

Talent 781

Chapter 781: The Misty Region Appears!

In the secret chamber of the Yunmeng Mist Mercenary Group.

The room was shrouded in formations that provided soundproofing. Unless one was of the Supreme tier, it would be difficult to overhear the conversation inside.

At this moment, Dominator Yun Lan was discussing Ye Tian with Dominator Mei Yuan.

“Dominator Mei Yuan, this Dominator Fa Tian is at the pinnacle of the Dominator realm. Why would he join our Yunmeng Mist Mercenary Group? Do you know his background?” Dominator Yun Lan inquired.

“I don’t know why he wanted to join our group, but it’s definitely a good thing! With a pinnacle Dominator expert joining us, our safety in the Misty Region will be greatly increased.

Leader, you have been at the pinnacle of the Dominator realm for many years. However, due to your cultivation talent, you have remained in the Dominator realm. If we obtain treasures in the Misty Region that can enhance your cultivation talent to the Mixed tier, you could advance to the Heavenly Venerable realm. If you become a Heavenly Venerable, our Yunmeng Mist Mercenary Group will thrive in Tianya Ancient City and no longer be suppressed by other mist mercenary groups!” Dominator Mei Yuan explained.

“Hopefully!” Dominator Yun Lan murmured.

Suddenly, she added, “We must strictly vet temporary members. My father, a dignified Heavenly Venerable, recruited a notorious Heavenly Venerable, leading to his downfall in the Misty Region. It almost resulted in the extinction of our Yunmeng Mist Mercenary Group. I don’t want such a thing to happen again!”

“Don’t worry, Leader. I always use the Sin Pearl to test new recruits. The recently joined Dominator Fa Tian has very low sin and karma; he’s definitely not a bad person. You can rest assured! In our

group, we only accept those with low sin and karma; cultivation level comes second. I understand this rule!” Dominator Mei Yuan quickly assured her.

“Alright, since you’re aware, I feel at ease.” Dominator Yun Lan nodded.

Three years passed in a flash.

On this day, Dominator Yun Lan began to gather the members of the Yunmeng Mist Mercenary Group. They were about to set off because the Misty Region had appeared.

In the hall of the Yunmeng Mist Mercenary Group, Ye Tian appeared alongside other members who arrived one by one.

Ye Tian glanced around; there were a total of 21 people, including himself. There were five Dominators, indicating that the group hadn’t recruited any new Dominators recently but had added several Universal Gods. Judging by their aura, these Universal Gods were ordinary and quite aged, likely seeking their fortune in the Misty Region.

If not for Ye Tian’s formidable strength, he wouldn’t have joined such a mercenary group.

“Everyone, the Misty Region has appeared. We are about to enter it. Before we do, I have a few points to emphasize. First, you must follow orders. If anyone causes trouble, don’t blame me for being harsh. Second, each person must take an array disc. Once inside the Misty Region, activate the discs to form a mobile defensive formation. This will greatly enhance our safety. Otherwise, if Mist Beasts appear, their speed is beyond your imagination, and they could kill you before you even react!” Dominator Yun Lan reminded them.

Everyone wore solemn expressions, fully aware of the high mortality rate associated with venturing into the Misty Region. Even with the mercenary group’s experience, death was still a possibility. If luck turned against them, the entire group could be wiped out.

Dominator Yun Lan paid extra attention to Ye Tian, given that he was a pinnacle Dominator and a temporary member. Naturally, she had to keep a close eye on him.

What made her frown was that Ye Tian remained remarkably calm. Even as they were about to enter the Misty Region, he showed no signs of nervousness.

This wasn't a good sign. If he didn't hold enough reverence for the Misty Region and took it lightly, things could go wrong.

"I hope Dominator Fa Tian won't cause trouble once we enter the Misty Region," Dominator Yun Lan thought to herself.

"Let's go!" Dominator Yun Lan led the team, guiding them out of Tianya Ancient City and flying towards the Misty Region.

Along the way, beams of light crisscrossed the sky above the Chaos Sea, each one a powerful figure above the level of a Universal God. Their goal was the same—to enter the Misty Region.

"With so many experts, I wonder how many will make it out alive," Ye Tian mused.

Soon, they arrived near the Misty Region.

"So this is the Misty Region!" Ye Tian was seeing it for the first time. He tried to use his divine sense to probe the area, but a force within the Misty Region blocked his efforts.

He understood this situation. According to the information he had, a natural barrier existed between the Misty Region and the outside world, preventing divine sense from penetrating. Even within the Misty Region, divine sense and soul power were severely suppressed, limiting the scope of exploration.

"Well, isn't this the Yunmeng Mist Mercenary Group? With so few people, aren't you afraid of being wiped out in the Misty Region?" A voice rang out, inciting Dominator Yun Lan's anger.

A group of Universal Gods and Dominators, led by a Heavenly Venerable, appeared in front of Dominator Yun Lan.

"Heavenly Venerable Blood Wolf, it's you!" Dominator Yun Lan was furious. She had a grudge against this Heavenly Venerable Blood Wolf, as he was responsible for her father's death in the Misty Region. She knew this but couldn't avenge him.

If it weren't for her father's Heavenly Venerable friends who warned Heavenly Venerable Blood Wolf and made him wary, she would have already been killed by him.

“Temporary members of the Yunmeng Mist Mercenary Group, I am the leader of the Blood Wolf Mist Mercenary Group. Following Dominator Yun Lan into the Misty Region is almost certain death. Why not join me instead? I’ve entered the Misty Region many times and, being a Heavenly Venerable, if we are careful in the outer areas, there won’t be any problems. Will you follow Dominator Yun Lan or join us?” Heavenly Venerable Blood Wolf shouted.

He didn’t care about the temporary Universal God members. He deliberately poached Dominator Yun Lan’s people, weakening her group and increasing their risk in the Misty Region.

Those Universal Gods had initially joined Yunmeng Mist Mercenary Group because no other mist mercenary groups wanted them. Now, with an invitation from the prominent Blood Wolf Mercenary Group, they naturally chose to switch allegiance.

“Dominator Yun Lan, here’s your array disc!” One by one, the Universal Gods returned their array discs to Dominator Yun Lan, not even waiting for her to speak before running over to the Blood Wolf Mercenary Group.

“Hahaha, Dominator Yun Lan, I hope you survive the Misty Region!” Heavenly Venerable Blood Wolf left these words behind as he led his people into the Misty Region.

“Infuriating! That Heavenly Venerable Blood Wolf is truly excessive!” Dominator Mei Yuan cursed.

Chapter 782: The Traitor

Dominator Yun Lan was also furious, but her strength was inferior, so she didn’t dare provoke Heavenly Venerable Blood Wolf.

Heavenly Venerable Blood Wolf currently only refrained from killing her out of fear of her father’s Heavenly Venerable friends. It didn’t mean he wouldn’t dare kill her. If she provoked him, he might really make a move against her.

Now, with her temporary recruits being poached, she could only endure it.

Suddenly, she noticed that Ye Tian didn’t join the Blood Wolf Mist Mercenary Group and curiously asked, “Dominator Fa Tian, why didn’t you leave the Yunmeng Mist Mercenary Group?”

“If I wanted to join a large mist mercenary group, it would be easy. However, I find the Yunmeng Mist Mercenary Group pleasing, so I joined it. Are you trying to chase me away, Dominator Yun Lan?” Ye Tian replied.

“Of course not! We’re honored to have Dominator Fa Tian stay with us; we would never chase you away!” Dominator Yun Lan quickly explained.

The members of the Yunmeng Mist Mercenary Group didn’t linger and entered the Misty Region. Although a few Universal Gods had left, the group’s overall strength didn’t suffer much because Ye Tian remained. A single pinnacle dominator far surpassed a group of Universal Gods.

As Ye Tian followed Dominator Yun Lan and the others into the Misty Region, he immediately felt the suppression on his divine sense and soul power.

“Truly peculiar. Even with strength comparable to a fourth-tier Supreme, my divine sense and soul are still suppressed in the Misty Region. I wonder what secrets lie within this place,” Ye Tian thought to himself.

“Life Heavenly Eye!” He activated this ability, a special talent possessed by seventh-level life forms. It allowed him to sense the life auras of other beings, far exceeding the range of divine sense. Back in the Origin World, he could detect other origin beasts’ life auras from a great distance.

The Life Heavenly Eye was Ye Tian’s greatest exploration tool.

Buzz! In an instant, countless life auras appeared within a region. A small portion belonged to other cultivators, but the vast majority were Mist Beasts’ life auras.

“Even the Life Heavenly Eye is suppressed here, but the range is still extensive. Based on the divisions within the Misty Region, I’ve not only detected life auras in the outer region but also some in the inner region!” Ye Tian rejoiced internally. This meant he had a significant advantage in safety within the Misty Region.

With the help of the Life Heavenly Eye and his Eternal Light Divine Ability, he could even venture into the core area.

As the Yunmeng Mist Mercenary Group entered the Misty Region, everyone except Ye Tian was on high alert. They activated their formation disks, creating a mobile defensive formation to guard against Mist Beast attacks.

Though the Misty Region was above the Chaos Sea, entering it felt like stepping onto land. This anomaly led many to believe the Misty Region existed in another dimension rather than the main space.

The true nature of the Misty Region remained unknown. Typically, Supremes could break through other dimensions, but this one was unique. Even the First Divine Lord couldn't break its seal and had to fly out honestly.

"A Mist Beast is approaching!" Ye Tian noticed through his Life Heavenly Eye but didn't alert Dominator Yun Lan and the others. If he warned them, he couldn't explain how he detected the distant Mist Beast. Besides, this Mist Beast wasn't strong, only comparable to a weaker dominator.

Boom! The Mist Beast collided with the defensive formation, drawing the attention of the Yunmeng Mist Mercenary Group.

"Everyone, be careful, there's a Mist Beast!" Dominator Yun Lan warned through a voice transmission.

Though she could tell the Mist Beast wasn't strong, she didn't dare be complacent. Who knew if there were other Mist Beasts nearby?

In the Misty Region, arrogance led to death. Therefore, she wouldn't never underestimate any Mist Beast.

"Ice Bird Divine Ability, go!"

With a single gesture from Dominator Yun Lan, a massive ice bird materialized out of thin air and swooped towards the Mist Beast. The Mist Beast was fast, but Dominator Yun Lan, being at the peak of the Dominator stage, could easily track its movements once it was detected. Additionally, the ice bird's ability to unleash a wide-range freezing effect was enough to immobilize the Mist Beast.

Boom! The cold air released by the ice bird permeated the area, instantly freezing the Mist Beast. Dominator Yun Lan then slashed at it with her sword, reducing the Mist Beast to fragments.

After the Mist Beast's death, it left behind a crystal.

“This is a beast crystal from the Mist Beast, which has the effect of enhancing soul strength. It's one of the rare resources in the Chaos Sea!” Yun Lan explained as she collected the crystal. Since she had killed the beast, no one objected to her taking the crystal.

The group continued their journey. Along the way, numerous Mist Beasts attacked. Some were even formidable enough to force Dominator Yun Lan to retreat. Fortunately, they had good luck, discovering some rare herbs and valuable ores.

However, they still hadn't found any treasures capable of elevating a Chaos-level cultivation talent to a Mixed-level cultivation talent.

“There's a peak over there without any Mist Beasts. Everyone's divine force is heavily depleted; let's rest there for a while and restore our strength,” Dominator Yun Lan suggested.

“Agreed!”

The group nodded and ascended the peak to rest. Even during their rest, they kept their defensive formation active and took turns on watch to prevent a surprise attack by Mist Beasts.

Time passed slowly. A few hours later, Ye Tian suddenly frowned.

“Someone is approaching!” he thought.

Using his Life Heavenly Eye and time-space talent, he saw a group of people—members of the Blood Wolf Mist Mercenary Group. Their path was directly towards the Yunmeng Mist Mercenary Group. It was unlikely to be a coincidence, as navigating the Misty Region wasn't easy, and they were heading straight towards them.

“Strange, how did the Blood Wolf Mist Mercenary Group know the Yunmeng Mist Mercenary Group is here? I'm sure Heavenly Venerable Blood Wolf didn't leave a soul mark on Yunmeng Mist Mercenary Group members. There's only one possibility—there's a traitor!” Ye Tian speculated.

If there was a traitor, carrying a special sensing device would allow Heavenly Venerable Blood Wolf to find them using it. Ye Tian scanned the area with his divine sense and noticed a Universal God whose expression seemed off, as if he were anticipating something, yet struggling internally.

“This person must be the traitor!” Ye Tian thought.

Unfortunately, Dominator Yun Lan and the others hadn’t realized it yet.

Ye Tian remained calm. To him, Heavenly Venerable Blood Wolf was nothing more than an ant. If he dared to make a move, Ye Tian wouldn’t hesitate to kill him.

Chapter 783: The Farce Should End

“It’s here!”

Under the probing of Ye Tian’s life-pupil power, Heavenly Venerable Blood Wolf had already approached.

At this moment, Dominator Yun Lan also sensed a looming crisis.

“Everyone, be on guard!” Dominator Yun Lan shouted.

With a rustle, everyone stopped resting and activated the defensive formation disks with all their might. This demonstrated how well-coordinated the Yunmeng Mist Mercenary Group was. If it had been any other group, they would have questioned Dominator Yun Lan first, but they followed her command without a trace of doubt and acted immediately.

It had to be said, Dominator Yun Lan held high prestige within the Yunmeng Mist Mercenary Group.

“Hahaha, Dominator Yun Lan, we meet again!” A wild laugh echoed.

The next moment.

Heavenly Venerable Blood Wolf, leading the members of the Blood Wolf Mist Mercenary Group, appeared in front of Dominator Yun Lan.

“Heavenly Venerable Blood Wolf, how did you find us?” Dominator Yun Lan was shocked.

She had entered the Misty Region from a different location than Heavenly Venerable Blood Wolf and had flown in another direction, changing positions countless times along the way.

The outer region of the Misty Region was vast, even larger than the entire Chaos Sea.

In such a vast area, how had Heavenly Venerable Blood Wolf tracked them? Ye Tian also looked at Heavenly Venerable Blood Wolf, noticing that the few Universe Gods who had joined the Blood Wolf Mist Mercenary Group were missing.

“Most likely, they were killed by Heavenly Venerable Blood Wolf or deliberately sent to their deaths!” Ye Tian speculated.

From Dominator Yun Lan, he had learned that the Blood Wolf Mist Mercenary Group rarely recruited temporary members. The group already had many members, including fifteen Dominators and the Heavenly Venerable himself, making it quite formidable.

Heavenly Venerable Blood Wolf didn't need to enhance his cultivation talent and therefore didn't venture too far, preferring to stay in the outer or slightly inner areas. He was known for his ruthlessness; even if he encountered danger, he would use weaker Universe Gods as cannon fodder, allowing him to survive.

Hence, the Blood Wolf Mist Mercenary Group rarely recruited temporary members, and few dared to join them. If they were short on members, Heavenly Venerable Blood Wolf would forcibly capture some Universe Gods and control them.

The few Universe Gods who had joined the group earlier were unaware of this and ended up in the Blood Wolf Mist Mercenary Group. Naturally, Dominator Yun Lan did not warn the traitors.

Now, it was clear that Heavenly Venerable Blood Wolf didn't trust those Universe Gods. Given that they weren't evil and didn't align with the group's philosophy, it was unlikely Heavenly Venerable Blood Wolf would keep them alive; he would definitely have killed them.

Ye Tian felt no sympathy for those Universe Gods. In the universe, choosing the wrong side often meant misfortune.

“We have a traitor among us, and it must be him!”

One of the Yunmeng Mist Mercenary Group’s Universe Gods pointed at Ye Tian.

This Universe God was the very one Ye Tian had earlier identified as a traitor, now turning the accusation against him.

With swishing sounds, the members of the Yunmeng Mist Mercenary Group glared angrily at Ye Tian. Even Dominator Yun Lan frowned at him. “Lord Fa Tian, is it you?”

Her suspicion was understandable. After all, with Ye Tian’s extreme Dominator-level cultivation, why would he join the Yunmeng Mist Mercenary Group? Although Ye Tian had explained earlier, it still seemed plausible.

If Ye Tian were a member of the Blood Wolf Mist Mercenary Group acting as an undercover agent in the Yunmeng Mist Mercenary Group, it would all make sense.

Outside, Blood Wolf would not dare to kill Dominator Yun Lan easily because it would risk exposure. If discovered, the top Heavenly Venerables familiar with Dominator Yun Lan’s father might hunt Blood Wolf down.

But in the Misty Region, if Blood Wolf killed a Dominator, no one could find out.

The Misty Region was extremely dangerous; even Supremes had perished there. The death of a single Dominator was entirely plausible.

Thus, Blood Wolf had a strong motive to kill Dominator Yun Lan in the Misty Region.

From every perspective, the possibility of Ye Tian being an undercover agent was very high.

“Thinking this way, my chances of being an undercover agent do seem high!” Ye Tian thought.

Facing Dominator Yun Lan's question, Ye Tian replied calmly, "No."

"If you say you're not the traitor, then how did Heavenly Venerable Blood Wolf find us?" That Universe God questioned again.

"It's your choice to believe or not!" Ye Tian responded coldly.

He disdained explaining anything to a group of ants.

Heavenly Venerable Blood Wolf still did not make a move immediately. Instead, he surrounded the Yunmeng Mist Mercenary Group.

He knew very well that Dominator Yun Lan's strength was not weak. She might not be as strong as a Heavenly Venerable, but she probably had some trump cards left by her father. If she had an escape-type treasure, she could easily get away.

To ensure foolproof success, he needed to make sure Dominator Yun Lan could not escape.

Moreover, that undercover agent had deliberately incited conflict between Ye Tian and Dominator Yun Lan, which played right into his hands. If the two of them started fighting, he could even sneak attack and kill Dominator Yun Lan instantly.

"I believe you!" Dominator Yun Lan suddenly said.

Ye Tian was a bit surprised at this. Despite everything pointing to him being an undercover agent, Dominator Yun Lan trusted him.

"Why do you believe I'm not a traitor, not an undercover agent?" Ye Tian asked curiously.

"Instinct!" Dominator Yun Lan replied. "Besides, Heavenly Venerable Blood Wolf is already here. My chances of escaping are very low. You are also at the pinnacle of Dominator level, and although I can't sense your strength, it shouldn't be weaker than mine. If you were a traitor, you could have instantly wounded me severely or even destroyed the entire defense formation, but you didn't."

“Captain, you can’t be deceived by him! He’s definitely the traitor!” that Universe God said again.

“You all go, I’ll open a path for you and try to let you escape!” Dominator Yun Lan said.

“Captain Sister, I won’t leave!” Dominator Mei Yuan cried.

Just then, that Universe God suddenly deactivated the defense formation and turned into a streak of light, rushing towards Heavenly Venerable Blood Wolf.

“Greetings, Heavenly Venerable Blood Wolf!” the Universe God bowed.

“Yinsha, well done. You’ve made a great contribution this time. I’ll make you a squad leader!” Heavenly Venerable Blood Wolf smiled.

“Thank you, Heavenly Venerable Blood Wolf!” Yinsha said excitedly.

“True Lord Yinsha, you...”

Dominator Yun Lan and the other members of the Yunmeng Mist Mercenary Group were stunned.

At this moment, they finally understood! The real traitor was the True Lord Yinsha, who had been accusing Ye Tian all along. He had been with the Yunmeng Mist Mercenary Group for nearly nine thousand years and was considered a life-and-death companion!

“True Lord Yinsha, why?” Dominator Yun Lan asked, her eyes fierce.

“For no particular reason. I was merely a Universe God secretly cultivated by the Blood Wolf Mist Mercenary Group. Because I’m good at hiding my emotions, I was assigned this mission to infiltrate your Yunmeng Mist Mercenary Group,” True Lord Yinsha explained.

“So that’s how it is!” Dominator Yun Lan said with a bitter smile.

She had always thought her screening standards were excellent, believing every member of the Yunmeng Mist Mercenary Group to be family. Now she realized that her so-called standards had huge loopholes.

For example, low evil karma. If a Universe God like True Lord Yinsha was secretly cultivated, they would have hardly killed anyone, thus having low evil karma. But that did not mean they were good people.

“Dominator Yun Lan, I’ve already ordered a forbidden air divine array to be set up around us. Even if you have a special escape treasure, you won’t get away! This time, you’re dead for sure!” Heavenly Venerable Blood Wolf said coldly.

Just when Dominator Yun Lan and the others were in despair, Ye Tian spoke up, “The farce should end! I don’t have time to play with you any longer!”

Chapter 784: Killing Heavenly Venerable Blood Wolf

Everyone’s gaze turned to Ye Tian.

“A mere Dominator, talking so big, anyone who didn’t know better would think it was a Supreme speaking!” Heavenly Venerable Blood Wolf sneered.

“Attack!” Heavenly Venerable Blood Wolf commanded.

He didn’t attack himself because he believed his subordinates were more than enough to annihilate Dominator Yun Lan and her group. If anything unexpected happened, he could always step in.

The fifteen Dominators and numerous Universal Gods under Heavenly Venerable Blood Wolf launched their attack on the Yunmeng Mist Mercenary Group.

Boom! Boom! Boom! Under the barrage of attacks, the defensive formation began to crack.

“Attack again!”

Heavenly Venerable Blood Wolf ordered.

The second wave of attacks shattered the Yunmeng Mercenary Group's defensive formation completely.

"It's over!"

Dominator Yun Lan felt despair. Although she had some trump cards left, they were insufficient to break the deadlock.

"Even if I die, I must kill a few of them!"

Dominator Yun Lan resolved in her heart.

But just as another round of attacks from the Blood Wolf Mist Mercenary Group was about to land, it felt as though the entire world had been frozen.

"I said this farce should end. It seems you all didn't take my words seriously!" Ye Tian's gaze swept across the scene.

Boom! A terrifying soul power transformed into gigantic hands, grabbing the souls of the Dominators and Universal Gods, and then gently squeezing.

Crunch! The souls of the Dominators and Universal Gods were crushed, their bodies falling lifelessly to the ground.

In the blink of an eye, nearly the entire Blood Wolf Mist Mercenary Group was annihilated.

"What!"

Heavenly Venerable Blood Wolf was shocked.

These Dominators and Universal Gods all possessed soul defense treasures, yet their souls were still crushed by Ye Tian. His soul strength was unimaginably powerful.

"How could a mere Dominator possess such terrifying soul power?"

Heavenly Venerable Blood Wolf couldn't believe it.

The only thing that reassured him was that he was a Heavenly Venerable. His soul strength was much greater than a Dominator's, and he possessed top-tier soul defense treasures. Moreover, he had entered the Misty Regions multiple times and obtained treasures that tempered his soul, making his soul strength exceptionally high. He had confidence in withstanding Ye Tian's soul techniques.

However, he still didn't dare underestimate Ye Tian, as Ye Tian was too confident.

He had always been extremely cautious, never underestimating any opponent, which was why he had survived so well in the Chaos Sea.

Underestimating an opponent meant death.

“Die!”

Heavenly Venerable Blood Wolf unleashed one of his trump cards.

It was a secret treasure—the Slaughter Sovereign Spear! This was a special weapon forged by a top-tier Divine Artificer.

The spear contained the sealed strike of a peak Supreme. Once activated, the Slaughter Sovereign Spear could unleash a terrifying attack.

Although he was only a fourth-tier Heavenly Venerable, using the Slaughter Sovereign Spear could even heavily injure a third-tier Heavenly Venerable.

“A mere Dominator, I don't believe he has the power of a third-tier Heavenly Venerable. Even if he does, under the attack of the Slaughter Sovereign Spear, he will be severely injured and remain my opponent!”

Heavenly Venerable Blood Wolf declared.

Boom! The Slaughter Sovereign Spear transformed into a blood-red spear, piercing through the void, aiming at Ye Tian.

“Dominator Fa Tian, that’s the Slaughter Sovereign Spear! Dodge quickly!” Dominator Yun Lan shouted in despair.

However, for an ordinary Dominator, dodging was impossible. The Slaughter Sovereign Spear was too fast and had a space-sealing effect, making it almost unavoidable.

Ye Tian could have easily dodged, but he didn’t. If he dodged, the members of the Yunmeng Mist Mercenary Group would likely all die.

Moreover, a mere attack capable of heavily injuring a third-tier Heavenly Venerable didn’t warrant his avoidance.

Ye Tian replaced his saber with his finger, executing the first style of the Heavenly Saber system—the Heavenly Moon Saber. His finger drew a crescent moon, colliding with the Slaughter Sovereign Spear.

Crack! The sound of breaking rang out, but it wasn’t Ye Tian’s finger that broke; it was the Slaughter Sovereign Spear!

“Impossible!”

Heavenly Venerable Blood Wolf’s pupils contracted, revealing an expression of disbelief.

That was the Slaughter Sovereign Spear, its hardness comparable to a top-tier Supreme Treasure. Destroying it was immensely difficult, and it contained an attack capable of heavily injuring a third-tier Heavenly Venerable. Even a second-tier Supreme couldn’t shatter it with a single finger!

“Could he be a hidden Supreme?”

Heavenly Venerable Blood Wolf wondered, “No, his cultivation is at the peak of the Dominator level. Even after he attacked, his aura remained that of a Dominator!”

Heavenly Venerable Blood Wolf didn't think any further. He knew he had to escape, or he would surely die! With a swish, a pair of wings emerged from his back—top-tier Supreme Treasure Floating Wings. Once he burned the essence of this treasure, his speed would soar tenfold.

Already a Heavenly Venerable, his speed increased tenfold would rival that of a weaker Supreme.

He was confident he could escape! In a flash, Heavenly Venerable Blood Wolf turned into a beam of light and fled.

“Trying to escape in front of me?” Ye Tian sneered.

He transformed into a streak of eternal light and chased after him.

In an instant, he caught up with Heavenly Venerable Blood Wolf and reached out with one hand.

Boom! Ye Tian slapped Heavenly Venerable Blood Wolf down from the void, heavily injuring him and causing the Floating Wings to shatter.

Ye Tian stopped flying and landed in front of Heavenly Venerable Blood Wolf.

“Lord Supreme, please spare my life!”

Heavenly Venerable Blood Wolf begged for mercy.

In his heart, he believed Ye Tian was a Supreme. As for his cultivation, it was likely fake, masked by a secret technique that couldn't be detected.

“I'm not a Supreme... I'm merely a Dominator.” Ye Tian stated.

Heavenly Venerable Blood Wolf didn't argue but continued begging desperately.

Regardless of Ye Tian's cultivation, he knew he couldn't resist him. Only by begging could he hope to survive.

“I said I didn’t want to waste time, so you must die.”

Ye Tian slapped Heavenly Venerable Blood Wolf to death and then used his eternal light technique to return to the Yunmeng Mist Mercenary Group.

“Are you alright, Dominator Fa Tian?” Dominator Yun Lan asked.

“I’m fine.” Ye Tian said lightly, “This is Heavenly Venerable Blood Wolf’s belongings. Take them.”

Ye Tian threw the shattered Floating Wings and Heavenly Venerable Blood Wolf’s Xumi Storage Ring to Dominator Yun Lan.

“Dominator Fa Tian, these items are too precious. I can’t accept them!” Dominator Yun Lan hurriedly declined.

“These things are useless to me. If you don’t want them, throw them away.” Ye Tian replied.

“Then I’ll keep them.” Dominator Yun Lan couldn’t bear to throw away such valuable items and quickly said, “Thank you for saving my life, Dominator Fa Tian!”

“You’re welcome.” Ye Tian waved his hand, “I want to learn more about the Misty Regions. Dominator Yun Lan, could you tell me some secrets, such as the conditions of the inner and core areas?”

“Of course!” Dominator Yun Lan responded.

Chapter 785: Crossing the Misty River

The Misty Region was divided into outer, inner, and core regions. They were currently in the outer region. Under normal circumstances, it was difficult even to determine their bearings in the outer region, let alone understand the true expanse of the Misty Region. However, the distinction between the outer and inner regions was marked by a very clear boundary.

“That’s right,” Dominator Yun Lan explained. “To enter the inner region from the outer region, one must cross a misty river. This river is filled with numerous Mist Beasts. If one’s strength does not

reach the level of a Heavenly Venerable, it is very easy to fall in the misty river. As for the inner region, I am unsure how to enter the core area. It is said that even in the Chaos Sea, very few know this secret. Even Supremes dare not venture into the core region rashly.”

He continued, “I heard a secret that the core region is home to terrifying Mist Beasts. The weakest among them are comparable to Supremes, and the most powerful Mist Beast lords are beyond even the First Divine Lord of the Immortal Race.”

Listening to Dominator Yun Lan’s explanation, Ye Tian gained a deeper understanding of the Misty Region. Although the Human Race’s Kunwu Supreme had also entered the Misty Region, it had been a very long time ago, and he had only ventured in once before leaving. At that time, Kunwu Supreme had only stayed in the outer region for a while, so his knowledge of the Misty Region was not extensive.

“Dominator Fa Tian, are you planning to enter the inner region?” Dominator Yun Lan asked.

“Yes!” Ye Tian nodded. The outer region, although containing many treasures, did not hold much value for him. He sought treasures that could greatly benefit him and even considered exploring the core region if possible.

Suddenly, Dominator Yun Lan bent over and said, “Dominator Fa Tian, I wish to enter the inner region, but I am aware of my limited strength. Even in the outer region, the likelihood of falling is high. I know it is an excessive request to ask you to lead us into the inner region, but I have no one else to turn to. I know of a place with many top-tier spiritual herbs. My father and I once entered there. It’s a valley filled with Mist Beasts, and even my father, with his fourth-tier Heavenly Venerable strength, was injured there.”

He continued, “The location is remote, and since most of the old team that accompanied my father perished, it should be relatively unknown. If Dominator Fa Tian could take us there, I only ask for a few spiritual herbs.”

“Oh? Is there something in that place worth risking your life for?” Ye Tian asked.

“There are Nine-Colored Heavenly Crystal Grasses there, which can elevate a Chaos-level cultivation talent to a Mixed-level cultivation talent!” Dominator Yun Lan revealed.

“Really?” Ye Tian was moved. Although he did not need treasures to enhance his cultivation talent, the Human Race did! He could not reveal his ability to copy and bestow talents, but if he had Nine-

Colored Heavenly Crystal Grasses, it could help the Human Race produce more Supremes. Besides, the value of these grasses was high, and they could be traded for immense wealth.

“Yes, but I cannot be certain of the exact number of Nine-Colored Heavenly Crystal Grasses. Additionally, we did not delve deep into the valley, so I cannot confirm if there are grasses comparable to Supremes,” Dominator Yun Lan admitted.

“Alright, I’ll take you there! If we succeed, I will claim eighty percent of the spiritual herbs and treasures!” Ye Tian promised.

“Thank you, Dominator Fa Tian!” Dominator Yun Lan said excitedly. The other members of the Yun Meng Mist Mercenary Group were also visibly thrilled. They ventured into the Misty Region for resources and treasures. A single significant haul could set them up for the next hundred thousand years or even longer, eliminating the need for further perilous expeditions.

With a powerful figure like Ye Tian leading them, the group still faced dangers, but they had sufficient protection. Though they might not obtain top-tier spiritual treasures like the Nine-Colored Heavenly Crystal Grass, there was hope to acquire other valuable herbs and treasures. This was a rare opportunity.

“Let’s go!” Ye Tian commanded.

With a rush, the group headed toward the inner region of the Misty Region. Along the way, whenever Mist Beasts charged at them, Ye Tian swiftly dealt with them. As a result, the Yunmeng Mist Mercenary Group faced no real danger, making it feel like a leisurely stroll through a garden.

Everyone knew this was all thanks to Ye Tian. Without him, attempting to fly quickly to the inner region would be suicidal. A few days later, they reached the misty river that separated the outer region from the inner region. The river teemed with countless Mist Beasts, their roars shaking the entire area.

“There’s a peculiar rule over the misty river: high-altitude flight is impossible, only low-altitude flight is permitted. Moreover, spatial rules are prohibited, so we can’t just teleport across,” Dominator Yun Lan explained.

“Let’s fly straight across!” Ye Tian instructed.

The Yunmeng Mist Mercenary Group flew over, activating their defensive formations but still feeling very anxious. A massive number of Mist Beasts, around a thousand, appeared, moving at incredible speeds—some even faster than a Dominator, matching the speed of a Heavenly Venerable. Among them were several Heavenly Venerable-level beasts, making it nearly impossible for even a fifth-tier Heavenly Venerable to pass without exhausting their treasures.

“This is bad! Why are there Heavenly Venerable-level Mist Beasts this time?” Dominator Yun Lan was alarmed. On her previous visit with her father, they had not encountered such powerful beasts; the strongest had only been at the peak Dominator level, and her father had managed to cross with some effort. This time, they seemed particularly unlucky.

“Don’t worry,” Ye Tian said calmly. Dominator Yun Lan glanced at Ye Tian and finally breathed a sigh of relief.

“Suppress!” Ye Tian pointed, and the void solidified. Under the pressure, numerous Mist Beasts were crushed into blood mist, and the Heavenly Venerable-level beasts were easily dispatched by Ye Tian, their bodies falling into the misty river.

Thanks to Ye Tian’s intervention, the group crossed the misty river without incident.

“So powerful!” Dominator Yun Lan secretly admired. Previously, Ye Tian had effortlessly defeated Heavenly Venerable Blood Wolf, but it had happened so fast that they hadn’t fully grasped his strength. Now, witnessing him easily annihilate a large number of Mist Beasts showcased his true power.

“Could Dominator Fa Tian, with such strength as a Dominator, be a top-tier Supreme Prince cultivated in secret by a great cosmic race?” Dominator Yun Lan speculated. Even then, it was rare for a top-tier Supreme Prince to possess such power.

“Or perhaps, Dominator Fa Tian is one of the Children of the Era from the Twelve Cosmic Eras,” she pondered further.

“Dominator Yun Lan, lead the way,” Ye Tian ordered.

“Alright!” Dominator Yun Lan nodded. Using various methods to determine their position, she finally identified the location of the valley.

“That way!” Dominator Yun Lan pointed in a direction.

Chapter 786: Instantly Killing the Supreme-Level Mist Beast

A group of people flew towards the mysterious valley. Along the way, they encountered formidable Mist Beasts, including one as powerful as a Heavenly Venerable, but all were slain by Ye Tian.

The group safely arrived outside the valley.

“Dominator Fa Tian, this is the place!” Dominator Yun Lan pointed to the valley ahead. Unfortunately, the mist here was incredibly dense. Even a Dominator’s divine sense couldn’t penetrate the valley’s depths. From within the valley, faint but terrifying auras emanated, causing the rest of the Yunmeng Mist Mercenary Group to tremble, as if something dreadful lurked inside.

“Life Heavenly Eye!” Ye Tian activated this ability, and instantly, he saw all the life auras within the valley. Although it only allowed him to see a creature’s life level, it provided a rough estimate of their strength.

“Thirteen Heavenly Venerable-level Mist Beasts and one Supreme-level Mist Beast. This place is essentially a small territory for a Supreme-level Mist Beast!” Ye Tian thought to himself. He now believed Dominator Yun Lan’s father was lucky not to have provoked the Supreme-level Mist Beast back then. Otherwise, as a mere Heavenly Venerable, he would have had no chance of escape.

“You all stay outside! As for Dominator Yun Lan, you can choose to come with me or stay outside,” Ye Tian said.

“I’ll go with you!” Dominator Yun Lan was very curious about the valley’s situation, so she chose to follow him.

“Fine, but you must not intervene. Stay by my side and observe. The Mist Beasts inside are very powerful!” Ye Tian instructed.

“Understood!” Dominator Yun Lan nodded. She knew the valley’s danger. Her Heavenly Venerable father had only just entered the valley before being driven out. If he hadn’t escaped quickly, he would have perished inside. Thus, she was very aware of her limits and wouldn’t act recklessly.

As for the rest of the Yunmeng Mist Mercenary Group, they stayed outside and activated a defensive formation. Unless extremely unlucky, they wouldn't face danger for a while. If something did happen, Ye Tian could rescue them in time.

Inside the valley, Ye Tian and Dominator Yun Lan quickly encountered an attack by a group of Mist Beasts. These were all Dominator-level Mist Beasts, each extremely powerful. Dominator Yun Lan could handle one or two such beasts alone, but now there were hundreds of them. In the outside world, that would be hundreds of Dominators! Many major cosmic clans didn't have this many Dominators, yet this Misty Region had so many Dominator-level Mist Beasts, and this was just one valley!

"There are great secrets in the Misty Region!" Ye Tian marveled. Everyone knew there were secrets here, but no one had fully uncovered them. It's like how everyone knew there were secrets in the depths of the Abyss of Destruction, but even the Master of the Primordial Era wouldn't dare venture there. If surrounded by multiple Kings of Destruction, combined with the lack of laws in that place, even the Master of the Primordial Era would fall.

Boom!!!! A massive shadow attacked, its terrifying aura chilling Dominator Yun Lan to the bone, as if witnessing death itself.

"Heavenly Venerable-level Mist Beast!" Dominator Yun Lan gulped, her body trembling with fear. In the Misty Region, even the weakest Heavenly Venerable-level Mist Beasts were terrifying, more so than Blood Wolves. Now, facing one up close, how could she not be afraid?

"Die!" Ye Tian struck, using his hand as a saber, and instantly killed the Heavenly Venerable-level Mist Beast. The beast's corpse fell to the ground, its aura still lingering.

Before, the Heavenly Venerable-level Mist Beast that died on the Misty River had not been collected by Dominator Yun Lan. But now, this Heavenly Venerable-level Mist Beast corpse lay right in front of them. "Dominator Fa Tian, do you still want this Mist Beast corpse?" Dominator Yun Lan asked.

"No," Ye Tian shook his head. Although the Heavenly Venerable-level Mist Beast corpse might be worth a lot of Divine Crystals, he didn't lack such resources and didn't care about it at all.

"Then I'll take it!" Dominator Yun Lan quickly collected the Heavenly Venerable-level Mist Beast corpse. The beast crystal alone was very valuable and could be used as currency in the Chaos Sea, enough to exchange for many cultivation resources.

“A little trouble is coming!” Ye Tian’s gaze suddenly turned towards the depths of the valley.

“What little trouble?” Dominator Yun Lan asked.

“Twelve Heavenly Venerable-level Mist Beasts, plus one Supreme-level Mist Beast!” Ye Tian said calmly.

“What! Dominator Fa Tian, we should flee quickly!” Dominator Yun Lan was shocked. Even though they were close to the Nine-Colored Heavenly Crystal Grass, she had lost all interest in it. A Supreme-level Mist Beast was incredibly powerful in her eyes. No matter how strong Ye Tian was, at most he could only possess Heavenly Venerable-level combat power, not Supreme-level.

“Don’t worry, it’s just a relatively weak Supreme-level Mist Beast, about equivalent to a fifth-tier Supreme,” Ye Tian reassured.

“Even a fifth-tier Supreme isn’t something we can contend with!” Dominator Yun Lan was extremely anxious, repeatedly urging Ye Tian.

Boom, boom, boom! The auras of twelve Heavenly Venerable-level Mist Beasts and the Supreme-level Mist Beast bore down on them, suppressing the entire space as if freezing time itself. At this moment, Dominator Yun Lan found herself unable to move.

Terrifying! Truly terrifying! She regretted it deeply. Had she known there was a Supreme-level Mist Beast in this valley, she would never have come. Suddenly, Ye Tian’s aura burst forth, releasing Dominator Yun Lan from the oppressive auras.

“Just twelve Heavenly Venerable-level Mist Beasts and a fifth-tier Supreme-level Mist Beast, and they think they can kill me? Ridiculous!” Ye Tian took out his Strongest Supreme Treasure long saber and performed the third move of the Three Heavenly Sabers series—the Heavenly Kill Saber!

“Heavenly Kill Saber, slash!” The world was filled with countless saber lights, each one imbued with the strongest saber dao aura, seemingly capable of slashing through all enemies. The Heavenly Venerable-level Mist Beasts were torn apart by the saber aura, and even the fifth-tier Supreme-level Mist Beast couldn’t escape, being sliced into countless pieces and falling on the spot.

“Too weak! They had no survival abilities at all, still far from a true Supreme,” Ye Tian murmured.

Beside him, Dominator Yun Lan was stunned. Twelve Heavenly Venerable-level Mist Beasts and a Supreme-level Mist Beast, just like that, were dead. “It really was just a small trouble. No, not even a trouble. Dominator Fa Tian is truly strong!” Dominator Yun Lan was shocked. She even doubted if Ye Tian was really a Dominator. Could a Dominator kill a Supreme? It sounded like a joke!

“Let’s go. There are no more powerful Mist Beasts in this valley. Let’s pick the spiritual herbs,” Ye Tian smiled.

Chapter 787: Distributing the Harvest

In the valley.

Ye Tian and Dominator Yun Lan picked one spiritual herb after another. These herbs were all top-tier within the universe, some capable of enhancing cultivation talents.

“Nine-Colored Heavenly Crystal Grass!”

Dominator Yun Lan spotted this herb and hurriedly picked it with great care, fearing any damage to it.

“There are three Nine-Colored Heavenly Crystal Grasses in total!”

Ye Tian scanned the area and murmured.

Besides the Nine-Colored Heavenly Crystal Grass, there were many other herbs of comparable value, although they didn’t enhance cultivation talent but had other uses.

Some could temper the physical body, refine the soul, or enhance comprehension.

“Many of these herbs would be valuable to Kunwu Supreme. Although he isn’t a transcendent being, he can still slowly temper his body and soul at the Supreme level. These herbs would be beneficial in trading with him!” Ye Tian thought.

In a short time, Ye Tian and Dominator Yun Lan had collected over ten thousand spiritual herbs, and this was just from one area. The deeper parts of the valley contained even more herbs.

“Let’s continue; there are many more herbs deeper in the valley!”

Ye Tian said.

Dominator Yun Lan nodded in agreement and followed Ye Tian deeper into the valley.

There were still some Mist Beasts, but they were just weak minions and couldn’t hinder Ye Tian. Any Mist Beast that dared to attack met its end at Ye Tian’s hands.

In the depths of the valley.

Here was the lair of the Supreme-level Mist Beast, with over a hundred thousand spiritual herbs growing.

“Many of these herbs can help me cultivate the Chaos Golden Desolation Technique!” Ye Tian calculated.

However, his Chaos Golden Desolation Technique had already reached the major realm of the eighth level. Advancing to the perfected realm of the eighth level would be very difficult. Only a small portion of these herbs would be effective, so they might not break through his bottleneck and promote him to the perfected realm of the eighth level.

This time, Ye Tian and Dominator Yun Lan spent a long time collecting all these herbs.

Then, Ye Tian searched the entire valley again and found several thousand more herbs.

“It’s time to go!” Ye Tian said.

“Yes!”

Dominator Yun Lan nodded but felt reluctant to leave. There were too many herbs here, and although they had collected almost all of them, there might still be many undiscovered.

However, since Ye Tian said to leave, she naturally followed.

“We can’t be too greedy!” Dominator Yun Lan thought to herself.

Soon, they emerged from the valley.

“Sister Leader, Dominator Fa Tian, you’re back!” Dominator Mei Yuan breathed a sigh of relief.

Earlier, she had sensed a terrifying aura from the depths of the valley, one that made her feel despair. It far surpassed the typical Heavenly Venerable-level Mist Beasts and might have even reached the Supreme level! Despite knowing the danger inside, she could only wait for the outcome.

Now that Ye Tian and Dominator Yun Lan had returned, she felt completely relieved.

“We’re back, and we’ve had a great harvest!” Dominator Yun Lan said.

Then, Dominator Yun Lan and Ye Tian took out all the spiritual herbs they had collected.

Ye Tian took eighty percent of the herbs, including two of the Nine-Colored Heavenly Crystal Grasses.

He didn’t need the Nine-Colored Heavenly Crystal Grass himself, but humanity did. There were many ancient beings at the peak of the Dominator realm among the human race.

Although these ancient beings weren’t Supreme-level princes back then, their immense willpower and great opportunities had made their combat power comparable to Heavenly Venerables. Unfortunately, their luck had been poor, and they had never obtained herbs like the Nine-Colored Heavenly Crystal Grass.

Bringing these two herbs back would be enough to produce two Supreme-level beings.

Dominator Mei Yuan and the others also desired the Nine-Colored Heavenly Crystal Grass, but since nearly all the credit for obtaining these herbs belonged to Ye Tian, they didn't dare to ask for it.

The herbs were quickly distributed.

Ye Tian took eighty percent, Dominator Yun Lan took ten percent, and the remaining ten percent was divided among the members of the Yunmeng Mist Mercenary Group.

Everyone gained significantly.

"From now on, our Yunmeng Mist Mercenary Group won't need to go on adventures for the next million years!" Dominator Yun Lan exclaimed excitedly.

"Are you leaving? If so, let me escort you out of the inner region and back to the outer area." Ye Tian offered.

"That would be very kind of you, Dominator Fa Tian!" Dominator Yun Lan responded.

"It's nothing! Besides, if you hadn't brought me to this valley, I wouldn't have gained so much. Such treasure troves are extremely rare in the inner regions of the Misty Region!" Ye Tian said.

The group returned and soon reached the Mist River.

This time, they seemed lucky as they didn't encounter any Heavenly Venerable-level Mist Beasts and easily made it back to the outer area.

Then, Ye Tian escorted them a bit further and stopped when they neared the outside world.

"I'll stop here. If you're careful for the rest of the way, there shouldn't be any danger." Ye Tian said.

"Thank you, Dominator Fa Tian!"

The members of the Yunmeng Mist Mercenary Group replied in unison. They knew this parting meant they might never meet again.

Suddenly, Dominator Yun Lan asked curiously, “Dominator Fa Tian, forgive my boldness, but I really want to know, what is your true identity? Fatian should be an alias, right?”

Ye Tian remained silent for a moment, then suddenly smiled and said, “My name is Ye Tian.”

With that, Ye Tian departed.

“Ye Tian!” Dominator Yun Lan muttered a few times before suddenly exclaiming in shock, “I know who he is!”

“Who is he?” Dominator Mei Yuan and the others asked curiously.

“He is the first genius of the human race, also the number one genius in the universe, known as the strongest Child of the Era in history—Dominator of Ten Thousand Laws!” Dominator Yun Lan replied.

“What? The Dominator of Ten Thousand Laws, that legendary genius? It’s said he has been cultivating for a very short time and is very young, but his progress is so rapid that even the Children of the Era from the Twelve Cosmic Eras can’t match him.” Dominator Mei Yuan said in admiration.

“Yes, I should have guessed earlier. In the universe, someone with such terrifying power at the Dominator level can’t be an unknown. Only the Dominator of Ten Thousand Laws could possess such strength! But it seems we still underestimated him. A Dominator defeating a Supreme is simply too terrifying!” Dominator Yun Lan sighed.

She even had a feeling that it wouldn’t be long before the Dominator of Ten Thousand Laws became a Supreme himself, possibly gaining fame throughout the entire universe and surpassing the First Divine Lord of the Immortal Race.

Ye Tian returned to the inner region.

To him, revealing his identity to Dominator Yun Lan wasn't a big deal. Even if she and her group exposed him, there weren't many Supremes who could capture him now.

Moreover, anyone who dared to make a move against him would be offending a defiant Child of the Era. Who would dare to do that? Therefore, he had no fear!

Chapter 788: The Core Area Filled with Great Terror

In the Misty Region, within its internal regions, Ye Tian didn't act arrogantly. He always kept his Life Heavenly Eye active, making sure to avoid those terrifying presences.

Under the Life Heavenly Eye's detection, the internal region did contain some entities he couldn't yet contend with, equivalent to second-tier Supremes.

Of course, such Mist Beasts were very rare. Unless one was unlucky, encountering them was unlikely.

Ye Tian knew their locations, so he avoided courting death. After all, Mist Beasts at the second-tier Supreme level had incredibly fast speeds, surpassing even first-tier Supremes in the universe and even exceeding Ye Tian's Eternal Light Divine Ability speed.

Ye Tian continued searching for spiritual herbs in the internal region, not immediately venturing into the core area. If he could find enough suitable spiritual herbs in the internal region, he wouldn't need to risk entering the core area.

After all, even the First Divine Lord of the Immortal Race almost perished in the core area, which undoubtedly indicated immense danger there.

Time passed, and nine years went by in the blink of an eye. During these nine years, he explored many places in the internal region but still hadn't covered the entire area.

With the Life Heavenly Eye, he encountered little danger and found several treasure troves similar to the valley he had previously discovered. He killed over a hundred Heavenly Venerable Mist Beasts and more than ten Supreme-level Mist Beasts.

Ten Supremes and hundreds of Heavenly Venerables — such a force would match the Human Race. However, due to a lack of Supremes, they couldn't form a civilization and were merely scattered forces. Ye Tian alone had exterminated them.

It had to be said that Mist Beasts without the foundation of civilization were just a scattered mess, no matter how strong they were.

After nine years of searching, Ye Tian had gathered enough spiritual herbs. He had also found more than a dozen types of herbs similar to the Nine-Colored Heavenly Crystal Grass that could enhance cultivation talents, enough to allow the Human Race to produce a dozen new Supremes.

“The Misty Region holds countless treasures. It's a pity other Supremes don't dare venture into the internal region. If they searched as recklessly as I did, they wouldn't know how many times they would have died!” Ye Tian murmured.

With less than a year left before the Misty Region vanished, he dared not gamble on surviving there. More likely, he would disappear like those before him.

“Time is short. I must return in at most six months!” Ye Tian decided.

He planned to stop searching the internal region and instead approach the core area. With his Life Heavenly Eye, he could detect the presence of life forms and immediately retreat if he sensed any terrifying Mist Beasts.

“I'll just take a look!” Ye Tian said.

Swish! He flew towards the core area of the Misty Region.

Before long, he saw a celestial curtain, a barrier that hindered the Life Heavenly Eye's probing. Otherwise, he would have already detected the core area's situation.

“I'll first send in a consciousness avatar to test it out!” Ye Tian thought.

Swoosh! A consciousness avatar appeared, passing through the celestial curtain into the area.

No danger! Ye Tian immediately entered the core area with his true body. As soon as he entered, he activated his Life Heavenly Eye ability.

Boom!!!! Terrifying life auras pierced the heavens, startling Ye Tian.

“They’re all sixth-tier life forms, and the weakest are Supremes!” Ye Tian’s pupils shrank.

These were true sixth-tier life forms, not pseudo-sixth-tier. Judging by their life auras, the Mist Beasts at the core area’s edge were likely second-tier Supremes, while those at the center were probably first-tier Supremes.

Most terrifying of all were the Mist Beasts at the extreme limit of the Life Heavenly Eye’s detection. Their life auras had reached the seventh-tier, with life strengths surpassing even first-tier Supremes. Even the Master of the Primordial Era might not be able to contend with them.

“I never expected the core area to be this terrifying!” Ye Tian was shocked.

Suddenly, several auras crossed the space, seemingly discovering Ye Tian.

“Go!”

Ye Tian instantly crossed the celestial curtain, returning to the internal region. Then, he used his Eternal Light Divine Ability, flying at extreme speed towards the outside.

It seemed those terrifying Mist Beasts couldn’t come out, so they didn’t pursue him. But Ye Tian had already decided not to explore the core area’s secrets any further. That was beyond his current capability.

At this moment, Ye Tian truly realized the vast number of secrets in the universe.

“The Misty Region, the Abyss of Destruction, the Origin Realm — these are just three of them. Any one of these places is beyond the myriad races of the main universe space to contend with!” Ye Tian thought.

Soon, Ye Tian emerged from the Misty Region. Looking back, he felt the Misty Region resembled a giant glutton, devouring countless lives.

“I’ll come back to explore later!”

Ye Tian murmured.

In the Human Race’s Holy City, Ye Tian had returned. Upon his return, he immediately convened a Supreme Meeting. Although he was currently only at the Dominator level, he was already regarded by the Human Race’s Supremes as a new Supreme, thus he had the authority to call for a Supreme Meeting.

Primordial Supreme, Kunwu Supreme, Divine Blade Supreme, Infinite Supreme... Thirteen Supremes attended this time. Some were in seclusion or delayed by other matters, so not all were present.

“Dominator of Ten Thousand Laws, what is the purpose of this meeting?” Divine Blade Supreme asked.

“Everyone, I recently went to the Misty Region!” Ye Tian said.

“The Misty Region!”

Hearing this name, many Supremes’ expressions changed. It was an extremely dangerous place, where even some Supremes had nearly perished. Nowadays, few Supremes dared to venture into the Misty Region.

Ye Tian continued, “In the Misty Region, I found fifteen spiritual herbs that can transform a Chaos-level cultivation talent into a Mixed-level cultivation talent, as well as many that can elevate a Universal-level cultivation talent to a Chaos-level cultivation talent.”

“Moreover, there are also numerous spiritual herbs that can refine the bodies and souls of Supremes. Are any of you interested?”

“What? Is this true?”

Even Primordial Supreme's expression changed, looking very excited.

"Of course it's true!"

Ye Tian casually grabbed a batch of spiritual herbs from his internal microcosm, placing them one by one in front of the Supremes.

He wasn't afraid of the Supremes trying to seize them. They were all from the Human Race, and with so many Supremes present, anyone who tried to steal would lose face and offend everyone.

"Ahem, my Infinite Saber Sect has three ancient Dominators who have accumulated to the limit. Once they break through to the Heavenly Venerable realm, they will be able to reach Supreme-level combat power in a short time, adding three new Supremes to our Human Race. So, I would like three herbs that can elevate to Mixed-level cultivation talent!" Infinite Supreme spoke.

"Our Primordial Divine Mountain also needs a few herbs to elevate to Mixed-level cultivation talent!" Primordial Supreme also spoke.

One by one, the Supremes voiced their desires, all eager to obtain such spiritual herbs.

Chapter 789: Trading with the Supremes of the Human Race

The human race had nine Supreme-level forces, plus the Supreme Hall of Humanity, and fifteen spirit herbs were far from enough to distribute among them all.

Ye Tian pondered for a moment before saying, "Everyone, I have only obtained fifteen spirit herbs that can cultivate Mixed-level talents. My Tian Pavilion also needs these herbs, so I can only spare thirteen of them.

"Here's the plan: I'll sell two herbs to the Supreme Hall of Humanity, two to the Primordial Divine Mountain, two to the Divine Blade Alliance, and the remaining forces will get one herb each."

Those forces that could only purchase one herb were naturally somewhat displeased, but these herbs belonged to Ye Tian. He could sell them to whomever he wished.

The various forces only needed to use ordinary resources and some secret techniques to purchase these herbs, making it a very worthwhile transaction for them. If outsiders had obtained these herbs, the human race would need to pay a hundred times more to acquire them, if they could even buy them at all.

Only because Ye Tian was human did these forces get such a deal.

Half a day later, Ye Tian completed the transactions with the various forces. The value gained from just these thirteen herbs was enough to support Tian Pavilion for countless ages.

“Ladies and gentlemen, here are some other herbs that are highly beneficial for tempering your bodies and souls. If you want to buy these, you’ll need to offer something valuable in return, like some Supreme Treasures or rare items obtained from the universe.”

Many of the Supremes present had reached their cultivation limits. Advancing further was extremely difficult, so they naturally desired any herbs that could enhance their strength. They were willing to pay the price, as long as they could buy them.

The herbs Ye Tian traded were those that weren’t very useful to him. He wouldn’t trade away the ones that were truly beneficial to himself.

“Dominator of Ten Thousand Laws, I obtained this mineral from a secret realm in the universe. It’s extremely tough. I had several human master artisans try to refine it into a weapon, but they all failed. It’s so hard that it can’t be melted down. Its unbreakable nature alone proves its rarity. It should be enough to exchange for quite a few herbs, right?” said Primordial Supreme, taking out a piece of ore.

“Absolutely,” Ye Tian nodded, though he felt ecstatic inside.

Primordial Supreme didn’t recognize this ore, but Ye Tian did. He had assimilated Hamon’s memories long ago and had obtained a wealth of information from the secret realms of the Hidden God Organization. Thus, he was well-versed in the special and rare materials found in chaos and the universe.

This ore was known as Immortal Divine Gold, possessing an immortal nature and was an incredibly rare innate origin material. Its solid exterior blocked all divine and soul senses, preventing even Supremes from detecting its intrinsic aura, making them think it was just a piece of mineral.

“Immortal Divine Gold is far more precious than Innate Light Source by countless times. It’s a pity I don’t have any great divine abilities compatible with Immortal Divine Gold. Otherwise, I could forge a supreme divine ability more powerful than Eternal Light Divine Ability,” Ye Tian thought.

It could be said that just this piece of Immortal Divine Gold alone was worth all the spirit herbs he had, and even more. But Ye Tian wouldn’t reveal this truth. Otherwise, Primordial Supreme might not sell the Immortal Divine Gold at all.

Of course, Ye Tian still appraised the Immortal Divine Gold highly, making Primordial Supreme very pleased. This way, everyone was happy.

Subsequently, the other Supremes also brought out their treasures. Although none were as precious as Immortal Divine Gold, they were still valuable items, giving Ye Tian considerable gains.

Before adjourning the meeting, Ye Tian reminded, “Supremes, don’t rush into the Misty Region just because I found so many good things there. Honestly, the reason I could find these treasures is due to my life level reaching the seventh stage, granting me some special abilities.”

If one had not reached the seventh stage of life, it was best not to attempt entering the Misty Region. Even in the inner areas of the Misty Region, there were Mist Beasts comparable to second-tier Supremes. The core area was even more terrifying, housing numerous Mist Beasts equivalent to first-tier Supremes, and some far surpassed that level.

Ye Tian continued, “It can be said that even the Supremes from the Twelve Cosmic Eras would face death if they entered the Misty Region and were too slow to escape!”

Kunwu Supreme quickly assured him, “Dominator of Ten Thousand Laws, rest assured, we will not enter the Misty Region!”

The other Supremes also promised one by one. Even those who initially wanted to try their luck extinguished the thought after hearing Ye Tian’s words. The presence of beings surpassing first-tier Supremes in the Misty Region was enough to annihilate them with a mere glance.

After the Supremes left, Ye Tian returned to Tian Pavilion for seclusion.

At Tian Pavilion, Ye Tian first stored the traded resources into the pavilion's treasury. He then gave some cultivation resources to his wife Xiao Yue and his sister Ye Yu before truly entering seclusion. This time, he intended to elevate the Chaos Golden Desolation Technique to the eighth-layer perfected realm.

Time passed slowly, and in the blink of an eye, 300 years had gone by.

In the secluded chamber, several spirit herbs floated around Ye Tian. With each breath he took, the herbs lost their potency and turned to ashes. Meanwhile, Ye Tian's body continuously strengthened, pushing its limits to an unimaginable degree.

A loud boom signaled Ye Tian's complete transformation. He had successfully cultivated the Chaos Golden Desolation Technique to the eighth-layer perfected realm, pushing his physical strength to its peak, with no further progress possible.

"My physical body is enough to sweep across the universe!" Ye Tian murmured.

His strength had significantly improved, nearly reaching the peak of the fourth-tier Supreme, just one step away from entering the ranks of third-tier Supremes.

Had he chosen to break through to the Heavenly Venerable realm at that moment, he might directly leap into several tiers of Supremes, but he wasn't certain how many.

The transition from Dominator to Heavenly Venerable was a monumental breakthrough. The deeper the accumulation, the greater the increase in strength after the breakthrough.

Previously, Ye Tian might have chosen to break through immediately, but with Hamon's memories and the inheritance from the Hidden God Organization, Ye Tian was well aware of the differences between Earthly Venerables in chaos and Supremes. In chaos, some powerful Earthly Venerables far surpassed their peers, even rivaling Destiny Realm experts. Though this was due to countless ages of accumulation and many top-tier divine abilities, they also had an advantage others did not: a semi-chaotic life body.

Destiny Realm experts were chaotic beings. However, if an Earthly Venerable chose to break through in a place saturated with chaotic yuan qi and containing a trace of chaotic origin aura, it was highly possible to form a semi-chaotic life body, granting their physical body an immense boost.

Ye Tian didn't know this before, but now that he did, he naturally wanted to attempt forming a semi-chaotic life body when he broke through to the Heavenly Venerable realm.

"The universe isn't like chaos. Such places are abundant in chaos but extremely rare in the universe," Ye Tian murmured.

Rare did not mean nonexistent. Since the universe was part of chaos, such places theoretically existed.

Ye Tian then began gathering information, focusing on locations likely to contain chaotic origin aura. Even if the information was incorrect, he would merely make a fruitless trip.

A hundred years later, Ye Tian identified three potential locations matching his criteria. He needed to personally verify whether they were indeed what he sought.

One day, Ye Tian left the human territory.

Chapter 790: The Chaos Ancient Well of the Immortal Race

There existed a place in the universe called the Xuanyun Sea, the territory of the Xuanyuan Race.

However, the Xuanyuan Race was just an ordinary major cosmic race, currently boasting only six Supremes and merely thirteen Heavenly Venerables, far inferior to the Human Race.

Yet, the Xuanyuan Race lived quite comfortably, as they excelled in formations. They had almost transformed the Xuanyuan Race's star field into a forbidden area. Even Supremes from other cosmic families dared not set foot in their territory, and any Heavenly Venerable with hostile intentions would surely meet their end.

Because of this, the Xuanyuan Race remained highly mysterious to the outside world, and no other cosmic family dared to target them.

On this day, a figure appeared outside the Xuanyuan Race's territory. It was Ye Tian.

His target this time was the Xuanyun Sea.

“The Xuanyun Sea... It’s said to contain a large amount of pure Chaos Yuan Qi. Throughout history, the Xuanyuan Race has produced several geniuses who specialized in cultivating the Chaos Dao. Unfortunately, none of them made significant progress to reach the Supreme level.”

“The Xuanyun Sea might meet my requirements for breaking through to a Half-Step Chaos Life Body. If that’s the case, I can negotiate with the Xuanyuan Race to use their Xuanyun Sea!” Ye Tian murmured to himself.

Under normal circumstances, outsiders seeking to enter the Xuanyuan Race would be denied entry. However, if it was merely a visit, the Xuanyuan Race wouldn’t outright refuse, as there were no conflicting interests between the distant Human Race and the Xuanyuan Race.

Moreover, Ye Tian was currently just a Dominator, so the Xuanyuan Race had no reason to fear him.

“Dominator of Ten Thousand Laws from the Human Race, here to visit the Xuanyuan Race!”

Ye Tian’s voice reached the protective formation of the Xuanyuan Race, naturally heard by the Heavenly Venerables monitoring it.

A ripple, and a Heavenly Venerable of the Xuanyuan Race appeared.

“So, it’s the Dominator of Ten Thousand Laws. What brings you to the Xuanyuan Race?” The Xuanyuan Race’s Heavenly Venerable inquired.

Ye Tian recognized this Heavenly Venerable and smiled. “Heavenly Venerable Zishan, I am traveling the universe and happened to come here. I’ve heard that the Xuanyun Sea of the Xuanyuan Race is a chaotic treasure land. As I cultivate the Chaos Dao, I wish to observe the Xuanyun Sea and perhaps gain some insights. May I have the privilege?”

“This...” Heavenly Venerable Zishan frowned slightly.

If it were anyone else, he would have directly refused, but Ye Tian was not an ordinary person. He was the number one genius in the universe, even though he was at the peak of Dominator level, his combat power might surpass Zishan's.

Such a prominent figure, if he became a Supreme, would at least be on par with the First Divine Lord, possibly even surpassing him, comparable to the Master of the Primordial Era.

Thus, Zishan did not dare to offend Ye Tian.

“Dominator of Ten Thousand Laws, let me report to the Supremes of our clan. Please wait a moment.” Heavenly Venerable Zishan apologized.

“Of course.” Ye Tian nodded.

Soon, Heavenly Venerable Zishan received a response from the clan's Supremes.

“Dominator of Ten Thousand Laws, our Supremes have agreed to let you observe the Xuanyun Sea, but your time there is limited to ten days at most. Additionally, I must accompany you. I hope you understand our clan's rules.” Heavenly Venerable Zishan stated.

“No problem at all.”

Ye Tian was not upset. He was quite surprised that the Xuanyuan Race would allow him ten days in their territory. In fact, he didn't need that much time; a few hours would suffice.

“Dominator of Ten Thousand Laws, please enter!”

Heavenly Venerable Zishan opened a small gate in the protective formation and invited Ye Tian in.

“Thank you!” Ye Tian followed Heavenly Venerable Zishan and officially stepped into the star field of the Xuanyuan Race, heading towards the Xuanyun Sea.

Before long, they arrived at the Xuanyun Sea.

The Xuanyun Sea was practically considered a sacred land of the Xuanyuan Race, where many of its geniuses and powerhouses above the level of Universal God cultivated.

Ye Tian's and Heavenly Venerable Zishan's arrival attracted the attention of many Xuanyuan Race members.

“An outsider!”

Ye Tian was recognized.

Many were curious about Ye Tian's identity, as it was rare for an outsider to reach the Xuanyun Sea.

“Dominator of Ten Thousand Laws, this is our Xuanyuan Race's Xuanyun Sea,” said Heavenly Venerable Zishan.

“Truly marvelous!” Ye Tian remarked after a glance.

He then used a secret technique to probe the concentration of Chaos Yuan Qi and the presence of Chaos Origin Qi in the Xuanyun Sea, but unfortunately, he found none.

“Alas, the concentration of Chaos Yuan Qi here is still lacking. Although it's a treasured place, it doesn't meet my requirements to condense a Half-Step Chaos Life Body,” Ye Tian sighed to himself.

Nevertheless, even though the place didn't help him, he couldn't just leave immediately, as it would be too suspicious.

Thus, Ye Tian stayed for ten days, mainly wandering around.

Soon, many geniuses of the Xuanyuan Race learned that the universe's number one genius had arrived and wanted to challenge Ye Tian. However, they were reprimanded by the Heavenly Venerables of the Xuanyuan Race.

After ten days, Ye Tian left the Xuanyuan Race.

Following Ye Tian's departure, a person appeared beside Heavenly Venerable Zishan. It was one of the Supremes of the Xuanyuan Race—Supreme Half Moon.

“Heavenly Venerable Zishan, what do you think the purpose of the Dominator of Ten Thousand Laws visiting our Xuanyuan Race is?” asked Supreme Half Moon.

“He certainly didn't come just to observe the Xuanyun Sea. Perhaps he was looking for an opportunity, but it seems he didn't find what he was looking for,” guessed Heavenly Venerable Zishan.

“Indeed, the Dominator of Ten Thousand Laws is very mysterious and has high achievements in the Chaos Dao. Unfortunately, he is not from our Xuanyuan Race,” Supreme Half Moon sighed.

After leaving the Xuanyuan Race, Ye Tian went to a second location, one of the ten forbidden areas in the universe—the Chaos Demon Abyss.

The Chaos Demon Abyss was filled with Chaos Yuan Qi and a terrifying demonic aura, making it extremely dangerous. Even Supremes could fall there. Ye Tian dared to venture into this forbidden area only because he possessed the Life Heavenly Eye.

Even so, Ye Tian found himself in a very precarious situation in the Chaos Demon Abyss. Ultimately, he confirmed that the Chaos Demon Abyss was not the treasure land he sought; it was more like a death trap.

“Only one place remains. If I don't have to, I really don't want to go there,” Ye Tian murmured.

This place was called The Chaos Ancient Well, the largest Chaos Ancient Well in the universe.

Occasionally, Chaos Ancient Wells would form in the universe, containing vast amounts of Chaos Yuan Qi and producing various treasures, akin to a world of their own.

Whenever high-level Chaos Ancient Wells appeared, they would incite fierce battles among powerful Supremes. Even Kunwu Supreme and others had fought over high-level Chaos Ancient Wells to seize resources.

There was once a Chaos Ancient Well on Earth within the Origin Realm, but that Origin Realm was forcibly opened and had a limited lifespan. After one use, it shattered completely.

At that time, Ye Tian saw that Chaos Ancient Well. Even though it was just the lowest-level incomplete Chaos Ancient Well, he didn't dare enter it, knowing he would die.

The Immortal Race also occupied a grand Origin Realm with the largest Chaos Ancient Well, continuously nurturing numerous Children of the Universe.

Back then, to seize that Origin Realm and its Chaos Ancient Well, the Immortal Race fought fiercely with several cosmic races and super races, including the Demon Race, resulting in the death of many Supremes before they secured it.

Thus, approaching that Chaos Ancient Well was extremely difficult, let alone entering it.

“The Chaos Yuan Qi inside the Chaos Ancient Well is immensely dense, even more so than outside, making it the most likely place to form Chaos Origin Qi. Unfortunately, the Immortal Race controls that Origin Realm and the Chaos Ancient Well. To enter, I must gain their approval,” Ye Tian frowned.

He pondered how to negotiate with the Immortal Race to allow him access to the Chaos Ancient Well.

“Perhaps I should try that method,” Ye Tian thought of a plan.
