

Swordsman 3931

Chapter 3931: The Plan

After a long while, the six Rulers finally managed to recover from their shock. However, what followed was an unprecedented excitement and ecstasy.

After all, these experts were brought back by Jian Wushuang, and they were obviously under his orders.

They had been worried that the Devil Cloud Star Army would arrive in a thousand years. How could they not be excited when a group of top-notch Masters suddenly appeared?

The dozens of experts in front of them were definitely a huge amount of peak battle strength for the Divine Beginning Realm!

They did not have the confidence to face the Devil Cloud Star Army because they were far inferior to Devil Cloud Star in terms of peak battle strength.

!!

If they were to put aside their peak combat power and compete with the Principles Masters, the Divine Beginning Realm would have the absolute advantage. However, in a life-and-death battle like that, peak combat power was obviously more important. And now...with so many powerful Rulers appearing all of a sudden, their extremely empty peak combat power became incomparably tyrannical.

This immediately gave them a lot more confidence.

"My young friend."

Daoist Xuan God quietly came over and asked in a low voice, "Can you control or deploy the Rulers behind you?"

"Of course." Jian Wushuang nodded with a smile. "These people have been subdued by me. I even left a mark in their soul origin. It can be said that their lives are in my hands. How can they dare to disobey my orders?"

"That's good." Daoist Xuan God's eyes lit up.

He was worried that Jian Wushuang would not be able to completely control these experts. Not only would there be a great storm, but they would also be unable to use their battle strength to the limit during the battle with the Devil Cloud Star Army, but now that he heard that Jian Wushuang had left a mark in these experts' soul origin, he was completely relieved.

"By the way, besides these experts, there are also many treasures in this interspatial ring. Take a look." Jian Wushuang smiled and took out another interspatial ring.

"Treasures?"

The eyes of Daoist Xuan God, Temporal Temple Master, Heaven-cleaving Alliance Master, and Heaven Ancestor shone with a strange light.

The four of them knew what Jian Wushuang was capable of. Back then, Jian Wushuang had brought back two batches of treasures, both from the Red Cloud World. The first batch was a large number of supreme treasures, including 100 Supreme Treasures, the second batch was the Three-layered Dao Realm, which made them ecstatic.

But this time, what did Jian Wushuang bring back?

“Oh my God!”

“Oh my God!”

“No, I can’t believe it!”

The few of them, who had been looking forward to it, stared at the treasures in Jian Wushuang’s interspatial ring with their eyes wide open.

They could not even hide the shock in their hearts and cried out in surprise.

It was not their fault that they were so shocked. The treasures in the interspatial ring were really incredible to them.

Supreme true treasures!

The interspatial ring had supreme true treasures!

Jian Wushuang had brought back 100 supreme true treasures last time, and the Rulers had several supreme true treasures with them. They would not be too surprised to see supreme true treasures again, but now...they could not help being shocked.

Because the interspatial ring was filled with countless supreme treasures.

There were so many of them, at least thousands of them!

And some of them emitted an extremely powerful aura. They were obviously Supreme Treasures of the supreme grade.

“How can there be so many supreme treasures?” Daoist Xuan God’s eyes widened in disbelief.

The others had similar expressions.

Jian Wushuang was the only one who looked calm and had a faint smile on his face.

He had killed many Rulers during his adventure in the Eternal Dark Prison, especially the Star Demon Ancestor. He had suppressed and killed hundreds of them in one go.

After all, these Rulers had survived for hundreds of chaos cycles in the Eternal Dark Prison. Each of them had killed many experts during their long adventure, so they naturally had many treasures in their hands.

The first Ruler Jian Wushuang killed in the Eternal Dark Prison was Lord Siyi, who was at the peak of the second level. However, after killing him, Jian Wushuang obtained more than 20 supreme treasures, later, he killed many Rulers. Even the weakest one was no weaker than Lord Siyi. There were many third level Rulers and even the strongest experts in the dark zone.

Jian Wushuang also killed Star Demon Ancestor, and the experts he had subdued had many treasures. Although Jian Wushuang did not ask for most of the treasures, they did not need ordinary supreme treasures, naturally, he gave them all to Jian Wushuang.

With all the supreme treasures, Jian Wushuang had a lot of supreme treasures. Now, he had taken out about 70 percent of the supreme treasures and thousands of them.

“Supreme treasures are extremely common in the Eternal Dark Prison. They are not valuable at all. However, in this Star Field, the supreme treasures are the real treasures.” Jian Wushuang chuckled.

Now, when Daoist Xuan God and the others saw so many supreme treasures, they were shocked beyond words.

“These supreme treasures are not of much use to me now. Xuan God, think about how you can make the most of them,” Jian Wushuang said.

“Okay.”

Xuan God had been calm since the destruction of the Seven Star Mysterious Sect. He immediately discussed with the Temporal Temple Master and the others.

Soon, the result came out.

“My young friend, the number of Supreme Treasures you gave us is indeed too many. This Star Field is too small, so it’s impossible for us to make full use of them. At most, we can only make use of part of their value, but it’s worth trying,” Xuan God said.

“Do you have a plan?” Jian Wushuang looked at him.

“Yes, we do.” Daoist Xuan God nodded slightly. “We plan to tell the public that we have a large number of top-tier supreme treasures.”

“Tell the public?” Jian Wushuang was stunned.

“Yes, tell the public.” Daoist Xuan God smiled and said, “With this batch of supreme treasures and the many top-tier supreme treasures you brought back for us, we can’t use so many of them in the divine beginning realm alone. Therefore, we plan to use this batch of supreme treasures to try our best to win over the forces or experts in this Star Field.”

...

Chapter 3932: Open Recruitment

“Our Divine Beginning Realm is just one of the astral worlds in this Star Field. Moreover, it’s just an astral world that hasn’t been nurtured for long. If it weren’t for the fact that we’ve relied on the three layers of Dao Worlds, our Divine Beginning Realm would have produced a large number of experts. Otherwise, our overall strength and foundation would be far inferior to the other astral worlds in this Star Field.”

“There are many Principles Masters in this star area. Moreover, those Principles Masters who dare to wander in the three great battlefields all year round are all powerful. They are much stronger than the

new Principles Masters in our Divine Beginning Realm. As for Rulers, there are many in this star area. If possible, I plan to recruit as many of them as possible.”

“Our Star Palace has been very low-key in recent years. Our reputation in this Star Field is quite good as well. Aside from the sacred islands that the three great holy lands once supported, we don’t have any enemies. The experts of this Star Field don’t hate our Star Palace, but now that we have a large number of supreme treasures, we can use them as a condition to invite them to fight for us in the Divine Beginning Realm.”

Daoist Xuan God smiled.

“We’ve just discussed this. Although this Star Field has a large number of Principles Masters and quite a few Rulers, because it’s located at the very edge of the universe, the number of true treasures this Star Field possesses is relatively small. After all, the only way for the great beings of this Star Field to obtain true treasures and opportunities is through the three great battlefields. However, although the three great Universe Battlefields of Crimson Rock Mountain, Devil Smoke Valley, and Quicksand Demon region contain a large number of true treasures and opportunities, the number of true treasures that can truly be obtained is very, very small.”

!!

“That’s why the great beings in this Star Field are short of true treasures, especially high-level true treasures.”

“My little friend, you brought back a total of 100,000 pinnacle true treasures from the Red Cloud World for the first time. These are pinnacle true treasures. Under normal circumstances, even Rulers would attach great importance to pinnacle true treasures, not to mention Principles Masters.”

“We can make a promise. As long as Principles Masters above the fifth level of the void space are willing to fight on behalf of our Divine Beginning Realm, it won’t be long before they are willing to give their all in the Great War against Devil Cloud Star in a thousand years. We will give them a pinnacle true treasure as a reward. As for those below the fifth level of the void space, after all, we can give top-tier true treasures as a reward for the cultivators at the fourth and third level of the Void Space.”

“I believe that if this news spreads out, the entire Star Field will be in an uproar. Countless Principles Masters in the Star Field will go crazy over it. I’m afraid that within a few hundred years, countless Principles Masters will rush to my Star Palace for Supreme True Treasures and top-tier true treasures. With these true treasures, the Divine Beginning Realm will be able to gather an enormous army of Principles Masters in a short period of time!”

Hearing this, Jian Wushuang narrowed his eyes.

He had no doubt about what Daoist Xuan God had said.

There were too few supreme true treasures in this Star Field, and they were of low quality. Even Rulers valued a pinnacle true treasure. Among the Principles Masters, there were only a few who were special, there were almost no pinnacle true treasures in this Star Field.

An ordinary pinnacle true treasure was enough to make any Principles Master in this Star Field go crazy, including those at the pinnacle of six levels.

As for top-tier true treasures, those Principles Masters at the six levels of the void space would also be envious.

Now, as long as it was above the five levels of the void space, they would give top-tier true treasures to those at the three levels of the void space and the four levels of the void space. If this news spread out, not many Principles Masters would be able to resist the temptation.

“And that’s only for Principles Masters. As for the battle strength of Rulers, we now have a large number of supreme true treasures. We can also ask the Rulers of this Star Field to help us at the price of supreme true treasures. Although the battle strength of the Rulers of this Star Field is not much, all of them together can be considered a strong force.”

“Together with the army of countless Principles Masters, we can completely gather more than 70% of the battle strength of the upper echelons of this Star Field in the Divine Beginning Realm. When the Devil Cloud Star Army arrives, our chances of fighting them will be much greater,” Daoist Xuan God added.

“That’s right.” Jian Wushuang nodded slightly. “Compared to this Star Field, the Divine Beginning Realm is much better. If we can combine all the upper echelons of this Star Field with true treasures, it’ll be a great help to our Divine Beginning Realm. As for these true treasures, we’ll only pay a large number of pinnacle true treasures and top-tier true treasures. As for the supreme true treasures, they won’t be too much, so they won’t affect our Divine Beginning Realm.”

“It doesn’t really matter,” said Daoist Xuan God with a smile. “Actually, when you first brought back 100,000 pinnacle true treasures and 100 supreme true treasures, I had already considered this step. However, at that time, we didn’t have too many supreme true treasures on hand. If we used all of them as a price to recruit great beings, then after the Great War ended, Pinnacle True Treasures would flood the universe, and the Great Beings of all the powers in the universe would have a large number of pinnacle true treasures and supreme true treasures. As for us in the Divine Beginning Realm, we would be at a disadvantage when it comes to true treasures.”

“In addition, in that situation, the only trump card of the Divine Beginning Realm was your strength. However, at that time, your combat power wasn’t enough to intimidate the entire Star Field. I was worried that if we acted like this, it would cause the countless major powers in this Star Field to go crazy. At that time, not only would they not help us resist Devil Cloud Star, they would even directly attack and snatch our Supreme Treasures.”

“But now, neither of those two exists.”

Daoist Xuan God paused, he laughed, “This time, you brought back thousands of supreme treasures for us. With these supreme treasures in our hands, even if we flood this Star Field with supreme treasures in the future, our Divine Beginning Realm will still be in the absolute lead. As for the experts of the other factions...you are now publicly acknowledged as the number one expert in this Star Field. Even Demon Monarch Ancient Night was defeated by you. With just you alone, no one in this Star Field would dare to act recklessly.”

“Besides, you’ve brought back such a large number of experts. With them, we can protect our precious treasures even if we have dozens of times more. No one or force dares to lay their hands on our Star Palace.”

Jian Wushuang smiled.

It was a sin to be rich.

The Star Palace had a large number of precious treasures, but they had to hide them carefully and did not dare to expose them. After all, the Star Palace was not very strong in this Star Field.

But now, not to mention the large number of Principles Masters under Star Palace, just the top-level combat power alone, or any of his servants, could sweep across this Star Field. With such power...Star Palace did not need to worry at all.

Chapter 3933: Boiling!

“In that case, let’s make the news public as soon as possible and let all the experts in the Star Field know in the shortest time possible.” Jian Wushuang smiled. “As for the Supreme Treasures, don’t be stingy and use them freely. I’ll go to the Red Cloud World again in a while and bring back as many supreme treasures as possible.”

Red Cloud World had countless true treasures, more than hundreds of millions of them?

Even though Lord Wu had some restrictions on supreme true treasures and supreme true treasures, if they were only top-tier, pinnacle true treasures, Lord Wu would have said it back then, he could take as many as he wanted.

That time, he only brought out 100,000 pinnacle true treasures. If he needed them now, he could go to Red Cloud World and ask Lord Wu for some top-tier and pinnacle true treasures, he believed that Lord Wu would most likely agree to his request.

“With enough true treasures, we can gather a large number of Principles Masters to form an army of Principles Masters. However, there are too many Principles Masters, so it’s not easy to fully utilize them. The best way is to let them practice and master some special battle formations so that they can work together to unleash greater battle strength. However, this kind of battle formation is fine on a small scale, but our Star Palace doesn’t have a large-scale battle formation at the moment,” Daoist Xuan God said with a frown.

!!

“A large-scale battle formation?” Jian Wushuang’s expression changed.

It was true that an army composed entirely of Principles Masters would have to work together with some special formations or battle formations in order to unleash greater battle strength.

Now, there were more than 100,000 Principles Masters in the Divine Beginning Realm alone. If a large number of Principles Masters gathered in this Star Field, the number would be even more terrifying. It

was likely that there would be hundreds of thousands of Principles Masters at any time, it must be very demanding to be able to maximize the battle formation of these Principles Masters.

“Stone Fire,” Jian Wushuang said.

“Master.” Stone Fire immediately came to Jian Wushuang’s side.

“Your attainments in formation are the highest among us. Do you have a way to solve this battle formation?” Jian Wushuang asked.

Ruler Spark smiled and said, “Master, to tell you the truth, before I was imprisoned, I served in the military camp of a divine kingdom. My duty is to design and perfect the military formations and formations of the army. Of course, the military formations of a divine kingdom’s army are terrifyingly high-level. There are nearly 100,000 people in charge of researching and perfecting this military formation. I’m just one of them, but I know a lot about the military formations and battle formations of this army.”

“As for the army of the divine kingdom, they could easily send out tens of millions and hundreds of millions of experts. In comparison, it’s much easier to create hundreds of thousands, or at most close to a million, battle formations of Principles Masters.”

“That’s good.” Jian Wushuang’s eyes lit up. “In that case, I’ll leave it to you.”

“No problem.” Ruler Spark nodded with confidence.

“Xuan God, Ruler Spark is a formation master. His understanding of formation is very high. Even among the fourth-and fifth-level masters, he is extremely high. No one in this Star Field can compare to him. Leave the battle formation to him,” Jian Wushuang said.

“Thank you, Mr. Stone Fire.” Daoist Xuan God cupped his hands and said.

“I’m just following master’s orders. You’re too kind.” The Starlord returned the salute.

“Xuan God, I’ll leave these people to you for now. Find a place to settle them first. If they need anything, as long as they don’t go too far, they can be satisfied,” Jian Wushuang said.

“Okay.” Daoist Xuan God nodded.

Jian Wushuang turned around and looked at the slaves behind him. “Listen up. Xuan God is my elder and has done me a great favor. When I’m not around, you have to listen to him. Of course, if you need anything, you can ask him. He will do his best to satisfy you, but don’t go too far.”

“In addition, you were all imprisoned by the Red Cloud Branch, and most of you have committed crimes. There may even be some evil people among you. I don’t care about these, but now that you’re under my command, you have to behave. Whoever dares to stir up trouble in this Star Field, don’t blame me for being rude. I already have a lot of slaves, so it doesn’t matter if I kill a few.”

Jian Wushuang’s eyes were cold.

The servants in front of him were shocked.

There were indeed many evil people among them who had committed heinous crimes.

They had been imprisoned in the Eternal Dark Prison for a long time. Now that they finally got out of the Eternal Dark Prison, they had been holding back their energy and wanted to vent, some of them even wanted to slaughter them.

For them, who were strong and had lived for a long time, it was normal to slaughter some ants. However, it was clear that their master disliked such things.

Now that they were under Jian Wushuang's control, they did not dare to disobey his orders.

After all, although Jian Wushuang swore to the universal principle that he would return their freedom in 100,000 years, they had to obey his orders.

If they did not obey his orders, Jian Wushuang could still kill them at any time.

"Xuan God, I'm going to the Nine Emperor Pavilion. If you need anything, you can send me a message directly," Jian Wushuang said.

"Okay." Daoist Xuan God nodded slightly.

"Demon Dragon, follow me," Jian Wushuang said.

"Yes." Demon Dragon Lord nodded.

Immediately, Jian Wushuang and Demon Dragon Lord set off for the Nine Emperor Pavilion.

The remaining 40 slaves were temporarily settled in Star Palace by Daoist Xuan God.

At the same time, a piece of news spread through the entire Star Field at the fastest speed.

This news was personally spread by Star Palace Master. He said that there were countless supreme treasures in Star Palace. In this Star Field, any Principles Master or Ruler who was willing to fight for Star Palace for 10,000 years would be able to obtain a supreme treasure as a price.

Among them, Principles Masters at three or four levels of void space were rewarded with a top-tier true treasure!

Principles Masters at five or six levels of void space were rewarded with a pinnacle true treasure.

Great beings at the Ruler level were rewarded with a supreme true treasure!

Regardless of how many Principles Masters and Rulers came, Star Palace guaranteed that they had enough true treasures. Even if it was a million top-tier or pinnacle true treasures, Star Palace could afford it.

As soon as the news spread out, the entire Star Field was in an uproar.

Soon after, countless great beings from this Star Field heard the news and rushed to Star Palace!

For a time, Star Palace became the center of attention in this Star Field.

Star Palace...

Chapter 3934: The Pavilion Master Welcomes You

The Nine Emperor Pavilion was a large-scale trading place.

When Jian Wushuang heard about the Nine Emperor Pavilion from Temporal Temple Master, he only knew that it was very special. It did not compete for Ruler, did not participate in the fight for treasures and opportunities, and only did business. However, the Nine Emperor Pavilion spread to many corners of the universe, there were even some in the deepest parts of the universe.

At that time, Jian Wushuang was a little curious about the Nine Emperor Pavilion.

After subduing Devil Flame and a large number of slaves in the Eternal Dark Prison, Jian Wushuang had a new understanding of the Nine Emperor Pavilion.

The Nine Emperor Pavilion was a giant!

Although it did not compete for Ruler and did not participate in the fight for treasures and opportunities, the Nine Emperor Pavilion spread to every corner of the universe. Even in the deepest parts of the universe, it held an important position.

In the deepest parts of the vast universe, there were many eternal divine kingdoms. These divine kingdoms were created by top-tier Absolute Rulers, such as the Red Cloud Branch.

These divine kingdoms should be the territory of the creator, but within these divine kingdoms, there was the Nine Emperor Pavilion, and there were quite a few of them.

To be able to spread the Nine Emperor Pavilion to every corner of the universe and even infiltrate large divine kingdoms without any objections from the masters of those divine kingdoms, one could imagine how terrifying the Nine Emperor Pavilion was.

“The Nine Emperor Pavilion has existed in the vast universe for such a long time and covered such a vast territory. Its strength and heritage are simply unimaginable. The one who created it must be an earth-shaking expert. He must be at least an invincible supreme-being, which is at the level of Supreme Lingyun, or maybe even stronger,” Jian Wushuang thought.

The Nine Emperor Pavilion was definitely a Super Ruler in the universe, at least much stronger than the Red Cloud Branch.

Jian Wushuang had no doubt about this.

Although the Star Field he was in was at the edge of the universe, the power of the Nine Emperor Pavilion still penetrated into it.

In the middle of the Star Field, a huge and ancient Earth Star floated quietly. The Nine Emperor Pavilion was located on this Earth Star.

Whoosh! Whoosh!

Jian Wushuang and Demon Dragon Lord appeared in the void outside the Earth Star.

“Nine Emperor Pavilion.” Jian Wushuang looked calmly at the huge Earth Star in front of him.

Although there was a layer of great magic formation on the Earth Star, Jian Wushuang could still clearly see the tall buildings in the magic formation.

The entire Nine Emperor Pavilion was extremely vast and there were many cultivators walking around on the Earth Star. Most of these cultivators were experts who came to the Nine Emperor Pavilion to trade.

Beside Jian Wushuang, Demon Dragon Lord was much more overbearing than him. He glanced at the Nine Emperor Pavilion in front of him and swept out his soul power recklessly. The array on the Nine Emperor Pavilion...it could not stop Demon Dragon Lord's soul detection at all. In an instant, Demon Dragon Lord had a clear view of the scene in the Nine Emperor Pavilion.

"There are three Rulers in total. Two of them are only at the first level, but one of them has reached the second level," Demon Dragon Lord said.

"Oh?" Jian Wushuang raised his eyebrows.

He did not expect that there would be a second level Ruler in the Nine Emperor Pavilion.

When the experts in the Eternal Dark Prison had not come out, there was only one second level Ruler in the Star Field, Master Kun Yu. It seemed that no one else had reached the second level, but now it seemed that...there was such a master in the Nine Emperor Pavilion.

"Let's go in." Jian Wushuang rushed toward the Earth Star.

When Jian Wushuang appeared in the void outside the Nine Emperor Pavilion and swept the soul power of the Demon Dragon Lord, the three Masters in the Nine Emperor Pavilion immediately sensed him.

Whoosh! Whoosh! Whoosh!

Three powerful auras rose from the Nine Emperor Pavilion at the same time, and three figures appeared above the buildings in the Nine Emperor Pavilion.

The appearance of these three instantly caused a commotion within the Nine Emperor Pavilion.

"Rulers? Three Rulers?"

"They are the three pavilion lords of the Nine Emperor Pavilion. The one in the center is the first pavilion lord of the Nine Emperor Pavilion, Ruler Chenyun. It is said that this Ruler Chenyun reached the peak-level of Rulers many years ago, and in terms of combat power, he isn't any weaker than Ruler Kun Yu. However, Ruler Kun Yu has already left this Star Field because of the rise of Demon Monarch Ancient Night. Right now, among the strongest experts in this Star Field, other than Blood Sword Master and Demon Monarch Ancient Night, this Ruler Chenyun should be the strongest."

"Did something happen? The three Rulers of the Nine Emperor Pavilion actually appeared at the same time. Even the deepcloud Ruler has appeared."

Exclamations rang out from below.

Many Principles Masters who had come to the Nine Emperor Pavilion to trade raised their heads in shock as they stared at the three Rulers.

Soon after, the three Rulers directly flew into the void ahead under their gazes. There were two figures slowly walking over.

Clearly, the three Pavilion Masters had appeared because of the arrival of these two people.

However, who were these two people? They actually caused the three Pavilion Masters of the Nine Emperor Pavilion to appear at the same time to welcome them?

“Haha, the arrival of the Blood Sword Master brings light to our Nine Emperor Pavilion.”

A grand laughter was emitted from the mouth of Ruler Chenyun.

Upon hearing this laughter, the Principles Masters below immediately understood.

“I was wondering who it was. So it’s the Blood Sword Master!”

“Mm, with the status of Ruler Chenyun, in this Star Field, probably only the Blood Sword Master and Demon Monarch Ancient Night are qualified for him to personally welcome him.”

“Blood Sword Master? That’s the Blood Sword Master? Judging from his aura, he’s just an ordinary Principles Master?”

“An ordinary Principles Master?”

“What a joke. He’s also a Principles Master, but if Blood Sword Master wants to kill us, it’s as easy as crushing an ant. Let alone us, even an ordinary Ruler would be easily killed by Blood Sword Master. After all, he defeated Demon Monarch Ancient Night in a head-on fight. How powerful is Demon Monarch Ancient Night?”

“Who’s the one-horned elder next to Blood Sword Master?”

“I don’t know, but he seems to be an extremely powerful expert.”

The Principles Masters below all began to discuss.

To these Principles Masters, ordinary Rulers were already high and mighty. The appearance of Ruler Chenyun was enough to make them excited and even shocked.

And in this Star Field, it had long been rumored that he was a god. With the level of a Principles Master and being hailed as the number one expert in this Star Field, Blood Sword Master was enough to make them go crazy.

It was a great fortune for the Principles Masters to meet such an expert.

They were also Principles Masters, so they admired and admired Jian Wushuang’s strength.

Now, they looked at Jian Wushuang like he was their idol.

Chapter 3935: Was Too Low-Level

Jian Wushuang and Demon Dragon Lord stood in the void above the Nine Emperor Pavilion. In front of them were the three Pavilion Masters of the Nine Emperor Pavilion.

However, the three Pavilion Masters were not looking at Jian Wushuang, but Demon Dragon Lord.

“This man...”

Ruler Chenyun looked at Demon Dragon Lord and frowned.

He did not know Demon Dragon Lord, and he had never heard of such an expert. However, although Demon Dragon Lord was standing behind Jian Wushuang, there was an invisible pressure on him, it was so strong that even Ruler Chenyun was shocked.

At this moment, Demon Dragon Lord glanced at him. With just a simple glance, Ruler Chenyun felt his body and mind twitching.

“What a terrifying expert. I feel that he isn’t weaker than Demon Monarch Ancient Night, and might even be stronger!”

Ruler Chenyun was the number one Pavilion Master of the Nine Emperor Pavilion. When Demon Monarch Ancient Night rose to power, he had interacted with the latter. However, the Nine Emperor Pavilion’s background was too great. Back then, although Demon Monarch Ancient Night had absolute power in this Star Field...he could suppress many major powers in this Star Field, but he did not dare to provoke the Nine Emperor Pavilion.

Ruler Chenyun found that the one-horned elder standing in front of him was more powerful than Demon Monarch Ancient Night.

However, the one-horned elder was standing a little behind Jian Wushuang.

“Blood Sword Master, May I know who is standing next to you?” Ruler Chenyun asked.

“He’s just a servant of mine. Don’t worry, Ruler Chenyun,” Jian Wushuang said with a smile.

“A servant?” Ruler Chenyun and the other two Pavilion Masters looked at each other, feeling even more shocked.

“Ruler Chenyun, I’m here to make a deal,” Jian Wushuang said.

“It must be a big deal for Blood Sword Master to come here in person. Please follow me to the cabinet. We can talk about it slowly,” Ruler Chenyun invited.

“Okay.” Jian Wushuang nodded.

Immediately, Jian Wushuang and Demon Dragon Lord headed toward the Pavilion in the center of the Nine Emperor Pavilion under the guidance of Ruler Chenyun.

...

Jian Wushuang sat in front of a round table in the magnificent pavilion, while Demon Dragon Lord stood behind him respectfully. In front of him, the three Pavilion Masters of the Nine Emperor Pavilion were also sitting there.

“Blood Sword Master, what treasures do you want to exchange for?” Ruler Chenyun asked directly.

“Crystals, all kinds of special crystals, but at a higher level,” Jian Wushuang said.

He wanted special crystals, so he naturally prepared them for Devil Flame.

Although he had killed many masters in the Eternal Dark Prison, subdued many experts, and obtained a large number of special crystals, these special crystals, except for the gold-green world stone that he got from Thousand Kills Emperor Lord, were not enough, even if all the gems were added up, they would not be enough for Devil Flame to restore 10% of his gold-swallowing divine body.

Therefore, Jian Wushuang needed more high-quality gems.

“That’s easy. I have a list of the special gems from the Nine Emperor Pavilion. Blood Sword Master, you can take a look at it.” Ruler Chenyun handed a list to Jian Wushuang.

Jian Wushuang took it and browsed it with Devil Flame.

After a while, he finished reading the list.

“No, it’s too low-level.” Devil Flame’s voice sounded in Jian Wushuang’s mind. “The Crystals on this list are all ordinary. Their quality is lower than the ones you got in the Eternal Dark Prison. Now that my gold-swallowing divine body has recovered a lot, I need to continue to recover. Even if I devour these ordinary crystals, they won’t be of much use. Only those higher-level crystals can help me recover my gold-swallowing divine body.”

“None of the crystals on this list can meet my requirements.”

Jian Wushuang frowned.

He had heard from Devil Flame that as the gold-swallowing divine body slowly recovered, the quality of the crystals would become higher and higher. Although Devil Flame’s gold-swallowing divine body had not recovered by 10%, ordinary crystals could no longer help him recover his divine body.

“Ruler Chenyun, to tell you the truth, the special crystals I want must be of a high level. None of the crystals on this list can meet my requirements,” Jian Wushuang said.

“None?” Ruler Chenyun was shocked. “That’s not right. The Crystals on this list are extremely rare and precious in this Star Field. Several of them are almost extinct in this Star Field. How could none of these precious crystals meet your requirements?”

“Blood Sword Master, can you tell me what you want these crystals for?”

Ruler Chenyun was indeed curious.

However, Jian Wushuang shook his head. “This matter is of great importance. Forgive me for not being able to tell you, but I do need those higher-level crystals. Ruler Chenyun, do you have any higher-level crystals in the Nine Emperor Pavilion, or do you have other ways to get them?”

“The crystals that I can take out are all on this list. I’m afraid it’s difficult to find higher-level crystals in this Star Field. However, Blood Sword Master, if you really need them, there are other ways,” Ruler Chenyun said.

“What ways?” Jian Wushuang looked at him.

“Blood Sword Master, you should know something about the Nine Emperor Pavilion. It covers every corner of the universe and every Star Field. This Star Field is at the edge of the universe and is the most barren place. Naturally, it has limited resources and treasures. This Star Field doesn’t have higher-level crystals, but other Star Fields do. If you really need them, the Nine Emperor Pavilion can send them to you from other Star Fields.”

“But...it will cost a lot more to send it from other Star Fields,” Ruler Chenyun said.

Jian Wushuang narrowed his eyes. He was not surprised.

The high-level crystals he needed were very difficult to get in this Star Field. Unless he entered the deepest part of the three battlefields and had a heaven-defying opportunity, he could only get one or two of those special crystals, for example, Jian Wushuang had obtained a piece of blood blaze iron.

However, difficult seeds were purely a matter of luck.

It was indeed not easy to obtain such high-level special crystals within the resources of this Star Field. He could only send them from other Star Fields.

The price of sending them from other Star Fields was certainly more expensive. After all, the universe void was too vast. One Star Field was extremely far away from another Star Field. Even the Nine Emperor Pavilion...it would not be easy to send treasures from one Star Field to another.

“I want to know what kind of crystals the Nine Emperor Pavilion can send to this Star Field in a short period of time,” Jian Wushuang asked.

Chapter 3936: Universe Origin Stone

“Well, I have to talk to the Pavilion Masters of some nearby Star Fields to get accurate information.” Ruler Chenyun paused for a moment. “Well, please wait here for a moment. I’ll contact the branch Pavilion Masters of those Star Fields immediately.”

“Okay.” Jian Wushuang nodded and did not rush them.

Ruler Chenyun immediately ordered people to serve them good wine and food.

Half a day later, Ruler Chenyun gave a definite answer.

“Blood Sword Master, I’ve just compiled this list. It can be sent to this Star Field in the shortest time. The level of the special crystals on this list is much higher than the previous list. See if you’re satisfied.” Ruler Chenyun sent another list to Jian Wushuang.

Jian Wushuang took it, scanned it with his consciousness, and nodded slightly.

Indeed, the level of the special gems on this list was much higher than the previous one.

“Devil Flame, what do you think?” Jian Wushuang communicated with Devil Flame in his mind.

“It’s not bad.”

Devil Flame also said, "Although there are only dozens of gems on this list, they are not low-level. The highest level of these gems can help me recover my divine body the most. One is Ice Essence Crystals, and the other is Gold-Fire Magic Stones. Although these two gems are still inferior to the gold-fire world stone, they are still very good, especially the Gold-Fire Magic Stones. If there are a certain number of them, I can recover 10% to 20% of my divine body in a short time."

Jian Wushuang immediately raised his head after receiving the answer from Devil Flame. "Ruler Chenyun, I need two kinds of crystals, Ice Essence Crystals and Gold-Fire Magic Stones. I wonder how much they are worth?"

"Ice Essence Crystals and Gold-Fire Magic Stones?" Ruler Chenyun raised his eyebrows, he smiled and said, "Blood Sword Master, you have good taste. On the latest list I gave you, these two kinds of crystals are of the highest level, especially Gold-Fire Magic Stones, which are extremely rare in the edge of the universe."

"Of course, the higher the level, the higher the value. Moreover, these two crystals need to be sent from other Star Fields, so the price is even higher."

Ruler Chenyun only said that the price was higher, but he did not mention the specific value of these two crystals.

Jian Wushuang said directly, "Not only do I need to send these two crystals from other Star Fields, but I also have a request, which is that the speed must be fast. Within 500 years, they must be sent to this Star Field and handed over to me."

"What? Within 500 years?" Ruler Chenyun stared at him.

"Why? Can't you do it?" Jian Wushuang glanced at him.

"I can do it. The Nine Emperor Pavilion is spread throughout the universe and has connections with other Star Fields. There are special space passages between us. If we use them, we can send them to you within 50 years, let alone 500 years!"

"But the key is the universe passage. Unlike the space passages in the Star Fields, it's extremely difficult to open any of them. The cost is enormous. And this is just the creation. Every time we use the universe space passage, we also have to pay a huge price. It's the same for the short-distance universe space passage. But to cross the Star Fields, the cost is even more ridiculous." Ruler Chenyun frowned.

"I know the price is high, and I'm prepared for it. You don't have to waste your breath on me. Just tell me how much it will cost to deliver these two crystals to me within 500 years," Jian Wushuang said in a low voice.

Ruler Chenyun pondered for a moment, then stretched out a finger and said, "One Gold-Fire Magic Stone costs one Universe Origin Stone!"

Jian Wushuang's pupils suddenly shrank.

"What a big demand," Demon Dragon Lord said coldly, and a faint murderous aura swept out from his body.

Ruler Chenyun and the other two Pavilion Masters of the Nine Emperor Pavilion were shocked when they sensed this murderous aura.

Jian Wushuang waved his hand, indicating Demon Dragon Lord to restrain his aura.

“One Universe Origin Stone?” Jian Wushuang narrowed his eyes.

Universe Origin Stone was a special unit used for trading in the vast universe.

In the vast universe, there were two kinds of currency. One was Universe Crystals, which was the first universal currency that Jian Wushuang came into contact with. When he received the blood north inheritance, he got some Universe Crystals, at that time, he did not know the use of Universe Crystals. Later, when he entered the Universe Battlefield, he found out.

However, Universe Crystals were only the most basic currency, and most of them were used by Principles Masters and some weaker Rulers.

Rulers who had reached a certain level of strength used Universe Origin Stones to trade.

In the universe, the ratio of Universe Origin Stones to Universe Crystals was 1:100 million.

In other words, 100 million Universe Crystals could be exchanged for one Universe Origin Stone.

However, in this Star Field, even those Principles Masters who had been adventuring in the Universe Battlefields all year round and had true treasures would only have 100 Universe Crystals in total, even for a first-tier Ruler, their total wealth would only be around 100,000 Universe Crystals. If they had a supreme true treasure, their wealth might be a little more, but it would not be much more.

One Universe Origin Stone was equivalent to 100 million Universe Crystals, which was an astronomical figure for most first-level Rulers.

On the market, a supreme true treasure could be worth between 1 million and 2 million Universe Crystals.

One Universe Origin Stone was equivalent to dozens or even nearly a hundred supreme true treasures.

Demon Dragon Lord could not be blamed for saying that Ruler Chenyun was asking for too much. Under normal circumstances, a golden-fire magic stone did not need one Universe Origin Stone. At most, 0.1 Universe Origin Stone would be enough.

“Blood Sword Master, I know that the price is relatively expensive, but there’s no other way. Your request is too high. You must send it to this Star Field within 500 years. For 500 years, you can only rely on the universe space passage,” Ruler Chenyun said solemnly.

“What about Ice Essence Crystals?” Jian Wushuang asked again.

“The value of Ice Essence Crystals is slightly lower than Gold-Fire Magic Stones, but if it is sent within 500 years, it will also cost 0.9 Universe Origin Stones,” Ruler Chenyun said.

Jian Wushuang fell silent.

In his heart, he was asking Devil Flame, “Devil Flame, how many Gold-Fire Magic Stones or Ice Essence Crystals do you need to recover 20% of your gold-swallowing divine body?”

“If all of them are Gold-Fire Magic Stones, 100 should be enough. If all of them are Ice Essence Crystals, I’m afraid you’ll need about 120,” Devil Flame replied.

“100 Gold-Fire Magic Stones means 100 Universe Origin Stones.” Jian Wushuang could not help narrowing his eyes.

Chapter 3937: In Exchange

Jian Wushuang had the Universe Origin Stone.

He had obtained it from killing and subduing many experts while adventuring in the Eternal Dark Prison.

It should be known that most of the experts in the Eternal Dark Prison came from the depths of the universe and had survived hundreds of chaos cycles of slaughter. Every single one of them had extraordinary wealth and more or less had some Universe Origin Stones or Universe Crystals in their hands, all of them added together, they now had about 20 Universe Origin Stones.

However, 20 Universe Origin Stones were obviously not enough to buy Gold-Fire Magic Stones and Ice Essence Crystals.

“Ruler Chenyun, I need a lot of Gold-Fire Magic Stones and Ice Essence Crystals,” Jian Wushuang suddenly said.

“Oh?” Ruler Chenyun immediately looked at Jian Wushuang.

“If it’s just Gold-Fire Magic Stones, I need 100. As for Ice Essence Crystals, I need 120,” Jian Wushuang said directly.

“This...” Ruler Chenyun and the other two Pavilion Masters were stunned.

They knew very well how expensive Ruler Chenyun’s price was.

One Gold-Fire Magic Stone was worth 100 Universe Origin Stones.

In the universe, even a master of the fourth or fifth level might not have 100 Universe Origin Stones?

How could this Blood Sword Master afford it?

Even though he was extremely doubtful...however, Ruler Chenyun still said, “Blood Sword Master, even though I’ve given you this list, it doesn’t mean that there are many crystals on this list, especially the ones with the highest levels, such as Gold-Fire Magic Stones and Ice Essence Crystals.”

“Previously, I’ve communicated with many branch Pavilion Masters and made statistics. All the Star Fields in this vicinity add up to only around 30 Gold-Fire Magic Stones. As for the Ice Essence Crystals, they are a little more, but they are less than 60. Even if I gave you all of them, they wouldn’t be able to meet your requirements.”

"How about this? I can try my best to give you 30 Gold-Fire Magic Stones and 50 Ice Crystals within 500 years. Of course, if it's slightly inferior crystals, such as Blood-Dragon Crystals, there are a lot of them in the surrounding Star Fields. I can get you 200 or 300 of them. What do you think?"

"Blood-Dragon Crystals?" Jian Wushuang frowned.

"That's fine." The voice of the Devil Flame sounded in Jian Wushuang's mind. "Although the Blood-Dragon Crystals are not as high as Gold-Fire Magic Stones and Ice Essence Crystals, 300 Blood-Dragon Crystals together can be compared to 30 to 40 Gold-Fire Magic Stones. All of them are enough."

"Okay." Jian Wushuang nodded. "Just 30 Gold-Fire Magic Stones, 50 Ice Essence Crystals, and 300 Blood-Dragon Crystals."

"Okay." Ruler Chenyun looked solemn. "I thought you only needed one or two Gold-Fire Magic Stones, so the price is naturally much higher. But now that you need so many at once...many crystals are in the same Star Field, so you can get a lot of them in one universe passage. This way, you can save a lot of money, so I can lower the price for you."

"How about this? 30 Gold-Fire Magic Stones and 50 Ice Essence Crystals. I'll give you 50 Universe Origin Stones. As for 300 Blood-Dragon Crystals, I'll give you 30 Universe Origin Stones. If you agree, I'll send them to the Star Palace within 500 years."

"Sure." Jian Wushuang nodded.

Although 80 Universe Origin Stones was still a huge number, it was indeed a lot more favorable than what Ruler Chenyun had said.

"Blood Sword Master, how do you pay for the 80 Universe Origin Stones?" Ruler Chenyun looked at him.

"I have a batch of treasures in my hand. Take a look and see how much they are worth." Jian Wushuang waved his hand and took out an interspatial ring.

The interspatial ring contained a large number of resources and treasures that he had obtained from the experts he had killed in the Eternal Dark Prison.

Many of these resources and treasures were extremely precious. They were not found in this Star Field, so they were naturally of great value.

After taking the interspatial ring, Ruler Chenyun began to examine it carefully.

When he saw the countless precious treasures in the interspatial ring, Ruler Chenyun's heart immediately trembled.

"Good god, Eight Directions Nether Vine, Wind-Fire Immortal Herb, Thunder Killing Blood Elixir..." Ruler Chenyun called out the names of dozens of treasures in one breath.

"These treasures are not only rare in our Star Field, but also in the nearby Star Field. Blood Sword Master, how could you take out so many treasures in one breath? Most of the other treasures are also very precious and high-level. Most of them are very difficult to find in our Star Field."

"Well, well, well."

Ruler Chenyun kept praising Jian Wushuang's skills.

He was just a Principles Master, but the treasures he brought out were enough to amaze most of the Rulers at the edge of the universe.

"Ruler Chenyun, tell me directly how much these treasures are worth," Jian Wushuang said coldly.

Ruler Chenyun made a simple calculation, he quickly replied, "Blood Sword Master, most of the treasures in this interspatial ring are extremely rare and there are several of them that are even more valuable. Add them all up and I can give you 30 Universe Origin Stones."

"30 Universe Origin Stones?" Jian Wushuang narrowed his eyes slightly.

30 Universe Origin Stones, in addition to the 20 Universe Origin Stones he already had, was only 50 Universe Origin Stones.

"I have some true treasures here, take a look." Jian Wushuang took out another interspatial ring.

Ruler Chenyun immediately took it. After checking, he found that there were only dozens of true treasures in the interspatial ring, but they were all supreme true treasures.

And they were not ordinary supreme true treasures.

"Dozens of supreme true treasures at the Supreme Level?" Ruler Chenyun widened his eyes and immediately calmed down, he said with a smile, "Blood Sword Master, I'll still give you the price of 20 Universe Origin Stones for these dozens of supreme true treasures."

Jian Wushuang finally frowned, he said in a low voice, "These supreme true treasures are all at the supreme level. Each of them is extremely valuable. It should be easy to exchange any one of them for 10 to 20 million Universe Crystals. Among them are true treasure armor, domain type true treasures, and suppression type true treasures. Adding them all together, it's more than 20 Universe Origin Stones, right?"

"Blood Sword Master, you don't know that," Ruler Chenyun said with a smile.

"In other words, the rarer something is, the more valuable it is. If you take out one supreme true treasure or two supreme true treasures, the price will be different," Ruler Chenyun said, "but if you take out dozens of them at once, and I've heard that there are a lot of true treasures in Star Palace, including many supreme true treasures, it must be related to you, Blood Sword Master."

Chapter 3938: War Saber

"Star Palace has a lot of true treasures, including supreme true treasures. They are also using these true treasures to recruit experts. If everything goes well, it won't be long before all the true treasures and supreme true treasures in this Star Field are overrun. In the future, the value of the true treasures in this Star Field will naturally be devalued."

"Blood Sword Master, you should understand the principle of adapting to local conditions." Ruler Chenyun looked at Jian Wushuang calmly.

Jian Wushuang was silent.

He did feel that 20 Universe Origin Stones was a little low, but what Ruler Chenyun said made him unable to refute.

Adapting to local conditions, if there were not many supreme true treasures in this Star Field, let alone supreme-grade universe true treasures, then the value would naturally be different.

Even if the price was lowered, he could not be angry or force the other party.

After all, he was not facing a small force, but the Nine Emperor Pavilion!

Although the first Pavilion Master of the Nine Emperor Pavilion, Ruler Chenyun, had been polite to him since he entered, in fact, Ruler Chenyun did not fear him at all.

After all, he was standing behind the Great Nine Emperor Pavilion. He only knew how to do business fairly and strive for greater benefits for the Nine Emperor Pavilion. Jian Wushuang was helpless about this.

"I've exchanged almost all the resources and treasures that I can exchange for, but I still can't get 80 Universe Origin Stones. Unless..." Jian Wushuang narrowed his eyes and pondered for a moment. Then, he made a decision.

"Ruler Chenyun, I have another true treasure, see how much it's worth." Jian Wushuang waved his hand.

This time, he did not take out his interspatial ring, but took out a Cyan Saber.

As soon as the Cyan Saber appeared, it immediately emitted a terrifying murderous aura. Moreover, the Cyan Saber faintly carried an extraordinary power.

That extraordinary power was the universe principle.

"This is...a principle supreme treasure!"

Ruler Chenyun and the other two Pavilion Masters of the Nine Emperor Pavilion were shocked when they saw the Cyan Saber.

Indeed, this Cyan Saber was the principle supreme treasure that Jian Wushuang had obtained from Devil Scorpion Lord.

He used one of the five principle Supreme Treasures of Devil Scorpion Lord. He gave a purple stone stick to Demon Dragon Lord and refined two Heaven Suppression Tablets.

As for the last one, it was the Cyan Saber. Jian Wushuang kept it in his interspatial ring in case he needed it.

Now, in order to get what he needed from the Nine Emperor Pavilion, Jian Wushuang took out the Cyan Saber.

"Blood Sword Master, you have a principle Supreme Treasure?" Ruler Chenyun looked at Jian Wushuang in shock.

“Cut the crap. Look at how many Universe Origin Stones this principle true treasure saber can be exchanged for,” Jian Wushuang said coldly.

Ruler Chenyun immediately began to check the power of the Cyan Saber. A moment later, he gave Jian Wushuang an answer, “Blood Sword Master, the Cyan Saber you took out is a low-grade principle true treasure, and it’s only average among low-grade principle true treasures.”

“In the vast universe, a normal low-grade principle true treasure is worth between 100 to 200 Universe Origin Stones, and your principle true treasure blade is estimated to be between 120 Universe Origin Stones.”

“However, as I said before, the rarer the item, the more valuable it is. Your supreme-grade supreme true treasures, because of their quantity, are naturally worth less. However, principle true treasures, other than the Heaven Suppression Tablet that was first born, are almost non-existent in this Star Field. At the very least, since I became the first Pavilion Master of the Nine Emperor Pavilion in this Star Field, I have never obtained a principle true treasure. Thus, in terms of value, this principle true treasure blade is naturally worth more.”

“How about this? I’ll give you a price of 150 Universe Origin Stones for this low-grade principle true treasure saber. What do you think?”

After Ruler Chenyun finished speaking, he looked at Jian Wushuang with a smile.

“150 Universe Origin Stones?” Jian Wushuang looked up at Ruler Chenyun and nodded secretly.

On the way here, he had asked Demon Dragon Lord about the price of the principle true treasure saber. Demon Dragon Lord also said that the price of the principle true treasure saber should be between 120 and 130 Universe Origin Stones, the price of 150 Universe Origin Stones offered by the Ruler Chenyun was indeed relatively high.

As he said, the rarer the item, the more valuable it was.

In this way, the supreme-grade supreme treasures he had sold before were not at a loss.

“The 150 Universe Origin Stones of the principle-type Supreme Treasure Saber, together with the treasures and supreme treasures just now, add up to 190 Universe Origin Stones. After deducting the 80 Universe Origin Stones that bought Gold-Fire Magic Stone, Ice Essence Crystal, and Blood-Dragon Crystal, there are 110 Universe Origin Stones left. I also have a list with some treasures in it. See if you can collect them within 500 years.” Jian Wushuang took out another list.

There were more than 100 treasures on the list. They were meant for Jian Wushuang to cultivate the supreme eternal celestial body.

The supreme eternal celestial body came from the Lingyun Planet. It was an internal star secret skill of the Lingyun Planet. Its level and power were very high. Jian Wushuang had only cultivated the first level, however, his divine body had been greatly improved and was comparable to an elementary universe supreme treasure.

One must know that the supreme imperishable celestial body had 11 levels. He could cultivate the first three levels at the level of a Principles Master.

Jian Wushuang had only completed the first level.

The reason why he had not cultivated the second level all these years was that cultivating the supreme imperishable black iron required a lot of treasures. Moreover, those treasures were of a very high level. The first level required treasures, he could barely find the treasures in this Star Field, but he could hardly find the treasures needed to cultivate the second level.

Jian Wushuang had come to the Nine Emperor Pavilion because he had a large amount of resources in his hands. The treasures on the list he had just taken out were the treasures he needed to cultivate the second and third levels of the supreme-level eternal black body, there were more than a hundred of them, and almost none of them could be found in this Star Field.

Jian Wushuang was not sure if the Nine Emperor Pavilion could get them for him within 500 years.

“These treasures...”

Ruler Chenyun and the other two Pavilion Masters of the Nine Emperor Pavilion looked at the treasures on the list and gasped.

“Why? Is it difficult?” Jian Wushuang asked in a deep voice.

“Blood Sword Master, the treasures on your list are very high-level and rare. It’s very difficult to collect one or two of them in our Star Field alone. However, if we search for them in the nearby Star Field at any cost, we can probably find 99% of them. However, there is a golden origin divine fruit on the list!” Ruler Chenyun said, there was a hint of shock in his eyes.”

Chapter 3939: The Nine Emperor List

“The golden origin fruit is a first-class treasure. It’s said that just by swallowing it, one’s godly body can be greatly strengthened. If it’s refined into a pill or used for other purposes, its effects will be even more shocking. In some big territories in the universe, many fourth-level and even fifth-level Rulers yearn for the golden origin fruit. However, the value of the golden origin fruit is extremely high. One golden origin fruit costs 50 Universe Origin Stones!”

“And that’s only the market price, because golden origin divine fruits are usually priceless. If a golden origin divine fruit sells well, it’s normal to sell it for 70 Universe Origin Stones.”

Ruler Chenyun exclaimed.

“The Nine Emperor Pavilion is a big business. Although the golden origin divine fruit is valuable, it’s nothing to the Nine Emperor Pavilion, right?” Jian Wushuang looked over.

“The golden origin divine fruit is nothing to the Nine Emperor Pavilion. However, this is the edge of the universe, and there are many Star Fields nearby. I dare say that there isn’t a single golden origin divine fruit. Blood Sword Master, if you want the golden origin divine fruit, you can only send it from some big territories in the deeper parts of the universe. Moreover, it’s within 500 years, so the price is much higher,” Ruler Chenyun said.

“Just tell me how many Universe Origin Stones you need,” Jian Wushuang said coldly.

"400 Universe Origin Stones!" Ruler Chenyun said directly.

"Eight times the price?" Jian Wushuang's face changed. "It's too expensive. A single golden origin divine fruit costs 400 Universe Origin Stones. I can't afford it at all."

400 Universe Origin Stones was indeed a bit too much. Even if he exchanged the principle Supreme Treasure Saber for Universe Origin Stones, plus the resources and supreme treasures he had sold before, minus the special crystals he used to buy them...he only had 110 Universe Origin Stones left, which was about 140, including the 30 Universe Origin Stones he had.

He was still far from 400 Universe Origin Stones.

"Blood Sword Master, do you really need the golden origin divine fruit?" Ruler Chenyun suddenly looked over.

"Of course." Jian Wushuang nodded solemnly.

"If you really want it, there is another way," Ruler Chenyun said.

"What is it?" Jian Wushuang looked at him.

"Blood Sword Master, you may not know this, but there is a special list called the Nine Emperor List in the Nine Emperor Pavilion!" Ruler Chenyun began to explain, "There are countless experts on the Nine Emperor List. Some of them are supreme masters, some are Rulers, and some are Principles Masters. But without exception, those who are qualified to put their names on this list must be real experts. Even Principles Masters must be heaven-defying Principles Masters with great potential."

"Blood Sword Master, I heard that you went to the Ancient Night Demon Palace and fought with Demon Monarch Ancient Night."

"That's true." Jian Wushuang nodded.

Ruler Chenyun looked at Jian Wushuang with a smile. "Many people saw the fight with their own eyes. Some of them even recorded the process of the fight with a mirror token. The Nine Emperor Pavilion has a mirror token like this. After we carefully watched the fight between you and Demon Monarch Ancient Night, we found that although you are a Principles Master, your combat strength is no less than that of a master at the peak of the second level. Your comprehension of the origin of the universe of sword principle is extremely high. You even comprehended a trace of the Universe principle!"

"There is no doubt that you, Blood Sword Master, are the most heaven-defying super genius in the vast universe. It's rare to see such a super genius in billions of Star Worlds. Such a super genius is definitely qualified to be listed on the Nine Emperor List."

Jian Wushuang remained silent.

He was not surprised that the Nine Emperor Pavilion had captured the scene of his battle with Demon Monarch Ancient Night. After all, many people had seen it with their own eyes.

However, the Nine Emperor List that Ruler Chenyun had mentioned still puzzled him.

"Ruler Chenyun, what's so special about the Nine Emperor List?" Jian Wushuang asked.

“The Nine Emperor List is actually a list of experts. Anyone who is listed on the Nine Emperor List is a friend of the Nine Emperor Pavilion. They will receive extraordinary treatment in the Nine Emperor Pavilion. For example, if you don’t have enough Universe Origin Stones to buy the golden origin divine fruit, it doesn’t matter. As long as you are on the Nine Emperor List, the Nine Emperor Pavilion can give you the golden origin divine fruit first. You only need to pay the Universe Origin Stones that you can afford. When you have enough Universe Origin Stones in the future, you can return them.

“In the future, the people on the Nine Emperor List will be able to get the most benefits from any branch of the Nine Emperor Pavilion in exchange for treasures and resources. There are even many key information in the universe. As long as it is useful to you, the Nine Emperor Pavilion will take the initiative to find you and tell you about it for free.”

“You should know that the universe is vast and boundless. When a cultivator travels in the universe, there is a lot of information that can not be obtained in time. However, the people on the Nine Emperor List do not have to worry about this at all. For example, Blood Sword Master, in the future, when you travel in the universe, if something happens to you in the universe, the Nine Emperor Pavilion will find you immediately and inform you,” Ruler Chenyun said with a smile.

“This...” Jian Wushuang’s eyes shone with a strange light.

From what Ruler Chenyun had said, the people on the Nine Emperor List could indeed benefit greatly from the Nine Emperor Pavilion.

The timely information was invaluable.

However, Jian Wushuang also understood that everything needed to be paid back. How could the Nine Emperor Pavilion not pay back for serving the people on the Nine Emperor List?

“If I leave my name on the Nine Emperor List, what do I need to do for the Nine Emperor Pavilion?” Jian Wushuang asked.

“One thing,” Ruler Chenyun said directly.

“What is it?” Jian Wushuang asked.

“I don’t know.” Ruler Chenyun shook his head, he smiled and said, “The Nine Emperor Pavilion will open a door for all the experts on the Nine Emperor List and try our best to get intelligence resources for them. The Nine Emperor Pavilion only needs people on the Nine Emperor List to do one thing for the Nine Emperor Pavilion. However, this is not a fixed matter. It’s when you might need to help that we will ask you.”

“Even if the Nine Emperor Pavilion invites you, you can still refuse it, but you can only refuse it twice at most. But on the third matter, you have to complete it. Otherwise, not only will you be removed from the Nine Emperor List, but you will also be viewed as an enemy by the Nine Emperor Pavilion in the future.”

“Is that so?” Jian Wushuang raised his eyebrows. He already understood the meaning of the Nine Emperor List.

The Nine Emperor Pavilion would try its best to serve the experts on the Nine Emperor List and satisfy some of their needs, as well as their sources of information.

The people on the Nine Emperor List would owe the Nine Emperor Pavilion a favor. In the future, the Nine Emperor Pavilion would ask them to do something, but it would depend on the actual situation and when they were needed, only then would the Nine Emperor Pavilion invite him.

But even if they invited him, the other party could still reject them twice.

Chapter 3940: Merit

“Ruler Chenyun, your Nine Emperor Pavilion is really good at doing business.” Jian Wushuang glanced at Ruler Chenyun.

Although the Nine Emperor Pavilion did give something, it was in exchange for the favor of many experts who were not ordinary people.

For example, although Jian Wushuang was only a Principles Master and his strength was not in the Nine Emperor Pavilion’s eyes, the Nine Emperor Pavilion knew that Jian Wushuang had grasped a trace of the universe’s principles, he was a super genius that was rarely seen in billions of star worlds.

How great was the potential of such a super genius?

His favor was not valuable now, but when he grew up in the future, it would be of great use.

And the Nine Emperor Pavilion relied on the help they provided to these experts in the early stages, allowing them to owe them a favor and place their names on the Nine Emperor List. They only paid a price that was completely acceptable to the Nine Emperor Pavilion, for example, those so-called intelligence reports. The Nine Emperor Pavilion itself was an intelligence agency.

It could be said that the Nine Emperor Pavilion paid a very small price to place bets on the young experts. Many of these young experts did not truly grow up and died before they could return the favor, however, even if only one out of a hundred people had grown up, it would be a profit for the Nine Emperor Pavilion.

After a long period of accumulation, many of the names on the Nine Emperor List had already grown to become peak existences. However, they all owed the Nine Emperor Pavilion a favor. What kind of terrifying power was this?

Just the power contained in the Nine Emperor List alone was enough to cause the vast universe to disregard the powers that held the Nine Emperor Pavilion in awe.

It was no wonder that the Nine Emperor Pavilion was able to become a giant in the vast universe and spread its influence throughout every corner of the universe.

“Blood Sword Master, would you like to become a friend of the Nine Emperor Pavilion?” Ruler Chenyun looked at Jian Wushuang with a smile.

“Of course I would.” Jian Wushuang nodded.

There was nothing to refuse. He indeed needed the golden origin divine fruit, and the only way for him to obtain it was through the Nine Emperor List.

It was not a bad thing to put his name on the Nine Emperor List and become a friend of the Nine Emperor Pavilion. Although he would owe the Nine Emperor Pavilion a favor, it would be a long time before he became a top expert, only then would the Nine Emperor Pavilion ask for it from him.

Now, and for a long time to come, the Nine Emperor Pavilion would only use the resources they had used to serve him.

"I don't even know if I have the chance to become a top expert in the future. If I have the chance, I can return the favor to the Nine Emperor Pavilion," Jian Wushuang said with a smile.

"Blood Sword Master, here is a token. You just need to leave your name and a drop of essence blood in it," Ruler Chenyun said with a smile.

"Essence Blood?" Jian Wushuang was stunned.

"Of course." Ruler Chenyun laughed, "The universe is vast, and there are countless cultivators. There are countless people with the same name. It's not convincing at all, but blood essence is the only one."

"Okay." Jian Wushuang did not hesitate and immediately left the words 'Blood Sword' and a drop of blood essence in the token.

After leaving it, the token lit up with a special light. Seeing this, Ruler Chenyun smiled and put the token back. Then, he took out another token. "Blood Sword Master, from today onwards, you are a friend of the Nine Emperor Pavilion. There is a token here that can represent your identity."

Jian Wushuang nodded slightly and put the token into his interspatial ring.

"I have done as you said. As for the golden origin divine fruit..." Jian Wushuang did not finish his words.

"Blood Sword Master, don't worry. Within 500 years, I will definitely send the golden origin divine fruit and all the treasures on this list to Star Palace. As for the Universe Origin Stones that you need...Blood Sword Master, you only need to give me the Universe Origin Stones that you have now. As for the rest, you can return them later," Ruler Chenyun said with a smile.

"Sure." Jian Wushuang also smiled. "There's one more thing. Since I'm already recognized by the Nine Emperor List, according to what you said, the Nine Emperor Pavilion will inform me of any information that has a lot to do with me. Now, you should know what I'm most concerned about, right?"

"Of course, Blood Sword Master, what you should be most concerned about is Devil Cloud Star," Ruler Chenyun said with a smile.

Jian Wushuang nodded.

"Blood Sword Master, according to the information we received from the Nine Emperor Pavilion, Devil Cloud Star Master has come out of seclusion not long ago. He has led his army and rode universe boat toward this Star Field. They are traveling at a very fast speed. If nothing goes wrong, the Devil Cloud Star Army will arrive at this territory in about 950 years," Ruler Chenyun said.

“950 years?” Jian Wushuang narrowed his eyes and said, “I need your Nine Emperor Pavilion to keep an eye on the Devil Cloud Star for me.”

“No problem. Blood Sword Master, you can leave a message token. I’ll send you a message as soon as I hear anything about the Devil Cloud Star.”

“Okay.” Jian Wushuang left a message token and then left with Demon Dragon Lord.

After Jian Wushuang and Demon Dragon Lord left.

Ruler Chenyun and the other two Pavilion Masters of the Nine Emperor Pavilion stood together and smiled.

“Chenyun, we’ve made a great contribution this time,” one of the Pavilion Masters said with a smile.

“Yes, we’ve made a great contribution,” Ruler Chenyun also smiled. “Blood Sword Master is extremely talented and has a heaven-defying opportunity. After his battle with Demon Monarch Ancient Night, I reported some information about him. The higher-ups also attach great importance to Blood Sword Master. After all, he has comprehended a trace of universe principle at the level of Principles Master, and it’s at the edge of the universe.”

“The higher-ups wanted us to think of a way to build a good relationship with him, and they wanted us to think of a way to put his name on the Nine Emperor List.”

“But the higher-ups didn’t tell us his name for long before I finished it. If the higher-ups knew about it, they would definitely give us a share of the credit. Let’s not talk about how much reward they would give us. As long as they transfer us out of here and into those larger territories, that would be enough.”

Although the Nine Emperor Pavilion was a super force in the universe, they also valued geniuses.

Especially a super genius like Jian Wushuang, who was rarely seen in billions of star worlds. Although the Nine Emperor Pavilion would not try to recruit him like other big forces, they definitely wanted to be on good terms with him, after all, as long as such a genius did not die, his future achievements would not be low.

Inviting such a super genius to become a member of the Nine Emperor List was indeed a great contribution.

And for the three Rulers of the Chenyun Ruler, who were at the edge of the universe and in the most barren Star Field, their chances of making contributions were too little.

Now, this contribution was already great enough for them.
