

# The Abandoned Husband Dominates

1371 Stop!

Jamie's suggestion seemed ridiculous but after careful deduction, it might be the best solution he could think of.

As his mind ruminated on the idea, Jordan looked at Jamie, "So, you're here to give me a suggestion that puts me in such a difficult position?"

Jamie said, "Bro, I know you're a good person and don't like to use force, but for yourself, for us brothers, for the safety of Earth, you have no choice! Don't worry, my suggestion will definitely work. If it doesn't work, I'll take your last name!"

Jordan looked out of the window and said softly, "Then, I'll see Lauren tomorrow."

Jamie walked forward and placed his hand on Jordan's shoulder. "There's one more thing that's very important. After you're done with her, remember to hug her when she's feeling the most emotional and tell her that she can't leave you. Tell her that you want to go to her world to cultivate with her. Women are very emotional. At such a time, she'll agree to any suggestion you make. Don't forget to mention me. I don't care if she agrees to take me as her disciple or grandson!"

...

The next day.

Jordan held Chloe's hand and walked to Lauren's villa.

The current capital had changed drastically. There were originally 20 million people in the capital, but now, there were less than 2 million people remaining. The number of cars on the road had also decreased significantly. There were few cars and people in the villa area to begin with, and now there's almost none.

“Dad, why are there so few people outside today? There are no cars or people.”

Chloe held Jordan’s hand and felt strange too.

Unfortunately, she was only a five or six-year-old girl. She did not know that such an earth-shattering change had happened in the capital.

Jordan said, “Maybe it’s almost the new year, so they’ve all gone home.”

As soon as she finished speaking, a few men in uniforms suddenly jumped out. Jordan subconsciously protected Chloe.

The man hurriedly bowed respectfully to Jordan. “Mr. Steele, we’re from the Space Administration. My name is Stan Fuller. I wonder if you’re here to look for Miss Lauren?”

Jordan glanced at him. He had some impression of this middle-aged man. He nodded. “So, it’s the former physics genius, Chief Fuller. Even our Steeles couldn’t poach you. I’m indeed here to look for Chloe’s mother. What are you doing here?”

Stan said, “More than ten years ago, I was very honored to be invited by the Steeles. However, I know that my talent is limited and I’m really not worthy of working with the many geniuses of the Steeles. Therefore, I returned to serve the country. I’ve been in charge of the space agency for a few years now. Even so, after Mr. Steeles moved into the capital, I contacted some of the senior experts of the Steeles. Sometimes, I was invited to discuss with them. It’s really an honor.

“I believe that Mr. Steele, I, and the experts under you are all very shocked that such a thing suddenly happened. This has completely subverted our professional understanding, right? We urgently want to know which planet Miss Lauren is from, the location of that planet, and how she came here. I hope Mr. Steele can help us ask this question later.”

At this moment, Chloe became curious. “Daddy, why did he say that Mommy isn’t from Earth? Is Mommy an alien?”

Hearing this, Stan felt awkward. “This... Miss Chloe still doesn’t know? I’m... I’m really sorry!”

Jordan said, “Forget it. I was going to tell her anyway. You don’t have to come specially because I came to see Lauren this time to ask about these things. Chief Fang, you’re not the only one who cares about the country and Earth. If I need you to entrust me with such matters, aren’t you thinking too badly of me?”

Stan was overjoyed. “Ah, I’m relieved to hear that, Mr. Steele! I’m so happy that Earth has you!”

“Yeah.”

Jordan did not say anything else. He held Chloe’s hand and walked forward, leaving Stan with a tall and upright back view. No one would have thought that Jordan was going to do something bad to Lauren this time.

On the other hand, Chloe was overjoyed. She kept grabbing Jordan’s hand and asked, “Is Mommy an alien? Daddy, are you an alien too?”

Jordan smiled and said, “Yes, we’re all aliens. You’re an alien too.”

Chloe quickly covered her mouth. “Ah, this is a secret. Daddy, don’t tell anyone! You can’t let the Earthlings know!”

“Haha...”

Jordan was amused. However, the two of them did not walk for long before they were suddenly stopped.

The person who stopped him was Mike Baylor.

It turned out that Mike Baylor had also been guarding this place.

Mike looked at Jordan with hostility, “Jordan, why are you here? You even brought your and Goddess Lauren’s daughter?”

Jordan said, “I’m here to see Lauren.”

Mike stood in front of Jordan and snorted coldly, "I saw you talking to the relevant departments just now. You're here to see Master on behalf of your country, right? I can't let you in! I know that if you go in, you'll definitely use your daughter to plead with Master. Jordan, you're really desperate. You actually want to use your daughter to improve your future. I thought you were a proud man!"

Jordan was furious. "What right do you have to stop me? What right do you have to judge me? I'm meeting my wife, and it's none of your business. Get lost!"

At that moment, the Moon Maiden suddenly flew over. Her expression towards Jordan was also very cold. "Jordan, don't cause trouble. Mike and I are both Goddess Lauren's disciples so we have a relationship. As for you, you have nothing to do with Master anymore. Miss Chloe can enter, but you cannot."

Jordan was furious. "I'll see who can stop me!"

Jordan grabbed Chloe's hand and continued walking.

"You brat. Since you refuse to accept reality, let me wake you up!"

Mike Baylor rode the Dragon Turtle and ran toward Jordan.

Jordan put Chloe aside. In the end, Chloe was Lauren's daughter. Mike Baylor and the Moon Maiden would never dare to hurt her, so he did not have to divert his attention to protect her.

Jordan flew up and fought Mike Baylor and his Dragon Turtle!

BOOM!

BOOM!

BOOM!

Jordan unleashed a few fireballs with all his might and hit the Dragon Turtle's body. However, the Dragon Turtle did not seem to be injured at all.

Mike Baylor laughed out loud. “Hahahaha, Jordan, your little attack is like scratching an itch for me!”

Jordan scoffed coldly. He had already seen through the Dragon Turtle’s flaw. “It’s just a stupid turtle that only knows how to defend. I don’t think you can do anything without this Dragon Turtle!”

Jordan immediately created a tall building under the Dragon Turtle and blocked its path to prevent it from flying.

Using the continuously rising tall buildings, he kept pushing the Dragon Turtle into the sky.

The Dragon Turtle was pushed higher and higher. Mike Baylor, who was riding on the Dragon Turtle, was at a loss and felt a spike of nervousness.

### 1372 Mother and Daughter Reunited!

Jordan immediately saw through the Dragon Turtle’s flaw. It only had defensive capabilities and did not have any offensive capabilities. It was a completely different existence from the golden-horned dragon that he had encountered earlier.

Jordan only restricted the front, back, left, and right of the Dragon Turtle slightly. It could not break through and could only be forced to keep rising.

At this moment, Lauren, who was cultivating quietly in the villa, also heard the sounds of fighting outside. She walked to the window and looked out. She happened to see the scene of Jordan forcing the Dragon Turtle and Mike Baylor to keep rising.

Lauren smiled knowingly. Looking at Mike Baylor’s helpless expression, she also found this scene very interesting.

As the altitude continued to rise, although Mike Baylor himself could fly, this height was already beyond his control. If he continued to rise, he was worried that he would die on it.

Therefore, Mike Baylor had no choice but to abandon this cumbersome Dragon Turtle and jump down from it.

Meanwhile, Jordan had been waiting for Mike Baylor.

BOOM!

BOOM!

BOOM!

Jordan immediately flew over and blasted three fireballs at Mike Baylor, knocking him down from the sky.

Pfft.

Mike Baylor spat out blood. He could not fight back at all!

“How dare you!”

When the Moon Maiden saw this, she could not sit still anymore. Mike Baylor and she were both Lauren’s disciples, so they were from the same sect. The Moon Maiden could not watch Mike get beaten up by Jordan like this.

Hence, the Moon Maiden flew up as well and unleashed a bolt of lightning at Jordan.

Lauren, who was watching the battle in the villa, couldn’t help but feel worried.

The Moon Maiden and Jordan’s abilities came from Lauren, and Lauren knew their respective strengths and the outcome of their battles the best.

Lauren thought to herself, ‘The power of lightning that the Moon Maiden has now and the ability of Jordan are both top-notch. Although Jordan’s

ability can transform a lot, he's an Earthling after all. Without real cultivation, there are very few things he can transform into. He's very restricted. In addition, the Moon Maiden has been a golden mutant for a longer time, so she's more confident in her abilities. Currently, Jordan shouldn't be a match for the Moon Maiden.'

At the thought that Jordan would lose to the Moon Maiden next, Lauren was actually a little worried for Jordan. She did not even dare to continue watching by the window.

However, what happened next surprised Lauren.

Jordan dodged the Moon Maiden's attack in time and immediately counterattacked. After a series of actions, he forced the Moon Maiden to retreat.

Subsequently, Jordan created many mechanical parts out of nothing. The Moon Maiden was puzzled when she saw this.

"What is this?"

The Moon Maiden did not know what Jordan was up to for a while and continued to fight Jordan. However, Mike Baylor, who was lying on the ground, watched helplessly as these parts slowly assembled into an AI robot. Then, countless robots gathered together as if they were doing something big.

Mike Baylor immediately thought of Jordan's Hell Space!

"Perhaps my golden-horned dragon died at the hands of these robots!"

Mike Baylor immediately reminded the Moon Maiden, "Be careful of these robots Jordan created. After a long time, your lightning power will not be their match!"

Only then did the Moon Maiden look at the ground. She realized that in a short while, the scattered parts had become densely packed robots.

“Damn it, what is Jordan going to do with the robots? These robots can work automatically without Jordan’s care. The longer it takes, the more disadvantageous it will be for me!”

Thus, the Moon Maiden began to divert her attention to bombard the little robots on the ground.

At that moment, Jordan finally had the chance to use his Hell Space!

“Be careful! Jordan is opening his Hell Space! Once he opens that thing, we’ll all die inside! Stop him quickly! Victoria Clarke! Victoria, come out quickly! Do you still want my help in the alternate world? Stop that lunatic Jordan!”

Mike Baylor shouted in panic.

“Hell Space?”

Seeing that Mike Baylor was so afraid of Jordan’s Hell Space, Lauren was puzzled.

This creation ability belonged to Lauren. Why didn’t she know that this ability had something called “Hell Space”?

Could it be that Jordan had developed it himself?

Lauren thought to herself, ‘Jordan really has top-notch talent and understanding in one-on-one battles. Even in my world, he’s definitely considered an expert. It’s so unfortunate.’

How could Lauren not feel even a little regretful? A talented fighter like Jordan could not achieve anything in her world. In the end, the two of them were husband and wife and had a child, Lauren couldn’t bring someone with such a relationship away.

Before Jordan could open his Hell Space, Lauren walked out of the villa.

“Alright, stop fighting. Let him in,” Lauren said softly in a blue dress.

“Master!”

When Mike Baylor and the Moon Maiden saw Lauren, they quickly knelt down.

“Master.”

Victoria also flew over.

“Mommy!”

When Chloe saw Lauren, she ran over quickly. She couldn't tell what was different about Lauren.

Chloe pounced on Lauren and smiled sweetly. “Mommy, your dress is so long and pretty. Did Daddy buy it for you?”

When Lauren saw Chloe, her face was no longer that of a cold Goddess. She smiled and nodded. “Mm.”

She held Chloe's hand and said to Jordan who was far away, “Come in.”

Chloe also smiled and said, “Daddy, come over quickly. Fly! We're not waiting for you!”

Chloe returned to the villa with Lauren first, followed by Jordan.

As soon as they entered, Chloe could not help but ask, “Mommy, Daddy said that we're aliens. Is that true? When are we going back to our planet?”

Lauren was stunned. She didn't expect Chloe to already know about this. She had been wondering how to tell Chloe.

Lauren smiled. “Yes, we're both aliens. In a few days, we'll be returning to our planet. Are you willing to go back to our planet? Or do you want to stay on Earth?”

Chloe said seriously, “Can you give me two days to think about it? I have two good friends in kindergarten. If I leave, they will be sad!”

Lauren smiled and stroked Chloe's head. "Alright, then consider it. Mommy will wait for your decision."

Chloe continued to ask, "Mommy, you and Daddy look so powerful. When can I fly and learn magic?"

Lauren said, "Do you want to become like that? If you're interested in cultivation, Mommy will turn you into the best and most powerful cultivator."

### 1373 There Are Others!

As Lauren's daughter, Chloe had the genes of a cultivator from another world. No wonder she was very talented in many aspects, far surpassing other children her age.

Lauren didn't explain it to Chloe in detail. She only reminded her that they were going to a very, very far place.

At Chloe's age, she did not care about distance. She only cared about having her parents accompany her. She thought that her parents would follow her, so she was not worried at all.

After chatting with Chloe for a while, Lauren asked her to go to the piano room to practice.

Now, only Lauren and Jordan were left in the living room of the villa.

Lauren looked at Jordan. Seeing that he was much calmer than the last time they met, she said gently, "Jordan, you seem to have accepted everything. This is good. Are you here with a mission today? I won't go to the space agency or any other unit. It's not that I don't want to cooperate, but with the current level of science on Earth, it's useless even if I tell you. Earth can't detect my planet at all."

Jordan felt a warmth in his heart when he saw Lauren wearing the clothes he had made for her. The fact that she was willing to wear these clothes proved that Lauren still loved him!

Jordan said, "Lauren, I came here today because I have a few questions for you."

Lauren nodded. "Okay, ask away."

Jordan said, "What's your name in your world? Is it Lauren as well? I want to know your original name."

Since Lauren was not a woman from Earth, Lauren was no longer her real name. If Lauren was really heartless this time and did not take Jordan away, one day, Jordan would work hard to go to that planet to find Lauren.

Jordan was also preparing for the future. If that day really came, Jordan needed to know Lauren's name there.

Lauren said, "My last name over there... is also Howard, but my name was different. Alright, I can tell you. My original name is Levana."

"Levana..."

Jordan repeated the name a few times. It was indeed a Goddess' name.

Jordan frowned and said, "As far as I know, the name Howard came from a long history on Earth. It's been passed down for centuries. Why does your planet have this last name? Why do I feel that your cultivation world is very similar to our Earth? Lauren... Oh, I'm sorry, Miss Levana. Can you tell me what your planet looks like? I'm really curious."

Jordan wanted to find out more about the alternate world from Levana, especially about cultivation.

Levana didn't hide anything and said, "I know. You must have treated our world as a world like those martial arts novels you've read. Actually, that's not the case. Our planet is actually a technological civilization. Our

development and direction are the same as Earth's. It's just that we're many years more advanced than Earth, and our technological progress is faster.

"At first, our planet couldn't cultivate either, until one day, the technological civilization reached a certain height and created spiritual energy on the planet for everyone to cultivate. Therefore, we entered the era of cultivation. Not all of our cultivators are like me and able to float around in the air. There are many extraordinary abilities. I belong to a relatively classical cultivation method, and there are also many strange and new cultivation methods. There's no hierarchy among us.

"How should I put it? I feel that there are many geniuses in our world from many different sects. Actually, I'm nothing in our world."

When Levana said that, there was yearning, longing, and even admiration in her eyes. This made Jordan feel jealous!

He didn't want his woman to worship another man!

"If I were born in that world, I would definitely become the genius Levana mentioned!"

Jordan gritted his teeth and thought to himself.

Jordan said, "So, it's a combination of technology and cultivation. Actually, this is also my forte. I got something out of nothing from you. I used it to develop a Hell Space. In the Hell Space, I combined technology and cultivation ability. The longer it takes, the more powerful my space is. Previously I used this to kill Mike Baylor's golden horned dragon alone. Even if it's the Moon Maiden, I'm confident that I can kill her alone as long as she enters my Hell Space!"

Levana smiled. "Mm, I can see that you're also very talented. If you go to my world, you might become an expert too."

An expert?

Would he only be considered an expert?

'I, Jordan, am a ruler wherever I go!'

Jordan continued to ask, "I have another question. Previously, you said that you wanted to send a signal to your family to pick you up. If you send a signal on Earth, you'll definitely expose the coordinates of Earth. There are so many unknown living planets in the universe. If you expose Earth like this, Earth will definitely be in danger. At that time, Earth might be invaded and destroyed by other planets!"

As he said this, Jordan felt very emotional. It was as if Earth would be destroyed in the next second.

Levana smiled. "I've watched The Three-Body Problem too. Are you worried that Earth will be turned into a painting by a high-level planet? Haha, you're thinking too much. The real universe isn't like this. Earth is a training planet controlled by our planet. No one dares to touch Earth. Moreover, the signal I send out can't be sensed by low-level civilizations at all."

Although Levana said that, Jordan was still very worried. "But what if it does? What if other planets really sense it? The entire Earth will be destroyed in a day. I think you can't be so selfish and abandon the lives of the entire Earth!"

Levana was a little helpless. "It'll really be fine. I'm not the first person to come to Earth. Before me, people from our planet came to Earth. Moreover, they must have sent a signal long ago. Isn't Earth fine still?"

Jordan asked curiously, "Before you? Who? The mutant era started when you came to Earth. Where did you find mutants before?"

Levana said, "Have you forgotten about the first generation of Heavenly Gods? Before I came, your eight great families had already experienced such a magical ability. At that time, I hadn't even arrived on Earth."

Jordan took a step back in shock, "The Heavenly God's power doesn't come from you? Oh my god, then my Heavenly God's prediction power doesn't come from you too? Who was it from then?"

Levana said, "Predicting the future is a heaven-defying ability. I can't reach this level at all. Even I can't have such an ability myself. In our world, I'm afraid only the Four Immortals and Four Devils have this level of ability. I didn't expect that a big shot of their level would actually come to an elementary trial ground like Earth..."

1374 Can't Do It!

Four immortals and four devils?

Although Jordan did not know who these people were, they sounded like top-tier figures!

Jordan had once possessed the ability of one of the gods!

At the thought of this, Jordan could not help but regret drinking the medicine given by Jiumo Kasyapa. Now, he no longer had the ability to predict!

"Damn it, the Heavenly ability actually comes from a cultivator stronger than Levana. Jiumo, that damned monk..."

Jordan could not help but feel a little frustrated.

Levana continued, "I've thought about it. Other than my ability, there seems to be more than one prediction ability. There are also other abilities, proving that there are other people from my planet. You know that person too."

Jordan had just come out of his shock when he was shocked again, "Who is it?"

Levana said a name that Jordan did not expect, "Shaun Handley."

Jordan was puzzled. "Shaun Handley? Didn't the Handley family's ability come from the Immortal Lake?"

Levana nodded. "Yes, Shaun's father and uncle obtained the ability from me, but Shaun has never been to the Immortal Lake. It's impossible for the ability of a mutant to be passed down to future generations, but he

has the ability to control cats and even became my master. Although this is not a very powerful ability, I still feel that Shaun is not a complete Earthling.”

Jordan could not help but feel a lingering fear when he heard Levana’s analysis. Why were there so many aliens infiltrating this world?!

Moreover, Jordan was the one who killed Shaun!

Jordan said, “Are you saying that... I might have killed a cultivator from your planet?”

Levana smiled. “You may have killed Shaun on Earth, but you might not have killed his real body. You don’t have to think too much about it. I’m just guessing.

“Anyway, what I want to tell you is that there are really a lot of people from our planet coming to Earth. Moreover, they are all transported through this kind of signal transmission method. It won’t be harmful to Earth. Forget about The Law of the Jungle.”

Levana was of a higher level than Jordan. Since she had said so, Jordan did not say anything else.

Levana said, “Thank you for bringing Chloe here today. I’m going to practice with her, so you can go back by yourself.”

In response, Jordan replied, “Okay... Hey, wait a minute!”

Jordan suddenly forgot that the most important thing he had to do here was not done yet!

Levana turned around and asked, “Is there anything else?”

Jordan looked at the goddess-like Levana and was a little nervous because according to Jamie’s idea, Jordan would have to force himself on Levana!

It was only in this way that Levana would continue her relationship with Jordan.

At that moment, Jordan recalled the advice that Emily had given him. She told him to put away his manly arrogance and straightforward style and to gently beg Levana to make her happy.

Jordan recalled the past. He really did not want to be separated from Levana in two worlds, so...

Thump!

Jordan was kneeling in front of Levana!

“Jordan, you...”

Levana covered her mouth in shock. How could she not know how indomitable Jordan was? He would never kneel to anyone easily. However, he was kneeling to her now!

At this moment, Jordan put down all his conceit and begged, “No matter if you’re Levana or Lauren, you’re still the woman I, Jordan, love deeply. You’re my only one. Without you, I won’t be happy even if I have the entire world. I beg you, give me a chance and let me go with you. I swear that when I reach that place, I will definitely focus on cultivation. I will definitely become a man worthy of you. Believe me!”

“Sigh.”

Levana sighed. She was also in a difficult position. She walked toward Jordan and crouched down. Then she reached out to help Jordan up.

Although she was a ‘Goddess’, she still regarded Jordan as her husband, as the man she loved. She could not accept the man she loved kneeling in front of her like this.

However, the moment Levana reached out, Jordan also reached out and pulled her into his arms!

“Honey!”

Jordan hugged Levana tightly. Levana was at a loss for a moment. She did not expect Jordan to do such a trick.

Jordan hugged Levana's charming body tightly.

Although Levana was inferior to Jordan in terms of figure, in reality, Levana was more capable than Jordan. It was easy for her to break free from Jordan's embrace.

However, Levana did not use any force.

At this moment, Levana felt awkward. "Jordan, don't be like this."

However, Jordan showed a resolute expression. "No, it's what I want!"

As he spoke, Jordan did as Jamie said and kissed Levana forcefully!

"Mm..."

Levana's eyes widened. She could not believe that Jordan would force a kiss on her.

For a moment, she actually felt weak all over. Even if she had endless abilities, she could not use them.

For the past two hundred years, she had been so engrossed in cultivation that she had not engaged in the matters between men and women. Such a kiss was unfamiliar to her. It was nervous and made her heart beat uncontrollably.

Seeing that Levana did not push Jordan away, Jordan continued to make bigger movements. He wanted to force himself on Levana like he did in the small black room the first time!

However, after ten minutes, Jordan still stopped at kissing her.

During this period, although Levana resisted, it was only the strength of an ordinary woman on Earth. She did not use her ability. Otherwise, Jordan would have been flung away long before.

This meant that if Jordan really used force, Levana would not refuse, just as Jamie had guessed.

However, Jordan did not succeed in the end.

Levana slowly moved away and tidied up her clothes. “Why don’t we forget about it? Don’t force yourself. It’s normal for you to feel pressured when facing me...”

With that, Levana stood up slowly and walked towards the piano room.

Jordan pounded the floor in frustration. “Why is this happening?!”

Perhaps, Jordan was destined to not do anything bad. After all, he had raped Lauren in the small black room because Jamie had drugged both of them. Now that he was conscious, Jordan could not do such a thing.

Jordan walked out of the villa and returned to the Steeles’ residence. Jamie had been waiting in his room for a long time.

As soon as Jordan returned, Jamie could not help but ask, “How was it? Did you succeed? What did Goddess Lauren say? Did she promise you? Did she promise me?”

Jordan sighed. He sat on the chair and shook his head. “No, I didn’t succeed.”

Jamie was in disbelief, “She rejected you? When you forced a kiss on her, she used an immortal move to beat you away?”

Jordan shook his head. “No, she didn’t use her abilities on me.”

“Then why didn’t you succeed?”

“Forget it, stop talking. I can’t do such a thing anyway.”

“No, you have to tell me the reason today! I can’t die for no reason!”

In the end, Jordan told Jamie the truth.

Jamie was stunned.

“What did you say? You couldn’t get it up?”

## 1375 Ability to Retract!

Jamie was dumbfounded. He was even more surprised than when he found out that Lauren was a cultivator from another planet!

“Jordan, are you kidding me? Are you still a man? Or have you fallen in love with someone else and lost your feelings for Lauren? Or have you been crippled like me? Why can’t you get it up at such a young age?!”

Jordan said angrily, “You have no idea how much pressure I’m under when facing Levana now. She’s no longer just a fair, rich, and beautiful woman from the capital. She’s from another planet. She’s a cultivator in her 200s!”

Jamie retorted, “So what if she’s from another planet? It’s fine as long as her functions are the same as Earth’s. Moreover, she looks like a woman from Earth. 200 years old? Don’t tell me you’re not interested because she’s old?”

Jordan said, “How’s that possible?! I’ll still like her even if she’s a thousand years old!”

Jamie said, “Are you worried that when you force yourself on her, she’ll kill you out of excitement? I think this is the only reason.”

Jordan said, “Alright, let’s not talk about this anymore. Even if I really do it, Levana won’t take me away. However, even if she doesn’t take me away, I’ll still go to her planet to look for her.”

Jamie shook his head helplessly, thinking that Jordan must have been scared. He was too afraid of Levana, so he did not succeed.

Jamie did not doubt Jordan’s ability. Perhaps Jordan could really find a way to go to Levana’s planet. However, who knew how many years it would be?

At that time, Jamie might already be an old man who couldn’t walk. How would he have the mood to go to the other world to hunt?

...

Soon, it was time for Levana's appointment.

On this day, all the mutants gathered at the Immortal Lake.

Originally, many mutants did not want to come. They did not want to return their abilities to Levana. Once they lost their abilities, they would be no different from ordinary people. Returning from mutants to mediocrity was no different from death to some people.

However, Moon Maiden, Mike Baylor, and Victoria Clarke did their duty and captured every low-level mutant.

Some of them wanted to commit suicide, but they didn't allow them to do so. If they wanted to die, they had to wait for Levana to take away her ability before they could die.

Whoosh... whoosh... whoosh...

Splash...

Today, the wind in the Immortal Lake was very strong and there was some sleet. No one used any special ability to change the weather. Today was the day Levana and the others would leave Earth. The weather suddenly became a little bleak and cold.

After a while, Levana descended from the sky with Chloe in her arms, holding a red umbrella and wearing a long red dress.

"Greetings, Master!"

Seeing Levana's immortal aura, the Moon Maiden and the others hurriedly knelt down.

Levana said, "Regarding this kneeling, if you can avoid it in the future, do so. In our world, Masters are similar to the teachers in this world. It's fine as long as you respect them. There's no need to kneel like this every time."

“Yes!”

The few of them were used to being worshiped, so they naturally didn't like this feudal etiquette. They were just afraid that Levana would think that they didn't respect them enough, so they had no choice but to do this.

The Moon Maiden stepped forward and said, “Master, are you going to take away our abilities and those of low-level mutants? Do you want us to go to Immortal Lake to release our bloodline now?”

Levana shook her head, “There's no need. The Immortal Lake is now an ordinary lake with no special abilities. If you continue to release blood there, you will die.”

“Stand together.”

Moon Maiden replied. “Yes!”

The Moon Maiden did not instruct the others. She directly used her talent power and used the wind to pull everyone together.

This included Victoria.

Victoria unhappily looked at the Moon Maiden. “I'm so close to Master, I can walk by myself. You don't need to pull me.”

The Moon Maiden turned a deaf ear.

At this moment, Mike Baylor happened to walk up to Levana and whispered, “Master, there are people from China monitoring us nearby. They seem to be from the Space Administration. Among them, there are also people from the Steeles.”

“As far as I know, they also invited some relevant talents from the United States to work together. It seems that they want to use us to probe some information about your planet when we return to your planet. Should we chase them away?”

When Levana found out that Jordan was spying on her in the dark and was trying to approach her through another method, she could not help but sigh in her heart.

At the side, Chloe tugged at Levana's skirt and said, "Mommy, didn't you say that Daddy would come looking for us? When will he come? Can we wait for him and leave together?"

Levana patted Chloe's head and said nothing.

Then, she said to Mike Baylor, "No need, don't bother with them. With their technological strength, they can't detect anything. Instead, I hope they can detect the location of my planet. Hehe."

If the Steeles, CNSA, or NASA could detect which planet Levana was on, perhaps this parting would no longer be eternal.

Levana was the first to reach out and pull out the talents of all the mutants. Rays of light of different colors ran out of the mutants' bodies and slowly flowed into Levana's body.

Soon, these people became ordinary people.

"Sobs... I no longer have any superpowers. I don't have the Iron Palm. I'm a cripple. What's the point of living!"

"Goddess Lauren, I beg you, please bring me to another world to cultivate!"

"..."

At the scene, the low-level mutants were in chaos. Some even chose to commit suicide because they had lost their ability!

Mike Baylor, Moon Maiden, and Victoria Clarke couldn't help but sigh when they saw this scene.

Fortunately, the three of them had the qualifications to go to the alternate world to cultivate. Otherwise, they would also cry bitterly and hurt themselves like them.

The Moon Maiden said, “Master, although I no longer have the ability to control the weather, I still feel a stream of true qi circulating in my body.”

Mike Baylor said, “I feel the same way!”

Victoria replied. “I... feel that it is very small, but there is still a little bit.”

Levana said, “My world is different from Earth. All my abilities are based on the spiritual energy developed by science and technology. That thing is in your bodies. With it, it will be much easier for you to cultivate.”

The Moon Maiden and the other two were overjoyed. “Thank you, Master!”

While Victoria expressed her gratitude, she did not forget to ask, “Master, are you really not planning to bring Jordan along?”

1376 Leaving Earth!

As a woman who was very observant, Victoria could tell that Levana still had feelings for Jordan.

Once a woman fell in love with a certain man, it is difficult to let go easily.

Emily clenched her fists nervously and looked into the distance. She thought to herself, ‘Jordan, I know you must have worked hard, but you still couldn’t do it. I wonder if we’ll have the chance to meet again in this lifetime after this farewell...’

On the other hand, Rong Bingshao was very happy to see this result. He thought to himself, “Jordan, on Earth, I may lose to you for the rest of my life. However, when I return from my cultivation in the Alternate World, you’ll become an ant to me!”

Levana looked into the distance and didn’t say anything. As she held Chloe’s hand tightly with her right hand, she asked the Moon Maiden, Rong Bingshao, Mike Baylor, Victoria, and Emily.

“Are you ready? If you leave with me this time, you might never have the chance to return to Earth again. Moreover, the path of cultivation is very

difficult. There is only one in ten thousand who can achieve something. Don't be too confident that you are that person. It's not too late for anyone to back out now."

Hearing Levana's words, everyone knew that Levana was about to bring them to the alternate world!

The Moon Maiden and the others excitedly replied, "We're ready!"

Only Emily suddenly burst into tears. "I miss Daddy..."

Victoria quickly grabbed Emily's hand and said with a serious expression, "Emily! Don't be so useless! You have never had a father since you were born. You only have me as your sister! Don't worry, Daddy will live well on Earth. We will definitely have the chance to visit him again in the future!"

After saying that, she hurriedly said to Levana, "We're ready. Master, please begin!"

Levana glanced at the cowardly Emily and didn't say anything. Since this was their own decision, she would bear the responsibility of whether they lived or died in the Alternate World.

Suddenly, Levana turned the red umbrella in her hand into a huge umbrella. The umbrella kept expanding until it completely covered these people!

"I can't see!"

"Goddess Lauren must be working hard! Look, there's a golden light coming out of the umbrella and heading straight for the sky!"

"Is this the signal sent to an alien planet? Why is it so weak? It's almost impossible to see with the naked eye!"

"Perhaps it's not that the signal is weak, but that we can't see it with our naked eyes!"

The low-level mutants, who had already become ordinary people, discussed animatedly.

At that moment, Jordan was observing the level of detection from an observation platform 100 kilometers away.

“Levana should have already sent a signal to her planet. Have you tracked her?”

Jordan asked the scientists from the Steeles.

A doctor replied, “We’re tracking it. We’re trying to probe it at the same time as the National Space Administration and NASA.”

Jordan pressed a button and asked Lionel about the situation, “Lionel, how’s the situation on your side? Did you track the signal?”

Lionel replied, “No, I can’t sense it for the time being. Our ‘Land Exploration Group 101’ in space has upgraded its detection technology. There’s also a similar Planet B. Once the signal leaves Earth, this group of two stars should be able to detect it, but we can’t guarantee if they can track the speed of the signal.”

NASA was also chatting at the same time. “This is NASA, this is NASA. Our Sentinel 6 satellite has detected an abnormal change in the sea level of the Earth.”

As soon as he finished speaking, heavy rain suddenly fell from the Immortal Lake, including Jordan’s location 100 kilometers away. The rain was extremely fast. It had never rained like this before.

As the rain increased, Jordan’s heart beat rapidly.

“Lauren... Chloe...”

However, after a dozen seconds, the raindrops disappeared and the weather cleared up.

Jordan realized that something might have happened just now. He immediately ordered, "Launch the detector to the Immortal Lake! I want to know the situation there!"

"Yes!"

The detector scanned directly above the Immortal Lake. Jordan immediately saw the situation there through the surveillance camera.

Levana, Moon Maiden, and the others were nowhere to be seen.

"Turn the detector to the other side. I'll see if there's anyone on the other side of the umbrella!"

Jordan continued to give orders.

"If Levana finds out..."

Jordan shouted, "Do it now!"

"Yes!"

The detector quickly turned to the other side and found that the other side of the umbrella was also empty!

Levana, Moon Maiden, Chloe, and the others who were preparing to go to the alternate world had all disappeared!

"They're gone... the plane! Prepare the plane immediately and take me to Immortal Lake!"

Jordan ran out quickly.

The people on Jordan and Lionel's side rushed to the Immortal Lake immediately.

When they arrived at the Immortal Lake, the low-level mutants were surrounding the huge umbrella.

“Goddess Lauren took them away just like that? Isn’t that too fast? We didn’t even see anything.”

“That’s right. They went to another planet just like that? What level of technology and immortal techniques is this?”

While they were discussing, the people from the Steeles and Lionel rushed over with weapons.

“Everyone, don’t move. Put your hands behind your head and leave the red umbrella. Lie on the ground!”

Lionel’s men were the first to rush over and chase away these low-level mutants. They had already become ordinary people and did not dare to resist when faced with guns.

At that moment, Jordan ran over quickly. When he saw that there was no one near the red umbrella, he could not help but cry instantly. He shouted loudly, “Lauren! Chloe! Victoria! Emily! Where are you?!”

However, no matter how loudly he shouted, no one answered him.

In a moment of desperation, Jordan ran toward Linus, who was lying on the ground and covering his head. He grabbed his sleeve and asked agitatedly, “Where are they? Where are my wife, my daughter, and the others! Also, where are Mike Baylor, Moon Maiden, and the others?!”

Linus said, “Chief, we don’t know either. We didn’t see anything before they all disappeared... Perhaps they’re already on Goddess Lauren’s planet.”

Although Jordan had expected this outcome, he could not hide the disappointment in his heart after it really happened.

Jordan asked, “Did they reveal any important information before they left? For example, what’s the name of their planet? How long will it take to go there?”

Linghu shook his head. “No, but I heard from your daughter...”

Jordan grabbed Linus' clothes again. "What did Chloe say?!"

Linghu said, "Miss Chloe said that you'll find them. She also said that Goddess Lauren told her. Chief, don't you know how to find them? Is Goddess Lauren lying to Miss Chloe?"

1377 Celestial King Planet!

In the vast universe, there was a planet shining with purple light.

Diamond-like, shiny raindrops fell from the sky one after another, emitting a dazzling light. When the raindrops landed on the ground, they were also golden. After a while, they turned into water.

At this moment, many people were gathered in a strange and grand place.

These people were all graceful and elegant. They wore gorgeous long robes. Be it their clothes, style, decorative jewelry, or their dignified faces, it was not difficult to tell that they were definitely a group of people with higher status on this planet.

It was like seeing someone in a suit driving a Mercedes-Benz on Earth.

A burly middle-aged man stared fixedly at a circular platform in front of him. Beside him stood a beautiful middle-aged woman, and behind her were a few younger people.

The man asked seriously, "How much longer before Levana returns?"

There was an old man in a blue uniform on the circular platform. The old man replied, "Miss Levana still needs about an hour before she will return to our Celestial King Planet from Planet Blue 9696."

This was the planet where Levana grew up. They named themselves Celestial King Planet and Earth Planet Blue 9696 because Earth was ranked 9696th among the blue planets they knew.

The group of people in front of him were Levana's family. The middle-aged man and middle-aged woman were Levana's parents.

Both were over 1,000 years old. Levana's father was called Hathor, and her mother was called Hestia.

Hestia held Hathor's arm and said, "Levana won't be back for another hour. Why don't I go back with you to rest first and come back later?"

However, a frown marred Hathor's expression as he shook his head. "There's no need. An hour isn't a long time. I'll just wait here for her to come back."

One hour on Celestial King Planet was equivalent to half an hour on Earth.

Hestia said, "Alright, you haven't recovered yet. I'll make you a cup of medicine."

She turned around and left, leaving behind a beautiful figure.

After Hestia left, Hathor spoke again, "Grannus."

"Father!"

The purple-robed man behind Hathor walked forward. He was Grannus, Hathor's son and Levana's elder brother.

Hathor asked with a serious expression, "Don't leak the news of Levana's return for the time being, and especially ensure Donovan Cross does not know."

Grannus's face was also as handsome as jade. As expected of the big brother of Levana, who was an esteemed beauty. Likewise, he was also good-looking.

In response, Grannus bowed in front of Hathor and had a very respectful attitude. He replied, "Yes, Father. I didn't leak my sister's return to anyone else. However, Donovan Cross and Levana's engagement is already known to the world. The Howards are also a reputable family. It's not good to drag it out."

“Fifty years ago, in order to avoid Donovan Cross, Levana went to Planet Blue 9696, a low-level planet, behind our backs. It’s fine if she went there. After all, many people on Celestial King Planet like to go there. However, when she went there, there was no news of her at all. There was no absolutely no trace. The only possibility was that she released her ability and turned into a mortal, becoming an ordinary Earthling!”

Hathor nodded. “That’s right. In the past 50 years, she has indeed transcended into a mortal on the Planet Blue. I’ve heard her mention it before. She said that her master told her that if she wants to become a half-immortal, she has to experience transcending into a mortal. It will allow her entire cultivation to undergo a transformation and comprehension.”

When Grannus heard his father mention Levana’s master, he couldn’t help but snort. “Hmph, in my opinion, turning into a mortal is simply the most ridiculous cultivation method. It’s completely meaningless. What benefits can becoming a mortal bring to the path of cultivation? Moreover, even if there are benefits, it’s only for men. Women can’t become mortals! What if my sister married someone else and bore a child?”

Hathor said, “Levana has always been arrogant. She wouldn’t give her noble body to a native of the Planet Blue 9696. When she turned into a mortal, she must have set something up. You’re worrying too much.”

Grannus said, “I hope so. If she really married someone on a low-level planet and bore them children, our family would become the laughingstock. Donovan Cross would also be furious.”

This time, it was Hathor’s turn to snort coldly. “What right does Donovan Cross have to be angry? Even if he’s angry, would he dare to blame our family? Grannus, you think too highly of Donovan Cross. I know you’re very close to him. This kind of person who’s used to playing tricks, you should stay away from him!”

Grannus quickly retorted, “Father, you’re in the wrong. Donovan Cross is a one in a million talent on our planet. He might soon enter the ranks of half-immortals. There’s no harm in befriending him!”

In response, Hathor only sneered disdainfully, “Half-immortal? Him? I think he won’t be able to enter even when our Levana becomes half-immortal!”

Grannus continued to retort, “You think too highly of Levana. How can Levana compare to Donovan? Many of his friends are half-immortals. It’s all thanks to Donovan that Levana’s master was introduced to Levana!”

Hathor’s expression was serious, and he did not refute that. Although he did not like Donovan Cross, he could not help but admire his ability in certain aspects.

The diamond rain continued to fall. Soon, a blue light shone on the circular platform.

“Levana is back!”

Levana’s mother, Hestia, was the first to recognize Levana.

Levana brought Moon Maiden, Victoria, and the others from Earth to the planet where Levana was!

“Ah, I’m so dizzy I want to vomit...”

As soon as she landed, she felt very uncomfortable and couldn’t even stand straight. If it wasn’t for Emily holding her tightly, she would have already fallen to the ground.

The Moon Maiden was also a little uncomfortable. “I’m having trouble breathing...”

Similarly, Mike Baylor and Rong Bingshao also said, “I feel the same way.”

Levana looked at them and said, “The structure of our Celestial King Planet is different from your Earth. You need some time to get used to it. I’ll give you some respiratory masks first. You’ll feel better after wearing them.”

As she spoke, Levana conjured some for them and put them on. After putting on the respiratory masks, their expressions improved. Then, Levana held Chloe's hand and walked down the platform. She had already seen her parents, whom she had not seen for a long time.

Originally, Hestia was very happy to see Levana return, but when she saw Levana holding a little girl's hand and walking towards her, the smile on Hestia's face instantly disappeared.

Everyone in the Howards could tell that Chloe, this little girl, must have an extraordinary relationship with Levana!

1378 You Actually Have a Child!

Levana held Chloe's hand and walked towards her parents.

Chloe was already feeling a little uncomfortable after coming to a new planet. Coupled with the unfamiliar people in front of her, the strange attire, and this foreign world, she was even more nervous.

Fortunately, her mother was with her. Otherwise, Chloe would have cried by now.

Levana walked in front of her parents and stood there silently. It had been decades since they last saw one another. She didn't run to her parents excitedly to hug them because she knew that her willfulness had caused her to make a mistake that would embarrass her family.

"Father, Mother, Brother."

Levana greeted her family warmly.

Hathor's expression was still serious. When Grannus saw his sister return, not only was there no joy on his face, but he was also very unhappy, as if he did not want to see her.

Only Hestia, who was covered in jewelry and exuded a noble aura, walked forward and embraced Levana. "Levana, my baby, you're finally back. Let me take a good look at you.

“No, this is outrageous. Why are your eyes so dim? Why haven’t you changed back to your original appearance after returning to this planet?”

Hestia reached out her right hand and with a light slap, Levana’s face immediately changed slightly. Her appearance did not change much. She was still the same as before, but the color of her eyes was different.

Originally, Levana’s eyes as Lauren Howard were ordinary like the people in that country. They were slightly black and brown, and the sizes were average. Forget the people from the alternate world, even the blue eyes of Westerners were slightly superior to those eyes.

Now, Levana’s eyes had turned slightly purple. They were sparkling like rubies, and her eyes were bigger than before. Her face was also rounder than before.

Although it was just a small change, Levana’s aura seemed to have improved greatly.

She turned from a Goddess that others could also cosplay as to an existence that no one could imitate!

Even Victoria, who was behind her, could not help but exclaim when she saw this. She thought to herself, “Lauren has become prettier again. If Jordan sees her like this, he’ll definitely be mesmerized.”

Emily could not help but sigh. “Lauren is so beautiful. It’s not a loss to lose to her.”

Levana said awkwardly, “I’ve been on Planet Blue for the past few decades. I’ve gotten used to the color of that eye and forgot to change it.”

Hestia looked at her daughter with admiration.

Then, Hestia looked at the little girl that Levana had been holding onto and asked, “Levana, why did you bring a group of people back? Who are they?”

Levana explained, "Oh, they're the most talented cultivators on Planet Blue. They're considered one in a billion geniuses there. In the past few decades, I've transcended into a mortal on Planet Blue and happened to have some connections with them. They asked me to bring them here to cultivate with me, so I agreed."

Hearing this, Grannus said, "Top-notch talents on a low-level planet? Heh, what a joke. What promising cultivator can there be on Planet Blue 9696? After so many years, that planet only produced Hunter Stone. Not only that, Hunter Stone was also just lucky. Sister, I'm afraid you're dreaming if you want to nurture them into characters like Hunter!"

Moon Maiden and Mike Baylor looked at each other. They weren't curious about how they could understand what these people were saying. After all, Levana had told them before coming here that when they reach the Celestial King Planet, their language would automatically change.

What they were curious about was that Earthlings had already come here before them. Moreover, they seemed to have made a name for themselves by cultivating here!

Thinking of this, they became even more excited.

The Moon Maiden said, "We will definitely do our best to cultivate and not embarrass Master. We will serve the Howard family obtain greater honor and glory!"

Mike Baylor and Victoria also repeated the same thing.

Emily and Rong Bingshao were not qualified to cultivate with Levana, so they did not speak.

Grannus did not even look at them. His eyes were filled with contempt for Earthlings.

Levana explained, "I don't expect them to become the next Hunter Stone. However, I believe that the people I choose won't be bad. Even if

they can't reach Hunter's achievements, it's enough for them to contribute to our family."

At this moment, Levana's father, Hathor, finally said, "Do you still care about our family? Do you still know how to contribute to the family? Explain to me first who the little girl you're holding with your right hand is. Don't tell me that she's also a top talent cultivator on Planet Blue 9696."

Chloe was so scared that she didn't dare to speak. Levana was already prepared and replied, "She's my daughter from Planet Blue. Her name is Chloe."

Hearing this, the members of the Howard family exploded.

Grannus shouted, "Levana, you've really brought shame to our family! You actually had a child with a man from a low-level planet and even dared to bring it back. Do you want to completely embarrass our family?! Don't forget that you have an engagement with Donovan Cross. You agreed to it yourself!"

Hathor's face was also filled with anger. "Such nonsense! For 200 years, you've kept your chastity and focused on cultivation. You actually lost the most precious thing on the training field. Do you know how much a child will affect your cultivation path? Which genius girl didn't fall to ruin quickly after falling in love and having a child? It would be fine if you were looking for a cultivator of the same level, but it's actually just an ordinary low-level planet man. Have you killed this man?"

At this moment, Chloe, who had always been nervous and afraid, suddenly said, "You're not allowed to kill my father! You're all bad people. Why are you talking bad about my father! My father is a hero!"

Grannus didn't even look at the Moon Maiden and the other Earthlings, nor did he care about their words.

However, when he heard Chloe's words, he responded waspishly, "You little brat, who allowed you to speak so rudely? Your father isn't dead yet, right? If he's not dead, you won't be able to see him anymore. You've left that rubbish dump of a Planet Blue forever. From now on,

you're a member of the Howards. I'll teach you again bit by bit, starting from the way you walk and talk!"

Grannus looked gentle, but his eyes were fierce. Chloe couldn't help but be afraid and took a step back. "I don't want you to teach me!"

Levana hugged Chloe and patted her comfortingly. "It's okay. We're family. Chloe, don't be afraid."

Hestia looked at Chloe, this cute little girl. Although she was happy, she was also conflicted. Walking over, she crouched down to touch Chloe's face. Chloe did not resist Hestia.

Then, Hestia stood up and said to Levana, "Did you bring her here to train her into a cultivator?"

Levana nodded. "If the family doesn't give me resources, I can train her myself. Perhaps I won't have much achievements in cultivation, but I will definitely train Chloe well. Her achievements won't lose to mine!"

1379 Grandmaster Family!

Levana's words were filled with love for her daughter, Chloe. She would not treat her lightly just because she came from Earth and would give her the best resources.

However, Grannus laughed out loud. "Levana, what makes you so confident that your daughter will achieve anything? In the path of cultivation, talent is the most important thing. Talent is also the foundation of cultivation. Because our parents are both Grandmaster-level talented cultivators, you could achieve what you did.

"You have to understand that you succeeded because you inherited our parents' talents. However, your daughter who came from Planet Blue doesn't have such conditions. While your talent is not bad, don't forget that her father is merely a low-level Planet Blue fellow. He's too much of a burden. I can tell that she's not suitable for cultivation!"

Grannus had never seen Jordan before, but every word he said insulted Jordan. This made Chloe, Victoria, and even the Moon Maiden and Mike Baylor unable to listen anymore.

Chloe retorted, "My father is the most talented person!"

Mike Baylor could not help but speak up for Jordan, "In your eyes, Earth might just be a low-level planet. In terms of technology and cultivation strength, it's indeed not on the same level as you. But in terms of talent alone, I don't think we should be underestimated. Chloe's father is the most talented opponent I've ever met. If he can also come here to cultivate, I believe he will make many natives gasp in amazement!"

Victoria was stunned for a moment. She did not expect Mike Baylor to be willing to speak up for Jordan. After all, their relationship was not good.

It seemed like Jordan had beaten him into submission.

However, Mike Baylor's words were not convincing at all to Grannus. He thought that this black man was Chloe's father's good friend. If he knew that the two of them were enemies, he might be surprised.

At this moment, Hathor slowly said, "The Howards are also a grandmaster family. We don't lack resources. Moreover, resources can only be used if you have enough talent. I don't think your daughter's talent is high, and she won't be using much resources from our family. If you want her to cultivate, let her cultivate here. Anyway, let's not talk here. Let's return first."

Hathor was the first to turn around and leave. The others also turned around and followed behind.

Levana held Chloe's hand and said, "Chloe, come with me. Mommy will take you to see what your new home looks like. You will definitely like it here."

Levana didn't forget to tell Victoria and the others, "Follow me first. I'll assign you places to stay later."

“Yes!”

Everyone followed behind Levana. They thought that Levana’s house wasn’t far away, but after walking for a long time, they still hadn’t arrived. Along the way, all kinds of strange and magnificent buildings and flowers that they had never seen before attracted them.

Click.

Emily couldn’t help but take out her phone and take a photo of a red heart-shaped flower.

“Hahaha, Emily, you actually brought your phone with you. How interesting. You’re using Earth’s iPhone to take pictures of flowers and plants in another world. Are you going to upload the photos to Weibo or TikTok?”

When Rong Bingshao saw Emily taking pictures, he found it very interesting. However, Emily thought it was normal. Shouldn’t you take photos when you visit different places?

Of course, Emily knew that there was no internet here. Even if there was, it was different from Earth. It was impossible to send it to Earth. However, as a girl, she still liked to record some things on her phone.

Emily asked Rong Bingshao, “Didn’t you bring your phone?”

He said, “Uh, I did.”

Everyone seemed to not have any luggage with them, but in fact, they had several phones and computers in their bags. In the few days before they came, they had racked their brains over the luggage. He was about to go to another world and might not return for the rest of his life. This also meant that he might have to bid farewell to some things on Earth forever.

Therefore, the things they brought were the most precious.

Rong Bingshao was about the same age as Emily, and they were both very young. Furthermore, the two of them could not directly follow Levana to cultivate, so they started chatting.

Chloe also asked Levana, “Mom, why haven’t we reached our new house yet?”

Levana smiled. “Chloe, we are already in our home. Our home is very big, almost the size of a city on Earth.”

Being so young, Chloe did not have much of an idea about what this meant, but Victoria and the others were shocked.

Victoria walked forward and asked. “Master, is your family very powerful? Is that why you own such an expansive space? I can see that there are quite a number of people here, they seem to be subordinates.”

Levana nodded. “The Howards have a very high status in the Federation. Our strength and resources are also very powerful. Just like how we just returned from Earth to the Celestial King Planet, the resources we used are not something ordinary people can earn in their entire lives.”

Victoria also revealed an envious look. She liked rich people and was very happy to be able to follow such a powerful family.

Mike Baylor knew that Levana could fly to her destination with Chloe in her arms. She chose to walk so that Chloe and the others could admire her home.

Walking forward, Mike Baylor asked, “Master, I heard from your brother that your parents are both Grandmaster-level cultivators. I want to ask, are there any levels among the cultivators in this world? Is Grandmaster one of them? Is Grandmaster the highest level?”

Victoria was also very interested in this topic. “Yes, is there something like the Nascent Soul and Golden Core stages? I don’t usually read novels. Before coming here, I read parts of “Mortal’s Journey to

Immortal” and “Renegade Immortal”. The novels are too long so I haven’t finished it yet.”

Levana smiled and said, “I know what you’re talking about. The cultivation of the Celestial King Planet is different from the Xianxia novels you read. We cultivate in science and technology, and there are all kinds of cultivation methods. It’s very chaotic and complicated. We can’t use these to classify it.

“For example, a Nascent Soul cultivator cultivates a primordial spirit and manifests a soul, right? However, some cultivators don’t need such a cultivation method at all. Our family’s cultivation method is also independent and different from others. Therefore, the classification of the levels in Celestial King is based on strength. No matter how you cultivate, you are divided into eight levels according to your strength. These are also the eight realms.

“Grandmaster is one of them.”

1380 Donovan Cross!

Mike Baylor and the others were excited when they heard Levana’s explanation.

As they had just arrived, they all wanted to understand what kind of classification and cultivation model this cultivation world followed.

Mike Baylor continued to ask, “Master, what are the eight realms? Can you tell us in detail?”

Chloe was also very curious. She raised her head and looked at Levana, wanting to know the answer.

Levana paused for a moment and continued, “The eight realms are: Apprentice, Disciple, Scholar, Grandmaster, Unrivaled, Esteemed, Half-Immortal, and Immortal. The last one can be referred to as the Immortal King or a Devil King because many people eventually cultivate into a Devil and become evil.”

When everyone found out about the eight realms, they began to discuss fervently.

Victoria said, “Master is from a grandmaster family and already has such a high status. You have a big family that’s like a city and can travel to different worlds at will. I really don’t dare to imagine how powerful people above this realm are.”

Levana knew that among the eight realms, Grandmasters were only ranked fifth. It didn’t sound impressive, so she immediately explained in greater detail.

“Actually, the classification of levels often changes because there are many things that don’t have exact standards at the beginning of cultivation. In the beginning, there were no Unrivaled and Half Immortal cultivators. Above the Grandmaster Realm, there were only the Esteemed and Immortal King Realm cultivators. Later, there were cultivators who could surpass the Grandmaster Realm but couldn’t reach Esteemed for the time being. There were those who could surpass The Esteemed but were far inferior to the Immortal King Realm cultivators. In the end, the two new realms had to be created.

“Don’t think that the Grandmaster level isn’t high. It’s impossible for ordinary people to even become disciples. Those who can become Scholars are already one in a million experts and can do whatever they want in this world.”

Everyone quickly praised Levana’s family.

At this moment, Chloe asked, “Mommy, what realm are you? Are you also a Grandmaster? Or a Scholar?”

Mike Baylor and the others were very glad that Chloe came along. The questions she asked was one that they also wanted to ask, but did not dare to!

In their opinion, Levana was already an Immortal King Realm cultivator with such powerful abilities. However, on the Celestial King Planet that

everyone cultivated, it might only be a very low level. She might even be a Disciple.

Just like the basketball player Lin Shuhao. He was the absolute main force in the CBA, but in the NBA, he couldn't even make it as a substitute.

However, Levana smiled and replied, "Mom has already surpassed Grandmaster."

Above Grandmaster!

Everyone was shocked. To think that Levana had actually surpassed her parents!

No wonder she could speak so confidently to her parents just now. She did something wrong but did not kneel down to apologize. She even dared to bring her illegitimate daughter from another planet into her family.

Indeed, only with strength would one have the right to speak.

Chloe jumped up happily. "Hahaha, Mommy is so awesome. I don't have to worry about being bullied by my new grandpa and grandma!"

Levana smiled and caressed her head. "Silly girl, Grandpa and Grandma won't bully you. With Mommy around, no one will dare to bully my precious daughter."

At this moment, Mike Baylor, Moon Maiden, and the others also smiled. The few of them became more confident and straightened their backs.

What about Hathor and Grannus? What are you being so arrogant? My master's realm is higher than yours!

The few of them walked for more than an hour in Levana's city-like home before reaching the Howards' "Grandmaster Hall".

At this moment, Levana's parents and brother were already sitting inside drinking tea.

“Oh, is this home, Mommy?. I’m so tired. Mommy, I want to drink yogurt.”

As soon as Chloe entered, she found a seat and sat down.

However, Levana’s expression was solemn because she saw a person who was not from the Howards sitting in the most honorable seat in the hall.

“Donovan Cross!”

Following Levana’s voice, Victoria and the others also turned their heads. They discovered a man in a green robe with a demonic gaze. He was holding a folding fan and sitting in a dignified manner.

When Victoria saw this man, she immediately had a bad feeling. She thought to herself: “Is this man... Lauren’s lover in this world? He looks very imposing and seems to be stronger than Lauren’s grandmaster parents. His realm is very likely above theirs! He’s probably above Lauren too!”

Victoria was the best at reading people’s expressions and a man’s status. She could tell at a glance that this man called Donovan Cross was at least an Unrivaled!

This was because Levana was at least an Unrivaled too. No matter which world it was, men had to be a level higher than women to be qualified to marry her.

Emily also looked at the man called Donovan Cross and thought to herself, “Is this Jordan’s love rival? Fortunately, Jordan didn’t come. That guy looks like a bad person.”

When Levana saw Donovan Cross, she immediately frowned and kicked Grannus.

Grannus explained innocently, “Sister, why are you kicking me? I didn’t tell Donovan that you were back. Isn’t this merely coincidence? Donovan happened to find a rare psychedelic white sand shell in the Twilight Zone. He knew that I needed it, so he came over to give it to me. Who

knew that it would happen on the day you returned home! This also fully proves that the two of you are fated, right?"

Mike Baylor snorted coldly. He had seen many despicable people in his life and could tell at a glance that Grannus was lying.

It was obvious that this Donovan Cross was specially notified by Grannus.

Donovan stood up from his seat and slowly walked towards Levana and the others. The powerful aura from Donovan Cross's body made Mike Baylor and the others retreat uncontrollably. They all knew that the guy in front of them could easily kill them. It would be useless even if Jordan came.

The imposing figure walked up to Levana and carefully examined her face and figure. Then, he gently placed his hand on Levana's shoulder.

"Levana, it's good that you're back. I went to more than a hundred planets to look for you, but you must have hidden your strength. I couldn't find you. Was it fun turning into a mortal?"

Levana remained silent, but she did not push Donovan's hand away from her shoulder.

As a woman, Victoria could tell that Levana didn't like Donovan Cross, but she didn't dare to face him or refute him.

"Which planet are you people from?" Donovan Cross asked Victoria and the others.

Moon Maiden wanted to answer, but Victoria beat her to it. "We're from Earth. I think you call us Planet Blue 9696."

Donovan Cross glanced at her and nodded. "Yes, Planet Blue 9696. I think I've been there before."

After asking, Donovan suddenly turned around and walked towards Chloe, who was already sitting in her seat. He bent down and asked with a smile, "Little kid, who did you call Mommy just now?"

This sentence made everyone's expressions change drastically!
