

Swordsman 4021

Chapter 4021: The Third One

Clang!

Another fierce battle. The entire galaxy was under the violent impact of the energy, and Jian Wushuang and Nine Whiskers finally separated again.

“Haha, this is the battle that I long for.” Nine Whiskers’s eyes were red, and there was madness in his eyes.

Jian Wushuang’s eyes were full of excitement.

Nine Whiskers’s strength did not disappoint him. He had already exerted his comprehension of the universe principles to the extreme and used all his strength to display his swordsmanship, but in the end, he could only compete with Nine Whiskers.

The opponent’s battle strength was undoubtedly at the fifth level, and he should be able to stand firm among the fifth level Rulers.

“Nine Whiskers,” Jian Wushuang suddenly said, “since you were specially invited by that person, you should know that I used a sword formation when I killed the three brothers. Now, come and feel the power of my sword formation.”

Jian Wushuang planned to use the sword formation.

No matter how great his swordsmanship was or how powerful it was, Jian Wushuang knew clearly that his strongest sword formation was the three great sword formations he created.

And he had never used the three sword formations until now.

“Sword formations?” Nine Whiskers’s pupils constricted, with a hint of expectation in his heart.

Jian Wushuang made his move. An invisible power of the formation spread out, accompanied by a majestic sword essence.

Buzz!

The whole world suddenly became cold and icy.

An unprecedented killing intent filled the entire galaxy.

The hazy fog swept out like a tidal wave, covering the entire battlefield in the blink of an eye.

On the battlefield, which was the center of the sword formation, Nine Whiskers could clearly feel how powerful the killing sword essence was.

“What a terrifying killing sword essence. Just this sword essence alone is enough to make an ordinary third-level or even fourth-level Ruler lose the courage to resist.” Nine Whiskers was also secretly shocked.

Outside the battlefield, when Ruler Mo Chen saw Jian Wushuang use this sword formation, his body trembled.

When he and his two brothers joined hands to kill Jian Wushuang, Jian Wushuang used this sword formation and easily killed his two brothers. Even he could only use his life-saving secret skill to escape.

However, at that time, Jian Wushuang did not activate the universal principle.

Now that he had fully activated the universal principle, the power of the sword formation would naturally be stronger!

As the hazy sword formation took shape, endless killing intent filled the entire sword formation.

The vast expanse of fog had completely covered the galaxy. In the fog, a sword light lit up without any warning and directly chopped at Nine Whiskers's head.

"So fast, and so sudden!"

Nine Whiskers was also shocked. He had not even seen how this sword light had been formed. All he knew was that this sword light had suddenly appeared in front of him.

It was so fast that he had not been able to react in time. He could only barely raise his hand and block the long spear in front of him.

Clang!

A low clashing sound rang out. The power contained within that sword light caused Nine Whiskers to feel a wave of shock. That power was completely comparable to the full power of a fifth level Ruler's attack.

He was not afraid of such an attack in a head-on fight. He was confident that he could withstand it head-on.

However, in this sword array, the sword light had appeared too strangely, and it was too fast.

After blocking the first sword light, the second sword light quietly rushed over from the void space.

"Not good!"

Nine Whiskers widened his eyes and quickly turned around, but it was too late to block it. He could only try his best to activate the protective armor on his body and burst out with powerful protective power.

Peng!

The sword light directly hit Nine Whiskers's divine body. Even though Nine Whiskers's protective armor was a supreme-grade supreme true treasure armor, it could not withstand the attack of Wuqi Divine Sword, the terrifying power contained in the sword light had already exceeded the limit of this true treasure armor.

The vast power crazily spread into Nine Whiskers's divine body. As an Ascetic, Nine Whiskers had all kinds of techniques involved. In terms of the strength of his divine body, he was also quite formidable. However, under such an attack, his divine body was also severely injured, puff!

A big mouthful of blood spurted out of Nine Whiskers's mouth. Nine Whiskers's body trembled crazily as he was pushed back.

This sword attack had consumed more than 10% of Nine Whiskers's divine power.

However, after this sword attack, another silent sword light attacked.

"It's too fast and strange!"

"This sword formation has completely blocked my soul power. I'm trapped in this sword formation and can't find the location of the Blood Sword at all. I can't even see where he attacked. Moreover, his sword technique is really terrifying!"

Nine Whiskers's face was unsightly. He struggled in the sword formation with all his strength.

However, he was extremely passive in the face of the sword lights that suddenly attacked him from the surroundings.

Two sword lights had already injured him. He had only stayed in the sword formation for a short while, but he had already taken three sword lights head-on and lost nearly 40% of his divine power.

There was no doubt that Nine Whiskers had been seriously injured.

Boom!

Suddenly, a burst of violent power burst out, and the fog that had been in the sword formation was pushed away, revealing Jian Wushuang's figure in front of the sword formation.

"Huh?" Jian Wushuang looked at Nine Whiskers in surprise. "That's impressive. He was seriously injured by me, but he still managed to force his way into my sword formation and disperse the fog."

"Blood Sword!"

Nine Whiskers, who was in the center of the Sword Formation, stared at Jian Wushuang with blood at the corner of his mouth, "Since I became an Ascetic Cultivator, I have challenged countless experts in various territories in the universe. Among them, there are some of the most brilliant geniuses at the peak of the fourth-level. I have even fought with several Rulers of the fifth-level. However, among all the experts I have fought, you are the third one who was able to seriously injure me and force me into this situation!"

"The first two are Rulers of the fifth level!"

"But you are only at the second level!"

"You are very terrifying. Your talent is the strongest one I have ever seen. You are qualified to see my strongest killing move!"

Although Nine Whiskers was severely injured, the fighting spirit in his eyes did not weaken at all. On the contrary, it became more and more vigorous.

"The strongest killer move?" Jian Wushuang's eyes lit up.

As for what Nine Whiskers said about the third killer move in a long time, he did not care at all. What he cared about was Nine Whiskers's strength and what he said about the strongest killer move.

"Come on!"

Jian Wushuang shouted in a low voice. He was also looking forward to it.

Chapter 4022: Red Mist

"Blood Sword, be careful!"

Nine Whiskers kindly reminded him, but then the light in the galaxy around him completely dimmed.

The entire universe had turned into darkness. In this dark world, the long spear in Nine Whiskers's hand suddenly turned into a dazzling purple light.

The purple light was extremely enchanting. As soon as it appeared, it immediately became the focus of the endless darkness.

Jian Wushuang could not help looking at the purple light.

"Darkness Demonic Light!" Nine Whiskers shouted. In an instant, the purple light shot out at a terrifying speed.

Jian Wushuang stood there. The moment the purple light shot toward him, he felt a tremendous pressure in his heart.

With his experience, he could naturally see how terrifying the power contained in the purple light was.

"This move is very strong, even stronger than the strongest sword skill I created!" Jian Wushuang could not help exclaiming.

In the next moment, the sword essence that filled the sky above his body rose directly.

The vast sword essence crazily condensed into substance on the surface of his body. In the blink of an eye, it condensed into a layer of sword essence barrier.

The power of the formation was still lingering on the sword essence barrier.

The earth-protecting sword formation —

It was the sword formation with the strongest protective ability, one of the three strongest sword formations created by Jian Wushuang.

Jian Wushuang had never used this move to kill enemies, but only to protect his body and defend himself.

However, the defensive ability of the earth-protecting sword formation was extremely strong. When he was in the Divine Beginning Realm, Jian Wushuang could only form dozens of earth sword domains to form the sword formation.

However, since he had become a Ruler and grasped the power of the divine will of the Divine Beginning Realm, his understanding of sword principle and formation had improved to an unprecedented level, the power of his three sword formations was no longer the same as before.

Now, the Earth Guardian Sword Formation could instantly form 132 layers of sword essence barriers.

The reason why it was only 132 layers was that Jian Wushuang had improved the earth guardian sword array over the years. He did not purely increase the number of sword essence barriers, but focused on their quality.

Without a doubt, any one of the layers of sword essence barriers was terrifyingly strong. Even a fourth-level Ruler might not be able to break through a single layer of sword essence barrier, however, there were a total of 132 layers, and they were supported by the power of the formation. This made the Earth Guardian Sword Array Indestructible.

Perhaps the strongest killer move Nine Whiskers had used was indeed powerful and could pose a great threat to a fifth-level Ruler. However, Jian Wushuang was absolutely confident when the earth guardian sword array was used.

No matter how powerful Nine Whiskers's strongest killer move was, he firmly believed that his earth guardian sword formation could completely block it.

Sure enough, the most dazzling purple light in the darkness struck the Earth Guardian Sword Formation ferociously. A terrifying power burst out, and layers of sword essence barriers collapsed instantly.

However, the purple light only broke through dozens of layers of sword essence barriers and could not advance any further.

"Sure enough, my Earth Protection Sword Formation has never let me down." Jian Wushuang smiled, but the next moment, his smile froze

"Die!"

The killing intent in Nine Whiskers's eyes burst out, and his face became extremely ferocious at this moment.

At the front of the dazzling purple light, the tip of the purple demonic spear had already entered the Earth Protection Sword Formation, but it was blocked by the layers of sword essence barriers of the Earth Protection Sword Formation, however, with Nine Whiskers's low shout, the tip of the purple spear cracked without any warning.

After all, the purple spear was a principle treasure, so the spearhead should be extremely sturdy. Jian Wushuang had never expected that the spearhead would crack.

After the crack, a mass of red mist pounced toward Jian Wushuang like a ball of flame.

Most importantly, this red mist was not a material attack, but an invisible attack like a soul attack. Jian Wushuang's earth protection sword formation could not withstand it.

Jian Wushuang was very close to the Nine Whiskers, so he did not have time to dodge.

Whoosh!

Like a breeze, the red mist covered Jian Wushuang's divine body and entered his divine body through his pores.

A terrible pain rose in his body.

"Oh no!" Jian Wushuang's face changed.

The moment the Red Mist entered his body, he felt his internal organs, blood, flesh, and bones being corroded crazily. Even his divine power was evaporated, when it came into contact with the Red Mist.

"Poison!"

"Even my perfect life can not ignore the unprecedented poison!"

Jian Wushuang's body and mind trembled.

Yes, the perfect level of life practitioners, very scary, born with a strong divine body, poison-free!

When Jian Wushuang was wandering in the Divine Beginning Realm, he had been attacked by some strange poisons, but none of them could harm him.

Because his perfect life-level was too high, ordinary poison could not do much to a cultivator at the perfect life-level.

However, this was the universe after all!

The universe was unfathomable, and there were all kinds of methods. Even a cultivator at the perfect life-level could not resist some of the extremely powerful poisons in the universe.

For example, the poison used by Nine Whiskers was not something that a perfect life-level cultivator could ignore.

Boom! Boom!

The terrifying poison was corroding Jian Wushuang's divine body crazily. At this moment, Jian Wushuang's soul was trembling crazily.

Jian Wushuang endured the intense pain and immediately mobilized his vast divine power to rush toward the red fog that had invaded his body. Although his divine power would immediately evaporate when it came into contact with the red fog, the red fog was also being eroded by the endless divine power, however, as the endless divine power continued to attack, the red mist was also being worn down.

They continued to wear each other down. In the end, the amount of the red mist was not enough and was completely worn down by the divine power in Jian Wushuang's body.

In order to wear down the red mist, Jian Wushuang had used up nearly 40 percent of his divine power!

Because of his perfect life, Jian Wushuang's divine power was almost 1,000 times stronger than a normal Ruler's after he broke through to become a Ruler.

Such a vast amount of divine power had been reduced by nearly 40% in an instant by the red fog.

What did it mean?

If it were any other Ruler, they would have died dozens or hundreds of times in the Red Fog?

Only Jian Wushuang, who relied on the innate advantage of his perfect life, could barely withstand it. However, the loss of divine power still made Jian Wushuang gasp.

Then, Jian Wushuang was shocked and angry!

Chapter 4023: Shock and Anger!

Shock and anger!

Jian Wushuang was completely enraged at this moment.

Although he had been on guard against Nine Whiskers from the beginning and had been extra cautious in the fierce battle, Nine Whiskers had been extremely excited as the battle became more and more intense.

This excitement was purely because he had met a real opponent, and Jian Wushuang was the same.

The difference in strength between the two was not big. Nine Whiskers was an Ascetic Cultivator, and it was not easy for him to meet a decent opponent. Not to mention Jian Wushuang, he had not met a decent opponent on his way from the Divine Beginning Realm.

Now that he had finally met him, Jian Wushuang was pleasantly surprised by his opponent's strength and methods. Naturally, he felt that they had a mutual understanding.

When Jian Wushuang had severely injured Nine Whiskers, he had intended to stop. He did not want to kill Nine Whiskers.

However, who would have thought that Nine Whiskers would directly kill him. Moreover, he had disguised himself well before he killed him. When he attacked, he even deliberately reminded Jian Wushuang to be careful, which made Jian Wushuang relax his vigilance.

But in the end —

"I was careless." Jian Wushuang's heart was cold.

He was indeed careless. Of course, it could also be said that he was too confident in his Earth Guardian Sword Formation.

He was confident that with the earth guardian sword formation, he could withstand Nine Whiskers's strongest killing move, but he forgot that the Earth Guardian Sword Formation was not truly invincible. In the face of such a soul attack, or an immaterial attack like a soul attack, the Earth Guardian sword formation was unable to withstand it.

In addition, Nine Whiskers had disguised himself very well. He had been a battle-maniac since the beginning. He was so excited to meet a decent opponent that even Jian Wushuang was fooled.

Fortunately, he was at the perfect level of life and his divine power was vast enough to survive the corrosion of the red fog.

If it had been anyone else, they would have died a long time ago.

On the battlefield, Nine Whiskers's face was ferocious. He looked at Jian Wushuang with cold eyes, but he was sneering in his heart.

"This Blood Sword is only a second-level Ruler, but his strength and means are definitely at the fifth-level. Even I am no match for him. With such a great leap in realm, he must have gotten a great opportunity before. He must have some big secrets. As long as I kill him, I will know what secrets he has."

Nine Whiskers had always been a fighter. He appeared to be open and aboveboard and wanted to fight Jian Wushuang with strength.

But in fact, his heart was very dark and his mind was clear.

From the moment Jian Wushuang showed his real strength, he had made up his mind to find a way to kill Jian Wushuang.

Unfortunately, Jian Wushuang was too strong. He could not do anything to him even if he tried his best. He was even heavily injured by his opponent, he had no choice but to use his strongest killing move!

His strongest killing move looked like that extremely terrifying spear move. The power of that Spear move was indeed extremely powerful. There was no doubt about it, but in fact, this terrifying spear move was just a pretense.

His true killing move was hidden under that spear strike. It was the sudden explosion of red mist.

That red mist was a treasure left behind by an Ultimate Ruler in a secret realm of heaven and earth. That Ultimate Ruler was an expert skilled in using poison, that red mist was one of the poisons left behind by that expert.

Only a small part of the poison was enough to kill a fifth-level Ruler. Even an Ultimate Ruler would die if he was accidentally corroded by the red mist.

It was Nine Whiskers's trump card that had kept him alive for so many years. He had relied on this move to travel around the universe.

Before meeting Jian Wushuang, Nine Whiskers had encountered two real crises. Both times, his opponent was a fifth-level Ruler, who was much stronger than him. In the end, he had relied on this strongest killing move, he had relied on the red fog to successfully kill the two fifth-level Rulers.

Now, Jian Wushuang had also suffered the same move. Seeing the red fog entering Jian Wushuang's body, he knew that he had won the battle.

Not only did he win, but after Blood Sword died, all his secrets, including the treasures he had left behind and the universe boat, would be his.

According to his estimation, he would gain more from killing Jian Wushuang than killing the two fifth-level Rulers.

Nine Whiskers could not wait any longer.

Suddenly —

Jian Wushuang, who was standing in front of him, opened his eyes.

“Nine Whiskers, you’re doing well,” Jian Wushuang said coldly.

“How is that possible?” Nine Whiskers widened his eyes in disbelief. “Even a fifth-level Ruler would die if he inhaled that much fog. How could a second-level Ruler survive?”

Nine Whiskers was puzzled and could not believe it.

But in fact, it was right in front of him.

“I’m not dead, but you are going to die soon.” Jian Wushuang showed no mercy. Boom! Boom! Boom!

Three dazzling golden lights suddenly lit up, and three huge Heaven Suppression Tablets rose up.

The three Heaven Suppression Tablets immediately flew to three different places and combined with each other. Boom! A huge golden formation was formed in an instant.

The Divine Devil Heaven Suppressing Formation immediately activated its power at this moment.

“Is this a suppression-type principle treasure?”

“Three of them?”

Nine Whiskers turned pale with fright.

He was horrified to find that under the golden formation, he was actually enduring a huge suppressive force, which greatly weakened the strength he could exert.

Then, Jian Wushuang struck out with his sword.

Splash!

An endless sea of sword essence swept out at this moment.

The sea of sword essence was vast and boundless, spreading across the entire galaxy.

It was the wave sword formation of the three strongest sword formations created by Jian Wushuang!

Although the wave sword formation was only one of the three sword formations, which Jian Wushuang created to trap and entangle his enemies, since Jian Wushuang obtained the three Heaven Suppression Tablets and was able to activate the Divine Devil Heaven Suppressing Formation...he relied on the combination of the Divine Devil Heaven Suppressing Formation and the Wavelight Sword Formation.

This Wavelight Sword Formation had undoubtedly become Jian Wushuang’s most powerful killing move!

Even the obscure sword formation, which focused on attacking power, was far inferior to the Wavelight Sword Formation in killing enemies.

Previously, Jian Wushuang had already used the obscure sword formation and the Earth Protection Sword Formation. As for the Wavelight Sword Formation, he had never used it.

Until now, after Nine Whiskers had truly angered him, Jian Wushuang did not hold back any of his strength. In an instant, the Divine Devil Heaven Suppression Formation and the wave light sword formation were perfectly combined.

Jian Wushuang's strongest killing move was truly displayed in the universe.

Chapter 4024: Beheading

"What is it?"

Nine Whiskers looked at the vast ocean of golden sword intent in front of him in shock.

This ocean of golden sword intent was endless and had an indescribable power. Moreover, this ocean of sword intent was obviously perfectly integrated with the golden formation around it.

Hualala! The enormous golden sea churned, and endless waves of golden sword intent surged toward Nine Whiskers one after another.

Nine Whiskers did not have time to be shocked, and he could only hurriedly use a method to block the attack of this golden sword intent.

!!

However, just one wave of golden sword intent was enough to shock Nine Whiskers.

"At the fifth level, the power contained in this wave of golden sword intent is absolutely not inferior to the full-force attack of a Ruler at the fifth level. Even I have to go all out and use my ultimate move to block it!"

If it was just one or two golden sword essence waves, Nine Whiskers would not care. But the key point was that under the golden sea of sword essence, the mighty golden sword essence waves followed one after another, they surged toward him in an earth-shaking manner.

In just a moment, he was hit by more than ten waves of golden sword essence.

Under such an impact, he had to use his full strength to block it. However, using his ultimate move more than ten times in a row consumed a lot of his divine power.

In addition, Nine Whiskers had been severely injured by Jian Wushuang in the hazy sword formation and had lost nearly half of his divine power. Now, he was trapped in the wave light sword formation and suppressed by the Divine Devil Heaven Suppressing Formation, Nine Whiskers was completely terrified by the waves of golden sword essence.

"It's endless. The waves of sword essence are endless. Even if I'm at the peak of my strength, I can barely hold on for a while in this sword formation, not to mention that I'm severely injured."

"Run, run!"

Nine Whiskers did not want to kill Jian Wushuang anymore. He was completely terrified and just wanted to escape.

Although he had encountered several crises over the years, he was able to turn defeat into victory with his skills. But now, facing Jian Wushuang, there was nothing he could do.

He could only run.

However, he was now trapped in the Divine Devil Heaven Suppressing Formation.

With Jian Wushuang's current strength, the Divine Devil Heaven Suppressing Formation activated by the three Heaven Suppression Tablets was so powerful that it directly suppressed the galaxy. Even though Nine Whiskers was the Ultimate Ruler of the fourth level, his battle strength was comparable to that of the fifth level, however, it was not so easy for him to escape the suppression of the Divine Devil Heaven Suppressing Formation.

"No, no!"

Nine Whiskers cried out in alarm. He wanted to escape, and he had even used his life-saving secret art.

However, facing the golden sea of sword intent that was crazily sweeping over him, he did not have any space or opportunity to escape. He could only watch as his divine power was constantly being consumed, and the aura on his body was constantly weakening.

"It's over!"

Nine Whiskers was in despair. He was even wailing in his heart.

He was unwilling to die, let alone at the hands of a second-level Ruler.

However, no matter how unwilling he was, the gap between his strength and Jian Wushuang's was still there.

Before Jian Wushuang had used the three sword formations, Nine Whiskers could have fought Jian Wushuang equally. However, once Jian Wushuang used the three sword formations, Nine Whiskers was no longer Jian Wushuang's opponent.

In fact, if Nine Whiskers had not been too greedy and did not want to kill Jian Wushuang, Jian Wushuang would have spared his life. It was a pity that Nine Whiskers had sought his own death.

He thought that his most powerful killing move, even the fifth-level Ruler, would be dead for sure. It should be easy for him to kill Jian Wushuang, a second-level Ruler. However, Jian Wushuang survived.

Buzz!

Another wave of golden sword essence rushed toward him. Nine Whiskers's divine body could not hold on any longer and collapsed. His life was instantly cut off.

After Nine Whiskers died, his long spear, armor, and treasures that had merged with his body floated in the void, leaving behind his interspatial ring.

Jian Wushuang waved his hand and took all the treasures.

Then Jian Wushuang put away the Divine Devil Heaven Suppressing Formation and the three Heaven Suppression Tablets into his interspatial ring.

After doing all this, Jian Wushuang looked at the Void to the side.

In that direction, Ruler Mo Chen from the Nihility Star had been standing there watching the battle. However, as the battle progressed to the final stage, Nine Whiskers fell into the wave light sword formation and made his final struggle, naturally, Ruler Mo Chen had also seen it.

Ruler Mo Chen had never expected that even Nine Whiskers was no match for Jian Wushuang. Moreover, it seemed that he was about to die at Jian Wushuang's hands.

After all, Nine Whiskers was invited by him to avenge his two brothers. Now that Nine Whiskers was about to die, how could he dare to stay any longer?

Therefore, while Nine Whiskers was still struggling, Ruler Mo Chen had already sneaked away.

It could not be helped. He was not on the battlefield. When Jian Wushuang activated the Divine Devil Heaven Suppression Formation, it did not cover him. Jian Wushuang was so focused on Nine Whiskers that he did not have time to pay attention to him, so he let him escape.

"Humph, he's lucky."

Jian Wushuang snorted and waved his sleeve. He turned around and walked into the universe boat.

...

In the galaxy not far from the battlefield, Ruler Mo Chen turned into a stream of light and sped through the galaxy.

He did not dare to stop for a moment, afraid that the Ruler of the universe boat would chase after him after he killed Nine Whiskers.

His eyes were filled with unprecedented shock.

"Even Mr. Nine Whiskers is no match for the Ruler of the universe boat? And it seems that he is going to die soon!"

The shock in Ruler Mo Chen's heart could not be any more intense.

One had to know that when he went to invite Nine Whiskers, he had absolute confidence in the latter.

The latter's power was so strong that it made him feel despair. However, he had not expected that even such a supreme being would be killed by that universe boat Ruler.

"Even Mr. Nine Whiskers was killed by him. In this Purple Micro Galaxy, there really isn't anyone else who can threaten that universe boat Ruler. If I want to take revenge for my two brothers, I'm afraid it will be impossible." Ruler Mo Chen sighed heavily.

He wanted to take revenge, but the other party was too strong.

He was so strong that he despaired. Most importantly, the other party showed his talent and potential.

After all, the other party was only a second-level Ruler. If a second-level Ruler could kill Nine Whiskers, who had a fifth-level Ruler, it would be amazing in the future.

It could be said that Jian Wushuang's strength and talent made him lose the desire to take revenge.

...

Chapter 4025: Was Published

In the universe boat.

As soon as Jian Wushuang entered, Leng Rushuang and Devil Flame immediately came up to him.

"Darling, are you okay?" Leng Rushuang asked with a hint of worry in her eyes.

"I'm fine, but it was really dangerous. If I wasn't at the perfect life-level, I would have died," Jian Wushuang said.

Leng Rushuang's face darkened.

!!

Although she and Devil Flame had stayed in the universe boat, they had clearly seen the battlefield outside.

Nine Whiskers had used his most powerful killing move, especially the attack of the hidden red fog. It was beyond everyone's expectations. She had seen Jian Wushuang get hit, and she had almost run out of the universe boat, it was the Devil Flame that held her back.

"I was careless," Jian Wushuang said in a low voice, "I underestimated the experts in the universe."

He had risen from the Divine Beginning Realm and encountered countless crises along the way.

However, he was mentally prepared for many of those crises. Jian Wushuang knew most of the techniques of the experts in the Divine Beginning Realm, so he was confident.

But the universe was different.

The universe was vast and boundless, and there were countless experts.

Because of this, there were all kinds of strange techniques in the universe.

Not only were there many kinds of techniques, but they were also terrifying and impossible to guard against.

This time, Jian Wushuang saw it for himself.

Nine Whiskers was a fighter just now and wanted to use his strongest move to fight with him. Who would have thought that there was a terrifying killer move hidden in his strongest move? Even he was accidentally hit by it.

“The vast universe is much more cruel than the Divine Beginning Realm. Although I have experienced many storms in the Divine Beginning Realm, I have just entered the universe and don’t know much about it. I am still very young compared to the entire universe,” Jian Wushuang thought.

Young, he could only use this word to describe himself.

Even though he had lived for hundreds of thousands of years and experienced many storms, it was still his first time venturing into the universe.

“Ruler, the cruelty of the universe is far beyond what you can imagine. What you are seeing now is just the surface of the entire universe. I once ventured into the universe for a very long time. During this long period of adventuring, I summed up a sentence, that is, in the universe, other than yourself, don’t trust anyone else!”

“Except for yourself, everyone around you can be your enemy.”

“You have to be vigilant and careful in order to live longer.”

“As for those who are merciful in fierce battles, they won’t live long,” Devil Flame said in a low voice.

“I understand.” Jian Wushuang nodded.

He had learned from his mistakes. This time, Jian Wushuang had learned a lesson.

In the future, no matter who his opponent was in the universe, even if he did not have the intention to kill, he had to be careful that his opponent might use his killer move at any time.

Even if the person in front of him was a well-known good man, he could still suddenly reach out to him with his dark and cold principles.

“By the way, Nine Whiskers is an expert at the pinnacle of the fourth level, and his battle strength is comparable to a fifth-level Ruler. He is also an Ascetic, so he must be rich. Although I killed him, I haven’t checked his treasures.” Jian Wushuang smiled, then he waved his hand and took out the treasures and interspatial ring that Nine Whiskers had left behind after his death.

Jian Wushuang first looked at the treasures that were revealed from Nine Whiskers’s divine body after his death.

Nine Whiskers had already recognized and refined these treasures, so Nine Whiskers used them directly. For example, the long spear and armor, a black ring, and a strange gray bead.

Jian Wushuang already knew about the long spear and armor.

The purple long spear was a Principle Supreme Treasure, but judging from its aura, it was only a low-grade Principle Supreme Treasure. Its value was estimated to be between 100 and 200 universe origin stones.

As for the armor, it was a supreme-grade supreme treasure, so it was not worth much.

Jian Wushuang was mainly looking at the black ring and the strange gray bead.

He first looked at the black ring, and his consciousness directly merged with it.

“Is it a domain type supreme treasure?” Jian Wushuang raised his eyebrows and then shook his head.

Although a domain type supreme treasure was a supreme-grade supreme treasure, since it was not a Principle Supreme Treasure, it could not interest Jian Wushuang.

Then Jian Wushuang looked at the strange gray bead. With a simple sweep of his consciousness, Jian Wushuang’s eyes lit up.

“A principle-type supreme treasure!”

“And it’s an extremely precious one, a soul-defense type supreme treasure!”

Jian Wushuang was excited both physically and mentally.

A principle-type supreme treasure was extremely precious. Any attack-type supreme treasure was worth more than 100 universe origin stones.

However, an attack type Principle Supreme Treasure was only an ordinary Principle Supreme Treasure. A Principle Supreme Treasure armor, a domain type, and a suppression type Principle Supreme Treasure were naturally more valuable.

For example, Jian Wushuang’s Heaven Suppression Tablet was much more valuable than an ordinary attack type Principle Supreme Treasure. Of course, because the Heaven Suppression Tablet was a standard Principle Supreme Treasure, it was not very valuable.

As for a soul-defense-type principle treasure, it was precious.

After all, the soul was the core of a cultivator.

In the universe, it was necessary to protect one’s soul when one’s strength reached the Ruler level. After all, there were many experts in the universe who specialized in the soul aspect. When such experts used soul attacks, it was impossible for them to defend themselves, they could only rely on their own soul power to withstand it.

At this time, a soul-defense type true treasure, nine, was particularly important.

In terms of value, a soul-defense type true treasure was definitely the most precious among all true treasures of the same level.

The gray Ruler and the purple spear Jian Wushuang had obtained from the treasures left behind by Nine Whiskers were both Principle True Treasures. However, in terms of value, the gray Ruler was definitely more than ten times as valuable as the purple spear!

If the gray pearls were sold in the Nine Emperor Pavilion, they could be sold for more than 1,000 universe origin stones.

“Haha, I’m rich, I’m rich!” Jian Wushuang laughed.

“A Principle True Treasure of the soul defense type?” Devil Flame’s eyes lit up. “A Principle True Treasure of this level is enough to attract many fifth-level Rulers. Even an ultimate-level Ruler would take it seriously. How could Nine Whiskers, a fourth-level Ruler, have such a treasure?”

It was apparent that Devil Flame was also quite shocked.

One had to know that even when he was at his peak, he had many Principle True Treasures in his possession. However, a soul-defense type Principle True Treasure, even if it was only a low-level one, was enough for him to take it seriously.

After all, the highest-level true treasure he had used at his peak was only a middle-level Principle True Treasure. This low-level soul-defense type Principle True Treasure was very close to a middle-level Principle True Treasure.

...

Chapter 4026: Arrived at the Purple Micro Star Field

“This soul-defense-type Principle treasure alone is priceless, but I haven’t checked Nine Whiskers’s interspatial ring yet. I hope it will give me a surprise.” Jian Wushuang was full of expectation, he began to check Nine Whiskers’s interspatial ring again.

He sank his consciousness into the interspatial ring and just glanced at it briefly. Jian Wushuang could not help but look pleasantly surprised.

“Good man, Nine Whiskers is really rich,” Jian Wushuang praised.

He was indeed rich. There were a mountain of universe crystals and a large number of universe origin stones in the interspatial ring. All of them added up to an estimated 1,300 universe origin stones.

In addition, there were all kinds of treasures in the interspatial ring, each of which was worth a lot.

!!

For example, there were three Principle Supreme Treasures in the interspatial ring.

Of course, these three Principle Supreme Treasures were just ordinary attack Principle Supreme Treasures, which were worth as much as the purple long spear used by Nine Whiskers.

But when all of them were added together, their value was also very shocking.

“Although Nine Whiskers is an Ascetic Cultivator, he is only a Ruler at the ultimate level of the fourth level. How could he be so rich?” Jian Wushuang could not help exclaiming in admiration.

The value of the soul-defense-type principle-type true treasure, together with the treasures in Nine Whiskers’s interspatial ring, was close to 3,000 universe origin stones.

3,000 universe origin stones was more than the wealth of most fifth-level Rulers.

It was known that many poor fifth-level Rulers could not even get an attack-type principle-type true treasure.

“Ruler, if I’m not wrong, Nine Whiskers must have killed many experts, and he must have obtained some special opportunities. Otherwise, he would not be so rich as a fourth-level Ruler,” Devil Flame said.

“Maybe.” Jian Wushuang nodded slightly.

What he did not know was that Nine Whiskers had indeed obtained some opportunities. He had obtained the cave mansion of an Ultimate Ruler and obtained a lot of benefits from the cave mansion.

In addition, he was very strong and had been roaming around the universe for a long time. He had killed a lot of experts, including two fifth-level Rulers, all of the experts he had killed had a lot of wealth. With the help of the Ultimate Ruler, it was normal for him to have such wealth.

However, since Nine Whiskers had been killed by Jian Wushuang, his life’s gains had benefited Jian Wushuang.

“Previously, I was worried that I didn’t have enough money. Even if I went to the Nine Emperor Pavilion in the Purple Micro Galaxy, I wouldn’t be able to exchange for what I wanted. But now, it should be enough.” Jian Wushuang smiled, he glanced at Devil Flame and said, “Devil Flame, when we arrive in the Purple Micro Galaxy, I’ll go to the Nine Emperor Pavilion to exchange for some special crystals to help you recover 30% or even 40% of your divine body.”

“Thank you, Ruler.” Devil Flame was delighted.

“Shuang ‘er.” Jian Wushuang looked at his wife and said, “Have you refined this gray bead?”

Jian Wushuang directly handed the gray bead to Leng Rushuang.

“Husband, this bead is a principle treasure for soul defense. Aren’t you going to use it?” Leng Rushuang frowned.

“Haha, Shuang ‘Er, you should know that I’m a perfect life-level cultivator. I’m already invincible in the aspect of soul. No one can attack me from the aspect of soul. Naturally, this soul defense type principle treasure is useless against me. On the other hand, if you want to explore the universe with me in the future, you’ll inevitably encounter some dangers. And you only have enough self-protection ability to not distract me.”

“Yes, I understand.” Leng Rushuang nodded and took the gray bead.

She knew what Jian Wushuang said made sense. In terms of strength, although her divine body and soul had been transformed because of the astral heart, and she had great potential after receiving the legacy of supreme fog, in terms of strength...she was still far from Jian Wushuang.

She wanted to follow Jian Wushuang around. She did not want to say whether she could help him or not, but at least she could not hold him back. This was Leng Rushuang’s own opinion.

With the gray bead, her life-saving ability could be improved a lot.

“Well, let’s continue.” Jian Wushuang smiled.

Immediately, the huge universe boat continued to move forward toward the galaxy.

The speed of the universe boat was still extremely fast. Even Ancient Yuan Star and Nihility Star, which were the overlords in the Purple Micro Galaxy, were defeated by Jian Wushuang, even Nine Whiskers,

who was previously recognized as the strongest expert, died at Jian Wushuang's hands. After that, no one in the Purple Micro Galaxy dared to look for trouble with them.

In a flash, another 400 years had passed.

The universe boat had finally reached the end of the Purple Micro Galaxy.

"After 700 years, I've finally reached the end of the Purple Micro Galaxy?" Jian Wushuang looked at the end of the galaxy in front of him, where the vast universe void appeared, and a smile appeared on his face.

He had traveled through the Purple Micro Galaxy by universe boat for more than 700 years, and he had also traveled through the universe passage of the Ancient Yuan Star, saving him 200 to 300 years. Now, he had finally crossed the galaxy completely.

At the end of the galaxy was the Purple Micro Galaxy, which was one of Jian Wushuang's two goals.

The Purple Micro Galaxy was a medium-sized galaxy. It was much more powerful than Jian Wushuang's shooting star field, which was located at the edge of the universe and the most barren place.

Jian Wushuang had learned the complete information about the Purple Micro Galaxy from the Nine Emperor Pavilion.

There were more than 1,000 star worlds in the Purple Micro Galaxy alone. Although most of them were third-level star worlds, there were still more than 10 second-level star worlds.

Although the Purple Micro Galaxy was still not in the depths of the universe, it was no longer the edge of the universe. The overall strength of the second-level star worlds here was much stronger than that of the Devil Cloud Star Lord, the Ruler of the second-level Star Worlds, in terms of strength, he was also much stronger than the Devil Cloud Star Lord. According to Jian Wushuang's information, almost all the Rulers of the second-grade astral world in the Purple Micro Galaxy were fifth-grade Rulers.

Jian Wushuang's target in the Purple Micro Galaxy was Ruler star Luo and her disciple Leng Ruxue. Jian Wushuang had long received complete information.

Ruler Star Luo came from a second-grade astral world in the Purple Micro Galaxy, the top force in the Thunder Star Field, the Universal Poison Demon Sect.

The leader of the Universal Poison Demon Sect was one of the top three super powerhouses in the Lei Heng Galaxy. It was said that his strength was only second to the leader of the Lei Heng Galaxy.

...

Chapter 4027: Ballmer

"The name of the Universal Poison Demon Sect tells me that it's a sect that specializes in using poison. Leng Ruxue, on the other hand, was born with a body of woe poison derived from a great sin. The Universal Poison Demon Sect is perfect for her," Jian Wushuang thought to himself.

Jian Wushuang knew where Leng Ruxue was, but he was not in a hurry to go to the Thunder Star World. Instead, he went to the Nine Emperor Pavilion in the Purple Micro Galaxy.

The Nine Emperor Pavilion had influence in all the territories in the universe.

The Purple Micro Star River was a medium-sized star field. The scale of the Nine Emperor Pavilion in that star field was far beyond that of the Nine Emperor Pavilion in Jian Wushuang's star field.

On a huge and boundless earth star, there were towering pavilions and palaces, and the entire earth star was covered by a huge magic array.

!!

The magic formation exuded an ancient and majestic aura. Just from the aura alone, one could tell that the magic formation was extremely powerful. Even a fourth-level or even fifth-level Ruler would not be able to shake it.

Flying was prohibited in the Nine Emperor Pavilion, so cultivators who came to the pavilion to trade had to enter through the entrance. After entering the pavilion, they could only walk.

Jian Wushuang and Leng Rushuang walked into the Nine Emperor Pavilion side by side, arm in arm. Devil Flame followed them respectfully. As for the universe boat, Jian Wushuang had put it back into his interspatial ring.

When they came to the center of the Nine Emperor Pavilion, they could see the treasures displayed around them and the cultivators passing by.

There were a lot of cultivators trading in the Nine Emperor Pavilion. Although most of them were still Principle Rulers, there were still a lot of Rulers. Some of them were in the second or third level.

Rulers...in the inhospitable shooting star field where the absolute beginning divine realm was located, they were naturally top experts. It was rare to see one on a normal day.

However, Rulers were nothing in the vast universe. The Purple Micro Galaxy was a medium-sized star field with a lot of Rulers, and the Nine Emperor Pavilion was the largest trading center in the entire Purple Micro Galaxy, naturally, there were many Rulers.

As soon as Jian Wushuang and the other two entered the trading center, the attendants in the Nine Emperor Pavilion noticed their extraordinary auras and immediately came forward to welcome them.

"My lords, is there anything that the Nine Emperor Pavilion can do for you?" The attendant, who was only a Principle Ruler, was very respectful.

Jian Wushuang did not say anything but took out a token.

The moment he saw the token, the servant of the Nine Emperor Pavilion glared at him, and then his expression became even more respectful.

"My lords, please follow me."

Under the guidance of the servant, the three of them came to an independent secret room where a purple-clothed man received them.

“My young friend Blood Sword, I am one of the three supervisors of the Nine Emperor Pavilion in the Purple Micro Galaxy. My name is Ballmer,” the purple-clothed man said with a smile.

As one of the supervisors of the Nine Emperor Pavilion, Ballmer had the battle strength of a fourth-level Ruler. In terms of aura, he was much stronger than the three of them. However, when he faced Jian Wushuang, he did not put on airs at all. On the contrary, he was extremely enthusiastic.

“Hello, supervisor Ballmer,” Jian Wushuang greeted with a smile.

“What do you need, Blood Sword?” Ballmer asked.

“I need some high-level special crystals. You’d better give me a list and let me choose,” Jian Wushuang said.

“No problem.” Ballmer quickly organized a list and handed it to Jian Wushuang. “Blood Sword, the crystals on this list are all owned by the Nine Emperor Pavilion in the Purple Micro Starfield. As long as you need them, they can be sent to you immediately. As for the level, it’s not low either.”

Jian Wushuang took the list and glanced at it briefly. He nodded slightly and handed it to Devil Flame behind him. “Devil Flame, take a look.”

Devil Flame took the list and began to read it.

After a while, Devil Flame spoke, “Ruler, the quality of the crystals on this list is very high. Many of them are even higher than gold-fire magic stones and Ice Essence Crystals. The highest-level crystals are very useful for my divine body recovery, especially the three types of crystals. If you give me 20 of them, my divine body will recover to about 40%.”

“That’s good.” Jian Wushuang smiled. He pointed at the three gems mentioned by Devil Flame and said, “Give me 20 gems for each of them.”

“No problem.” Ballmer nodded. “Give me 20 gems for each of them. I’ll give you 300 universe origin stones.”

“300?” Jian Wushuang smiled. “It’s not expensive.”

It was indeed not expensive. When he bought the gold-fire magic stone in his star field, one gold-fire magic stone was calculated as one universe origin stone.

The gold-fire magic stone was far less valuable than the three gems that Devil Flame had chosen.

Moreover, Jian Wushuang bought 60 of these gems at one time, but he only needed 300 universe origin stones, which was cheap enough.

Of course, this was also because the gems Jian Wushuang needed now were already available in the Purple Micro Galaxy. He did not need to send them from other star fields, so the price was indeed much cheaper.

“I need a few more Principle Supreme Treasures...”

Jian Wushuang began to pick Principle Supreme Treasures again.

Of course, he was not picking Principle Supreme Treasures for himself. After all, he already had the Wuqi Divine Sword, which was an upper-grade Principle Supreme Treasure. It was very valuable and was enough for him to use.

He also had three Heaven Suppression Tablets and a suppression type Principle Supreme Treasure.

If he really wanted a Principle Supreme Treasure, he would probably need a supreme treasure armor, or a domain type or a flying type Principle Supreme Treasure.

However, that type of Principle Supreme Treasure was too valuable. Any one of them was estimated to be worth thousands of universe origin stones. Jian Wushuang had killed Nine Whiskers, and although he had obtained a considerable amount of wealth...however, he was not so extravagant as to directly choose armor, domain, or flying Principle treasures for himself.

He was now choosing treasures for his aura, which was as cold as frost, and Devil Flame.

Needless to say, Devil Flame's battle strength was very important to Jian Wushuang. Jian Wushuang had spent 300 universe origin stones just to let Devil Flame recover more strength, as long as Devil Flame got the crystals and restored his divine body to 40%, his strength would be restored to the highest level of the fourth level, or even the fifth level, by then, he would have a very strong battle strength even in the fifth level.

If he had a Principle Supreme Treasure suitable for him to use, his battle strength would be stronger.

Leng Rushuang was his wife. Jian Wushuang was not stingy with his aura. He had given Leng Rushuang the soul-defense Principle Supreme Treasure he had obtained after killing Nine Whiskers, now, he would naturally give Leng Rushuang an attack Principle Supreme Treasure.

After all, he had come to the Purple Micro Galaxy to end things between his wife and Leng Rushuang.

Chapter 4028: Venom

Soon, Jian Wushuang selected the Principle Supreme Treasures for Leng Rushuang and Devil Flame.

Leng Rushuang chose the long whip, while Devil Flame chose a blood-red principle divine weapon. These two Principle Supreme Treasures greatly improved their strength.

The two Principle Supreme Treasures, together with the special gems, only cost Jian Wushuang around 600 universe origin stones. Jian Wushuang had needed the golden origin divine fruit to cultivate the supreme eternal celestial body, therefore, he owed the Nine Emperor Pavilion a sum of universe origin stones.

This time, Jian Wushuang also paid them back. Even so, he still had some single origin stones left from the interspatial ring. In addition, Jian Wushuang had obtained them from Star Demon ancestor and Devil Cloud Star Ruler, in addition to his years of collection, Jian Wushuang still had about 500 universe origin stones left in his hand.

"Chief Ballmer, I have a list of treasures here. See if you can gather all the treasures on this list in a short time." Jian Wushuang handed over another list of treasures.

!!

Ballmer took it with a smile. His eyes swept over it, but the smile on his face instantly froze.

“Blood, Blood Sword...” There was something wrong with Ballmer’s voice.

“Why? Don’t you have any treasures in the Nine Emperor Pavilion?” Jian Wushuang looked at him.

“No.” Ballmer shook his head. “As long as there are treasures in the universe, the Nine Emperor Pavilion can basically get them. It’s just a matter of time. Blood Sword, I can gather 70-80% of the treasures on your list, but there are still a few treasures that need to be transferred to other territories. But I can guarantee that I can gather all of them and send them to you within 1,000 years.”

“Within 1,000 years?” Jian Wushuang frowned slightly.

“Blood Sword, do you think that time is too long?” Ballmer looked over.

“Yes.” Jian Wushuang nodded.

1,000 years was indeed too long for him.

However, Ballmer gave a strange smile. “Blood Sword, you don’t have to worry about the time. After all, with the existence of the universe passage, it’s not impossible to speed up. What you should really care about is the value of these treasures.”

Jian Wushuang’s expression changed. He could tell from Ballmer’s words that the treasures on this list were of extraordinary value.

Jian Wushuang was not surprised by this.

The list of treasures he took out was exactly what he needed to cultivate the fourth level of the supreme imperishable celestial body.

The supreme imperishable celestial body was an internal star secret skill from the Lingyun Star. It was of a very high level. He had already cultivated the first three levels at the level of a Principle Ruler, and his divine body was comparable to the most powerful supreme treasure, which was considered heaven-defying.

From the fourth stage, the supreme eternal celestial body could only be cultivated in the Ruler realm. Naturally, Jian Wushuang had now reached the threshold of cultivation. However, he had enough cultivation conditions, but he needed supplementary treasures to cultivate, he did not have them, so he could only place his hopes on the Nine Emperor Pavilion.

However, in order to Ruler the third stage, he needed many treasures, including a golden origin divine fruit.

The value of the golden origin divine fruit was very high. If it was auctioned well, it could be sold for nearly 100 universe origin stones.

Many of the treasures needed to cultivate the fourth level of the supreme eternal celestial body were on the same level as the golden origin divine fruit, and there were more than a dozen treasures more valuable than the golden origin divine fruit.

Naturally, it was very difficult to gather all the treasures on the list.

“Ballmer, just tell me, how many universe origin stones do you need to gather all the treasures on this list?” Jian Wushuang asked. He was mentally prepared.

“Blood Sword, you’re on the Nine Emperor List and a guest of the Nine Emperor Pavilion. I won’t hide it from you. If you gather all the treasures on this list, you’ll need at least 8,000 universe origin stones. This is because of your identity and there’s no time limit. If it’s someone else who needs to send them over as soon as possible, they’ll need to wait even longer!” Ballmer said.

“8,000 universe origin stones?”

Even though Jian Wushuang was mentally prepared, he was still shocked when he heard this number.

“8,000 universe origin stones?” Devil Flame could not help but sigh, “An ordinary fifth-level Ruler only has hundreds of universe origin stones, while some peak fifth-level Rulers only have about 2,000 to 3,000 universe origin stones. 8,000 universe origin stones is comparable to the total wealth of an Ultimate Ruler.”

“For me, at my peak, my total wealth is only about 10,000 universe origin stones.”

“I thought I had killed Nine Whiskers and obtained his interspatial ring. In addition to my previous collection, my wealth is relatively rich, but I didn’t expect it to be so far behind.” Jian Wushuang shook his head with a bitter smile.

“Blood Sword, you’re a friend of the Nine Emperor Pavilion, and you’re listed on the Nine Emperor List. Therefore, you have some privileges in the Nine Emperor Pavilion. You can apply to get these treasures first and then pay back the universe origin stones in the future. However, there are more than 8,000 universe origin stones, so the amount is a bit too big. You need to get the approval of some higher-ups of the Nine Emperor Pavilion. I can help you apply, but it’ll take some time to get an answer,” said Ballmer...

“No need.” Jian Wushuang waved his hand.

He was not that eager to get the treasures. He also knew that although he was on the Nine Emperor List, it would not be easy for him to borrow more than 8,000 treasures from the Nine Emperor Pavilion.

“By the way, Ballmer, I have some special items. I don’t know their specific value. I wonder if you can appraise them for me,” Jian Wushuang said.

“Of course, no problem.” Ballmer was very enthusiastic and patient.

“I just got these things not long ago,” Jian Wushuang said while waving his hand and taking out jade bottles.

There were 12 jade bottles in total. Each of them was made of a very special material and even had the effect of shielding the soul power from detection.

If the stopper was not opened, it was impossible to know what was inside the jade bottles.

Looking at the jade bottles floating in front of him, Ballmer felt a little curious. Then, he opened one of the jade bottles and poured his soul power into it.

"This is..." Ballmer suddenly widened his eyes.

There was only a drop of scarlet liquid inside the jade bottle. Although it was liquid, it gave off an extremely cold feeling. The moment Ballmer's soul power touched this drop of liquid...he instantly felt as if his entire soul was about to be completely frozen.

"Poison? Is this poison?" Ballmer looked at Jian Wushuang in surprise.

"Yes, it's poison." Jian Wushuang smiled slightly.

...

Chapter 4029: Poison Ruler

Jian Wushuang had also obtained the poison from the interspatial ring that Nine Whiskers had left behind.

When Jian Wushuang had fought Nine Whiskers, Nine Whiskers had hidden the poison fog under his killing move. Jian Wushuang had not been able to resist the sudden red poison fog and had been struck by it.

The red poisonous fog was so poisonous that even Jian Wushuang's perfect life divine body could not defend against it. Fortunately, he had abundant divine power, so he was able to survive.

After killing Nine Whiskers, Jian Wushuang found these poisonous liquids in Nine Whiskers's interspatial ring. There were 12 jade bottles in total, and each jade bottle contained a drop of poison.

These poisonous liquids were not exactly the same, but there were three types. Jian Wushuang recognized one of the scarlet poisonous liquids. It was similar to the red poisonous fog that had eroded his divine body, but it was more intense.

!!

Nine Whiskers must have spent some money to decompose part of the red poison into a red fog and hide it in his magic weapon.

"Ballmer, look at this poison. How valuable is it?" Jian Wushuang asked.

"Poison, especially high-level poison, is very valuable in the universe. The poison you have is obviously very high-level, so it should be very valuable. However, I can identify many kinds of treasures, but I'm not good at poison," Ballmer said with a smile.

"Blood Sword, wait here for a moment. I'll show this venom to another supervisor of the Nine Emperor Pavilion. He has some experience in appraising the venom."

"Okay." Jian Wushuang nodded. "There are three different kinds of venom here. Take a drop each and let him appraise it."

Ballmer immediately took the three jade bottles containing the different kinds of venom and walked out of the secret chamber.

Jian Wushuang and the other two were waiting there quietly.

Not long after, Ballmer returned to the secret chamber and came to Jian Wushuang.

“My friend Blood Sword, the identification results are out.” Ballmer looked at Jian Wushuang with a smile. “The three kinds of poison you took out are basically on the same level. It’s not surprising that the three kinds of poison were refined by the same Ultimate Poison Ruler. It’s just that there is a slight difference in the nature and the use process.”

“Poison Ruler?” Jian Wushuang’s expression changed. This was the first time he had heard this title.

“Ruler, the universe is vast and there are countless cultivators. Among the countless cultivators, there are naturally some special professions, such as alchemy, weapon refining, array formation, or soul attack. These are all common, but there are also some rare ones, such as Poison Rulers!” Devil Flame said, “Poison Rulers are good at using poison, and they usually adjust all kinds of poison to kill their enemies.”

“In the universe, Poison Rulers are very terrifying because the poison that they adjust is usually very terrifying. If you are not careful, even if you are obviously stronger than the other party, you may die at the hands of the Poison Ruler. A Poison Ruler who has reached the level of an Ultimate Ruler is absolutely the most terrifying among Ultimate Rulers. Even an autarch would not dare to underestimate such a Ruler.”

“So powerful?” Jian Wushuang was secretly shocked.

“Ruler was ambushed by Nine Whiskers. Fortunately, Nine Whiskers can’t really use the venom. Otherwise, even though you have a special physique, I’m afraid you won’t be able to resist the erosion of this drop of venom,” Devil Flame said solemnly.

Jian Wushuang understood.

He could see that any drop of Venom from this jade bottle was extremely terrifying. Even killing an Ultimate Ruler with this drop of venom would be very easy, let alone him.

However, although the poison had the ability to kill an Ultimate Ruler, ordinary people could not use it at all.

Nine Whiskers, for example, could not use the poison completely. He had spent a long time to dilute the red poisonous fog that had ambushed Jian Wushuang, it only took one percent of the entire drop of poison.

Even so, the red poisonous fog still caused Jian Wushuang great trouble.

One could imagine how terrifying a complete drop of venom was.

Most importantly, the venom could only be stored in a special material and could not exist in the void for long. Even if he wanted to smear the venom on his weapon to kill the enemy, the level of the venom

was too high, ordinary Supreme Treasures and magic weapons would be corroded and destroyed upon contact with the venom. They would not even have a chance to attack.

Even if it was a principle-type supreme treasure, an ordinary low-grade principle-type supreme treasure, if it was smeared with a drop of the venom, the low-grade principle-type supreme treasure would suffer great damage and might even collapse over time.

Because of this, Nine Whiskers was unable to smear a complete drop of venom on his long spear to attack.

“The spear in Nine Whiskers’s hand is only a low-grade principle treasure, but my Wuqi Divine Sword is an upper-grade principle treasure. If I apply a complete drop of poison to it, it should be able to withstand it, right?” Jian Wushuang could not help thinking.

After all, this was a poison concocted by an Ultimate Ruler-level Poison Ruler. One drop of this poison could kill an Ultimate Ruler. If it could be applied to a weapon and used as an attack...as long as the weapon touched the other party’s divine body, the venom would immediately seep into it. Then, even an Ultimate Ruler-level would have a hard time surviving.

This meant that if he was lucky, he would have the opportunity to kill an Ultimate Ruler-level with this venom!

Of course, this was just a thought. He did not really intend to do it.

After all, he did not have much confidence that the Wuqi Divine Sword would be able to withstand a single drop of the venom. If it could not withstand it and caused the Wuqi Divine Sword to be damaged, then he would suffer a great loss.

Unless he was in a real crisis and had no other choice, he would not make such a choice.

“Blood Sword, your poison is indeed very precious. If you want to sell it, the Nine Emperor Pavilion can collect one drop of it for 1,000 universe origin stones,” said Ballmer.

“One drop of 1,000 universe origin stones?” Jian Wushuang was shocked.

“So precious?” Leng Rushuang and Devil Flame were also shocked.

One drop of poison for 1,000 universe origin stones.

He had taken out 12 jade bottles and 12 drops of poison, which meant that if he sold all the poison, it would be 12,000 universe origin stones.

Previously, he was worried about the value of the treasures needed to cultivate the fourth level of the supreme imperishable body, but in the blink of an eye, he knew that he had such a great wealth.

12,000 origin stones. Even if he used up 8,000, he still had 4,000 origin stones left.

Chapter 4030: Refining Conditions

“Blood Sword, this venom...” Ballmer looked at Jian Wushuang. He hoped that Jian Wushuang would sell it to him.

After all, such high-level venom had always been rare in the universe. The Nine Emperor Pavilion’s forces were all over the universe, and even higher-level venom could be found everywhere. However, they were all in the depths of the universe, or in some large territories.

And in the Purple Micro Galaxy, this was the highest-level poison that Ballmer had come into contact with.

“No.” Jian Wushuang waved his hand. “I just asked you to help me identify the value of this poison, but I didn’t want to sell it to you.”

Hearing this, Ballmer shrugged, feeling helpless in his heart.

“By the way, Ballmer, is there any way for me to refine the venom?” Jian Wushuang suddenly asked.

“Refine?” Ballmer was stunned. “Blood Sword, do you want to completely refine the venom?”

“Of course.” Jian Wushuang nodded with a smile.

If he did not refine it, then all he could do was to forcibly smear a drop of venom on the Wuqi Divine Sword and find an opportunity to kill the enemy, at the risk of the Wuqi Divine Sword being corroded and damaged.

Or he could be like Nine Whiskers. He could spend the years on the drill ground to slowly dilute the poison and decompose it into some lower-level poisonous fog or gas to kill the enemy.

However, there were many flaws in these two ways of using it.

For example, if he was in a fierce battle, the other party would not give him the chance to apply the poison on the divine sword. He would really find an opportunity to do it under the other party’s nose, the opponent knew that you had applied a lethal poison on the divine sword, so he would naturally be vigilant. It would not be so easy for you to succeed.

As for the second type, not only would it take a lot of time, but the final product, such as the red fog of Nine Whiskers, was also powerful, but its effect was far less amazing than a drop of complete venom.

Naturally, Jian Wushuang wanted to completely refine the venom.

As long as he completely refined and Ruled the venom, he could use the venom as he pleased. He could even directly integrate the venom into the Wuqi Divine Sword without harming it at all, normally, he would activate the Wuqi Divine Sword as usual. As long as he willed it, the venom in the Wuqi Divine Sword would fully display its power. This was the most appropriate way to use it.

When Jian Wushuang was still very weak, he would fuse some of the venom into his divine weapon and use it to corrode the opponent’s divine body and divine power to kill the enemy instantly.

“Blood Sword friend, the venom in these jade bottles contains incredible corrosive power. Any drop of it can easily kill a Ruler at the peak of the fifth level, and it can even pose a great threat to an ultimate level Ruler. If you are not careful, an ultimate level Ruler will die.”

“However, because the poison is too terrifying, it’s extremely difficult to refine it. Under normal circumstances, a Ruler at the peak of the fifth level would have a chance of success if he took the risk. However, if a cultivator below the peak of the fifth level tried to refine the poison by force, the result would be certain death,” Ballmer said seriously.

“Is it really impossible to be so sure?” Jian Wushuang frowned.

“Blood Sword, you don’t know that this venom not only corrodes a cultivator’s divine body, but it can also directly destroy a cultivator’s soul. To complete the venom, not only do you need a lot of divine power to nourish your soul, but most importantly, your soul is strong enough to withstand the corrosion of the venom, so that you can refine it!”

“However, even the most extreme Ruler of the fifth level will be corroded by the venom once his soul comes into contact with it. If he is lucky, his soul will be severely damaged. If he is unlucky, his soul will be completely annihilated. There is only a slim chance of success.”

“But Blood Sword, if I’m not mistaken, you are only at the second level. A second level Ruler’s soul has no chance of refining the venom.”

Ballmer looked at Jian Wushuang with a faint smile. He did not mean to belittle Jian Wushuang, but what he said was the truth.

Under normal circumstances, to refine the poison at this level, the most important thing was to have an extremely strong soul that could withstand the corrosion of the poison. However, Ballmer was sure that Jian Wushuang’s soul could not meet the requirements.

However, after hearing Ballmer’s words, Jian Wushuang’s face was calm, but his heart was filled with ecstasy!

“Soul?”

“To refine this poison, I need to rely on my soul?”

“The thing I’m least afraid of is my soul!”

Jian Wushuang’s body and heart were trembling.

After all, he was a perfect life-level cultivator. In terms of soul, he was already invincible.

The damage to the soul, to him, was only a slight loss of divine power that could be completely repaired.

Even if his soul was completely destroyed, it wouldn’t have any effect on him.

This also meant that he could try to refine this poison without restraint, just like how his Ruler Xuan Yi had tried countless times to take over the absolute beginning divine realm.

For other cultivators, if they tried to refine the venom by relying on their souls, they would die if they failed. However, even if they failed, they would only lose a small part of their divine power, he could try again and again until he finally succeeded.

“Ballmer, thank you for telling me this.” Jian Wushuang smiled. “Please prepare the things I asked for before.”

“No problem. Blood Sword, you can wait in the Nine Emperor Pavilion for a while. I’ll send the gems and two Principle Supreme Treasures to you right away.” Ballmer smiled, he went down to prepare them for Jian Wushuang.

In just an hour, Ballmer had sent all the things to him.

“Devil Flame, I’ll give you all the gems. Take the time to recover your divine body,” Jian Wushuang said.

“Yes.” Devil Flame’s eyes lit up.

“Shuang ‘er, this nomological treasure, the long whip, is much stronger than ordinary supreme treasures. You just got it, so I’m afraid you’re not used to it yet. Let’s find a place to get used to it. We’ll go to the Universal Poison Demon Sect in a few days,” Jian Wushuang said.

“Okay.” Leng Rushuang nodded.

“Supervisor Ballmer, I need more detailed information about someone. Her name is Leng Ruxue, and she’s from the Universal Poison Demon Sect,” Jian Wushuang said.

“Leng Ruxue? The witch of the Universal Poison Demon Sect?” Ballmer was stunned, and he could not help looking at Leng Rushuang with a strange look.
