

I CAN COPY TALENT

Chapter 10

“Is the news true?”

Ye Tian asked.

“Really!” Zhang Bao affirmed, “We looked at it from a distance before, the students of the First Academy joined forces to deal with a 10-meter-long spotted snake, but unfortunately failed, and now there must be more students to besiege that spotted snake!” ”

“Which direction?” Ye Tian asked.

“To the southeast!” Zhang Bao pointed in one direction.

Swish!

Ye Tian ran away quickly, and soon disappeared without a trace.

At this time, Zhang Bao looked at Ye Tian’s disappearing back and sighed, “Originally, I thought Ye Tian was similar to my strength, but I didn’t expect him to hide so deeply, with Ye Tian’s talent, it is certain that he will become a martial artist in the future, maybe there is hope of stepping into the elite martial artist.” ”

It is false to say that he is not envious, but envy is useless, this is an era of talent, he only has inferior talent, and he can only reach the beginning of the warrior after a lifetime.

“Let’s go, let’s go back!”

Zhang Bao said helplessly.

“Go back? Don’t hunt beasts anymore? One practitioner was not willing.

“Don’t hunt and kill, even if our strength is united, there is no hope of obtaining the blood of the fierce beasts, in fact, I should have thought of it earlier, the so-called trial is just a chance for the top students of the five colleges, they just want to create some martial artists as soon as possible, as for the lives of our weak little martial artists, do you think those big people will care?” No matter how many martial artists die, they will not be distressed! Zhang Bao smiled bitterly.

None of the other students spoke, apparently acquiescing.

The world is cruel, and for the warriors, the lives of ordinary people and warriors are really nothing.

This trial is said to be a trial for all apprentices, but in fact it is a trial for those top apprentices, or a trial.

Seven or eight people walked lonely toward the outside of the Ono area, and their heads did not return.

.....

After running some distance, Ye Tian stopped.

Nowadays, he carries a lot of things on his body, these things are not very heavy, but they affect the battle, he can’t always carry these materials to fight.

Normally, there are two ways, one is to go back to the valley entrance and exchange these materials for points, but then it is too delayed.

The second way is to hide the material and take it out when it returns.

“Bury it first!”

Ye Tian quickly dug a pit in the ground, buried all the materials, and then did some covering.

The Ono area is large, the chance of being discovered by others is too low and too low, and the average beast will not be interested in these materials.

Everything was ready, and Ye Tian accelerated towards the southeast.

Rumble!!!

In the distance, the sound of the battle came, and from the sound alone you knew how fierce the battle was.

“Could it be that the pseudo-fierce beast snake has been besieged again?”

Ye Tian guessed.

Although the pseudo-fierce beasts were powerful, this time there were also many strong martial arts at the peak, and if they really fought, this pseudo-fierce beast would not be enough for these practitioners to surround and kill.

“Hope to get by!”

Ye Tian secretly looked forward to it.

Thirty seconds later, Ye Tian arrived, but the situation was different from what he expected.

“This is...”

Ye Tian’s pupils narrowed.

In the middle of the field, a dozen or so martial artists were besieging an injured spotted snake, which was not ten meters as Zhang Bao had said before, but had reached the level of twelve meters.

“Ferocious beast, this spotted snake has reached the level of a fierce beast, but it is the weakest type of fierce beast!”

Ye Tian judged.

The fierce beast is not divided according to the size of the strength, this spotted snake is also a very large category among the fierce beasts, but the means are single, the strength is not very large, and the strength is even weaker than the average fierce beast.

But how could this spotted snake become a fierce beast?

Not only Ye Tian was strange, but the other students were also very strange.

But at this time, no one thought too much, because what they wanted most was to hunt this fierce beast spotted snake.

The pseudo-ferocious beast snake is only worth 500 points, but the fierce beast snake is different, at least worth 1000 points!

Moreover, this is a fierce beast, once hunted and killed, the blood of the fierce beast in the body is enough for many practitioners to absorb and refine.

It can be said that this fierce beast spotted snake is full of treasures!

Fortunately, this spotted snake had just advanced to the rank of fierce beast, and its strength was not much stronger than the peak of the martial arts, otherwise, these martial arts practitioners would not dare to besiege a fierce beast.

But even so, the apprentices kept getting injured and withdrew from the battle one by one.

Ye Tian didn't shoot, and kept secretly observing.

About ten minutes had passed, and there were only five apprentices left in the field, and these five apprentices were the five genius students of the First Academy with medium cultivation talents, but they were also covered in color, and they were not lightly injured.

But the more serious injury was the fierce beast spotted snake, which had been shot with a lot of arrows, knife wounds and sword wounds, and even a sword mark on the center of the eyebrow, which was very miserable.

Abrupt.

The fierce beast spotted snake activated the power of the blood vein, prompting the huge tail to sweep it fiercely, and the five apprentices flew out at once.

The next moment, the fierce beast Spotted Snake fled into the distance.

The fierce beast that had stimulated the blood vein already possessed the speed of a normal fierce beast, and unless it was a warrior, it could not catch up with this fierce beast at all.

The apprentices tried to catch up, but found that they were far from catching up.

“Damn, let this beast run again, everyone chases, this beast is very badly injured, can’t run too far!”

Mo Shaobei said angrily.

However, what everyone didn’t know was that there was a figure secretly chasing after it.

“Haha, God help me, after I activate my speed talent, it is enough to catch up with this fierce beast spotted snake.”

Ye Tian said excitedly.

Following the fierce beast spotted snake all the way, after seven turns and eight turns, the fierce beast spotted snake dragged its seriously injured body into a cave.

Ye Tian hesitated for a moment and entered the cave.

At his speed, even if he encounters some danger, it is enough to retreat.

The cave is deep and stretches all the way down.

I don't know how long it took, Ye Tian finally came to a cave, and the fierce beast snake was also here.

However, at this time, the fierce beast spotted snake was already dying, but it was still crawling towards the cave.

Without saying a word, Ye Tian exerted his speed talent, holding a fine iron knife and slicing at the body of the fierce beast spotted snake.

Although his strength was weak, he quickly killed the fierce beast Spotted Snake.

"Collect the blood of the beast!"

Ye Tian did not forget this important thing.

He quickly took out the kettle around his waist, and stabbed open the heart of the fierce beast spotted snake, and the fierce beast's painstaking efforts flowed into the kettle little by little.

This fierce beast spot snake had just been promoted to a fierce beast, most of the blood in his body was still the blood of the beast, only the blood in the heart was the blood of the real pure beast, so Ye Tian only collected the heart blood, and there was no need to collect the blood in other places.

Soon, a kettle was filled, and the blood from the heart of the fierce beast snake was exhausted.

"It's equivalent to five shares of low-level fierce beast blood, and this time I have made a lot of money!"

Ye Tian was excited.
