.

In addition, when Jian Wushuang fought with him 3,000 years ago, he did not use his full strength.

If he did not use his full strength, Pupil Master would not be able to resist.

Heaven and earth shook.

Jian Wushuang's terrifying strength shocked everyone present.

The surrounding Principles Masters who were watching the battle had some illusions about the strongest Flight Type True Treasure, but now that they saw Jian Wushuang's terrifying strength with their own eyes...even the two Rulers were crushed by Jian Wushuang.

This scene made the Principles Masters lose interest in the black wings.

"The two Rulers were suppressed by Blood Sword Master even when they joined hands. Do we have to wait for the third Ruler to come in person before we have a chance to subdue Blood Sword Master?"

"The third Ruler?"

Everyone was moved.

But at this moment...

"He's here! The third Ruler is here!" A cry of surprise suddenly sounded.

Everyone immediately looked over and saw a cyan figure appearing in the void in front of the battlefield.

It was an absolute beauty in a cyan robe. Her face was cold as if she did not belong to the mortal world. A faint divine power aura spread from her body.

Although the divine power aura was very weak, everyone present was shocked when they sensed it.

Even Jian Wushuang, the Ruler Tyrant Axe, and the Pupil Master, who were fighting fiercely on the battlefield, were shocked when they sensed the divine power aura.

It was because the divine power aura was much stronger than the divine power aura of an ordinary Senior Ruler.

There was no doubt that the person who came was a Superior Ruler!

"Master Qing!"

"It's Master Qing from the Heavenly Lake Astral World!"

"It's her?"

Many Principles Masters around started to tremble.

Master Qing was different from the other Rulers in this astral region. She had been around for a long time and had been famous for a long time.

She was a Ruler who had just risen, and it had only been a million years since then.

And it had only taken her a few hundred thousand years to become one of the top Rulers.

Without a doubt, she was a true genius.

The Heaven Lake Astral World was the same as the Divine Beginning Realm. It was only a third-grade astral world that had yet to reach its peak. However, because of Master Qing's existence, the countless forces in this astral world did not dare to provoke her.

After all, she was a genuine Superior Ruler.

In this star area, aside from Master Qing, there were no more than five known Superior Rulers who were still in the star area.

Such a Ruler was certainly awe-inspiring.

"Haha, Master Qing is actually here. I don't have to worry that no one can subdue you." Pupil Master stared at Jian Wushuang and sneered.

"Humph, even if Master Qing can subdue me, I'll only give him the black wings. As for Pupil Master and Ruler Tyrant Axe, I'm afraid you two should stop thinking about it." Jian Wushuang sneered.

Ruler Tyrant Axe and Pupil Master's eyes immediately darkened.

Of course, they longed for the black wings.

However, what Jian Wushuang said was the truth. Since Master Qing was here, Jian Wushuang would only give her the black wings even if she could subdue him with the strength of a Superior Ruler, he would never give them the black wings.

If Master Qing got the black wings, they would not even have the desire to fight for it.

Snatching a Supreme Treasure from a Superior Ruler? That would be a joke.

"You are the Blood Sword Master."

Master Qing stood at the edge of the battlefield and did not immediately enter the battlefield. Instead, she stared at Jian Wushuang coldly.

"It's me."

Jian Wushuang, Ruler Tyrant Axe, and the other two stopped. Jian Wushuang smiled and said, "Master Qing is here for the wings, right?"

"Yes." Master Qing nodded. "The strongest Flight Type Supreme Treasure is not something you can have. Hand over the wings, and I promise to give you an Attack type Supreme Treasure, a pinnacle Suppression Type, a pinnacle soul defense type, and a pinnacle Flight Type Supreme Treasure as compensation."

"Oh?" Jian Wushuang raised his eyebrows and nodded inwardly.

It had to be said that Master Qing was quite kind. She did not directly snatch it from the beginning, but was willing to hand over True Treasures in exchange.

Although the price she was willing to pay for the True Treasure was not as high as that of the strongest Flight Type True Treasure, it was still pretty good.

Unfortunately, it was not easy to get a chance to get a Supreme Flight Type True Treasure. Naturally, Jian Wushuang would not let it go so easily.

...

Chapter 3742: Three Spears

“Master Qing, I’m sorry. This flying Supreme True Treasure is very useful to me, so I can’t agree to it,” Jian Wushuang said.

“You can’t agree?” Master Qing’s expression remained unchanged. “Then I’m sorry.”

“What? Master Qing, as a Superior Ruler, is going to attack me, a Principles Master, without any regard for my reputation?” Jian Wushuang laughed.

“Yes, you are a Principles Master. But in terms of combat strength, you can suppress both the Ruler Tyrant Axe and the Pupil Master. I’m not far from a Superior Ruler. How can I attack you without respect?” Master Qing’s voice was cold.

“But I’m a Superior Ruler, so I won’t bully you. How about this? You take three of my strikes, and if you aren’t seriously injured by me after three strikes, I’ll turn around and leave.”

“Oh?” Jian Wushuang raised his eyebrows, but he found it funny in his heart.

Master Qing seemed to be merciful. As long as he was not seriously injured by the three strikes, she would leave.

But in fact, all the smart people knew that Master Qing would try her best to unleash her strongest battle strength as a Superior Ruler.

If Jian Wushuang could not withstand the three strikes and was killed or seriously injured, Master Qing would continue to attack.

However, if Jian Wushuang could withstand the three strikes and was not seriously injured...even the strongest attack could not seriously injure Jian Wushuang, it meant that Master Qing could not kill Jian Wushuang at all, so she had to leave.

In other words, Master Qing did not say these words to show mercy, but to make it sound nice.

If she was really worried about her status as a Superior Ruler, she should say that if Jian Wushuang did not die in the three strikes, she would immediately turn around and leave.

Just that she did not injure him severely..

If she could injure him severely, it meant that she had the ability to kill Jian Wushuang.

If she could not injure him severely, she could do nothing to Jian Wushuang.

“Master Qing, what you said is really nice.” Jian Wushuang smiled faintly, but he still nodded and said, “Okay, let me see how strong a Superior Ruler is.”

Jian Wushuang was also looking forward to it.

He had come into contact with a Superior Ruler before, and that was the Heaven Roc Ruler of the North Sea Palace.

The Heaven Roc Ruler had also attacked him, but the Heaven Roc Ruler had been holding back and had not used all of his strength.

Moreover, Jian Wushuang's strength was still relatively weak at that time, so he could not fully feel the gap between him and the Heaven Roc Ruler.

But now it was different.

"Master Qing, show me your spear skills."

Jian Wushuang held the Netherworld Divine Sword with one hand, and his divine power surged crazily.

He would not underestimate a superior master. He had already exerted the power of the universe principles to the maximum.

Master Qing's eyes were cold. With a flip of her hand, a silver spear appeared in her hand.

The silver spear was at least two meters long. The moment it appeared in Master Qing's hand, a cold chill instantly swept out. The surrounding void immediately froze under the attack of the chill, the entire world became extremely cold.

"What a cold spear!"

Jian Wushuang glanced at the silver spear in Master Qing's hand. There was no doubt that the silver spear in Master Qing's hand was a Supreme True Treasure magic weapon.

In terms of power, it was definitely not weaker than his Netherworld Divine Sword.

"Blood Sword Master, watch carefully. This is the first spear."

As Master Qing's voice fell, the silver spear in his hand stabbed forward.

Swish!

The silver light flashed and the cold spear streaked across the void. Wherever it passed, the space instantly froze into ice.

The world immediately became dark and gloomy.

In this dark world, there was only this bright silver light, which was extremely dazzling and emitted a cold luster.

"So fast!"

Jian Wushuang's eyes flashed with a trace of surprise.

This spear move was too fast.

It almost instantly pierced through the void and appeared in front of him. He did not even have time to carefully feel the power of this spear move.

Without much time to think, Jian Wushuang directly struck out with his sword.

“Starfire Burning Sun!”

Jian Wushuang’s divine power surged, and he immediately used the heaven-cleaving skill. His strength reached its peak at this moment.

The violent sword light instantly slashed out, bringing with it a terrifying power as it collided head-on with the silver light.

Clang!

With a loud sound, Jian Wushuang’s body suddenly trembled, and he staggered back a few steps. Each step was heavy and powerful, trampling on the void.

However, there was no doubt that Jian Wushuang had received the spear.

Moreover, he had blocked the attack with his sword skill. Although he was completely suppressed, he still managed to block the attack without too much power hitting his body.

“That’s right. To be able to block my spear with the power of your sword skill, it proves that your strength is the best among the Advanced Rulers. However, your strength is still not enough to defeat me,” Master Qing said coldly.

“Master Qing, let’s cut the crap. I’ve taken your first spear. Now, let me see your second spear,” Jian Wushuang said excitedly.

Master Qing’s first spear had already amazed Jian Wushuang. He was indeed a Superior Ruler.

It was obvious that Master Qing had just casually used her spear and did not use much strength. However, he still easily defeated his star fire burning sun and completely suppressed it.

As for the second spear that Master Qing was about to use, it was definitely stronger.

“Watch carefully for the second spear.”

A trace of coldness flashed through Master Qing’s eyes.

Previously, he had only casually stabbed forward with the first spear. However, during the process of the second spear, a large amount of ice condensed in front of her.

A suffocating chill spread out.

Master Qing’s silver spear, as well as her hand holding the spear, were covered in frost. Along with a gust of cold air, Master Qing spat out.

Whoosh!

The long spear was another explosive thrust.

With this thrust, the void in a radius of 10,000 kilometers was completely frozen into a world of ice and snow.

The silver spear also turned into a huge icicle, carrying a terrifying penetrating power as it stabbed toward Jian Wushuang.

The power of this spear was definitely several times stronger than the first one!

Jian Wushuang's eyes shone with a fierce light.

He held the Netherworld Divine Sword with both hands at the same time.

Whoosh!

The sword slashed out, and the void turned into chaos.

There was no sound of explosion or air explosion. Jian Wushuang's sword did not seem to have a terrifying power.

However...when the divine sword fell, a cold sword light mercilessly cut through the space, mercilessly tearing through everything in front of it, tearing through the ice and snow, and mercilessly slashing toward the huge icicle.

Chapter 3743: Jian Wushuang's Protective Ability

Fallen yellow spring!

The strongest sword attack created by Jian Wushuang!

If the Starfire Burning Sun was extremely violent and had a sudden burst of astonishing power, then the fallen yellow spring was cold and ruthless!

This cold and ruthless sword attack seemed to be able to cut through everything it encountered.

No one, no matter what, could withstand its sharp edge.

There was also a trace of the aura of the universe's principles in this sword.

It was precisely because of the aura of the universe's principles that the power of this sword was so terrifying.

Back in the Divine Beginning Realm, Jian Wushuang had fought with Di Shisan in the sword principle battle. In the end, Jian Wushuang had used this sword to defeat Di Shisan's swordsmanship system and obtain victory.

However, it had been more than 8,000 years since that battle. During those 8,000 years, Jian Wushuang had first studied under the Heaven Suppression Tablet for 5,000 years, and then he studied under the Sword Stone for 3,000 years, he had made great progress in his swordsmanship, and the aura of the universe principles he had grasped had become stronger.

Naturally, the power of this sword move was far from what he could compare with before.

"This sword move!"

Pupil Master, who was watching the battle, saw Jian Wushuang's sword move and his expression changed drastically.

He clearly remembered that 3,000 years ago, Jian Wushuang had used this sword move to beat him until he vomited blood.

After all, he had the protection of the Supreme Treasure Armor, yet he still vomited blood. One could imagine how powerful that sword move was.

Now that Jian Wushuang was using it again, the power of his swordsmanship was even stronger than before?

It had to be said that the power of Jian Wushuang's sword was indeed earth-shaking.

At least, the Tyrant Axe thought that he could not perform an attack of this level.

However, what Jian Wushuang was facing was, after all, a genuine Superior Ruler.

A Superior Ruler's battle strength was far stronger than a Superior Ruler's.

The cold and terrifying icicle pierced toward Jian Wushuang, and his cold and ruthless sword light came into direct contact with it.

Swish! Swish!

The sound of divine power squeezing against the impact rang out, and the final result was still Jian Wushuang's sword light being crushed.

The cold and ruthless sword light also lasted for a while, but it completely dissipated. The icicle still carried extraordinary power and directly hit Jian Wushuang's divine body.

Jian Wushuang's body shook violently, and he was knocked back.

After a long while, he finally managed to stand firm in the void.

After he stood firm, Jian Wushuang raised his head and looked at Master Qing again. He could not help but exclaim, "No wonder you're a Superior Ruler. You're amazing!"

Jian Wushuang was indeed amazed.

Her most terrifying and confident sword attack was the one that fell into the yellow springs.

After all, it was a strike with the aura of a universe principles. It was ridiculously powerful, but unfortunately, a Superior Ruler was much more powerful than him in terms of divine power alone. As for Master Qing's strike just now, it was also extremely powerful, so...he was still crushed.

However, although he was crushed, the remaining power of the strike did not cause much damage to him.

It was normal for Jian Wushuang to have a Supreme True Treasure Armor to protect his body. At the same time, he had cultivated the supreme eternal celestial body, which was as tough as a Supreme Treasure. If the power of the spear had not been offset by his falling styx swordsmanship, he might have been injured, if it had hit his divine body, it might have caused him some damage.

However, with the help of the swordsmanship, the damage caused by the spear was negligible. Jian Wushuang did not care at all.

“Although my spear was blocked by his swordsmanship and weakened by more than half of its power, more than 30% of its power still hit his divine body directly. How could he be completely fine under the impact of 30% of its power?”

“The divine power aura on his body did not weaken at all?” Master Qing finally frowned.

The two Rulers watching the battle, including the Principles Masters, were also shocked by this scene.

“How is this possible? This Blood Sword Master was clearly struck by Master Qing’s spear technique, but why isn’t he injured?”

“Although the power of that spear technique was more than half negated by Blood Sword Master’s sword-arts, it still has more than 30% of its power left. Under normal circumstances, even an ordinary high-level Ruler would be injured or severely injured after receiving more than 30% of a top-tier Ruler’s power. How could this Blood Sword Master, a Principles Master, act as though nothing had happened?”

“Didn’t they say that as a Principles Master, his divine body is not that strong? But now, it seems that his divine body is much stronger than that of an ordinary Ruler.”

An uproar resounded throughout the world.

Indeed, before this, almost everyone thought that although Jian Wushuang’s offensive power was comparable to that of an Advanced Ruler, and he was even the best among Advanced Rulers, his defensive ability should not be that strong.

It was also because of this that the Ruler Tyrant Axe and Pupil Master felt that there was a glimmer of hope that they could kill Jian Wushuang.

But now, the scene in front of them showed that the Blood Sword Master’s protective ability was not weak at all?

The head-on attack of a Superior Ruler contained more than 30% of its power. He only relied on his divine body to withstand it, but he was completely fine.

“Is this kid pretending? He’s already heavily injured, but he’s just pretending to be fine?” A Principles Master could not help but say.

However, as soon as he finished his words, many people looked at him as if they were looking at a fool.

It was true that one could disguise his appearance and behavior, but the divine power aura on his body could not be disguised.

If a person was seriously injured, the divine power aura on his body would be greatly weakened, but the divine power aura on Jian Wushuang’s body did not seem to be weakened at all.

“Blood Sword Master, it seems that I have underestimated you. As a Principles Master, not only can your offensive power rival that of an Advanced Ruler, but your protective ability is also much stronger than that of an ordinary Ruler. I’m afraid that no one below the level of a Superior Ruler can defeat you with this protective ability alone,” Master Qing said in a deep voice.

Her words immediately attracted the agreement of the surrounding experts.

Indeed, when Jian Wushuang had cultivated the first level of the supreme eternal divine body, he was already destined to be able to do whatever he wanted among Senior Rulers. However, he could not ignore a Superior Ruler, that was why Daoist Xuan God, Temporal Temple Master, and the others wanted to get him a Supreme True Treasure Armor.

If he had the Supreme True Treasure Armor and Jian Wushuang's powerful divine body, he would have no fear even if he encountered a Superior Ruler.

"Blood Sword Master, I'm going to use my third spear."

Master Qing gripped the silver spear in her hand, and her eyes became sharp. "I'll keep my word. If I can't severely injure you with this spear, I'll turn around and leave immediately."

...

Chapter 3744: Earth Protection

"Come on."

Jian Wushuang clenched the Netherworld Divine Sword in his hand, his eyes full of expectation.

The two strikes that Master Qing had performed were ridiculously powerful. Jian Wushuang had already performed his strongest swordsmanship, but he was still crushed.

Now, how powerful was the third strike that Master Qing was about to perform?

The many Principles Masters who were watching the battle were all eagerly waiting.

They also wanted to personally witness Master Qing's strongest spear attack.

"Divine punishment!" Master Qing said coldly. Weng! The vast amount of pure divine power that only a peak Ruler possessed instantly swept out.

The moment this pure divine power swept out, the divine power aura that Master Qing emitted was slightly weaker than before.

Although it did not weaken much, it was weakened.

Clearly, it was not easy for Master Qing to unleash this strongest spear attack.

The world fell silent.

Under everyone's gaze, Master Qing slowly extended the silver-colored spear in her hand.

This silver-colored spear turned into a silver-colored bolt of lightning. Under the gathering of that majestic divine power, it suddenly erupted.

Rumble! The silver spear, which was originally of normal size, was enlarged at a terrifying speed. In the blink of an eye, it extended to a length of 30,000 feet. Its size was so huge that it was like a pillar supporting the sky. The 30,000-foot-long silver spear...it easily pierced through the space and came straight for Jian Wushuang.

For a moment, the entire world was filled with an ear-piercing sound of an explosion.

Jian Wushuang stood in the void in front of the long spear. He saw the long spear magnify and then stab at him. At this moment, he felt as if he was caught in a violent storm. His silver robe...his hair was fluttering in the wind.

“What a terrifying power!”

Jian Wushuang narrowed his eyes and was extremely surprised.

He had just received the first and second strikes from Master Qing. Although the power of the two strikes was far more powerful than his own, at least Jian Wushuang could cope with it.

However, the third strike gave him a feeling that he could not fight back at all.

This strike could completely crush everything.

Although he had created an extraordinary sword art, no matter how much strength he used, he would be completely defeated by this strike.

Jian Wushuang immediately understood that he could not use his sword art to fight this strike head-on.

However, just because he could not fight it head-on did not mean that Jian Wushuang could not resist it.

“Such a powerful attack. Let me test the results of my 3,000 years of work.” Jian Wushuang clenched his hands tightly, his eyes shining brightly.

“Earth Guard!”

Jian Wushuang brandished his sword.

The Netherworld Divine Sword seemed to be casually slashed out, but it contained a special mystery.

Buzz, buzz, buzz. A large amount of sword essence, accompanied by a large amount of earthy yellow energy, rose in an instant.

Earth protection was based on the principles of the Earth.

The earth was heavy and sentimental!

With Jian Wushuang’s attainments in sword principle...in an instant, a layer of earthy yellow sword domain was formed!

Sword Domain, Earth Sword Domain!

After the first layer of Earth Sword Domain appeared, a second and third layer of Earth Sword Domain immediately condensed.

In the blink of an eye, 12 Earth Sword Domains were formed in front of Jian Wushuang!

“The Earth Sword Domain is the product of my perfect combination of the earth principles and the origin of the sword principle universe. It has a strong body protection ability. The Earth Sword Domain alone should be able to easily withstand the full-strength attack of a Primary Ruler. Now, I have condensed 12 Earth Sword Domains at the same time. In addition, I have integrated the endless essence

into this move. I want to see if I can withstand this spear!” Jian Wushuang’s eyes flashed with a brilliant light.

Boom!

The 30,000-meter-long silver spear, which contained the power to destroy heaven and earth, finally stabbed at Jian Wushuang.

It immediately stabbed at the earthy yellow sword domain in front of Jian Wushuang.

Bang! Bang! Bang! Bang! Bang! Bang! Bang! Bang!

In just an instant, the 12 Earth Sword Domains collapsed into seven, and more than half of them collapsed.

Then it was followed by another bang! Bang! With two consecutive sounds, the eighth and ninth great Earth Sword Domains collapsed.

However, starting from the tenth great Earth Sword Domain, the momentum of the long spear’s attack clearly slowed down.

Bang!

The tenth Great Earth Sword Domain was still defeated.

The eleventh great Earth Sword Domain lasted for a full moment before it was also defeated.

When it reached the twelfth and final great Earth Sword Domain, the long spear still attacked the twelfth great Earth Sword Domain for a period of time, but in the end, it was still unable to completely defeat the twelfth Great Earth Sword Domain, the giant spear stopped in the void, and its power was completely exhausted.

Buzz! The 30,000-meter-long silver spear dissipated and returned to its original appearance in Master Qing’s hand.

However, at this moment, Master Qing’s face was filled with shock and disbelief.

Not only her, but the other two Rulers who were watching the battle, including the Ruler Tyrant Axe and the Pupil Ruler, as well as the numerous Principles Masters, were completely dumbfounded.

Although Jian Wushuang had blocked the previous two strikes, everyone could see that he had not been able to block them easily.

Now, the third strike was Master Qing’s strongest strike. She had paid a certain price in order to use this strike. Logically speaking, this strike should have been enough to completely crush Jian Wushuang, at the very least, it should have been enough to injure Jian Wushuang to a certain extent.

However, the result surprised everyone.

Jian Wushuang had blocked the most powerful spear strike without any damage.

Such a terrifying spear strike could not really hit his divine body. The strange earthy yellow power in front of Jian Wushuang had completely blocked the power of the spear strike, he did not even retreat.

“How is this possible?” Pupil Master could not help but roar.

“What is that power?” Ruler Tyrant Axe stared at Jian Wushuang.

At this moment, great waves also rose in Master Qing’s heart.

She stared at Jian Wushuang and recalled the scene just now.

“Is that power...a Supreme Treasure?”

“No, that feeling is not a True Treasure, but...swordsmanship?”

“Yes, it’s swordsmanship!”

Master Qing’s eyes narrowed. “The protective swordsmanship of a Principles Master completely blocked my most powerful divine punishment spear.”

Master Qing could hardly believe it was true.

But the truth was right in front of her.

“Master Qing, thank you.”

Jian Wushuang said with a smile on his face and a deep breath in his heart.

“I spent most of the 3,000 years cultivating under the Sword Stone to perfect the Earth Guard. Finally, I was able to condense 12 Earth Sword Domains at the same time, each stronger than the last. It turns out that I didn’t waste these 3,000 years!” Jian Wushuang was very excited.

Chapter 3745: Acknowledgment

Three thousand years ago, when he first came to the Red Cloud World, the Earth Guard technique he created was still very young. It could only form one great Earth Sword Domain.

And the Earth at that time was still very pure.

But in these three thousand years, he had studied and studied under the Sword Stone. By now, he could form a total of twelve great Earth Sword Domains, most importantly, the 12 levels of the Earth Sword Domain contained an endless essence, which combined perfectly to make the 12 levels of the Earth Sword Domain stronger and more resilient.

After reaching this stage, although Jian Wushuang knew that the protective ability of his sword should be extremely strong, at the very least, he should be able to completely block an attack at the Advanced Ruler level. As for an attack at the Superior Ruler level...whether it could be blocked or not, he was not confident.

Now that he was fighting with a Superior Ruler, and Master Qing had used her strongest spear, she was unable to break through all 12 levels of the Earth Sword Domain, this made Jian Wushuang almost overjoyed!

Master Qing’s strongest spear was unable to break through all 12 levels of the Earth Sword Domain, which meant that the defensive ability of the Earth Guard was much stronger than she had imagined.

His 3,000 years of comprehension had not been in vain.

Unlike Jian Wushuang's excitement, the people around him had long been shocked.

"Blood Sword Master."

Master Qing looked at Jian Wushuang again, and her expression slowly disappeared, returning to her usual cold expression. "You are a Principles Master, so your battle strength is not weaker than an Advanced Ruler. I didn't expect your defensive ability to be even more terrifying!"

"Not only do you have an extremely powerful divine body, which can withstand thirty percent of my attack head-on without being damaged, but you also know such a terrifying defensive sword technique. With this defensive sword technique, I'm afraid that even among the top Rulers, only a handful of them have the ability to kill you. At the very least, among the top Rulers in this star area, no one should have this kind of power."

Master Qing had spoken based on her own feelings. At least, that was what she thought.

However, as soon as her words left her mouth, the surrounding void immediately erupted into an intense commotion.

"Heavens, Master Qing actually said that no one in this Star Field can kill the Blood Sword Master?"

"That's normal. Didn't you see how Master Qing unleashed her strongest spear, only to be completely blocked by the protective sword-art of the Blood Sword Master?"

"With that body-protecting sword-art and his extremely powerful divine body, none of the top Rulers in this Star Field would be able to do anything to him if they didn't work together."

"This Blood Sword Master is just a mere Principles Master. It's one thing for him to be as powerful as a Senior Ruler, but I didn't expect his life-saving ability to be so incredible. He's really a monster."

"We wanted to kill such a monster to fight for his wings? It's just a pipe dream."

Exclamations sounded one after another.

Master Qing spoke again, "Blood Sword Master, although you're just a Principles Master, you have such powerful strength and life-saving means. It's only right that the Supreme Flight Type True Treasure fell into your hands. You're qualified to possess such a True Treasure."

After saying that, Master Qing looked at Jian Wushuang seriously, then turned around, apparently intending to leave.

However, before she left, she glanced at Ruler Tyrant Axe, who was beside her. "Ruler Tyrant Axe, your Suppression-type True Treasure has been suppressing this place. Don't tell me you want to keep me here as well?"

Ruler Tyrant Axe's face changed.

Previously, he had used his Suppression-type True Treasure to suppress the void just to prevent Jian Wushuang from escaping. He had no intention of stopping Master Qing.

But now, Master Qing was going to leave because of his Suppression-type True Treasure.

Ruler Tyrant Axe gritted his teeth and looked at Master Qing, then at Jian Wushuang. He sighed in his heart.

"I thought Blood Sword Master was only a Principles Master. Although he's strong, his ability to protect his body shouldn't be that strong. As long as a few more Rulers join hands, I'm sure I can kill him. I didn't expect Blood Sword Master's ability to protect his body to be so strong that even Master Qing couldn't do anything to him. I'm just an Advanced Ruler."

Tyrant Axe shook his head. He did not persist any longer. With a wave of his hand, he withdrew the suppression formation in the surrounding void.

After the suppression formation was withdrawn, Master Qing left immediately.

"Master Qing has already left. Why? Do you two intend to stay and continue to be trampled by me?" Jian Wushuang looked at Tyrant Axe and Pupil Master with interest.

The Ruler Tyrant Axe and Pupil Master looked at each other in dismay.

"Master Blood Sword, you're good." The Ruler Tyrant Axe said and then turned to leave.

Pupil Master's eyes flashed with a fierce light.

He had a grudge with Jian Wushuang. If he had the chance, he would not hesitate to deal with Jian Wushuang. However, now that Master Qing and the Ruler Tyrant Axe had left, he alone...he would be completely crushed by Jian Wushuang. Naturally, he did not dare to stay any longer.

Soon, the three Rulers left one after another.

Even the Rulers left. The Principles Masters around them did not have the slightest intention of fighting over it. Soon, they dispersed and left.

The fight for the strongest Flight Type True Treasure had finally come to an end.

...

Jian Wushuang was slowly moving forward in the void of the Third Continent in the Red Cloud World.

He was holding two messaging tokens in his hands. One belonged to the Heaven-cleaving Alliance Master, and the other belonged to the Temporal Temple Master.

"My young friend, I admire you. You were able to defeat the Ruler Tyrant Axe and Pupil Master by yourself in the realm of Principles Master. You were even able to take three strikes from Master Qing head-on without any damage. Moreover, Master Qing paid a certain price to use his most powerful strike, but he was unable to break your protective sword skill. This really makes us Rulers feel ashamed," The Temporal Temple Master exclaimed.

Temporal Temple Master knew that Jian Wushuang had obtained the lightest Flight Type Supreme Treasure, so he had rushed here as fast as he could.

However, on the way, he received news that Jian Wushuang's crisis had been resolved, and he knew the process of the previous battle.

Even Temporal Temple Master, who had a certain understanding of Jian Wushuang, could not help but exclaim in admiration.

"Indeed. Master Qing is a genuine Superior Ruler. Her strongest spear attack could not even break your protective swordsmanship. Heavenly Sword Marquis, when did your protective swordsmanship become so powerful?" Heaven-cleaving Alliance Master could not help asking.

...

Chapter 3746: Celestial Light Wings (Part One)

"To tell you the truth, during the past 3,000 years, I have not been searching for Supreme Treasures on the Third Continent. Instead, I have been comprehending the swordsmanship under the Sword Stone. Among the four swordsmanship of the Sword Stone, there happens to be an extremely profound protective swordsmanship. I have been comprehending it for a full 3,000 years before I was able to perfect the protective swordsmanship that I created to this extent," Jian Wushuang said.

"Is that so?"

"No Wonder I sent you a message earlier. You said you were meditating, so you were meditating on such swordsmanship."

The Heaven-cleaving Alliance Master and the Temporal Temple Master also understood.

"By the way, my young friend, the most powerful Flight Type Supreme Treasure is now in your hands. You should quickly refine it and take a look," the Temporal Temple Master said.

"Okay."

Jian Wushuang nodded and temporarily cut off the communication with them. Then, he found a quiet place and took out the black wings.

The pitch-black wings were extremely cold to the touch.

The wings were covered with complicated and mysterious secret patterns, which even Jian Wushuang could not see through.

Jian Wushuang took a deep breath and then began to try to refine the black wings.

When he began to refine them, he was immediately met with a resistance.

"As expected." Jian Wushuang raised his eyebrows and was not surprised.

It was not easy to refine a Supreme Treasure, even an ordinary Supreme Treasure. If he wanted to refine this Supreme Treasure, he had to meet the requirements of this Supreme Treasure.

And the requirements for refining the strongest Universe Supreme Treasure would be even higher.

For example, Jian Wushuang's Netherworld Divine Sword was the strongest Universe Supreme Treasure, so the requirements were extremely harsh. Fortunately, when Jian Wushuang obtained the Netherworld

Divine Sword, he had already stepped into the sword universe origin, at that time, he had already met the requirements for refining the Netherworld Divine Sword, so he could easily refine it.

However, as the strongest Flight Type Supreme Treasure, the black wings were more valuable than the Netherworld Divine Sword, so the requirements for refining it were naturally higher.

However, Jian Wushuang's current strength was far from what he could compare with before.

"The requirements for refining the black wings seem to be related to the universe principles?"

As Jian Wushuang studied it, he soon learned the threshold for refining the black wings, which he had just met.

Soon, the black wings were successfully refined by him.

As soon as he finished refining them, he immediately got the information about the black wings.

It was the most powerful Flight Type Supreme Treasure, the Celestial Light Wings!

"Celestial Light Wings? That's a good name," Jian Wushuang muttered.

Like ordinary flying and protective armor treasures, the Celestial Light Wings had three different levels of power. In addition, it contained two secret skills.

The first was the three levels of power. Each level was higher than the other, but the conditions to activate it were more and more difficult.

The first level of power needed to be able to clearly sense the existence of the universe principles before it could be activated.

The second level of power required one to truly comprehend a trace of the universe principles before it could be activated.

The third level of power required one to have a certain level of comprehension of the universe principles before it could be activated.

"The universe principles?"

"The conditions for activating the Celestial Light Wings are actually related to the universe principles. The higher one's comprehension of the universe principles, the stronger the power that can be activated?" Jian Wushuang was secretly surprised, but he immediately understood.

The most powerful Universe Supreme Treasure, and it was a special Supreme Treasure such as the flight type, was indeed qualified to involve the universe origin.

Jian Wushuang now met the requirements for activating the first level of the three levels of power of the Celestial Light Wings.

The first level of power only needed to be able to clearly sense the existence of the universe principles. He had already achieved this step when the universe principles personally descended on him.

Moreover, he had already grasped a trace of the aura of the universe principles. Now, he was not only satisfied, but he had even exceeded the requirement to activate the first level of power.

However, the second level of power of the Celestial Light Wings required him to truly comprehend a trace of the universe principles, which was relatively far away for Jian Wushuang.

“Let’s test the first level of power first.”

Jian Wushuang’s eyes flashed with a sharp light. The black wings in his hand instantly merged with the surface of his body and then spread out behind him.

The huge black wings emitted a special mysterious wave. With a thought from Jian Wushuang, the first level of power was instantly activated.

Puff! Puff, the wings were suddenly spread.

Swish!

A stream of light instantly rushed out. In the blink of an eye, he appeared in the void 100,000 miles away.

“This, this speed...”

Jian Wushuang stopped in the void with a hint of excitement in his eyes.

“Too fast, this is too fast,” Jian Wushuang exclaimed.

It was too fast.

In the blink of an eye, he had traveled 100,000 miles.

After all, this was in the Red Cloud World, where the heaven and earth were greatly restricted. It was not as unbridled as in the Divine Beginning Realm.

In the blink of an eye, he had traveled 100,000 miles at such a terrifying speed that even a Superior Ruler could only be so fast.

“My speed was relatively fast before, and I was definitely not inferior to an ordinary Ruler. However, compared to the speed at which I’m using the Celestial Light Wings, it’s nothing!”

“It’s too fast. Even a Superior Ruler’s full speed might not be able to compare to mine.”

Jian Wushuang clenched his fists.

He did not know how fast a Superior Ruler was, but he could make a basic judgment. The previous Pupil Master was too fast, when he was facing Jian Wushuang, he could not escape with his life-saving secret skill.

However, when Pupil Master used his life-saving secret skill, his speed was much slower than Jian Wushuang’s.

From this, he could roughly guess.

He knew that with the most powerful Flight Type True Treasure, his speed would be greatly improved.

However, he did not expect that his speed would be improved so much.

He could have it all at once, and it was even faster than the speed of an ordinary top-tier Ruler.

Moreover, this was only the first level of the power of the Celestial Light Wings. If he had the chance to comprehend a trace of the universe principles and activate the second level of the power of the Celestial Light Wings in the future, his speed would be even faster, would it not be even faster?

“The second level of power...” Jian Wushuang’s eyes were filled with anticipation.

The threshold of the second level of power of the Celestial Light Wings was to comprehend a trace of the universe principles.

Under normal circumstances, only supreme experts were qualified to comprehend the universe principles. However, this was only under normal circumstances.

Jian Wushuang was well aware that there were many things in this world and this vast universe that could not be inferred with common sense, such as those geniuses who could not be inferred with common sense.

Those geniuses were terrifyingly talented. They could comprehend a trace of the universe principles at the Ruler level, or even better, they could grasp a trace of the universe principles at the Principles Master level. It was not impossible.

Chapter 3747: Celestial Light Wings (Part Two)

Although Jian Wushuang was not blindly confident that he could compete with the incredible geniuses in the universe, it was still a hope.

“This is only the basic power of Celestial Light Wings. It contains two secret skills,” Jian Wushuang said with a faint smile.

The Celestial Light Wings contained two secret skills, namely, the Mystic Light Phantom and the Mystic Light Realm.

The Mystic Light Phantom was a movement skill secret skill that was performed with the help of the Celestial Light Wings.

As for the Mystic Light Realm, like its name, it was naturally a realm performed by the Celestial Light Wings.

These two secret skills were performed together with the Celestial Light Wings, so their power was naturally extraordinary.

However, Jian Wushuang also needed to comprehend these two secret skills before he could use them.

“A movement skill and a realm-type skill. I hope they can surprise me.”

Jian Wushuang smiled and directly sat down cross-legged and began to carefully comprehend these two secret skills.

In a flash, ten years passed.

In the vast and rolling red clouds in the void, whoosh! Whoosh! Whoosh! Whoosh!

Numerous phantom-like streamers flickered and changed in the void one after another.

Every time they flickered, they would appear in the void hundreds of feet away, and there was almost no interval between the flashes.

Countless phantom-like streamers flickered.

After a long time, all the phantom-like streamers disappeared. Jian Wushuang's figure gradually took shape in the center of the Void.

"Incredible. This movement skill is incredible!"

"It's better to describe it as close-range teleportation than movement skill."

Jian Wushuang's eyes were shining with a bright light.

In the past ten years of meditation, he had completely mastered the two secret skills, the Mystic Light Phantom and the Mystic Light Realm.

What he had just displayed was the Mystic Light Phantom. It seemed to be a movement technique, but in reality, every flash of the Mystic Light Phantom had teleported from one part of the Void to another.

It was just like the Temporal teleportation in the Temporal divine art created by the Temporal Temple Master.

The difference was that Temporal teleportation was a secret technique for escaping. It could send messages from a distance based on the spatial coordinates left behind.

Although this secret skill had a strong life-saving ability, it was only useful for ordinary Principles Masters.

After all, this secret skill would be restricted by Temporal imprisonment.

Once someone was able to use Temporal imprisonment, it would be impossible for them to use Temporal teleportation.

With Jian Wushuang's current strength, those who could threaten him and allow him to escape were at least Rulers. As a Ruler, even if he was not good at Temporal rules, he must have treasures in the Temporal field and could easily use the Temporal imprisonment.

Therefore, the Temporal imprisonment was no longer useful to Jian Wushuang.

However, the close-range teleportation used in the Mystic Light Phantom movement was not affected by the Temporal imprisonment. Even if it was only a short-range Temporal imprisonment, it could only move a few thousand feet at a time, at most a few dozen miles, however, the Mystic Light Phantom could be used continuously.

Imagine if Jian Wushuang used this secret skill in a close-range fight with a Ruler, he could move around the Ruler and change his position, the Ruler basically could not capture his exact location.

From the beginning, he could rely on this movement skill to stand invincible!

“This movement technique is indeed worthy of being used in conjunction with the most powerful flying treasure, the Celestial Light Wings. It’s really amazing.” Jian Wushuang’s eyes were filled with joy. “As for the Mystic Light Realm...”

Jian Wushuang’s expression changed. The secret patterns on the Celestial Light Wings lit up instantly. In an instant, a large amount of pitch-black flowing light burst out from the wings.

The black flowing light swept out in all directions.

In the blink of an eye, it covered tens of thousands of miles around, causing the area to fall into a pitch-black flowing light realm.

Although it was a secret skill, the movement and appearance of the Mystic Light Realm was like the impact of a normal domain-type Supreme Treasure.

As for its power...

“Domain, suppression!”

Jian Wushuang shouted in a low voice. Instantly, a terrifying suppression was generated in the huge flowing light realm.

The suppression was so strong that the space began to tremble crazily.

“The suppression effect of this realm is so strong.” Jian Wushuang, who was at the center of the realm and was in control of the realm, could clearly feel the suppression power of this realm.

He immediately sensed that the suppression effect of the Mystic Light Realm was not weaker than ordinary Pinnacle Domain Type True Treasures, and it was even stronger than ordinary Pinnacle Domain Type True Treasures.

For example, his Magic Sand Realm was a Pinnacle Domain Type True Treasure, but its power was slightly weaker than that of the Mystic Light Realm at this moment.

However, the Mystic Light Realm was only a secret skill used with the help of the mystic light Celestial Light Wings, not a domain-type True Treasure.

This secret skill could be perfectly combined with a Domain Type Supreme Treasure.

“Magic Sand Realm, out!”

With a thought from Jian Wushuang, the black quicksand that filled the sky instantly rushed out. It also spread out for tens of thousands of miles. It did not clash with the black flowing light that filled the sky. Instead, the two types were perfectly combined.

The Mystic Light Realm and the Magic Sand Realm were perfectly combined.

In an instant...

Boom! Boom! Boom!

The terrifying power of the realm burst out. The black quicksand around the flowing light rushed crazily. The suppression of the realm was much stronger than the Magic Sand Realm and the Mystic Light Realm.

“This power...” Jian Wushuang’s eyes were filled with unconcealable joy.

He had not expected that the secret skill of the mystic light Celestial Light Wings would be so powerful.

The flowing light phantom had already surprised him.

And this Mystic Light Realm made him even more ecstatic.

This was a Domain Type secret technique. Combined with his Devil Sand Domain, it had formed an even more terrifying domain that was far more powerful than a Pinnacle Domain Type True Treasure.

One had to know that Domain Type True Treasures were very useful in battles between Great Beings.

The strength of a Domain Type True Treasure could allow a cultivator to gain the absolute advantage in a fierce battle.

Previously, when Jian Wushuang and the Tyrant Axe Ruler were fighting for the Celestial Light Wings, he had used the Magic Sand Realm to restrict the Tyrant Axe Ruler’s speed. Unfortunately, the Tyrant Axe Ruler also had a Pinnacle Domain Type True Treasure, the two domains clashed, and neither was able to restrict the other.

However, if he had a stronger Domain Type True Treasure, it could suppress the Tyrant Axe’s domain, greatly reducing his speed and strength, and making it easier for him to obtain the Celestial Light Wings.

Chapter 3748: There Were Six

“With the help of the Celestial Light Wings, I can perfectly combine the Mystic Light Realm and the Magic Sand Realm. In the future, unless I meet an expert with the strongest domain-type Supreme Treasure, I’ll be able to take the initiative in fighting for it.” Jian Wushuang clenched his hands.

The combination of the Mystic Light Realm and the Magic Sand Realm was enough to suppress a Supreme Domain Type Supreme Treasure.

However, it was still weaker than a Supreme Domain Type Supreme Treasure.

However, how many people in this Star Field had a Supreme Domain Type Supreme Treasure?

After obtaining the Celestial Light Wings, not only did it greatly increase his life-saving ability, but it also contained two secret skills, which greatly increased Jian Wushuang’s strength.

Next, Jian Wushuang’s goal should be to obtain the most powerful protective armor.

In the Red Cloud World, the emergence and competition for the Celestial Light Wings caused a great sensation.

This caused a sensation not only for the most powerful Flight Type Supreme Treasure, but also for Jian Wushuang’s strength.

He thought that Jian Wushuang was powerful enough to completely suppress Pupil Master in a head-on battle and force her to flee in a sorry state. He did not expect that his true strength was even stronger. Even when the Ruler Tyrant Axe and Pupil Master joined hands, he could even suppress Ruler Tyrant Axe and Pupil Master.

Especially his body-protection ability.

Not to mention his powerful divine body, his body-protection swordsmanship, which could block Master Qing's strongest spear attack, was shocking enough.

However, the Red Cloud World was still a battlefield for the fight for Supreme Treasures.

And the fight for the Celestial Light Wings was just one of the fights.

As more and more Supreme Treasures were born, the fight for the Supreme Treasures gradually died down.

The experts of the Red Cloud World continued to fight for the Supreme Treasures.

Jian Wushuang continued to explore the Third Continent.

In the blink of an eye, another 2,000 years passed.

During these 2,000 years, the number of Supreme Treasures born in the Red Cloud World gradually decreased, but the quality of the Supreme Treasures gradually improved.

Jian Wushuang had also obtained a few Supreme Treasures, but they were only at the level of a top-tier Supreme Treasure.

"My Heavenly Marquis friend, I just received news that another Supreme Treasure has appeared on the First Continent. It's an offensive divine sword. It seems to be very powerful," Temporal Temple Master sent a message.

"A divine sword?" Jian Wushuang's expression changed, but then he shook his head. "I already have the Netherworld Magic Sword, which is the most powerful magic weapon in terms of attack. It's enough for me to use my swordsmanship. Even if I get another one, it won't be of much use."

"Yes." Temporal Temple Master nodded. "The appearance of the magic sword caused a lot of competition. In the end, it was obtained by a lucky Senior Ruler. With this magic sword, there are already six Supreme Treasures in the Red Cloud World."

"Under normal circumstances, there are about ten Supreme True Treasures in the Red Cloud World. Now that six have been born, there are not many left. Among the six Supreme True Treasures, four are offensive weapons, one is the strongest Flight Type True Treasure you have obtained, and the other is the Supreme True Treasure Armor, which was obtained by the Sky Roc Ruler."

Jian Wushuang's face darkened.

More than 1,000 years ago, on the Second Continent, there was indeed a Supreme True Treasure Armor.

The birth of the Supreme True Treasure Armor caused a huge commotion, and it also caused a frenzy of competition on the Second Continent.

However, the Second Continent and the Third Continent where Jian Wushuang was located were far apart. Although Jian Wushuang had received the news, before he could rush over, the Supreme True Treasure Armor had already fallen into the hands of Sky Roc Ruler, who was adventuring in the Second Continent.

Sky Roc Ruler was one of the Palace Masters of the North Sea Palace and a Superior Ruler.

Jian Wushuang had fought with Sky Roc Ruler before, and his strength was probably above that of Master Qing.

If the Supreme True Treasure Armor fell into the hands of a Superior Ruler, who would be qualified to fight for it in this Star Field?

Jian Wushuang could only feel regret in his heart.

“The Sky Roc Ruler is a Superior Ruler, and he is the Palace Master of the North Sea Palace. He already has a Supreme True Treasure Armor. Now that he has another one, he is of no use. He can only keep the Supreme True Treasure Armor in the North Sea Palace and let other Rulers of the North Sea Palace use it, or he can simply put the Supreme True Treasure Armor in the Nine Emperor Pavilion and exchange it for other True Treasures.”

“If it were any other Superior Ruler, we might have tried to exchange the Supreme True Treasure Armor with another Supreme True Treasure. However, the one who got the Supreme True Treasure Armor was Sky Roc Ruler. After what happened last time, it’s almost impossible for us to negotiate with him again,” Temporal Temple Master said with a wry smile.

Jian Wushuang also shrugged helplessly.

He had obtained the Netherworld Divine Sword from the Sky Roc Ruler, and the means he had used that time were not that glorious. It could be said that he had schemed against the Sky Roc Ruler and made the Sky Roc Ruler suffer a loss for nothing.

Although the Sky Roc Ruler was concerned about his face and was willing to accept his loss, he was afraid that he would not feel comfortable.

At this time, it was obviously impossible for him to exchange for the Supreme True Treasure Armor from the Sky Roc Ruler.

Unless he exchanged for it with the heaven-fleeing wings, which were more valuable than the Supreme True Treasure Armor and could be of great use to Jian Wushuang, Jian Wushuang would not be willing to do so.

“Although there are many Supreme True Treasures in the Red Cloud World every time it opens, there will only be one Supreme True Treasure Armor every time it opens. If I miss that one, I’m afraid that there will only be other Supreme True Treasure Armors in the Red Cloud World the next time it opens,” Jian Wushuang sighed.

The Red Cloud World had been opened many times in this Star Field, and everyone knew the underlying rules.

For example, every time the Red Cloud World opened, there would be about ten Supreme True Treasures.

At the same time, these ten Supreme True Treasures mostly focused on offensive magic weapons. As for the Supreme True Treasure Armor, Flight Type, Suppression Type, Domain Type, and Soul Type, they rarely appeared, it All depended on luck.

Moreover, every time the Red Cloud World opened, the Supreme True Treasures such as the armor, the Flight Type, the Suppression Type, the Domain Type, and the Soul Type would only appear once.

For example, since Jian Wushuang had already obtained the Celestial Light Wings, the Red Cloud World would never produce another Supreme True Treasure like the Flight Type.

It was the same for the Supreme Treasure Armor.

“We wanted to find a Supreme True Treasure Armor to protect you when the Red Cloud World appeared, but now it seems that there is no chance. However, you have also obtained a Supreme Flight Type Supreme True Treasure, which is more valuable,” Temporal Temple Master said with a smile.

“Temporal, Heaven-cleaving, I actually have an idea,” Jian Wushuang suddenly said.

Chapter 3749: Hunting Plan

“What do you think?” asked the Heaven-cleaving Alliance Master.

“I’m thinking that there are many experts in the Red Cloud World. If we really want to get a Supreme True Treasure Armor, we don’t necessarily have to rely on the appearance of the Supreme True Treasure. Maybe we can think of other ways, such as hunting a Ruler with a Supreme True Treasure Armor,” Jian Wushuang said.

“Hunting a Ruler?” Heaven-cleaving Alliance Master and Temporal Temple Master were shocked, but then they began to ponder.

It was not that they had never thought of hunting a Ruler who had a Supreme Treasure Armor, but they were just thinking about it.

After all, experts at the Ruler level were extremely strong and most of them had strong life-saving means. Even the simplest Primary Ruler would find it extremely difficult to hunt.

For example, Jian Wushuang, Daoist Xuan God, and Temporal Temple Master had once killed their way to the Holy Star and threatened the Holy Star Master.

At that time, the Holy Star Master had indeed felt a great threat and had lowered his head.

However, this was mainly because Jian Wushuang and the others had not really killed him and forced him into a corner. Otherwise, if the Holy Star Master had revealed his strongest trump card, he might have been able to put up a fight.

Moreover, Jian Wushuang and the others had directly attacked the lair of the Earth Saint Star Master. The Earth Saint Star Master had been too confident at the beginning and did not know Jian Wushuang’s true strength. Therefore, he did not flee immediately, which gave them an opportunity.

However, if an ordinary Ruler was in a place like the Red Cloud World, they would remain vigilant. As long as they sensed the aura of other Rulers approaching, they would be alert immediately, if two or three Rulers approached at the same time, the Ruler would not hesitate to retreat and would not give them a chance to kill him.

"It's too difficult to kill a Ruler."

Temporal Temple Master shook his head slightly. "We have to find a perfect opportunity to kill an ordinary first-level Ruler, not to mention a Ruler with Supreme True Treasure Armor. Even a first-level Ruler with Supreme True Treasure Armor has an extremely powerful protective ability. Even a top-tier Senior Ruler would find it difficult to kill him."

"Yes, a Ruler with Supreme True Treasure Armor is too difficult to kill. Even a top-tier Ruler might not be able to kill a Ruler with Supreme True Treasure Armor," said the Heaven-cleaving Alliance Master.

Jian Wushuang frowned slightly.

He knew that a Ruler with Supreme True Treasure Armor was difficult to kill, but he was confident in his current strength.

"You two, I fought Pupil Master with Supreme True Treasure Armor and injured him with my full strength. At that time, it was very difficult for me to kill him, but now, it's not impossible," Jian Wushuang said.

"Oh?" Heaven-cleaving Alliance Master and Temporal Temple Master were surprised.

"Heavenly Sword Marquis, how confident are you?" Heaven-cleaving Alliance Master asked.

"About 40%. If you two can come and help me, then I'm 60% confident," Jian Wushuang said.

"60%?" The eyes of Heaven-cleaving Alliance Master and Temporal Temple Master lit up.

It was too difficult for them to kill a Ruler with the protection of the Supreme True Treasure Armor. They could have tried to kill Jian Wushuang even if he said they were 10% or 20% confident, but now they were 60% confident...

"60% sure, we can try, but I don't know who we are going to kill, Pupil Master?" Temporal Temple Master said.

"Yes, him." Jian Wushuang already had a target.

In this Star Field, there were not many Rulers with Supreme True Treasure Armor, and most of them were Supreme Rulers or stronger Advanced Rulers.

Jian Wushuang had no intention of killing a Ruler of that level.

As for a Primary Ruler with Supreme True Treasure Armors, Jian Wushuang only knew about Pupil Master.

Pupil Master was a loner and did not have a good character. He did not care about his status and attacked some Principles Masters as he pleased. Over the years, he had killed many Principles Masters on the three battlefields, and he had offended many experts from different forces.

Because Pupil Master was strong and had the Supreme True Treasure Armor, few people could do anything to him.

If Jian Wushuang killed such a Ruler, he would not offend anyone even if he was exposed. On the contrary, many people would want him to kill Pupil Master.

“Pupil Master is indeed the easiest target to kill. Whether we kill him or not, no one will say anything afterward. However, Pupil Master is not weak. He is already very strong among the Primary Rulers, and his life-saving methods don’t seem weak either,” Temporal Temple Master muttered.

“I’ve experienced his strength, so I don’t mind. The key is his life-saving methods. Last time, I fought with him, and although I forced him to use a life-saving method, it might not be his full trump card. Therefore, we have to be fully prepared if we want to kill him,” Jian Wushuang said in a deep voice.

“That’s right. If you want to kill a Ruler, you must first not give him a chance to escape. Temporal, with your attainments in Temporal, what can you do?” asked the Heaven-cleaving Alliance Master.

“At most, I can guarantee that he won’t be able to use any Temporal means or treasures to escape and completely imprison the Temporal,” said the Temporal Temple Master.

“That alone is not enough. Even if Temporal is sealed, his life-saving skills can be used at a speed that is much faster than that of an ordinary Ruler,” said the Heaven-cleaving Alliance Master.

“Don’t worry about that. I have the Celestial Light Wings. I don’t think he can match my speed,” Jian Wushuang said confidently.

What a joke. With the Celestial Light Wings, his speed could instantly surpass that of an ordinary Superior Ruler. He did not believe that Pupil Master could be faster than him.

“Even so, we still have to be prepared in case, such as setting up some special arrays in advance or using a Suppression Type True Treasure to suppress the void, so that he can not escape,” said the Heaven-cleaving Alliance Master.

“If it’s a Suppression Type True Treasure, Xuan God does have a top-tier Suppression Type True Treasure, and it’s of a very high quality. Should we ask him to deliver it personally?” said the Temporal Temple Master.

“No need.” Jian Wushuang smiled and said, “Have you forgotten that we have a Supreme Suppression Type True Treasure in the Divine Beginning Realm? And that Supreme Suppression Type True Treasure has always been in my hands.”

“You mean the Mountain River Map?”

Both Heaven-cleaving Alliance Master and Temporal Temple Master were stunned.

...

Chapter 3750: The Target, Pupil Master!

The Mountain River Map was Xuan Yi’s strongest Suppression Type Supreme Treasure, and it had always been in Jian Wushuang’s hands.

However, because the level of the map was too high, Jian Wushuang had been unable to use its strongest power. However, the map had always been one of Jian Wushuang's strongest trump cards. Until the last moment, he would not use it easily.

Now, as long as he could kill Pupil Master, Jian Wushuang did not mind using this trump card.

"The map is indeed the strongest Suppression Type Supreme Treasure, but the threshold to use this Supreme Treasure is very high. Heavenly Sword Marquis, can you use all of the power of the map now?" Heaven-cleaving Alliance Master said.

"Of course I can't use all of its power, but only a part of its power is enough to suppress a Primary Ruler like Pupil Master and make him unable to escape," Jian Wushuang said.

"It's enough that he can do that." Heaven-cleaving Alliance Master nodded. "In that case, let's not delay. Temporal and I will rush to the Third Continent immediately. Also, send an order to Star Palace, which is exploring the Third Continent, and the experts of the three Freedom Alliances to find out the location of Pupil Master."

"Wait for the three of us to arrive, then we'll act immediately."

"Okay."

Jian Wushuang and Temporal Temple Master nodded one after another.

After breaking the communication, Heaven-cleaving Alliance Master and Temporal Temple Master immediately rushed to the Third Continent as fast as they could.

Although Heaven-cleaving Alliance Master and Temporal Temple Master were on different continents, it only took less than a day for an expert at the Ruler level to arrive at the Third Continent. The three experts at the Ruler level of the Divine Beginning Realm had already gathered.

At the same time, the orders of the three of them had been passed down. Star Palace and the Great Beings from the three Freedom Alliances who were adventuring on the Third Continent began to pay attention to Pupil Master's position.

Pupil Master was, after all, a true Ruler, and he had the protection of the most powerful True Treasure Armor. He was practically able to do whatever he wanted on the Third Continent. Naturally, he did not have any qualms about doing things. If they wanted to find his position...it was very easy.

Ten days later.

In the Red Void space on the Third Continent.

Buzz!

A war blade appeared out of thin air. This war blade was a top-tier True Treasure, and it was very valuable. Naturally, it attracted many great beings to fight for it.

In this fight, Blood Ancestor from the Heaven Ancestor Daoist sect, one of the three Freedom Alliances, was very lucky. He took the war blade.

Although there were quite a few lords of laws rushing over, there weren't many of them, and their strength wasn't too tyrannical. Seeing that the battle saber had already fallen into the hands of the blood clan, they could only give up and didn't step out to snatch it, just as the blood clan was about to take the battle saber and leave this piece of void space...

A terrifying aura suddenly descended.

The person who came was none other than the eye lord.

Pupil Master stood in the void space and looked down at Blood Ancestor. That Ruler-level aura directly pressed down on Blood Ancestor's body, and Blood Ancestor could not help but tremble.

Blood Ancestor's face instantly became extremely unsightly.

"Lord Pupil Master, it's just an ordinary top-tier True Treasure," Blood Ancestor said in a low voice. "You don't have to lower your status as a Ruler, do you?"

"Cut the crap. Hand it over, or you'll die!" Pupil Master's eyes turned cold.

Although Blood Ancestor was unwilling to give up, he did not dare to disobey Pupil Master because of his power. He took out the blade and handed it to Pupil Master.

"Humph! You know your place."

Pupil Master sneered, put the blade into his universe ring, and left.

However, he did not notice the cold and resentful eyes of the Blood Ancestor after he left.

"Temporal Temple Master, I've met Pupil Master. My position is..." The Blood Ancestor had already sent a message to Temporal Temple Master.

...

Pupil Master was moving forward slowly in the void. There was a hint of pride on his face.

"That ant just now wasn't too stupid. If he didn't hand it over or talked back to me, I would have a reason to kill him directly." Pupil Master sneered, "Although he's just an ordinary Principles Master in the Divine Beginning Realm, if I can kill him, I'll be relieved."

Pupil Master really wanted to kill the Blood Ancestor.

It was not because the Blood Ancestor had a treasure that attracted him, nor was it because of a top-tier Supreme Treasure, the war saber.

The real reason was that the Blood Ancestor came from the Divine Beginning Realm and the three Freedom Alliances.

Pupil Master had also heard that Jian Wushuang was not only from Star Palace, but also had an extraordinary relationship with the three Freedom Alliances in the Divine Beginning Realm. He had previously been angered by Jian Wushuang and had fled in a sorry state after being killed by Jian Wushuang, of course, he had some complaints in his heart.

Killing a Principles Master from the three Freedom Alliances would not completely relieve Pupil Master's anger, but at least it would make him feel slightly better.

Unfortunately, the speed at which the Blood Ancestor handed over the treasure was too fast, so he did not have the opportunity or excuse to act.

He was a Ruler, and it was already excessive for him to take the initiative to force a Ruler of Principles to hand over the treasure. If the other party had already handed over the treasure and he still killed the other party, then it would indeed be a little too much, this would also cause many Rulers in this Star Field to dislike him.

Thus, he did not act directly just now.

"Hmph, it doesn't matter. There are so many experts from the Star Palace and the three major Freedom Alliances adventuring in the Red Cloud World. In the future, there will be plenty of opportunities to encounter experts from the Star Palace and the three major Freedom Alliances. When the time comes, we'll find an opportunity to kill a few more." Pupil Master laughed coldly.

He had been adventuring in this Star Field for so long, and had always been free to do whatever he wanted.

With his strength and life-saving trump cards, he rarely suffered defeat in this Star Field.

However, in the fierce battle with Jian Wushuang, not only did he suffer defeat, but he also lost a lot of face.

As a mighty Ruler, he was killed by a Principles Master and fled in a sorry state. This made him a joke for a moment. Of course, he wanted to take revenge on Jian Wushuang.

Unfortunately, Jian Wushuang was so powerful that he could not take revenge on Jian Wushuang.

"Humph, Blood Sword Master, I can't take revenge on you, but I can take revenge on your subordinates. What can you do to me?" Pupil Master sneered in his heart.

However, at this moment, a familiar aura suddenly appeared in the range of his soul power.

The appearance of this aura immediately caused Pupil Master's expression to change.

"This aura...is Blood Sword Master?" Pupil Master's expression immediately became serious. "Blood Sword Master actually came to the void near me. Did he just happen to pass by?"

Pupil Master did not doubt it at first.

After all, Jian Wushuang had been adventuring in the Third Continent. Although the Third Continent was quite big, after adventuring for so many years, it was normal for them to meet each other halfway.

...
